Bachelor of Arts in Art History and Global Cultures

(Program Code: AHGC)

The study of art history equips and empowers students with acute visual literacy, tools for intellectual discovery, and deep understanding and mastery of the political and social significance of art in the global and historical context (including contemporary art and design produced in diverse cultures) through introduction and implementation of research and scholarship.

The BA in Art History & Global Cultures prepares and qualifies students for meaningful and rewarding careers after university, in such areas as gallery and museum occupations, archives and libraries of the visual arts, non-profit arts organizations, governmental and NGO arts funding bodies, arts journalism and communications, advertising and marketing industries, as well as preparing many students for post-graduate study in art history and related fields.
