5. A written personal narrative to be reviewed and approved by the Special Education Program Coordinator;
6. Verification of a negative tuberculin examination within the last four years;
7. Academic achievement, verified through official transcripts from ALL institutions of higher education attended. Applicants must possess a minimum undergraduate grade point average of at least 2.67 in all baccalaureate and postbaccalaureate course work or at least 2.75 in the last 60 semester or 90 quarter units attempted;
8. Documentation of 45 hours of experience in K-12 classrooms;
9. Submission of an application for a certificate of clearance or evidence of a credential or permit authorizing public school teaching in California;
10. Verification of attendance at a Special Education Information Session;
11. Satisfactory completion of prerequisite courses with a grade of "B" or better:

ESPE 5530	Introduction to Special Education	3
ESPE 5531	Methods and Procedures in Special Education	3

Upon admission to the university and the Preliminary Education Specialist Credential Program, all candidates must attend the mandatory New Student Orientation. At this session, candidates will receive a program handbook and will be advised on completing an approved Coursework Plan.

Eligibility for the Internship Program (9 units)

In addition to meeting the general requirements for admission to the university and the Special Education Credential program, eligibility for the Internship program requires the following:

1. Submission of application for the Internship Education Specialist Credential: Mild to Moderate Support Needs;
2. Satisfactory completion of program prerequisite/pre-service coursework requirements with a grade of "B-" or better unless otherwise specified:

ESPE 5530	Introduction to Special Education	3
ESPE 5531	Methods and Procedures in Special Education	3
ESPE 5532	Language Development in Diverse Learners	3

Note: These courses may be included in Internship Program Requirements if pre-service requirements are met through possession

of valid California Multiple Subjects or Single Subject Teaching credential.

3. Preparation to teach English learners must be verified by one of the following:
 - a. Pre-service EL coursework/instruction;
 - b. Valid California Credential with EL Authorization;
 - c. CLAD/BCLAD Certification;
 - d. Interview by university/school district representatives at the discretion of the Intern Program Coordinator.

Recommendation for the Internship Education Specialist Credential: Mild to Moderate Support Needs:

In addition to classified program admission and successful verification of eligibility for the internship program, the candidate must successfully complete the following requirements in order to be recommended for the Internship Education Specialist Credential in Mild to Moderate Support Needs:

1. Employment in settings appropriate for the Education Specialist credential with the authorization in Mild to Moderate Support Needs in a participating school district, verified by a copy of the contract indicating the beginning date of employment as an intern (Month/Day/Year) with the authorized signature as designated by the school district personnel office. The recommended credential issuance date will be the date the employing school district specifies on this contract as the beginning date of service;
2. Application for On-line Recommendation submitted to Credential Processing in the College of Education Student Services;
3. Completion of the U.S. Constitution requirement by one of the following:

HIST 1460	History of the United States: Pre-Colonization to Present	3
HIST 2000	United States History to 1877	3
HIST 5400	Constitutional History of the United States	3
PSCI 2030	Government of the United States	3
PSCI 4100	American Constitutional Law	3
PSCI 4110	The Bill of Rights	3

Successful completion of an examination administered through the College of Extended Learning;

Approved U.S. Constitution course substitution at another university.

Recommendation for the Preliminary Education Specialist Credential: Mild to Moderate Support Needs

In addition to credential and degree course work, candidates must successfully complete the following exit requirements to be recommended for the Preliminary Education Specialist Credential: Mild to Moderate Support Needs:

1. A grade point average of 3.0 ("B") in professional education course work, with no course grade lower than a "B-";
2. Completion of the upper-division writing requirement;
3. Application for On-line Recommendation submitted to Credential Processing in the College of Education Student Services.

Credential Requirements (47 units)

All requirements must be met within the term of the internship credential (two years). Completion of the following courses with a grade point average of 3.0 or better with no grade lower than a "B-:"

ESPE 6631	Assessment for Planning and Instruction	3
ESPE 6633	Methods to Support Inclusive Learning	3
ESPE 6634	Practicum: Methods to Support Inclusive Learning	1
ESPE 6632	Supportive Learning Environments	3
ESPE 6635	Seminar in Literacy Learning for K-12 Students with Special Needs	3
ESPE 6636	Practicum: Seminar in Literacy Learning for K-12 Students with Special Needs	1
ESPE 6639	Collaboration and Consultation in Special Education	3
ESPE 6642	Methods for Students with Mild to Moderate Support Needs I	3
ESPE 6643	Methods for Students with Mild to Moderate Support Needs II	3
ESPE 6622	Supervised Intern Teaching in Special Education: Mild to Moderate Support Needs	24
Total Units		47

Internship Education Specialist Credential: Moderate/Severe Disabilities with EL Authorization

Basic Teaching Credentials

The CSU prepares teachers for positions in California as well as other states. It is in the student's best interest to be knowledgeable about credential or licensure requirements of the state in which they intend to teach.

The Preliminary Education Specialist credential with an authorization in Extensive Support Needs (ESN) is intended to prepare teachers to serve students across a range of disabilities. The program at CSUSB is accredited by the California Commission on Teacher Credentialing (CTC). The Extensive Support Needs Intern Program is an alternative certification program in which interns are employed full-time as Special Education teachers while earning the Preliminary Education Specialist Credential for Extensive Support Needs. All requirements must be completed in two years.

Supervised internship fieldwork and clinical practice is completed in the district of employment within San Bernardino and Riverside counties. The intern is supervised jointly by a district employed mentor teacher and university employed supervisor. Supervision by the university is an in-person learning experience. The program also meets state standards authorizing instruction to English learners to develop English language skills including reading.

Extensive Support Needs include providing specially designed instruction to access grade level California Content Standards in the Least Restrictive Environment. The education specialist provides intensive instruction and supports in two or more of the following domains:

academics, communication, gross/fine motor, social-emotional, behavioral, vocational and adaptive/daily living skills. The supports also often include health, movement and sensory support. Extensive Support Needs practices include lower student to educator ratio.

The Education Specialist Instruction Credential: Extensive Support Needs authorizes the holder to conduct educational assessments related to students' access to the academic curriculum and progress towards meeting instructional goals, provide instruction, and special education support to students with extensive support needs related to one or more of the following disabilities: autism, deafblind, emotional disturbance, intellectual disability, multiple disabilities, orthopedic impairment, other health impairment, specific learning disability, and traumatic brain injury; in kindergarten, including transitional kindergarten, grades 1-12 through age 22, and classes organized primarily for adults in services across the continuum of program options available.

Admission to the Program

Applicants must apply to the program at Cal State Apply (<https://www.calstate.edu/apply>) (<https://www.calstate.edu/apply/>) to be considered for admission to the Preliminary Education Specialist Credential Program in Extensive Support Needs. Applicants must meet BOTH the general requirements of the university for post baccalaureate admission and the program requirements in order to be admitted to the university and classified as a credential candidate. In preparation for admission to the basic credential program, applicants must review the Special Education Credential Program Admission Booklet which can be downloaded from the Special Education Program web pages on the CSUSB website at: CSU Special Education Programs website (http://www.csusb.edu/coe/programs/special_ed/) and attend a mandatory Information Session scheduled through Teacher Education in the College of Education Student Services at either the San Bernardino or Palm Desert campus. At this session, applicants will receive instructions for completing their application to CalState Apply. Applicants must submit to the Admissions staff in the College of Education Student Services according to the deadlines published for the semester of admission. Admission to the program is based on the following requirements included in the Cal State Apply application:

1. Completion of an application form;
2. Original verification of meeting the basic skills requirement by one of the following methods:
 - a. Pass the California Basic Educational Skills Test (CBEST);
 - b. Pass the California Subject Examinations for Teachers (CSET) Multiple Subjects Plus Writing Skills examination;
 - c. Pass the CSU Early Assessment Program or the CSU Placement Examination;
 - d. Achieve qualifying score on the SAT or ACT;
 - e. College Board Advanced Placement (AP) Examinations;
 - f. Pass basic skills examination from another state;
 - g. Meet the basic skills requirement by coursework;
 - h. Meet the basic skills requirement by coursework and exam.
3. Original verification of subject matter knowledge by one of the following:
 - a. passage of CSET examination(s) as appropriate for the multiple subject credential, or for the single subject credential in the areas of art, English, foreign language, mathematics including foundational-level mathematics, music, social science, or science including foundational-level general science and specialized science; or

- b. by completion of a subject matter program as appropriate for the multiple subject credential, or for the single subject credential in the areas of art, English, foreign language, mathematics including foundational-level mathematics, music, social science, or science including foundational-level general science and specialized science;
 - c. verification of holding a valid California clear, professional clear, preliminary, Level I, or life teaching credential requiring a baccalaureate or higher degree, verification of subject-matter competence, and a program of professional preparation, including student teaching.
4. All applicants are required to enter two names and emails addresses of persons who can address scholastic performance and suitability for teaching (recommendations are required to be submitted by the program deadline date, letters of recommendation will not be accepted);
 5. A written personal narrative to be reviewed and approved by the Special Education Program Coordinator;
 6. Verification of a negative tuberculin examination within the last four years;
 7. Academic achievement, verified through official transcripts from ALL institutions of higher education attended. Applicants must possess a minimum undergraduate grade point average of at least 2.67 in all baccalaureate and postbaccalaureate course work or at least 2.75 in the last 60 semester or 90 quarter units attempted;
 8. Documentation of 45 hours of experience in K-12 classrooms;
 9. Submission of an application for a certificate of clearance or evidence of a credential or permit authorizing public school teaching in California;
 10. Verification of attendance at a Special Education Information Session;
 11. Satisfactory completion of prerequisite courses with a grade of "B" or better:

ESPE 5530	Introduction to Special Education	3
ESPE 5531	Methods and Procedures in Special Education	3

Upon admission to the university and the Preliminary Education Specialist Credential Program, all candidates must attend the mandatory New Student Orientation. At this session, candidates will receive a program handbook and will be advised on completing an approved Coursework Plan.

Eligibility for the Internship Program (9 units)

In addition to meeting the general requirements for admission to the university and the Special Education Credential program, eligibility for the Internship program requires the following:

1. Submission of application for the Internship Education Specialist Credential: Moderate/Severe Disabilities;
 2. Satisfactory completion of prerequisite/pre-service coursework requirements with a grade of "B-" or better unless otherwise specified:
- | | | |
|-----------|---|---|
| ESPE 5530 | Introduction to Special Education | 3 |
| ESPE 5531 | Methods and Procedures in Special Education | 3 |
| ESPE 5532 | Language Development in Diverse Learners | 3 |

Note: These courses may be included in Internship Program Requirements if pre-service requirements are met through possession

of valid California Multiple Subjects or Single Subject Teaching credential.

3. Preparation to teach English learners must be verified by one of the following:
 - a. Pre-service EL coursework/instruction;
 - b. Valid California Credential with EL Authorization;
 - c. CLAD/BCLAD Certification;
4. Interview by university/school district representatives at the discretion of the Intern Program Coordinator.

Recommendation for the Internship Education Specialist Credential: Extensive Support Needs

In addition to classified program admission and successful verification of eligibility for the internship program, the candidate must successfully complete the following requirements in order to be recommended for the Internship Education Specialist Credential in Extensive Support Needs:

1. Employment in a setting appropriate for the holder of an Education Specialist credential with an authorization in Extensive Support Needs in a participating school district, verified by a copy of the contract indicating the beginning date of employment as an intern (Month/Day/Year) with the authorized signature as designated by the school district personnel office. The recommended credential issuance date will be the date the employing school district specifies on this contract as the beginning date of service;
2. Application for On-line Recommendation submitted to Credential Processing in the College of Education Student Services;
3. Completion of the U.S. Constitution requirement by one of the following:

HIST 1460	History of the United States: Pre-Colonization to Present	3
HIST 2000	United States History to 1877	3
HIST 5400	Constitutional History of the United States	3
PSCI 2030	Government of the United States	3
PSCI 4100	American Constitutional Law	3
PSCI 4110	The Bill of Rights	3

Successful completion of an examination administered through the College of Extended Learning;

Approved U.S. Constitution course substitution at another university.

Recommendation for the Preliminary Education Specialist Credential: Extensive Support Needs

In addition to credential and degree course work, candidates must successfully complete the following exit requirements to be recommended for the Preliminary Education Specialist Credential: Extensive Support Needs:

1. A grade point average of 3.0 ("B") in professional education course work, with no course grade lower than a "B-";
2. Completion of the upper-division writing requirement;
3. Verification of a passing score on the RICA (Reading Instruction Competence Assessment).

Note: Holders of a valid California teaching credential based on a baccalaureate degree and completion of a teacher education program including student teaching, will be exempt from RICA. Contact the Credentials Office for further information, (909) 537-5609.

4. Application for On-line Recommendation submitted to Credential Processing in the College of Education Student Services.

Credential Requirements (47 units)

All requirements must be met within the term of the internship credential (two years). Completion of the following courses with a grade point average of 3.0 or better with no grade lower than a "B-:"

ESPE 6631	Assessment for Planning and Instruction	3
ESPE 6633	Methods to Support Inclusive Learning	3
ESPE 6634	Practicum: Methods to Support Inclusive Learning	1
ESPE 6632	Supportive Learning Environments	3
ESPE 6635	Seminar in Literacy Learning for K-12 Students with Special Needs	3
ESPE 6636	Practicum: Seminar in Literacy Learning for K-12 Students with Special Needs	1
ESPE 6639	Collaboration and Consultation in Special Education	3
ESPE 6662	Methods for Students with Extensive Support Needs I	3
ESPE 6663	Methods for Students with Extensive Support Needs II	3

Preliminary Education Specialist Credential: Early Childhood Special Education with EL Authorization

Basic Teaching Credentials

The CSU prepares teachers for positions in California as well as other states. It is in the student's best interest to be knowledgeable about credential or licensure requirements of the state in which they intend to teach.

The Preliminary Education Specialist credential with an authorization in Early Childhood Special Education (ECSE) is intended to prepare teachers to serve students across a range of disabilities. The program at CSUSB is accredited by the California Commission on Teacher Credentialing (CTC) and requires early fieldwork and supervised clinical practice for a total of 600 hours in school settings within San Bernardino and Riverside counties. Field work experiences totaling 200 hours are embedded in the credential coursework and practicum. Supervised clinical practice totaling 400 hours is completed in schools within partnering districts in San Bernardino and Riverside counties supervised jointly by a district employed cooperating teacher and university employed supervisor. Supervision by the university is an in-person learning experience. The program also meets state standards authorizing instruction to English learners to develop English language skills including reading.

The Preliminary Education Specialist credential with an authorization in Early Childhood Special Education (ECSE) is intended to better prepare

teachers to serve students across a range of disabilities and extends the authorization to serve learners through kindergarten.

The Education Specialist: Early Childhood Special Education credential authorizes the holder to conduct educational assessments related to students' access to the academic curriculum and progress towards meeting instructional academic goals; and provide instruction and special education support to students from birth through kindergarten who are eligible for early intervention special education and related services related to one or more of the following disabilities: autism, emotional disturbance, intellectual disability, orthopedic impairment, other health impairment, specific learning disability, traumatic brain injury, and multiple disabilities including developmental delay and a disabling medical condition in services across the continuum of program options available.

Admission to the Program

Applicants must apply to the program at Cal State Apply (<https://www.calstate.edu/apply> (<https://www.calstate.edu/apply/>)) to be considered for admission to the Preliminary Education Specialist Credential Program in Early Childhood Special Education. Applicants must meet BOTH the general requirements of the university for post baccalaureate admission and the program requirements in order to be admitted to the university and classified as a credential candidate. In preparation for admission to the basic credential program, applicants must review the Special Education Credential Program Admission Booklet which can be downloaded from the Special Education Program web pages on the CSUSB website at: CSU Special Education Programs website (http://www.csusb.edu/coe/programs/special_ed/) and attend a mandatory Information Session scheduled through Teacher Education in the College of Education Student Services at either the San Bernardino or Palm Desert campus. At this session, applicants will receive instructions for completing their application to CalState Apply. Applicants must submit to the Admissions staff in the College of Education Student Services according to the deadlines published for the semester of admission. Admission to the program is based on the following requirements included in the Cal State Apply application:

1. Completion of an application form;
2. Original verification of meeting the basic skills requirement by one of the following methods:
 - a. Pass the California Basic Educational Skills Test (CBEST);
 - b. Pass the California Subject Examinations for Teachers (CSET) Multiple Subjects Plus Writing Skills examination;
 - c. Pass the CSU Early Assessment Program or the CSU Placement Examination;
 - d. Achieve qualifying score on the SAT or ACT;
 - e. College Board Advanced Placement (AP) Examinations;
 - f. Pass basic skills examination from another state;
 - g. Meet the basic skills requirement by coursework;
 - h. Meet the basic skills requirement by coursework and exam.
3. All applicants are required to enter two names and emails addresses of persons who can address scholastic performance and suitability for teaching (recommendations are required to be submitted by the program deadline date, letters of recommendation will not be accepted);
4. A written personal narrative to be reviewed and approved by the Special Education Program Coordinator;
5. Verification of a negative tuberculin examination within the last four years;

6. Academic achievement, verified through official transcripts from ALL institutions of higher education attended. Applicants must possess a minimum undergraduate grade point average of at least 2.67 in all baccalaureate and postbaccalaureate course work or at least 2.75 in the last 60 semester or 90 quarter units attempted;
7. Documentation of 45 hours of experience in early childhood and special education settings;
8. Submission of an application for a certificate of clearance or evidence of a credential or permit authorizing public school teaching in California;
9. Verification of attendance at a Special Education Information Session;
10. Satisfactory completion of prerequisite courses with a grade of "B" or better **(6 units)**:

ESPE 5530	Introduction to Special Education	3
ESPE 5531	Methods and Procedures in Special Education	3
Total Units		6

Upon admission to the university and the Preliminary Education Specialist Credential Program, all candidates must participate in the mandatory New Student Orientation. At this session, candidates will receive a program handbook and will be advised on completing an approved Coursework Plan.

Admission to Supervised Student Teaching

One semester in advance of the time candidates intend to enroll in supervised student teaching (ESPE 6619), they must submit an application for supervision. This application is due by Friday of the third week of the semester prior to enrolling in supervised student teaching (no applications are accepted in the summer).

Admission to supervised student teaching is based on the following criteria and conditions:

1. Completion of an application form (<http://www.surveygizmo.com/s3/1678079/SPED-Student-Teaching-Fieldwork-Application-Placement-Request/>) submitted online;
2. Verification of an approved Coursework Plan including documentation of approved course substitutions;
3. Verification of complete PAF with official written verification that the applicant has passed the California Basic Educational Skills Test (CBEST);
4. Satisfactory completion of program prerequisites and credential coursework (ESPE 5532, ESPE 6631, ESPE 6632, ESPE 6633, ESPE 6634, ESPE 6637, and ESPE 6638) with a grade point average of 3.0 ("B") and no course grade lower than "B-";
5. Verification of a negative tuberculin examination within the last four years.

All coursework taken at another college and substituted for credential program requirements is subject to approval by the coordinator of the Special Education Program. All course work taken at another institution, or more than seven years ago, is subject to approval by the coordinator of the Special Education Program. No more than 15 semester units of the credential program may be transferred. Student teaching is never transferable.

Student teaching for the credential is a full-time assignment for one semester of ESPE 6619 (concurrent with no more than two required credential courses). No concurrent course work should be taken beyond

the required Preliminary Education Specialist credential courses in Early Childhood Special Education without permission of the program coordinator. Students who fail to complete any required credential program coursework will be dismissed from the program.

Recommendation for the Credential

In addition to the program admission requirements and successful completion of required credential coursework and student teaching, the candidate must successfully complete the following requirements in order to be recommended for the Preliminary Education Specialist Credential in Early Childhood Special Education:

1. Completion of the upper-division writing requirement
2. Completion of the U.S. Constitution requirement by one of the following:
 - a. Approved U.S. Constitution course successfully completed at CSUSB;
 - b. Successful completion of an examination administered through the College of Extended Learning;
 - c. Approved U.S. Constitution course substitution from another university
3. Verification of basic skills requirement;
4. A grade point average of 3.0 ("B") in professional education course work, with no course grade lower than "B-;" no candidate may be recommended for the credential who has received a grade lower than "B-" in professional education course work including prerequisites; in the case of a repeated class, only the highest grade the student has received will be considered for the purpose of this requirement.

Credential Requirements (32 units)

Completion of the following courses with a grade point average of 3.0 or better with no grade lower than a "B-:"

ESPE 5532	Language Development in Diverse Learners	3
ESPE 6631	Assessment for Planning and Instruction	3
ESPE 6633	Methods to Support Inclusive Learning	3
ESPE 6634	Practicum: Methods to Support Inclusive Learning	1
ESPE 6632	Supportive Learning Environments	3
ESPE 6637	Seminar on Language and Literacy in Early Childhood Special Education	3
ESPE 6638	Practicum: Seminar on Language and Literacy in Early Childhood Education	1
ESPE 6639	Collaboration and Consultation in Special Education	3
ESPE 6672	Birth to Age Three Methods in Early Childhood Special Education	3
ESPE 6673	Preschool through Kindergarten Methods in Early Childhood Special Education	3
ESPE 6619	Supervised Student Teaching in Special Education: Early Childhood Special Education	6
Total Units		32

Preliminary Education Specialist Credential: Extensive Support Needs

Basic Teaching Credentials

The CSU prepares teachers for positions in California as well as other states. It is in the student's best interest to be knowledgeable about credential or licensure requirements of the state in which they intend to teach.

The Preliminary Education Specialist credential with an authorization in Extensive Support Needs (ESN) is intended to better prepare teachers to serve students across a range of disabilities. The program at CSUSB is accredited by the California Commission on Teacher Credentialing (CTC) and requires early fieldwork and supervised clinical practice for a total of 600 hours in school settings within San Bernardino and Riverside counties. Field work experiences totaling 200 hours are embedded in the credential coursework and practicum. Supervised clinical practice totaling 400 hours is completed in schools within partnering districts in San Bernardino and Riverside counties supervised jointly by a district employed cooperating teacher and university employed supervisor. Supervision by the university is an in-person learning experience. The program also meets state standards authorizing instruction to English learners to develop English language skills including reading.

Extensive Support Needs include providing specially designed instruction to access grade level California Content Standards in the Least Restrictive Environment. The education specialist provides intensive instruction and supports in two or more of the following domains: academics, communication, gross/fine motor, social-emotional, behavioral, vocational and adaptive/daily living skills. The supports also often include health, movement and sensory support. Extensive Support Needs practices include lower student to educator ratio.

The Education Specialist Instruction Credential: Extensive Support Needs authorizes the holder to conduct educational assessments related to students' access to the academic curriculum and progress towards meeting instructional goals, provide instruction, and special education support to students with extensive support needs related to one or more of the following disabilities: autism, deafblind, emotional disturbance, intellectual disability, multiple disabilities, orthopedic impairment, other health impairment, specific learning disability, and traumatic brain injury; in kindergarten, including transitional kindergarten, grades 1-12 through age 22, and classes organized primarily for adults in services across the continuum of program options available.

Admission to the Program

Applicants must apply to the program at Cal State Apply (<https://www.calstate.edu/apply> (<https://www.calstate.edu/apply/>)) to be considered for admission to the Preliminary Education Specialist Credential Program in Extensive Support Needs. Applicants must meet BOTH the general requirements of the university for post baccalaureate admission and the program requirements in order to be admitted to the university and classified as a credential candidate. In preparation for admission to the basic credential program, applicants must review the Special Education Credential Program Admission Booklet which can be downloaded from the Special Education Program web pages on the CSUSB website at: CSU Special Education Programs website (http://www.csusb.edu/coe/programs/special_ed/) and attend a mandatory

Information Session scheduled through Teacher Education in the College of Education Student Services at either the San Bernardino or Palm Desert campus. At this session, applicants will receive instructions for completing their application to CalState Apply. Applicants must submit to the Admissions staff in the College of Education Student Services according to the deadlines published for the semester of admission. Admission to the program is based on the following requirements included in the Cal State Apply application:

1. Completion of an application form;
2. Original verification of meeting the basic skills requirement by one of the following methods:
 - a. Pass the California Basic Educational Skills Test (CBEST);
 - b. Pass the California Subject Examinations for Teachers (CSET) Multiple Subjects Plus Writing Skills examination;
 - c. Pass the CSU Early Assessment Program or the CSU Placement Examination;
 - d. Achieve qualifying score on the SAT or ACT;
 - e. College Board Advanced Placement (AP) Examinations;
 - f. Pass basic skills examination from another state;
 - g. Meet the basic skills requirement by coursework;
 - h. Meet the basic skills requirement by coursework and exam.
3. Original verification of subject matter knowledge by one of the following:
 - a. passage of CSET examination(s) as appropriate for the multiple subject credential, or for the single subject credential in the areas of art, English, foreign language, mathematics including foundational-level mathematics, music, social science, or science including foundational-level general science and specialized science; or
 - b. by completion of a subject matter program as appropriate for the multiple subject credential, or for the single subject credential in the areas of art, English, foreign language, mathematics including foundational-level mathematics, music, social science, or science including foundational-level general science and specialized science;
 - c. verification of holding a valid California clear, professional clear, preliminary, Level I, or life teaching credential requiring a baccalaureate or higher degree, verification of subject-matter competence, and a program of professional preparation, including student teaching.
4. All applicants are required to enter two names and emails addresses of persons who can address scholastic performance and suitability for teaching (recommendations are required to be submitted by the program deadline date, letters of recommendation will not be accepted);
5. A written personal narrative to be reviewed and approved by the Special Education Program Coordinator;
6. Verification of a negative tuberculin examination within the last four years;
7. Academic achievement, verified through official transcripts from ALL institutions of higher education attended. Applicants must possess a minimum undergraduate grade point average of at least 2.67 in all baccalaureate and postbaccalaureate course work or at least 2.75 in the last 60 semester or 90 quarter units attempted;
8. Documentation of 45 hours of experience in K-12 classrooms;
9. Submission of an application for a certificate of clearance or evidence of a credential or permit authorizing public school teaching in California;

10. Verification of attendance at a Special Education Information Session;
11. Satisfactory completion of prerequisite courses with a grade of "B" or better (**6 units**):

ESPE 5530	Introduction to Special Education	3
ESPE 5531	Methods and Procedures in Special Education	3
Total Units		6

Upon admission to the university and the Preliminary Education Specialist Credential Program, all candidates must complete the mandatory New Student Orientation. At this session, candidates will receive a program handbook and will be advised on completing an approved Coursework Plan.

Admission to Supervised Student Teaching

One semester in advance of the time candidates intend to enroll in supervised student teaching (ESPE 6621), the candidate must submit an application for supervision (<http://www.surveygizmo.com/s3/1678079/SPED-Student-Teaching-Fieldwork-Application-Placement-Request/>). This application is due by Friday of the third week of the semester prior to enrolling in supervised student teaching (no applications are accepted in the summer).

Admission to supervised student teaching is based on the following criteria and conditions:

1. Completion of an application form (<http://www.surveygizmo.com/s3/1678079/SPED-Student-Teaching-Fieldwork-Application-Placement-Request/>) submitted online;
2. Verification of an approved Coursework Plan including documentation of approved course substitutions;
3. Verification of completed official written verification that the applicant has passed the California Basic Educational Skills Test (CBEST) and subject matter competency;
4. Satisfactory completion of program prerequisites and credential coursework (ESPE 5532, ESPE 6631, ESPE 6632, ESPE 6633, ESPE 6634, ESPE 6635, and ESPE 6636 with a grade point average of 3.0 ("B") and no course grade lower than "B-;"
5. Verification of a negative tuberculin examination within the last four years.
6. Verification of up to date certificate of clearance.
7. Grade point average of 3.0.

All coursework taken at another college and substituted for credential program requirements is subject to approval by the coordinator of the Special Education Program. All course work taken at another institution, or more than seven years ago, is subject to approval by the coordinator of the Special Education Program. No more than 15 semester units of the credential program may be transferred. Student teaching is never transferable.

Student teaching for the credential is a full-time assignment for one semester of ESPE 6621 (concurrent with no more than two required credential courses). No concurrent course work should be taken beyond the required Preliminary Education Specialist credential courses in Extensive Support Needs without permission of the program coordinator.

Students who fail to complete any required credential program coursework or will be denied continuation in the program.

Recommendation for the Credential

In addition to the program admission requirements and successful completion of required credential coursework and student teaching, the candidate must successfully complete the following requirements in order to be recommended for the Preliminary Education Specialist Credential in Extensive Needs:

1. Completion of the upper-division writing requirement;
2. Completion of the U.S. Constitution requirement by one of the following:
 - Approved U.S. Constitution course successfully completed at CSUSB
 - Successful completion of an examination administered through the College of Extended Learning;
 - Approved U.S. Constitution course substitution from another university;
3. Verification of basic skills and subject matter requirements;
4. Verification of a passing score on the RICA (Reading Instruction Competence Assessment);

Note: Holders of a valid California teaching credential based on a baccalaureate degree and completion of a teacher education program including student teaching, will be exempt from RICA. Call the Credentials Office, (909) 537-5609, for further information.
5. A grade point average of 3.0 ("B") in professional education course work, with no course grade lower than "B-;" no candidate may be recommended for the credential who has received a grade lower than "B-" in professional education course work including prerequisites; in the case of a repeated class, only the highest grade the student has received will be considered for the purpose of this requirement.

Credential Requirements (32 units)

Completion of the following courses with a grade point average of 3.0 or better with no grade lower than a "B-":

ESPE 5532	Language Development in Diverse Learners	3
ESPE 6631	Assessment for Planning and Instruction	3
ESPE 6632	Supportive Learning Environments	3

Preliminary Education Specialist Credential: Mild to Moderate Support Needs

Basic Teaching Credentials

The CSU prepares teachers for positions in California as well as other states. It is in the student's best interest to be knowledgeable about credential or licensure requirements of the state in which they intend to teach.

The Preliminary Education Specialist credential with an authorization in Mild to Moderate Support Needs (MMSN) is intended to better prepare teachers to serve students across a range of disabilities. The program at CSUSB is accredited by the California Commission on Teacher Credentialing (CTC) and requires early fieldwork and supervised clinical practice for a total of 600 hours in school settings within San Bernardino and Riverside counties. Field work experiences totaling 200 hours are embedded in the credential coursework and practicum. Supervised clinical practice totaling 400 hours is completed in schools within partnering districts in San Bernardino and Riverside counties supervised jointly by a district employed cooperating teacher and university employed supervisor. Supervision by the university is an in-person learning experience. The program also meets state standards authorizing instruction to English learners to develop English language skills including reading.

Mild to Moderate Support Needs includes providing specially designed instruction to access grade level California Content Standards in the Least Restrictive Environment. The education specialist provides instruction and supports in one or more of the following domains: academics, communication, gross/fine motor, social-emotional, behavioral, vocational, and learning environment access skills. The supports may also include health, movement and sensory support. Mild to Moderate Support Needs practices may include lower student to educator ratio.

The Education Specialist Instruction Credential: Mild to Moderate Support Needs authorizes the holder to conduct Educational Assessments related to students' access to the academic curriculum and progress towards meeting instructional goals, provide instruction, and Special Education Support to students with mild to moderate support needs related to one or more of the following disabilities: autism, emotional disturbance, intellectual disability, multiple disabilities, orthopedic impairment, other health impairment, specific learning disability, and traumatic brain injury; in kindergarten, including transitional kindergarten, grades 1-12 through age 22, and classes organized primarily for adults in services across the continuum of program options available.

Admission to the Program

Applicants must apply to the program at Cal State Apply (<https://www.calstate.edu/apply> (<https://www.calstate.edu/apply/>)) to be considered for admission to the Preliminary Education Specialist Credential Program in Mild to Moderate Support Needs. Applicants must meet BOTH the general requirements of the university for post baccalaureate admission and the program requirements in order to be admitted to the university and classified as a credential candidate. In preparation for admission to the basic credential program, applicants must review the Special Education Credential Program Admission Booklet which can be downloaded from the Special Education Program web pages on the CSUSB website at: CSU Special Education Programs website (http://www.csusb.edu/coe/programs/special_ed/) and attend a

mandatory Information Session scheduled through Teacher Education in the College of Education Student Services at either the San Bernardino or Palm Desert campus. At this session, applicants will receive instructions for completing their application to CalState Apply. Applicants must submit to the Admissions staff in the College of Education Student Services according to the deadlines published for the semester of admission. Admission to the program is based on the following requirements included in the Cal State Apply application:

1. Completion of an application form;
2. Original verification of meeting the basic skills requirement by one of the following methods:
 - a. Pass the California Basic Educational Skills Test (CBEST);
 - b. Pass the California Subject Examinations for Teachers (CSET) Multiple Subjects Plus Writing Skills examination;
 - c. Pass the CSU Early Assessment Program or the CSU Placement Examination;
 - d. Achieve qualifying score on the SAT or ACT;
 - e. College Board Advanced Placement (AP) Examinations;
 - f. Pass basic skills examination from another state;
 - g. Meet the basic skills requirement by coursework;
 - h. Meet the basic skills requirement by coursework and exam.
3. Original verification of subject matter knowledge by one of the following:
 - a. passage of CSET examination(s) as appropriate for the multiple subject credential, or for the single subject credential in the areas of art, English, foreign language, mathematics including foundational-level mathematics, music, social science, or science including foundational-level general science and specialized science; or
 - b. by completion of a subject matter program as appropriate for the multiple subject credential, or for the single subject credential in the areas of art, English, foreign language, mathematics including foundational-level mathematics, music, social science, or science including foundational-level general science and specialized science;
 - c. verification of holding a valid California clear, professional clear, preliminary, Level I, or life teaching credential requiring a baccalaureate or higher degree, verification of subject-matter competence, and a program of professional preparation, including student teaching.
4. All applicants are required to enter two names and emails addresses of persons who can address scholastic performance and suitability for teaching (recommendations are required to be submitted by the program deadline date, letters of recommendation will not be accepted);
5. A written personal narrative to be reviewed and approved by the Special Education Program Coordinator;
6. Verification of a negative tuberculin examination within the last four years;
7. Academic achievement, verified through official transcripts from ALL institutions of higher education attended. Applicants must possess a minimum undergraduate grade point average of at least 2.67 in all baccalaureate and postbaccalaureate course work or at least 2.75 in the last 60 semester or 90 quarter units attempted;
8. Documentation of 45 hours of experience in K-12 classrooms;
9. Submission of an application for a certificate of clearance or evidence of a credential or permit authorizing public school teaching in California;

10. Verification of attendance at a Special Education Information Session;
11. Satisfactory completion of prerequisite courses with a grade of "B" or better (**6 units**):

1. ESPE 5530	Introduction to Special Education	3
ESPE 5531	Methods and Procedures in Special Education	3

Upon admission to the university and the Preliminary Education Specialist Credential Program, all candidates must participate in the mandatory New Student Orientation. At this session, candidates will receive a program handbook and will be advised on completing an approved Coursework Plan.

Admission to Supervised Student Teaching

One semester in advance of the time candidates intend to enroll in supervised student teaching (ESPE 6620), candidates are required to submit an application for supervision. This application is due by Friday of the third week of the semester prior to enrolling in supervised student teaching (no applications are accepted in the summer).

Admission to supervised student teaching is based on the following criteria and conditions:

1. Completion of an application form (<http://www.surveymzmo.com/s3/1678079/SPED-Student-Teaching-Fieldwork-Application-Placement-Request/>) submitted online;
2. Verification of an approved Coursework Plan including documentation of approved course substitutions;
3. Verification of complete PAF with official written verification that the applicant has passed the California Basic Educational Skills Test (CBEST) and subject matter competency;
4. Satisfactory completion of program prerequisites and credential coursework (ESPE 6609, ESPE 6610, ESPE 6611, ESPE 6612, ESPE 6613, ESPE 6614, and ESPE 5514) with a grade point average of 3.0 ("B") and no course grade lower than "B-";
5. Verification of a negative tuberculin examination within the last four years.

All coursework taken at another college and substituted for credential program requirements is subject to approval by the coordinator of the Special Education Program. All course work taken at another institution, or more than seven years ago, is subject to approval by the coordinator of the Special Education Program. No more than 15 semester units of the credential program may be transferred. Student teaching is never transferable.

Student teaching for the credential is a full-time assignment for one semester of ESPE 6620 (concurrent with no more than two required credential courses). No concurrent course work should be taken beyond the required Preliminary Education Specialist credential courses in mild/moderate disabilities without permission of the program coordinator. Students who fail to complete any required credential program coursework will be denied continuation in the program.

Recommendation for the Credential

In addition to the program admission requirements and successful completion of required credential coursework and student teaching, the candidate must successfully complete the following requirements in order

to be recommended for the Preliminary Education Specialist Credential in Mild/Moderate Disabilities:

1. Completion of the upper-division writing requirement
2. Completion of the U.S. Constitution requirement by one of the following:
Approved U.S. Constitution course successfully completed at CSUSB
Successful completion of an examination administered through the College of Extended Learning;
Approved U.S. Constitution course substitution from another university;
3. Verification that basic skills requirement and subject matter knowledge requirements have been fully met;
4. Verification of a passing score on the RICA (Reading Instruction Competence Assessment);
Note: Holders of a valid California teaching credential based on a baccalaureate degree and completion of a teacher education program including student teaching, will be exempt from RICA. Call the Credentials Office, (909) 537-5609, for further information.
5. A grade point average of 3.0 ("B") in professional education course work, with no course grade lower than "B-;" no candidate may be recommended for the credential who has received a grade lower than "B-" in professional education course work including prerequisites; in the case of a repeated class, only the highest grade the student has received will be considered for the purpose of this requirement.

Credential Requirements (32 units)

Completion of the following courses with a grade point average of 3.0 or better with no grade lower than a "B-:"

ESPE 5532	Language Development in Diverse Learners	3

Pupil Personnel Services Credential: School Psychology

The School Psychology program at California State University, San Bernardino provides professional preparation for the Pupil Personnel Services Credential with Specialization in School Psychology. This program is designed to meet the requirements for the Pupil Personnel Services Credential in School Psychology (PPS) established by the California Commission on Teacher Credentialing (CCTC).

The School Psychologist Credential program is 63 semester units of training. Equivalent coursework will be evaluated to determine appropriate substitutions for program coursework requirements. Included in this sequence are 1200 hours of supervised fieldwork/internship in a school setting (K-12). Students must have evidence of completing 450 clock hours of practica prior to beginning 1200 hours of supervised fieldwork/internship.

Admission to the Program

In addition to the general requirements of the university, specific requirements for admission to the PPS in School Psychology are:

1. Admission and acceptance to CSU, San Bernardino;
2. Current sealed transcript which verifies an M.A., M.S. or Ph.D. in Counseling or a related field;
3. Application and personal statement;
4. Two reference forms and letters of recommendation from persons having knowledge of the applicant's potential as a school psychologist, sent independently to the program coordinator;
5. Proof of passing the California Basic Educational Skills Test (CBEST);
6. Evidence of possession of a valid California teaching credential, PPS in School Counseling, or a Certificate of Clearance for eligibility to participate in fieldwork;
7. Evidence of current negative TB test.

Total Units		63

Recommendation for the Credential

In order to be recommended for a credential, a student must have:

1. Completed all prescribed coursework with a GPA of "B" (3.0) or better;
2. Completed all requirements for the 1200-hour internship including the specific competencies in the program as mandated by the California Commission for Teacher Credentialing.

Master of Arts in Education

The Master of Arts in Education degree program engages students in an advanced study of teaching, learning, assessment, and curriculum development. Principles of social justice serve as a back drop for examining each of the above four domains of knowledge within the context of being productive educators serving a diverse population of students. The program is designed for K-12 educators and credential students to earn a master's degree that is relevant to producing effective classroom teachers and teacher leaders.

Admission to the Program

In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

1. completion of a four-year college course of study and hold an acceptable baccalaureate with a grade point average of at least 2.5
2. good academic standing at the last college or university attended;
3. currently enrolled in a teaching credential program or hold a valid California Teaching Credential.
4. submission of two letters of recommendation from established educators who can judge your competence to succeed in a rigorous graduate program;
5. submission of a statement of purpose of no more than 150 words including the applicant's personal goals for the graduate education program.

Students who do not meet these criteria may be admitted as conditionally classified graduate students. Change to classified standing can be made only with approval of the College of Education. No more than 15 semester units may be used to demonstrate fitness to complete the program.

Advancement to Candidacy

In order to be advanced to candidacy, a student must have:

1. Achieved classified standing;
2. Met Writing Requirement for Graduate Candidacy
3. Completed, with a grade point average of 3.0 ("B"), at least 12 semester units of applicable coursework in graduate standing, at least 9 of which must have been on this campus and approved by an advisor in the College of Education;
Note: Between the time of completing 9 units and 12 units of applicable course work, the student is required to apply for advancement to candidacy
4. Filed an approved graduate program for completion of the degree. This must be prepared in consultation with a program advisor from the Department of Teacher Education and Foundations.

Requirements for Graduation

1. A minimum of 30 semester units of acceptable graduate level work, with at least 24 completed in residence at this university;

- The Graduate Writing Assessment Requirement is met through successful completion of the Undergraduate Upper Division writing course from any accredited university;
- An overall grade point average of 3.0 ("B") for the program, and grades of "C" (2.0) or better in each course taken to satisfy the MAT degree requirements;
- Successful completion of Core courses, and successful completion of requirements in Track A (Thesis/Project option) or Track B (Comprehensive examination option).
- The program plan may not include more than 9 semester units in approved extension and transfer courses from other colleges. CSUSB will not consider for transfer credit course work from an institution which will not accept that work in its own advanced degree program.
- Students who take the Comprehensive Examination i.e., EMAT 6980 will also take EMAT 6979. Students may take the examination only twice;
- Any additional general requirements not cited above and listed in Graduate Degree and Program Requirements (p. 71).

Degree Requirements (30 units)

Core courses (12)

EMAT 6006	Secondary Education Special Topics (Capstone)	3
EMAT 6013	Educational Research: Inquiry into Classrooms	3

EMAT 6015	Leadership in Education	3
EMAT 6605	Advanced Topics in Education	3

Choose one of the following (3)

EMAT 6011	Advanced Study in Literacy across the Curriculum	3
EMAT 6012	Advanced Teaching Methods	
EMAT 6016	Social Justice in Education	
EMAT 6017	Advanced Educational Psychology	

Concentration (12)

Students must satisfy the requirements of one of the concentrations listed below.	12
---	----

Culminating Experience (3)

Students must satisfy the requirements of one of the culminating experiences listed below.	3

Total Units	12
--------------------	-----------

Secondary Concentration

(Program Code: EDSE)

Choose 9 units from the following 9

ESEC 5001	Classroom Management & Pedagogy
ESEC 5002	Educational Equity and Advocacy
ESEC 5003	Pedagogical Foundations for English Language Learners in Secondary Classrooms
ESEC 6003	Pedagogical Foundations for English Language Learners in Secondary Classrooms
ESEC 6004	Adolescent Development and Educational Theory
ESEC 6005	Literacy Across the Content Areas

Choose one of the following: 3

ESEC 6010	Methods of Teaching in the Content Areas: Art
ESEC 6011	Methods of Teaching in the Content Areas: English
ESEC 6012	Methods of Teaching in the Content Areas: World Language
ESEC 6013	Methods of Teaching in the Content Areas: Mathematics
ESEC 6014	Methods of Teaching in the Content Areas: Music
ESEC 6015	Methods of Teaching in the Content Areas: Physical Education
ESEC 6016	Methods of Teaching in the Content Areas: Science
ESEC 6017	Methods of Teaching in the Content Areas: Social Science

Total Units	12
--------------------	-----------

Master of Arts in Reading and Literacy Education

The M.A. in Reading and Literacy Education meets the needs of the candidate who is interested in becoming an effective educator of reading, writing and literacy. The program aims to improve the quality of instruction among literacy educators who work with learners at all levels (pre-K-adult), not only to develop strong literacy skills, but also to acquire a lifelong love of literacy. By advocating for research, policy, and instructional practices that are appropriate and effective, the program strives to promote and sustain a culture of literacy within the schools, homes, and communities of those we serve. Program graduates are highly qualified professionals who successfully yield successful literacy outcomes for all learners through the implementation of sound instructional practices grounded in current theory and research,

including balanced literacy instruction, new literacies and digital literacies, alignment to common core standards, and literacy education for diverse learners. Graduates of this program are also prepared to serve as literacy leaders in their educational contexts.

Admission to the Program

In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

1. A valid basic California teaching credential or 3 years of teaching experience;
2. A cumulative grade point average of 3.0 ("B") in all courses taken in education;

Students who do not meet these criteria may be admitted as conditionally classified graduate students. Students admitted in this category may be changed to classified standing with approval of the College of Education.

Advancement to Candidacy

In order to be formally advanced to candidacy, a student must have:

1. Achieved classified standing;
2. Completed with a grade point average of 3.0 ("B"), 15 semester units of course work;
Note: Between the time of completing 15 units and 21 units of applicable course work the student is required to apply for advancement to candidacy.
3. Secured approval of candidacy from the College of Education;
4. Filed an approved graduate program for completion of the degree. This must be prepared in consultation with an advisor in the College of Education and approved by the program coordinator.

Master of Arts in STEM Education

(Program Code: STEM)

The MA in STEM Education program is a Master's degree program for students who wish to advance their professional knowledge and skills in STEM Education. The program is to prepare STEM educators and leaders to more effectively teach, engage, and inspire a diverse population of students in the STEM fields. Through an advanced course of study, this program provides candidates with specialized experiences that will enhance their knowledge, skills and dispositions that prepare them to become expert STEM educators and leaders who will advance STEM education, either in discipline-specific or integrated settings, in K-12 schools and other informal contexts. With an emphasis on interdisciplinary perspectives, the goal of the program is to prepare STEM educators and leaders who will be able to prepare all students to become active and informed citizens in an ever more technological and complex world; and to build the educational foundation for future STEM-related careers through engaging them in authentic inquiry, real world problem-solving, critical and creative thinking, productive collaboration and effective communication.

The program curriculum focuses on integrating mathematics, science, technology, and engineering concepts across disciplines through facilitating a broader understanding of the interdisciplinary nature of STEM, a deeper discipline-specific pedagogical content knowledge, equitable teaching strategies, and integrative approaches for the teaching and learning of STEM content. The program curriculum includes research in STEM Education, assessment, foundations in STEM Education, technology and engineering in STEM Education, advanced teaching

methods in STEM Education and culminating experience. These courses are to enhance teachers' knowledge and practice in STEM education through student-centered, integrated teaching approaches, hands-on experiences, collaborations and reflections, with a focus on Common Core State Standards for Mathematics and the Next Generation Science Standards.

The audience of the program will be primarily single subject and multiple subject credential students to further their knowledge and practice in STEM Education. This program will also offer valuable knowledge and skills in teaching STEM to K-12 CTE (Career and Technical Education) teachers, special education teachers and informal STEM educators. Students in the MA program will be supported to add foundational level mathematics, foundational level science, mathematics, subject-specific science, and computer science teaching authorizations.

The College of Education previously had a MA in Education: STEM Education option program at CSUSB. It was a two-year program and mainly recruited practicing teachers. In the Quarter-to-Semester conversion process this program was not transferred into the semester system. Thus, we are proposing a new MA in STEM Education program to replace the former program. The proposed program is designed to serve similar purposes. In addition, the proposed program aims to expand the enrollment by integrating with the single and multiple subject credential programs at CSUSB and reducing the number of the semesters required to complete the program.

The MA in STEM Education program is designed to integrate with the single and multiple subject credential programs at CSUSB, thus forming a pipeline of producing high-quality K-12 STEM teachers. After completing the credential program, students could complete the MA in STEM Education program within one year while teaching full time. The MA in STEM Education program has five core courses (15 credit units), one culminating experience course (project/thesis, or advanced topics in STEM Education with comprehensive exam, 3 credit units), and 12 credit units of elective courses. The elective courses allow CSUSB credential students to bring up to 12 credit units from their teaching credential program and students from other institutions to transfer up to 9 credit units from their previous post-baccalaureate programs. If students have 12 credit units transferred from their credential programs, they can complete the program within two semesters (nine months). They will take 9 credit units per semester and this allows them to teach full time while doing the master's program. A student could earn a single- or multiple- subject teaching credential and a master's degree in STEM Education at CSUSB within two years.

University Admission

- Have completed a four-year college degree program at an accredited institution with a 3.0 or above GPA for the last 60 semester or 90 quarter units. Students with 2.5 to 3.0 GPA may be admitted conditionally.
- Complete the online application at Cal State Apply (<http://www.calstate.edu/apply/>)
- Submit an application fee of \$70.00
- Submit one (1) copy of official transcripts from all colleges and universities you attended.

Program Admission

In addition to the University Graduate School admission requirements (<https://www.csusb.edu/graduate-studies/prospective-students/how-apply/admissions-requirements/#:~:text=If%2012%20or%20more%20semester,then%20the%20GPA%20is%20acceptable&text=If%20an%20applicant%20has%20a,or%20above%2C%20they%20are%20admissible>), additional requirements for admission to classified graduate status are:

1. Relevant K-12 teaching experiences including but not limited to: public or private school teaching, substituting teaching, and teaching in informal settings.
2. Two letters of recommendation, from individuals familiar with the applicant's work history or educational background.
3. Students need to attend an information meeting with the program coordinator and/or the admission advisor before submitting their application. An advising form will be submitted together with other application materials.

Students who do not meet these criteria may be admitted as conditionally classified graduate students. Change to classified standing can be made only with approval of the College of Education. No more than 15 semester units may be used to demonstrate fitness to complete the program.

Advancement to Candidacy

In order to be advanced to candidacy, a student must have:

1. Achieved classified standing;
2. Met Writing Requirement for Graduate Candidacy;
3. Completed with a grade point average of 3.0 ("B"), at least 15 semester units of applicable coursework in graduate standing, at least 12 of which have been taken at this campus and approved by an advisor in the College of Education;
4. Between the time of completing 12 units and 15 units of applicable course work, the student is required to apply for advancement to candidacy;
5. Completed at least three courses from the program core courses (ESTM 6104, ESTM 6203, ESTM 6134, ESTM 6344, ESTM 5114);
6. Filed an official "Graduate Approved Program Plan." This must be approved by the student's advisor and the graduate coordinator of the program.

Requirements for Graduation

1. A minimum of 30 semester units of acceptable graduate-level work, with a minimum of 21 completed in residence at this university;
2. A grade point average of 3.0 (grade of B) or better in all courses taken to satisfy the requirements for the degree;
3. Graduate students are required to complete the Writing Requirement for Graduate Candidacy before being classified or advanced to candidacy. There are three options a student can choose from to meet the writing requirement.
 - The student completes ESTM 6103 or ESTM 6503 and attains a grade of B or better.
 - The student scores an acceptable standardized test score (WREE or GRE).
 - The student submits a paper(s) that will receive a passing score according to the approved rubric (http://coe.csusb.edu/sites/default/files/PaperEvaluationCriteria_WritingRequirement.pdf)
4. Successful completion of comprehensive examination, a thesis or project.

• Comprehensive Examination

A comprehensive examination is an assessment of the student's ability to integrate the knowledge of the area, show critical and independent thinking, and demonstrate mastery of the subject matter. The results of the examination evidences independent thinking, appropriate organization, critical analysis and accuracy of documentation. A record of the examination questions and responses shall be maintained in accordance with the records retention policy of The California State University.

Students are required to take ESTM 6953 Advanced Topics in STEM Education concurrently with or prior to taking the Comprehensive Examination. Students may not take the examination more than three times.

• Thesis

A thesis is the written product of a systematic study of a significant problem. It identifies the problem, states the major assumptions, explains the significance of the undertaking, sets forth the sources for and methods of gathering information, analyzes the data, and offers a conclusion or recommendation. The finished product evidences originality, critical and independent thinking, appropriate organization and format, and thorough documentation. Normally, an oral defense of the thesis is required.

A thesis must be planned in consultation with the student's first and second readers. The thesis proposal must be approved by the student's both readers, at least one of whom must be from the College of Education. The thesis also must be approved by the first and second readers and submitted in the approved format. An oral defense of the thesis is required.

• MA Project

A project is a significant undertaking appropriate to the fine and applied arts or to professional fields. It evidences originality and independent thinking, appropriate form and organization, and a rationale. It is described and summarized in a written abstract that includes the project's significance, objectives, methodology and a conclusion or recommendation. An oral defense of the project may be required.

A project will be planned in consultation with the student's first and second readers. The project proposal must be approved by the student's both readers, at least one of whom must be from the College of Education. The project also must be approved by the first and second readers and submitted in the approved format. The project can be reported in the form of a paper and/or other media. Both media and non-media projects require a final written report. An oral defense of the project is required.

5. The graduation requirement should be completed within 7 years from the date of matriculation.

Any additional general requirements not cited above and listed in Graduate Degree and Program Requirements website.

The program may not include more than 9 semester units in approved extension and transfer courses from other colleges.

Degree Requirements (30-33 units)

Core Courses (15)

ESTM 6104	Foundations of STEM Education	3
ESTM 5114	Technology and Engineering in STEM Education	3
ESTM 6203	Advanced Teaching Methods in STEM Education	3
ESTM 6134	Assessment in STEM Education	3
ESTM 6344	Research Methods in STEM Education	3

Electives (12)

12

Option 1. Elementary Education (12 units from the following courses)

EMAT 5101	Education, Diversity and Social Justice
EDMS 5104	Mathematics Teaching and Learning
EDMS 5105	Science Teaching and Learning
EDMS 4100	Psychological Foundations of Education
EDMS 4102	Pedagogical Foundations for Teaching English Learners

Option 2. Secondary Education (12 units from the following courses)

ESEC 6002	Educational Equity and Advocacy
ESEC 6003	Pedagogical Foundations for English Language Learners in Secondary Classrooms
ESEC 6004	Adolescent Development and Educational Theory
ESEC 6013	Methods of Teaching in the Content Areas: Mathematics
ESEC 6016	Methods of Teaching in the Content Areas: Science

Option 3. 5000- and 6000- level courses related to STEM Education with consent of program coordinator. (12 credit units) Example programs that students can take courses for electives are: Single or Multiple Subject Teaching Credential Program, MA in Education, MA in Instructional Technology, MA in Career and Technical Education, Master level or upper level courses in the College of Natural Sciences (science disciplines, mathematics and computer science).

Culminating Experience

Students must complete one of the following options

Option A: Comprehensive Examination Option

ESTM 6954	Advanced topics in STEM Education	3
ESTM 6980	STEM Education: Comprehensive Examination	0

Option B: Master's Thesis/Project Option (choose one)

ESTM 6973	STEM Education Master Thesis	3
ESTM 6963	STEM Education Master Project	3

Master of Arts in Teaching English to Speakers of Other Languages (TESOL)

The Master of Arts in TESOL prepares educators to meet the needs of English learners in classrooms both in the United States and abroad. We specialize in English teaching in K-12 and adult education contexts. The program offers the knowledge, skills and practices needed to effectively design instruction, teach and assess English learners, and advocate for multilingual/ multicultural students. The teaching of English around the world is one of the fastest-growing international professions and offers worldwide English teaching opportunities to qualified graduates. Courses in teaching methods and supervised fieldwork opportunities provide a broad overview of theories of language acquisition and social/cultural influences on language learning, and strengthen the mastery of classroom techniques.

Admission to the Program

- Completion of general admission requirements, as stipulated by CSUSB Division of Graduate Studies at <https://www.csusb.edu/graduate-studies/prospective-students/how-apply/admissions-requirements>
- Completion of B.A or B. S. degree from accredited a four-year college or university
- Minimum Grade Point Average (GPA) of 2.5
- One-page Statement of Purpose:
 1. Introduce yourself, your interests, and motivations for TESOL
 2. Describe your professional goals as they relate to the TESOL program
 3. Explain why you are interested in the CSUSB TESOL program and what you can bring to the table
- Provide 2 letters of recommendation
- International students for whom English is not their first language, please check with the International Admissions Office in the College of Extended and Global Education at <https://www.csusb.edu/cisp/admissions/master-graduate-student>
- GRE not required

Advancement to Candidacy

In order to be advanced to candidacy, a student must have:

1. Achieved classified standing by completing EESL 5050 and EESL 5300 with the grade of B or better;
2. Between the time of completing 3 units and 18 semester units of applicable course work the student is required to apply for classification; after achieving classification, then candidacy;
3. Secured approval of candidacy from the College of Education;
4. Filed an approved graduate program for completion of the degree. This must be prepared in consultation with an advisor and approved by the program coordinator;
5. Students who completed their bachelor's degree in an English-dominant country must have two semesters or three quarters of study in one or more world languages (not English) at the post-secondary level;

6. Students who completed their bachelor's degree in a non-English-dominant-country must have two semesters or three quarters of study in one or more world languages (not English) at the post secondary level or take [COMM 1006](#).

Requirements for Graduation

1. A minimum of 30 semester units of acceptable graduate-level work, with a minimum of 26 units completed in residence at this university;
2. A grade point average of 3.0 ("B") in all course work taken to satisfy the Master of Arts degree requirements, and grades of "C" (2.0) or better in all courses in the program;
3. Successful completion of EESL 6980.
4. The graduation writing requirement is met upon successful completion of 3 above;
5. Completion of the Candidate Assessment Portfolio (CAP). Details of the CAP approval process are outlined in the program information materials. The CAP must be completed prior to enrollment in EESL 6980.

The program may not include more than 9 semester units in approved extension and transfer courses from other colleges. California State University, San Bernardino will not consider for transfer credit course work from an institution which will not accept that work in its own advanced degree program.

Note: Enrollment in any course in the program is subject to approval of the program coordinator.

Degree Requirements (30 units)

(Program Code: TESL)

EESL 5050	Graduate Writing for TESOL	3
EESL 5200	Language Studies for Educators	3
EESL 5300	Technology-Enhanced Language Learning	3
EESL 5500	Listening and Speaking Methods in TESOL	3
EESL 6300	Crosscultural Teaching	3
EESL 6400	Literacy in TESOL	3
EESL 6600	Structure, Function and Acquisition of English	3
EESL 6700	Principles and Practice in TESOL	3
EESL 6800	Research in TESOL	3
EESL 6900	Fieldwork: Teaching English to Speakers of Other Languages	3
Culminating Experience (0)		0
Total Units		30

Culminating Experience (0 units)

EESL 6980	Comprehensive Examination in TESOL	0
Total Units		0

The written comprehensive examination is designed to test the student's knowledge of the field of Teaching English to Speakers of Other Languages. The examination is offered once each quarter and during the summer session. The student may enroll in the examination no earlier than the last quarter in which course work is taken. The student may take the examination (or any part of it) up to three times. Approval to retake the

examination may be, at any time, contingent upon completion of additional designated courses.

Minor in Gender and Sexuality Studies

Gender and Sexuality Studies allows students to examine how gender and sexuality as social constructs shape individual lives, groups, institutions, and social structures. Students will have the opportunity to examine individual development, couples, families, small groups, and organizations as well as the media, arts, and economic and political systems. The program courses explore how gender and sexuality intersect with race, culture, ethnicity, and social class in the interest of social justice. Toward these ends, students customize programs specifically to their interests and professional goals, selecting from a wide variety of courses across the university

Requirements for a minor in Gender and Sexuality Studies (18 units)

GSS Program Core (6)

Six units chosen from:		6
GSS 1000	Introduction to Women's Studies	
GSS 1010	Introduction to Masculinity Studies	
GSS 1020	Introduction to Transgender Studies	
GSS 1030	Introduction to Lesbian, Gay, Bisexual, Transgender, and Queer Studies	

GSS Program Electives (6)

Six units chosen from:		6
GSS 4200	Feminist Theory	
GSS 4250	Women as Agents of Social Change	
GSS 4500	Queer Theory	

Interdisciplinary Electives (6)

Six units chosen from:		6
AH 3210	Visualizing Gender, Performing Identity	
ANTH 3603	Gendered Worlds: Power, Difference, and & In/equality	
ARAB 3900	Female Voices in Arab American Literature	
CAL 3250	Perspectives on Gender	
CJUS 4451	Women and Crime	
CJUS 4462	Domestic Violence	
COMM 3336	Queer Cinema	
COMM 4211	Communication and Gender	
COMM 4301	Gender, Race, and Class in Media	
COMM 5301	Media Sex and Violence	
COMM 5303	Muslim Women in Media and Society	
ECON 3109	Political Economy of Women	
ENG 3360	Women Writers	
GSS 1000	Introduction to Women's Studies (If not taken to fulfill the GSS Core)	
GSS 1010	Introduction to Masculinity Studies (If not taken to fulfill the GSS core)	
GSS 1020	Introduction to Transgender Studies (If not taken to fulfill the GSS core)	

GSS 1030	Introduction to Lesbian, Gay, Bisexual, Transgender, and Queer Studies (If not taken to fulfill the GSS core)
GSS 3901	Special Topics in Gender and Sexuality Studies
GSS 4200	Feminist Theory (If not taken to fulfill the GSS Upper Division Electives)
GSS 4250	Women as Agents of Social Change (If not taken to fulfill the GSS Upper Division Electives)
GSS 4500	Queer Theory (If not taken to fulfill the GSS Upper Division Electives)
GSS 5751	Internship in Gender and Sexuality Programs and Services
GSS 5752	Internship in Gender and Sexuality Programs and Services
GSS 5753	Internship in Gender and Sexuality Programs and Services
GSS 5951	Independent Study
GSS 5952	Independent Study
GSS 5953	Independent Study
HIST 3450	Women in U.S. History, 1607-Present
HIST 3460	Women in the Black Freedom Movement
HIST 3620	LGBT History
HIST 4490	Gender and Development in Africa
HIST 5610	Gender, Sex, and Conquest in the American West
HSCI 3010	Health and Human Sexuality
HSCI 4050	Health Issues of Men
HSCI 4212	Topics about Special Populations

MUS 1969	LGBTQ+ Influences in Music
NSCI 3250	Perspectives on Gender
PSCI 3400	Sex and Politics
PSYC 3301	Psychology of Human Sexuality
PSYC 3331	Psychology of Women and Gender
PSYC 3341	Women and Violence
PSYC 3349	Gay and Lesbian Issues: Psychological Perspectives
SOC 3360	Black Women and Feminism
SOC 3440	LGBTQ Families
SOC 4440	Sociology of Sex and Gender
SSCI 3250	Perspectives on Gender
SW 5053	Social Work Practice with the LGBTQ2SIA+ Community
TA 4663	Dramatic Literature of Identity (When the topic is LGBTQ Theatre)

Total Units**18**

Certificate in Gender and Sexuality Studies

The Gender and Sexuality Studies certificate program allows students to examine how gender and sexuality as social constructs shape individual lives, groups, institutions, and social structures. Students will have the opportunity to examine individual development, couples, families, small groups, and organizations as well as the media, arts, and economic and political systems. The courses explore how gender and sexuality intersect with race, culture, ethnicity, and social class in the interest of social justice.

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 6000-level courses as requirements and/or electives. These 6000-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Certificate requirements (18 units)

Six courses (18 units) selected from the following:	18
GSS 1000 Introduction to Women's Studies	3
GSS 1010 Introduction to Masculinity Studies	3
GSS 1020 Introduction to Transgender Studies	3
GSS 1030 Introduction to Lesbian, Gay, Bisexual, Transgender, and Queer Studies	3

Adapted Physical Education Added Authorization Credential

Basic Teaching Credentials

The CSU prepares teachers for positions in California as well as other states. It is in the student's best interest to be knowledgeable about credential or licensure requirements of the state in which they intend to teach.

For information on the added authorization, contact the Credential Office, CE-102, (909) 537-7401.

Admission to the Program

In addition to meeting the general requirements of the university for admission as a postbaccalaureate student, admission to the Added Authorization in Adapted Physical Education program requires the following:

1. A valid California teaching credential authorizing the teaching of physical education.
2. Students must have a cumulative GPA of a 2.67 or your last 90 units GPA of a 2.75 in order to be admitted to the APEAA Program.

Recommendation for the Added Authorization in Adapted Physical Education:

In addition to meeting the general requirements of the university for admission as a post baccalaureate student, admission to the Added Authorization in Adapted Physical Education requires one of the following:

1. Verification of subject matter competence by one of the following:
 - a. completion of an equivalent California-approved single subject matter preparation program in physical education verified in writing by authorized personnel;
 - b. original verification of a passing score on the CSET examination for Physical Education;
 - c. completion of an approved subject matter preparation program offered on this campus or an approved subject matter preparation program at another California campus, verified in writing by authorized personnel;
2. Documentation of a minimum of 100 hours of fieldwork experience in Adapted Physical Education in compliance with the Standards of the California Commission for Teacher Credentialing;
3. Completion of student teaching in adapted physical education and physical education at:
 - a. CSUSB or an equivalent California campus with an approved single subject matter adapted physical education preparation program verified in writing by authorized personnel, or
 - b. a California Public School verified in writing by authorized personnel with one year of demonstrated effective teaching in adapted physical education;
4. Completion of the final written exit examination and exit interview with the adapted physical education coordinator at CSUSB;
5. Consult the coordinator of adapted physical education for current information about this credential as pending state legislation may require curricular changes.

Requirements for Graduation

1. Completion of all coursework with a minimum grade point average of 3.0 ("B")
2. Completion of student teaching in adapted physical education and physical education at: a) CSUSB or an equivalent California campus with an approved single subject matter adapted physical education preparation program verified in writing by authorized personnel, or b) a California Public School verified in writing by authorized personnel

with one year of demonstrated effective teaching in adapted physical education;

3. Completion of the final written exit examination and exit interview with the adapted physical education coordinator at CSUSB.

Credential Requirements (15 units)

KINE 3100	Introduction to Adapted Physical Activity	3
KINE 3300	Movement Skill Assessment for Individuals with Disabilities	3
KINE 3320	The Nature and Issues Concerning Individuals with Disabilities	3
KINE 3330	Applied Behavior Management	3
KINE 4900	Seminar in Physical Education and Adapted Physical Education	3
Total Units		15

Multiple Subject Credential

A teacher with a Multiple Subject Teaching Credential is authorized to teach students in grades pre-K through 12 in self-contained classrooms, or in classes organized primarily for adults. The credential holder may serve in a core or team-teaching setting. This credential includes the English Learner Authorization which permits the teacher to provide instruction for English language development.

The Multiple Subject Credential Program (MSCP) is a post-baccalaureate program focusing on preparing teachers for California. The 34-semester unit program includes early field experiences in elementary schools, combined with coursework, supervised student teaching and two cycles of assessments (i.e., CalTPA). Supervised student teaching requires full-time attendance at an elementary or middle school. Program requirements must be met within five years of the date of admission to the program.

The Multiple Subject Credential Program provides the sequence of courses, deadlines, and other program related information.

The Multiple Subject Credential Program has the following four concentrations:

1. Multiple Subject Credential (i.e., credential with traditional student teaching)
2. Multiple Subject Intern Credential (i.e., credential with district-employed internship)
3. Multiple Subject Credential with Bilingual Added Authorization in Spanish (i.e., credential with traditional student teaching)
4. Multiple Subject Credential with Bilingual Added Authorization in Spanish Internship (i.e., credential with district-employed internship)

The above credential concentrations are available to post baccalaureate students and to undergraduate students in the Bachelor of Arts in Liberal Studies: Integrated Program.

The Intern Credential Program of 40 semester units is for those students who have been placed in an employment setting. Interns are issued a two-year intern credential from the Commission on Teacher Credentialing and are employed by a partnering school district. If a candidate does not secure a job, he/she may pursue the basic credential program as a student teacher. The intern program requires three semesters of supervised teaching. The internship may begin in any semester.

Bilingual Authorization allows the holder to provide instruction to English Learners (EL). The license permits the following types of instruction to ELs, (a) Instruction for English Language Development (ELD), (b) Instruction for Primary Language Development, (c) Specially Designed Academic Instruction Delivered in English (SDAIE), and (d) Content Instruction Delivered in the Primary Language.

For information about the credential program and advisement please contact the program coordinator or the College of Education Program Admissions Advisor.

Preliminary Credential

Successful completion of any concentration in the Multiple Subject Credential Program leads to the Preliminary Credential, which is valid for five years. Applicants for the Preliminary Credential are required to:

1. hold a bachelor's degree from an accredited institution within the U.S. or equivalent;
2. complete the U. S. Constitution requirement;
3. complete the Basic Skills Requirement (e.g., CBEST);
4. hold a Certificate of Clearance (CTC fingerprint clearance);
5. demonstrate subject matter competence by passing the California Subject Examinations for Teachers: Multiple Subjects (CSET: Multiple Subjects) or completion of a CTC-approved subject matter preparation program;
6. complete all program courses with no grade lower than a "B";
7. successfully complete student teaching or supervised internship;
8. pass the Reading Instruction Competence Assessment (RICA) examination;
9. pass Cycle 1 and Cycle 2 of the California Teaching Performance Assessment (CalTPA);
10. for the Bilingual Added Authorization concentration candidates demonstrate competence in specialized pedagogy, culture, and the target language. Spanish language proficiency may be met through coursework or state-approved exams.

Early Completion Intern Option

Intern teachers may challenge the coursework portion of the Multiple Subject Credential Intern Program and demonstrate pedagogical skills by passing the CTC-approved performance assessment. For details, see the CTC Website on this topic.

Clear Credential

The Preliminary Credential is valid for five years from the date of issuance and is not renewable. During the first five years of teaching, teachers earn the clear credential through their district-sponsored Induction Program.

Admission to the Program

Students apply to the university through Cal State Apply and concurrently submit a 'Supplemental Application' for admission to the program.

Applicant Submits the following to Cal State Apply Supplemental Application:

1. Verification of subject matter competence via one of the following: (a) successful completion of a CTC approved subject matter competency program or approved equivalent or (b) official copy of the valid CSET Electronic Score Report;

2. Two recommendations forms from two individuals (not a family member) who are able to evaluate and address the applicant's scholastic performance and suitability for teaching;
3. A written, personal narrative/essay (600-700 words) on (a) reasons for wanting to be an elementary school teacher and (b) background that prepares the applicant to be a teacher;
4. Verification of a valid negative TB test result via one of the following, (a) an official immunization record stamped by the healthcare provider, (b) an official letterhead signed by the healthcare provider (Risk Assessment Questionnaires are not acceptable), *Note: Negative TB test results are valid for four years from the date of the test and must remain valid for the duration of the program;*
5. Official transcript(s) from each institution attended with the exception of California State University San Bernardino (CSUSB) submitted directly to the Jim and Judy Watson College of Education Student Services Office (CE 102) by the program deadline date.
 - a. All applicants must have a cumulative grade point average of 2.67 or of 2.75 in their last 60 semester units of 90 quarter units);
 - b. All applicants must verify successful completion ENG 3110. All applicants must also verify completion of either: (A) EDMS 3010; or (B) (i) CD 2240 and (ii) EDMS 3011 or CD 2246;
6. Documentation of at least 45 hours of field experience in K-12 classrooms via any of the following: (a) early field experience verification form, (b) original letterhead signed by the authorized school personnel, (c) original field log signed by the authorized school personnel (Applicants who have successfully completed EDMS 2301 and one of the following: (A) EDMS 3010 and (B) (i) CD 2240 and (ii) EDMS 3011 or CD 2246 at CSUSB are exempt from this requirement);
7. Verification from the Commission on Teacher Credentialing (CTC) of the issuance of a valid California Certificate of Clearance, credential or permit;
8. Verification of successful completion of the Basic Skills Requirement
9. Completion of the upper-division writing requirement at the university or the equivalent graduation requirement at another accredited institution, or a passing score on the CSUSB Writing Requirement Exemption Evaluation (WREE), or a passing score on the written portion of the CBEST (Note: CBEST examination does not meet the graduate entrance writing requirement for the Master of Arts degree);
10. Verification of the \$35 non-refundable application processing fee.

All applicants who have submitted a complete application will receive notification within 10 working days of submission via MyCoyote email to set-up a mandatory faculty interview. Admission to the program is based on (a) the successful completion of the faculty interview, and (b) attendance at the New Student Orientation meeting at which time applicants will also complete a Student Teaching Placement Application.

Admission to Supervised Student Teaching

Students must apply for supervised student teaching (EDMS 4107A) along with the Supplemental Application. Admission to supervised student teaching is based on the following criteria and conditions:

1. Successful completion of pre-requisite courses:
2. Concurrent enrollment in the following courses: EDMS 4100, 4101A or 4101B, 4102, 4103, and 4104.

Admission to the Intern Program

In addition to the steps, conditions and criteria outlined above for the Multiple Subject Credential Program the applicant must fulfill the following:

1. Submit an application to the intern program,
2. Successfully complete prerequisite and co-requisite courses,
3. Successfully complete the following pre-service courses with a grade of B⁻ or better (candidates can apply to the program while concurrently enrolled in these courses): EDMS 4100, 4101A or 4101B, 4102, and 4103;
4. Provide Verification of Employment by a school district that has a contractual agreement with the university. The intern is employed full time and is assigned to teach in a self-contained classroom while enrolled in courses at CSUSB. (A listing of these districts is in the Handbook for Multiple Subject Credential Programs.)
5. Apply for an intern credential once admitted to the intern track and the job is secured. Submit the application for the intern license to CE 102.

Admission to the Bilingual Added Authorization in Spanish Program

To receive the Bilingual Added Authorization in Spanish students must take the following courses:

EDMS 4101B: Language Arts Teaching and Learning (Spanish)
3 units

(To be taken instead of EDMS 4101A)

SPAN 3305: Applied Spanish Grammar
3 units

HUM 3335: The Origin and Contemporary Role of Latino Culture
3 units

(SPAN 3305 and HUM 3335 must be taken prior to admission to the Credential Program)

Supervised Student teaching or Supervised Intern Teaching must be done in a bilingual classroom. All students seeking the Bilingual Added Authorization in Spanish must consult with the faculty advisor for students in this concentration.

Credential Requirements (30-36 units)

Courses for all four concentrations. Students must complete all program course work with a grade point average of 3.0 ("B") with no course grade lower than "B-."

EDMS 4100	Psychological Foundations of Education	3
EDMS 4101A or EDMS 4101B	Language Arts Teaching and Learning Language Arts Teaching and Learning in Bilingual Settings	3
EDMS 4102	Pedagogical Foundations for Teaching English Learners	3
EDMS 4103	Creating Supportive and Engaging Learning Environments	2
EDMS 5104	Mathematics Teaching and Learning	3
EDMS 5105	Science Teaching and Learning	3
EMAT 5100	Technology and Instructional Practices for Educators	1

EDMS 5106A	Social Studies and the Arts Teaching and Learning	3
or EDMS 5106B	Social Studies and the Arts Teaching and Learning in Bilingual Settings	
EMAT 5101	Education, Diversity and Social Justice	3
EDMS 4110	Assessment Seminar: CalTPA Cycle	3

Total Units **27**

Additional Course Requirement for Multiple Subject Credential & Multiple Subject Credential with Bilingual Added Authorization.

In addition to completing the above core courses, students in Concentration 1 (Multiple Subject Credential) and Concentration 3 (Bilingual Added Authorization) complete the following supervision classes. Students in the Bilingual Added Authorization concentration are placed in dual language classrooms.

EDMS 4107A	Supervised Student Teaching in Multiple Subject	3
------------	---	---

Total Units **3**

Additional Course Requirement for Multiple Subject Intern Credential Concentration

In addition to completing the basic courses listed above Interns must complete the following three Supervised Intern Teaching Experiences and the Internship Seminar. Students in the Bilingual Added Authorization concentration are placed in dual language classrooms.

EDMS 4108A	Supervised Intern Teaching in Multiple Subject I	3
EDMS 4108B	Supervised Intern Teaching in Multiple Subject II	3
EDMS 4109	Internship Seminar for Multiple Subject	3

Total Units **9**

Additional Requirements for the Preliminary Credential

Students must successfully complete:

1. One of the following to fulfill the United States Constitution requirement (or successful completion of an examination administered through the College of Extended Learning):

HIST 1460	History of the United States: Pre-Colonization to Present	3
HIST 2000	United States History to 1877	3
HIST 5400	Constitutional History of the United States	3
PSCI 4100	American Constitutional Law	3
PSCI 2030	Government of the United States	3
HIST 1460H	Honors History of the United States: Pre-Colonization to Present	3
PSCI 4110	The Bill of Rights	3
PSCI 2030H	Government of the United States-- Honors	3

2. The Reading Instruction Competence Assessment (RICA) exam with a passing score;
3. The teacher performance assessment (CalTPA) with a passing score.

Upon successfully completing the program and the above additional requirements, candidates are eligible to apply for the preliminary credential.

Requirements for the Professional Clear Credential may be obtained from the employing school district.

Note: Students must consult the current information sheet for this credential in the Teacher Education Office, CE-102. In addition, students may be eligible for SB 57 Early Completion Internship Option. See information in the Teacher Education Office.

Single Subject - Intern Track Credential

Admission to the university must precede admission to the credential program. This is a three-semester program for full-time students. Part-time students can complete the program in two years or more.

Admission to the Program and Student Teaching

In addition to the general admission requirements for the university, students must meet the following requirements prior to enrolling in the student teaching track:

1. Successfully complete the California Basic Educational Skills Test (CBEST);
2. Demonstrate Subject Matter Competency (SMC) in the content area they plan to teach. Subject Matter Competency can be demonstrated by having a degree from a California Commission on Teacher Credentialing (CCTC) waiver program or passing (if necessary) the appropriate CSET examination as early as possible in order to be able to provide verification of passing scores with their application for admission to the program.
3. Successfully complete the U. S. Constitution requirement, CPR examination and be employed in a district that has an internship contract with the Division of Teacher Education.

Admission to the Program

Interns must turn in a Program Application File (PAF) with all the information to the Credentials Office, CE-102. Candidates will not be considered until all the following information is provided:

1. Two letters from faculty members in the student's major department and at least one from a principal or teacher who can attest to the applicant's teaching skills in classroom settings;
2. Meeting with education advisor and signed advising form or attend a program advisory meeting to determine requirements of the program;
3. Verification of a negative tuberculin examination within the last 24 months;
4. Academic Achievement
 - a. Applicants must possess the following minimum grade point averages:
 - i. A grade point average of 2.67 in all baccalaureate and postbaccalaureate course work or at least 2.75 in the last 90 quarter units attempted;

- ii. A grade point average of 3.0 ("B") in professional education course work with no course grade in this area lower than "B-." Students can only discount one grade in the program courses. They can repeat a total of two courses in the program;
 - b. Written verification of CCTC waiver program or passing the California Subject Examinations for Teachers (CSET), and/or the Single Subject Assessment for Teaching (SSAT) in the content area in which the candidate is planning to teach.
5. Completion of one of the following approved subject matter preparation programs within one of these majors at this university. Note: A list of the required grade point averages for each subject matter area is available from the Credentials Office and the Teacher Education Office.

Single Subject Credential	Degree Major
Art	B.A. Art (Plan I)
English	B.A. English
Foreign Language	B.A. Spanish or B.A. French
Health Science	B.S. Health Sciences
Foundational Mathematics/ Mathematics	B.A. Mathematics B.S. Mathematics
Music	B.A. Music (Music Education)
Physical Education	B.S. Kinesiology
Foundational Science/ Sciences	B.A. in the Science B.S. in the Sciences
Social Science	B.A. Social Sciences
Theater	B.A. in the Theater Arts

For further information on other majors, supplementary authorizations, examinations and waivers, students should contact the Teacher Education Office and/or the appropriate major department.

OR

Completion of the CSET (California Subject Examination for Teachers) and/or the Single Subject Assessment for Teaching (SSAT) in the specialty teaching area the student is planning to teach;

6. Submit passage of the U.S. Constitution requirement and the CPR examination;
7. Completion of the upper-division writing requirement at the university or the equivalent graduation requirement at another accredited institution, or a score of 41 or better on the written portion of the CBEST; (CBEST examination does not meet the graduate entrance writing requirement for the Master of Arts degree.)
8. Submission of evidence that the applicant has passed the California Basic Educational Skills Test (CBEST);
9. Interns must be employed in a school district or school site that has an internship contract with the College of Education;
10. In addition, the following criteria are used: professional aptitude, personality and character, oral and written language usage, and interest in multicultural education.

All course work taken at another institution, or more than seven years ago, is subject to approval by the director of the Single Subject Program. No more than 14 quarter units of the credential program may be transferred. Student teaching or internship teaching is never transferable. Students transferring units from another institution may be required to take HSCI 1000 and ESPE 3350.

Each applicant is reviewed in terms of all of the above criteria. In addition, internship teaching for the preliminary credential is a full-time assignment for five quarters that only begins in the fall, winter or spring quarters. No

concurrent course work should be taken beyond the required program courses without permission from the program coordinator.

ESEC 6034	Teaching Performance Assessment Seminar	3
-----------	---	---

Total Units 34

Applications for intern candidacy must be submitted in the quarter prior to the commencement of the internship. It is the responsibility of the intern candidate to obtain employment. The university provides the names of school districts that have intern contracts. Applicants who are accepted to intern candidacy, but who do not find a position, are qualified for regular student teaching.

Additional Requirements

Passage of the California Teacher Performance Assessment Tasks 1 and 2 is required.

Upon completing the requirements for the internship program, candidates may apply for a preliminary credential. Within two years candidates must complete an induction program in the district in which they are employed to meet additional CCTC requirements to obtain a professional clear credential.

Note: Pending state legislation may require curricular changes. Students must consult the current information sheet for this credential in the Teacher Education Office, CE-102. In addition, students may be eligible for SB 57 Early Completion Internship Option. See information in the Teacher Education Office.

Single Subject - Student Teaching Track Credential

The Single Subject Credential program is designed for post-baccalaureate students who will take courses to prepare them to receive a Single Subject Teaching Credential. All courses and experiences are created under the guidelines as recommended by the Credential of Teaching Commission (CTC).

Admission to the university must precede admission to the credential program. This is a three-semester program for full-time students. Part-time students can complete the program in two years or more. For CSUSB credential students we accept 18 units from the CSUSB Multiple and Single Subject Preliminary Credential programs.

Admission to the Program and Student Teaching

In addition to the general requirements for the University, students must meet specific requirements for admission prior to enrolling in the program:

1. Hold a baccalaureate or higher degree from an approved accredited college or university;
2. Demonstrate Subject Matter Competency (SMC) by successful completion of a baccalaureate or higher degree from a regionally accredited institution of higher education in one of the subject areas in which the commission credentials candidates PSA 23-04 (https://www.ctc.ca.gov/docs/default-source/educator-prep/ps-alerts/2023/psa-23-04.pdf?sfvrsn=574920b1_9) or through another option approved (<https://www.ctc.ca.gov/educator-prep/subject-matter-requirements/>) by CTC;
3. Complete the Program Application File (PAF) and submit it to the Credentials Office, CE-102;
4. You must complete the online University Application to be admitted as a Graduate Student. You will need to submit transcripts from each institution attended (with the exception of California State University, San Bernardino) to Graduate Admissions by the deadline.
5. Two Letters of Recommendation – These letters must be completed on our Letter of Recommendation forms. Please obtain these letters from someone who is able to address your scholastic performance and suitability for teaching (a family member cannot complete these letters);
6. Advising Form – You will need to either attend an information session or schedule an appointment with a Single Subject Advisor to obtain this form and submit with your Program Admissions File;
7. Verification of Negative TB Test Results – Submit a copy, must include the following: Your name, agency where TB test was administered and read, signature from authorized personnel, date the

TB test was read and that you have no presence of TB. Results are valid for four years;

8. Verification of Certificate of Clearance – You must complete the Request for Livescan Service (41-LS) with a Transmitting Agency, then you will need to follow up with the Commission on Teacher Credentialing by submitting an application for your Certificate of Clearance;
9. Academic Achievement
 - a. Applicants must possess the following minimum grade point averages:
 - i. A grade point average of 2.67 in all baccalaureate and post-baccalaureate course work or at least 2.75 in the last 90 quarter units attempted.
 - ii. A grade point average of 3.0 ("B") in professional education coursework with no course grade in this area lower than "B-." Students can only discount one grade in the program courses. They can only repeat a total of two courses in the program.
 - b. Completion of one of the following approved subject matter preparation programs or these majors at this university:

Single Subject Credential	Degree Major
Art	B.A. Art (Art Education concentration)
English	B.A. English
Foreign Language	B.A. Spanish or B.A. French
Foundational Mathematics	B.A. Mathematics
Mathematics	B.S. Mathematics
Music	B.A. Music (Music Education)
Physical Education	B.S. Kinesiology
Theater	BA Theater Arts

For further information on other majors, supplementary authorizations, examinations and waivers, students should contact the College of Education Student Services Office and/or the appropriate major department.

10. All course work taken at another institution, or more than seven years ago, is subject to approval by the director of the Single Subject Program. No more than 14 semester units of the credential program may be transferred. Student teaching is never transferable. Students transferring units from another institution may be required to take HSCI 1000 and ESPE 3350.
11. Must complete an admission interview with Single Subject faculty to determine program fit.

Each applicant must complete SMC or have a B.A. degree in the content area they are planning to teach before student teaching and associated courses.

Spanish Bilingual Authorization Candidates.

Teacher candidates may add the Spanish Bilingual Authorization, previously they to clear the linguistic requirements, interview with the bilingual program coordinator and get the approval letter. This can be done by taking 3000 level Spanish classes such as SPAN 3301, SPAN 3305 or SPAN 3309 or passing the WCOE Spanish Placement test for teacher Candidates.

Post credential Spanish Bilingual Authorization Candidates

Candidates with a preliminary or clear single subject credential can add the bilingual authorization in Spanish by clearing the linguistic requirements, and taking the EDMD 5101 and EDMD 5102 (6 units) when offered. As well Spanish Bilingual Students need to complete at least 20 hours of Clinical Practice in Bilingual settings, according to the CTC. Usually embedded as Observation hours EDMD 5101 or EDMD 5102.

Credential Requirements (33 units)

Once admission to the program has been granted and program requirements have been successfully completed, students may enroll in the following courses. Students must successfully complete all the courses in each semester before enrolling in subsequent semesters.

Foundational Single Subject Coursework

EDMD 5101	Teaching & Learning Methods in Spanish Multilingual Settings:	3
-----------	---	---

Spanish Bilingual Student add EDMD 5102 to complete their Bilingual Authorization.

Additional Information

Students who fail to successfully complete any program course with a "B-" or better will be denied continuation in the program. An appeal process is available. Consult the Program Coordinator for details.

Upon completing all requirements for the single subject program, the candidate will be awarded a certificate of completion from California State University, San Bernardino and may apply for a preliminary credential.

Within two years candidates must complete an Induction Program that is offered by the school district in which they secure employment. Preliminary credential students may obtain a professional clear credential by meeting the Induction Program of the school district.

Certificate Programs

California State University, San Bernardino's College of Extended and Global Education offers high-quality courses and certificates programs of which may be completed online. Courses are led by expert instructors and university faculty with extensive knowledge in their fields.

Our online certificates are affordable, convenient, and designed for learners with busy lifestyles and in different stages of life. Beyond CSUSB online certificates, we offer over 300 more through qualified partners. CSUSB extends learning to the community, region, nation, and world.

In-service Credit for Training Programs

Schools, school districts, municipalities, and other organizations interested in planning special staff development programs may contact the College of Extended and Global Education to arrange for university credit. Training programs that meet academic criteria set forth by CSUSB can provide participants with Continuing Education Units (CEUs) or extension credit (non-degree credit) that can be used toward school district requirements for professional development. The application process is simple and quick. For more information, call (909) 537-5976.

Workplace Training / Contract Programs / Customized Training

The College of Extended and Global Education provides training development programs, certificate programs and educational components for grants on a contractual basis for business (large and small), private industry, health care organizations, not-for-profit organizations and government agencies.

In direct consultation with the participating organization, the College of Extended and Global Education develops custom-designed professional development programs, including language programs, to accelerate the professional effectiveness, productivity and problem-solving skills of the organization's staff. For more information, call (909) 537-3982.

Online Career Training Programs

The College of Extended and Global Education offers online continuing education programs and courses designed to provide the workforce skills necessary to acquire professional skills needed in many in-demand occupational areas such as business, education, health care, health sciences, education, electronic arts and information technology. The programs are designed to develop expertise in desired fields and/or prepare participants for industry certification exams.

In direct consultation with the participating organization, the College of Extended and Global Education develops custom-designed professional development programs, to improve the professional effectiveness, productivity and problem-solving skills of the organization's staff. For more information, call (909) 537-3982.

In addition, Extended and Global Education offers hundreds of individual online personal enrichment, skill-building and training courses in many subject areas. For more information, call (909) 537-5976.

Continuous Enrollment

University policy requires all graduate students to be continuously enrolled at CSUSB each semester until the awarding of the degree. CEGE, in partnership with the Office of Graduate Studies, offers Continuous Enrollment courses through Special Sessions whereby students who have completed all course work for their degree and are preparing for their comprehensive exam, thesis, project, or dissertation can enroll and maintain good standing with CSUSB. No credit is earned, but students are allowed to maintain their status in their graduate degree program. For more information, call (909) 537-5975.

Open University

Open University (also called "open enrollment") allows non-matriculated/non-degree seeking individuals to enroll in regular university courses on a space-available basis. Most courses listed in the University catalog are open to non-matriculated students through the Open University program. Students may apply up to 24 semester units earned through Open University toward a bachelor's degree and 9 semester units toward a master's degree (subject to approval by the appropriate department).

Open University is designed for those who:

- want to examine a particular field before seeking admission to the University and enrolling in a degree program;
- want to improve their GPA in order to reenter an academic program;
- want to update professional skills;
- missed the deadline for admission to CSUSB;
- have stopped attending CSUSB and wish to re-enter;
- wish to take selected CSUSB courses that will transfer to another university; and/or
- want to take a course for the enjoyment of learning.

Students who desire to enroll in Open University are required to obtain a registration form from the College of Extended and Global Education and the approval of the instructor. Graduate-level and education credential

courses are not available through Open University, and certain other courses are restricted and require departmental approval. Matriculated students are not allowed to enroll concurrently in the Open University program.

Minimum Qualifications for Granting Exceptions to Open University Students Enrolling in Graduate-Level Courses:

To enroll in graduate level coursework at CSUSB, a student must meet the following conditions:

1. Either have an undergraduate degree from an accredited institution or be in the last year of an undergraduate degree program in an accredited institution,
2. Have at least a 2.5 GPA overall or in the last 60 semester or 90 quarter units, and
3. Meet the prerequisite requirements for the course by providing evidence of coursework or professional experience, which must be approved by the department in which the course is offered.

For more information, call (909) 537-5975.

Center for International Studies and Programs (CISP)

The Center for International Studies and Programs is the home of international education. CISP houses three primary departments: International Students and Scholars, Education Abroad, and Partnership Programs. The International Students and Scholars team provides support to international faculty, staff, and students who hold visas supported by CSUSB that apply to their stay in the United States, and provides educational workshops and programs for campus engagement and education. Education Abroad coordinates all education abroad programming for students seeking an educational experience in another country through custom faculty-led programs, direct-enrollment programs, or exchange programs. The Partnership Programs department coordinates support for all collaborations, supporting partners, students and faculty who participate in these special educational cooperative activities. Together, these offices provide guidance and support for international education opportunities for faculty, staff, and students at CSUSB.

Education Abroad

At CSUSB, students have many opportunities to study abroad or away for a summer, semester, full year, or winter intersession participating in a credit-bearing program or a non-credit experience such as volunteering, interning, or service-learning. For more information visit the Education Abroad website (<http://goabroad.csusb.edu>) or email goabroad@csusb.edu.

International Extension Programs

International Extension Programs (IEP) is a division within the College of Extended and Global Education that offers programs for international students and clients on a self-support basis. Participants from across the world attend IEP credit or non-credit courses and programs that can be customized in content and length.

IEP offers numerous program options in the area of intensive English language training, Teaching English to Speakers of Other Languages (TESOL) Programs, International Training & Education Programs, and Study Abroad in the USA Programs. For more information visit

the International Extension Programs website, (<https://cel.csusb.edu/global/>) call (909) 537-5978, or email iep@csusb.edu.

The English Language Program (ELP)

The English Language Program (ELP) is designed for international students, professionals or those seeking an intensive English experience focusing on reading, writing and listening/speaking, as well as an introduction to American culture. The program focuses on providing the academic English language skills needed to meet the requirements for admission into the university's undergraduate or graduate programs. All students are required to take a three-part placement test upon entrance. The placement test consists of an oral interview, written composition and a standardized multiple-choice exam. Students are placed in a level of instruction based on the test results. ELP consists of 4 levels:

Level 1 Beginner

Students will study basic grammar concepts, develop writing skills, and become familiar with new vocabulary and spelling through reading, listening, and speaking exercises. In addition, they will develop essay writing and conversational skills.

Level 2 Intermediate

Students will transition into the use of free expression to continue to acquire English skills used in intermediate writing assignments, conversation and reading. Students will understand and accurately use basic and complex English structures and build on the writing process as they continue to develop their analysis, critical thinking, and summarizing skills.

Level 3 Advanced - Undergraduate Program Preparation

Through the improvement of their critical thinking skills as applied to written and oral academic research and argument, as well as the use of more complex vocabulary, students will attain the language needed for university study. Successful completion will waive the TOEFL requirement for undergraduate admission into CSUSB.

Level 4 Advanced II – Graduate Program Preparation

With a graduate program preparation focus, this level is designed to increase English proficiency through advanced research and essay writing, test intensive reading and oral presentations. Successful completion will waive the TOEFL requirement for admission to most graduate programs at CSUSB.

Academic Pathway Program (APP)

Academic Pathway Program (APP) provides an excellent opportunity for students who are serious about their academic goals, but do not meet admission requirements for California State University, San Bernardino (CSUSB) based on their high school Grade Point Average (GPA).

The program allows students to be conditionally admitted to a CSUSB undergraduate program with their high school GPA between 2.00 and 2.49. Students who successfully complete APP with a GPA of 2.75 or higher will be admitted to bachelor degree programs at CSUSB.

The APP is comprised of up to 30 units of academic credit classes. These classes are to fulfill general education requirements at CSUSB. Students typically enroll in eight classes over one academic year (fall

and spring semesters). Classes may transfer towards undergraduate degree requirements.

Study Abroad in the USA

Study Abroad in the USA program gives visiting international students an opportunity to take university courses that can be transferred to their home university. Participants come to CSUSB for one or several terms and take courses with American students.

TESOL Programs

The TESOL programs are designed for individuals who have a desire to work with children and/or adults who are learning English as a second language. IEP offers TESOL Teacher Training, 120-Hour TESOL Certificate Programs and Advanced TESOL Certificate Programs.

While the TESOL Teacher Training program is a one-month noncredit practice-focused program, the advanced TESOL Certificate Program provides an excellent foundation in TESOL practices, research, and theory. If participants decide they would like to pursue a master's in TESOL at CSUSB, the coursework in this advanced certificate program applies towards their degree.

International Training & Education Programs

The International Training and Education Programs (ITEP) offer custom-designed programs for a variety of international participants ranging from high school students to government and corporate executives. Executives and managers in the public and private sectors from around the world attend management training, educational and other training programs. Through these programs, ITEP promotes business cooperation and educational and cultural exchanges. Many ITEP programs are designed for mid-career professionals and executives seeking training in various topics such as business and social etiquette, organizational practices and protocol, and corporate and government culture.

ITEP also offers advanced technology training for engineers and technicians in various industrial fields. ITEP training programs are designed to help international participants advance their careers while they obtain the skills necessary to obtain professional positions in many in-demand occupations. IEP can also design programs tailored to the individual group's specific needs. Programs are customized based on length, subjects, specific interests, needs and budget. Programs in English for specific purposes can be arranged to meet industry or academic needs.

Global Summer Entrepreneurship Program

The Global Summer Entrepreneurship Program is an intensive training program designed for business students or mid-career individuals who want to expand their professional horizons. It prepares participants for entrepreneurial careers, focusing on the process and methods involved in starting and growing enterprises. CSUSB's entrepreneurship program is AACSB-accredited and has been honored as a top 35 Global Entrepreneurship Program for Fostering Entrepreneurship. The GSEP faculty come from the top four entrepreneurship programs in the nation, and students also learn from guest speakers who are successful leaders in their industries.

Self-support Degree Programs

The International Extension Programs department offers four self-support master's degree programs to international students: 1) Master of Science in Business and Data Analytics, 2) Master of Science in Cybersecurity and Analytics, 3) Master of Science in Finance, and 4) Master of Arts in Teaching English to Speakers of Other Languages (Accelerated). All four programs provide in-person instruction to international students using an accelerated format. After completing their master's degrees, international students can use the federal Optional Practical Training (OPT) program to work for one year in the USA without any visa sponsorship.

Self-support Post-Graduate Certificate (PGC) Programs

CSUSB's Post-Graduate Certificate (PCG) Programs are offered in a cohort system for domestic and international students, utilizing a fully in-person format. Students take four three-semester unit courses, two in Fall semester and two in Spring semester, for a total of 12 units over 9 months. After completing both semesters, international PGC graduates can use the federal Optional Practical Training (OPT) program to work for one year in the USA without any visa sponsorship. Students who go on to complete a master's degree at CSUSB can qualify for an additional OPT opportunity.

Master of Arts in Teaching English to Speakers of Other Languages (TESOL) (Accelerated)

This program offered online through College of Extended and Global Education (<https://www.csusb.edu/pace/>)

Pending Chancellor's Office approval

The 12-Month Accelerated Master of Arts in Teaching English to Speakers of Other Languages (MA TESOL) Program meets the increasing global demand for skilled English language educators. This program offers international students an immersive and transformative learning experience, equipping them with the pedagogical expertise and practical teaching skills necessary to excel as language teachers in diverse educational settings. Through a carefully curated curriculum and hands-on teaching opportunities, graduates will develop a deep understanding of language acquisition theories, cutting-edge pedagogical approaches, and the cultural sensitivities required to engage learners from diverse linguistic and cultural backgrounds.

1. Admission Requirements:

Suitability for admission to the program will be based on an examination of the applicant's entire application package. In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

1. **Bachelor's Degree:** A bachelor's degree from an accredited college or university, with a cumulative grade point average (GPA) of 2.5 or above.
2. **Transcripts:** Submission to the CSUSB Office of Graduate Studies of official transcripts from all institutions attended. If a transcript is not in English, then the applicant must also send a certified literal English translation of the transcripts, along with the official original-language transcripts with proof of degree, to:

CSUSB Graduate Admissions Office

5500 University Parkway

San Bernardino, CA 92407

1. English Proficiency for International Students:

Applicants whose education has been in a language other than English must submit proof of English ability. They can satisfy this requirement in a number of ways:

1. Submit scores from the Test of English as a Foreign Language (TOEFL) of iBT 79/80 or PBT 550 or higher, taken within the past two years;
2. Submit scores from the IELTS exam of 6.0 or higher, taken within the past two years;
3. Submit scores from the Duolingo English exam of 105 or higher, taken within the past two years; or
4. Complete Level 4 of CSUSB's English Language Program (ELP).

Advancement to Candidacy: In order to be advanced to candidacy, a student must have:

1. Achieved classified standing by completing EESL 5050 and EESL 5300 with a grade of B or better;
2. Applied successfully for classification after having completed 3-18 semester units of applicable course work;
3. Secured approval of candidacy from Watson College of Education;
4. Filed an approved graduate program for completion of the degree, prepared in consultation with an advisor and approved by the program coordinator;
5. Students who completed their bachelor's degree in an English-dominant country must have two semesters or three quarters of study in one or more world languages (not English) at the post-secondary level;
6. Students who completed their bachelor's degree in a non-English-dominant-country must have two semesters or three quarters of study in one or more world languages (not English) at the post-secondary level, or take COMM 1006.

Requirements for Graduation:

1. A minimum of 30 semester units of acceptable graduate-level work, with a minimum of 26 units completed in residence at this university;
2. A grade point average of 3.0 ("B") in all course work taken to satisfy the Master of Arts degree requirements, grades of "C" (2.0) or better in all courses in the program, and grades of B or better in EESL 5050 and EESL 5300;
3. Completion of the Candidate Assessment Portfolio (CAP). Details of the CAP approval process are outlined in the program information materials. The CAP must be completed prior to enrollment in EESL 6980.
4. Successful completion of EESL 6980, to meet the graduation writing requirement.

Required Courses (30)

EESL 5050	Graduate Writing for TESOL	3
EESL 5200	Language Studies for Educators	3
EESL 5300	Technology-Enhanced Language Learning	3
EESL 5500	Listening and Speaking Methods in TESOL	3

EESL 6300	Crosscultural Teaching	3
EESL 6400	Literacy in TESOL	3
EESL 6600	Structure, Function and Acquisition of English	3
EESL 6700	Principles and Practice in TESOL	3
EESL 6800	Research in TESOL	3
EESL 6900	Fieldwork: Teaching English to Speakers of Other Languages	3
EESL 6980	Comprehensive Examination in TESOL (The written comprehensive examination is designed to test the student's knowledge of the field of Teaching English to Speakers of Other Languages. The examination is offered once each quarter and during the summer session. The student may enroll in the examination no earlier than the last quarter in which course work is taken. The student may take the examination (or any part of it) up to three times. Approval to retake the examination may be, at any time, contingent upon completion of additional designated courses.)	0

Master of Science in Business and Data Analytics

The Master of Science in Business and Data Analytics (MSBDA) is designed for a real-world applied experience that blends concepts from business and data science geared towards business applications. Our unique curriculum creates data storytellers and business strategists prepared to make data-driven decisions that increase the competitive business advantage. With this program, graduates will:

- Gain the technical analytical skills and business knowledge to better address business challenges and create strategic solutions.
- Use data analytics to understand the business operating environment.
- Employ data analytics techniques and tools to make informative decisions.

Upon completion of this program, graduates will be job-ready and prepared to create value for their organization after having taken ten analytics courses including a practicum/capstone course designed to reinforce learning and practice skills.

Admission to the Program

Suitability for admission to the program will be based on an examination of the entire application package. In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

- **Bachelor's Degree:** A bachelor's degree from an accredited college or university, with a grade point average (GPA) of 3.0 or above using the entire degree or the last 60 semester (90 quarter) units of coursework, which may include post-baccalaureate work. Students

with significant GMAT/GRE scores and/or professional experience may be admitted into the program with a GPA less than 3.0.

- **Transcripts:** Submission of official transcripts from all institutions attended to CSUSB Office of Graduate Studies. CSUSB students are not required to submit any CSUSB transcripts. If the transcript is not in English, then the student must also send a certified literal English translation of the transcripts along with the official original-language transcripts with proof of degree to:

CSUSB Graduate Admissions Office
5500 University Parkway
San Bernardino, CA 92407

To apply to the MSBDA program, students must use this link: <https://www2.calstate.edu/apply> (<https://www2.calstate.edu/apply/>)

- **Personal Statement:** Academic motivation and personal qualifications demonstrated through submission of a 200- to 250-word statement of reasons for wishing to pursue the Master of Science in Business and Data Analytics at California State University, San Bernardino.
- **English Proficiency for International Students**
An applicant whose education has been in a language other than English must submit proof of English ability. They can satisfy this requirement in a number of ways:
 - Test of English as a Foreign Language TOEFL (iBT 79/80 or PBT 550) taken within the past two years.
 - IELTS exam score of 6.5 taken within the past two years, or
 - Complete level 4 of CSUSB's Intensive English Program (IEP).
- **Resume:** Submission of a current resume. Ensure this document included the months each position began and ended.
- **Letters of Recommendation:** Two letters of recommendation are required. Applicants can submit either two official letters of recommendation on letterhead or have the recommenders use the Letter of Recommendation Form (<https://www.csusb.edu/sites/default/files/RecommendationForm-2021.pdf>).
- **Business Aptitude Requirement:** Applicants for Master of Science in Business and Data Analytics must meet ONE of the following Business Aptitude requirements
 - Minimum two years of post-undergraduate professional and/or managerial experience or industry-relevant certifications.
 - Proof of completion of an accredited graduate degree (e.g., J.D., Ph.D., M.D.) from an accredited college or university with a minimum GPA of 3.0 in the graduate program.
 - Submission of an acceptable score on the Graduate Management Aptitude Test (GMAT) or Graduate Record Exam (GRE).

The current acceptable exam scores with a 3.0 GPA:

GMAT score of 470 (minimum 10% on GMAT Verbal Ability and Quantitative Ability percentile rankings) or a minimum GRE score of 298 (minimum 10% on GRE Verbal Ability and Quantitative Ability percentile rankings).

Based on the student's qualifications, GRE & GMAT may be waived. The petition should be submitted to the program director/committee.

- **Conditionally classified status:** Students who meet all entrance requirements may be admitted to the program in a conditionally classified status. Once students meet the minimum passing level of "B" for BDA 6010 and BDA 6020 (or successfully complete a "credit by exam" for the courses) they will be advanced to classified graduate

standing in the program. Only fully classified students, however, may enroll in the other 6000-level core courses (BDA 6110 or above) unless they have written consent from the IDS Department Chair.

Advancement to Candidacy

To be advanced to candidacy, a student must have:

- Achieved fully classified standing.
- Completed at least 15 semester units of applicable graduate-level course work at the university, with a minimum grade point average of 3.0 ("B"),
- Completed an approved graduate program plan in consultation with a department advisor.

Requirements for Graduation

1. A minimum of 30-semester units of acceptable graduate-level work, consistent with the program plan (with a grade point average of 3.0).
2. Successful completion of the culminating experience project course (BDA 6830) required in the last academic period right before graduation.

Degree Requirements (30 units)

The 30 unit Master of Science in Business and Data Analytics degree program Consists of three "modules". Two modules (1 and 3) consist of three courses (3-unit courses) and one module (2) consists of four courses (3-unit courses).

BDA 6010	Business Systems and Processes	3
BDA 6020	Introduction to Data Analysis for Business	3
BDA 6030	Scripting for Business and Data Analytics	3
BDA 6110	Data Visualization	3
BDA 6120	Business and Data Analytics I	3
BDA 6130	Database for Business Applications	3
BDA 6140	Business and Data Analytics II	3
BDA 6210	Business and Data Analytics III	3
BDA 6220	Contemporary Issues in Business and Data Analytics	3
Culminating Experience		3

Master of Science in Cybersecurity

Offered through College of Extended and Global Education

Advancement to Candidacy

To be advanced to candidacy, a student must have:

1. Achieved fully classified standing;
2. Completed at least 15 semester units of applicable graduate-level course work at the university, with a minimum grade point average of 3.0 ("B");
3. Completed an approved graduate program plan in consultation with a department advisor.

Program Description

The Master of Science in Cybersecurity is designed for real world applied experience that combines both cybersecurity and data analytics skills. This program is designed for graduate students seeking to:

- Strategically manage risk through identification, assessment, and mitigation
- Identify security issues on all levels of organizations and the globe, along with law and compliance
- Use data analytics to understand threats, situational awareness, and strategic cybersecurity environments
- Employ data analytics techniques to detect anomalies, to predict and screen cyber threats, and to take corrective actions.
- Learn penetration testing, incident handling, and data and network protection

Upon completion of this program, graduates will be job-ready and prepared to create value for their organization after having taken analytical and cybersecurity courses as well as a practicum/capstone course designed to reinforce learning and practice skills.

Program Admission

Suitability for admission to the program will be based on an examination of the entire application package. In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

CSUSB Graduate Admissions Office
5500 University Parkway
San Bernardino, CA 92407

The current acceptable exam scores with a 3.0 GPA: GMAT score of 470 (minimum 10% on GMAT Verbal Ability and Quantitative Ability percentile rankings) or a minimum GRE score of 298 (minimum 10% on GRE Verbal Ability and Quantitative Ability percentile rankings).

The current acceptable exam scores with a 3.0 GPA: GMAT score of 470 (minimum 10% on GMAT Verbal Ability and Quantitative Ability percentile rankings) or a minimum GRE score of 298 (minimum 10% on GRE Verbal Ability and Quantitative Ability percentile rankings).

1. **Bachelor's Degree:** A bachelor's degree from an accredited college or university, with a grade point average (GPA) of 3.0 or above using the entire degree or the last 60 semester (90 quarter) units of course work, which may include post baccalaureate work. Students with significant GMAT/GRE scores and/or professional experience may be permitted to join with a 2.5 GPA.
2. **Transcripts:** Submission of official transcripts from all institutions attended to CSUSB Office of Graduate Studies. CSUSB students are not required to submit any CSUSB transcripts. If your transcript is not in English, then you must also send a certified literal English translation of the transcripts along with the official original-language transcripts with proof of degree to:

3. **Personal Statement:** Academic motivation and personal qualifications demonstrated through submission of a 200- to 250-word statement of reasons for wishing to pursue the Master of Science in Cybersecurity at California State University, San Bernardino, and personal qualifications that will contribute to the successful completion of the program.
4. **English Proficiency for International Students:** An applicant whose education has been in a language other than English must submit proof of English ability. They can satisfy this requirement in a number of ways:
 - Test of English as a Foreign Language TOEFL (iBT 79/80 or PBT 550) taken within the past two years.
 - IELTS exam score of 6.5 taken within the past two years, or
 - Complete level 4 of CSUSB's Intensive English Program (IEP).
5. **Resume:** Submission of a current resume.
6. **Letters of Recommendation:** Two letters of recommendation are required.
7. **Business Aptitude Requirement:** Applicants for Master of Science in Cybersecurity must meet ONE of the following Business Aptitude requirements:
 - 3.0 cumulative GPA from a regionally accredited undergraduate program
 - Minimum two years of post-undergraduate professional and/or managerial experience or industry-relevant certifications.
 - Proof of completion of an accredited graduate degree (e.g. J.D., Ph.D., M.D.) from an accredited college or university with a minimum GPA of 3.0 in the graduate program.
 - Submission of an acceptable score on the Graduate Management Aptitude Test (GMAT) or Graduate Record Exam (GRE).

The current acceptable exam scores with a 3.0 GPA: GMAT score of 470 (minimum 10% on GMAT Verbal Ability and Quantitative Ability percentile rankings) or a minimum GRE score of 298 (minimum 10% on GRE Verbal Ability and Quantitative Ability percentile rankings).

8. **Conditionally classified status:** Students who meet all entrance requirements may be admitted to the program in a conditionally classified status. Once students meet the minimum passing level of "B" for IST 6115 (or successfully complete a "credit by exam" for the course) they will be advanced to classified graduate standing in the program. Only fully classified students, however, may enroll in the other 6000-level core courses unless they have written consent from the IDS Department Chair.

Advancement to Candidacy

To be advanced to candidacy, a student must have:

1. Achieved fully classified standing;
2. Completed at least 15 semester units of applicable graduate-level course work at the university, with a minimum grade point average of 3.0 ("B");
3. Completed an approved graduate program plan in consultation with a department advisor.

Requirements for Graduation

1. A minimum of 30 semester units of acceptable graduate-level work, consistent with the program plan (with a grade point average of 3.0), with at least 21 units completed at the university, and at least 21 semester units of 5000-6000-level course work;

2. Successful completion of the required foundation and core courses as outlined in the program curriculum section;
3. After advancement to candidacy, students must complete a culminating experience project course (3 units). Only students who are currently classified, have completed the required foundation and core courses, have been advanced to candidacy, have obtained approval of the MSCA program coordinator, have grades of "B" (3.0) or better, no "incomplete" grades, and are not on probation may do the culminating experience project.

Degree Requirements (30 units)

The 30 unit Master of Science in Cybersecurity degree program Consists of three "modules," each consisting of three courses (one 4-unit course and two 3-unit courses).

Core Requirements (30)

IST 6115	Fundamentals of Cyber Security	4
IST 6117	Network Security 1	3
IST 6125	Law and Policy	3
IST 6215	Network Security 2	3
IST 6232	Risk Assessment & Management	4
IST 6235	Cyber Analytics and Visualization	3
IST 6395	Contemporary Issues and Practices in Cybersecurity 1	3
IST 6397	Contemporary Issues and Practices in Cybersecurity 2	3
Culminating Experience		4
Total Units		30

Master of Science in Logistics & E-Commerce

Offered through College of Extended and Global Education

The Master of Science in Logistics and E-commerce offers a unique blend of managerial and technical capabilities in both logistics and e-commerce that have been recognized and sought after in practice for some time. Students will take courses from CSUSB faculty-scholars as well as active practitioners in the fields of logistics and e-commerce. Graduates will be job-ready and prepared to create value for their organization after having taken analytical courses as well as a culminating experience project designed to allow students to practice and demonstrate their developing critical skills.

Admission to the Program

Suitability for admission to the program will be based on an examination of the entire application package. In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

1. **Bachelor's Degree:** A bachelor's degree from an accredited college or university, with a grade point average (GPA) of 2.75 or above using the entire degree or the last 90 quarter (60 semester) units of course work, which may include post baccalaureate work. Students with a GPA lower than 2.75 will be considered based on work experience and/or GMAT/GRE scores.

2. **Transcripts:** Submission of official transcripts from all institutions attended to CSUSB Office of Graduate Studies. CSUSB students are not required to submit any CSUSB transcripts. If your transcript is not in English, then you must also send a certified literal English translation of the transcripts along with the official original-language transcripts with proof of degree to: CSUSB Graduate Admissions Office, 5500 University Parkway, San Bernardino, CA 92407
3. **Personal Statement:** Academic motivation and personal qualifications demonstrated through submission of a 200 to 250 word statement of reasons for wishing to pursue the Master of Science in Logistics and E-Commerce at California State University, San Bernardino, and personal qualifications that will contribute to the successful completion of the program.
4. **English Proficiency** for International Students: All international applicants who have not completed three years of full-time study at the secondary or post-secondary level where English was the language of instruction must also achieve an acceptable score, as determined by the Information and Decision Sciences Department, ratified by the College Curriculum Committee, and in alignment with the Office of Graduate Studies requirements on the Test of English as a Foreign Language (TOEFL), the IELTS exam or complete CSUSB's ESL program. The current minimum acceptable TOEFL score is 550/PBT, 213/CBT, 79-80/IBT taken within the past two years; IELTS score of 6.5 taken within the past two years; or complete level 6 of CSUSB's Intensive English Program.
5. **Additional requirement for international students:** International students must also submit a completed affidavit of financial support form.
6. **Resume:** Submission of a current resume
7. **Letters of Recommendation:** Two letters of recommendation are required;
8. **Business Aptitude Requirement:** Applicants for Master of Science in Logistics and E-Commerce must meet the Business Aptitude Requirement by submission of an acceptable score on the Graduate Management Aptitude Test (GMAT) or Graduate Record Exam (GRE). The current acceptable exam scores with a 2.75 GPA: GMAT score of 470 (minimum 10% on GMAT Verbal Ability and Quantitative Ability percentile rankings) or a minimum GRE score of 298 (minimum 10% on GRE Verbal Ability and Quantitative Ability percentile rankings).

An applicant may request waiver of the GMAT upon proof of completion of graduate work (e.g., J.D., Ph.D., M.D., etc.) from an accredited U.S. college or university, or upon meeting other GMAT waiver criteria as set by the department.

If GMAT or GRE score is not submitted by the deadline for admission, admission status will be "unclassified post-baccalaureate" unless the GMAT or GRE requirement has been waived.

9. **Conditionally classified status:** Students who meet all entrance requirements may be admitted to the program in a conditionally classified status until the Foundational Course requirements are met. Once students meet the minimum passing level of "B" for each of the two Foundational Courses (ADMIN 6010 & ADMIN 6020) they will be advanced to classified graduate standing in the program. Only fully classified students, however, may enroll in the other 6000-level core courses unless they have written consent from the college graduate director.

Advancement to Candidacy

To be advanced to candidacy, a student must have:

1. Achieved fully classified standing;
2. Completed, at least 20 semester units of applicable graduate-level course work at the university, with a minimum grade point average of 3.0 ("B");
3. Completed an approved graduate program plan in consultation with a department adviser.

Requirements for Graduation

1. A minimum of 30 semester units of acceptable graduate-level work, consistent with the program plan (with a grade point average of 3.0), with at least 21 units completed at the university.
2. Successful completion of the culminating experience project course (SCM 6910) required in the last academic period right before graduation.

Degree Requirements (30 units)

Foundation Courses (6)

ADMN 6010	Data-Driven Decision Making	3
ADMN 6020	Advanced Managerial Communications	3

Core Courses (21)

SCM 6070	Managing the Supply Chain	3
SCM 6400	Supply Chain Security and Blockchain	3
IST 6090	Information Systems and Technology Management	3
SCM 6200	Integrated Logistics Management	3
SCM 6300	Warehouse and Distribution Management	3
MKTG 6500	E-Commerce	3
IST 6800	Advanced E-commerce Technologies	3

Culminating Experience (3)		3

Master of Science in Physician Assistant

The 27-month Master of Science in Physician Assistant (MSPA) program will prepare students for a successful career as a physician assistant. The program consists of two distinctive parts, including the didactic phase and clinical phase. The 15-month didactic phase includes interactive sessions, group work, case-based learning, interprofessional experiences, and early clinical experiences. The 12-month clinical phase includes supervised clinical practice experiences (i.e., clinical rotations), callback sessions, and practical examinations. This full-time, cohort-style program culminates with a summative evaluation, which includes written and practical components. Through didactic instruction and supervised clinical practice experiences, students will acquire the knowledge and

skills required to sit for the physician assistant national certifying exam (PANCE®) and apply for state licensure.

All MSPA courses will be fully in person, unless there are extenuating circumstances requiring a change in designated courses. These designated courses have been selected by the MSPA program for optional (online or hybrid) format. Course modality will only be changed from in-person to another modality with official approval by the Program Director.

Admission to the Program

There are nine (9) admission criteria for the CSUSB MSPA program:

- CASPA and Supplemental Applications
- Cal State Apply Application
- Bachelor's Degree
- Grade Point Average (GPA)
- Prerequisite Coursework
- Clinical Experience
- Letters of Reference
- Standardized Entrance Exams
- Technical Standards

1. Centralized Application Service for Physician Assistants (CASPA) and Supplemental Applications

- The CASPA application and CSUSB supplemental application (embedded within CASPA) must be submitted by 8:59PM Pacific Standard Time (PST)/11:59PM Eastern Standard Time (EST) on December 1. The CASPA application requires a fee (or fee waiver), but there is no additional fee for the CSUSB supplemental application.

2. Cal State Apply Application

- Once accepted to the CSUSB MSPA Program, students are required to complete the Cal State Apply application. Fee waivers may be available.

3. Bachelor's Degree

- A bachelor's degree (in any discipline) must be completed no later than June 30 of the matriculation year.

4. Grade Point Average (GPA)

- The GPA (as calculated by CASPA) must meet the following requirements at the time of application:
 - a. 3.0 Overall GPA or 3.2 last 60 credits GPA
 - b. 3.0 Science GPA or 3.2 Prerequisite GPA

5. Prerequisite Coursework

- All prerequisite coursework must be completed with a grade of C (2.0 on a 4.0 scale) or higher at a regionally accredited institution in the United States. These courses must also be completed within 10 years of the application deadline. Applicants are permitted to have up to two prerequisite courses in progress at the time of application submission. However, no more than one science prerequisite course can be in progress after December 31 of the application year. All prerequisites must be completed no later than June 30 of the matriculation year.
- Students who complete introductory courses, accelerated courses (e.g., completed in six to eight weeks), and Pass/Fail courses (completed prior to the COVID-19 pandemic)

are **strongly** encouraged to take additional courses in the prerequisite content area. Online courses are accepted if they are 1) taken at a regionally accredited institution and 2) equivalent in depth and content to in-person courses.

- The seven (7) required courses include:

(1) Microbiology (minimum of 3 semester hours/units or 4 quarter hours/units):

- e.g., BIOL 2200 Microbiology for Allied Health Majors (4 units) or BIOL 3200 Microbiology (4 units)

(2) Human Anatomy and Physiology with lab (minimum of 8 semester hours/units or 10 quarter hours/units):

- Option 1: Two sequential courses covering the full human body.
 - e.g., BIOL 2230 Human Anatomy and Physiology I for Allied Health Majors (4 units) and BIOL 2240 Human Anatomy and Physiology II for Allied Health Majors (4 units)
 - e.g., BIOL 4630 Human Anatomy and Physiology I (5 units) and BIOL 4640 Human Anatomy and Physiology II (5 units)
- Option 2: Two separate courses that individually cover the full human body.

(3) Additional Biological Science (minimum of 3 semester hours/units or 4 quarter hours/units):

- e.g., BIOL 3300 Genetics (4 units), BIOL 3100 Cell Biology (4 units), BIOL 3120 Molecular Biology (4 units), or BIOL 5370 Immunology (5 units)

(4) Chemistry with lab (minimum of 4 semester hours/units or 5 quarter hours/units):

- General Chemistry: e.g., CHEM 2100 General Chemistry I (4 units) with CHEM 2100L General Chemistry I Laboratory (1 unit) or CHEM 2200 General Chemistry II (4 units) with CHEM 2200L General Chemistry II Laboratory (1 unit) or

(5) Additional Chemistry (minimum of 3 semester hours/units or 4 quarter hours/units):

- Lab not required, but highly recommended
- e.g., CHEM 2400 Organic Chemistry I Lecture (3 units), CHEM 3400 Principles of Organic Chemistry I (5 units), CHEM 4100 Biochemistry I (5 units), or CHEM 2300 Organic Chemistry for Life Sciences (4 units).

(6) Statistics (minimum of 3 semester hours/units or 4 quarter hours/units):

- e.g., MATH 1201 Introduction to Statistical Thinking (3 units), KINE 3700 Statistics in Kinesiology (3 units), HSCI 2203 Introduction to Statistics in Health Sciences (3 units), HSCI 3205 Biostatistics for Health Science (3 units), or PSYC 2210 Psychological Statistics (4 units)

6. Clinical Experience

- A minimum of 1,000 clinical experience hours must be completed at the time of application.

7. Letters of Reference

- A minimum of three letters must be received at the time of application.
 - a. One letter from a practicing clinician (M.D., D.O., PA, or NP) or member of healthcare team.
 - b. Two letters from a:
 - Practicing Clinician,
 - Member of the healthcare team,
 - Professor (academic or research), or
 - Professional reference.

8. Standardized Entrance Exams

- No standardized entrance exams (i.e., GRE®, PA-CAT, MCAT®, CASPer®) are required for admission into the MSPA program. However, international applicants may be required to complete an English Proficiency Exam.

9. Technical Standards

- Applicants must meet the CSUSB MSPA Program Technical Standards to enroll in the program.

Transfer Credits and Exemptions

Advanced Placement (AP), College Level Examination Program (CLEP), and International Baccalaureate (IB) credits cannot be used towards the prerequisite course requirements.

Applicants who earned an advanced degree in clinical or health sciences within 10 years of the application deadline may be eligible for an exemption from prerequisite courses. All applicable coursework must be completed with a grade of B or higher (3.0 on 4.0 scale) at a regionally accredited institution in the United States. Applicants must submit all required documentation (i.e., transcripts, course descriptions) to the Admissions Chair for consideration. The Admissions Chair will review to determine if courses completed through the advanced degree will fulfill the program's prerequisite course requirements. All decisions are final.

Advanced Standing

Credits from any prior course work cannot be used to provide advanced standing within the MSPA program. All admitted students must complete the full didactic and clinical phases of the CSUSB MSPA program to graduate.

Pre-matriculation Course Requirement

The following course is a pre-matriculation course requirement (not prerequisite), which can be completed before or after application to the program.

- Medical Terminology
 - Option 1: Medical Terminology course (minimum of 1 semester or quarter hour) from a regionally accredited institution
 - Option 2: Medical Terminology certificate from a regionally accredited institution

For further details, please visit the CSUSB MSPA Program website: <https://www.csusb.edu/mspa>

Advancement to Candidacy

In order to be advanced in candidacy, the student must have:

1. Achieved classified status;
2. Complete the End-of-Didactic Curriculum Written Exam (MSPA 6202) in semester 4 before advancing to the clinical phase of the program with a score of #80%.
3. Completed each semester's required coursework with a minimum grade point average of 3.0 ("B") or greater*;
4. Met the program's requirement for engaging in student advising and demonstrating professionalism per the *MSPA Program Student Handbook*;
5. Receive approval by the program's Student Promotion Committee.

* Any student falling below a 3.0 ("B") semester average at the time of candidacy review will have their eligibility for candidacy defined within their academic probation or remediation plan.

Requirements for Graduation

1. Successfully complete all coursework according to program defined academic standards. The coursework is a total of 123 credit hours, which includes 78 credit hours in the didactic phase and 45 credit hours in the clinical phase.
2. Complete at least 70% (86 credit hours) or more of the required units of course work in residence in the program at CSUSB.
3. Maintain a minimum cumulative GPA of 3.0 ("B") or greater at program completion.
4. Successfully pass each component of the Summative Evaluation with an 80% or higher at the conclusion of the program to demonstrate achievement of all CSUSB MSPA Program Learning Outcomes and Competencies.
5. Complete the board review preparation course for the Physician Assistant National Certification Examination (PANCE) provided by the MSPA program.
6. Be in good professional standing with the MSPA program and CSUSB.
7. Complete the CSUSB graduation application process prior to the established deadlines.
8. Meet all CSUSB financial requirements and obligations, which includes ensuring there are no outstanding tuition payments, program fees, graduation fees, library charges, or other institutional fees.
9. Complete the MSPA program within the maximum time-to-completion, which is 150% of the program length (Please refer to the MSPA Program Student Handbook for further details). Deceleration and remediation must also be completed within this timeframe. Delays due to approved personal or medical leaves of absence are excluded from the maximum time-to-completion requirement. (Please refer to CSUSB's "Leave of Absence" policy, which is referenced in the MSPA Program Student Handbook.)

Culminating Experience

MSPA 6980	Comprehensive Examination	0
Total Units		0

The MSPA program's culminating experience is a comprehensive examination, which is designed to assess the clinical and technical

skills, medical knowledge, clinical reasoning and problem-solving skills, interpersonal skills, and professional behaviors acquired throughout the physician assistant (PA) program. This comprehensive and integrative written and practical examination evaluates the competency and preparedness of students to function effectively as competent and compassionate healthcare providers ready to enter clinical practice.

Stater Bros. Markets Bachelor of Arts in Applied Business

Pending Office of the Chancellor approval

Offered online through the College of Extended and Global Education

The fully online Stater Bros. Markets Bachelor of Arts in Applied Business degree completion program is designed for students who wish to acquire knowledge, skills and abilities needed to fill the in-demand managerial and entrepreneurial jobs in the region. The primary goal of the new B.A. is to expand opportunities for prospective students in the Inland Empire seeking a bachelor's degree in applied business. The core objectives of this renovation are centered around enhancing the program's overall reach and effectiveness. This includes elevating student success; eliminating pre-requisite bottlenecks; enhancing the overall student learning experience; increasing enrollment and graduation rates; and reaching an underserved, working, adult student population. This program is explicitly tailored for students aspiring to acquire the knowledge, skills, and abilities crucial for securing sought-after managerial positions across various employment sectors.

Admission Requirements

Generally, applicants will qualify for consideration as upper division-transfer admission if they meet all of the following requirements:

- Cumulative grade point average of at least 2.0 in all transferable units attempted.
- In good standing at the last college or university attended; and
- Completed at least sixty (60) transferable semester (90 quarter) units of college level coursework with a grade point average of 2.0 or higher and a grade C or better in each course used to meet the CSU general education requirements in written communication, oral communication, critical thinking, quantitative reasoning, e.g. mathematics.

The Program will be open to upper-division transfer students that have been fully certified by a California Community College. The Program will be delivered in a self-support mode in an online format that consists of only upper division courses. Students can transfer an equivalent of up to 66 semester units.

In addition to the transfer units, all students must complete an additional total of at least 54 semester units at CSUSB to meet the graduation requirement of 120 units.

The Associate in Arts for Transfer (AA-T) and the Associate in Science for Transfer (AS-T) degrees offered at the California Community Colleges (CCC) are designed to provide a California community college student the optimum transfer preparation and a clear admission pathway to the CSU degree majors.

CCC students who earn an Associate Degree for Transfer (AA-T or AS-T) are guaranteed admission with junior standing to a CSU and given priority admission over other transfer applicants when applying

to a local CSU campus or non-impacted CSU program. AA-T or AS-T admission applicants are given limited priority consideration based on their eligibility ranking to an impacted campus/program or to campuses/programs that have been deemed similar to the degree completed at the community college. Students who have completed an AA-T/AS-T in a program deemed similar to a CSU major are able to complete remaining requirements for graduation within 60 semester (90 quarter) units. It is the responsibility of the student who has earned an AA-T/AS-T to provide documentation of the degree to the CSU campus.

Degree Requirements (45 units)

Bachelor of Arts in Social Sciences

Offered online through the College of Extended and Global Education

This program is designed for students who wish to build a unique BA in Social Sciences program that suits their interests and professional goals OR for those who wish to teach social science subjects in California's schools, middle school through high [school](#).

For those interested in teaching, in addition to this coursework, students will have to pass 2 California pre-credential exams in order to be admitted into a Teaching Credential Program, post-BA: the California Subject Examination for Teachers (CSET), which encompasses knowledge and understanding primarily of history, but also economics, [geography](#), political [science](#), [psychology](#), and [sociology](#) and the California Basic Educational Skills Test (CBEST) which is comprised of three subtests: basic math, reading, and writing skills for individuals planning a career in teaching.

Students are required to complete 30 units in the Core discipline of Social Science. Students may choose an alternative Core set of courses or discipline in consultation with an Advisor or the Program Coordinator.

Students choose a Concentration from one of the following disciplines and complete a total of 15 units: child development, economics, geography, history, political science, psychology, or sociology. Included in the core, students will choose take an additional 12-units in one field outside of their Concentration. Field from child development, economics, geography, history, political science, psychology, or sociology. Students may choose

an alternative Concentration set of courses or discipline in consultation with an Advisor or the Program Coordinator.

Students interested in pursuing Teaching are encouraged to see their Social Science advisor early in their program for assistance in choosing courses.

For those with interests outside of teaching in multidisciplinary and individualized programs, this program is also designed for students with a varied set of academic and career interests. Students develop skills in areas that are deemed crucial in a wide array of contemporary professions: Globalism, [Multiculturalism](#), and Intercultural Fluency, Critical Thinking and Problem Solving, Oral and Written Communication, Teamwork and [Collaboration](#), and Professionalism and Work [Ethics](#). For students interested in the multidisciplinary and individualized programs, it is recommended that you first meet with an Academic Advisor in order to develop your program. All multidisciplinary and individualized programs must be approved by the BA in Social Sciences Coordinator.

Additionally, students looking to enhance their career prospects may elect to complete up to 6 units of [SSCI 5750](#) Internship and 6 units of [SSCI 5950](#) Independent Studies, for a total of [3-12](#) units, with the consent of the Program [Coordinator](#).

Requirements (45 units)

Total units required for graduation: 120

Requirements for the B.A. in Social Sciences

Core requirements (30)

Twelve units chosen from: 12

SSCI 3000	Global Issues and Perspectives
or SSCI 3001	Global Issues and Perspectives
SSCI 3010	Revolutions and Revolutionary Ideas
or SSCI 3011	Revolutions and Revolutionary Ideas
SSCI 3020	The 20th Century World
SSCI 3160	Race and Racism
SSCI 3250	Perspectives on Gender
SSCI 3290	Topics in Social Science
SSCI 3320	Understanding Capitalism
SSCI 3390	Climate Change

Six units chosen from: 6

SSCI 3060	Expository Writing for the Social Sciences
SSCI 5940	Senior Seminar

Students take an additional 12-units in one field outside of their concentration from the following: 12

Child Development (CD 2240 + 9 upper division units of CD courses)
Economics (12 upper division units of ECON courses)
Geography (12 upper division units of GEOG courses)
History (12 upper division units of HIST courses)
Political Science (12 upper division units of PSCI courses)
Psychology (12 upper division units of PSYC courses)
Sociology (SOC 1000 + 9 upper division units of SOC courses)

Concentration (15)

Students must complete 15 units in one of the concentrations listed below or design their own Primary Concentration in consultation with the Program Coordinator:

Post-Graduate Certificate in Hospitality and Tourism Management

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

- 1. impart specified professional/vocational/career competencies; or
- 2. produce mastery of the content of a sub-field of an academic major (discipline); or
- 3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 6000-level courses as requirements and/or electives. These 6000-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

The Post-Graduate Certificate in Hospitality and Tourism Management focuses on the managerial skills needed for today's dynamic and competitive global business environment. Designed for recent graduates or professionals aiming to enhance their leadership abilities and strategic thinking, this program covers key areas such as organizational behavior, marketing, services management, quality assurance, cultivating innovation, and strategic planning. The curriculum combines theoretical knowledge with real-world applications where students gain critical insights into effective management practices and decision-making processes. Concept development projects, case study analysis, and problem-based consulting assignments measure learning outcomes and assessments. The certificate is ideal for those seeking to advance their careers, transition into management roles, or deepen their understanding of business theories, concepts, and operations. The certificate entails 12 semester units.

