

# Preliminary Education Specialist Credential: Moderate/Severe Disabilities with EL Authorization

---

## Basic Teaching Credentials

The CSU prepares teachers for positions in California as well as other states. It is in the student's best interest to be knowledgeable about credential or licensure requirements of the state in which they intend to teach.

The Preliminary Education Specialist credential with an authorization in Extensive Support Needs (ESN) is intended to better prepare teachers to serve students across a range of disabilities. The program at CSUSB is accredited by the California Commission on Teacher Credentialing (CTC) and requires early fieldwork and supervised clinical practice for a total of 600 hours in school settings within San Bernardino and Riverside counties. Field work experiences totaling 200 hours are embedded in the credential coursework and practicum. Supervised clinical practice totaling 400 hours is completed in schools within partnering districts in San Bernardino and Riverside counties supervised jointly by a district employed cooperating teacher and university employed supervisor. Supervision by the university is an in-person learning experience. The program also meets state standards authorizing instruction to English learners to develop English language skills including reading.

Extensive Support Needs include providing specially designed instruction to access grade level California Content Standards in the Least Restrictive Environment. The education specialist provides intensive instruction and supports in two or more of the following domains: academics, communication, gross/fine motor, social-emotional, behavioral, vocational and adaptive/daily living skills. The supports also often include health, movement and sensory support. Extensive Support Needs practices include lower student to educator ratio.

The Education Specialist Instruction Credential: Extensive Support Needs authorizes the holder to conduct educational assessments related to students' access to the academic curriculum and progress towards meeting instructional goals, provide instruction, and special education support to students with extensive support needs related to one or more of the following disabilities: autism, deafblind, emotional disturbance, intellectual disability, multiple disabilities, orthopedic impairment, other health impairment, specific learning disability, and traumatic brain injury; in kindergarten, including transitional kindergarten, grades 1-12 through age 22, and classes organized primarily for adults in services across the continuum of program options available.

## Admission to the Program

Applicants must apply to the program at Cal State Apply (<https://www.calstate.edu/apply> (<https://www.calstate.edu/apply/>)) to be considered for admission to the Preliminary Education Specialist Credential Program in Extensive Support Needs.