HOSM 5100	Innovation in Hospitality	3
HOSM 6200	Hospitality Services Management	3
HOSM 6300	Contemporary issues in Hospitality and Tourism	3
MKTG 6050	Marketing Management	3

Courses A-Z

Course Numbering System

1-999	Nondegree-applicable credit.
1000-2999	Lower-division courses designed for first and second-year students. Graduate credit is not allowed.
3000-4999	Upper-division courses for third and fourth-year students.
5000-5999	Upper-division courses for third and fourth-year students; graduate credit may be awarded if course is accepted in a specific graduate program.
6000-6999	Courses for postbaccalaureate and graduate students only. May not be taken by undergraduates.
7000-7999	Courses for doctoral candidates only.

Art History Courses

AH 1103. Art History Methodologies 1. Units: 3

Introduction to methodologies in art history and research: how to navigate archives, collections, libraries, and art bibliographies to obtain peer-reviewed art historical scholarship. Engage in critical reading and analysis, and learn practices of writing for art history. Broad survey of examples from the fine arts and design. Materials fee required. Satisfies DI, G, & WI designations.

AH 1104. Art History Methodologies 2. Units: 3

Survey of historical traditions, mythologies, and exhibitions types in the fine arts and design. Focus on understanding methodologies of art history and research into specific themes of art in the global context. Broad range of fine arts and design examples used. Materials fee required. Satisfies DI, G, & WI designations.

AH 1120. Globalization, Art, and Visual Culture. Units: 3

Introduces definitions and concepts for the term globalization through a critical inquiry into visual culture. Providing an overview of historical world art and contemporary global art, and an update on the conditions of globalization in the 21st century, this course will reveal how global issues, global communities, and digital forms of communication are more and more constructed through visual expressions. Satisfies DI, G, & WI designations. Materials fee required.

AH 1221. Art History Foundations 1. Units: 3

Introduction and survey of periodizations such as premodern, modernity/modernisms, postmodernisms, digimodernisms, and beyond as a defining time-categorization of art history in the globalized field of art and design. Exploration of terms and meanings of art historical periodization is conducted in different cultural contexts. Broad range of fine arts and design examples explored. Materials fee required. Satisfies DI, G, & WI designations.

AH 1222. Art History Foundations 2. Units: 3

Introduction to and survey of discourses and theories used in art historical interpretation and analyses, including but not limited to studies in viewing and reception of art, material and immaterial conceptions of art and philosophy, colonial/postcolonial discourses for artistic heritages, and the different theories on exhibiting art in museums and in galleries. Broad range of fine arts and design examples explored. Materials fee required. Satisfies DI, G, & WI designations.

AH 3210. Visualizing Gender, Performing Identity. Units: 3

This course examines the ways in which gender, ethnicity, race, sexuality, and disability are visual forms of identification, in addition to how identities are performed through stylized repetitions accepted as social norms across diverse cultural communities. From prehistory forward, visual forms for expressing gender have been a part of every culture globally since the earliest traceable representations of the feminine or masculine, heteronormative, queer, raced, and disabled identifications. Materials fee required. Satisfies GE C4/UD-3, DI, G, W designations.

AH 3250. Topics and Themes of Art History and Exhibitions. Units: 3

Concentrated studies in art historical or exhibitionary topics and themes that could include historical movements, periods, image programs, patronages, artists, groups of artists, and events related to art, design and/or exhibitions in the global context. Topical studies include but are not limited to social or political studies of a particular focus in relation to a specific culture or region. May be repeated twice for a total of six units as topics change. Materials fee required. Satisfies DI, G, & WI designations.

AH 3310. Asian Contemporary Art. Units: 3

Exploration of aesthetic experiences of the contemporary visual arts of Asian cultures such as China, India, Korea, and Japan. Examination of Asian contemporary culture through the study of diverse Asian artistic practices. Satisfies GE D4/UD-4, DI, G destinations, and Global Connections pathway.

AH 3350. Contemporary Art and Culture of the Americas. Units: 3

Exploration of arts of the Americas since the mid 20th century through the present. Study of aesthetic experiences of contemporary arts and cultures across the hemisphere. Focus on colonial/decolonial discourses in the region that goes from Canada to Tierra del Fuego and that includes the multilingual Caribbean, Latinx cultures in the United States and their diasporas. Examination of contemporary culture in the Americas through the study of diverse artistic practices and discourses. Satisfies GE D4/UD-4, DI, G destinations, and Global Connections pathway.

AH 4250. Art History Seminar. Units: 3

Concentrated studies in art and design history and/or exhibition discourses, theories, methodologies, philosophies, traditions, mythologies, and cultural/aesthetic approaches as they relate to artists and artworks, designers and works of design. This discursive approach to the subjects of art, design, and exhibitions engages in the literature and structures of art historical knowledge. May be taken two times for six units, as topics change. Satisfies DI, G, and WI designations. Materials fee required.

AH 5250. Art History Capstone Research Seminar. Units: 3

Seminar course, developing subject matter, discursive context, research methods, bibliography, and photographic images for final Art History project. Satisfies DI, G, and WI designations. Materials fee required.

AH 5270. Art History Capstone Research Methodology. Units: 3

Methodology course, specifically focusing on further development of research methods, writing methodology, refining bibliography and photographic images for final Art History project. May be taken three times for a total of nine units. Materials fee required.

AH 5290. Art History Conference. Units: 3

The culminating project for undergraduate art history. Preparation of paper and presentation for the annual on-campus Art History Student Conference, for completion of the BA in Art History. Coursework will also be prepared for publication. Satisfies DI, G, and WI designations. Materials fee required.

AH 5753. Internship in Art History. Units: 3

Supervised learning on-site with a museum, gallery, arts organization, local community partner, or other relevant project in the field. Requires 90 hours at the internship site during the term. May be taken two times for 6 units. Graded Credit/No Credit.

AH 5953. Independent Study. Units: 3

Academic, art historical or community-based research in the arts conducted under the direction of a faculty member. Enrollment is dependent on the consent of instructor and departmental approval of a written proposal of a project submitted by the student in advance of course. May be three time for nine units.

Arts of Letters Courses

CAL 1000. You/U: Applied Humanities and Arts. Units: 3

Application of arts and humanities concepts to writing, critical thinking, academic inquiry and creating projects. You/U courses address the relationship of students (you) to the University (U). In addition to providing applicable arts and humanities skills in the university setting, this course seeks to cultivate students' lifelong appreciation of humanities in their personal and professional lives.

CAL 1110. Reacting to the Past: Humanities Perspectives. Units: 3

Courses employ a pedagogy in which students learn by taking on roles, informed by classic texts, in elaborate games set in the past; they learn skills in speaking, writing, critical thinking, problem solving, leadership, and teamwork in order to prevail in difficult and complicated situations. That is because Reacting roles, unlike those in a dramatic play, do not have a fixed script and outcome. While students will be obliged to adhere to the philosophical and intellectual beliefs of the historical figures they have been assigned to play, they must devise their own means of expressing those ideas persuasively, in papers, speeches or other public presentations. Satisfies Big Ideas that Change the World: Exploring Ideas, Innovations, Discoveries pathway.

CAL 1120. Global You/U. Units: 3

An exploration of the multifaceted interconnections between global and local cultures. You/U courses allow students (You) the opportunity to learn and explore in a university setting (U). In addition to providing applicable academic skills, this course is designed to help students study the impacts of a globalized world. Satisfies G designation, Global Connections pathway.

CAL 1130. Digital You/U. Units: 3

An exploration of the multifaceted aspects of digital life and its impact. This course aims to provide students with a strong foundation as they begin their journey in the university. Satisfies Digital Life pathway.

CAL 1140. Sustaining a Life in the Arts. Units: 3

An introductory course designed to equip students for lifelong understanding and development of themselves as integrated physiological, social, and psychological beings who live and work in the arts (music, theater, visual arts, design, film/video, and dance). Topics addressed in this course are grouped into three areas: academic success, personal success, and career success.

CAL 1500. Digital Humanities and Arts. Units: 3

A close look at the evolution of the connections between technology and humanities through historical, cultural and socio-political lenses, reflecting the diverse perspectives of race, gender, class through the arts, media, and culture. It addresses the extent to which digital humanities affects our consumption of written and visual information, our sense of "self" and the society. Satisfies GE C1/3A, DI designation.

CAL 1804. Rock and Roll: Justice and Society. Units: 3

Exploration of the evolution of rock and roll through a historical and socio-political context. The history of rock and roll and its emergence from Post World War II and its development through the second half of the 20th century through the present day are intertwined with the problematic issues of economics, race, gender, equality, politics, sexual orientation, class and culture. Satisfies GE C1/3A, DI designation. Course offered as CAL 1804 and MUS 1804, students may not receive credit for both.

CAL 2970. Liberal Studies: Foundation Seminar and Assessment Preparation. Units: 3

Introduction to the Liberal Studies and Liberal Arts majors with special emphasis on lifelong learning, student success strategies, information literacy, senior assessment preparation, introduction to requirements leading to a multiple subject teaching credential, and inquiry into the roles of emerging educators and scholars within a broader society.

CAL 3000. Foundations and Theoretical Concepts of Immersive Storytelling and Emerging Technologies. Units: 3

This course serves as a foundation for the Certificate Program and Minor in Immersive Storytelling, Design, and Innovative Marketing Communication. In CAL 3000, students are introduced to narrative, including its structures, concepts, and methods. The first module investigates the formats and schemas of storytelling; the second explores narratives from communication and strategic communication perspectives (including empirical research approaches); and the third specifically covers story in immersive media.

CAL 3010. Extended Reality, Storytelling, and World Building. Units: 3

How do individual experiences create collective meaning-making? Can digital mediation technologies transform space into place? What sort of power structures and visual lexicons informs our spatial understanding? Will my app work today? We will explore these questions and more through the foundational effort of world-building commingled with augmented reality tech and the centuries-old craft of storytelling. You will consider how you will "hack" or re-imagine spaces around you. Our gestures will be writing, sketching, storyboarding, and digital imaging, culminating in interactive projects that share our experiments, create engagement, and stimulate new curiosities. One hour lecture and six hours lab per week.

CAL 3020. Story-driven Game Design. Units: 3

This course introduces the practices of designing and creating interactive 3D game experiences to support fiction and non-fiction storytelling. Students will ideate, design, and prototype using the practices of creative conceiving, interaction design, level design, and sound design. Students will also learn to interpret story-driven game experiences and playtest their creations. Two hours lecture and three hours lab per week.

CAL 3030. Immersive Storytelling, Product Design, and Integrated Marketing Communication. Units: 3

This course explores how to use immersive storytelling theories and technologies, such as virtual reality, augmented reality, and mixed reality, to design and implement engaging and memorable product and/or service experiences that connect with customers on a deeper level. Students will also learn how to integrate immersive storytelling campaigns into their overall marketing strategy, as well as the fundamental principles of marketing: including market segmentation, targeting, positioning, and the marketing mix. Course equivalent to CAL 3030; credit may not be awarded for both.

CAL 3250. Perspectives on Gender. Units: 3

This interdisciplinary course uses scientific, humanistic, and social science perspectives to foster an understanding of how gender functions in individual lives, societies, and cultures. (Offered as CAL 3250, SSCI 3250 and NSCI 3250. Students may receive credit for only one of these courses.) Satisfies GE C4/UD-3, DI designation.

CAL 3300. Arts and Ideas in A Changing Global World. Units: 3

An interdisciplinary exploration of the interaction between fundamental ideas (truth, goodness, beauty, freedom, equality, justice) and the arts (music, literature, visual arts, dance, cinema, theater) in a changing global world, as seen from philosophical, cultural and historical perspectives. Satisfies GE C4/UD-3, DI, G designations.

CAL 3350. Latinx Border Identity: A Transmedia Perspective. Units: 3

Analysis of the way in which Xicanx/Latinx Border identity has been represented, shaped, fixated, and contested throughout various art and media formats. Examination of the imagined Latinx border identity through the analysis of short-form media samples (i.e. postcards, songs, films, short stories). Satisfies GE C4/UD-3, DI, G designations.

CAL 3400. Enduring Questions in Literature, Culture, and Society. Units: 3

A variable topics class that probes global questions of enduring interest by reading literature in an interdisciplinary context (unlimited by periods and national literatures). Satisfies GE C4/UD-3, G designation.

CAL 3440. Ideas in American Literature and Culture. Units: 3

A close examination of recurring key ideas in American culture, from Colonial times to the present, as seen in literature, poetry, and thought. Satisfies GE C4/UD-3.

CAL 3550. LGBTQ+ Issues in the Humanities. Units: 3

Explores the diversity of LGBTQ+ communities and issues through the various ways the community processes and documents experiences in the contexts of culture, expression, and identity. Examination of how LGBTQ+ identity intersects with other forms of difference, including ethnicity and socioeconomic status. The course will weave together, through discussion, critique, and research, a variety of texts, published personal narratives, popular media, fiction and students' own observed and lived experiences. Satisfies GE C4/UD-3, DI, G designations.

CAL 3700. African Arts Heritage. Units: 3

The various threads of arts and culture (visual arts, theatre, music, dance, and literature) are traced from their origins on the African continent through their cultural retention and presentation in the Americas from the 16th century to the present. Satisfies GE C4/UD-3, DI, G designations.

CAL 3750. Exploring the World of Islam. Units: 3

Semester Prerequisite: junior or senior standing
Exploration of classical and contemporary literary works from and about the Muslim World. Interpretation of different genres from scriptural, biographical, legal, socio-cultural, political, and multiple other sources. Formerly offered as HUM 375. Satisfies GE category C4; DI designation; G designation.

CAL 3888. Asian Humanities in a Globalized World. Units: 3

A close examination of various aspects of Asian humanities. Explores meanings, applications, and misconceptions of Asian thought, characteristics, practices and cultural traditions. Topics also include historical experiences and cultural contributions of Asian Americans to American society. Satisfies GE C4/UD-3, DI, G designations, Diversity and Social Justice, Global Connections minors, Diversity and Social Justice, Global Connections, World Cultures and Diversity pathways.

CAL 3970. Gateway to Liberal Studies. Units: 3

Interdisciplinarity in a diverse K-8 classroom. Disciplinary and theoretical preparation for learning and teaching in California's elementary schools. Overview of the required multiple subjects and interdisciplinary knowledge. Discussion of theories and their corresponding pedagogies in light of a student body with different learning abilities and from a multiplicity of ethnic, linguistic, and cultural backgrounds. Consent required.

CAL 4000. The Artist Entrepreneur: Innovation and Leadership in the Arts. Units: 3

Answers the question what and who is an entrepreneur? Examines the creative intersection between entrepreneurship and the arts, and specifically addresses the basics of creativity, ideation, and the freedom mindset.

CAL 4100. The Artist Entrepreneur's Toolkit. Units: 3

Explores the nuts and bolts of small business management skills necessary for an entrepreneurial venture in the arts. Topics surveyed will include, but are not limited to, the basics of finance, accounting, taxation, and legal considerations such as copyright, in addition to marketing and advertising.

CAL 4200. Venture Ideation, Analysis, and Development in the Arts. Units: 3

Reviews the concept of ideation and examines the intersection between ideas and opportunities in the arts. Topics include, but are not limited to, pattern recognition, rapid opportunity analysis, resources, and the development of sustainable business models.

CAL 4300. The Artist Entrepreneur Launch. Units: 3

Semester Prerequisite: CAL 4000, CAL 4100, and CAL 4200

Examines the process and methods necessary for launching an entrepreneurial enterprise in the arts. Discusses the entrepreneurial and artistic qualities that are key to establishing a successful enterprise and career in the arts. Culminates in a practicum project for the minor Entrepreneurship in the Arts.

CAL 5751. Internship in Humanities. Unit: 1

Semester Prerequisite: One upper-division course in the humanities in the field in which the student will be working or equivalent or consent of instructor. Quarter Prerequisite: one upper-division course in the humanities in the field in which the student will be working or equivalent or consent of instructor

Supervised intensive work that requires advanced skills in the humanities in private or public organizations. Generally assumes 45 hours of work/study per unit of credit. A total of eight units may be applied toward graduation. Formerly HUM 575A.

CAL 5752. Internship in Humanities. Units: 2

Semester Prerequisite: One upper-division course in the humanities in the field in which the student will be working or equivalent or consent of instructor. Quarter Prerequisite: One upper-division course in the humanities in the field in which the student will be working or equivalent or consent of instructor

Supervised intensive work that requires advanced skills in the humanities in private or public organizations. Generally assumes 45 hours of work/study per unit of credit. A total of eight units may be applied toward graduation. Formerly HUM 575B.

CAL 5753. Internship in Humanities. Units: 3

Semester Prerequisite: One upper-division course in the humanities in the field in which the student will be working or equivalent or consent of instructor. Quarter Prerequisite: One upper-division course in the humanities in the field in which the student will be working or equivalent or consent of instructor

Supervised intensive work that requires advanced skills in the humanities in private or public organizations. Generally assumes 45 hours of work/study per unit of credit. A total of eight units may be applied toward graduation. Formerly HUM 575C.

CAL 5754. Internship in Humanities. Units: 4

Semester Prerequisite: One upper-division course in the humanities in the field in which the student will be working or equivalent or consent of instructor. Quarter Prerequisite: One upper-division course in the humanities in the field in which the student will be working or equivalent or consent of instructor

Supervised intensive work that requires advanced skills in the humanities in private or public organizations. Generally assumes 45 hours of work/study per unit of credit. A total of eight units may be applied toward graduation. Formerly HUM 575D.

CAL 5755. Internship in Humanities. Units: 5

Semester Prerequisite: One upper-division course in the humanities in the field in which the student will be working or equivalent or consent of instructor. Quarter Prerequisite: One upper-division course in the humanities in the field in which the student will be working or equivalent or consent of instructor

Supervised intensive work that requires advanced skills in the humanities in private or public organizations. Generally assumes 45 hours of work/study per unit of credit. A total of eight units may be applied toward graduation. Formerly HUM 575E.

CAL 5763. International Experience: Latin American Studies. Units: 3

Written research project based on traveling or living in a Spanish- or Portuguese-speaking country or community in Latin America. Research for the project will be completed in the country or community of choice. Project-based learning with service and exposure to international communities. Satisfies G designation.

CAL 5783. International Experience: Asian Studies. Units: 3

Written research project based on student's international experience. Research for the project will be completed in the Asian country or community of choice. Project-based learning with service and exposure to Asian communities. Satisfies G designation.

CAL 5823. International Experience: European Studies. Units: 3

Written research project based on traveling or living in a European country or community. Research for the project will be completed in the country or community of choice. Project-based learning with service and exposure to international communities. Graded Credit/No credit. Satisfies G designation.

CAL 5843. International Experience: African Studies. Units: 3

Written research project based on traveling or living in an African country or community. Research for the project will be completed in the country or community of choice. Project-based learning with service and exposure to international communities. Graded Credit/No credit. Satisfies G designation.

CAL 5900. Liberal Studies and Liberal Arts Senior Assessment and Writing Workshop. Units: 2

Semester Prerequisite: Senior standing and CAL 2970 must be taken during either of the last two semesters prior to graduation, for LBST, LSSS, and LIBA students, and prior to admission to the multiple-subject credentialing program for LBIT students

Preparation and submission of a portfolio of appropriate artifacts as the basis of a workshopped reflective essay showing how the portfolio demonstrates accomplishment of essential goals and program learning outcomes of the major. Satisfies GE Writing Intensive designation (WI).

CAL 5951. Independent Study in the Humanities. Unit: 1

Semester Prerequisite: A minimum overall grade point average of 3.0 and consent of instructor. Quarter Prerequisite: A minimum overall grade point average of 3.0 and consent of instructor

Advanced study in the Humanities. Students must receive approval of a written proposal of a project submitted on a standard application filed in advance of the semester in which the course is to be taken. A total of ten units may be applied toward graduation. Formerly HUM 595A.

CAL 5952. Independent Study in the Humanities. Units: 2

Semester Prerequisite: A minimum overall grade point average of 3 and consent of instructor. Quarter Prerequisite: a minimum overall grade point average of 3 and consent of instructor

Advanced study in the Humanities. Students must receive approval of a written proposal of a project submitted on a standard application filed in advance of the semester in which the course is to be taken. A total of ten units may be applied toward graduation. Formerly HUM 595B.

CAL 5953. Independent Study in the Humanities. Units: 3

Advanced study in the Humanities. Students must receive approval of a written proposal of a project submitted on a standard application filed in advance of the semester in which the course is to be taken. A total of ten units may be applied toward graduation. Satisfies WI designation.

CAL 5954. Independent Study in the Humanities. Units: 4

Semester Prerequisite: A minimum overall grade point average of 3 and consent of instructor. Quarter Prerequisite: a minimum overall grade point average of 3 and consent of instructor

Advanced study in the Humanities. Students must receive approval of a written proposal of a project submitted on a standard application filed in advance of the semester in which the course is to be taken. A total of ten units may be applied toward graduation. Formerly HUM 595D.

CAL 5955. Independent Study in the Humanities. Units: 5

Semester Prerequisite: A minimum overall grade point average of 3 and consent of instructor. Quarter Prerequisite: a minimum overall grade point average of 3 and consent of instructor

Advanced study in the Humanities. Students must receive approval of a written proposal of a project submitted on a standard application filed in advance of the semester in which the course is to be taken. A total of ten units may be applied toward graduation. Formerly HUM 595E.

Cahuilla Courses

CAHU 1111. Language Study I: Cahuilla. Units: 3

Introduction to Cahuilla language. Fundamentals of pronunciation, structure, and culture designed to develop the ability to use and understand the language. Formerly FLAN 101R. Materials fee required.

CAHU 1112. Language Study II: Cahuilla. Units: 3

Intermediate study in Cahuilla language. Emphasis on oral and written competency at the intermediate level in a cultural context. Satisfies GE C2/3B, DI, G designations. Materials fee required.

CAHU 2111. Language Study III: Cahuilla. Units: 3

Semester Prerequisite: CAHU 1112R. Quarter Prerequisite: FLAN 103 or consent of department

Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis. Formerly FLAN 201R. Materials fee required.

CAHU 2112. Language Study IV: Cahuilla. Units: 3

Semester Prerequisite: CAHU 2111R. Quarter Prerequisite: FLAN 201R or consent of department

Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis. Formerly FLAN 202R. Materials fee required.

Design Courses

DES 1100. Digital Applications Basics. Units: 3

Fundamental use and introduction to the features and functions within current design software applications. Course taught from the perspective of using the application (software) to produce communication design including image-based communication solutions. Two hours of lecture/discussion and three hours of design studio activity per week. Materials fee required.

DES 1103. Social History of Design. Units: 3

An introduction to the social history of design movements. A critical survey of influential design forms, tendencies, and aesthetics from antiquity to the present from a broad range of cultures across the globe. This course will traverse and explore the development, influence, intertwining, and persistence of a range of important and noteworthy design styles, types, and systems to explore how they developed from their social context and the lasting effects they have had on societies around the world.

DES 1104. Design Theory in Context. Units: 3

An exploration of how design theories impact the practice of designers and how design practices develop theory. Students will study several influential design theories to understand their impact on the work of designers, deepening understanding of the social and political impact of key designers, design movements, and styles. These theories will be used as case studies to critically examine the work of notable designers in a range of design areas.

DES 1110. Fundamental Design Principles. Units: 3

Critical examination and theories on how to work with compositional space and interrelated basic principles, attributes, and elements of design. Students will learn the relationships between form and space, color fundamentals, image studies, and visual logic as it relates to design disciplines. Two hours of lecture/discussion and three hours of design studio activity per week. Materials fee required.

DES 1125. Design Thinking - Problem Solving & Critical Thinking in Visual Studies. Units: 3

Semester Prerequisite: DES 1100, DES 1110

Semester Corequisite: DES 1305

Introduction to basic design and production techniques to transform initial concepts and ideas into various formats for concept presentation and user-experience testing. Principles of rapid prototyping, ideation processes, and materials determination will be discussed. Multiple approaches including 2D, 3D, motion, and video will be explored in an innovation lab environment and using the Design Thinking methodology. Two hours of discussion and two hours of activity. Materials fee required.

DES 2005. Typography and Layout. Units: 3

Introduction to the study of letterforms and fundamental typographic principles including an intensive practicum on the application of a typographic form to compositional strategies including grid formation and layout structures and an overview of the vocabulary of typography, type as image, and typography's relationship to message making and meaning. Emphasis on understanding current and historical typographic trends including the importance of technology in their development. Two hours of discussion and two hours of activity. Materials fee required.

DES 2405. Application Programming for Designers. Units: 3

Semester Prerequisite: DES 1100, DES 1110, DES 1125, DES 2600

Semester Corequisite: DES 2005

Introduction to mobile app development. Script programming, application development, syntax, object-oriented principles, memory management, and functional concepts and will use storyboards and wireframes to design a user interface for apps with multiple views. Two hours of discussion and two hours of activity. Materials fee required.

DES 2600. Digital 3D and Time-Based Media. Units: 3

Semester Prerequisite: DES 1100, DES 1110, DES 1125

Integration of digital 3D, immersive-video, 2D or 3D animation, virtual reality, and/or motion graphics for communication. Applied research, project planning, scripting, storyboarding, and storytelling techniques to create contemporary projects for the field. Appropriate and current industry-standard applications will be applied. Two hours of discussion and two hours of activity. Materials fee required.

DES 3001. Innovator's ToolBox - An Introduction to Creative Problem Solving and Design Thinking. Units: 3

Semester Prerequisite: Junior or senior standing

An introduction to problem-solving tools derived from the creative disciplines of design. The course's primary aim is to demonstrate to students that design and its methods of research, conceptualization, ideation, prototyping, production, and communication can be applied usefully to affect productive change in any circumstance. Satisfies GE C4/UD-3, G designation. Three hours of lecture/discussion per week.

DES 3020. Branding and Brand Identity Design. Units: 3

Semester Prerequisite: DES 1100, DES 1110, DES 1125, DES 2600, DES 2005, DES 2405; enrollment preference to students in the BFA in Design or BS in Design

Application of design and aesthetic principles to the process of branding and brand identity design. The course will include the study of the brand mark and logo design, including historical trademark design, the study of symbols, and the relationship of design to the brands they serve. Students will conduct research, plan strategies, and apply brand identity elements to multiple touch points in physical and digital form. Two hours of discussion and two hours of activity. Materials fee required.

DES 3100. Junior Portfolio Review. Units: 0

Semester Prerequisite: DES 1100, DES 1110, DES 1125, DES 2600, DES 2005, DES 2405

Semester Corequisite: DES 3500

Review of design work to assess each student's design potential, abilities, and technical progress. Graded Credit/No credit. Materials fee required.

DES 3130. Junior Design Topics. Units: 3

Semester Prerequisite: DES 1100, DES 1110, DES 1125, DES 2600, DES 2005, DES 2405

Advanced exploration and application of contemporary topics in design. May be taken three times for up to nine units as topics change. Two hours of discussion and three hours of activity. Materials fee required.

DES 3205. Web and Application Design. Units: 3

Semester Prerequisite: DES 1100, DES 1110, DES 1125, DES 2600, DES 2005, DES 2405; enrollment preference to students in the BFA in Design or BS in Design

Integration of research, analysis, and technical skills to design effective, compelling digital experiences across different mobile platforms, the web, and the Internet of Things. Appropriate and current industry-standard applications will be applied. Two hours of discussion and two hours of activity. Materials fee required.

DES 3300. Digital Illustration. Units: 3

Semester Prerequisite: DES 1125

This course teaches students how to translate design principles and illustrated imagery into a digital display format. Students will convert photo references and their own hand-drawn illustrations into stylized vector graphics. Through guided software demonstrations, pre-recorded tutorials, critiques, and image analyses, students will explore how branding OR narrative in their illustrations can enhance their portfolio. Students will be able to take their designs from ideation to conceptualization. The course will anticipate and reflect real world illustration projects. Students will initiate project proposals and be able to make variations to their work to satisfy different applications of their illustrations. Students will learn a variety of illustrative styles and techniques and become confident utilizing industry-standard illustration-based softwares. Two hours lecture and three hours lab per week.

DES 3500. Business of Creativity. Units: 3

Semester Prerequisite: DES 1100, DES 1110, DES 1125, DES 2600, DES 2005, DES 2405, enrollment preference to students in the BFA in Design or BS in Design

Semester Corequisite: DES 3130, DES 3100

This course introduces the best practices and professional standards required to be successful in creative careers or in building a creative arts-related business. Topics include business processes and structures, intellectual property, ethical and legal issues, and the importance of fostering an entrepreneurial mindset as an overarching business philosophy. Two hours of discussion and two hours of activity. Materials fee required.

DES 3600. Digital Motion Graphics. Units: 3

Semester Prerequisite: DES 1100, DES 1110, DES 1125, DES 2600, DES 2005, DES 2405, enrollment preference to students in the BFA in Design or BS in Design

Introduction to motion graphic design and composition, timing, storytelling, storyboarding and planning. Students design video effects and animated sequences, layer and composite video, add video effects to footage, and design motion graphics such as title sequences, lower thirds, and text animations. Appropriate and current industry-standard applications will be introduced and applied. Two hours of discussion and two hours of activity. Materials fee required.

DES 3615. Video Editing. Units: 3

Semester Prerequisite: DES 1100, DES 1110, DES 1125, DES 2600, DES 2005, DES 2405, enrollment preference to students in the BFA in Design or BS in Design

Introduction to video post-production. Exploration of the theory and practice of various editing styles in order to gain a better understanding of how stories are constructed and how communication is achieved through editing. Through demonstrations and hands-on experience, students learn advanced editing techniques with appropriate and current industry-standard applications. Two hours of discussion and two hours of activity. Materials fee required.

DES 3700. Infographic and Data Visualization Design. Units: 3

Semester Prerequisite: DES 1100, DES 1110, DES 1125, DES 2600, DES 2005, DES 2405, enrollment preference to students in the BFA in Design or BS in Design

Exploration of data interpretation and data visualization and the differences between them. Students learn how to acquire data and structure it into graphic visualization formats using digital tools to create 2D, 3D, and 4D solutions for electronic, print, mobile and/or interactive purposes. Two hours of discussion and two hours of activity. Materials fee required.

DES 3715. User Interface and User Experience Design. Units: 3

Semester Prerequisite: DES 1100, DES 1110, DES 1125, DES 2600, DES 2005, DES 2405, DES 3500, enrollment preference to students in the BFA in Design or BS in Design

Semester Corequisite: DES 3130

Exploration of the principles and practices of user experience and user interface design concepts and processes utilizing user-research, personas, heuristic evaluation, information architecture, and usability assessment. Students will learn to model and test navigation design and information architecture for the purpose of optimal human-computer interaction. Two hours of discussion and two hours of activity. Materials fee required.

DES 3800. Advanced Modeling. Units: 3

Semester Prerequisite: DES 1100, DES 1110, DES 1125, DES 2600, DES 2005, DES 2405, enrollment preference to students in the BFA in Design or BS in Design

An advanced exploration into the production, compositing, dynamics, scripting, and other advanced 3D automation procedures. Students will create models from scratch and models generated from scanning and photogrammetric sources. Two hours of discussion and two hours of activity. Materials fee required.

DES 3835. Character Design. Units: 3

Semester Prerequisite: DES 1100, DES 1110, DES 1125, DES 2600, DES 2005, DES 2405, enrollment preference to students in the BFA in Design or BS in Design

Application of advanced 3D design principles to character design, props, and environments targeting specific parameters, needs, and audiences. Emphasis on development of technical and practical skills while applying traditional principles of animation; creating the illusion of thought, emotion, and personality; movement theory; and animation timing. Two hours of discussion and two hours of activity. Materials fee required.

DES 4015. Advertising and Promotion Design. Units: 3

Semester Prerequisite: DES 1100, DES 1110, DES 1125, DES 2600, DES 2005, DES 2405, enrollment preference to students in the BFA in Design or BS in Design

Exploration of the history, theory, and processes involved in developing design solutions that relate to promotion and advertising. Students will engage in the design process that explores theories, strategies, and methodologies in promotion design such as the creation of marketing communication collateral, dimensional design projects, or the creation of digital design solutions. Emphasis on subject matter and processes involved in product creation that specifically address the needs of a creative brief, an intended audience, and a defined and intentional response. Two hours of discussion and two hours of activity. Materials fee required.

DES 4100. Design Center - Collaborative Project-Based Learning. Units: 3

Semester Prerequisite: DES 1100, DES 1110, DES 1125, DES 2600, DES 2005, DES 2405, DES 3500, DES 3130, DES 3715, DES 3100, enrollment preference to students in the BFA in Design or BS in Design
Semester Corequisite: DES 4130

Team-based engagement with real-world problem identification, analysis, and responsive design projects. Two hours of discussion and two hours of activity. Materials fee required.

DES 4130. Senior Design Topics. Units: 3

Semester Prerequisite: DES 2600

Advanced exploration and application of contemporary topics in design. May be taken three times for up to nine units. Individual topics cannot be repeated. Two hours of discussion and three hours of activity. Materials fee required.

DES 4195. Design Portfolio. Units: 3

Semester Prerequisite: DES 4100

Semester Corequisite: DES 4130

Design capstone course to prepare students for post-graduation. Survey of current state of the design industry and materials preparations to prepare students for post-graduation goals. Topics include portfolio preparation, resumes, professional promotion, and/or websites. Materials fee required. Satisfies WI designation.

DES 4610. Virtual Reality. Units: 3

Semester Prerequisite: DES 1100, DES 1110, DES 1125, DES 2600, DES 2005, DES 2405, enrollment preference to students in the BFA in Design or BS in Design

Fundamentals of Virtual Reality hardware, tools, knowledge, and skills required to create live-action, immersive experiences including terminology, theory, conceptualization, and production through post-production and distribution. Provides laboratory experiences where students develop immersive, interactive, and animated 3D computer applications using authoring tools for creating unique applications in the arts, engineering, humanities, medicine, science, or any other area. Two hours of discussion and two hours of activity. Materials fee required.

DES 4625. Storyboarding. Units: 3

Semester Prerequisite: DES 1100, DES 1110, DES 1125, DES 2600, DES 2005, DES 2405

Research, concept development, planning, and prototyping for design projects across applications, media, and platforms. Two hours of discussion and two hours of activity. Materials fee required.

DES 4800. Computer-Aided Design (CAD). Units: 3

Semester Prerequisite: DES 1100, DES 1110, DES 1125, DES 2600, DES 2005, DES 2405, enrollment preference to students in the BFA in Design or BS in Design

Introduction to design techniques and capabilities of solid modeling using mechanical design software. A broad introduction to 2D and 3D Computer-Aided Design (CAD) and modeling with a focus on object and product applications, major CAD commands and user interface, part drawings, assembly modeling, basic motion, and stress analysis. Projects include part modeling using sketches, constraints, and dimensions. Two hours of discussion and two hours of activity. Materials fee required.

DES 4825. 3D Animation. Units: 3

Semester Prerequisite: DES 1100, DES 1110, DES 1125, DES 2600, DES 2005, DES 2405, enrollment preference to students in the BFA in Design or BS in Design

Introduction to theories, techniques, concepts, and professional practices of 3D computer animation from initial concept to final production. Application of traditional principles of animation to the 3D digital environment. Topics include rigging, motion capture, modeling, simulation, character/object animation, texturing, and rendering. Two hours of discussion and two hours of activity. Materials fee required.

DES 5100. Design Capstone Thesis: Research. Units: 6

Semester Prerequisite: DES 3130, DES 3500 and DES 3715

Research for the culminating project demonstrating professional competence in area of concentration. Requires presentation and defense of the student's proposed project. Course focuses on research concerning current issues in design fields. Students will develop an individual design approach, process, and methodology for the application of design solutions for the thesis project. Materials fee required. Satisfies WI designation.

DES 5115. Design Capstone Thesis: Project. Units: 6

Semester Prerequisite: DES 5100 or department consent

Culminating project demonstrating professional competence in area of concentration. Requires presentation and defense of the student's project. Students will complete a culminating project concerning current issues in design fields. Satisfies WI designation. Materials fee required.

DES 5590. Design Internship. Units: 3

Semester Prerequisite: DES 1100, DES 1110

Supervised work that provides professional design experience. May be completed five times for a total of 15 units. Materials fee required.

Art Education (AAED)

Courses

AAED 2431. Art in the Classroom. Units: 3

Provides experiential art skills and current art education theory and practice for the elementary classroom teacher and for Art students wishing to facilitate art in school or community settings. Students will learn how to design art lessons and art activities based on works of art in accordance with National Visual Arts Standards. Formerly known as ART 2395 / ART 395. One hour lecture and four hours of studio activity per week. Materials fee required.

AAED 2432. From Teaching Artists to Social Practice: A History. Units: 3

This course examines a historical arc of how educators, artists, and activists have utilized the arts to actively engage communities and impact social issues. Course analyzes historical, geographical and gender, racial, and ethnic components of global social processes and problems and the role of art to promote social change. One hour lecture and four hours of studio activity per week. Materials fee required. Formerly offered as ART 2280.

AAED 3431. Art and Human Development. Units: 3

Human development is rooted in dynamic changes in biological, cognitive, and socioemotional processes that interact over time. This course will utilize the perspective of art to explore who we are, how we came to be this way, and where our future will take us. Students learn philosophical, psychological, and methodological perspectives on art and human development with emphasis on the impact of diversity in socio-cultural, communal, linguistic, and other areas in teaching and learning art. One hour lecture and three hours activity each week. Satisfies DI designation. Materials fee required.

AAED 3432. Critical and Pedagogical Theories in Contemporary Art and Design Education. Units: 3

This project-based learning course examines pedagogical theories and the ways that social and cultural issues inform the construction of meaning in diverse learning spaces throughout society. Students will analyze practices of visual studies including collaboration processes and pedagogy for K-12 and community-based art education. Students will engage in an interactive process of research, theory, and practice and apply learning through the creation of art. Materials fee required. One hour of lecture and three hours of activity per week. Formerly known as ART 3400.

AAED 4431. Visual Literacy and Media Technology in Art and Design Education. Units: 3

Semester Prerequisite: ART 1140 and ART 2260

This course focuses on the integration of emerging technologies and visual literacy into art and design education for K-12 classroom settings. Using basic browser-based applications to more advanced multimedia production, students will gain experience with creating works of art, interpreting visual culture, and integrating technology into art and design education curriculum. Students will also understand accessibility-related challenges and implement creative solutions. At the end of the course, students will develop a critical understanding of technology in contemporary society to promote visual literacy by finding accessibility-based technology to create artwork and curriculum that engages with visual culture. One hour lecture and three hours studio activity per week. Materials fee required.

AAED 4432. Community-based Art Practicum. Units: 3

Semester Prerequisite: AAED 3431: Art and Human Development and AAED 3432: Art in the Classroom

In this service-learning course, students apply theories of contemporary art and pedagogy in practice to reflect on, design, and implement relevant art activities, a community-based project, or a participatory research project in the arts with a local community partner. Formerly known as ART 4551 / ART 540. May be taken two times for a total of 6 units. One hour lecture and three hours studio activity per week. Materials fee required.

AAED 4433. Leadership and Engagement in the Arts. Units: 3

Prerequisites: AAED 3431 and AAED 3432

This senior level course emphasizes topics critical to arts administration such as organizational theory, budgeting, board development, and fundraising. The course will examine the historical development of arts administration as a professional field, issues that affect contemporary organizations, and how individual skills relate. In this course, students will develop their own professional profiles. Students should have background knowledge about art and human development as well as current art education theory and practice. Formerly ART 4520. Materials fee required.

AAED 4434. Art and Restorative Justice. Units: 3

This course will introduce restorative justice and investigate the theoretical and practical applications of the arts in building awareness and impacting communities. Students will apply learning in the field through a pedagogical or social practice project and will participate in a related Service Learning project. One hour lecture and three hours studio activity per week. Formerly offered as ART 3331. Materials fee required.

AAED 4435. Arts in Corrections Practicum. Units: 3

In this service-learning course, students learn the history of Arts in Corrections in California, analyze the role of art within rehabilitative programming, study the social and cultural impact of mass incarceration, and apply learning through active participation in Arts in Corrections programming. Satisfies DI designation. May be taken two times for a total of 6 units. Materials fee required.

AAED 5431. Methodologies and Curriculum Development in Art and Design Education. Units: 3

This course is a synthesis of educational theory, studio practice, student assessment, and contemporary topics in art education for teaching art and design in secondary school classrooms. Students will gain experience with sequential curriculum writing, art creation, and pedagogical implementation. Additionally, students will observe and participate with diverse populations in secondary school settings. On completion, learners will be proficient in curriculum development and instruction with an emphasis on an interdisciplinary approach, technological content, and practice of cultural responsiveness with diverse student populations. One hour lecture and three hours studio activity per week. Formerly known as ART 5499 / ART 499. Materials fee required.

Accounting (ACCT)

Courses

ACCT 2110. Introductory Accounting I. Units: 3

Fundamentals of recording, analyzing, and communicating financial information including income determination, assets and liability relationships and preparation of financial statements. Previously offered as ACCT 211.

ACCT 2120. Introductory Accounting II. Units: 3

Semester Prerequisite: ACCT 2110. Quarter Prerequisite: ACCT 211
Continuation of Introductory Accounting I with emphasis on Analysis of accounting methods providing data for optimal managerial decisions, implementation and control. Topics include cost allocation; cost, volume and price relationships; product cost accounting and control systems; operations and capital budgeting, and related behavioral, reporting and information processing aspects. Previously offered as ACCT 212.

ACCT 3110. Financial Accounting and Reporting. Units: 3

Fundamentals of recording, analyzing, and communicating financial data to inform various corporate stakeholders. Topics include income determination, assets, liability and stockholder's equity relationships, preparation of financial statements and corporate legal issues related to GAAP reporting.

ACCT 3120. Managerial Accounting Analysis. Units: 3

Fundamentals of processing and analyzing accounting data for managers to perform their managerial functions of planning, control and decision-making. Topics include costing methods, cost volume and profit analysis, incremental analysis, budgeting and variance analysis.

ACCT 3150. Accounting Information Systems and Business Ethics. Units: 3

Introduction to the concepts, objectives and importance of properly designed accounting information systems and professional ethics. Extensive study of internal controls including systems documentation. Materials fee required. Previously offered as ACCT 315.

ACCT 3470. Management Accounting and Ethics in Business. Units: 3

Overview of techniques to facilitate business decision-making and professional ethics in business. Models include break-even analysis, differential costing, product cost pricing analyses, capital budgeting and investment analysis techniques. The role of budgeting in management planning and control and an examination of cost and revenue variances. Transfer pricing, management compensation and performance evaluation are reviewed in both domestic and international situations. Formerly offered as ACCT 347.

ACCT 3720. Intermediate Accounting I. Units: 3

Semester Prerequisite: ACCT 2110 and ACCT 2120. Quarter Prerequisite: ACCT 211 and ACCT 212
First of a two-course sequence covering an in-depth study of financial accounting topics, including accounting valuation and reporting practices. Three major areas examined include financial accounting theory, current and noncurrent assets, and current and noncurrent liabilities. Formerly ACCT 372.

ACCT 3730. Intermediate Accounting II. Units: 3

Semester Prerequisite: ACCT 3720. Quarter Prerequisite: ACCT 372
Continuation of ACCT 3720 with emphasis on financial accounting areas including stockholders equity, dilutive securities, investments, income measurement issues, and the preparation and analysis of financial statements. Formerly ACCT 373.

ACCT 4260. Introduction to Taxation. Units: 3

Semester Prerequisite: ACCT 2110 and junior standing. Quarter Prerequisite: ACCT 211 and junior standing
Introduction to the basic concepts of federal income taxation. Includes history and objectives of the tax, along with the treatment of various types of entities, types of income, types of deductions and types of credits. Emphasis is on the individual as a taxpayer. Formerly offered as ACCT 426.

ACCT 4400. Financial Statement Auditing. Units: 3

Semester Prerequisite: ACCT 3150 and ACCT 3730. Quarter Prerequisite: ACCT 315, ACCT 373, and the upper-division writing requirement
Theory and function of the auditor, viewed from the perspective of public accounting. Topics will include standard audit reports, assessing audit risk, auditors' legal liabilities, tests of controls, and audit evidence. Generally accepted auditing standards will be critically examined. Materials fee required. Formerly offered as ACCT 440.

ACCT 5200. Forensic Accounting I. Units: 3

Semester Prerequisite: ACCT 3730
This course provides an overview of Forensic Accounting knowledge, skills, and responsibilities needed for career development in the field. It also covers the ethical and legal environment in which professionals practice. Topics include Fraud, Bankruptcy, Digital Forensics, Family Law, Economic Damages and Business Valuations.

ACCT 5300. Advanced Tax Topics: Corporate Taxation. Units: 3

Semester Prerequisite: ACCT 4260
The study of federal tax consequences of the formation, operation, reorganization, and liquidation of corporations from the standpoint of the corporation and shareholders, with some reference to the taxation of S corporations. Formerly ACCT 630/6300.

ACCT 5360. Corporate and Partnership Taxation. Units: 3

Semester Prerequisite: ACCT 4260
The basic concepts and basic tax forms of the federal income taxation of corporations and partnerships. Includes an introduction to tax research. Formerly offered as ACCT 536.

ACCT 5390. Advanced Accounting. Units: 3

Semester Prerequisite: ACCT 3730 with a "C" or better grade. Quarter Prerequisite: ACCT 373 with a "C" or better grade
Topics include accounting and reporting for mergers and acquisitions, accounting for consolidation, accounting for partnerships, foreign currency transaction and translation, and accounting for segment reporting. Formerly offered as ACCT 539.

ACCT 5410. EDP Auditing and Control. Units: 3

Semester Prerequisite: ACCT 4400. Quarter Prerequisite: ACCT 440
This course builds on the knowledge base from Introductory Auditing, not only to provide students with an in-depth understanding of professional standards, but also to prepare students for the responsibilities and challenges faced as an auditor in charge. The course assumes a base line knowledge of internal and external audit, and will also cover advanced topics concerning complex auditing judgments. Materials fee required. Formerly ACCT 541.

ACCT 5440. Accounting Law, Ethics and Institutions. Units: 3

Semester Prerequisite: MGMT 2300 or equivalent. Quarter Prerequisite: MGMT 230 or equivalent

Advanced accounting law topics, ethical standards, and institutions for professional accountants. Emphasis on legal problems encountered in the public accounting profession, including an examination of the ethical standards and political and regulatory institutions that affect the practice of public accounting. Formerly offered as ACCT 544.

ACCT 5470. Advanced Cost Accounting. Units: 3

Semester Prerequisite: ACCT 3470. Quarter Prerequisite: ACCT 347 or equivalent

Product and service costing with attention to analysis of overhead and multiple allocation techniques. Topics include joint costs, byproducts, spoilage, rework and scrap. Alternative costing systems including operations costing and process costing. Valuation of inventory for decision-making purposes. Procedures for just-in-time inventory management are included. Formerly offered as ACCT 547.

ACCT 5560. Estates and Gifts, Ethics and other Specialized Taxation Topics. Units: 3

Semester Prerequisite: ACCT 4260. Quarter Prerequisite: ACCT 426

Professional ethics in tax practices and taxation topics not covered in depth in ACCT 4260 and 5360, including gift and estate tax, income taxation of trusts and estates, tax administration and practice, working with tax law, advanced individual income tax topics, and other special topics. Formerly offered as ACCT 556.

ACCT 5680. Accounting for Government and Not-for-Profit Organizations. Units: 3

Semester Prerequisite: ACCT 2110. Quarter Prerequisite: ACCT 211

Provides students an opportunity to study the specialized the GASB accounting principles applicable to state and local governments. It affords learners an opportunity to acquire proficiency with the FASB financial reporting standards applicable to a variety of tax exempt non-profit organizations encountered in practice with an emphasis on fair value accounting and the basic principles used to record of assets, liabilities, equity, revenues, and expenditures. ACCT 5753. Accounting Internship. Units: 3

Supervised work and study in Accounting functions of private or public organizations. May be repeated once for credit. A total of six units of ACCT 5753 (Accounting Internship) course may be applied toward graduation. May be taken two times for six units. Graded credit/no credit. Formerly ACCT 575.

ACCT 5755. Internship. Unit: 1

Semester Prerequisite: Consent of college internship coordinator. Quarter Prerequisite: senior standing preferred; consent of instructor and the departments internship coordinator

Supervised work and study in private or public organizations. May be repeated for credit. A total of six units of Jack H. Brown College of Business and Public Administration 5753 or 5755 courses may be applied toward graduation. Graded credit/no credit.

ACCT 5915. Seminar in Accounting. Unit: 1

An intensive study of some phase of accounting to be developed by the instructor. May be repeated for credit as topics change.

ACCT 5930. Seminar in Accounting. Units: 3

An intensive study of some phase of accounting to be developed by the instructor. May be repeated for credit as topics change. Formerly offered as ACCT 590.

ACCT 5951. Independent Study. Unit: 1

Semester Prerequisite: Junior status, or graduate status

Special topics involving library and/or field research. A total of 8 units in any Jack H. Brown College of Business and Public Administration 5951, 5952, 5953, 5955 may be applied toward graduation. Consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the Jack H. Brown College of Business and Public Administration on a standard application filed in advance of the semester in which the course is to be taken. Course is cross-listed across different departments within the college.

ACCT 5952. Independent Study. Units: 2

Semester Prerequisite: Junior status, or graduate status

Special topics involving library and/or field research. A total of 8 units in any Jack H. Brown College of Business and Public Administration 5951, 5952, 5953, 5955 may be applied toward graduation. Consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the Jack H. Brown College of Business and Public Administration on a standard application filed in advance of the semester in which the course is to be taken. Formerly offered as 595B. Course is cross-listed across different departments within the college.

ACCT 5953. Independent Study. Units: 3

Semester Prerequisite: Junior status, or graduate status

Special topics involving library and/or field research. A total of 8 units in any Jack H. Brown College of Business and Public Administration 5951, 5952, 5953, 5955 may be applied toward graduation. Consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the Jack H. Brown College of Business and Public Administration on a standard application filed in advance of the semester in which the course is to be taken. Formerly offered as 595D. Course is cross-listed across different departments within the college.

ACCT 5955. Independent Study. Unit: 1

Semester Prerequisite: Junior status, or graduate status

Special topics involving library and/or field research. A total of 8 units in any Jack H. Brown College of Business and Public Administration 5951, 5952, 5953, 5955 may be applied toward graduation. Consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the Jack H. Brown College of Business and Public Administration on a standard application filed in advance of the semester in which the course is to be taken. Course is cross-listed across different departments within the college.

ACCT 5980. CPA Preparation & Practice. Units: 0

Students will practice mock CPA questions and understand CPA exam structure and registration process. Graded CR/NC. May be taken four times.

ACCT 6060. Accounting for Managerial Decision-Making. Units: 3

Semester Prerequisite: ADMN 9992

How to use financial information on financial statements or other statements provided by accounting professionals for business decisions such as firm valuations, investment decisions, managerial decisions and contracting will be discussed in-depth. Relevant practical cases will be heavily used for students to gain competence in using financial information to support business decisions. Formerly ACCT 606.

ACCT 6100. Financial Accounting from the User Perspective with Data Analytics in Accounting. Units: 3

Semester Prerequisite: MBA Students ACCT 6060, MSA Students advance to candidacy or department approval

An in-depth study of financial accounting from the user perspective will be conducted. Reporting/ disclosing financial information, use of financial information with other relevant information for economic decisions, accounting information manipulations, and data analytics in accounting are the major topics to be discussed in this course. Formerly ACCT 610.

ACCT 6150. Controllership and Professional Ethics. Units: 3

Semester Prerequisite: MBA Students ACCT 6060, MSA Students advance to candidacy or department approval. Quarter Prerequisite: MBA Students ACCT 606, MSA Students consent of MSA director or department chair

Designing and implementing control systems used to plan and control the firm's performance through case analysis. Topics of cases include Ethics, Cost Behavior Analysis, Balanced Scorecard, Activity Based Management, Target Costing, Transfer Pricing, Quality Cost, Environmental Cost and Performance Evaluation. Formerly ACCT 615.

ACCT 6200. Seminar in Advanced Auditing, Accounting Information Systems and Accounting Data Analytics. Units: 3

Semester Prerequisite: Advancement to candidacy or department approval

The aim of the current coursework is to prepare students for the CPA exam. The topics covered are based on multiple sources - Principles of Auditing textbook, Becker CPA review textbook and Auditing & Fraud Case Studies (online and offline). The topics are carefully selected to give students a complete overview of the CPA exam requirements. Formerly ACCT 620.

ACCT 6250. Advanced Internal Auditing. Units: 3

Internal Auditing is about evaluation of the organization's internal controls, accounting processes and corporate governance. Critical functions of Internal Auditors involve ensuring timely and accurate financial reporting, collection and processing of data helping operational efficiency and data integrity, etc. This course focuses on learning critical skillsets to be successful as an Internal Auditor. Certification available for this field of accounting is the CIA (Certified Internal Auditor).

ACCT 6420. International Accounting. Units: 3

Semester Prerequisite: Advancement to candidacy or department approval. Quarter Prerequisite: Consent of MSA director or department chair

Current developments in international accounting. Explains similarities and differences among US GAAP and international accounting standards. Discusses social, economic, and political influences on comparative accounting theories and practices. Formerly ACCT 642.

ACCT 6500. Advanced Financial Reporting Seminar. Units: 3

Semester Prerequisite: Advancement to candidacy or department approval

Provides update on accounting and auditing standards, focusing on regulations applicable to complex financial transactions. Includes case studies and an emphasis on professional research to address questions pertaining to professional practice. Successful completion satisfies the graduate writing requirement.

ACCT 6755. Internship. Unit: 1

Semester Prerequisite: Consent of college internship coordinator. Quarter Prerequisite: senior standing preferred; consent of instructor and the departments internship coordinator

Supervised work and study in private or public organizations. May be repeated for credit. A total of six units of Jack H. Brown College of Business and Public Administration 5753 or 5755 courses may be applied toward graduation. Graded credit/no credit.

ACCT 6960. MSA Project. Units: 3

Semester Prerequisite: Advancement to candidacy or department approval. Quarter Prerequisite: Consent of MSA director or department chair

Students demonstrate their readiness to enter the accounting profession by completing a series of projects that require the application of knowledge and skills learned in the MSA program. Graded credit/no credit. Formerly ACCT 697.

ACCT 6970. MSA Comprehensive Examination. Units: 3

Semester Prerequisite: Advancement to candidacy, approval of MSA Coordinator and/or Department Chair, and in good academic standing This course will prepare students to take the comprehensive exam for the Master of Science in Accountancy (Online). The comprehensive examination will be taken at the end of the course. Weekly study guidelines will be offered. The comprehensive examination will consist of an assessment of the student's ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter in the concentration. Must be taken in the final semester of coursework. May be taken two times for six units with the approval of the MSA Coordinator and/or Department Chair.

ACCT 6990. Continuous Enrollment for Graduate Candidacy Standing. Units: 0

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ACCT 6991. Continuous Enrollment for Graduate Candidacy Standing. Unit: 1

Quarter Prerequisite: Advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ACCT 6992. Continuous Enrollment for Graduate Candidacy Standing. Units: 2

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ACCT 6993. Continuous Enrollment for Graduate Candidacy Standing. Units: 3

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ACCT 6994. Continuous Enrollment for Graduate Candidacy Standing. Units: 4

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ACCT 6995. Continuous Enrollment for Graduate Candidacy Standing. Units: 5

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ACCT 6996. Continuous Enrollment for Graduate Candidacy Standing. Units: 6

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

Administration (ADMN)

Courses

ADMN 1001. Leadership for Global Challenges: Exploring the Entrepreneurial Mindset. Units: 3

This experiential, discussion-based course explores the concept of entrepreneurship and how the entrepreneurial lens can be employed to help individuals understand, interact and change the world around them by solving pressing personal, social and global problems. Students will learn the skills and abilities consistent with an entrepreneurial mindset to develop as a whole person by better understanding human behavior, creative endeavors, social relationships, one's relationship to the environment and how stress and failure can be managed. Satisfies Big Ideas that Change the World: Exploring Ideas, Innovations, & Discoveries pathway.

ADMN 1002. Leadership for Global Challenges: Citizenship in a Sustainable World. Units: 3

Appreciate diverse regional cultures in the world as systems of social, human and ecological environments, with specific leadership value theories and practice perspectives. Understanding of self's role as a decision maker in a wide variety of career contexts using the lens of responsible management with transcultural citizenship. Focus on how our decisions impact sustainability of organizations and society, and how a sustainability mindset can enhance personal success and transpersonal growth. Satisfies G designation and Environmental Sustainability pathway.

ADMN 1003. Leadership for Global Challenges: Exploring the Digital Mindset. Units: 3

The focus of this course is to develop student digital literacy, thus transforming them into savvy, evidence driven, lifelong, and secure and informed global digital citizen. The learning process uses an interdisciplinary story driven digital mindset lens, where the student learns about and reflects on how individuals and organizations leverage digital media and other technologies to create value. Students create their own stories on how the course has prepared them for a future world where humans and machines collaborate in an automated and knowledge based society. Satisfies Digital Life pathway.

ADMN 1500. Introduction to Administration. Unit: 1

Introduction to the administrative process. Strategies to achieve success in business and public careers. Includes the development of administrative theories and practices and provides an overview of the functional areas of business and public administration. Formerly offered as MGMT 100.

ADMN 2100. Applied Business Statistics. Units: 3

An introduction to statistical reasoning and application of primary statistical techniques used in solving managerial problems. Covers both descriptive and inferential statistics. Formerly offered as ADMN 210. Materials fee required.

ADMN 4900. Administration Capstone. Unit: 1

Semester Prerequisite: Senior standing, and completion of the lower and upper-division administration core courses. One upper-division core may be taken concurrently. Course prerequisites include: ADMN 1500, ECON 2201, ECON 2202, MGMT 2300, FIN 3001, IST 3110, MGMT 3020, MKTG 3050, PA 3150, SCM 3040, and MGMT 3900

This capstone course integrates knowledge from all administration disciplines (such as accounting, entrepreneurship, finance, human resources, information and decision sciences, management, marketing, public administration, and supply chain management). Students will apply this knowledge to work in teams to complete a project in administration.

ADMN 5753. Internship. Units: 3

Semester Prerequisite: Consent of college internship coordinator. Quarter Prerequisite: senior standing preferred; consent of instructor and the departments internship coordinator
Supervised work and study in private or public organizations. May be repeated for credit. A total of six units of Jack H. Brown College of Business and Public Administration 5753 or 5755 courses may be applied toward graduation. Graded credit/no credit. Formerly offered as ADMN 575.

ADMN 5755. Internship. Unit: 1

Semester Prerequisite: Consent of college internship coordinator. Quarter Prerequisite: senior standing preferred; consent of instructor and the departments internship coordinator
Supervised work and study in private or public organizations. May be repeated for credit. A total of six units of Jack H. Brown College of Business and Public Administration 5753 or 5755 courses may be applied toward graduation. Graded credit/no credit.

ADMN 5910. Seminar in Administration. Unit: 1

Intensive study of some phase of administration to be developed by instructor. May be repeated for credit as topics change. Formerly offered as ADMN 590B.

ADMN 5915. Seminar in Administration. Unit: 1

Intensive study of some phase of administration to be developed by instructor. May be repeated for credit as topics change.

ADMN 5920. Seminar in Administration. Units: 2

Intensive study of some phase of administration to be developed by instructor. May be repeated for credit as topics change. Formerly offered as ADMN 590C.

ADMN 5930. Seminar in Administration. Units: 3

Intensive study of some phase of administration to be developed by instructor. May be repeated for credit as topics change. Formerly offered as ADMN 590D.

ADMN 5951. Independent Study. Unit: 1

Semester Prerequisite: Junior status, or graduate status
Special topics involving library and/or field research. A total of 8 units in any Jack H. Brown College of Business and Public Administration 5951, 5952, 5953, 5955 may be applied toward graduation. Consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the Jack H. Brown College of Business and Public Administration on a standard application filed in advance of the semester in which the course is to be taken. Course is cross-listed across different departments within the college.

ADMN 5952. Independent Study. Units: 2

Semester Prerequisite: Junior status, or graduate status
Special topics involving library and/or field research. A total of 8 units in any Jack H. Brown College of Business and Public Administration 5951, 5952, 5953, 5955 may be applied toward graduation. Consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the Jack H. Brown College of Business and Public Administration on a standard application filed in advance of the semester in which the course is to be taken. Formerly offered as 595B. Course is cross-listed across different departments within the college.

ADMN 5953. Independent Study. Units: 3

Semester Prerequisite: Junior status, or graduate status
Special topics involving library and/or field research. A total of 8 units in any Jack H. Brown College of Business and Public Administration 5951, 5952, 5953, 5955 may be applied toward graduation. Consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the Jack H. Brown College of Business and Public Administration on a standard application filed in advance of the semester in which the course is to be taken. Formerly offered as 595D. Course is cross-listed across different departments within the college.

ADMN 5955. Independent Study. Unit: 1

Semester Prerequisite: Junior status, or graduate status
Special topics involving library and/or field research. A total of 8 units in any Jack H. Brown College of Business and Public Administration 5951, 5952, 5953, 5955 may be applied toward graduation. Consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the Jack H. Brown College of Business and Public Administration on a standard application filed in advance of the semester in which the course is to be taken. Course is cross-listed across different departments within the college.

ADMN 6010. Data-Driven Decision Making. Units: 3

Advanced problem-solving qualitative and quantitative techniques to find, frame and solve difficult issues. Formerly offered as ADMN 601.

ADMN 6020. Advanced Managerial Communications. Units: 3

Introduces students to the principles of communication strategy and persuasion, with a focus on written and oral presentation assignments to increase student proficiency in managerial communication. Satisfies the graduate writing requirement. Formerly offered as ADMN 602.

ADMN 6753. Internship. Units: 3

Semester Prerequisite: consent of instructor and department's internship coordinator. Quarter Prerequisite: consent of instructor and department's internship coordinator

Supervised work and study in private or public organizations. May be repeated for credit. A total of six units of Jack H. Brown College of Business and Public Administration 6753 or 6755 courses may be applied toward graduation. Graded credit/no credit. Formerly offered as ADMN 675.

ADMN 6755. Internship. Unit: 1

Semester Prerequisite: Consent of college internship coordinator. Quarter Prerequisite: senior standing preferred; consent of instructor and the departments internship coordinator

Supervised work and study in private or public organizations. May be repeated for credit. A total of six units of Jack H. Brown College of Business and Public Administration 5753 or 5755 courses may be applied toward graduation. Graded credit/no credit.

ADMN 6901. Policy Management in Seoul: Seoul Case Study Program. Units: 3

This course provides students with the analysis of major issues in management of global cities, specifically Seoul Metropolitan Government, the Republic of Korea (South Korea). Topics include demographics, culture, social values, business practices, and urban development and civil service system of the Republic of Korea (South Korea). The course consists of (a) pre-visit in-class lectures and (b) visit Seoul Metropolitan Government, the Republic of Korea (lectures and field trips).

ADMN 6910. Advanced Topics in Administration. Unit: 1

Intensive study of some advanced phase of administration to be developed by instructor. May be repeated for credit as topics change.

ADMN 6915. Advanced Topics in Administration. Unit: 1

Intensive study of some advanced phase of administration to be developed by instructor. May be repeated for credit as topics change.

ADMN 6920. Advanced Topics in Administration. Units: 2

Intensive study of some advanced phase of administration to be developed by instructor. May be repeated for credit as topics change. Formerly offered as ADMN 690B.

ADMN 6930. Advanced Topics in Administration. Units: 3

Intensive study of some advanced phase of administration to be developed by instructor. May be repeated for credit as topics change. Formerly offered as ADMN 690C.

ADMN 6951. Directed Graduate Studies. Unit: 1

Graduate-level independent study for students in Interdisciplinary Master of Arts programs; to be conducted under direct supervision of a faculty member from the students committee and, if an interdisciplinary studies major, with approval of the committee on graduate education and consent of the Dean of Graduate Studies. Formerly offered as ADMN 695A.

ADMN 6952. Directed Graduate Studies. Units: 2

Graduate-level independent study for students in Interdisciplinary Master of Arts programs; to be conducted under direct supervision of a faculty member from the students committee and, if an interdisciplinary studies major, with approval of the committee on graduate education and consent of the Dean of Graduate Studies. Formerly offered as ADMN 695B.

ADMN 6953. Directed Graduate Studies. Units: 3

Graduate-level independent study for students in Interdisciplinary Master of Arts programs; to be conducted under direct supervision of a faculty member from the students committee and, if an interdisciplinary studies major, with approval of the committee on graduate education and consent of the Dean of Graduate Studies. Formerly offered as ADMN 695C.

ADMN 6980. MBA Portfolio. Units: 0

Semester Prerequisite: Completion of 24 units in the program. Quarter Prerequisite: completion of 32 units in the program
Preparation and submission of a portfolio containing assignments representing successful work in the MBA program, accompanied by a reflective essay showing how the portfolio demonstrates the accomplishment of the goals of the program. Formerly offered as ADMN 995.

ADMN 6981. Comprehensive Assessment. Units: 0

Semester Prerequisite: advancement to candidacy, approval of department, completion of core course work in the master program and in good academic standing. Quarter Prerequisite: advancement to candidacy, approval of department, completion of course work in the masters program and in good academic standing
An assessment of the students ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter in business. May be taken any fall, winter or spring term after advancement to candidacy. Formerly offered as ADMN 999.

ADMN 6983. Culminating Business Administration Project. Units: 3

Culminating experience course develops the future manager's business analysis skills, integrating knowledge from the MBA Foundation and Essentials courses. Students will develop a comprehensive, written assessment that addresses a real, substantive business problem.

ADMN 6991. Continuous Enrollment for Graduate Candidacy Standing. Unit: 1

Quarter Prerequisite: Advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ADMN 6992. Continuous Enrollment for Graduate Candidacy Standing. Units: 2

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ADMN 6993. Continuous Enrollment for Graduate Candidacy Standing. Units: 3

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ADMN 9992. Graduate Classified. Units: 0

Students who are now in Classified status. Formerly ADMN 992.

ADMN 9993. Advancement to Candidacy. Units: 0

For students who have advanced to candidacy.

Art History (AH)

Courses

AH 1103. Art History Methodologies 1. Units: 3

Introduction to methodologies in art history and research: how to navigate archives, collections, libraries, an art bibliographies to obtain peer-reviewed art historical scholarship. Engage in critical reading and analysis, and learn practices of writing for art history. Broad survey of examples from the fine arts and design. Materials fee required. Satisfies DI, G, & WI designations.

AH 1104. Art History Methodologies 2. Units: 3

Survey of historical traditions, mythologies, and exhibitions types in the fine arts and design. Focus on understanding methodologies of art history and research into specific themes of art in the global context. Broad range of fine arts and design examples used. Materials fee required. Satisfies DI, G, & WI designations.

AH 1120. Globalization, Art, and Visual Culture. Units: 3

Introduces definitions and concepts for the term globalization through a critical inquiry into visual culture. Providing an overview of historical world art and contemporary global art, and an update on the conditions of globalization in the 21st century, this course will reveal how global issues, global communities, and digital forms of communication are more and more constructed through visual expressions. Satisfies DI, G, & WI designations. Materials fee required.

AH 1221. Art History Foundations 1. Units: 3

Introduction and survey of periodizations such as premodern, modernity/modernisms, postmodernisms, digimodernisms, and beyond as a defining time-categorization of art history in the globalized field of art and design. Exploration of terms and meanings of art historical periodization is conducted in different cultural contexts. Broad range of fine arts and design examples explored. Materials fee required. Satisfies DI, G, & WI designations.

AH 1222. Art History Foundations 2. Units: 3

Introduction to and survey of discourses and theories used in art historical interpretation and analyses, including but not limited to studies in viewing and reception of art, material and immaterial conceptions of art and philosophy, colonial/postcolonial discourses for artistic heritages, and the different theories on exhibiting art in museums and in galleries. Broad range of fine arts and design examples explored. Materials fee required. Satisfies DI, G, & WI designations.

AH 3210. Visualizing Gender, Performing Identity. Units: 3

This course examines the ways in which gender, ethnicity, race, sexuality, and disability are visual forms of identification, in addition to how identities are performed through stylized repetitions accepted as social norms across diverse cultural communities. From prehistory forward, visual forms for expressing gender have been a part of every culture globally since the earliest traceable representations of the feminine or masculine, heteronormative, queer, raced, and disabled identifications. Materials fee required. Satisfies GE C4/UD-3, DI, G, W designations.

AH 3250. Topics and Themes of Art History and Exhibitions. Units: 3

Concentrated studies in art historical or exhibitionary topics and themes that could include historical movements, periods, image programs, patronages, artists, groups of artists, and events related to art, design and/or exhibitions in the global context. Topical studies include but are not limited to social or political studies of a particular focus in relation to a specific culture or region. May be repeated twice for a total of six units as topics change. Materials fee required. Satisfies DI, G, & WI designations.

AH 3310. Asian Contemporary Art. Units: 3

Exploration of aesthetic experiences of the contemporary visual arts of Asian cultures such as China, India, Korea, and Japan. Examination of Asian contemporary culture through the study of diverse Asian artistic practices. Satisfies GE D4/UD-4, DI, G destinations, and Global Connections pathway.

AH 3350. Contemporary Art and Culture of the Americas. Units: 3

Exploration of arts of the Americas since the mid 20th century through the present. Study of aesthetic experiences of contemporary arts and cultures across the hemisphere. Focus on colonial/decolonial discourses in the region that goes from Canada to Tierra del Fuego and that includes the multilingual Caribbean, Latinx cultures in the United States and their diasporas. Examination of contemporary culture in the Americas through the study of diverse artistic practices and discourses. Satisfies GE D4/UD-4, DI, G destinations, and Global Connections pathway.

AH 4250. Art History Seminar. Units: 3

Concentrated studies in art and design history and/or exhibition discourses, theories, methodologies, philosophies, traditions, mythologies, and cultural/aesthetic approaches as they relate to artists and artworks, designers and works of design. This discursive approach to the subjects of art, design, and exhibitions engages in the literature and structures of art historical knowledge. May be taken two times for six units, as topics change. Satisfies DI, G, and WI designations. Materials fee required.

AH 5250. Art History Capstone Research Seminar. Units: 3

Seminar course, developing subject matter, discursive context, research methods, bibliography, and photographic images for final Art History project. Satisfies DI, G, and WI designations. Materials fee required.

AH 5270. Art History Capstone Research Methodology. Units: 3

Methodology course, specifically focusing on further development of research methods, writing methodology, refining bibliography and photographic images for final Art History project. May be taken three times for a total of nine units. Materials fee required.

AH 5290. Art History Conference. Units: 3

The culminating project for undergraduate art history. Preparation of paper and presentation for the annual on-campus Art History Student Conference, for completion of the BA in Art History. Coursework will also be prepared for publication. Satisfies DI, G, and WI designations. Materials fee required.

AH 5753. Internship in Art History. Units: 3

Supervised learning on-site with a museum, gallery, arts organization, local community partner, or other relevant project in the field. Requires 90 hours at the internship site during the term. May be taken two times for 6 units. Graded Credit/No Credit.

AH 5953. Independent Study. Units: 3

Academic, art historical or community-based research in the arts conducted under the direction of a faculty member. Enrollment is dependent on the consent of instructor and departmental approval of a written proposal of a project submitted by the student in advance of course. May be three time for nine units.

Arabic (ARAB)**Courses****ARAB 1102. Beginning Arabic Activity Lab. Unit: 1**

Semester Prerequisite: ARAB 1111 or equivalent. Quarter Prerequisite: ARAB 101

Semester Corequisite: ARAB 1112

Students practice their Arabic language skills with activities that complement the learning in ARAB 1112.

ARAB 1111. Beginning Arabic 1. Units: 3

Introduction to the Modern Standard Arabic language and one spoken variety. Students develop skills in speaking, writing, reading and listening with a focus on developing communication and intercultural competence. Satisfies GE category C2/3B; DI and G designations. Materials fee required.

ARAB 1112. Beginning Arabic 2. Units: 3

Quarter Prerequisite: ARAB102 or consent of department

Students continue to develop their abilities to use Arabic to interact effectively with speakers from a variety of Arab cultures. Course focuses on developing skills in speaking, writing, reading and listening in a variety of everyday sociocultural contexts. Satisfies GE C2/3B, DI, G designations. Materials fee required. Not open to native speakers who attended high school where Arabic is the language of instruction.

ARAB 1151. Accelerated Beginning Arabic. Units: 6

This course is equivalent to two semesters of Beginning Arabic. The course introduces students to Modern Standard Arabic and develops their abilities to use the language and interact effectively with speakers from a variety of Arab cultures. Course focuses on developing skills in speaking, writing, reading and listening in a variety of everyday sociocultural contexts. Materials fee required.

ARAB 1152. Accelerated Arabic Activity Lab. Unit: 1

Semester Corequisite: ARAB 1151

Students put their Arabic skills to practice while engaging in activities that complement their learning in ARAB 1151.

ARAB 2111. Arabic Communication. Units: 4

Semester Prerequisite: ARAB 1112 and 1102 or ARAB 1151 and 1152 or consent of department. Quarter Prerequisite: ARAB 103

Students develop their cultural proficiency as well as their skills in listening and speaking using authentic texts, online media, poems and songs. Materials fee required.

ARAB 2112. Arabic Literature and societies. Units: 4

Semester Prerequisite: ARAB 1112 and ARAB 1102 or ARAB 1151 and ARAB 1152 or consent of department. Quarter Prerequisite: ARAB 103
Students develop their cultural proficiency as well as their reading comprehension skills as they explore varied prose and poetry genres in Arabic writing and literature and how they reflect and relate to Arab societies. Materials fee required.

ARAB 2113. Arabic Media. Units: 4

Semester Prerequisite: ARAB 1112 and ARAB 1102 or ARAB 1151 and ARAB 1152 or consent of department. Quarter Prerequisite: ARAB 103
Students develop their listening, speaking, reading, and writing skills through an exploration of contemporary social and cultural media, news and the arts. Materials fee required.

ARAB 2114. Arabic for Professional Communication. Units: 4

Semester Prerequisite: ARAB 1112 and ARAB 1102 or ARAB 1151 and ARAB 1152 or consent of department. Quarter Prerequisite: ARAB 103
An introduction to Arabic for specific professional purposes. Development of basic language skills and cultural awareness needed for professionals in different fields to communicate with Arabic speakers. Introduces students to Arabic terminology related to these professions. May be repeated for a total of 8 units as topics change. Materials fee required.

ARAB 2900. Arabic Literature in Translation. Units: 3

Study of selected translations of major poets and writers from the Arabic speaking world. Exploration of the Arab cultures within sociohistorical and political context. Students will learn the basic genres and themes of classical, modern and contemporary Arabic literature. Satisfies GE C2/3B, DI, G designations.

ARAB 3111. Arab Culture, Media and Identity. Units: 3

Semester Prerequisite: Prerequisite 8 units of two of the following courses: ARAB 2111, 2112, 2113, 2114. Quarter Prerequisite: ARAB 203
An exploration of cultural phenomena in the Arab world through authentic media and readings. Students make connections between cultural perspectives and products while developing their interpretive, interpersonal and presentational skills. Materials fee required.

ARAB 3112. Explorations of Arabic Literary Texts. Units: 3

Semester Prerequisite: 8 units of two of the following courses: ARAB 2111, 2112, 2113, 2114. Quarter Prerequisite: ARAB 203 or equivalent
Students develop their reading comprehension skills as well as their cultural proficiency as they explore authentic literary texts. Formerly ARAB 216. Materials fee required.

ARAB 3113. Spoken Arabic. Units: 3

Semester Prerequisite: 8 units of any of the following courses: ARAB 2111, 2112, 2113, 2114. Quarter Prerequisite: ARAB 203
Introduction to a spoken variety of Arabic in order to communicate effectively with Arabic speakers. Focus will be on developing listening and speaking skills to communicate effectively in everyday situations. May be repeated for a total of 6 units as topics change. Materials fee required.

ARAB 3114. Introduction to Arabic Linguistics. Units: 3

Semester Prerequisite: 8 units of any two of the following courses :ARAB 2111, 2112, 2113, 2114. Quarter Prerequisite: ARAB 203

An introduction to the structure, sound system and semantics of the Arabic language. Course will cover issues related to diglossia and sociolinguistics. Formerly ARAB 321. Materials fee required.

ARAB 3115. Introduction to Arabic Translation. Units: 3

Semester Prerequisite: 8 units chosen from ARAB 2111, 2112, 2113, 2114. Quarter Prerequisite: ARAB 303

An introduction to the skill of translation and the nuances of linguistic and cultural knowledge required to complete translations of Arabic to English and English to Arabic. Students will analyze professional translations and explore how these translations may differ, while working on their own translations of authentic texts. Materials fee required.

ARAB 3116. Explorations in Arabic Media. Units: 3

Semester Prerequisite: Eight units from any of the following: ARAB 2111, ARAB 2112, ARAB 2113, ARAB 2114. Quarter Prerequisite: ARAB 301
Explorations of authentic contemporary media of diverse forms from different Arab countries. They evaluate relationships between media, social phenomena and current affairs. Formerly ARAB 471. May be taken for up to 9 units as topics change. Materials fee required.

ARAB 3117. Advanced Arabic for Professional Communication. Units: 3

Semester Prerequisite: ARAB 2114, 3111, 3112, 3113, 3114. Quarter Prerequisite: ARAB 303

Students continue to develop their language skills and cultural awareness needed for professional settings to better communicate with Arabic speakers. Students continue to build upon their knowledge of Arabic terminology related to the professions. May be repeated for a total of 9 units as topics change. Materials fee required.

ARAB 3150. Arabic Conversation Activity. Unit: 1

Semester Prerequisite: ARAB 1112 or ARAB 1151 or equivalent. Quarter Prerequisite: ARAB 201

This course allows students to focus on practicing their speaking on a regular basis. Speaking activities are based on discussions of contemporary topics from authentic resources. Graded credit/no credit. May be repeated for a total of 3 units.

ARAB 3160. Writing Explorations. Unit: 1

Semester Prerequisite: ARAB 1112 or ARAB 1150 or equivalent. Quarter Prerequisite: ARAB 103

Students focus on writing practice in Arabic. Emphasis will be placed on Arabic style and structure or Arabic calligraphy according to a topic. Graded credit/no credit. May be repeated for credit for a total of 3 units.

ARAB 3900. Female Voices in Arab American Literature. Units: 3

A survey of cultural experiences of Arab and Arab American women. The course will explore written, spoken and performative expressions. Students will write responses and reflections as well as develop stories about their own cultural experiences with an emphasis on social justice. Satisfies GE C4/UD-3, DI, G, WI designations, and Diversity and Social Justice pathway.

ARAB 4113. Arabic Pedagogy. Units: 3

Semester Prerequisite: 6 units chosen from ARAB 3111, 3112, 3113, 3114. Quarter Prerequisite: ARAB 303

This course prepares students to become teachers of Arabic as a world language. Students will learn how to set goals, design courses and lessons in alignment with language teaching standards and theories of language teaching and second language acquisition. Materials fee required.

ARAB 4500. Signature Work. Unit: 1

Students track their progress in Arabic learning, examine their proficiency levels, explore future careers and work on a creative project, paper, community work, presentation, blog, thesis, and study abroad. Graded credit/no credit. Materials fee required.

ARAB 4900. Voices and Visions from the Arab World. Units: 3

An exploration of the intersections of language, identity, and culture of different Arab communities through the study of their writings and creative contributions. May be taken 2 times for 6 units, as topics change, but only 3 can be used for GE credit. Satisfies GE C4/UD-3, DI, G designations. Taught in English. Materials fee required.

ARAB 5900. Global Perspectives and Study Abroad. Units: 3

The course will prepare students who are planning to go on a study abroad to Arab countries for life in the Arab world. Students will develop their intercultural competence and ability to interact effectively with Arabic speakers. Taught in English. Materials fee required.

Art (ART)

Courses

ART 1120. 2D Foundation: Line, Color and Composition. Units: 3

An introduction to analogue and digital applications used to explore elements and principles of two-dimensional art, focusing on line, color and composition as related to contemporary art concepts. Creative problem solving and developing visual literacy skills using traditional and non-traditional media. Formerly ART 120. Materials fee required. One hour lecture and four hours activity.

ART 1130. 3D Foundation: Form, Space & Time. Units: 3

An introduction to analogue and digital applications used to explore elements and principles of three-dimensional art, focusing on contemporary art concepts and form in space. Experimentation with materials such as paper, clay, metal, plastic, and wood using both traditional and innovative techniques will be developed. Formerly ART 121. Materials fee required. One hour lecture and four hours activity.

ART 1140. Creative Technology for Artists. Units: 3

An introduction to computer-based technology used by visual artists. Student projects will include the use of vector and raster based computer software as well as 3D modeling, digital video, and photography. Formerly ART 123. One hour lecture and four hours of studio activity per week. Materials fee required.

ART 1150. Language of Art. Units: 3

Students will gain foundational knowledge of the terminology, diversity of approaches, and potential career options related to the practice, interpretation, exhibition, and teaching of art. Materials fee required. Satisfies WI designation.

ART 1160. Introduction to Drawing and Life Drawing. Units: 3

An introduction to drawing techniques and expression. Emphasis on rendering form and space, mark making, value, line, gesture and linear perspective, including direct observation of live model. Formerly ART 122. One hour lecture and four hours of studio activity per week. Materials fee required.

ART 1200. Creativity, Imagination, and the Consciousness. Units: 3

An exploration of the integration of creativity, imagination, and understandings of consciousness through the lens of diverse cultural perspectives, philosophies and the way individuals and cultures have applied these in creative practices. In addition to research and analysis, students will engage in meditative and reflective activities including conscious breathing, writing, and drawing. Satisfies GE C1/3A, G designation. Three hours per week seminar. Materials fee required.

ART 2240. Beginning Imaging and Illustration. Units: 3

Semester Prerequisite: ART 1140

Combining digital and analogue mediums to explore visual communication. Emphasis on expressive problem solving, story-telling, modeling and rendering. Formerly ART 238. One hour lecture and four hours of studio activity per week. Materials fee required.

ART 2260. Beginning Photography. Units: 3

Fundamentals of creative photography including digital camera operation, capture, editing, printing and basic studio lighting. Emphases on technology, content and theory for creative, commercial and scientific applications. Formerly ART 291. Materials fee required.

ART 2290. Beginning Painting. Units: 3

Develop the basic technical and conceptual skills of painting. Provide an introduction to the medium's fundamental techniques and materials. Emphasis on color theory, composition, and naturalistic style as well as the expressive and conceptual potential of paint. Formerly ART 235. One hour lecture and four hours of studio activity per week. Materials fee required.

ART 2320. Beginning Ceramics. Units: 3

An introduction to beginning techniques including pinch, coiling, slab building, and wheel throwing to create pottery and ceramic sculpture. Experimentation with clay and glaze chemistry and digital ceramics applications will be introduced. Lectures will provide an introduction to the ceramic art movement from a global perspective, both historical and contemporary. Formerly ART 254. One hour lecture and four hours of studio activity per week. Materials fee required.

ART 2329. Xicanx Art. Units: 3

This project based learning course examines the origin, meanings, practitioners, diverse approaches, and sociopolitical context of Xicanx Art. Students will apply what is learned through the design and implementation of original multidisciplinary projects that are public, participatory, or community based and inspired by Xicanx art. One hour lecture and four hours activity. Formerly offered as Art 329. Materials fee required.

ART 2330. Beginning Glass. Units: 3

Quarter Prerequisite: ART 121 or consent of instructor

Basic creative glassworking techniques, including working with molten glass (glassblowing, solid sculpting,) coldworking (cutting, grinding, polishing, surface decoration) and kilnworking (fusing, casting). Lectures, demonstrations, visiting artists, and field trips as needed. Formerly offered as ART 270. One hour lecture and four hours of studio activity per week. Materials fee required.

ART 2350. Beginning Sculpture. Units: 3

Approaches to sculpture using a variety of materials, tools, processes, and concepts. Introduction to working with traditional (wood, metal, plaster, wax) and non-traditional media to creatively problem solve. Formerly ART 240. One hour lecture and four hours of studio activity per week. Materials fee required.

ART 2400. Introduction to Chicanx Art. Units: 3

Examination of the origin, meaning, practitioners, characteristics, motivations, and sociopolitical context of Chicanx Art and activism. Satisfies GE C1/3A, DI designation.

ART 3000. Art and Activism. Units: 3

This Project-based Learning course explores the histories of art and activism from a multidisciplinary perspective. Students will reflect on their own experiences and design and facilitate a collaborative project with the campus or larger community applying learning about the theories and practices of art and activism. Satisfies GE C4/UD-3, DI, WI designations, Diversity and Social Justice pathway. Materials fee required.

ART 3160. Intermediate Drawing and Life Drawing. Units: 3

Semester Prerequisite: ART 1160 or consent of instructor

Intermediate drawing and figure drawing with an emphasis on creative expression and developing an artistic voice using elements of mark making. One hour lecture and four hours of studio activity per week. Materials fee required.

ART 3240. Intermediate Imaging and Illustration. Units: 3

Semester Prerequisite: ART 2240

Intermediate level combination of digital and analogue mediums to explore visual communication. Emphasis on expressive problem solving, storytelling, modelling and rendering. Formerly ART 350. One hour lecture and four hours of studio activity per week. Materials fee required.

ART 3260. Intermediate Photography. Units: 3

Semester Prerequisite: ART 2260 or consent of instructor. Quarter Prerequisite: ART 290 and ART 291 or consent of instructor

Introduction to analog film and traditional darkroom processes including manual operation of 35mm, medium, and large format cameras, hand-processing film, negative enlargement, wet lab printing, and digital scanning in both color and B&W. Materials fee required. One hour of lecture per week, plus four hours of studio activity. Formerly ART 391.

ART 3265. Special Topics in Photo/Video. Units: 3

Semester Prerequisite: ART 2260 and ART 3260 or consent of instructor
An advanced course providing the opportunity for studio work in a predetermined area of specialization, with each semester focusing on a particular topic or theme. Students will examine critical issues and texts related to the topic, and develop a portfolio or body of work in relation to the topic over the course of the semester. May be taken up to three times for a maximum of 9 units as topics change. Materials fee required. One hour lecture and four hours of studio activity per week.

ART 3270. Printmaking. Units: 3

Intensive study of printmaking including the study of etching, collagraph, silkscreen, lithography, wood and lino printing or experimental processes and combinations stressing individual growth and aesthetic control of imagery and technique. One hour lecture and four hours of studio activity per week. Materials fee required.

ART 3290. Intermediate Painting. Units: 3

Semester Prerequisite: ART 2290 or consent of instructor. Quarter Prerequisite: ART 235 or consent of instructor
Intermediate research in painting introducing the medium's expressive and conceptual possibilities. Includes color theory, composition, and material techniques developed in relation to the medium's historical background and contemporary practices. Formerly ART 335. One hour lecture and four hours of studio activity per week. Materials fee required.

ART 3320. Intermediate Ceramics. Units: 3

Semester Prerequisite: ART 2320 or consent of instructor
Intermediate level exploration of functional and sculptural approaches to ceramics utilizing mold making slip casting, wheel throwing, hand building techniques, digital ceramics, and multiple glazing applications. Laboratory training in clay and glaze chemistry, kiln loading, firing methods, and health and safety practices that are standard for creative and industrial applications. Lectures will focus on historical and contemporary aspects of the craft and ceramic art movement from a global perspective. Formerly ART 355. One hour lecture and four hours of studio activity per week. Materials fee required.

ART 3330. Intermediate Glass. Units: 3

Semester Prerequisite: ART 2330 or consent of instructor. Quarter Prerequisite: ART 270 or consent of instructor
Continued explorations in glass with an emphasis on developing skills that articulate a personal artistic vision. Demonstrations of more advanced and/or refined techniques in various glassworking areas will supplement image presentations, field trips, and independent in-studio work time. Laboratory training in glass formulations and melting, color chemistry and health and safety practices that are standard for creative and industrial applications. Formerly ART 370. One hour lecture and four hours of studio activity per week. Materials fee required.

ART 3332. Case Studies in Art and Activism. Units: 3

This course will explore the interrelated histories of art and activism through select case studies focusing on artists and collectives addressing a diversity of issues throughout time and around the globe. Students will further reflect on social issues that are compelling to them and do research to familiarize themselves more deeply with the issue and with artists and activists who have taken on similar causes. Students will apply what learning through collaborative projects and student-led research. May be taken two times for a total of 6 units. Materials fee required. Satisfies G designation.

ART 3350. Intermediate Sculpture. Units: 3

Semester Prerequisite: ART 2350 or instructor consent. Quarter Prerequisite: ART 240
Intermediate sculpture using a variety of materials, tools, processes, and concepts. Further explorations in material studies and fabrication techniques incorporating analog and digital technologies for artistic self-expression in three-dimensional space. Formerly ART 340. One hour lecture and four hours of studio activity per week. Materials fee required.

ART 3370. Woodworking and Furniture Design. Units: 3

Woodworking and furniture design using a variety of materials, tools, processes, and concepts to produce art and design objects. Hand and power tools, various machines, layout, and material selection. One hour lecture and four hours of studio activity per week. Materials fee required.

ART 3430. Digital Fabrication: Functional Art/ Object Design 1. Units: 3

Semester Prerequisite: ART 1140 or consent of instructor. Quarter Prerequisite: ART 123
This course is designed for artists and designers interested in making three-dimensional forms from digital files. Students will explore direct 3D modeling, parametric modeling, and creating vector files. Students will model simple and complex objects for both fine art and commercial applications and fabricate them by using laser cutters, 3D printers and CNC milling processes. One hour lecture and four hours of studio activity per week. Materials fee required.

ART 3520. Socially-engaged Art. Units: 3

This course will investigate new and non-traditional approaches to socially-engaged art, including social practice and participatory art. Students will research and reflect on relevant social issues to identify their area of interest and use this as the basis for creating original socially-engaged art projects. One hour lecture and 4 hours activity. Course may be taken 2 times for a total of 6 units.

ART 3700. Public Art. Units: 3

Semester Prerequisite: 1 lower-division studio course or consent of instructor. Quarter Corequisite: UCC amended - removed as content changes from catalog description. Quarter Prerequisite: ART 120, 121, 122 and 123, or consent of instructor
The study and practice of art for public places including the history, theory, conceptualization, production, combined with professional and business practices. Laboratory training in methods, materials, operating equipment, and health and safety practices. May be taken up to 4 times for a maximum of 12 units. Formerly ART 441. One hour lecture and four hours of studio activity per week. Materials fee required.

ART 3710. Video Art. Units: 3

Semester Prerequisite: ART 1140 or consent of instructor. Quarter Prerequisite: ART 123 or consent of instructor
Creative research and experimentation in digital video art including history, theory, production (camera, lighting, sound, and editing techniques), presentation (single channel, multi-channel, projection, and installation), and contemporary practices. May be taken up to 4 times for a maximum of 12 units. Formerly ART 387. One hour lecture and four hours of studio activity per week. Materials fee required.

ART 3720. Performance Art. Units: 3

Semester Prerequisite: 1 lower-division studio course or consent of instructor

Exploration of action, movement, media, and audience in the development and practice of performative works. History, theory, methodology of performance art and its cultural impact will be discussed in the context of individual or group, narrative or non-narrative events. May be taken up to 4 times for a maximum of 12 units. One hour lecture and four hours of studio activity per week. Materials fee required.

ART 3730. Installation Art. Units: 3

Semester Prerequisite: ART 1130 and 1 lower-division studio course or consent of instructor. Quarter Prerequisite: Art 121, 122, 123, 124, and successful completion of two lower-division studio courses or consent of instructor

A cross-disciplinary sculptural practice that incorporates or is characterized by its environment or site. Theoretical and conceptual issues, practical concerns and techniques, and history of installation art. Art making, lectures, critiques, visiting artists, and field trips as needed. May be taken up to 4 times for a maximum of 12 units. One hour of lecture per week, plus four hours of studio activity. Formerly ART 373. Materials fee required.

ART 3740. Visiting Artist Residency: Collaborative Production & Exhibition Practice. Units: 3

Semester Prerequisite: Senior standing or consent of instructor
Working directly with a visiting resident artist, students will participate in the production of an artwork and/or exhibition for the campus community. Students will gain service-learning experience in collaborative approaches to art-making processes, from conception to fabrication to installation and/or exhibition. Specific lectures and skills taught will be dictated by the requirements of the project. Laboratory training in methods, materials, operating equipment, and health and safety practices. May be taken 2 times for up to 6 units as content will change with each visiting artist. One hour lecture and four hours of studio activity per week. Materials fee required.

ART 3760. Border Art. Units: 3

Semester Prerequisite: 1 lower division studio course or consent of instructor; no pre-requisites for non-art majors

This course will study the cultural dynamics, politics, and art that is produced where neighboring regions meet. Students will also explore making socially engaged artworks that relate to the course content by working individually and collectively in the studio. One hour lecture and four hours of studio activity per week. Materials fee required.

ART 3780. Special Topics in Art. Units: 3

Studio/laboratory course with varying topics addressing genres, media, and interdisciplinary studies with coursework focused on a selected topic. Formerly ART 366. Materials fee required. #May be taken 4 times for 12 units.

ART 4160. Advanced Drawing and Life Drawing. Units: 3

Semester Prerequisite: ART 3160 or consent of instructor. Quarter Prerequisite: ART 122 or consent of instructor

Advanced exploration of drawing and figure drawing with an emphasis on creative expression and developing an artistic voice using elements of mark-making. May be taken up to 4 times for a total of 12 units. Formerly ART 304. One hour lecture and four hours of studio activity per week. Materials fee required.

ART 4240. Advanced Imaging and Illustration. Units: 3

Semester Prerequisite: ART 3240 or consent of instructor

Advanced level combination of digital and analogue mediums to explore visual communication. Emphasis on expressive problem solving, storytelling, modeling and rendering. May be taken 4 times for a total of 12 units. Formerly ART 320. One hour lecture and four hours of studio activity per week. Materials fee required.

ART 4260. Advanced Photography/Video Studio. Units: 3

Semester Prerequisite: ART 3260, two sections of ART 3265, and ART 3710, or consent of instructor. Quarter Prerequisite: ART 290, ART 291 and ART 391 or consent of instructor

Research and development of individual photography and/or video projects for creative, commercial, and scientific applications. Students are expected to conduct research, develop a portfolio, and take on long-term or large-scale projects that effectively engage with contemporary issues. Extensive development of both technical skills and critical analysis. May be taken up to 2 times for up to 6 units. Materials fee required. One hour lecture and four hours of studio activity per week.

ART 4270. Advanced Printmaking. Units: 3

Semester Prerequisite: ART 3270 or consent of instructor

Creative research in intermediate studio printmaking techniques in intaglio methods, including metal, collagraph and related materials; methods used to create stencils for multi-color registration and printing including photo processing; lithographic methods on stone or metal plates; black and white and color processes and polymer relief processes. May be taken up to 4 times as content changes. Formerly ART 361. One hour lecture and four hours of studio activity per week. Materials fee required.

ART 4290. Advanced Painting. Units: 3

Semester Prerequisite: ART 3290 or consent of instructor. Quarter Prerequisite: ART 335 or consent of instructor

Advanced exploration of individual artistic vision in paint. Formerly ART 336. May be taken up to 4 times as content changes. One hour lecture and four hours of studio activity per week. Materials fee required.

ART 4320. Advanced Ceramics. Units: 3

Semester Prerequisite: ART 3320 or consent of instructor. Quarter Prerequisite: ART 355 or consent of instructor

Advanced exploration of mold making, wheel throwing, slip casting, digital ceramics, and hand-building techniques that will result in the development of individual aesthetics and concepts. Advanced laboratory training in clay and glaze chemistry, kiln loading, firing methods, and health and safety practices that are standard for creative and industrial applications. Lectures and research will focus on the craft and ceramic art movement from a global perspective, both historical and contemporary. Formerly offered as ART 357. May be taken up to 4 times for a total of 12 units. One hour lecture and four hours of studio activity per week. Materials fee required.

ART 4330. Advanced Glass. Units: 3

Semester Prerequisite: ART 3330 or consent of instructor. Quarter Prerequisite: Ten units of ART 370 or consent of instructor
Students observe demonstrations and work independently to articulate and refine a cohesive body of work using glass as an integral part of the artistic vision. Additional instruction in studio management, equipment maintenance, safe practices in glass melting and color mixing as needed. May be repeated for a maximum of 12 units. Formerly offered as ART 471. One hour lecture and four hours of studio activity per week. Materials fee required.

ART 4350. Advanced Sculpture. Units: 3

Semester Prerequisite: ART 3350 or consent of instructor. Quarter Prerequisite: ART 340 or consent of instructor
Advanced approaches to sculpture using a variety of materials, tools, processes, and concepts including digital fabrication with CNC milling tools and laser cutters. Formerly offered as ART 341. May be taken up to 4 times for a maximum of 12 units. One hour lecture and four hours of studio activity per week. Materials fee required.

ART 4370. Advanced Woodworking and Furniture Design. Units: 3

Semester Prerequisite: ART 3370 or consent of instructor. Quarter Prerequisite: ART 308 or consent of instructor
Advanced work in woodworking and furniture design. May be taken up to 4 times for a maximum of 12 units. One hour of lecture per week, plus four hours of studio activity. Materials fee required.

ART 4430. Digital Fabrication: Functional Art/Object Design 2. Units: 3

Semester Prerequisite: ART 3430 or consent of instructor
This course covers advanced methods and procedures for making three-dimensional forms from digital files. Students will explore direct 3D modeling, parametric modeling, and creating vector files. Students will model simple and complex objects for both fine art and commercial applications and fabricate them by using laser cutters, 3D printers, and CNC milling processes. May be taken 2 times for a total of 6 units. One hour lecture and four hours of studio activity. Materials fee required.

ART 4450. Arts in Action: Visual Art. Units: 3

The applied practice of arts education in the community. Projects will vary based on participants. May be repeated for credit if taken under a different Fine Arts subject (Dance, Visual Art, or Music). One hour lecture and four hours studio activity per week. Materials fee required.

ART 4500. Advanced Art Laboratory. Units: 2

Advanced art production in any chosen studio art area. Students develop self-directed research, experimentation, and practice in close consultation with the professor. Art production maintains best practices in studios and laboratories in methods, materials, operating equipment, and health and safety practices. May be taken up to 3 times for a total of 6 units. Department consent required. Materials fee required.

ART 4530. Art Writing. Units: 3

Semester Prerequisite: ART 1150 or consent of instructor. Quarter Prerequisite: Completion of the upper-division writing requirement and eight units of upper-division Visual Studies or Art History
This project-based learning course explores critical and creative approaches to writing about art, multiple perspectives on interpreting and analyzing art, and the interrelated processes of writing, editing, and publishing. The course will proceed from foundations in writing and editing to a more in-depth analysis of the craft and includes the initiation, development, and completion of a full-fledged student-led publication project. May be taken 2 times for a maximum of 6 units. One hour lecture and four hours of studio activity per week. Materials fee required.

ART 5500. Undergraduate Professional Practices. Units: 3

Semester Prerequisite: Senior standing or consent of instructor
Preparation and documentation of a portfolio and ancillary materials that is representative of the student's work. Additional research about opportunities, resources, and further professional development. Formerly ART 416. Graded Credit/No-Credit. Materials fee required.

ART 5510. BFA Project. Units: 3

Quarter Prerequisite: Art major Plan I or II, senior status and 10 units of advanced level studio coursework, or consent of instructor
Preparation and completion of individual project or exhibition supplemented by interdisciplinary critiques, readings, research, visiting speakers, and discussions relevant to contemporary ideas and issues in art. Materials fee required. Formerly known as ART 414.

ART 5540. Social Practice and Participatory Art. Units: 3

Semester Prerequisite: Must be junior or senior standing in the Visual Studies concentration or by consent of instructor
In this advanced course, students will apply what was learned in Visual Studies and Studio Art courses to develop and create original projects in the area of social practice or participatory art. Students will be guided to consider context and media and to thoughtfully integrate viewers and communities as part of the visual art experience. May be taken twice for a total of 6 units. One hour of lecture and 4 hours of activity. Materials fee required.

ART 5550. Capstone: Visual Studies Project. Units: 3

In this culminating course in the Visual Studies track, students will develop a comprehensive project in the discipline. Projects may include community-based research in the arts, curriculum in the arts, a research paper on art pedagogy or art and public policy, or a related project of student's choosing. Students will be supported in the process of designing and implanting project and participate in reflective feedback and peer review to support the evolution of each project. Materials fee required.

ART 5750. Internship in Art - Reflection Component. Unit: 1

Semester Prerequisite: Junior or senior standing. Prerequisite: Junior or senior standing

Semester Corequisite: ART 5751, 5752 or 5753

Guided reflection on the internship experience to support deeper learning and personal growth. Students will participate in guided reflections and the opportunity to discuss issues and questions. May be offered in person or online. May be taken twice for up to 2 units.

ART 5751. Internship in Art. Unit: 1

Semester Prerequisite: Consent of instructor. Quarter Prerequisite: Junior or senior standing or consent of instructor

Semester Corequisite: ART 5750

Supervised learning on-site with work in a business, artist, local community partner, private or another relevant project in public setting which provides professional experience in the field. May be taken 2 times for a maximum of 2 units. Formerly offered as ART 575A. Materials fee required.

ART 5752. Internship in Art. Units: 2

Semester Prerequisite: Consent of instructor. Quarter Prerequisite: Consent of instructor

Semester Corequisite: ART 5750

Supervised learning on-site with a business, artist, local community partner, or other relevant projects in the field. May be taken 2 times for a maximum of 4 units. Formerly offered as ART 575B. Materials fee required.

ART 5753. Internship in Art. Units: 3

Semester Prerequisite: consent of instructor. Quarter Prerequisite: consent of instructor

Semester Corequisite: ART 5750

Supervised learning on-site with a business, artist, local community partner, or other relevant projects in the field. May be taken 2 times for a maximum of 6 units. Formerly offered as ART 575C. Materials fee required.

ART 5951. Independent Study. Unit: 1

Quarter Prerequisite: a minimum overall grade point average of 3
Academic or community-based research in the arts and/or visual studies conducted under the direction of a faculty member. May be repeated for credit, a total of 6 units may apply toward graduation. Enrollment is dependent on the consent of instructor and departmental approval of a written proposal of a project submitted by the student in advance of course. Formerly offered as Art 595A. Materials fee required.

ART 5952. Independent Study. Units: 2

Academic or community-based research in the arts and/or visual studies conducted under the direction of a faculty member. Enrollment is dependent on the consent of instructor and departmental approval of a written proposal of a project submitted by the student in advance of course. May be repeated for credit for up to 6 units. Formerly ART 595B. Materials fee required.

ART 5953. Independent Study. Units: 3

Academic or community-based research in the arts and/or visual studies conducted under the direction of a faculty member. Enrollment is dependent on the consent of instructor and departmental approval of a written proposal of a project submitted by the student in advance of course. May be repeated for credit for up to 9 units. Formerly ART 595C. Materials fee required.

ART 6604. MFA Graduate Studio in Art. Units: 3

Semester Prerequisite: Must be enrolled in the MFA in Studio Art program. Quarter Prerequisite: admission to the MFA in Studio Art program

Investigation of advanced studio problems focusing on the development of individual directions. May be taken 5 times for up to 15 units. Graded Credit/No credit. One hour discussion and four hours of activity. Materials fee required.

ART 6610. MA Graduate Studio in Art. Units: 3

Semester Prerequisite: Must be enrolled in the MA in Art program
Investigation of advanced studio problems focusing on the development of individual directions. May be taken 5 times for up to 15 units. Graded Credit/No credit. One hour discussion and four hours of activity. Materials fee required.

ART 6612. MA Graduate Critique. Units: 3

Semester Prerequisite: Must be enrolled in the MA in Art program
Weekly critique and discussion of individual student work. May be repeated for credit 5 times for up to 15 units. Materials fee required.

ART 6617. Graduate Seminar in Critical Theory and Methodology. Units: 3

Quarter Prerequisite: admission to the MFA in Studio Art or the MA in Art, Studio Art

Theoretical, critical and methodological approaches with emphasis on contemporary visual arts. Materials fee required. Formerly offered as ART 617.

ART 6618. Graduate Seminar in Contemporary Art Issues and Practices. Units: 3

Quarter Prerequisite: admission to the MA in Art, Studio Art or MFA in Studio Art

Current issues and practices and their relevance to contemporary artists. Materials fee required. Formerly offered as ART 618.

ART 6620. MFA Graduate Studio Critique. Units: 3

Semester Prerequisite: Must be enrolled in the MFA in Studio Art program. Quarter Prerequisite: admission to the MFA in Studio Art program

Weekly critique and discussion of individual student work. May be repeated for credit 6 times for up to 18 units. Materials fee required.

ART 6630. Graduate Seminar in Professional Practices. Units: 3

Quarter Prerequisite: must be a second- or third-year classified student in the MFA in Studio Art program

Portfolio development and selection of art markets; legal and financial issues in the production and protection of art; teaching practicum and creation of teaching philosophy and postgraduate professional development. Writing an extended artist's statement that fulfills the graduate writing requirement. Formerly offered as ART 630 and ART 670. Materials fee required.

ART 6685. Master's Project in Art- MA. Units: 3

Preparation for and completion of culminating body of artwork produced by student in the M.A. in Art program. A report and documentation of the project is required.

ART 6695. Master's Project in Studio Art- MFA. Units: 3

Quarter Prerequisite: successful completion of advancement review conducted by the Department of Art graduate committee

Preparation for and completion of culminating exhibition of works produced by student in the M.F.A. in Studio Art program. A report, presentation and documentation of the project is required. Open only to students who have been advanced to candidacy. Formerly offered as ART 695E.

ART 6990. Continuous Enrollment for Graduate Candidacy Standing. Units: 0

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ART 6991. Continuous Enrollment for Graduate Candidacy Standing. Unit: 1

Quarter Prerequisite: Advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ART 6992. Continuous Enrollment for Graduate Candidacy Standing. Units: 2

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ART 6993. Continuous Enrollment for Graduate Candidacy Standing. Units: 3

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ART 6994. Continuous Enrollment for Graduate Candidacy Standing. Units: 4

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ART 6995. Continuous Enrollment for Graduate Candidacy Standing. Units: 5

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ART 6996. Continuous Enrollment for Graduate Candidacy Standing. Units: 6

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

Anthropology (ANTH)

Courses

ANTH 1001. Humans, Apes, and Monkeys: Introduction to Biological Anthropology. Units: 3

Covers human biocultural evolution through time. Includes current evolutionary theory as applied to human biological diversity and the race concept, the archaeological record of early humans, our evolutionary relationship to non-human primates, and the fossil and genetic evidence for human evolution. Satisfies GE B2/5B, DI, G designations, and Big Ideas that Change the World: Exploring Ideas, Innovations, Discoveries pathway.

ANTH 1002. Understanding Cultural Diversity. Units: 3

A comparative study of human experience with emphasis on developing an anthropological perspective. Specific topics may include politics, economy, diet, spirituality, identity, the life course, social hierarchies, family, arts, and war. Satisfies GE D3/4, DI, G designations, and Global Connections pathway.

ANTH 1400. World History to c. 1500. Units: 3

A thematic introduction to world history from prehistoric times to c1500. Examines the development of and interactions between peoples, states, civilizations, and empires in Africa, Asia, Europe, Oceania, and the Americas. Focuses on patterns of economic and cultural development, religious ideas, the rise and fall of empires, and global interconnections. Satisfies GE D3/4, DI, G designations.

ANTH 3005R. North American Archaeology. Units: 3

Archaeology of North America from earliest times to contact with Old World societies. Formerly known as ANTH 305.

ANTH 3006R. Mesoamerican Archaeology. Units: 3

Examines the archaeology of Native American societies of Mexico and Central America from the time of the first human occupants of those regions to the Spanish Conquest beginning in the early 16th century. Formerly known as ANTH 306.

ANTH 3007R. Andean Archaeology. Units: 3

Examines the archaeology of Native American societies of Andean South America from the time of the first human occupants of that region to the Spanish Conquest beginning in the early 16th century. Formerly known as ANTH 307.

ANTH 3008. Indigenous Archaeology. Units: 3

A review of the discipline of Indigenous Archaeology. Includes contemporary case studies to illustrate theories and methods used in the field of Indigenous Archaeology.

ANTH 3012. Historical Archaeology. Units: 3

Use of archaeological methods to study historic peoples. Historical and archaeological methods and their results. Focus will be primarily on North America from European entry to modern times. Formerly known as ANTH 312/HIST 312. Offered as ANTH 3012 and HIST 3012, students may not receive credit for both.

ANTH 3014R. Archaeology of California. Units: 3

Examines the archaeology of Native American peoples of California from the time of its first human occupants to contact with Europeans beginning in the 16th century. Formerly known as ANTH 314.

ANTH 3015R. Archaeology of the Southwest. Units: 3

Examines Native American peoples of the American Southwest from the time of its first human occupants to contact with European societies. Formerly known as ANTH 315.

ANTH 3019L. Experimental Archaeology and Ethnoarchaeology. Units: 4

Semester Prerequisite: Consent of instructor. Quarter Prerequisite: Consent of instructor

Experimental and observational techniques important to the archaeologist. This course has a practical/laboratory component that will assist students in understanding aspects of ancient technology and the formation of the archaeological record. Three hours of lecture and three hours of laboratory per week. Formerly known as ANTH 319.

ANTH 3180. Introduction to Cultural Resource Management. Units: 3

General overview of the field of Cultural Resource Management in Museum Studies, Archaeology, and Public History. Also offered as HIST 3180. Students may not receive credit for both. Formerly known as ANTH 318.

ANTH 3201T. The Archaeology of the Senses. Units: 3

A global perspective on archaeological research relating to the human senses. Topics may include music, oration, dance, art, food, smell, pain, and trance states. Students will read theoretical works and case study examples taking phenomenological and sensorial perspectives on a wide variety of archaeological contexts, from the music of ancient China to the sacrificial rituals of prehispanic Mesoamerica. Formerly known as ANTH 3201.

ANTH 3360. Ancient Egyptian Archaeology. Units: 3

Examination of ancient Egyptian archaeological contexts that reveal specific themes about their people, history, society, and religion. Incorporates archaeological theory to interpret contexts. Incorporates the history of excavation and removal of objects from Egypt. Offered as ANTH 3360 and HIST 3360. Students may not receive credit for both. Formerly known as HIST 336 and ANTH 336.

ANTH 3500. The Race Concept in Biological Anthropology. Units: 3

An inquiry into past and present interpretations of the significance of human biological and genetic differences within the framework of biology and evolutionary theory. Satisfies GE D4/UD-4, DI designation, and Big Ideas that Change the World: Exploring Ideas, Innovations, Discoveries pathway.

ANTH 3501. Human Origins. Units: 3

Semester Prerequisite: ANTH 1001 or equivalent

Prerequisites: ANTH 1001 or equivalent

Fossil, archaeological, and other evidence for human origins examined within its geological and environmental contexts. Discussion of theories that attempt to explain how we became human. Formerly known as ANTH 326.

ANTH 3503. Forensic Anthropology and Crime. Units: 3

Techniques of biological anthropology as applied to the investigation of crime. Formerly known as ANTH 328.

ANTH 3600. The History of Anthropological Thought. Units: 3

Semester Prerequisite: ANTH 1002

Examination of major theoretical trends and debates that have shaped the discipline of anthropology. Satisfies G designation.

ANTH 3601. Case Studies in Linguistic Anthropology. Units: 3

Introduction to the basic concepts, approaches, and perspectives of linguistic anthropology, including the ways that language reflects and shapes thought, culture, and relations of power. Formerly known as ANTH 388.

ANTH 3603. Gendered Worlds: Power, Difference, and & In/equality. Units: 3

Examines the ways that gender organizes social life in a comparative, cross-cultural perspective. Considers the relationship between sex and gender; the formation of gender identities, roles, and ideologies; the gendered division of labor; inequality, power, and human rights; and the ways that gendered experiences are related to nation, sexuality, race, and class differences across the globe. Satisfies GE D4/UD-4, DI, G designations, and Diversity and Social Justice, World Cultures and Diversity pathways.

ANTH 3604. Anthropology and Film. Units: 3

Close examination of feature film from an anthropological perspective, including both domestic and international cinema. Topics may include: the representation of particular societies, places, and topics through film; the cinema-going experience; and regional film industries. Formerly known as Anth 334.

ANTH 3605. Anthropology of Health. Units: 3

An introduction to medical anthropology, which focuses on the interaction of culture, society, and biology. Considers the social dimensions of health and illness, and the diverse ways in which healing is pursued. Includes a critical examination of biomedicine. Formerly known as ANTH 340.

ANTH 3606. Indigenous Politics. Units: 3

Analysis of contemporary and historical aspects of issues relating to indigenous peoples. Topics include social movements, genocide, feminism, resource disputes, cultural identity formation and appropriation, bilingual education, and development. Formerly known as ANTH 346.

ANTH 3607. Environmental Anthropology. Units: 3

Examines the social, political, and material dimensions of the environment. Explores a range of topics, including culture, power, sustainability, resource economies, human and non-human relations, and the links between race, class, gender and the environment. Formerly known as ANTH 342.

ANTH 3608. Humans, Animals, and Nature. Units: 3

Examines animal classifications and representations in cosmologies and ideologies from the perspective of local societies and religions across cultures and time. Formerly known as ANTH 347.

ANTH 3610. Globalization in Crisis. Units: 3

A critical examination of globalization through an anthropological lens focusing on the relationship between global formations and everyday lived experiences. Topics addressed include development, racial capitalism, migration, consumer culture, and borderlands. Formerly known as ANTH 341. Applied to Global Connections GE pathway.

ANTH 3701R. Cultures of Mexico and Central America. Units: 3

Course explores the native cultures of Mexico and Central America and the cultural region known as "Mesoamerica". Taking a historical approach, the class will examine the archaeological record of pre-Hispanic Mesoamerica, the colonial period, and modern indigenous groups. Formerly known as ANTH 354.

ANTH 3702R. Anthropology of South America. Units: 3

Uses ethnographic readings, films, and/or fiction to thematically explore the intersections of culture, politics, and the economy. Emphasizes the effects of colonization, the construction of nationalism and national identities, race/ethnic and gender inequalities, urbanization, and contemporary issues facing indigenous peoples. Formerly known as ANTH 356.

ANTH 3703R. Anthropology of Asia: Cultures, Communities, and Migration. Units: 3

Asian voices and perspectives in the study of diverse Asian cultures. Topics may include pre-colonial, colonial, and postcolonial histories and regional considerations of gender, culture, and religion in areas as different as South Asia, Southeast Asia, East Asia, and/or Asian Diaspora and Asian Americans. Satisfies GE D4/UD-4, DI, G designations.

ANTH 3704R. Anthropology of the Middle East. Units: 3

Uses anthropological readings, documentary films, and literary accounts to thematically explore topics such as the effects of war and conflict across the region, Islam and secularism, colonialism and postcoloniality, gender and political mobilization, media and globalization, and the politics and ethics of nation building. Formerly known as ANTH 358.

ANTH 3705R. Anthropology of Africa. Units: 3

Introduction to anthropological themes related to sub-Saharan Africa. Students learn to recognize both pan-African realities and local specificities, to identify continuities and changes over time, and to understand the realities of living in contemporary African cities, towns, and villages. Formerly known as ANTH 357.

ANTH 3706R. Native Nations of North America. Units: 3

History and culture of Native North American groups, including relations with one another and outside societies and the effects of culture change. Formerly known as ANTH 351.

ANTH 3910. Selected Topics in Anthropology. Units: 3

An anthropological examination of a selected topic. May be repeated for credit as topics change. Formerly known as ANTH 391.

ANTH 4001T. Archaeological Theory and Method. Units: 3

Quarter Prerequisite: One course from section "Archaeology" of the BA in Anthropology or graduate standing

In-depth exploration of archaeological theories and methods and their application to our understanding of the human past. Formerly ANTH 300, ANTH 400.

ANTH 4020L. Archaeological Survey and Excavation. Units: 4

Examines field techniques and methods of archaeology. Stresses the importance of research design and its relationship with methodology. Active participation in a field project under the direction of the instructor. Eight hours of activity per week. Materials fee required. Formerly known as ANTH 320.

ANTH 4021L. Archaeological Laboratory Analysis. Units: 4

Examines techniques and methods used to analyze archaeological remains in the laboratory. Active participation in various laboratory projects under the direction of the instructor. Three hours lecture and three hours laboratory per week. Formerly known as ANTH 321.

ANTH 4500T. Late Pleistocene Human Evolution. Units: 3

Semester Prerequisite: ANTH 3501 or graduate standing. Quarter Prerequisite: ANTH 325 or graduate standing
Methods and theories applied to analyzing Neandertals and anatomically modern human skeletal and archaeological remains. Formerly known as ANTH 410.

ANTH 4501L. Human Osteology and Functional Anatomy. Units: 4

Semester Prerequisite: ANTH 1001 or equivalent

Prerequisites: ANTH 1001 or equivalent

The identification of human skeletal remains and an introduction to the relationship between form and function in the human skeleton. Three hours lecture and three hours laboratory per week. Formerly known as ANTH 322.

ANTH 4550. Egyptian Mining Expeditions, Their Buildings, and Their Slaves. Units: 3

Quarter Prerequisite: ANTH 336 or HIST 336 or instructor consent
Uses anthropological and archaeological theory to study the archaeological, textual, and representational evidence for large-scale Ancient Egyptian mining expeditions. Looks at how they were organized and supplied and their connections with the Egyptian military. Studies how people lived in the desert, including slaves, laborers, and administrators. Incorporates unpublished archaeological data for students to analyze. Formerly known as ANTH/HIST 455. Offered as ANTH 4550 and HIST 4550, students may not receive credit for both.

ANTH 4601L. Methods in Sociocultural Anthropology. Units: 4

Employ ethnographic research methods such as participant observation and qualitative interviewing techniques to gather and analyze data to gain a better understanding of the goals and methods of sociocultural anthropology. Students will design and carry out an original field research project. Three hours lecture and three hours lab per week. Formerly known as ANTH 317.

ANTH 4603L. Museum Research and Exhibit Development. Units: 4

Trains students to see artifacts as historical records of cultural and scholarly practices and to develop and execute "curatorial" research projects based in museum holdings. Also discussed are standards, considerations, collaborative processes, and tools related to developing and designing interpretive museum exhibitions. Students are directly engaged with original artifacts. Field trips and projects may be required. Coursework may contribute to planning exhibitions for area museums. Three hours lecture and three hours laboratory. Satisfies WI designation.

ANTH 4605T. Human Rights, Violence & Culture. Units: 3

Semester Prerequisite: Anth 3600 or graduate standing

Prerequisites: ANTH 3600 or graduate standing

Students explore and critically evaluate research methods and theories related to cultural violence, ethnic cleansing, human rights, the nation-state and military dictatorships; memory and reconciliation processes; and indigenous justice systems. Formerly known as ANTH 420.

ANTH 4606T. Decolonizing Anthropology. Units: 3

Semester Prerequisite: ANTH 3600 or graduate standing

Prerequisites: ANTH 3600 or graduate standing

Examination of how anthropologists are advancing new research methods and theories that involve collaboration, racial justice, equal rights, and social and environmental rights. Topics include ethical debates about embedded anthropologists and war, colonial anthropology and racism, indigenous and world anthropologies for sovereignty, and other postcolonial anthropological critiques of anthropology's negative effects. Formerly known as ANTH 472.

ANTH 4607T. Anthropology of the State: Power, Culture, and the Politics of Belonging.

Units: 3

Semester Prerequisite: ANTH 3600

Explores the historical and contemporary development of the nation-state. Draws on theoretical and ethnographic studies to critically analyze systemic power, hegemony, agency and resistance, and the politics of multiculturalism.

ANTH 5000. Senior Seminar in Anthropology.

Units: 3

Semester Prerequisite: ANTH 3600 or consent of instructor. Quarter

Prerequisite: ANTH 301 or consent of instructor

Integrative approach incorporating perspectives from archaeology, biological anthropology, and sociocultural anthropology. Formerly known as ANTH 500.

ANTH 5099. Selected Topics in Archaeology.

Units: 3

An archaeological examination of a selected topic. May be repeated for credit as topics change. Formerly known as ANTH 590B.

ANTH 5399. Selected Topics in Biological Anthropology. Units: 3

An anthropological examination of a selected topic in Biological Anthropology. May be repeated for credit as topics change. Formerly known as ANTH 590C.

ANTH 5699. Selected Topics in Sociocultural Anthropology. Units: 3

An examination of a selected topic in sociocultural anthropology. May be repeated for credit as topics change. Formerly known as ANTH 590D.

ANTH 5752. Internship in Anthropology.

Units: 2

Semester Prerequisite: Consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the semester in which the course is to be taken. Quarter Prerequisite: consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the quarter in which the course is to be taken

Supervised work in public or private organizations emphasizing practical applications of anthropological concepts. May be repeated for credit for a total of 8 units. Graded credit/no credit. Requires consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the semester in which the course is to be taken. Formerly known as ANTH 575B.

ANTH 5753. Internship in Anthropology.

Units: 3

Semester Prerequisite: Consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the semester in which the course is to be taken. Quarter Prerequisite: consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the quarter in which the course is to be taken

Supervised work in public or private organizations emphasizing practical applications of anthropological concepts. May be repeated for credit for a total of nine units. Graded credit/no credit. Requires consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the semester in which the course is to be taken. Formerly known as ANTH 575C.

ANTH 5754. Internship in Anthropology.

Units: 4

Semester Prerequisite: Consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the semester in which the course is to be taken. Quarter Prerequisite: consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the quarter in which the course is to be taken

Supervised work in public or private organizations emphasizing practical applications of anthropological concepts. May be repeated for credit for a total of eight units. Graded credit/no credit. Requires consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the semester in which the course is to be taken. Formerly known as ANTH 575D.

ANTH 5755. Internship in Anthropology.

Units: 5

Semester Prerequisite: Consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the semester in which the course is to be taken. Quarter Prerequisite: consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the quarter in which the course is to be taken

Supervised work in public or private organizations emphasizing practical applications of anthropological concepts. May be repeated for credit for a total of 10 units. Graded credit/no credit. Formerly known as ANTH 575E.

ANTH 5762. Internship in Museum Studies.

Units: 2

Semester Prerequisite: Consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the semester in which the course is to be taken. Quarter Prerequisite: consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the quarter in which the course is to be taken

Supervised work in public or private museums emphasizing practical applications of knowledge acquired in the classroom. May be repeated for credit for a total of 10 units. Graded credit/no credit. Formerly known as ANTH 576B.

ANTH 5763. Internship in Museum Studies. Units: 3

Semester Prerequisite: Consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the semester in which the course is to be taken. Quarter Prerequisite: consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the quarter in which the course is to be taken

Supervised work in public or private museums emphasizing practical applications of knowledge acquired in the classroom. May be repeated for credit for a total of 12 units. Graded credit/no credit. Formerly known as ANTH 576C.

ANTH 5764. Internship in Museum Studies. Units: 4

Semester Prerequisite: Consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the semester in which the course is to be taken. Quarter Prerequisite: consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the quarter in which the course is to be taken

Supervised work in public or private museums emphasizing practical applications of knowledge acquired in the classroom. May be repeated for credit for a total of 8 units. Graded credit/no credit. Formerly known as ANTH 576D.

ANTH 5765. Internship in Museum Studies. Units: 5

Semester Prerequisite: Consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the semester in which the course is to be taken. Quarter Prerequisite: consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the quarter in which the course is to be taken

Supervised work in public or private museums emphasizing practical applications of knowledge acquired in the classroom. May be repeated for credit for a total of 10 units. Graded credit/no credit. Formerly known as ANTH 576E.

ANTH 5772. Internship in Archaeology. Units: 2

Semester Prerequisite: Consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the semester in which the course is to be taken. Quarter Prerequisite: consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the quarter in which the course is to be taken

Supervised fieldwork or laboratory analysis in archaeology in public or private organizations emphasizing practical applications of archaeological theories and methods. May be repeated for credit for a total of 8 units. Graded credit/no credit. Formerly known as ANTH 577B.

ANTH 5773. Internship in Archaeology. Units: 3

Semester Prerequisite: Consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the semester in which the course is to be taken. Quarter Prerequisite: consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the quarter in which the course is to be taken

Supervised fieldwork or laboratory analysis in archaeology in public or private organizations emphasizing practical applications of archaeological theories and methods. May be repeated for credit for a total of 9 units. Graded credit/no credit. Formerly known as ANTH 577C.

ANTH 5774. Internship in Archaeology. Units: 4

Semester Prerequisite: Consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the semester in which the course is to be taken. Quarter Prerequisite: consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the quarter in which the course is to be taken

Supervised fieldwork or laboratory analysis in archaeology in public or private organizations emphasizing practical applications of archaeological theories and methods. May be repeated for credit for a total of 12 units. Graded credit/no credit. Formerly known as ANTH 577D.

ANTH 5775. Internship in Archaeology. Units: 5

Semester Prerequisite: Consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the semester in which the course is to be taken. Quarter Prerequisite: consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the quarter in which the course is to be taken

Supervised fieldwork or laboratory analysis in archaeology in public or private organizations emphasizing practical applications of archaeological theories and methods. May be repeated for credit for a total of 10 units. Graded credit/no credit. Formerly known as ANTH 577E.

ANTH 5782. Internship in Applied Sociocultural Anthropology. Units: 2

Semester Prerequisite: Consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the semester in which the course is to be taken. Quarter Prerequisite: Consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the quarter in which the course is to be taken

Supervised work in any field where students may apply social and cultural anthropological knowledge to work situations. May be repeated for credit for a total of 10 units. Graded credit/no credit. Formerly known as ANTH 578B.

ANTH 5783. Internship in Applied Sociocultural Anthropology. Units: 3

Semester Prerequisite: Consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the semester in which the course is to be taken. Quarter Prerequisite: consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the quarter in which the course is to be taken

Supervised work in any field where students may apply social and cultural anthropological knowledge to work situations. May be repeated for credit for a total of 10 units. Graded credit/no credit. Formerly known as ANTH 578C.

ANTH 5784. Internship in Applied Sociocultural Anthropology. Units: 4

Semester Prerequisite: Consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the semester in which the course is to be taken. Quarter Prerequisite: consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the quarter in which the course is to be taken

Supervised work in any field where students may apply social and cultural anthropological knowledge to work situations. May be repeated for credit for a total of 12 units. Graded credit/no credit. Formerly known as ANTH 578D.

ANTH 5785. Internship in Applied Sociocultural Anthropology. Units: 5

Semester Prerequisite: Consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the semester in which the course is to be taken. Quarter Prerequisite: consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the quarter in which the course is to be taken

Supervised work in any field where students may apply social and cultural anthropological knowledge to work situations. May be repeated for credit for a total of 10 units. Graded credit/no credit. Formerly known as ANTH 578E.

ANTH 5850. Fieldwork in Sociocultural Anthropology. Units: 3

Semester Prerequisite: Consent of instructor. Quarter Prerequisite: Consent of instructor

Supervised design, execution and analysis of an individualized ethnographic field project. Formerly known as ANTH 585.

ANTH 5951. Independent Study. Unit: 1

Semester Prerequisite: a minimum overall grade point average of 3, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken. Quarter Prerequisite: a minimum overall grade point average of 3

Special topics involving library and/or field research. A total of six units in ANTH 5951-5954 may be applied toward graduation. Only three of those units may be applied to the major. Formerly known as ANTH 595B.

ANTH 5952. Independent Study. Units: 2

Semester Prerequisite: Prerequisites: a minimum overall grade point average of 3, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken. Quarter Prerequisite: a minimum overall grade point average of 3

Special topics involving library and/or field research. A total of six units in ANTH 5951-5954 may be applied toward graduation. Only three of those units may be applied to the major. Formerly known as ANTH 595C.

ANTH 5953. Independent Study. Units: 3

Semester Prerequisite: A minimum overall grade point average of 3, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken. Quarter Prerequisite: a minimum overall grade point average of 3

Special topics involving library and/or field research. A total of six units in ANTH 5951-5954 may be applied toward graduation. Only three of those units may be applied to the major. Formerly known as ANTH 595D.

ANTH 5954. Independent Study. Units: 4

Semester Prerequisite: a minimum overall grade point average of 3, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken. Quarter Prerequisite: a minimum overall grade point average of 3

Special topics involving library and/or field research. A total of six units in ANTH 5951-5954 may be applied toward graduation. Only three of those units may be applied to the major. Formerly known as ANTH 595E.

ANTH 5955. Senior Honors Project. Units: 4

Original research in an area of anthropological studies, culminating in a major research report receiving approval of the anthropology faculty. Enrollment limited to students whose formal application for departmental honors is approved. Formerly known as ANTH 597.

ANTH 6000. Proseminar in Anthropology. Units: 3

Quarter Prerequisite: consent of instructor

Survey of the concepts and methods that anthropologists employ to study, describe and analyze globalization. Formerly known as ANTH 600.

ANTH 6003. Advanced Studies in California Archaeology. Units: 3

Advanced study of the archaeology of California from the late Pleistocene through the Historic Period. Follows a temporal and topical approach, with particular emphasis on California Indians and ecological causes for cultural changes through time. Formerly known as ANTH 603.

ANTH 6004. History and Theory of Archaeology. Units: 3

Course provides an in-depth survey of the history of archaeology from its beginnings to the present day with an emphasis on developments in theory and their relationship to the interpretation of the archaeological record. Special attention is given to theories common to the study of the California hunter-gatherer cultures. Course intended to help students establish a basic framework for understanding, discussing, and writing about the development of theory in the discipline. Formerly known as ANTH 616.

ANTH 6005. Archaeological Research, Methods, and Proposal Design. Units: 3

In-depth investigation of selected problems in prehistoric and historical archaeology including detailed analysis of research design and methods used to address these problems. Consideration will also be given to the paradigms and theories that have underpinned how these problems have been investigated. Formerly offered as ANTH 615, students may not receive credit for both.

ANTH 6008. Advanced Indigenous Archaeology. Units: 3

A review of the discipline of Indigenous Archaeology. Includes contemporary case studies to illustrate theories and methods used in the field of Indigenous Archaeology.

ANTH 6012. Advanced Historical Archaeology. Units: 3

Advanced study of the use of archaeological methods to study historic peoples. The integration of archaeological research with documentary sources to reconstruct the past. Formerly known as ANTH 601.

ANTH 6013. Cultural Resource Management: Laws, Regulations, and Procedures. Units: 3

History of American historic preservation and overview of the laws and implementing regulations of NHPA Section 106, CEQA, NEPA, NAGPRA, ARPA, and other preservation laws. Introduction to CRM project implementation, including consultation, surveys, evaluations, mitigation, and curation management. Formerly known as ANTH 611.

ANTH 6014. Cultural Resource Management in Practice. Units: 4

The implementation of laws through regulations and agency policies and how those laws are operationalized through applied archaeology. Course uses Phase I, II, and III case studies to show how projects are conducted and how to create the resulting environmental documentation, as well as how to write proposals and budget for projects. Introduction to report writing and MOAs and MOUs. Formerly known as ANTH 612.

ANTH 6021L. Advanced Archaeological Laboratory Analysis. Units: 4

Advanced study of techniques and methods used to analyze archaeological remains in the laboratory. Special attention will be given to artifacts and analyses common to California. Active participation in various laboratory projects under the direction of the instructor. Three hours lecture and three hours laboratory per week. Formerly known as ANTH 602.

ANTH 6201. Advanced Archaeology of the Senses. Units: 3

A global perspective on archaeological research relating to the human senses. Topics may include music, oration, dance, art, food, smell, pain, and trance states. Students will read theoretical works and case study examples taking phenomenological and sensorial perspectives on a wide variety of archaeological contexts, from the music of ancient China to the sacrificial rituals of prehispanic Mesoamerica.

ANTH 6603L. Advanced Museum Research and Exhibition Development. Units: 4

Trains students to conduct curatorial research projects based in museum holdings. Includes standards, considerations, collaborative processes, and tools for developing and designing interpretive museum exhibitions. Coursework may contribute to planning exhibitions for area museums. Field trips and projects may be required.

ANTH 6754. Graduate Internship in Applied Archaeology. Units: 4

Supervised work in public or private organizations providing professional, hands-on experience in applied archaeology. May be repeated for a total of eight units. Graded Credit/No Credit. Formerly known as ANTH 677.

ANTH 6952. Independent Graduate Study. Units: 2

Semester Prerequisite: Consent of instructor and departmental approval. Quarter Prerequisite: Consent of instructor and departmental approval. Graduate-level independent study in anthropology for students in the program for the Master of Arts in Interdisciplinary Studies or in other graduate programs. A total of eight units may apply toward graduation. Formerly known as ANTH 695B.

ANTH 6953. Independent Graduate Study. Units: 3

Quarter Prerequisite: Consent of instructor and departmental approval. Graduate-level independent study in anthropology for students in the program for the Master of Arts in Interdisciplinary Studies or in other graduate programs. A total of eight units may apply toward graduation.

ANTH 6954. Independent Graduate Study. Units: 4

Quarter Prerequisite: Consent of instructor and departmental approval. Graduate-level independent study in anthropology for students in the program for the Master of Arts in Interdisciplinary Studies or in other graduate programs. A total of eight units may apply toward graduation.

ANTH 6955. Independent Graduate Study. Units: 5

Quarter Prerequisite: Consent of instructor and departmental approval. Graduate-level independent study in anthropology for students in the program for the Master of Arts in Interdisciplinary Studies or in other graduate programs. A total of eight units may apply toward graduation.

ANTH 6970. Thesis Research. Units: 3

Independent graduate research conducted under the guidance of the major advisor, with assistance from the other members of the student's committee, and resulting in a thesis or a completed project, either of which must be successfully defended. Formerly known as ANTH 699B.

ANTH 6990. Continuous Enrollment for Graduate Candidacy Standing. Units: 0

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ANTH 6991. Continuous Enrollment for Graduate Candidacy Standing. Unit: 1

Quarter Prerequisite: Advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ANTH 6992. Continuous Enrollment for Graduate Candidacy Standing. Units: 2

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ANTH 6993. Continuous Enrollment for Graduate Candidacy Standing. Units: 3

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ANTH 6994. Continuous Enrollment for Graduate Candidacy Standing. Units: 4

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ANTH 6995. Continuous Enrollment for Graduate Candidacy Standing. Units: 5

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ANTH 6996. Continuous Enrollment for Graduate Candidacy Standing. Units: 6

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

Aerospace Studies (AS)

Courses

AS 1001. Heritage and Values I. Unit: 1

Provides an introduction to the Air Force. The course allows students to examine general aspects of the Department of the Air Force, AF Leadership, Air Force benefits, and opportunities for Air Force officers. The course also lays the foundation for becoming an Airman by outlining our heritage and values. As a foundational course, AS1001 also provides a historical perspective such as lessons on war and US military, AF operations, principles of war, and airpower. As a whole, this course provides students with a knowledge-level understanding for the employment of air and space power, from an institutional, doctrinal, and historical perspective.

AS 1002. Heritage and Values II. Unit: 1

Continuation of AS1001; AFROTC cadets must register for Leadership Laboratory AS5001, as it complements this course with followership/leadership experience.

AS 2001. Team and Leadership Fundamentals I. Unit: 1

Designed to provide a fundamental understanding of both leadership and team building. This course will discuss techniques such for improving communication, leadership basics and ethics. Students will participate in case studies of leadership and management situations as a means of demonstrating and exercising practical application of concepts.

AS 2002. Team and Leadership Fundamentals II. Unit: 1

Continuation of AS2001; AFROTC cadets must register for Leadership Laboratory AS5001, as it complements this course with followership/leadership experience.

AS 3001. Leading People/Effective Communication I. Units: 3

This course is designed to build on the leadership fundamentals taught in AS2001. The goal is for students to have a more in-depth understanding of how to effectively lead people, and provide them with the tools to use throughout their lives and detachment leadership roles. Secondly, students will hone their writing and briefing skills to prepare them for public speaking. The course continues into advanced skills and ethics training that will prepare them for becoming an officer and supervisors.

AS 3002. Leading People/Effective Communication II. Units: 3

Continuation of AS3001; AFROTC cadets must register for Leadership Laboratory AS5001, as it complements this course with followership/leadership experience.

AS 4001. National Security/Leadership Responsibilities/Commissioning Preparation I. Units: 3

Course is designed to examine basic elements of national security policy and process. Course will discuss air and space power operations as well as how selected roles of the military in society and current domestic and international issues affect the military profession. Discusses the responsibility, authority, and functions of an Air Force commander and selected provisions of the military justice system. AS 4001 course is designed to prepare cadets for life as a second lieutenant.

AS 4002. National Security/Leadership Responsibilities/Commissioning Preparation II. Units: 3

Continuation of AS4001; AFROTC cadets must register for Leadership Laboratory AS5001, as it complements this course with followership/leadership experience.

AS 5001. Leadership Laboratory. Units: 0

Mandatory for and limited to Air Force ROTC cadets only. Provides cadets with practical command and staff leadership experiences through performance of various tasks within framework of organized cadet corps. As integral part of Aerospace Studies curriculum, this course provides experiences designed to develop leadership potential and serves as an orientation to active duty.

American Sign Language (ASL)

Courses

ASL 1020Q2S. College ASL II Bridge. Units: 0

Prerequisites: ASL 101 or equivalent

Introduction to the language. Fundamentals of signing and language structure designed to develop the ability to use and understand the language. Bridge course covering the second half of ASL 1111 to allow students to enter ASL 1112.

ASL 1111. American Sign Language I. Units: 3

Introduction to the language. Fundamentals of signing and language structure designed to develop the ability to use and understand the language. Formerly ASL 101. Materials fee required.

ASL 1112. American Sign Language II. Units: 3

Intermediate study in American Sign Language. Emphasis on proficiency/competence at the intermediate level. Satisfies GE C2/3B, DI, G designations. Materials fee required.

Astronomy (ASTR)

Courses

ASTR 1000. Introduction to Planetary Astronomy. Units: 3

A brief history of the development of astronomy followed by modern descriptions of our planetary system, extrasolar systems, and the possibilities of life in the universe. Discussions of methods of extending knowledge of the universe. No previous background in natural sciences is required. Satisfies GE B1/5A.

ASTR 1000L. Introduction to Planetary Astronomy Lab. Unit: 1

Laboratory associated with Introduction to Planetary Astronomy (ASTR 1000). Satisfies GE B3/5C. Materials fee required.

ASTR 1001. Introduction to Planetary Astronomy Activity. Unit: 1

Semester Corequisite: ASTR 1000, ASTR 1000L

For physics majors and astronomy minors, this activity section approaches the content of Introduction to Planetary Astronomy (ASTR 1000) and Introduction to Planetary Astronomy Laboratory (ASTR 1000L) with a focus on quantitative understanding of the phenomena.

ASTR 1010. Introduction to Galaxies and Cosmology. Units: 3

A brief history of the development of astronomy followed by modern descriptions of stars, galaxies, and structure, evolution, and eventual fate of the universe. Discussions of methods of extending knowledge of the universe. No previous background in natural sciences is required. Satisfies GE B1/5A.

ASTR 1010L. Introduction to Galaxies and Cosmology Lab. Unit: 1

Laboratory associated with Introduction to Galaxies and Cosmology (ASTR 1010). Satisfies GE B3/5C. Materials fee required.

ASTR 1011. Introduction to Galaxies and Cosmology Activity. Unit: 1

Semester Corequisite: ASTR 1010, ASTR 1010L

For physics majors and astronomy minors, this activity section approaches the content of Introduction to Galaxies and Cosmology (ASTR 1010) and Introduction to Galaxies and Cosmology Laboratory (ASTR 1010L) with a focus on quantitative understanding of the phenomena.

ASTR 2300. Introduction to Astronomy for Scientists. Units: 4

Semester Prerequisite: PHYS 2510, 2510L. Prerequisite: PHYS 223, MATH 213

A brief history of the development of astronomy followed by modern physical descriptions of our planetary system, extrasolar systems, stars, galaxies, and models of the universe. Discussions of methods of extending knowledge of the universe. Three hours lecture and three hours laboratory. Materials fee required.

ASTR 3000. Life in the Cosmos. Units: 3

Life in the cosmos is discussed using the findings of astronomy, biology, chemistry and physics. Topics include the development of life and its environment, the search for life, interstellar communications and travel, and the effects of contact. Satisfies GE B5/UD-5.

ASTR 3300. Astrophysics of Planetary Systems. Units: 3

Semester Prerequisite: ASTR 1000, ASTR 1000L, ASTR 1000R -or- ASTR 1010, ASTR 1010L, ASTR 1010R

Physical principles of planetary systems and their formation, stellar structure and evolution.

ASTR 3310. Astrophysics of Galaxies and Cosmology. Units: 3

Physical principles of stellar evolution, galactic structure, extragalactic astrophysics, and cosmology. Semester prerequisite: ASTR 1000, ASTR 1000L, ASTR 1000R -or- ASTR 1010, ASTR 1010L, ASTR 1010R.

ASTR 4000. Observational Astronomy. Units: 3

Semester Prerequisite: ASTR 1000, ASTR 1000L, ASTR 1000R -or- ASTR 1010, ASTR 1010L, ASTR 1010R, and PHYS 3300 or other computer programming course

Introduction to the operation of telescopes to image astronomical targets, primarily in the optical range. Topics include night sky motion and coordinate systems; digital imaging, reduction, and analysis; proposal design and review; and observation run planning. Projects include observation and analysis of both pre-determined objects and objects of the students' choosing. Presentations throughout the course using multiple methods of written and oral communication. Satisfies WI designation. One hour lecture, three hours lab and three hours supervision. Night-time observing required.

Biology (BIOL)

Courses

BIOL 1000. Introduction to Biology. Units: 3

Provides a broad introduction of biology, including our molecular-organismic-ecological heritage and the role of humans within the biosphere. Not intended for biology or biochemistry majors. Satisfies GE B2/5B. This course will be offered in person and online each semester.

BIOL 1000L. Introduction to Biology Lab. Unit: 1

Introductory level hands-on observation and experimentation on biological specimens, materials, and models. Not intended for biology and biochemistry majors. Materials fee required. Satisfies GE B3/5C.

BIOL 1010. Biology for Teachers. Units: 4

Survey of major areas of biology including cell biology, genetics, evolution, plant and animal anatomy and physiology, ecology, and behavior. Course content and practices are aligned with the Next Generation Science Standards (NGSS). Specially designed for students interested in teaching grades K-8. Three hours lecture and three hours lab. Materials fee required. Satisfies GE B2/5B.

BIOL 1020. Science, Culture, & Life. Units: 3

An exploration of the connection between science and culture. Employs literature focused on how culture influences science knowledge and the scientific process, such as "Braiding Sweetgrass" by the Native American author Robin Wall Kimmerer. The format of the course will be discussion of the readings based on instructor prompts, reflection essays, and collected descriptions that combine scientific knowledge of plants and their cultural meaning. In the process, the traditional societal definition of what it means to be a scientist will be challenged.

BIOL 2010. Principles of Biology I. Units: 5

Semester Prerequisite: CHEM 2100 with a grade of C or higher
Provides a foundational understanding of 1) the process of life and the universality of life processes at the molecular and cellular level and 2) the principles of Mendelian genetics. Four hours lecture and three hours laboratory. Materials fee required. Satisfies GE B2/5B; this course is not recommended as a GE course for non-STEM majors.

BIOL 2020. Principles of Biology II. Units: 5

Semester Prerequisite: BIOL 2010 with a grade of C (2) or better. Quarter Prerequisite: BIOL 200 and BIOL 201 with a grade of C or better
Introduces diversity, structure and function of all Kingdoms of life. Provides a foundational understanding of the principles of population genetics, evolution and ecology of organisms, populations, and communities. Four hours lecture and three hours laboratory. Materials fee required. When combined with BIOL 2010, this course is equivalent to the previously offered BIOL 200, 201, and 202.

BIOL 2160. Genetics and Society. Units: 3

Technological advances in genetics and their impact on society. Biological and ethical perspectives of the application of genetic research. Satisfies GE B2/5B.

BIOL 2170. Biology of Diseases. Units: 3

The biology, pathogenicity, epidemiology, diagnosis, and treatment of prominent and emerging infectious diseases. Impact of current biotechnology in relation to vaccine development, experimental treatments, and improved diagnostics and screening. Satisfies GE B2/5B.

BIOL 2180. Sustainable Agriculture. Units: 3

Evidence-based comparison of traditional, modern, and sustainable agricultural practices, including plant health, pests and diseases, crop types and yields, food distribution, and food insecurity. Examination of food-related choices in a scientific, ethical, and social context. Satisfies GE B2/5B.

BIOL 2200. Microbiology for Allied Health Majors. Units: 4

Semester Prerequisite: BIOL 1000 strongly recommended. Quarter Prerequisite: one lower-division biology course
Structure, physiology, and classification of bacteria, microbial eukaryotes, and viruses. Rudiments of infection and immunity, and overview of pathogenic microbes. Laboratory training in microscopy, cultivation, and identification of microorganisms. Three hours lecture and three hours laboratory. Materials fee required. Students enrolling in this course for a third time may do so only with the consent of instructor. Formerly BIOL 220; students may not receive credit for both.

BIOL 2230. Human Anatomy and Physiology I for Allied Health Majors. Units: 4

Quarter Prerequisite: BIOL 100 and be declared in one of the following degree options: BS in Nursing, or BS in Health Science, or BS in Nutrition and Food Science, or BS in Kinesiology, or Minor in Kinesiology; or consent of instructor

Covers living chemistry, cells, tissues, integumentary, skeletal, muscular, and nervous systems. Three hours lecture and three hours laboratory. Materials fee required. Previously offered as BIOL 223. Students may not receive credit for both courses. Students enrolling in this course for a third time may do so only with the consent of instructor. This course only satisfies allied health pre-professional requirements and does not fulfill any requirements for the Biology BS degree.

BIOL 2240. Human Anatomy and Physiology II for Allied Health Majors. Units: 4

Semester Prerequisite: BIOL 2230

Covers digestive, nervous, respiratory, cardiovascular, urinary, endocrine, and reproductive systems. Three hours lectures and three hours laboratory. Materials fee required. Satisfies GE B2/5B. This course only satisfies allied health pre-professional requirements and does not fulfill any requirements for the Biology BS degree.

BIOL 3010. Human Ecology. Units: 3

Semester Prerequisite: Junior or senior standing. Quarter Prerequisite: junior or senior standing

Environmental and ecological impacts of the growing human population, taking into consideration the effects of science, technology, and our societal attitudes. Satisfies GE B5/UD-5, and Environmental Sustainability pathway.

BIOL 3030. History of Life on Earth. Units: 3

Semester Prerequisite: Junior or senior standing

History of life on earth and the processes that govern its genesis, evolution, extinction, ecology, and preservation. Offered as BIOL 3030 and GEOL 3030. Satisfies GE B5/UD-5. Students may only receive credit for one of these courses.

BIOL 3050. Human Genetics and Genomics. Units: 3

Structure and function of genes and genomes with an emphasis on humans. Topics covered will include genome organization, gene expression and regulation, analysis of patterns of inheritance, pedigree analysis, mechanisms of genetic variation and the role of genetic variation in the development of human disease, and applications of genomic analysis in precision medicine. This course does not fulfill the Group A requirement for a BS in Biology.

BIOL 3091. Special Studies in Biology. Unit: 1

Investigation, research, or study of a selected topic, the topic title to be specified in advance. May repeat for credit as topics change for a total of 2 units. Instructor consent required. This course does not satisfy any requirements for the undergraduate major in Biology. Formerly BIOL 295A.

BIOL 3092. Special Studies in Biology. Units: 2

Investigation, research, or study of a selected topic, the topic title to be specified in advance. May repeat for credit as topics change, for a total of 4 units. Instructor consent required. This course does not satisfy any requirements for the undergraduate major in Biology. Formerly BIOL 295B.

BIOL 3100. Cell Biology. Units: 4

Semester Prerequisite: BIOL 2020 with a grade of C (2.0) or better, and one of CHEM 2300 with a C (2.0) or better, CHEM 2400 with a C (2.0), or better or CHEM 3400 with a C (2.0) or better

Structure and function of eukaryotic cells and organelles, and their physiological processes at the molecular level, including metabolism, signal transduction, gene regulation, and cell cycle control. Three hours lecture and three hours laboratory. Materials fee required. Satisfies WI designation.

BIOL 3120. Molecular Biology. Units: 4

Semester Prerequisite: BIOL 2020 with a grade of C (2.0) or better; and one of the following: CHEM 2300, CHEM 2400 or CHEM 3400 with a C (2.0) or better. Quarter Prerequisite: BIOL 300 with a grade of C or better and CHEM 223 or CHEM 323

Informational macromolecules, and how they direct molecular processes in both eukaryotic and bacterial cells. Three hours lecture and three hours laboratory. Materials fee required. Formerly offered as BIOL 400; students may not receive credit for both courses.

BIOL 3200. Microbiology. Units: 4

Semester Prerequisite: BIOL 2020 with a grade of C (2.0) or better; Pre- or Co-requisite one of the following: CHEM 2300, CHEM 2400 or CHEM 3400. Quarter Prerequisite: BIOL 300 with a grade of C (2.0) or better

Semester Corequisite: CHEM 2300, CHEM 2400 or CHEM 3400
The structure and function, metabolism, and genetics of microorganisms with an introduction to bacterial, viral, fungal, and protozoan pathogens. Two hours lecture and six hours laboratory. Materials fee required.

Formerly offered as BIOL 320; students may not receive credit for both courses. Satisfies GE designation WI.

BIOL 3300. Genetics. Units: 4

Quarter Prerequisite: BIOL 300 with a grade of C (2.0) or better
Principles of heredity and genetic analysis, including underlying molecular mechanisms. Includes current concepts of the organization, function, and regulation of genes. Three hours lecture and three hours laboratory. Materials fee required. Students should not take both this course and BIOL 3320.

BIOL 3320. Genetic Analysis of Model Organisms. Units: 5

Semester Prerequisite: BIOL 2020 with a grade of C (2.0) or better; Pre- or Co-requisite one of the following: CHEM 2300, CHEM 2400 or CHEM 3400

Semester Corequisite: Pre- or Co-requisite one of the following: CHEM 2300, CHEM 2400 or CHEM 3400

Classic and modern approaches to genetics with focus on analysis of gene structure and function using techniques and model organisms more relevant for biomedical research. Topics will include forward and reverse genetics, DNA sequencing, cloning by complementation, positional cloning, and recent advances in genetic analysis. The course covers basic principles of heredity and will fulfill requirements of a general genetics course, but with specific emphasis on using more biomedically-focused techniques and model organisms for analyses. This course is a substitute for the fundamentals of genetics covered in BIOL 3300 but also as a complement in terms of the types of analyses. Students should not take both this course and BIOL 3300. Three hours lecture and six hours laboratory per week. Materials fee required.

BIOL 3400. Comparative Embryology. Units: 3

Semester Prerequisite: BIOL 2020 with a grade of C (2.0) or better; Pre- or Co-requisite one of the following: CHEM 2300, CHEM 2400 or CHEM 3400

Semester Corequisite: CHEM 2300, CHEM 2400 or CHEM 3400
Descriptive survey of developmental patterns of tissue and organ formation to include studies of insects, echinoderms, and amphibian, avian, reptilian, marsupial plus placental mammalian vertebrate embryology. Two hours lecture and three hours laboratory. Materials fee required. BIOL 3420 strongly recommended. Formerly offered as BIOL 340; students may not receive credit for both courses.

BIOL 3410. Biology of Invertebrates. Units: 4

Semester Prerequisite: BIOL 2020 with a grade of C (2.0) or better; Pre- or Co-requisite one of the following: CHEM 2300, CHEM 2400 or CHEM 3400. Quarter Prerequisite: BIOL 300 with a grade of C (2.0) or better
Semester Corequisite: CHEM 2300, CHEM 2400 or CHEM 3400
Survey of the major groups of invertebrates, with emphasis on taxonomy, structure, function, reproduction, and evolution. Three hours lecture and three hours laboratory. Materials fee required. Formerly offered as BIOL 331; students may not receive credit for both courses.

BIOL 3420. Comparative Biology of the Vertebrates. Units: 5

Semester Prerequisite: BIOL 2020 with a grade of C (2.0) or better; Pre- or Co-requisite one of the following: CHEM 2300, CHEM 2400 or CHEM 3400. Quarter Prerequisite: BIOL 300 with a grade of C (2.0) or better
Semester Corequisite: CHEM 2300, CHEM 2400 or CHEM 3400
Structural, developmental and ecological changes in the evolution of the chordates and their ancestors, with an emphasis on comparative vertebrate anatomy. Three hours lecture and six hours laboratory. Materials fee required. Formerly offered as BIOL 342; students may not receive credit for both courses.

BIOL 3421. Vertebrate Paleontology. Units: 4

Survey of the origins, evolution, and diversity of major lineages of fossil vertebrates, with emphasis on the use of fossil examples to elucidate patterns of form and function, origins of major groups, development of key structural innovations, and patterns of change and extinction over time. Three hours lecture and three hours laboratory. Equivalent to BIOL 3480; credit cannot be received for both.

BIOL 3430. Mammalogy. Units: 3

Semester Prerequisite: BIOL 2020 with a grade of C (2.0) or better; Pre- or Co-requisite one of the following: CHEM 2300, CHEM 2400 or CHEM 3400. Quarter Prerequisite: BIOL 300 with grade C (2.0) or better
Semester Corequisite: CHEM 2300, CHEM 2400, or CHEM 3400
Systematics, evolution, morphology, physiology, ecology and behavior of mammals. Two hours lecture and three hours laboratory. Materials fee required. Formerly offered as BIOL 343; students may not receive credit for both courses.

BIOL 3440. Herpetology. Units: 4

Semester Prerequisite: BIOL 2020 with a grade of C (2.0) or better; Pre- or Co-requisite one of the following: CHEM 2300, CHEM 2400, or CHEM 3400. Quarter Prerequisite: BIOL 300 with grad of C (2.0) or better
Semester Corequisite: CHEM 2300, CHEM 2400, or CHEM 3400
Diversity, evolution, morphology, physiology, behavior and ecology of amphibians and reptiles. Two hours lecture and six hours laboratory. Materials fee required. Formerly offered as BIOL 344; students may not receive credit for both courses.

BIOL 3450. Ornithology. Units: 3

Semester Prerequisite: BIOL 2020 with a grade of C (2.0) or better; Pre- or Co-requisite one of the following: CHEM 2300, CHEM 2400, or CHEM 3400. Quarter Prerequisite: BIOL 300 with grade C (2.0) or better
Semester Corequisite: CHEM 2300, CHEM 2400 or CHEM 3400
Introduction to the biology of birds. Course includes study of the functional morphology, ecology and behavior, and the evolutionary relationships among extant taxa. Laboratory exercises will focus on identification and museum studies, coupled with field observations of avian species diversity and associated habitats with an emphasis on resident and migratory species of southern California. Two hours lecture and three hours laboratory. Materials fee required. Formerly offered as BIOL 345; students may not receive credit for both courses.

BIOL 3460. Entomology. Units: 3

Semester Prerequisite: BIOL 2020 with a grade of C (2.0) or better; Pre- or Co-requisite one of the following: CHEM 2300, CHEM 2400, or CHEM 3400. Quarter Prerequisite: BIOL 300 with a grade of C (2.0) or better
Semester Corequisite: CHEM 2300, CHEM 2400 or CHEM 3400
A survey of the anatomy, classification, physiology, ecology, and evolution of the insects. Two hours lecture and three hours laboratory/field studies. Materials fee required. Formerly offered as BIOL 335; students may not receive credit for both courses.

BIOL 3470. Ichthyology. Units: 3

Semester Prerequisite: BIOL 2020 with a grade of C (2.0) or better; Pre- or Co-requisite one of the following: CHEM 2300, CHEM 2400, or CHEM 3400

This course will provide students with an overview and a broad understanding of the biodiversity found within fishes. It will cover topics such as aquaculture, behavior, conservation, ecology, evolutionary relationships and physiology. For the lab component, students will have an opportunity for hands-on studies of morphology, meristics (quantifying features of a fish), species identification, and behavior. They will also address topics related to conservation and policy, and participate in a field trip to the Southern California Marine Institute, where students will observe fishes caught (and released) during a trawl. Overall, this course will provide a unique opportunity for students to learn more about organismal biology using current, real-world approaches. Two hours lecture and three hours laboratory. Materials fee required.

BIOL 3520. Local Flora. Units: 3

Semester Prerequisite: BIOL 2020 with a grade of C (2.0) or better, or consent of instructor. Quarter Prerequisite: BIOL 300 with a grade of C or better or consent of instructor
Identification of the flora and ecological communities of southern California with a consideration of taxonomic principles. One hour lecture, one hour discussion, and three hours laboratory including field collections. Materials fee required. Formerly offered as BIOL 319; students may not receive credit for both courses.

BIOL 3540. Plant Biology and Diversity. Units: 4

Semester Prerequisite: BIOL 2020 with a grade of C (2.0) or better; Pre- or Co-requisite one of the following: CHEM 2300, CHEM 2400, or CHEM 3400. Quarter Prerequisite: BIOL 300 with a grade of C (2.0) or better
Semester Corequisite: CHEM 2300, CHEM 2400, or CHEM 3400
Comparative plant morphology, anatomy, and development, with emphasis on ecological consequences of variation in anatomical traits. Three hours lecture and three hours laboratory. Materials fee required. 2000-level physics course (or equivalent) recommended. Formerly offered as BIOL 354; students may not receive credit for both courses.

BIOL 3560. Plant Physiology. Units: 5

Semester Prerequisite: BIOL 2020 with a grade of C (2.0) or better, and one of the following with a grade of C (2.0) or better: CHEM 2300, CHEM 2400, or CHEM 3400
Comparative analysis of physiological activity in plants at the various levels of cells, tissues, organs and organisms. Three hours lecture and six hours laboratory. Materials fee required. Formerly offered as BIOL 431 and BIOL 4510; students may not receive credit for both courses.

BIOL 3630. Comparative Animal Physiology I. Units: 4

Semester Prerequisite: BIOL 2020 with a grade of C or better
A comparative analysis of the physiologic mechanisms and performance in animals, with emphasis on evolutionary trends in neuronal and musculoskeletal functions. Three hours lecture and three hours laboratory. Materials fee required. 2000-level physics course (or equivalent) recommended. Satisfies WI designation.

BIOL 3640. Comparative Animal Physiology II. Units: 4

Semester Prerequisite: BIOL 2020 with a grade of C or better
A comparative analysis of the physiologic mechanisms and performance in animals, with emphasis on evolutionary trends in cardiorespiratory, osmotic and thermoregulatory functions. Three hours lecture and three hours laboratory. Materials fee required. 2000-level physics course (or equivalent) recommended. Satisfies WI designation.

BIOL 3700. Evolution. Units: 4

Semester Prerequisite: BIOL 2020 with a grade of C (2.0) or better; Pre- or Co-requisite one of the following: CHEM 2300, CHEM 2400, or CHEM 3400. Quarter Prerequisite: BIOL 300 with a grade of C (2.0) or better
Semester Corequisite: CHEM 2300, CHEM 2400, or CHEM 3400
A broad survey of evolutionary biology. Topics include natural selection and adaptation, population genetics, speciation, and the historical patterns in the diversity of life that arise from the evolutionary process. Three hours lecture and one hour of discussion. Formerly offered as BIOL 321; students may not receive credit for both courses.

BIOL 3800. Ecology. Units: 4

Semester Prerequisite: BIOL 2020 with a grade of C (2.0) or better, MATH 1601 with a grade of C (2.0) or better or MATH 2210 with a grade of C (2.0) or better, and Pre- or Co-requisite one of the following: CHEM 2300, CHEM 2400, or CHEM 3400; or consent of instructor. Quarter Prerequisite: BIOL 300 with a grade of C (2.0) or better; and MATH 120, MATH 192 or MATH 211; or consent of instructor
Semester Corequisite: Completion of or concurrent enrollment in CHEM 2300, CHEM 2400 or CHEM 3400
Analysis of the interrelationships of organisms and their physical and biotic environment with a consideration of the role of the environment in natural selection. Three hours lecture and three hours laboratory/field studies. Materials fee required.

BIOL 3820. Microbial Ecology. Units: 4

Semester Prerequisite: BIOL 2020 with a grade of C (2) or better. Quarter Prerequisite: BIOL 202 with a grade of C (2) or better; completion of CHEM 221 or CHEM 321

Semester Corequisite: CHEM 2300, CHEM 2400, or CHEM 3400

An overview of interactions between microorganisms and their environments, and classical and modern methods used to study microbial communities and their ecology. Particular focus will be placed on important roles that microbes play in carbon and nitrogen cycling, and human-microbe interactions. Three hours lecture and three hours lab. Materials fee required.

BIOL 3880. Invasion Biology. Units: 3

Semester Prerequisite: BIOL 2020 with a grade of C (2.0) or better; Pre- or Co-requisite one of the following: CHEM 2300, CHEM 2400, or CHEM 3400. Prerequisite: BIOL 300 with a grade of C (2.0) or better

Semester Corequisite: Completion of or concurrent enrollment in CHEM 2300, CHEM 2400, or CHEM 3400

The study of how exotic species are introduced into a new environment and the impact that they have on that new environment. More specifically, it involves the exploration of the ecology and evolution of invasive species. Through a combination of lectures, discussion and hands-on, research-based approaches, students will: 1) understand how invasive species are being introduced; 2) evaluate and predict under which ecological and evolutionary conditions a species might become invasive; 3) diagnose the impact of invasive species on the surrounding biotic and abiotic environment; 4) collect and analyze data and create a visual representation of species spread; and 5) design a plan for prevention, control and/or eradication of targeted invasive species. Two hours lecture and three hours laboratory/ field studies. Materials fee required.

BIOL 3900. Conservation Biology. Units: 4

Semester Prerequisite: BIOL 2020 with a grade of C (2.0) or better; completion of or concurrent enrollment in CHEM 2300 or CHEM 2400 or CHEM 3400. Quarter Prerequisite: BIOL 300 with a grade of "C" (2.0) or better, and BIOL 321 or 450

Semester Corequisite: CHEM 2300 or CHEM 2400 or CHEM 3400

An examination of factors influencing biological diversity including habitat loss and fragmentation, global climate change, and species extinction. The science of conservation biology is interdisciplinary and has a focus that ranges from genes and populations through ecosystems and global levels of biodiversity. The maintenance and restoration of biodiversity necessarily overlaps with other disciplines including wildlife and resource management, law, economics, and ethics. Formerly offered as BIOL 514 or BIOL 5840; students may not earn credit for both courses. Three hours lecture, one hour discussion.

BIOL 3950. Marine Biology. Units: 4

Semester Prerequisite: BIOL 2020 with a grade of C (2.0) or better; Pre- or Co-requisite one of the following: CHEM 2300, CHEM 2400, or CHEM 3400; or consent of instructor. Prerequisite: BIOL 300 with a grade of C (2.0) or better; or consent of instructor

Semester Corequisite: Completion of or concurrent enrollment in CHEM 2300, CHEM 2400, or CHEM 3400

This course provides students with comprehensive knowledge in marine biology. This course covers taxonomy, ecology, evolution and conservation of marine fauna and flora. During this course, students will obtain training in taxonomical identification, field ecology and management of marine resources. Three hours lecture and three hours laboratory/ field studies. Materials fee required.

BIOL 3961. Directed Study. Unit: 1

Reading and library research in an area of biology conducted under the direction of a faculty member in the Department of Biology. Consent of instructor and departmental approval of a written proposal submitted on a standard application form filed in advance of the semester in which the course is to be taken. May be taken two time for four unit, but no more than two units of BIOL 3961 or BIOL 3962 may be applied toward a biology elective for graduation. Graded credit/no credit. Formerly BIOL 396A.

BIOL 3962. Directed Study. Units: 2

Reading and library research in an area of biology conducted under the direction of a faculty member in the Department of Biology. Consent of instructor and departmental approval of a written proposal submitted on a standard application form filed in advance of the semester in which the course is to be taken. May be taken two time for four units, but no more than two units of BIOL 3961 or BIOL 3962 may be applied toward a biology elective for graduation. Graded credit/no credit. Formerly BIOL 396B.

BIOL 4130. Biology of Stem Cells. Units: 3

Semester Prerequisite: BIOL 2020 with a grade of C (2.0) or better; Pre- or Co-requisite one of the following: CHEM 2300, CHEM 2400 or CHEM 3400

Semester Corequisite: CHEM 2300, CHEM 2400 or CHEM 3400
Examination of fundamental concepts and themes in stem cell-based regenerative medicine: pluripotency and reprogramming, cell types, organ systems, stem cells and therapeutics an ethics. Experimental approaches and emerging areas in stem cell research addressed in seminars from visiting scholars/scientists and with readings from the primary literature. Formerly offered as BIOL 413 and BIOL 3130; students may not receive credit for both courses.

BIOL 4140. Biology of Cancer. Units: 2

Semester Prerequisite: BIOL 2020 with a grade of C (2.0) or better and one of the following: CHEM 2300, CHEM 2400 or CHEM 3400. BIOL 3100, 3120, or BIOL 3300 recommended

Semester Corequisite: One of the following: CHEM 2300, CHEM 2400 or CHEM 3400

A comprehensive survey of the biological principles formulated over time that have established current mechanistic understandings leading to a varied approach to cancer treatment. Topics include the molecular genetics of cancer, factors affecting tumor growth, host defense against cancer cells, environmental and lifestyle carcinogens and modern therapeutic protocols. Formerly offered as BIOL 3140; students may not receive credit for both courses.

BIOL 4200. Medical Microbiology. Units: 5

Semester Prerequisite: BIOL 3200. Quarter Prerequisite: BIOL 300 with a grade of C or better, and BIOL 320 or consent of instructor

An overview of topics and lab techniques in medial microbiology, emphasizing the biology of medically relevant bacteria, viruses, fungi and protozoa. The course will focus on the host-pathogen interaction, including the actions of the pathogenic microorganism and the immune response, as well as the overall host microbiome as an ecosystem perturbed by infection. Three hours of lecture, one hour of discussion, and three hours laboratory. Materials fee required. Formerly offered as BIOL 420; students may not receive credit for both courses.

BIOL 4270. Functional Microbial Genomics. Units: 5

Semester Prerequisite: BIOL 3100 with a grade of C or better, or BIOL 3200 with a grade of C or better

Training in microbiology and molecular biology laboratory skills, biotechnology research, and the broader concepts of genomics and genome database/bioinformatics/cyber infrastructure applications. Students will participate in authentic/original research- attempting to duplicate that in faculty labs but in a classroom setting. Mastering the process of science will be stressed. This will include an emphasis on experimental design, research material preparation, critical thinking, data analysis, real-life research problem solving, and iterative learning. BIOL 3120 recommended. Three hours lecture and six hours laboratory. Materials fee required. Formerly offered as BIOL 427; students may not receive credit for both courses.

BIOL 4400. Developmental Biology. Units: 4

Semester Prerequisite: BIOL 3100 or BIOL 3120 or BIOL 3200 or BIOL 3300. Quarter Prerequisite: BIOL 300 with a grade of C or better, and CHEM 223 or 323

Comparative analysis of patterns and processes of development of organisms, with emphasis on the role of genetic and biochemical mechanisms. Three hours lecture and three hours laboratory. Materials fee required. Formerly offered as BIOL 440; students may not receive credit for both courses.

BIOL 4580. Medical and Economic Botany. Units: 3

Semester Prerequisite: One of the following: BIOL 3700, BIOL 3800, or BIOL 3900; and one of the following: CHEM 2300, CHEM 2400, or CHEM 3400. Quarter Prerequisite: BIOL 300 with a grade of C (2.0) or better. Survey of medically and economically important plant species and families. Includes plants harmful and beneficial to humans, with emphasis on vascular species. Formerly offered as BIOL 380; students may not earn credit for both courses.

BIOL 4630. Human Anatomy and Physiology I. Units: 5

Semester Prerequisite: BIOL 2020 with a grade of C (2.0) or better. Quarter Prerequisite: BIOL 300 with a grade of C or better. Semester Corequisite: One of the following: CHEM 2300, CHEM 2400, or CHEM 3400

Comprehensive study of the human form and function in the broader context of vertebrate animals, and select case studies of human pathologies. Course covers early development and the anatomy and physiology of the integumentary, skeletal, muscular, and nervous systems, and the special senses. Four hours lecture and three hours laboratory. Materials fee required. When combined with BIOL 4640, this course is equivalent to the previously offered BIOL 323 and BIOL 324. Students may not receive credit for both this course and either BIOL 323 or BIOL 324.

BIOL 4640. Human Anatomy and Physiology II. Units: 5

Semester Prerequisite: BIOL 4630 with a grade of C or better; or consent of instructor. Quarter Prerequisite: BIOL 300 with a grade of C or better. Comprehensive study of the human form and function in the broader context of vertebrate animals, and select case studies of human pathologies. Course covers early development and the anatomy and physiology of the digestive, respiratory, cardiovascular, excretory, reproductive, and endocrine systems. Four hours lecture and three hours laboratory. Materials fee required. When combined with BIOL 4630, this course is equivalent to the previously offered BIOL 323 and 324. Students may not receive credit for both this course and either BIOL 323 or BIOL 324.

BIOL 4650. Human Anatomy for Biology Majors. Units: 5

Semester Prerequisite: Completion of either PHYS 2000 or PHYS 2500 with a 'C' (2.0) or better, and completion of BIOL 2020 with a 'B' (3.0) or better or completion of any 3000 level Biology course with a 'C' (2.0) or better

Comprehensive study of the human form in the broader context of vertebrate animals. Topics include the anatomy of early development and the following systems: integumentary, skeletal, muscular, nervous, digestive, respiratory, cardiovascular, excretory, reproductive, endocrine and special senses. Four hours lecture and three hours laboratory. Students that have taken either BIOL 323 or BIOL 4630 and BIOL 4640 may not take this course as an elective in the BIOL major. Materials fee required.

BIOL 4901. Special Topics. Unit: 1

Semester Prerequisite: BIOL 2020 with a grade of C (2) or better. Quarter Prerequisite: BIOL 300 with a grade of C (2) or better. Semester Corequisite: CHEM 2300 or CHEM 2400 or CHEM 3400. Group study of a selected topic, the title to be specified in advance. Can be taken a maximum of four times for a total of four units as topics change. Formerly 490A.

BIOL 4902. Special Topics. Units: 2

Group study of a selected topic, the title to be specified in advance. May be taken four times for eight units, as topics change.

BIOL 4903. Special Topics. Units: 3

Semester Prerequisite: BIOL 2020 with a grade of C or better; completion of or concurrent enrollment in CHEM 2300 or CHEM 2400. Quarter Prerequisite: BIOL 300 with a grade of C or better. Group study of a selected topic, the title to be specified in advance. May be repeated up to four times for credit as topics change. Formerly BIOL 490C.

BIOL 4911. Special Laboratory Topics. Unit: 1

Semester Prerequisite: BIOL 2020 with a grade of C (2.0) or better; completion of or concurrent enrollment in CHEM 2300 or CHEM 2400 or CHEM 3400. Semester Corequisite: CHEM 2300 or CHEM 2400 or CHEM 3400. Group laboratory study of a selected topic, the title to be specified in advance. Materials fee required. Can be taken a maximum of four times for a total of four units as topics change. Formerly BIOL 491A.

BIOL 4912. Special Laboratory Topics. Units: 2

Semester Prerequisite: BIOL 2020 with a grade of C or better. Quarter Prerequisite: BIOL 300 with a grade of C or better and 15 units of upper-division biology course work

Semester Corequisite: CHEM 2300 or CHEM 2400 or CHEM 3400

Group laboratory study of a selected topic, the title to be specified in advance. May be repeated up to four times for credit as topics change. Materials fee required. Can be taken a maximum of four times for a total of eight units. Formerly BIOL 491B.

BIOL 4990. Readings in Biology. Unit: 1

Semester Prerequisite: BIOL 2020 with a grade of C or better. Quarter Prerequisite: BIOL 200, 201, 202 and 300

Group study of topics of current biological interest, involving analysis of the primary literature and presentations by students. May be taken up to four times but students may only earn credit toward the major once. Instructor consent required. Graded credit/no credit. Formerly BIOL 391.

BIOL 5000. Biology Seminar. Unit: 1

Semester Prerequisite: BIOL 2020 with a grade of C or better, or graduate standing in Biology. Quarter Prerequisite: BIOL 300 with a grade of C or better

Topics of current biological interest, presented by students, faculty, and guest speakers. Discussion of primary research associated with presentation topics, including how the research relates to broader topics in Biology. May be taken once for credit toward the B.S. in Biology; may be taken twice for credit toward the elective requirement of the Master of Science in Biology. Formerly offered as BIOL 390 or BIOL 591; students may not earn credit for either of these previous courses and this course. Graded credit/no credit.

BIOL 5010. Ethics in Biological Research. Unit: 1

Quarter Prerequisite: Graduate or senior standing in Biology

Ethical issues related to biological research. Covers use of animals and humans as research subjects, conservation and cultural issues, intellectual property, authorship, and research misconduct. It includes basic Research Ethics, also known as Responsible Conduct of Research, and meets the Responsible Conduct of Research training requirements for NIH and NSF grants.

BIOL 5050. Biostatistics and Experimental Design. Units: 4

Semester Prerequisite: MATH 1601 or MATH 2210, BIOL 2020 with a grade of C or better, or consent of instructor. Quarter Prerequisite: BIOL 300 with a grade of "C" or better, MATH 192 or 211, and consent of instructor

Provides an understanding of the design of biological experiments and analysis of data. Topics will include experimental design and sampling protocols, techniques for displaying and describing data, probability, and hypothesis testing. The course surveys statistical approaches to the analysis of proportions and frequencies, comparisons of means among numerical variables, regression, correlation, analysis of variance, as well as non-parametric approaches. Department consent required. Three hours lecture and three hours laboratory.

BIOL 5100. Experimental Cellular Analysis. Units: 4

Semester Prerequisite: BIOL 3100 with a grade of C or better; or graduate standing in Biology; or consent of instructor. Quarter Prerequisite: BIOL 300 with a grade of C or better; or graduate standing in Biology; or consent of instructor

Laboratory techniques for examining and manipulating cells, including genetic, biochemical, imaging, and viability assays. This course will integrate core principles of cell biology and biochemistry with an emphasis on experimental design, execution, interpretation, and presentation. Two hours lecture and six hours laboratory. Materials fee required.

BIOL 5130. Animal Tissue Culture. Units: 3

Semester Prerequisite: BIOL 3100 with a grade of C or better, or graduate standing in Biology. Quarter Prerequisite: BIOL 300 with a grade of C or better

Theory and concepts of animal tissue culture including fundamentals of tissue culture techniques, sub-culturing and maintenance of cell lines. Strong emphasis on stem cell technology. One hour lecture and four hours laboratory. Materials fee required. Formerly offered as BIOL 513; students may not earn credit for both courses.

BIOL 5150. Neurobiology. Units: 3

Semester Prerequisite: One of the following courses with a grade of C or better: BIOL 3100, BIOL 3120, BIOL 3200, or BIOL 3300; or graduate standing in Biology. Quarter Prerequisite: BIOL 300 with a grade of C or better

Study of the structure, physiology, and pharmacology of the nervous system. Mechanisms of cellular communication, perception of sensory information, endocrine function, motor control, development, and learning and memory in the nervous system will be examined. Formerly offered as BIOL 580; students may not receive credit for both courses.

BIOL 5160. Introduction to Regulatory Affairs in the Life Sciences. Units: 2

Semester Prerequisite: BIOL 5130. Quarter Prerequisite: BIOL 300 with a grade of "C" or better and consent of the instructor
Introduces the pharmaceutical, biotechnology, and biologics industries and the laws and regulations related to these products. Discussion of company organization, product development, and commercialization-associated activities. Consent of Instructor required. Formerly offered as BIOL 516; students may not earn credit for both courses.

BIOL 5170. Human Embryonic Stem Cell Culture Methods. Units: 2

Semester Prerequisite: BIOL 5130. Quarter Prerequisite: BIOL 300 with a grade of "C" or better and consent of instructor

Advanced laboratory training in plating and passaging of human embryonic stem cells and human induced pluripotent stem cells. Mastery of a variety of cell culture techniques including isolation and culturing techniques including isolation and culturing of mouse embryonic fibroblasts, PCR and flow cytometry and immunohistochemistry on human embryonic stem cells and embryoid bodies. One hour of lecture and three hours of lab. Consent of Instructor required. Materials fee required. Formerly offered as BIOL 517; students may not earn credit for both courses.

BIOL 5200. Tropical Biology. Units: 4

Semester Prerequisite: One of the following: BIOL 3430, 3440, 3450, 3460, 3700, BIOL 3800, or BIOL 3900; and one of the following: CHEM 2300, CHEM 2400, or CHEM 3400

Study of terrestrial tropical ecosystems, focusing on animal diversity, the relationships between organisms and environment, and comparisons with temperate ecosystems. Students engage in field methodology to address an ecological research question. A field trip to Costa Rica required during the term at student expense. Three hours lecture and three hours laboratory. Materials fee required.

BIOL 5260. Genomics. Units: 4

Semester Prerequisite: Graduate standing in Biology, or one of the following courses with a grade of C or better: BIOL 3100, BIOL 3120, BIOL 3200, or BIOL 3300. Quarter Prerequisite: BIOL 300 with a grade of C or better

Overview of the history of genomics and its current applications. Topics covered will include genome sequencing, assembly, annotation, and analysis; transcriptomics and proteomics. Three hours lecture and three hours lab. Materials fee required.

BIOL 5280. Advanced Molecular Genetics. Units: 3

Semester Prerequisite: One of the following courses with a grade of C or better: BIOL 3100, BIOL 3120, BIOL 3200, or BIOL 3300; or graduate standing in Biology. Quarter Prerequisite: BIOL 300 with a grade of C or better, BIOL 400, 423, and CHEM 223 or 323

Examination of modern molecular techniques applied to genetics research in common model organisms, including transgenesis, gene targeting/replacement, temporal-spatial control of gene expression, and in situ and genome-wide expression analysis. Formerly offered as BIOL 528; students may not receive credit for both courses.

BIOL 5300. Microscopy. Units: 3

Semester Prerequisite: senior standing or consent of instructor. Quarter Prerequisite: senior standing and consent of instructor

Theory and techniques of modern microscopy. Lectures on theory of optics and imaging for several types of microscopes (Light microscope, fluorescence microscope, confocal microscope, scanning probe microscope, and electron microscope). Laboratory includes hands-on training in the technical aspects of specimen preparation and microscope use. Two hours lecture and three hours laboratory. Formerly offered as BIOL/GEOL 530, students may not receive credit for both courses. Offered as GEOL 5300 and BIOL 5300. Students may not receive credit for both. Materials fee required.

BIOL 5310. Advanced Molecular Techniques. Units: 4

Semester Prerequisite: BIOL 3120 with a grade of C or better, or graduate standing in Biology. Quarter Prerequisite: BIOL 300 with a grade of C or better and BIOL 400

Techniques utilized in molecular research and biotechnology. Methods for isolating and analyzing molecules of life, including DNA, RNA, and protein will be carried out in the context of an advanced molecular research project. A final research report will be required from the student. Two hours lecture and six hours laboratory. Materials fee required. This course incorporates portions of BIOL 502 and BIOL 592; students may not receive credit both BIOL 592 and BIOL 5310.

BIOL 5320. Virology. Units: 4

Semester Prerequisite: One of the following courses with a grade of C (2.0) or better: BIOL 3100, BIOL 3120, BIOL 3200, or BIOL 3300. Quarter Prerequisite: BIOL 400 with a grade of "C" (2.0) or better

Examination of the structure, genetics and modes of replication of viruses, viroids, and other related sub-cellular entities; their implications in medicine; and their use in scientific research. Virological methods such as infection and plaque assays will be carried out in the context of an advanced virology research project. Three hours lecture and three hours laboratory. Formerly offered as BIOL 572; students may not receive credit for both courses. Materials fee required.

BIOL 5330. Biotechnology Practicum. Units: 5

Semester Prerequisite: BIOL 3100 with a grade of C (2.0) or better and either BIOL 3120, BIOL 3200 with grades of C (2.0) or better; or CHEM 4100/4100L; or graduate standing; or permission of instructor.

Prerequisite: BIOL 300 with grade of C (2.0) or better, plus 15 additional units of upper-division Biology; or permission of instructor
Laboratory principles and procedures useful to students interested in a research or industry career. Laboratory exercises will emphasize preparation of useful biotechnological products, including cells and purified enzymes. Students will take an active role in planning experiments, including preparing required solutions, reagents, and materials. Students will evaluate and report the quality of products they produce, measuring abundance, purity, and potency. Three hours lecture and six hours laboratory. Materials fee required.

BIOL 5370. Immunology. Units: 5

Semester Prerequisite: BIOL 3120 and either BIOL 3100 or BIOL 3200; or graduate standing in Biology; or consent of instructor. Quarter Prerequisite: BIOL 400 with a grade of "C" or better

Foundations of immunology and current advances in the study of the immunological response. Laboratory examination of immunological assays applied in both research and clinical diagnostics. Three hours lecture, one hour discussion, and three hours laboratory. Materials fee required. Formerly offered as BIOL 573; students may not receive credit for both courses.

BIOL 5420. Advanced Vertebrate Morphology. Units: 3

Semester Prerequisite: BIOL 3420 with a grade of C or better, or graduate standing in Biology. Quarter Prerequisite: BIOL 342, BIOL 424 and consent of instructor

Advanced techniques in the study of vertebrates, including dissection and specimen preparation. Lecture sessions on advanced topics in vertebrate anatomy and recent research advances. Lab activities include construction of animal skeletal materials, detailed study and dissection of vertebrate organ systems, and individual student designed projects. Projects consist of both laboratory projects under the guidance of instructor and problem-based learning activities that are conducted both in the laboratory and in open activity time with small student groups. (Highly recommended to students planning on applying to PBL veterinary professional programs.) Two hours lecture and three hours laboratory. Materials fee required. BIOL 3630 or BIOL 3640 recommended. Formerly offered as BIOL 524; students may not receive credit for both courses.

BIOL 5550. Comparative Biomechanics.**Units: 4**

Semester Prerequisite: Completion of either PHYS 2000 or PHYS 2500 with a 'C' (2.0) or better AND at least ONE of the following with a 'C' (2.0) or better: BIOL 3400, BIOL 3410, BIOL 3420, BIOL 3430, BIOL 3440, BIOL 3450, BIOL 3460, BIOL 3480, BIOL 3630, BIOL 3700, BIOL 3800, BIOL 3950; or graduate standing in Biology. Quarter Prerequisite: BIOL 300 with grade of C or better, PHYS 121, PHYS 122, or consent of instructor

Examination and quantitative analysis of structure and function of animals and plants using physical principles. Application of fluid and solid mechanics in the study of biologic materials. Three hours lecture and three hours laboratory. Materials fee required. Formerly offered as BIOL 555; students may not receive credit for both courses.

BIOL 5670. Endocrinology. Units: 3

Semester Prerequisite: BIOL 3100 with a grade of C or better; or graduate standing in Biology. Quarter Prerequisite: BIOL 300 with a grade of C or better

Endocrine systems with emphasis on mechanisms for regulating the biosynthesis, secretion, transport, and actions of hormones. Formerly offered as BIOL 576; students may not receive credit for both courses.

BIOL 5720. Population Genetics. Units: 4

Semester Prerequisite: MATH 1601 with a grade of C or better or MATH 2210 with a grade of C or better and either BIOL 3700 with a grade of C or better or BIOL 3800 with a grade of C or better; or graduate standing in Biology. Quarter Prerequisite: BIOL 423 and MATH 192 or 211

Focuses on evolution at the genetic level including the description of genetic variation within and among populations and the evolutionary forces that can act on this variation over time. Three hours lecture, one hour discussion.

BIOL 5752. Internship in Biology. Units: 2

Supervised work and study in work situations involving biological research and technical skills. May be repeated for a total of six units. Only two units of internship courses (BIOL 5752-5752G) may be applied towards the biology major requirements. Consent of Instructor required. Graded credit/no credit. Formerly BIOL 575A.

BIOL 5752B. Internship in Biology: Pre-Health. Units: 2

Supervised work and study in work situations involving biological research and technical skills. May be repeated for a total of six units. Only two units of internship courses (BIOL 5752-5752G) may be applied towards the biology major requirements. Consent of Instructor required. Graded credit/no credit. Formerly BIOL 575B.

BIOL 5752C. Internship in Biology: Biotechnology. Units: 2

Supervised work and study in work situations involving biological research and technical skills. May be repeated for a total of six units. Only two units of internship courses (BIOL 5752-5752G) may be applied towards the biology major requirements. Consent of Instructor required. Graded credit/no credit. Formerly BIOL 575C.

BIOL 5752D. Internship in Biology: Wildlife Biology. Units: 2

Supervised work and study in work situations involving biological research and technical skills. May be repeated for a total of six units. Only two units of internship courses (BIOL 5752-5752G) may be applied towards the biology major requirements. Consent of Instructor required. Graded credit/no credit. Formerly BIOL 575D.

BIOL 5752E. Internship in Biology: Botany. Units: 2

Supervised work and study in work situations involving biological research and technical skills. May be repeated for a total of six units. Only two units of internship courses (BIOL 5752-5752G) may be applied towards the biology major requirements. Consent of Instructor required. Graded credit/no credit. Formerly BIOL 575E.

BIOL 5752F. Internship in Biology: Science Education. Units: 2

Supervised work and study in work situations involving biological research and technical skills. May be repeated for a total of six units. Only two units of internship courses (BIOL 5752-5752G) may be applied towards the biology major requirements. Consent of Instructor required. Graded credit/no credit. Formerly BIOL 575F.

BIOL 5752G. Internship in Biology: Museum Science. Units: 2

Supervised work and study in work situations involving biological research and technical skills. May be repeated for a total of six units. Only two units of internship courses (BIOL 5752-5752G) may be applied towards the biology major requirements. Consent of Instructor required. Graded credit/no credit. Formerly BIOL 575G.

BIOL 5820. Vertebrate Field Biology. Units: 3

Semester Prerequisite: BIOL 3700 with a grade of C or better, or BIOL 3800 with a grade of C or better, or graduate standing in Biology, or consent of instructor. Quarter Prerequisite: BIOL 300 with a grade of C or better, BIOL 450

Field study of the ecology and natural history of the vertebrate fauna of southern California. One hour lecture and six hours laboratory/field work. Materials fee required. Formerly offered as BIOL 525; students may not receive credit for both courses.

BIOL 5850. Global Change Biology. Units: 3

Semester Prerequisite: BIOL 3800 with a grade of C or better, or graduate standing in Biology, or consent of instructor. Quarter Prerequisite: BIOL 300 with a grade of "C" or better, and an upper-division lab course in ecology (BIOL 349, BIOL 450, or BIOL 455) or consent of instructor. An examination of changing ecological and biogeochemical processes at selected times in the earth's history including, but not limited to, the modern era. Exploration of causes and consequences of contemporary global change for biological systems including displaced populations, disrupted ecological interactions, and altered epidemiological patterns. Formerly offered as BIOL 515; students may not earn credit for both courses.

BIOL 5860. Physiological Ecology. Units: 4

Semester Prerequisite: One of the following with a grade of C or better: BIOL 3630, BIOL 3640, or BIOL 4510; or graduate standing in Biology; or consent of instructor. Quarter Prerequisite: BIOL 354 and 424; or 431 and either 331 or 342; and 450

Study of physiological, morphological, and behavioral responses of organisms to physical environmental factors such as temperature, light, salinity, and altitude. Three hours lecture and three hours laboratory. Materials fee required. Formerly offered as BIOL 565; students may not receive credit for both courses.

BIOL 5901. Senior Seminar: Molecular Biology. Units: 2

Semester Prerequisite: At least 90 semester units and BIOL 3120 with a grade of C or better; or graduate standing in Biology; or consent of instructor. Quarter Prerequisite: BIOL 300 with a grade of C or better, and a minimum of 15 upper-division units in biology courses and at least 135 quarter units

Survey of current literature, methods and ethics of scientific inquiry in molecular biology. Formerly BIOL 590A.

BIOL 5902. Senior Seminar: Biosystematics. Units: 2

Semester Prerequisite: At least 90 semester units and either BIOL 3300 with a C or better or BIOL 3700 with a C or better; or graduate standing in Biology; or consent of instructor. Quarter Prerequisite: BIOL 300 with a grade of C or better, and a minimum of 15 upper-division units in biology courses and at least 135 quarter units

Survey of current literature, methods and ethics of scientific inquiry in biosystematics. Formerly BIOL 590B.

BIOL 5903. Senior Seminar: Cell Biology. Units: 2

Semester Prerequisite: At least 90 semester units and BIOL 3100 with a grade of C or better; or graduate standing in Biology; or consent of instructor. Quarter Prerequisite: BIOL 300 with a grade of C or better, and a minimum of 15 upper-division units in biology courses and at least 135 quarter units

Survey of current literature, methods and ethics of scientific inquiry in cell biology. Formerly BIOL 590C.

BIOL 5904. Senior Seminar: Physiology. Units: 2

Semester Prerequisite: At least 90 semester units or graduate standing in Biology, or consent of instructor. Quarter Prerequisite: BIOL 300 with a grade of C or better, and a minimum of 15 upper-division units in biology courses and at least 135 quarter units

Survey of current literature, methods and ethics of scientific inquiry in physiology. Formerly BIOL 590D.

BIOL 5905. Senior Seminar: Ecology. Units: 2

Semester Prerequisite: At least 90 semester units and BIOL 3800 with a grade of C or better; or graduate standing in Biology; or consent of instructor. Quarter Prerequisite: BIOL 300 with a grade of C or better, and a minimum of 15 upper-division units in biology courses and at least 135 quarter units

Survey of current literature, methods and ethics of scientific inquiry in ecology. Formerly BIOL 590E.

BIOL 5906. Senior Seminar: Genetics. Units: 2

Semester Prerequisite: At least 90 semester units and BIOL 3300 with a grade of C or better; or graduate standing in Biology; or consent of instructor. Quarter Prerequisite: BIOL 300 with a grade of C or better, and a minimum of 15 upper-division units in biology courses and at least 135 quarter units

Survey of current literature, methods and ethics of scientific inquiry in genetics. Formerly BIOL 590G.

BIOL 5907. Senior Seminar: Evolution. Units: 2

Semester Prerequisite: At least 90 semester units and BIOL 3700 with a grade of C or better; or graduate standing in Biology; or consent of instructor. Quarter Prerequisite: BIOL 300 with a grade of C or better, and a minimum of 15 upper-division units in biology courses and at least 135 quarter units

Survey of current literature, methods and ethics of scientific inquiry in evolution. Formerly BIOL 590H.

BIOL 5908. Senior Seminar: Microbiology. Units: 2

Semester Prerequisite: At least 90 semester units and BIOL 3200 with a grade of C or better; or graduate standing in Biology; or consent of instructor. Quarter Prerequisite: BIOL 300 with a grade of C or better, and a minimum of 15 upper-division units in biology courses and at least 135 quarter units

Survey of current literature, methods and ethics of scientific inquiry in microbiology. Formerly BIOL 590I.

BIOL 5909. Senior Seminar: Zoology. Units: 2

Semester Prerequisite: At least 90 semester units or graduate standing in Biology, or consent of instructor. Quarter Prerequisite: BIOL 300 with a grade of C or better, and a minimum of 15 upper-division units in biology courses and at least 135 quarter units

Survey of current literature, methods and ethics of scientific inquiry in zoology. Formerly BIOL 590J.

BIOL 5910. Senior Seminar: Botany. Units: 2

Semester Prerequisite: At least 90 semester units and one of the following courses with a grade of C or better: BIOL 3520, BIOL 3540, BIOL 4510, or BIOL 4580; or graduate standing in Biology; or consent of instructor. Quarter Prerequisite: BIOL 300 with a grade of C or better, and a minimum of 15 upper-division units in biology courses and at least 135 quarter units

Survey of current literature, methods and ethics of scientific inquiry in botany. Formerly BIOL 590K.

BIOL 5911. Senior Seminar: History of Biology. Units: 2

Semester Prerequisite: At least 90 semester units and BIOL 2020 with a grade of C or better; or graduate standing in Biology. Quarter Prerequisite: BIOL 300 with a grade of C or better, and a minimum of 15 upper-division units in biology courses and at least 135 quarter units

Investigation into the history of different branches of biology. Formerly BIOL 590L.

BIOL 5912. Senior Seminar: Conservation Biology. Units: 2

Semester Prerequisite: At least 90 semester units and either BIOL 3700 with a grade of C or better or BIOL 3800 with a grade of C or better; or graduate standing in Biology; or consent of instructor. Quarter Prerequisite: BIOL 300 with a grade of C or better, and a minimum of 15 upper-division units in biology courses and at least 135 quarter units Survey of current literature, methods and ethics of scientific inquiry in conservation biology. Formerly BIOL 590M.

BIOL 5951. Independent Research. Unit: 1

Quarter Prerequisite: BIOL 202 with a grade of C or better and a minimum overall GPA of 3 or better

Laboratory and/or field research in selected areas in biology conducted under the direction of a faculty member. A total of four units of Independent Research (BIOL 5951-5956) may be applied toward the major requirements of the B.S. in Biology. Students must present research findings at least once per academic year at the Biology Department colloquium, and must attend the Biology Department colloquium every semester until their projects are complete. Department approval of a written project proposal submitted on a standard application is required. The project proposal must be submitted for Departmental review in advance of the semester in which the course is to be taken. May be taken four time for four units. Department consent required. Graded credit/no credit.

BIOL 5952. Independent Research. Units: 2

Quarter Prerequisite: BIOL 202 with a grade of C or better and a minimum overall GPA of B or better

Laboratory and/or field research in selected areas in biology conducted under the direction of a faculty member. A total of four units of Independent Research (BIOL 5951-5956) may be applied toward the major requirements of the B.S. in Biology. Students must present research findings at least once per academic year at the Biology Department colloquium, and must attend the Biology Department colloquium every semester until their projects are complete. Department approval of a written project proposal submitted on a standard application is required. The project proposal must be submitted for Departmental review in advance of the semester in which the course is to be taken. May be taken three times for six units. Consent of Instructor required. Graded credit/no credit.

BIOL 5953. Independent Research. Units: 3

Quarter Prerequisite: BIOL 202 with a grade of C or better and a minimum overall GPA of B or better

Laboratory and/or field research in selected areas in biology conducted under the direction of a faculty member. A total of four units of Independent Research (BIOL 5951-5956) may be applied toward the major requirements of the B.S. in Biology. Students must present research findings at least once per academic year at the Biology Department colloquium, and must attend the Biology Department colloquium every semester until their projects are complete. Department approval of a written project proposal submitted on a standard application is required. The project proposal must be submitted for Departmental review in advance of the semester in which the course is to be taken. May be taken two time for six units. Department required. Graded credit/no credit.

BIOL 5954. Independent Research. Units: 4

Quarter Prerequisite: BIOL 202 with a grade of C or better and a minimum overall GPA of B or better

Laboratory and/or field research in selected areas in biology conducted under the direction of a faculty member. A total of four units of Independent Research (BIOL 5951-5956) may be applied toward the major requirements of the B.S. in Biology. Students must present research findings at least once per academic year at the Biology Department colloquium, and must attend the Biology Department colloquium every semester until their projects are complete. Department approval of a written project proposal submitted on a standard application is required. The project proposal must be submitted for Departmental review in advance of the semester in which the course is to be taken. May be taken two time for eight units. Department consent required. Graded credit/no credit.

BIOL 5955. Independent Research. Units: 5

Quarter Prerequisite: BIOL 202 with a grade of C or better and a minimum overall GPA of 3 or better

Laboratory and/or field research in selected areas in biology conducted under the direction of a faculty member. A total of four units of Independent Research (BIOL 5951-5956) may be applied toward the undergraduate degree in Biology. Students must present research findings at least once per academic year at the Biology Department colloquium, and must attend the Biology Department colloquium every semester until their projects are complete. Department approval of a written project proposal submitted on a standard application is required. The project proposal must be submitted for Departmental review in advance of the semester in which the course is to be taken. May be taken two time for 10 units. Department consent required. Graded credit/no credit.

BIOL 5956. Independent Research. Units: 6

Quarter Prerequisite: BIOL 202 with a grade of C or better and a minimum overall GPA of 3 or better

Laboratory and/or field research in selected areas in biology conducted under the direction of a faculty member. A total of four units of Independent Research (BIOL 5951-5956) may be applied toward the undergraduate degree in Biology. Students must present research findings at least once per academic year at the Biology Department colloquium, and must attend the Biology Department colloquium every semester until their projects are complete. Department approval of a written project proposal submitted on a standard application is required. The project proposal must be submitted for Departmental review in advance of the semester in which the course is to be taken. Department consent required. Graded credit/no credit.

BIOL 5970. Directed Study in Science Education. Unit: 1

Readings and library research on pedagogical content knowledge of specific content areas in biology. This course should be taken concurrently with or shortly after taking an upper division course in the relevant area of biology. Graded credit/no credit. May be repeated up to four times for credit. No more than two units may be applied toward degree requirements for the BS in Biology. Department approval of a written proposal submitted on a standard application is required. The proposal must be submitted for Departmental review in advance of the semester in which the course is to be taken. Consent of Instructor required. Formerly BIOL 597.

BIOL 6010. Effective Teaching Strategies for Graduate TAs. Units: 2

Semester Prerequisite: Graduate standing in Biology. Quarter

Prerequisite: Graduate standing in Biology

Course explores multiple perspectives and strategies for effective teaching. Covers the diversity of students and learning needs, effective presentations, professional behaviors, assessment of student progress and learning, and how to adapt class content or teaching approach as needed. Includes classroom visitations and peer observations. This course is required of all graduate students prior to or concurrent with their first assignment as a teaching assistant. Formerly offered as BIOL 601; students may not receive credit for both courses.

BIOL 6020. Professional Writing in the Biological Sciences. Units: 2

Semester Prerequisite: Graduate standing in Biology

Writing skills appropriate to scientific works (journal articles, meeting abstracts, proposals, technical writing for general audiences, etc.). Includes formatting conventions, peer review, and ethical issues in scientific writing. Graduate students should take this course early in their program.

BIOL 6030. Presentation in Biological Sciences. Unit: 1

Semester Prerequisite: Graduate standing in Biology

Methods of effective presentation in biological research. Covers structure of oral presentations, effective data presentation, and audience engagement. Completion of course requires presentation of original laboratory and/or field research. Students will work closely with their thesis mentor to develop, carry out, analyze, prepare, and present their first research talk at the Biology Department Student Research Colloquium or other venue approved by the student's thesis committee. Graded credit/no credit.

BIOL 6050L. Graduate Biostatistics and Experimental Design Laboratory. Unit: 1

Semester Prerequisite: BIOL 5050 and consent of instructor

Provides experience in using various computer programs and techniques to address problems in statistical analysis and presentation of data related to a student's thesis project, including analysis of proportions and frequencies, comparisons of means among numerical variables, regression, correlation, analysis of variance, as well as non-parametric approaches. Graded credit/no credit.

BIOL 6100. Primary Literature in Biology. Unit: 1

Semester Prerequisite: Graduate standing in Biology

Faculty supervised discussion in journal club format. Students will learn how to interpret, evaluate, present, and critique published research articles in various subfields of biology. Formerly BIOL 691. May be repeated up to three times for credit. Graded credit/no credit.

BIOL 6300. Advanced Topics in Molecular Biology. Units: 2

Semester Prerequisite: Graduate standing in Biology. Quarter

Prerequisite: consent of instructor

An in-depth consideration of selected research areas in molecular biology. May be repeated for credit as topics change. Formerly BIOL 600.

BIOL 6310. Advanced Topics in Cell Biology. Units: 2

Quarter Prerequisite: consent of instructor

An in-depth consideration of selected research areas in cell biology. May be repeated for credit as topics change. Formerly BIOL 605.

BIOL 6320. Advanced Topics in Plant Biology. Units: 2

Semester Prerequisite: Graduate standing in Biology. Quarter

Prerequisite: consent of instructor

An in-depth consideration of selected areas of current study in plant biology. May be repeated for credit as topics change. Formerly BIOL 620.

BIOL 6330. Advanced Topics in Zoology. Units: 2

Semester Prerequisite: Graduate standing in Biology. Quarter

Prerequisite: consent of instructor

An in-depth consideration of selected research areas in zoology. May be repeated for credit as topics change. Formerly BIOL 622.

BIOL 6340. Advanced Topics in Physiology. Units: 2

Semester Prerequisite: Graduate standing in Biology. Quarter

Prerequisite: consent of instructor

An in-depth consideration of selected research areas in physiology. May be repeated for credit as topics change. Formerly BIOL 624.

BIOL 6350. Advanced Topics in Immunology. Units: 2

Quarter Prerequisite: BIOL 573

An in-depth examination of current research in cellular and molecular immunology. May be repeated for credit as topics change. Formerly BIOL 677.

BIOL 6360. Advanced Topics in Microbiology. Units: 2

Semester Prerequisite: BIOL 2200 or BIOL 3200 and graduate standing in Biology. Quarter Prerequisite: BIOL 220 or BIOL 320

An in-depth examination of current research in microbiology. May be repeated for credit as topics change. Formerly BIOL 678.

BIOL 6370. Advanced Topics in Ecology. Units: 2

Semester Prerequisite: BIOL 3800 or equivalent, and graduate standing in Biology. Quarter Prerequisite: BIOL 450 or equivalent

Literature survey of specific topics related to community or ecosystem dynamics. May be repeated for credit as topics change. Formerly BIOL 670.

BIOL 6380. Advanced Topics in Evolution. Units: 2

Semester Prerequisite: Graduate standing in Biology. Quarter

Prerequisite: consent of instructor

Topics of current research interest in plant or animal evolution. May be repeated for credit as topics change. Formerly BIOL 680.

BIOL 6390. Advanced Topics in Genetics. Units: 2

Semester Prerequisite: Graduate standing in Biology. Quarter

Prerequisite: consent of instructor

An in-depth consideration of selected research areas in genetics. May be repeated for credit as topics change. Formerly BIOL 650.

BIOL 6400. Advanced Topics in Biosystematics. Units: 2

Semester Prerequisite: Graduate standing in Biology, BIOL 3300, and one taxonomy-based course; eg BIOL 3520, 3410, 3460, 3420, or 3540.

Quarter Prerequisite: BIOL 423 and one taxonomy-based course; eg BIOL 319, 331, 335, 342, 353, or 354

Fundamental concepts of classification systems, biometric and experimental taxonomic procedures, nomenclature and systematic literature, both plant and animal materials used. Formerly BIOL 664.

BIOL 6490. Advanced Topics in Biology. Units: 2

Semester Prerequisite: Graduate standing in Biology

Selected topics and reviews of current investigations in the fields of biology. May be repeated for credit as topics change. Formerly BIOL 690.

BIOL 6930. Supervised Graduate Research in Biology. Unit: 1

Semester Prerequisite: Classified graduate standing in Biology. Quarter Prerequisite: classified standing in Masters Degree Program and consent of instructor

Laboratory and/or field research methods in biology. Instruction in methods and techniques in the student's subfield of biology, focusing on developing methods and direction for the thesis research. Students should take this course early in their graduate program. Formerly BIOL 692; students may not receive credit for both. Consent of instructor required. Graded credit/no credit.

BIOL 6940. Thesis proposal. Units: 3

Semester Prerequisite: BIOL 6020, BIOL 6930, and completion of at least 6 additional units toward the graduate degree

Research proposal development conducted under direction of the student's thesis mentor. To complete the course, students must successfully defend their thesis proposal. The written thesis proposal should explicitly state the research objectives, review the body of literature that motivates and justifies the research, describe appropriate research methods, and present preliminary data. The student will defend the thesis proposal with an oral presentation open to the public, followed by a private question and answer period with the thesis committee. Successful completion allows student to advance to candidacy. Consent of instructor required. Graded credit/no credit.

BIOL 6951. Independent Graduate Research in Biology. Unit: 1

Quarter Prerequisite: classified standing in Masters Degree Program and consent of instructor

Original individual research in biology to be conducted under the supervision of a faculty member. Consent of instructor required. Formerly BIOL 696A. May be repeated twice for credit. No more than six units of Independent Graduate Research (BIOL 6951-6956) may be applied toward degree requirements. Graded credit/no credit.

BIOL 6952. Independent Graduate Research in Biology. Units: 2

Quarter Prerequisite: classified standing in Masters Degree Program and consent of instructor

Original individual research in biology to be conducted under the supervision of a faculty member. Consent of instructor required. Formerly BIOL 696B. May be repeated twice for credit. No more than six units of Independent Graduate Research (BIOL 6951-6956) may be applied toward degree requirements. Graded credit/no credit.

BIOL 6953. Independent Graduate Research in Biology. Units: 3

Quarter Prerequisite: classified standing in Masters Degree Program and consent of instructor

Original individual research in biology to be conducted under the supervision of a faculty member. Consent of instructor required. Formerly BIOL 696C. May be repeated twice for credit. No more than six units of Independent Graduate Research (BIOL 6951-6956) may be applied toward degree requirements. Graded credit/no credit.

BIOL 6954. Independent Graduate Research in Biology. Units: 4

Quarter Prerequisite: classified standing in Masters Degree Program and consent of instructor

Original individual research in biology to be conducted under the supervision of a faculty member. Formerly BIOL 696D. May be repeated twice for credit. No more than six units of Independent Graduate Research (BIOL 6951-6956) may be applied toward degree requirements. Graded credit/no credit. Consent of instructor required.

BIOL 6955. Independent Graduate Research in Biology. Units: 5

Quarter Prerequisite: classified standing in Masters Degree Program and consent of instructor

Original individual research in biology to be conducted under the supervision of a faculty member. Formerly BIOL 696E. May be repeated twice for credit. No more than six units of Independent Graduate Research (BIOL 6951-6956) may be applied toward degree requirements. Graded credit/no credit. Consent of instructor required.

BIOL 6956. Independent Graduate Research in Biology. Units: 6

Quarter Prerequisite: classified standing in Masters Degree Program and consent of instructor

Original individual research in biology to be conducted under the supervision of a faculty member. Formerly BIOL 696F. May be repeated twice for credit. No more than six units of Independent Graduate Research (BIOL 6951-6956) may be applied toward degree requirements. Graded credit/no credit. Consent of instructor required.

BIOL 6970. Graduate Thesis. Units: 3

Semester Prerequisite: BIOL 6940

Preparation of the thesis for the Master of Science in Biology under the direction of a faculty member from the student's committee.

Requirements: successful completion and defense of the thesis. Formerly offered as the combination of BIOL 699A, BIOL 699B and BIOL 699C. Consent of instructor required. Graded credit/no credit.

BIOL 6990. Continuous Enrollment for Graduate Candidacy Standing. Units: 0

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

BIOL 6991. Continuous Enrollment for Graduate Candidacy Standing. Unit: 1

Quarter Prerequisite: Advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

BIOL 6992. Continuous Enrollment for Graduate Candidacy Standing. Units: 2

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

BIOL 6993. Continuous Enrollment for Graduate Candidacy Standing. Units: 3

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

BIOL 6994. Continuous Enrollment for Graduate Candidacy Standing. Units: 4

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

BIOL 6995. Continuous Enrollment for Graduate Candidacy Standing. Units: 5

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

BIOL 6996. Continuous Enrollment for Graduate Candidacy Standing. Units: 6

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

Child, Adolescent, and Family Studies (CAFS)

Courses

CAFS 2200. Child Development as a Major. Unit: 1

An introduction to the Child Development major at CSUSB including different areas of specialization and professional activities of those who obtain a degree in Child Development. This is an online course. Formerly known as CD 2200. Graded credit/no credit.

CAFS 2201. Foundational Skills for Child Development Majors. Unit: 1

Semester Prerequisite: CAFS 2200

This course is designed to provide students with essential foundational skills necessary for achieving excellence as a Child Development major. To equip them with the tools and knowledge needed to succeed in the completion of their degree, students will engage in a broad exploration of such topics as effective writing, plagiarism prevention, academic integrity, APA style, critical analysis of information, and professional communication in an academic setting. By the end of the course, students will have enhanced skills that are critical for producing high-quality academic work and for establishing meaningful connections with faculty, students, and staff. Formerly known as CD 2201.

CAFS 2205. Diversity in Child Development. Units: 3

Semester Prerequisite: CAFS 2240

Theories of cultural and ethnic diversity and their applications to child development. Emphasis will be given to the impact of diversity (culture, race, gender, age, ability, etc.) in professional settings involving children, the development of anti-bias activities, and advocacy. Satisfies DI designation. Formerly known as CD 2205.

CAFS 2209. Health, Safety, and Nutrition. Units: 3

Semester Prerequisite: CAFS 2240

Training in basic health, safety, nutrition, and disaster preparedness issues when caring for children (with and without special needs).# Students will additionally be introduced to child abuse identification and prevention and caring for the mildly ill child. Formerly known as CD 2209.

CAFS 2210. Introduction to Data Analysis in Child Development. Units: 4

Semester Prerequisite: GE B4 Math/Quantitative Reasoning, CD 2240
Techniques for the elementary analysis of quantitative and qualitative social data. Includes descriptive and inferential measures and tools to code and analyze qualitative data, as well as various ways to present results. Three hours lecture and two hours of laboratory. Materials fee required.

CAFS 2215. Child, Family, and Community. Units: 3

Semester Prerequisite: CAFS 2240

An examination of children in a societal context focusing on the inter-relationship between school, family, and community. Emphasis will be given to historical and cultural factors which influence the family and children's subsequent socialization. Formerly known as HD 215, CD 2215.

CAFS 2220. Introduction to Data Analysis in Child Development. Units: 3

Techniques for the elementary analysis of quantitative and qualitative social data. Includes descriptive and inferential measures and tools to code and analyze qualitative data, as well as various ways to present results. Three hours lecture. Formerly known as CD 2220.

CAFS 2240. Introduction to Child Development. Units: 3

Comprehensive introduction to child development from conception through adolescence. Emphasis is on physical, cognitive social, emotional and language development. Satisfies GE D3/4.

CAFS 2244. Observation and Methods: Infant and Toddler Development. Units: 3

Semester Prerequisite: CAFS 2240

Introduction to observational methodologies and techniques used in the study of infant and toddler behavior. Students will observe, record, analyze and interpret infant and toddler behavior as they relate to developmental principles, theories and current research. A minimum of 15 hours of child observation will be required. Formerly known as CD 2244.

CAFS 2245. Observation and Methods: Preschool and Early School Age Development. Units: 3

Semester Prerequisite: CAFS 2240

Introduction to observational methodologies and techniques used in the study of preschool and early school age behavior. Students will observe, record, analyze and interpret preschool and early school age behavior as they relate to developmental principles, theories and current research. A minimum of 15 hours of child observation will be required. Formerly known as HD 245, CD 2245.

CAFS 2246. Observation and Methods: School Age Development. Units: 3

Semester Prerequisite: CAFS 2240

Introduction to observational methodologies and techniques used in the study of school age behavior. Students will observe, record, analyze and interpret school age behavior as they relate to developmental principles, theories and current research. A minimum of 15 hours of child observation will be required. Formerly known as HD 246, CD 2246.

CAFS 2247. Observation and Methods: Adolescent Development. Units: 3

Semester Prerequisite: CAFS 2240

Introduction to observational methodologies and techniques used in the study of adolescent behavior. Students will observe, record, analyze and interpret adolescent behavior as they relate to developmental principles, theories and current research. A minimum of 15 hours of child observation will be required. Formerly known as HD 247, CD 2247.

CAFS 2250. Infant and Toddler Development. Units: 3

Semester Prerequisite: CAFS 2240

An examination of prenatal, neonatal, and the physical, perceptual, social, emotional, language, and cognitive development of infants and toddlers through age two. # Formerly known as HD 270, CD 2250.

CAFS 2251. Effective Interactions with Infants and Toddlers. Units: 3

Semester Prerequisite: CAFS 2250

An examination of the importance of developmentally appropriate practice emphasizing the role of relationships, constructive adult-child interactions, designing group care settings, and positive child guidance with infants and toddlers. # Professional practice with regard to advocacy, ethics, and professional identity will be explored as well. Formerly known as HD 271, CD 2251.

CAFS 2252. Infant and Toddler Activities and Programs. Units: 3

Methods, materials and activities appropriate in group care settings for infants and toddlers. Teaching strategies that support physical, social, emotional, language, creative, and cognitive development of infants and toddlers. Formerly known as HD 272, CD 2252.

CAFS 2260. Early Childhood Development. Units: 3

Semester Prerequisite: CAFS 2240

An examination of the physical, social, emotional, and cognitive development of preschool and early school age children from age two to six. Formerly known as HD 280, CD 2260.

CAFS 2261. Effective Interactions with Preschoolers and Early School Aged. Units: 3

Semester Prerequisite: CAFS 2260

An examination of the importance of developmentally appropriate practice emphasizing the role of relationships, constructive adult-child interactions, designing group care settings, and positive child guidance with preschool and early school age children. Professional practice with regard to advocacy, ethics, and professional identity will be explored as well. Formerly known as HD 281, CD 2261.

CAFS 2262. Preschool and Early School Age Activities and Programs. Units: 3

Semester Prerequisite: CAFS 2261

Methods, materials, and activities appropriate in group care settings for preschoolers and early school age children. Teaching strategies that support physical, social, emotional, language, creative, and cognitive development preschooler and early school age children. Formerly known as HD 282, CD 2262.

CAFS 2270. Middle Childhood Development. Units: 3

An examination of the physical, social, emotional, and cognitive development of children in middle childhood (age 6 to 12). Formerly known as CD 2270.

CAFS 2275. Adolescent and Emerging Adulthood Development. Units: 3

Semester Prerequisite: CAFS 2240

An examination of physical, cognitive, social, and emotional development during adolescence and emerging adulthood (age 12-25). Formerly known as CD 2275.

CAFS 2281. Effective Interactions with Infants and Toddlers: Laboratory. Units: 2

Semester Prerequisite: Current immunizations (TB test, flu, pertussis, measles), proof of government issued ID, and training (mandated reporter and germ management)

Supervised experience focusing on developmentally appropriate practices in communicating and interacting with infants and toddlers and guiding child behavior. Formerly known as CD 2281. Materials fee required.

CAFS 2282. Infant and Toddler Activities and Programs: Laboratory. Units: 2

Semester Prerequisite: Current immunizations (TB test, flu, pertussis, measles), proof of government issued ID, and training (mandated reporter and germ management)

Supervised experience focusing on planning, implementing, and evaluating curriculum activities with infants and toddlers. Formerly known as CD 2282. Materials fee required.

CAFS 2285. Effective Interactions, Activities, and Programs with School Age and Adolescent Children. Units: 3

Semester Prerequisite: CAFS 2270 or CAFS 2275

An examination of the importance of developmentally appropriate practice with school-age and adolescent children. This will include the role of relationships, constructive adult-child interaction, and positive child guidance in addition to appropriate methods, materials, and activities. Emphasis will be given to strategies that support physical, social, emotional, language, creative, and cognitive development. Formerly known as CD 2285, CD 4405.

CAFS 2286. Interactions Lab: School Age and Adolescence. Units: 2

Semester Corequisite: CAFS 2285

Supervised experience focusing on developmentally appropriate practices in communicating and interacting with school-age and adolescents and guiding behavior. This course requires 15 hours of seminar and 45 hours of clinical per term. Materials fee required. Formerly known as CD 2286, CD 4406.

CAFS 2287. Activities Lab: School Age and Adolescence. Units: 2

Supervised experience planning, implementing, and evaluating curriculum activities with school-age and adolescent children. This course requires 15 hours of seminar and 45 hours of clinical per term. Formerly known as CD 2287, CD 4407. Materials fee required.

CAFS 2291. Effective Interactions with Preschool and Early School Ageders: Laboratory. Units: 2

Semester Prerequisite: Current immunizations (TB test, flu, pertussis, measles), proof of government issued ID, and training (mandated reporter and germ management)

Semester Corequisite: CAFS 2261

Supervised experience focusing on developmentally appropriate practices in communicating and interacting with preschoolers and early school age children and guiding child behavior. Formerly known as HD 291, CD 2291. Materials fee required.

CAFS 2292. Preschool and Early School Age Activities and Programs: Laboratory. Units: 2

Semester Prerequisite: Current immunizations (TB test, flu, pertussis, measles), proof of government issued ID, and training (mandated reporter and germ management)

Semester Corequisite: CAFS 2262

Supervised experience focusing on planning, implementing, and evaluating curriculum activities with preschoolers and early school age school children. Formerly offered as HD 292, CD 2292. Materials fee required.

CAFS 3302. History of Childhood. Units: 3

Semester Prerequisite: CAFS 2240

Historical survey of childhood within the contexts of family and society. Formerly offered as HD 302, CD 3302.

CAFS 3303. Parenting and Family Relations. Units: 3

Semester Prerequisite: CAFS 2240

Examination of parenting and intra-family relations on child development and the linkage between family processes and the broader social environment. Formerly known as CD 3303.

CAFS 3304. Play and Effective Practice with Children. Units: 3

Semester Prerequisite: CAFS 2240

Examination of theory and research focused on the utility of play based approaches to development and learning. Formerly offered as HD 304, CD 3304.

CAFS 3305. Language Development. Units: 3

Semester Prerequisite: CAFS 2240

Language development from childhood through adolescence and early adulthood. Equivalent to ENG 3310, credit may not be awarded for both. Formerly known as CD 3305.

CAFS 3306. Early Childhood Special Education. Units: 3

Semester Prerequisite: CAFS 2240, CAFS 2250 or CAFS 2260, and CAFS 2244 or CAFS 2245 or CAFS 2246

Examines early childhood special education including issues related to policy/legislation, identification, characteristics, inclusion, and the role of family will be addressed. Professional practice, ethics, IFSPs, and making adaptations to planning activities and the physical environment to the needs of every child will be explored. Formerly known as CD 3306.

CAFS 3310. Applied Research Methods. Units: 3

Semester Prerequisite: CD 2210

Overview of applied research methods in child development. Emphasis on the use of applied methods, their analyses, and scientific writing. Topics may include quasi-experimental design, correlational design, behavioral observation, archival analysis, single-case methodology, survey methodology, research ethics, library research strategies, and writing research reports. Formerly offered as PSYC/HD 310 and PSYC 3310.

CAFS 3315. Applied Research Methods. Units: 4

Overview of applied research methods in child development. Emphasis on the use of applied methods, their analyses, and scientific writing. Topics may include quasi-experimental design, correlational design, behavioral observation, archival analysis, single-case methodology, survey methodology, research ethics, library research strategies, and writing research reports. Three hours lecture; two hours laboratory. Formerly known as PSYC/HD 310, CD 3315, PSYC 3310.

CAFS 3324. Developmental Psychobiology in Childhood. Units: 3

Semester Prerequisite: CAFS 2240

Psychobiological bases of human behavioral development throughout childhood. Formerly known as PSYC/HD 324, CD 3324, PSYC 3324.

CAFS 3350. Development of Exceptional Children. Units: 3

Semester Prerequisite: CAFS 2240

Review of theory, assessment, management, and rehabilitation of exceptional children. Includes developmental implications of specific educational disabilities, intellectual disabilities, and learning disabilities. Formerly known as PSYC 350, CD 3350, PSYC 3350.

CAFS 3358. Cognitive Development. Units: 3

Semester Prerequisite: CAFS 2240

Cognitive development from childhood through adolescence and early adulthood. Formerly known as CD 3358.

CAFS 3384. Social and Emotional Development. Units: 3

Social and emotional development from childhood through adolescence and early adulthood. Formerly known as CD 3384.

CAFS 4450. Child Assessment. Units: 3

This course provides a comprehensive introduction to the theory and practice of psychoeducational and neuropsychological assessment. Students will learn how to administer, score, and interpret a variety of standardized assessment tools commonly used in educational and clinical settings. They will develop essential skills in analyzing assessment data to identify strengths, weaknesses, and areas for intervention in individuals with diverse learning needs. This course also examines the ethical and cultural considerations in assessment practices, ensuring that students are equipped to conduct evaluations in a fair and unbiased manner and make informed decisions for students that are based on assessment findings. Formerly known as CD 4450. Equivalent to CD 4400, cannot receive credit for both courses. Materials fee required.

CAFS 4498. Advanced Child and Family Development. Units: 3

Semester Prerequisite: CAFS 2210 and CAFS 3310

Theories and empirical research of child and family development. Design and execution of a research project. Satisfies WI designation. Formerly offered as HD 480, CD 3398, CD 4498.

CAFS 5005. Early Math Development and Education: From Theory to Practice. Units: 3

Semester Prerequisite: CAFS 2240

This course provides an in-depth exploration of young children's math development from birth to age 8. Students will examine key theories and research on early mathematical thinking and the developmental milestones in children's understanding of number, shape, space, measurement, and patterns. Using pedagogical content knowledge (PCK), the course bridges theory with practice, focusing on effective strategies for supporting math learning in early childhood education settings. Special emphasis will be placed on how math education intersects with diversity, equity, and inclusion (DEI), exploring ways to integrate social justice concepts into early math learning. Through hands-on activities, case studies, and reflective practice, students will develop the skills to design, implement, and evaluate age-appropriate math learning experiences that are culturally responsive and promote equity in math readiness.

CAFS 5110. The Development of Young Children. Units: 3

This course covers the development of children from birth to age 8.

This is accomplished by reviewing prominent theories of early childhood development, outlining developmental milestones of typically developing children aged 0 to 8, talking about individual and contextual factors that influence these milestones, and reviewing methods for studying the development of young children. Department consent required. Formerly known as CD 5110.

CAFS 5115. Educational Psychology, Social Justice, and Diversity. Units: 3

This course is designed to explore the intersection of educational psychology principles with issues of social justice and diversity in educational settings. This course delves into the psychological aspects of learning and development, understanding the influence of individual differences, and critically examining the impact of socio-cultural factors on educational outcomes. Students will explore theoretical frameworks, empirical research, and practical applications to promote inclusive and equitable learning environments. Department consent required. Formerly known as CD 5115.

CAFS 5120. Cognition and Brain Development. Units: 3

This course explores the field of cognition and brain development in young children. Through a multidisciplinary approach that integrates education, neuroscience, and psychology, students will gain a comprehensive understanding of how cognitive processes emerge and evolve during the critical early years of childhood. This course emphasizes theories and research related to cognition and brain development, the practical implications of work in this field, and how information on cognition and the brain can inform caregiving practices in early childhood settings. Department consent required. Formerly known as CD 5120.

CAFS 5125. Language and Literacy Development. Units: 3

This course provides a comprehensive exploration of language and literacy development in young children (ages 0 to 8). Key language development milestones in infancy, toddlerhood, preschool, kindergarten, and the early elementary grades will be studied. Students will gain an understanding of the processes involved in language acquisition, literacy development (reading and writing), and the reciprocal relationship between language, reading, and writing. Further, contextual factors that promote or hinder development will also be explored, and students will learn to create effective literacy-rich environments and develop strategies to support diverse learners in their language and literacy growth. Department consent required. Formerly known as CD 5125.

CAFS 5130. Effective Interactions with Young Children. Units: 3

This course presents a developmental, relationship-based, child-centered approach to the guidance and discipline of young children, including children with disabilities. Specifically, we will discuss influential theories, effective guidance methods for early education teachers and other professionals working with children, and communication with parents. The influence of ACES, trauma, and stress in the lives of children and trauma informed care strategies will also be addressed. Emphasis on facilitating children's social and emotional development will be woven throughout. Consent required.

CAFS 5135. Early Childhood Curriculum and Programs. Units: 3

This course is designed to help you gain a better understanding of designing and implementing an integrated curriculum in early education. Early childhood education refers to the education and care of children aged birth through eight. In this course we will be discussing how to plan appropriate educational programs for children ages 3-8. Specifically, in this course we will focus on ways to plan and implement developmentally appropriate activities, understand and practice the teacher's role in facilitating learning through play, and coordinate, sequence, and evaluate curricula. Emphasis will be placed on active exploration and learning. Department consent required. Formerly known as CD 5135.

CAFS 5140. Authentic Assessment & Special Education of Young Children. Units: 3

The purpose of this course is to understand the special education system in the State of California for children aged 3-8 in addition to how to assess both typically and atypically developing children in early education classrooms (PK through grade 3). For special education, this course will focus on issues related to policy/legislation, identification, characteristics, inclusion, the role of family, IEPs, and creating classroom adaptations for children. For assessment, students will develop essential skills in analyzing assessment data to identify strengths, areas of improvement, and intervention for individuals with diverse learning needs. These topics will be considered through an ethical and cultural lens, ensuring that students are equipped to analyze and utilize data in a fair and unbiased manner. Finally, this course will address working in collaboration with other professionals to best serve children in educational settings. Department consent required. Formerly known as CD 5140.

CAFS 5145. Methods of Research. Units: 3

This course is designed to provide educators with the knowledge and skills to engage in action research within their teaching environments. Action research allows educators to actively investigate, reflect upon, and improve their teaching practices. Students will learn how to identify educational challenges, design research questions, collect and analyze data, and implement meaningful changes in their classrooms. Department consent required. Formerly known as CD 5145.

CAFS 5531. Effective, Inclusive, and Equitable Practices with Children. Units: 3

This course provides students with an in-depth understanding of effective developmentally appropriate guidance and educational strategies with children from infancy through adolescence. This course will examine effective practices including theoretical and practical implications of societal, historical and interpersonal oppressions as they impact children, families, programs, classrooms, and teaching. Using evidence-based strategies, the course will involve critical self-examination and reflection on issues of social and educational equity as well as advocacy towards inclusion. Formerly known as CD 531, CD 532, CD 5531.

CAFS 5575. Advanced Practicum Experience. Units: 3

Semester Prerequisite: CAFS 2282, CAFS 2292, or CAFS 2287
Supervised work and study in private and public organizations serving children and families. Arrangements for the internship must be made during the semester preceding the semester in which the student plans on enrolling in this course (see Department Website). Formerly known as CD 5575.

CAFS 5674. Honors Seminar 1. Units: 2

Semester Prerequisite: CAFS 3310, CAFS 4498, and consent of Department
Students meet as a class with the Honors Program Instructor Director to discuss their projects and professional development topics including research ethics, oral and written presentation of their thesis projects, graduate school applications, and career directions. Enrollment is limited to students whose formal application for departmental honors is approved. Formerly known as CD 5674.

CAFS 5675. Honors Seminar 2. Unit: 1

Semester Prerequisite: CAFS 5674 and department
Students meet as a class with the Honors Program Instructor Director to discuss their projects and professional development topics including research ethics, oral and written presentation of their thesis projects, graduate school applications, and career directions. Enrollment is limited to students whose formal application for departmental honors is approved. Formerly known as CD 5675.

CAFS 5710. Leadership in Early Childhood Education. Units: 3

Learn about leadership skills that can be applied to the early childhood education setting. Specifically, you'll have the opportunity to assess your own leadership style and how to use your strengths to serve others. Discuss common challenges within leading in an early childhood program and strategies to problem solve. Understand how to set goals with specific steps to reaching the goals. Formerly known as CD 5710.

CAFS 5715. Entrepreneurship & Small Business Management. Units: 3

Learn what is entrepreneurship and how it connects to early childhood care and education. Begin to identify your own entrepreneurial mindset. Examine typical challenges of business ownership. Learn vital small business skills such as legal considerations, how to make data-driven decisions, and strategies to be fiscally sustainable early childhood programs. Formerly known as CD 5715.

CAFS 5720. Early Childhood Administration & Community Engagement. Units: 3

Identify methods of employee performance appraisals. Examine considerations for hiring and job descriptions. Consider key components of creating mission statements and program philosophies. Examine the importance of high quality work environments and compensation for employees. Learn strategies and benefits to community engagement. Formerly known as CD 5720.

CAFS 5725. Mentoring and Adult Supervision. Units: 3

Learn different methods of mentoring. Use your leadership style, identified in previous courses, to connect with mentoring adults. Discuss common challenges of adult supervision. Learn how to provide effective feedback and ways to track mentee progress. Learn strategies to support adults in developing and achieving goals. Formerly known as CD 5725.

CAFS 5730. Impact of Trauma on Child Development. Units: 3

This course will provide an opportunity for students to gain an in-depth understanding of trauma and Adverse Childhood Experiences (ACE) and their impact on child development. Specifically, young children's responses to trauma, and implications for mental health and stress response. In addition to the impact of trauma on child development, this course will provide an understanding of how trauma impacts the systems in which children develop. Students will have an opportunity to self-reflect on their own potential trauma and ACEs. Formerly known as CD 5730.

CAFS 5735. Trauma Informed Care Using a Safety Based Approach. Units: 3

This course will use a safety-based and resiliency perspective. Students will learn what is Trauma Informed Care. Students will have an opportunity to examine how to create safe environments so children feel comfortable to learn and explore. The course will provide clear strategies for building trusting relationships with children as well as considerations for room design and materials. Formerly known as CD 5735.

CAFS 5740. Trauma Informed Care in Practice. Units: 3

This course is the final in the certificate program and focuses on examining Trauma Informed Care in action. Students will learn evidence-based strategies for working with young children who may have experienced trauma. There will be opportunities to practice TIC using scenarios and interactive assignments. Students will identify key resources in their community that can support trauma informed care. This course will discuss and provide coping skills for compassion fatigue. Formerly known as CD 5740.

CAFS 5821. Special Topics in Child Development. Unit: 1

An intensive study of selected topics related to child development. May be taken three times for three units. Formerly known as CD 5821.

CAFS 5822. Special Topics in Child Development. Units: 2

An intensive study of selected topics related to human development. May be taken three times for six units. Formerly known as CD 5822.

CAFS 5823. Special Topics in Child Development. Units: 3

An intensive study of selected topics related to child development. May be taken two times for six units. Formerly known as CD 5823.

CAFS 5951. Independent Study. Unit: 1

Special topics involving literature or field study. May be taken eight times for eight units. A total of eight units of CD 5951 may be applied toward graduation, of which a maximum of four units can be applied toward upper-division elective requirements in the major. Formerly known as CD 5951.

CAFS 5952. Independent Study. Units: 2

Special topics involving literature or field study. May be taken four times for eight units. A total of eight units of CAFS 5952 may be applied toward graduation, of which a maximum of four units can be applied toward upper-division elective requirements in the major. Department consent required. Formerly known as CD 5952.

CAFS 5953. Independent Study. Units: 3

Special topics involving literature or field study. May be taken two times for six units. A total of six units of CAFS 5953 may be applied toward graduation, of which a maximum of three units can be applied toward upper-division elective requirements in the major. Department consent required. Formerly known as CD 5953.

CAFS 6124. Advanced Academic Writing. Units: 4

Semester Prerequisite: Graduate standing in the Child Development MA Program and consent of the department
Designed for students who will be completing the comprehensive exam as their chosen culminating experience in the MACD program, this course will help students further develop their writing skills by focusing on organization, word choice, editing, APA style, and summarizing and synthesizing research findings. The ability to use writing to articulate evidence-based reviews, positions, ideas, and summaries is fundamental to effective leadership across child development and education fields. Using the metaphors of conversation and storytelling, this course will frame academic writing, not as a product, but rather as a process and a practice that go beyond successful completion of a comprehensive exam. This process and practice will be discussed as critical to the interpretation and development of research and academic commentary for the purposes of (a) advocacy for children and families and (b) translation of evidence-based information for practitioner use. Formerly known as CD 6124.

CAFS 6614. Advanced Theories of Child Development. Units: 3

Semester Prerequisite: Graduate standing and consent of the department
Overview of major child development theories. Formerly known as CD 614, CD 6614.

CAFS 6624. Advanced Developmental Neuroscience. Units: 3

Semester Prerequisite: Graduate standing and consent of the department
Survey of the psychobiological foundations of human behavioral development throughout the lifespan. Special emphasis on the neurobiological bases of developmental disorders and the integration of relationships between behavior and biological processes including genes, physiology, and the environment. Graduate standing and consent of the department are required. Formerly known as CD 624, CD 6624.

CAFS 6630. Teaching of Child Development. Units: 3

Semester Prerequisite: Classified graduate standing in Child Development and consent of department
Instructional methods for teaching of child development at the college level. Formerly known as CD 6630.

CAFS 6640. Advanced Research Methods. Units: 3

Semester Prerequisite: Classified graduate standing and department consent required
Advanced child development research methods; research design and underlying methodological issues in analyzing interpersonal interaction and developmental processes. Formerly known as CD 6640.

CAFS 6641. Advanced Data Analysis in Quantitative Methods. Units: 3

Semester Prerequisite: Classified graduate standing and consent of the department
An overview and applications of data analysis methods in quantitative inquiry (e.g. survey research, assessments) with an emphasis on both descriptive and inferential statistics, including correlation, regression, t-test, and ANOVA. Formerly known as CD 6641.

CAFS 6642. Advanced Data Analysis in Qualitative Methods. Units: 3

Semester Prerequisite: Classified graduate standing and consent of department
An overview and application of data analysis methods in qualitative inquiry (e.g. open-ended interviews, focus groups) with an emphasis on documentation of methods, analytic frameworks and tools for analysis, and representation of findings. Formerly known as CD 6642.

CAFS 6648. Advanced Social-Emotional Development. Units: 3

Semester Prerequisite: Graduate standing and consent of the department
Research and theories of social and emotional development from birth to adolescence. Emphasis on major facets of social-emotional development. Formerly known as CD 648, CD 6648.

CAFS 6651. Advanced Cognitive Development. Units: 3

Semester Prerequisite: Graduate standing and consent of the department
Research theory in the development of perception, language, memory, problem solving, reasoning, and other cognitive processes from birth through adolescence. Includes allied disciplines such as the brain sciences and applications to the field of education. Formerly known as CD 651, CD 6651.

CAFS 6659. Advanced Childhood Assessment. Units: 3

Semester Prerequisite: Graduate standing and consent of the department
Overview of major approaches to developmentally appropriate childhood assessment practices. Formerly known as HD 659, CD 6659.

CAFS 6690. Advanced Families and Parenting. Units: 3

Semester Prerequisite: Graduate standing and consent of the department
A review of research on selected topics related to family and parenting issues, and the relation of such to child development. Formerly offered as CD 690, CD 6690.

CAFS 6823. Advanced Special Topics in Child Development. Units: 3

An intensive study of selected topics related to child development. May be taken two times for six units. Department consent required. Formerly known as CD 6823.

CAFS 6892. Externship in Child Development. Units: 2

Supervised fieldwork, relating to child development, in a public or private setting for additional training and extension of skills developed in the graduate program. With the approval of the student's advisor and the department chair, may be taken two times for four units. Graded credit/no credit. Department consent required. Formerly CD/HD 689B, CD 6892.

CAFS 6894. Externship in Child Development. Units: 4

Supervised fieldwork, relating to child development, in a public or private setting for additional training and extension of skills developed in the graduate program. With the approval of the student's advisor and the department chair, may be taken two times for eight units. Graded credit/no credit. Department consent required. Formerly known as CD/HD 689D, CD 6894.

CAFS 6954. Advanced Independent Study. Units: 4

Semester Prerequisite: Graduate standing in the Child Development MA Program and consent of the department are required
Advanced research on a specific topic selected by the student with the approval of the student's advisor. With the approval of the student's advisor and the department chair, may be taken two times for eight units. Formerly CD/HD 611D, CD 6954.#.

CAFS 6964. Graduate Project. Units: 4

Semester Prerequisite: Classified graduate standing, advancement to candidacy, and consent of the department
Preparation and implementation of a project based on a thorough review of theory and empirical research under the guidance of an advisor in the Department of Child Development. Includes completion of a written document containing the elements described above and a formal defense. Formerly offered as CD/HD 695, CD 6964.

CAFS 6974. Thesis. Units: 4

Independent graduate research conducted under the guidance of the major advisor and resulting in a written thesis. Department consent required. Formerly offered as CD 699, CD 6974.

CAFS 6980. Comprehensive Examination. Units: 0

An assessment of the student's ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter. May be taken three times for zero units. Graded credit/no credit. Formerly known as HD/CD 699 and CD 6980. Department consent required.

CAFS 6990. Continuous Enrollment for Graduate Candidacy Standing. Units: 0

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

Cahuilla (CAHU)

Courses

CAHU 1111. Language Study I: Cahuilla. Units: 3

Introduction to Cahuilla language. Fundamentals of pronunciation, structure, and culture designed to develop the ability to use and understand the language. Formerly FLAN 101R. Materials fee required.

CAHU 1112. Language Study II: Cahuilla. Units: 3

Intermediate study in Cahuilla language. Emphasis on oral and written competency at the intermediate level in a cultural context. Satisfies GE C2/3B, DI, G designations. Materials fee required.

CAHU 2111. Language Study III: Cahuilla. Units: 3

Semester Prerequisite: CAHU 1112R. Quarter Prerequisite: FLAN 103 or consent of department

Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis. Formerly FLAN 201R. Materials fee required.

CAHU 2112. Language Study IV: Cahuilla. Units: 3

Semester Prerequisite: CAHU 2111R. Quarter Prerequisite: FLAN 201R or consent of department

Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis. Formerly FLAN 202R. Materials fee required.

C. Arts and Letters (CAL)

Courses

CAL 1000. You/U: Applied Humanities and Arts. Units: 3

Application of arts and humanities concepts to writing, critical thinking, academic inquiry and creating projects. You/U courses address the relationship of students (you) to the University (U). In addition to providing applicable arts and humanities skills in the university setting, this course seeks to cultivate students' lifelong appreciation of humanities in their personal and professional lives.

CAL 1110. Reacting to the Past: Humanities Perspectives. Units: 3

Courses employ a pedagogy in which students learn by taking on roles, informed by classic texts, in elaborate games set in the past; they learn skills in speaking, writing, critical thinking, problem solving, leadership, and teamwork in order to prevail in difficult and complicated situations. That is because Reacting roles, unlike those in a dramatic play, do not have a fixed script and outcome. While students will be obliged to adhere to the philosophical and intellectual beliefs of the historical figures they have been assigned to play, they must devise their own means of expressing those ideas persuasively, in papers, speeches or other public presentations. Satisfies Big Ideas that Change the World: Exploring Ideas, Innovations, Discoveries pathway.

CAL 1120. Global You/U. Units: 3

An exploration of the multifaceted interconnections between global and local cultures. You/U courses allow students (You) the opportunity to learn and explore in a university setting (U). In addition to providing applicable academic skills, this course is designed to help students study the impacts of a globalized world. Satisfies G designation, Global Connections pathway.

CAL 1130. Digital You/U. Units: 3

An exploration of the multifaceted aspects of digital life and its impact. This course aims to provide students with a strong foundation as they begin their journey in the university. Satisfies Digital Life pathway.

CAL 1140. Sustaining a Life in the Arts. Units: 3

An introductory course designed to equip students for lifelong understanding and development of themselves as integrated physiological, social, and psychological beings who live and work in the arts (music, theater, visual arts, design, film/video, and dance). Topics addressed in this course are grouped into three areas: academic success, personal success, and career success.

CAL 1500. Digital Humanities and Arts. Units: 3

A close look at the evolution of the connections between technology and humanities through historical, cultural and socio-political lenses, reflecting the diverse perspectives of race, gender, class through the arts, media, and culture. It addresses the extent to which digital humanities affects our consumption of written and visual information, our sense of "self" and the society. Satisfies GE C1/3A, DI designation.

CAL 1804. Rock and Roll: Justice and Society. Units: 3

Exploration of the evolution of rock and roll through a historical and socio-political context. The history of rock and roll and its emergence from Post World War II and its development through the second half of the 20th century through the present day are intertwined with the problematic issues of economics, race, gender, equality, politics, sexual orientation, class and culture. Satisfies GE C1/3A, DI designation. Course offered as CAL 1804 and MUS 1804, students may not receive credit for both.

CAL 2970. Liberal Studies: Foundation Seminar and Assessment Preparation. Units: 3

Introduction to the Liberal Studies and Liberal Arts majors with special emphasis on lifelong learning, student success strategies, information literacy, senior assessment preparation, introduction to requirements leading to a multiple subject teaching credential, and inquiry into the roles of emerging educators and scholars within a broader society.

CAL 3000. Foundations and Theoretical Concepts of Immersive Storytelling and Emerging Technologies. Units: 3

This course serves as a foundation for the Certificate Program and Minor in Immersive Storytelling, Design, and Innovative Marketing Communication. In CAL 3000, students are introduced to narrative, including its structures, concepts, and methods. The first module investigates the formats and schemas of storytelling; the second explores narratives from communication and strategic communication perspectives (including empirical research approaches); and the third specifically covers story in immersive media.

CAL 3010. Extended Reality, Storytelling, and World Building. Units: 3

How do individual experiences create collective meaning-making? Can digital mediation technologies transform space into place? What sort of power structures and visual lexicons informs our spatial understanding? Will my app work today? We will explore these questions and more through the foundational effort of world-building commingled with augmented reality tech and the centuries-old craft of storytelling. You will consider how you will "hack" or re-imagine spaces around you. Our gestures will be writing, sketching, storyboarding, and digital imaging, culminating in interactive projects that share our experiments, create engagement, and stimulate new curiosities. One hour lecture and six hours lab per week.

CAL 3020. Story-driven Game Design. Units: 3

This course introduces the practices of designing and creating interactive 3D game experiences to support fiction and non-fiction storytelling. Students will ideate, design, and prototype using the practices of creative conceiving, interaction design, level design, and sound design. Students will also learn to interpret story-driven game experiences and playtest their creations. Two hours lecture and three hours lab per week.

CAL 3030. Immersive Storytelling, Product Design, and Integrated Marketing Communication. Units: 3

This course explores how to use immersive storytelling theories and technologies, such as virtual reality, augmented reality, and mixed reality, to design and implement engaging and memorable product and/or service experiences that connect with customers on a deeper level. Students will also learn how to integrate immersive storytelling campaigns into their overall marketing strategy, as well as the fundamental principles of marketing: including market segmentation, targeting, positioning, and the marketing mix. Course equivalent to CAL 3030; credit may not be awarded for both.

CAL 3250. Perspectives on Gender. Units: 3

This interdisciplinary course uses scientific, humanistic, and social science perspectives to foster an understanding of how gender functions in individual lives, societies, and cultures. (Offered as CAL 3250, SSCI 3250 and NSCI 3250. Students may receive credit for only one of these courses.) Satisfies GE C4/UD-3, DI designation.

CAL 3300. Arts and Ideas in A Changing Global World. Units: 3

An interdisciplinary exploration of the interaction between fundamental ideas (truth, goodness, beauty, freedom, equality, justice) and the arts (music, literature, visual arts, dance, cinema, theater) in a changing global world, as seen from philosophical, cultural and historical perspectives. Satisfies GE C4/UD-3, DI, G designations.

CAL 3350. Latinx Border Identity: A Transmedia Perspective. Units: 3

Analysis of the way in which Xicanx/Latinx Border identity has been represented, shaped, fixated, and contested throughout various art and media formats. Examination of the imagined Latinx border identity through the analysis of short-form media samples (i.e. postcards, songs, films, short stories). Satisfies GE C4/UD-3, DI, G designations.

CAL 3400. Enduring Questions in Literature, Culture, and Society. Units: 3

A variable topics class that probes global questions of enduring interest by reading literature in an interdisciplinary context (unlimited by periods and national literatures). Satisfies GE C4/UD-3, G designation.

CAL 3440. Ideas in American Literature and Culture. Units: 3

A close examination of recurring key ideas in American culture, from Colonial times to the present, as seen in literature, poetry, and thought. Satisfies GE C4/UD-3.

CAL 3550. LGBTQ+ Issues in the Humanities. Units: 3

Explores the diversity of LGBTQ+ communities and issues through the various ways the community processes and documents experiences in the contexts of culture, expression, and identity. Examination of how LGBTQ+ identity intersects with other forms of difference, including ethnicity and socioeconomic status. The course will weave together, through discussion, critique, and research, a variety of texts, published personal narratives, popular media, fiction and students' own observed and lived experiences. Satisfies GE C4/UD-3, DI, G designations.

CAL 3700. African Arts Heritage. Units: 3

The various threads of arts and culture (visual arts, theatre, music, dance, and literature) are traced from their origins on the African continent through their cultural retention and presentation in the Americas from the 16th century to the present. Satisfies GE C4/UD-3, DI, G designations.

CAL 3750. Exploring the World of Islam. Units: 3

Semester Prerequisite: junior or senior standing
Exploration of classical and contemporary literary works from and about the Muslim World. Interpretation of different genres from scriptural, biographical, legal, socio-cultural, political, and multiple other sources. Formerly offered as HUM 375. Satisfies GE category C4; DI designation; G designation.

CAL 3888. Asian Humanities in a Globalized World. Units: 3

A close examination of various aspects of Asian humanities. Explores meanings, applications, and misconceptions of Asian thought, characteristics, practices and cultural traditions. Topics also include historical experiences and cultural contributions of Asian Americans to American society. Satisfies GE C4/UD-3, DI, G designations, Diversity and Social Justice, Global Connections minors, Diversity and Social Justice, Global Connections, World Cultures and Diversity pathways.

CAL 3970. Gateway to Liberal Studies. Units: 3

Interdisciplinarity in a diverse K-8 classroom. Disciplinary and theoretical preparation for learning and teaching in California's elementary schools. Overview of the required multiple subjects and interdisciplinary knowledge. Discussion of theories and their corresponding pedagogies in light of a student body with different learning abilities and from a multiplicity of ethnic, linguistic, and cultural backgrounds. Consent required.

CAL 4000. The Artist Entrepreneur: Innovation and Leadership in the Arts. Units: 3

Answers the question what and who is an entrepreneur? Examines the creative intersection between entrepreneurship and the arts, and specifically addresses the basics of creativity, ideation, and the freedom mindset.

CAL 4100. The Artist Entrepreneur's Toolkit. Units: 3

Explores the nuts and bolts of small business management skills necessary for an entrepreneurial venture in the arts. Topics surveyed will include, but are not limited to, the basics of finance, accounting, taxation, and legal considerations such as copyright, in addition to marketing and advertising.

CAL 4200. Venture Ideation, Analysis, and Development in the Arts. Units: 3

Reviews the concept of ideation and examines the intersection between ideas and opportunities in the arts. Topics include, but are not limited to, pattern recognition, rapid opportunity analysis, resources, and the development of sustainable business models.

CAL 4300. The Artist Entrepreneur Launch. Units: 3

Semester Prerequisite: CAL 4000, CAL 4100, and CAL 4200
Examines the process and methods necessary for launching an entrepreneurial enterprise in the arts. Discusses the entrepreneurial and artistic qualities that are key to establishing a successful enterprise and career in the arts. Culminates in a practicum project for the minor Entrepreneurship in the Arts.

CAL 5751. Internship in Humanities. Unit: 1

Semester Prerequisite: One upper-division course in the humanities in the field in which the student will be working or equivalent or consent of instructor. Quarter Prerequisite: one upper-division course in the humanities in the field in which the student will be working or equivalent or consent of instructor

Supervised intensive work that requires advanced skills in the humanities in private or public organizations. Generally assumes 45 hours of work/study per unit of credit. A total of eight units may be applied toward graduation. Formerly HUM 575A.

CAL 5752. Internship in Humanities. Units: 2

Semester Prerequisite: One upper-division course in the humanities in the field in which the student will be working or equivalent or consent of instructor. Quarter Prerequisite: One upper-division course in the humanities in the field in which the student will be working or equivalent or consent of instructor

Supervised intensive work that requires advanced skills in the humanities in private or public organizations. Generally assumes 45 hours of work/study per unit of credit. A total of eight units may be applied toward graduation. Formerly HUM 575B.

CAL 5753. Internship in Humanities. Units: 3

Semester Prerequisite: One upper-division course in the humanities in the field in which the student will be working or equivalent or consent of instructor. Quarter Prerequisite: One upper-division course in the humanities in the field in which the student will be working or equivalent or consent of instructor

Supervised intensive work that requires advanced skills in the humanities in private or public organizations. Generally assumes 45 hours of work/study per unit of credit. A total of eight units may be applied toward graduation. Formerly HUM 575C.

CAL 5754. Internship in Humanities. Units: 4

Semester Prerequisite: One upper-division course in the humanities in the field in which the student will be working or equivalent or consent of instructor. Quarter Prerequisite: One upper-division course in the humanities in the field in which the student will be working or equivalent or consent of instructor

Supervised intensive work that requires advanced skills in the humanities in private or public organizations. Generally assumes 45 hours of work/study per unit of credit. A total of eight units may be applied toward graduation. Formerly HUM 575D.

CAL 5755. Internship in Humanities. Units: 5

Semester Prerequisite: One upper-division course in the humanities in the field in which the student will be working or equivalent or consent of instructor. Quarter Prerequisite: One upper-division course in the humanities in the field in which the student will be working or equivalent or consent of instructor

Supervised intensive work that requires advanced skills in the humanities in private or public organizations. Generally assumes 45 hours of work/study per unit of credit. A total of eight units may be applied toward graduation. Formerly HUM 575E.

CAL 5763. International Experience: Latin American Studies. Units: 3

Written research project based on traveling or living in a Spanish- or Portuguese-speaking country or community in Latin America. Research for the project will be completed in the country or community of choice. Project-based learning with service and exposure to international communities. Satisfies G designation.

CAL 5783. International Experience: Asian Studies. Units: 3

Written research project based on student's international experience. Research for the project will be completed in the Asian country or community of choice. Project-based learning with service and exposure to Asian communities. Satisfies G designation.

CAL 5823. International Experience: European Studies. Units: 3

Written research project based on traveling or living in a European country or community. Research for the project will be completed in the country or community of choice. Project-based learning with service and exposure to international communities. Graded Credit/No credit. Satisfies G designation.

CAL 5843. International Experience: African Studies. Units: 3

Written research project based on traveling or living in an African country or community. Research for the project will be completed in the country or community of choice. Project-based learning with service and exposure to international communities. Graded Credit/No credit. Satisfies G designation.

CAL 5900. Liberal Studies and Liberal Arts Senior Assessment and Writing Workshop. Units: 2

Semester Prerequisite: Senior standing and CAL 2970 must be taken during either of the last two semesters prior to graduation, for LBST, LSSS, and LIBA students, and prior to admission to the multiple-subject credentialing program for LBIT students

Preparation and submission of a portfolio of appropriate artifacts as the basis of a workshopped reflective essay showing how the portfolio demonstrates accomplishment of essential goals and program learning outcomes of the major. Satisfies GE Writing Intensive designation (WI).

CAL 5951. Independent Study in the Humanities. Unit: 1

Semester Prerequisite: A minimum overall grade point average of 3.0 and consent of instructor. Quarter Prerequisite: A minimum overall grade point average of 3.0 and consent of instructor

Advanced study in the Humanities. Students must receive approval of a written proposal of a project submitted on a standard application filed in advance of the semester in which the course is to be taken. A total of ten units may be applied toward graduation. Formerly HUM 595A.

CAL 5952. Independent Study in the Humanities. Units: 2

Semester Prerequisite: A minimum overall grade point average of 3 and consent of instructor. Quarter Prerequisite: a minimum overall grade point average of 3 and consent of instructor

Advanced study in the Humanities. Students must receive approval of a written proposal of a project submitted on a standard application filed in advance of the semester in which the course is to be taken. A total of ten units may be applied toward graduation. Formerly HUM 595B.

CAL 5953. Independent Study in the Humanities. Units: 2

Advanced study in the Humanities. Students must receive approval of a written proposal of a project submitted on a standard application filed in advance of the semester in which the course is to be taken. A total of ten units may be applied toward graduation. Satisfies WI designation.

CAL 5954. Independent Study in the Humanities. Units: 4

Semester Prerequisite: A minimum overall grade point average of 3 and consent of instructor. Quarter Prerequisite: a minimum overall grade point average of 3 and consent of instructor

Advanced study in the Humanities. Students must receive approval of a written proposal of a project submitted on a standard application filed in advance of the semester in which the course is to be taken. A total of ten units may be applied toward graduation. Formerly HUM 595D.

CAL 5955. Independent Study in the Humanities. Units: 5

Semester Prerequisite: A minimum overall grade point average of 3 and consent of instructor. Quarter Prerequisite: a minimum overall grade point average of 3 and consent of instructor

Advanced study in the Humanities. Students must receive approval of a written proposal of a project submitted on a standard application filed in advance of the semester in which the course is to be taken. A total of ten units may be applied toward graduation. Formerly HUM 595E.

Chemistry (CHEM)

Courses

CHEM 1000. Introduction to Chemistry. Units: 3

Examination of chemistry and its value to contemporary society. Includes an introduction to important chemical principles, nomenclature, and molecular structure. Designed for those with little or no chemistry background desiring a broad overview of chemistry including liberal studies majors. Satisfies GE B1/5A.

CHEM 1000L. Introduction to Chemistry Laboratory. Unit: 1

Laboratory component that complements CHEM 1000. Introductory chemistry experiments and demonstrations. Common household materials utilized. Experiments designed to practice the scientific method including recording observations and measurements and drawing conclusions. Satisfies GE B3/5C. Materials fee required.

CHEM 1090L. Structures and Properties of Matter Laboratory. Unit: 1

Introduces basic chemical principles in an experimental setting in sufficient breadth and depth to meet the "Structures and Properties of Matter" area of the K-8 California Next Generation Science Standards. Lab periods will include one or more fundamental chemical concepts demonstrated using household chemicals. Safety in handling materials is an important aspect of the course. It is highly recommended that students in this course are currently enrolled in, or have already completed their GE Mathematics course. Materials fee required.

CHEM 2050. Survey of General Chemistry. Units: 3

Introduction to the fundamental concepts and basic calculations of chemistry, including the composition of matter, physical and chemical changes, nomenclature and formulas, stoichiometry, gases, solutions, acids and bases. Designed primarily for the student with little or no chemistry background who plans to take additional chemistry or other science courses. Satisfies GE B1/5A.

CHEM 2050L. Survey of General Chemistry Laboratory. Unit: 1

Semester Corequisite: CHEM 2050

Laboratory to accompany CHEM 2050. Experiments demonstrating general chemical principles, reactivity, physical and chemical properties, qualitative and quantitative analysis, and synthesis. Satisfies GE B3/5C. Materials fee required.

CHEM 2060. Survey of Organic and Biochemistry. Units: 4

Semester Prerequisite: CHEM 2050 or CHEM 2100. Quarter Prerequisite: CHEM 205 or CHEM 215

A survey of organic and biochemistry for those interested in understanding the role of chemistry in human health and nutrition, ecosystems and the physical environment. CHEM 2060 and CHEM 2060L are equivalent to CHEM 206 and CHEM 207; students may not earn credit for CHEM 2060 if they have earned credit for CHEM 206 and 207.

CHEM 2060L. Survey of Organic and Biochemistry Lab. Unit: 1

Semester Prerequisite: CHEM 2050 and CHEM 2050L; or CHEM 2100 and CHEM 2100L; and CHEM 2060 as a pre- or co-requisite; or consent of department. Quarter Prerequisite: CHEM 205 or CHEM 215
Laboratory experiments supporting topics in CHEM 2060. Materials fee required. CHEM 2060 and CHEM 2060L are equivalent to CHEM 206 and CHEM 207. Students may not earn credit for CHEM 2060L if they have earned credit for CHEM 206 and 207.

CHEM 2070. Fundamentals of General, Organic, and Biochemistry. Units: 5

Semester Prerequisite: One year of high school algebra

An introduction to the principles of general, organic and biochemistry for the nursing major. The course and laboratory covers the basic principles of general chemistry, organic functional groups, the properties and reactivities of the important biological molecules of carbohydrates, proteins, fats and nucleic acids, and their relationship to principles of biochemistry metabolism. Four hours lecture, three hours lab. Satisfies GE B1/5A. Materials fee required.

CHEM 2100. General Chemistry I. Units: 4

Semester Prerequisite: One year of high school chemistry and three years of high school mathematics or their equivalents and completion of the following MATH 1401 and MATH 1403, or MATH 1601, MATH 2210 as either a pre- or co-requisite. Quarter Prerequisite: one year of high school chemistry and three years of high school mathematics, or their equivalents; completion of, or concurrent enrollment in one of the following: MATH 110, MATH 120, MATH 192, MATH 211, or MATH 212. Systematic study of fundamental chemical and physical principles and their application to the properties of matter, including atomic structure, molecular structure and bonding, periodic trends in the properties of the elements, gas laws, solution properties, and quantitative relationships involving chemical reactions. Satisfies GE B1/5A.

CHEM 2100L. General Chemistry I Laboratory. Unit: 1

Experiments supporting, demonstrating, and investigating CHEM 2100 course material including density, chemical reactivity, chemical analysis, stoichiometry, and emission. Satisfies GE B3/5C.

CHEM 2200. General Chemistry II. Units: 4

Semester Prerequisite: CHEM 2100 with grade of C or better and one of the following: MATH 1301, MATH 1401, MATH 1601, MATH 2210, or MATH 2220. Quarter Prerequisite: CHEM 215 with a grade of C or better and MATH 111B or 112C. Quarter Prerequisite: CHEM 215 with a grade of C or better and MATH 111B or 112C.

This course deals with the spontaneity, extent, and rate of chemical processes. Covers chemical thermodynamics, kinetics, equilibria, including acid-base and solubility equilibria, and electrochemistry. CHEM 2200 and 2200L are equivalent to Chem 216. Students may not earn credit for CHEM 2200 if they have earned credit for CHEM 216.

CHEM 2200L. General Chemistry II Laboratory. Unit: 1

Semester Prerequisite: CHEM 2100L, and CHEM 2200 as a pre- or co-requisite. Quarter Prerequisite: CHEM 215

Experiments supporting, demonstrating, and investigating CHEM 2200 course material including thermochemistry, kinetics, equilibria, solubility, acid-base reactions and electrochemistry. CHEM 2200 and 2200L are equivalent to Chem 216; students may not earn credit for CHEM 2200L if they have earned credit for CHEM 216. Materials fee required.

CHEM 2300. Organic Chemistry for Life Sciences. Units: 2

Semester Prerequisite: CHEM 2200 with a grade of C or better, and CHEM 2200L. Quarter Prerequisite: CHEM 216 with a grade of C or better

A one semester essential organic chemistry course for bio-STEM majors, with adequate rigor to prepare students for upper division biochemistry. Course topics include organic structure and nomenclature, isomerism, and reactivity with an emphasis on structure and reactions foundational for biochemistry. Pre-health professions students please check with your graduate program to determine if this course will be accepted. Students may not earn credit for CHEM 2300 if they have completed CHEM 2500 or CHEM 3500, or equivalent coursework.

CHEM 2400. Organic Chemistry I Lecture. Units: 3

Semester Prerequisite: CHEM 2200 with a C or better, and CHEM 2200L. Quarter Prerequisite: CHEM 215 with a grade of C or better and CHEM 216 with a grade of C or better

The chemistry of carbon compounds, including modern concepts of structure, mechanism, and reactivity. Emphasis is placed on compounds and reactions of biological interest; and includes an introduction to selected topics in biochemistry. Taking the lecture sequence (CHEM 2400 and CHEM 2500) without the lab sequence (CHEM 2400L and 2500L) is inappropriate for pre-medical, pre-dental and other pre-health professions students. Chemistry majors are expected to take the Principles of Organic Chemistry sequence (CHEM 3400 and CHEM 3500). Formerly part of the CHEM 221A, 222A, 223A sequence; students may not earn credit for CHEM 2400 if they have earned credit for CHEM 221A and 222A.

CHEM 2400L. Organic Chemistry I Laboratory. Unit: 1

Semester Prerequisite: CHEM 2200 with a C or better, and CHEM 2200L, CHEM 2300 or CHEM 2400 as pre or corequisites. Quarter Prerequisite: CHEM 215, CHEM 216, CHEM 221A, and CHEM 222A

An introduction to experimental techniques in organic chemistry including organic extraction, recrystallization, distillation, IR spectroscopy, and one step organic transformations. Part of the year-long organic chemistry lab series. Formerly part of the CHEM 221B, 222B, 223B sequence. Students earning credit for CHEM 221B and 222B may not earn credit for CHEM 2400L. Materials fee required.

CHEM 2500. Organic Chemistry II. Units: 3

Semester Prerequisite: CHEM 2400 with a grade of C or better. Quarter Prerequisite: CHEM 221A & 222A with a grade of C or better. A continuation of CHEM 2400. Topics may include carbonyl chemistry, mechanisms, synthesis, and bio-molecules. Formerly part of the CHEM 221A, 222A, 223A sequence; students may not earn credit for CHEM 2500 if they have earned credit for CHEM 222A and 223A.

CHEM 2500L. Organic Chemistry II Laboratory. Unit: 1

Semester Prerequisite: CHEM 2400 with a C or better, and CHEM 2400L, CHEM 2500 as a pre or corequisite. Quarter Prerequisite: CHEM 221B and 222B with a C

Part of the year-long organic chemistry lab series (CHEM 2400L and 2500L). An introduction to performing organic transformations as well as techniques (such as IR and NMR spectroscopy) used to characterize organic small molecules. Formerly part of the CHEM 221B, 222B, 223B sequence. Students may not earn credit for CHEM 2500L if they have earned credit for CHEM 222B and CHEM 223B. Materials fee required.

CHEM 2901. Special Projects in Chemistry. Unit: 1

Quarter Prerequisite: Consent of instructor. Individual investigation, research, study or survey of selected problems. May be repeated for credit. Consent of instructor required. Formerly CHEM 295A. Materials fee required.

CHEM 2902. Special Projects in Chemistry. Units: 2

Quarter Prerequisite: consent of instructor. Individual investigation, research, study or survey of selected problems. May be repeated for credit. Consent of instructor required. Formerly CHEM 295B. Materials fee required.

CHEM 2903. Special Projects in Chemistry. Units: 3

Individual investigation, research, study or survey of selected problems. May be repeated for credit. Consent of instructor required. Materials fee required.

CHEM 3000. History of Science and Technology. Units: 3

A survey of the historical relationship between science, technology, and human civilization; society and culture - past, present, and future. Emphasis on the people, significant scientific discoveries, and technologies that have influenced societal development from early humans to the present day. Case studies on the often non-linear way scientific discoveries and technological developments cause changes to human civilization and culture. A discussion of likely future scientific and technical challenges facing humankind. Satisfies GE B5/UD-5.

CHEM 3100. Chemistry and the Environment. Units: 3

Semester Prerequisite: B1/5A and 52/5B

Examination of current issues related to environmental chemistry including climate change, environmental justice, and soil, water, and air pollution. A primary focus will be on linkages between the environment, human activities, and socioeconomic factors. Satisfies GE B5/UD-5.

CHEM 3200. Quantitative Analysis. Units: 4

Semester Prerequisite: CHEM 2100 and CHEM 2200 with grades of C (2.0) or better, both CHEM 2100L and 2200L with a C- (1.7) or better. Quarter Prerequisite: CHEM 216 with a grade of C (2.0) or better. Volumetric, stoichiometric, and equilibrium calculations of acid-base, oxidation-reduction, complexation, and solubility systems. Laboratory measurements, data and error analysis. Introduction to spectrometric, electrochemical, and chromatographic methods. Three hours lecture and three hours laboratory. Formerly CHEM 345; students may not earn credit for CHEM 3200 if they have earned credit for CHEM 345. Materials fee required.

CHEM 3400. Principles of Organic Chemistry I. Units: 5

Semester Prerequisite: CHEM 2200 with a grade of C or better and CHEM 2200L with a grade of C- or better. Quarter Prerequisite: CHEM 215 and CHEM 216 with grades of C or better in each course. Detailed study of organic molecules and their structures, properties, stereochemistry, reaction mechanisms, and synthesis. Three hours lecture, one hour discussion, three hours laboratory. Formerly part of the CHEM 321, 322, 323 sequence; students may not earn credit for CHEM 3400 if they have earned credit for CHEM 321 and 322. Course is intended for Chemistry and Biochemistry majors. Department consent required. Materials fee required.

CHEM 3500. Principles of Organic Chemistry II. Units: 5

Semester Prerequisite: CHEM 3400 with a grade of C or better. Quarter Prerequisite: CHEM 322 with a grade of C or better. Continuation of CHEM 3400. Includes a discussion of topics such as: carbonyl chemistry, synthesis, and biological molecules. Three hours lecture and six hours laboratory. Formerly part of the CHEM 321, 322, 323 sequence; students earning credit for CHEM 322 and 323 may not earn credit for CHEM 3500. Course is intended for Chemistry and Biochemistry majors. Department consent required. Materials fee required.

CHEM 3600. Intermediate Organic Chemistry. Units: 5

Semester Prerequisite: CHEM 2500 and 2500L or equivalent course work. Quarter Prerequisite: CHEM 223A/B or equivalent course work

Organic reaction mechanisms, quantitative identification of organic compounds, and instrumental organic analysis. Three hours lecture and six hours laboratory. Formerly CHEM 421; students may not earn credit for CHEM 3600 if they have earned credit for CHEM 421. Departmental consent is required. Materials fee required.

CHEM 3900. Service Learning in Chemistry. Unit: 1

Semester Prerequisite: Course work pertinent to the service learning activity. Quarter Prerequisite: consent of instructor and pertinent course work

Supervised activities in chemistry or chemical education providing service to campus or community constituents. Department consent required. At least 45 hours required for credit. May be repeated for credit. Formerly CHEM 301. Graded Credit/No Credit.

CHEM 4100. Biochemistry I. Units: 3

Semester Prerequisite: Either CHEM 2300, CHEM 2500, or CHEM 3500 with a grade of C or better, and BIOL 2010. Quarter Prerequisite: CHEM 223A or CHEM 323 with a grade of C or better and BIOL 200

Structure and function of proteins, carbohydrates, and lipids. Membrane transport, enzyme mechanism and kinetics. Metabolism of biomolecules, including carbohydrate metabolism, fatty acid catabolism, and amino acid catabolism, as well as the citric acid cycle and oxidative phosphorylation. Formerly part of the CHEM 436A, 437A, 438A sequence; students may not earn credit for CHEM 4100 if they have earned credit for CHEM 436A and 437A.

CHEM 4100L. Biochemistry I Laboratory. Unit: 1

Semester Prerequisite: CHEM 2400L with a grade of C- (1.7) or better. CHEM 4100 as pre- or co-requisite. Quarter Prerequisite: CHEM 436A. Introduction to experimental techniques in biochemistry, including determination of protein concentration, gel filtration chromatography, affinity chromatography, and enzyme kinetics. Formerly CHEM 436B; students may not earn credit for CHEM 4100L if they have earned credit for CHEM 436B. Materials fee required.

CHEM 4200. Biochemistry II. Units: 3

Semester Prerequisite: CHEM 4100 with a grade of C- or better. Quarter Prerequisite: CHEM 437A with a grade of C- or better. Fatty acid biosynthesis, amino acid biosynthesis, and nitrogen fixation. Nucleotide metabolism, DNA replication, DNA repair, transcription, protein synthesis, and gene regulation. Formerly part of the CHEM 436A, 437A, and 438A sequence; students may not earn credit for CHEM 4200 if they have earned credit for CHEM 437A and CHEM 438A.

CHEM 4200L. Biochemistry II Laboratory. Unit: 1

Semester Prerequisite: CHEM 4100L with a grade of C or better, CHEM 4200 is a pre or corequisite. Quarter Prerequisite: CHEM 436B and CHEM 437A

Protein purification techniques (ammonium sulfate precipitation, dialysis, and DEAE chromatography), enzyme kinetics and inhibition assays, DNA purification, and PCR. Formerly CHEM 437B. Students may not earn credit CHEM 4200L if they have earned credit for CHEM 437B. Materials fee required.

CHEM 4300. Inorganic Chemistry. Units: 4

Semester Prerequisite: CHEM 2500 or 3500, and CHEM 3200 with grades of C or better. Quarter Prerequisite: CHEM 223 or 323
Topics in inorganic chemistry, including molecular structure and bonding, symmetry, ionic structure and bonding, inorganic reactions, including acid base and oxidation-reduction reactions, coordination chemistry and bioinorganic chemistry. Three hours lecture and three hours laboratory. Laboratory component reinforces lecture material. Formerly Chem 475; students may not earn credit for CHEM 4300 if they have earned credit for CHEM 475. Materials fee required.

CHEM 4350. Bioinorganic Chemistry. Units: 3

Semester Prerequisite: CHEM 2500 or 3500 and CHEM 3200 with a grade of C (2.0) or better. Quarter Prerequisite: CHEM 223 or CHEM 323
Principles of inorganic chemistry emphasizing metals in biological systems. The first part of this course covers fundamentals of inorganic chemistry, including trends in chemical and physical properties of elements and compounds, molecular and ionic bonding, oxidation-reduction, acid-base chemistry, and coordination chemistry. The second part of this course covers physical techniques used to probe structure and activity, followed by a survey of the types of metalloproteins and their biological functions. Detailed case studies of selected metalloproteins. Formerly CHEM 470; students may not earn credit for CHEM 4350 if they have earned credit for CHEM 470.

CHEM 4400. Physical Chemistry I. Units: 3

Semester Prerequisite: CHEM 3200 with a grade of C (2.0) or better; MATH 2220 with a grade of C (2.0) or better; Pre- or Co-requisites: PHYS 2010 and 2010L, or PHYS 2510 and 2510L. Quarter Corequisite: PHYS 223. Quarter Prerequisite: CHEM 345 with a grade of C (2.0) or better; MATH 213 with a grade of C (2.0) or better; and must have completed PHYS 123 or may take PHYS 223
Semester Corequisite: PHYS 2010 and 2010L or PHYS 2510 and 2510L
Non-ideal gases, thermodynamics, properties of solutions, phase equilibria, chemical equilibria, electrochemistry, gas kinetics, chemical kinetics and molecular reaction dynamics. Formerly part of the CHEM 455 and CHEM 456 sequence; students may not earn credit for CHEM 4400 if they have earned credit for CHEM 455.

CHEM 4500. Physical Chemistry II. Units: 3

Semester Prerequisite: CHEM 4400. Quarter Prerequisite: CHEM 455
Molecular energies, quantum mechanics, application of quantum theory to molecular energy levels, atomic structure, molecular orbital theory, statistical thermodynamics, complex reactions. Formerly part of the CHEM 455 and CHEM 456 sequence; students may not earn credit for CHEM 4500 if they have earned credit for CHEM 456. Students are recommended to take MATH 2310.

CHEM 4550. Physical Chemistry Laboratory. Unit: 1

Semester Prerequisite: CHEM 4400, and CHEM 4500 as a pre- or co-requisite
Heat of combustion, Joule-Thomson effect, enthalpy of evaporation, ionic strength, UV-vis spectrum of conjugate dye, FTIR spectrum of HCl/DCl gases, kinetics of hydrolysis of sucrose, NMR study of paramagnetic susceptibility. Formerly part of the CHEM 455 and CHEM 456 sequence; students may not earn credit for CHEM 4550 if they have earned credit for CHEM 455 and 456. Materials fee required.

CHEM 4600. Physical Chemistry for Biochemists I. Units: 3

Semester Prerequisite: CHEM 3200 with a grade of C (2.0) or better and MATH 2220; Pre- or Co-requisites: CHEM 4100 and 4100L, and either PHYS 2010 and 2010L, or PHYS 2510 and 2510L. Quarter Prerequisite: CHEM 345, CHEM 436A, and CHEM 436B with grades of C (2.0) or better; MATH 213; and PHYS 123 or PHYS 223
Thermodynamics of single and multi-component systems, electrochemistry, properties of non-electrolyte and electrolyte solutions, phase equilibria, molecular motion and transport properties, with an emphasis on biomolecular systems. Formerly part of the CHEM 451 and CHEM 452 sequence. Students may not earn credit for CHEM 4600 if they have earned credit for CHEM 451.

CHEM 4700. Physical Chemistry for Biochemists II. Units: 3

Semester Prerequisite: CHEM 4600. Quarter Prerequisite: CHEM 451
Kinetics with an emphasis on biomolecular systems. Quantum mechanical and physical principles as applied to molecular structure and spectroscopy. Formerly part of the CHEM 451 and CHEM 452 sequence. Students may not earn credit for CHEM 4700 if they have earned credit for CHEM 452. Students are recommended to take MATH 2310.

CHEM 4750. Physical Chemistry for Biochemists Laboratory. Unit: 1

Semester Prerequisite: CHEM 4600 as either a pre-or co-requisite
Physical chemical experiments illustrating principles of thermodynamics, kinetics, quantum chemistry, and spectroscopy, with an emphasis on biomolecular systems. Formerly part of the CHEM 451 and CHEM 452 sequence. Students may not earn credit for CHEM 4750 if they have earned credit for CHEM 451 and 452. Materials fee required.

CHEM 4800. Chemistry Foundations for Material Science. Units: 3

Semester Prerequisite: Admission to MS Materials Science program or permission of instructor
Foundational concepts in chemistry needed for materials science. Concepts to be addressed include atomic structure, periodic trends, stoichiometry, thermodynamics and kinetics, bonding, intermolecular forces, molecular orbital theory, functional groups, common chemical transformations, structure and synthesis of polymers, bonding in inorganic chemistry, solid state, coordination chemistry, and organometallic chemistry. This course may not be taken as an elective in the BA or BS Chemistry Major, or for the Chemistry minor. Department consent required. Course graded ABC/No credit.

CHEM 5001. Topics in Chemistry. Unit: 1

Quarter Prerequisite: Consent of instructor
Lecture course on an advanced or contemporary chemistry topic. Consent of instructor required. May be repeated for credit as topics change. Formerly CHEM 500.

CHEM 5001L. Topics in Chemistry Laboratory. Unit: 1

Quarter Prerequisite: Vary with topic, consent of instructor
Laboratory course on an advanced or contemporary chemistry topic. Course designed to supplement either CHEM 5001 or CHEM 5002 lecture courses. Consent of instructor required. May be repeated for credit as topics change. Materials fee required.

CHEM 5002. Topics in Chemistry. Units: 2

Quarter Prerequisite: Varies by topic; consent of instructor
Lecture course on an advanced or contemporary chemistry topic.
Consent of instructor required. May be repeated for credit as topics change.

CHEM 5100. Polymer Science. Units: 2

Semester Prerequisite: CHEM 2500 or 3500 with grades of C- (1.7) or better; PHYS 2010 or 2510 with grades of C- (1.7) or better; Math 2210 with a grade of C- (1.7) or better. Quarter Prerequisite: CHEM 223 or 323; PHYS 122 or 222; Math 212

This course will broadly cover polymer science and technology, including the synthesis, solid-state properties, degradation, processing of polymers, and advanced polymers. It will introduce the fundamentals of the chemistry, physics and engineering of polymers, encompassing both theoretical background and experimental techniques. Formerly a topic under CHEM 500; students may not earn credit for CHEM 5100 if they have earned credit for this topic under CHEM 500.

CHEM 5150. Materials Chemistry. Units: 2

Semester Prerequisite: CHEM 2500 or CHEM 3500 with a grade of C or better. Prerequisite: CHEM 223A or CHEM 323 with a grade of C or better

An introduction to the chemistry of materials. A qualitative overview of the role of chemistry in the broader discipline of materials science. The relationship between composition, structure and bonding at the atomic and molecular level and macroscopic properties. An overview of common materials characterization techniques. Coverage of the basic classes of materials, metals and alloys, ceramics and glasses, small molecular solids, polymers, semiconductors, and composite materials. Introduction to Crystal Systems and Bravais lattices. Materials manufacturing methods. As time permits, advanced topics such as superconductors, band gap theory, optical and photonic materials, biomedical applications and nanotechnology may also be covered. Formerly a topic under CHEM 500; students may not earn credit for CHEM 5150 if they have earned credit for this topic under CHEM 500.

CHEM 5200. Instrumental Analysis. Units: 5

Semester Prerequisite: CHEM 3200 with a C or better, and either CHEM 2500 or CHEM 3500 with grades of C or better; PHYS 2010 and 2010L, or PHYS 2510 and 2510L. Quarter Prerequisite: CHEM 345 with a C or better and either CHEM 223 or CHEM 323 with grades of C or better; PHYS 123 or PHYS 223

Principles and techniques of instrumental chemical analysis. Methods include molecular UV-VIS absorption, fluorescence, infrared, and NMR spectroscopy; electrothermal atomic absorption spectrometry; high performance liquid chromatography; gas chromatography/mass spectrometry; capillary electrophoresis; potentiometry and voltammetry. Three hours lecture and six hours laboratory. Formerly CHEM 545; students may not earn credit for CHEM 5200 if they have earned credit for CHEM 545. Materials fee required.

CHEM 5300. Environmental Chemistry. Units: 3

Semester Prerequisite: CHEM 3200, and either CHEM 2300, 2500, or 3500. Prerequisite: CHEM 345 and either CHEM 223 or CHEM 323
Chemical principles governing the natural composition and pollution of the atmosphere, hydrosphere, soils and sediment. Includes energy use and its environmental consequences, toxic chemicals, purification/remediation schemes, waste and soil management. Formerly a topic under CHEM 500; students may not earn credit for CHEM 5300 if they have earned credit for Environmental Chemistry taught as a topic under CHEM 500.

CHEM 5320. Atmospheric Chemistry. Units: 3

Semester Prerequisite: One year of general chemistry and one course in organic chemistry, Recommended, one course in quantitative analysis
An overview of the sources, sinks, chemistry and measurements of atmospheric species and their application to the natural atmosphere, climate change, air pollution, air quality management, and stratospheric ozone depletion. Projects will focus on understanding the connections between chemistry, meteorology, geography and socioeconomic factors that affect California and global air quality.

CHEM 5400. Chemistry of the Elements. Units: 3

Semester Prerequisite: CHEM 3200 with a C or better, and either CHEM 2500 or 3500 with a grade of C or better. Quarter Prerequisite: CHEM 345 with a C or better, and either CHEM 223 or 323 with a grade of C or better

Survey of the chemistry of the main group elements, including the sources, production, and properties of the elements and their compounds. Particular attention is given to the periodic trends in physical and chemical properties. Other topics include inorganic polymers and materials, and organometallic chemistry. Formerly CHEM 576; students may not earn credit for CHEM 5400 if they have earned credit for CHEM 576.

CHEM 5410. Solid State Chemistry. Units: 3

Semester Prerequisite: Required: One year of general chemistry (CHEM 2100 and 2200) and one course in quantitative analysis (CHEM 3200). Recommended Prerequisite or Corequisite: Inorganic Chemistry (CHEM 4300 or 4350) and Physical Chemistry (CHEM 4400 or 4600) or permission of the instructor

This course covers various topics in the field of Solid State Chemistry. Areas of emphasis include structural principles, synthetic strategies and approaches, important characterization methods, and concepts of chemical bonding and electronic structure theory. Structural principles involving point groups, space groups, and the International Tables of Crystallography; synthetic strategies including phase diagrams and chemical vapor transport/equilibria; characterization methods utilizing photoelectron spectroscopy and X-ray diffraction; and chemical bonding via Density Functional Theory will be discussed in detail. Additional subtopics may rely on current literature. Throughout the course, various physical properties may be mentioned as they relate to structural-electronic structural features. Some exposure to inorganic/physical chemistry along with a background in quantum mechanics may be useful.

CHEM 5420. Pyrotechnics. Unit: 1

Semester Prerequisite: CHEM 3200 with a C or better. Prerequisite: CHEM 345 with a C or better

The history of pyrotechnics from the discovery of gunpowder in China, and its development and use in the west as propellant and explosive in fireworks, to the chemistry, theory and practice of other high energy compositions used in fireworks today. Formerly a topic under CHEM 500; students may not earn credit for CHEM 5420 if they have earned credit for Pyrotechnics taught as a topic under CHEM 500.

CHEM 5500. Medicinal Chemistry. Units: 2

Semester Prerequisite: Chem 2400 or Chem 3400 with grade of C or better; Pre- or Co-Requisite of Chem 2500 or 3500, or consent of instructor. Prerequisite: CHEM 222 or CHEM 322 with a grade of C or better; Pre- or Co-requisite of CHEM 223 or CHEM 323, or consent of instructor

Examines the interplay between organic chemistry and biochemistry. Topics will include: drug absorption, distribution, and elimination; drug metabolism; theories of drug receptor interactions; and structure-activity relationships for a number of drug classes. Departmental consent required. Formerly a topic under Chem 500; students may not earn credit for CHEM 5500 if they have earned credit for Medicinal Chemistry taught as a topic under CHEM 500.

CHEM 5550. Computational Chemistry. Units: 2

Semester Prerequisite: Chem 2400 or 3400. Prerequisite: Chem 321 or Chem 221A/B

Application of computational approximations to model chemical structure, reactivity, and properties. Survey of commonly used computational methods: semi-empirical, ab initio, and density functional theory, including a qualitative understanding of the strengths and weaknesses of each, and how to choose the appropriate computational technique to solve a problem at hand. Significant hands-on practice using modern software. Formerly a topic under CHEM 500; students may not earn credit for CHEM 5550 if they have earned credit Computational Chemistry taught as a topic under CHEM 500.

CHEM 5700. Biochemistry III Laboratory. Units: 2

Semester Prerequisite: CHEM 4200L with a grade of C or better, Must be a BS Biochemistry Concentration major. Quarter Prerequisite: CHEM 437B with a grade of C or better, Must be a BS Biochemistry Concentration major

Continuation of CHEM 4200L. This is a research-based course where students will learn how to use sequence and structure analysis tools. Students will also perform site-directed mutagenesis and cell culture-based assays. Formerly 438B. Students may not earn credit for CHEM 5700 if they have earned credit for CHEM 438B. Materials fee required.

CHEM 5751. Internship in Chemistry. Unit: 1

Quarter Prerequisite: course work appropriate to the specific internship and consent of department

Supervised work and study in applied chemistry in an on- or off-campus setting. Final written report may be required. Department consent required. A maximum of 3 units may be applied toward the degree. Graded credit/no credit. Formerly offered as CHEM 575A.

CHEM 5752. Internship in Chemistry. Units: 2

Quarter Prerequisite: course work appropriate to the specific internship and consent of department

Supervised work and study in applied chemistry in an on- or off-campus setting. Final written report may be required. Department consent required. A total of three units of Internship may be applied towards obtaining a bachelors degree and a total of five units may be applied towards obtaining a masters degree. Graded credit/no credit. Formerly offered as CHEM 575B.

CHEM 5753. Internship in Chemistry. Units: 3

Quarter Prerequisite: course work appropriate to the specific internship and consent of department

Supervised work and study in applied chemistry in an on or off campus setting. Final written report may be required. Department consent required. A maximum of 3 units may be applied toward the degree. Graded credit/no credit. Graded credit/no credit. Formerly offered as CHEM 575C.

CHEM 5800. Chemistry Seminar. Unit: 1

Semester Prerequisite: Both CHEM 3200 and either CHEM 2500 or 3500 with grades of C or better, Must have completed 90 units towards degree. Quarter Prerequisite: Twelve upper-division units in chemistry, and NSCI 306 or equivalent

Discussion of selected journal articles and the primary chemical literature. Oral student presentations; faculty and guest speakers; students reflect on previous coursework. BS Chemistry Concentration students propose projects for CHEM 5850 or CHEM 5860. BA and BS Biochemistry Concentration students present topics of their own choosing. Formerly CHEM 590B. Students may not earn credit for CHEM 5800 if they have earned credit for CHEM 590B.

CHEM 5850. Chemistry Senior Project. Unit: 1

Semester Prerequisite: CHEM 5800; student must be a BS Chemistry Concentration major. Prerequisite: CHEM 590A

Students conduct projects proposed in CHEM 5800 and present results at end of course. Consent of instructor required. Materials fee required.

CHEM 5860. Chemistry Senior Research. Unit: 1

Semester Prerequisite: CHEM 5800

Students conduct research with a faculty member and present results at the end for the purpose of meeting the final requirements for the B.S. Chemistry Concentration degree. Consent of instructor required. Materials fee required.

CHEM 5901. Directed Laboratory Research. Unit: 1

Study and practice of an advanced laboratory technique or directed research in chemistry. May be repeated for credit. Formerly CHEM 501A. Consent of instructor required. Materials fee required.

CHEM 5902. Directed Laboratory Research. Units: 2

Quarter Prerequisite: the basic course covering the subject of the Advanced Laboratory Techniques course and consent of instructor

Study and practice of an advanced laboratory technique or directed research in chemistry. May be repeated for credit. Consent of instructor required. Formerly CHEM 501B. Materials fee required.

CHEM 5903. Directed Laboratory Research. Units: 3

Study and practice of an advanced laboratory technique or directed research in chemistry. May be repeated for credit. Consent of instructor required. Materials fee required.

CHEM 5951. Independent Study. Unit: 1

Semester Prerequisite: Appropriate coursework as determined by the instructor, Submission and approval of a project proposal, filed one semester in advance of when the course is taken. Quarter Prerequisite: A minimum overall grade point average of 2

Laboratory, field, or computational research, data analysis, and/or literature research conducted under the direction of a faculty member. Department consent and final written report required. Consent of instructor required. Formerly 595A. Materials fee required.

CHEM 5952. Independent Study. Units: 2

Semester Prerequisite: Appropriate coursework as determined by the instructor, Submission and approval of a project proposal, filed one semester in advance of when the course is taken. Quarter Prerequisite: A minimum overall grade point average of 2

Laboratory, field, or computational research, data analysis, and/or literature research conducted under the direction of a faculty member. Department consent and final written report required. Consent of instructor required. Formerly CHEM 595B. Materials fee required.

CHEM 5953. Independent Study. Units: 3

Semester Prerequisite: Appropriate coursework as determined by the instructor, Submission and approval of a project proposal, filed one semester in advance of when the course is taken. Quarter Prerequisite: A minimum overall grade point average of 2

Laboratory, field, or computational research, data analysis, and/or literature research conducted under the direction of a faculty member. Department consent and final written report required. Consent of instructor required. Formerly CHEM 595C. Materials fee required.

CHEM 5971. Directed Study in Science Education. Unit: 1

Readings, internet, library research in chemical education; or a directed project on pedagogical approaches applied to teaching chemistry; and/or exploration of content knowledge in a specific area of chemistry for delivery to a specific audience. Conducted under the direction of a faculty member. Department consent required. Formerly CHEM 597. May be repeated for credit. Graded Credit/No Credit.

CHEM 5972. Directed Study in Science Education. Units: 2

Readings, internet, library research in chemical education; or a directed project on pedagogical approaches applied to teaching chemistry; and/or exploration of content knowledge in a specific area of chemistry for delivery to a specific audience. Conducted under the direction of a faculty member. Department consent required. May be repeated for credit. Graded Credit/No Credit.

CHEM 5973. Directed Study in Science Education. Units: 3

Readings, internet, library research in chemical education; or a directed project on pedagogical approaches applied to teaching chemistry; and/or exploration of content knowledge in a specific area of chemistry for delivery to a specific audience. Conducted under the direction of a faculty member. Department consent required. May be repeated for credit. Graded Credit/No Credit.

CHEM 5990. Undergraduate Comprehensive Examination. Units: 0

Semester Prerequisite: Student must be a BS chemistry major within two semesters of graduation. Quarter Prerequisite: Student must be a chemistry major within three quarters of graduation

Assessment of the student's mastery of four of the five content areas of chemistry depending on the major concentration area; and/or an overall assessment of integrated undergraduate chemistry knowledge; demonstration of critical and independent thinking in chemistry. Department consent required. Formerly CHEM 599. Graded Credit/No Credit.

CHEM 6000. Advanced Environmental Chemistry and Geosciences. Units: 4

Semester Prerequisite: classified standing in either the Master of Science in Geology or Master of Science in Environmental Sciences program, or consent of instructor

Application of earth science principles to the properties of the natural environment and the effects of human and biological activities thereon. Topics include geohazards, erosion, geochemistry, sources and treatment of water, climate change, and the chemistry of environmental pollutants in air, water, and soil. Labs will feature hands-on studies of common methods used in environmental and geological analyses. Materials fee required. Formerly CHEM 610 and GEOL 610; students may not receive credit for both the quarter versions and this version.

CHEM 6752. Advanced Internship. Units: 2

Semester Prerequisite: CHEM 575, CHEM 5751, CHEM 5752, CHEM 5753, GEOL 575, GEOL 5751, GEOL 5752 or GEOL 5753. Prerequisite: CHEM 575 or GEOL 575 and consent of advisor. Supervised work or study in private or public organizations. Department consent required. Graded Credit/No Credit. Formerly CHEM 697. Students may not receive credit for both courses.

CHEM 6753. Advanced Internship. Units: 3

Semester Prerequisite: CHEM 575, CHEM 5751, CHEM 5752, CHEM 5753, GEOL 575, GEOL 5751, GEOL 5752 or GEOL 5753. Quarter Prerequisite: CHEM 575 or GEOL 575 and consent of advisor. Supervised work or study in private or public organizations. Departmental consent required. Graded Credit/No Credit. Formerly CHEM 697. Students may not receive credit for both courses.

CHEM 6900. Graduate Seminar. Units: 2

Current and past student project investigations in the M.S. Environmental Science and Geology programs, including presentation of project implications for the general public and professional non-scientific constituents such as business, law, policy, and public health. Formerly offered as CHEM/GEOL 690, students may not receive credit for both courses. Two hours seminar.

CHEM 6940. Graduate Research Methods and Design. Units: 3

Quarter Prerequisite: Classified standing in the master of science program in geology or environmental sciences, and consent of instructor. Critical literature review and preparation of a master's thesis or project research proposal following program guidelines. Supervised by the student's thesis/project adviser. Graded credit/no credit upon approval of the student's thesis/project committee.

CHEM 6950. Directed Graduate Research in Chemistry. Units: 3

Semester Prerequisite: classified standing in masters program and consent of advisor. Quarter Prerequisite: classified standing in masters program and consent of advisor

Original individual research in environmental chemistry; to be conducted under the direct supervision of a faculty member of the students committee, and if desired in collaboration with other members of the students masters committee. Materials fee required. Formerly offered as Chem 695D.

CHEM 6960. Graduate Project in Chemistry. Units: 3

Semester Prerequisite: Classified standing. Quarter Prerequisite: Classified standing and consent of instructor

Original individual research in chemistry, to be conducted under the guidance of the student's graduate advisor, and if desired, in collaboration with other members of the student's master's committee. Department consent required. Graded credit/no credit. Formerly CHEM 696.

CHEM 6970. Graduate Thesis. Units: 3

Semester Prerequisite: CHEM 6950. Quarter Prerequisite: CHEM 695 or GEOL 695

Independent graduate research conducted under guidance of the major advisor culminating in a written thesis. Formerly offered as CHEM 699.

CHEM 6990. Continuous Enrollment for Graduate Candidacy Standing. Units: 0

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

CHEM 6991. Continuous Enrollment for Graduate Candidacy Standing. Unit: 1

Quarter Prerequisite: Advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

CHEM 6992. Continuous Enrollment for Graduate Candidacy Standing. Units: 2

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

CHEM 6993. Continuous Enrollment for Graduate Candidacy Standing. Units: 3

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

CHEM 6994. Continuous Enrollment for Graduate Candidacy Standing. Units: 4

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

CHEM 6995. Continuous Enrollment for Graduate Candidacy Standing. Units: 5

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

CHEM 6996. Continuous Enrollment for Graduate Candidacy Standing. Units: 6

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

Chinese (CHIN)

Courses

CHIN 1101. Introduction to Chinese Activity Lab. Unit: 1

Guided conversation and listening practice. Activities correspond with CHIN 1110. Graded CR/NC.

CHIN 1102. College Chinese II Activity Lab. Unit: 1

Semester Corequisite: CHIN 1112: College Chinese II or consent of department

Guided conversation and listening practice. Activities correspond with CHIN 1112.

CHIN 1111. College Chinese I. Units: 3

Introduction to beginning level Mandarin Chinese, including the basic structures of the written language: the sound system of modern Chinese; oral comprehension, oral expression, basic patterns practice, and the writing system. Develop cultural awareness to communicate on a basic level. Formerly CHIN 101. Materials fee required.

CHIN 1112. College Chinese II. Units: 3

Develops listening and speaking skills in Mandarin Chinese with emphasis on reading and writing skills. Emphasis on negotiating routine social situations and more complex tasks. Satisfies GE C2/3B, DI, G designations. Materials fee required.

CHIN 2000. Introduction to Chinese Civilization. Units: 3

Introductory survey of various aspects of Chinese civilization with an emphasis on its unique cultural qualities. Satisfies GE C2/3B, DI, G designations. Taught in English.

CHIN 2100. Chinese Culture Through Film. Units: 3

Understanding the culture, values, literature, society and history of China, Taiwan and Hong Kong through films. Compare and contrast cultures and increase cross-cultural awareness. Films will be appreciated, analyzed and discussed for their aesthetic forms, customs, and religions in an historical context. Materials fee required.

CHIN 2111. College Chinese III. Units: 4

Semester Prerequisite: CHIN 1112. Quarter Prerequisite: CHIN 103 Further study of the Mandarin Chinese language to attain proficiency in four language skills: listening, speaking, reading and writing. Students will improve fluency from class discussion on a variety of topics including social issues and aspects of Chinese culture. Formerly CHIN 201. Materials fee required.

CHIN 2112. College Chinese IV. Units: 4

Semester Prerequisite: CHIN 2111. Quarter Prerequisite: CHIN 201 or consent of department Further study of the Mandarin Chinese language to attain proficiency in four languages skills: listening, speaking, reading and writing. Students will improve fluency from class discussion on a variety of topics including social issues and aspects of Chinese culture. Formerly CHIN 202. Materials fee required.

CHIN 2113. Chinese Calligraphy. Units: 3

This course introduces students to the origin of the basic Chinese scripts and the basic principles and styles of calligraphy. Students will learn the seven brush strokes for writers and the evolution of Mandarin Chinese characters from ancient ideograms to modern written characters. Formerly CHIN 210. Materials fee required.

CHIN 2114. Conversation in Chinese. Units: 3

Semester Prerequisite: CHIN 1112. Quarter Prerequisite: CHIN 103 or equivalent Practice of oral Chinese including current topics, panel discussions, debates, and oral presentations. Students will become familiar with day-to-day social and business expressions. Formerly CHIN 214. Materials fee required.

CHIN 2900. Chinese Literature in Translation. Units: 3

Introduction to Chinese literature read in English translation, including the classical styles, selections from classical style writings, contrastive analysis of modern and classical Chinese, translation and writing practice. Satisfies GE C2/3B, DI, G, designations. Materials fee required.

CHIN 4409. Business Chinese. Units: 3

Introduction to business vocabulary, practices, and socioeconomic issues in Chinese-speaking contexts. Formerly CHIN 409. Materials fee required.

Criminal Justice (CJUS)

Courses

CJUS 1101. Introduction to the Criminal Justice System. Units: 3

Semester Prerequisite: Must be declared major or minor in criminal justice or social work. Quarter Prerequisite: Must be declared major or minor in criminal justice or social work

A descriptive overview of the adult and juvenile justice system, from the commission of crimes and offenses through sentencing and appeal procedures. Criminal justice standards and goals and the relationship of the social and behavioral sciences to criminal justice will be emphasized. Formally offered as CJUS 101.

CJUS 1102. Criminal Law. Units: 3

Historical development of criminal law and its contemporary application. Focus on the interrelationship between criminal law and the criminal justice system. Formerly offered as CJUS 102.

CJUS 1106. Criminal Investigations. Units: 3

Examination of crime, evidence, and police procedures in investigating crimes such as conventional street crime, organized crime, and white collar crime. Formerly offered as CJUS 106.

CJUS 3311. Research Methods in Criminal Justice. Units: 3

Semester Prerequisite: CJUS 3320 with a grade of C- or better and completion of Pre-Criminal Justice requirements must be fulfilled (CJUS 1101 & CJUS 1102) with grades C or better. Quarter Prerequisite: CJUS 320 with a grade of C- or better and completion of Pre-Criminal Justice requirements must be fulfilled

Introduction to scientific methodology and research designs used to conduct basic and applied research in the criminal justice field. Emphasis on scientific operationalization, survey methodology, and concepts of evaluation design. Formerly offered as CJUS 311.

CJUS 3312. Statistics in Criminal Justice. Units: 3

Semester Prerequisite: CJUS 3311 and MATH 1301 or MATH 1101 or equivalent and completion of Pre-Criminal Justice requirements must be fulfilled

Introduction to statistical reasoning and social science statistics commonly used in criminal justice. Includes descriptive, inferential, and predictive statistics, with emphasis on calculation and interpretation. Formerly offered as CJUS 312.

CJUS 3320. Theories of Crime and Delinquency. Units: 3

Semester Prerequisite: CJUS 1101 and CJUS 1102 with grade "C" or better and must be declared Criminal Justice major or minor
Traces the evolution of theoretical criminology as a scientific discipline with focus on measurement, patterns, causes, and social explanations of criminal and deviant behaviors. Formerly offered as CJUS 320.

CJUS 3330. Correctional Theory and Institutions. Units: 3

Semester Prerequisite: CJUS 3320 with a grade of C- or better and completion of Pre-Criminal Justice requirements; declared Criminal Justice major/minor.. Quarter Prerequisite: CJUS 320 with a grade of C- or better and completion of Pre-Criminal Justice requirements must be fulfilled

History and theory of punishment; overview of history of correctional institutions; analysis and evaluation of contemporary institutional corrections; consideration of research concerning correctional institutions. Formerly offered as CJUS 330.

CJUS 3340. Police and Police Systems. Units: 3

Semester Prerequisite: CJUS 3320 with a grade of C- or better and completion of Pre-Criminal Justice requirements must be fulfilled. Quarter Prerequisite: CJUS 320 with a grade of C- or better and completion of Pre-Criminal Justice requirements must be fulfilled

Analysis of: police, police systems, and the police role; limitations imposed on law enforcement in a democratic society in accordance with the Constitution; problems affecting crime control; and the interdependence of police and community. Formerly offered as CJUS 340.

CJUS 3350. Intelligence & Crime Analysis 1. Units: 3

Semester Prerequisite: CJUS 1101 and CJUS 1102 and must be declared "Pre-ICA major" or "ICA major"

Overview of current analytical tools and techniques used by law enforcement to investigate and prevent crime. Topics will include collection, management, communications, and analysis of information. Through class activities and homework assignments, students will receive basic training in data management, network analysis, and spatial analysis, as well as the practical use of Microsoft Excel and Access. Formerly offered as CJUS 375.

CJUS 3354. Victimology. Units: 3

Semester Prerequisite: CJUS 3320 with a grade of C- or better. Quarter Prerequisite: CJUS 320

Victim role, criminal-victim relationships, and societal reaction to victimization, including crisis-intervention centers, court related victim/witness services, restitution and compensation. Formerly offered as CJUS 354.

CJUS 3370. Law and the Courts. Units: 3

Nature, functions, limitations and objectives of law, criminal courts, civil courts, the grand jury and petit jury, family law, and civil liability for police and correctional officers. Emphasis on practical legal problems confronting criminal justice system workers and administrators. Formerly offered as CJUS 370.

CJUS 3470. Crime Prevention. Units: 3

Semester Prerequisite: Must be declared a declared pre-major or major in Intelligence and Crime Analysis or Criminal Justice

Analysis of criminal acts as events, focusing on their patterns and how they can be prevented. This course examines topics such as problem oriented policing, situational crime prevention, crime analysis, environmental criminology, crime risks, and crime prevention through environmental design.

CJUS 4430. Correctional Administration. Units: 3

Semester Prerequisite: CJUS 3330 or equivalent. Quarter Prerequisite: CJUS 330 or equivalent

In-depth study of the administration and management of correctional agencies. Emphasis on organizational structure, functions and behavioral processes. Formerly offered as CJUS 430.

CJUS 4431. Community Corrections. Units: 3

Semester Prerequisite: CJUS 3330 or equivalent. Quarter Prerequisite: CJUS 330

Issues and trends in community based corrections; alternatives to incarceration including diversion, restitution, community treatment facilities, halfway houses, probation and parole, and such developments as house arrest and electronic surveillance. Special emphasis on the functions, strengths, and problems of community based programs.

Formerly offered as CJUS 431.

CJUS 4435. Correctional Counseling. Units: 3

Semester Prerequisite: CJUS 3330 or equivalent. Quarter Prerequisite: CJUS 330

Examination of the history, theory, and practice of counseling services within the correctional setting. Topics include rehabilitation (research and application of findings), limitations of counseling, legal liabilities of counselors, and the integration of treatment with other correctional goals. Formerly offered as CJUS 435.

CJUS 4440. Police Administration. Units: 3

Semester Prerequisite: CJUS 3340 or equivalent. Quarter Prerequisite: CJUS 340 or equivalent

In-depth study of the administration and management of law enforcement agencies. Emphasis on organizational structure, functions, and behavioral processes. Formerly offered as CJUS 440.

CJUS 4441. Community Policing. Units: 3

Semester Prerequisite: CJUS 3340 or equivalent. Quarter Prerequisite: CJUS 340 or equivalent

Analysis of law enforcement strategies to secure cooperative police-community ventures aimed at enhancing community order and suppressing crime. Consideration of strategies designed to improve public relations. Formerly offered as CJUS 441.

CJUS 4451. Women and Crime. Units: 3

A critical study of women as offenders, victims, and workers within the criminal justice system. Satisfies GE D4/UD-4, DI designation.

CJUS 4452. White Collar Crime. Units: 3

Definition, history, extent, causes, consequences, and enforcement methods regarding white-collar, occupational, corporate, and governmental crime. Formerly offered as CJUS 452.

CJUS 4453. Gangs. Units: 3

Focus on gangs and the effects they have on society, including: historical development, recent trends, and review and evaluation of programs that attempt to prevent, intervene, and suppress gang activity. Formerly offered as CJUS 453.

CJUS 4460. Drugs and the Criminal Justice System. Units: 3

Study of the history and development of criminal justice policy concerning alcohol and illegal drugs; consideration of the manufacture, importation, distribution of illegal drugs; particular emphasis placed on the impact of alcohol and illegal drug use on communities and the criminal justice system. Formerly offered as CJUS 460.

CJUS 4462. Domestic Violence. Units: 3

Examination of violence in the family setting, including intimate partner violence, child abuse, and elder abuse. Topics include legal issues, criminal justice system response, and consequences for individuals, families, and the community. Formerly offered as CJUS 462.

CJUS 4465. Hate Crime, Law, and Policy. Units: 3

Analysis of the characteristics, prevalence, causes, and types of hate crimes in the United States. In addition, case law and statutes relating to hate crimes will be examined. Formerly offered as CJUS 465.

CJUS 4466. Justice and the Media. Units: 3

Examination of the relationship between criminal justice and the media, including consideration of the impact of the media on attitudes and perceptions of crime and criminals, the relationship of the media and crime control, and the impact of the media on the operations of the agencies in the criminal justice system. Formerly offered as CJUS 466.

CJUS 5504. Criminal Procedure. Units: 3

Semester Prerequisite: CJUS 3370

Examination of the rules governing criminal procedure. Impact of statutes and case law on criminal justice practitioners including the 4th, 5th, 6th, 8th, and 14th Amendments as they affect the accused, the convicted, and the employees working in the criminal justice system. Formerly offered as CJUS 3304.

CJUS 5506. Wildlife Crime. Units: 3

Crimes against wildlife are widespread, numerous and varied. They range from illegal trade, trapping and snaring, to poaching, injuring and killing. This course will provide an overview of the crimes committed against wildlife, with a special emphasis on the illegal trade of protected animals. Formerly offered as a Topics course, CJUS 590D.

CJUS 5508. Preventing Crime in Transportation Systems. Units: 3

Transportation systems are critical to the movement of people and goods. This course will address safety and security challenges of transit settings, as well as ways to prevent crime in those environments. Formerly offered as a Topics course, CJUS 590D.

CJUS 5550. Intelligence & Crime Analysis 2. Units: 3

Semester Prerequisite: CJUS 3311 and CJUS 3312 and CJUS 3470.

Quarter Prerequisite: CJUS 311 and CJUS 312 or equivalent and CJUS 470

Analysis of crime and intelligence data with current computer applications in order to assist criminal investigations, examine crime patterns, and resolve community crime problems. Analytical techniques include centrality and key player metrics, crime hotspots, telephone toll analysis, crime series investigation, forecasting, temporal analysis, and workload analysis. Formerly offered as CJUS 550.

CJUS 5554. Terrorism. Units: 3

Characteristics and causes of terrorism emerging in the 21st century. An analysis from a criminal justice perspective of terror movements affecting the United States covering legal issues, investigations, and criminal profile. Formerly offered as CJUS 554.

CJUS 5555. Homeland Security. Units: 3

Examination of homeland security events including radiological, biological, and chemical events. Emphasis will be given to prevention, preparedness, and response. The roles of local, state, and federal agencies are examined. Formerly offered as CJUS 555.

CJUS 5556. Transnational Organized Crime. Units: 3

Semester Prerequisite: CJUS 3320 with a grade of C- or better. Quarter Prerequisite: CJUS 320

Overview of transnational crime, corruption and effects on the political, economic, and social development of countries around the world. Topics include international justice, drug trafficking, human trafficking, and war crimes. Formerly offered as CJUS 556.

CJUS 5560. Crime Pattern Detection. Units: 4

Semester Prerequisite: CJUS 3350 and CJUS 3470 and CJUS 3311
Concepts and applications of geographic information systems and other technologies to investigate and predict spatial-temporal clusters of crimes and high risk places, as well as forecasting emerging crime problems. Formerly offered as CJUS 560.

CJUS 5570. Crime in Public Spaces. Units: 3

Semester Prerequisite: CJUS 3350 and CJUS 3470 and CJUS 3311
Field research on the interrelationship between the built urban environment and crime. Involvement in a community project to study public places that generate and attract crime in order to develop creative solutions. Formerly offered as CJUS 570.

CJUS 5571. Social Network Analysis. Units: 3

Semester Prerequisite: CJUS 3350 and CJUS 3470 and CJUS 3311
Applied network analysis provides visual and statistical procedures for examining the structural integrity of criminal networks - transnational illicit markets, corporate interlock, terrorism, co-offending, and serial crime investigation. Analytic techniques covered include: centrality analysis, network fragmentation methods, egonets, affiliation networks, and advanced, multivariate modeling techniques. 2-hours lecture and 1-hour professional process activity. Formerly offered as CJUS 571.

CJUS 5580. Juvenile Justice. Units: 3

Semester Prerequisite: CJUS 3320 with a grade of C- or better and Junior status or higher. Quarter Prerequisite: CJUS 320 with a grade of C- or better

History and development of the juvenile justice system. Includes review of current patterns and theories of juvenile crime and policy. Formerly offered as CJUS 580.

CJUS 5585. Life Course Criminality. Units: 3

Examination of factors influencing criminality across the life span from prenatal to elderly stages of life; emphasis on physiological, developmental, social and environmental factors. Formerly offered as CJUS 585.

CJUS 5591. Cyber Security. Units: 3

Semester Prerequisite: Junior, senior, or graduate standing

Cyber Security - This course provides an overview of Cybersecurity. This course examines the concept, framework, and applications of Cybersecurity, as well as analyzes the relevant historical background and current critical issues. The focus of the course will center on Cybersecurity and relevant security issues. Students will be exposed to a spectrum of activities, methods, and case studies with emphasis on practical aspects of Cybersecurity.

CJUS 5597. Senior Honors Project. Units: 3

Original research in an area of criminal justice studies, culminating in a major research report receiving approval of the criminal justice faculty. Enrollment limited to students whose formal application for departmental honors is approved. Formerly offered as CJUS 597.

CJUS 5598. Integrative Studies in Criminal Justice. Units: 3

Semester Prerequisite: CJUS 3311, CJUS 3320 with a grade of C- or better, Senior or Graduate standing required. Quarter Prerequisite: CJUS 311 and CJUS 320 and completion of Pre-Criminal Justice requirements must be fulfilled

Overview and integration of major issues in criminal justice. Cannot be counted toward the MA in Criminal Justice; however, it is a prerequisite for Criminal Justice graduate students who do not have a Bachelor's degree in Criminal Justice. Senior or Graduate standing required. Formerly offered as CJUS 598.

CJUS 5753. Internship in Criminal Justice. Units: 3

Semester Prerequisite: Consent of the Internship Coordinator. Quarter Prerequisite: consent of internship coordinator

Supervised Criminal Justice related work and study in private or public organizations. Open only to Criminal Justice majors. May be taken two times for six units. Graded credit/no credit. Formerly offered as CJUS 575.

CJUS 5901. Topics in Criminal Justice. Unit: 1

Semester Prerequisite: Junior, senior, or graduate standing. Quarter Prerequisite: junior, senior or graduate standing

Special topics in criminal justice. May be repeated for credit with consent of instructor as topics change. Formerly offered as CJUS 590A.

CJUS 5902. Topics in Criminal Justice. Units: 2

Semester Prerequisite: Junior, senior, or graduate standing. Quarter Prerequisite: junior, senior or graduate standing

Special topics in criminal justice. May be repeated for credit with consent of instructor as topics change. Formerly offered as CJUS 590B.

CJUS 5903. Topics in Criminal Justice. Units: 3

Semester Prerequisite: Junior, senior, or graduate standing

Special topics in criminal justice. May be repeated for credit with consent of instructor as topics change. Formerly offered as CJUS 590C.

CJUS 5951. Independent Study. Unit: 1

In-depth research into special topics concerned with the criminal justice system utilizing readings, library, and/or field research. Only three may be used in the major. May be taken six times for six units. Formerly offered as CJUS 595A.

CJUS 5952. Independent Study. Units: 2

In-depth research into special topics concerned with the criminal justice system utilizing readings, library, and/or field research. Only three may be used in the major. May be taken two times for six units. Formerly offered as CJUS 595B.

CJUS 5953. Independent Study. Units: 3

Semester Prerequisite: A minimum overall GPA of 3, consent of instructor and Department Chair approval. Quarter Prerequisite: a minimum overall grade point average of 3

In-depth research into special topics concerned with the criminal justice system utilizing readings, library, and/or field research. Only three may be used in the major. May be taken two times for six units. Formerly offered as CJUS 595C.

CJUS 6604. Advanced Techniques of Basic and Applied Research in Criminal Justice. Units: 3

Semester Prerequisite: CJUS 3311 or equivalent with a grade of B- or better. Quarter Prerequisite: CJUS 311 with a grade of B- or better or consent of instructor

Overview and application of the scientific method in the study of crime and criminal justice. Formerly offered as CJUS 604.

CJUS 6605. Proseminar in Criminal Justice. Units: 3

Overview of contemporary research and literature across the criminal justice field. Topics will include current writings and research on crime, police, courts, and corrections. Formerly offered as CJUS 605.

CJUS 6606. Statistical Analysis in Criminal Justice. Units: 3

Semester Prerequisite: CJUS 3312 or equivalent with a grade of B- or better. Quarter Prerequisite: CJUS 312 with a grade of B- or better or consent of instructor

Quantitative analytical techniques for criminal justice data. Emphasis will be placed on using and interpreting nonparametric and multivariate statistics. Formerly offered as CJUS 606.

CJUS 6607. Applying Criminological Theory to Criminal Justice. Units: 3

Analysis of social, behavioral, and biochemical theories of crime, delinquency and victimization as they apply to criminal justice policy decisions. Examination of pertinent theoretical research and critique of theory formation. Formerly offered as CJUS 607.

CJUS 6608. Crime, Criminals and Victims. Units: 3

Relationships between general crime trends and emerging patterns of criminal activity, and the composition of the offender and victim populations. Formerly offered as CJUS 608.

CJUS 6629. Race, Class, & Gender in the Criminal Justice System. Units: 3

Roles and treatment of minority populations within the criminal justice system, including historical background, offender issues, current problems, needs and future directions. Formerly offered as CJUS 629.

CJUS 6630. Legal Issues in Criminal Justice. Units: 3

Analysis of public policy relating to criminal justice and individual liberties along with an examination of case law in the areas of general civil liability, constitutional rights, and administrative and management practices. Formerly offered as CJUS 630.

CJUS 6631. Seminar in Corrections. Units: 3

Exploration of topics in correctional administration including: public opinion, civil rights, court intervention, system reform, and the management of correctional personnel. Formerly offered as CJUS 631.

CJUS 6632. Seminar in Policing. Units: 3

Exploration of policing topics with an emphasis on evidence-based policing research which evaluates the effectiveness of police practices in reducing crime, disorder, and maintaining citizen satisfaction. Formerly offered as CJUS 632.

CJUS 6640. Justice Policy and Administration. Units: 3

Legal, philosophical, political, and management influences that shape criminal justice policy. Focus on organization management principles and leadership and human resource development as they apply to the justice system. Formerly offered as CJUS 640.

CJUS 6641. Planning and Evaluation in Criminal Justice. Units: 3

Semester Prerequisite: CJUS 6604 and CJUS 6606. Quarter Prerequisite: CJUS 604 and CJUS 606

Focus on program planning and evaluation, as conducted by executives, managers, and planning oversight agencies. Course examines case studies and traditional evaluation designs including evaluating/assessing policies and programs, sampling techniques, and overviews of data collection techniques and statistical analysis. Formerly offered as CJUS 641.

CJUS 6651. Directed Area Studies in Criminal Justice. Unit: 1

Advanced study in a specific area selected by the student with the approval of the supervising faculty. May be taken six times for six units. Formerly offered as CJUS 650A.

CJUS 6652. Directed Area Studies in Criminal Justice. Units: 2

Advanced study in a specific area selected by the student with the approval of supervising faculty. May be taken three times for six units. Formerly offered as CJUS 650B.

CJUS 6653. Directed Area Studies in Criminal Justice. Units: 3

Semester Prerequisite: Consent of the instructor. Quarter Prerequisite: consent of instructor

Advanced study in a specific area selected by the student with the approval of the supervising faculty. May be taken two times for six units. Formerly offered as CJUS 650C.

CJUS 6686. Graduate Review in Criminal Justice. Unit: 1

Semester Prerequisite: Consent of the Graduate Coordinator. Quarter Prerequisite: advancement to candidacy

Assessment of graduate student knowledge and understanding of criminal justice theory and practice. Required of all graduate students in the Criminal Justice Master's Program. Department consent required. Graded credit/no credit. Formerly offered as CJUS 686.

CJUS 6971. Thesis I. Units: 3

Semester Prerequisite: Department Consent. Quarter Prerequisite: advancement to candidacy

Preparation of the thesis for the Master of Arts in Criminal Justice under the direction of a faculty member from the student's committee. CJUS 6972 must be completed before credit will be awarded for 6971. Department consent required. Graded credit/no credit. Formerly offered as CJUS 699A.

CJUS 6972. Thesis II. Units: 3

Preparation of the thesis for the Master of Arts in Criminal Justice under the direction of a faculty member from the student's committee. CJUS 6972 must be completed before credit will be awarded for 6971. Department consent required. Graded credit/no credit. Formerly offered as CJUS 699B.

CJUS 6980. Comprehensive Examination. Units: 0

An assessment of the student's ability to integrate the knowledge of the area, show critical and independent thinking, and demonstrate mastery of the subject matter. Department consent required. Graded Credit/no credit. Formerly offered as CJUS 999.

CJUS 6990. Continuous Enrollment for Graduate Candidacy Standing. Units: 0

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

CJUS 6991. Continuous Enrollment for Graduate Candidacy Standing. Unit: 1

Quarter Prerequisite: Advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

CJUS 6992. Continuous Enrollment for Graduate Candidacy Standing. Units: 2

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

CJUS 6993. Continuous Enrollment for Graduate Candidacy Standing. Units: 3

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

CJUS 6994. Continuous Enrollment for Graduate Candidacy Standing. Units: 4

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

CJUS 6995. Continuous Enrollment for Graduate Candidacy Standing. Units: 5

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

CJUS 6996. Continuous Enrollment for Graduate Candidacy Standing. Units: 6

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

Communication Studies (COMM)

Courses

COMM 1000. Critical Media Literacies: News, Entertainment, and Participatory Culture. Units: 3

Critical Media Literacies (CML) are crucial understandings, judgments, and skills for navigating our increasingly mediated social worlds. The course explores the consumption and creation of news, entertainment, and participatory culture, and their application to academic, professional, civic, and community life. Students also consider how different disciplines study media and media use in the context of a foundation seminar. Satisfies GE D3/4.

COMM 1006. Oral Communication. Units: 3

Introduction to effective speech communication with emphasis on informative and persuasive public speaking and presentation skills. Satisfies GE A1/1C.

COMM 1007. Critical Thinking Through Argumentation. Units: 3

Principles of oral argumentation and forensics: evidence, methods of logical analysis, reasoned discourse demonstrated through argumentative speeches and debates. Satisfies GE A3/1B.

COMM 1020. Looking at Movies. Units: 3

Students will use a formalist analytical framework to study film clips and entire movies to understand how the filmmakers use cinematic formal subsystems such as narrative structure, editing, and cinematography to create meaning. Emphasis is on films with diverse protagonists not typically found in mainstream Hollywood movies. Satisfies GE C1/3A, DI designation, World Cultures and Diversity pathway.

COMM 2101. Introduction to Communication Studies. Units: 3

An overview of how people communicate in various social contexts, and how those processes have been theorized and studied. Students also learn about the nature of work in communication careers, as well as pathways for pursuing those careers. Formerly COMM 200.

COMM 2201. Intercultural Communication. Units: 3

Description and analysis of cultural and gender factors in communication such as perception, value systems, language codes, and nonverbal communication. Overcoming the communication problems that can result when members of different cultures communicate. Satisfies DI designation.

COMM 2231. Small Group Communication. Units: 3

Theories of communication applied to small group situations emphasizing decision-making processes. Formerly offered as COMM 221.

COMM 2251. Fundamentals of Interpersonal Communication. Units: 3

Demonstration and practice of communicative techniques for establishing and cultivating interpersonal relationships including: building and maintaining communications climates, listening, perception, self-disclosure, and verbal and non-verbal communication. Formerly COMM 225.

COMM 2291. Practicum in Relational and Organizational Communication. Units: 2

An applied introduction to relational and organizational communication in a particular area of communication practice. May be taken for up to 4 units as topics change. No more than 6 Experiential Learning units may be applied toward the BA in Communication; however, students may apply additional Experiential Learning units toward general graduation requirements. Graded credit/no credit. Formerly COMM 243E.

COMM 2292. Practicum in Mentoring. Units: 2

Quarter Prerequisite: COMM 225, COMM 331 or COMM 403 or equivalent or permission of instructor

An applied introduction to mentoring. May be taken for up to 4 units of credit. No more than 6 Experiential Learning units may be applied toward the BA in Communication; however, students may apply additional Experiential Learning units toward general graduation requirements. Graded credit/no credit. Consent of instructor required to register. Formerly COMM 444D.

COMM 2293. Practicum in Intercollegiate Forensics: Coyote Debate. Units: 2

An applied introduction to debate strategy and skills for intercollegiate forensics competition. Students prepare for and compete in individual and team debate events as part of CSUSB's Coyote Debate Team. Additional hours of supervised practice and performance required. May be taken for up to 4 units of credit. No more than 6 Experiential Learning units may be applied toward the BA in Communication; however, students may apply additional Experiential Learning units toward general graduation requirements. Graded credit/no credit. Formerly COMM 382.

COMM 2301. Newswriting and Reporting. Units: 3

An introduction to basic news writing and reporting practices. Students gain experience gathering information through journalistic research and interviewing, and they write event-based and enterprise stories following inverted pyramid structure and Associated Press style. Students also get acquainted with investigative reporting, journalistic visual production, and multimedia storytelling elements. Satisfies WI designation.

COMM 2351. Television Studio Production. Units: 4

Introduction to television studio production and multicamera control-room directing. Introduces applied media aesthetics and the roles of above-the-line and below-the-line personnel. Three hours lecture and two hours activity laboratory per week. Materials fee required. Formerly COMM 245.

COMM 2391. Practicum in Multimedia Journalism: Coyote Chronicle. Units: 2

An applied introduction to news writing, reporting, editing, and production resulting in regular publication of the Coyote Chronicle (CSUSB's student newspaper) and its associated multimedia platforms. May be taken for up to 4 units of credit. No more than 6 Experiential Learning units may be applied toward the BA in Communication; however, students may apply additional Experiential Learning units toward general graduation requirements. Graded credit/no credit. Formerly COMM 243A.

COMM 2392. Practicum in Digital Audio and Radio. Units: 2

An applied introduction to digital audio and radio at one of CSUSB's student radio stations: Coyote Radio or PAWS Radio. Students gain hands-on experience in audio production, on-air performance, promotions, social media, and station management. May be taken for up to 4 units of credit. No more than 6 Experiential Learning units may be applied toward the BA in Communication; however, students may apply additional Experiential Learning units toward general graduation requirements. May be taken two times for four units. Graded credit/no credit. Formerly 243B.

COMM 2393. Practicum in Television Journalism Production: Local Matters. Units: 2

Quarter Prerequisite: COMM 243A

An applied introduction to television journalism production. Working under real-world deadlines and airdates, students create, write, produce, shoot, and edit the news-format style television show, Local Matters, which is broadcast on local cable systems. May be taken for up to 4 units of credit. No more than 6 Experiential Learning units may be applied toward the BA in Communication; however, students may apply additional Experiential Learning units toward general graduation requirements. Graded credit/no credit. Formerly 243C.

COMM 2491. Practicum in Strategic Communication: Coyote PR. Units: 2

An applied introduction to strategic communication and public relations. Students serve as Public Relations Assistants for Coyote PR, CSUSB's student-run public relations firm. May be taken for up to 4 units of credit. No more than 6 Experiential Learning units may be applied toward the BA in Communication; however, students may apply additional Experiential Learning units toward general graduation requirements. Graded credit/no credit. Formerly COMM 243D.

COMM 2492. Practicum in Advertising: Coyote Advertising. Units: 2

An applied introduction to advertising and marketing campaigns. As Coyote Advertising team members, students are presented with a real-world advertising challenge facing a company or organization, and they develop and present integrated marketing proposals. May be taken for up to 4 units of credit. No more than six Experiential Learning units may be applied toward the BA in Communication; however, students may apply additional Experiential Learning units toward general graduation requirements. Graded credit/no credit.

COMM 2592. Practicum in Communication Research. Units: 2

Introduction to applied communication research methods. May be taken for up to 4 units of credit. No more than 6 Experiential Learning units may be applied toward the BA in Communication; however, students may apply additional Experiential Learning units toward general graduation requirements. Graded credit/no credit. Consent of instructor required to register.

COMM 2593. Service Learning in Communication. Units: 2

Application of communication understandings and skills in meaningful and planned service experiences in the community. Through reflective activities, students enhance their understanding of communication and other general knowledge, as well as their sense of civic responsibility, self-awareness, and commitment to the community. May be taken for up to 4 units. No more than 6 Experiential Learning units may be applied toward the BA in Communication; however, students may apply additional Experiential Learning units toward general graduation requirements. Graded credit/no credit. Consent of instructor required to register.

COMM 3101. Communication, Self, and Others. Units: 3

Semester Prerequisite: COMM 2101, which may be taken concurrently with COMM 3101

This course explores the role of communication in the construction of self, interpersonal and intercultural relations, and groups & organizations. Key theories are considered and applied to practical communication processes. Theory development is also examined.

COMM 3102. Media, Culture, and Society. Units: 3

Semester Prerequisite: COMM 2101, which may be taken concurrently with COMM 3102. Quarter Prerequisite: completion of COMM 320 or consent of instructor

This course explores the role of media and other mass communication in political, economic, and socio-cultural life. Key theories are considered and applied to practical communication processes. The evolution of media scholarship -- from mass society to convergence culture -- is also examined. Formerly COMM 321.

COMM 3211. Business and Professional Communication. Units: 3

Quarter Prerequisite: COMM 120 or equivalent

Presentation skills and techniques used in sales, business, professional and technical fields for the communication of information. Special emphasis on technological resources for corporate communication. Formerly COMM 311.

COMM 3212. Persuasion. Units: 3

Study and application of rhetorical, social-psychological, and mass behavioral theories of persuasion from the perspectives of the message consumer and producer. Formerly COMM 312.

COMM 3227. Topics in Relational and Organizational Communication. Units: 3

Special topics in relational and organizational communication. May be repeated for credit as topics change. Formerly COMM 364.

COMM 3230. Nonverbal Communication. Units: 3

Theoretical and applied study of nonverbal communication in the shaping of human communication interactions. Emphasis on the major functions, purposes, and uses of nonverbal communication in a socio-culturally diverse society. Formerly COMM 330.

COMM 3231. Communication for Training Programs. Units: 3

Techniques and functions of training programs in professional and technical settings. Formerly COMM 331.

COMM 3236. Health Communication. Units: 3

Overview and examination of the theories and concepts of health communication. Primary focus on identifying the various approaches for translating research on health behaviors and perceptions, maintaining health, and coping with illness in a variety of health contexts. Specifically, the sociohistorical, social, political, and cultural factors affecting health communication and healthcare. Satisfies GE D4/UD-4.

COMM 3301. Media Institutions in Context. Units: 3

Quarter Prerequisite: COMM 200

A historical examination of how media institutions have shaped and been shaped by broader political, economic, socio-cultural, and technological processes. Particular attention paid to the role of media in a democracy, the development of commercial journalism and entertainment industries, the policies created to regulate those industries, and their impacts on media production, texts, and uses -- both past and present. Formerly COMM 320.

COMM 3305. Digital Media and Society. Units: 3

Theory, research, and history concerning the role of digital media in socio-cultural, political, and economic life. Students consider key issues around digital media use, such as identity construction, democratic participation, online privacy, industry disruptions, community formation, and digital distractions. Satisfies GE D4/UD-4, Digital Life pathway.

COMM 3319. Topics in Media Studies. Units: 3

Special topics in media studies. May be repeated for credit as topics change. Formerly COMM 365.

COMM 3331. The Development of Motion Pictures. Units: 3

Survey of the historical background, commercial development, and social influences of motion pictures. Course follows the medium from its earliest origins through the rise and decline of the studio system to the influences of television. Emphasis on key directors and styles of film communication. Formerly COMM 381.

COMM 3332. Movies in the Digital Age. Units: 3

In this course, students will explore and analyze aesthetic experiences related to the impact of digital technologies and cultures on the art of motion pictures, including those of the computer-generated imagery (CGI) revolution and the portrayal of digital culture in movies and TV. Satisfies GE C4/UD-3, Digital Life pathway.

COMM 3333. Film Analysis. Units: 3

Analysis of films using various theoretical frames. Emphasis on understanding and interpreting filmmakers' uses of form and style in picture and sound, including within-frame composition, editing, and sound design. Formerly COMM 424.

COMM 3334. Global Cinema. Units: 3

The course will survey contemporary world cinema while situating it within the larger history and theories of film. The course will help students to think critically about the role cinema plays in society through its ability to illustrate and create empathy for an international range of human experiences; as a result, the course will allow students to develop an understanding between the self and the creative arts in a variety of world cultures. Satisfies GE C4/UD-3, DI, G designations, Global Connections, World Cultures and Diversity pathways.

COMM 3335. Visual Communication. Units: 3

Introduction to the principles and theory of visual literacy for understanding the social, cultural, and ethical layers of meaning in visual communication. Emphasis on the method of applied media aesthetics. Formerly COMM 380.

COMM 3336. Queer Cinema. Units: 3

This course explores the representation of LGBT and other queer identities in U.S. and world cinema, and how those representations have evolved with and shaped discourse about queer people over the history of the film medium. Satisfies GE C4/UD-3, DI designation.

COMM 3339. Topics in Film Studies. Units: 3

Special topics in film studies. May be repeated for credit as topics change.

COMM 3351. Introduction to Digital Video Editing. Units: 3

Theory and practice of digital video editing. Developing the narrative language of live action material, whether fictional, documentary, or musical; composing effective visual/sound design; and establishing pace and rhythm in editing. Training in software applications for moving image editing, program titling, and visual effects. Materials fee required. Formerly COMM 335.

COMM 3353. Digital Video Field Production. Units: 4

Semester Prerequisite: COMM 2351. Quarter Prerequisite: COMM 245 with a grade of B or better

Introduction to portable video equipment and the single-camera/video field production process. Three hours seminar and two hours laboratory. Materials fee required. Formerly COMM 345.

COMM 3354. Fundamentals of Screenwriting. Units: 3

Writing for fictional motion pictures, including structure, characters, dialogue, scene development, conflict and theme. Attention will be given to narrative structure and storytelling for film. Formerly COMM 347.

COMM 3359. Topics in Digital Production. Units: 3

Special topics in digital production. May be taken again for credit as topics change.

COMM 3361. Digital Audio and Radio Production. Units: 3

Quarter Prerequisite: COMM 243B or consent of instructor

Techniques and principles of digital audio recording, editing, and mixing for radio programming such as newscasts, commercials, public service announcements, and promotional announcements. Two hours seminar and two hours laboratory per week. Materials fee required. Formerly COMM 387.

COMM 3371. Multimedia Journalism. Units: 3

Theory and practice in multimedia journalism, including videography, photography, audio, written and social media journalism. Students create and edit interactive multimedia packages. Preparation for careers in journalism, public relations, and related fields. Materials fee required. Formerly COMM 350.

COMM 3372. Publication Design. Units: 3

Quarter Prerequisite: COMM 240

Application of design principles through the design of print, web, and digital publications. Includes concept development, planning and composition, typography, infographics, mastheads, illustrations, coding, user experience, and desktop publishing. Ethical considerations discussed. Formerly COMM 342.

COMM 3379. Topics in Multimedia Journalism. Units: 3

Special topics in multimedia journalism. May be taken again for credit as topics change.

COMM 3401. Introduction to Strategic Communication. Units: 3

Introduction to theoretical perspectives and professional principles in strategic communication. Historical perspectives, current and future trends, and career opportunities explored. Formerly COMM 341.

COMM 3402. Writing for Public Relations. Units: 3

Quarter Prerequisite: COMM 240 or consent of instructor

Semester Corequisite: COMM 2301

Application of public relations theory and principles through the development of public relations writing. Formerly COMM 344.

COMM 3403. Business Literacy for Strategic Communication. Units: 3

Provides foundational business knowledge important to strategic communication professionals, including key intersections between business objectives and strategic communication such as corporate governance, social responsibility, and reputation.

COMM 3419. Topics in Strategic Communication. Units: 3

Special topics in strategic communication. May be repeated for credit as topics change. Formerly COMM 367.

COMM 4101. Communication Research Methodology. Units: 3

Quarter Prerequisite: COMM 200, 304 and 306

Study and application of basic historical, descriptive, critical and experimental research skills unique to communication. Includes data analysis, interpretation, and ethical considerations of communication research. Satisfies WI designation.

COMM 4102. Ethical Aspects of Communication. Units: 3

Semester Prerequisite: COMM 3101 or 3102. Quarter Prerequisite: COMM 200, COMM 306 and COMM 400 or consent of department

Focuses on exploring and assessing issues of responsibility and ethical standards of communication in areas such as interpersonal, political, print, TV/film, organizational, and digital communication contexts. Goals of the course include stimulation of the moral imagination; recognition of ethical issues; and development of critical/analytical skills. Formerly COMM 491.

COMM 4202. Relational Communication. Units: 3

An overview and examination of current concepts, issues, and research in the study of human relationships. Primary focus on relational development, maintenance, and disengagement in a variety of contexts. Formerly COMM 403.

COMM 4203. Organizational Communication. Units: 3

Study of current organizational communication theory and application to the management of communication within the organization.

COMM 4211. Communication and Gender. Units: 3

A critical and sociological examination of how gender is socialized, constructed, communicated, and performed in various communicative contexts. Satisfies DI designation.

COMM 4222. Communication and Conflict. Units: 3

Communication theories and models relevant to analyzing and understanding the causes, functions, styles, and effects of conflict. The skills of negotiation and third party intervention in conflict resolution. Formerly COMM 422.

COMM 4231. Classroom Communication. Units: 3

Quarter Prerequisite: COMM 120 or equivalent
Communication skills in instructional settings, including strategies to facilitate understanding and analysis of classroom behavioral models. Formerly COMM 431.

COMM 4241. Interviewing. Units: 3

Quarter Prerequisite: COMM 120 or equivalent
Interviewing in formal and informal settings. Understanding of employment, journalistic, informative and persuasive interviews. Formerly COMM 441.

COMM 4291. Advanced Practicum in Relational and Organizational Communication. Units: 2

Semester Prerequisite: COMM 2291
Advanced application of relational and organizational communication skills in particular areas of communication practice. May repeated for credit 2 times for a total of 4 units. No more than 6 Experiential Learning units may be applied toward the BA in Communication; however, students may apply additional Experiential Learning units toward general graduation requirements. Graded credit/no credit. Consent of instructor required to register.

COMM 4292. Advanced Practicum in Mentoring. Units: 2

Semester Prerequisite: COMM 2292
Advanced applied mentoring. No more than 6 Experiential Learning units may be applied toward the BA in Communication; however, students may apply additional Experiential Learning units toward general graduation requirements. May be taken two times for four units. Graded credit/no credit.

COMM 4293. Advanced Practicum in Intercollegiate Forensics: Coyote Debate. Units: 2

Semester Prerequisite: COMM 2293
Advanced application of debate strategy and skills for intercollegiate forensics competition. Students prepare for and compete in individual and team debate events as part of CSUSB's Coyote Debate Team. Additional hours of supervised practice and performance required. May be repeated for credit 2 times for a total of 4 units. No more than 6 Experiential Learning units may be applied toward the BA in Communication; however, students may apply additional Experiential Learning units toward general graduation requirements. Graded credit/no credit. Consent of instructor required to register.

COMM 4301. Gender, Race, and Class in Media. Units: 3

Engages students with contemporary critical scholarship on the construction of gender, race, and class in the media, particularly popular media. The course focuses primarily on film, television, advertising, and journalism. Satisfies DI designation.

COMM 4302. Latinx, Media, and Cultures. Units: 3

Examines mass media representations of and by Latinx in both Latin America and the United States as they relate to historical and contemporary colonialism, and how they enable or resist homogeneous perceptions of culture and society. Effects on ideology, nation, law, and policy are analyzed. Satisfies DI designation.

COMM 4303. Global Communication. Units: 3

Political, economic, and cultural analysis of the structure, context, and impact of communication across national boundaries, including news, entertainment, advertising, corporate communication, transborder data flows, and the Internet. Satisfies G designation.

COMM 4304. Media Effects. Units: 3

History of research in understanding the effects of the media on individuals and society. Students develop critical and informed views on media effects in such areas as politics, group perception, prosocial/antisocial practices, health, sports, music, religion, leisure, and commerce. Formerly COMM 405.

COMM 4305. Advertising as Social Communication. Units: 3

A critical-historical examination of the role of advertising and promotional culture in political, economic, and socio-cultural life. Particular attention paid to the development of corporate advertising, its relationship to and influence on commercial media, and advertising's representations of race, class, gender, and sexuality. Formerly COMM 415.

COMM 4355. Digital Filmmaking I. Units: 3

Semester Prerequisite: COMM 2351 and COMM 3353
Digital video production course with emphasis on pre-production planning, shooting, and editing through lectures, workshops, screenings, and field production. Working in crews, students plan, shoot, and finish short video projects. Formerly COMM 448.

COMM 4356. Digital Filmmaking II. Units: 3

Semester Prerequisite: COMM 2351, COMM 3353, and COMM 4355
Advanced digital video production course with emphasis on producing, directing, videography, lighting, and sound recording through lectures, workshops, screenings, and field production. Working in crews, students plan, shoot, and edit video projects. Formerly COMM 449.

COMM 4391. Advanced Practicum in Multimedia Journalism: Coyote Chronicle. Units: 2

Semester Prerequisite: COMM 2391
Advanced application of news writing, reporting, editing, and production skills resulting in regular publication of the Coyote Chronicle (CSUSB's student newspaper) and its associated multimedia platforms. May be repeated for credit 2 times for a total of 4 units. No more than 6 Experiential Learning units may be applied toward the BA in Communication; however, students may apply additional Experiential Learning units toward general graduation requirements. Graded credit/no credit. Consent of instructor required to register.

COMM 4392. Advanced Practicum in Digital Audio and Radio: Coyote Radio. Units: 2

Semester Prerequisite: COMM 2392
Advanced application of digital audio and radio skills. At Coyote Radio (CSUSB's student radio station), students gain hands-on experience in audio production, on-air performance, promotions, social media, and station management. May be repeated 2 times for a total of 4 units. No more than 6 Experiential Learning units may be applied toward the BA in Communication; however, students may apply additional Experiential Learning units toward general graduation requirements. Graded credit/no credit. Consent of instructor required to register.

COMM 4393. Advanced Practicum in Television Journalism Production: Local Matters. Units: 2

Semester Prerequisite: COMM 2393
Advanced application of television journalism production skills. Working under real-world deadlines and airdates, students create, write, produce, shoot, and edit the news-format style television show, Local Matters, which is broadcast on local cable systems. May be repeated for credit 2 times for a total of 4 units. No more than 6 Experiential Learning may be applied toward the BA in Communication; however, students may apply additional Experiential Learning units toward general graduation requirements. Graded credit/no credit. Materials fee required. Consent of instructor required to register. Formerly 444A.

COMM 4401. Strategic Communication Campaigns. Units: 3

Semester Prerequisite: COMM 2301, COMM 3401, COMM 3402. Quarter Prerequisite: COMM 344
Advanced study of strategic communication campaigns to achieve commercial, political, and social goals. Emphasis on case analysis, campaign development, and implementation. Formerly COMM 442.

COMM 4491. Advanced Practicum in Strategic Communication: Coyote PR. Units: 2

Semester Prerequisite: COMM 2491
Advanced application of strategic communication and public relations skills. Students serve as Public Relations Assistants for Coyote PR, CSUSB's student-run public relations firm. May be repeated for credit 2 times for a total of 4 units. No more than 6 Experiential Learning units may be applied toward the BA in Communication; however, students may apply additional Experiential Learning units toward general graduation requirements. Consent of instructor required to register. Graded credit/no credit.

COMM 4492. Advanced Practicum in Advertising: National Student Advertising Competition team. Units: 2

Semester Prerequisite: COMM 2492
Advanced application of strategy and skills in advertising and marketing campaigns. Students compete as members of CSUSB's National Student Advertising Competition (NSAC) team. They are presented with a real-world advertising challenge facing a national brand, and they work as a team to develop an integrated marketing proposal for the client and competitively present that plan to a panel of judges. May be repeated for credit 2 times for a total of 4 units. No more than 6 Experiential Learning units may be applied toward the BA in Communication; however, students may apply additional Experiential Learning units toward General Graduation Requirements. Graded credit/no credit. Consent of instructor required to register.

COMM 4592. Advanced Practicum in Communication Research. Units: 2

Semester Prerequisite: COMM 2592 and consent of instructor
Advanced applied communication research methods. May be repeated for credit 2 times for a total of 4 units. No more than 6 Experiential Learning units may be applied toward the BA in Communication; however, students may apply additional Experiential Learning units toward general graduation requirements. Graded credit/no credit. Consent of instructor required to register. Formerly COMM 444B.

COMM 5222. Mediation Theory and Practice. Units: 3

Semester Prerequisite: COMM 4222 or permission of instructor. Quarter Prerequisite: COMM 422 or permission of instructor
Exploration of the theories, methods, and techniques of mediation as a collaborative process of resolving conflicts among individuals, groups, organizations, and nations. Through simulation exercises and role plays, students develop neutral third party intervention skills needed to serve as a mediator. Formerly COMM 522.

COMM 5267. Advanced Topics in Relational and Organizational Communication. Units: 3

Quarter Prerequisite: junior, senior, or graduate standing
Advanced special topics in relational and organizational communication. May be repeated for credit as topics change. Formerly COMM 564.

COMM 5280. Culture and Ethnicity in Language. Units: 3

Semester Prerequisite: COMM 2201 or equivalent. Quarter Prerequisite: COMM 304 or equivalent
Critical examination of the way language shapes perceptions, behaviors, and attitudes about culture and ethnicity. Formerly COMM 580.

COMM 5301. Media Sex and Violence. Units: 3

Critical and empirical examination of the practices and consequences of portraying human aggression and sexuality in the media including television, movies, music recordings, print materials, video games, and the Internet. Formerly COMM 506.

COMM 5302. Communication Law and Policy. Units: 3

An overview of the laws, rules, and policies that govern various media sectors, with a particular emphasis on how these regulations shape the practice of media professionals. Topics include: freedom of speech; libel; intellectual property; broadcast regulations; digital media law and policy; privacy. Formerly COMM 502.

COMM 5303. Muslim Women in Media and Society. Units: 3

A cross-disciplinary and case study-based approach to the subject of Muslim women across several different regions and contexts, focusing particularly on their position in society and their representation in media. Formerly COMM 550.

COMM 5311. Fundamentals of Social Media Management. Units: 3

Explores how organizations use social media to shape conversations about their products, services, actions, and positions. Examines issues of social media planning, campaign management and strategic communication on social media. Formerly COMM 507.

COMM 5312. Political Economy of Social Media Communication. Units: 3

Explores how ownership, market strategy and financing considerations on social media platforms intersect with policy and legal issues. Formerly COMM 508.

COMM 5313. Audience Analysis in Social Media. Units: 3

An overview of current tools for quantitative and qualitative audience analysis in social media. Explores how the strategic priorities of organizations and their social media strategies relate to campaign performance. Formerly COMM 509.

COMM 5314. Social Media for Social Good. Units: 3

Students learn theories, methods, and strategies for using social media to grow personal capabilities and civic involvement and to enact change for the social good. Explores issues of ethics and social justice in social media communication. Formerly COMM 510.

COMM 5319. Advanced Topics in Media Studies. Units: 3

Quarter Prerequisite: junior, senior, or graduate standing
Advanced special topics in media studies. May be repeated for credit as topics change. Formerly COMM 565.

COMM 5339. Advanced Topics in Film Studies. Units: 3

Special advanced topics in film studies. May be taken again for credit as topics change.

COMM 5359. Advanced Topics in Digital Production. Units: 3

Semester Prerequisite: COMM 3359

Advanced special topics in digital production. May be repeated for credit as topics change.

COMM 5378. Community & Investigative Journalism. Units: 3

A hands-on course merging traditional civic and investigative reporting with multimedia and community journalism elements. Students gain transferable multimedia and journalism skills by collaboratively gathering and crafting impactful stories with and about local communities. May be taken twice for six units; only three units may count toward the BA in Communication. However, students may apply additional units toward general graduation requirements.

COMM 5379. Advanced Topics in Multimedia Journalism. Units: 3

Advanced special topics in multimedia journalism. May be taken again for credit as topics change.

COMM 5391. Advanced Practicum in Journalism. Units: 2

Intensely hands-on utilization of news-gathering, reporting, and editing competencies, leading to consistent creation of journalistic content. May be taken 2 times for a total of 4 units. No more than 6 Experiential Learning units may be applied toward the BA in Communication; however, students may apply additional Experiential Learning units toward general graduation requirements. Graded credit/no credit.

COMM 5401. Crisis Communication. Units: 3

Semester Prerequisite: COMM 2301, COMM 3401, COMM 3402. Quarter Prerequisite: COMM 344 or equivalent or consent of instructor
Principles and methods of issue evaluation and crisis management in strategic communication, including issue monitoring and analysis, policy options, and program design and evaluation. Formerly COMM 542.

COMM 5419. Advanced Topics in Strategic Communication. Units: 3

Advanced special topics in strategic communication. May be repeated for credit as topics change. Formerly COMM 567.

COMM 5792. Internship in Communication. Units: 2

Semester Prerequisite: Junior or senior status with a minimum of 12 units of Communication course work completed at CSUSB; minimum overall grade point average of C+; departmental approval of a written contract between the student intern and the intern's site supervisor at the host organization required; contract to be filed the term prior to that in which the internship is to take place. Quarter Prerequisite: Junior or senior status with a minimum of 16 units of communication course work completed on this campus; minimum overall grade point average of 2. Practical application and development of communication understandings and skills in a professional setting and under the supervision of a communication professional. Through reflection exercises, students draw connections between their internship and their Communication course work, and they crystallize their career plans. Minimum 80 hours of internship experience with the host organization required over the course of the term. Internship in Communication (COMM 5792, 5793, or 5794) may be taken again for credit; however, no more than 6 Experiential Learning units may be applied toward the BA in Communication. Students may apply additional Experiential Learning units toward general graduation requirements. Graded credit/no credit. Departmental approval of a written contract between the student intern and the site supervisor at the host organization required; contract to be filed the term prior to that in which the internship is to take place. Formerly COMM 591B.

COMM 5793. Internship in Communication. Units: 3

Semester Prerequisite: Junior or senior status with 12 units of Communication course work completed on this campus; minimum overall grade point average of C+; departmental approval of a written contract between the student intern and the site supervisor at the host organization required; contract to be filed the term prior to that in which the internship is to take place. Quarter Prerequisite: Junior or senior status with a minimum of 16 units of communication course work completed on this campus; minimum overall grade point average of 2. Practical application and development of communication understandings and skills in a professional setting and under the supervision of a communication professional. Through reflection exercises, students draw connections between their internship and their Communication course work, and they crystallize their career plans. Minimum 120 hours of internship experience with the host organization required over the course of the term. Internship in Communication (COMM 5792, 5793, or 5794) may be taken again for credit; however, no more than 6 Experiential Learning units may be applied toward the BA in Communication. Students may apply additional Experiential Learning units toward general graduation requirements. Graded credit/no credit. Departmental approval of a written contract between the student intern and the site supervisor at the host organization required; contract to be filed the term prior to that in which the internship is to take place. Formerly COMM 591C.

COMM 5794. Internship in Communication. Units: 4

Semester Prerequisite: Junior or senior status with 12 units of Communication course work completed on this campus; minimum overall grade point average of C+; departmental approval of a written contract between the student intern and the site supervisor at the host organization required; contract to be filed the term prior to that in which the internship is to take place. Quarter Prerequisite: Junior or senior status with a minimum of 16 units of communication course work completed on this campus; minimum overall grade point average of 2. Practical application and development of communication understandings and skills in a professional setting and under the supervision of a communication professional. Through reflection exercises, students draw connections between their internship and their Communication course work, and they crystallize their career plans. Minimum 160 hours of internship experience with the host organization required over the course of the term. Internship in Communication (COMM 5792, 5793 or 5794) may be taken again for credit; however, no more than 6 Experiential Learning units may be applied toward the BA in Communication. Students may apply additional Experiential Learning units toward general graduation requirements. Graded credit/no credit. Departmental approval of a written contract between the student intern and the site supervisor at the host organization required; contract to be filed the term prior to that in which the internship is to take place. Formerly COMM 591D.

COMM 5892. Communication Teaching Shadowship. Units: 2

Shadow an instructor teaching Oral Communication (or equivalent) at CSUSB or a nearby college/university as preparation for various communication teaching roles. Responsibilities include: Observing teaching and learning; Reflect on pedagogical approaches and connecting to Communication Studies theories and concepts; Deliver lectures; Developing course syllabus; Shadow grade student speeches (for learning purposes only); Meet regularly with the shadowed instructor. A minimum of 80 hours of teaching shadowship experience is required over the course of the term. May be repeated for credit by BA students. However, no more than 6 Experiential Learning units may be applied to the BA in Communication. BA students may apply additional Experiential Learning units toward general graduation requirements. May only be taken once by MA students. Graded credit/no credit. Departmental approval of a written contract between the student shadow and the site supervisor (shadowed instructor) at the host organization is required; the contract is to be filed the term prior to that in which the shadowship is to take place.

COMM 5952. Independent Study. Units: 2

Semester Prerequisite: Junior or senior standing AND a minimum overall grade point average of 3. Quarter Prerequisite: A minimum overall grade point average of 3. Special topics involving library research, experimental or field research, or media production. No more than 2 Independent Study courses (COMM 5952, 5953, or 5954) may be taken as part of the BA in Communication, and no more than 6 Independent Study units may be applied toward the BA in Communication. Department approval of Independent Study proposal, filed in advance of the semester in which the course is to be taken, is required. Formerly COMM 595B.

COMM 5953. Independent Study. Units: 3

Semester Prerequisite: Junior or senior standing AND a minimum overall grade point average of 3. Quarter Prerequisite: Junior or senior standing AND a minimum overall grade point average of 3

Special topics involving library research, experimental or field research, or media production. No more than 2 Independent Study courses (COMM 5952, 5953, or 5954) may be taken as part of the BA in Communication, and no more than 6 Independent Study units may be applied toward the BA in Communication. Department approval of Independent Study proposal, filed in advance of the term in which the course is to be taken, is required. Formerly COMM 595C.

COMM 5954. Independent Study. Units: 4

Semester Prerequisite: Junior or senior standing AND a minimum overall grade point average of 3. Quarter Prerequisite: a minimum overall grade point average of 3

Special topics involving library research, experimental or field research, or media production. No more than 2 Independent Study courses (COMM 5952, 5953, or 5954) may be taken as part of the BA in Communication, and no more than 6 Independent Study units may be applied toward the BA in Communication. Department approval of Independent Study proposal, filed in advance of the term in which the course is to be taken, is required. Formerly COMM 595D.

COMM 6000. Introduction to Graduate Study. Units: 3

An introduction to the means of success in the graduate program and communication studies, including important tools for success such as in-depth knowledge of the policies of the graduate program, library services, research software, APA style of writing, and IRB. Must be taken during the first semester of the graduate program. Two hours lecture and two hours lab activity. Enrollment in the class requires approval by the graduate coordinator. Formerly offered as COMM 600.

COMM 6001. Theoretical Perspectives in Communication Studies. Units: 3

Quarter Prerequisite: COMM 306

Survey of the major paradigms and theories in communication studies. This class explores the relationships among theoretical perspectives, research questions, methods, and practice. Must be taken within the first year of graduate study (except for part-time students).

COMM 6002. Quantitative Research Methods in Communication Studies. Units: 3

Semester Prerequisite: COMM 6000, and COMM 6001; or consent of the department. Quarter Prerequisite: Prerequisites: COMM 400 and COMM 600, or consent of department

Introduction to quantitative social science research methods, including design (survey, experiment, and content analysis); key topics such as research ethics, validity, reliability, sampling, data collection, and hypothesis testing; and basic statistical analysis procedures for descriptive and inferential statistics using relevant software. Two hours lecture and two hours lab activity. Formerly offered as COMM 602.

COMM 6003. Qualitative Research Methods in Communication Studies. Units: 3

Semester Prerequisite: COMM 6000; or consent of the department.

Quarter Prerequisite: Prerequisites: COMM 600 or 605

Survey of study design, data collection and appropriate procedures for research through qualitative and interpretive approaches. Advanced study in such methods includes ethnography, interviewing, discourse analysis, and rhetorical and cultural criticism. Two hours lecture and two hours lab activity. Formerly offered as COMM 603.

COMM 6009. Digital Cultures. Units: 3

Examination of the interactions among communication technology, new media, and culture with particular focus on intercultural and global communication. Formerly offered as COMM 609.

COMM 6010. Digital Methods in Communication Research. Units: 3

Overview of methodologies that use web-native objects and techniques to study communication phenomena and social change.

COMM 6011. Political Economy of Communication. Units: 3

A close examination of the structure and organization of media and communication systems (e.g., ownership, financing, and regulation). The course explores the development of those systems, their impact on media and cultural fare, and how they embody and constitute broader social power relations, particularly class and capital.

COMM 6012. Special Topics in Film/Cinema Studies. Units: 3

Intensive study of selected topics in film and cinema studies. May be taken for up to 6 units as topics change.

COMM 6013. Special Topics in Gender and Communication. Units: 3

Intensive study of selected topics in gender studies and communication. May be taken for up to 6 units as topics change.

COMM 6014. Special Topics in Applied Communication. Units: 3

Intensive study of selected topics in applied communication. May be taken for up to six units as topics change.

COMM 6030. Instructional Communication. Units: 3

An examination of the relationship between learning theories and communication studies and research. Research in instructional communication, instructional strategies, and techniques for applying these concepts in educational and training settings. Includes course development, teaching presentation, and active learning strategies. May not be taken in lieu of EDUC 6603. Formerly offered as COMM 630.

COMM 6070. Special Topics in Conflict and Conflict Resolution. Units: 3

Survey course on the origins, history, models, and theories of conflict and conflict resolution. Includes cultural issues, nonviolent social movements, and the developing field of online conflict resolution. May be taken for up to 6 units as topics change. Formerly offered as COMM 670.

COMM 6071. Global Communication. Units: 3

Advanced study of issues in international communication in the context of globalization. Examination of the political, economic and cultural impact of communication across national boundaries, including news, entertainment, advertising, corporate communication, transborder data flows, and social media or digital media. Formerly offered as COMM 671.

COMM 6075. Strategic Communication. Units: 3

Semester Prerequisite: COMM 6002 and COMM 6003; or, approval of the Graduate Coordinator. Quarter Prerequisite: COMM 602 and COMM 603; or, approval of the Graduate Coordinator

Applied research in communication. Involves conducting research within and for organizations to help them achieve their communication goals.

The course takes a strategic management perspective that is goal-oriented and requires planning and research. Two hours lecture and two hours lab activity. Formerly offered as COMM 675.

COMM 6084. Comprehensive Examination Preparation. Units: 3

Semester Prerequisite: Completion of 15 units in the program, advancement to candidacy, and consent of the Graduate Coordinator.

Prerequisite: Completion of 15 units in the program, advancement to candidacy, and consent of the Graduate Coordinator

Preparation for comprehensive examination using a guided curriculum personalized to the needs of the students. Formerly offered as COMM 685.

COMM 6085. Thesis or Project Proposal. Units: 3

Semester Prerequisite: Completion of 15 units in the program, advancement to candidacy, and consent of the Graduate Coordinator.

Quarter Prerequisite: Completion of 15 units in the program, advancement to candidacy, and consent of the Graduate Coordinator

Preparation of the thesis or project proposal resulting in a thesis or project prospectus. Formerly offered as COMM 685.

COMM 6090. Special Topics in Organizational Communication. Units: 3

Semester Prerequisite: COMM 4203 or consent of the department.

Quarter Prerequisite: COMM 421 or consent of department

Intensive study of selected topics in organizational communication. May be taken for up to 6 units as topics change. Formerly offered as COMM 690.

COMM 6091. Special Topics in Public Relations. Units: 3

Semester Prerequisite: COMM 3401 or equivalent; OR, consent of the instructor. Quarter Prerequisite: COMM 341, or equivalent, or consent of instructor

Intensive study of selected topics in public relations. May be taken for up to 6 units as topics change. Formerly offered as COMM 691.

COMM 6092. Special Topics in Interpersonal Communication. Units: 3

Intensive study of selected topics in interpersonal communication. May be taken for up to 6 units as topics change. Formerly offered as COMM 692.

COMM 6093. Special Topics in Media Studies. Units: 3

Intensive study of selected topics in media studies. May be taken for up to 6 units as topics change. Formerly offered as COMM 693.

COMM 6094. Special Topics in Intercultural Communication. Units: 3

Semester Prerequisite: Prerequisite: COMM 2201 or equivalent; or, consent of the instructor. Quarter Prerequisite: COMM 304 or equivalent

Intensive study of selected topics in intercultural communication. A student may take up to six units as topics change. Formerly offered as COMM 694.

COMM 6752. Graduate Internship in Communication. Units: 2

Semester Prerequisite: approval of student's committee; graduate level status with a minimum overall grade point average of 3. Quarter

Prerequisite: approval of student's committee; graduate level status with a minimum overall grade point average of 3

Development and application of communication competencies in a supervised, professional setting. Requirements: minimum 90 on-site hours; regular reflections on communication theory and practice; and a graduate-level final paper or project. Written contract between the student intern and the site supervisor to be filed the term prior to the internship.

Department consent required. Graded credit/no credit. Up to 6 total units of Graduate Internship in Communication (COMM 6752/6753/6754) may be applied toward the MA in Communication Studies. May be taken 3 times for 6 units. Formerly offered as COMM 697 C.

COMM 6753. Graduate Internship in Communication. Units: 3

Semester Prerequisite: Prerequisites: approval of student's committee; graduate level status with a minimum overall grade point average of 3.

Quarter Prerequisite: approval of student's committee; graduate level status with a minimum overall grade point average of 3

Development and application of communication competencies in a supervised, professional setting. Requirements: minimum 135 on-site hours; regular reflections on communication theory and practice; and a graduate-level final paper or project. Written contract between the student intern and the site supervisor to be filed the term prior to the internship.

Department consent required. Graded credit/no credit. Up to 6 total units of Graduate Internship in Communication (COMM 6752/ 6753/6754) may be applied toward the MA in Communication Studies. May be taken 2 times for 6 units. Formerly offered as COMM 697D.

COMM 6754. Graduate Internship in Communication. Units: 4

Semester Prerequisite: approval of student's committee; graduate level status with a minimum overall grade point average of 3. Quarter Prerequisite: approval of student's committee; graduate level status with a minimum overall grade point average of 3

Development and application of communication competencies in a supervised, professional setting. Requirements: minimum 180 on-site hours; regular reflections on communication theory and practice; and a graduate-level final paper or project. Written contract between the student intern and the site supervisor to be filed the term prior to the internship.

Department consent required. Graded credit/no credit. Up to 6 total units of Graduate Internship in Communication (COMM 6752/ 6753/6754) may be applied toward the MA in Communication Studies. Formerly offered as COMM 697E.

COMM 6951. Graduate Independent Study. Unit: 1

Semester Prerequisite: approval by the student's committee. Quarter Prerequisite: approval by the student's committee

Advanced reading/research on a specific topic relevant to the student's program of study. May be taken for up to 6 units of independent study credit. Formerly offered as COMM 695B.

COMM 6952. Graduate Independent Study. Units: 2

Semester Prerequisite: approval by the student's committee. Quarter Prerequisite: approval by the students committee

Advanced reading/research on a specific topic relevant to the student's program of study. May be taken for up to 6 units of independent study credit. Formerly offered as COMM 695C.

COMM 6953. Graduate Independent Study. Units: 3

Semester Prerequisite: approval by the student's committee. Quarter Prerequisite: approval by the students committee

Advanced reading/research on a specific topic relevant to the student's program of study. May be taken for up to 6 units of independent study credit. Formerly offered as COMM 695D.

COMM 6954. Graduate Independent Study. Units: 4

Semester Prerequisite: approval by the student's committee. Quarter Prerequisite: approval by the students committee

Advanced reading/research on a specific topic relevant to the student's program of study. May be taken for up to 6 units of independent study credit. Formerly offered as COMM 695E.

COMM 6963. Graduate Project. Units: 3

Semester Prerequisite: advancement to candidacy, approval of prospectus by the student's advisory committee, completion of all other required courses for the MA; or, consent of Graduate Coordinator. Quarter Prerequisite: advancement to candidacy

Preparation of a graduate project under the direction of a faculty member. Formerly offered as COMM 686.

COMM 6973. Thesis. Units: 3

Semester Prerequisite: Advancement to candidacy, COMM 6085 (Thesis or Project Prep), approval of the prospectus by the student's advisory committee, completion of all other required courses for the MA; or, consent of Graduate Coordinator. Quarter Prerequisite: approval of prospectus by the students advisory committee, advancement to candidacy, completion of all other required courses for the MA or Department Consent

Independent graduate research culminating in a written thesis. Formerly offered as COMM 699.

COMM 6980. Comprehensive Examination. Units: 0

Semester Prerequisite: Advancement to candidacy, COMM 6084 (comps preparation), completion of all other required courses for the MA; or, consent of Graduate Coordinator. Quarter Prerequisite: COMM 685, advancement to candidacy, approval of the department, completion of course work in the master's program, and in good academic standing. An assessment of the student's ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of subject matter. Formerly COMM 999.

COMM 6990. Continuous Enrollment for Graduate Candidacy Standing. Units: 0

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

COMM 6991. Continuous Enrollment for Graduate Candidacy Standing. Unit: 1

Quarter Prerequisite: Advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

COMM 6992. Continuous Enrollment for Graduate Candidacy Standing. Units: 2

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

COMM 6993. Continuous Enrollment for Graduate Candidacy Standing. Units: 3

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

COMM 6994. Continuous Enrollment for Graduate Candidacy Standing. Units: 4

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

COMM 6995. Continuous Enrollment for Graduate Candidacy Standing. Units: 5

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Earned units are not degree-applicable nor will they qualify for financial aid.

Counseling-Educational Counseling (COUN)

Courses

COUN 3101. Introduction to the Counseling & Helping Professions. Units: 3

This is an introduction to the Counseling & Social Change minor and a prerequisite for COUN 3103. Students are exposed to themes that cut across counseling and helping professions, including listening skills, the experience and value of compassion and compassionate action, the ethics of caring, and the effects of power relations in the helping profession. Professional pathways will be explored including, degree requirements, nature of the work, types of clientele served, theoretical modalities, work sites, ethical dimensions, and desirable personal characteristics.

COUN 3102. The Social Construction Of Relationships. Units: 3

This course emphasizes how the construction of identity is shaped through experiences that are tied to social, political, cultural and environmental processes that intersect with various forms of institutionalized power, privilege and oppression.

COUN 3103. Introduction To Counseling Skills & Practices. Units: 3

Semester Prerequisite: COUN 3101

Counseling is an interpersonal process with culturally-based ideas and practices that has effects on social interaction, interpersonal communication, and social change. This is an introductory course to counseling and compassionate listening skills with a particular focus on understanding how stories are constructed and shape identities utilizing an active and participatory learning experience. May be taken twice for a total of 6 units. THIS COURSE DOES NOT PROVIDE PROFESSIONAL COUNSELOR PREPARATION STATUS.

COUN 3104. Counseling & Social Change. Units: 3

This course provides a critical analysis of issues and actions needed to advance social justice in counseling practice. It attends to the contemporary social, cultural, and economic issues that often negatively affect the lives of clients. The emphasis is on promoting social change within the counseling context among client groups that have historically been marginalized or oppressed in some fashion.

COUN 5953. Independent study in counseling. Units: 3

Independent study in counseling as needed to fulfill graduation requirements. Individualized course requirements will be specified in each course syllabi to meet necessary standards and evaluative measures.

COUN 6220. Introduction to Counseling. Units: 3

Quarter Prerequisite: approval of admission portfolio

Introduction to basic and intermediate counseling practice, theories, and techniques. In order to ensure that students continue in the program, it is necessary to achieve a B or better in this course.

COUN 6221. Introduction to Research & Evaluation. Units: 3

Introduction to the vocabulary, design, and sources of quantitative, qualitative, and evaluation methodologies. Ethical strategies are examined for the collection of data and how data is reported. Research reports, including the identifying and development of trends, are studied. Students will be expected to critique trends in research and understand how professional practices of power influence such trends. May be taken two times for six units. This course meets the graduate writing requirement.

COUN 6222. Law & Ethics in Counseling. Units: 3

Discussion of ethical and legal constraints and considerations in the delivery of counseling services. May be taken two times for six units.

COUN 6223. Learning Theories. Units: 3

This course focuses on the developmental theories of learning and how this impacts a child's educational experiences. Emphasis on learning theories that covers both general and special education, the impact of individual differences and development of learners, and evaluation of learning and instructional models. This knowledge is geared towards the development of counselors as allies to both children, teachers, and administrators in a school system. Special attention will be paid to positive behavior interventions and the awareness of how classroom management techniques may support or discourage learning. May be taken two times for six units.

COUN 6224. Advanced Counseling. Units: 3

Semester Prerequisite: COUN 6220

Supervised practice in counseling in a classroom setting and with clients. Includes 30 hours of practice. This course requires a B or better for students to remain in good standing in the program and progress to placement courses.

COUN 6225. Systems Consultation. Units: 3

Systems theory as it applies to families, schools, and larger systems of care. Theory and methods of consultation with families regarding students' success. Inclusion of the family system in consultations with teachers and other professionals. May be taken two times for six units.

COUN 6226. Conflict Resolution. Units: 3

Understanding and responding to conflict in relationships, schools, and communities. Includes conflict coaching, mediation, and conferencing practices. May be taken two times for six units.

COUN 6227. Counseling Theories. Units: 3

Theories and practices of counseling; applications to educational and community settings.

COUN 6228. Addictions Counseling. Units: 3

Diagnosis of addictions and counseling of persons affected by addiction to legal and illegal substances.

COUN 6229. Socio-Cultural Counseling. Units: 3

Theory of and practical applications of counseling to serve diverse groups of people in school and community settings. How counseling can contribute to social justice for people from various gender, ethnicities, races, social class, sexual orientations, and religious backgrounds. May be taken two times for six units.

COUN 6230. Human Development in Counseling. Units: 3

This course will cover the history of human development through the lifespan, with particular attention paid to the political and historical forces that influenced ideas and practices. May be taken two times for six units.

COUN 6231. Group Counseling. Units: 3

Theory and practice of group counseling in schools or community and mental health settings. Includes 30 hours of practice. May be taken two times for six units.

COUN 6232. Career Counseling. Units: 3

This course provides an overview of career counseling, career education and application of career counseling and guidance to schools, educationally related agencies and special settings. May be taken two times for six units.

COUN 6233. Practice Based Placement. Units: 3

Semester Prerequisite: COUN 6220, COUN 6222, COUN 6244 Quarter Prerequisite: COUN 6220, 6222, 6224, 6229 & 6231; Certificate of clearance from the CTC, Valid and current TB skin test (within the last three years)

Advanced practice-based placement in either a school/educational setting OR a community or mental health setting under the supervision of certificated and/or licensed personnel. May be taken five times for 15 units.

COUN 6234. Diagnosis. Units: 3

Principles of the diagnostic process. Use of diagnostic tools. The impact of co-occurring substance abuse and medical disorders. Diagnostic interviewing skills. Planning for treatment and documentation.

COUN 6235. Crisis and Trauma Counseling. Units: 3

This course surveys the theoretical foundations and approaches to crisis intervention and the treatment of the effects of trauma. Emphasis is given to understanding the concepts of crises and trauma through a poststructural lens, focusing on incident debriefing techniques and narrative strength inquiries when responding to crisis situations in clients lives.

COUN 6236. Psychopharmacology. Units: 3

Understanding the purposes and effects of the main pharmaceuticals used in mental health settings.

COUN 6237. Appraisal. Units: 3

Individual and group measurement with emphasis on behavior observation skills, test interpretation in counseling, and an introduction to personality, intelligence, vocational, achievement and projective measurements.

COUN 6238. Aging, Death & Grief in Couples & Families. Units: 3

Theories and research about aging and dying, counseling the dying and the bereaved, and how it impacts couples and families. This includes an understanding of working with older adults, relevant pharmacology, elder abuse, APS reporting, caregiving, and the impact on families using a family systems approach. May be taken two times for six units.

COUN 6239. Family Counseling. Units: 3

This course explores family therapy theories, along with core concepts of general systems theory. Both foundational family therapy theories and postmodern approaches are covered with a focus on application to counseling. A critical contextual perspective is privileged throughout. May be taken two times for six units.

COUN 6240. Professional School Counseling. Units: 3

Theory and practical applications of comprehensive school counseling programs at the elementary, middle and high school levels including guidance curriculum development and program management.

COUN 6241. Gender & Sexuality. Units: 3

Human sexuality and gender across the lifespan and counseling interventions addressing gender identity and sexual relationship issues. May be taken two times for six units.

COUN 6265. Family Violence. Units: 3

Child abuse assessment and reporting. Spousal/partner abuse assessment, and intervention strategies. This course replaces ECLG 665.

COUN 6960. Master's Degree Project. Units: 0

Research project related to counseling conducted under the direction of two program faculty members. Formerly ECLG 697.

COUN 6980. Comprehensive Examination. Units: 0

Quarter Prerequisite: advancement to candidacy, approval of department, completion of course work in the masters program, and in good academic standing

An assessment of the students ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter.

Computer Science & Engineering (CSE)

Courses

CSE 1100. Critical Thinking Through Computer Programming. Units: 3

Introduction to computational thinking and computer programming with the easy-to-learn Python programming language. Development of critical thinking and logical reasoning through collaborative problem solving with computer programming. An introductory programming course suitable for liberal arts and sciences students. Two hours lecture and two hours activity laboratory. Materials fee required. Satisfies GE A3/1B, Digital Life pathway.

CSE 1110L. Data Analysis Laboratory Using Spreadsheets. Unit: 1

Introductory laboratory course to data analysis using spreadsheet software. Data Analysis is a fundamental methodology for studying physical and life sciences. Spreadsheets such as Microsoft Excel are widely used for data analysis in living and non-living systems. This course help students understand the core concepts of data analysis, learn to apply data analysis techniques, and become proficient in data analysis in the software environment. Suitable for anyone who seeks a working knowledge of data analysis, and for learners who want to consolidate their skills in spreadsheets. Satisfies GE B3/5C. Materials fee required.

CSE 1120L. Scientific Simulation. Unit: 1

Introductory course using computer simulation to enhance learning and understanding of real-world process operations, scientific principles, and theories. Learning of basic concepts, methods, and procedures of computer simulation to imitate, explore, and understand theories and processes in the physical and life sciences. Satisfies GE B3/5C. Materials fee required.

CSE 1250. Programming Basics. Units: 4

Programming techniques in an event-driven and object-oriented environment. Graphical user interfaces, controls, properties, procedures, and functions. Multiple forms, menus, file access, and applications. Three hours lecture and two hours activity laboratory. Materials fee required. Formerly CSE 125.

CSE 1290. College Learning for Lives and Careers in the Information Age. Units: 3

Reflection on the role of computer technology, digital devices, and smart electronics for living and learning in the information age. Examination of impact of technology on quality of life, appreciation of technological progress, understanding of responsibilities and awareness of drawbacks and dangers to interpersonal relationships. Topics include distance vs. face-to-face learning; communicating and socializing across distance vs. loss of human contact and social isolation; internet and smart technologies as causes for information overload and stress, and declining vs. newly emerging careers due to artificial intelligence. Formerly CSE 129.

CSE 1300. Introduction to Data Science. Units: 3

Introduction to data acquisition, data manipulation, data modeling, data mining, data analysis, data visualization, and data processing. Sampling and applications of basic techniques of data science. Satisfies GE B4/2.

CSE 1300L. Introduction to Data Science Lab. Unit: 1

Semester Corequisite: CSE 1300

Additional instruction and practice for students registered in CSE 1300. Targeted activities and exercises to enhance understanding of concepts from the companion class. Topics include: understanding data as means to describe phenomena, learning about different types of data, data collection through processes of data discovery and data mining, computer-aided exploration of data and data visualization, drawing conclusions from data to make diagnoses and predictions. Placement determined by campus placement standards and consultation with an adviser. Graded Credit/ No credit.

CSE 2000Q2S. Computer Science II Semester Bridge. Units: 2

Semester Prerequisite: CSE 201 with a grade of C or better

This bridge course is a continuation of CSE 201 and will include content from CSE 202. Topics will include analysis of problems and the formulation, documentation and implementation of their solutions; an introduction to data structures with abstract data types; software engineering principles for both individual and group projects. The sequence CSE 201 and CSE 2000Q2S is equivalent to CSE 2010; students may not earn credit for both the sequence CSE 201 - CSE 2000Q2S and the semester course CSE 2010. Students who have completed CSE 202 may not earn credit for CSE 2000Q2S. One and half hours lecture and one hour lab per week for the duration of the semester. Department consent required.

CSE 2010. Computer Science I. Units: 4

Semester Prerequisite: CSE 1250 or Instructor consent. Quarter Prerequisite: satisfactory score on the Entry Level Mathematics examination, and either some prior computer programming experience or CSE 125

Computer software design, implementation, methods, and environments using a current high-level programming language. Survey of computers, applications, and other areas of computer science. Materials fee required. Formerly CSE 201 and CSE 202.

CSE 2020. Computer Science II. Units: 4

Semester Prerequisite: CSE 2010 with a grade of C or better and MATH 2372. Quarter Prerequisite: CSE 201 with a grade of C or better and MATH 272

Abstract data structures, including list, stack, queue, tree, and map, and their implementation, storage allocation, and associated applications; analysis of problems and formulation, documentation, and implementation of their solutions; software engineering principles. Materials fee required. Three hours lecture and two hours activity. Formerly CSE 330.

CSE 2130. Machine Organization. Units: 3

Semester Prerequisite: CSE 2010. Quarter Prerequisite: CSE 202
Number systems and data encoding, von Neumann computer architecture, instruction set architecture, addressing modes, arrays and records, subroutines and interrupts, I/O, assembly programming. Formerly CSE 313.

CSE 3100. Digital Logic. Units: 4

Semester Prerequisite: CSE 2010 and MATH 2372. Quarter Prerequisite: CSE 202 and MATH 272

Diodes and transistors, Boolean algebra and logic simplification, design and analysis of combinational and sequential circuits, memory elements, counters, introduction to hardware description language and FPGA programming. Three hours lecture and three hours laboratory. Materials fee required. Formerly CSE 310.

CSE 3350. Signals and Systems. Units: 3

Semester Prerequisite: MATH 2220 Calculus II and MATH 2310 Linear Algebra. Quarter Prerequisite: MATH 213 and MATH 331

Fundamentals of signal and system analysis; representations of discrete-time and continuous-time signals; linear, time-invariant systems; complex arithmetic and geometries; differential equations; Fourier, Laplace and Z transforms; frequency response. Formerly CSE 335.

CSE 3650. Systems Administration I. Units: 3

Semester Prerequisite: CSE 2010. Quarter Prerequisite: CSE 201
Responsibilities and skills of the systems administrator; managing accounts, file systems, system services, and email; security, reliability, and backups; emergencies; monitoring; automation and scripting; ethics and usability. Formerly CSE 365. Two hours lecture and two hours laboratory. Materials fee required.

CSE 3660. Systems Administration II. Units: 3

Semester Prerequisite: CSE 3650. Quarter Prerequisite: CSE 365
Planning and configuration of networks; network topologies; networking standards and OSI Model; TCP/IP protocol suite; network services; switches and routers; network security. Formerly CSE 366. Two hours lecture and two hours laboratory. Materials fee required.

CSE 3900. Computational Thinking and Block-based / Visual Programming for Educators. Units: 3

Involves solving problems and designing systems, using fundamental computing concepts such as decomposition, data representation, generalization/abstraction, and algorithms. Introduction to at least one block-based, visual (drag-and-drop) programming language. Cannot be counted towards fulfilling requirements in the following programs: BS in Computer Science, BS in Computer Engineering, BS in Bioinformatics, BA in Computer Systems, MS in Computer Science. Departmental consent required.

CSE 3901. Computer Programming for Educators. Units: 3

Semester Prerequisite: CSE 3900

Problem-solving techniques and algorithms. Basic control structures and data types. File I/O and exception handling. Program documentation and testing. Object-oriented concepts including classes, inheritance, and polymorphism. This course will cover a current high-level programming language such as Java and/or Python. Cannot be counted towards fulfilling requirements in the BA in Computer Systems.

CSE 3902. Data Structures and Algorithms for Educators. Units: 3

Semester Prerequisite: CSE 3901

Abstract data structures, including list, stack, queue, tree, and map, and their implementation, storage allocation, and associated applications; analysis of problems and formulation, documentation, and implementation of their solutions. Techniques in algorithm design. Cannot be counted towards fulfilling requirements in the following programs: BS in Computer Science, BS in Computer Engineering, BS in Bioinformatics, BA in Computer Systems, MS in Computer Science.

CSE 3903. Software Development for Educators. Units: 3

Semester Prerequisite: CSE 3901

Covers the process of planning, engineering and implementing a software system to solve a problem. Introduction to database systems. Use of software tools, such as authoring and database tools, for the development of educational software. Cannot be counted towards fulfilling requirements in the following programs: BS in Computer Science, BS in Computer Engineering, BS in Bioinformatics, BA in Computer Systems, MS in Computer Science.

CSE 3904. Information and Communication Technologies and Social Implications. Units: 3

Covers computer and communication devices and the systems they compose, including the concepts and abstractions that enable standalone, networked, and mobile digital devices to operate and communicate. Includes the social, ethical, and legal issues and impacts of computing, as well as the contributions of computer science to current and future innovations in the arts, business, humanities, medicine, and science. Cannot be counted towards fulfilling requirements in the following programs: BS in Computer Science, BS in Computer Engineering, BS in Bioinformatics, BA in Computer Systems, MS in Computer Science. Departmental consent required.

CSE 4010. Contemporary Computer Architecture. Units: 4

Semester Prerequisite: CSE 3100 and CSE 2130. Quarter Corequisite: Q2S conversion. Quarter Prerequisite: CSE 310 and CSE 313 Instruction set architecture; design methodology; performance measurement; computer arithmetic; memory hierarchy; RISC architectures, including pipelining and parallel-processing; distributed system architectures. Three hours lecture and three hours laboratory. Materials fee required. Formerly CSE 401.

CSE 4030. Analog Circuit Design and Analysis. Units: 4

Semester Prerequisite: CSE 3100 and CSE 3350. Quarter Prerequisite: CSE 310, MATH 251, and PHYS 150 Design and analysis of analog circuits: circuit elements, mesh and node analysis, op-amps, circuit analysis in frequency domain and S domain, and transfer function. Three hours lecture and three hours laboratory. Materials fee required. Formerly CSE 403.

CSE 4050. Web Application Development. Units: 3

Semester Prerequisite: CSE 2020. Quarter Prerequisite: CSE 330 Web application protocols (IP, TCP, DNS, TLS, HTTP), Web standards (HTTP, CSS, Javascript), database backends, Web server execution environments, client-side frameworks, developer tools, application security. Formerly CSE 405.

CSE 4100. Computer Networking and Security. Units: 3

Semester Prerequisite: CSE 2020. Quarter Prerequisite: CSE 330 Computer networks, network security, OSI model, TCP/IP, LAN and WAN, network principles and protocols, wireless networks, network management, network and web security.

CSE 4200. Computer Graphics. Units: 3

Semester Prerequisite: CSE 2020 and Math 2310. Quarter Prerequisite: CSE 330 and MATH 331

Survey of computer graphics hardware. Basic principles of creating computer graphics, opengl programming, animation, two-dimensional and three-dimensional transformations, hidden surface removal algorithms, and applications. Formerly CSE 420.

CSE 4310. Algorithm Analysis. Units: 3

Semester Prerequisite: CSE 2020 and MATH 2310. Quarter Prerequisite: CSE 330 and MATH 372

Analysis and design of algorithms, including time and space complexity, design methodologies, and taxonomic classification of problems. Formerly CSE 431.

CSE 4400. Game Design. Units: 3

Semester Prerequisite: CSE 2020. Quarter Prerequisite: CSE 330 Study of game design concepts and game design specification. Principles of user interface layout, game design techniques, game design methodologies, artificial intelligence in gaming, and game design tools. Formerly CSE 440.

CSE 4410. Game Programming. Units: 3

Semester Prerequisite: CSE 2020. Quarter Prerequisite: CSE 330 Techniques and technology used to produce games, game engines and their APIs, art asset creation, level design tools, game project development environments, and version control. Formerly CSE 441.

CSE 4500. Platform Computing. Units: 3

Semester Prerequisite: CSE 2020. Quarter Prerequisite: CSE 330 Mobile, cloud-based, or web-based app design and development. Also includes cross and multi-platform issues, and virtual reality and social network concepts.

CSE 4550. Software Engineering. Units: 3

Semester Prerequisite: CSE 2020. Quarter Prerequisite: CSE 330 Software life-cycle, software processes, practice of software engineering for software design and development, and team collaboration in a culminating software project is required. Formerly CSE 455.

CSE 4560. Embedded Systems. Units: 4

Semester Prerequisite: CSE 3100 and CSE 2130. Quarter Prerequisite: CSE 310 and CSE 313

Theory and practice of software and hardware co-design: microcontrollers and programming, data acquisition, real-time operating systems, and low-power design techniques. Three hours lecture and three hours laboratory. Materials fee required. Formerly CSE 456.

CSE 4600. Operating Systems. Units: 3

Semester Prerequisite: CSE 2020 and CSE 2130. Quarter Prerequisite: CSE 313 and CSE 330

Overview, design, implementation, and security of operating systems. Process management, memory management, file systems, multiprocessor systems, distributed systems. Formerly CSE 460.

CSE 4610. Advanced Operating Systems. Units: 3

Semester Prerequisite: CSE 4600. Quarter Prerequisite: CSE 460
File systems, I/O systems, security distributed systems. Formerly CSE 461.

CSE 4820. Senior Project. Units: 3

Semester Prerequisite: Consent of the school of CSE. Quarter Prerequisite: Consent of the department
Analysis, design and implementation of a software system that solves a problem related to the student's option. Presentation techniques and communication skills to support project planning and execution. Consent of the School of CSE required. Formerly CSE 482.

CSE 4880. Ethics Senior Seminar. Units: 3

Semester Prerequisite: Senior Standing
Seminars on a wide range of computer science topics especially as it pertains to professionalism, ethics, legal issues and the social impact and role of computer technology. Also includes presentations from industry and university personnel, and students regarding projects and research work. Satisfies WI designation.

CSE 5000. Introduction to Formal Languages and Automata Theory. Units: 3

Semester Prerequisite: CSE 2020. Quarter Prerequisite: CSE 431 or consent of instructor
Introduction to formal language theory. Finite state machines, regular grammars, context-free grammars, context-sensitive grammars, push-down automata, Turing machine, closure properties. Formerly CSE 500.

CSE 5010. Introduction to Theory of Computation. Units: 3

Semester Prerequisite: CSE 5000 or consent of instructor. Quarter Prerequisite: CSE 500 or consent of instructor
Theoretical foundations of computer science: deterministic and non-deterministic Turing machines, models of computation; recursive functions, Church's thesis and undecidable problems; complexity classes P, NP, CO-NP and PSPACE. May not be taken for graduate credit. Formerly CSE 501.

CSE 5100. Advanced Computer Architecture. Units: 3

Semester Prerequisite: CSE 4010. Quarter Prerequisite: CSE 401
High performance computer architectures and algorithms including pipeline, vector, array, multiprocessor computer designs, applications, and programming. Also covered are data flow and systolic machines, interconnection networks, and graph and parallel graph algorithms. May not be taken for graduate credit. Formerly CSE 510.

CSE 5120. Introduction to Artificial Intelligence. Units: 3

Semester Prerequisite: CSE 2020. Quarter Prerequisite: CSE 330
Foundations of artificial intelligence, current techniques and methods, problems, limitations and future prospects of machine intelligence. Formerly CSE 512.

CSE 5140. Computational Intelligence. Units: 3

Semester Prerequisite: Math 2210 and CSE 2020. Quarter Prerequisite: MATH 211 AND CSE 330

Recent developments in computational intelligence, a discipline which encompasses ideas from neural networks, fuzzy logic, evolutionary computation and in general from soft-computing areas. Solving real-world problems that are difficult to solve using traditional techniques. Includes optimization, pattern recognition, deep learning, decision making and prediction. Formerly CSE 514.

CSE 5150. Automated Reasoning. Units: 3

Semester Prerequisite: CSE 4310. Quarter Prerequisite: CSE 431
Study of logical deduction algorithms and their limitations, propositional and predicate calculus, completeness and incompleteness theorems, Herbrand-Gödel computability, the resolution principle, equality and inequality relations. Automation of theorem proving techniques. Formerly CSE 515. Similar to PHIL #400 or PHIL 400. Students may not receive credit for this course and any of the above courses.

CSE 5160. Machine Learning. Units: 3

Semester Prerequisite: CSE 2020 and Math 2265. Quarter Prerequisite: CSE 330
Theory and practice of machine learning: reinforced learning, supervised learning such as SVMs, data clustering, learning in multi-agent systems, applications in computer vision, and knowledge discovery in big data. Formerly CSE 516.

CSE 5200. Advanced Computer Graphics. Units: 3

Semester Prerequisite: CSE 4200. Quarter Prerequisite: CSE 420
Advanced computer graphics concepts, theory and implementation techniques. Shading models and languages, parametric curves and surfaces, hidden edge and surface removal, and anti-aliasing. Formerly CSE 520.

CSE 5208. Introduction to Computer Engineering Design. Units: 4

Introduction to the principles of engineering design. Requirements analysis, system specifications, project management and tools, human-computer interface, accessibility and inclusivity of products, engineering ethics, technical writing. Three hours lecture and three hours laboratory. Materials fee required. Satisfies WI designation. Department consent required.

CSE 5210. Digital System Design. Units: 4

Semester Prerequisite: CSE 4010. Quarter Prerequisite: CSE 401
Digital system design with FPGA, control and datapath, architecture and synthesis, design constraints, I/O peripherals. Three hours lecture and three hours laboratory. Materials fee required. Formerly CSE 521.

CSE 5250. Parallel Algorithms and Programming. Units: 3

Semester Prerequisite: CSE 4010. Quarter Prerequisite: CSE 401
Topics include algorithm design, analysis, and programming of high performance computers. Also covered are control-parallel versus data-parallel approaches, and selected parallel programming languages. Formerly CSE 525.

CSE 5300. Data Communications. Units: 3

Semester Prerequisite: CSE 2020 and CSE 3350. Quarter Prerequisite: CSE 313 or 598, and CSE 330

Principles of analog and digital communications. Signal modulation principles and schemes, digitization and synchronization, channel coding, communication protocols and conventions, base-band signal representation and transmission. Formerly CSE 530.

CSE 5350. Numerical Computation. Units: 3

Semester Prerequisite: CSE 2020 and MATH 2310. Quarter Prerequisite: MATH 331

Introduction to scientific computing. Algorithms related to approximations, zero findings, least squares, eigenvalue problems, numerical differentiation and integration, data fitting and interpolation, optimizations, nonlinear equations. Formerly CSE 535.

CSE 5408. Sustainable Engineering Design. Units: 4

Semester Prerequisite: CSE 5208. Quarter Prerequisite: CSE 308

Guided engineering design project on an ongoing real-world problem. System architectural design and evaluation; concurrent hardware and software design; system integration, testing and validation; maintainability; sustainability; safety and fault tolerance; project documentation. # Three hours lecture and three hours laboratory. Materials fee required. Formerly CSE 408.

CSE 5410. Robotics and Control. Units: 4

Semester Prerequisite: CSE 3100 and Math 2310. Quarter Prerequisite: CSE 310 and CSE 313

Theory and practice of forward and reverse kinematics, PID control, robotic construction and programming. Three hours lecture and three hours laboratory. Materials fee required. Formerly CSE 541.

CSE 5500. Advanced Bioinformatics I: Sequence Analysis. Units: 3

Semester Prerequisite: Senior standing or consent of instructor. Quarter Prerequisite: CSE 431 and senior standing or consent of instructor

The course covers how application of computational techniques can help in solving real life problems, related to biology and biochemistry including the efficient use multiple genomics and bioinformatics tools for the analysis of DNA, RNA, and protein sequences. Formerly CSE 550.

CSE 5510. Advanced Bioinformatics II: Numerical Modeling. Units: 3

Semester Prerequisite: CSE 5350. Quarter Prerequisite: CSE 535

Numerical techniques for the modeling and simulation of biological and chemical systems using ordinary and partial differential equations, and stochastic variables. Formerly CSE 551.

CSE 5700. Compilers. Units: 3

Semester Prerequisite: CSE 2020 and CSE 2130. Quarter Prerequisite: CSE 313 and CSE 330

Interpreter and compiler structures. Topics include symbol tables, lexical and syntactic analyzers, and object code generation. Formerly CSE 570.

CSE 5720. Database Systems. Units: 3

Semester Prerequisite: CSE 2020. Quarter Prerequisite: CSE 330

Basic concepts of database design and theory, including underlying storage structures and alternative approaches to database models (relational, object-relational, network and hierarchical). Hands-on applications with one or more commercial database management systems. Formerly CSE 572.

CSE 5750. Internship in Computer Science and Engineering. Units: 3

Semester Prerequisite: A minimum overall grade point average of 3, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the semester in which the course is to be taken. Quarter Prerequisite: A minimum overall grade point average of 3, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken

Supervised work and study in private or public organizations. Graded credit/no credit. Formerly CSE 575.

CSE 5800. Advanced Database Systems. Units: 3

Semester Prerequisite: CSE 5720. Quarter Prerequisite: CSE 572

Advanced study of components of general database systems and other topics such as implementation methods, query language design, reliability, integrity, performance measures, distributed database systems and database machines. Formerly CSE 580.

CSE 5940. Topics in Computer Science and Engineering. Units: 3

Semester Prerequisite: CSE 2020 or consent of instructor. Quarter Prerequisite: CSE 330 or consent of instructor

An in-depth consideration of selected areas of computer science and engineering. May be repeated for credit as topics change, credit may not be received twice for the same topic. Formerly CSE 594.

CSE 5951. Independent Study. Unit: 1

Semester Prerequisite: A minimum overall grade point average of 3, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the semester in which the course is to be taken. Quarter Prerequisite: A minimum overall grade point average of 3

Laboratory and/or library research conducted under the direction of a faculty member. May be repeated three times. A total of three units of Independent Study may be applied toward the computer science, computer systems, computer engineering, and bioinformatics majors. Consent of the school required. Formerly CSE 595A.

CSE 5952. Independent Study. Units: 2

Semester Prerequisite: A minimum overall grade point average of 3, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the semester in which the course is to be taken. Quarter Prerequisite: A minimum overall grade point average of 3

Laboratory and/or library research conducted under the direction of a faculty member. A total of three units of Independent Study may be applied toward the computer science, computer systems, computer engineering, and bioinformatics majors. Formerly CSE 595B.

CSE 5953. Independent Study. Units: 3

Semester Prerequisite: A minimum overall grade point average of 3, consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the semester in which the course is to be taken. Quarter Prerequisite: a minimum overall grade point average of 3

Laboratory and/or library research conducted under the direction of a faculty member. A total of three units of Independent Study may be applied toward the computer science, computer systems, computer engineering, and bioinformatics majors. Formerly CSE 595C.

CSE 6010. Foundations of Data Science.

Units: 3

Semester Prerequisite: Graduate standing

Introduction to fundamental concepts in probability, statistics, and linear algebra from the data science perspective. Topics include primary tools used for data science in Python, descriptive and inferential statistics, data representation, data cleaning and preprocessing, and feature selection methodologies.

CSE 6020. Computation and Complexity Theory. Units: 3

Semester Prerequisite: Graduate standing in computer science or consent of instructor. Quarter Prerequisite: CSE 500 or consent of instructor

Theoretical foundations of computer science: deterministic and non-deterministic Turing machines, models of computation; recursive functions, Church's thesis and undecidable problems; complexity classes P, NP, CO-NP and PSPACE. May not be taken for credit by students who have received credit for CSE 5010 or CSE 501. Formerly CSE 602.

CSE 6030. Advanced Computation and Complexity Theory. Units: 3

Semester Prerequisite: CSE 6020 or consent of instructor. Quarter Prerequisite: CSE 602 or consent of instructor

Advanced topics in theoretical foundations of computer science: Church's thesis and undecidable problems; time and space complexity classes and relation to time randomized computation, interactive proofs; circuit computational model and circuit complexity; cryptography and quantum complexity. Formerly CSE 603.

CSE 6100. Modern Computer Architecture. Units: 3

Semester Prerequisite: Graduate standing in computer science or consent of instructor. Quarter Prerequisite: CSE 401 or consent of instructor

Study of the elements and construction of advanced computer systems, including parallel systems, vector processors, network scheduling, pipelining, array processors, and systolic arrays. May not be taken for credit by students who have received credit for CSE 5100 or CSE 510. Formerly CSE 610.

CSE 6110. VLSI Circuit Design. Units: 3

Semester Prerequisite: graduate standing in computer science or consent of instructor. Quarter Prerequisite: graduate standing in computer science or consent of instructor

Fundamental design techniques for Very Large Scale Integrated (VLSI) circuits; physics of semi-conductor devices; design rules and circuit layouts; use of computer-aided design tools for design, layout and testing. Formerly CSE 611.

CSE 6200. Programming Languages Theory. Units: 3

Semester Prerequisite: Graduate standing in Computer Science or consent of instructor. Quarter Prerequisite: graduate standing in computer science or consent of instructor

Theory of programming languages, including implementation details, the required machine and data structures needed for user interfaces, coded parallelism, distributed processing facilities, functional and object oriented programming languages. Formerly CSE 620.

CSE 6210. Contemporary Computer Graphics.

Units: 3

Semester Prerequisite: Graduate standing in computer science or consent of instructor, and basic knowledge of computer graphics. Quarter

Prerequisite: Graduate standing in computer science or consent of instructor, and basic knowledge of computer graphics

Theory and practice of modern computer graphics techniques. Topics include 3-D modeling, interaction, ray tracing, object representation, visualization, and animation techniques. Formerly CSE 621.

CSE 6220. Data Visualization. Units: 3

Semester Prerequisite: CSE 6010

Data visualization techniques to effectively communicate insights from complex datasets. Hands-on experience with a range of data visualization tools.

CSE 6240. Distributed Computer Systems. Units: 3

Semester Prerequisite: graduate standing in computer science or consent of instructor. Quarter Prerequisite: graduate standing in computer science or consent of instructor

Message passing; implementation of shared data over messaging; distributed control; access methods; reliability; heterogeneity; resilience; applications in operating systems, synchronization, and deadlock. Formerly CSE 624.

CSE 6250. Multiprocessor and Parallel Processing. Units: 3

Semester Prerequisite: Graduate standing in Computer Science or consent of instructor. Quarter Prerequisite: graduate standing in computer science or consent of instructor

Tightly and loosely coupled multiprocessors; interconnection network; parallel programming languages; scheduling; problem decomposition; performance; synchronization; communication; multiprocessor programming. May not be taken for credit by students who have received credit for CSE 525 or CSE 5250. Formerly CSE 625.

CSE 6300. Theory of Algorithms and Their Analysis. Units: 3

Semester Prerequisite: Graduate standing in computer science or consent of instructor. Quarter Prerequisite: CSE 431 or consent of instructor

Algorithmic techniques, construction, time and space complexities, properties of taxonomic classes; survey of processing algorithms for graphs, trees, sets, and sequences; algebraic, numeric and geometric analysis techniques; dynamic programming, randomized algorithms, parallel algorithms; NP. Formerly CSE 630.

CSE 6310. Advanced Data Communications. Units: 3

Semester Prerequisite: CSE 5300 or CSE 4100 or consent of instructor. Quarter Prerequisite: CSE 530 or consent of instructor

High bandwidth networks, formal models of network performance, traffic and congestion control, formal routing theory, quality of service, and internet protocol suite adaptations to high bandwidth networks. Formerly CSE 631.

CSE 6320. Big Data Management. Units: 3

Semester Prerequisite: CSE 6010

Architecture and design of big data management systems. Covers state-of-the-art big data management tools, specifically those in the Hadoop framework. Hands-on experience with popular programming models for big data including MapReduce and Spark.

CSE 6330. Data Mining. Units: 3

Semester Prerequisite: CSE 6010

Introduction to data mining principles for discovering patterns in large datasets. Methods for the knowledge discovery process including association rule mining, sequential pattern mining, cluster analysis, anomaly detection, and classification methods.

CSE 6340. Neural Networks. Units: 3

Semester Prerequisite: Graduate standing in computer science or consent of instructor. Quarter Prerequisite: Graduate standing in computer science or consent of instructor

Theory and applications of neural networks; current developments; perceptrons, recurrent networks, self-organizing maps, multi-layer networks, deep learning, content-addressable memories. Formerly CSE 634.

CSE 6350. Numerical Algorithms and Simulation. Units: 3

Semester Prerequisite: CSE 5350 or consent of instructor. Quarter Prerequisite: CSE 535 or consent of instructor

Scientific computing and simulation. Systems of linear equations, linear least squares, backward error analysis and numerical stability, stiff equations, simulation, sparse matrices. Formerly CSE 635.

CSE 6400. Artificial Intelligence. Units: 3

Quarter Prerequisite: Graduate standing in computer science or consent of instructor

Knowledge representations, heuristics, theory of problem solving; adaptive systems; natural language understanding; automatic theorem proving; machine learning and robotics systems. Formerly 640.

CSE 6550. Software Engineering Concepts. Units: 3

Semester Prerequisite: Graduate standing in computer science or consent of instructor. Quarter Prerequisite: CSE 455, 555, or 556 or consent of instructor

Analysis of software requirements definitions, software systems design, implementation issues, verification and validation, and software maintenance techniques; rapid prototyping procedures; operational and transformational paradigms of software development; software engineering models and applications in object-oriented programming languages. Formerly CSE 655.

CSE 6560. Formal Methods, Models and Languages. Units: 3

Semester Prerequisite: Consent of instructor. Quarter Prerequisite: Consent of instructor

Applications of logic and mathematics in documenting problems, requirements, specifications, designs, and software. Formal modeling languages. Diagrammatic, algebraic, and tabular models. Model checking. Students prepare, check, and present models using techniques in the literature for a research paper. Formerly CSE 656.

CSE 6600. Operating Systems Concepts and Theory. Units: 3

Semester Prerequisite: Graduate standing in computer science or consent of instructor. Quarter Prerequisite: CSE 460 or consent of instructor

Operating system concepts and scheduling practices, including security, real time, multiprocessing, resource sharing, distributed file systems and peripherals access scheduling; distributed processing environments and parallel processing facilities. Formerly CSE 660.

CSE 6700. Compiler Design Theory. Units: 3

Semester Prerequisite: graduate standing in computer science or consent of instructor. Quarter Prerequisite: graduate standing in computer science or consent of instructor

Compiler design for block structures, general purpose programming languages; automatic generation of lexical analyzers and parsers; error detection and correction; code optimization. Formerly CSE 670.

CSE 6710. Advanced Compilers. Units: 3

Semester Prerequisite: graduate standing in computer science or consent of instructor. Quarter Prerequisite: graduate standing in computer science or consent of instructor

Intermediate code generation, optimization, object code generation and architecture and optimized compiler co-design. An introductory course in compilers is recommended. Formerly CSE 671.

CSE 6800. Distributed Database Management Systems. Units: 3

Semester Prerequisite: graduate standing in computer science or consent of instructor. Quarter Prerequisite: graduate standing in computer science or consent of instructor

Distributed database issues including methods of data distribution, types of remote database access, concurrency management, extensions to Structured Query Language (SQL) for remote databases, cooperative processing, database machines and intelligent databases. May not be taken for credit by students who have received credit for CSE 5800. Formerly CSE 680.

CSE 6880. Data Science Capstone Project. Units: 4

Semester Prerequisite: Advancement to candidacy in the MS in Applied Data Science program

Culmination of the MS in Applied Data Science program. Work on real-world projects that emphasize preparation for professional practice. Demonstration of proficiency in presenting and documenting work and preparing a formal data science project report. Requires departmental approval of a written project proposal submitted in advance of the semester in which the course is to be taken. May not be taken for credit in the MS in Computer Science program. Offered as CSE 6880 and MATH 6880. Students cannot receive credit for both.

CSE 6890. Graduate Seminar. Unit: 1

Semester Prerequisite: CSE 6020, CSE 6100, CSE 6300, CSE 6550, CSE 6600. Prerequisite: CSE 602, CSE 610, CSE 630, CSE 655, CSE 660

Presentations of current research areas and review of topics from the five required courses of the M.S. in Computer Science program. Graded credit/no credit.

CSE 6940. Graduate Research Methods in Computer Science. Units: 3

Semester Prerequisite: Classified standing in the MS program

Directed individual study of modern methods and techniques of conducting research in computer science, including performing literature review, under the supervision of the student's advisor. Graded credit/no credit. Consent of School required.

CSE 6950. Graduate Independent Study.**Units: 3**

Semester Prerequisite: graduate standing in computer science and approval of a written proposal of the research by the department graduate program coordinator. Quarter Prerequisite: graduate standing in computer science, consent of instructor, and approval of a written proposal of the research by the department graduate program coordinator
Independent graduate research in computer science. Consent of the School of CSE required. Formerly 695.

CSE 6962. Masters Project. Units: 2

Semester Prerequisite: advancement to candidacy. Quarter Prerequisite: advancement to candidacy and consent of department major advisor
Independent graduate project conducted under the guidance of a major advisor; a total of four units of Masters Project must be taken in contiguous semesters. Consent of the School of CSE required. Formerly CSE 690.

CSE 6964. Masters Project. Units: 4

Semester Prerequisite: advancement to candidacy. Quarter Prerequisite: advancement to candidacy and consent of department major advisor
Independent graduate project conducted under the guidance of a major advisor; four units of Masters Project may be counted to the MS in Computer Science. Formerly CSE 690. Consent of the School of CSE.

CSE 6972. Thesis. Units: 2

Semester Prerequisite: advancement to candidacy and consent of department major advisor. Quarter Prerequisite: advancement to candidacy and consent of department major advisor
Independent graduate research conducted under the guidance of a major advisor; a total of six units of Thesis may be applied to the MS in Computer Science and may be taken in one semester or in consecutive semesters. Consent of the School of CSE required. Formerly CSE 699B.

CSE 6973. Thesis. Units: 3

Semester Prerequisite: advancement to candidacy and consent of department major advisor. Quarter Prerequisite: advancement to candidacy and consent of department major advisor
Independent graduate research conducted under the guidance of a major advisor; a total of six units of Thesis may be applied to the MS in Computer Science and may be taken in one semester or in consecutive semesters. Consent of the School of CSE required. Formerly CSE 699C.

CSE 6974. Thesis. Units: 4

Semester Prerequisite: advancement to candidacy and consent of department major advisor. Quarter Prerequisite: advancement to candidacy and consent of department major advisor
Independent graduate research conducted under the guidance of a major advisor; a total of six units of Thesis may be applied to the MS in Computer Science and may be taken in one semester or in consecutive semesters. Consent of the School of CSE required. Formerly CSE 699D.

CSE 6976. Thesis. Units: 6

Semester Prerequisite: advancement to candidacy and consent of department major advisor. Quarter Prerequisite: advancement to candidacy and consent of department major advisor
Independent graduate research conducted under the guidance of a major advisor; a total of six units of Thesis may be applied to the MS in Computer Science and must be taken in or one semester or in consecutive semesters. Consent of the School of CSE required. Formerly CSE 699.

CSE 6980. Comprehensive Examination.**Units: 0**

Semester Prerequisite: CSE 6020, CSE 6100, CSE 6300, CSE 6550, CSE 6600 and consent of graduate coordinator. Quarter Prerequisite: CSE 602, CSE 610, CSE 630, CSE 655, CSE 660 and consent of graduate coordinator
Comprehensive examination. Topics include the material covered in the core courses: formal language and automata theory, computer architecture, algorithms, software engineering, and operating systems. May be repeated only once. Graded credit/no credit. Department consent required. Formerly CSE 689.

CSE 6990. Continuous Enrollment for Graduate Candidacy Standing. Units: 0

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

CSE 6991. Continuous Enrollment for Graduate Candidacy Standing. Unit: 1

Quarter Prerequisite: Advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

CSE 6992. Continuous Enrollment for Graduate Candidacy Standing. Units: 2

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

CSE 6993. Continuous Enrollment for Graduate Candidacy Standing. Units: 3

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

CSE 6994. Continuous Enrollment for Graduate Candidacy Standing. Units: 4

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

CSE 6995. Continuous Enrollment for Graduate Candidacy Standing. Units: 5

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

CSE 6996. Continuous Enrollment for Graduate Candidacy Standing. Units: 6

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

Design (DES)

Courses

DES 1100. Digital Applications Basics. Units: 3

Fundamental use and introduction to the features and functions within current design software applications. Course taught from the perspective of using the application (software) to produce communication design including image-based communication solutions. Two hours of lecture/discussion and three hours of design studio activity per week. Materials fee required.

DES 1103. Social History of Design. Units: 3

An introduction to the social history of design movements. A critical survey of influential design forms, tendencies, and aesthetics from antiquity to the present from a broad range of cultures across the globe. This course will traverse and explore the development, influence, intertwining, and persistence of a range of important and noteworthy design styles, types, and systems to explore how they developed from their social context and the lasting effects they have had on societies around the world.

DES 1104. Design Theory in Context. Units: 3

An exploration of how design theories impact the practice of designers and how design practices develop theory. Students will study several influential design theories to understand their impact on the work of designers, deepening understanding of the social and political impact of key designers, design movements, and styles. These theories will be used as case studies to critically examine the work of notable designers in a range of design areas.

DES 1110. Fundamental Design Principles. Units: 3

Critical examination and theories on how to work with compositional space and interrelated basic principles, attributes, and elements of design. Students will learn the relationships between form and space, color fundamentals, image studies, and visual logic as it relates to design disciplines. Two hours of lecture/discussion and three hours of design studio activity per week. Materials fee required.

DES 1125. Design Thinking - Problem Solving & Critical Thinking in Visual Studies. Units: 3

Semester Prerequisite: DES 1100, DES 1110

Semester Corequisite: DES 1305

Introduction to basic design and production techniques to transform initial concepts and ideas into various formats for concept presentation and user-experience testing. Principles of rapid prototyping, ideation processes, and materials determination will be discussed. Multiple approaches including 2D, 3D, motion, and video will be explored in an innovation lab environment and using the Design Thinking methodology. Two hours of discussion and two hours of activity. Materials fee required.

DES 2005. Typography and Layout. Units: 3

Introduction to the study of letterforms and fundamental typographic principles including an intensive practicum on the application of a typographic form to compositional strategies including grid formation and layout structures and an overview of the vocabulary of typography, type as image, and typography's relationship to message making and meaning. Emphasis on understanding current and historical typographic trends including the importance of technology in their development. Two hours of discussion and two hours of activity. Materials fee required.

DES 2405. Application Programming for Designers. Units: 3

Semester Prerequisite: DES 1100, DES 1110, DES 1125, DES 2600

Semester Corequisite: DES 2005

Introduction to mobile app development. Script programming, application development, syntax, object-oriented principles, memory management, and functional concepts and will use storyboards and wireframes to design a user interface for apps with multiple views. Two hours of discussion and two hours of activity. Materials fee required.

DES 2600. Digital 3D and Time-Based Media. Units: 3

Semester Prerequisite: DES 1100, DES 1110, DES 1125

Integration of digital 3D, immersive-video, 2D or 3D animation, virtual reality, and/or motion graphics for communication. Applied research, project planning, scripting, storyboarding, and storytelling techniques to create contemporary projects for the field. Appropriate and current industry-standard applications will be applied. Two hours of discussion and two hours of activity. Materials fee required.

DES 3001. Innovator's ToolBox - An Introduction to Creative Problem Solving and Design Thinking. Units: 3

Semester Prerequisite: Junior or senior standing

An introduction to problem-solving tools derived from the creative disciplines of design. The course's primary aim is to demonstrate to students that design and its methods of research, conceptualization, ideation, prototyping, production, and communication can be applied usefully to affect productive change in any circumstance. Satisfies GE C4/UD-3, G designation. Three hours of lecture/discussion per week.

DES 3020. Branding and Brand Identity Design. Units: 3

Semester Prerequisite: DES 1100, DES 1110, DES 1125, DES 2600, DES 2005, DES 2405; enrollment preference to students in the BFA in Design or BS in Design

Application of design and aesthetic principles to the process of branding and brand identity design. The course will include the study of the brand mark and logo design, including historical trademark design, the study of symbols, and the relationship of design to the brands they serve. Students will conduct research, plan strategies, and apply brand identity elements to multiple touch points in physical and digital form. Two hours of discussion and two hours of activity. Materials fee required.

DES 3100. Junior Portfolio Review. Units: 0

Semester Prerequisite: DES 1100, DES 1110, DES 1125, DES 2600, DES 2005, DES 2405

Semester Corequisite: DES 3500

Review of design work to assess each student's design potential, abilities, and technical progress. Graded Credit/No credit. Materials fee required.

DES 3130. Junior Design Topics. Units: 3

Semester Prerequisite: DES 1100, DES 1110, DES 1125, DES 2600, DES 2005, DES 2405

Advanced exploration and application of contemporary topics in design. May be taken three times for up to nine units as topics change. Two hours of discussion and three hours of activity. Materials fee required.

DES 3205. Web and Application Design. Units: 3

Semester Prerequisite: DES 1100, DES 1110, DES 1125, DES 2600, DES 2005, DES 2405; enrollment preference to students in the BFA in Design or BS in Design

Integration of research, analysis, and technical skills to design effective, compelling digital experiences across different mobile platforms, the web, and the Internet of Things. Appropriate and current industry-standard applications will be applied. Two hours of discussion and two hours of activity. Materials fee required.

DES 3300. Digital Illustration. Units: 3

Semester Prerequisite: DES 1125

This course teaches students how to translate design principles and illustrated imagery into a digital display format. Students will convert photo references and their own hand-drawn illustrations into stylized vector graphics. Through guided software demonstrations, pre-recorded tutorials, critiques, and image analyses, students will explore how branding OR narrative in their illustrations can enhance their portfolio. Students will be able to take their designs from ideation to conceptualization. The course will anticipate and reflect real world illustration projects. Students will initiate project proposals and be able to make variations to their work to satisfy different applications of their illustrations. Students will learn a variety of illustrative styles and techniques and become confident utilizing industry-standard illustration-based softwares. Two hours lecture and three hours lab per week.

DES 3500. Business of Creativity. Units: 3

Semester Prerequisite: DES 1100, DES 1110, DES 1125, DES 2600, DES 2005, DES 2405, enrollment preference to students in the BFA in Design or BS in Design

Semester Corequisite: DES 3130, DES 3100

This course introduces the best practices and professional standards required to be successful in creative careers or in building a creative arts-related business. Topics include business processes and structures, intellectual property, ethical and legal issues, and the importance of fostering an entrepreneurial mindset as an overarching business philosophy. Two hours of discussion and two hours of activity. Materials fee required.

DES 3600. Digital Motion Graphics. Units: 3

Semester Prerequisite: DES 1100, DES 1110, DES 1125, DES 2600, DES 2005, DES 2405, enrollment preference to students in the BFA in Design or BS in Design

Introduction to motion graphic design and composition, timing, storytelling, storyboarding and planning. Students design video effects and animated sequences, layer and composite video, add video effects to footage, and design motion graphics such as title sequences, lower thirds, and text animations. Appropriate and current industry-standard applications will be introduced and applied. Two hours of discussion and two hours of activity. Materials fee required.

DES 3615. Video Editing. Units: 3

Semester Prerequisite: DES 1100, DES 1110, DES 1125, DES 2600, DES 2005, DES 2405, enrollment preference to students in the BFA in Design or BS in Design

Introduction to video post-production. Exploration of the theory and practice of various editing styles in order to gain a better understanding of how stories are constructed and how communication is achieved through editing. Through demonstrations and hands-on experience, students learn advanced editing techniques with appropriate and current industry-standard applications. Two hours of discussion and two hours of activity. Materials fee required.

DES 3700. Infographic and Data Visualization Design. Units: 3

Semester Prerequisite: DES 1100, DES 1110, DES 1125, DES 2600, DES 2005, DES 2405, enrollment preference to students in the BFA in Design or BS in Design

Exploration of data interpretation and data visualization and the differences between them. Students learn how to acquire data and structure it into graphic visualization formats using digital tools to create 2D, 3D, and 4D solutions for electronic, print, mobile and/or interactive purposes. Two hours of discussion and two hours of activity. Materials fee required.

DES 3715. User Interface and User Experience Design. Units: 3

Semester Prerequisite: DES 1100, DES 1110, DES 1125, DES 2600, DES 2005, DES 2405, DES 3500, enrollment preference to students in the BFA in Design or BS in Design

Semester Corequisite: DES 3130

Exploration of the principles and practices of user experience and user interface design concepts and processes utilizing user-research, personas, heuristic evaluation, information architecture, and usability assessment. Students will learn to model and test navigation design and information architecture for the purpose of optimal human-computer interaction. Two hours of discussion and two hours of activity. Materials fee required.

DES 3800. Advanced Modeling. Units: 3

Semester Prerequisite: DES 1100, DES 1110, DES 1125, DES 2600, DES 2005, DES 2405, enrollment preference to students in the BFA in Design or BS in Design

An advanced exploration into the production, compositing, dynamics, scripting, and other advanced 3D automation procedures. Students will create models from scratch and models generated from scanning and photogrammetric sources. Two hours of discussion and two hours of activity. Materials fee required.

DES 3835. Character Design. Units: 3

Semester Prerequisite: DES 1100, DES 1110, DES 1125, DES 2600, DES 2005, DES 2405, enrollment preference to students in the BFA in Design or BS in Design

Application of advanced 3D design principles to character design, props, and environments targeting specific parameters, needs, and audiences. Emphasis on development of technical and practical skills while applying traditional principles of animation; creating the illusion of thought, emotion, and personality; movement theory; and animation timing. Two hours of discussion and two hours of activity. Materials fee required.

DES 4015. Advertising and Promotion Design. Units: 3

Semester Prerequisite: DES 1100, DES 1110, DES 1125, DES 2600, DES 2005, DES 2405, enrollment preference to students in the BFA in Design or BS in Design

Exploration of the history, theory, and processes involved in developing design solutions that relate to promotion and advertising. Students will engage in the design process that explores theories, strategies, and methodologies in promotion design such as the creation of marketing communication collateral, dimensional design projects, or the creation of digital design solutions. Emphasis on subject matter and processes involved in product creation that specifically address the needs of a creative brief, an intended audience, and a defined and intentional response. Two hours of discussion and two hours of activity. Materials fee required.

DES 4100. Design Center - Collaborative Project-Based Learning. Units: 3

Semester Prerequisite: DES 1100, DES 1110, DES 1125, DES 2600, DES 2005, DES 2405, DES 3500, DES 3130, DES 3715, DES 3100, enrollment preference to students in the BFA in Design or BS in Design
Semester Corequisite: DES 4130

Team-based engagement with real-world problem identification, analysis, and responsive design projects. Two hours of discussion and two hours of activity. Materials fee required.

DES 4130. Senior Design Topics. Units: 3

Semester Prerequisite: DES 2600

Advanced exploration and application of contemporary topics in design. May be taken three times for up to nine units. Individual topics cannot be repeated. Two hours of discussion and three hours of activity. Materials fee required.

DES 4195. Design Portfolio. Units: 3

Semester Prerequisite: DES 4100

Semester Corequisite: DES 4130

Design capstone course to prepare students for post-graduation. Survey of current state of the design industry and materials preparations to prepare students for post-graduation goals. Topics include portfolio preparation, resumes, professional promotion, and/or websites. Materials fee required. Satisfies WI designation.

DES 4610. Virtual Reality. Units: 3

Semester Prerequisite: DES 1100, DES 1110, DES 1125, DES 2600, DES 2005, DES 2405, enrollment preference to students in the BFA in Design or BS in Design

Fundamentals of Virtual Reality hardware, tools, knowledge, and skills required to create live-action, immersive experiences including terminology, theory, conceptualization, and production through post-production and distribution. Provides laboratory experiences where students develop immersive, interactive, and animated 3D computer applications using authoring tools for creating unique applications in the arts, engineering, humanities, medicine, science, or any other area. Two hours of discussion and two hours of activity. Materials fee required.

DES 4625. Storyboarding. Units: 3

Semester Prerequisite: DES 1100, DES 1110, DES 1125, DES 2600, DES 2005, DES 2405

Research, concept development, planning, and prototyping for design projects across applications, media, and platforms. Two hours of discussion and two hours of activity. Materials fee required.

DES 4800. Computer-Aided Design (CAD). Units: 3

Semester Prerequisite: DES 1100, DES 1110, DES 1125, DES 2600, DES 2005, DES 2405, enrollment preference to students in the BFA in Design or BS in Design

Introduction to design techniques and capabilities of solid modeling using mechanical design software. A broad introduction to 2D and 3D Computer-Aided Design (CAD) and modeling with a focus on object and product applications, major CAD commands and user interface, part drawings, assembly modeling, basic motion, and stress analysis. Projects include part modeling using sketches, constraints, and dimensions. Two hours of discussion and two hours of activity. Materials fee required.

DES 4825. 3D Animation. Units: 3

Semester Prerequisite: DES 1100, DES 1110, DES 1125, DES 2600, DES 2005, DES 2405, enrollment preference to students in the BFA in Design or BS in Design

Introduction to theories, techniques, concepts, and professional practices of 3D computer animation from initial concept to final production. Application of traditional principles of animation to the 3D digital environment. Topics include rigging, motion capture, modeling, simulation, character/object animation, texturing, and rendering. Two hours of discussion and two hours of activity. Materials fee required.

DES 5100. Design Capstone Thesis: Research. Units: 6

Semester Prerequisite: DES 3130, DES 3500 and DES 3715

Research for the culminating project demonstrating professional competence in area of concentration. Requires presentation and defense of the student's proposed project. Course focuses on research concerning current issues in design fields. Students will develop an individual design approach, process, and methodology for the application of design solutions for the thesis project. Materials fee required. Satisfies WI designation.

DES 5115. Design Capstone Thesis: Project. Units: 6

Semester Prerequisite: DES 5100 or department consent

Culminating project demonstrating professional competence in area of concentration. Requires presentation and defense of the student's project. Students will complete a culminating project concerning current issues in design fields. Satisfies WI designation. Materials fee required.

DES 5590. Design Internship. Units: 3

Semester Prerequisite: DES 1100, DES 1110

Supervised work that provides professional design experience. May be completed five times for a total of 15 units. Materials fee required.

Educational Administration (EADM)

Courses

EADM 6601. Educational Leadership and Ethics. Units: 3

Semester Prerequisite: Admission to Educational Administration Program or consent of program coordinator. Quarter Prerequisite: Admission to Educational Administration Program or consent of program coordinator
Introduction to administration including leadership, vision, and ethics. Explores the theory and practice of educational leadership in K-12 or community college/higher education. The leadership focus includes organizational, change, transformational, and culturally responsive educational leadership. Must be taken during the first quarter of the program. Formerly offered as EADM 601.

EADM 6602. Research Methods in Educational Administration. Units: 3

Semester Prerequisite: Students has completed or is enrolled in EADM 6601; Student is enrolled in Educational Administration Master's Program; Student must enroll in EADM 6602 first, then EADM 6603 in the subsequent semester; Or coordinator permission. Quarter Prerequisite: EADM 601 or consent of program coordinator
Introduction to qualitative, quantitative and action research for school administrators using APA guidelines. Students will complete a proposal and research paper. Formerly offered as EADM 602.

EADM 6607. Culture, Equity, and Communication in Diverse Society. Units: 3

Semester Prerequisite: Admission to the Educational Administration Program or consent of program coordinator. Quarter Prerequisite: Admission to the Educational Administration Program or consent of the program coordinator
Prerequisites: Admission to the Educational Administration Program or consent of program coordinator. Formerly offered as EADM 607
Focuses on theories and models for ethical decision-making, communication of policies to promote equity in schools and other educational institutions, legal and cultural context for social justice, equity analysis, school climate, and school reform to support the diverse needs of all stakeholders.

EADM 6610. Educational Supervision and Teacher Development. Units: 3

Semester Prerequisite: Admission to the Educational Administration Program or consent of the program coordinator. Quarter Prerequisite: Admission to the Educational Administration Program or consent of the program coordinator
Presents theories, models, and practices for educational supervision including developmental and clinical supervision, cognitive coaching techniques, communicating policies for improving student achievement, and promoting the school. This class will include a practicum for the Administrative Services Preliminary Credential. Formerly known as EADM 610.

EADM 6613. Organizational Management and Human Resources. Units: 3

Semester Prerequisite: EADM 6601, EADM 6607, or consent of program coordinator. Quarter Prerequisite: EADM 601, EADM 607, or consent of program coordinator
Legal and ethical procedures in human resources at all levels of employment to ensure effectiveness of organizational processes to meet organizational goals and equity for students. Analysis of laws and policy development in relationship to school districts and/or institutes of higher education, negotiations, collective bargaining, and career advancement. Formerly offered as EADM 613.

EADM 6619. Policy, Governance and Legal Aspects of Education. Units: 3

Semester Prerequisite: EADM 6601, EADM 6607, EADM 6610 or consent of program coordinator. Quarter Prerequisite: EADM 601 or consent of program coordinator
Examines how laws and court decisions influence public education. Analyzes governance and policy systems to understand the relationships of schools, districts, counties, and State of California and how to operate within the legal parameters. Influences of political, social, economic, legal and cultural issues on schools and districts will be addressed. Formerly offered as EADM 619.

EADM 6620. Fieldwork in Educational Administration I. Units: 3

Semester Prerequisite: EADM 6601, EADM 6610, or consent of program coordinator. Quarter Prerequisite: EADM 601, EADM 607, EADM 610, EADM 620 or consent of program coordinator
Administrative fieldwork at the elementary and the secondary school level, coordinated with the district. Consists of a minimum of 60 hours of administrative fieldwork experience at the elementary and repeated at the secondary level for 3 units and 60 hours at each level for a total of 6 units and 120 hours. Formerly offered as 621A.

EADM 6621. Fieldwork in Educational Administration II. Units: 3

Semester Prerequisite: EADM 6601, EADM 6610, EADM 6620 or consent of program coordinator. Quarter Prerequisite: EADM 601, EADM 610, EADM 607, EADM 620, EADM 621A or consent of program coordinator
Administrative fieldwork at the elementary and the secondary school level, coordinated with the district. Consists of a minimum of 60 hours of administrative fieldwork experience at the elementary and repeated at the secondary level for 3 units and 60 hours at each level for a total of 6 units and 120 hours. Formerly offered as EADM 621B.

EADM 6622. Curriculum, Programs, and Assessment. Units: 4

Semester Prerequisite: EADM 6601 and EADM 6610 or consent of program coordinator. Quarter Prerequisite: EADM 601, EADM 607, EADM 610, EADM 620 or consent of program coordinator
Examines current curriculum and content standards, assessment of student achievement, data analysis, instructional decision-making school plans, and use of technology. Various programs including special education, English Learner, and STEM among others are explored. This course includes a practicum for the Administrative Services Preliminary Credential. Three hours seminar and two hours practicum. Formerly offered as EADM 622.

EADM 6625. Organizational Management and Fiscal Resources. Units: 3

Quarter Prerequisite: EADM 601 or consent of program coordinator
Fundamentals of fiscal resource management to provide a safe, clean, and positive learning environment for staff and students. Covers California School Finance Programs; fiscal relationship to county, state and federal agencies; school budget procedures; LCAP and LCFF; school accounting; financial management of categorical and special education funds; fiscal laws, and the planning, financing, and management of school facilities. This course also introduces topics related to the revenue and expenditure of funds for community college/higher education. Topics include revenue, budgets, cost analysis, facilities, and other topics related to revenue and fiscal resources management including laws, politics, and policies. Formerly offered as EADM 625.

EADM 6630. Internship Fieldwork in Educational Administration I. Units: 3

Semester Prerequisite: Admitted to the Educational Administration Program, currently an administrator, enrolled in Intern Option Preliminary Administrative Credential Program, Applied for the Administrative Services Intern Credential through CTC, and consent of program coordinator. Quarter Prerequisite: Admitted to the Educational Administration Program, currently an administrator, enrolled in Intern Option Preliminary Administrative Credential Program, Applied for the Administrative Services Intern Credential through CTC, and consent of program coordinator

Administrative field experiences for students enrolled in the Preliminary Administrative Services Credential Program, Internship Option. Students are currently in administrative positions. Formerly offered as EADM 630A.

EADM 6631. Internship Fieldwork in Educational Administration II. Units: 3

Semester Prerequisite: Admitted to the Educational Administration Program, currently an administrator, enrolled in Intern Option Preliminary Administrative Credential Program, Applied for the Administrative Services Intern Credential through CTC, and consent of program coordinator. Quarter Prerequisite: Admitted to the Educational Administration Program, currently an administrator, enrolled in Intern Option Preliminary Administrative Credential Program, Applied for the Administrative Services Intern Credential through CTC, and consent of program coordinator

Administrative field experiences for students enrolled in the Preliminary Administrative Services Credential Program, Internship Option. Students are currently in administrative positions. Formerly offered as EADM 630B.

EADM 6632. History and Philosophy of Community College/Higher Education. Units: 3

Semester Prerequisite: Admission to the Master's in Educational Administration Program or consent of program coordinator. Quarter Prerequisite: Admission to the Master's in Educational Administration Program or consent of program coordinator

This course is designed to provide students with an historical, socio-political, and philosophical context of higher education. Students will be introduced to philosophical views that have impacted the historical events leading to social justice issues in current higher educational systems.

EADM 6633. Policy and Governance in Community College/Higher Education. Units: 3

Semester Prerequisite: Admission to the Master in Educational Administration Program, completion of EADM 6601, or consent of program coordinator. Quarter Prerequisite: Admission to the Master in Educational Administration Program, completion of EADM 601, or consent of program coordinator

This course introduces the policy development process, along with purposes and development of missions, strategic planning, and governance structures. Students will learn how to write and analyze policies based upon current issues and trends in community colleges/higher education.

EADM 6634. Program Assessment and Evaluation in Community College/Higher Education. Units: 4

Quarter Prerequisite: Admission to the Master in Educational Administration Program, completion of EADM 601, or consent of program coordinator

This course introduces curriculum and program development, assessment, and evaluation in community colleges/higher education. Topics include: accreditation, accountability, and assessment. The course includes a practicum. Three hours seminar and one hour practicum.

EADM 6635. Finance in Community College/Higher Education. Units: 3

Semester Prerequisite: Admission to the Master in Educational Administration Program, completion of EADM 6601, or consent of program coordinator. Quarter Prerequisite: Admission to the Master in Educational Administration Program, completion of EADM 601, or consent of program coordinator

This course introduces topics related to the revenue and expenditure of funds for community college/higher education. Topics include revenue, budgets, cost analysis, facilities, and other topics related to revenue and fiscal resources management including laws, politics, and policies.

EADM 6636. Special Topics in Higher Education. Units: 3

Semester Prerequisite: Admitted to the Masters in Educational Administration Program, completion of EADM 6601 or consent of program coordinator. Quarter Prerequisite: Admitted to the Master in Educational Administration Program, completion of EADM 601 or consent of program coordinator

Various topics of concern to educators in community college and higher education will be introduced including college student development and communication, student services, student affairs, and technology among others.

EADM 6637. Community College/Higher Education Field Project. Units: 3

Semester Prerequisite: Completion of EADM 6601 and EADM 6607 and permission of program coordinator

Students will undertake a field project in an area of community college/higher education leadership. Project must meet criteria and be under the direction of a course instructor and institution of higher education supervisor. Culmination will be presentation to class.

EADM 6640. California Administrator Performance Assessment (CalAPA) Support Seminar. Units: 3

Semester Prerequisite: Admission to the Preliminary Administrative Credential Services Credential or Preliminary Administrative Services Intern Credential Programs. Students should have completed or currently be enrolled in EADM 6601, 6610 or 6622 or a course substitute approved by program coordinator prior to enrolling in the course

Course focuses on preparing candidates in the Preliminary Administrative Services Credential Program (PASC) or Preliminary Administrative Services Intern Credential Program to complete any of the CalAPA assessments 1, 2, and/or 3. These assessments are required by the Commission on Teacher Credentialing (CCTC) for the PASC. Graded credit/no credit. Can be taken a maximum of three times for a total of nine units.

EADM 6681. Vision and Student Achievement. Units: 2

Development, articulation, and implementation of a shared vision among diverse stakeholders to address achievement of all student groups. Formerly offered as EADM 681.

EADM 6682. Collaborative Culture of Teaching and Learning. Units: 2

Semester Prerequisite: Admission to the Administrative Services Professional Credential Program, have Preliminary Administrative Services Credential and hold Local Educational Agency (LEA) administrative position and EADM 6681, EADM 6685 or consent of program coordinator

Semester Corequisite: EADM 6686

Development of ethical leadership, decision-making and action in providing a culture of teaching and learning focused on state content standards, teacher professional standards, and ongoing teacher development. Formerly offered as EADM 682.

EADM 6683. Resource Management of the Learning Institution. Units: 2

Semester Prerequisite: Admission to the Administrative Services Professional Credential program; Have Preliminary Administrative Services Credential and hold administrative position in Local Educational Agency (LEA); EADM 6681, EADM 6682, EADM 6685, EADM 6686 or consent of program coordinator

Semester Corequisite: EADM 6687 or consent of program coordinator
Establishment of a safe, respectful learning environment with established structures, policies, and procedures and alignment of fiscal and human resources to focus on meeting the intellectual, linguistic, cultural, social-emotion, and physical needs of each learner. Formerly offered as EADM 683.

EADM 6684. Political, Legal, Cultural Context in Education. Units: 2

Semester Prerequisite: Admission to the Administrative Services Professional Credential program, have a Preliminary Administrative Services Credential and hold an administrative position in a Local Educational Agency (LEA) and EADM 6681, EADM 6682, EADM 6683, EADM 6685, EADM 6686, EADM 6687 or consent of program coordinator

Semester Corequisite: EADM 6688

Focus on the role of educational leaders in the building of community relationships, effective communication, and influencing policies for equity, social justice, and ethics for the benefit of the learners. Formerly offered as EADM 684.

EADM 6685. Coaching and Assessment Practicum I. Units: 2

Semester Prerequisite: Admission to the Administrative Services Professional Credential program, Have Preliminary Administrative Services Credential and administrative position in a Local Educational Agency (LEA)

Semester Corequisite: EADM 6681

Provide the educational leader an individual assessment and support plan. Student will work with a certified coach on development of their administrative skills based on the California Professional Standards for Educational Leaders (CPSEL). First of four courses in a sequence. Formerly offered as EADM 685.

EADM 6686. Coaching and Assessment Practicum II. Units: 2

Semester Prerequisite: Admission to the Administrative Services Professional Credential program, have Preliminary Administrative Services Credential with administrative position in Local Educational Agency (LEA) and EADM 6681, EADM 6685 or consent of program coordinator

Semester Corequisite: EADM 6682

Provide the educational leaders an individual assessment and support plan. Student will work with a certified coach on development of their administrative skills based on the California Professional Standards for Educational Leaders (CPSEL). Second of four courses in a sequence. Formerly offered as EADM 686.

EADM 6687. Coaching and Assessment Practicum III. Units: 2

Semester Prerequisite: Admission to the Administrative Services Professional Credential program; Have a Preliminary Administrative Services Credential with an administrative position in a Local Educational Agency (LEA); EADM 6681, EADM 6682, EADM 6685, EADM 6686 or consent of instructor

Semester Corequisite: EADM 6683

Provide the educational leader an individual assessment and support plan. Student will work a certified coach on development of their administrative skills based on the California Professional Standards for Educational Leaders (CPSEL). Third of four courses in a sequence.

EADM 6688. Coaching and Assessment Practicum IV. Units: 2

Semester Prerequisite: Admission to the Administrative Services Professional Credential program, have a Preliminary Administrative Services Credential with an administrative position in a Local Educational Agency (LEA) and EADM 6681, EADM 6682, EADM 6683, EADM 6685, EADM 6686, EADM 6687 or consent of program coordinator

Semester Corequisite: EADM 6684

Provide the educational leader an individual assessment and support plan. Student will work with a certified coach on development of their administrative skills based on the California Professional Standards for Educational Leaders (CPSEL). Fourth of four courses in a sequence.

EADM 6692. Comprehensive Evaluation in Educational Administration. Units: 3

Semester Prerequisite: Completion of courses for the program, advancement to candidacy and permission of program coordinator.

Quarter Prerequisite: Completion of courses for the program, Advancement to candidacy and permission of program coordinator
Review and preparation for the written comprehensive examination. Case studies will be presented. Formerly offered as EADM 692.

EADM 6973. Masters Thesis in Educational Administration. Units: 3

Semester Prerequisite: Advancement to candidacy, completion of program courses, and permission of program coordinator. Quarter Prerequisite: Advancement to candidacy, completion of program courses, and permission of program coordinator

Independent graduate research in field of Educational Administration conducted under the direction of two program faculty members. Formerly offered as EADM 699.

EADM 6980. Comprehensive Examination in Education Administration. Units: 0

Semester Prerequisite: Advancement to candidacy, completion of all required courses, Approval of the program coordinator and in good academic standing. Quarter Prerequisite: Advancement to candidacy, completion of all required courses, Approval of department, and in good academic standing

An assessment of student's ability to integrate the knowledge in the area of educational administration, show critical and independent thinking, and mastery of the subject matter. Graded credit/no credit. Formerly offered as EADM 999.

Economics (ECON)

Courses

ECON 2000. The Economy: Problems and Perspectives. Units: 3

Why have the rich become richer? Do immigrants take or create jobs? What is causing climate change, and what can be done about it? What determines how fast an economy grows? Is economic growth consistent with sustainability? What is the chance that children will do financially better (or worse) than their parents? Why are we subjected to recessions, housing bubbles/crashes, and financial crises? Can such harmful events be stopped? Will robots take all our jobs? This course will provide students with the tools and perspectives that will help them answer questions such as the above. Satisfies GE D3/4, G designation, Diversity and Social Justice, Environmental Sustainability pathways.

ECON 2201. Principles of Microeconomics. Units: 3

Introduction to markets and market economies. Investigation of demand, supply, production, the determination of prices, the allocation of resources, and the distribution of income. Business behavior in different market environments. Policies designed to alter market outcomes. Formerly ECON 200.

ECON 2202. Principles of Macroeconomics. Units: 3

Investigation of the operation of national economies, alone and as part of the global economy. Determinants of the rate of economic growth across countries and through time. Determinants of unemployment, inflation, and national output. Causes of stability and instability in the macroeconomy. The operation of government fiscal policy and monetary policy is intended to promote growth and macroeconomic stability. Trade and financial flows among countries. Satisfies GE D3/4, G designation, Global Connections pathway.

ECON 3100. Intermediate Microeconomics. Units: 3

Semester Prerequisite: ECON 2000 or ECON 2201 and ECON 2202; and one of the following: MATH 1301, 1303, 1401, 1403, 1601, 1603 or 2210 Detailed analysis of economic behavior of individuals and business firms. Investigation of conflict, competition, and cooperation. Role of institutions and policies in altering market outcomes. Formerly ECON 302, ECON 4100.

ECON 3101. Political Economy of Southern California. Units: 3

Examination of the economic origins of political, social, and cultural life in Southern California, 1860-present. National and global influences on Southern California, such as the role of immigration and global trade, will be explored. Contending perspectives about the development of the region will be analyzed. Topics might include water rights, property law, the real estate market, labor relations, and labor history, as well as their impact on modern social, political, and cultural movements. Satisfies GE D4/UD-4.

ECON 3103. Environmental Economics. Units: 3

Application of economic theory to environmental problems and issues using a political economy framework. Topics might include regulatory and market approaches to pollution and natural resource depletion; cost-benefit analysis and its economic and political foundations; and case studies of specific environmental problems such as locally unwanted land use, environmental racism, deforestation, and global warming. Formerly ECON 360.

ECON 3105. Political Economy. Units: 3

Critical analysis of capitalist economies. Topics might include class and power, the labor process, technology, theories of the state/government, and globalization. Formerly ECON 445.

ECON 3109. Political Economy of Women. Units: 3

Introduction to feminist economics and feminist theory, emphasizing the diversity of feminist approaches. Topics might include primitive accumulation and origins of sexual division of labor, household economics and care work, women's labor supply, gender wage gap and segregation in the labor markets, gendered impacts of economic crises, and welfare policy. Formerly ECON 333.

ECON 3125. Economic History of the United States. Units: 3

Economic history of the United States from the founding of the colonies to the present. Formerly ECON 421.

ECON 3199. Economics in the Elementary and Middle School. Units: 3

Introduces liberal studies students to economics in the California History/Social Science Standards. Students learn to integrate economic principles and theories with the other social sciences. May not be counted toward fulfillment of requirements of majors or minors offered by the Economics Department. Formerly ECON 311.

ECON 3200. Intermediate Macroeconomics. Units: 3

Semester Prerequisite: ECON 2000 or ECON 2201 and ECON 2202; and one of the following: MATH 1301, 1303, 1401, 1403, 1601, 1603 or 2210. Quarter Prerequisite: ECON 200, ECON 202, and one additional upper-division economics course; MATH 110, 120, 192, or 211; or consent of instructor

Determinants of output and prices in national economies. Sources of stability and instability in the economy. Determinants of the rate of economic growth. Government policies designed to promote full employment, price stability, and economic growth. Formerly ECON 300, ECON 4200.

ECON 3400. Money, Banking, and Financial Markets. Units: 3

Quarter Prerequisite: ECON 202 and one of the following: MATH 110, 120, 192, or 211

The nature and functions of money. Banks and their role in the money-creation process. Economic analysis of the financial system. Central banking, including the Federal Reserve System, and the conduct of monetary policy. Introduction to debates within monetary theory. Formerly ECON 410.

ECON 3500. Tools of Economic Analysis. Units: 3

Semester Prerequisite: ECON 2000 or ECON 2201 and ECON 2202; MATH 1201 or ADMN 2100 or MATH 2265; and one of the following: MATH 1301, 1303, 1401, 1403, 1601, 1603 or 2210

Using software and basic economic models to investigate and analyze economic phenomena. Formerly ECON 335.

ECON 3700. History of Economic Thought. Units: 3

Semester Prerequisite: ECON 2000 or ECON 2201 and ECON 2202; students may also take the course with consent of instructor
Historical development of economic theory and associated analytical tools. Consideration of the intellectual and social forces that shaped economics. Formerly ECON 500, ECON 4700.

ECON 3720. Behavioral Economics. Units: 3

Quarter Prerequisite: ECON 200 or PSYC 311

Blends the theoretical insights of psychology and economics to develop a fuller understanding of behavior in both economic and non-economic contexts. Use of a variety of methodologies (such as interviews, surveys, experiments, and formal modeling) to investigate the decision-making processes of individuals and groups along with the interactions between and among individuals and groups. Formerly a topic under Econ 390.

ECON 3740. Economics of Climate Change. Units: 3

Quarter Prerequisite: ECON 200 and ECON 202

Economic causes and consequences of climate change. Consideration of the unusual characteristics of human-caused climate change including a combination of global impacts, true uncertainty, large and discontinuous effects, and irreversibility. Policies proposed to mitigate climate change and to facilitate adaptation to climate change. Formerly ECON 365.

ECON 3750. Origins of Political Economy. Units: 3

Quarter Prerequisite: ECON 200 and ECON 202, Students may also take the course with consent of instructor

Economic theories of Karl Marx and the intellectual, political, and economic context in which they developed. Formerly ECON 443.

ECON 3780. Multinational Corporations. Units: 3

Quarter Prerequisite: ECON 200 and ECON 202

Multinational corporations and the international economic environment in which they operate. Topics include the international monetary system, balance of payments, international capital movements, foreign direct investment, technology transfer, and conflicts between multinational corporations and host countries. Formerly ECON 435.

ECON 3790. Post-Keynesian Economics. Units: 3

Quarter Prerequisite: ECON 200 and ECON 202

Macroeconomic theory emphasizing fundamental uncertainty, financial instability, possible equilibriums generating persistent unemployment, and the central role of expectations and aggregate demand (even in the long-run).

ECON 3800. Quantitative Methods in Economics. Units: 3

Semester Prerequisite: One of the following: MATH 1301, 1303, 1401, 1403, 1601, 1603 or 2210

Application of mathematical tools and concepts in formulating and solving economic problems. Formerly ECON 480, ECON 4400.

ECON 3801. Selected Topics in Economics. Units: 3

Examination of selected topics of current interest in economics. May be repeated for credit as topics change. Formerly ECON 390.

ECON 3900. Writing in Economics. Units: 3

Semester Prerequisite: Majoring in either Economics (all concentrations) or Political Economy. Plus, completion of two upper-division economics courses

Development of skills leading to effective writing in different contexts such as academia and the workplace. Among other things, students will use their economics training to write both on contemporary topics and on the nature of economics as a discipline. Satisfies WI designation.

ECON 4230. Economic Development. Units: 3

Semester Prerequisite: ECON 2000 or ECON 2202; ECON 3200

Overview of the major theoretical and empirical approaches to economic development. Consideration of fundamental characteristics of developing countries such as poverty and inequality along with the processes of agricultural transformation and population growth. Causes and consequences of trade involving developing countries. Industrial and finance policies. Consideration of globalization, the environment, and issues related to gender in developing countries. Formerly ECON 455, ECON 3730.

ECON 4300. Econometrics. Units: 3

Quarter Prerequisite: ECON 200, ECON 202, and one additional upper-division economics course; ADMN 210 or MATH 262; MATH 110, 120, 192, or 211

Various statistical methods of testing economic hypotheses. Focus on understanding and using linear regression models. Formerly ECON 490.

ECON 4412. Firms and Markets. Units: 3

Semester Prerequisite: ECON 2000 or ECON 2201; and one of the following: MATH 1301, 1303, 1401, 1403, 1601, 1603 or 2210; and ECON 3100. Quarter Prerequisite: ECON 200 and one of the following: MATH 110, 120, 192, or 211

Historical evolution of business firms and markets. Recent developments in business behavior and the organization of markets. Formerly ECON 3312.

ECON 4414. Public Economics. Units: 3

Semester Prerequisite: ECON 2000 or ECON 2201; and one of the following: MATH 1301, 1303, 1401, 1403, 1601, 1603 or 2210
 Analysis of selected government programs and of the role of the government in the economy. Among the topics possibly considered are social welfare programs (such as Social Security and Temporary Assistance for Needy Families), budget deficits and the debt, the tax system, the minimum wage, government healthcare insurance programs, and environmental policies. Formerly ECON 475, ECON 3314.

ECON 4416. Labor Economics. Units: 3

Semester Prerequisite: ECON 2000 or ECON 2201; and one of the following: MATH 1301, 1303, 1401, 1403, 1601, 1603 or 2210; and ECON 3100

Micro- and macroeconomic aspects of labor markets including the workings of labor markets in competitive and noncompetitive markets, structure and causes of unemployment, incomes policies, and selected institutional topics including the economics of U.S. labor movements. Formerly ECON 460, ECON 3316.

ECON 4418. International Economics. Units: 3

Semester Prerequisite: ECON 2000 or ECON 2201; and one of the following: MATH 1301, 1303, 1401, 1403, 1601, 1603 or 2210
 Theories of the causes and effects of trade between nations. Study of government policies that alter the pattern of trade between nations. Formerly ECON 430, ECON 3318.

ECON 4525. Mixed Methods Research. Units: 3

Quarter Prerequisite: two upper-division economics courses
 Using multiple research methods-such as surveys and interviews-to study economic phenomena.

ECON 4550. Advanced Tools of Economic Analysis. Units: 3

Semester Prerequisite: ECON 3500. Prerequisite: ECON 335
 Using a variety of analytical and statistical tools to gain insight into the economy. Focus on answering policy-related, real-world questions.

ECON 4815. Global Inequality and Growth. Units: 3

Quarter Prerequisite: Two upper-division economics courses
 Study of how and why income and wealth evolve in modern economies. Topics might include rising inequality, billionaires and capitalism, historical concentration of property ownership, economics of superstars and policies that affect these processes. Formerly a topic under ECON 390.

ECON 4900. Seminar in Economics. Units: 3

Semester Prerequisite: ECON 3400 and one of ECON 3312, 3314, 3316, or 3318. Quarter Prerequisite: Two upper-division economics courses
 Intensive study of some economic issue or theory. May be repeated for credit as subject matter changes. Formerly ECON 590.

ECON 5510. Economics in the Secondary Classroom. Units: 3

Economics method of analysis as it applies to 9th through 12th grade California History/Social Science Standards. May not be counted toward fulfillment of requirements of majors or minors offered by the Economics Department. Formerly Econ 510.

ECON 5601. Service-Learning in Political Economy. Unit: 1

Service experience in the community that makes use of the skills, knowledge, and understandings gained in economics and/or political economy. This course will reinforce a student's understanding of social responsibility and commitment to the community. Graded credit/no credit. Consent of the Department Chair is required to register. May be repeated for credit a maximum of two times.

ECON 5751. Internship in Economics. Unit: 1

Semester Prerequisite: A completed Economics Department internship form must be submitted, and approved by the Department Chair, in advance of the semester in which the course is to be taken, Open only to majors within the Economics Department. Quarter Prerequisite: A completed Economics Department internship form must be submitted, and approved by the Department Chair, in advance of the semester in which the course is to be taken, Open only to majors within the Economics Department

Supervised work in a public or private organization emphasizing practical applications of economic concepts and relationships. May be repeated but only 3 units of internship courses may be counted toward any major offered by the Economics Department. Graded credit/no credit. Formerly Econ 575.

ECON 5752. Internship in Economics. Units: 2

Semester Prerequisite: A completed Economics Department internship form must be submitted, and approved by the Department Chair, in advance of the semester in which the course is to be taken, Open only to majors within the Economics Department. Quarter Prerequisite: A completed Economics Department internship form must be submitted, and approved by the Department Chair, in advance of the semester in which the course is to be taken, Open only to majors within the Economics Department

Supervised work in a public or private organization emphasizing practical applications of economic concepts and relationships. May be repeated but only 3 units of internship courses may be counted toward any major offered by the Economics Department. Graded credit/no credit. Formerly Econ 575.

ECON 5753. Internship in Economics. Units: 3

Semester Prerequisite: A completed Economics Department internship form must be submitted, and approved by the Department Chair, in advance of the semester in which the course is to be taken, Open only to majors within the Economics Department. Quarter Prerequisite: A completed Economics Department internship form must be submitted, and approved by the Department Chair, in advance of the semester in which the course is to be taken, Open only to majors within the Economics Department

Supervised work in a public or private organization emphasizing practical applications of economic concepts and relationships. May be repeated but only 3 units of internship courses may be counted toward any major offered by the Economics Department. Graded credit/no credit. Formerly Econ 575.

ECON 5951. Independent Study. Unit: 1

Semester Prerequisite: A minimum overall grade point average of 3, consent of instructor, and approval by the Department Chair of a completed Department independent study form filed in advance of the semester in which the course is to be taken. Quarter Prerequisite: A minimum overall grade point average of 3, consent of instructor, and approval by the Department Chair of a completed Department independent study form filed in advance of the semester in which the course is to be taken

Investigation of special topics not covered by the Department's curricular offerings. A total of six units of independent study may be applied toward majors offered by the Economics Department. Formerly ECON 595A.

ECON 5952. Independent Study. Units: 2

Semester Prerequisite: A minimum overall grade point average of 3, consent of instructor, and approval by the Department Chair of a completed Department independent study form filed in advance of the semester in which the course is to be taken. Quarter Prerequisite: A minimum overall grade point average of 3, consent of instructor, and approval by the Department Chair of a completed Department independent study form filed in advance of the semester in which the course is to be taken

Investigation of special topics not covered by the Department's curricular offerings. A total of six units of independent study may be applied toward majors offered by the Economics Department. Formerly ECON 595B.

ECON 5953. Independent Study. Units: 3

Semester Prerequisite: A minimum overall grade point average of 3, consent of instructor, and approval by the Department Chair of a completed Department independent study form filed in advance of the semester in which the course is to be taken. Quarter Prerequisite: A minimum overall grade point average of 3, consent of instructor, and approval by the Department Chair of a completed Department independent study form filed in advance of the semester in which the course is to be taken

Investigation of special topics not covered by the Department's curricular offerings. A total of six units of independent study may be applied toward majors offered by the Economics Department. Formerly ECON 595C.

ECON 5999. Senior Honors Project. Units: 3

Semester Prerequisite: Senior standing, minimum grade point average of 3.5 in economics courses, consent of instructor, and approval by the Department Chair of a senior honors project form submitted in advance of the semester in which the course is to be taken. Quarter Prerequisite: Senior standing, minimum grade point average of 3.5 in economics courses, consent of instructor, and approval by the Department Chair of a senior honors project form submitted in advance of the semester in which the course is to be taken

Original research in economics, culminating in a significant paper receiving approval from a committee of three economics faculty. Formerly ECON 597.

ECON 6000. Proseminar in Economics. Units: 2

Survey of the concepts and ideas that economists study, with emphasis on globalization. Formally Econ 600.

ECON 6303. International Economic Issues. Units: 3

Contemporary international economic issues of relevance, directly and indirectly, to national security.

ECON 6605. Advanced Topics in Economics. Units: 3

Semester Prerequisite: Consent of instructor. Quarter Prerequisite: Consent of instructor

Advanced study of selected areas of economics. May be repeated for credit as topics change.

ECON 6951. Graduate Independent Study in Economics. Unit: 1

Semester Prerequisite: Graduate standing, consent of instructor, and approval by Department Chair of written proposal. Prerequisite: Graduate standing, consent of instructor, and approval by Department Chair of written proposal

Independent graduate research in economics.

ECON 6952. Graduate Independent Study in Economics. Units: 2

Semester Prerequisite: Graduate standing, consent of instructor, and approval by Department Chair of written proposal. Quarter Prerequisite: Graduate standing, consent of instructor, and approval by Department Chair of written proposal

Independent graduate research in economics. Formerly ECON 695B.

ECON 6953. Graduate Independent Study in Economics. Units: 3

Semester Prerequisite: Graduate standing, consent of instructor, and approval by Department Chair of written proposal. Quarter Prerequisite: Graduate standing, consent of instructor, and approval by Department Chair of written proposal

Independent graduate research in economics. Formerly ECON 695C.

Education-Career and Technical Studies (ECTS)**Courses****ECTS 3350. Introduction to Career and Technical Studies. Units: 3**

Quarter Prerequisite: consent of instructor

Introduction to the history, philosophy, literature and organizations of comprehensive vocational, technical and occupational workforce development programs. Formerly offered as ECTS 3350.

ECTS 4350. Trends and Issues in Career and Technical Programs. Units: 3

Assessment of students ability to integrate knowledge and demonstrate independent critical thinking skills through a capstone project relevant to Career and Technical Program subject matter content. Discussion of current trends and issues relevant to Regional Occupational Programs (ROP), adult education programs, and community college programs. Completion and submission of professional portfolio for Career and Technical Competency Evaluation (CTCE) by qualified faculty for recommended credit toward BCTS degree. Formerly offered as ECTS 435.

ECTS 5010. Principles and Methods for Teaching Designated Subjects. Units: 3

Introduction to the principles and methods for teaching designated subjects. Offered as ECTS 5010 and ECTS 6010, students may not receive credit for both. Formerly offered as ECTS 501.

ECTS 5015. Working Around the World. Units: 3

The effects of religion, language and culture, political structure, economics, and physical environment on the development of the workplace and people's perceptions of work and occupations.

ECTS 5020. Instructional Support for Teaching Designated Subjects. Units: 3

Examination of instructional support for designated subjects with emphasis on program advisory committees, student placement, facilities planning, budgeting, student organizations, public relations, career advancement and educational philosophy. Offered as ECTS 5020 and ECTS 6020; students may not receive credit for both. Formerly offered as ECTS 502.

ECTS 5025. Technological Literacy. Units: 3

This course explores technological concepts and their impact on individuals, society, and culture. Technology as a human adaptive system and its relationship to sociological and ideological systems is discussed.

ECTS 5030. Contemporary Issues in Teaching Designated Subjects. Units: 3

Examination of contemporary issues in designated subjects with emphasis on individual education plans, basic skills, school law, multicultural activities, special needs students, safety and performance assessment instruments. Offered as ECTS 5030 and ECTS 6030; students may not receive credit for both. Formerly offered as ECTS 530.

ECTS 5033. Principles of Adult Education. Units: 3

This 3-semester hour foundational course focuses on the continuous learning that is essential for all individuals in an effective, dynamic educational unit or organization. It emphasizes analysis of oneself and of organizations and groups as learners and provides an opportunity to explore central concepts and processes in adult learning, barriers to adult learning, evaluation strategies in adult education, and recent research on human learning.

ECTS 5035. Technology, Ethics, and Society. Units: 3

A framework for understanding how human societies transform themselves through technological innovation. Ethical questions concerning the social effects of technological change.

ECTS 5040. Principles of Career and Technical Education. Units: 3

History, philosophy and social significance of career and technical education, especially in California; investigation of the theories and application of the principles of career and technical education. Offered as ECTS 5040 and ECTS 6040; students may not receive credit for both. Formerly offered as ECTS 504.

ECTS 5080. Organization and Structure of Career and Technical Programs. Units: 3

Investigation and application of principles of facility planning, budgeting, funding sources and related topics as they apply to career and technical programs. Offered as ECTS 5080 and ECTS 6080; students may not receive credit for both. Formerly offered as ECTS 508.

ECTS 5090. Personnel Management in Career and Technical Programs. Units: 3

Semester Prerequisite: ECTS 5080 or ECTS 6080

Principles of personnel selection, evaluation, supervision, school law, and related topics as they apply to career and technical programs. Offered as ECTS 5090 and ECTS 6090; students may not receive credit for both. Formerly offered as ECTS 509.

ECTS 5100. Field Work in Coordination and Supervision of Career and Technical Programs. Units: 3

Semester Prerequisite: ECTS 5090 or ECTS 6090

Supervised field work in supervision and coordination of career and technical programs. Students will contract to perform administrative tasks related to site-based instructional programs. Offered as ECTS 5100 and ECTS 6100; students may not receive credit for both. Formerly offered as ECTS 510.

ECTS 5180. Field Work in Designated Subjects. Units: 3

Quarter Corequisite: ECTS 501 and consent of instructor

Supervised field work for the Designated Subjects Teaching Credential. Includes lesson planning and instructional delivery in an actual teaching environment with evaluation of teaching performance by the on-site supervisor. Offered as ECTS 5180 and ECTS 6180; students may not receive credit for both. Formerly offered as ECTS 518.

ECTS 5190. Instructional Technology for Career and Technical Educators. Units: 3

Application of instructional technology to prepare written, graphic, data base, telecommunication and interactive media materials that accommodate diverse populations in career and technical education with an emphasis on English learner needs. Offered as ECTS 5190 and ECTS 6190; students may not receive credit for both. Formerly offered as ECTS 519.

ECTS 5200. Curriculum Development for Career and Technical Programs. Units: 3

Theory and principles of curriculum development as they apply to vocational, occupational and professional courses. Students will develop a complete curriculum for a course that they could teach. Offered as ECTS 5200 and ECTS 6200; students may not receive credit for both. Formerly offered as ECTS 520.

ECTS 5210. Assessing Student Progress. Units: 3

The development and use of evaluation instruments such as written tests, and criterion-referenced and norm-referenced evaluations. Offered as ECTS 5210 and ECTS 6210; students may not receive credit for both. Formerly offered as ECTS 521.

ECTS 5220. Directing and Managing Occupational Programs. Units: 3

Principles and techniques of design, implementation, management and evaluation of training organizations and programs. Offered as ECTS 5220 and ECTS 6220; students may not receive credit for both. Formerly offered as ECTS 522.

ECTS 5230. Learning Theory and Instructional Research. Units: 3

Application of psychological principles to learning processes relevant to all learners. Focus is on informed decisions about psycho-educational designs which will maximize individual development in cognitive, affective, and psychomotor areas. Offered as ECTS 5230 and ECTS 6230; students may not receive credit for both. Formerly offered as ECTS 523.

ECTS 5410. Topics in Career and technical Education. Units: 3

Study of selected areas of education topics to be determined by the instructor. May be repeated for credit with consent of the instructor as topics change. Offered as ECTS 5410 and ECTS 6410, students may not receive credit for both courses with the same topic. Formerly offered as ECTS 540.

ECTS 5421. Seminar in Designated Subjects Education. Unit: 1

Quarter Prerequisite: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor. Offered as ECTS 5421 and ECTS 6421; students may not receive credit for both courses with the same topic. Formerly offered as ECTS 542.

ECTS 5422. Seminar in Designated Subjects Education. Units: 2

Quarter Prerequisite: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor. Offered as ECTS 5422 and ECTS 6422; students may not receive credit for both courses with the same topic. Formerly offered as ECTS 542B.

ECTS 5423. Seminar in Designated Subjects Education. Units: 3

Quarter Prerequisite: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor. Offered as ECTS 5423 and ECTS 6423; students may not receive credit for both courses with the same topic. Formerly offered as ECTS 5423.

ECTS 5500. Engineering for Educators. Units: 3

This course is designed for those professionals teaching Engineering and Technology courses K-12. The course covers analysis and implementation of effective learning, thinking, modeling, and tool practices as well as standards associated with high quality teaching and leadership in Engineering and Technology education. Offered as ECTS 5500 and ECTS 6500; students may not receive credit for both.

ECTS 5560. Graduate Intensive Academic Writing. Units: 3

Writing related to education including documented research reports, evaluations, and analytical papers. Revision and rewriting will be required. Satisfies WI designation.

ECTS 5951. Independent study in designated subjects. Unit: 1

Independent study in designated subjects as needed to fulfill graduation requirements. Individualized course requirements will be specified in each course syllabi to meet necessary standards and evaluative measures. Department consent required.

ECTS 5952. Independent study in designated subjects. Units: 2

Independent study in designated subjects as needed to fulfill graduation requirements. Individualized course requirements will be specified in each course syllabi to meet necessary standards and evaluative measures. Department consent required.

ECTS 5953. Independent study in designated subjects. Units: 3

Independent study in designated subjects as needed to fulfill graduation requirements. Individualized course requirements will be specified in each course syllabi to meet necessary standards and evaluative measures. Department consent required.

ECTS 6001. Independent study in designated subjects. Unit: 1

Independent study in designated subjects as needed to fulfill graduation requirements. Individualized course requirements will be specified in each course syllabi to meet necessary standards and evaluative measures. Department consent required.

ECTS 6002. Independent study in designated subjects. Units: 2

Independent study in designated subjects as needed to fulfill graduation requirements. Individualized course requirements will be specified in each course syllabi to meet necessary standards and evaluative measures. Department consent required.

ECTS 6003. Independent study in designated subjects. Units: 3

Independent study in designated subjects as needed to fulfill graduation requirements. Individualized course requirements will be specified in each course syllabi to meet necessary standards and evaluative measures. Department consent required.

ECTS 6010. Principles and Methods for Teaching Designated Subjects. Units: 3

Introduction to the principles and methods for teaching designated subjects. Offered as ECTS 5010 and ECTS 6010, students may not receive credit for both. Formerly offered as ECTS 501.

ECTS 6015. Working Around the World. Units: 3

The effects of religion, language and culture, political structure, economics, and physical environment on the development of the workplace and people's perceptions of work and occupations.

ECTS 6020. Instructional Support for Teaching Designated Subjects. Units: 3

Examination of instructional support for designated subjects with emphasis on program advisory committees, student placement, facilities planning, budgeting, student organizations, public relations, career advancement and educational philosophy. Offered as ECTS 5020 and ECTS 6020; students may not receive credit for both. Formerly offered as ECTS 502.

ECTS 6025. Technological Literacy. Units: 3

This course explores technological concepts and their impact on individuals, society, and culture. Technology as a human adaptive system and its relationship to sociological and ideological systems is discussed.

ECTS 6030. Contemporary Issues in Teaching Designated Subjects. Units: 3

Examination of contemporary issues in designated subjects with emphasis on individual education plans, basic skills, school law, multicultural activities, special needs students, safety and performance assessment instruments. Offered as ECTS 5030 and ECTS 6030; students may not receive credit for both. Formerly offered as ECTS 530.

ECTS 6035. Technology, Ethics, and Society. Units: 3

A framework for understanding how human societies transform themselves through technological innovation. Ethical questions concerning the social effects of technological change.

ECTS 6040. Principles of Career and Technical Education. Units: 3

History, philosophy and social significance of career and technical education, especially in California; investigation of the theories and application of the principles of career and technical education. Offered as ECTS 5040 and ECTS 6040; students may not receive credit for both. Formerly offered as ECTS 504.

ECTS 6080. Organization and Structure of Career and Technical Programs. Units: 3

Investigation and application of principles of facility planning, budgeting, funding sources and related topics as they apply to career and technical programs. Offered as ECTS 5080 and ECTS 6080; students may not receive credit for both. Formerly offered as ECTS 508.

ECTS 6090. Personnel Management in Career and Technical Programs. Units: 3

Semester Prerequisite: ECTS 5080 or ECTS 6080
Principles of personnel selection, evaluation, supervision, school law, and related topics as they apply to career and technical programs. Offered as ECTS 5090 and ECTS 6090; students may not receive credit for both. Formerly offered as ECTS 509.

ECTS 6100. Field Work in Coordination and Supervision of Career and Technical Programs. Units: 3

Semester Prerequisite: ECTS 5090 or ECTS 6090
Supervised field work in supervision and coordination of career and technical programs. Students will contract to perform administrative tasks related to site-based instructional programs. Offered as ECTS 5100 and ECTS 6100; students may not receive credit for both. Formerly offered as ECTS 510.

ECTS 6180. Field Work in Designated Subjects. Units: 3

Quarter Corequisite: ECTS 501 and consent of instructor
Supervised field work for the Designated Subjects Teaching Credential. Includes lesson planning and instructional delivery in an actual teaching environment with evaluation of teaching performance by the on-site supervisor. Offered as ECTS 5180 and ECTS 6180; students may not receive credit for both. Formerly offered as ECTS 518.

ECTS 6190. Instructional Technology for Career and Technical Educators. Units: 3

Application of instructional technology to prepare written, graphic, data base, telecommunication and interactive media materials that accommodate diverse populations in career and technical education with an emphasis on English learner needs. Offered as ECTS 5190 and ECTS 6190; students may not receive credit for both. Formerly offered as ECTS 519.

ECTS 6200. Curriculum Development for Career and Technical Programs. Units: 3

Theory and principles of curriculum development as they apply to vocational, occupational and professional courses. Students will develop a complete curriculum for a course that they could teach. Offered as ECTS 5200 and ECTS 6200; students may not receive credit for both. Formerly offered as ECTS 520.

ECTS 6210. Assessing Student Progress. Units: 3

The development and use of evaluation instruments such as written tests, and criterion-referenced and norm-referenced evaluations. Offered as ECTS 5210 and ECTS 6210; students may not receive credit for both. Formerly offered as ECTS 521.

ECTS 6220. Directing and Managing Occupational Programs. Units: 3

Principles and techniques of design, implementation, management and evaluation of training organizations and programs. Offered as ECTS 5220 and ECTS 6220; students may not receive credit for both. Formerly offered as ECTS 522.

ECTS 6230. Learning Theory and Instructional Research. Units: 3

Application of psychological principles to learning processes relevant to all learners. Focus is on informed decisions about psycho-educational designs which will maximize individual development in cognitive, affective, and psychomotor areas. Offered as ECTS 5230 and ECTS 6230; students may not receive credit for both. Formerly offered as ECTS 523.

ECTS 6350. Research in Career and Technical Education. Units: 3

Analysis and implementation of quantitative, qualitative, and mixed method research in Career and Technical Education.

ECTS 6370. Foundations of Career and Technical Studies. Units: 3

Quarter Prerequisite: graduate standing
Historical context, philosophy and development of vocational education. Formerly offered as ECTS 637.

ECTS 6380. Critical Issues for the Career and Technical Educator. Units: 3

Quarter Prerequisite: ECTS 637 or consent of instructor
Current legislation, program planning, professional development and current issues in vocational education. Formerly offered as ECTS 638.

ECTS 6390. Professional Competencies in Career and Technical Studies. Units: 3

Quarter Prerequisite: ECTS 638 or consent of instructor
Roles of professional organizations, research in vocational education, grant writing and strategies for project evaluation. Formerly offered as ECTS 639.

ECTS 6401. Topics in Education. Unit: 1

Quarter Prerequisite: graduate standing and consent of instructor
Study of selected areas of advanced education topics to be determined by the instructor. May be repeated for credit with consent of instructor as topics change.

ECTS 6402. Topics in Education. Units: 2

Quarter Prerequisite: graduate standing and consent of instructor
Study of selected areas of advanced education topics to be determined by the instructor. May be repeated for credit with consent of instructor as topics change.

ECTS 6403. Topics in Education. Units: 3

Quarter Prerequisite: graduate standing and consent of instructor
Study of selected areas of advanced education topics to be determined by the instructor. May be repeated for credit with consent of instructor as topics change.

ECTS 6410. Topics in Career and technical Education. Units: 3

Study of selected areas of education topics to be determined by the instructor. May be repeated for credit with consent of the instructor as topics change. Offered as ECTS 5410 and ECTS 6410, students may not receive credit for both courses with the same topic. Formerly offered as ECTS 540.

ECTS 6421. Seminar in Designated Subjects Education. Unit: 1

Quarter Prerequisite: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor. Offered as ECTS 5421 and ECTS 6421; students may not receive credit for both courses with the same topic. Formerly offered as ECTS 542.

ECTS 6422. Seminar in Designated Subjects Education. Units: 2

Quarter Prerequisite: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor. Offered as ECTS 5422 and ECTS 6422; students may not receive credit for both courses with the same topic. Formerly offered as ECTS 542B.

ECTS 6423. Seminar in Designated Subjects Education. Units: 3

Quarter Prerequisite: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor. Offered as ECTS 5423 and ECTS 6423; students may not receive credit for both courses with the same topic. Formerly offered as ECTS 5423.

ECTS 6500. Engineering for Educators. Units: 3

This course is designed for those professionals teaching Engineering and Technology courses K-12. The course covers analysis and implementation of effective learning, thinking, modeling, and tool practices as well as standards associated with high quality teaching and leadership in Engineering and Technology education. Offered as ECTS 5500 and ECTS 6500; students may not receive credit for both.

ECTS 6980. Comprehensive Examination. Units: 0

Quarter Prerequisite: Advancement to candidacy, approval of department, completion of course work in the Master Program, and in good academic standing

An assessment of student ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter. Formerly offered as ECTS 999. Department consent required.

Education-Educational Leadership (EDDL)

Courses

EDDL 7012. Foundations of Leadership in PK-12 Institutions. Units: 3

Semester Prerequisite: Admission to EdD Program. Quarter Prerequisite: Admission to the EdD Program

Provides an in-depth overview of California's PK-12 education system. Students will use critical thinking to analyze and evaluate the complexities of historical, philosophical, and socio-political aspects of PK-12 education systems. Emphasizes impact of leadership on societal and legal issues affecting relationships between PK-12 and higher education. Formerly offered as EDUC 705.

EDDL 7020. Foundations of Community Colleges and Other Higher Education Systems. Units: 3

Quarter Prerequisite: Admission to EdD Program

Provides an in-depth overview of California's higher education system. Students will use critical thinking to analyze and evaluate the complexities of historical, philosophical, and socio-political aspects of higher education systems. Emphasizes impact of leadership on societal and legal issues affecting relationships between higher education and PK-12. Formerly offered as EDUC 760.

EDDL 7112. Leadership for Teaching and Learning in PK-12. Units: 3

Semester Prerequisite: Admission to EdD Program. Quarter Prerequisite: EADM 730 and 732

This course presents leadership skills, strategies, and models for leading, teaching, and learning. Emphasizes leadership for improving teaching strategies related to learning theories, instructional reform, and professional development for school improvement. Formerly offered as EADM 736.

EDDL 7120. Leadership for Teaching and Learning in Community College/Higher Education. Units: 3

Semester Prerequisite: Admission to EdD Program

Presents teaching and learning theories, policies, and practices that leaders can engage to foster college student transition, persistence, and completion. Emphasizes leadership practices that coordinate resources, improve student learning, and foster academic achievement for diverse student populations in the community college and higher education sector. Formerly offered as EDUC 764.

EDDL 7212. Public School Organization, Governance, and Policy. Units: 3

Semester Prerequisite: Admission to EdD Program. Quarter Prerequisite: admission to the Ed

Examines PK-12 governance and policy at the district, county, state, and federal level using organizational theories. The course focuses on leaders applying practices that connect legislative and judicial action with social, political, and economic forces affecting PK-12. Formerly offered as EADM 730.

EDDL 7220. Higher Education Organization, Governance, and Policy. Units: 3

Semester Prerequisite: Admission to EdD Program

Examines higher education governance and policy at the institutional, state, and federal level using organizational theories. The advanced course focuses on leaders applying practices that connect legislative and judicial action with social, political, and economic forces affecting higher education. Formerly offered as EDUC 768.

EDDL 7312. Assessment and Data Driven Decision-Making in PK-12. Units: 3

Semester Prerequisite: Admission to EdD Program. Quarter Prerequisite: EADM 734 and EADM 736

Establishes the understanding and application of assessment and evaluation to inform leadership practices that promote equitable student outcomes. This course will focus on the concepts and processes of conducting program evaluation using a variety of evaluation models. Formerly offered as EADM 738.

EDDL 7320. Assessment and Data Driven Decision-Making in Community Colleges/ Higher Education. Units: 3

Semester Prerequisite: Admission to EdD Program

Establishes the understanding and application of assessment and evaluation to inform leadership practices that promote equitable student outcomes and sustain the health of higher education. Formerly offered as EDUC 766.

EDDL 7801. Scientific Inquiry. Units: 3

Semester Prerequisite: Admission to EdD Program. Quarter Prerequisite: admission to the Ed

Offers guided practice in the critical review and application of current educational literature, the development of comprehensive research questions and/or hypothesis development, and design of basic quantitative, qualitative, or mixed methods through a field based problem of practice approach. Three hours seminar and two hours activity. Formerly offered as EDUC 700.

EDDL 7802. Applied Quantitative Research. Units: 3

Semester Prerequisite: Admission to EdD Program. Quarter Prerequisite: EDUC 700 and EDUC 705

Offers guided practice in developing and conducting quantitative research in education. Supports the design and application of quantitative studies adhering to rigorous scientific standards, including data analysis and write up.

EDDL 7803. Applied Qualitative Research. Units: 3

Semester Prerequisite: Admission to EdD Program. Quarter Prerequisite: EDUC 707 and EDUC 709

Offers guided practice in developing and conducting qualitative research in education. Supports the design and application of qualitative studies adhering to rigorous research standards, data analysis and write up.

EDDL 7804. Dissertation. Units: 3

Semester Prerequisite: Admission to EdD Program, advancement to candidacy. Quarter Prerequisite: EDUC 707 and EDUC 716

Directed independent study. Students prepare their dissertations with faculty support. Dissertation focus is primarily on problems of practice and leadership roles that impact the regional service region.

EDDL 7901. Theories and Principles of Leadership. Units: 3

Semester Prerequisite: Admission to EdD Program. Quarter Prerequisite: Admission to the EdD Program

Examines the relationships between theories of educational leadership, applied research, and practice in PK-12 school districts and community colleges. The course provides a context for understanding the current and emerging nature and roles of educational leaders and the importance of visionary leadership based on a shared vision and ethical decision-making.

EDDL 7902. Leadership and Educational Reform. Units: 3

Semester Prerequisite: Admission to the EdD Program

Explores governing educational policy, including significant laws, legal principles, recent litigation, teacher and faculty rights and duties, administrative behavior, board relationships and labor management relations. Focuses on connections between legislative and judicial action and the social, political and economic forces affecting education and leadership practice.

EDDL 7903. Leadership and Fiscal Planning in Complex Organizations. Units: 3

Semester Prerequisite: Admission to the EdD Program

Methods of financing public education. Identifies budgeting and accounting techniques used by school districts and college leaders in support of the instructional process and considers legal requirements and public reactions to the financing of education and resource allocation to achieve student outcomes.

EDDL 7904. Human Resources Development and Management. Units: 3

Semester Prerequisite: Admission to the EdD Program

This course examines leadership issues surrounding human resources in PK-20 contexts, including: state and federal laws, union relations, employee hiring and evaluation, professional development, and capacity building.

EDDL 7905. Field-based Practicum in PK-20 Settings. Units: 3

Field-based experiences that enhance leadership practice and provide for significant interaction in either PK-12 and/or community college/higher education settings.

EDDL 7980. EdD Qualifying Exam. Units: 0

Semester Prerequisite: Admission to EdD Program

Directed independent study. Students prepare for their qualifying exam with faculty support.

Education-Multiple Subject (EDMS)

Courses

EDMS 2301. Introduction to Education. Units: 2

Semester Prerequisite: admission to the Liberal Studies major

Perspectives on public school teaching for potential elementary teachers including the various roles of teachers the society and history. Preparation for admission to the credential portion of the B.A. in Liberal Studies, Integrated Track. A minimum of 30 hours of observation/participation in public schools grades K-8. Formerly EELB 230. Graded A through C-/No Credit.

EDMS 3010. Growth and Development in Socio-Educational Contexts. Units: 3

A comprehensive introduction to human development from birth through adolescence. Emphasis is on physical, cognitive, social-emotional, moral, and language development within educational contexts as affected by race, sex, culture, home language, gender, sexual orientation, socioeconomic status, and special needs. A minimum of 15 hours of observation in an approved school setting is required for this course. Graded A through C-/No Credit. Formerly EELB 301.

EDMS 3011. Observational Methods and Data Collection in School Contexts. Units: 3

Introduction to observational methodologies and data collection techniques used to collect information about children's growth and school contexts. Students will observe, record, analyze, and interpret school age students growth and development as they relate to to current developmental research, theories, and school practices. A minimum of 15 hours of child observation will be required. Formerly offered as EELB 301.

EDMS 4101A. Language Arts Teaching and Learning. Units: 3

Quarter Prerequisite: admission to the Multiple Subject Credential Program

This course provides teacher candidates with the skills, knowledge and practices that promote reading and language arts learning in language arts, content-area instruction and differentiated instruction for all students. The focus of instruction will be on a variety of teaching strategies and theories that inform English Language Arts instruction and learning. Graded A through C-/No Credit. Formerly EELB 315.

EDMS 4101B. Language Arts Teaching and Learning in Bilingual Settings. Units: 3

Semester Prerequisite: admission to the multiple subject credential program. Quarter Prerequisite: admission to the Multiple Subject Credential Program

This course prepares teacher candidates with the skills, knowledge and practices that promote student learning of reading and language arts in bilingual settings. The course examines current theories of biliteracy development and strategies for teaching emergent bilingual learners, with a particular focus on Language Arts instruction. Requires field component including participation with emergent readers in an approved Multiple Subject bilingual setting. Graded A through C-/No credit. Formerly EELB 316.

EDMS 4103. Creating Supportive and Engaging Learning Environments. Units: 2

Quarter Prerequisite: Admission to the Multiple Subject Credential Program

Seminar focusing on knowledge, skills and dispositions required to create and maintain a supportive, healthy environment for student learning. Topics include learning about students, encouraging parental involvement and support, understanding multiple factors that influence behavior, using support personnel, establishing procedures which result in using instructional time effectively, and developing a management plan based on research and personal educational philosophy. Formerly EELB 422. If not taken concurrently with student teaching, then five hours of fieldwork will be required. Graded A through C-/No credit.

EDMS 4107. Supervised Student Teaching in Multiple Subject In Bilingual Settings. Units: 6

This course fulfills in part the clinical experience requirements of the CTC for programs leading to a Multiple Subject Credential. Generally 8 weeks to be completed in bilingual settings such as Dual Language Immersion. The equivalent 4107a for bilingual candidates was updated to 6 units this past term. We request the Bilingual equivalent to be updated to 6 units this time around. semester conversion.

EDMS 4107A. Supervised Student Teaching in Multiple Subject. Units: 6

Semester Prerequisite: Must be a graduate student or admitted to the Multiple Subject Credential Program

Structured, supervised student teaching experience in a TK-6 setting. Those seeking a bilingual added authorization are placed in a bilingual setting. Formerly EELB 540A. Grading: Credit/No credit.

EDMS 4107B. Supervised Student Teaching in Multiple Subject II. Units: 3

Semester Prerequisite: Complete all Phase I courses, including EDMS 4110. Quarter Prerequisite: Complete all phase I courses, including supervised student teaching I

Semester Corequisite: EDMS 4111

Structured, supervised teaching experience in a TK-6 setting. Those seeking a bilingual added authorization are placed in a bilingual setting. Formerly EELB 540B. Must be taken concurrently with EDMS 4111.

EDMS 4108A. Supervised Intern Teaching in Multiple Subject I. Units: 3

Semester Prerequisite: complete all program prerequisites. Prerequisite: EELB 312, EELB 313, EELB 315 or EELB 316, EELB 317, EELB 422, EELB 423, EELB 425, and EELB 560A

Application of theory to practice for intern teachers currently teaching in TK-6 settings. 16 weeks over two semesters of supervised intern teaching are required. Provides intern teachers the opportunity to learn from experienced educators, evaluated against California Teaching Performance Expectations, and to have the support and guidance from site administrators, mentor teacher, and EL expert in order to become effective educators. Graded Credit/No credit. Formerly EELB 560A.

EDMS 4108B. Supervised Intern Teaching in Multiple Subject II. Units: 3

Semester Prerequisite: EDMS 4108A. Quarter Prerequisite: EELB 312, EELB 313, EELB 315 or EELB 316, EELB 317, EELB 422, EELB 423, EELB 425, and EELB 560A

Provides the second semester of supervised student teaching for intern teachers currently teaching in TK-6 settings. 16 weeks over two semesters of supervised intern teaching are required, this is the second semester. Application of theory to practice, provides intern teachers the opportunity to learn from experienced educators, evaluated against California Teaching Performance Expectations, and to have the support and guidance from site administrators, mentor teacher, and EL expert in order to become effective educators. Formerly EELB 560B. Graded Credit/ No Credit.

EDMS 4109. Internship Seminar for Multiple Subject. Units: 3

EDMS 4109 is designed to prepare teacher candidates for a successful completion of their intern teaching assignment and for the entry and success in a professional teaching position in public schools. The teaching/learning methods used in this course will include lecture/demonstration, small group work, and class discussion, a variety of active-learning techniques, microteaching, and independent work. This course is offered during the first semester of internship. Formerly offered as EELB 480. Grading is A through C-/No Credit.

EDMS 4110. Assessment Seminar: CalTPA Cycle. Units: 3

Semester Corequisite: EDMS 4107A

Knowledge, skills and dispositions required for first year teachers. Emphasis on content specific and developmentally appropriate pedagogy, characteristics of English learners and students with special needs, and preparation to document parts of teacher performance expectations 1-6. Preparation and individual mentoring for CalTPA 1 and 2. Graded Credit/ No credit. Formerly EELB 520E.

EDMS 4111. Assessment Seminar: CalTPA Cycle 2. Units: 2

Semester Prerequisite: EDMS 4110

Semester Corequisite: EDMS 4107B

Knowledge, skills and dispositions required for first year teachers. Emphasis on content specific and developmentally appropriate pedagogy, characteristics of English learners and students with special needs, and preparation to document parts of teacher performance expectations 1-6. Preparation and individual mentoring for TPA Cycle 2. Formerly EELB 520F. Graded Credit/No credit.

EDMS 5100. Psychological Foundations of Education. Units: 3

Overview of psychological principles as applied to education using a variety of theoretical perspectives from psychology to explore educational practices, student development and characteristics, learning processes, teaching strategies and assessment in linguistically and culturally diverse classrooms. Requires a minimum ten-hour field component in an approved setting. Graded A through C-/No credit. Formerly EELB 317, EDMS 4100.

EDMS 5102. Pedagogical Foundations for Teaching English Learners. Units: 3

Quarter Prerequisite: admission to the Multiple Subject Credential Program

Examines second language acquisition theories and principles, and instructional practices designed to develop the linguistic, social, and academic proficiency of English learners. Overview of educational equity for culturally and linguistically diverse learners, as this applies to the core curriculum, school practices, and high academic achievement. This course requires a field component at an approved public school setting, K through 6, where English learners attend. Graded A through C-/No credit. Formerly EELB 313, EDMS 4102.

EDMS 5104. Mathematics Teaching and Learning. Units: 3

Semester Prerequisite: Admission to the Multiple Subject Credential Program. Quarter Prerequisite: Admission to the Multiple Subject Credential Program

Introductory course in curriculum and instruction in mathematics. Emphasis on implementing state-adopted mathematics curriculum standards and skills in an elementary classroom based on an in-depth understanding of concepts, skills, and strategies in mathematics. Includes designing instruction to meet the academic needs of all learners in a diverse classroom including English learners and learners with special needs. Graded A through C-/No credit. Formerly EELB 423.

EDMS 5105. Science Teaching and Learning. Units: 3

Semester Prerequisite: admission to the Multiple Subject Credential Program

Introductory course in curriculum and pedagogy in science and health. Emphasis on implementing state adopted science and health curriculum standards in an elementary classroom, including designing instruction to integrate technology and meet academic needs of all learners such as English language learners and special needs students. If not taken concurrently with Student Teaching, then six hours of fieldwork will be required. Graded A through C-/No credit. Formerly EELB 532.

EDMS 5106A. Social Studies and the Arts Teaching and Learning. Units: 3

Semester Prerequisite: Admission to the Multiple Subject Credential Program and completion of all Phase I courses. Quarter Prerequisite: admission to the Multiple Subject Credential Program and completion of all Phase I, II and III courses for intern teachers

Methods of teaching history/social studies and visual/performing arts. Emphasis on implementing state adopted curriculum standards and skills in an elementary classroom based on an in-depth understanding of concepts, skills, and strategies in history/social studies and the visual/performing arts. Includes designing a teaching unit to meet academic needs of all learners including English language learners and learners with special needs. Graded A through C-/No credit. Formerly EELB 533.

EDMS 5106B. Social Studies and the Arts Teaching and Learning in Bilingual Settings. Units: 3

Semester Prerequisite: Admission to the Multiple Subject Credential Program and completion of all Phase I courses

Methods of teaching history/social studies and the visual/performing arts in bilingual settings. Emphasis on implementing state adopted curriculum standards and skills in an elementary school based on an in-depth understanding of concepts, skills, and strategies in history/social studies and the visual/performing arts. Includes designing a teaching unit to meet academic and language needs of all learners, including Spanish-speaking learners and learners with special needs. Part of the course will be taught in Spanish. Formerly EELB 534. Six hours of fieldwork will be required.

Education-School Psychology (EDSP)

Courses

EDSP 6607. Research in School Psychology. Units: 3

Methods for conducting research as well as reading, interpreting and applying empirical research in school psychology and related disciplines to the practice of school psychology. Required to meet the Writing Requirement for Graduate Classification for the Ed.S. in School Psychology. May be taken two times for six units. Formerly EDSP 607.

EDSP 6619. Tests and Measurements in School Psychology. Units: 3

Quarter Prerequisite: Admission to program

Individual and group measurement techniques, behavior observation skills, test interpretation, rights and responsibilities of test takers and administrators, and an introduction to personality, aptitude, and achievement measurements. Formerly known as ECLG 619 / EDSP 619.

EDSP 6621. Introduction to School Psychology Practicum. Units: 4

This course introduces school psychology students to the profession of school psychology. Students will observe current issues and practices in the field of school psychology. Students must complete 120 contiguous hours of supervised field placement in an educational setting. Three hours of seminar and one hour of supervision. Graded Credit/No credit. Formerly known as EDSP 6620.

EDSP 6632. Academic Assessment and Intervention. Units: 3

Examination of theories and practices to promote academic learning for school-aged students. Emphasis on empirically validated assessment, intervention, and progress monitoring practices for students at-risk. Formerly EDSP/ECLG 6632.

EDSP 6633. Advanced Child Development. Units: 3

Quarter Prerequisite: ECLG 531 and 632 or admission to the Program
Recent developments in research and theory of child development. Focus is on typical and atypical cognitive, neurological, and social-emotional development in the context of family and community development. May be taken two times for six units. Formerly EDSP 633.

EDSP 6647. Individual Testing and Case Study Techniques. Units: 3

Quarter Prerequisite: EDSP 619 or equivalent

Intensive practice in administration and interpretation of various cognitive scales. Materials fee required. Formerly EDSP 647.

EDSP 6648. Ecological Assessment and Case Study Techniques. Units: 3

Quarter Prerequisite: EDSP 648

Curriculum-based and authentic assessment techniques. Use of ecological and alternative methods of assessing students and their needs. Social-Emotional, Pathology, and Achievement Testing. Materials fee required. Formerly EDSP 649.

EDSP 6656. Counseling Theories. Units: 3

Theories and practices of counseling, applications to educational settings and community settings. May be taken two times for six units. Formerly EDSP 656.

EDSP 6658. Consultation in School Psychology. Units: 3

Theories and models of consultation in schools. Systems theory as applied to School Psychologists. Evidence-based models of consultation in schools. May be taken two times for six units. Previously known as ECLG 658 / EDSP 658.

EDSP 6660. Child Psychopathology. Units: 3

Quarter Prerequisite: completion of introductory course in child development or equivalent or admission to Program

Interdisciplinary approach to understanding abnormal child development within the context of multicultural settings. Use of taxonomical approach including IDEA (Individuals with Disabilities Education Act) and DSM (Diagnostic Statistical Manual) and standard treatment protocol. May be taken two times for six units. Formerly known as EDSP 660.

EDSP 6678. Counseling in the School and Community. Units: 3

Quarter Prerequisite: Admission to the Program

Theory and practice of individual and group counseling in schools and communities. Formerly known as EDSP 678.

EDSP 6681. Counseling Practicum. Units: 3

Quarter Prerequisite: Admission to EdS or PPS School Psychology program, completion of EDSP 656 with B or better

Seminar and practice in the application of counseling skills, theories and techniques, and evidenced-based interventions. Two hours of seminar and one hour of supervision. Formerly known as EDSP 657A.

EDSP 6683. School Psychology Practicum II. Units: 4

Study and experience relative to the practice of school psychology; an emphasis is placed on assessment of students for disabilities, psycho-educational report writing, and the development of Individual Education Plans. Study of theories and techniques in interventions with parents and children. Emphasis on methodology and application of assessment, academic and social interventions, and counseling skills. Two hours, 50 minutes of seminar and one hour of supervised field practice required. Formerly ECLG 686B and EDSP 6686. Graded Credit/No Credit.

EDSP 6685. School Psychology Practicum I. Units: 3

Study and experience relative to the practice of school psychology; an emphasis is placed on assessment of students for disabilities, psycho-educational report writing, and the development of Individual Education Plans. Study of theories and techniques in interventions with parents and children. Emphasis on methodology and application of assessment, academic and social interventions, and counseling skills. Two hours of seminar and one hour of supervision. Graded Credit/No credit. Formerly EDSP 686A.

EDSP 6687. Educational Practices in School Psychology. Units: 3

Organizational models, systems analysis, change theories, and strategies as applied to educational institutions. School and Special Education Law, Ethics for School Psychologists. Introduction to Exceptionalities. Formerly known as EDSP 687.

EDSP 6688. Behavioral Assessment and Intervention. Units: 3

Examination of the central elements of behavioral assessment and intervention including monitoring progress of empirically validated interventions. Supports ABA in schools. Overview of evidence-based academic and behavioral interventions. Incorporates behavioral as well as systems consultation models. Formerly known as EDSP 688.

EDSP 6691. Applied Research in Educational Settings. Units: 3

In this class, students will apply the skills they have acquired relevant to the theory and practice of school psychology. Students will demonstrate: their knowledge of evidence-based treatments, their ability to synthesize current literature, their understanding of research methods, and their ability to analyze data, as well as demonstrate their writing skills. May be taken two times for six units.

EDSP 6756. Internship in School Psychology. Units: 6

Supervised practice in school psychology with an emphasis on case presentation. Total of 1200 hours (in either paid or unpaid positions) in a school setting. Students may not earn credit for both EDSP 689 and EDSP 6756. May be taken two times for 12 units. Materials fee required. Graded Credit/no credit.

EDSP 6953. Independent Study in School Psychology. Units: 3

Independent study of a topic of interest under the close supervision of a faculty member. May include directed readings, applied work, assisting a faculty member with a research project, carrying out an independent research project, or other activities deemed appropriate. May be taken two times for six units.

EDSP 6980. Comprehensive Examination. Units: 0

Semester Prerequisite: advancement to candidacy, approval of department, completion of course work in the EdS program, and good academic standing. Quarter Prerequisite: advancement to candidacy, approval of department, completion of course work in the EdS program, and good academic standing

An assessment of the students ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter. Graded Credit/No credit.

Education (EDUC)

Courses

EDUC 3201. Diversity in Education. Units: 3

This course explores how issues of race, ethnicity, language, gender, and sexual orientation have shaped American education and how they continue to do so. Furthermore, the course examines different approaches for responding to diversity in education in order to bring about social justice, inclusion, and equity. Graded A through C-/NC.

EDUC 5421. Seminar in Education. Unit: 1

Quarter Prerequisite: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor. Formerly EDUC 542A.

EDUC 5422. Seminar in Education. Units: 2

Quarter Prerequisite: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor. Formerly EDUC 542B.

EDUC 5423. Seminar in Education. Units: 3

Quarter Prerequisite: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor. Formerly EDUC 542C.

EDUC 5424. Seminar in Education. Units: 4

Quarter Prerequisite: graduate standing or consent of instructor
Intensive study of topics and problems in education. May be repeated for credit as subject matter changes and with consent of instructor. Formerly EDUC 542D.

EDUC 5951. Independent Study. Unit: 1

Quarter Prerequisite: a minimum overall grade point average of "B"
Special topics involving library and/or field research. Consent of instructor and college approval of a written proposal of a project submitted on a standard application filed in advance of the semester in which the course is to be taken. Formerly EDUC 595A.

EDUC 5952. Independent Study. Units: 2

Quarter Prerequisite: a minimum overall grade point average of "B"
Special topics involving library and/or field research. Consent of instructor and college approval of a written proposal of a project submitted on a standard application filed in advance of the semester in which the course is to be taken. Formerly EDUC 595B.

EDUC 5953. Independent Study. Units: 3

Quarter Prerequisite: a minimum overall grade point average of "B"
Special topics involving library and/or field research. Consent of instructor and college approval of a written proposal of a project submitted on a standard application filed in advance of the semester in which the course is to be taken. Formerly EDUC 595C.

EDUC 5954. Independent Study. Units: 4

Quarter Prerequisite: a minimum overall grade point average of "B"
Special topics involving library and/or field research. Consent of instructor and college approval of a written proposal of a project submitted on a standard application filed in advance of the semester in which the course is to be taken. Formerly EDUC 595D.

EDUC 6603. Effective Communication in Education. Units: 3

Theoretical approaches to effective communication in educational contexts. Dynamics of interpersonal communication; participation of individuals and small groups from a pluralistic perspective; writing and speaking for professional and academic purposes. Formerly EDUC 603.

EDUC 6607. Introduction to Educational Research. Units: 3

Quarter Prerequisite: EDUC 603 and 605

Introduction to the vocabulary, design, and sources of quantitative and qualitative methodologies, and program evaluation research in education. Ethical strategies for collecting, treating, and reporting data are emphasized; research reports and identifying, developing and critiquing trends in research communities. Formerly EDUC 607.

EDUC 6951. Advanced Independent Study Topics in Education. Unit: 1

Quarter Prerequisite: minimum grade point average of "B"

Special topics involving application of educational procedures. Consent of instructor and college approval of a written proposal of a project submitted on a standard application, and filed in advance of the term in which the course is to be taken. Formerly EDUC 601A.

EDUC 6952. Advanced Independent Study Topics in Education. Units: 2

Quarter Prerequisite: minimum grade point average of "B"

Special topics involving application of educational procedures. Consent of instructor and college approval of a written proposal of a project submitted on a standard application, and filed in advance of the term in which the course is to be taken. Formerly EDUC 601B.

EDUC 6953. Advanced Independent Study Topics in Education. Units: 3

Quarter Prerequisite: minimum grade point average of "B"

Special topics involving application of educational procedures. Consent of instructor and college approval of a written proposal of a project submitted on a standard application, and filed in advance of the term in which the course is to be taken. Formerly EDUC 601C.

EDUC 6954. Advanced Independent Study Topics in Education. Units: 4

Quarter Prerequisite: minimum grade point average of "B"

Special topics involving application of educational procedures. Consent of instructor and college approval of a written proposal of a project submitted on a standard application, and filed in advance of the term in which the course is to be taken. Formerly EDUC 601D.

EDUC 6960. Masters Project. Units: 3

Semester Prerequisite: advancement to candidacy. Quarter Prerequisite: advancement to candidacy

Student completes an independent project at the Master's level, supervised by a faculty member. Formerly EDUC 600.

EDUC 6990. Continuous Enrollment for Graduate Candidacy Standing. Units: 0

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

EDUC 6991. Continuous Enrollment for Graduate Candidacy Standing. Unit: 1

Quarter Prerequisite: Advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

EDUC 6992. Continuous Enrollment for Graduate Candidacy Standing. Units: 2

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

EDUC 6993. Continuous Enrollment for Graduate Candidacy Standing. Units: 3

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

EDUC 6994. Continuous Enrollment for Graduate Candidacy Standing. Units: 4

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

EDUC 6995. Continuous Enrollment for Graduate Candidacy Standing. Units: 5

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

EDUC 6996. Continuous Enrollment for Graduate Candidacy Standing. Units: 6

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

EDUC 7412. Leadership in Pupil Personnel Services. Units: 3

Semester Prerequisite: Admission to the EdD Program. Quarter Prerequisite: EDUC 712 and EDUC 714

Leadership roles in providing the array of pupil personnel services including counseling, school psychology, speech therapy, and other adjunct or related services. Examines the key role that these services represent in overall program design and operation.

EDUC 7420. Career and Technical Education Leadership in Community College. Units: 3

Semester Prerequisite: Admission to EdD Program

Examines the leadership role of career and technical education in community colleges and its overall mission. Focus areas will include the relationships between PK-12 and community college programs with emphasis on state and federal regulations.

EDUC 7907. Diversity and Equity in Education. Units: 3

Semester Prerequisite: Admission to EdD Program. Quarter Prerequisite: EDUC 700 and EDUC 705

This course prepares educational leaders to promote equity and diversity in PK-20. In-depth focus on issues of race, class, gender, immigrant status, sexual orientation and identity, language, and other forms of marginalization. Students review theories, interpret policies, and develop inclusive leadership practices. Formerly offered as EDUC 709.

EDUC 7908. Ethical Leadership and Decision Making in Education. Units: 3

Leadership ethics and the utilization of principles of personal balance in daily life and work. Covers decision-making theories and how decisions are made at various levels in PreK-12 and community college/higher education to effectuate positive and sustaining change. Formerly offered as EDUC 726.

Education-Elementary/Bilingual Education (EELB)

Courses

EELB 5420. Seminar in Elementary/Bilingual Education. Unit: 1

Semester Prerequisite: admission to the Multiple Subject Credential Program and consent of the instructor

Intensive study of topics and problems in education for candidates seeking the Bilingual Added Authorization. May be repeated for credit as subject matter changes and with consent of instructor.

EELB 5500. Social and Cultural Contexts of Bilingual Education. Units: 3

Examination of the social and cultural contexts of bilingual education in the United States. Sociological, societal, historical and cultural contexts in which multilingual learners are educated, including social context, cultural norms and school practices with particular attention to language minority student populations.

EELB 6100. Theory and Approaches in Bilingual Education. Units: 4

Quarter Prerequisite: consent of instructor

Survey of theories, policies and approaches to educating bilingual learners, including bilingual/ crosscultural teaching approaches, instructional modes and program types.

EELB 6200. Bilingual Language and Literacy Development. Units: 3

Examines the language and literacy development of bilingual students from a range of perspectives, with a special emphasis on sociocultural, psycholinguistic, and sociolinguistic understandings of these processes. Formerly offered as EELB 626.

EELB 6250. Instruction and Innovation in Bilingual Education. Units: 4

Semester Prerequisite: EELB 5500

Examines the theoretical bases of innovations in curriculum, instruction and school reform to meet the needs of students in bilingual education. Emphasizes practices, pedagogies and instructional approaches to integrating English and Spanish in the classroom; integrating subject matter content and language.

EELB 6300. Bilingualism and Cognitive Development in Schools. Units: 4

Examines the cognitive development of bilingual learners in school settings. For educators this requires an understanding of the connectedness of social, institutional, motivational and interactional factors which foster the cognitive and academic language development of bilingual students. Includes instructional practices, methods and strategies that foster language and academic development.

EELB 6350. Curriculum and Materials for Bilingual Classrooms. Units: 4

Semester Prerequisite: EELB 6100

Provides participants with advanced knowledge of curriculum design, lesson design and assessment for effective bilingual and English as a Second Language (ESL) instruction. Identifying, selecting, evaluating and designing materials and digital resources for bilingual classrooms.

EELB 6400. Research in Bilingual/Cross-Cultural Education. Units: 4

Survey of current topics in the field of bilingual/crosscultural education and their applications in the classroom. Overview of research methods, interpreting research, and conducting classroom-based research and practitioner inquiry in bilingual classrooms.

EELB 6980. Comprehensive Examination: Bilingual / Crosscultural Education. Units: 0

Semester Prerequisite: Advancement to candidacy, approval of department, completion of course work in the masters program and in good academic standing. Quarter Prerequisite: advancement to candidacy, approval of department, completion of course work in the masters program and in good academic standing

A assessment of the candidate's ability to integrate the knowledge of the field of bilingual/ crosscultural education, show critical and independent thinking and demonstrate mastery of the subject matter. Graded credit/no credit. Formerly EELB 999.

Education-English Speakers other Languages (EESL)

Courses

EESL 5050. Graduate Writing for TESOL. Units: 3

Writing for academic purposes at the graduate level, for candidates in the Master of Arts in TESOL. Academic language, multiple academic genres, academic citation and reference conventions, avoiding plagiarism.

EESL 5200. Language Studies for Educators. Units: 3

Introduction to the study of language structure meaning and use for language teachers and educators; survey of first and second language acquisition processes and theories. Introduction to situational, geographical, and identity- based language variation.

EESL 5300. Technology-Enhanced Language Learning. Units: 3

Survey and practice in technology applications for teaching English as an additional language in educational environments including electronic media, Internet, cloud-, mobile-, CD-ROM-, or DVD-based interactive materials, networks, and multimedia. Course includes a computer lab for hands-on application activities with multimedia and technology applications. Formerly offered as EESL 521. Two hours lecture and two hours activity.

EESL 5420. Special Topics in TESOL. Units: 3

Intensive study of selected topics in education for TESOL. May be repeated for credit as topics change. Formerly offered as EESL 542D.

EESL 5500. Listening and Speaking Methods in TESOL. Units: 3

Survey of contemporary pedagogy for teaching listening and speaking skills in English-as-a-second-language (ESL) and English-as-a-foreign-language (EFL) classrooms. In-depth analyses of purposes, audiences, and strategies for oral expression; including methods for teaching pronunciation in second-language acquisition. Formerly a topic under EESL 543.

EESL 6300. Crosscultural Teaching. Units: 3

Methods and instructional strategies for teaching in multicultural and cross-cultural settings in both ESL and EFL contexts. This course prepares teachers to develop cultural awareness and skills to assist and motivate culturally diverse students. May be offered through distance learning. Formerly EESL 536.

EESL 6400. Literacy in TESOL. Units: 3

Semester Prerequisite: EESL 5100

Survey of contemporary approaches to teaching and assessing literacy in multilingual contexts. Introduction to teaching, assessing, and designing instruction for reading and writing, including emergent and basic literacy for children and adults; reading and writing skills and strategies; writing for personal, academic, and creative purposes; and critical literacy.

EESL 6600. Structure, Function and Acquisition of English. Units: 3

Survey of theories and approaches in second language acquisition across settings. Structures, functions and uses of the English language, and how they are acquired and taught in second language and foreign language classrooms. Formerly EESL 660.

EESL 6700. Principles and Practice in TESOL. Units: 3

Second language acquisition theory, methods for teaching English as a second language (ESL), lesson planning, development and evaluation of materials and activities for ESL instruction. Formerly EESL 670.

EESL 6800. Research in TESOL. Units: 3

Overview of important themes and debates in TESOL research, offering a perspective on current research principles and modes of investigation across a wide spectrum of topics in teaching English to speakers of other languages, including communicative competence, transfer, modalities of language use, learning styles and strategies, and language acquisition. Students develop and master skills for interpreting, reviewing, and writing up research. Formerly EESL 685.

EESL 6900. Fieldwork: Teaching English to Speakers of Other Languages. Units: 3

Quarter Prerequisite: consent of instructor

Supervised field work at pre-approved fieldwork sites in selected teaching methods and materials development for TESOL. Formerly EESL 679.

EESL 6970. Master's Thesis in TESOL. Units: 3

Quarter Prerequisite: Advancement to candidacy

Development and completion of master's thesis.

EESL 6980. Comprehensive Examination in TESOL. Units: 0

Semester Prerequisite: EESL 6100, Advancement to candidacy, approval of department, submission of Candidate Assessment Portfolio, and good academic standing

An assessment of the candidate's ability to integrate the knowledge of the discipline, and demonstrate critical and independent thinking that evinces mastery of the subject matter. Graded credit/no credit.

Education-Master of Arts in Teaching (EMAT)**Courses****EMAT 5100. Technology and Instructional Practices for Educators. Unit: 1**

An emphasis on integrating new media and educational technology with content knowledge in K-12 classrooms. Enhances student knowledge and skills to use technology to introduce, reinforce, extend, enrich, assess, and remediate learning. Graded A through C-/No credit.

EMAT 5101. Education, Diversity and Social Justice. Units: 3

Examines issues of disparity among racial, cultural and linguistic groups in California and the U.S. Interactions among factors such as teaching quality, educational equity, state/federal policies, and achievement gaps are explored. Disparities in educational opportunities and resources are examined with an emphasis on social justice. Formerly offered as EELB 510. Grading is A through C-/No Credit.

EMAT 6011. Advanced Study in Literacy across the Curriculum. Units: 3

A focus on advanced knowledge, skills, and abilities to teach reading/ language arts across the different school subjects. Prepares teachers to effectively engage students in learning the language, texts, and literacy practices across different subjects. The role of theoretical frameworks in literacy instruction and learning is highlighted. The importance of literacy instruction and learning that is grounded in social, cultural, historical, psychological, political, and ideological practices is emphasized. Connections between different theoretical perspectives and real-life classroom practices are explored. Graded A through C-/No Credit.

EMAT 6012. Advanced Teaching Methods. Units: 3

Advanced knowledge and skills to implement innovative and creative teaching methods to reach diverse students in schools including English Language Learners. Emphasis on high-impact practices including classroom discussion, collaborative problem solving, metacognitive strategies, formative assessment, effective feedback, scaffolding, and technology to creating inclusive learning environments and maintaining high expectations for all students. Grading is A through C-/No Credit.

EMAT 6013. Educational Research: Inquiry into Classrooms. Units: 3

Educational research with an emphasis on inquiry about teaching, learning and other concepts/practices. Student-directed, interest-driven approaches to new knowledge about the complexity of today's classrooms. Develop hands-on, minds-on skills that increase student engagement in learning. Students will learn effective strategies that they can implement to understand the complex work of student learning; prioritize the knowledge, skills and background experiences that students bring to the classroom; and promote active problem-solving, communication, and the shared construction of new ideas in the classroom. Graded A through C-/No credit.

EMAT 6014. Assessment and Instructional Differentiation. Units: 3

Advanced assessment strategies to measure student performance and deliver effective differentiation of instruction based on a variety of theoretical perspectives from psychology. A focus on formative assessment and the use of feedback that enables enhances learning. Differentiated assessment strategies for diverse learning needs. Understanding the role of assessment in effective instructional planning and implementation. The course explores how assessment affects the other classroom elements (learning environment, curriculum, instruction, and leadership and management). Graded A through C-/No credit.

EMAT 6015. Leadership in Education. Units: 3

Designed to introduce students to leadership experience and leadership roles in schools. The course will emphasize initiatives teachers can take to improve school-wide policies and programs, teaching and learning opportunities, and communication across stakeholders. In particular, this course will provide students the knowledge to improve their schools by developing the skills required to act as leaders. Graded A through C-/No Credit.

EMAT 6016. Social Justice in Education. Units: 3

Examines issues and research on disparity among racial, culturally responsive, and anti-racist in education. The course develops multiple perspectives to educate each and every student regardless of social class, culture, race, ethnicity, language, gender, and sexual identity.

EMAT 6017. Advanced Educational Psychology. Units: 3

This is an advanced seminar exploring recent research, theory, and practice concerning cognition, social-emotional development, learning and instruction, and motivation within diverse educational contexts. The course uses social science research to explore educational practices, student characteristics, learning processes, teaching strategies, and classroom evaluation in today's diverse and rapidly changing educational communities. Formerly EDCI 638.

EMAT 6018. Advanced Seminar in Education. Units: 2

The seminar is designed to prepare and support students as they write their theses, projects, or prepare for the comprehensive examinations. Graded Credit/No credit.

EMAT 6020. Seminar in Professional Development. Units: 3

Principles and processes to enhance students' knowledge, skills, and dispositions for planning, developing and evaluating professional development (PD) activities and programs. Course focuses on procedures for identifying teacher needs, establishing PD goals and outcome criteria. Includes the study of professional development models such as Lesson Study, Professional Learning Communities (PLC), and Personal/Professional Service. # Graded A through C-/No credit.

EMAT 6605. Advanced Topics in Education. Units: 3

History and theory of elementary, secondary and post-secondary education within the setting of American society: underlying assumptions, organizational structure, leadership, policy, and educational change. Multiculturalism is studied in a balanced context relevant to the educational setting. Students apply what they learn to their educational philosophy, thereby connecting theory to the daily practice in the schools. Course offered as ESEC 6605 and EMAT 6605; credit cannot be awarded for both. Formerly EDUC 605/6605.

EMAT 6960. Culminating Experience: Project. Units: 3

The project address a practical educational problem resulting in resolution or a product that has application. Students apply original thinking, critical and independent thinking to what they have learned in the program to address real-life situations, problems or challenges. Graded Credit/No credit.

EMAT 6970. Culminating Experience: Thesis. Units: 3

Students conduct original research under the guidance of a faculty advisor. Students show evidence of systematically addressing original research questions, critical and independent thinking. Graded Credit/No credit.

EMAT 6979. Comprehensive Preparation in Teacher Education. Units: 3

Prerequisites: Completion of courses for the program, advancement to candidacy and permission of program coordinator
Review and prepare for the written comprehensive examination. Case studies will be presented. Consent required.

EMAT 6980. Comprehensive Examination. Units: 0

The comprehensive examination is designed to assess the cumulative knowledge, skills and abilities that students have acquired over the period of being in the master program. Graded Credit/No credit.

English (ENG)

Courses

ENG 1000. Academic Speaking for Multilingual Students. Units: 3

Analysis and practice of spoken language in university settings, such as classroom discussions, laboratories, office hours, and other interactions. Builds students' understanding of and fluency in such areas as intonation patterns, grammatical structures, and discourse strategies for particular academic situations. Formerly offered as Eng 100.

ENG 1050A. Stretch Composition I. Units: 3

Analysis and use of strategies for conducting research and critically reading and writing expository texts. Explores relationships among language, meaning, and context, and emphasizes writing as a recursive process and as a means of critical thinking. Students identify themselves for placement in this course through Directed Self-Placement. Students will remain with the same cohort of classmates in the same time slot across ENG 1050A -ENG 1060A. Graded Credit/No Credit. Formerly offered as Eng 105A.

ENG 1050B. Stretch Composition I for Multilingual Students. Units: 3

Analysis and use of strategies for conducting research and critically reading and writing expository texts. Explores relationships among language, meaning, and context, and emphasizes writing as a recursive process and as a means of critical thinking. Students identify themselves for placement in this course through Directed Self-Placement and through self-identification as a speaker of a native or home language other than English. Students who meet these two criteria may also opt to take ENG 1050A instead of ENG 1050B. Students will remain with the same cohort of classmates in the same time slot across ENG 1050B -ENG 1060B. Graded Credit/No Credit. Formerly offered as Eng 105B.

ENG 1060A. Stretch Composition II. Units: 3

Semester Prerequisite: ENG 1050A

Further examination of how written language functions in context. Builds students' abilities to conduct research and to integrate it into their own arguments. Students will remain with the same cohort of classmates in the same time slot across ENG 1050A - ENG 1060A. Graded A through C-/No Credit. A grade of C- or better satisfies GE A2/1A.

ENG 1060B. Stretch Composition II for Multilingual Students. Units: 3

Semester Prerequisite: ENG 1050B

Further examination of how written language functions in context. Builds students' abilities to conduct research and to integrate it into their own arguments. Students will remain with the same cohort of classmates in the same time slot across ENG 1050B - ENG 1060B. Graded A through C-/No Credit. A grade of C- or better Satisfies GE A2/1A.

ENG 1070A. First-Year Composition. Units: 3

Concentrated composition course for advanced first-year writers.

Examines the ways written language functions in various contexts.

Requires students to conduct research, to draw upon their critical readings of texts to develop their own arguments, and to examine and use rhetorical strategies that respond to different situations. Students identify themselves for placement in this course through Directed Self-Placement. Graded A through C-/No Credit. A grade of C- or better satisfies GE A2/1A.

ENG 1070B. First-Year Composition for Multilingual Students. Units: 3

Concentrated composition course for advanced first-year writers.

Examines the ways written language functions in various contexts.

Requires students to conduct research, to draw upon their critical readings of texts to develop their own arguments, and to examine and use rhetorical strategies that respond to different situations. Students identify themselves for placement in this course through Directed Self-Placement and through self-identification as a speaker of a native or home language other than English. Students who meet these criteria may also opt to take ENG 1070A instead of ENG 1070B. Graded A through C-/No Credit. A grade of C- or better satisfies GE A2/1A.

ENG 1120. Speculative Fiction: Science Fiction, Horror, Fantasy. Units: 3

Reading and analysis of speculative fiction in its historical and cultural contexts, with emphasis on critical reading and writing. Genres may include but are not limited to science fiction, fantasy, and horror, either individually or in combination. Satisfies GE C2/3B. May be taken for up to 9 units as topics change, only three credits of which can be used for GE.

ENG 1200. Multi-Ethnic American Literature. Units: 3

Introduction to literary works produced by individuals of African American, Asian American, Chicana/Latinx, or Native American heritage, with an emphasis on literary, historical, and cultural context. Satisfies GE C2/3B, DI designation. May be taken for up to 9 units, only three of which can be used for GE.

ENG 1210. Diversity Literature and Social Justice. Units: 3

Introduction to literary works that reflect diversity, especially of race, gender, sexual orientation, ability, class, or culture, with an emphasis on how literature can respond to questions of social justice, equity, and human rights. Satisfies GE C2/3B, DI, WI designation. May be taken for up to 9 units as topics change, only three of which can be used for GE.

ENG 1300. Foundation Seminar: Language, Society, and Power. Units: 3

Seminar on roles that language plays in personal relationships and in such aspects of society as politics, law, technology, religion, and consumer culture. Emphasizes the power of language to influence, control, and inspire change through various genres and media. Attends to analytical and research strategies critical for students' success in academic, social, and personal settings. Satisfies WI designation.

ENG 1700. Studies in Literature and Creative Writing. Units: 3

Analysis and production of the forms and content of literature. Emphasis placed on methodologies of reading and writing fiction, creative nonfiction, poetry and drama for various media and performance contexts. Satisfies GE C2/3B, DI designation.

ENG 2000. Introduction to English Studies. Units: 3

Introduction to the sub-disciplines in English, including literature, creative writing, linguistics, and rhetoric and writing studies. Orients students to various dimensions of English Studies, the goals of the English B.A., and possible career pathways for English majors. Graded credit/no credit.

ENG 2100. Historical Approaches to English Literature. Units: 3

Quarter Prerequisite: Satisfaction of the GE written communication (A1) requirement or equivalent

Historically framed readings in English literature from the Middle Ages to the 18th Century. Formerly English 210.

ENG 2180. The Function of Stories. Units: 3

Examination of the role of stories and storytelling in human societies. Reading and analysis of multidisciplinary theories of the rise of storytelling in the human species and of narrative texts (both film and written) that reflect on the roles stories play in our lives. Satisfies GE C2/3B.

ENG 2250. Historical Approaches to American Literature. Units: 3

Historically framed readings in American literature. Formerly ENG 325.

ENG 2300. Historical Approaches to British Literature. Units: 3

Historically framed readings in nineteenth- and twentieth-century British literature to the present. Formerly ENG 212.

ENG 2400. Writing in the Public Sphere.**Units: 3**

Consideration of how writers use texts (including visual, digital, and print media) to represent public issues and effect public action. Emphasizes the social and material aspects of public writing and public rhetorics, and includes practice in writing for the public sphere. Satisfies WI designation. Formerly ENG 240.

ENG 2500. Introduction to Creative Writing Studies. Units: 3

Introduction to the reading and writing of multiple genres, such as fiction, non-fiction, drama, and poetry. Emphasis on creative writing process, including reading works by established authors and drafting, reading, discussing, and revising original works by students.

ENG 3000. Studies in Global Literatures.**Units: 3**

Study of literatures from diverse regions around the world with an emphasis on their emergence in and circulation beyond specific local contexts. Considers how global literatures are shaped by various historical and social processes driving conflict, connectivity, and cross-cultural exchange. Satisfies GE C4/UD-3, DI, G, WI designations, Global Connections, World Cultures and Diversity pathways.

ENG 3010. Analysis of Poetry and Drama.**Units: 3**

A literary analysis of both poetry and drama with special emphasis on how to write effectively about these forms of literature. Satisfies WI designation.

ENG 3030. Analysis of Fiction and Nonfiction Prose. Units: 3

A literary analysis of both fiction and nonfiction prose with special emphasis on how to write effectively about these forms of literature. Satisfies WI designation.

ENG 3060. Writing as Academic Inquiry.**Units: 3**

Semester Prerequisite: Satisfaction of GE 1A and junior or senior standing

In this writing-intensive course, students will gain a deeper and more conscious sense of the possibilities of academic inquiry, how disciplinary knowledge is created, and the role of language and writing in inquiry and knowledge making. Through critical reading, writing, and research, students will participate in academic conversation, intersectional inquiry, and explore both the contexts of and the genres within those conversations, as well as consider the ethical responsibility of participating in knowledge-making processes. Revision, rewriting, and collaboration are key components of this course. All majors welcome. Satisfies WI designation.

ENG 3061. Science Writing as Academic Inquiry. Units: 3

Semester Prerequisite: Satisfaction of GE 1A, 1B, and junior or senior standing

This writing intensive course focuses on writing in and about the natural sciences. Students will gain a deeper and more conscious sense of both the possibilities of scientific inquiry and the role of language and writing in scientific inquiry and knowledge-making. Through reading, discussion, writing, and research, students will explore, analyze, and write within a variety of science-related genres, including formal scientific writing (e.g., research and review papers, proposals), as well as those used by scientists to communicate with the general public. Revision, rewriting, and collaboration are key components of the course. This course will also consider the complexities of information creation and dissemination as they relate to the natural sciences. Satisfies WI designation. Graded A through C-/no credit.

ENG 3070. Theories of Public and Professional Writing. Units: 3

Introduction to theoretical and rhetorical frameworks for public and professional writing and practice in developing writing projects. Satisfies WI designation.

ENG 3110. Introduction to Linguistics. Units: 3

Overview of key concepts and methods of linguistics, as applied to the English language. Explores a variety of linguistic areas, such as phonetics, phonology, morphology, syntax, pragmatics, sociolinguistics, and language acquisition. Formerly offered as ENG 311.

ENG 3140. Native American and Indigenous Literatures. Units: 3

A consideration of the oral traditions and literary works of diverse tribal nations. This course specifically attends to the historical, political, and cultural contexts of Native American creative expression. Satisfies GE C4/UD-3, DI, WI designations, World Cultures and Diversity pathway.

ENG 3150. Studies in a Literary Genre. Units: 3

Intensive study of a selected genre. May be repeated for up to 15 units as topics change.

ENG 3190. Studies in Literary Diversity. Units: 3

Intensive study of literature which reflects diversity, especially of race, gender, sexual orientation, class or culture. May be repeated for credit as topics change. Formerly ENG 319.

ENG 3200. Literature for Children and Young Adults. Units: 3

Analysis of, and approaches to, literature for children, adolescents and young adults; emphasis on genre conventions, literary and cultural aspects, and methods for evaluating, selecting and teaching books for readers from preschool through YA age. Satisfies GE C4/UD-3, DI designation.

ENG 3210. Language, Thought, and Culture. Units: 3

Investigation of the interconnectness of language, thought, and culture. Using a cross-linguistic, cross-cultural approach, examines how language both shapes and reflects thought and cultural practice. Satisfies WI designation.

ENG 3220. English Grammar. Units: 3

Study and analysis of grammatical structures of English, focusing on their forms, meanings, and uses. Formerly offered as ENG 420.

ENG 3230. Chicana/o Literature. Units: 3

Selected literature by and about Mexican Americans. Emphasis on the uniqueness of the voices that collectively define Chicana/o literature and on the formal and thematic characteristics of that literature. Formerly ENG 323.

ENG 3240. Studies in Literary Topics. Units: 3

Study of a selected topic in literature. Satisfies WI designation. May be taken 5 times for credit as topics change.

ENG 3250. Asian American Literature. Units: 3

Selected literature by and about Asian Americans. Emphasis on the uniqueness of the voices that collectively define Asian American literature and on the formal and thematic characteristics of Asian American texts.

ENG 3260. Caribbean Literature. Units: 3

Selected literature by and about Caribbean people. Emphasis on the uniqueness of the voices that collectively define Caribbean literature and on the formal and thematic characteristics of Caribbean texts.

ENG 3280. Disability Literature. Units: 3

Selected literature by and about people with disabilities. Emphasis on the uniqueness of the voices and experience that collectively define literature by people with disabilities and on the formal and thematic characteristics of these texts.

ENG 3290. Introduction to Literacy and Writing Studies. Units: 3

Examination of literacy as a historically and socially mediated set of values and practices, with specific consideration of how literacy functions in specific communities. Introduces students to related theories of writing and language use. Formerly ENG 329.

ENG 3300. Tutoring Writing: Theory and Practice. Units: 3

Study of theories and methods for tutoring writing in college, secondary schools, and community contexts. Those completing this course with a grade of "B" or better are eligible to participate in campus writing tutoring programs. Satisfies WI designation.

ENG 3310. Child Language and Literacy Development. Units: 3

Examination of how children acquire language and literacy. Attends to linguistic, cognitive, and social factors shaping children's acquisition processes. To enroll in this course in the fall semester, students must be admitted to the Minor in Speech-Language Pathology or the Speech-Language Pathology Master's Preparatory Certificate, or receive permission from the instructor. The course is open to all eligible students in the spring semester. Equivalent to CD/CAFS 3305, credit may not be awarded for both courses.

ENG 3320. Second Language Acquisition. Units: 3

Examination of linguistic, psychological, and social aspects of second language acquisition. Considers implications for second language teaching. Formerly ENG 312.

ENG 3330. Myth and Epic. Units: 3

Myths and epics as they appear in folklore and classical literature, emphasizing their relationship to later Western literature. Formerly 333.

ENG 3350. Studies in the Novel. Units: 3

Studies in the novel with emphasis on close reading of specific texts. Formerly ENG 335.

ENG 3360. Women Writers. Units: 3

Literary analysis of selected works by women writers, with special emphasis on historical and contemporary issues in women's lives. Formerly 336.

ENG 3390. African American Literature. Units: 3

Selected literature by and about African Americans. Emphasis on the uniqueness of the voices that collectively define African American literature from the oral tradition to the present and on the formal and thematic characteristics of African American texts. Formerly ENG 339.

ENG 3400. Analysis of Environmental Discourse. Units: 3

Analysis of contemporary arguments related to sustainability, environmental justice, and global climate change issues. Examines how political, popular, cultural, and academic discourses in writing and in film shape environmental consciousness and inform attitudes towards, and participation in, environmental advocacy and activism. Satisfies GE C4/UD-3, G, WI designations, Environmental Sustainability pathway.

ENG 3410. Environmental Literature. Units: 3

Intensive study of environmental literature. Emphasis on critical consideration of environmental themes, issues, and concerns treated within literary works across historical periods, aesthetic movements, geographical regions, and genres. Satisfies GE C4/UD-3, G, WI designations, Environmental Sustainability pathway.

ENG 3470. Writing for Performance. Units: 3

Students acquire the essential creative writing skills for dramatic storytelling. Classroom exercises will culminate in students writing scripts for stage productions and dramatic texts for digital and multi-media production.

ENG 3500. Literary Movements: Aesthetics and Craft. Units: 3

Intensive study of varying approaches to the reading and writing of prose, poetry, and related literary genres. Emphasis on narrative and poetic theories, techniques, and strategies to help students define their own sensibilities within larger creative writing communities. Satisfies WI designation.

ENG 3510. History of the English Language. Units: 3

Study of the development of the English language from its beginnings to the present. Examines changes in English grammar, vocabulary, and pronunciation within historical contexts. Formerly ENG 422.

ENG 3600. Studies in Writing. Units: 3

Quarter Prerequisite: Upper-division writing requirement or consent of instructor

Study of a selected topic in writing studies. May be taken for up to 6 units as topics change. Formerly Eng 308.

ENG 3610. Studies in Literacy. Units: 3

Study of a selected topic in literacy studies. May be taken for up to 6 units as topics change.

ENG 3620. Studies in Rhetoric. Units: 3

Study of a selected topic in rhetoric studies. May be taken two times for up to six units as topics change.

ENG 3700. Turning Points in Literary History. Units: 3

Seminar on the perception and expression of major cultural transitions through imaginative literature. Explores literature not only as a record of the impact of big ideas, but also as an agent for communicating innovative thought and changing culture and values. Satisfies GE C4/UD-3, WI designation, Big Ideas that Change the World: Exploring Ideas, Innovations, Discoveries pathway.

ENG 3750. Studies in Literary Theory. Units: 3

Survey of major issues in literary theory. Formerly ENG 385.

ENG 3991. Community Service Project. Unit: 1

Semester Prerequisite: Consent of instructor or departmental approval of a written application submitted in advance of the semester in which the course is to be taken. Quarter Prerequisite: Departmental approval of a written application submitted in advance of the quarter in which the course is to be taken

Application of previously learned skills in the area of English to academically related tasks in such agencies as governmental, social services and educational institutions. May be taken for up to 6 units of community service project credit. Graded credit/no credit. Formerly ENG 399A.

ENG 3992. Community Service Project. Units: 2

Semester Prerequisite: Consent of instructor or departmental approval of a written application submitted in advance of the semester in which the course is to be taken

Application of previously learned skills in the area of English to academically related tasks in such agencies as governmental, social services and educational institutions. May be taken for up to 6 units of community service project credit. Graded credit/no credit. Formerly ENG 399B.

ENG 3993. Community Service Project. Units: 3

Semester Prerequisite: Consent of instructor or departmental approval of a written application submitted in advance of the semester in which the course is to be taken

Credit for applying previously learned skills in the area of English to academically related tasks in such agencies as governmental, social services and educational institutions. May be taken for up to 6 units of community service project credit. Graded credit/no credit.

ENG 4010. English Literature of the Middle Ages. Units: 3

Lyric, drama, prose and verse narrative from the beginnings of English literature through Malory. Formerly ENG 401.

ENG 4030. English Literature of the Tudor/Stuart Era. Units: 3

Poetry, prose and drama from the Tudor and Stuart eras. Formerly ENG 403.

ENG 4060. Seventeenth Century Literature. Units: 3

English prose and poetry from Bacon through Milton. Formerly ENG 406.

ENG 4090. English Literature of the Restoration and Eighteenth Century. Units: 3

English poetry and prose of the Restoration and eighteenth century. Formerly ENG 409.

ENG 4120. Romantic Literature. Units: 3

Close study of eighteenth- and nineteenth-century British Romanticism, broadly conceived, with attention to major Romantic writers and relevant cultural contexts. Formerly ENG 412.

ENG 4150. Victorian Literature. Units: 3

Close study of Victorian literature and culture including major authors. Formerly ENG 415.

ENG 4170. Poetry Writing Workshop. Units: 3

Workshop in poetry writing; discussion of student writing and exemplary texts by established poets. May be taken for up to 6 units of credit. Formerly ENG 417.

ENG 4180. Fiction Writing Workshop. Units: 3

Workshop in fiction writing; discussion of student writing and exemplary texts by established fiction writers. May be taken for up to 6 units of credit. Formerly ENG 418.

ENG 4400. Studies in a Literary Period or Movement. Units: 3

Intensive study of literature within historical and/or cultural contexts. May be taken for up to 15 units as topics change. Formerly ENG 440.

ENG 4410. Studies in a Major Authors. Units: 3

Intensive study of a selected author or authors. May be repeated for up to 15 units as topics change. Formerly ENG 441.

ENG 4420. Modern Poetry. Units: 3

Poetry in English from the late nineteenth century to World War II. Formerly ENG 442.

ENG 4430. Contemporary Poetry. Units: 3

Poetry in English from World War II to the present. Formerly ENG 443.

ENG 4470. Modern Fiction. Units: 3

Fiction in English from 1900 through World War II. Formerly ENG 447.

ENG 4480. Contemporary Fiction. Units: 3

Fiction in English from World War II to the present. Formerly ENG 448.

ENG 4630. Advanced Studies in Literary Topics. Units: 3

Advanced study of a topic in literature. May be taken again for credit as topics change. Formerly ENG 463.

ENG 4750. Shakespeare and Renaissance Drama. Units: 3

Study of the comedies, histories, tragedies and late romances of Shakespeare in the context of Renaissance drama. Formerly ENG 475.

ENG 5010. Media Performance Practicum. Units: 3

Quarter Prerequisite: Consent of instructor

Practical application of writing, performance, and production skills. The practicum course is designed for students interested in writing scripts, performing, and producing for radio shows, online and other social media outlets. May be taken for up to 6 units of credit. Graded credit/No Credit. Formerly ENG 501.

ENG 5020. English Study Abroad. Units: 3

Research project based on traveling or living in an English-speaking country. Research for the project will be completed in the country of choice. When study is associated with an academic program, copies of grades, syllabus and submitted work may substitute for research project. May be taken for up to 6 units. Graded credit/no credit.

ENG 5030. English Practicum. Units: 3

This course allows students to apply theoretical, creative, and scholarly knowledge to a practical experience or project. Such projects may be carried out in a conventional classroom setting, or at/or in collaboration with an institution such as a government agency or local community organization. The class will meet regularly to develop and analyze student projects. May be taken for up to six units.

ENG 5100. Teaching English in the Secondary Schools. Units: 3

Semester Prerequisite: Junior class standing

English as a secondary school subject including language, literature, and composition. Emphasis on theories and practices associated with reading, writing, and assessment. Formerly ENG 510.

ENG 5110. Creative Writing in the Secondary Classroom. Units: 3

Semester Prerequisite: Consent of instructor

Advanced methods for teaching the techniques of creative writing. Focus on development of a portfolio of teaching material and digital and media literacy as related to creative writing. Requires a minimum six-hour field component. May be taken again for credit as topics change. Formerly ENG 511.

ENG 5110B. Creative Writing in the Secondary Classroom B. Units: 3

Semester Prerequisite: Consent of instructor

Advanced methods for teaching the techniques of creative writing, focusing primarily on fiction and nonfiction. Focus on the development of a portfolio of teaching material and on digital and media literacy as they relate to creative writing. Requires a minimum six-hour field component.

ENG 5120. Literary and Cultural Criticism in the Public Sphere. Units: 3

Advanced study and production of literary criticism written for a public audience.

ENG 5130. Advanced Creative Writing in Specialized Genres. Units: 3

Advanced workshop in writing in a specialized genre, with discussion of student writing and of exemplary works by established writers. May be taken again for up to 15 units as topics change. Formerly ENG 513.

ENG 5140. Community-Based Writing. Units: 3

Study of a selected topic in community-based writing and literacy with a focus on the practice, teaching and/or learning of writing in non-university contexts. Includes attention to the ethics of writing and/or teaching within the given context(s). Requires a minimum ten-hour field component. May be taken for up to 6 units as topics change.

ENG 5150. Senior Seminar in Literature. Units: 3

Advanced study of a selected literary topic, including consideration of critical theory and methodology. May be taken five times for 15 units as topics change. Satisfies WI designation. Formerly ENG 515.

ENG 5160. Professional Pathways for English Majors. Units: 3

Preparation of English majors for various career paths. Guides students in reflecting on expertise they have gained in the English B.A. and how to translate that expertise for the workplace, graduate study and/or other professional contexts. Graded credit/no credit.

ENG 5170. Honors Project. Units: 3

Semester Prerequisite: B+ grade point average in the English major
Preparation of a piece of graduate-level writing (which may be an expansion of one of the student's papers or other work) to be presented at an honors colloquium. Required attendance at honors/research colloquia. B+ grade point average in the English major required. Graded credit/no credit. Formerly ENG 517.

ENG 5180. Research Project. Units: 3

Semester Prerequisite: Consent of Instructor

Preparation of a piece of graduate-level writing (which may be an expansion of one of the student's papers or other work) to be presented at an honors colloquium. Required attendance at honors/research honors colloquia. Graded credit/no credit.

ENG 5190. Creative Writing: Thesis and Performance. Units: 3

Semester Prerequisite: Completion of ENG 3500 and ENG 5130, approval of a written application submitted in advance of the semester in which the course is to be taken, and consent of instructor

A culminating experience for English majors in Creative Writing concentration, with a focus on revision of original student work for senior project and varying approaches to the performance of student work. Students may focus on their specialization in creative writing or select a project that is multidisciplinary and/or interdisciplinary in scope.

ENG 5210. Introduction to Speech-Language Pathology and Audiology. Units: 3

Survey of various language and communication disorders. Offers an overview of communication sciences and disorders as a field. To enroll in this course, students must be admitted to the Minor in Speech-Language Pathology or the Speech-Language Pathology Master's Preparatory Certificate, or receive permission from the instructor. Department consent required.

ENG 5220. Language and Speech Science. Units: 3

Semester Prerequisite: Must be admitted to the Minor in Speech-Language Pathology or the Speech-Language Pathology Master's Preparatory Certificate, or receive permission from the instructor. Introduction to aspects of speech and language, including those relevant to communicative disorders. Particular emphasis on articulatory, perceptual, and acoustic properties of speech sounds, and principles of language analysis.

ENG 5230. Grammar and Discourse. Units: 3

Semester Prerequisite: ENG 3110 and ENG 3220, or consent of instructor. Quarter Prerequisite: ENG 311 and ENG 420. Examination of the grammatical elements of English and their functions and meanings within discourse with an introduction to corpus-based approaches to examining contexts for grammatical choices. Formerly ENG 523.

ENG 5240. Sociolinguistics. Units: 3

Semester Prerequisite: ENG 3110 or consent of instructor. Quarter Prerequisite: ENG 311 and ENG 420. Examination of language use in a variety of communities and by a variety of speakers, and survey of the major issues and divisions in sociolinguistics, including social and regional language varieties, interactional sociolinguistics, the relationship of language and culture, multilingualism, code-switching, gender, and language change. Formerly ENG 524.

ENG 5250. Child Language Disorders. Units: 3

Overview of child language disorders associated with specific language impairment, autism spectrum disorder, brain injuries, and other genetic and environmental factors. Discusses assessment and intervention approaches for children. To enroll in this course, students must be admitted to the Minor in Speech-Language Pathology or the Speech-Language Pathology Master's Preparatory Certificate, or receive permission from the instructor. Department consent required.

ENG 5260. Phonetics and Phonology. Units: 3

Study of speech sounds and sound patterns, with particular emphases on broad and narrow phonetic transcription; acoustic analysis of vowels, consonants, prosody and voice quality; and examination of sociophonetic variation. To enroll in this course, students must be admitted to the Minor in Speech-Language Pathology or the Speech-Language Pathology Master's Preparatory Certificate, or receive permission from the instructor. Department consent required.

ENG 5270. Studies in Language and Linguistics. Units: 3

Intensive study in selected topics in linguistics or language. May be taken for up to 9 units as topics change.

ENG 5290. Anatomy and Physiology of the Speech and Hearing Mechanism. Units: 3

Anatomy and physiology of the speech and hearing mechanism, including processes of respiration, phonation, articulation, resonance and hearing.

ENG 5300. Creative Nonfiction. Units: 3

Advanced-level writing workshop exploring historical and contemporary approaches to literary nonfiction, including but not limited to memoir, diary, autobiography, personal essay, and lyric essay. Students generate their own creative works and participate in critical workshop discussions. May be taken 3 times for a total of 9 units.

ENG 5430A. Literary Production I. Units: 3

Semester Prerequisite: Consent of Instructor

Throughout the semester, students solicit, select, edit, proof-read, and arrange poems, short stories, artwork, and plays for a new issue of a literary journal or similar production. Theories and methods of literary circulation and publication addressing social, political, and aesthetic issues of literary production. Formerly ENG 543A.

ENG 5430B. Literary Production II. Units: 3

Semester Prerequisite: Consent of Instructor

Throughout the semester, students solicit, select, edit, proof-read, and arrange poems, short stories, artwork, and plays for a new issue of a literary journal or similar production. Theories and methods of literary circulation and publication addressing social, political, and aesthetic issues of literary production. Formerly ENG 543B.

ENG 5520. Methods and Procedures in Speech-Language Pathology. Units: 3

Overview of the procedures and issues involved in speech-language pathology practice, and exploration of research methods including study design, measurement, and evaluation of clinical data.

ENG 5530. Fluency and Speech Sound Disorders. Units: 3

Survey of causes, characteristics, assessment, and treatment of stuttering, phonological, and articulation disorders.

ENG 5540. Neurology and Neurogenic Communication Disorders. Units: 3

Overview of the relationship between the brain and language. This course will cover the neuroanatomy and neurophysiology of speech, language, hearing and swallowing and the characteristics and assessment of neurogenic language disorders including aphasia, dysarthria, and apraxia.

ENG 5550. Introduction to Voice Disorders. Units: 3

Introduction to the etiology, symptomatology, and clinical assessment of functional and organic voice disorders in children and adults. Reviews the anatomy and physiology of normal voice production. Considers multicultural issues.

ENG 5560. Cultural and Linguistic Diversity in Speech-Language Pathology. Units: 3

Study of cultural and linguistic diversity in the context of speech-language pathology, including theory and research. Discussion of typical and atypical bilingual and second language acquisition, as well as examination of service delivery for diverse clients.

ENG 5570. Audiology & Audiometry. Units: 3

Study of anatomy and physiology of the ear, as well as the central auditory processing system. Considers characteristics, assessment, and management of various hearing disorders.

ENG 5651. Special Studies in Writing. Unit: 1

Semester Prerequisite: Consent of instructor. Quarter Prerequisite: consent of instructor

Studies in particular topics in writing, such as assessment, learning theory and research on the teaching of writing. May be taken for up to 6 units of Special Studies in Writing credit. Formerly ENG 565.

ENG 5652. Special Studies in Writing. Units: 2

Quarter Prerequisite: Consent of instructor

Studies in particular topics in writing, such as assessment, learning theory and research on the teaching of writing. May be taken for up to 6 units in Special Studies in Writing credit. Formerly ENG 566.

ENG 5751. Internship in English. Unit: 1

Semester Prerequisite: Approval of Department Chair

Supervised learning experience applying English-related skills in a work setting. A total of 6 units of internship credit may be applied toward graduation. Graded credit/no credit. Generally assumes 30 hours of work/study per unit of credit. Consent required. Formerly ENG 575B.

ENG 5752. Internship in English. Units: 2

Semester Prerequisite: Approval of Department Chair

Supervised learning experience applying English-related skills in a work setting. A total of 6 units of internship credit may be applied toward graduation. Graded credit/no credit. Generally assumes 30 hours of work/study per unit of credit. Consent required. Formerly ENG 575C.

ENG 5753. Internship in English. Units: 3

Semester Prerequisite: Approval of Department Chair

Supervised learning experience applying English-related skills in a work setting. A total of 6 units of internship credit may be applied toward graduation. Graded credit/no credit. Generally assumes 30 hours of work/study per unit of credit. Consent required. Formerly ENG 575D.

ENG 5951. Independent Study in English. Unit: 1

Semester Prerequisite: Department Consent

Independent study of selected themes, figures, and areas in English. May be taken for up to 6 units of independent study credit. Consent required. Formerly ENG 595B.

ENG 5952. Independent Study in English. Units: 2

Semester Prerequisite: Department consent

Independent study of selected themes, figures, and areas in English. May be taken for up to 6 units of independent study credit. Consent required. Formerly Eng 595C.

ENG 5953. Independent Study in English. Units: 3

Semester Prerequisite: Department Consent

Independent study of selected themes, figures, and areas in English. May be taken for up to 6 units of independent study credit. Consent required. Formerly Eng 595D.

ENG 6000. Critical Approaches to Literature. Units: 3

Quarter Prerequisite: ENG 385 or consent of instructor

Study and practice of various critical approaches after the New Criticism, such as deconstructionism, feminism, reader response, and new historicism, with particular attention to their assumptions about the meaning and function of literature. Formerly ENG 600.

ENG 6010. Seminar in a Literary Period. Units: 3

Advanced study in a literary period. May be taken 3 times for a total of 9 units.

ENG 6020. Seminar in a Literary Genre. Units: 3

Advanced study of a selected genre. May be taken 3 times for a total of 9 units.

ENG 6030. Seminar in a Literary Theory. Units: 3

Advanced study in special topics in literary theory and criticism. May be taken 3 times for a total of 9 units.

ENG 6050. Special Topics in Applied Linguistics & TESL. Units: 3

Seminar in particular topics in applied linguistics and/or English language teaching. May be repeated for credit as topics change. Formerly ENG 605.

ENG 6090. Cultures of Research in English & Writing Studies. Units: 3

Critical study of disciplinary approaches to research in the fields of composition, linguistics, and literature, with attention to scholarly identities, research methods, research ethics, and research as knowledge production. This course satisfies the writing requirement for graduate candidacy for the M.A. in English and Writing Studies. Formerly ENG 609.

ENG 6100. Clinical Practicum I. Unit: 1

Supervised clinical experience with children and adults with speech and/or language impairments. May be taken 3 times for up to 3 units.

ENG 6120. Contemporary Composition and Discourse Theory. Units: 3

Examination of major texts and movements in contemporary composition and discourse theory. Formerly ENG 612.

ENG 6140. Language Disorders I: Infancy to Preschool. Units: 3

Theory, research, and methodology in assessing and treating various kinds of language disorders in children from infancy through the preschool years. Addresses current definitions, etiology, and relevant features of disordered language.

ENG 6150. Discourse, Cognition, and Society. Units: 3

Seminar in theoretical approaches to the analysis of discourse from social, pragmatic, and cognitive perspectives. Formerly ENG 615.

ENG 6160. Basic and Applied Research Methods in Speech-Language Pathology. Units: 3

Research methods, design, and analysis within evidence-based practice in speech-language pathology. Critical evaluation of research and application of findings to clinical practice.

ENG 6170. Neurogenic Language and Cognition Disorders I. Units: 3

Etiology, characteristics, assessment, and treatment of neurologically-based language and cognitive disorders in adults, focusing on aphasia, right hemisphere brain damage, traumatic brain injury, and dementia.

ENG 6180. Articulation and Phonological Disorders. Units: 3

Causes, characteristics, assessment, and treatment of childhood articulation and phonological disorders. Considers theory and research in speech sound disorders in the context of language and dialect diversity.

ENG 6190. Multilingualism and Second Language Acquisition. Units: 3

Seminar in the study of linguistic, cognitive, and social approaches to learning and using a second language or additional languages. Formerly ENG 619.

ENG 6200. Clinical Practicum II. Units: 2

Semester Prerequisite: ENG 6100

Supervised clinical experience with children and adults with speech and/or language impairments. May be taken 3 times for up to 6 units.

ENG 6210. Approaches to Teaching Imaginative Writing. Units: 3

Traditional and contemporary approaches to teaching imaginative writing; emphasis on means of encouraging different styles and modes of expression. Formerly ENG 621.

ENG 6220. Motor Speech Disorders. Units: 3

Etiology, neuroanatomy, and symptoms of common neurological speech disorders, emphasizing dysarthria and apraxia of speech. Addresses assessment and treatment, considering the impact of multicultural and psychosocial factors on rehabilitation.

ENG 6230. Dysphagia. Units: 3

Examination of swallowing and swallowing disorders, covering typical and atypical anatomy and physiology across the lifespan. Clinical and instrumental assessment techniques, focusing on common patient populations and hands-on application of management and treatment methods.

ENG 6240. Language Disorders II: School-Age to Adolescence. Units: 3

Semester Prerequisite: ENG 6140

Examination of language disorders in school-aged children, covering both receptive and expressive aspects, including reading and writing disorders. Explores typical development, impairment models, assessment, and treatment, addressing current definitions, causes, and relevant features of disordered language.

ENG 6260. TESL Methods. Units: 3

Seminar in methods for teaching English as a Second Language in various instructional contexts. Formerly ENG 626.

ENG 6270. Neurogenic Language and Cognition Disorders II. Units: 3

Semester Prerequisite: ENG 6170

Etiology, characteristics, assessment, and treatment of neurologically-based language and cognitive disorders in adults, with a focus on stroke.

ENG 6300. Writing Center Studies. Units: 3

Advanced study of major texts and issues in contemporary writing center studies, including writing center theory, scholarship, and research; tutoring practice; and administration. Those completing this course with a grade of "B" (3.0) or better are eligible to apply to participate in campus writing tutoring programs. Formerly ENG 630.

ENG 6310. Seminar in Public and Professional Discourses. Units: 3

Quarter Prerequisite: ENG 612 or consent of instructor

Advanced study in theory, scholarship, and practice in public and professional writing and discourses. May be taken 4 times for a total of 12 units as topics change. Formerly ENG 631.

ENG 6330. Seminar in Rhetorics. Units: 3

Advanced study in a specific area of rhetorical history and theory. May be taken 4 times for up to 12 units as topics change. Formerly ENG 633.

ENG 6340. Seminar in Literacy Studies. Units: 3

Advanced study in a specific area of literacy studies. May be taken four times for a total of 12 units as topics change. Formerly ENG 634.

ENG 6350. Clinical Practicum III. Units: 4

Semester Prerequisite: ENG 6200

Supervised clinical experience with children and adults with speech and/or language impairments. May be taken 2 times for up to 8 units.

ENG 6360. Counseling Tools in Speech-Language Pathology. Units: 3

Interviewing and counseling techniques for individuals, families, and groups within the contexts of schools and allied health fields. Considers implications of multicultural and linguistic diversity for effective counseling, as well as theoretical, practical, ethical, and professional issues.

ENG 6370. Special Topics in Speech-Language Pathology. Units: 3

Seminar in particular topics in speech-language pathology. May be taken 2 times as topics change for up to 6 units.

ENG 6380. Directed Studies in Speech-Language Pathology. Units: 3

Advanced independent study in speech-language pathology under the supervision of a faculty member. May be taken 2 times for up to 6 units.

ENG 6400. Advanced Clinical Practicum I. Units: 4

Semester Prerequisite: ENG 6350

Advanced supervised clinical experience with children and adults with speech and/or language impairments. May be taken 2 times for up to 8 units.

ENG 6420. Voice, Resonance and Fluency. Units: 3

Theory, research, and methodology in assessing and treating various kinds of fluency, voice and resonance disorders.

ENG 6500. Advanced Clinical Practicum II. Units: 4

Semester Prerequisite: ENG 6400

Advanced supervised clinical experience with children and adults with speech and/or language impairments. May be taken 2 times for up to 8 units.

ENG 6510. Seminar in a Literary Topic. Units: 3

Advanced study in particular topics in literature. May be taken 3 times for 9 total units as topics change. Formerly ENG 651.

ENG 6520. Aural Rehabilitation. Units: 3

Principles of amplification, cochlear implants, sound-field acoustics, and vestibular rehabilitation in the context of aural rehabilitation. Theoretical and applied aspects, addressing the impact of hearing loss on communication, intervention techniques for various populations, counseling processes, and prosthetic management.

ENG 6530. Augmentative and Alternative Communication. Units: 3

Augmentative and alternative communication (AAC) systems for individuals with complex communication needs, including contemporary microcomputer hardware and software used in speech-language pathology and audiology. Covers topics in AAC, assistive technology, assessment and treatment, and specific considerations for pediatric and adult patients.

ENG 6543. Speech-Language Pathology Thesis. Units: 3

Graduate research in speech-language pathology culminating in a written thesis. Graded credit/no credit. Department consent is required.

ENG 6550. Speech-Language Pathology Comprehensive Exam. Units: 0

Assessment of the student's ability to integrate knowledge of speech-language pathology, show critical and independent thinking, and demonstrate mastery of the subject matter. Graded credit/no credit. Should be taken concurrently with ENG 6553. Department consent required.

ENG 6553. Speech-Language Pathology Comprehensive Exam Preparation. Units: 3

Seminar to prepare students for assessment of their ability to integrate the knowledge of speech-language pathology, show critical and independent thinking, and demonstrate mastery of the subject matter, culminating in the comprehensive exam. Graded credit/no credit. Department consent is required.

ENG 6570. Seminar in Teaching Writing. Units: 3

Advanced study of a specific area of composition theory and pedagogy as practiced: in institutional contexts such as writing across the curriculum programs, online courses, community sites, or prisons; in specific sites of pedagogical intervention, such as student texts; or from specific theoretical or pedagogical traditions, such as queer pedagogy, liberatory pedagogy, or translingual theory. May be taken 4 times for a total of 12 units as topics change. Formerly ENG 657.

ENG 6580. Multimodal Writing and the Public Sphere. Units: 3

Advanced study of writing across multiple media and modes, including examination of theoretical, ethical, and pedagogical issues and engagement in composing practices across media and modes. Formerly ENG 658.

ENG 6590. Approaches to Teaching College-Level English Literature. Units: 3

Study of varied methods and approaches to the teaching of literature in English at the college level. Formerly ENG 659.

ENG 6600. Approaches to Teaching Writing. Units: 3

Study of the theories, principles, and methods of teaching writing. Formerly ENG 660.

ENG 6620. Sites of Praxis. Units: 3

Semester Prerequisite: ENG 6000, ENG 6120, ENG 6150; and approval of the graduate coordinator. Quarter Prerequisite: ENG 600, ENG 612, ENG 615; and approval of the graduate coordinator. Seminar in the applications of English and Writing Studies to particular workplace and classroom settings, including ethnographic approaches to workplace cultures, attention to workplace genres, and ways of approaching and responding to writing in the workplace.

ENG 6660. Seminar in English and Writing Studies Pedagogies. Unit: 1

Advanced studies in particular topics in teaching English and writing studies at the college level. May be repeated for credit as topics change. May be taken four times for a total of four units. Formerly ENG 666.

ENG 6751. Internship in English and Writing Studies. Unit: 1

Semester Prerequisite: ENG 6000, ENG 6120, ENG 6150, ENG 6620; and approval of the graduate coordinator. Prerequisite: ENG 600, ENG 612, ENG 615, and approval of the graduate coordinator. A practical application of theory and research in English and Writing Studies. Includes supervised work experience. May be repeated once for credit.

ENG 6951. Graduate Independent Study. Unit: 1

Semester Prerequisite: A minimum overall grade point average of 3, consent of instructor, and approval of the graduate coordinator, proposals must be submitted on a standard application filed in advance of the semester in which the course is to be taken. Quarter Prerequisite: A minimum overall grade point average of 3, consent of instructor, and approval of the graduate coordinator, proposals must be submitted on a standard application filed in advance of the quarter in which the course is to be taken.

Advanced research on a specific topic, figure, or area in literature, composition and rhetoric, applied linguistics and TESL, pedagogy, or public and professional writing. Formerly ENG 696B. May be taken 2 times for up to 2 units.

ENG 6952. Graduate Independent Study. Units: 2

Semester Prerequisite: A minimum overall grade point average of 3, consent of instructor, and approval of the graduate coordinator, proposals must be submitted on a standard application filed in advance of the semester in which the course is to be taken. Quarter Prerequisite: A minimum overall grade point average of 3, consent of instructor, and approval of the graduate coordinator, proposals must be submitted on a standard application filed in advance of the quarter in which the course is to be taken.

Advanced research on a specific topic, figure, or area in literature, composition, or linguistics. Formerly ENG 696C. May be taken 2 times for up to 4 units.

ENG 6953. Graduate Independent Study.**Units: 3**

Semester Prerequisite: A minimum overall grade point average of 3, consent of instructor, and approval of the graduate coordinator, proposals must be submitted on a standard application filed in advance of the semester in which the course is to be taken. Quarter Prerequisite: A minimum overall grade point average of 3, consent of instructor, and approval of the graduate coordinator, proposals must be submitted on a standard application filed in advance of the quarter in which the course is to be taken

Advanced research on a specific topic, figure, or area in literature, composition, or linguistics. Formerly ENG 696D. May be taken up to 2 times for up to 6 units.

ENG 6954. Graduate Independent Study.**Units: 4**

Semester Prerequisite: A minimum overall grade point average of 3, consent of instructor, and approval of the graduate coordinator, proposals must be submitted on a standard application filed in advance of the semester in which the course is to be taken. Quarter Prerequisite: A minimum overall grade point average of 3, consent of instructor, and approval of the graduate coordinator, proposals must be submitted on a standard application filed in advance of the quarter in which the course is to be taken

Advanced research on a specific topic, figure, or area in literature, composition, or linguistics. Formerly ENG 696E. May be taken 2 times for up to 8 units.

ENG 6973. Thesis. Units: 3

Graduate research in English composition and rhetoric, literature, public and professional writing, linguistics, applied linguistics, or pedagogy culminating in a written thesis. Graded credit/no credit.

ENG 6980. English Comprehensive Examination. Units: 0

Assessment of the students ability to integrate the knowledge of the area, show critical and independent thinking, and demonstrate mastery of the subject matter. Students may not enroll in ENG 6980 before their last quarter of coursework in the M.A. in English and Writing Studies. Formerly ENG 999. Graded credit/no credit. Department consent required. Course should be taken concurrently with ENG 6983.

ENG 6983. Comprehensive Exam Preparation and Completion. Units: 3

Semester Prerequisite: Advancement to candidacy, approval of the graduate coordinator, completion of all other required courses for the MA in English and Writing Studies, and good academic standing. Quarter Prerequisite: Advancement to candidacy, approval of the graduate coordinator, completion of all other required courses for the MA in English and Writing Studies, and good academic standing

Seminar to prepare students for assessment of their ability to integrate the knowledge of the area, show critical and independent thinking, and demonstrate mastery of the subject matter culminating in the comprehensive exam.

ENG 6990. Continuous Enrollment for Graduate Candidacy Standing. Units: 0

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ENG 6991. Continuous Enrollment for Graduate Candidacy Standing. Unit: 1

Quarter Prerequisite: Advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ENG 6992. Continuous Enrollment for Graduate Candidacy Standing. Units: 2

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ENG 6993. Continuous Enrollment for Graduate Candidacy Standing. Units: 3

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ENG 6994. Continuous Enrollment for Graduate Candidacy Standing. Units: 4

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ENG 6995. Continuous Enrollment for Graduate Candidacy Standing. Units: 5

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ENG 6996. Continuous Enrollment for Graduate Candidacy Standing. Units: 6

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

Entrepreneurship (ENTR)

Courses

ENTR 3000. Entrepreneurship and Innovation. Units: 3

Exploration of the key concepts of entrepreneurship and innovation. Examines the sources of new ideas and innovation, how ideas move from mind to market, the facets of the entrepreneurial mindset, and how entrepreneurial models and approaches can be applied in any organizational or societal context.

ENTR 3003. Experiencing Entrepreneurship. Unit: 1

Exploration and examination of entrepreneurship, entrepreneurial characteristics and the entrepreneurial mindset through a variety of immersive experiential and reflective activities.

ENTR 3141. The Improvisational Mind. Units: 3

Development of foundational performance skills essential for success in any fast-paced, unpredictable business environment. Students will focus on developing cognitive flexibility, accessing creativity, exploring ensemble-based collaboration, mastering active storytelling, and honing their unique communication tools. Satisfies GE C4/UD-3; DI designation. Course is offered as ENTR 3141 and TA 3141; credit cannot be awarded for both.

ENTR 4420. Small Business Management. Units: 3

Explores the importance of small business to our economy and examines key competencies needed to manage a small enterprise as owner or manager. Studies issues such as general management, accounting and finance, human relations, marketing, operations, and introduces the nuances and subtleties of these in the small business context. Formerly offered as ENTR 442.

ENTR 5141. Entrepreneurial Improvisation and Creativity. Units: 3

Exploration of improvisation as a tool to frame problems, think creatively, develop compelling presentation skills, and express energy and passion in varied business environments. Course is offered as ENTR 5141 and TA 5141; credit cannot be awarded for both. Department consent required.

ENTR 5155. Business Consulting. Units: 3

Quarter Prerequisite: Senior status, consent of instructor and department
Supervised consulting assignments designed to provide meaningful business assistance to businesses. formerly offered as MGMT 515.

ENTR 5260. Global Entrepreneurship. Units: 3

Entrepreneurial process in a global context as it relates to recognizing ideas, marshaling resources, developing networks and creating the strategy for a new cross-border venture. Formerly offered as MGMT 526.

ENTR 5410. Commercializing Entrepreneurial Innovation. Units: 3

Examines the process of commercializing innovations and emerging technologies in entrepreneurial driven companies. Focus on understanding the innovation process and the strategy, tactics and behaviors necessary to manage the transition from basic development stages to commercial venture; intellectual property law and protection, technology transfer and licensing. Formerly offered as ENTR 541.

ENTR 5430. Ideation and Creative Problem Solving. Units: 3

Examination of the process of generating, developing and evaluating ideas to launch innovative and viable new ventures. Focus on identifying the difference between ideas and opportunities and the role of ideation, observation and creative problem solving. Formerly offered as ENTR 543.

ENTR 5435. Startup Toolbox: Research Essentials for Entrepreneurs. Units: 3

Semester Prerequisite: ENTR 5430

Equips students with essential research skills necessary for successful entrepreneurship. Focus on qualitative and quantitative data analysis techniques to assess startup opportunities, including formal and informal interviews, industry analysis, the use of AI in customer discovery, and the basics of startup financial modeling.

ENTR 5440. Developing the New Venture. Units: 3

Semester Prerequisite: ENTR 5430, ENTR 5435

Introduction to the process of developing a new venture concept. Focus on transitioning ideas into a viable business venture with special emphasis on developing a sustainable business model and a hands-on business planning experience. Cross-listed as NSCI 5440; students cannot receive credit for both.

ENTR 5450. Resources for the Entrepreneur. Units: 3

Strategies and techniques employed by entrepreneurs to identify and access critical resources. Special emphasis on developing resource projections, negotiation, marshaling internal and external resources and team formation. Formerly offered as ENTR 545.

ENTR 5470. Managing a Growing Business. Units: 3

Study of the basic strategy and tactics to manage growing enterprises while still maintaining an entrepreneurial spirit. Examines the role of management decision making, management control systems, short- and long-term planning, and entrepreneurship in managing growing companies. Formerly offered as ENTR 547.

ENTR 5490. Launching the Entrepreneurial Venture. Units: 3

An exploration of the key processes and methods involved in positioning and establishing new enterprises. Formerly offered as ENTR 549.

ENTR 5550. Entrepreneurship in Action: Corporate, Social and Family Business Approaches. Units: 3

An exploration of how entrepreneurial approaches are effectively applied in differing contexts, including large corporations, nonprofit organizations and closely-held family business firms. Focus on understanding the barriers and opportunities to entrepreneurship that are unique to each context through applied case analysis.

ENTR 5755. Internship. Unit: 1

Semester Prerequisite: Consent of college internship coordinator. Quarter Prerequisite: senior standing preferred; consent of instructor and the departments internship coordinator

Supervised work and study in private or public organizations. May be repeated for credit. A total of six units of Jack H. Brown College of Business and Public Administration 5753 or 5755 courses may be applied toward graduation. Graded credit/no credit.

ENTR 5915. Contemporary Topics in Entrepreneurship. Unit: 1

Analysis and discussion of selected topics relevant to entrepreneurship.

ENTR 5930. Contemporary Topics in Entrepreneurship. Units: 3

Analysis and discussion of selected topics relevant to entrepreneurship. Formerly offered as MGMT 590C.

ENTR 5951. Independent Study. Unit: 1

Semester Prerequisite: Junior status, or graduate status
Special topics involving library and/or field research. A total of 8 units in any Jack H. Brown College of Business and Public Administration 5951, 5952, 5953, 5955 may be applied toward graduation. Consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the Jack H. Brown College of Business and Public Administration on a standard application filed in advance of the semester in which the course is to be taken. Course is cross-listed across different departments within the college.

ENTR 5952. Independent Study. Units: 2

Semester Prerequisite: Junior status, or graduate status
Special topics involving library and/or field research. A total of 8 units in any Jack H. Brown College of Business and Public Administration 5951, 5952, 5953, 5955 may be applied toward graduation. Consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the Jack H. Brown College of Business and Public Administration on a standard application filed in advance of the semester in which the course is to be taken. Formerly offered as 595B. Course is cross-listed across different departments within the college.

ENTR 5953. Independent Study. Units: 3

Semester Prerequisite: Junior status, or graduate status
 Special topics involving library and/or field research. A total of 8 units in any Jack H. Brown College of Business and Public Administration 5951, 5952, 5953, 5955 may be applied toward graduation. Consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the Jack H. Brown College of Business and Public Administration on a standard application filed in advance of the semester in which the course is to be taken. Formerly offered as 595D. Course is cross-listed across different departments within the college.

ENTR 5955. Independent Study. Unit: 1

Semester Prerequisite: Junior status, or graduate status
 Special topics involving library and/or field research. A total of 8 units in any Jack H. Brown College of Business and Public Administration 5951, 5952, 5953, 5955 may be applied toward graduation. Consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the Jack H. Brown College of Business and Public Administration on a standard application filed in advance of the semester in which the course is to be taken. Course is cross-listed across different departments within the college.

ENTR 5980. Reflective Essay. Units: 0

Submission of a reflective essay based on specified program guidelines. Consent required. Graded credit/no credit. Formerly offered as ENTR 598.

ENTR 6200. Pitching the New Venture. Units: 3

Introduction and exploration of the key concepts and techniques used to effectively position and deliver a concise summary of the opportunity, value proposition, business model, and investment potential of the new venture. Students will develop and pitch a multitude of entrepreneurial narratives for internal (business partners, leadership, management, employees) and external stakeholders (customers, public, investors, lenders).

ENTR 6210. Entrepreneurship and New Ventures. Units: 3

Study of the entrepreneurial process. Focus on the characteristics and mindset of entrepreneurs, ideation and innovation, startup models, risk mitigation, analyzing emerging opportunities, resource creativity, ethics and guerrilla tactics. Formerly offered as ENTR 621.

ENTR 6230. Exploring Entrepreneurial Opportunities. Units: 3

Semester Prerequisite: ENTR 6210. Quarter Prerequisite: ENTR 621
 Study of the exploration process for new venture concepts. Focus on examining the tools and processes involved in developing a new venture, including formulation of a sustainable business model, performing a comprehensive feasibility analysis, concept testing and business planning. Formerly offered as ENTR 623.

ENTR 6240. Law and Negotiations for the New Venture. Units: 3

Introduction, exploration and analysis of the key legal, regulatory and policy issues that effect new venture decision-making, negotiations and strategy.

ENTR 6960. Entrepreneurial Immersion. Units: 3

Independent graduate research. Students will work under the direction of a faculty member to develop and finalize an entrepreneurial venture project. Formerly ENTR 6961 and ENTR 6962.

ENTR 6980. Reflective Essay. Units: 0

Submission of a reflective essay based on specified program guidelines. Formerly offered as ENTR 998. Graded credit/no credit.

ENTR 6990. Continuous Enrollment for Graduate Candidacy Standing. Units: 0

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 6990 each semester until the culminating experience project is completed and accepted. Students who enroll in 6990 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Course Catalog. Graded credit/no credit.

Education-Reading Education (ERDG)**Courses****ERDG 6100. Foundations of Literacy. Units: 3**

Survey of theories of literacy, literacy development and learning, approaches to literacy instruction and assessment. Formerly ERDG 620.

ERDG 6110. Literacy and Language Processes. Units: 3

Language development processes that underlie effective literacy curriculum, including bilingual and English Learner development. Literacy development and reading/ writing processes. Formerly offered as ERDG 627.

ERDG 6120. Literacy Assessment, Intervention and Evaluation. Units: 3

Semester Prerequisite: ERDG 6100
 Investigation of literacy assessments, strategies for their use in literacy instruction and early intervention, assessment design. Evaluation for literacy instruction. Meeting the literacy needs of all learners. Formerly offered as ERDG 619.

ERDG 6130. Contemporary Issues and Research in Literacy. Units: 3

Semester Prerequisite: ERDG 6100. Quarter Prerequisite: ERDG 626
 Advanced critical and contemporary perspectives affecting literacy and literacy education for grades PreK-12. Understanding and utilizing contemporary research in Literacy. Advanced professional competencies for the literacy leader and educator. Formerly offered as ERDG 656.

ERDG 6140. Technology, Multimodality and Digital Literacies for Educators. Units: 3

Advanced theory, research and classroom practices for integrating technology, multimodality and digital literacies in English Language Arts classrooms.

ERDG 6200. Critical and Cultural Approaches to Literacy. Units: 3

Semester Prerequisite: ERDG 6100. Quarter Prerequisite: ERDG 626
Explores diversity and culture as they affect literacy development and instruction. Using multicultural literature in the literacy curriculum and creating a culture of literacy. Understanding multiple literacies, genres, and modalities as they affect the literacy curriculum. Integrates a critical approach of power and diversity as it impacts literacy. Formerly offered as ERDG 636.

ERDG 6210. Materials, Curriculum and Approaches to Literacy. Units: 3

Semester Prerequisite: ERDG 6100. Quarter Prerequisite: ERDG 627
Investigating, creating and making critical judgments about curriculum approaches and materials, including software and digital resources, appropriate to different theoretical perspectives. Formerly offered as ERDG 637.

ERDG 6220. Practicum in Reading and Literacy. Units: 3

Semester Prerequisite: ERDG 6100, ERDG 6110, ERDG 6120. Quarter Prerequisite: ERDG 619
Applying reading and literacy instructional strategies; implementing, analyzing and interpreting diagnostic assessments; planning for and delivering tutorial and intervention. Formerly ERDG 639.

ERDG 6230. Leadership Roles in Reading and Literacy. Units: 3

Semester Prerequisite: ERDG 6100. Quarter Prerequisite: ERDG 626, 627, 619, 636, 637, 647, and consent of coordinator
Investigation of literacy leadership roles in schools and districts. Includes program planning and evaluation, leadership skills, knowledge of standards-based education, responding to state mandates, analyzing and applying research, meeting the needs of all students. Formerly offered as ERDG 657.

ERDG 6240. Advanced Curriculum Perspectives in Literacy. Units: 3

Examination of theoretical approaches that affect literacy curriculum. Advanced curriculum design. Formerly offered as ERDG 647.

ERDG 6980. Comprehensive Examination. Units: 0

Semester Prerequisite: advancement to candidacy, approval of department, completion of course work in the masters program, and in good academic standing. Quarter Prerequisite: advancement to candidacy, approval of department, completion of course work in the masters program, and in good academic standing
An assessment of the students ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter. Graded credit/no credit. Formerly ERDG 999.

Education-Rehabilitation Counseling (EREH)

Courses

EREH 6615. Introduction to Rehabilitation Counseling. Units: 5

Fundamental processes and practices of rehabilitation counseling including examination and analysis of the historical, philosophical, organizational, economic and legal basis of rehabilitation. Morality and ethics; ethical issues; models and techniques for effective ethical decision-making in personal and professional interactions. Orientation and field visits to community rehabilitation counseling agencies. Three hours of lecture and two hours of activity-based education in the subject area per week are required. Formerly known as EREH 615.

EREH 6616. Medical Aspects of Disability Across the Life Span. Units: 5

Medical aspects of disabilities including implications of disabilities for vocational adjustments and rehabilitation processes across the life span. Theories of learning and human growth/development using life span approach from a rehabilitation counseling perspective. Three hours of lecture and two hours of activity-based education in the subject area per week are required. Formerly known as EREH 616A.

EREH 6617. Counseling Theories and Psychosocial Aspects in Rehabilitation. Units: 5

Quarter Prerequisite: EREH 615 or permission of the program coordinator

Counseling theories application to rehabilitation settings; lab experience working with individuals with disabilities. Psychosocial aspects will examine the physical, mental, gender and cultural characteristics of individuals with disabilities to participate fully in society. Three hours of lecture and two hours of activity per week are required. Formerly known as EREH 656.

EREH 6618. Addictions & Co-Existing Disabilities. Units: 5

This course provides a broad understanding of issues and trends in substance use disorder and behavioral addiction treatment in a multicultural and diverse society with a specific focus on treatment methods that reflect the culture-specific values and treatment needs of clients. Including a focus on medical and psychological consequences, drug classification systems, legislation, and other clinical and public policy issues that may be relevant to the field. Motivational Interviewing counseling techniques will be explored in the lab experience. Three hours of lecture and two hours of activity per week required.

EREH 6619. Counseling Skills - Practicum. Units: 5

Semester Prerequisite: EREH 6617 or consent of program coordinator. Quarter Prerequisite: EREH 657 or consent of instructor
Supervised counseling practice; intensive analysis of counselor ethics, styles, methods. Application of counseling skills, theories and techniques working with individuals with disabilities. Requires three hours of seminar and 1.5 hours of supervision per week. Requires 100 hours of related observational practice with individuals with disabilities. Formerly EREH 667.

EREH 6620. Multicultural Rehabilitation Counseling. Units: 4

Theory and techniques of counseling skills serving diverse populations relating to individuals with disabilities. Analysis of differing socioeconomic, racial, and social backgrounds of individuals with disabilities. The major focus is on building multicultural competencies with cultural, economic, and psychosocial processes relative to people from diverse and underrepresented populations and societies. Formerly known as EREH 655.

EREH 6621. Psychiatric Rehabilitation Diagnosis & Psychopharmacology. Units: 5

This course will explore the history, philosophy, practice, current trends, and issues relevant to psychiatric rehabilitation. Rehabilitation services that develop skills and provide environmental support for individuals with chronic mental illness will be examined. Emphasis will be placed on treatment planning to reach vocational goals and optimal independent functioning for individuals with psychiatric disabilities. This course is intended to cover psychiatric diagnosis, psychopharmacology, and the application of medication to all the major diagnostic categories contained in DSM. Three hours of lecture and two hours of activity-based education in the subject area per week are required. Formerly known as EREH 672.

EREH 6622. Theoretical & Practical Applications of Case Management / Job Placement. Units: 5

Semester Prerequisite: EREH 6619 or consent of program coordinator. Quarter Prerequisite: EREH 615, EREH 616A, EREH 616B and EREH 617 or consent of instructor

Application of methods and techniques of case management / job placement with different client populations in rehabilitation settings. Intensive analysis of counselor ethics, styles, methods. Job analysis, job seeking training skills, placement and follow-up for rehabilitation clients. 3-units lecture, 2-units activity. Formerly EREH 618.

EREH 6623. Theory and Practice of Group Counseling in Rehabilitation. Units: 4

Semester Prerequisite: EREH 6617, 6619, 6620, 6622 or consent of program coordinator. Quarter Prerequisite: EREH 615, 616A, 656 and 657 or permission of program coordinator

Theories and techniques of group counseling in rehabilitation settings with individuals with disabilities. Integration of theory, experience and research in group counseling; ethical and multicultural considerations. Formerly EREH 678.

EREH 6624. Assessment, Research & Program Evaluation. Units: 5

Semester Prerequisite: EREH 6615, 6616, or consent of program coordinator. Quarter Prerequisite: EREH 615, 616A, 616B or consent of instructor

Review of fundamental bases of measurement, criteria for evaluating tests, review of instruments in major categories to assess the functioning abilities and work potential of individuals with disabilities. Introduction to personality, aptitude, achievement measurements. Principles of research design and methods of data collection to facilitate knowledge of rehabilitation research. Program evaluation includes analysis of development and utilization of an agency system in rehabilitation settings with focus on system design, monitoring techniques and service program development. Three hours of lecture and two hours of activity per week required.

EREH 6625. Fieldwork in Rehabilitation Counseling. Units: 6

Semester Prerequisite: Completion of minimum 39 units in the program and/or consent of program coordinator. Quarter Prerequisite: Consent of program coordinator

Field experience in Rehabilitation Counseling. Includes preparation for the Certified Rehabilitation Counselor Examination. Students will take fieldwork in segments of 6 units for a total of 12 units. Students must complete 300 clock hours per semester. Department consent required. Formerly EREH 679.

EREH 6980. Comprehensive Examination in Rehabilitation. Units: 0

Semester Prerequisite: Advancement to candidacy, approval of department, completion of required course work in the masters program and in good academic standing. Quarter Prerequisite: Advancement to candidacy, approval of department, completion of course work in the masters program and in good academic standing

An assessment of the students ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter. Students must take the CRC Exam as part of EREH 6980 in order to complete the Rehabilitation Counseling Master's degree program. Formerly EREH 999.

Ethnic Studies (ES)

Courses

ES 1000. Introduction to Ethnic Studies. Units: 3

An introduction to Ethnic Studies as an intellectual, political, methodological framework of rigorous analysis and knowledge making. Students will be introduced to histories of structural and systemic oppressions, including but not limited to white supremacy, antiblack racism and settler colonialism, as well as the histories of resistance that characterize communities and movements led by people of color, in particular Native Americans, African Americans, Asian Americans and Latinx Americans. Satisfies GE F/6.

ES 1000H. Introduction to Ethnic Studies: HONORS SECTION. Units: 3

An Honors Section of the Introduction to Ethnic Studies as an intellectual, political, methodological framework of rigorous analysis and knowledge making. Students will be introduced to histories of structural and systemic oppressions, including but not limited to white supremacy, anti-black racism and settler colonialism, as well as the histories of resistance that characterize communities and movements led by people of color, in particular Native Americans, African Americans, Asian Americans and Latinx Americans. Satisfies GE F/6. Students may not receive credit for both ES 1000 and ES 1000H.

ES 1020. Introduction to Chicana/o/x and Latina/o/x Studies. Units: 3

An interdisciplinary introduction to the intellectual concepts, historical experiences and political movements that define Chicana/o/x and Latina/o/x Studies in the United States . Formerly ES 102.

ES 1100. Introduction to Native Studies. Units: 3

This survey course will cover key historical, political, and philosophical topics that have come to define the field of Native Studies. It centers settler-colonial frameworks to understand historic and contemporary struggles for self-determination and sovereignty.

ES 1400. Race, Class, Gender and Sexuality. Units: 3

Grounded in intersectionality, this introductory course examines the axes of identities that shape lived experiences of people of color -- Native Americans, African Americans, Asian Americans and Latinx Americans -- in the United States. Drawing from a range of interdisciplinary texts, students will critically reflect on the ways power operates in the production of inequalities that are then reproduced, resisted, and transformed through discourses of migration, labor, culture, and belonging. Satisfies GE F/6.

ES 2200. Women of Color Feminisms. Units: 3

Students will analyze the political roles, daily experiences, labor, and artistic outlets of women of color in the United States from a wide variety of racial backgrounds. They will engage with academic sources, literary fiction, as well as other forms of media including film, music, art, and podcasts to examine the cultural and political significance of the category "women of color" and its particular salience in our contemporary moment.

ES 3000. Research Methods in Ethnic Studies. Units: 3

Semester Prerequisite: ES 1000

Development and implementation of research (quantitative or qualitative) that explores in depth one or more facets of ethnic experience. Satisfies WI designation.

ES 3080. Race, Gender, and Sexuality in Popular Culture. Units: 3

This course uses popular culture as a medium through which to analyze representations and performances of race, gender, and sexuality as well as their intersections in film, music, podcasts, art, literature, and poetry. Through these confrontations, students will question the rewards as well as the limits of the politics of representation and apply their understandings to course assignments and projects that involve direct engagement with their world and worldviews.

ES 3100. Black Feminist Movements. Units: 3

This course is an exploration of transnational Black Feminist Movements in the 19th, 20th and 21st centuries. The focus will be, broadly speaking, on how literatures, theories and coalitional movements created by those who identify as Black women speak to longstanding struggles on social justice and liberation.

ES 3140. Native American Feminisms. Units: 3

A survey of topics central to Native Feminist thought and analysis. Students will learn about Native Feminisms theories and frameworks with which to contextualize contemporary struggles for self-determination and sovereignty. The colonial history and the settler colonial present is explored from a gendered perspective. Additional course topics include Indigenous ecofeminisms and ecosexualities as well as Native feminist intellectual production in art, literature, and film.

ES 3190. Queer of Color Critique. Units: 3

This course is an exploration of queer of color critique, an interdisciplinary field that recognizes the always-present intersections between race, gender, and sexuality. Moreover, it is an investigation into the ways in which Ethnic Studies has, in its framework, always already have been queer, always already have queered.

ES 3201. Race, Ethnicity and Immigration in the United States. Units: 3

This course explores the history of immigration and migration in the United States through the lens of race and ethnicity. Additional themes include citizenship, law, nationalism, violence, gender, sexuality, labor, and globalization. Offered as ES 3201 and HIST 3201, students may not receive credit for both.

ES 3390. Black Studies. Units: 3

This course is an exploration of Black Studies, providing both a historical and cultural overview, as well as an examination of how this interdisciplinary field has shaped numerous conversations on race, ethnicity, sexuality, gender, class and nation, both within the United States and in a broader, transnational context.

ES 3501. Politics of Multiculturalism and Diversity. Units: 3

Multiculturalism and diversity have become tokenized liberal discourses of immigrant assimilation in the West. This course examines how these ideologies emerged as well as the ways people reproduce and contest these discourses by occupying registers of exclusion and inclusion simultaneously. We will examine these experiences through historical accounts, ethnography, and media representations to develop a critical understanding of the ways these narratives get "lived" in the contemporary context.

ES 3630. Race, Ethnicity, and Film in America, 1920-Present. Units: 3

This course utilizes documentary and popular film to better understand the experiences, representation, and resistance modes of people of color in the US. Students will explore racist imagery central to the American film industry during the 20th century while deeply analyzing film as a vital facet of political resistance and artistic production among people of color. Offered as ES 3630 and HIST 3630, students may not receive credit for both.

ES 3940. Topics in Ethnic Studies. Units: 3

A selected area or issue of ethnic studies. May be repeated for credit as topics change. Formerly known as ES 394.

ES 4100. Health and Racism in the US, 1800-Present. Units: 3

This course posits that medicine, race and the fight for healthcare among people of color are deeply intertwined within the study of racial justice and oppression in the United States. Students will analyze portrayals of public health crises, the effects of environmental racism, and the long tradition of healthcare-centered activism among people of color in the US.

ES 4101. Race and Social Movements in the United States, 1840-Present. Units: 3

This course chronicles social movements in the US from the 1840s to the present, with a focus on race and ethnicity as centerpieces of grassroots organizing. Students will utilize sources from history, sociology, psychology, and literature to better grasp common threads, successes, and limitations of social movements. The class will begin with anti-slavery organizing during the mid-1800s and will end with a focus on movements such as Black Lives Matter, climate change activism, and immigration reform.

ES 4200. US Empire and Foreign Policy 1898-Present. Units: 3

This course analyzes US history and empire-building with a focus on the 20th century. Students explore the ways in which race, gender, and the growth of capitalism are inherently intertwined within this process. Content will trace the history of American occupations and economic and military interventions throughout numerous regions of the globe. Offered as ES 4200 and HIST 4200, students may not receive credit for both.

ES 4400. Transnational Feminisms and Global Raciality. Units: 3

This course looks at the ways transnational feminisms and a global racial framework inform and expand our understanding of race and gender within and outside of the US. We will look at women's activism, labor organizing, migration, social movements, and development discourse to open up possibilities for imagining a global, transnational commitment to social justice and reflect on practices that can help create such visions.

ES 4600. Eating the Other: Consumer Culture and Race. Units: 3

This course, an homage to bell hooks, draws from interdisciplinary texts to examine consumer culture through the lens of race, gender, and class. Contemporary debates surrounding the links and ruptures between cultural appropriation and cultural appreciation have become nearly ubiquitous on university campuses and in various media outlets. Instead of resolving these concerns, this course examines the discourses that have given rise to these debates centering on consumption and the forms of racialization certain types of consumption produce. We will examine how these ideas have been contested by communities of color in the US as they negotiate their place in a racial landscape that perpetually inscribes them as the other.

ES 5250. Performance Studies and Ethnic Studies. Units: 3

Semester Prerequisite: Students must have taken at least one other upper-division Ethnic Studies course in order to enroll in ES 5000-level courses (or have received faculty approval)

This course is an exploration of the ways in which Performance Studies and Ethnic Studies intersect with one another. It will also examine the ways in which performance, both onstage and off, holds the potential to disrupt conventional and/or stereotypical ways of thinking about identities.

ES 5753. Internship in Ethnic Studies. Units: 3

Semester Prerequisite: Students must have taken at least one other upper-division Ethnic Studies course in order to enroll in ES 5000-level courses (or have received faculty approval)

Reflecting the ongoing indebtedness of Ethnic Studies to learning with and learning from those outside of traditional spaces of higher education, this internship course provides an opportunity for service learning and community engagement. Community partners will be selected in consultation with Ethnic Studies faculty. Regular meetings with supervising faculty member will be required.

ES 5940. Senior Seminar. Units: 3

Semester Prerequisite: Completed and passed a minimum of one (1) upper-division Ethnic Studies course or faculty consultation

This course is an Ethnic Studies methodologies seminar wherein students will pursue faculty-guided independent research projects. The course will result in a final research paper that reflects originality of thought and shared conversation with interlocutors within Ethnic Studies.

ES 5953. Independent Study. Units: 3

For students capable of individualized work and in need of advanced or specialized study. May be taken two times for six units. Formerly ES 595C.

Education-Secondary Education (ESEC)

Courses

ESEC 5000. Early Fieldwork Seminar. Units: 3

This course is the first of two Clinical Practice fieldwork courses designed to provide single subject credential candidates practical hands-on experience in schools. Candidates are required to conduct Early Fieldwork hours (120 hours) including observations, tutoring diverse learners, small group work, and completing fieldwork assignments from the various program courses. The course also requires candidates to explore and reflect on school-wide policies, classroom environments, classroom management and procedures, and instructional design. The seminars link coursework with practice and provide collegial support for the candidates. Graded credit/no credit.

ESEC 5001. Classroom Management & Pedagogy. Units: 3

Semester Prerequisite: Admission into the Single Subject Program
This course explores current research, theory, and best practices for managing student behavior in secondary classrooms. Topics include managing classroom routines and procedures, setting clear behavioral expectations, appropriate pedagogy and communicating expectations to students and families, and developing positive interventions to promote student social-emotional growth.

ESEC 5002. Educational Equity and Advocacy. Units: 3

This course provides students with the essential knowledge and dispositions of culturally responsive, anti-racist, and critical education. The course highlights the imperative to teach with multiple perspectives and develops student capacity to teach all youth regardless of social class, culture, race, ethnicity, language, gender, and sexual identity.

ESEC 5003. Pedagogical Foundations for English Language Learners in Secondary Classrooms. Units: 3

This course explores strategies for modifying instruction to teach all students, including English language learners, effectively. The course provides students with the knowledge and skills necessary to create inclusive learning environments and maintain high expectations for all students. This course may not use it for master's credit.

ESEC 5004. Adolescent Development and Educational Theory. Units: 3

The course highlights the ways adolescents interact within school settings, and examines research on adolescent development as it pertains to effective teaching. Students will explore various theories of physical, cognitive, social, and emotional development, and consider how those theories inform teaching in secondary school contexts.

ESEC 5030. Subject Matter Seminar. Units: 3

This course guides the teacher candidate in preparing for and responding to the Subject Matter Competency state-mandated requirement for all teacher candidates. This state-mandated requirement evaluates teacher candidates competency in the content area in which they are seeking their credential. In this course, students will engage in peer exploration of and preparation for the Subject Matter requirement. Can be taken a maximum of two times for a total of six units. Graded Credit/No credit. Mandated course for all applicants who have not met the Subject Matter Competency requirement.

ESEC 5450. Adolescents Literacy Tutoring. Units: 3

Tutor training for students to work with low literacy and at-risk adolescents in reading. Topics include literacy methods, multicultural issues, learning disabilities and use of educational software. 20 hours lecture and 48 hours of tutoring an adolescent in a field-based setting. Department consent required.

ESEC 6002. Educational Equity and Advocacy. Units: 3

This course provides students with the essential knowledge and dispositions of culturally responsive, anti-racist, and critical education. The course highlights the imperative to teach with multiple perspectives and develops student capacity to teach all youth regardless of social class, culture, race, ethnicity, language, gender, and sexual identity.

ESEC 6003. Pedagogical Foundations for English Language Learners in Secondary Classrooms. Units: 3

This course explores strategies for modifying instruction to effectively teach all students, including English language learners. The course provides students with the knowledge and skills necessary for creating inclusive learning environments and maintaining high expectations for all students.

ESEC 6004. Adolescent Development and Educational Theory. Units: 3

The course highlights the ways adolescents interact within school settings, and examines research on adolescent development as it pertains to effective teaching. Students will explore various theories of physical, cognitive, social, and emotional development, and consider how those theories inform teaching in secondary school contexts.

ESEC 6005. Literacy Across the Content Areas. Units: 3

This course explores how to teach reading and writing to prepare students for discipline-specific thinking across content areas. The course includes the design and implementation of formative and summative assessments in the classroom.

ESEC 6006. Secondary Education Special Topics (Capstone). Units: 3

Quarter Prerequisite: Admission to the Single Subject Program

This course provides students with ethical and legal guidelines for special education, school discipline, data privacy, copyright & technology use agreements, internet security, and other issues for classroom teachers.

Exploring the influences of political, social, economic, legal and cultural issues on schools and classroom practices.

ESEC 6010. Methods of Teaching in the Content Areas: Art. Units: 3

This course provides students with an understanding of the existing knowledge-base of teaching methods in Art, and the skills to plan and implement subject-specific pedagogy for Art in secondary classrooms. Topics include selecting and adapting methods of teaching for the content areas, planning lessons and units, assessing learning and developing practices that promote inquiry and critical thinking.

ESEC 6011. Methods of Teaching in the Content Areas: English. Units: 3

This course provides students with an understanding of the existing knowledge-base of teaching methods in English/ Language Arts and the skills to plan and implement subject-specific pedagogy in English/ Language Arts secondary classrooms. Topics include selecting and adapting methods of teaching for the content areas, planning lessons and units, assessing learning, and developing practices that promote inquiry and critical thinking.

ESEC 6012. Methods of Teaching in the Content Areas: World Language. Units: 3

This course provides students with an understanding of the existing knowledge-base of teaching methods in World Languages and the skills to plan and implement subject-specific pedagogy in secondary World Languages classrooms. Topics include selecting and adapting methods of teaching for the content areas, planning lessons and units, assessing learning, and developing practices that promote inquiry and critical thinking.

ESEC 6013. Methods of Teaching in the Content Areas: Mathematics. Units: 3

This course provides students with an understanding of the current knowledge-base of teaching methods in mathematics and the skills required to plan, evaluate, and implement effective mathematics pedagogy in secondary classrooms. Topics include selecting and adapting evidence-based methods of teaching for the content area of mathematics, planning lessons and units, assessing learning, and developing practices and dispositions that promote inquiry and critical thinking.

ESEC 6014. Methods of Teaching in the Content Areas: Music. Units: 3

This course provides students with an understanding of the existing knowledge-base of teaching and the skills to plan and implement subject-specific pedagogy in secondary classrooms. Topics include selecting and adapting methods of teaching for the content areas, planning lessons and units, assessing learning, and developing practices that promote inquiry and critical thinking.

ESEC 6015. Methods of Teaching in the Content Areas: Physical Education. Units: 3

This course provides students with an understanding of the existing knowledge-base of teaching Physical Education and the skills to plan and implement subject-specific pedagogy in secondary Physical Education classrooms. Topics include selecting and adapting methods of teaching for the content areas, planning lessons and units, assessing learnings, and developing practices that promote inquiry and critical thinking.

ESEC 6016. Methods of Teaching in the Content Areas: Science. Units: 3

This course provides students with an understanding of the existing knowledge-base of teaching Science and the skills to plan and implement subject-specific pedagogy in secondary Science classrooms. Topics include selecting and adapting methods of teaching for the content areas, planning lessons and units, assessing learning, and developing practices that promote inquiry and critical thinking.

ESEC 6017. Methods of Teaching in the Content Areas: Social Science. Units: 3

This course provides students with an understanding of the existing knowledge-base of teaching Social Science and the skills to plan and implement subject-specific pedagogy in secondary Social Science classrooms. Topics include selecting and adapting methods of teaching for the content areas, planning lessons and units, assessing learning, and developing practices that promote inquiry and critical thinking.

ESEC 6018. Methods of Teaching in the Content Areas: Theater. Units: 3

This course provides students with an understanding of the existing knowledge-base of teaching methods in Theater and the skills to plan and implement subject-specific pedagogy in K-12 Theater classrooms. Topics include selecting and adapting methods of teaching for the content areas, planning lessons and units, assessing learning, and developing practices that promote inquiry and critical thinking. Graded A through C-/NC.

ESEC 6020. Supervised Field Experience I. Units: 6

This course is intended to help the teacher candidate make the transition from a college student to classroom teacher. Student teaching is an opportunity for the candidate to enact the theories, practices and strategies learned in the foundational stage of the credential program. In the initial stages of this transformative experience, the teacher candidate will observe the Resident Teacher and orient her/himself to the students and the school culture. Over the course of the semester the candidate will have increasing responsibility for the classroom, teaching an increasing number of periods through the school day. Student teaching is a full-time, all day experience in a public school setting. Graded: Credit/No Credit.

ESEC 6022. Supervised Field Experience II. Units: 3

This course is intended to help the teacher candidate make the transition from a post-baccalaureate student to classroom teacher. Student teaching is an opportunity for the candidate to enact the theories, practices and strategies learned in the foundational stage of the credential program. In this second stage of student teaching, teacher candidates will assume more responsibility for the classroom, teaching an increasing number of periods through the school day. Student teaching is a full-time, all day experience in a public school setting. Graded: Credit/No Credit.

ESEC 6030. Teaching Performance Assessment Supervised Study I. Unit: 1

This course will prepare students to submit their Teaching Performance Assessment. This will include one-on-one mentoring sessions to supervise and provide guidance on student work for the TPA. Graded credit/no credit.

ESEC 6031. Teaching Performance Assessment Seminar. Units: 3

This course guides the teacher candidate in preparing for and responding to the California Commission on Teacher Credential (CCTC) state mandated Teacher Performance Assessment required of all teacher candidates. This state mandated assessment evaluates what teacher candidates know and are able to do before being recommended for a teacher credential. In this course students will engage in practical exploration of and preparation for the TPA Cycle 1. Can be taken a maximum of two times for a total of six units. Graded Credit/No credit.

ESEC 6032. Teaching Performance Assessment Supervised Study II. Unit: 1

This course will prepare students to submit part II of their Teaching Performance Assessment. This will include one-on-one mentoring sessions to supervise and provide guidance on student work for the TPA. Graded Credit/No credit.

ESEC 6033. Teaching Performance Assessment Seminar II. Units: 2

Semester Prerequisite: Must have completed Teaching Performance Assessment Seminar I

This course guides the teacher candidate in preparing for and responding to the California Commission on Teacher Credential (CCTC) state mandated Teacher Performance Assessment required of all teacher candidates. This state mandated assessment evaluates what teacher candidates know and are able to do before being recommended for a teacher credential. In this course students will engage in practical exploration of and preparation for the TPA Cycle 2. Graded Credit/No credit.

ESEC 6034. Teaching Performance Assessment Seminar. Units: 3

This course guides the teacher candidate in preparing for and responding to the California Commission on Teacher Credential (CCTC) state mandated Teacher Performance Assessment required of all teacher candidates. This state mandated assessment evaluates what teacher candidates know and are able to do before being recommended for a teacher credential. In this course students will engage in practical exploration of and preparation for the TPA Cycles 1 and 2. Can be taken a maximum of two times for a total of six units. Graded Credit/No credit.

ESEC 6055. Internship Seminar I. Units: 2

This course provides support and guidance to the intern teacher candidate. The intern candidate is a full-time teacher with full responsibilities of the classroom in a cooperating school district. On a daily basis, the intern will demonstrate and refine their teaching of content area standards as well as demonstrate effective use of the theories and strategies learned in the foundational stage of the credential program. Graded credit/no credit. Formerly offered as ESEC 555.

ESEC 6056. Internship Seminar II. Units: 2

This course is the second phase of supervised intern teaching. In this course, the candidate continues to receive support and refine their teaching of content area standards. Graded credit/no credit. Formerly offered as ESEC 556.

ESEC 6071. Intern Supervision I. Units: 3

Semester Prerequisite: Admission to Single Subject Program and Intern requirements met. Quarter Prerequisite: enrollment in Single Subject Program and meeting Intern requirements

Supervised field experience for full-time intern teaching in a single subject setting in a public school. Formerly ESEC 570A. Graded Credit/No Credit.

ESEC 6072. Intern Supervision II. Units: 3

Semester Prerequisite: satisfactory completion of ESEC 6071 and consent of program coordinator. Quarter Prerequisite: satisfactory completion of ESEC 570A and consent of program coordinator
Full-time teaching in a single subject setting in a public school. Graded credit/no credit. Formerly ESEC 570B. Graded Credit/No credit.

ESEC 6605. Advanced Topics in Education. Units: 3

History and theory of elementary, secondary and post-secondary education within the setting of American society: underlying assumptions, organizational structure, leadership, policy, and educational change. Multiculturalism is studied in a balanced context relevant to the educational setting. Students apply what they learn to their educational philosophy, thereby connecting theory to the daily practice in the schools. Course offered as ESEC 6605 and EMAT 6605; credit cannot be awarded for both. Formerly EDUC 605/6605.

ESEC 6610A. Teaching and Learning Technique A - Student Engagement. Units: 3

Theories, research, and concept of human motivation and engagement related to learning and teaching. Explores what motivates students to learn and examine strategies, techniques and interventions that promote and sustain learner engagement. Historical and contemporary research on motivation, teaching and learning will be reviewed, analyzed and discussed.

ESEC 6610B. Teaching and Learning Technique B: Effective Communication in Education. Units: 3

Practical approaches to effective communication in educational contexts. Correlates of effective change and the dynamics of interpersonal communication; group dynamics from a pluralistic perspective; writing and speaking for professional and academic purposes.

ESEC 6610C. Teaching and Learning Technique C: Instructional Facilitation. Units: 3

Provides a context for understanding learner-centered effective questioning techniques, coaching conversations, facilitation strategies, working with struggling learners, navigating conflict, and verbal and nonverbal communication skills.

Education-Special Education (ESPE)**Courses****ESPE 3350. Introduction to Special Populations for General Education Teachers. Units: 3**

Introduction to special populations in the mainstream classroom for general educators. Development of basic skills for teaching special populations in the general education classroom including differentiated instructional strategies within the core curriculum, roles of general education teachers, and creating a positive inclusive climate of instruction for exceptional learners. A minimum of three hours of fieldwork is required. Formerly ESPE 350.

ESPE 5530. Introduction to Special Education. Units: 3

Characteristics and educational implications of physical, intellectual, social and emotional development among exceptional individuals. Ethical and legal aspects of special education. Observations in educational settings. For classification in any Special Education program, candidates must obtain a grade of B or better. Formerly ESPE 530.

ESPE 5531. Methods and Procedures in Special Education. Units: 3

Quarter Prerequisite: ESPE 530

Introductory methods for planning, assessment of student learning, basic instructional strategies, differentiated instruction, and classroom management in special education. Policies and procedures related to the implementation of federal and state legislation governing the delivery of special education services. Introduction to the dispositions of effective special education teachers and teacher leadership. For classified admission to any of the Special Education programs, candidates must obtain a grade of B or better. Formerly ESPE 531.

ESPE 5532. Language Development in Diverse Learners. Units: 3

Semester Prerequisite: ESPE 5530, ESPE 5531, and admission to the Special Education program. Quarter Prerequisite: ESPE 530, ESPE 531, and ESPE 611, and admission to the Special Education program
Characteristics of typical/atypical language development and academic language acquisition in children with and without disabilities. Functional communication and augmentative/alternative communication needs of the exceptional child. Includes the unique linguistic features and needs of the EL learner with disabilities.

ESPE 6601. Critical Issues in Special Education. Units: 3

Quarter Prerequisite: Classified admission to Master of Science in Special Education program

Legal, historical, and ethical foundations of special education including legislation, regulations and case law that govern the provision of special education. Critical trends and issues affected by current social, political, and economic conditions will be addressed, including education reform, multicultural and language issues, inclusion, access to core curriculum, and transition.

ESPE 6602. Research in Special Education. Units: 3

Quarter Prerequisite: Classified admission to the Master of Science in Special Education program

Introduction to qualitative and quantitative research methods, including single subject design. Formulation of research questions and preparation of research documents. Understanding descriptive and inferential statistics in education research. Reading and understanding current research in special education. Formerly ESPE 602.

ESPE 6606. Graduate Writing in Special Education. Units: 3

Semester Prerequisite: Satisfaction of the GE written communication (A1) requirement and a minimum of 60 semester units of college credit
Candidates will learn expository writing conventions specific to the field of special education. Analysis and evaluation of research will be addressed. APA Style will be included.

ESPE 6609. Practicum: Educating Students with Autism Spectrum Disorder. Unit: 1

Semester Prerequisite: Must be co-enrolled in ESPE 6610 or have successfully completed ESPE 6610 or equivalent with consent of program coordinator

Activities related to evidence-based practices in teaching students with autism spectrum disorders.

ESPE 6610. Educating Students with Autism Spectrum Disorders. Units: 3

Semester Prerequisite: ESPE 5530, ESPE 5531, and admission to the Special Education program. Quarter Prerequisite: ESPE 530, ESPE 531, and admission to the Special Education program

Semester Corequisite: ESPE 6609

Characteristics of learners with autism. Evidence-based methods for the education and treatment of students in early childhood through age 22 with autism spectrum disorders. Planning, implementing, and evaluating methods to teach social, language, behavioral, and learning skills. Concurrent enrollment required in ESPE 6609.

ESPE 6619. Supervised Student Teaching in Special Education: Early Childhood Special Education. Units: 6

Semester Prerequisite: Classified admission to the Preliminary Education Specialist credential program in Early Childhood Special Education and successful completion of ESPE 5532, ESPE 6631, ESPE 6632, ESPE 6633, and ESPE 6634. Quarter Prerequisite: Classified admission to the Special Education credential program

Supervised full-time student teaching in early childhood special education settings at a public school or program operated by a county office of education. Experiences in at least two service delivery models for children between birth and kindergarten as outlined by the credential authorization will be documented. Apply for permission to enroll one semester in advance. Graded credit/no credit. Formerly ESPE 620C.

ESPE 6620. Supervised Student Teaching in Special Education: Mild to Moderate Support Needs. Units: 6

Semester Prerequisite: Classified admission to the Preliminary Education Specialist credential program in: (1) Mild/Moderate Disabilities (2009 Standards) and successful completion of ESPE 6609 and ESPE 6636 (formerly 6614); OR (2) Mild to Moderate Support Needs (2018 Standards) and successful completion of ESPE 6634 and ESPE 6636 (formerly ESPE 6614). Quarter Prerequisite: Classified admission to the Special Education credential program

Supervised full-time student teaching in settings where students with mild to moderate support needs are served in a public school. Experiences in general education, grade/age levels, federal disability categories, and the continuum of services outlined by the credential authorizations for Mild to Moderate Disabilities (2009 Standards) and Mild to Moderate Support Needs (2018 Standards) will be documented. Apply for permission to enroll one semester in advance. Graded credit/no credit. Formerly ESPE 620A.

ESPE 6621. Supervised Student Teaching in Special Education: Extensive Support Needs. Units: 6

Semester Prerequisite: Classified admission to the Preliminary Education Specialist credential program in: (1) Moderate to Severe Disabilities (2009/2014 Standards) and successful completion of ESPE 6609 and ESPE 6636 (formerly 6614); OR (2) Extensive Support Needs (2018 Standards) and successful completion of ESPE 6634 and ESPE 6636 (formerly ESPE 6614). Quarter Prerequisite: Classified admission to the Special Education credential program

Supervised full-time student teaching in settings where students with extensive support needs are served in a public school or county office of education. Experiences in general education, grade/age levels, federal disability categories, and the continuum of services outlined by the credential authorizations for Moderate to Severe Disabilities (2009/2014 Standards) and Extensive Support Needs (2018 Standards) will be documented. Apply for permission to enroll one semester in advance. Graded credit/no credit. Formerly ESPE 620B.

ESPE 6622. Supervised Intern Teaching in Special Education: Mild to Moderate Support Needs. Units: 6

Semester Prerequisite: Full/Clear Classification in the Education Specialist Intern Credential in the Special Education program. Candidate must hold a valid Education Specialist Internship Credential with an authorization in Mild to Moderate Disabilities (2009/2014 Standards) OR Mild to Moderate Support Needs (2018 Standards); verified employment in a partnering school district as the teacher of record in a setting appropriate to the internship credential authorization; and consent of Intern Coordinator. Quarter Prerequisite: Full/Clear Classification in the Education Specialist Intern Credential in Mild/Moderate Disabilities and consent of Intern Coordinator

Supervised full-time teaching on an Education Specialist Internship credential in a special education public school setting designated by the Mild/Moderate credential (2009/2014 Standards) OR Mild to Moderate Support Needs credential (2018 Standards) authorization. Must be repeated with a grade of Credit during each semester of the Internship program until completion of credential objective (minimum 4 semesters). May be repeated four times for 24 units. Formerly ESPE 622A.

ESPE 6623. Supervised Intern Teaching in Special Education: Extensive Support Needs. Units: 6

Semester Prerequisite: Full/Clear Classification in the the Special Education program. Candidate must hold a valid Education Specialist Internship Credential with an authorization in Moderate to Severe Disabilities (2009/2014 Standards) OR Extensive Support Needs (2018 Standards); verified employment in a partnering school district as the teacher of record in a setting appropriate to the internship credential authorization; and consent of Intern Coordinator. Quarter Prerequisite: Full/Clear Classification in the Education Specialist Intern Credential in Moderate/Severe Disabilities and consent of Intern Coordinator

Supervised full-time teaching on an Education Specialist Internship credential in a special education public school setting designated by the Moderate/Severe credential (2009/2014 Standards) OR Extensive Support Needs credential (2018 Standards) authorization. Must be repeated with a grade of Credit during each semester of the Internship program until completion of credential objective (minimum 4 semesters). May be repeated four times for 24 units. Formerly ESPE 622B.

ESPE 6624. Supervised Intern Teaching in Special Education: Early Childhood Special Education. Units: 6

Semester Prerequisite: Full/Clear Classification Education Specialist Intern Credential in Early Childhood Special Education and consent of Intern Coordinator. Quarter Prerequisite: Full/Clear Classification in Education Specialist Intern Credential in Early Childhood Special Education and consent of Intern Coordinator

Full-time teaching on an Education Specialist Internship credential in a special education public school setting designated by the Early Childhood credential authorization. Must be repeated with a grade of Credit during each semester of the Internship program until completion of credential objective (minimum 4 semesters). May be repeated four times for 24 units. Formerly ESPE 622C.

ESPE 6631. Assessment for Planning and Instruction. Units: 3

Semester Prerequisite: ESPE 5530, ESPE 5531, and admission to the Special Education Program. Quarter Prerequisite: ESPE 530, ESPE 531, and admission to the Special Education Program

Valid and reliable assessment practices and data analysis to inform evidence-based decisions regarding special education eligibility, program planning, progress monitoring, and learning outcomes for diverse learners. Formerly ESPE 6611.

ESPE 6632. Supportive Learning Environments. Units: 3

Semester Prerequisite: ESPE 5530, ESPE 5531, and admission to the Special Education Program. Quarter Prerequisite: ESPE 530, ESPE 531, and admission to the Special Education Program

Establish, maintain, and monitor positive behavioral and environmental supports in diverse educational settings. Includes system-level support practices. Practicum in approved settings required. Formerly ESPE 6612; ESPE 612.

ESPE 6633. Methods to Support Inclusive Learning. Units: 3

Semester Prerequisite: ESPE 5530, ESPE 5531, and admission to the Special Education program

Semester Corequisite: ESPE 6634

In the context of the California school structure, application and synthesis of teaching methods including universal design for learning (UDL) and integrating unique linguistic features and needs of English language (EL) learners with disabilities across subject matter including core subjects as well as visual and performing arts. Technology for teaching and learning including assistive technology to support student access to learning in inclusive settings. Students will be introduced to coordinating and collaborating with other professionals and paraprofessionals in inclusive educational settings. Concurrent enrollment is required in ESPE 6634.

ESPE 6634. Practicum: Methods to Support Inclusive Learning. Unit: 1

Semester Prerequisite: ESPE 5530, ESPE 5531, and admission to the Special Education Program

Semester Corequisite: Must be co-enrolled in ESPE 6633 or have successfully completed ESPE 6633 or equivalent with consent of program coordinator

Activities related to evidence-based practices in teaching students in inclusive educational settings for TK/Preschool-12 students with and without disabilities.

ESPE 6635. Seminar in Literacy Learning for K-12 Students with Special Needs. Units: 3

Semester Prerequisite: ESPE 5530, ESPE 5531, ESPE 5532 (formerly ESPE 5514), ESPE 6631(formerly ESPE 6611), and admission to the Special Education program. Quarter Prerequisite: ESPE 530, ESPE 531, ESPE 611, and admission to the Special Education program

Semester Corequisite: ESPE 6636 (Formerly ESPE 6614)

Differentiated teaching methods and specialized assessment in literacy learning for students with special needs, including English learners. Must be taken concurrently with ESPE 6636 (formerly 6614). Formerly ESPE 6613; ESPE 613.

ESPE 6636. Practicum: Seminar in Literacy Learning for K-12 Students with Special Needs. Unit: 1

Semester Prerequisite: ESPE 5530, ESPE 5531, ESPE 5532 (formerly ESPE 5514), ESPE 6631 (formerly ESPE 6611), and admission to the Special Education program

Semester Corequisite: ESPE 6635 (formerly ESPE 6613) or have successfully completed ESPE 6635 (formerly ESPE 6613) or equivalent with consent of program coordinator

Activities related to evidence-based practices in literacy instruction for students in grades kindergarten through 12 with disabilities. Formerly ESPE 6614.

ESPE 6637. Seminar on Language and Literacy in Early Childhood Special Education. Units: 3

Semester Prerequisite: ESPE 5530, ESPE 5531, and fully classified in the Education Specialist credential program in Early Childhood. Quarter Prerequisite: ESPE 530, ESPE 531, and full admission to the Special Education program

Semester Corequisite: ESPE 6638 (formerly ESPE 6616)

An intensive study of early language and literacy skills including English language development, assessment, instruction, and curriculum guidelines as related to infants, toddlers, preschool, and kindergarten children with special needs. Formerly ESPE 6615; ESPE 615.

ESPE 6638. Practicum: Seminar on Language and Literacy in Early Childhood Education. Unit: 1

Semester Prerequisite: ESPE 5530, ESPE 5531, ESPE 6631 (formerly ESPE 6611), ESPE 6632 (formerly ESPE 6612), and admission to the Special Education program

Semester Corequisite: ESPE 6637 (formerly ESPE 6615) or have successfully completed ESPE 6637 (formerly ESPE 6615) or equivalent with consent of program coordinator

Activities related to evidence-based practices for language and literacy instruction in early childhood special education. Formerly ESPE 6616.

ESPE 6639. Collaboration and Consultation in Special Education. Units: 3

Semester Prerequisite: ESPE 5530, ESPE 5531, ESPE 6631 (formerly ESPE 6611), ESPE 6632 (formerly ESPE 6612), and admission to the Special Education program. Quarter Prerequisite: ESPE 530, ESPE 531, ESPE 611, ESPE 612, and admission to the Special Education program

Competencies and skills for collaborative and consultative roles to develop partnerships with students, professionals, paraprofessionals, families, and community agency personnel. The role of the education specialist as a teacher leader will be addressed. Formerly ESPE 6625; ESPE 625.

ESPE 6642. Methods for Students with Mild to Moderate Support Needs I. Units: 3

Semester Prerequisite: ESPE 5532 (formerly ESPE 5514), ESPE 6631 (formerly ESPE 6611), ESPE 6632 (formerly ESPE 6612), ESPE 6633, and ESPE 6635 (formerly ESPE 6613)

Responsive, explicit, and systematic teaching and behavioral practices to collaboratively provide optimal learning opportunities for students with mild and moderate support needs to develop essential 21st-century skills. Formerly ESPE 642.

ESPE 6643. Methods for Students with Mild to Moderate Support Needs II. Units: 3

Semester Prerequisite: ESPE 6642. Quarter Prerequisite: ESPE 642

The development of the knowledge and skills to promote social and emotional well-being of students with mild and moderate support needs and to empower students and families for a successful transition to post-secondary education, career, independent living, and community participation. Formerly ESPE 643.

ESPE 6662. Methods for Students with Extensive Support Needs I. Units: 3

Semester Prerequisite: ESPE 5532, ESPE 6631, ESPE 6632, ESPE 6633, ESPE 6635. Quarter Prerequisite: ESPE 610 and 611

Person-centered planning, strength-based, and ecological assessment to develop IEP and ITP; evidence-based instructional supports for students with ESN; address the unique learning, sensory and access needs of students with physical/orthopedic disabilities, other health impairments, and multiple disabilities; environments that support communication and social interactions. Formerly ESPE 662.

ESPE 6663. Methods for Students with Extensive Support Needs II. Units: 3

Semester Prerequisite: ESPE 5532, ESPE 6631, ESPE 6632, ESPE 6633, ESPE 6635, ESPE 6662. Quarter Prerequisite: ESPE 662

Transition planning and implementation for students with ESN; use of assistive technology and AAC to facilitate communication, curriculum access, and skills development; supporting mobility, sensory and/or specialized health care needs; community-based instructional environments; collaboration with other service providers. Formerly ESPE 663.

ESPE 6665. Seminar in Special Education. Units: 3

Semester Prerequisite: Classified admission and advanced to candidacy in the M.S. in Special Education program for candidates who have declared the Comprehensive Exam option. Quarter Prerequisite: Classified admission and advanced to candidacy in the MS Special Education program for candidates who have declared the Comprehensive Exam option

Advanced seminar designed to review current issues and empirical research findings relating to the education of students with disabilities in preparation for the Comprehensive Exam in special education. Review of information regarding assessment, development and delivery of quality instruction, and providing appropriate support for use in regular and special education settings.

ESPE 6672. Birth to Age Three Methods in Early Childhood Special Education. Units: 3

Semester Prerequisite: ESPE 6610, ESPE 6611, ESPE 6612, and full classification the Early Childhood Special Education credential and/or Master of Science in Special Education program. Quarter Prerequisite: ESPE 610, ESPE 611, ESPE 612, and admission to the Special Education program

Contemporary theoretical, philosophical, legal, and empirical influences in Early Intervention. Screening, assessment, intervention and instructional strategies that are responsive to the individual needs of families who have children between birth and age three with disabilities (including children at risk and with low incidence disabilities). Special consideration of the assessment of parent priorities and resources, models of service delivery, collaboration, and supportive learning environments. Requires 45 hours of practice in early intervention settings.

ESPE 6673. Preschool through Kindergarten Methods in Early Childhood Special Education. Units: 3

Semester Prerequisite: ESPE 6610, ESPE 6611, ESPE 6612, and full classification the Early Childhood Special Education credential and/or Master of Science in Special Education program. Quarter Prerequisite: ESPE 610, ESPE 611, ESPE 612, and admission to the Special Education program

Assessment, intervention and instructional strategies that are responsive to the individual needs of students in preschool through kindergarten with disabilities (including children with low incidence disabilities). Special consideration of models of service delivery, collaboration, and supportive learning environments.

ESPE 6953. Advanced Independent Study Topics in Special Education. Units: 3

Prerequisites: Minimum grade point average of "B"

Special topics involving the application of special education procedures. Consent of instructor and college approval of a written proposal of a project submitted on a standard application, and filed in advance of the term in which the course is to be taken. May be taken two times for six units.

ESPE 6960. Master of Science in Special Education Project. Units: 3

Semester Prerequisite: Advancement to candidacy and consent of the Special Education Graduate Program Coordinator. Quarter Prerequisite: Advancement to candidacy and consent of the Special Education Graduate Program Coordinator

Independent graduate research conducted under the guidance of the major advisor and resulting in a written project. Formerly ESPE 600.

ESPE 6980. Comprehensive Examination. Units: 0

Semester Prerequisite: Advancement to candidacy, approval of the department, completion of coursework in the MS in Special Education program, and in good academic standing. Quarter Prerequisite: Advancement to candidacy, approval of the department, completion of coursework in the MS in Special Education program, and in good academic standing

Semester Corequisite: Concurrent enrollment in ESPE 6665

An assessment of teacher candidates' ability to integrate the knowledge of the area, show critical and independent thinking, and demonstrate mastery of the subject matter. Graded credit/no credit.

ESPE 7906. Leadership in Program Development for Students with Disabilities. Units: 3

Semester Prerequisite: Admission into EdD program. Quarter

Prerequisite: Admission into EdD program

Leadership and administration of programs for students with disabilities, including the review of legislative authority and state and federal regulations. Emphasis will be placed on accessibility and inclusive practices.

Education-Sci, Tech, Engineering, Math (ESTM)

Courses

ESTM 5114. Technology and Engineering in STEM Education. Units: 3

Study of technology and engineering tools, practices, and standards that contribute to K-12 Science, Technology, Engineering, and Mathematics (STEM) education.

ESTM 6104. Foundations of STEM Education. Units: 3

Overview of philosophy, perspectives, and standards of Science, Technology, Engineering, and Mathematics (STEM) education that contribute to an integrated view of STEM education. Formerly offered as ESTM 510.

ESTM 6134. Assessment in STEM Education. Units: 3

Quarter Prerequisite: ESTM 510 or consent of program coordinator
Introduction to assessment strategies that enhance learning in STEM education. Topics include formative and summative assessment, student feedback, development and analysis of assessment item, measurement methods, and data driven decision making. Previously offered as ESTM 613.

ESTM 6203. Advanced Teaching Methods in STEM Education. Units: 3

Emphasis is on curricular connections across topics, disciplines and grade levels, fostering scientific and mathematical thinking and practices, STEM integration, and equitable teaching strategies.

ESTM 6234. Teaching Science in STEM Education. Units: 3

Emphasis is on curricular connections across topics and grade levels, fostering scientific thinking and practices, STEM integration, research and trends in science education that impact teaching and learning of science.

ESTM 6244. Teaching Mathematics in STEM Education. Units: 3

Quarter Prerequisite: ESTM 510, ESTM 511, MATH 115 or equivalent, MATH 301A, MATH 301B, MATH 301C, and MATH 308 or consent of program coordinator

The emphasis is on curricular connections across topics and grade levels, fostering mathematical thinking and practices, STEM integration, research and trends in mathematics education that impact teaching and learning of mathematics.

ESTM 6284. Equity in STEM Education. Units: 3

An examination of the issues of diverse student groups based on race, ethnicity, language, socio-economic status, gender, and special needs in STEM education. Emphasis is on approaches to ensure equity in STEM education, such as differentiation strategies and culturally relevant teaching.

ESTM 6344. Research Methods in STEM Education. Units: 3

Quarter Prerequisite: ESTM 510 or consent of the instructor

Introduction to the major educational research methods and paradigms with an emphasis on reflective, practitioner-directed inquiry. Formerly offered as ESTM 634.

ESTM 6920. Practicum in STEM Education. Units: 3

Prerequisites: Consent of the instructor

Practicum course including application of research-based STEM

Education practices in formal and informal educational settings. Consent of the instructor.

ESTM 6930. Advanced Disciplinary Topics in STEM Education. Units: 3

Advanced study of subject matter pedagogy in STEM-related disciplines to enable candidates to incorporate current and relevant content knowledge in STEM Education. Consent of the instructor.

ESTM 6954. Advanced topics in STEM Education. Units: 3

Semester Prerequisite: Advancement to candidacy and approval from program coordinator

Culminating experience for STEM Education master's students.

Synthesis of current trends and practices in STEM Education in the local and national context.

ESTM 6963. STEM Education Master Project. Units: 3

Semester Prerequisite: Prerequisites:##ESTM 6344, advancement to candidacy, and approval of project proposal by the student's advisory committee

Independent graduate project in STEM Education conducted under the direction of the student's advisory committee.

ESTM 6973. STEM Education Master Thesis. Units: 3

Semester Prerequisite: ESTM 6344, advancement to candidacy, and approval of thesis proposal by the student's advisory committee

Independent graduate research related to issues in STEM Education conducted under the direction of thesis committee.

ESTM 6980. STEM Education: Comprehensive Examination. Units: 0

Semester Prerequisite: Completion of course work in the master's program, advancement to candidacy, in good academic standing and approval of the program coordinator. Quarter Corequisite: ESTM 681.

Quarter Prerequisite: ESTM 680, completion of course work in the master's program, advanced to candidacy, approval of the department, and in good academic standing

Semester Corequisite: ESTM#6954

An assessment of the student's ability to integrate the knowledge of STEM education, show critical and independent thinking and demonstrate mastery of the subject matter.

ESTM 6990. Continuous Enrollment for Graduate Candidacy Standing. Units: 0

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ESTM 6991. Continuous Enrollment for Graduate Candidacy Standing. Unit: 1

Quarter Prerequisite: Advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ESTM 6992. Continuous Enrollment for Graduate Candidacy Standing. Units: 2

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ESTM 6993. Continuous Enrollment for Graduate Candidacy Standing. Units: 3

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ESTM 6994. Continuous Enrollment for Graduate Candidacy Standing. Units: 4

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ESTM 6995. Continuous Enrollment for Graduate Candidacy Standing. Units: 5

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

ESTM 6996. Continuous Enrollment for Graduate Candidacy Standing. Units: 6

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

Education-Instructional Technology (ETEC)

Courses

ETEC 4160. Technology in the Classroom. Unit: 1

A brief survey of instructional technology integration models and digital literacy to facilitate the teaching and learning process.

ETEC 5000. Foundations in Instructional Design & Technology. Units: 3

Introduction to the field of Instructional Design & Technology and its foundations. An overview of IDT key terminologies, learning theories, research trends and issues, and basic technological competency. Formerly ETEC 500.

ETEC 5010. Foundations of e-Learning. Units: 3

Introduction to theoretical and practical foundations of e-Learning including the history, trends, current issues, and practices of e-Learning. Formerly ETEC 501.

ETEC 5200. Academic Writing Skills. Units: 3

Study and practice of reading comprehension, academic writing process, and critical thinking as integrally related skills. Development of skills necessary to write a variety of focused and organized academic papers.

ETEC 5410. E-Learning Design and Development. Units: 3

Examination and application of e-Learning design and development principles and practices to produce online courses. Formerly ETEC 541.

ETEC 5421. Seminar in Instructional Design & Technology. Unit: 1

Intensive study of topics and issues in Instructional Design and Technology. May be repeated for credit as subject matter changes and with the consent of the instructor. Graded credit/no credit. May be taken six times for six units. Formerly ETEC 542A.

ETEC 5422. Seminar in Instructional Design & Technology. Units: 2

Intensive study of topics and issues in Instructional Design and Technology. May be repeated for credit as subject matter changes and with the consent of the instructor. Graded credit/no credit. May be taken three times for six units. Formerly ETEC 542B.

ETEC 5423. Seminar in Instructional Design & Technology. Units: 3

Quarter Prerequisite: graduate standing or consent of instructor
Intensive study of topics and issues in Instructional Design and Technology. May be repeated for credit as subject matter changes and with the consent of the instructor. Graded credit/no credit. May be taken two times for six units. Formerly ETEC 542C.

ETEC 5430. Research in Instructional Design & Technology I. Units: 3

Quarter Prerequisite: ETEC 500
Exploration of connections between technology and the teaching and learning process through a study of research design, data collection and analysis. Formerly ETEC 543.

ETEC 5440. Instructional Design I. Units: 3

Quarter Prerequisite: ETEC 500
Examination of various models of instructional design and procedures used in the production of instructional materials. Formerly ETEC 544.

ETEC 5460. Technology Integration in The Classroom. Units: 3

Exploration of basic principles of operation of computer hardware and software, and basic troubleshooting techniques for computer systems, effective integration of technology into the curriculum, digital literacy, and the legal and ethical issues related to the use of technology. Formerly ETEC 546.

ETEC 6430. Research in Instructional Design & Technology II. Units: 3

Quarter Prerequisite: ETEC 500 and 543
Advanced exploration of connections between technology and the teaching and learning process through a study of research design, data collection, and analysis. Formerly ETEC 643.

ETEC 6440. Instructional Design II. Units: 3

Quarter Prerequisite: ETEC 500 and ETEC 544
Advanced application of instructional design models and procedures to produce instructional materials. Formerly known as ETEC 644.

ETEC 6480. E-Learning Delivery and Evaluation. Units: 3

Examination of various models, strategies, and issues of e-learning delivery. Exploration of evaluation on student learning and e-Learning effectiveness. Formerly ETEC 648.

ETEC 6550. Multimedia Production with Emerging Instructional Technologies. Units: 3

Production of multimedia projects using various emerging instructional technologies and authoring tools. May be repeated for credit as subject matter changes and with the consent of the instructor. May be taken two times for six units. Formerly ETEC 676D.

ETEC 6740. E-Learning Technology and Media. Units: 3

Examination of current technology tools and instructional methods for effective instruction on e-Learning. Formerly ETEC 674.

ETEC 6850. ePortfolio & Comprehensive Exam Preparation. Units: 3

Assisting Instructional Design & Technology Master's students in preparation for ePortfolio defense and comprehensive examination. Graded Credit/No Credit.

ETEC 6920. Practicum in Instructional Design and Technology. Units: 3

Quarter Prerequisite: ETEC 500 or consent of instructor
Application of Instructional Design and Technology in real world issues in professional settings. Requires a written agreement with a sponsoring agency and program approval of that agreement. Formerly ETEC 692. Graded Credit/No credit.

ETEC 6963. Masters Degree Project. Units: 3

Assisting Instructional Design & Technology Masters students in completing their M.A. project. Formerly ETEC 699.

ETEC 6980. Comprehensive Examination. Units: 0

An assessment of Instructional Design & Technology Masters students' ability to integrate the knowledge of the area, show critical and independent thinking, and demonstrate mastery of the subject matter. May be taken three times. Formerly ETEC 999.

Finance (FIN)

Courses

FIN 1001. Financial Choices in Life. Units: 2

An introduction to how financial choices affect lifestyle decisions, economic stress, and well-being. Topics include how students deal with credit cards, student loans, leasing vs. buying cars, insurance, employee benefits, housing, investments, and retirement decisions. Formerly offered as FIN 101.

FIN 3001. Finance I. Units: 3

Semester Prerequisite: MATH 1301 or MATH 1401 or MATH 1601 or MATH 2210 and ACCT 2120 and ADMN 2100 or consent of instructor. Quarter Prerequisite: ACCT 212 or ACCT 312, MATH 110 and ADMN 210

First of a two-course sequence of introduction to modern financial theory. Topics include the role of finance in the management, the analysis of financial statements, long-term financial planning and growth, the time value of the money, the valuation of bonds and stocks, and capital budgeting techniques applied to relevant cash flows. Formerly offered as FIN 313.

FIN 3002. Finance II. Units: 3

Semester Prerequisite: FIN 3001. Quarter Prerequisite: FIN 313
Second of a two-course sequence of introduction to modern financial theory (continuation of FIN 3001). Topics include efficient market hypothesis, risk and return measures, the security market line, the cost of capital, capital structure, short-term finance and planning, dividend policy, credit/liquidity management, and basic concepts of options, mergers and careers in finance. Formerly offered as FIN 314.

FIN 3003. Corporate Finance. Units: 3

Introduction to modern financial theory and practice. Topics include the role of finance in management, the analysis of financial statements, long-term financial planning and growth, the time value of the money, valuation, financial markets, and capital budgeting techniques.

FIN 3555. Business and Asian Culture. Units: 3

Introduction to religions, philosophies, cultures, characteristics, histories, and etiquettes of Asian countries from a business perspective. Topics also include the historical experiences and cultural contributions of Asian Americans to American society. As a practical approach to doing business with Asian countries and Asian communities, the course introduces international business practices including documentation, customs clearance procedures, shipping, the methods and instruments of payment, and international commercial terms. (Also offered as FIN 5555. Students may not receive credit for both.) Students in FIN 5555 must complete additional requirements. Satisfies DI, G designations.

FIN 3600. Financial Planning Process and the Psychology of Financial Planning. Units: 3

Semester Prerequisite: FIN 3001

This course covers the financial planning process which includes, financial statements, cash flow management, time value of money, and economic concepts. Psychology of planning content includes, client and planner attitudes, values, and biases, principles of counseling and effective communication, and behavioral finance. Formerly offered as FIN 360.

FIN 3650. Risk Management and Insurance. Units: 3

Semester Prerequisite: FIN 3001

Principles of insurance and related risk, deepening knowledge about insurance and different type of compensation. This course covers the following topics: health insurance, disability income insurance, long term care insurance, annuities, life insurance, etc.

FIN 3800. Principles of Real Estate. Units: 3

Semester Prerequisite: FIN 3001 or consent of instructor. Quarter Prerequisite: FIN 313 or consent of instructor

Basic issues in real estate, including legal concepts, appraisal, financing, investment, brokerage, and management of real estate. Satisfies one of the state requirements toward the real estate broker license. Formerly offered as FIN 380.

FIN 3850. Real Estate Accounting. Units: 3

Semester Prerequisite: FIN 3800 or consent of instructor. Quarter Prerequisite: FIN 380 or consent of instructor

Introduction to real estate accounting. Topics covered include accounting for operating revenues and expenses, escrow account reconciliation, budgeting, real estate acquisition and disposition costs, financial and closing statements, measures of real estate profitability, tax considerations, etc. Satisfies one of the state requirements toward the real estate broker license. Formerly offered as FIN 385.

FIN 4200. Entrepreneurial Finance. Units: 3

Semester Prerequisite: FIN 3001 and 3002. Quarter Prerequisite: FIN 313 and 314 or consent of instructor

Financing business start-ups and entrepreneurial projects. Topics include business plan, venture capital markets, funding cycles, financial statement analysis, financial management, valuation of firms, and exit strategy. Formerly offered as FIN 420.

FIN 4320. Financial Institutions and Capital Market. Units: 3

Semester Prerequisite: FIN 3001 and FIN 3002. Quarter Prerequisite: FIN 313 and FIN 314

A study of the structure, operations, portfolio compositions, and problems of financial intermediaries and financial markets. Formerly offered as FIN 432.

FIN 4330. International Finance. Units: 3

Semester Prerequisite: FIN 3001

A study of the financial principles and tools and their applications to international business decisions. Topics include foreign exchange markets, foreign exchange risk and hedging, foreign investment analysis, international money and capital markets, and international trade finance. Materials fee required. Satisfies G designation.

FIN 4450. Financial Data Analytics. Units: 3

Semester Prerequisite: FIN 3001 or instructor approval. Quarter

Prerequisite: FIN 314

This course introduces the modern tools utilized to analyze real-world financial problems. Students obtain practical experience in acquiring, preparing, and analyzing financial data using techniques such as machine learning and prediction models. Financial applications discussed include portfolio construction, risk management, fraud detection, lending decisions, and valuation of financial assets such as stocks and bonds. Students are advised to take this course near the end of their program. Materials fee required.

FIN 4590. Financial Case Studies. Units: 3

Semester Prerequisite: FIN 3001, FIN 3002. Prerequisite: FIN 313, FIN 314

Advanced topics in the field of finance such as financial statement analysis, capital budgeting, capital structure, retirement planning, etc. Emphasizes financial decision making and includes lectures and case studies.

FIN 4600. Retirement Planning. Units: 3

Semester Prerequisite: FIN 3600 or consent of instructor

This course covers the following topics: social security and medicare, retirement plans: qualified and non-qualified plans, retirement income, business succession planning, etc. Formerly offered as FIN 460.

FIN 4690. Tax and Estate Planning. Units: 3

Semester Prerequisite: FIN 3001

Principles of Tax and Estate Planning. This course covers topics of tax law, income tax of business entities and trusts and estates, tax reduction and management, tax of property transaction, charitable and philanthropic contribution, property titling and beneficiary designations, estate and incapacity planning, gift, estate, GST tax, types and taxation of trusts, marital deduction, planning for divorce and unmarried couples, etc.

FIN 4800. Real Estate Appraisal. Units: 3

Semester Prerequisite: FIN 3800 or consent of instructor. Quarter

Prerequisite: FIN 380 or consent of instructor

Examines the appropriate methodology for determining the value of real estate, including both theory and practice. A foundation for potential licensing and certification will be developed. Satisfies one of the state requirements toward the real estate broker license. Formerly offered as FIN 480.

FIN 4810. Real Estate Practice. Units: 3

Semester Prerequisite: FIN 3800 or consent of instructor. Quarter Prerequisite: FIN 380 or consent of instructor
 Legal, marketing and financial aspects of running a real estate business. Focus will be on the practical application of real estate theory to the operation of the firm. Satisfies one of the state requirements toward the real estate broker license. Formerly offered as FIN 481.

FIN 4820. Real Estate Development. Units: 3

Semester Prerequisite: FIN 3800 or consent of instructor. Quarter Prerequisite: FIN 380 or consent of instructor
 Aspects of the real estate development process from the location of the property to the best use of the property. Satisfies one of the state requirements toward the real estate broker license. Formerly offered as FIN 482.

FIN 4850. Legal Aspects of Real Estate. Units: 3

Semester Prerequisite: FIN 3800 or consent of instructor. Quarter Prerequisite: FIN 380 or consent of instructor
 Legal aspects of real estate transactions will be emphasized. Legal considerations of listing contracts, purchase agreements, disclosure requirements, trust deeds, promissory notes and agency will be the key topics. Liability exposures to all parties will also be explored in the real estate transaction. Satisfies one of the state requirements toward the real estate broker license. Formerly offered as FIN 485.

FIN 5230. Security Trading and Analysis. Units: 3

Semester Prerequisite: FIN 3001 and 3002 or FIN 6020. Quarter Prerequisite: FIN 313 and 314 or FIN 602
 An applied investment analysis course, emphasizing the application of modern portfolio theory and asset allocation models in selecting and evaluating stocks and bonds. This web-enhanced course utilizes modern computer and data facilities to conduct extensive fundamental and technical analysis, security portfolio tracking, performance measurement, and trading simulation and strategies. Formerly offered as FIN 523.

FIN 5270. Financial Derivatives. Units: 3

Semester Prerequisite: FIN 3001 and FIN 3002 or FIN 6020. Quarter Prerequisite: FIN 313 and FIN 314 or FIN 602
 Managing individual stock and stock portfolio price risks, interest rate risk, currency exchange-rate risk, and other financial risks using options, futures, forwards, and swaps. Emphasis on hedging risk than on speculative uses of financial derivatives. Formerly offered as FIN 527.

FIN 5300. Financial Theory and Practice. Units: 3

Semester Prerequisite: FIN 3001 and FIN 3002
 An in-depth study of financial management with application to capital markets, financial planning, capital budgeting, capital structure, portfolio selection and managerial problems. Formerly known as FIN 430/4300.

FIN 5350. Investment Analysis. Units: 3

Semester Prerequisite: FIN 3001, FIN 3002, and (FIN 4300 or FIN 3650)
 Introduction to the security analysis and the modern portfolio theory. It provides an analytic, rather than institutional, approach to understand modern treatment of risk and return characteristics of stocks, bonds, options, and portfolio. Formerly known as FIN 435/4350. Materials fee required.

FIN 5460. Student Managed Investment Fund. Units: 3

Semester Prerequisite: FIN 3001 and 3002. Quarter Prerequisite: FIN 313 and 314

Gain hands-on investment experience in managing real money. Learn to be an equity analyst and junior portfolio manager. Build an investment portfolio by selecting securities from the equity and bond markets. May be taken two times for six units. Formerly FIN 546.

FIN 5555. Trade and Business in Asia. Units: 3

Introduction to religions, philosophies, cultures, characteristics, histories, and etiquettes of Asian countries from a business perspective. Topics also include the historical experiences and cultural contributions of Asian Americans to American society. As a practical approach to doing business with Asian countries and Asian communities, the course introduces international business practices including documentation, customs clearance procedures, shipping, the methods and instruments of payment, and international commercial terms. (Also offered as FIN 3555. Students may not receive credit for both.) Students in FIN 5555 must complete additional requirements. Formerly offered as FIN 555.

FIN 5600. Code of Ethics and Standards of Conduct in Financial Plan Development. Units: 3

Semester Prerequisite: FIN 3001, FIN 3002 and FIN 3600
 CFP Board's code of Ethics and Standard of Conduct. This course covers the CFP Board's code of ethics and standard conduct, procedural rules, the structure of financial institutions, financial service regulations and requirements, consumer protection laws and fiduciary standards and applications, etc. This course also covers the creation and presentation of a financial plan.

FIN 5753. Finance Internship. Units: 3

Quarter Prerequisite: senior standing preferred; consent of instructor and the departments internship coordinator
 Supervised work and study in Financial function of private or public organizations. May be repeated once for credit. A total of six units of FIN 5753 (Finance Internship) course may be applied toward graduation. Graded credit/no credit. May be taken two times for six units. Formerly FIN 575.

FIN 5755. Internship. Unit: 1

Semester Prerequisite: Consent of college internship coordinator. Quarter Prerequisite: senior standing preferred; consent of instructor and the departments internship coordinator
 Supervised work and study in private or public organizations. May be repeated for credit. A total of six units of Jack H. Brown College of Business and Public Administration 5753 or 5755 courses may be applied toward graduation. Graded credit/no credit.

FIN 5850. Real Estate Finance. Units: 3

Semester Prerequisite: (FIN 3001 or FIN 6020) and FIN 3800; or consent of instructor. Quarter Prerequisite: (FIN 313 or FIN 602) and FIN 380; or consent of instructor
 Financial aspects of real estate investment, including analysis of investment characteristics, lending environment, financial instruments, and effective loan proposals. Satisfies one of the state requirements toward the real estate broker license. Formerly offered as FIN 585. Materials fee required.

FIN 5860. Computer Applications in Real Estate. Units: 3

Semester Prerequisite: FIN 3800 or consent of instructor. Quarter Prerequisite: FIN 380 or consent of instructor

Introduction to computer skills for real estate. Topics covered include use of social media, professional networking, MS Office and Publisher, real estate presentation, contact management software, Multiple Listing Service, and real estate data analysis. Satisfies one of the state requirements toward the real estate broker license. Formerly offered as FIN 586.

FIN 5880. Real Estate Office Administration. Units: 3

Semester Prerequisite: FIN 3800 or consent of instructor. Quarter Prerequisite: FIN 380 or consent of instructor

Introduction to real estate office administration. Topics covered include recruiting salespeople for retention, selecting office personnel, written instruments between broker and salespeople, continual training, compensation and benefits, financial systems and records, market analysis, growth of a firm, etc. Satisfies one of the state requirements toward the real estate broker license. Formerly offered as FIN 588.

FIN 5915. Seminar in Finance. Unit: 1

An intensive study of some phase of finance to be developed by the instructor. May be repeated for credit as topics change.

FIN 5930. Seminar in Finance. Units: 3

An intensive study of some phase of finance to be developed by the instructor. May be repeated for credit as topics change. Formerly offered as FIN 590.

FIN 5951. Independent Study. Unit: 1

Semester Prerequisite: Junior status, or graduate status
Special topics involving library and/or field research. A total of 8 units in any Jack H. Brown College of Business and Public Administration 5951, 5952, 5953, 5955 may be applied toward graduation. Consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the Jack H. Brown College of Business and Public Administration on a standard application filed in advance of the semester in which the course is to be taken. Course is cross-listed across different departments within the college.

FIN 5952. Independent Study. Units: 2

Semester Prerequisite: Junior status, or graduate status
Special topics involving library and/or field research. A total of 8 units in any Jack H. Brown College of Business and Public Administration 5951, 5952, 5953, 5955 may be applied toward graduation. Consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the Jack H. Brown College of Business and Public Administration on a standard application filed in advance of the semester in which the course is to be taken. Formerly offered as 595B. Course is cross-listed across different departments within the college.

FIN 5953. Independent Study. Units: 3

Semester Prerequisite: Junior status, or graduate status
Special topics involving library and/or field research. A total of 8 units in any Jack H. Brown College of Business and Public Administration 5951, 5952, 5953, 5955 may be applied toward graduation. Consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the Jack H. Brown College of Business and Public Administration on a standard application filed in advance of the semester in which the course is to be taken. Formerly offered as 595D. Course is cross-listed across different departments within the college.

FIN 5955. Independent Study. Unit: 1

Semester Prerequisite: Junior status, or graduate status
Special topics involving library and/or field research. A total of 8 units in any Jack H. Brown College of Business and Public Administration 5951, 5952, 5953, 5955 may be applied toward graduation. Consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the Jack H. Brown College of Business and Public Administration on a standard application filed in advance of the semester in which the course is to be taken. Course is cross-listed across different departments within the college.

FIN 6020. Financial Theory and Corporate Finance. Units: 3

Modern finance theory and analysis of financial decision making. Topics include agency theory, time value of the money, risk and return, capital asset pricing model, capital market efficiency, bond and stock valuation, financial planning, cost of capital, capital budgeting, short-term financial management, capital structure, hybrid securities. Case studies are introduced. Formerly FIN 602.

FIN 6220. Entrepreneurial and Venture Finance. Units: 3

Semester Prerequisite: FIN 6020. Quarter Prerequisite: FIN 602
An overview of the financial and investment of entrepreneurial firms. Focus is on financial and investment strategies available to entrepreneurial firms and the criteria for selecting the appropriate strategy. Formerly offered as FIN 622.

FIN 6510. Financial Institutions and Markets. Units: 3

Semester Prerequisite: FIN 6020. Quarter Prerequisite: FIN 602
Analysis of financial institutions and markets. Term structure of interest rates, portfolio theory and flow-fund analysis, deposit-type intermediaries, insurance, pension funds and investment companies, Federal Reserves System, and market regulation and policies. Formerly offered as FIN 651.

FIN 6530. Investment Analysis and Portfolio Management. Units: 3

Semester Prerequisite: FIN 6020. Quarter Prerequisite: FIN 602
Comprehensive introduction to the descriptive and formalized quantitative areas of security analysis, valuation, hedging, and portfolio management. This course includes activity in laboratory and a project analysis. Materials fee required. Formerly offered as FIN 653.

FIN 6540. International Finance. Units: 3

Semester Prerequisite: FIN 6020. Quarter Prerequisite: FIN 602

Study of international financial environment and problems in operation of multinational enterprises with major focus on theory and practice of foreign exchange transactions, money and capital markets, investment decisions, currency risk management, current asset management and comparative financial systems. Formerly offered as FIN 654.

FIN 6755. Internship. Unit: 1

Semester Prerequisite: Consent of college internship coordinator. Quarter Prerequisite: senior standing preferred; consent of instructor and the departments internship coordinator

Supervised work and study in private or public organizations. May be repeated for credit. A total of six units of Jack H. Brown College of Business and Public Administration 5753 or 5755 courses may be applied toward graduation. Graded credit/no credit.

FIN 6770. Financial Data Analytics with Python and SQL. Units: 3

This course offers a comprehensive exploration of essential financial concepts and portfolio management strategies, designed to equip students with the practical skills necessary for today's finance industry. Using Python, Excel, and SQL as key tools, students will actively apply financial theories to real-world scenarios. Through hands-on projects, they will develop the ability to optimize portfolios, assess and manage financial risks, and gain insights into market trends.

FIN 6771. Ethical and Professional Standards. Units: 3

Professional codes, standards, guidelines, ethical practices, regulations, and laws relevant to the investment industry. Topics include CFA Institute Code of Ethics and Standards of Professional Conduct, Code of Professional Conduct, Research Objectivity Standards, and Soft Dollar Standards. Formally offered as FIN 661.

FIN 6772. Quantitative Method for Finance. Units: 3

Quantitative techniques employed in finance. Topics include time value of money, probability distributions and descriptive statistics, sampling and estimation, hypothesis testing, regression models, time series analysis, simulation methods, and technical analysis applied to financial asset valuation. Formally offered as FIN 662.

FIN 6773. Financial Market and Environment. Units: 3

Introduction to the structure and the function of financial markets and the role of financial institutions. Explores the principles that connect financial markets, financial institutions, and the economy. Topics include the firm and market structures, market efficiency, equilibrium and business cycles, monetary policy, and fiscal policy. Formally offered as FIN 663.

FIN 6774. Financial Statement Analysis I. Units: 3

Principal financial reporting system. Topics include analysis of principal financial statements, inventories and long lived assets, taxes, debt, and off balance sheet. Formally offered as FIN 664.

FIN 6775. Financial Statement Analysis II. Units: 3

Semester Prerequisite: FIN 6774. Quarter Prerequisite: FIN 664

Advanced financial reporting system. Topics include analysis of pensions, stock compensation, and other employee benefits; inter-corporate investments; business combinations; global operations; and ratio. Formally offered as FIN 665.

FIN 6776. Advanced Corporate Finance. Units: 3

Semester Prerequisite: FIN 6775. Quarter Prerequisite: FIN 665

The optimal strategic decision-making in finance. Topics include corporate governance, dividend policy, capital investment decisions, business and financial risk, capital structure decisions, working capital management, mergers and acquisitions, and corporate restructuring. Course equivalent to FIN 5300; credit may not be awarded for both. Formally known as FIN 666.

FIN 6777. Portfolio Management. Units: 3

Semester Prerequisite: FIN 6776. Quarter Prerequisite: FIN 666

Modern portfolio management theory, practice, and analysis. Topics include investment policy, modern portfolio management, behavioral finance, management of portfolios, tax efficiency strategies, asset allocation, portfolio construction and revision, risk management, execution of portfolio decisions, and performance evaluation. Course equivalent to FIN 5350; credit may not be awarded for both. Formally known as FIN 667.

FIN 6778. Global Equity Investment. Units: 3

Semester Prerequisite: FIN 6776. Quarter Prerequisite: FIN 666

Equity Investment in global context. Topics include currency exchange rates, international trade and capital flows; global equity markets characteristics, institutions, and benchmarks; types of equity securities and their characteristics; valuation of individual equity securities; and fundamental analysis. Formally offered as FIN 668.

FIN 6779. Fixed Income. Units: 3

Semester Prerequisite: FIN 6776. Quarter Prerequisite: FIN 666

Fixed income investment. Topics include types of fixed-income securities and their characteristics, fixed-income markets, fixed-income portfolio benchmarks, fixed-income valuation and return analysis, term structure, analysis of interest rate risk, analysis of credit risk, valuing bonds with embedded options, structured products, fixed-income portfolio management strategies, and duration. Formally offered as FIN 669.

FIN 6780. Derivative and Alternative Investment. Units: 3

Semester Prerequisite: FIN 6776. Quarter Prerequisite: FIN 666

Modern theory and practice of derivative securities and alternative investments. Topics include options, forward, and futures, and swap contracts and their valuation; usage of derivatives in portfolio management; credit derivatives markets and instruments; real estate valuation; private equity and venture capital valuation; hedge fund strategies; commodities and managed futures; and alternative investments and their characteristics. Course equivalent to FIN 5270; credit may not be awarded for both. Formally offered as FIN 670.

FIN 6790. Comprehensive Investment Analysis. Units: 3

Semester Prerequisite: Completion of 11 courses of the Master of Science in Finance (MSF) program. Quarter Prerequisite: Completion of 11 courses of the Master of Science in Finance (MSF) program

Comprehensive course develops the future investment manager's analysis skills and integrating knowledge from the Master of Science in Finance courses. Topics cover a wide range of investment tools and portfolio management, and asset valuation. Formally offered as FIN 696.

FIN 6800. Corporate Financial Strategy. Units: 3

Semester Prerequisite: FIN 6020 or consent of instructor. Quarter Prerequisite: FIN 602 or consent of instructor

Advanced topics in the field of corporate finance such as mergers and acquisitions, capital structure policy, capital budgeting, and corporate restructuring. Emphasizes financial strategy and includes lecture and case study. Formerly FIN 680.

FIN 6980. Finance Comprehensive Examination. Units: 0

An assessment of student ability to integrate the knowledge of finance area, show critical and independent thinking, and demonstrate mastery of the subject matter in Finance. May be taken after advancement to candidacy. May be repeated for credit. Graded credit/no credit.

FIN 6985. MSF Portfolio. Units: 0

Semester Prerequisite: Advancement to candidacy, approval of department, completion of 11 courses in the Master of Science in Finance (MSF) program and in good academic standing
Preparation and submission of a portfolio containing assignments representing successful work in the Master of Science in Finance (MSF) program, accompanied by a reflective essay showing how the portfolio demonstrates the accomplishment of the goals of the program. Graded credit/no credit.

FIN 6990. Continuous Enrollment for Graduate Candidacy Standing. Units: 0

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

FIN 6991. Continuous Enrollment for Graduate Candidacy Standing. Unit: 1

Quarter Prerequisite: Advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

FIN 6992. Continuous Enrollment for Graduate Candidacy Standing. Units: 2

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

FIN 6993. Continuous Enrollment for Graduate Candidacy Standing. Units: 3

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

FIN 6994. Continuous Enrollment for Graduate Candidacy Standing. Units: 4

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

FIN 6995. Continuous Enrollment for Graduate Candidacy Standing. Units: 5

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

FIN 6996. Continuous Enrollment for Graduate Candidacy Standing. Units: 6

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

French (FREN)

Courses

FREN 1102. Beginning French Activity Lab. Unit: 1

Semester Corequisite: FREN 1112 Beginning French 2 or consent of department

Practice conversational French with confidence in an informal and relaxed setting. Activities will correspond to topics in Beginning French 2. Graded credit/no credit.

FREN 1111. Beginning French 1. Units: 4

Bonjour! Explore other cultures through the French language. Learn to formulate and respond to questions about daily life, preferences and feelings. Practice speaking, reading, listening and writing so you can communicate with others using simple French. This is the place to start if you've never studied French before. Materials fee required.

FREN 1112. Beginning French 2. Units: 3

Semester Prerequisite: 2 years high school language study, placement exam, equivalent college-level course (eg FREN 1111) or consent of department

Parlez-vous français? Continue to develop your ability to use French in a variety of cultural contexts. Practice routine social situations through speaking, listening, reading and writing. Learn to recount events in the past, present, and future. Satisfies GE C2/3B, DI, G designations. Materials fee required.

FREN 1151. Accelerated Beginning French. Units: 7

Intensive course that combines the content of Beginning French 1 and 2 at an accelerated pace. Emphasizes active use of the language through the development of skills in listening, speaking, reading, and writing. Six hours of seminar and 2 hours of activity. Materials fee required.

FREN 2111. Introduction to the Francophone World. Units: 4

Semester Prerequisite: FREN 1112 and 1102, or FREN 1151 or consent of department. Quarter Prerequisite: FREN 103 or FREN 150

What are the characteristics of diverse French-speaking communities around the world? Improve your French through a study of stories, films, cultural practices and the arts to better understand the unique perspectives these cultures contribute. Materials fee required.

FREN 2112. Introduction to French Media. Units: 4

Semester Prerequisite: FREN 1112 and 1102, or FREN 1151 or consent of department. Quarter Prerequisite: FREN 103 or FREN 150

Is French hip-hop culture the same as ours? Develop your language and cultural proficiency through contemporary media such as music, movies, radio (podcasts) and online magazines. Materials fee required.

FREN 2113. Introduction to Reading & Interpretation. Units: 4

Semester Prerequisite: FREN 1112 and 1102, or FREN 1151 or consent of department. Quarter Prerequisite: FREN 103 or FREN 150

What makes a story interesting? Read short stories from around the world while discovering French cultures and developing your interpretive skills. Materials fee required.

FREN 2114. Introduction to French Culture. Units: 4

Semester Prerequisite: FREN 1112 and 1102, or FREN 1151 or consent of department. Quarter Prerequisite: FREN 103 or FREN 150

One kiss or two? Become familiar with French etiquette, culture and cuisine through an exploration of French values, family structures and daily life while you develop your proficiency in French. Materials fee required.

FREN 2900. French Literature and Film in English. Units: 3

Introduction to French literature and film in English translation. Satisfies GE C2/3B, DI, G designations. Materials fee required.

FREN 3000. Enhancing Your French. Unit: 1

Semester Prerequisite: FREN 2111, FREN 2112, FREN 2113, or FREN 2114 or consent of department. Quarter Prerequisite: FREN 200 or FREN 201 or FREN 202

Are you prepared for upper-division courses? Acquire important skills to succeed and achieve your goals with your French studies as an undergraduate and beyond. Discover opportunities for French majors & minors in careers, graduate school and study abroad. Materials fee required.

FREN 3111. Approaches to French Literature. Units: 3

Semester Prerequisite: FREN 3000 or consent of department. Quarter Prerequisite: FREN 295

Why does literature matter so deeply to the French? Experience the joys of the French language as you learn how to read, interpret, understand, and explain a variety of literary genres (short stories, novels, poetry, theatre). Materials fee required.

FREN 3112. From Cannes to Cameroon: Francophone Cinema and Culture. Units: 3

Semester Prerequisite: FREN 3000 or consent of department. Quarter Prerequisite: FREN 295

Why do the French call film the "seventh art"? Analysis of Francophone cultures, literatures and themes through French-language films. Materials fee required.

FREN 3113. Geographies of Identity: Francophone Cultures in Context. Units: 3

Semester Prerequisite: FREN 3000 or consent of department. Quarter Prerequisite: FREN 295

Does your birthplace determine who you are? Examine how cultural identities are revealed through Francophone literatures, films, and histories. Materials fee required.

FREN 3114. Paris: Cultural and Historical Capital. Units: 3

Semester Prerequisite: FREN 3000 or consent of department. Quarter Prerequisite: FREN 295

Who are the Parisians? Explore contemporary Parisian society through its institutions, monuments, values and geographic distinctions. Artistic movements, intellectual achievements, and cultural practices will be highlighted. Materials fee required.

FREN 3150. French Conversation Lab. Unit: 1

Semester Prerequisite: FREN 3000 or consent of department. Quarter Prerequisite: FREN 295

Practice speaking French through the reading and discussion of current topics. May be repeated for credit up to a maximum of 4 units.

FREN 3160. French Writing Lab. Unit: 1

Semester Prerequisite: FREN 3000 or consent of department. Quarter Prerequisite: FREN 295

Practice strategies to improve your writing, as well as review grammatical structures. May be repeated for credit up to a maximum of 4 units.

FREN 3320. French Translation. Units: 3

Semester Prerequisite: FREN 3000 or consent of department. Quarter Prerequisite: FREN 295

Comment dit-on...? Understand the craft of translation between English and French, and learn how to avoid common mistakes through a review of different strategies favored across genres. Materials fee required.

FREN 3550. French Phonetics. Units: 3

Semester Prerequisite: FREN 3000 or consent of department. Quarter Prerequisite: FREN 202 or consent of department

Tu ou tout? Improve your French pronunciation through an in-depth study of the sound system. Oral practice and study of general principles of French phonology and dialectology. Formerly FREN 307. Materials fee required.

FREN 3701. Study Abroad. Unit: 1

Research project based on traveling or living in a French-speaking country. Research for the project will be completed in the country of choice. When study is associated with an academic program, copies of grades, syllabus and submitted work may substitute for research project. May be taken for up to 4 study abroad units. Graded credit/no credit. Departmental consent required.

FREN 3702. Study Abroad. Units: 2

Research project based on traveling or living in a French-speaking country. Research for the project will be completed in the country of choice. When study is associated with an academic program, copies of grades, syllabus and submitted work may substitute for research project. May be taken for up to 4 study abroad units. Graded credit/nocredit. Departmental consent required.

FREN 3703. Study Abroad. Units: 3

Research project based on traveling or living in a French-speaking country. Research for the project will be completed in the country of choice. When study is associated with an academic program, copies of grades, syllabus and submitted work may substitute for research project. Graded credit/nocredit. Departmental consent required.

FREN 3704. Study Abroad. Units: 4

Research project based on traveling or living in a French-speaking country. Research for the project will be completed in the country of choice. When study is associated with an academic program, copies of grades, syllabus and submitted work may substitute for research project. Graded credit/nocredit. Departmental consent required.

FREN 3900. Voices & Visions from the French-Speaking World. Units: 3

Does language define who you are? Through the study of literature from diverse French-speaking cultures, students will examine themes of identity formation through language. Satisfies GE C4/UD-3, G, WI designations. May be taken again for up to 9 units as topics change. Taught in English. Materials fee required.

FREN 3960. French for Reading 1. Units: 3

Students read French and translate from French to English. No prior knowledge of French is necessary. Students move from a novice level of reading skill to an intermediate level. This course is not applicable towards the Bachelor of Arts in French. Formerly FREN 301. Materials fee required.

FREN 3961. French for Reading 2. Units: 3

Semester Prerequisite: FREN 3960 or consent of department. Quarter Prerequisite: FREN 301

Building on the French reading skills of FREN 3960, students move from an intermediate level of reading skill to an advanced level; by the end of the course students will be able to translate scholarly articles in French from a variety of disciplines into English. This course is not applicable towards the Bachelor of Arts in French. Formerly FREN 302. Materials fee required.

FREN 4150. Interconnections: French Literature and Ideas. Units: 3

Semester Prerequisite: FREN 3000 or consent of department. Quarter Prerequisite: FREN 295

Critical examination of selected works in Francophone literature focusing on a particular theme or literary movement. May be taken for up to 6 units as topics change. Materials fee required.

FREN 4250. French F#tes: Music, Cuisine and the Arts. Units: 3

Semester Prerequisite: FREN 3000 or consent of department. Quarter Prerequisite: FREN 295

In-depth study of French culture through literature, film/media, and the arts. May be taken for up to 9 units as topics change. Materials fee required.

FREN 4350. Intersections: Topics in French Civilization. Units: 3

Semester Prerequisite: FREN 3000 or consent of department. Prerequisite: FREN 295 or consent of department

An integrated picture of how historical, political, economic, social, geographical and cultural forces shaped France and the Francophone world. May be taken for up to 9 units as topics change. Materials fee required.

FREN 4450. French Means Business. Units: 3

Semester Prerequisite: FREN 3000 or consent of department. Quarter Prerequisite: FREN 295 or consent of department

Introduction to business language and practices in French-speaking countries. May be taken for up to 9 units as topics change. Materials fee required.

FREN 4550. Introduction to French Linguistics. Units: 3

Semester Prerequisite: FREN 3000 or consent of department. Quarter Prerequisite: FREN 295 and FREN 307 or consent of department

What is unique about French? Introduction to the linguistic analysis of the French language, including its sound system (phonetics, phonology), its rules of word formation (morphology) and sentence structure (syntax), its system of word meaning (semantics), and its variation as a function of social and regional factors (sociolinguistics). Formerly FREN 407. Materials fee required.

Geography (GEOG)**Courses****GEOG 1010. Introduction to Human Geography. Units: 3**

Introduction to the global patterns and dynamics of such human activities as population growth and movements, politics, religion, language, urbanization, industrialization, and economic development. The course emphasizes the processes that produce regional and environmental differences. Satisfies GE D3/4, G designation, World Cultures and Diversity pathway.

GEOG 1030. Physical Geography. Units: 3

Semester Corequisite: GEOG 1030L

A survey of Earth's environmental systems and natural features, with emphasis on relationships between the atmosphere, landforms, ecosystems, and human activities. Three hours lecture. Satisfies the general education requirement for scientific inquiry in physical science Satisfies GE B1/5A.

GEOG 1030L. Physical Geography Laboratory. Unit: 1

Semester Corequisite: GEOG 1030

Physical geography laboratory course that provides environmental observations and scientific experiments to study the spatial patterns, processes, and relationships of Earth's atmosphere, hydrosphere, lithosphere, and biosphere. Three hours lab. Satisfies GE B3/5C. Materials fee required.

GEOG 1070. Environmental Studies Orientation Seminar. Units: 2

Semester Corequisite: Enrollment required first term that student has declared the Environmental Studies Major

Analysis and development of foundation academic skills and inquiry to support career pathway goals in environmental studies, including baseline assessment of student learning outcomes for the Environmental Studies B.A. degree program. Student advising includes the preparation of graduation plans. Enrollment is required the first term that this major is declared. Graded credit/no credit.

GEOG 1650. World Regions and Peoples. Units: 3

Survey of major regions of the world using general physical and cultural concepts to explain patterns and problems of human activities in relation to natural environments. Satisfies GE D3/4, DI, G designations, World Cultures and Diversity, Global Connections pathways.

GEOG 2000. Environment and Society. Units: 3

An interdisciplinary study of relationships between social and natural systems comprising modern environmental issues. This course is a core requirement of the Environmental Studies major and minor. Satisfies GE D3/4, G designation, Environmental Sustainability pathway.

GEOG 2040. Water in the West. Units: 3

Within the framework of Western North America, water use has been a historically contentious issue that still persists today. The course will provide an overview of the fundamentals of hydrology, and through quantitative reasoning and integrative learning examine the impact that the use of water resources have upon the physical and human environment. The historical, present, and future significance of these impacts will be examined through the lens of the global community, and social/economic justice. The effects of climate change and policy on water availability will be examined. Satisfies GE B1/5A, G designation.

GEOG 2200. Introduction to Global Studies. Units: 3

Quarter Prerequisite: SSCI 165 or consent of instructor

Examine the causes and consequences of globalization, including climate change, migration, cultural conflicts, and economics. Understand worldviews, varying cultural contexts and global institutions and their connection to globalization. Develop the skills necessary to be a global citizen and have global competency. Formerly known as GEOG 303.

GEOG 2201. Issues in the Global System. Units: 3

Identifies and explores a wide range of issues (for example, refugees, terrorism, poverty/underdevelopment and climate change) that impact the global community and are connected to economic, cultural, political and environmental globalization. Emphasizes the varied techniques used to analyze information about globalization and its related issues.

GEOG 2249. Map Interpretation. Units: 3

Introduction to maps as a communication tool, focusing on map fundamentals, such as scale, symbols and design, as well as using maps as a practical device for navigation and spatial measurement. Participation in a weekend outdoor map reading exercise is required. Formerly GEOG 201.

GEOG 2250. Introduction to Geographic Information Systems and Cartography. Units: 4

An introduction to the fundamental principles and theories of geographic information systems (GIS) and cartography. Basic concepts of mapping, map projections, coordinate systems, geographic data models and data input, management, manipulation and analysis are covered. After completion of this course, Students will be able to use GIS software to make maps and solve simple spatial problems. Three hours lecture and two hours activity. Formerly offered as GEOG 202.

GEOG 3004. Field Methods in Geography. Units: 3

Semester Prerequisite: GEOG 1030 and GEOG 2249. Quarter Prerequisite: GEOG 103 and 201

Introduction to methods and techniques for the acquisition of geographic data from direct field measurement and observations. One hour lecture and six hours field activity. Materials fee required. Formerly offered as GEOG 304.

GEOG 3018. Geographic Statistics and Research Methods. Units: 3

Introduction to research and presentation techniques. It will also include basic statistical concepts and qualitative techniques used in geography (including spatial analysis and the writing/presenting of geographic research projects).

GEOG 3020. Social Geography. Units: 3

Semester Prerequisite: Upper division standing or permission from instructor

The spatial relationships of social characteristics, processes, institutions, and social groups. How social processes and identities are intertwined with the places where we live. Formerly offered as GEOG 320.

GEOG 3030. Cultural Geography. Units: 3

Semester Prerequisite: Upper division standing or permission from instructor

Study of people and the places where they live by analyzing cultural processes, cultural landscapes, and cultural identities. Introduces culture from a geographical perspective, focusing on cultural processes in place and across space.

GEOG 3040. Urban Geography. Units: 3

Semester Prerequisite: Upper division standing or permission from instructor

Analysis of urban life, land use planning, urban processes such as cultural diversity, suburbanization, urban environment, and social trends. Formerly known as GEOG 440.

GEOG 3045. Global Cities. Units: 3

Semester Prerequisite: Upper division standing or permission from instructor. Quarter Prerequisite: junior or senior standing

Analysis of global cities and the processes of change within the urban environment from a spatial perspective. Cities as centers of technological innovation and business entrepreneurial success, and places of challenges such as urban environmental quality and quality of life due to social conflict and inequality. Urban information systems approach is used to understand urban problems and potential policy solutions. Satisfies G designation. Formerly known as SSCI 321.

GEOG 3050. Economic Geography. Units: 3

Semester Prerequisite: Upper division standing or permission from instructor

Processes driving spatial patterns of economic activity at the global, national, regional, and local scales. Topics include economic globalization, spatial distribution of resources, business, labor, economic institutions, and trade producing uneven geographies of economic development. Formerly known as GEOG 420.

GEOG 3060. Political Geography. Units: 3

Semester Prerequisite: Upper division standing or permission from instructor. Quarter Prerequisite: GEOG 100

Examination of the interactions between political processes, space, place, and environment at geographic scales ranging from international to local. Topics include nation-state formation, geopolitics, imperialism and colonialism, the environment, elections and representation and the role of the contemporary state. Formerly a topic under GEOG 390. Formerly known as GEOG 325.

GEOG 3065. Migration and Borderlands. Units: 3

Semester Prerequisite: Upper division standing or permission from instructor

Global migration processes and territorial sovereignty. Focus on areas of the world that are currently and historically important sending and destination regions for refugees and other types of migrations. Role of borders in migration is examined.

GEOG 3300. Weather and Climate. Units: 4

Semester Prerequisite: GEOG 1030 or GEOL 1000 or consent of instructor. Quarter Prerequisite: GEOG 103 or consent of instructor
An examination of atmospheric processes and the relationships between the atmosphere, hydrosphere, lithosphere and biosphere that influence local, regional and global patterns of weather and climate. Relationships between human activity, vegetation patterns, weather and climate will be discussed. Materials fee required. Three hours lecture and three hours lab. Formerly GEOG 360.

GEOG 3500. Conservation and Natural Resources. Units: 3

Semester Prerequisite: GEOG 1030 or GEOL 1000 or consent of instructor; and GEOG 2000
Principles of resource utilization and ecology as they involve human development and politico-economic policy. Formerly known as GEOG 350.

GEOG 3501. Environmental Sustainability. Units: 3

This course explores how human activities can be altered to meet the needs of both current and future generations to ensure long-term sustainability of the Earth's environmental systems and resources. Topics include, but are not limited to, sustainable approaches to agricultural production, urban development, resource conservation, and stakeholder inclusion across varying geographical scales including the CSUSB campus and surrounding communities. Satisfies GE D4/UD-4.

GEOG 3520. Environmental Inquiry and Education. Units: 4

Quarter Prerequisite: Must be junior class standing or higher
This course is designed to prepare students for developing and implementing environmental education opportunities in formal and non-formal education settings. Topics include the history and philosophy of environmental education, environmental laws and regulations, environmental assessment using various technologies and methods, critical analysis of environmental issues and decision-making, curriculum integration and environmental education teaching methodologies. Students will learn how to disseminate complex scientific-based information into a format that is useful for diverse audiences in the K-12 and community settings. Materials fee required. Three hours lecture and 3 hours lab. Formerly known as GEOG 311.

GEOG 3605. Geography in the Elementary and Middle School Classroom. Units: 3

Introduces liberal studies students to geography in the California/Social Science Standards. Students learn to integrate geographic principles and theories with the other social sciences. May not be counted toward fulfillment of requirements in the geography major or minor. Formerly known as GEOG 300.

GEOG 3630. Environmental Justice. Units: 3

Semester Prerequisite: Junior or Graduate standing or with instructor consent
Examines how and why inequalities arise and are maintained in environmental policy and management, distribution of environmental benefits and hazards, and historical and contemporary factors that shape the environmental justice movement.

GEOG 3701. Environmental Policy and Impact Assessment. Units: 3

Semester Corequisite: Must be Junior standing or greater
This course provides an introduction to environmental policy/laws including the policy process, behavior of interest groups and the actions of policymakers across local, state and federal government entities. Focus will also be given to the historical context of environmental policies and the role of science and stakeholders in evolving environmental policies and related programs. The course will also examine significant environmental issues such as pollution control, climate change, habitat conservation and the protection of biodiversity.

GEOG 3710. Advanced Geographic Information Systems. Units: 4

Semester Prerequisite: GEOG 2250 or consent of instructor. Quarter Prerequisite: GEOG 202 or consent of instructor
Advanced study of the principles and theories in geographic information systems (GIS). Emphasis on Raster data analysis, Network Analysis, 3D analysis etc. Students will be able to solve complex spatial problems using GIS concepts and GIS software packages. Three hours lecture and two hours activity. Formerly offered as GEOG 308.

GEOG 3730. Geo-Spatial Analysis. Units: 3

Semester Prerequisite: GEOG 2250 or consent of instructor. Quarter Prerequisite: GEOG 202 or consent of instructor
This course is an advanced course in geographic techniques focusing on analytical methods and implementation strategies. It is designed to examine the concepts and applications of spatial statistics in Geography. upon completion of this course, students will demonstrate the ability to analyze geographic data from a spatial statistics perspective. Formerly offered as GEOG 315.

GEOG 3900. Emerging Topics in Human Geography. Units: 3

Semester Prerequisite: Junior or Senior standing or with instructor consent
Examination of emerging topics of current interest in human geography. May be repeated for credit, as topics change. Formerly known as GEOG 390.

GEOG 3901. Emerging Topics in Physical Geography. Units: 3

Semester Prerequisite: Junior or Senior standing or with instructor consent
Examination of emerging topics of current interest in physical geography. May be repeated for credit, as topics change.

GEOG 3902. Emerging Topics in Environmental Studies. Units: 3

Semester Prerequisite: Junior or Senior standing or with instructor consent
Examination of emerging topics of current interest in environmental studies. May be repeated for credit, as topics change.

GEOG 3903. Emerging Topics in Global Studies. Units: 3

Semester Prerequisite: Junior or Senior standing or with instructor consent
Examination of emerging topics of current interest in global studies. May be repeated for credit, as topics change.

GEOG 3904. Emerging Topics in GIS and Spatial Techniques. Units: 3

Semester Prerequisite: Junior or Senior standing or with instructor consent

Examination of emerging topics of current interest in geographic information systems (GIS) and spatial techniques. May be repeated for credit, as topics change.

GEOG 4050. Geography of California. Units: 3

Semester Prerequisite: Upper division standing or permission from instructor

Exploration of California's natural and cultural environments with emphasis on social and economic issues, and nature society relations. Formerly known as GEOG 302.

GEOG 4055. US-Mexico Border Region. Units: 3

Semester Prerequisite: Upper division standing or permission from instructor

Introduction to U.S.-Mexico border issues, including the social interactions and processes that distinguish the area. Analysis will focus on the characteristics of everyday life as shaped by political, economic, and cultural issues from inside and outside the region. Formerly known as GEOG 322.

GEOG 4060. Emerging World Regions. Units: 3

Semester Prerequisite: Upper division standing or permission from instructor

Geographic exploration of one or all of the emerging regions of the world, including economic, political, social, cultural, and environmental issues. Formerly known as GEOG 312.

GEOG 4070. Advanced World Regions. Units: 3

Semester Prerequisite: Upper division standing or permission from instructor

Geographic exploration of one or all of the advanced regions of the world, including economic, political, social, cultural, and environmental issues. Formerly known as GEOG 313.

GEOG 4080. Geography of Tourism. Units: 3

Semester Prerequisite: Upper division standing or permission from instructor

Examination of tourism as a global, national and local phenomenon, with economic, social, and environmental impacts; tourism trends; mass versus alternative tourism.

GEOG 4250. Watershed Hydrology and Management. Units: 4

Quarter Prerequisite: GEOG 1030 or consent of instructor

This course will explore the basic principles of surface hydrology: relationships between atmospheric, surface, and groundwater phenomena; streamflow and flood prediction; water supply and quality. Surface hydrology will be observed using the watershed scale to determine how human-environmental relationships in one reach of the watershed may impact water resources in other reaches of the same watershed. The Clean Water Act and localized water management strategies including stormwater best management practices will also be discussed. Materials fee required. Three hours lecture and three hours lab. Formerly known as GEOG 470.

GEOG 4300. Biogeography. Units: 4

Semester Prerequisite: BIOL 1000; and GEOG 1030 or GEOL 1000; and GEOG 2250; or consent of instructor. Quarter Prerequisite: BIOL 100 or HSCI 120; and GEOG 103; or consent of instructor

Analysis of spatial and temporal distributions of organisms in the environment at multiple scales, to understand the effects of physical, biological, and historical conditions on patterns of abundance and diversity of taxa in regions. Application of concepts to habitat conservation planning will be discussed, as will methods for determining spatial patterning. Materials fee required. Three hours lecture and three hours lab. Formerly known as GEOG 370.

GEOG 4360. Climate Change. Units: 3

Semester Prerequisite: GEOG 1030 or GEOL 1000. Quarter Prerequisite: GEOG 103 or GEOL 101

An examination of past climates, modern climates, and evidence for future climate change. Students are required to attend two-weekend field trips. Formerly known as GEOG 365.

GEOG 4400. Geomorphology. Units: 3

Semester Prerequisite: GEOG 1030 or GEOL 1000 or consent of instructor. Quarter Prerequisite: GEOG 103 or GEOL 101 or consent of instructor

Landforms and the processes that create them. Multi-day field trip required.

GEOG 4450. Globalization and Identity. Units: 3

Semester Prerequisite: Junior or senior status or permission of the instructor

Explores how globalization influences individual identities, group identities, and societal identities. Study of the origin and evolution of national, ethnic and supranational identities and how global forces are connected to these developments. Ethno-nationalism, territorial conflict as connected to globalization and identity interaction will be examined.

GEOG 4651. Coastal Resources Management. Units: 4

Semester Prerequisite: GEOG 1030, GEOL 1000 or consent of instructor
This course is an interdisciplinary approach to understanding the complex relationships between coastal resources and human activities. Coastal environment, coastal resources, structure and role of government in coastal resources policy, critical research issues in coastal and estuarine ecology, coastal geosciences, marine affairs and policy, and maritime studies will be assessed through local, regional and international case studies. Participation in a Saturday field trip, lab and materials fee required.

GEOG 4710. Water Wars. Units: 3

Semester Corequisite: Must have junior standing

This course will explore how historic and present-day approaches to water resource management and changing environmental conditions have resulted in water scarcity across various geographical scales. Students will explore the complex issues surrounding "water wars" through a series of case studies that assess the cultural, political and environmental relationships that culminate in the scarcity of water resources for humans and ecosystems alike.

GEOG 4750. Ecosystem Assessment. Units: 4

Semester Prerequisite: GEOG 1030 or GEOL 1000 or HSCI 1200; and GEOG 2250. Prerequisite: GEOG 103 or GEOL 100 or HSCI 120; and GEOG 202

Concepts, techniques, and field methods used to identify and prescribe best management practices for sustaining ecosystem integrity in disturbed landscapes. This course uses a hands on approach to develop skills used to quantitatively measure and assess ecological conditions for environmental monitoring applications, including field sampling methods and data analysis of soils, vegetation types, wildlife habitat, and interactions with environmental systems. Materials fee required.

GEOG 4850. Web GIS. Units: 4

Semester Prerequisite: GEOG 2250 or consent of instructor. Prerequisite: GEOG 202

This course provides students with the state-of-art technical skills and knowledge necessary to develop Web GIS applications and to manage Web GIS. Upon completion of this course, students are able to understand the basic concepts of Web GIS and grasp the latest techniques in developing Web GIS applications. Three hours lecture and two hours activity.

GEOG 4860. GIS and Socio-Economic Applications. Units: 4

Semester Prerequisite: GEOG 2250 or consent of instructor. Quarter Prerequisite: GEOG 202 or consent of instructor

This course will prepare students with advanced knowledge and skills for several applications of GIS in Social sciences. It will include applications in but not limited to Urban Information Systems, Business and Market analysis, Geodemographic, Health, and Crime Analysis. It will include major debates and developments in GIS and with a high level of skills for use of software, hardware for analyzing and visualizing of geographic data. The class will include guest speakers, lectures, lab/activity, and independent and a group projects to ensure a strong relationship between several concepts and several applications. Three hours lecture and two hours laboratory. Materials fee required. Formerly known as GEOG 402.

GEOG 4870. Environmental GIS. Units: 4

Semester Prerequisite: GEOG 1030 or GEOL 1000 or HSCI 1200; and GEOG 2250. Quarter Prerequisite: GEOG 103 or GEOL 100 or HSCI 120; and GEOG 202

Introduction to concepts, methods, techniques, tools, and geospatial data used in geographical information systems (GIS) for environmental analyses, modelling, and decision making. Materials fee required.

GEOG 4880. Remote Sensing of the Environment. Units: 4

Semester Prerequisite: GEOG 2250 or consent of instructor. Quarter Prerequisite: GEOG 103 or consent of instructor

Fundamental principles and techniques of remote sensing, Remotely-sensed data acquisition, processing, interpretation, and analysis, as well as photogrammetry, are covered. Upon completion of this course, students will understand the basic concept of remote sensing, know the various types of remotely-sensed data and satellite programs, and grasp the techniques of analyzing and interpreting both analog and digital images. Three hours lecture and two hours activity. Formerly GEOG 306 and GEOG 406.

GEOG 5000. Senior Seminar. Units: 2

Quarter Prerequisite: Senior standing in GEOG or ENVS

An assessment of academic progress is required of all geography, geography with global studies concentration, and environmental studies majors. Formerly known as GEOG 500.

GEOG 5004. Advanced Field Methods in Geography. Units: 3

Semester Prerequisite: GEOG 1030 or GEOL 1000 or HSCI 1000 or GEOG 2249. Prerequisite: GEOG 103 and 201

Semester Corequisite: Must be junior or senior class standing

Advanced methods and techniques for the acquisition of geographic data from direct field measurement and observations. One hour lecture and six hours field activity. Materials fee required.

GEOG 5150. Global Governance and the United Nations System. Units: 3

Explores the inner workings of the principal organs of the United Nations (UN) and the related agencies. Examines how the global community is connected to the UN system and how the UN attempts to address issues around the globe in the local, regional, national and international networks. Shows how the UN tries to manage these international issues relating to international peace and security and humanitarian situations. Satisfies GE D4/UD-4, G designation, Global Connections pathway.

GEOG 5240. National Parks and Public Lands. Units: 3

Semester Prerequisite: Junior or Graduate standing or with instructor consent

Provides a survey of the environmental, cultural, and political geography of national parks and public lands of the United States. This course will explore how the U.S. national park model developed and how it shaped public land environmental policy and management in the United States and the world. Cultural and natural resources, environmental and social justice, tourism, outdoor recreation, and economic impact will be assessed through local, national, and international case studies. Experiential learning activities will include field site visits to national and/or state parks and community engagement with park managers and environmental associations. The course is open to both undergraduates and graduate students. Participation in Friday and/or Saturday field trips. Materials fee required.

GEOG 5300. Advanced Topics in Human Geography. Units: 3

Semester Prerequisite: Senior or Graduate standing or with instructor consent

Provides an in-depth analysis of a current topic being examined by human geography. This course is intended to allow students to apply knowledge gained in other human geography courses to explore a current topic in a critical manner. The course is open to both undergraduates and graduate students. May be repeated for credit as topics change.

GEOG 5301. Advanced Topics in Environmental Studies. Units: 3

Provides an in-depth analysis of a current topic being examined by environmental studies. This course is intended to allow students to apply knowledge gained in other geography and environmental studies courses to explore a current topic in a critical manner. The course is open to both undergraduates and graduate students. May be repeated for credit as topics change.

GEOG 5302. Advanced Topics in Global Studies. Units: 3

Semester Prerequisite: Senior or Graduate standing or with instructor consent

Provides an in-depth analysis of a current topic being examined by global studies. This course is intended to allow students to apply knowledge gained in other global studies courses to explore a current topic in a critical manner. The course is open to both undergraduates and graduate students. May be repeated for credit as topics change.

GEOG 5303. Advanced Topics in GIS and Spatial Techniques. Units: 3

Semester Prerequisite: Senior or Graduate standing or with instructor consent

Provides an in-depth analysis of a current topic being examined by GIS and Spatial Technique scholars. This course is intended to allow students to apply knowledge gained in other GIS and Spatial Technique courses to explore a current topic in a critical manner. The course is open to both undergraduates and graduate students. May be repeated for credit as topics change.

GEOG 5351. Professional Conferences. Unit: 1

Semester Corequisite: Must be junior or senior class standing
Introduction to the role of conferences in professional development, including practice in the preparation and exhibition of research by posters, oral presentations, and panel discussions. Students attend a professional conference to participate in research presentations and guided field trips. May require fees for conference registration and travel. Graded credit/no credit.

GEOG 5352. Professional Conferences. Units: 2

Semester Corequisite: Must be junior or senior class standing
Introduction to the role of conferences in professional development, including practice in the preparation and exhibition of research by posters, oral presentations, and panel discussions. Students attend a professional conference to participate in research presentations and guided field trips. May require fees for conference registration and travel. Graded credit/no credit.

GEOG 5551. Laboratory Experience. Unit: 1

Concepts and practice in the application of laboratory methods to analyze samples of environmental materials and data for a variety of directed research topics. May be taken two times for two units in the Environmental Studies major. Graded CR/NC.

GEOG 5552. Laboratory Experience. Units: 2

Concepts and practice in the application of laboratory methods to analyze samples of environmental materials and data for a variety of directed research topics. This course may also include fieldwork to collect sample materials and data. May be taken two times for four units. Graded credit/no credit.

GEOG 5651. Field Experience. Unit: 1

Application of concepts learned through practice of field methods for a variety of topics in environmental monitoring. May be taken two times for two units.

GEOG 5652. Field Experience. Units: 2

Application of concepts learned through practice of field methods for a variety of topics in environmental monitoring. May be taken two times for four units. Graded credit/no credit.

GEOG 5751. Internship in Geography. Unit: 1

Quarter Prerequisite: Consent of Internship Coordinator for the Department of Geography and Environmental Studies
Supervised work in public or private organizations emphasizing practical applications of geographic concepts. Approximately 30 hours are required for one unit of credit. May be taken only once for credit. Graded credit/no credit. Formerly known as GEOG 575D.

GEOG 5752. Internship in Geography. Units: 2

Quarter Prerequisite: Consent of Internship Coordinator for the Department of Geography and Environmental Studies
Supervised work in public or private organizations emphasizing practical applications of geographic concepts. Approximately 60 hours are required for two units of credit. May be taken only once for credit. Graded credit/no credit.

GEOG 5753. Internship in Geography. Units: 3

Quarter Prerequisite: Consent of Internship Coordinator for the Department of Geography and Environmental Studies
Supervised work in public or private organizations emphasizing practical applications of geographic concepts. Approximately 90 hours are required for three units of credit. May be taken only once for credit. Graded credit/no credit.

GEOG 5755. Model United Nations Practicum (Fall Semester MUN Team). Units: 3

Quarter Prerequisite: By instructor consent
An analysis of the role of the United Nations in world politics to prepare students for the National United Nations or related Model United Nations conferences. May be repeated for credit for a maximum of nine units. Students wanting to take this class have to go through the CSUSB Model UN Program Selection Process. Formerly PSCI 515 and SSCI 515. Instructor consent is required to enroll.

GEOG 5756. Model United Nations Practicum (Spring Semester MUN Team). Units: 3

Quarter Prerequisite: By instructor consent
An analysis of the role of the United Nations in world politics to prepare students for the National United Nations or related Model United Nations conferences. May be repeated for credit for a maximum of nine units. Students wanting to take this class have to go through the CSUSB Model UN Program Selection Process. May be taken three times for nine units. Department consent is required. Formerly PSCI 515 and SSCI 515.

GEOG 5761. Study Abroad. Unit: 1

Quarter Prerequisite: Consent required
Explore issues related to geography, environmental studies, global studies and/or GIS and spatial techniques in an international setting through a pre-approved study abroad program at CSUSB. Department consent required.

GEOG 5762. Study Abroad. Units: 2

Quarter Prerequisite: Consent required
Explore issues related to geography, environmental studies, global studies and/or GIS and spatial techniques in an international setting through a pre-approved study abroad program at CSUSB. Department consent required.

GEOG 5763. Study Abroad. Units: 3

Quarter Prerequisite: Consent required

Explore issues related to geography, environmental studies, global studies and/or GIS and spatial techniques in an international setting through a pre-approved study abroad program at CSUSB. Department consent required.

GEOG 5771. Study Away. Unit: 1

Quarter Prerequisite: Consent required

Explore issues related to geography, environmental studies, global studies and/or GIS and spatial techniques in a US domestic setting at a pre-approved study away site. Department consent required.

GEOG 5772. Study Away. Units: 2

Quarter Prerequisite: Consent required

Explore issues related to geography, environmental studies, global studies and/or GIS and spatial techniques in a US domestic setting at a pre-approved study away site. Department consent required.

GEOG 5773. Study Away. Units: 3

Quarter Prerequisite: Consent required

Explore issues related to geography, environmental studies, global studies and/or GIS and spatial techniques in a US domestic setting at a pre-approved study away site. Department consent required.

GEOG 5781. Service Learning in Geography, Global Studies and Environmental Studies. Unit: 1

Application of scholarship in geography, global studies, and environmental studies in a planned service experience in the community. This course will reinforce students' understanding of civic responsibility and engagement, and commitment to the community. May be taken three times for three units.

GEOG 5782. Service Learning in Geography, Global Studies and Environmental Studies. Units: 2

Application of scholarship in geography, global studies and environmental studies in a planned service experience in the community. This course will reinforce student's understanding of civic responsibility and engagement, and commitment to the community. May be taken three times for six units.

GEOG 5783. Service Learning in Geography, Global Studies and Environmental Studies. Units: 3

Application of scholarship in geography, global studies and environmental studies in a planned service experience in the community. This course will reinforce student's understanding of civic responsibility and engagement, and commitment to the community. May be taken three times for nine units.

GEOG 5951. Independent Study. Unit: 1

Quarter Prerequisite: A minimum overall grade point average of 3

A maximum of six units of independent study may be applied toward the major and graduation. Consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken.

GEOG 5952. Independent Study. Units: 2

Quarter Prerequisite: A minimum overall grade point average of 3

A maximum of six units of independent study may be applied toward the major and graduation. Consent of instructor and departmental approval of a written proposal submitted on a standard application filed in advance of the semester in which the course is to be taken. May be taken three times for six units. Formerly GEOG 595B.

GEOG 5953. Independent Study. Units: 3

Quarter Prerequisite: A minimum overall grade point average of 3

A maximum of six units of independent study may be applied toward the major and graduation. Consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken. May be taken two times for six units. Formerly known as GEOG 595C.

GEOG 5970. Senior Honors Project - Geography. Units: 3

Quarter Prerequisite: Earned grade point average of at least 3.0 or better overall as an undergraduate, and at least 3.5 in the major, both at this university and overall

Original scholarly work in Geography, culminating in a significant research report. Enrollment is limited to students whose formal application for departmental honors is approved. Graded credit/no credit.

GEOG 5971. Senior Honors Project - Environmental Studies. Units: 3

Quarter Prerequisite: Earned grade point average of at least 3.0 or better overall as an undergraduate, and at least 3.5 in the major, both at this university and overall

Original scholarly work in Environmental Studies, culminating in a significant research report. Enrollment is limited to students whose formal application for departmental honors is approved. Graded credit/no credit.

GEOG 5972. Senior Honors Project - Global Studies. Units: 3

Quarter Prerequisite: Earned grade point average of at least 3.0 or better overall as an undergraduate, and at least 3.5 in the major, both at this university and overall

Original scholarly work in Global Studies, culminating in a significant research report. Enrollment is limited to students whose formal application for departmental honors is approved. Department consent required. Graded credit/no credit.

GEOG 6000. Proseminar in Geography. Units: 2

Semester Prerequisite: Graduate student standing or consent of the instructor. Quarter Prerequisite: Consent of instructor

Survey of the concepts and ideas that geographers employ to study, describe and analyze globalization. Formerly known as GEOG 600.

GEOG 6100. Military Geography for National Security. Units: 3

Semester Prerequisite: Graduate student standing or instructor consent

Examination of the terrain, climate and other physical geography factors that affect national security. Formerly known as GEOG 610.

GEOG 6101. Advanced Studies in Global Studies. Units: 3

Semester Prerequisite: Graduate student standing or consent of the instructor

Intensive study of a current pressing issue facing the global studies discipline. May be taken three times for nine units as the topic changes.

GEOG 6102. Advanced Studies in Global Analysis. Units: 3

Semester Prerequisite: Graduate student standing or consent of the instructor

Intensive study of a current pressing issue ('wicked problem') facing the global community. May be taken three times for nine units as the topic changes.

GEOG 6300. Advanced Environmental Sustainability in the 21st Century. Units: 3

Quarter Prerequisite: Previous undergraduate course in data and policy analysis or consent of instructor

This course explores how human activities can be altered to meet the needs of both current and future generations to ensure long-term sustainability of the Earth's environmental systems and resources. Topics include, but are not limited to, sustainable approaches to agricultural production, urban development, resource conservation, and stakeholder inclusion across varying geographical scales including the CSUSB campus and surrounding communities. Students will conduct comprehensive analysis of data and policies as they relate to sustainable initiatives and disseminate findings into a format that is useful for diverse audiences.

GEOG 6400. Advanced Watershed Hydrology and Management. Units: 4

Quarter Prerequisite: GEOG 103 and Intro to GIS or consent of instructor

This course will explore advanced principles of surface hydrology; relationships between atmospheric, surface and groundwater phenomena; streamflow and flood prediction; water supply and quality. Surface hydrology will be observed using the watershed scale to determine how human-environmental relationships in one reach of the watershed may impact water resources in other reaches of the same watershed. The Clean Water Act and localized water management strategies including stormwater best management practices will also be discussed. Three hours lecture and three hours lab. Materials fee required.

GEOG 6500. Environmental Issues of Land Management. Units: 3

Semester Corequisite: GEOG 650

Study of multiple-use management of non-urban land by local government. Emphasis will be placed on recreation, mining, and the maintenance of open space, biotic habitat, and air and water quality. The California Environmental Quality Act (CEQA) and related issues will also be addressed. Formerly known as GEOG 650.

GEOG 6990. Continuous Enrollment for Graduate Candidacy Standing. Units: 0

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

GEOG 6991. Continuous Enrollment for Graduate Candidacy Standing. Unit: 1

Quarter Prerequisite: Advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

GEOG 6992. Continuous Enrollment for Graduate Candidacy Standing. Units: 2

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

GEOG 6993. Continuous Enrollment for Graduate Candidacy Standing. Units: 3

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

GEOG 6994. Continuous Enrollment for Graduate Candidacy Standing. Units: 4

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

GEOG 6995. Continuous Enrollment for Graduate Candidacy Standing. Units: 5

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

GEOG 6996. Continuous Enrollment for Graduate Candidacy Standing. Units: 6

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

Geology (GEOL)

Courses

GEOL 1000. Introductory Geology. Units: 3

An introduction to the study of the earth. Topics include the structure, composition, distribution and modification of earth materials, and processes that shape the surface of the earth. Satisfies GE B1/5A.

GEOL 1000L. Introductory Geology Laboratory. Unit: 1

Hands-on introduction to the structure, composition, distribution and modification of earth materials, and processes that shape the surface of the earth. Taking GEOL 1000 concurrently is strongly recommended. Materials fee required. Satisfies GE B3/5C.

GEOL 1020. Plate Tectonics: Key to Understanding Earthquakes, Volcanoes and Tsunami. Units: 3

Development of the theory of plate tectonics as a scientific revolution in our understanding of the Earth. Exploration of the technologies that led to new evidence that was unexplainable by traditional, static models of the Earth, and the ideas that led to a new, coherent view of a dynamic Earth in which some ocean basins expand as a result of sea-floor spreading while others shrink as a result of subduction, and continents are carried along as part of massive, slowly moving tectonic plates. Investigation of how the theory of plate tectonics has led to greater success in understanding, predicting and mitigating the damaging effects of earthquakes, volcanoes and tsunami. Satisfies GE B1/5A, G designation.

GEOL 1060. Environmental Geology and Geological Hazards. Units: 3

An introduction to earth science principles, processes, and materials that affect the environment near the surface of the earth where human and biologic activities occur. Topics includes a study of geological factors in land planning such as climate, water use, erosion, faults, ground water origins, water quality, pollution and other geological processes. This course includes an emphasis on hazard mapping and implications of public policies dealing with geologic hazards. Satisfies GE B1/5A, G designation.

GEOL 1060L. Environmental Geology and Geological Hazards Laboratory. Unit: 1

Laboratory component for GEOL 1060: Environmental Geology and Geological Hazards. Taking GEOL 1060 concurrently is strongly recommended. Materials fee required. Satisfies GE B3/5C.

GEOL 1090. Earth: The Blue Planet. Units: 4

Tailored for students intending to teach grades K-8 Science Domain 3: Earth and Space Science. This course provides scientific content and understanding of Earth's dynamic and interacting processes, including the planet's structure composition, water, atmosphere, place in the solar system and universe. Three hours lecture and three hours laboratory. Equivalent to GEOL 3090; credit cannot be earned for both. Materials fee required. Satisfies GE B1/5A.

GEOL 2000. Interpreting Earth Systems History: Stories from an Ancient Planet. Units: 4

Introduction to analytical processes and tools (i.e. chemical, tectonic, environmental, petrological, and biological) for deciphering Earth Systems History, how those systems operate and are delineated, and have evolved/modified our planet from its origins through its present state. Overnight field trips may be required. Formerly offered as GEOL 250; students may not earn credit for both courses. Three hours seminar and three hours laboratory. Materials fee required.

GEOL 2040. Water in the West. Units: 3

Within the framework of Western North America, water use has been a historically contentious issue that still persists today. The course will provide an overview of the fundamentals of hydrology, and through quantitative reasoning and integrative learning examine the impact that the use of water resources have upon the physical and human environment. The historical, present, and future significance of these impacts will be examined through the lens of the global community, and social/economic justice. The effects of climate change and policy on water availability will be examined. Satisfies GE B1/5A, G designation.

GEOL 2101. Special Projects in Geology. Unit: 1

Individual investigation, research, study or survey of selected problems. Consent of instructor required. Materials fee required. Formerly offered as GEOL 295A; students may repeat a total of two times.

GEOL 2102. Special Projects in Geology. Units: 2

Quarter Prerequisite: Consent of instructor
Individual investigation, research, study or survey of selected problems. Formerly offered as GEOL 295B; students may repeat a total of two times. Consent of instructor required. Materials fee required.

GEOL 2500. Geology of California. Units: 3

Semester Prerequisite: Any 1000-level GEOL course with lab, or GEOG 1030, or consent of instructor. Quarter Prerequisite: Geol 101
Interpretation of the geological features and evolution of California. Overnight field trips may be required. Formerly GEOL 312; students may not earn credit for both courses.

GEOL 3020. Natural Disasters. Units: 3

Semester Prerequisite: Junior or senior standing
A consideration of natural processes such as volcanic eruptions, earthquakes, global sea level rise, slope failures, floods, wildland fires, meteoric impacts and severe forms of weather, that have had or may have disastrous consequences on both humans and the environment. Satisfies GE B5/UD-5, G designation.

GEOL 3030. History of Life on Earth. Units: 3

Semester Prerequisite: Junior or senior standing
History of life on earth and the processes that govern its genesis, evolution, extinction, ecology, and preservation. Offered as BIOL 3030 and GEOL 3030. Satisfies GE B5/UD-5. Students may only receive credit for one of these courses.

GEOL 3040. Energy and the Environment. Units: 3

Semester Prerequisite: Junior or senior standing
Within the framework of the environment, and especially climate change, this course will examine our past and present energy portfolio (biomass, coal, oil, natural gas, nuclear), our present and future energy portfolio options (solar, wind, tides, hydro, hydrogen, etc.), and the transition technologies (energy conservation, hybrids) that will bridge this gap. The course will provide an overview of the geological energy resources, the technology of renewable energy, and through quantitative reasoning and integrative learning examine the impact that each of these energy choices have upon the environment. The significance of these impacts upon the global commons (air-water-soil-climate) will be examined through the lens of the global community, and social/economic justice. Satisfies GE B5/UD-5, G designation.

GEOL 3100. Introduction to Geologic Mapping. Units: 3

Semester Prerequisite: Any 1000-level Geology course with lab, or GEOG 1030 with lab. Quarter Prerequisite: GEOL 101 or GEOG 103
Field identification of igneous, sedimentary, and metamorphic rock units, making geologic field notes, making rock descriptions, use of Brunton compass, topographic map reading skills, making and reading geologic maps, geologic cross section construction and interpretation, and preparing geologic reports. Overnight field trips may be required. Formerly offered as GEOL 301; students cannot earn credit for both. One hour lecture and six hours laboratory. Materials fee required.

GEOL 3111. Service Learning in the Earth Sciences. Unit: 1

Supervised activities in geology or geological education providing service to campus or community constituents. Minimum of 45 hours required. Consent of instructor required. Formerly offered as GEOL 307A. May be repeated for credit. Graded credit/no credit.

GEOL 3112. Service Learning in the Earth Sciences. Units: 2

Supervised activities in geology or geological education providing service to campus or community constituents. Minimum of 90 hours required. Consent of instructor required. Formerly offered as GEOL 307B. May be repeated for credit. Graded credit/no credit.

GEOL 3200. Mineralogy. Units: 5

Semester Prerequisite: GEOL 1000, GEOL 1000L, and CHEM 2050 or CHEM 2100, or permission of instructor. Quarter Corequisite: CHEM 205 or CHEM 215. Quarter Prerequisite: GEOL 101

Semester Corequisite: CHEM 2050 or CHEM 2100

Introduction to crystallography, crystal chemistry, mineral classification, mineral genesis, physical and chemical properties of minerals, and identification of important ore and rock-forming minerals using megascopic observation, optical microscopy, x-ray diffraction, and scanning electron microscopy. Field trips may be required. Formerly offered as GEOL 320 and GEOL 321; students earn credit either for those two or for GEOL 3200. Three hours lecture and six hours laboratory. Materials fee required.

GEOL 3220. Introduction to Geochemistry. Units: 4

Semester Prerequisite: GEOL 3200, or consent of instructor. Quarter Prerequisite: GEOL 320 with a grade of "C" or better

Natural distribution, migration, and reactions of chemical elements within the earth and through time. Students will learn essentials for environmental chemistry, water quality, ore deposits, and chemical weathering. Includes stable and radiogenic isotope tracer and age dating methods, basic thermodynamics, and application of chemical analysis techniques. Recommended as an elective for students of chemistry, environmental studies, archaeology/anthropology, and life sciences. Three hours lecture and three hours laboratory. Weekend field trip(s) may be required. Formerly offered as GEOL 322, students may not earn credit for both courses. Materials fee required.

GEOL 3240. Igneous and Metamorphic Petrology. Units: 4

Quarter Prerequisite: GEOL 3200 with grade C or better

Description and genesis of igneous and metamorphic rocks, their mineralogic and chemical composition, internal structure, and mode of occurrence. Formerly offered as GEOL 325; students cannot earn credit for both. Overnight field trips may be required. Three hours lecture and three hours laboratory. Materials fee required.

GEOL 3300. Sedimentary Geology: Principles and Applications. Units: 4

Semester Prerequisite: Any 1000-level GEOL course, or GEOG 1030, BIOL 1000, or consent of instructor

General processes of sedimentary geology including provenance, sediment production, modification, and transportation; principles of fluid dynamics of water, air, and ice; fundamentals of deposition and diagenesis; description and interpretation of stratiform sediments and rocks, including facies relationships; principles of stratigraphic change; correlation methodologies; sequence stratigraphy; the development of stratigraphic thought; biostratigraphic principles and applications; and geophysical/geochemical stratigraphic methodologies and analysis. Overnight field trips may be required. Includes portions of GEOL 330 and GEOL 340; students may not earn credit for both sequences. Three hours discussion and three hours laboratory. Materials fee required.

GEOL 3400. Sedimentary Geology: Environmental Systems Analysis. Units: 4

Semester Prerequisite: Any 1000-level or higher GEOL course, or GEOG 1030 or BIOL 1000, or consent of instructor. Quarter Prerequisite: GEOL 101, or GEOG 103, or BIOL100, or consent of instructor

Description, analysis, and interpretation of modern and ancient sedimentary environmental systems, including terrestrial/continental systems (e.g. fluvial, lacustrine, deltaic, marsh/wetlands, alluvial, pedogenic, glacial, aeolian systems); subaqueous sedimentary systems (e.g. beaches, tidal, estuarine, deltaic, lagoonal, shallow shelf, biogenic (i.e. carbonate), slope, and deep marine). Laboratory work includes analysis of typical suites/specimens, maps, aerial and satellite photos, that characterize those systems. Overnight field trips may be required. Includes portions of GEOL 330 and GEOL 340; students may not earn credit for both sequences. Three hours lecture and three hours laboratory. Materials fee required.

GEOL 3500. Introductory Paleontology. Units: 4

Semester Prerequisite: Any 1000-level or higher GEOL course, or GEOG 1030, or BIOL 1000, or CHEM 2050, or consent of instructor. Quarter Prerequisite: an introductory course in either geology, physical geography, chemistry, or biology

Introduction to basic paleobiological concepts and the systematic study of important fossil groups. Course concepts include organization and nature of the biosphere, fossilization, taxonomy and systematics, paleoecology, and evolution as exemplified by commonly represented fossil groups in the rock record. Laboratory work includes collection, preparation, analysis, description, and interpretation of both modern specimens as well as typical and unusual fossil materials. Formerly offered as GEOL 350, may not receive credit for both courses. Overnight field trips may be required. Three hours seminar and three hours laboratory. Materials fee required.

GEOL 3600. Structural Geology. Units: 4

Semester Prerequisite: Any 1000-level GEOL course with lab, and PHYS 1000, PHYS 2000 or PHYS 2500. Quarter Prerequisite: GEOL 101 and PHYS 121 or PHYS 221

Mechanics and characteristics of rock deformation and analytical techniques for the solution of structural relationships. Three hours lecture and three hours laboratory. Overnight field trips may be required. Formerly offered as GEOL 360; students cannot earn credit for both. Materials fee required.

GEOL 3700. Groundwater Hydrology. Units: 3

Semester Prerequisite: Geol 1000 and 1000L, or Geol 1060 and 1060L or Geol 1020 plus 1000L or 1060L. Quarter Prerequisite: GEOL 101

Occurrence, distribution, and movement of groundwater; properties of aquifers; principles of groundwater flow; effects of well extraction; regional groundwater flow; water quality and contamination. Formerly offered as GEOL 375, students may not earn credit for both courses.

GEOL 3750. Field Methods in Hydrology. Units: 3

Semester Prerequisite: GEOL 3700, or consent of instructor. Quarter Prerequisite: GEOL 375 with a grade of "C" or better

Hydrology data collection in the field, with emphasis on instrumentation and mapping techniques. Water well siting and drilling techniques. Interpretation of data for evaluation of water movement. One hour lecture and six hours laboratory. Weekend field trips are required. Formerly offered as GEOL 376, students may not earn credit for both courses. Materials fee required.

GEOL 3800. Directed Readings in Geology. Units: 2

Quarter Prerequisite: consent of instructor

Directed readings of primary geologic literature on selected topics.

Department consent required. Formerly offered as GEOL 520; students may not earn credit for both courses.

GEOL 3901. Advanced Field Geology. Unit: 1

Techniques of field geology as applied to selected disciplines within the broad field of geosciences. Some courses may involve moderate to strenuous physical activity. Depending on course content, additional fitness certification may be needed prior to obtaining the consent of instructor required to register. GEOL 3901-3906 may be repeated for credit up to a total of 6 units. Department consent required. Materials fee required.

GEOL 3902. Advanced Field Geology. Units: 2

Quarter Prerequisite: GEOL 301 with a grade of "C" or better and consent of instructor

Techniques of field geology as applied to selected disciplines within the broad field of geosciences. Some courses may involve moderate to strenuous physical activity. Depending on course content, additional fitness certification may be needed prior to obtaining the consent of the instructor required to register. May be taken three times for six units; Students may only earn six units across GEOL 3901-3906. Department consent required. Formerly offered as GEOL 391B. Materials fee required.

GEOL 3902D. Advanced Field Geology - Dinosaur Excavation. Units: 2

Semester Prerequisite: GEOL 3100

Techniques of field geology and vertebrate paleontology as applied to the study of dinosaur fossils in eastern Wyoming. Introduction to dinosaur fossil excavation, preservation, and prospecting; techniques in field data collection; and interpretation of paleoecology. This course involves moderate to strenuous physical activity. Qualifies for credit in the GEOL 3901-3906 series. Department consent required. May be taken three times for six units. Materials fee required, which includes food, camping and ranch fees, and transportation on-site during the course.

GEOL 3903. Advanced Field Geology. Units: 3

Quarter Prerequisite: GEOL 301 with a grade of "C" or better and consent of instructor

Techniques of field geology as applied to selected disciplines within the broad field of geosciences. Some courses may involve moderate to strenuous physical activity. Depending on course content, additional fitness certification may be needed prior to obtaining the consent of the instructor required to register. May be taken two times for six units; Students may only earn six units across GEOL 3901-3906. Department consent required. Formerly offered as GEOL 391C. Materials fee required.

GEOL 3904. Advanced Field Geology. Units: 4

Quarter Prerequisite: GEOL 301 with a grade of "C" or better and consent of instructor

Techniques of field geology as applied to selected disciplines within the broad field of geosciences. Some courses may involve moderate to strenuous physical activity. Depending on course content, additional fitness certification may be needed prior to obtaining the consent of the instructor required to register. May be taken two times for eight units; Students may only earn six units across GEOL 3901-3906. Department consent required. Formerly offered as GEOL 391D. Materials fee required.

GEOL 3906. Advanced Field Geology. Units: 6

Quarter Prerequisite: GEOL 301 with a grade of "C" or better and consent of instructor

Techniques of field geology as applied to selected disciplines within the broad field of geosciences. Some courses may involve moderate to strenuous physical activity. Depending on course content, additional fitness certification may be needed prior to obtaining the consent of instructor required to register. Students may only earn six units across GEOL 3901-3906. Department consent required. Formerly offered as GEOL 391E. Materials fee required.

GEOL 3951. Directed Studies. Unit: 1

Quarter Prerequisite: consent of the instructor

Individual laboratory, field or library study conducted under the direction of a faculty member. May be repeated for credit. Instructor consent required. Formerly offered as GEOL 395A. Materials fee required.

GEOL 3952. Directed Studies. Units: 2

Quarter Prerequisite: consent of the instructor

Individual laboratory, field or library study conducted under the direction of a faculty member. May be repeated for credit. Instructor consent required. Formerly offered as GEOL 395B. Materials fee required.

GEOL 3953. Directed Studies. Units: 3

Quarter Prerequisite: consent of the instructor

Individual laboratory, field or library study conducted under the direction of a faculty member. May be repeated for credit. Instructor consent required. Formerly known as GEOL 395C. Materials fee required.

GEOL 3990. Geological Research Design. Units: 3

Exploration of scientific ways of thinking and how scientific knowledge is created and communicated within the field of geology. Appreciation of the geologic literature as a professional conversation that expands our understanding of geologic processes and features. Development of the reading, thinking, listening, speaking, writing and graphical communication skills that are necessary to join that conversation as a student-scholar, culminating in a written and oral proposal for a research project for GEOL 4000. Revision and collaboration are key components of the course. May require attendance at one or more professional geologic talks or seminars. Two hours seminar and one hour supervision per week. For geology majors and minors only. Consent of Instructor and Department Chair required. Graded A through C-/No Credit. Satisfies WI designation. Students may not earn credit for both courses.

GEOL 4000. Undergraduate Geological Research. Units: 2

Semester Prerequisite: GEOL 3990 with a grade of "C-" or better. Quarter Prerequisite: GEOL 398 with a grade of "C" or better

Laboratory and/or field research in geological sciences under the direction of a faculty advisor. Results will be presented as a research paper. Grade is consensus grade of geology faculty. Department consent required. Formerly offered as GEOL 399; students may not earn credit for both courses.

GEOL 4100. Engineering Geology. Units: 4

Semester Prerequisite: GEOL 3100 with a grade of "C" or better or consent of the Instructor

A survey of issues and techniques pertinent to geology as it applies to engineering of structures and mitigation of natural hazards. Soil and rock mechanics; mass wasting processes; water-related issues; land subsidence; seismic hazards. Field trips are required. Two hours lecture and six hours laboratory, some of which will be conducted in the field. Formerly offered as GEOL 430; students may not earn credit for both. Materials fee required.

GEOL 4200. Topics in Applied Geology. Units: 3

Semester Prerequisite: GEOL 3600 or consent of instructor. Quarter Prerequisite: GEOL 360 or consent of instructor

A selected topic of applied geology such as engineering geology, groundwater, environmental geology, resource management, well-log analysis, applied geophysics, and geological hazards. Recommended as an elective for students of environmental studies, archaeology/anthropology, and life sciences. Formerly offered as GEOL 460. May be repeated for credit as topics change.

GEOL 4200L. Laboratory for Topics in Applied Geology. Unit: 1

Semester Corequisite: Geol 4200

Laboratory work to accompany some topics offered in GEOL 4200. Overnight field trips may be required. May be repeated for credit as topics change. Department consent required. Materials fee required.

GEOL 4800. Senior Honors Research. Units: 2

Semester Prerequisite: GEOL 4000 with a grade of "C" or better. Quarter Prerequisite: GEOL 399 with a grade of "C" or better

Original research in the geological sciences. Work will be conducted in consultation with a faculty advisor, and will culminate in a written paper. Students are encouraged to present results in a conference setting as well. Consent of Instructor required. Formerly offered as GEOL 597; students may not earn credit for both courses.

GEOL 4900. Senior Seminar. Units: 2

Semester Prerequisite: GEOL 4000 with a grade of "C-" or better. Quarter Prerequisite: GEOL 399 with a grade of "C" or better

Assessment of student learning through a written and practical exam, in-class writing assignments, and oral and poster presentations of a research project completed as part of GEOL 4000. Also includes resume writing and preparation for the Geologist in Training examination (a step toward licensure). This course should be taken in the last spring semester prior to graduation. One hour seminar and three hours supervision per week. Formerly offered as GEOL 590. Students may not earn credit for both courses.

GEOL 5000. Advanced Topics in Geology. Units: 3

An advanced geologic topic, such as geophysics, carbonate petrology, seismic stratigraphy, biostratigraphy, advanced igneous and metamorphic petrology, volcanic processes, geochemistry, paleoecology, Quaternary geology, geostatistics, micropaleontology, vertebrate paleontology, paleobotany, marine geology, orogenic systems, stratigraphic techniques, and rock mechanics. Overnight field trips may be required. May be repeated for credit as topics change. Formerly offered as GEOL 540.

GEOL 5000L. Laboratory for Advanced Topics in Geology. Unit: 1

Semester Prerequisite: Consent of instructor. Quarter Prerequisite: Consent of instructor

Semester Corequisite: GEOL 5000

Laboratory work to accompany some topics offered in GEOL 5000. Overnight field trips may be required. May be repeated for credit as topics change. Formerly offered as GEOL 545A. Materials fee required.

GEOL 5200. Tectonics. Units: 3

Quarter Prerequisite: GEOL 325, 330 and 360

Interpretation of the geological evidence for plate tectonics; the mechanisms that control it; the structures it produces; its control on igneous, metamorphic, sedimentologic, and biological processes; and plate interactions. Formerly offered as GEOL 370, students cannot earn credit for both courses.

GEOL 5220. Neotectonics and Seismic Hazard Analysis. Units: 4

Semester Prerequisite: GEOL 1000 and GEOL 1000L, or GEOG 1030 and GEOG 1030L required, GEOL 3100 and GEOL 3600 strongly recommended. Quarter Prerequisite: GEOL 101 or GEOG 103

State-of-the-art methods for studying active faults. Topics include basic seismology, significant historic earthquakes, identifying active faults, estimating fault slip rates by geologic and geodetic methods, types of evidence for prehistoric earthquakes, models for earthquake recurrence, and evaluating the potential for and likely effects of future earthquakes.

Three hours lecture and three hours laboratory. Formerly offered as GEOL 551. Both courses may not be taken for credit. Materials fee required.

GEOL 5240. Volcanology and Volcanic Hazard Assessment. Units: 4

Semester Prerequisite: GEOL 3240 with a grade of C or better. Quarter Prerequisite: GEOL 325 with a grade of C or better

Concepts in modern volcanology and assessment of volcanic hazards. Topics include magma properties, eruptive styles, lava flows, pyroclastic and volcanoclastic deposits, volcanoes and climate, volcanic hazards and their assessment and mitigation, case studies of classic volcanic eruptions. Three hours lecture and three hours laboratory. Weekend field trip(s) will be required. Formerly offered as GEOL 552, students may not receive credit for both courses. Materials fee required.

GEOL 5260. Advanced Structural Geology. Units: 4

Semester Prerequisite: GEOL 3240, 3300, and 3600 with a grade of C or better. Quarter Prerequisite: GEOL 325, 330 and 360 with a grade of C or better

Advanced topics in theory and analysis of stress and strain; examination of deformation mechanisms; geometry, kinematics, and mechanisms of orogenic belts. Recommended: GEOL 5200. Three hours lecture and three hours laboratory. Overnight field trips may be required. Formerly offered as GEOL 553, students may not receive credit for both courses. Materials fee required.

GEOL 5280. Digital Mapping and GIS for Scientists. Units: 3

Semester Prerequisite: GEOL 3100 or consent of instructor. Quarter Prerequisite: GEOG 202

Emphasis on real-time field-data collection in direct digital form, and manipulation of these data using GIS. Scientific application to geologic and/or environmental problems will be stressed. Recommended: GEOG 2050. One hour lecture and six hours laboratory. Previously offered as GEOL 591; students may not earn credit for both courses. Materials fee required.

GEOL 5300. Microscopy. Units: 3

Semester Prerequisite: senior standing or consent of instructor. Quarter Prerequisite: senior standing and consent of instructor

Theory and techniques of modern microscopy. Lectures on theory of optics and imaging for several types of microscopes (Light microscope, fluorescence microscope, confocal microscope, scanning probe microscope, and electron microscope). Laboratory includes hands-on training in the technical aspects of specimen preparation and microscope use. Two hours lecture and three hours laboratory. Formerly offered as BIOL/GEOL 530, students may not receive credit for both courses. Offered as GEOL 5300 and BIOL 5300. Students may not receive credit for both. Materials fee required.

GEOL 5400. Environmental Hydrology. Units: 3

Overview of groundwater and surface water, including Federal and State environmental regulation, groundwater origins and behavior, wells, water quality, waste treatment. Emphasis is given to applications and case studies. Weekend field trip(s) may be required. Formerly offered as GEOL 510, students may not receive credit for both courses.

GEOL 5420. Geochemical Thermodynamics. Units: 3

Semester Prerequisite: CHEM 2200 and MATH 2220. Quarter Prerequisite: CHEM #216 and MATH #212

Application of equilibrium thermodynamics to understand geological, geochemical, and other natural systems. Mathematics of thermodynamics and equations of state, use of thermodynamic datasets and extraction of data from experiments, interpretation of geochemical phase equilibria, introduction to geochemical modeling. Formerly offered as GEOL 554, students may not receive credit for both courses. Geology majors are recommended to take GEOL #320 and GEOL #322 before taking this course.

GEOL 5430. Isotope Geochemistry. Units: 3

Semester Prerequisite: GEOL 3220 and GEOL 3240 or permission of instructor

Introduction to stable and radiogenic isotopes with applications to a variety of geochemical, geological, and environmental research problems. Fundamental topics include nucleosynthesis and nuclear chemistry, radioactive decay, isotopic equilibria, and mass spectrometry. Isotopes will be applied to understanding natural processes in hydrology, water-rock interaction, environmental studies, paleoclimate, petrology, anthropology, biogeochemistry, and radiometric dating.

GEOL 5440. Environmental Geochemistry. Units: 4

Semester Prerequisite: CHEM 2050, or CHEM 2100, or GEOL 3220, or consent of instructor, CHEM 2200 suggested. Quarter Prerequisite: GEOL 610

Contemporary problems in environmental geochemistry, such as fate and transport of inorganic and organic pollutants in the terrestrial environment covering both equilibrium and kinetic descriptions of the processes. Three hours lecture and three hours laboratory. Formerly offered as GEOL 630, students may not receive credit for both courses. Materials fee required.

GEOL 5460. Low-temperature Geochemistry. Units: 3

Low-temperature geochemistry including sedimentary systems, weathering, and aqueous geochemistry. Includes discussion of thermodynamics of aqueous reactions, elemental speciation, activity diagrams, the carbonate system, water-rock reactions and stable isotopes. Formerly offered as GEOL 635, students may not receive credit for both courses.

GEOL 5600. Earth Resources. Units: 4

Semester Prerequisite: GEOL 3200 with a grade of "C" or better, or consent of instructor. Quarter Prerequisite: GEOL 322 with a grade of "C" or better

An overview of the geology, distribution, and occurrence of many types of ore deposits, and the methods and laws governing their extraction. Topics include metallic resources, industrial minerals, building materials, and energy resources. Three hours lecture and three hours laboratory. Weekend field trip(s) may be required. Formerly offered as GEOL 550, students may not receive credit for both courses. Materials fee required.

GEOL 5620. Site Investigation, Siting, and Case Histories in Engineering Geology. Units: 4

Quarter Prerequisite: GEOL 301, GEOL 360, GEOL 370

Discussion and practice of methods and strategies to investigate sites for the purpose of engineered or other human designed improvement. Use of aerial photography, mapping, reconnaissance site visits, geophysics, and exploration borings to obtain data at sites; discussion of guidelines and methods to describe rock and soil borings. Discussion of use of geologic site conditions to develop the scope and strategy of site investigation. Discussion of siting of critical facilities. Well-known successes and failures will be explored by focusing on the geologic details at those sites, and how workers of the day dealt with situations versus how these might be investigated and mitigated with modern techniques. Three hours seminar and three hours lab. Field trips required. Formerly offered as GEOL 555 and GEOL 556, students may not earn credit for both the quarter versions and this version. Materials fee required.

GEOL 5751. Internship in Geology. Unit: 1

Quarter Prerequisite: consent of instructor and department chair

Work experience off and on campus in geologically related work. Supervised by a member of Geological Sciences faculty. A maximum of 3 units may be applied towards the degree. Department consent required. Formerly offered as GEOL 575A or 575B. Students may not receive credit for both courses. Graded credit/no credit.

GEOL 5752. Internship in Geology. Units: 2

Quarter Prerequisite: consent of instructor and department chair
 Work experience off and on campus in geologically related work.
 Supervised by a member of Geological Sciences faculty. A maximum of 3 units may be applied towards the degree. Department consent required.
 Formerly offered as GEOL 575B or 575C. Students may not receive credit for both courses. Graded credit/no credit.

GEOL 5753. Internship in Geology. Units: 3

Quarter Prerequisite: consent of instructor and department chair
 Work experience off and on campus in geologically related work.
 Supervised by a member of Geological Sciences faculty. A maximum of 3 units may be applied towards the degree. Department consent required.
 Formerly offered as GEOL 575C or 575D. Students may not receive credit for both courses. Graded credit/no credit.

GEOL 5951. Independent Study. Unit: 1

Semester Prerequisite: consent of instructor. Quarter Prerequisite: consent of instructor
 Laboratory, field or library research conducted under the direction of a faculty member. A total of three units may be applied towards obtaining a bachelors degree and a total of three units may be applied towards obtaining a masters degree. Formerly offered as GEOL 595A or 595B.

GEOL 5952. Independent Study. Units: 2

Quarter Prerequisite: consent of instructor
 Laboratory, field or library research conducted under the direction of a faculty member. A total of three units may be applied towards obtaining a bachelors degree and a total of three units may be applied towards obtaining a masters degree. Formerly offered as GEOL 595B or 595C. Departmental consent required.

GEOL 5953. Independent Study. Units: 3

Quarter Prerequisite: consent of instructor
 Laboratory, field or library research conducted under the direction of a faculty member. A total of three units may be applied towards obtaining a bachelors degree and a total of three units may be applied towards obtaining a masters degree. Formerly offered as GEOL 595C. Departmental consent required.

GEOL 6000. Advanced Environmental Chemistry and Geosciences. Units: 4

Semester Prerequisite: classified standing in either the Master of Science in Geology or Master of Science in Environmental Sciences program, or consent of instructor
 Application of earth science principles to the properties of the natural environment and the effects of human and biological activities thereon. Topics include geohazards, erosion, geochemistry, sources and treatment of water, climate change, and the chemistry of environmental pollutants in air, water, and soil. Labs will feature hands-on studies of common methods used in environmental and geological analyses. Materials fee required. Formerly CHEM 610 and GEOL 610; students may not receive credit for both the quarter versions and this version.

GEOL 6100. Graduate Geological Mapping. Units: 3

Quarter Prerequisite: GEOL 301, GEOL 325, GEOL 330, GEOL 340, and GEOL 360 or equivalents, classified standing, and consent of instructor
 Application of geologic techniques and principles to selected field problems. Includes geologic mapping, data collection, analysis, and presentation, and report writing. Nine hours laboratory. Overnight field work may be required. Formerly offered as GEOL 621, students may not earn credit for both courses. Materials fee required.

GEOL 6752. Advanced Internship. Units: 2

Semester Prerequisite: CHEM 5753, or GEOL 5753. Quarter Prerequisite: CHEM 575 or GEOL 575 and consent of advisor
 Supervised work or study in private or public organizations. Department consent required. Graded Credit/No Credit. Formerly offered as GEOL 697.

GEOL 6900. Graduate Seminar. Units: 2

Current and past student project investigations in the M.S. Environmental Science and Geology programs, including presentation of project implications for the general public and professional non-scientific constituents such as business, law, policy, and public health. Formerly offered as CHEM/GEOL 690, students may not receive credit for both courses. Two hours seminar.

GEOL 6940. Graduate Research Methods and Design. Units: 3

Quarter Prerequisite: Classified standing in the master of science program in geology or environmental sciences, and consent of instructor
 Critical literature review and preparation of a master's thesis or project research proposal following program guidelines. Supervised by the student's thesis/project adviser. Graded credit/no credit upon approval of the student's thesis/project committee.

GEOL 6950. Directed Graduate Research in Geology. Units: 3

Semester Prerequisite: classified standing in masters program. Quarter Prerequisite: classified standing in masters program and consent of advisor
 Original individual research in geology to be conducted under the supervision of the student's thesis adviser. Formerly offered as GEOL 695. Students may take the course up to a total of three times, but only three units apply to the degree. Department consent required. Materials fee required.

GEOL 6960. Graduate Project. Units: 3

Semester Prerequisite: classified standing and consent of instructor. Quarter Prerequisite: classified standing and consent of instructor
 Original individual research in geology, to be conducted under the guidance of the student's graduate advisor, and if desired, in collaboration with other members of the student's master's committee. Formerly offered as GEOL 696, students may not receive credit for both courses. Graded credit/no credit. Materials fee required.

GEOL 6970. Graduate Thesis. Units: 3

Semester Prerequisite: GEOL 6950. Quarter Prerequisite: CHEM 695 or GEOL 695
 Independent graduate research conducted under guidance of the thesis advisor culminating in a written thesis and oral defense. Formerly offered as GEOL 699, students may not receive credit for both courses.

GEOL 6990. Continuous Enrollment for Graduate Candidacy Standing. Units: 0

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

GEOL 6991. Continuous Enrollment for Graduate Candidacy Standing. Unit: 1

Quarter Prerequisite: Advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

GEOL 6992. Continuous Enrollment for Graduate Candidacy Standing. Units: 2

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

GEOL 6993. Continuous Enrollment for Graduate Candidacy Standing. Units: 3

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

GEOL 6994. Continuous Enrollment for Graduate Candidacy Standing. Units: 4

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

GEOL 6995. Continuous Enrollment for Graduate Candidacy Standing. Units: 5

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

GEOL 6996. Continuous Enrollment for Graduate Candidacy Standing. Units: 6

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

Gender and Sexuality Studies (GSS)

Courses

GSS 1000. Introduction to Women's Studies. Units: 3

A multidisciplinary exploration of women's studies scholarship covering women's experiences, histories, and achievements in a variety of contexts and fields. The course critically examines gender as a social construct and the differential experiences of women related to intersectional identities, power, equity, and human rights both domestically and globally. Satisfies GE D3/4, DI, G designations.

GSS 1010. Introduction to Masculinity Studies. Units: 3

Multidisciplinary exploration of how masculinity is constructed, understood, represented, and behaviorally expressed across multiple contexts and through its intersections with sex, sexuality, culture, nationality/geography, social class, physicality, race, ethnicity, and age. Satisfies GE D3/4, DI, G designations.

GSS 1020. Introduction to Transgender Studies. Units: 3

Multidisciplinary exploration of the field of transgender studies. The course will explore how trans identities intersect with a diversity of other identities and how trans experiences vary across cultural, global, and historical contexts. Satisfies DI designation.

GSS 1030. Introduction to Lesbian, Gay, Bisexual, Transgender, and Queer Studies. Units: 3

Multidisciplinary exploration of the field of lesbian, gay, bisexual, transgender, and queer studies. Explores historical events and contemporary issues related to LGBTQ populations, social justice, and the intersections of sexual and gender identities with other identities such as race, ethnicity, sex, social class, religion, ability, and nationality/geography. Satisfies GE D3/4, DI, G designations.

GSS 3901. Special Topics in Gender and Sexuality Studies. Units: 3

Examination of selected topics of current interest in gender and sexuality studies. May be repeated for credit as topics change. Formerly offered as GSS 390.

GSS 4200. Feminist Theory. Units: 3

An interdisciplinary survey of key feminist theoretical texts, intellectual traditions, and research while exploring the implications and applications of feminist theory across multiple contexts domestically and globally. This course seeks to provide students with an accurate understanding of feminism, its usefulness in understanding social problems, and aims to empower students to work toward sex and gender equity. Satisfies GE D4/UD-4, DI, G designations.

GSS 4250. Women as Agents of Social Change. Units: 3

Historical and contemporary analysis of women as agents of social change, including responses to sex and gender-based discrimination, consideration of feminist theories of social change and debates over how to create more equitable and inclusive societies. Formerly GSS 425.

GSS 4500. Queer Theory. Units: 3

An interdisciplinary exploration of queer theory through examining vital theoretical texts, intellectual traditions, and research while exploring the implications and applications of queer theory across multiple contexts domestically and globally. The course will provide students with a conceptual framework to critically analyze how gender and sexuality relate to social justice within changing historical and cultural contexts. Satisfies GE D4/UD-4, DI, G designations.

GSS 4550. Sexualities and Society. Units: 3

This course provides an introduction to the sociology of sexualities. We often think of sex and sexuality as deeply personal and private, but in this class, we'll also learn how sexualities are profoundly social - that is, how sexualities are situated in larger social contexts. In this class, we will critically unpack how sex and sexuality are socially constructed, experienced, regulated, and contested in society.

GSS 5751. Internship in Gender and Sexuality Programs and Services. Unit: 1

Quarter Prerequisite: consent of the Gender and Sexuality Studies Program Committee coordinator

Supervised work and study in private or public organizations involving gender and sexuality issues. May be repeated twice for credit, a total of six units may apply toward graduation. Graded credit/no credit. Formerly GSS 575D.

GSS 5752. Internship in Gender and Sexuality Programs and Services. Units: 2

Quarter Prerequisite: consent of the Gender and Sexuality Studies Program Committee coordinator

Supervised work and study in private or public organizations involving gender and sexuality issues. May be repeated once for credit, a total of four units may apply toward graduation. Graded credit/no credit. Formerly GSS 575B.

GSS 5753. Internship in Gender and Sexuality Programs and Services. Units: 3

Quarter Prerequisite: consent of the Gender and Sexuality Studies Program Committee coordinator

Supervised work and study in private or public organizations involving gender and sexuality issues. May be repeated once for credit, a total of six units may apply toward graduation. Graded credit/no credit. Formerly GSS 575C.

GSS 5951. Independent Study. Unit: 1

Quarter Prerequisite: junior standing, consent of instructor and approval by the Gender and Sexuality Program coordinator

Investigation of special topics in gender and sexuality studies that are not covered by the curricular offerings in gender and sexuality studies or the cross-listed offerings from other departments. No more than six units of independent study may be applied toward the minor or certificate in gender and sexuality studies.

GSS 5952. Independent Study. Units: 2

Quarter Prerequisite: junior standing, consent of instructor and approval by the Gender and Sexuality Program Committee coordinator

Investigation of special topics in gender and sexuality studies that are not covered by the curricular offerings in gender and sexuality studies or the cross-listed offerings from other departments. No more than six units of independent study may be applied toward the minor or certificate in gender and sexuality studies.

GSS 5953. Independent Study. Units: 3

Quarter Prerequisite: junior standing, consent of instructor and approval by the Gender and Sexuality Program Committee coordinator

Investigation of special topics in gender and sexuality studies that are not covered by the curricular offerings in gender and sexuality studies or the cross-listed offerings from other departments. No more than six units of independent study may be applied toward the minor or certificate in gender and sexuality studies.

History (HIST)

Courses

HIST 1400. World History to c. 1500. Units: 3

Thematic introduction to world history from prehistoric times to c1500. Examines the development of and interactions between peoples, states, civilizations, and empires in Africa, Asia, Europe, Oceania, and the Americas. Focuses on patterns of economic and cultural development, religious ideas, the rise and fall of empires, and global interconnections. Satisfies GE D3/4, DI, G designations.

HIST 1440. World History from c.1500. Units: 3

Thematic introduction to world history from c. 1500 to the present. Examines the changing balance of power between regions of the world and the contributions of people from Africa, Asia, Europe, Oceania, and the Americas to the development of the modern world. Focuses on the rise of capitalism, nation states, globalization, and revolutionary movements and their impact on our world today. Satisfies GE D3/4, DI, G designations.

HIST 1460. History of the United States: Pre-Colonization to Present. Units: 3

Historical development of the fundamental values of the nation's culture and the influences of these in selected areas of American life from pre-colonization to present. This course meets the state code requirements in the U.S. Constitution and in U.S. history. Satisfies GE D1/4, DI designation.

HIST 1460H. Honors History of the United States: Pre-Colonization to Present. Units: 3

Historical development of the fundamental values of the nation's culture and the influences of these in selected areas of American life from pre-colonization to present. This course meets the state code requirements in the U.S. Constitution and in U.S. history. Satisfies GE D1/4, DI designation.

HIST 2000. United States History to 1877. Units: 3

Survey of the history of the United States from the colonial beginnings to 1877. This course meets the state code requirement in U.S. history. It also meets the state code requirement in the U.S. Constitution when taken in conjunction with HIST 2010. Satisfies GE D1/4, DI designation.

HIST 2010. United States History, 1877 to the Present. Units: 3

Survey of the history of the United States from 1877 to the present. This course meets the state code requirement in U.S. history. It also meets the state code requirement in the U.S. Constitution when taken in conjunction with HIST 2000. Satisfies GE D1/4, DI designation.

HIST 2700. California History. Units: 3

Cultural and political history of California from pre-Columbian times to the present. Topics will include Native cultures, Spanish colonization, the mission system, Mexican rule, the Mexican war, the gold rush, the state constitution, Progressive-era political reforms, and immigration. Meets the subject matter requirements for the Liberal Studies degree, in preparation for teaching grades K-8. This course meets the state code requirement in state and local government. Formerly HIST 270.

HIST 3000. History of Education in the United States. Units: 3

Exploration of formal and informal education in the United States from colonial period to the late twentieth century. Emphasis on social, cultural, political, and economic influences. This course will investigate the historical development of education systems in the United States from the 1600s to the present. Major themes will include examinations of informal education in colonial history and during the early republic, the foundations of structured public education, the role of education in developing notions of citizenship, and the rise of national standardization in K-12 schooling. Students will examine social, cultural, economic, and political priority shifts that influenced education policy in the nineteenth and twentieth centuries. Moreover, students will examine school segregation as well as the differences in formal and informal education practices among diverse ethnic groups in the U.S. and Native American tribal homelands.

HIST 3012. Historical Archaeology. Units: 3

Use of archaeological methods to study historic peoples. Historical and archaeological methods and their results. Focus will be primarily on North America from European entry to modern times. Formerly known as ANTH 312/HIST 312. Offered as ANTH 3012 and HIST 3012, students may not receive credit for both.

HIST 3018. Introduction to Cultural Resource Management. Units: 3

General overview of the field of Cultural Resource Management in Museum Studies, Archaeology, and Public History. Previously HIST 318.

HIST 3020. The 20th Century World. Units: 3

Major events and significant individuals of the 20th century are explored and analyzed.

HIST 3030. Latin I for Historians. Units: 3

This course offers students an introduction to the Latin language, including literature, vocabulary, grammar, and usage. It also offers historical, cultural, and political context for Latin language and literature.

HIST 3040. Latin II for Historians. Units: 3

This course offers students an introduction to the Latin language, including literature, vocabulary, grammar, and usage. It also offers historical, cultural, and political context for Latin language and literature.

HIST 3050. Ancient and Medieval Europe to the Renaissance. Units: 3

Institutions, culture, and political development of Europe from circa the eighth century B.C.E. to 1500. Formerly HIST 305.

HIST 3060. European History from the Renaissance to the Present. Units: 3

Institutions, culture, and political development of Europe from the Renaissance, circa 1500, to the Present. Formerly HIST 306 and HIST 307.

HIST 3100. Research Opportunity in History. Units: 3

An opportunity for students to learn research methods and gain important professional experience by working with a full-time faculty member on a research project. Facilitates mentorship opportunities for students who want to go on to graduate school or in professional settings. May be taken two times for six units. Graded credit/no credit.

HIST 3120. Historical Archaeology. Units: 3

Use of archaeological methods to study historic peoples. Historical and archaeological methods and their results. Previously ANTH 312 and HIST 312.

HIST 3160. Archival Practices. Units: 3

Applied approach to archival methods, the accessioning, de-accessioning, cataloging, calendar composition, storage of objects and archival materials, loan procedures, policies and legal issues. Field trips and projects required. Formerly ANTH/HIST 316.

HIST 3180. Introduction to Cultural Resource Management. Units: 3

General overview of the field of Cultural Resource Management in Museum Studies, Archaeology, and Public History. Also offered as HIST 3180. Students may not receive credit for both. Formerly known as ANTH 318.

HIST 3200. History of Ancient Greece. Units: 3

Greek history from the Minoan and Mycenaean civilizations through the successor states of the Greek Empire. Topics include the cultural and intellectual exchanges among peoples throughout the ancient Mediterranean and Aegean Seas. Formerly known as HIST 320.

HIST 3201. Race, Ethnicity and Immigration in the United States. Units: 3

This course explores the history of immigration and migration in the United States through the lens of race and ethnicity. Additional themes include citizenship, law, nationalism, violence, gender, sexuality, labor, and globalization. Offered as ES 3201 and HIST 3201, students may not receive credit for both.

HIST 3210. History of Rome. Units: 3

Roman history from the origin of the Republic to the end of Imperial Rome in the West. Major themes include the exchange of ideas throughout the ancient Mediterranean and the foundations of European culture. Formerly known as HIST 321.

HIST 3230. Introduction to Public History. Units: 3

Introduction to public history, focusing on museums, historic sites, libraries, and archives, and the issues involved in oral history, interviewing techniques, and diverse media and technologies. Projects and field trips are required. Formerly HIST 323 and HIST 324.

HIST 3240. Decolonizing Museums. Units: 3

Development of museums from colonial-era collecting, creation of colonial subjectivity, and political, economic, scientific, and spiritual exploitation. Confronts the museum as a site colonization and traces key Indigenous watershed moments that contested museum authority and neutrality. Global case studies will examine diverse decolonial initiatives and contemporary challenges.

HIST 3260. Historic Preservation. Units: 3

Quarter Prerequisite: HIST 324 and 325, or consent of instructor
Examination of the methods, theories, and issues in historic preservation. Field trips and projects are required. Formerly HIST 326.

HIST 3290. Topics in Public History. Units: 3

Examination of topics in public history, including local history, conservation, historic architecture, living history and material culture. May be repeated for credit as topics change. Formerly HIST 329.

HIST 3300. Topics in Oral History. Units: 3

Quarter Prerequisite: HIST 324 and 325, or consent of instructor
Examination of topics in oral history, including regional or ethnic groups, World War II, the Civil Rights movement, or the Vietnam War. May be repeated for credit as topics change. Formerly HIST 330.

HIST 3350. Modern Ireland. Units: 3

Survey of Ireland from 1798 to the present, with specific focus on the political, social, and economic consequences or English colonialism and modern nation building. Formerly HIST 335.

HIST 3360. Ancient Egyptian Archaeology. Units: 3

Examination of ancient Egyptian archaeological contexts that reveal specific themes about their people, history, society, and religion. Incorporates archaeological theory to interpret contexts. Incorporates the history of excavation and removal of objects from Egypt. Offered as ANTH 3360 and HIST 3360. Students may not receive credit for both. Formerly known as HIST 336 and ANTH 336.

HIST 3380. Ancient Egyptian Art. Units: 3

Examination of composition, artists, portraiture, color, technique and the principles of ancient Egyptian art, as seen through statuary, paintings, and wall carvings. Looks at the integration of art and writing. Includes studying objects at RAFFMA. Satisfies GE C4/UD-3, DI, G designations.

HIST 3390. Culture and Society in Ancient Egypt. Units: 3

Examination of cultural, economic, social, and religious structures in ancient Egypt. Includes topics such as women, daily life, mummification, fortification, and religion. Formerly known as HIST 339.

HIST 3400. African-American History, 1620-1865. Units: 3

History of African-American people in the United States during the slave era. Examines the lives of slaves, the slave owners, and the system that bound them together as well as the place of free blacks in American society. Formerly known as HIST 340.

HIST 3410. African-American History, 1865-Present. Units: 3

Social, cultural, political and economic history of African-American people from emancipation to the present. Places special emphasis on African-American agency, self-development and self-determination. Formerly known as HIST 341.

HIST 3420. American Indian History. Units: 3

Social, cultural, political, and economic history of American Indians. Special emphasis placed on American Indian agency, sovereignty and diversity. Formerly known as HIST 342.

HIST 3430. Great Debates in African American History. Units: 3

Examines African American history through major debates of influential figures, such as the dispute between Booker T. Washington and W.E.B. Du Bois regarding Black education and citizenship, the disagreement between Martin Luther King Jr. and Malcolm X about protest and non-violence, and the critique of patriarchy by Audre Lorde and other Black Feminists.

HIST 3450. Women in U.S. History, 1607-Present. Units: 3

Examines women's roles in American history from 1620 to the present. Special emphasis on the diversity of women's experiences and their struggles for social, economic, political and cultural equality from the colonial period through the present. Formerly Known as HIST 344 and HIST 345.

HIST 3460. Women in the Black Freedom Movement. Units: 3

Examines the roles of women in the struggle for social justice and black equality in America. Treats the historical background to the movement including the key women activists of the civil rights decade, 1954-1964. Formerly known as HIST 346.

HIST 3470. Black Freedom Movement Through Film. Units: 3

Explores the modern Civil Rights Movement through feature films, documentaries, and other selected works. Covers key events, organizations, leaders, and competing historical narratives. This is not a course in film studies or criticism.

HIST 3480. Black Panthers and Black Power. Units: 3

This course chronicles the Black Power Movement and the Black Panther Party. Beginning in 1966 as a local community group, the Panthers soon expanded across the nation and became Black Power's most well-known organization. The organization's free breakfast programs, armed confrontations with police, and other initiatives, placed it at the forefront of Black Power theorizing, organizing, and action.

HIST 3500. The American Colonies, 1607-1783. Units: 3

The thirteen colonies from European origins to the attainment of independence. Formerly known as HIST 350.

HIST 3510. The Evolution of American Democracy, 1783-1840. Units: 3

Analysis of the development of American society, politics and economy during the Confederation, Federalist, Jeffersonian and Jacksonian eras. Formerly Known as HIST 351.

HIST 3540. Civil War and Reconstruction. Units: 3

Background and causes of the Civil War and the problems of Reconstruction. Formerly HIST 354.

HIST 3560. The United States, 1877-1917. Units: 3

Transformation of the nation between the end of Reconstruction and entrance into World War I. Formerly HIST 356.

HIST 3570. The United States, 1917-1945. Units: 3

Principal developments in American life from World War I to the end of World War II. Formerly HIST 357.

HIST 3580. United States in World War II. Units: 3

The United States homefront during World War II, focusing on social, economic and constitutional issues. Formerly HIST 358.

HIST 3590. United States History, Cold War Era. Units: 3

Major changes in the United States between in the Cold War Era, 1945 to 1991. Formerly HIST 359.

HIST 3600. American History Through Film. Units: 3

Explores the cultural, social and economic issues that have shaped American history through the study and analysis of feature films. (Not a course in film studies or criticism.) Formerly HIST 360.

HIST 3610. Chicana/o History Through Film. Units: 3

General survey of the history of Chicanas/os in the United States from the mid-eighteenth century to the present through films, documentaries and selected historical works. Topics include Spanish conquest, Manifest Destiny, labor activism, education, the Chicano Movement, and other forms of political activism. Formerly HIST 361.

HIST 3620. LGBT History. Units: 3

Social, cultural, and political history of LGBT communities in the U.S. from the nineteenth century to the present. Topics include pre-Stonewall communities, political mobilization, and the contemporary LGBT rights movement. Formerly HIST 362.

HIST 3630. Race, Ethnicity, and Film in America, 1920-Present. Units: 3

This course utilizes documentary and popular film to better understand the experiences, representation, and resistance modes of people of color in the US. Students will explore racist imagery central to the American film industry during the 20th century while deeply analyzing film as a vital facet of political resistance and artistic production among people of color. Offered as ES 3630 and HIST 3630, students may not receive credit for both.

HIST 3680. The United States, 1960s. Units: 3

Examines political, social, and cultural changes in the United States during the turbulent decade of the 1960s. Formerly HIST 368.

HIST 3700. History of California. Units: 3

Political, economic, social and cultural development of California from Spanish times to the present. This course meets the state code requirement in state and local government. Formerly HIST 370.

HIST 3710. California Indian History. Units: 3

Social, cultural, political, and economic history of California Indians. Special emphasis placed on California Indian agency, sovereignty and diversity. Formerly HIST 371.

HIST 3740. Collections Management. Units: 3

Overview of methods and legal and ethical considerations in the care of objects, standards of acquisition and disposal, collection documentation, storage, handling, loans, and conservation of museum collections, as well as security and emergency planning. Formerly ANTH/HIST 374.

HIST 3750. Museum Management. Units: 3

Legal, financial, personnel matters, theories and practices of developing a mission statement, bylaws, various policies and plans that are standard administrative elements of museum operation. Museum departmental organization and staffing hierarchies are also discussed. Formerly HIST 375.

HIST 3760. Exhibition Development and Design. Units: 3

Introduction to the standards, considerations, and collaborative processes related to developing and designing interpretive museum exhibitions that promote affective and transformative visitor experiences. Coursework may contribute to planning exhibitions for the Anthropology Museum. Field trips and group work may be required.

HIST 3770. Historical Documentaries. Units: 3

Examination of the development and role of historical documentaries in American society, focusing on the role of the historian in the research and production of the documentaries as well as a critical analysis of the individual productions and their historical, material and intellectual content. Formerly HIST 377.

HIST 3780. Museum Curation. Units: 3

Principles and practices relating to core curatorial functions, the relationship of curatorship to museum missions, ethical and other challenges facing museums, acquisition proposals and concepts and curatorial practices.

HIST 3790. The History of Madness. Units: 3

Concepts of "madness" from an historical, global and comparative perspective from the eighteenth century to the present day, including the social construction of madness and views of mad people themselves. Formerly HIST 379.

HIST 3791. Disability History. Units: 3

An introduction to key topics in disability history, both within the United States and globally. Topics include understanding the complex social, political, legal, and cultural history related to disability, including literary and cultural depictions of disability, activist voices from the community, political conversations on accessibility and accommodation and healthcare, and changing understandings of non-normative bodies, and more.

HIST 3830. Classical Islamic Civilization. Units: 3

Introduction to the classical Islamic period in the Central and Western (North African and Ottoman) Islamic lands. Considers the development of Islam as a religion and civilization, the expansion of the Islamic world, and the rise of the Ottoman empire. Formerly known as HIST 383.

HIST 3840. Modern Middle East. Units: 3

Survey of the history of the Middle East since the eighteenth century, emphasizing the political and social history of Turkey, Iran, Iraq, Egypt, and the Levant (Lebanon, Palestine/Israel, Syria, Jordan). Formerly known as HIST 384.

HIST 3860. Africa to 1870. Units: 3

Deals with the main themes of African history to 1870: including the trans-Saharan and other intra-African trading and exchange networks, Indian Ocean trading system, Islam and Islamization, development of African state systems and stateless sociopolitical constructs, the development and abolition of the trans-Arab and trans-Atlantic slave trade and commodity export trades. Formerly known as HIST 385 and 386.

HIST 3870. Africa 1870 to Present. Units: 3

Deals with the main themes of African history since 1870, including European partition of the continent, resistance to partition and colonial rule, systems of colonial rule in Africa, Christianity and Islam during the colonial period, independence movements, post-colonial states and development issues. Formerly known as HIST 387.

HIST 3880. The Rise, Decline and Legacy of Apartheid South Africa. Units: 3

Development of racial segregation and apartheid policies in twentieth century South Africa. Explores the causes and consequences of the rise and collapse of apartheid. Formerly known as HIST 388.

HIST 3890. Images of Africa. Units: 3

Examination of cultural constructions of Africa through various forms of media created by Africans and non-Africans from the 17th Century to the present. Satisfies GE C4/UD-3, DI, G designations.

HIST 3900. History of Modern Mexico. Units: 3

Survey of Mexican history from the nineteenth century wars of independence to the present. Formerly known as HIST 390.

HIST 3910. Chicana/o History. Units: 3

Mexican-Americans in the United States from the Colonial period to the present, with special emphasis on the Southwest. Formerly known as HIST 391.

HIST 3950. Topics in History. Units: 3

Examination of topics of interest in history. May be repeated for credit as topics change. Formerly known as HIST 395.

HIST 3970. Topics in Egyptology. Units: 3

Examination of topics of interest in Egyptology. May be repeated for credit as topics change.

HIST 3990A. Community-Based Project. Unit: 1

Semester Prerequisite: a project proposal must be approved by the department in advance of enrollment. Quarter Prerequisite: a project proposal must be approved by the department in advance of enrollment. Project with community-based groups or agencies such as historical, cultural, governmental, and/or educational institutions. May be taken six times for six units. No more than six units of credit for community-based project courses may be applied toward degree requirements. Graded credit/no credit. Formerly HIST 399A.

HIST 3990C. Community-Based Project. Units: 3

Semester Prerequisite: a project proposal must be approved by the department in advance of enrollment. Quarter Prerequisite: a project proposal must be approved by the department in advance of enrollment. Project with community-based groups or agencies such as historical, cultural, governmental, and/or educational institutions. May be taken two times for six units. No more than six units of credit for community-based project courses may be applied toward degree requirements. Graded credit/no credit. Formerly HIST 399B and HIST 3990B.

HIST 3990E. Community-Based Project in Egyptology. Units: 3

Egyptology related project with community-based groups or agencies such as historical, cultural, governmental, and/or educational institutions. May be taken two times for six units. No more than six units of credit for community-based project courses may be applied toward degree requirements. Graded credit/no credit. Formerly HIST 3991.

HIST 4000. Early Medieval Europe. Units: 3

Survey of the political, economic, and social transformation of Europe from the fall of Rome through the eleventh century. Formerly known as HIST 400.

HIST 4010. High Medieval Europe. Units: 3

Survey of the political, economic, and social transformation of Europe during the high Middle Ages, from the eleventh century to the fourteenth century. Formerly known as HIST 401.

HIST 4020. Renaissance and Reformation. Units: 3

Principal political, economic, intellectual and religious developments in Europe from about 1300 to 1648. Formerly known as HIST 402.

HIST 4030. The Age of Absolutism and Enlightenment. Units: 3

The period from 1648 to 1789, emphasizing the development of the modern state, the new scientific movement and the growth of revolutionary ideas. Formerly known as HIST 403.

HIST 4050. Nazi Germany and the Holocaust. Units: 3

The rise of Nazi Germany with a focus on the intertwined worlds of perpetrators and victims of the Holocaust. Formerly known as HIST 405.

HIST 4060. European Intellectual History. Units: 3

The intellectual history of Europe from the Renaissance to the present. Formerly known as HIST 406.

HIST 4090. Twentieth Century Europe. Units: 3

Political and cultural history of Europe from the rise of fascism to the fall of communism. Formerly known as HIST 409.

HIST 4100. Hitler's Europe. Units: 3

Development of totalitarian ideologies focusing primarily on the theory and practice of National Socialism in Germany during the period 1918-1945. Formerly known as HIST 410.

HIST 4180. Early American Biography. Units: 3

Early American history through the medium of biography and related primary source documents. Formerly known as HIST 349.

HIST 4200. US Empire and Foreign Policy 1898-Present. Units: 3

This course analyzes US history and empire-building with a focus on the 20th century. Students explore the ways in which race, gender, and the growth of capitalism are inherently intertwined within this process. Content will trace the history of American occupations and economic and military interventions throughout numerous regions of the globe. Offered as ES 4200 and HIST 4200, students may not receive credit for both.

HIST 4220. 20th Century Americans. Units: 3

Biographical focus on key American leaders who affected the course of 20th century American history. Formerly HIST 422.

HIST 4260. Ancient and Early Imperial China. Units: 3

Political, social, economic, and cultural developments of China from earliest times to the founding of the Sui Dynasty (589 C.E.). Formerly known as HIST 426.

HIST 4280. Medieval China. Units: 3

Political, social, economic, and cultural developments in China from the founding of the Sui Dynasty (589 C.E.) through the fall of the Ming Dynasty (1644). Formerly known as HIST 428.

HIST 4290. Modern China I, 1644-1911. Units: 3

Political, social, economic, and cultural developments in China in the Qing Dynasty (1644-1911). Formerly known as HIST 429.

HIST 4310. Modern China II, 1911-Present. Units: 3

Political, social, economic, and cultural developments in China from the fall of the Qing Dynasty (1911) through the present. Formerly known as HIST 431 and HIST 432.

HIST 4330. Modern Chinese History in Fiction and Film. Units: 3

Retrospective and contemporary film and fiction are used as a window onto the political and cultural developments of China in the twentieth century.

HIST 4350. World War II in the Pacific. Units: 3

Major themes surrounding World War II in the Pacific, its context and impact (1931-1945). Formerly known as HIST 435.

HIST 4400. History of Modern East Asia.**Units: 3**

Political, social, economic, and cultural developments in China, Japan, and Korea from 1900 through the present. Formerly known as HIST 440.

HIST 4410. Ancient Egyptian Hieroglyphs.**Units: 3**

Study of the Ancient Egyptian language, including grammar, the connection of language with society and culture, scribal practices, ancient education, bureaucratic accounting and communication, and integration with art. Students may repeat for credit as the stage of the language or the script of the language changes. Students may repeat the same stage of the language or script with permission from the professor or Egyptology Certificate coordinator. May be repeated three times for nine units.

HIST 4420. Archaic Greece. Units: 3

Explores developments within the Greek world from the Minoan era to the threshold of the Classical age (ca. 2000-480 BCE) with special focus on the 'Archaic Age' (700-480 BCE).

HIST 4440. Roman Republic. Units: 3

A survey of Roman history during the Republican era, ca.753-44 BCE, from a variety of perspectives: political, social, diplomatic, economic, and intellectual.

HIST 4460. Age of Augustus. Units: 3

Examination of the Rome of Octavian (63 BCE-14 CE), later Augustus, including its literature, art, society, and religion.

HIST 4470. Impact of Warfare in Antiquity.**Units: 3**

Survey of military history from Bronze Age Greece (ca. 1200 BCE) through fall of Roman Empire in the West (CE 476) focusing on six interconnected themes: tactical and technological developments in warfare; military strategy and interstate diplomacy; the reciprocal effects of war and political systems; the social and economic bases of military activity; conversely, the impact of warfare on society, particularly its role in the economy and its effect upon the lives of both participants and non-combatants; finally, the ideological dimensions of war.

HIST 4480. Trade, Travel, and Migration in the Ancient Mediterranean World. Units: 3

Examines past and present through the study of ancient travel, trade, and migration in the Mediterranean (2000 BCE - 500 CE).

HIST 4490. Gender and Development in Africa. Units: 3

Using gender as a central category of analysis, the course interrogates underlying assumptions, theories, and empirical issues related to economic development and globalization on the continent from the nineteenth century to present day in Africa. Formerly known as HIST 449.

HIST 4510. The History of Health and Medicine in Africa. Units: 3

Health and disease in Africa from the pre-colonial period to present day, the connection between science, medicine, colonialism, the construction of difference, and responses to western bio-medicine. Formerly known as HIST 451.

HIST 4520. Ancient Egyptian History, Origins to c. 1700 B.C.E.. Units: 3

Studies the political, economic, and social past of ancient Egypt from the Predynastic Period through the end of the Middle Kingdom. Incorporates themes such as the origins of writing, state formation, pyramid building, bureaucratic shifts, civil war, and governmental collapse. Formerly HIST 452.

HIST 4530. Ancient Egyptian History, c. 1700 B.C.E. to 1000 B.C.E. Units: 3

Studies the political, economic, and social past of ancient Egypt during the Second Intermediate Period and the New Kingdom. Incorporates themes such as international war, empire, colonialism, Queenship, administration, religious heresy, international relations and war, foreigners in Egypt, civil war, tomb robbing, and governmental collapse. Formerly offered as HIST 453.

HIST 4540. Ancient Egypt, c. 1000 B.C.E. to 495 C.E.. Units: 3

Studies the political, economic, and social past of ancient Egypt from the Third Intermediate Period through the Roman Period. Incorporates changes in each due to foreign powers ruling including the Libyans, Nubians, Persians, Assyrians, Greeks, and Romans. Examines themes such as archaism, international relations, founding of Alexandria, multiculturalism, dual Egyptian and Greek governmental systems, and Cleopatra. Formerly HIST 454.

HIST 4550. Egyptian Mining Expeditions, Their Buildings, and Their Slaves. Units: 3

Quarter Prerequisite: ANTH 336 or HIST 336 or instructor consent
Uses anthropological and archaeological theory to study the archaeological, textual, and representational evidence for large-scale Ancient Egyptian mining expeditions. Looks at how they were organized and supplied and their connections with the Egyptian military. Studies how people lived in the desert, including slaves, laborers, and administrators. Incorporates unpublished archaeological data for students to analyze. Formerly known as ANTH/HIST 455. Offered as ANTH 4550 and HIST 4550, students may not receive credit for both.

HIST 4560. Mughal India and the Early Modern World. Units: 3

Studies Mughal India within the context of the early modern world, the history and historiography of establishment of the Mughal Empire in the Indian subcontinent and the rise of European trading companies in this region. Formerly HIST 456.

HIST 4570. Modern India at the Crossroads of Empire. Units: 3

Late colonial and early post-colonial periods of South Asian history; the climax of anti-colonial movements in South Asia, WWII as it developed in South and Southeast Asia, the partition of British India, the two Indo-Pakistan wars, and the 1971 Bangladesh War. Formerly HIST 457.

HIST 4650. Modern Central America. Units: 3

Survey of the political, economic, and social history of the five major Central American nations-Nicaragua, El Salvador, Guatemala, Honduras, and Costa Rica-from their independence in the early 19th century to the present. Formerly HIST 465.

HIST 4660. Foreign Relations of Latin America. Units: 3

Survey of the foreign relations of the nations of Latin America with special emphasis on U.S.-Latin American relations. Formerly HIST 466.

HIST 4670. Latin American History Through Film. Units: 3

Cultural, social, political and economic issues that have shaped Latin America through the study and analysis of feature films and associated readings. Formerly HIST 467.

HIST 4690. Colonial Latin America. Units: 3

Survey of Spanish colonial system beginning with discovery of America and continuing to the independence period. Formerly HIST 469.

HIST 4700. Modern Latin America. Units: 3

Survey of the development and interaction of modern Latin American institutions in the major nations of Central and South America. Formerly HIST 470.

HIST 4800. History of Christianity I. Units: 3

Historical development of early Christianity from its origins to the fall of Rome. Formerly known as HIST 480.

HIST 4810. History of Christianity II. Units: 3

Historical development of Christianity from the fall of Rome to the eve of the Protestant Reformation. Formerly known as HIST 481.

HIST 4850. Arab-Israeli Conflict. Units: 3

Survey of the history of the Arab-Israeli conflict, concentrating on the evolution of political Zionism and Palestinian nationalism, the Palestine Mandate, and the wars and peace negotiations between Israel and neighboring Arab nations, and between Israel and the Palestinians since 1948. Formerly HIST 485.

HIST 4870. Topics in Modern Middle Eastern History. Units: 3

Quarter Prerequisite: HIST 383 or consent of instructor

Examines the modern political, economic, and social history of either Iraq, Turkey, Egypt, Syria or Saudi Arabia. May be taken three times for nine units as the topic changes. Formerly HIST 487.

HIST 4950. Politics of Oil. Units: 3

Survey of the history of the petroleum industry and its impact on global politics and economics, with an emphasis on the Middle East and United States foreign policy. Formerly HIST 495.

HIST 5000. Tudor and Stuart England. Units: 3

Principal political, social, economic and religious developments of England from 1485 to 1688. Formerly known as HIST 500.

HIST 5010. Britain, 1688-1901. Units: 3

Principal political, social, economic and religious developments in Britain in the age of revolution and reform, from the Glorious Revolution to the death of Queen Victoria. Formerly known as HIST 501.

HIST 5030. Europe Since 1945. Units: 3

Europe since 1945, emphasizing the evolution of supranational political, economic, diplomatic, and military institutions in the Cold War and post-Cold War eras. Formerly known as HIST 503.

HIST 5250. Editing and Publishing in History. Units: 3

Editing and document layout for publishing in print and online. Focus on a wide array of historical and technical editing practices, particularly as applied to the publication of an academic journal of history. May be taken two times for six units. Graded credit/no credit. Instructor approval is required. Formerly known as HIST 525.

HIST 5350. Studies in European National History. Units: 3

Historical development of individual European nations (for example, Germany, France, Great Britain, Russia, Spain) in the modern period. May be repeated for credit as topics change. Formerly known as HIST 535.

HIST 5400. Constitutional History of the United States. Units: 3

Quarter Prerequisite: HIST 200 or HIST 201, or PSCI 410 or consent of instructor

American constitutional development from English and European origins to the present day. This course meets the state code requirement in U.S. history and U.S. Constitution. Formerly known as HIST 540.

HIST 5410. U.S. Citizenship and the Law. Units: 3

History of citizenship in the United States from colonial period to the present including global and comparative perspectives. Formerly HIST 541.

HIST 5470. African American Intellectual History. Units: 3

This class covers influential and foundational ideas, debates, and thinkers in African American history. In particular, students will trace the evolution of Liberal Integrationism and Black Nationalism as paradigmatic strategies for survival, activism, and liberation. Consent required: Instructor Permission Only.

HIST 5560. Foreign Relations of the United States. Units: 3

Survey of American foreign policy with special emphasis on Americas rise to world power in the 20th century. Formerly known as HIST 556.

HIST 5600. History of the American West. Units: 3

Explores national expansion, conflict and conquest, and development of the American West as a national, transnational, cultural, economic, environmental, and societal crossroads, region and landscape focusing on the 19th through the 21st centuries. Course includes a focus on diversity and inclusion, global perspectives, and sustainability. Formerly known as HIST 560.

HIST 5610. Gender, Sex, and Conquest in the American West. Units: 3

Examines the links between gender and sexuality to the ideologies of White Supremacy, Nationalism, Manifest Destiny, and Domesticity during the nineteenth and twentieth centuries. Emphasis on Chicanas/os, but course also covers Native Americans, African Americans, and Asian Americans in the U.S. West. Formerly known as HIST 561.

HIST 5620. Historical Mythmaking in the U.S. Borderlands and American West. Units: 3

Examination of myths and the rise of tourism in the U.S. Borderlands and American West in the nineteenth and twentieth centuries. Contrasted with lived experiences in these regions. This course will explore popular myths of the U.S. borderlands and American West in the nineteenth and early twentieth centuries. Students will investigate the influence of myths, legends, folklore, and stereotypes on shaping the popular history of these regions. Moreover, this course will examine the role of myths on encouraging migration and tourism to these areas. The course will examine frontier narratives, printed stories, songs, film, art, and other forms of popular media. It will compare these myths to the realities of life experienced by diverse groups living in the West and U.S. Borderlands regions.

HIST 5640. Chicana/Mexicana Feminisms. Units: 3

Surveys the development of Chicana and Mexican feminism of the nineteenth and twentieth centuries in both the U.S. and Mexico. Topics include resistance strategies in colonization, labor activism, the Mexican Revolution, the Chicano Movement, and contemporary Chicana/Mexicana transnational political activism. Formerly HIST 564.

HIST 5650. Immigration and Ethnic American History. Units: 3

Comparison of the major ethnic groups in American history, and processes of immigration, migration, and ethnic identity formation. Formerly HIST 565.

HIST 5680. History of the U.S. - Mexico Borderlands. Units: 3

Social, cultural economic, and political history of the U.S. - Mexico borderlands from the Spanish colonial period to the contemporary period. Topics include colonialism, nationalism, globalization and immigration, citizenship, gender, sexuality, and violence and how they shape Chicana/o identity in the region. Formerly known as HIST 568.

HIST 5700. Teaching History in the Field. Units: 3

A practicum where students learn high-impact teaching practices with the goal of preparing pre-credential students teachers to teach historical/social science content. Introduces methods and tools of historical analysis and explores the mechanics of teaching history and historical writing. This course provides students with invaluable opportunities to engage with the practices and pedagogy of teaching history. Students must meet competency requirements before they can sign up for the course (2.85 GPA as well as C or better in all required program courses). Students must get the consent of the department chair and must develop a semester-long plan for meetings and coursework. The course fulfills the final requirement for the CSET-waiver. Graded credit/no credit.

HIST 5750. Internship in History. Units: 3

Semester Prerequisite: Major in History and consent of the internship coordinator or department chair. Quarter Prerequisite: Major in History and consent of the internship coordinator or department chair. Supervised work and study in work situations involving historical skills. May be taken two times for six units. Graded credit/no credit. Formerly known as HIST 575.

HIST 5750E. Internship in Egyptology. Units: 3

Supervised work and study in work situations involving Egyptological skills. May be taken two times for six units. No more than six units of credit for internship courses may be applied toward degree requirements. Graded credit/no credit.

HIST 5840. Proseminar in History. Units: 3

Quarter Prerequisite: HIST 394 or consent of instructor. Historiographical seminar introducing advanced junior-level students to a specific topic or sub-field of history. Provides training and introduction to historical argumentation and criticism with an emphasis on secondary works and contrasting interpretations. Department consent required. Formerly HIST 494.

HIST 5850. Research Seminar in History. Units: 3

Semester Prerequisite: HIST 5840 or consent of instructor. Quarter Prerequisite: HIST 494 or consent of instructor. Senior-level seminar focused on the use of historical primary sources with the final goal of producing a substantial research paper. Involves seminar discussions and individual meetings with instructor. Formerly HIST 594.

HIST 5951. Independent Study. Unit: 1

Semester Prerequisite: A minimum overall grade point average of 3. Quarter Prerequisite: a minimum overall grade point average of 3. Special topics in historical research. Consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the semester in which the course is to be taken. (Formerly known as HIST 595B).

HIST 5953. Independent Study. Units: 3

Semester Prerequisite: A minimum overall grade point average of 3. Quarter Prerequisite: a minimum overall grade point average of 3. Special topics in historical research. Consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken. May be taken two times for six units. Formerly HIST 595D.

HIST 5953E. Independent Study in Egyptology. Units: 3

Special topics researching Ancient Egypt. Consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken. May be taken two times for six units. No more than six units of credit for independent study courses may be applied toward degree requirements. Formerly HIST 5954.

HIST 5970. Senior Honors Project. Units: 4

Semester Prerequisite: Overall undergraduate GPA of 3 or better. Average of at least 3.5 in history major, including courses for the major taken elsewhere. At least one half of the course work required in the major is completed at this university. Formal application for honors must be submitted and approved. Original research in an area of historical studies, culminating in a major research report receiving approval of the history faculty. Enrollment limited to students whose formal application for departmental honors is approved. Department consent required. Formerly known as HIST 597.

HIST 6000. Proseminar in History. Units: 2

Semester Prerequisite: Consent of instructor. Quarter Prerequisite: consent of instructor

Survey of the concepts and ideas that historians employ to study, describe and analyze globalization. Formerly known as HIST 600. Department consent required.

HIST 6001. Historical Thinking and Research. Units: 3

Introduction to a variety of important methodological approaches and theoretical debates about writing history that are influential across geographical contexts and temporal periods. Students will be challenged to think across fields, and think collectively and expansively about the study and praxis of history.

HIST 6002. Topics in Global/World History. Units: 3

An advanced examination of the field of world and global history based on the study of global problems, processes, and exchange.

HIST 6003. Topics in United States History. Units: 3

A survey of selected key themes, historiography, and methodological approaches in the study of United States history. May be taken two times for six units.

HIST 6004. The Historian's Craft. Units: 3

This graduate-level course will introduce History students to essential professional skills that will help them work in the field as historians in a number of different professions, from the archives, to the classroom, to the museum, to consultancies, and beyond. Through seminars, guest lectures, excursions, and practical activities that extend beyond the classroom, students will be involved in individual and team projects, community engagement, and professional development that will ensure their success in their graduate studies and beyond graduation. Consent required.

HIST 6005. Advanced Writing and Research in History Scholarship. Units: 3

This graduate-level course will guide students through the preliminary research and writing processes of their theses, projects, and portfolios. Through scaffolded research and writing assignments, students will work on historiographies, methodology sections, outlines, abstracts, formatting, citations, and more, and they will make section-by-section progress on their individual projects through group accountability projects and through individual consultations with faculty. This course is offered and recommended in the second-year (fall semester) of History MA students. Consent required.

HIST 6018. Advanced Early American Biography. Units: 3

Advanced studies in early American history through the medium of biography and related primary source documents.

HIST 6030. Seminar in Modern Military History. Units: 3

Analyses of selected military operations since World War II. May be taken two times for six units as topics change, with the consent of the student advisor. Formerly known as HIST 603.

HIST 6051. Advanced Study of the Evolution of American Democracy, 1783-1840. Units: 3

Advanced analysis of the development of American society, politics and economy during the Confederation, Federalist, Jeffersonian and Jacksonian eras.

HIST 6054. Advanced History of the Civil War and Reconstruction. Units: 3

Advanced study of background and causes of the Civil War and the problems of Reconstruction.

HIST 6160. Advanced Archival Practices. Units: 3

Advanced approach to archival methods, the accessioning, de-accessioning, cataloging, calendar composition, storage of objects and archival materials, loan procedures, policies and legal issues. Field trips and projects are required. Formerly HIST 616.

HIST 6180. Advanced Cultural Resource Management. Units: 3

Advanced analysis of the fields of Cultural Resource Management in Museum Studies, Anthropology and Public History. Formerly HIST 618.

HIST 6200. Advanced Studies Of The 20th Century World. Units: 3

Advanced study of the major events and significant individuals of the 20th century are explored and analyzed.

HIST 6230. Advanced Public History. Units: 3

Semester Prerequisite: HIST 3230, graduate student standing, or consent of instructor

Advanced study of public history. Projects and field trips are required. Department consent required. Formerly HIST 623 and HIST 624.

HIST 6260. Advanced History of Ancient and Early Imperial China. Units: 3

Advanced studies in the political, social, economic, and cultural developments of China from earliest times to the founding of the Sui Dynasty (589 C.E.).

HIST 6280. Advanced History of Medieval China. Units: 3

Advanced studies in the political, social, economic, and cultural developments in China from the founding of the Sui Dynasty (589 C.E.) through the fall of the Ming Dynasty (1644).

HIST 6290. Advanced History of Modern China I, 1644-1911. Units: 3

Advanced studies in the political, social, economic, and cultural developments in China in the Qing Dynasty (1644-1911).

HIST 6300. California Water History. Units: 3

History of the development of water policy in California from pre-colonization times to present. Formerly known as HIST 630.

HIST 6305. Advanced History of Modern Ireland. Units: 3

Advanced survey of Ireland from 1798 to the present, with specific focus on the political, social, and economic consequences or English colonialism and modern nation building.

HIST 6330. Advanced Modern Chinese History in Fiction and Film. Units: 3

Advanced studies of retrospective and contemporary film and fiction are used as a window onto the political and cultural developments of China in the twentieth century.

HIST 6350. Advanced History of World War II in the Pacific. Units: 3

Advanced studies in the major themes surrounding World War II in the Pacific, its context and impact (1931-1945).

HIST 6380. Advanced History of Modern China II, 1911- Present. Units: 3

Advanced studies in the political, social, economic, and cultural developments in China from the fall of the Qing Dynasty (1911) through the present.

HIST 6440. Advanced History of Modern East Asia. Units: 3

Advanced studies in the political, social, economic, and cultural developments in China, Japan, and Korea from 1900 through the present.

HIST 6450. Advanced U.S. Women's History, 1607-Present. Units: 3

Advanced examination of women's roles in American history from 1620 to the present. Special emphasis on the diversity of women's experiences and their struggles for social, economic, political and cultural equality from the colonial period through the present.

HIST 6460. Advanced Age of Augustus. Units: 3

Advanced examination of the Rome of Octavian (63 BCE to 14 CE), later Augustus, including its literature, art, society, and religion.

HIST 6465. Advanced History of Women in the Black Freedom Movement. Units: 3

Advanced studies in the roles of women in the struggle for social justice and black equality in America. Treats the historical background to the movement including the key women activists of the civil rights decade, 1954-1964.

HIST 6490. Advanced Gender and Development in Africa. Units: 3

Using gender as a central category of analysis, the course interrogates underlying assumptions, theories, and empirical issues related to economic development and globalization on the continent from the nineteenth century to present day in Africa.

HIST 6500. Advanced History of Southern Africa. Units: 3

Advanced studies of the history of the region of Southern Africa, including early African settlements, colonization, apartheid, independence and contemporary developments.

HIST 6510. Advanced History of Health and Medicine in Africa. Units: 3

Advanced studies in health and disease in Africa from the pre-colonial period to present day, the connection between science, medicine, colonialism, the construction of difference, and responses to western biomedicine.

HIST 6550. Advanced Egyptian Mining Expeditions, Their Buildings, and Their Slaves. Units: 3

Uses anthropological and archaeological theory to study the archaeological, textual, and representational evidence for large scale Ancient Egyptian mining expeditions. Looks at how they were organized and supplied and their connections with the Egyptian military. Studies how people lived in the desert, including slaves, laborers, and administrators. Incorporates unpublished archaeological data for students to analyze.

HIST 6620. Advanced LGBT History. Units: 3

Advanced social, cultural, and political history of LGBT communities in the U.S. from the nineteenth century to the present. Topics include pre-Stonewall communities, political mobilization, and the contemporary LGBT rights movement.

HIST 6660. Advanced Studies in Foreign Relations of Latin America. Units: 3

Advanced survey of the foreign relations of the nations of Latin America with special emphasis on U.S.-Latin American relations.

HIST 6690. Advanced Studies in Colonial Latin America. Units: 3

Advanced survey of Spanish colonial system beginning with discovery of America and continuing to the independence period.

HIST 6700. Advanced Studies in Modern Latin America. Units: 3

Advanced survey of the development and interaction of modern Latin American institutions in the major nations of Central and South America.

HIST 6750. Advanced Museum Management. Units: 3

Advanced theories and methods used in all aspects of contemporary museum management. Field trips are required. Formerly HIST 675.

HIST 6755. Advanced History Internship. Units: 3

Advanced supervised work and study in professional situations involving historical skills. May be taken 2 times for 6 units. Graded credit/no credit.

HIST 6760. Advanced Exhibit Design. Units: 3

Advanced examination of the theories and methods used in designing exhibits, focusing on interpretation and exhibit creation. Field trips and projects are required. Formerly HIST 676.

HIST 6780. Advanced Museum Curation. Units: 3

Advanced principles and practices relating to core curatorial functions, the relationship of curatorship to museum missions, ethical and other challenges facing museums, acquisition proposals and concepts and curatorial practices. Formerly HIST 678.

HIST 6790. Advanced History of Madness. Units: 3

Advanced studies of concepts of madness from an historical, global and comparative perspective from the eighteenth century to the present day, including the social construction of madness and views of mad people themselves.

HIST 6791. Advanced Studies in Disability History. Units: 3

An advanced study in key topics in disability history, both within the United States and globally. Topics include understanding the complex social, political, legal, and cultural history related to disability, including literary and cultural depictions of disability, activist voices from the community, political conversations on accessibility and accommodation and healthcare, and changing understandings of non-normative bodies, and more.

HIST 6850. Advanced Arab-Israeli Conflict. Units: 3

Advanced survey of the history of the Arab-Israeli conflict, concentrating on the evolution of political Zionism and Palestinian nationalism, the Palestine Mandate, and the wars and peace negotiations between Israel and neighboring Arab nations, and between Israel and the Palestinians since 1948.

HIST 6860. Advanced Modern Iran. Units: 3

Quarter Prerequisite: HIST 383 or consent of instructor

Advanced examination of the political, economic, and social history of Iran from the fall of the Safavid Empire in 1722 to the present, with emphasis on the Pahlavi era and the Islamic Revolution of 1979.

HIST 6900. Advanced Topics in History. Units: 3

In depth study of an advanced topic in history. May be repeated for credit as topics change. Formerly HIST 690.

HIST 6901. Advanced Topics in Egyptology. Units: 3

Advanced examination of topics of interest in Egyptology. May be repeated for credit as topics change.

HIST 6910. Advanced Chicana/o History. Units: 3

Advanced history of Mexican-Americans in the United States from the Colonial period to the present, with special emphasis on the Southwest.

HIST 6940. Graduate Portfolio. Units: 3

Quarter Prerequisite: advancement to candidacy and consent of program coordinator

Independent graduate capstone portfolio conducted under guidance of the major advisor and advisory committee culminating in a portfolio that includes major research papers and comprehensive examinations.

HIST 6950. Advanced Politics of Oil. Units: 3

Advanced survey of the history of the petroleum industry and its impact on global politics and economics, with an emphasis on the Middle East and United States foreign policy.

HIST 6951. Directed Graduate Studies. Unit: 1

Graduate-level independent study for students; to be conducted under direct supervision of a faculty member from the student's committee and with approval of the appropriate graduate coordinator. May be taken six times for six units.

HIST 6953. Directed Graduate Studies. Units: 3

Graduate-level independent study for students; to be conducted under direct supervision of a faculty member from the student's committee and with approval of the appropriate graduate coordinator. May be taken two times for six units.

HIST 6953E. Directed Graduate Studies in Egyptology. Units: 3

Graduate-level independent study for students interested in Ancient Egypt; to be conducted under direct supervision of a faculty member from the student's committee and with approval of the appropriate graduate coordinator. Course can be repeated for credit with approval. May be taken two times for six units. No more than six units of credit for directed graduate studies courses may be applied toward degree requirements. Formerly HIST 6954.

HIST 6955A. Community-Based Project. Unit: 1

Advanced project with community-based groups or agencies such as historical, cultural, governmental, and/or educational institutions. No more than three units of credit for community-based project courses may be applied toward degree requirements. May be taken three times for three units. Graded credit/no credit.

HIST 6955C. Community-Based Project. Units: 3

Semester Prerequisite: A project proposal must be approved by the department in advance of enrollment. Quarter Prerequisite: a project proposal must be approved by the department in advance of enrollment. Advanced project with community-based groups or agencies such as historical, cultural, governmental, and/or educational institutions. May be taken two times for six units. No more than six units of credit for community-based project courses may be applied toward degree requirements. Graded credit/no credit. Formerly HIST 6955B.

HIST 6955E. Advanced Community-Based Project in Egyptology. Units: 3

Advanced project with community-based groups or agencies such as historical, cultural, governmental, and/or educational institutions related to the student of Ancient Egypt. May be taken two times for six units. No more than six units of credit for community-based project courses may be applied toward degree requirements. Graded credit/no credit. Formerly HIST 6956.

HIST 6960. Graduate Project. Units: 3

Independent graduate project conducted under guidance of the major advisor and advisory committee culminating in a written project.

HIST 6970. Thesis. Units: 3

Independent graduate research conducted under the guidance of the major advisor, with assistance from the other members of the student's committee, and resulting in a thesis which must be successfully defended.

HIST 6990. Continuous Enrollment for Graduate Candidacy Standing. Units: 0

Quarter Prerequisite: Advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Thesis, or Project, or Portfolio in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

HIST 6991. Continuous Enrollment for Graduate Candidacy Standing. Unit: 1

Quarter Prerequisite: Advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Thesis, or Project, or Portfolio in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

HIST 6992. Continuous Enrollment for Graduate Candidacy Standing. Units: 2

Quarter Prerequisite: Advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Thesis, or Project, or Portfolio in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

HIST 6993. Continuous Enrollment for Graduate Candidacy Standing. Units: 3

Quarter Prerequisite: Advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Thesis, or Project, or Portfolio in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

HIST 6994. Continuous Enrollment for Graduate Candidacy Standing. Units: 4

Quarter Prerequisite: Advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Thesis, or Project, or Portfolio in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

HIST 6995. Continuous Enrollment for Graduate Candidacy Standing. Units: 5

Quarter Prerequisite: Advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Thesis, or Project, or Portfolio in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

HIST 6996. Continuous Enrollment for Graduate Candidacy Standing. Units: 6

Quarter Prerequisite: Advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Thesis, or Project, or Portfolio in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

Honors (HON)

Courses

HON 1000. Constructing Knowledge. Units: 3

An exploration of the ways in which knowledge is constructed and the active role individuals play in the creation of their own learning. Satisfies WI designation.

HON 1100. Writing Rhetorically. Units: 3

Concentrated composition course for first-year Honors students. Examines the ways written language functions in various contexts. Students will conduct research and draw upon critical readings of texts to develop their own arguments, as well as examine and use rhetorical strategies that respond to different situations. Satisfies GE A2/1A.

HON 1200. Thinking Critically. Units: 3

Analysis of various kinds of reasoning employed in everyday life and in more specialized contexts, to develop each student's skill in understanding and using carefully constructed arguments. Illustrations will include materials drawn from contemporary issues. Satisfies GE A3/1B, WI designation.

HON 1300. Communicating Orally. Units: 3

Quarter Prerequisite: acceptance into the Honors Program
Introduction to effective speech communication with emphasis on thinking about the decisions that are made to construct informative and persuasive presentations that are rhetorically and visually engaging. Satisfies GE A1/1C.

HON 3100. Natural Sciences and the Humanities. Units: 3

An examination of the means by which the approaches to constructing knowledge in Natural Sciences and the Humanities can be utilized together to address big questions. Team-taught with course materials and readings drawn from relevant disciplines. Co-requisite with HON 3150. With HON 3150, Satisfies GE C4/UD-3, G, WI designations.

HON 3150. Natural Sciences and the Humanities Praxis. Units: 3

Semester Prerequisite: Acceptance into the University Honors Program
Semester Corequisite: HON 3100

An examination of the means by which the approaches to constructing knowledge in Natural Sciences and the Humanities can be utilized together to address big questions. Team-taught with course materials and readings drawn from relevant disciplines. Satisfies GE B5/UD 5.

HON 3200. Social Sciences and Natural Sciences Seminar. Units: 3

Semester Prerequisite: Acceptance into the University Honors Program
Semester Corequisite: HON 3250

An examination of the means by which the approaches to constructing knowledge in Natural Sciences and the Humanities can be utilized together to address big questions. Team-taught with course materials and readings drawn from relevant disciplines. Satisfies GE B5/UD-5, WI designation.

HON 3250. Social Sciences and Natural Sciences Praxis. Units: 3

A problem and/or project-based application of the approaches to constructing knowledge in Natural Sciences and the Humanities that brings them together to address big questions. Team taught with course materials and readings drawn from relevant disciplines. Satisfies GE D4/UD-4, DI, WI designations.

HON 3300. Social Science and the Humanities Seminar. Units: 3

Semester Prerequisite: Acceptance into the University Honors Program
Semester Corequisite: HON 3350

An examination of the means by which the approaches to constructing knowledge in Natural Sciences and the Humanities can be utilized together to address big questions. Team-taught with course materials and readings drawn from relevant disciplines. Satisfies GE C4/UD-3, G, WI designations.

HON 3350. Social Science and the Humanities Praxis. Units: 3

A problem and/or project-based application of the approaches to constructing knowledge in Natural Sciences and the Humanities that brings them together to address big questions. Team taught with course materials and readings drawn from relevant disciplines. Satisfies GE D4/UD-4.

HON 4100. Junior Research Exploration Workshop. Unit: 1

Semester Prerequisite: Membership in the University Honors Program.
Junior-level Standing

Workshop designed to engage students in exploration of research methods and topics across disciplines. Students will meet to discuss research strategies and will begin to formulate projects for their honors theses. Graded credit/no credit.

HON 4200. Collaborative Project Workshop. Unit: 1

Semester Prerequisite: 2 HON 3000-level classes. Quarter Prerequisite: HON 306

Workshop designed to advance progress on students' collaborative community projects. Students will work together to discuss project strategies and challenges and to review one another's work.

HON 4300. Junior Research Development Workshop. Unit: 1

Semester Prerequisite: HON 4100

Workshop designed to guide students in defining an honors thesis project, initiating research, and applying project management strategies to the development of a work plan. Students will also explore career pathways and graduate study in their fields of interest. Graded credit/no credit.

HON 4400. Senior Research Presentation Workshop. Unit: 1

Semester Prerequisite: HON 4300

Workshop designed to deepen students understanding of research processes in their chosen field by conducting research for their honors thesis projects and troubleshooting challenges. Students will also identify and begin applying for career opportunities and/or graduate programs. Graded CR/NC.

HON 4500. Senior Research Presentation Workshop. Unit: 1

Semester Prerequisite: HON 4400

Workshop designed to complete senior honors theses and to prepare students for presentation of work. Students will review one another's work, collaborate on the planning of the Spring Symposium, and workshop their presentations. Graded credit/no credit.

Hospitality Management (HOSM)

Courses

HOSM 1600. Restaurant Management. Units: 3

The principles of restaurant management and foodservice operations with particular attention to safety, sanitation, hygiene and cleanliness standards. Topics include menu planning, concept development, food production methods, procurement, budgeting and cost control analysis. This course will teach and assess the Food Protection Manager certification exam. Offered as HOSM 1600 and MKTG 1600, students may not receive credit for both.

HOSM 2500. Introduction to Hospitality and Tourism. Units: 3

This course includes the management of hotels, clubs, casinos, and resort properties in the areas of operations, customer service delivery, technology, property maintenance, and quality assurance. Front desk, rooms division, human resources, concierge, banquet, facilities, sales and marketing, and other departments will be reviewed. Tourism topics include destination marketing, itinerary planning, global travel, and intercultural communications that are the prerequisites for the annual study abroad to Italy during spring break. Offered as HOSM 2500 and MKTG 2500, students may not receive credit for both.

HOSM 3700. Customer Relationship Management. Units: 3

This course provides students with an in-depth understanding of customer relationship management, blending theoretical frameworks with practical strategies and ethical considerations. Students will explore essential aspects of managing customer interactions, preparing them to apply these insights to real-world scenarios. The course aims to equip students with the skills needed to enhance customer satisfaction, loyalty, and profitability in their future careers.

HOSM 3800. Global Issues in Hospitality Management. Units: 3

This course offers a deep dive into the global hospitality industry, emphasizing the complexities of managing operations across different cultures in the areas of human resources, guest expectations, service standards, and management practices. Topics include employee labor, marketing strategies, food and beverage management, and sustainable practices in hospitality and tourism. Case studies and real-world scenarios from various countries provide practical insights into adapting business strategies to diverse market conditions, focusing on developing cultural intelligence and effective communication skills essential for managing international teams and enhancing guest experiences. Students gain an immersive understanding of the global hospitality landscape through interactive lectures, industry guest speakers, and field trips in the host country.

HOSM 3900. Tourism and Sustainable Development. Units: 3

This course explores the intersection of tourism and sustainable development through the lens of the United Nations Sustainable Development Goals (SDGs) and related frameworks established by the World Tourism Organization (UNWTO). Students will gain a comprehensive understanding of how tourism can contribute to sustainable development while addressing climate change and environmental stewardship. The course integrates theoretical knowledge with practical applications to prepare students for hospitality management careers supported by a strong foundation in sustainability.

HOSM 4500. Hotel Operations Tactics and Strategies. Units: 3

Quarter Prerequisite: No prerequisites

Hotel Operations Tactics and Strategies (HOTS) is a business management simulation to operate a large hotel where students develop technical and decision-making skills to increase market share, maximize revenues and increase profitability. A hotel's financial results depend on its ability to construct, promote and deliver a competitive price/value proposition to the marketplace. Student teams compete in a virtual environment that leads to critical thinking outcomes in the areas of operations, communications, revenue management, strategic planning, teamwork and career readiness. Course offered as HOSM 4500 and MKTG 4500; credit may not be awarded for both.

HOSM 5100. Innovation in Hospitality. Units: 3

Concept creation and development of a restaurant, hotel, or tourism-related venue in the design of a business model that aligns with industry standards. The curriculum will explore the latest trends and innovations in business and industry through case studies and interactive seminars with owners and operators.

HOSM 5300. Meetings and Event Planning. Units: 3

The process of planning, developing, and coordinating a variety of meetings and events in hotels, clubs, convention centers, trade shows, and sports and entertainment venues. Topics include forecasting revenues, budget preparation, controlling expenses, contract negotiations, vendor selection, and supervising event personnel. Course offered as HOSM 5300 and MKTG 5300; credit may not be awarded for both.

HOSM 5400. The Art and Science of Wine.

Units: 3

Semester Prerequisite: Must be 21 years or older to take the course and must have satisfied quantitative reasoning lower division GE requirements

Viticulture (grape growing), viniculture (preparation of grapevine for winemaking), and enology (winemaking) are discussed in terms of climate, temperature, soil, grape structure, and fermentation byproducts. Specific wine formulae for each step in the process will be explored. Tastes, aromas, and appearance of wine due to external factors will be assessed through the WSET Level 2 Systematic Approach to Tasting, and the Level 2 exam will be given (a globally recognized wine certification). Growing and winemaking processes and technological use in California will be compared with global methods. Satisfies GE B5/UD-5, G designation. Materials fee required. Department consent required.

HOSM 6200. Hospitality Services Management. Units: 3

Human resource management and organizational behavior in systems and quality assurance for coordinating the management of services. Service management and guest service theories and best practice strategies will be reviewed as well as leadership and motivational theories towards efficiency and optimization in the service delivery process.

HOSM 6300. Contemporary issues in Hospitality and Tourism. Units: 3

Contemporary local and global issues and advanced topics in hospitality and tourism will be explored in areas such as technology, sustainability, sustainable tourism development, wellness, and social business. Learning to work in teams on problem-based, consultancy projects is a valued real-world skill in the labor-intensive hospitality industry. The required project in this course will be evaluated by business owners and/or operators related to the project topic.

Human Resource Management (HRM)

Courses

HRM 4550. Human Resources Management. Units: 3

Quarter Prerequisite: MGMT 302 or PSYC 302, and the upper-division writing requirement

Policies related to human resources management, including job design; equal employment opportunity and employee rights; recruiting, selecting, training, and managing employees; and compensation. Course equivalent to PSYC 3355; credit may not be awarded for both. Formerly offered as HRM 455.

HRM 4560. Staffing. Units: 3

Theory and practice of employee selection, training, and performance appraisal. Formerly offered as HRM 456.

HRM 4570. Industrial and Labor Relations. Units: 3

Quarter Prerequisite: HRM 455 or PSYC 355

Analysis of historical, political, legal, economic and managerial forces which lead to the development of labor unions and collective bargaining. Focus on legal rights of employees and managerial rights of employer. Involves case law and bargaining simulation. Formerly offered as HRM 457.

HRM 4580. Employment Law. Units: 3

Semester Prerequisite: HRM 4550 or PSYC 3355. Quarter Prerequisite: HRM 455 or PSYC 355

An evaluation of fair employment practices in employment. Course emphasizes anti-discriminatory legislation and its application to employer-employee relationships. Formerly offered as HRM 458.

HRM 4590. Human Resources Development. Units: 3

Semester Prerequisite: HRM 4550 or PSYC 3355. Quarter Prerequisite: HRM 455 or PSYC 355

Human resources development cover topics from learning and motivation theory, training needs assessment, employee orientation, and skills training to performance management and coaching. It will allow students to have a clear understanding of talent development concepts, processes, and practices. It also teaches students how to put these concepts into practice in a variety of organizations.

HRM 4600. Compensation and Performance. Units: 3

Semester Prerequisite: HRM 4550 or PSYC 3355. Quarter Prerequisite: HRM 455 or PSYC 355

An examination of reward systems, both financial and non-financial, in the business enterprise. Financial rewards include the process of job analysis, job evaluation, and the market surveys with an emphasis on the firm's competitive strategy. Benefit administration and compensation systems for special groups are also presented. Various systems of performance management are studied, including individual employee performance appraisals. Formerly offered as HRM 460.

HRM 5570. Strategic Human Resource Management. Units: 3

Semester Prerequisite: HRM 4550, PSYC 3355, HRM 6410 or equivalent course; or instructor permission

Capstone course integrating human resource management materials acquired through the required concentration courses and addressing the strategic role of HR professionals in organizations. Formerly offered as HRM 470, HRM 4700.

HRM 5580. California Human Resources. Units: 3

Semester Prerequisite: HRM 4550, or HRM 6410, or permission of instructor

Current laws, legal rulings, and regulations with a California specific emphasis.

HRM 5590. International Human Resources. Units: 3

Semester Prerequisite: HRM 4550, HRM 6410, or permission of instructor

Discuss global business, international staffing assignments, and leaders for global organizations.

HRM 5755. Internship. Unit: 1

Semester Prerequisite: Consent of college internship coordinator. Quarter Prerequisite: senior standing preferred; consent of instructor and the departments internship coordinator

Supervised work and study in private or public organizations. May be repeated for credit. A total of six units of Jack H. Brown College of Business and Public Administration 5753 or 5755 courses may be applied toward graduation. Graded credit/no credit.

HRM 5915. Contemporary Topics in Human Resources Management. Unit: 1

Analysis and discussion of selected topics relevant to managing human resources effectively in the contemporary and dynamic business world. May be repeated for credit as topics change.

HRM 5930. Contemporary Topics in Human Resources Management. Units: 3

Analysis and discussion of selected topics relevant to managing human resources effectively in the contemporary and dynamic business world. May be repeated for credit as topics change.

HRM 5951. Independent Study. Unit: 1

Semester Prerequisite: Junior status, or graduate status
Special topics involving library and/or field research. A total of 8 units in any Jack H. Brown College of Business and Public Administration 5951, 5952, 5953, 5955 may be applied toward graduation. Consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the Jack H. Brown College of Business and Public Administration on a standard application filed in advance of the semester in which the course is to be taken. Course is cross-listed across different departments within the college.

HRM 5952. Independent Study. Units: 2

Semester Prerequisite: Junior status, or graduate status
Special topics involving library and/or field research. A total of 8 units in any Jack H. Brown College of Business and Public Administration 5951, 5952, 5953, 5955 may be applied toward graduation. Consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the Jack H. Brown College of Business and Public Administration on a standard application filed in advance of the semester in which the course is to be taken. Formerly offered as 595B. Course is cross-listed across different departments within the college.

HRM 5953. Independent Study. Units: 3

Semester Prerequisite: Junior status, or graduate status
Special topics involving library and/or field research. A total of 8 units in any Jack H. Brown College of Business and Public Administration 5951, 5952, 5953, 5955 may be applied toward graduation. Consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the Jack H. Brown College of Business and Public Administration on a standard application filed in advance of the semester in which the course is to be taken. Formerly offered as 595D. Course is cross-listed across different departments within the college.

HRM 5955. Independent Study. Unit: 1

Semester Prerequisite: Junior status, or graduate status
Special topics involving library and/or field research. A total of 8 units in any Jack H. Brown College of Business and Public Administration 5951, 5952, 5953, 5955 may be applied toward graduation. Consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the Jack H. Brown College of Business and Public Administration on a standard application filed in advance of the semester in which the course is to be taken. Course is cross-listed across different departments within the college.

HRM 6410. Human Resource Management. Units: 3

Analysis of specific areas of human resource management. Topics include strategic human resource management, staffing, performance management, compensation, labor relations and human resource development. Formerly offered as MGMT 641, MGMT 6410.

HRM 6983. Culminating HR Experience. Units: 3

Semester Prerequisite: ADMN 6020, MGMT 6010, and HRM 6410 and advancement to candidacy

This capstone course integrates the Core and Foundation Courses, with an emphasis on the Society for Human Resource Management (SHRM) Body of Applied Knowledge and Skills (BASK) to prepare students for SHRM Certification. After an integrative and comprehensive review, students will successfully complete a comprehensive exam. Note: HRM 6983 should be taken in the final term of the program. Materials fee required.

Health Science (HSCI)**Courses****HSCI 1000. Concepts in Health. Unit: 1**

Standards and guidelines for coordinated school health programs and comprehensive health education, prevention, and wellness. The following health topics will be included: nutrition, physiological and sociological effects of alcohol, narcotics, drug abuse, and tobacco. Course content is formulated for those planning a career in K-8 education. Does not qualify as a Health Science elective, nor as a clear credential course for post-baccalaureate credential candidates. Formerly HSCI 100; students may not earn credit for both courses.

HSCI 1100. Problem Solving Skills for Health Science. Unit: 1

Course covers the problem solving and critical thinking skills necessary for all higher-level Health Science courses. Students will work through problems and case studies in epidemiology, statistics, nutrient and food composition, recipe conversion, body mass index, energy intake and expenditure, and others.

HSCI 1200. Health and Society: An Ecological and Societal Approach. Units: 3

Study of the fundamental concepts of living systems and their implications in the processes of health and illness in the human organism. Major health problems are analyzed in relationship to nature and the function of health in personal, environmental, and societal aspects. Students will incorporate individual, interpersonal, and broader social factors that affect our health from an inclusive and socially responsible perspective. Satisfies GE B2/5B.

HSCI 1200L. Health and Society: An Ecological and Societal Approach Lab. Unit: 1

Semester Prerequisite: HSCI 1200 or instructor consent
Laboratory component for HSCI 1200. Reinforces health topics covered in lecture and adds significant understanding to health concepts by having students perform personal health analyses, complete surveys, assess the environment using equipment for sound level, water quality, temperature and humidity, analyze epidemiological data, perform experiments to assess sexual and reproductive health, perform diet analysis of food consumed, analyze food labels and food for composition, assess stress level and its management, assess the impact of tobacco, drug, and alcohol on the body, and apply other lecture topics using case studies, scenarios, and health data. Students attain scientific knowledge working individually, in small groups and the entire laboratory class by explaining, analyzing, and interpreting health data and by class discussions. Satisfies GE B3/5C. Materials fee required.

HSCI 2018. Stress Management for Health. Unit: 1

Examines the history of stress-related research, sources of stress in modern society, the body's response to stress, recent advances in psychoneuroimmunology and nutrition therapies such as adaptogenic herbs. Also included is the exploration of a variety of stress control techniques applicable to both personal and professional settings. Formerly HSCI 218 and students may not earn credit for both.

HSCI 2200. Introduction to Public Health. Units: 3

The course provides an interdisciplinary overview of the Public Health field infrastructure and unique features and responsibilities of Public Health, the history and accomplishments of Public Health officials and agencies, various Public Health institutions, and an in-depth examination of the core Public Health disciplines. These include epidemiology of infectious and chronic diseases, environmental health, health promotion, global health (including health disparities), health policy, and health services management. Formerly HSCI 271; students may not earn credit for both courses.

HSCI 2202. Software Applications in the Health Sciences. Units: 3

The course offers an overview and application of a variety of software applications currently utilized in health science-related programs, including but not limited to assessment, planning, program implementation and management software; statistical packages; regional and national databases; and integrated applications. Materials fee required. Formerly HSCI 273; students may not earn credit for both courses.

HSCI 2203. Introduction to Statistics in Health Sciences. Units: 3

The course provides an overview of concepts and application of introductory statistics, including descriptive and inferential relevant to health sciences.

HSCI 2625. Nutrition and Dietetic Professional Career Pathways. Unit: 1

Overview of the dietetic profession and careers in nutrition and dietetics. Topics include professional history, ethics, organizations, scope of practice, interprofessional education, and exposure to career options for registered dietitians/nutritionists (RDN) and other nutrition and dietetic-related jobs. Formerly HSCI 225; students may not earn credit for both courses.

HSCI 2645. Cooking for Fun and Health. Units: 2

This 4-hour class session will provide a fun, hands-on experience to improve your knife skills, learn cooking techniques, explore equipment for home kitchen, and explore new flavors while making healthy, affordable meals and snacks (1 hour lecture and 3 hours lab). Materials fee required.

HSCI 3010. Health and Human Sexuality. Units: 3

Relationship between health and human sexuality, emphasizing education as a means of preventing diseases, disorders, and dysfunction. Formerly HSCI 310; students may not earn credit for both courses.

HSCI 3040. Introduction to Health Services Administration. Units: 3

Semester Prerequisite: HSCI 1200, HSCI 1200L, ECON 2201, ACCT 2110, HSCI 2203. Prerequisite: HSCI 120, Econ 220, ACCT 211, HSCI 273

Fundamentals of health services administration with an exploration of the roles and functions in the delivery of health services. Topics may include staff scheduling, compliance, risk assessment, and various aspects of workflow processes that may influence health care practices.

HSCI 3051. Health and Human Ecology. Units: 3

Semester Prerequisite: Junior or senior standing
A survey of the impact of physical, social and biological environments on health-related issues such as poor housing, drug abuse, juvenile delinquency, radiation and pesticide exposure, food quality, noise, air and water resources and their relation to human settlements. Satisfies GE B5/UD-5, G designation. Students may not take both courses for credit.

HSCI 3052. Principles of Environmental Health. Units: 3

Quarter Prerequisite: College-level course in Biology
Introduction to the effects of the physical, chemical, and biological environments and their impacts on human health and well-being. Emphasis is placed on the principles of assessment, evaluation, and control of environmental risks related to public health. Formerly HSCI 352; students may not earn credit for both courses. Graded ABC/No Credit.

HSCI 3060. Medical Care Organizations. Units: 3

Semester Prerequisite: HSCI 1200, HSCI 1200L, ECON 2201, ACCT 2110, HSCI 2203. Quarter Prerequisite: HSCI 271 or consent of instructor
Overview of healthcare systems such as health and medical care services, resources, facilities, interest groups, financial structures. Evaluation of how these systems and their interactions facilitate or raise barriers to health care access. Entitlements, including federal and state health insurance programs such as Medicare, Medicaid, and Med-Cal, are presented along with their organization, management, evaluation, quality, and historical evolution. Formerly HSCI 360; students may not earn credit for both courses.

HSCI 3067. Human Diseases and Disorders. Units: 3

Overview of the structure and function of body systems along with prevention, management of risk factors, early detection, and treatment of representative diseases and disorders. Topics include healthy systems, development and progression of disease processes, diagnosis, and relevance to health professionals as well as individuals and families. Formerly HSCI 367; students may not earn credit for both courses.

HSCI 3080. Operations Management. Units: 3

Semester Prerequisite: HSCI 3040, HSCI 3060. Prerequisite: HSCI 360
Introduction to the concepts, principles, and practices of operations management within health care organizational settings. Topics may include the role of management in improving healthcare quality and outcomes, including clinical and organizational improvement, technology assessment, and quality improvement practices.

HSCI 3200. Foundations of Public Health Education. Units: 3

Semester Prerequisite: HSCI 2200. Quarter Prerequisite: HSCI 271
The course examines the profession of public health education in various settings and selected historical, cultural, philosophical, professional, and ethical issues in the practice of health education. Emphasis is placed on leadership, professionalism, career development, professional organizations, and interrelationships among physical, social, and cultural forces in the practice of health promotion and education. Formerly HSCI 301; students may not earn credit for both courses.

HSCI 3201. Health Behavior. Units: 3

Quarter Prerequisite: HSCI 301
The course covers the theoretical foundation for the development, analysis, and interpretation of individual and community influences on decisions that impact health status. Emphasis is placed on strategies for health behavior modification. Formerly HSCI 370; students may not earn credit for both courses.

HSCI 3202. Topics in Environmental and Occupational Health. Units: 3

This course emphasizes the applied content of public health aspects of environmental and occupational health. Sources, routes, media, and health outcomes associated with chemical, physical, and biological agents in the environment; effects on water quality, air quality, food safety, land resources, and disease in community and occupational settings. Includes methods to identify and evaluate hazard sources and framework used to effect hazard control. Public health issues, research designs, actors important to the development of monitoring programs, especially governmental regulatory bodies are discussed. Current federal legal framework, policies, and practices associated with environmental issues and intended to improve public health are primary focus of the course.

HSCI 3203. Global Health. Units: 3

The course explores the main principles of global health within the social, cultural, geographic, environmental, political, and economic contexts that determine population-level health and illness, including factors that account for variations in and patterns of health outcomes. Topics include health policies, programs, health systems, identifying and interpreting current data sources, diseases, and interventions. Formerly HSCI 359; students may not earn credit for both courses.

HSCI 3204. Public Health Nutrition. Units: 3

Quarter Prerequisite: HSCI 301

The course provides an overview of the role of policy, behavior, environment, and other societal factors that impact nutritional outcomes and by extension population health. Formerly HSCI 342; students may not earn credit for both courses.

HSCI 3205. Biostatistics for Health Science. Units: 3

Quarter Prerequisite: MATH 110

The course covers concepts and application of statistical methods related to public health and other health sciences. Focus is on applied biostatistics with emphasis on data collection, analysis, use, evidenced-based practice, and use of SPSS and other relevant software. Formerly HSCI 315; students may not earn credit for both courses.

HSCI 3206. Public Health Law and Ethics. Units: 3

The course examines the government's authority, at various jurisdictional levels, to improve the health of the general population within societal limits and norms. Discusses the ethical and legal implications of public health measures for preventive care.

HSCI 3207. Social Determinants of Health. Units: 3

The course examines the social environment and underlying disparities that lead to poor health outcomes across populations. The course will explore the various social determinants of health and the mechanisms through which they influence health disparities.

HSCI 3208. Introduction to Professional Development and Communication. Units: 3

The course offers practical experience in a variety of oral and written communication styles encountered by public health professionals, especially skills needed to communicate with lay audiences. The course also prepares students for their capstone experience. Satisfies WI designation.

HSCI 3291. Community Service Project. Unit: 1

Quarter Prerequisite: consent of department
Academically related tasks performed in community/government institutions. Completion of 45 hours for each unit earned. HSCI 3291 and 3292 may be repeated for a combined total of six units. May not be used as an upper division HSCI elective in the Nutrition Science and Dietetic Program. Requires a proposal to be submitted by the end of the preceding semester to a faculty advisor and Department consent required. Formerly HSCI 399A; students may earn credit for HSCI 399A, 399B, 3291, 3292 up to a total of 6 units. Graded credit/no credit.

HSCI 3292. Community Service Project. Units: 2

Academically related tasks performed in community/government institutions. Completion of 45 hours for each unit earned. Requires a proposal to be submitted by the end of the preceding semester to a faculty advisor. Department consent required. HSCI 3291 and HSCI 3292 may be repeated for a combined total of six units. May not be used as an upper division HSCI elective in the Nutritional Science and Dietetic Program. Graded credit/no credit. Formerly HSCI 399B; students may earn credit for HSCI 399A, 399B, 3291, 3292 up to a total of 6 units.

HSCI 3374. Basic Audiometry and Hearing Problems. Units: 3

Examination of the anatomy and physiology of the auditory mechanism. Nature of the acoustic stimulus, hearing disorders, problems of the hard of hearing, and pure-tone audiometry. Students earn a certificate of completion and are eligible to take the basic audiometry and hearing test granted by the California Department of Health Services upon successful completion. This course was formerly offered as HSCI 374; students may not earn credit for both.

HSCI 3522. Air Pollution and Radiological Health. Units: 3

Semester Prerequisite: College-level courses in biology, chemistry, and physics. Quarter Prerequisite: College-level courses in biology, chemistry, and physics

Principles of air quality management and effects of radiation on health. Topics include health implications of polluted air, applicable fundamentals of meteorology, air quality regulations, current concepts in air pollution control technology, and effects of radiation. Methods of identification, evaluation, and control of exposure to radiation and polluted air are emphasized. Formerly a combination of HSCI 322 and HSCI 324; students earning credit for HSCI 322 and 324 may not earn credit for HSCI 3522. Graded ABC/No Credit.

HSCI 3556. Housing, Institutions, and Land Use. Units: 3

Basic public health principles, regulations, and environmental quality considerations associated with residential and recreational housing, land use, and institutions such as health care, educational, and penal facilities. Relationship of housing quality to physical, socio-economic, and ethnic/cultural factors, and their influences on health. Understanding regulations of public and private housing land use such as measurement, zoning, subdivision mapping, coordinates, and development. Formerly HSCI 356; students may not earn credit for both.

HSCI 3558. Water Quality and Pollution Control. Units: 3

Semester Prerequisite: HSCI 3052 or consent of instructor. Quarter Prerequisite: HSCI 352 or consent of instructor
Topics include sources of water pollution, methods of control, water legislation, wastewater treatment, quality control criteria for safe drinking water, and impact of water quality on aquatic life, and public health. Formerly HSCI 358; students may not earn credit for both. Graded ABC/No Credit.

HSCI 3580. Principles of Toxicology. Units: 3

Semester Prerequisite: College-level biology and chemistry courses. Quarter Prerequisite: College-level biology and chemistry courses
Principles of chemical toxicity and relationship to public health, including intoxication, disease, dose-response measurement, mechanisms of action, and antidotal therapy. Discussion of various classes of chemical intoxicants and specific toxicological studies as related to various food, drug, consumer, industrial, and environmental problems. Formerly HSCI 380; students may not earn credit for both. Graded ABC/No Credit.

HSCI 3581. Occupational Safety. Units: 3

Principles of industrial safety, including general principles; accident control; industrial, mechanical, electrical, chemical, and flammability hazards; fire and explosion protection; accident investigation; industrial safety inspections; record keeping; safety training and emergency planning; and methods of industrial safety management as a unifying theme. Formerly HSCI 381; students may not earn credit for both. Graded ABC/no credit.

HSCI 3600. Nutrition for Health. Units: 3

The course will cover the science of human nutrition, functions of nutrients for healthy individuals, and application of nutrition concepts related to life stages needs from pregnancy to elderly with application to different cultural and environmental settings. The course is designed for Health Promotion and other allied health majors and may not be taken for credit by students in Nutritional Science and Dietetics (NSCD) majors.

HSCI 3601. Fundamentals of Human Nutrition. Units: 3

Semester Prerequisite: CHEM 2060 and CHEM 2060L, BIOL 2230 and 2240 or consent of instructor. Quarter Prerequisite: CHEM 207, or a one year GOB (General, Organic, Biochemistry) sequence, BIOL 223 and BIOL 224, or consent of instructor

Impact of chemical, physiological and metabolic processes of food and nutrients on health and disease prevention. Topics include the functions, regulations, and utilization of macronutrients, micronutrients, and water; energy balance; environment and sustainability; application of nutrition standards and recommendations on health and disease prevention using science and evidence-based principles. Formerly HSCI 350; students may not earn credit for both courses.

HSCI 3602. Lifecycle Nutrition and Assessment. Units: 3

Semester Prerequisite: HSCI 3601 or consent of the instructor. Quarter Prerequisite: HSCI 350

Semester Corequisite: HSCI 3607 and HSCI 3607L
Understanding of nutritional needs and assessment methods through the life cycle. Topics include relationships among environment, culture, food, and nutrition in a healthy body through different stages of life, disease prevention, and consideration for individuals with special needs. Formerly HSCI 365; students may not earn credit for both courses.

HSCI 3605. Cultural Practices and Cuisines. Units: 3

Study of global culture and food patterns including ingredients and cooking techniques, meal patterns, food customs and practices, cooking and food preparation methods, family and social structures, traditions, health beliefs, communication styles, and effects of geographical, climate, religion, economics, and historical events on practices of people around the world. Emphasis on understanding the people, culture, customs, food choices, culinary techniques, and practices on nutrition and health. Survey of social, economical, religious, and aesthetic aspects of food, culture, and customs. Formerly HSCI 385; students may not earn credit for both courses.

HSCI 3605L. Cultural Practices and Cuisines Lab. Unit: 1

Semester Corequisite: HSCI 3605

Preparation and tasting of dishes using recipes and cooking methods representative of cultural, ethnic, and religious practices around the world. Introduces basic cooking techniques to the nutrition and dietetic majors as well as provides exposure to food ingredients and cooking methods used by people around the world. Laboratory is only required for the Nutritional Science and Dietetic majors. Formerly a part of HSCI 385, students may not earn credit for both courses. Materials fee required.

HSCI 3607. Nutrition Counseling, Assessment, and Research Applications. Units: 3

Quarter Prerequisite: HSCI 315, HSCI 350 and HSCI 365 or consent of instructor

Nutrition assessment and counseling techniques as components of the Nutrition Care Process. Topics include health behavior theories, Nutrition Focused Physical Examination and Assessment, anthropometric, biochemical, dietary, and clinical assessments and interpretation of findings related to health and disease, and effective counseling techniques including motivational interviewing. Nutrition research methods and applications including quality management and improvement of nutrition services. Formerly HSCI 384 with taken with 3607L; students may not earn credit for both courses.

HSCI 3607L. Nutrition Counseling, Assessment, and Research Applications Lab. Unit: 1

Semester Prerequisite: HSCI 3601 or consent of instructor. Prerequisite: HSCI 350

Semester Corequisite: HSCI 3607 and 3602

Hands-on nutrition assessment and counseling techniques using Nutrition Care Process and science- and evidence-based methods. Practice nutrition counseling techniques, Nutrition Focused Physical Examination and Assessment, and equipment/tools used for assessment. Collection of data for a research project and preparation of manuscript for publication. Analysis and interpretation of data for quality management of nutrition service. Journal club presentation with critical evaluation of peer-reviewed articles. Formerly part of HSCI 384; students may not earn credit for both. Materials fee required.

HSCI 3615. Food Science and Production. Units: 3

Semester Prerequisite: CHEM 2050 and CHEM 2050L or consent of the instructor. Quarter Corequisite: 3615L. Quarter Prerequisite: CHEM 205 or equivalent

Understanding food production, processing, sustainability, scientific principles, and their applications in the use of food ingredients in developing food products, food preparation, and consumer acceptance. Formerly HSCI 245 and HSCI 345; students may not earn credit for both HSCI 3615 and HSCI 345.

HSCI 3615L. Food Science and Production Lab. Unit: 1

Semester Corequisite: HSCI 3615

The course covers experiments which apply food science principles in food preparation and product development for consumer acceptance. Includes a recipe modification project. Formerly part of HSCI 245 and HSCI 345; students may not earn credit for both HSCI 345 and HSCI 3615L. Materials fee required.

HSCI 3644. Global Nutrition. Units: 3

Presents major nutritional problems that influence the health, survival, and developmental capacity of populations in developing societies. Covers approaches implemented at the household, community, national, and international levels to improve nutritional status. Explores the degree to which malnutrition can be prevented or reduced prior to achieving full economic development through targeted public and private sector interventions that address the causes of malnutrition. Formerly HSCI 344; students may not earn credit for both courses.

HSCI 3671. Sustainable Food Systems. Units: 3

This course explores how our food systems, including production, transporting, processing, retailing, and consumption, can incorporate practices for sustainability that promotes human and planetary health. Topics include the environmental impacts across the food supply chain, agriculture, environmental and food policy, and the intersection of human health and nutrition with planetary health.

HSCI 3679. Experiential Learning in Food Systems. Units: 3

Experiential Learning in Food Systems I is an immersive and hands-on undergraduate course that offers students a unique opportunity to engage with food systems at the intersection of theory and practice. Through a combination of fieldwork, hands-on projects, and reflective learning, students will gain a deep understanding of the various components of food systems, from production to consumption, while actively participating in sustainable food initiatives. May be taken two time for six units. Graded CR/NC.

HSCI 3810. Sport and Exercise Nutrition. Units: 3

Discusses nutritional requirements for active people and athletes. Topics include nutritional requirements for exercise, nutrient timing, macronutrients, micronutrients, and popular sports nutrition supplements. Formerly offered as KINE 382 and HSCI 382; students may not earn credit for both courses. It is recommended to take BIOL 2240 prior to this course.

HSCI 4023. Health and Wellness of Older Adults. Units: 3

This course takes an ecologic approach to the health, wellness, and changing needs of older adults, addressing intersections of the physical (age-related physiological changes, acute and chronic disease), mental (emotional, psychological), social, spiritual, sexual, intellectual, financial (managed care, case management, and funding sources for routine care as well as hospitalization, post-acute, and long-term care), and other dimensions. Lifespan and health care ethics, as well as end-of-life issues are also addressed. Formerly HSCI 423; students may not earn credit for both courses.

HSCI 4036. Human Resource Management in Health Care. Units: 3

Semester Prerequisite: HSCI 3040 and HSCI 3060. Quarter Prerequisite: HSCI 360

Principles of effective human resource management in health care settings. Topics include state and federal regulations for the workplace, recruitment, retention, training, compensation, and benefits. Formerly HSCI 436; students may not earn credit for both courses.

HSCI 4037. Information Systems & Financial Management in Health Care. Units: 3

Semester Prerequisite: HSCI 3040, HSCI 3060. Quarter Prerequisite: HSCI 360

This course addresses HIPAA-mandated and other considerations for hardware, software, information system, and financial management needs of various health care organizations. Topics include staffing, patient scheduling, electronic medical records, accounting and reimbursement processes, budgeting, and related aspects of information technology and security in an ever-changing environment. Formerly offered as HSCI 437; students may not earn credit for both courses.

HSCI 4050. Health Issues of Men. Units: 3

Exploration of men's health issues from an ecologic perspective, e.g., physical, mental, social, intellectual, financial, spiritual, sexual, and other related dimensions. Emphasis is on balance as well as intersections of biological sex, gender concerns, racial considerations, and other diverse factors; personal responsibility for maintaining and promoting health; self-care and access to appropriate healthcare. Formerly HSCI 405; students may not earn credit for both.

HSCI 4052. Special Topics in Health Services Administration. Units: 3

Quarter Prerequisite: consent of instructor

Examination of current topics in health services administration. May be repeated for a maximum of 6 units as topics change. Priority registration will be given to students in the Health Science and Human Ecology department. Formerly HSCI 452; students may not earn credit for both courses.

HSCI 4055. Health Policy, Law, and Ethics. Units: 3

Semester Prerequisite: HSCI 3040 and HSCI 3060. Quarter Prerequisite: HSCI 360

Provides a general overview of the law with specific emphasis on health care issues such as laws relating to employer-employee relations, patient treatment, and medical record. Examines the role of the legislature in the formulation of health care policy at the federal and state levels and how politics in healthcare influences policy formulation. Compares health care policy and policy formulation in the US to that of other countries. Explores the ethical considerations in health care business and clinical decision-making. Examines the principles of health care governance and associated functions such as accreditation and professional associations' oversight. Formerly HSCI 455. Students may not earn credit for both courses.

HSCI 4060. Strategic Planning and Marketing in the Health Care System. Units: 3

Semester Prerequisite: HSCI 3040 and 3060. Quarter Prerequisite: HSCI 360

This course includes the basic methodologies and approaches applied in strategic planning and healthcare marketing. It entails strategic management planning processes with regard to economic and political forces to shape the healthcare marketplace. This course analyzes basic principles of marketing to be applied in the healthcare field. These include consumer diversity, distinguishing between corporate and patient perspectives, and changing the healthcare delivery model to suit the needs arising at a given time. This course also looks into effective tactics to be applied in a strategic formulation and implementation in the healthcare sector. Additionally, it explores the connection between strategic planning and mission statements together with their role in engaging all the stakeholders in the strategic planning process. Formerly HSCI 460; students may not earn credit for both courses.

HSCI 4068. Research Methodology in Health Science. Units: 3

Semester Prerequisite: HSCI 3040, HSCI 3060, HSCI 3205. Quarter Prerequisite: HSCI 315, Math 262 or Math 305, or consent of the instructor

Entry-level research methods that focus on the formulation of a research question, model, review of the literature, documentation of research results and the application of the research methods skills to contemporary health problems. Students will develop their skills in the use of appropriate analytical techniques such as descriptive statistics and inferential statistics in the assessment of population parameters and hypotheses testing. This course will also help students develop their skills in the use of computer-based statistical software packages and their application in health data analysis. Formerly HSCI 468; students may not earn credit for both courses. Satisfies WI designation.

HSCI 4080. Leadership in Health Services Administration. Units: 3

Semester Prerequisite: HSCI 3040 and HSCI 3060. Quarter Prerequisite: HSCI 360

Introduction to management theory and practice as they apply to the management of healthcare organizations. Emphasis is placed on the principal responsibilities of healthcare managers in relation to planning, analysis, organizing, staffing, directing, and evaluation functions. Strategy, structure, and budgetary functions are discussed as they relate to health service administration. Formerly offered as HSCI 480; students may not earn credit for both courses.

HSCI 4089. Field Experience Preparation. Unit: 1

Semester Prerequisite: All lower-division coursework and upper-division coursework for the major must be completed with a grade of C (2.0) or higher

Prepares students for a practical, professional-level field experience through class discussion and assignments, preparing a portfolio, satisfying requirements of the field placement, and completing necessary coursework to identify and establish a field experience project. This course requires consent of the student's faculty academic advisor. Formerly offered as HSCI 489 and 4093. Students may not earn credit for both courses.

HSCI 4095. Field Experience in Health Services Administration. Units: 3

Semester Prerequisite: HSCI 4089

Structured, practical, culminating field experience of a minimum of 120 hours, to be completed in one semester in an approved public health agency, community-based organization, tribal health site, or health care related setting. In addition to field hours, students will meet with the field supervisor as scheduled in syllabus and be required to submit a final report on their field work. Course should be taken during the final semester of the student's senior year; it must be preceded by HSCI 4089, Field Experience Preparation. Graded credit/no credit. Formerly HSCI 493 & 495; students may not earn credit for HSCI 493/495 and 4095.

HSCI 4200. Health Administration. Units: 3

The course addresses the fundamental characteristics and organizational structures of the U.S. health system as well as the differences in systems of other countries. The course also emphasizes the economic aspects of public health decision making.

HSCI 4202. Epidemiology. Units: 3

The course provides an introduction to methods and application of epidemiologic procedures to the understanding of the occurrence and control of diseases and other health problems. Emphasis is given to descriptive epidemiology, data interpretation, trend analyses, and introductory epidemiologic study design. Formerly HSCI 451; students may not earn credit for both courses.

HSCI 4203. Public Health Program Planning and Implementation. Units: 3

The course focuses on theoretical foundations and application of program planning and implementation, including logic model, PRECEED-PROCEED model, and other relevant practices in public health. Emphasis is placed on needs assessment, stakeholder evaluation, and budgeting. Formerly offered as HSCI 471; students may not earn credit for both courses.

HSCI 4204. Research Methods and Evaluation in Public Health. Units: 3

The course focuses on the critical understanding of both the theoretical and practical aspects of evaluation research relevant to public health. Emphasis is placed on key concepts and approaches to evaluation, including experimental studies, qualitative approaches, and cost-benefit analysis. The course also engages with the context of evaluation, including political influences, as well as ethical issues, practical issues, knowledge exchange and the dissemination of evaluation findings.

HSCI 4205. Advanced Professional Writing in Public Health. Units: 3

The course offers practical experience in a variety of writing styles encountered by public health professionals, especially grant writing. The focus is on communication with public health professionals and scientific writing. Semester Prerequisite: HSCI 3200, HSCI 3201, and HSCI 3208.

HSCI 4206. Infectious Disease Burden in U.S.. Units: 3

The course provides an in-depth analysis of the major and lesser-known causative agents of infectious disease, including hospital-acquired infections, emerging infectious diseases, and sexually transmitted infections. Emphasis is placed on current trends in the U.S. related to such infections. The primary focus of the course is on empirical evidence and implications for evidence-based practice.

HSCI 4207. Chronic Disease Burden in U.S.. Units: 3

The course provides an in depth analysis and prevention strategies of the major chronic diseases in the U.S. by prevalence and population including obesity, cardiovascular diseases, hypertension, diabetes, cancer. Evaluates experimental and analytical techniques commonly used in chronic disease prevention.

HSCI 4208. Drug and Alcohol Issues. Units: 3

The course will include the analysis of factors influencing human use or abuse of drugs, alcohol, and other substances; and their effects on the health and well being of the individual, family and society. Formerly offered as HSCI 364; students may not earn credit for both courses.

HSCI 4209. Complementary and Alternative Medicine. Units: 3

The course offers an introduction to complementary and alternative medicine (CAM) practices relevant to public health issues. Discussion of current public health policies and programs related to such practices and analyses of current evidence of efficacy of CAM.

HSCI 4210. Cultural Competency. Units: 3

The course explores the approaches to cultural competency in public health and their relationship to addressing health disparities. The course will highlight interventions and programs that work with various marginalized groups.

HSCI 4211. Mental Health Issues in Public Health. Units: 3

The course provides an introduction to mental and behavioral health issues in public health. Discussion of current public health policies and programs focused on prevention and treatment of mental health issues.

HSCI 4212. Topics about Special Populations. Units: 3

Examination of programs, policies, and services that affect the health of special populations across the lifespan. Emphasis on social, political, economic, environmental, personal, and behavioral factors associated with the health of special populations.

HSCI 4214. Latinx Health. Units: 3

Examination of programs, policies, and services that affect Latinx health across the lifespan. Emphasis on social, political, economic, environmental, personal, and behavioral factors associated with Latinx health. The goal of the course is to provide students with an understanding of the main public health issues impacting Latinx in the United States.

HSCI 4501. Advanced Environmental Health. Units: 4

Semester Prerequisite: HSCI 3052 or consent of instructor
An integrated view of the environmental factors that contribute to illness, injury, or death of individuals and populations. Lecture topics include epidemiology, demographics and statistics on health status, determinants of health and illness, behavioral aspects of health, and preventive care. Environmental health laws and regulations as well as compliance with current regulations are emphasized. The laboratory emphasizes methods of measuring and evaluating environmental health risks as well as field experience. Lab topics include: environments within buildings, food sanitation, water sanitation and control, solid and hazardous waste and control, air pollution and control, and community noise and control. Three hours lecture and three hours laboratory. Satisfies WI designation. Materials fee required. Graded ABC/no credit.

HSCI 4502. Principles of Occupational Health. Units: 4

Semester Prerequisite: HSCI 3052 and college-level coursework in chemistry or consent of instructor. Quarter Prerequisite: HSCI 352 and college-level coursework in biology and chemistry or consent of instructor
Principles of occupational health risks including anticipation, recognition, evaluation, and control. Influence of workplace risks on human health and their relationship to occupational medicine. Study of occupational health laws and regulations as well as methods of compliance with current regulations. Laboratory and field experience topics include: toxic and hazardous chemicals, airborne chemicals, materials of biological origin, noise, and electromagnetic radiation. Three hours lecture and three hours of laboratory. Formerly HSCI 402; students may not earn credit for both courses. Materials fee required. Graded ABC/no credit.

HSCI 4503. Vector-borne Disease Control. Units: 4

Semester Prerequisite: HSCI 3052 and college-level coursework in chemistry or consent of instructor. Quarter Prerequisite: HSCI 352 and college-level coursework in chemistry or consent of instructor
Identification and control of insect and other vectors of diseases. Discussion of major topics in vector ecology including natural and chemical control methods and their impacts on health and environmental quality. Three hours lecture and three hours laboratory. Formerly HSCI 403; student may not earn credit for both. Materials fee required. Graded ABC/no credit.

HSCI 4550. Health Aspects of Death and Dying. Units: 3

Semester Prerequisite: Completion of at least 60 units is required
Investigation into how the realities of death and loss influence the quality of a person's life and personal health status. The focus is on assisting students and professionals to develop the skills necessary to assist individuals deal with death, loss, grief, bereavement, and mourning in the healthiest ways possible. Formerly offered as HSCI 550; students may not earn credit for both courses.

HSCI 4552. Special Topics: International Perspectives on Stress Management. Units: 3

This course examines the history of stress-related research and applications through international perspectives. Topics include physical, psychological, emotional, and behavioral effects of stress; recent advances in psychoneuroimmunology; sources of stress across various cultures; and global approaches to stress management. This course requires participation in the study abroad program; in addition to online academic preparation, the course involves an experiential component achieved through international travel. Principles are incorporated into students' time abroad to design practical stress management programs.

HSCI 4577. Environmental Health Engineering. Units: 3

Semester Prerequisite: HSCI 3052 or consent of instructor. Quarter Prerequisite: HSCI 352

Methods used in designing systems which mitigate environmental contamination of air, soil, and water. Topics include stream re-aeration, kinetics of biological degradation, soil mechanics, adsorption and other principles related to environmental media protection and renovation. Formerly HSCI 477; students may not earn credit for both. Graded ABC/no credit.

HSCI 4578. Environmental Health Management. Units: 3

Semester Prerequisite: College-level coursework in biology and chemistry. Quarter Prerequisite: College-level coursework in biology and chemistry

Methods of management for promoting optimum environmental health, emphasizing land use planning, environmental impact reporting, facility planning, and risk assessment. Formerly HSCI 458. Students may not earn credit for both. Graded ABC/no credit.

HSCI 4621. Foodservice Principles and Practice. Units: 3

Semester Prerequisite: HSCI 3615, 3615L, and 3602 or consent of the instructor. Quarter Prerequisite: HSCI 345 and 350, or consent of instructor

Semester Corequisite: HSCI 4621L

Principles related to various types of quantity foodservice production systems. Production topics include sustainability, design layout and surfaces, equipment operation and maintenance, staffing needs, flow of production and efficiency, sanitation and safety, and recipe modification. Principles related to procurement include specifications for selection, purchasing, storage of quantity foods and equipment. Formerly HSCI 465; students may not earn credit for both courses.

HSCI 4621L. Foodservice Principles and Practice Lab. Unit: 1

Semester Corequisite: HSCI 4621

Rotations through different types of foodservice systems and observation/performance of foodservice production functions. Tasks may include receiving, storage, preparation, operation and maintenance of foodservice equipments, team efforts, HACCP and sanitation, scheduling, and overall operation of foodservice system. Formerly part of HSCI 465; students may not earn credit for both courses.

HSCI 4622. Foodservice Management. Units: 3

Semester Prerequisite: HSCI 4621 and 4621L. Quarter Prerequisite: HSCI 465

Management principles related to foodservice facilities and systems. Topics include budget and finances, human resources, equipment, menus, federal and state regulations and mandates, leadership and management skills, labor relations, marketing, satisfaction assessment and accountability. Formerly HSCI 467; students may not earn credit for both courses.

HSCI 4625. Dietetic Pathways and Processes. Unit: 1

Quarter Prerequisite: HSCI 225 and senior standing in the Nutrition and Food Science program

Explores different types of supervised-practice programs. Students review and start the online centralized dietetic application system (DICAS) process which includes updating resumes, writing a personal statement, and a mock interview. Understanding issues of professionalism, exploration of dietetic career pathways and volunteer opportunities to further enhance professional goals. Formerly HSCI 446; students may not earn credit for both courses.

HSCI 4661. Human Metabolism and Nutritional Biochemistry. Units: 3

Semester Prerequisite: HSCI 3602 and 3607. Quarter Prerequisite: HSCI 365 and 384

Integration and exploration of macro- and micro-nutrients in biochemical, physiological, and metabolic functions. Strong emphases on integration of metabolic and physiological effects on cellular to whole body functions and effects on the systems by different physiological states and disease processes. Formerly HSCI 441; students may not earn credit for both courses.

HSCI 4662. Advanced Nutrition and Topics. Units: 3

Semester Prerequisite: HSCI 4661

Integration of human metabolism with exploration of specific topics related to macro- and micro-nutrients and health and disease. Topics include nutrigenomics, effectiveness of alternative therapies and supplements, digestive health, and other relevant topics in nutrition and dietetics. Satisfies WI designation.

HSCI 4675. Sustainable Food Systems Seminar. Unit: 1

This course aims to enculturate students into a community of faculty and professionals with expertise in sustainable food systems. Journal club style format with skills-based discussions about reading, thinking, and communicating as a scientist, and presentations by faculty, community professionals, and students.

HSCI 4680. Public Health Nutrition in Dietetics. Units: 3

Semester Prerequisite: HSCI 3602, HSCI 3607, and HSCI 3607L. Quarter Prerequisite: HSCI 273, 442, and 443

Public Health Nutrition for dietitians and nutritionists working in communities. Topics include disease prevention, epidemiology, public policy and advocacy, screening and assessment, grant writing, health care delivery systems, nutrition education principles, health promotion, program planning and assessment, federal, state, and local nutrition programs, and other relevant information. Formerly HSCI 445; students may not earn credit for both courses.

HSCI 4681. Medical Nutrition Therapy I. Units: 3

Semester Prerequisite: HSCI 3602, 3607, and 3607L. Quarter Prerequisite: HSCI 441, HSCI 365, and HSCI 384

Semester Corequisite: HSCI 4661

Introduction to skills and knowledge necessary for nutrition and dietary interventions in disease states using the principles of medical nutrition therapy and the Nutrition Care Process. Includes pathophysiology of disease processes, nutrition assessment, diagnosis, intervention, monitoring, and evaluation to recover from disease conditions and/or to improve the quality of life. Introduction to coding and billing of nutrition and dietetics services to obtain reimbursement for services provided. Introduction to the Academy of Nutrition and Dietetics' Evidence Analysis Library. Formerly HSCI 443; students may not earn credit for both courses.

HSCI 4681L. Medical Nutrition Therapy I Lab. Unit: 1

Semester Prerequisite: HSCI 3602, 3607, and 3607L

Semester Corequisite: HSCI 4681

Hands on activities with students for exploration and discussion of clinical case studies and tools used to assess and to provide medical nutrition therapy to patients with different diseases and conditions. Includes nutrition assessment and counseling experience on or off campus.

HSCI 4682. Medical Nutrition Therapy II. Units: 3

Semester Prerequisite: HSCI 4681 and 4681L. Quarter Corequisite: HSCI 4682L. Quarter Prerequisite: HSCI 443

Continuation of HSCI 4681, Medical Nutrition Therapy I. Further development of skills and knowledge for nutrition and dietary interventions in different disease states and conditions not covered in the previous course. Includes pathophysiology of disease processes, nutrition assessment, diagnosis, intervention, monitoring, and evaluation to recover from disease conditions and/or to improve the quality of life. Formerly HSCI 444, students may not earn credit for both courses.

HSCI 4682L. Medical Nutrition Therapy II Lab. Unit: 1

Semester Corequisite: HSCI 4682

Hands on activity with students for exploration and discussion of case studies and tools used to assess patients in relation to different disease conditions. Includes nutrition assessment and counseling experience on and off campus. Formerly a part of HSCI 444; students may not earn credit for both courses.

HSCI 4690. Senior Capstone. Units: 2

Capstone course for senior nutrition students. The course will serve as a culminating experience/ practice for the registration exam to become a Registered Dietitian Nutritionist (RDN) and program assessment. Students will review course material from the last two years of the Didactic Program in Dietetic (DPD) courses, integrate knowledge and skills learned, take the practice exams, engage with case studies, and pass the summative assessment with a score of 80% or higher. Strategies for taking online exam will also be discussed. Students will be allowed to take the summative exam until they pass with 80%. Must be a graduating senior in the Nutritional Science and Dietetics major. Satisfies WI designation. One hour lecture and 3 hours lab. Department consent required.

HSCI 4999. Preparation for Public Health Capstone. Unit: 1

The course examines the profession of public health in various settings and career options in the field of public health. Emphasis is placed on leadership, professionalism, and capstone course preparation.

HSCI 5010. Hospital Administration. Units: 3

Semester Prerequisite: HSCI 3040 and HSCI 3060, or HSCI 2200 and MGMT 3020 or PSYC 3020. Quarter Prerequisite: HSCI 360, or HSCI 271 and MGMT/PSYC 302

Organization and administration of hospital facilities including planning and evaluation of services. Role of the hospital as part of the community. Formerly offered as HSCI 510; students may not earn credit for both courses.

HSCI 5013. Managed Care Systems. Units: 3

Semester Prerequisite: HSCI 3040 and 3060, or consent of the instructor. Quarter Prerequisite: HSCI 360

In this course, students gain advanced knowledge on healthcare reimbursement mechanisms. A key ingredient to this course is students' exposure to post-acute care, ethics in business and clinical decision-making and quality assessment for patient care improvement. In post-acute care, students learn about the examination of hospitalization from a service point of view. This is done by looking into the nursing facilities, nursing homes, inpatient rehabilitation facilities, and long term hospital care. In business and clinical decision-making, students understand the exploration and analysis of contemporary health care from an ethical perspective. In quality assessment for patient care improvement, students understand the various assessment tools and how to evaluate the accuracy and reliability of the assessment tools. Formerly offered as HSCI 513; students may not earn credit for both courses.

HSCI 5213. Community Service Project in Public Health. Units: 3

Semester Prerequisite: HSCI 3201, HSCI 3208 and HSCI 4999
Academically related tasks in such agencies as governmental, social service, and educational institutions. Instructor consent required. May be taken three times for six units. Students may earn up to a total of 6 units from HSCI 3291, 3292, and 5213. Formerly known as HSCI 4213.

HSCI 5240. School Health Programs and Practices. Units: 3

Advanced examination of the roles of K through 12 teachers within a coordinated school health program. Students will be able to understand and communicate principles of effective school health programs and policies that can promote student health and increase academic achievement. State and national guidelines for mandated school health education programs and required health education curriculum are reviewed and discussed. Formerly HSCI 540; students may not earn credit for both.

HSCI 5530. Food-Borne Illnesses and Their Prevention. Units: 3

Semester Prerequisite: HSCI 3052 or consent of instructor. Quarter Prerequisite: HSCI 352 or consent of instructor
Microbial, chemical, and other factors of food-borne illnesses, food poisoning, and their prevention. Discussion of food safety and proper environmental control measures for environmental health conditions involved in purchase, preparation, storage, transportation, and service of foods to minimize health dangers. Formerly HSCI 530; students may not earn credit for both. Graded ABC/no credit.

HSCI 5531. Bioterrorism and Emergency Response. Units: 3

A general overview of the history, identification, properties, and mode of transmission of agents of terrorist acts: agro-, bio-, chemical-, and nuclear terrorism with the main focus on bioterrorism, including its prevention, control, and counter measures. Discussion of emergency preparedness and response, including incident command and resource allocation in the event of incidence of bioterrorism. Graded ABC/No Credit. Formerly offered HSCI 531; students may not receive credit for both courses.

HSCI 5557. Solid and Hazardous Waste Management. Units: 3

Semester Prerequisite: BIOL 2010 or BIOL 2230, and CHEM 2100. Quarter Prerequisite: BIOL 200 or BIOL 223, and CHEM 215
Major methods for the control of solid and hazardous wastes from generation, transportation through disposal, including health impacts, environmental, and legal aspects of solid and hazardous wastes as well as discussion of various disposal techniques. Formerly a combination of HSCI 354 and HSCI 357; students earning credit for HSCI 354 and 357 may not earn credit for HSCI 5557. Graded ABC/No Credit.

HSCI 5558. Management of Water Quality. Units: 3

Semester Prerequisite: HSCI 3558 or consent of instructor. Quarter Prerequisite: HSCI 358 or consent of instructor
Survey of water quality parameters and pollution control techniques. Includes in-depth discussion of current topics in water legislation, water pollution and its impact on public health, flood impacts, water conservation options, and drought management. Formerly HSCI 558; students may not earn credit for both. Graded ABC/no credit.

HSCI 5661. Advance Topics in Sports Nutrition. Units: 3

Semester Prerequisite: HSCI 3601 and senior or a graduate student
This course covers advanced topics related to nutrition, metabolism, sports performance, and health. Nutrient needs, metabolic functions of nutrients, and food sources will be discussed as well as ergogenic aids and dietary supplements. The functions of nutrients and food and scientific literature as it relates to sports nutrition is emphasized. Departmental consent required.

HSCI 5753. Field Experience in Public Health. Units: 3

Semester Prerequisite: HSCI 3201, HSCI 3208 and HSCI 4999
A combined seminar and supervision course that includes a field experience and integrated professional support. Students will complete a minimum of 120 hours of structured, practical field experience under the direct supervision of a preceptor at an approved site. The experience may be completed in public health offices, community health centers, clinical sites, nonprofit health agencies, worksite health promotion programs, or health care organizations. In addition, class will meet for a total of 5 hours during the term to provide support for the field experience. Letter of approval signed by site preceptor and faculty advisor needs to be filed in with department office prior to beginning the field experience. Formerly known as HSCI 689D; students may only earn credit for HSCI 5753 or for HSCI 489, 493, and 495.

HSCI 5754. Internship in Environmental Health. Units: 4

Individual studies in environmental health under supervision of a preceptor at a rotation site. Students will be placed with public agencies to gain 180 hours of applied and/or research experience as an environmental health specialist. To be taken during the final semester of the program with consent of the instructor. Formerly HSCI 496; students may not earn credit for both. Graded credit/no credit.

HSCI 5951. Independent Study. Unit: 1

Semester Prerequisite: Completion of 90 units, a minimum overall grade point average of 3
Independent study under the supervision of a faculty member. The project must be related to a specific question relevant to the field of study. A final written report must be submitted and approved by the supervising faculty member. Formal presentation may be required. Formerly HSCI 595A. HSCI 5951-5953 may be repeated for a total of 6 units. Department consent required. Graded ABC/No Credit.

HSCI 5951PH. Independent Study for Public Health. Unit: 1

Independent study of classic and contemporary public health issues in a defined area combined with scheduled individual and small group conferences with supervising faculty member. Departmental consent required. HSCI 5951PH-5953PH may be repeated for a total of 6 units. Graded ABC/No Credit.

HSCI 5952. Independent Study. Units: 2

Semester Prerequisite: Completion of 90 units, a minimum overall grade point average of 3
Independent study under the supervision of a faculty member. The project must be related to a specific question relevant to the field of study. A final written report must be submitted and approved by the supervising faculty member. Formal presentation may be required. Formerly HSCI 595B. HSCI 5951-5953 may be repeated for a total of 6 units. Department consent required. Graded ABC/No Credit.

HSCI 5952PH. Independent Study for Public Health. Units: 2

Independent study of classic and contemporary public health issues in a defined area combined with scheduled individual and small group conferences with supervising faculty member. Departmental consent required. HSCI 5951PH-5953PH may be repeated for a total of 6 units. Graded ABC/No Credit.

HSCI 5953. Independent Study. Units: 3

Quarter Prerequisite: A minimum overall grade point average of "B"
Independent study under the supervision of a faculty member. The project must be related to a specific question relevant to the field of study. A final written report must be submitted and approved by the supervising faculty member. Formal presentation may be required. Formerly HSCI 595C. HSCI 5951-5953 may be repeated for a total of 6 units. Department consent required. Graded ABC/No Credit.

HSCI 5953PH. Independent Study for Public Health. Units: 3

Independent study of classic and contemporary public health issues in a defined area combined with scheduled individual and small group conferences with supervising faculty member. Departmental consent required. HSCI 5951PH-5953PH may be repeated for a total of 6 units. Graded ABC/No Credit.

HSCI 5970. Honors Thesis for Public Health. Units: 4

Semester Prerequisite: HSCI 3201, HSCI 3208 and HSCI 4999
Honors thesis conducted under the supervision of two public health faculty. The project must include independent research focused on a relevant public health research question. Students must have a major GPA of 3.5 and an overall GPA of 3.0. Formal presentation may be required. May be taken two times for eight units; total of 4 units may be applied to the upper division requirements for the BS in Public Health.

HSCI 6010. Administration of Health Care Programs. Units: 4

Economic forces which impact on health and health delivery systems and an assessment of the distribution of financial resources required to sustain these systems. Emphasis on trends in financing health care and the economic influence of reimbursement policies on financial decision-makers. Departmental consent required. Formerly offered as HSCI 601, students may not receive credit for both.

HSCI 6020. Management, Organization and Planning. Units: 4

Organizational, environmental, socio/political, and behavioral aspects of health and health delivery systems. Ecological perspectives related to management and planning of health programs, including strategies to facilitate communication, decision-making, and problem solving and planning and administrative approaches in developing, modifying and sustaining modern health systems. Departmental consent required. Formerly offered as HSCI 602, students may not receive credit for both.

HSCI 6030. Health Economics and Financial Systems. Units: 4

Micro- and macroeconomic aspects of health services, various payment approaches, third-party reimbursement systems, budgeting and financial analysis, decision-making and planning in health services and organizations. Department consent required. Formerly offered as HSCI 603, students may not receive credit for both.

HSCI 6100. Communication and Human Relations in Health Services. Units: 4

Techniques for effective written and oral communication at the interpersonal and organizational levels. Particular emphasis is placed upon enhancing human relations skills in health services settings. Department consent required. Formerly offered as HSCI 635, students may not receive credit for both.

HSCI 6140. Information and Technology Systems Management in Health Services. Units: 4

Quarter Prerequisite: consent of instructor
Information systems, networks, and computer software systems, used in health services setting. Formerly offered as HSCI 645, students may not receive credit for both.

HSCI 6150. Health Law and Medical Ethics. Units: 4

Legal and ethical issues and practices related to health care delivery and health services administration. Ethical administrative behavior, standard of care, tort law and professional liability, negligence and liability law, contracts, lawsuits and civil liability process, corporate law and liability, antitrust, case law and related health law issues are covered. Department consent required. Formerly offered as HSCI 653, students may not receive credit for both.

HSCI 6160. Strategic Planning and Evaluation. Units: 4

Community analysis including generating goals and objectives to implement effective community interventions. Logic models and program evaluation methodologies will be utilized to set parameters and to assure delivery of appropriate health services programs and outcomes. Organizational strategy evaluation, formulation, tactics, and development. Department consent required. Formerly offered as HSCI 665, students may not receive credit for both.

HSCI 6170. Health Services Administration Leadership, Team and Quality Development. Units: 4

Leadership skill development, including interface within public, private, and non-profit health organizations. Collaborative partnerships, issues of diversity in leadership, negotiation, conflict resolution, continuous quality improvement process and management, and attributes of leaders and leadership. Health administration team behaviors, actions, and approaches along with team development are analyzed. Department consent required. Formerly offered as HSCI 675, students may not receive credit for both.

HSCI 6180. Health Services Administration Capstone Seminar. Units: 4

Integration and application of leadership theory and administrative skills and approaches as applied to the organizational and team management process and management of health services organizations. Departmental consent required. Formerly offered as HSCI 685, students may not receive credit for both.

HSCI 6190. Graduate Research Methodology in Health Science. Units: 4

Quarter Prerequisite: HSCI 315 or consent of instructor
Graduate-level research methods and application to contemporary health problems in health services administration. Health data analysis and development of skills for determining appropriate analytical techniques and procedures. Departmental consent required. Formerly offered as HSCI 690, students may not receive credit for both.

HSCI 6200. Professional Development and Leadership in Public Health. Units: 4

The course introduces the promotion of professional development skills, leadership abilities and critical thinking skills that are needed for addressing complex public health issues. Emphasis is placed on philosophical foundations of health, historical and professional perspectives relevant to public health and the implementation of a professional portfolio. Students also conduct competency matching to program goals and accreditation standards. Departmental consent required.

HSCI 6210. Advanced Biostatistics for Public Health. Units: 4

Concepts and application of advanced statistical methods related to public health: logistics, regression, survival analysis, and big data using SPSS and other relevant public health software. Departmental consent required. Formerly offered as HSCI 612, students cannot receive credit for both courses.

HSCI 6220. Advanced Topics in Epidemiology. Units: 4

Advanced application of epidemiologic procedures related to the understanding of the occurrence and control of diseases and other health problems. Emphasis is given to survey development, study design, data quality, validity and reliability of epidemiological data, service learning in form of epidemiological intervention, and journal club-style critical evaluation of literature. Departmental consent required. Formerly offered as HSCI 617, students cannot receive credit for both courses.

HSCI 6230. Advanced Topics in Environmental and Occupational Health. Units: 3

Sources, routes, media, and health outcomes associated with chemical, physical, and biological agents in the environment; effects on water quality, air quality, food safety, land resources, and disease in community and occupational settings. Includes methods to identify and evaluate hazard sources and framework used to effect hazard control. Public health issues, research designs, factors important to the development of monitoring programs. Current federal legal framework, policies, and practices associated with environmental issues and intended to improve public health. Departmental consent required. Formerly offered as HSCI 616, students cannot receive credit for both courses.

HSCI 6240. Advanced Study in Health Promotion. Units: 4

Psychological, social, ecological, economic and political theories relevant to the mission and process of health promotion. Applying behavioral change techniques and health education methodology to health promotion targeting individuals and whole communities. Consent required. Formerly offered HSCI 613. Students may not receive credit for both courses.

HSCI 6250. Advanced Topics in Public Health Policy and Administration. Units: 4

The course emphasizes the principles, practices, and skills essential to a successful public health system with focus on the U.S. health care system, role of governmental agencies, and factors that shape the public health system. The major focus of the course remains on the key aspects of policy development, critical analysis of policy development, with a culminating product of a policy brief and/or white paper relevant to the professional field. Departmental consent required. Formerly offered as HSCI 611, students cannot receive credit for both courses.

HSCI 6260. Health Education Program Planning and Evaluation. Units: 4

Comprehensive analyses and application of theories and methods for planning, implementation, and evaluation of health promotion programs. Techniques for collecting and analyzing quantitative and qualitative data to establish an evaluation plan is also covered. Consent required. Formerly offered HSCI 615. Students may not receive credit for both courses.

HSCI 6270. Advanced Research Methods in Public Health. Units: 4

Quarter Prerequisite: Consent of applicable MPH program coordinator
Advanced tools in research methods relevant to public health. Types of research, process of scientific inquiry and critical analysis of research are covered with emphasis on national criteria for research evaluation, journal club, and systematic reviews. Departmental consent required. Formerly offered HSCI 608. Students cannot receive credit for both.

HSCI 6280. Grant Writing for Health Sciences. Units: 4

Provides an overview of the principles and practice of grantsmanship from a public health and healthcare management perspective. Assists students to develop proficiency in the processes, factors, and required elements of a successful grant, including identifying granting bodies, formulating objectives, appropriate research questions, evaluation methods, budgeting, and sustainability plans. This course fulfills the culminating experience requirement for the MPH program. Consent required. Formerly offered HSCI 609. Students may not receive credit for both courses.

HSCI 6290. Bioterrorism. Units: 4

Semester Prerequisite: College level biology or consent of instructor.
Quarter Prerequisite: College level biology and chemistry or consent of instructor
History, identification, properties, and modes of transmission of agents of bioterrorism, including preventive, control, and treatment countermeasures. Risk assessment in the evaluation of relative threat level from different agents and delivery modes. Formerly offered HSCI 513. Students may not receive credit for both courses.

HSCI 6300. Global Health. Units: 4

Quarter Prerequisite: Consent of instructor
Roles of cultures and their relationships to health status, health practices, and health-seeking behaviors. Focus on global perspective in disease prevention and health promotion, such as One Health. Departmental consent required. Formerly HSCI 607; students may not earn credit for both courses.

HSCI 6310. Health Education Practice. Units: 4

Quarter Prerequisite: Consent of instructor
The course discusses effective public health interventions using the socio-ecologic framework as a foundation to explore various levels of intervention. Concepts of program planning, implementing, and evaluating public health programs in the context of cultural competency. Emphasis is placed on applying theory in diagnosing the nature of health and social problems, interpreting empirical research results, and planning health education and promotion interventions to improve public health and creating a culminating product demonstrating health education practice. Formerly offered as HSCI 614. Students cannot receive credit for both.

HSCI 6320. Advanced Topics in Epidemiological Methodology. Units: 4

Semester Prerequisite: HSCI 6210 and 6220 OR consent of instructor.
Quarter Prerequisite: HSCI 451 and 690
This course focuses on advanced topics in epidemiology with emphasis placed on clinical trials and quasi experiments. Students evaluate the efficacy of each in relation to various public health settings and the various types of epidemiological applications, including: healthcare, social, pharmaceutical, and especially molecular epidemiology. Departmental consent required. Formerly offered as HSCI 620, students cannot receive credit for both.

HSCI 6330. Advanced Topics in Health Science and Human Ecology. Units: 4

Analysis of current literature, practices, procedures and issues in health science and human ecology at local, state, national and international levels in the form of journal club and a final culminating product. Formerly offered as HSCI 660D, students cannot receive credit for both courses.

HSCI 6340. Information Literacy in Public Health. Units: 4

This course discusses the importance of how information is shaped and disseminated in the public health field, especially the role of funding and political unrest on information sharing. Departmental consent required.

HSCI 6350. Infectious Disease Burden in US. Units: 4

Semester Prerequisite: Graduate standing
This course evaluates trends in infectious diseases, especially HIV and AIDS in the United States. Examination of various aspects of the policy response and preventative care regulations as well as how U.S. policy is shaped in terms of both domestic and global responses to the pandemic. Departmental consent required.

HSCI 6360. Qualitative Methods in Public Health. Units: 4

Semester Prerequisite: Graduate standing
Application of qualitative methods in the development of health promotion interventions, evaluations, and research. Collecting and analyzing qualitative data through participant observation, interviewing, group methods, and case studies. Departmental consent required.

HSCI 6370. Survey Design in Public Health. Units: 4

Semester Prerequisite: Graduate standing

This course teaches students how to frame questions in health promotion surveys using sound principles of questionnaire design with emphasis on reliability and validity. Students learn survey design principles and methods and how to analyze survey data.

HSCI 6380. Maternal Child Health. Units: 4

Semester Prerequisite: Graduate standing

Public health issues affecting the health and well-being of women, children, and families. A multidisciplinary perspective that integrates biological, demographic, epidemiological, economic, behavioral, social, cultural and environmental aspects. Consent required.

HSCI 6390. Advanced Professional Development and Leadership in Public Health. Units: 2

Advanced principles of effective leadership, communication, negotiation, collaborative problem solving, and conflict management in public health. The course requires a graduate portfolio and demonstration of public health practice experience. Departmental consent required.

HSCI 6400. Health Science Data Science. Units: 4

Semester Prerequisite: Graduate standing

Discussion on current use of data, especially big data in public health. Course evaluates the current trends in data science, data visualizations, and means to assess data efficacy for evidence-based practice. Departmental consent required.

HSCI 6410. Project Preparation. Unit: 1

This course prepares students for their project, the culminating experience for the MPH program. Tasks include proposal development and approval in addition to committee establishment. Program Director approval required.

HSCI 6601. Macronutrient Biochemistry. Units: 3

Advanced general nutritional concepts. Integrating nutritional biochemistry with physiological systems, population nutrition issues, and research approaches. Advanced concepts on carbohydrates, lipids, and protein metabolism. Department consent required.

HSCI 6602. Micronutrient Biochemistry. Units: 3

Advanced concepts on vitamins, cofactors, bioactive compounds, and mineral metabolic functions and nutritional interactions among and with micronutrients. Department consent required.

HSCI 6603. Research Methods and Biostatistics in Nutrition Science. Units: 3

Advanced tools in research methods relevant to Nutrition Science. Types of research, process of scientific inquiry and critical analysis of research are covered with emphasis on appropriate statistical methods, journal club, and systematic reviews. #Department consent required.

HSCI 6610. Principles of Human Nutrition. Units: 4

Quarter Prerequisite: Classified graduate standing and prior or concurrent enrollment in HSCI 661 or consent of instructor

Application of the principles of physiology and metabolism to the study of nutrition emphasizing nutrient functions, nutrient requirements and impact of diet on health and disease, including both macronutrients and micronutrients. Metabolic pathways and the functions of nutrients will be discussed. Formerly offered as HSCI 661, students may not receive credit for both courses.

HSCI 6651. Complementary and Alternative Therapy#. Units: 3

Semester Prerequisite: Graduate standing

Survey of Complementary and Alternative Medicine (CAM) to introduce the core concepts and methodologies in CAM with an emphasis on nutrient and diet related therapies and modalities including herbals, megavitamins, and Ayurvedic diet and medicine. Department consent required.

HSCI 6653. Nutrition Assessment. Units: 3

Assessment of nutritional status of both individuals and populations for purposes of etiologic research and disease prevention and management. Application of biochemical, anthropometric, clinical and dietary assessments for prevention of disease and malnutrition, and promotion of wellness and health. Emphasis on understanding and use of methods appropriate for measurement of nutritional risks in epidemiological or population studies. Department consent required. Formerly offered as HSCI 667, students may not earn credit for both.

HSCI 6654. Advanced Topics in Nutrition Across the Life Span. Units: 3

Semester Prerequisite: Graduate standing

Significance and role of nutrition during pregnancy, lactation, infancy, childhood, adulthood, and among the elderly. The course will include in-depth discussion of the chronic- and genetic-disease conditions across the life span that impact nutrition status and ways to prevent malnutrition and development of chronic diseases. Department consent required. Formerly offered as HSCI 561, students may not earn credit for both.

HSCI 6656. Advanced Public Health Nutrition. Units: 3

Major nutrition-related diseases and their prevention, including effects of public policy on health status. The course will cover the role of public health dietitian/nutritionist in disease prevention using research-based data and implementation plans. Knowledge and skills in grant writing, funding opportunities, program evaluation, and assessment. Department consent required. Formerly offered as HSCI 663, students may not earn credit for both.

HSCI 6657. Management of Nutrition and Dietetic Services. Units: 3

An in-depth knowledge of different types of food systems and food service management. # Include development of the skills necessary to guide practice in the management and leadership of food and nutrition service operations. Department consent required.

HSCI 6658. Advanced Topics in Medical Nutrition Therapy. Units: 3

Discussion of advance medical nutrition therapy of several major chronic diseases, especially cardiovascular disease, cancer, and relevant nutrition topics of the time. Focuses on understanding evidence-based interventions using the Academy of Nutrition and Dietetics' Evidence Analysis Library, science-based, and reputable sources for treatment of these diseases and the role of health professionals in management and treatment of nutrition related diseases. Includes use of Nutrition Care Process and data collection for monitoring and evaluation of treatment outcome. Department consent required. Formerly offered as HSCI 664, students may not earn credit for both.

HSCI 6659. Topics in Global Nutrition. Units: 3

Semester Prerequisite: Graduate standing

Identification and discussion of malnutrition incidences in developing and industrialized countries. Focuses on the multi-factorial causes of malnutrition around the world, including food production, distribution, geographical, political, and economic policies on nutrition status of the individuals and population. Identification and discussion of resources and policies for optimal public health nutrition and to alleviate malnutrition. Department consent required. Formerly offered as HSCI 562, students may not earn credit for both.

HSCI 6660. Nutrition in Health & Disease. Units: 3

Integration of biochemical, physiological, and genetic aspects of nutrition in the context of clinical and epidemiological observations related to health and disease, such as obesity, diabetes, cancer, vascular and neurodegenerative diseases, osteoporosis, and birth defects. Review and consideration of governmental role in public health nutrition via guidelines and policies. Department consent required.

HSCI 6690. Nutrition Graduate Seminar. Unit: 1

Advanced topics in nutrition research. Emphasis will be on presenting research papers, proposals, and findings, and engaging in intellectual discussions about nutrition research. May be taken 2 times for 2 units. Department consent required.

HSCI 6754. Administrative Residency. Units: 3

Quarter Prerequisite: Advancement to candidacy and consent of program director

Supervised internship of 120 hours in sites such as hospitals, health plans, HMOs, medical groups, managed care organizations, private or public health services or agencies. Requires a rotation in administrative organization and function. Requires formal written report and presentation. Graded credit/no credit. Departmental consent required. Formerly offered as HSCI 697, students may not receive credit for both.

HSCI 6954. Field Experience. Units: 4

Quarter Prerequisite: Graduate status after consultation with program coordinator

A minimum of 45 hours for each unit of credit will be spent in a guided, structured, practical, educational experience in sites that may include public health offices, community health centers, clinical sites, nonprofit health agencies, worksite health promotion programs, or health care organizations, under the direct supervision of a preceptor at the site and guidance of the department. Letter of approval signed by site preceptor and program director to be filed in department office prior to beginning the field experience. Students must complete 180 hours to meet field experience requirement. Consent required. Formerly called HSCI 689D. Students cannot count both for credit. Graded Credit/No Credit.

HSCI 6960. Project. Units: 4

Quarter Prerequisite: completion of HSCI 608, HSCI 612, and at least 24 units of approved coursework; an officially appointed project committee; and advancement to candidacy

Completion of a major project that integrates and applies public health knowledge and skills to a problem or issue related to public health practice or policy, resulting in a high-quality written product and an oral presentation (either on campus or at a professional meeting). The project may emerge from or be initiated during HSCI 6954: Field Experience. May be taken two times for eight units.

HSCI 6963. Graduate Project in Nutrition Science. Units: 3

Semester Prerequisite: Graduate standing

Preparation and completion of a project for the students in the Masters of Science in Nutrition Science (MSNS) and Individualized Supervised-Practice Pathway (ISPP) program. This project will consist of supervised-practice experience hours and an applied research project in one of the intern rotations. Includes formal defense or professional presentation. May be taken 2 times for 6 units. Department consent required.

HSCI 6971. Thesis. Unit: 1

Semester Prerequisite: Consent of Department

Research, Writing and Defense. Independent graduate research conducted under the guidance of an advisor in the Department of Health Science and Human Ecology. Departmental consent required. Formerly offered as HSCI 699, students cannot receive credit for both.

HSCI 6972. Thesis. Units: 2

Semester Prerequisite: Consent of advisor

Research, Writing and Defense. Independent graduate research conducted under the guidance of an advisor in the Department of Health Science and Human Ecology. Consent required.

HSCI 6973. Graduate Thesis. Units: 3

Research, writing, and defense of graduate thesis. Independent graduate research conducted under the guidance of an advisor in the Department of Health Science and Human Ecology. May be taken 2 times for 6 units. Department consent required.

HSCI 6974. Thesis. Units: 4

Quarter Prerequisite: successful completion of HSCI 699A

Research, Writing and Defense. Independent graduate research conducted under the guidance of an advisor in the Department of Health Science and Human Ecology. Consent required. Formerly offered as 699D.

HSCI 6980. Comprehensive Examination. Units: 0

Semester Prerequisite: advancement to candidacy, completion of a minimum of 16 units, approval of department, and good academic standing. Quarter Prerequisite: advancement to candidacy, completion of a minimum of 16 units, approval of department, and good academic standing

Assessment of student's ability to integrate the knowledge of the discipline, show critical and independent thinking, and demonstrate mastery of the subject matter. Department consent required. Formally HSCI 999. Graded credit/no credit.

HSCI 6990. Continuous Enrollment for Graduate Candidacy Standing. Units: 0

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

HSCI 6991. Continuous Enrollment for Graduate Candidacy Standing. Unit: 1

Quarter Prerequisite: Advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

HSCI 6992. Continuous Enrollment for Graduate Candidacy Standing. Units: 2

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

HSCI 6993. Continuous Enrollment for Graduate Candidacy Standing. Units: 3

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

HSCI 6994. Continuous Enrollment for Graduate Candidacy Standing. Units: 4

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

HSCI 6995. Continuous Enrollment for Graduate Candidacy Standing. Units: 5

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

HSCI 6996. Continuous Enrollment for Graduate Candidacy Standing. Units: 6

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

Interdisciplinary Studies (IS)

Courses

IS 6961. Graduate Project. Unit: 1

Quarter Prerequisite: advancement to candidacy
Preparation of the project for the M.A. under the direction of a faculty member from the students committee and if an interdisciplinary studies major, with approval of the Dean of Graduate Studies. Maximum of six units applicable toward the M.A. Formerly offered as IS 696A.

IS 6962. Graduate Project. Units: 2

Quarter Prerequisite: advancement to candidacy
Preparation of the project for the M.A. under the direction of a faculty member from the students committee and if an interdisciplinary studies major, with approval of the Dean of Graduate Studies. Maximum of six units applicable toward the M.A. Formerly offer as IS 696B.

IS 6963. Graduate Project. Units: 3

Quarter Prerequisite: advancement to candidacy
Preparation of the project for the M.A. under the direction of a faculty member from the students committee and if an interdisciplinary studies major, with approval of the Dean of Graduate Studies. Maximum of six units applicable toward the M.A. Formerly known as IS 696C.

IS 6964. Graduate Project. Units: 4

Quarter Prerequisite: advancement to candidacy
Preparation of the project for the M.A. under the direction of a faculty member from the students committee and if an interdisciplinary studies major, with approval of the Dean of Graduate Studies. Maximum of six units applicable toward the M.A. Formerly known as IS 696D.

IS 6965. Graduate Project. Units: 5

Quarter Prerequisite: advancement to candidacy
Preparation of the project for the M.A. under the direction of a faculty member from the students committee and if an interdisciplinary studies major, with approval of the Dean of Graduate Studies. Maximum of six units applicable toward the M.A. Formerly known as IS 696E.

IS 6966. Graduate Project. Units: 6

Quarter Prerequisite: advancement to candidacy
Preparation of the project for the M.A. under the direction of a faculty member from the students committee and if an interdisciplinary studies major, with approval of the Dean of Graduate Studies. Maximum of six units applicable toward the M.A. Formerly IS 696F.

IS 6971. Graduate Thesis. Unit: 1

Quarter Prerequisite: advancement to candidacy
Preparation of the thesis for the Master of Arts under the direction of a faculty member from the students committee and if an interdisciplinary studies major, with approval of the Dean of Graduate Studies. Maximum of six units applicable toward the Master of Arts. Formerly known as IS 669A.

IS 6972. Graduate Thesis. Units: 2

Quarter Prerequisite: advancement to candidacy
Preparation of the thesis for the Master of Arts under the direction of a faculty member from the students committee and if an interdisciplinary studies major, with approval of the Dean of Graduate Studies. Maximum of six units applicable toward the Master of Arts. Formerly known as IS 669B.

IS 6973. Graduate Thesis. Units: 3

Quarter Prerequisite: advancement to candidacy
Preparation of the thesis for the Master of Arts under the direction of a faculty member from the students committee and if an interdisciplinary studies major, with approval of the Dean of Graduate Studies. Maximum of six units applicable toward the Master of Arts. Formerly known as IS 669C.

IS 6974. Graduate Thesis. Units: 4

Quarter Prerequisite: advancement to candidacy
Preparation of the thesis for the Master of Arts under the direction of a faculty member from the students committee and if an interdisciplinary studies major, with approval of the Dean of Graduate Studies. Maximum of six units applicable toward the Master of Arts. Formerly known as IS 669D.

IS 6975. Graduate Thesis. Units: 5

Quarter Prerequisite: advancement to candidacy
Preparation of the thesis for the Master of Arts under the direction of a faculty member from the students committee and if an interdisciplinary studies major, with approval of the Dean of Graduate Studies. Maximum of six units applicable toward the Master of Arts. Formerly known as IS 669E.

IS 6976. Graduate Thesis. Units: 6

Quarter Prerequisite: advancement to candidacy

Preparation of the thesis for the Master of Arts under the direction of a faculty member from the students committee and if an interdisciplinary studies major, with approval of the Dean of Graduate Studies. Maximum of six credits applicable toward the Master of Arts. Formerly known as IS 699F.

IS 6990. Continuous Enrollment for Graduate Candidacy Standing. Units: 0

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

IS 6991. Continuous Enrollment for Graduate Candidacy Standing. Unit: 1

Quarter Prerequisite: Advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

IS 6992. Continuous Enrollment for Graduate Candidacy Standing. Units: 2

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

IS 6993. Continuous Enrollment for Graduate Candidacy Standing. Units: 3

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

IS 6994. Continuous Enrollment for Graduate Candidacy Standing. Units: 4

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

IS 6995. Continuous Enrollment for Graduate Candidacy Standing. Units: 5

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

IS 6996. Continuous Enrollment for Graduate Candidacy Standing. Units: 6

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

Information Systems and Tech (IST)

Courses

IST 1110. Introduction to Information Technology. Unit: 1

This course introduces students to foundational information technology concepts and skills, including the integration of generative AI diverse applications across business operations. Topics include hardware and software fundamentals, their use in organizations, generative AI and prompt engineering. The course also covers becoming better global digital citizens, developing a digital mindset, online safety, and the ethical issues arising from the use of computers and AI in business and society. Hands-on lab sessions on popular software applications, prompt engineering, and enterprise resource planning systems. Materials fee required.

IST 2110. Information Technology. Units: 3

Basic computer hardware, software, maintenance and training technologies including hardware components, operating system functions, information systems maintenance strategies for the organization, and end-user training options. Security practices such as network access, data disposal, introductory forensics and facilities planning are also explored. Hands-on experience with different computer hardware, operating systems and software utilities. Formerly offered as IST 372. Materials fee required.

IST 2210. Introduction to Networking and Security. Units: 3

Quarter Prerequisite: IST 101 or consent of instructor

This course covers the fundamentals of computer networks for business students. Topics include: layered network architecture, communication protocols, local and wide area networks, hardware basics, network security, traffic monitoring, packet level analysis and operating system command line. Students will learn much of this through hands-on experience using popular packet analyzer tools and simulators. Formerly offered as IST 275.

IST 2310. Applications Development. Units: 3

Semester Prerequisite: IST 1110 or consent of instructor. Quarter

Prerequisite: IST 101 or consent of instructor

This course introduces object-oriented techniques for business application design and development. The objective of this course is to make students understand application development concepts including data type, strings, control statements, loops, functions, lists, tuples, classes & objects and basic algorithms. This course highlights the problem-solving aspects of developing business applications. Formerly offered as IST 282.

IST 2410. Database Management for Business. Units: 3

Semester Prerequisite: IST 1110. Quarter Prerequisite: IST 101

This course covers the fundamental concepts and technologies of database systems for business applications. Students will learn database concepts and skills including: data modeling (ER and relational model), normalization, Structured Query Language (SQL), transaction management, data base system administration issues, security, and implementation techniques using a popular database management systems software package. Formerly offered as IST 274.

IST 2510. Big Data Analytics. Units: 3

Semester Prerequisite: IST 2310, ADMN 2100 or consent of instructor

An overview of the wide area of business analytics, including the extensive use of data, methods, and fact-based management to support and improve decision making. Students are introduced to the most important methods used to manipulate, store, clean, visualize, and analyze big data. Topics include: The analytics life cycle, basic tools for statistical analysis, programming, machine learning algorithms and report generation for technical and non-technical audiences.

IST 2610. Cybersecurity. Units: 3

Semester Prerequisite: IST 1110 or consent of instructor. Quarter

Prerequisite: IST 101 or consent of instructor

Study in information assurance and systems security for information systems professionals. This course covers several key domains of knowledge essential to becoming a cybersecurity professional. The topics include (but are not limited to): threats, attacks and vulnerabilities; technologies and tools; architecture and design; identity and access management; risk management/cryptography and PKI. This course will include hands-on, applied technical labs. Formerly offered as IST 215.

IST 3000. Technology for Business Management. Units: 3

This course prepares future managers to effectively utilize technology in business decision-making, emphasizing real-world applications across business functions and strategic goals. Students will explore how information systems enhance business operations and support strategic goals. The course covers the application of technology tools across various business functions such as management, operations, communication, and strategic planning. Students will also examine the impact of technological advancements on modern business practices and their integration into diverse business processes. By the end of the course, students will be adept at leveraging technology to drive operational efficiency and strategic success.

IST 3100. Data Visualization and Analytics. Units: 3

This course provides a comprehensive introduction to the principles and practices of data visualization and analytics. Students will learn how to effectively communicate data-driven insights through the use of visual techniques and tools, as well as how to perform in-depth data analyses. The course covers key topics including data collection, preprocessing, and cleaning; exploratory data analysis; and the creation of static and interactive visualizations. This course will focus on real-world applications for communicating insights and analyzing data.

IST 3110. Management of Information Technology. Units: 3

Semester Prerequisite: IST 1110. Quarter Prerequisite: IST 101

This course focuses on how best practice organizations use information technology to gain competitive advantage and accomplish mission. The course exposes students to numerous examples of IT applications in finance, accounting, marketing, public administration, human resource, entrepreneurship, and supply chain operations. Topics include: enterprise information systems; ethics of IT use; cybersecurity, IT laws and risk management, cloud computing, data warehousing and business intelligence, social media, customer/supplier relationship management systems, IT project management, and impact of contemporary IT technologies such as AI and blockchain technologies. Formerly offered as IST 309. Materials fee required.

IST 3420. Systems Analysis and Design. Units: 3

Semester Prerequisite: IST 3110 or consent of instructor. Quarter Prerequisite: IST 101 or consent of instructor

This course introduces students to the principles and methods of systems analysis and design. Topics include: systems development life cycle, prototyping, planning and managing projects, systems evaluation, interface design with controls, and object-oriented design concepts and tools. The course exposes students to UML (Unified Modeling Language) and other graphical modeling tools to model information systems based on user requirements and specification. Formerly offered as IST 276.

IST 3500. Problem Solving and Decision Making. Units: 3

Semester Prerequisite: ADMN 2100 and IST 3110

This course covers many approaches in solving business problems from a managerial point of view. Students experiment with typical techniques and learn why/how these techniques work. Spreadsheets are used to experiment with such techniques. Emphasis is placed on input requirements and interpretation of results. Topics include: what-if analysis, networks, decision trees, sensitivity analysis, and goal seeking. Formerly offered as SCM 350. Also offered as IST 3500 and SCM 3500; credit cannot be awarded for both.

IST 4120. Information Systems Planning and Policy. Units: 3

Semester Prerequisite: IST 2210, IST 2610 and IST 3110

Advanced study of information systems planning and policy formation for top management. Covers strategic use of information technology in organizations; the theory, methods and practices of enterprise systems planning; and design and implementation of information systems policy. Policy issues surrounding project management, information classification, IT audit, and legal issues related to privacy and security will also be covered. Formerly offered as IST 490.

IST 4210. Advanced Networking and Security. Units: 3

Semester Prerequisite: IST 2210 Quarter Corequisite: IST 309. Quarter Prerequisite: IST 275 and IST 309; or consent of instructor

Advanced computer networks and their application in organizations. Students are introduced to the technology of routed and switched networks, wireless networks and network security. Through hands-on experience and using popular packet analyzer tools and simulators, students learn how to design, configure, administer, secure and debug heterogeneous IP networks. Topics include: routing protocols, configuring routers and switches, VLANs, network management techniques, routing IP traffic, wireless networks, network security, access control list. Formerly offered as IST 475.

IST 4310. Web Technologies. Units: 3

Semester Prerequisite: IST 2310 & IST 3110, or consent of instructor.

Quarter Prerequisite: IST 282

This course is designed to give students exposure to and experience with several modern web development principles and technologies used on the Internet today. Topics include XML, web protocols, client-side & server-side technologies, back-end data management, and web service. If time permits, topics in semantic web may be included.

IST 4320. Advanced Applications Development. Units: 3

Semester Prerequisite: IST 2310 or consent of instructor. Quarter

Prerequisite: IST 282 or consent of instructor

Advanced applications development in an object-oriented environment. Advanced object-oriented concepts are applied to design and implement various applications for business information systems. Focuses on developing complex applications that address a business problem or opportunity. Formerly offered as IST 483.

IST 4410. Advanced Database Management and Information Assurance. Units: 3

Semester Prerequisite: IST 2410 or consent of instructor. Quarter

Prerequisite: IST 274 and IST 309, or consent of instructor

Advanced computer data base concepts and skills including: data modeling, advanced Structured Query Language (SQL), client-server application, database security, and emerging database technologies. Also covers Database System Administration issues: data certification/classification, life cycle, access control and legal requirements. Students will create applications using an advanced database program package. Formerly offered as IST 474.

IST 4510. Advanced Data Analytics. Units: 3

Semester Prerequisite: IST 2510 and 3110, or consent of instructor

Topics include: univariate and multivariate statistical methods to analyze data, relational databases and SQL, predictive analytics, descriptive analytics, linear regression, text processing and sentiment analysis, data visualization and other emerging data analytics methods.

IST 4520. Data Mining. Units: 3

Semester Prerequisite: IST 2510 & IST 3110

This course introduces students to concepts, principles and techniques related to data mining and the knowledge discovery process. Students will learn methods to manipulate and explore data through learning the basic ideas of clustering, regression and classification. The course will provide hands-on experience with a variety of different techniques and applications (e.g., intrusion detection, text mining, customer segmentation). Topics include: data processing, pattern discovery, logistic regression, classification methods, association analysis and cluster analysis.

IST 4610. Cybersecurity Management. Units: 3

Semester Prerequisite: IST 2610 & 3110, or consent of instructor. Quarter Prerequisite: IST 215 or consent of instructor

This course covers the technical and managerial knowledge required to effectively design, engineer, and manage the overall security posture of an organization. Topics include: Security and risk management, asset security, communication and network security, identity and access management, security assessment and testing, security operations, software development security. Formerly offered as IST 415.

IST 4620. Penetration Testing and Ethical Hacking. Units: 3

Semester Prerequisite: IST 2210, IST 2610, and IST 3110. Quarter Prerequisite: IST 215 and IST 275

This course covers the process and methods for assessing the security posture of information systems. It reviews in depth the phases of penetration testing to include but not limited to: planning, reconnaissance, scanning, exploiting, post-exploitation and reporting. Tools techniques and procedures for each of the phases will be discussed, demonstrated and used in lab exercises. Formerly offered as IST 511.

IST 4910. Enterprise System Administration. Units: 3

Semester Prerequisite: IST 4210 or consent of instructor. Quarter Prerequisite: IST 475 or consent of instructor

This course is a capstone course that will integrate the various topics as it relates to the administration of an information system. This course may include but is not limited to: installing, managing and maintaining network based operating systems, installing and configuring network services, user and group account management, automating network tasks with scripts, managing a database, modifying a system for improved performance and security, and securing the system in preparation for a penetration test. Because of the dynamic nature of information systems and the rapid development that takes place continually, this course will cover topics that are timely as determined by current conditions and future trends.

IST 5030. Enterprise Resource Planning. Units: 3

Semester Prerequisite: SCM 3040 or SCM 6070. Quarter Prerequisite: SCM 304 or consent of instructor

This course introduces students to the concept and usage of Enterprise Resource Planning (ERP) to support organizational processes. It emphasizes how businesses are using ERP systems to integrate their business processes. Students will learn and understand business process data flows, and how that impacts the functional areas of an organization. Students will have hands-on experience using an ERP system. Formerly known as SCM 305/IST 3050/SCM 3050. Course is offered as IST 5030 and SCM 5030; credit cannot be awarded for both.

IST 5050. Advanced Enterprise Resource Planning. Units: 3

Semester Prerequisite: SCM/IST 3050

This course will discuss the concepts, principles, and techniques for configuring and implementing organizational processes in enterprise resource planning (ERP). Emphasis will be placed on the cross-functional business processes and critical integration points that are necessary for the success of a company. Students will learn how to create relevant databases and configure an ERP system from the ground up. Formerly SCM 505. Also offered as IST 5050.

IST 5150. Project Management. Units: 3

Semester Prerequisite: IST 3110

This course introduces students to project management theory, terms and concepts. Students will learn about project management constraints and their impact on a project's ability to meet business goals: time, cost, and performance. Students will learn techniques to manage people and how the workforce will impact, and be impacted by, the project management constraints. Topics include: project life cycle, how to build a successful project from pre-implementation to completion, sequencing and budgeting, project evaluation and control, project feasibility, risk analysis, resource allocation and project management tools. Formerly offered as SCM 515. Course is offered as IST 5150 and SCM 5150; credit cannot be awarded for both.

IST 5250. Incident Handling and Cyber Investigation. Units: 3

Semester Prerequisite: IST 2610. Quarter Prerequisite: IST 215 or consent of instructor

A systematic inspection of systems for evidence of a crime and use in civil litigation. Identify sources of digital evidence, preserve and analyze digital evidence, present findings (deposition of legal evidence in a court of law), and learn tools forensics experts use. The topics may include terrorism, identify theft, fraud, hacking, societal issues and embezzlement. Students will learn best practices with hands-on experience in identifying and preserving digital evidence. Formerly offered as IST 525.

IST 5753. Apprenticeship. Units: 3

Supervised work and study in private or public organizations in a department of labor registered apprenticeship. May be taken two times for six units. A total of six units of IST/SCM 5753 courses may be applied toward graduation. Graded credit/no credit.

IST 5755. Internship. Unit: 1

Semester Prerequisite: Consent of college internship coordinator. Quarter Prerequisite: senior standing preferred; consent of instructor and the departments internship coordinator

Supervised work and study in private or public organizations. May be repeated for credit. A total of six units of Jack H. Brown College of Business and Public Administration 5753 or 5755 courses may be applied toward graduation. Graded credit/no credit.

IST 5915. Seminar in Information Systems and Technology. Unit: 1

Semester Prerequisite: Consent of instructor. Prerequisite: Consent of instructor

An intensive study of some aspect of information systems and technology to be proposed by the instructor. May be repeated for credit as topics change.

IST 5930. Seminar in Information Systems and Technology. Units: 3

Semester Prerequisite: IST 3110 or instructor consent

An intensive study of some aspect of information systems and technology to be proposed by the instructor. May be repeated for credit as topics change. Consent required. Formerly offered as IST 590.

IST 5951. Independent Study. Unit: 1

Semester Prerequisite: Junior status, or graduate status

Special topics involving library and/or field research. A total of 8 units in any Jack H. Brown College of Business and Public Administration 5951, 5952, 5953, 5955 may be applied toward graduation. Consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the Jack H. Brown College of Business and Public Administration on a standard application filed in advance of the semester in which the course is to be taken. Course is cross-listed across different departments within the college.

IST 5952. Independent Study. Units: 2

Semester Prerequisite: Junior status, or graduate status

Special topics involving library and/or field research. A total of 8 units in any Jack H. Brown College of Business and Public Administration 5951, 5952, 5953, 5955 may be applied toward graduation. Consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the Jack H. Brown College of Business and Public Administration on a standard application filed in advance of the semester in which the course is to be taken. Formerly offered as 595B. Course is cross-listed across different departments within the college.

IST 5953. Independent Study. Units: 3

Semester Prerequisite: Junior status, or graduate status

Special topics involving library and/or field research. A total of 8 units in any Jack H. Brown College of Business and Public Administration 5951, 5952, 5953, 5955 may be applied toward graduation. Consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the Jack H. Brown College of Business and Public Administration on a standard application filed in advance of the semester in which the course is to be taken. Formerly offered as 595D. Course is cross-listed across different departments within the college.

IST 5955. Independent Study. Unit: 1

Semester Prerequisite: Junior status, or graduate status

Special topics involving library and/or field research. A total of 8 units in any Jack H. Brown College of Business and Public Administration 5951, 5952, 5953, 5955 may be applied toward graduation. Consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the Jack H. Brown College of Business and Public Administration on a standard application filed in advance of the semester in which the course is to be taken. Course is cross-listed across different departments within the college.

IST 6030. Foundations of Business Systems. Units: 3

An introduction to business systems hardware components, operating system functions, information systems maintenance strategies for the organization, and end-user training options. Programming and scripting techniques as the basis for application development. Security practices such as network access, data disposal, introductory forensics and facilities planning are also explored. The students' understanding is reinforced during the course through the development of standalone applications and systems.

IST 6090. Information Systems and Technology Management. Units: 3

Advanced applications of computer and information systems in organizations. Topics include analyzing information technology impact on organizational business models, making a business case for information technology, information management planning, information technologies infrastructure, cyber security, IT project risk assessment, and IT leadership and governance. Policy issues surrounding project management, information classification, IT audit, and legal issues related to privacy and security will also be covered. Formerly offered as IST 609.

IST 6110. Foundations of Analytics and Big Data. Units: 3

Business analytics is the scientific process of transforming data into insight for making informed decisions. Any organization in the public or private sector that wishes to accomplish its mission and maintain competitive advantage uses data-driven decision making metrics/ analytics. This course uses hands-on tools, and a series of readings, videos, quizzes and discussion to assist students in understanding quantitative management tools used to drive business performance and security. In this course you will review the basic statistical concepts, learn data visualization and storytelling through big data, and use advanced statistical techniques for clustering, forecasting, and predicting. The design, development, validation and organization of metrics using hands-on tools.

IST 6115. Fundamentals of Cyber Security. Units: 4

This course provides a broad introduction to a variety of topics in computer security. These include applied cryptography, access control, various security policy models, identification and authentication methods, protection against external and internal threats, security management and Internet security.

IST 6117. Network Security 1. Units: 3

This course introduces basic network protocols such as TCP/IP, IP addressing, switching, routing, LAN, etc. via popular network simulation or/and packet analysis tools. Covers how the various layers of the network protocol stack contribute to security and basic network attacks and threats.

IST 6125. Law and Policy. Units: 3

This course provides an overview of the legal rights and liabilities associated with operation and use of computers and information, including the legal and regulatory compliance issues critical for cybersecurity managers. Approaches to reducing risk of potential legal liability for computer security or information privacy failures, and methods of enforcing security and privacy rights against other parties will also be covered. The course will include discussion of case studies and best practices.

IST 6215. Network Security 2. Units: 3

Semester Prerequisite: IST 6115 and IST 6117

This course is designed to help students develop a deeper understanding of modern network security protocols and threats present in computer networks and will look at security in the enterprise. Topics include cryptographic network protocols such as SSL, PKI, IPSec VPN, network authentication, network security architecture and management concepts, network forensics via packet analysis, and network attacks and defense strategies.

IST 6232. Risk Assessment & Management. Units: 4

Semester Prerequisite: IST 6115 and IST 6117

This course will discuss and apply risk management frameworks. It will cover methods for assessing, managing and reducing risk to include detection, recovery, and damage control. Methods of and procedures for contingency planning and security policy formulation and enforcement will also be discussed. Practical/applied exercises will be used in this course.

IST 6235. Cyber Analytics and Visualization. Units: 3

Semester Prerequisite: IST 6115 and IST 6117

This course covers visual and fundamental data analytics techniques of electronically generated data. Topics include: data sources, data collection, the threat visualization process, data visualization tools, and analytics techniques for malware detection and analysis.

IST 6385. Capstone. Units: 4

Semester Prerequisite: IST 6215, IST 6232, and IST 6235

This capstone course will integrate the various topics covered in the prior courses into an integrative project.

IST 6395. Contemporary Issues and Practices in Cybersecurity 1. Units: 3

Semester Prerequisite: IST 6215, IST 6232, and IST 6235

An intensive study of current issues and practices in Cybersecurity. This is the first course in a sequence.

IST 6397. Contemporary Issues and Practices in Cybersecurity 2. Units: 3

Semester Prerequisite: IST 6215, IST 6232, and IST 6235

An intensive study of current issues and practices in Cybersecurity. This is the second course in a sequence.

IST 6415. Information Resources and Project Management. Units: 3

This course focuses on project management in the context of IT projects, including large software development projects. Using the framework of project life cycle, the course covers: (i) project initiation, (ii) project planning and scheduling, (iii) project monitoring and control, and (iv) project termination. The use of project network and software development cost and personnel time estimation are covered in detail. Risk assessment methods including simulation and risk reduction approaches are also be covered. Students are required to use software tools to simulate project completion times. The waterfall, Object Oriented, Agile, Rapid Application Development, Joint Application Development, and Lean models are covered.

IST 6450. Systems Analysis, Design and Implementation. Units: 3

Semester Prerequisite: IST 6090. Quarter Prerequisite: IST 609

Students will gain an appreciation of the importance of effective systems analysis and design to enable and support an organization's mission and its competitive priorities. Problem formulation, decomposition and software project effort estimation (requirements and analysis) and secure solution building (design and implementation) will be covered. Students will work in small groups, each group having the responsibility for requirements elicitation, analysis, secure design and implementation of a system prototype. CASE and project management tools will be used in all stages of the learning process. Formerly offered as IST 645.

IST 6470. Database Management and Policies. Units: 3

Semester Prerequisite: IST 6090. Quarter Prerequisite: IST 609

This course uses a project based approach to prepare students for real life conception, design, and implementation of secure databases in organizations. Focus is on how databases support organization mission and strategic priorities. Topics include managerial information needs, techniques of conceptual database modeling, database system architecture, data models (ER, relational, and others); query languages (relational algebra, SQL, and others); implementation techniques of database management systems, database administration, and management of semi-structured and complex data; distributed and no-SQL databases. Formerly offered as IST 647.

IST 6480. Information Networking Systems and Security. Units: 3

Semester Prerequisite: IST 6090 or consent of instructor. Quarter Prerequisite: IST 609 or consent of instructor

Advanced study of developing, implementing, securing and managing information networks. Systems architecture, models, standards and security are emphasized. Topics include use of hardware, software, routers, wireless communications, and Voice over IP. Management issues such as access control, privacy, connection security and policies are also explored using industry analytic and management tools. Formerly offered as IST 648.

IST 6620. Business Analytics and Decision Making. Units: 3

Semester Prerequisite: IST 6090 or consent of instructor. Quarter Prerequisite: IST 609

The course provides an overview of the wide area of data analytics, with a particular focus on to the tools required to store, clean, manipulate, visualize, model, and ultimately extract information from various sources of data as well as an introduction to deterministic decision-making, decision making under uncertainty/risk, and application of optimization decision analysis tools. Topics include the analytics life cycle, data integration and modeling, the use of univariate and multivariate statistical methods to analyze data, relational databases and SQL, text processing and sentiment analysis, data visualization and the use of Business Intelligence Tools for modeling and decision support. Offered as IST 6620 and SCM 6620, students may not receive credit for both. Formerly offered as IST 650.

IST 6670. Data Warehousing and Business Intelligence. Units: 3

Semester Prerequisite: IST 6030, IST 6110 and IST 6470, or Consent of Instructor. Quarter Prerequisite: ADMN 601, ADMN 602, and IST 647, or Consent of Instructor

Design and management of data warehouse (DW) and business intelligence (BI) systems. Using DW tools to collect, integrate, and mine the organization's data. Focus is on aggregation of data to enhance visualization, Extract, Transform and Load (ETL), data schema design, data security, on demand data access, ERP systems, report generation, managing the ERP project, OLAP, cube design, and big data. Formerly offered as IST 684.

IST 6680. Business Applications Using Web Technologies. Units: 3

Semester Prerequisite: IST 6030 and IST 6450. Quarter Prerequisite: IST 603 and IST 645

This course provides a comprehensive theoretical and practical knowledge in the area of web based business applications. This course covers the concepts of internet communications, various web technologies and their applications in e-business and standard method of communicating between applications and across the web. If time permits, a number of advanced topics such as semantic web and web security will be covered.

IST 6700. Cybersecurity Policy and Risk Management. Units: 3

Semester Prerequisite: IST 6090, or Consent of Instructor. Quarter Prerequisite: IST 609

This course discusses information security from a system-wide perspective, including policies, procedures and functions necessary to organize and administer ongoing security functions in an organization as well as explore the principles of risk management. Topics include security practices, architecture and models, continuity planning, resiliency and risk identification, risk analysis, risk management, incident handling, threat assessment, and supply chain security. NIST and other risk management frameworks are applied in combination with legal and ethical requirements. Formerly offered as IST 610.

IST 6720. Cyber Defense and Vulnerability Analysis. Units: 3

Semester Prerequisite: IST 6090 and IST 6480, or Consent of Instructor. Quarter Prerequisite: IST 609 and IST 648, or Consent of Instructor
Advanced study of information assurance and security including methods and practices used by federal and state agencies, and private sector best practices. Topics include threat assessment, red teaming methods, countermeasures, practices and law. Students will work in simulated environments and will investigate crimes and experience various security scenarios.

IST 6730. Cybersecurity Theory and Practice. Units: 3

Semester Prerequisite: IST 6720 or Consent of Instructor
A comprehensive course on the application of cybersecurity tools, techniques and procedures. Students will apply concepts of confidentiality, integrity and availability in order to protect information. Topics may include, but are not limited to: cryptography, identification, analysis, and mitigation of threats to internal information technology (IT) systems or networks; assessments of threats and vulnerabilities, level of risk, identification of deviations from acceptable configurations, and recommendations appropriate mitigation countermeasures.

IST 6755. Internship. Unit: 1

Semester Prerequisite: Consent of college internship coordinator. Quarter Prerequisite: senior standing preferred; consent of instructor and the departments internship coordinator

Supervised work and study in private or public organizations. May be repeated for credit. A total of six units of Jack H. Brown College of Business and Public Administration 5753 or 5755 courses may be applied toward graduation. Graded credit/no credit.

IST 6780. Risk Management. Units: 3

Semester Prerequisite: IST 6090 and IST 6110 or Consent of Instructor. Quarter Prerequisite: IST 609 and ADMN 601, or Consent of Instructor
The course explores the principles of risk management. It focuses on ways how businesses assess, control, and transfer risk. Topics include risk identification, risk analysis, risk management, incident handling, threat assessment, troubleshooting, allocating resources and system certification, the National Institute of Science and Technology (NIST) Risk Management Framework and strategies to treat risk. Formerly offered as IST 678.

IST 6800. Advanced E-commerce Technologies. Units: 3

Semester Prerequisite: IST 6090 Information Systems and Technology Management and MKTG 6500 E-commerce, or consent of instructor
This course focuses on electronic commerce technologies, applications and tools which are used to conduct business on the World Wide Web. Topics include: e-commerce technology and system security, scripting technologies, web site design and deployment strategies, robotics and mobile commerce technologies, online transaction processing, electronic data interchange (EDI), customer relationship management technologies and applications, and multi-carrier parcel management applications. Additional topics include major issues associated with e-commerce such as: privacy, intellectual property rights, authentication, encryption, acceptable use policies, and legal liabilities.

IST 6890. Enterprise Architecture Planning, Strategy, Security and Policy. Units: 3

Semester Prerequisite: IST 6030, IST 6110, IST 6450, IST 6470, and IST 6480; or Consent of Instructor. Quarter Prerequisite: ADMN 601, ADMN 602, IST 645, IST 647, and IST 648; or Consent of Instructor
The course provides students with the knowledge and skills they need to understand how an Enterprise Architecture assists in integrating strategic, business, policy, and technology planning methods, which in turn support enterprise-wide information technology resource development and governance based on needed business requirements. The course first covers the theory, frameworks, principles and use-case based best practices of enterprise architecture planning, strategy, security and policy; and then the students complete projects as they learn the art of designing Enterprise Architectures for real organizations. Formerly offered as IST 646.

IST 6960. MSIST Culminating Project. Units: 3

Semester Prerequisite: Completion of 30 units in the MSIST program
The culminating experience will be a comprehensive project to be directed, reviewed, and assessed by tenure track faculty and selected professionals to ensure students ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter. Can be taken in fall or spring semester after advancement to candidacy. The graduation writing requirement is met upon successful completion of IST 6960. Formerly known as IST 691.

IST 6980. MSIST Portfolio. Units: 0

Semester Prerequisite: Completion of 30 units in the program. Quarter

Prerequisite: Completion of 32 units in the program

Preparation and submission of a portfolio folder containing graded assignments representing successful work in the MSIST program, accompanied by a reflective essay showing how the portfolio demonstrates the accomplishment of the goals and objectives of the student and that of the MSIST program. Graded Credit/no credit. Formerly offered as IST 995.

IST 6990. Continuous Enrollment for Graduate Candidacy Standing. Units: 0

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

IST 6991. Continuous Enrollment for Graduate Candidacy Standing. Unit: 1

Quarter Prerequisite: Advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

IST 6992. Continuous Enrollment for Graduate Candidacy Standing. Units: 2

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

IST 6993. Continuous Enrollment for Graduate Candidacy Standing. Units: 3

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

IST 6994. Continuous Enrollment for Graduate Candidacy Standing. Units: 4

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

IST 6995. Continuous Enrollment for Graduate Candidacy Standing. Units: 5

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

IST 6996. Continuous Enrollment for Graduate Candidacy Standing. Units: 6

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

Japanese (JAPN)

Courses

JAPN 1102. Beginning Japanese Activity Lab. Unit: 1

Quarter Prerequisite: JAPN 101

Extra practice for students who plan on continuing their Japanese studies to the 2nd year Japanese courses. Activities will correspond to topics in Beginning Japanese 2. Graded credit/no credit.

JAPN 1111. Beginning Japanese I. Units: 4

Introduction to beginning level Japanese. Students will explore Japanese culture through the Japanese language. Students will practice in routine social situations through speaking, listening, reading, and writing. Formerly JAPN 101. Materials fee required.

JAPN 1112. Beginning Japanese II. Units: 3

Students continue to develop their ability to use Japanese in a variety of cultural contexts. Practice in routine social situations through speaking, listening, reading and writing. Satisfies GE C2/3B, DI, G designations. Materials fee required.

JAPN 2100. Japanese Calligraphy. Units: 3

Learning Japanese calligraphy, its history and its development. Learn proper techniques as well as stylistic elements of calligraphy. Course taught in English. May be repeated twice for a total of 6 units. Formerly JAPN 210. Materials fee required.

JAPN 2111. Second Year College Japanese A. Units: 4

Quarter Prerequisite: JAPN 103 or 150

Further study of the language to attain proficiency in four language skills: listening, speaking, reading and writing. Students will improve fluency from class discussion on a variety of topics. Formerly JAPN 201. Materials fee required.

JAPN 2112. Second Year College Japanese B. Units: 4

Quarter Prerequisite: JAPN 103 or 150

Further study of the language to attain proficiency in four language skills: listening, speaking, reading and writing. Students will improve fluency from class discussion on a variety of topics. Formerly JAPN 202. Materials fee required.

JAPN 2204. Conversation in Japanese. Units: 3

Semester Prerequisite: JAPN 1112 or consent of department. Quarter Prerequisite: JAPN 103 or equivalent

Practice of Japanese oral communication including current topics, panel discussions, debates, and oral presentations. Students will become familiar with day-to-day social and business expressions. Formerly JAPN 214. Materials fee required.

JAPN 2900. Japanese Literature in English. Units: 3

Introduction to Japanese literature read in English translation. Selection of writers and genres from classical and contemporary Japanese literature. Satisfies GE C2/3B, DI, G designations. Materials fee required.

JAPN 3100. Analysis of Japanese Culture through Film. Units: 3

Analysis of selected classical and contemporary Japanese films. Taught in English, students will watch Japanese films with English subtitles. This exploration of Japanese cinema will offer both a new perspective on cinema itself and an opportunity to view many aspects of Japanese culture, such as the mindset of the Japanese people, their lifestyles, values, customs, religions, etc. Formerly JAPN 370. Materials fee required.

JAPN 3111. Third Year College Japanese A. Units: 3

Quarter Prerequisite: JAPN 203 or consent of department

Development of speaking, listening, reading, and writing skills at the intermediate level. This course enhances communicative competence and cultural understanding through interactive activities, focusing on both formal and informal language use. Students will explore a range of topics to build proficiency in everyday and professional contexts. JAPN 3111 can be taken before or after JAPN 3112. Materials fee required.

JAPN 3112. Third Year College Japanese B. Units: 3

Quarter Prerequisite: JAPN 203 or consent of department
Strengthening of speaking, listening, reading, and writing skills at the intermediate level. This course emphasizes language proficiency through complex topics and authentic materials, fostering deeper cultural understanding and confident communication. It is designed to complement JAPN 3111, and students may take either course first. Materials fee required.

JAPN 3113. Business Japanese. Units: 3

Semester Prerequisite: JAPN 2111 AND JAPN 2112 or consent of department. Prerequisite: JAPN 203 or consent of department
Introduction to business vocabulary and grammatical structure of the Japanese language and discussion of Japanese culture in business settings. Materials fee required.

JAPN 3114. Japanese Literature. Units: 3

Semester Prerequisite: JAPN 2111 and JAPN 2112. Quarter Prerequisite: JAPN 203 or consent of department
Techniques of literary study and analysis. Emphasis on vocabulary development, written expression and comprehension. Materials fee required. Formerly JAPN 310.

JAPN 3150. Japanese Conversation Lab. Unit: 1

Semester Prerequisite: JAPN 2111 and JAPN 2112 or consent of department. Quarter Prerequisite: JAPN 203 or consent of department
Systematic practice to improve Japanese conversation, which include vocabulary, grammar, and presentation strategies. May be repeated for credit up to a maximum of 4 units.

JAPN 3160. Japanese Writing Lab. Unit: 1

Semester Prerequisite: JAPN 2111 and JAPN 2112 or consent of department. Quarter Prerequisite: JAPN 203 or consent of department
Systematic practice to achieve pre-advanced level Japanese writing, which includes Kanji, vocabulary and grammar. May be repeated for credit up to a maximum of 4 units.

JAPN 3204. Advanced Conversation in Japanese. Units: 3

Semester Prerequisite: JAPN 2111 AND JAPN 2112 or consent of department. Quarter Prerequisite: JAPN 203 or consent of department
Practice of contemporary spoken Japanese through the reading and discussion of current topics. Formerly JAPN 314. Materials fee required.

JAPN 3500. Japanese Civilization and Culture. Units: 3

Introduction and exploration of characteristic features of Japanese civilization and culture from Neolithic age to 1945 A.D. through studying selected topics and themes in fields such as art, literature, religion. Materials fee required.

JAPN 3701. Study Abroad in Japan. Unit: 1

Research project based on traveling or living in Japan. When study is associated with an academic program, copies of grades, syllabus, and submitted work may substitute for research project. Department consent required. May be repeated 6 times for a total of 6 units. Formerly HUM 578.

JAPN 3702. Study Abroad in Japan. Units: 2

Research project based on traveling or living in Japan. When study is associated with an academic program, copies of grades, syllabus, and submitted work may substitute for research project. Departmental consent required. May repeat 3 times for a total of six units. Formerly HUM 578.

JAPN 3703. Study Abroad in Japan. Units: 3

Research project based on traveling or living in Japan. When study is associated with an academic program, copies of grades, syllabus, and submitted work may substitute for research project. Department consent required. May repeat twice for a total of six units. Formerly HUM 578.

JAPN 3900. Voices & Visions from the World of Japanese Anime and Manga. Units: 3

Exposure to a variety of anime and manga texts from the post-World War II period to the present, focusing on language and features unique to the genre. Examine, analyze, discuss narratives and selected topics in Japanese culture. Satisfies GE C4/UD-3, G, WI designations. Taught in English. Materials fee required.

JAPN 3950. Special Topics in Japanese Popular Culture. Units: 3

Introduction and analysis of the role of popular culture in the formation, creation, and exportation of "national" identity in East Asia with an emphasis on Japan. Satisfies GE category C4/UD-3, G designation, WI designation. Taught in English. Materials fee required. Can be taken two times for up to 6 units as topics change.

Kinesiology (KINE)

Courses

KINE 1010A. Individual and Dual Activities: Badminton. Unit: 1

Development of basic skills, techniques, rules and strategies through instruction and practice in a variety of individual and dual type sports and activities. Formerly known as KINE 101B; can be repeated for credit. Graded ABC/No Credit. Materials fee required.

KINE 1010B. Individual and Dual Activities: Pickleball. Unit: 1

Development of basic skills, techniques, rules and strategies through instruction and practice in a variety of individual and dual type sports and activities. Can be repeated for credit. Graded ABC/No Credit. Materials fee required.

KINE 1010D. Individual and Dual Activities: Bowling. Unit: 1

Open to all CSUSB students. Development of basic skills, techniques, rules, and strategies through instruction and practice in a variety of individual and dual type sports and activities. May be repeated for credit. Graded ABC/No Credit. Materials fee required.

KINE 1010E. Individual and Dual Activities: Tennis. Unit: 1

Development of basic skills, techniques, rules and strategies through instruction and practice in a variety of individual and dual type sports and activities. Formerly KINE 101S; can be repeated for credit. Graded ABC/No Credit. Materials fee required.

KINE 1140A. Physical Fitness and Conditioning Activities: Body Conditioning. Unit: 1

Principles, practices and individual evaluation in a variety of fitness and conditioning activities. Formerly KINE 114A; can be repeated for credit. Graded ABC/No Credit. Materials fee required.

KINE 1140B. Physical Fitness and Conditioning Activities: Independent Activity. Unit: 1

Open to all CSUSB students. Principles, practices and individual evaluation in a variety of fitness and conditioning activities. Can be repeated for credit. Graded ABC/No Credit.

KINE 1140C. Physical Fitness and Conditioning Activities: Jogging. Unit: 1

Principles, practices and individual evaluation in a variety of fitness and conditioning activities. Formerly KINE 114C; can be repeated for credit. Graded ABC/No Credit. Materials fee required.

KINE 1140D. Physical Fitness and Conditioning Activities: Weight Training. Unit: 1

Principles, practices and individual evaluation in a variety of fitness and conditioning activities. Formerly KINE 114E; can be repeated for credit. Graded ABC/No Credit. Materials fee required.

KINE 1140E. Physical Fitness and Conditioning Activities: Yoga. Unit: 1

Principles, practices and individual evaluation in a variety of fitness and conditioning activities. Formerly KINE 114F; can be repeated for credit. Graded ABC/No Credit. Materials fee required.

KINE 1200A. Somatic and Martial Arts Activities: Aikido. Unit: 1

Instruction and practice in the basic skills and techniques utilized in selected combative and martial arts movement forms. Formerly KINE 120A; can be repeated for credit. Graded ABC/No Credit. Materials fee required.

KINE 1200E. Somatic and Martial Arts Activities: Karate. Unit: 1

Instruction and practice in the basic skills and techniques utilized in selected combative and martial arts movement forms. Formerly known as KINE 120E; can be repeated for credit. Graded ABC/No Credit. Materials fee required.

KINE 1200F. Somatic and Martial Arts Activities: Self-Defense. Unit: 1

Instruction and practice in the basic skills and techniques utilized in selected combative and martial arts movement forms. Formerly known as KINE 120F; can be repeated for credit. Graded ABC/No Credit. Materials fee required.

KINE 1200G. Somatic and Martial Arts Activities: Cardio-Arts. Unit: 1

Instruction and practice in the basic skills and techniques utilized in selected combative and martial arts movement forms. Formerly known as KINE 120G; can repeat for credit. Graded ABC/No Credit. Materials fee required.

KINE 1200I. Somatic and Martial Arts Activities: Pilates. Unit: 1

Instruction and practice in the basic skills and techniques utilized in selected somatic and martial arts movement forms. Formerly known as KINE 120J; can repeat for credit. Graded ABC/No Credit. Materials fee required.

KINE 1210A. Team Activities: Basketball. Unit: 1

Basic skills, techniques, rules and strategies of selected team sports achieved through participation. Formerly known as KINE 121A; can be repeated for credit. Graded ABC/No credit. Materials fee required.

KINE 1210C. Team Activities: Soccer. Unit: 1

Basic skills, techniques, rules and strategies of selected team sports achieved through participation. Formerly known as KINE 121F; can be repeated for credit. Graded ABC/No credit. Materials fee required.

KINE 1210F. Team Activities: Volleyball. Unit: 1

Basic skills, techniques, rules and strategies of selected team sports achieved through participation. Formerly known as KINE 121K; can be repeated for credit. Graded ABC/No Credit. Materials fee required.

KINE 1370A. Aquatic Activities: Swimming. Unit: 1

Instruction and practice of basic skills and techniques used in aquatic activities. Formerly known as KINE 137J; students can repeat for credit. Graded ABC/No credit. Materials fee required.

KINE 1370E. Aquatic Activities: Advanced Swimming for Fitness. Unit: 1

Instruction and practice in the basic skills and techniques utilized in selected somatic and martial arts movement forms. Intended for those who have already taken an introductory swim class or who have prior swimming ability. Advanced swimming drills and lap swim workouts. Graded ABC/No Credit. Formerly known as KINE 137L; students can repeat for credit. Materials fee required.

KINE 1490. Independent Activity Project. Unit: 1

The course designed to meet the individual needs of a student who is not able to participate in the general Kinesiology physical activity program due to medical conditions or other extenuating circumstances. This course will provide an individually designed physical activity experience in a least restrictive environment. A Kinesiology faculty will supervise the activity experience. Consent of the instructor is required. Formerly known as KINE 149; can be repeated for credit. Graded ABC/No Credit. Materials fee required.

KINE 1500A. Dance Activities: Aerobic. Unit: 1

Development of proficiency and practice in basic dance skills including the exploration, expression and creativity of movement as utilized in a variety of dance forms. Formerly known as KINE 150A; can be repeated for credit. Graded ABC/No credit. Materials fee required.

KINE 1500B. Dance Activities: Low-Impact Aerobic. Unit: 1

Development of proficiency and practice in basic dance skills including the exploration, expression and creativity of movement as utilized in a variety of dance forms. Formerly known as KINE 150B; can be repeated for credit. Graded ABC/No credit. Materials fee required.

KINE 1500C. Dance Activities: Step Aerobic. Unit: 1

Development of proficiency and practice in basic dance skills including the exploration, expression and creativity of movement as utilized in a variety of dance forms. Formerly known as KINE 150C; can be repeated for credit. Graded ABC/No credit. Materials fee required.

KINE 1500D. Dance Activities: Ballet. Unit: 1

Development of proficiency and practice in basic dance skills including the exploration, expression and creativity of movement as utilized in a variety of dance forms. Formerly known as KINE 150D; can be repeated for credit. Graded ABC/No credit. Materials fee required.

KINE 1500F. Dance Activities: Jazz. Unit: 1

Development of proficiency and practice in basic dance skills including the exploration, expression and creativity of movement as utilized in a variety of dance forms. Formerly known as KINE 150F; can be repeated for credit. Graded ABC/No Credit. Materials fee required.

KINE 1500J. Dance Activities: Sampler. Unit: 1

Development of proficiency and practice in basic dance skills including the exploration, expression and creativity of movement as utilized in a variety of dance forms from classes 1500A-J. Formerly known as KINE 150; students can be repeated for credit. Graded as ABC/No Credit. Materials fee required.

KINE 1600. Women's Intercollegiate Activities. Unit: 1

Enrollment limited to members of women's intercollegiate sports such as volleyball, cross country, basketball, softball, soccer, and track & field. The intercollegiate activity units may not be substituted for physical education activity units in the undergraduate degree requirements. Formerly KINE 160; may be repeated for credit. Graded ABC/No Credit. Materials fee required.

KINE 1700. Special Topics Activities. Unit: 1

Open to all CSUSB students. Participation and instruction of special topics in physical activity which meet the dynamic needs and/or desires of the student population. The title to be specified in advance. May be repeated for credit. Graded ABC/No Credit. Materials fee required.

KINE 1900. Men's Intercollegiate Activities. Unit: 1

Enrollment limited to members of men's intercollegiate sports such as soccer, basketball, golf, and baseball. The intercollegiate activity units may not be substituted for physical education activity units in the undergraduate degree requirements. Formerly KINE 190; may be repeated for credit. Graded ABC/No Credit. Materials fee required.

KINE 2000. CPR and First Aid. Unit: 1

Introduction to the emergency care and treatment of illnesses and injuries including training in cardiopulmonary resuscitation (CPR). May lead to certification in Standard First Aid from the American Red Cross and/or CPR from the American Heart Association. Formerly known as KINE 200, students cannot receive credit for both.

KINE 2010. Introduction to Physical Activity and Health Promotion. Units: 3

This course provides a comprehensive introduction to the evidence-based principles underlying physical activity and health promotion. Students will explore the interdisciplinary nature of kinesiology, integrating concepts of the biological impacts of physical activity on the body's functioning and the complex interplay between chronic diseases, and the principles behind developing effective behavioral strategies for diverse populations. Not intended for kinesiology majors. May be combined with KINE 2010L. Satisfies GE B2/5B.

KINE 2010L. Introduction to Physical Activity and Health Promotion Laboratory. Unit: 1

Semester Corequisite: KINE 2010

This laboratory course provides a comprehensive introduction to applied principles of physical activity and health promotion. The analysis of health and physical activity data through a variety of assessments will be emphasized. Students will apply the interdisciplinary nature of physical activity and health through lab activities, which includes collaborative work, physical activity participation, and technology driven results. Not intended for kinesiology majors. May be combined with KINE 2010. Materials fee required. Satisfies GE B3/5C.

KINE 2050. Foundations for Lifetime Fitness and Wellness. Units: 3

Introduction and discussion of the interrelationship between physical fitness, wellness, and student success. Topics include: benefits associated with physical activity, development of healthier lifestyles, and physical fitness assessment, while developing academic and intellectual competence. Students will develop practical skills to enhance personal wellness and academic success through the examination of learning techniques and the utilization of the various university support facilities. Formerly offered as KINE 205.

KINE 2100. Orientation to Kinesiology. Units: 3

Provides a historical and philosophical analysis about the evolution of Kinesiology. This course introduces students to the influences of Kinesiology through the historical and philosophical lens of physical activity, movement behavior, as well as the broader cultural philosophical, political, intellectual, and economic patterns effecting the discipline and its sub-fields. Formerly offered as a combination of KINE 210 and KINE 310; student whom earned credit for KINE 210 and KINE 310 cannot earn credit for this course.

KINE 2200. Medical Terminology. Units: 3

Introduction to medical terminology using word building (roots, suffixes, prefixes, spelling and pronunciation) as they relate to anatomical structure and function. Medical terminology related to pharmacology, abnormal conditions, surgical procedures, and diagnosis and treatment of common medical conditions. This course is taught online.

KINE 2300. Prevention and Care of Athletic Injuries. Units: 3

Semester Prerequisite: BIOL 2230 and BIOL 2240. Quarter Prerequisite: BIOL 223 and BIOL 224

Theories and methods in the prevention, assessment, and treatment of injuries encountered in physical activity and sports. Formerly offered as KINE 305, students may not receive credit for both courses. Materials fee required.

KINE 2400. Applications of Technology in Kinesiology. Unit: 1

Examination and application of technology in exercise science, physical activity, and health. Content is consistent with skills necessary to prepare students for professions in the field of kinesiology. Formerly known as KINE 240, students may not receive credit for both. Materials fee required.

KINE 2500. Observational Field Experience in Kinesiology. Units: 2

Observational field experience (on or off-campus) in exercise testing, monitoring, and programming. The American College of Sports Medicine expects that new fitness professionals will have spent time observing practitioners. One hour lecture and three hours of observation. Formerly offered as KINE 493, students may not receive credit for both courses.

KINE 2540. Field Work in Physical Education and Adapted Physical Education. Units: 2

Supervised off-campus observational field experience in teaching physical education and adapted physical education. One hour of lecture and three hours of observation. Instructor consent is required. Formerly offered as KINE 254; May be taken four times for eight units.

KINE 2610. Teaching/Coaching Principles for Dance. Units: 2

The development of the fundamental techniques and skills for teaching and coaching professional dance activity preparation. Basic dance skills including the exploration, expression, and creativity of movement as utilized in a variety of dance forms. Formerly offered as KINE 261C; students may not earn credit for both. Materials fee required.

KINE 2611. Teaching/Coaching Principles for Gymnastics. Units: 2

The development of the fundamental techniques and skills for teaching and coaching professional gymnastics as well as organizational strategies utilized in presenting gymnastics in K-12 physical education classes. Formerly offered as KINE 261F; students may not earn credit for both. Materials fee required.

KINE 2612. Teaching/Coaching Principles for Swimming. Units: 2

Quarter Prerequisite: KINE 137A, KINE 137C, KINE 137J, KINE 137K or KINE 137L or Pass Swim Test

The development of the fundamental techniques and skills for teaching and coaching professional swimming and water safety instruction preparation. Instructions in individual aquatic skills, and in organizing a school aquatic program. Registering for this course does not ensure admittance; a swim test must be passed in order to remain in the class. If you do not pass the swim test, you will be removed from the class and will be required to take KINE 1370 before acceptance into this course. Formerly offered as KINE 261H. Students may not earn credit for both. Materials fee required.

KINE 2620. Teaching/Coaching Principles for Combative/Fitness Activity. Units: 3

The development of the fundamental techniques and skills for teaching and coaching professional combative and fitness activity. Consists of instruction, practice, and evaluation in physical fitness and basic skills and techniques utilized in selected combative and martial arts movement form. Two hours lecture and two hours activity. This course is a combination of KINE 261M and KINE 261N; students who earned credit for KINE 261M and KINE 261N may not earn credit for this course. Materials fee required.

KINE 2630. Teaching/Coaching Principles for Individual/Dual Sport. Units: 3

The development of the fundamental techniques and skills for teaching and coaching professional individual and dual sports. This course centers on the basic skills of selected individual and dual sports and strategies for successful performance in individual and dual sports. Two hours lecture and two hours activity. This course is a combination of KINE 261B and KINE 261J; students who earned credit for KINE 261B and 261J may not earn credit for this course. Materials fee required.

KINE 2640. Teaching/Coaching Principles for Team Sports. Units: 3

The development of the fundamental techniques and skills for teaching and coaching professional team sports. This course centers on the basic skills of selected team sports and strategies for successful performance in team sports. Two hours lecture and two hours activity. This course is a combination of KINE 263A, B, C, D, E; students who earned credit for four of the five courses listed may not earn credit this course. Materials fee required.

KINE 2650. Teaching/Coaching Principles for Fundamental Movement, Nontraditional Games. Units: 3

The development of the fundamental techniques and skills for teaching and coaching professional fundamental movement and nontraditional games activity preparation. This course identifies examples of nontraditional, global, and cooperative games and activities, and applies knowledge of how to promote critical thinking, decision making, problem solving, collaboration, cooperation, leadership, and communication through participation in non-traditional games and activities. Two hours lecture and two hours activity. Materials fee required.

KINE 2700. Introduction to Fitness and Programming. Units: 3

Understanding the scientific basis for assessing physical conditioning, fitness, and strength development. Acquisition of the skills and techniques necessary for designing and evaluating fitness programs for specific applications. Students will show a valid American Red Cross or American Heart Association CPR certification for completion of the course. Formerly known as KINE 270; students may not earn credit for both. Materials fee required.

KINE 3000. Exercise and well-being of the human body. Units: 3

Semester Prerequisite: Junior or senior standing

This course will cover foundational links between scientific disciplines relating exercise, mental health, and overall well-being of the human body. Students will take a problem-oriented approach to explore, analyze, and explain the role of exercise and its impact on the overall well-being of the human body. An emphasis will be placed on the biopsychological, biological, biochemical, and physiological mechanisms underlying how exercise shapes an individual's well-being. Students will be able to explore, engage in, and analyze various exercises that have known relationships with reducing stress, reducing anxiety, and promoting a healthy well-being. The use of technology will be incorporated to collect, analyze, and interpret physiological and psychological data. Satisfies GE B5/UD-5.

KINE 3011. Service Learning in Kinesiology. Unit: 1

Semester Prerequisite: KINE 2100. Quarter Prerequisite: KINE 210
Supervised activities in Kinesiology that provide service to campus or community constituents based on field experiences for students to link their coursework with the discipline of Kinesiology. Graded ABC/No Credit. Formerly known as KINE 301; repeatable for credit.

KINE 3050. Disability, Society and Physical Activity. Units: 3

This course will cover material related to disabilities and physical activity from a historical, societal, and social behavioral perspective. Students will be able to explore, develop, analyze, and integrate the social and physical aspects of disabilities. Emphasis will also be placed on the exploration of differing perspectives while making connections across disciplines. Social identities of race, class, gender, sexual orientation, and other conditions will be explored. Satisfies GE D4/UD-4, DI designation.

KINE 3100. Introduction to Adapted Physical Activity. Units: 3

Provides an overview of adapted physical activity. Understanding the basic concepts and issues about teaching/coaching/training individuals with various disabling conditions. Formerly offered as KINE 311; students cannot earn credit for both.

KINE 3200. Principles of Human Movement. Units: 3

Semester Prerequisite: BIOL 2230 and BIOL 2240
Basic mechanical principles and their application in the study of human movement and an introduction to basic principles of biomechanics.

KINE 3250. Exercise Techniques for Resistance Training. Units: 3

Semester Prerequisite: BIOL 2230 and BIOL 2240. Prerequisite: BIOL 223 and BIOL 224

The students will explore a variety of exercises relating to the development of muscular strength, endurance, and power using a variety of equipment, including free weights and resistance machines. Emphasis on the practical and appropriate application, instruction, and supervision of resistance exercise lifting and spotting techniques to accommodate a variety of clients and patients. Content is consistent with skills necessary to prepare students as health and fitness professionals by the American College of Sports Medicine, National Strength and Conditioning Association, and the United States Registry of Exercise Professionals. Two lecture hours and three lab hours. It is recommended to take KINE 3200 prior to this course. Materials fee required.

KINE 3300. Movement Skill Assessment for Individuals with Disabilities. Units: 3

Semester Prerequisite: KINE 3100. Quarter Prerequisite: KINE 311
Analysis of motor skills for the purpose of conducting meaningful assessment for individuals with disabilities. Formerly offered as KINE 330, students may not receive credit for both courses. Course required for the California Adapted Physical Education Added Authorization.

KINE 3320. The Nature and Issues Concerning Individuals with Disabilities. Units: 3

Semester Prerequisite: KINE 3100
Key initial adapted physical education core competencies about the nature and issues associated with disabling conditions across the lifespan. Formerly offered as KINE 332, students may not receive credit for both. Course required for the California Adapted Physical Education Specialist Credential.

KINE 3330. Applied Behavior Management. Units: 3

Applied behavior management and analysis strategies that have relevance and application to teaching physical education. Strategies to manage, motivate, and teach responsible behaviors in a variety of physical activity settings for individuals with and without disabilities. Emphasis is on single-subject applied research design. Formerly offered as KINE 333, students may not receive credit for both. Course required for the California Adapted Physical Education Specialist Credential.

KINE 3400. Psychology and Sociology of Human Movement. Units: 3

The theoretical foundations and practical applications of psychological and social concepts of sport, exercise, rehabilitation, and physical activity. Discussion topics relate to psychological components of human movement as well as components relating to social interactions and social institutions. Formerly offered as combination of KINE 323 and KINE 324, students may not receive credit for both.

KINE 3500. Motor Development Across the Lifespan. Units: 3

Concepts of growth and motor development of human beings throughout the lifespan. Focuses on physical growth and maturation and their relationships to motor behavior. Areas covered include prenatal and postnatal growth, maturation, development, sequential progression of fundamental motor skills, environmental factors that influence the teaching/learning of fundamental motor skills, and physical activity of individuals across a lifespan. Formerly offered as KINE 325; students may not receive credit for both courses.

KINE 3510. Research Seminar in Kinesiology. Unit: 1

Discussion and critical analysis of peer-reviewed articles in the area of Kinesiology.

KINE 3520. Movement for Children. Units: 2

The study and analysis of movement for children. Includes the structure of movement, the integration of movement activities and the human development aspects of movement. Formerly known as KINE 352, students may not receive credit for both.

KINE 3600. Physical Activity and Aging. Units: 3

Examination of the neurological and physiological changes associated with the aging process from post-adolescence through the senior years. Includes information concerning special planning, implementing and evaluation of adult oriented physical activity programs. Formerly offered as KINE 360; students may not earn credit for both courses.

KINE 3700. Statistics in Kinesiology. Units: 3

Selection, application and interpretation of evaluative measures used in pedagogical and in exercise science settings. Includes both descriptive and inferential statistics. Specific attention will be given to parametric techniques. Satisfies WI designation. Formerly offered as KINE 370, students may not receive credit for both.

KINE 3800. Exercise Physiology. Units: 4

Semester Prerequisite: BIOL 2230 and BIOL 2240. Quarter Prerequisite: BIOL 223 and BIOL 224

Examination of the acute physiological effects of exercise and the adaptations resulting from regular exercise. Three hours of lecture and three hours of laboratory. Formerly offered as KINE 481; students may not receive credit for both course. Materials fee required.

KINE 3810. Sport and Exercise Nutrition. Units: 3

Discusses nutritional requirements for active people and athletes. Topics include nutritional requirements for exercise, nutrient timing, macronutrients, micronutrients, and popular sports nutrition supplements. Formerly offered as KINE 382 and HSCI 382; students may not earn credit for both courses. It is recommended to take BIOL 2240 prior to this course.

KINE 3900. Health and Fitness Business Management. Units: 3

Discusses business management as related to the health/fitness/wellness industry. Topics include budgeting, finance, marketing, sales, leadership, management, human resources, scheduling, evaluation of programs, and legal issues. Formerly offered as KINE 471, students may not receive credit for both courses.

KINE 4100. Motor Learning and Control. Units: 3

A behavioral and neurological level of analysis of the factors that influence the (re)acquisition and retention of motor skills with some emphasis on the role of the sensory and motor control systems. Formerly KINE 410, students may not receive credit for both.

KINE 4200. Seminar in Kinesiology. Unit: 1

Semester Prerequisite: Senior standing. Quarter Prerequisite: Senior standing

This course provides students with the opportunity to demonstrate knowledge and understanding of various concepts and issues about the profession and discipline of Kinesiology. Formerly known as KINE 490, cannot repeat for credit. Consent of Department required.

KINE 4300. Environmental Exercise Physiology. Units: 3

Semester Prerequisite: KINE 3800. Prerequisite: KINE 481

An examination of the acute and chronic physiological responses to exercise in different physical environments as well as injuries and illnesses related to exercising in environmental extremes.

KINE 4400. Exercise Testing and Prescription. Units: 4

Semester Prerequisite: KINE 3800. Quarter Prerequisite: KINE 481, KINE 485, and KINE 486

Prepares students to perform health screenings, operate basic physiological measurement equipment used in fitness assessment, and develop exercise prescriptions for a variety of populations. Content is consistent with skills necessary to prepare students as exercise physiologists by the American College of Sports Medicine and the United States Registry for Exercise Professionals. Formerly offered as a combination of KINE 486 and KINE 483; students whom earned credit for KINE 486 and KINE 483 may not earn credit for this courses. Three hours of lecture and three hours of lab. Materials fee required.

KINE 4500. Principles of Strength and Conditioning. Units: 3

Semester Prerequisite: KINE 3200 and KINE 3800. Prerequisite: KINE 481

An examination of the acute and chronic effects of various forms of strength training and conditioning in the generally healthy individual. Content is consistent with skills necessary to prepare students as health and fitness professionals by the National Strength and Conditioning Association and the United States Registry of Exercise Professionals.

KINE 4600. EKG Interpretation and Stress Testing. Units: 4

Quarter Prerequisite: KINE 481

Principles of electrocardiography, including EKG interpretation at rest and during graded exercise testing. Content is consistent with skills necessary to prepare students as exercise physiologist by the American College of Sports Medicine and United States Registry of Exercise Professionals. Formerly offered as a combination of KINE 485 and KINE 486; students whom earned credit for KINE 485 and KINE 486 may not earn credit for this course. # Three hours lecture and three hours lab. Materials fee required.

KINE 4700. Clinical Exercise Physiology. Units: 4

Semester Prerequisite: KINE 3800. Prerequisite: KINE 481

An examination of the physiological issues that are important in the use of exercise for prevention and/or treatment of chronic disorders. Content is consistent with skills necessary to prepare students as an exercise physiologist by the American College of Sports Medicine and the United States Registry of Exercise Professionals. Three hours lecture and three hours lab hour. Materials fee required.

KINE 4720. Program Design in Physical Education. Units: 3

Quarter Prerequisite: KINE 210

Basic skills necessary to design, implement, and evaluate effective physical education programs in public schools. Formerly KINE 472, cannot be repeated for course credit.

KINE 4730. Instructional Strategies in Physical Education. Units: 3

Prepares future physical educators with skills to translate goals and objectives in the teaching-learning process into effective teaching behaviors. Formerly KINE 473, cannot be repeated for course credit.

KINE 4740. Technology in Physical Activity. Units: 3

Prepares future Kinesiologists to effectively utilize technology to assist in the administration and evaluation of physical activity. This course focuses on the ever growing utilization of technology in the realm of kinesiology.

KINE 4800. Biomechanics. Units: 4

Semester Prerequisite: Completion of GE category B4, and KINE 3200. Quarter Prerequisite: BIOL 223 and BIOL 224 and MATH 110 or MATH 120, OR MATH 192, OR MATH 211

Application of physical laws to human performance; analytical and quantitative processes emphasized. Formerly offered as KINE 480, students may not receive credit for both courses. Three hours Lecture and three hours lab. GE B4- MATH 1301 is recommended for this course. Materials fee required.

KINE 4900. Seminar in Physical Education and Adapted Physical Education. Units: 3

Semester Prerequisite: KINE 2540 and KINE 3100 and completion of a minimum of 90 semester units. Quarter Prerequisite: Senior standing. A study of issues associated with the philosophy, procedures, and practices of general physical education, adapted physical education and adapted physical activity. Course required for the California Adapted Physical Education Added Authorization. Formerly a combination of KINE 334 and KINE 490; students who earn credit for KINE 334 and KINE 490 may not earn credit for this course.

KINE 5951. Independent Study. Unit: 1

Experimental effort, field or library research conducted under the direction of a faculty member. Consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the semester in which the course is to be taken is required. Formerly offered as KINE 595A; students may repeat up to 3 units. A maximum of 3 units course credit can be earned of KINE 595 series.

KINE 5952. Independent Study. Units: 2

Experimental effort, field or library research conducted under the direction of a faculty member. Consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the semester in which the course is to be taken is required. Formerly offered as KINE 595B; students may not earn credit for both courses. A maximum of 3 units course credit can be earned of KINE 595 series.

KINE 5953. Independent Study. Units: 3

Experimental effort, field or library research conducted under the direction of a faculty member. Consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the semester in which the course is to be taken is required. Formerly offered as KINE 595C, students may not receive credit for both courses.

Korean (KOR)

Courses

KOR 1111. Beginning Korean I. Units: 3

Introduction to beginning level Korean, including the basic structures of the written language. Emphasis is on listening, speaking, reading and writing. Formerly KOR 101. Materials fee required.

KOR 1112. Beginning Korean 2. Units: 3

Semester Prerequisite: 2 years high school language study, placement exam, equivalent college-level course (eg KOR 1111) or consent of department

Develop listening and active speaking skills with emphasis on reading and writing. Satisfies GE C2/3B, DI, G designations. Materials fee required.

KOR 1114. Conversation in Korean I. Units: 3

Practice of oral Korean with emphasis on familiar surroundings, immediate needs, and basic survival skills. Graded credit/no credit. May be completed up to two times for credit. Formerly offered as KOR 170. Materials fee required.

KOR 2111. Intermediate Korean I. Units: 4

Semester Prerequisite: KOR 1112 or consent of department. Quarter Prerequisite: KOR 103 or consent of department

Second year course in modern Korean. Develops proficiency in listening, speaking, reading and writing, with a cultural emphasis. Students learn useful expressions and communication strategies for everyday situations in the language. Materials fee required. Formerly KOR 201.

KOR 2112. Intermediate Korean II. Units: 4

Semester Prerequisite: KOR 2111 or consent of department. Quarter Prerequisite: KOR 201 or consent of department

Continuation of second year Korean. Provides students with further conversational and grammatical skills beyond those learned in KOR 2111. Emphasis on communicative skills, speaking, reading, and writing with more complex structures in Korean. Formerly KOR 203. Materials fee required.

KOR 2204. Conversation in Korean. Units: 3

Semester Prerequisite: KOR 1112 or consent of department. Quarter Prerequisite: KOR 103

Practice of oral Korean including current topics, panel discussions, debates, and oral presentations. Students will become familiar with day-to-day social and business expressions. Formerly KOR 214. Materials fee required.

KOR 2900. Korean Literature in English. Units: 3

Introduction to Korean literature written in English translation. Students will explore selections of literary texts chosen from various periods with topics concerning Korean language, history, religion, and society. Satisfies GE category C2; DI designation; G designation. Materials fee required.

KOR 3111. Advanced Korean I. Units: 3

Semester Prerequisite: KOR 2112 or consent of department. First course in an advanced-level sequence. Develops students' oral and written Korean language skills, as well as knowledge of Korean culture. Materials fee required. Formerly KOR 301.

KOR 3112. Advanced Korean II. Units: 3

Semester Prerequisite: KOR 3111 or consent of department. Second course in an advanced-level sequence. Develops students' oral and written Korean language skills, as well as knowledge of Korean culture. Materials fee required. Formerly KOR 302.

KOR 3314. Korean Conversation III. Units: 3

Semester Prerequisite: KOR 2202 or consent of instructor. Quarter Prerequisite: KOR 203 or consent of instructor
Practice of contemporary spoken Korean through the reading and discussion of current topics. Formerly offered as KOR 314. Materials fee required.

KOR 3370. Studies in Korean. Units: 3

Semester Prerequisite: KOR 1101 or equivalent
Studies in different aspects of Korean culture such as tradition, ritual, art, film, religion, politics, and food. Variable topic course, may be repeated for credit. Materials fee required.

KOR 3950. Korean Language and Society. Units: 3

Semester Prerequisite: KOR 2112 or consent of department. Quarter Prerequisite: KOR 203 or equivalent
Study of how language functions in traditional and contemporary Korean society. Analysis of politeness, gender, language attitudes, the mechanics of cross-cultural misunderstandings, and how language incorporates Korean social constructs. Formerly KOR 315. Materials fee required.

KOR 4250. Studies in Korean Culture. Units: 3

Semester Prerequisite: Korean 1101 or equivalent
Studies in different aspects of Korean culture such as tradition, ritual, art, film, religion, politics, and cuisine. Variable topic course, may be repeated for credit. Materials fee required.

KOR 4409. Business Korean. Units: 3

Semester Prerequisite: KOR 2112 or consent of department. Quarter Prerequisite: KOR 203 or consent of department
Introduction to business vocabulary and grammatical structure of the Korean language and discussion of Korean culture in business settings. Formerly KOR 409. Materials fee required.

Latin American Studies (LAS)

Courses

LAS 2000. Introduction to Latin American Studies. Units: 3

This course introduces issues related to Latin America from different perspectives as well as some of the foundations for the disciplines in the Latin American Studies Minor. Students will explore themes relevant to Latin America, such as transnationalism, community, identity, language, place and power. Satisfies GE D3/4; G designation.

Luiseño (LUIS)

Courses

LUIS 1111. Language Study I: Luiseño. Units: 3

Introduction to Luiseño language. Fundamentals of pronunciation, structure and culture designed to develop the ability to use and understand the language. Formerly FLAN 101Q. Materials fee required.

LUIS 1112. Language Study II: Luiseño. Units: 3

Semester Prerequisite: LUIS 1111 or 2 years high school language study, placement exam, equivalent college-level course or consent of department
Intermediate study in Luiseño language. Emphasis on oral and written competency at the intermediate level in a cultural context. Satisfies GE C2/3B, DI, G designations. Materials fee required.

LUIS 2111. Language Study III: Luiseño. Units: 3

Semester Prerequisite: LUIS 1112: Language Study II Luiseño (formerly FLAN 103Q). Quarter Prerequisite: FLAN 103Q or consent of department
Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis. Formerly FLAN 201Q. Materials fee required.

LUIS 2112. Language Study IV: Luiseño. Units: 3

Semester Prerequisite: LUIS 2111Q: Language Study III Luiseño. Quarter Prerequisite: FLAN 201Q or consent of department
Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis. Formerly FLAN 202Q. Materials fee required.

LUIS 3111. Language Study V: Luiseño. Units: 3

Semester Prerequisite: LUIS 2112 or instructor consent
Continued study of the language to develop proficiency. Focus on authentic language and culture, as well as academic and professional contexts. Materials fee.

LUIS 3112. Language Study VI: Luiseño. Units: 3

Semester Prerequisite: LUIS 3111 or instructor consent
Continued study of the language to develop proficiency. Focus on authentic language and culture, as well as academic and professional contexts. Materials fee required.

Mathematics (MATH)

Courses

MATH 1001L. Quantitative Reasoning Lab. Unit: 1

Instruction and practice in quantitative reasoning. Topics include advanced place value reasoning, efficient estimation and mental computation, units of measure, advanced proportional reasoning, communicating quantitative information verbally and visually, mathematical technology. Activities may include computer-aided instruction. Placement determined by campus placement standards and consultation with an advisor. Recommended for students in General Education QR courses, statistics courses, or other quantitative methods courses in other disciplines. Graded Credit/No Credit.

MATH 1101. Mathematics and Society. Units: 3

Fundamentals of mathematics with applications to issues of personal and civic life. Personal finance, and topics such as voting and social choice, data science, chance. Use of spreadsheets and other technologies for visualization, experimentation, and problem solving. Placement determined by campus placement standards and advising. Satisfies GE B4/2.

MATH 1102. Stretch Mathematics and Society A. Units: 3

Fundamentals of mathematics with applications to issues of personal and civic life. Use of spreadsheets and other technologies for visualization, experimentation, and problem solving. First term of a two-term version of Math 1101. Successful completion of the two-term sequence Math 1102-1103 satisfies the GE B4/2. Placement determined by campus placement standards and consultation with an advisor. May not be taken for credit by students who have completed Math 1101, 115, 116A or 117B. Graded A through C-/No Credit.

MATH 1103. Stretch Mathematics and Society B. Units: 3

Quarter Prerequisite: MATH 116A or MATH 117B

Fundamentals of mathematics with applications to issues of personal and civic life. Use of spreadsheets and other technologies for visualization, experimentation, and problem solving. Second term of a two-term version of Math 1101. Successful completion of the two-term sequence Math 1102-1103 satisfies GE B4/2. Placement determined by campus placement standards and consultation with an advisor. May not be taken for credit by students who have completed Math 1101, 115, 116B or 117C. Graded A through C-/No Credit.

MATH 1104. Mathematics and Society with Support Lab. Units: 4

Fundamentals of mathematics with applications to issues of personal and civic life. Personal finance, and topics such as voting and social choice, data science, and chance. Use of spreadsheets and other technologies for visualization, experimentation, and problem solving. Three hours lecture and three hours lab. Placement determined by campus placement standards and advising. May not be taken for credit by students who have completed Math 1101, Math 1103 or Math 115. Graded A through C-/no credit. Satisfies GE B4/2.

MATH 1201. Introduction to Statistical Thinking. Units: 3

Introductory statistics with applications to a variety of disciplines. Critical thinking about real data, methods of analysis, and implications. Topics: collection, organization and representation of data, including sampling and experimental design; inferences, predictions, and arguments based on data, including correlation, confidence intervals, and hypothesis testing; and basic notions of chance and probability. Use of technology for displaying and analyzing data. Placement determined by campus placement standards and advising. Graded A through C-/No Credit. Satisfies GE B4/2.

MATH 1202. Stretch Introduction to Statistical Thinking A. Units: 3

Introductory statistics with applications to a variety of disciplines. Critical thinking about real data, methods of analysis, and implications. Use of technology for displaying and analyzing data. First term of a two-term version of Math 1201. Successful completion of the two-term sequence Math 1202-1203 satisfies GE B4/2. Placement determined by campus placement standards and advising. May not be taken for credit by students who have completed Math 1201 or Math 165. Graded A through C-/No Credit.

MATH 1203. Stretch Introduction to Statistical Thinking B. Units: 3

Introductory statistics with applications to a variety of disciplines. Critical thinking about real data, methods of analysis, and implications. Use of technology for displaying and analyzing data. Second term of a two-term version of Math 1201. Successful completion of the two-term sequence Math 1202-1203 satisfies GE B4/2. Placement determined by campus placement standards and advising. May not be taken for credit by students who have completed Math 1201 or Math 165. Graded A through C-/No Credit.

MATH 1204. Introduction to Statistical Thinking with Support Lab. Units: 4

Introductory statistics with applications to a variety of disciplines. Critical thinking about real data, methods of analysis, and implications. Topics: collection, organization and representation of data, including sampling and experimental design; inferences, predictions, and arguments based on data, including correlation, confidence intervals, and hypothesis testing; and basic notions of chance and probability. Use of technology for displaying and analyzing data. Three hours lecture and three hours lab. Placement determined by campus placement standards and advising. May not be taken for credit by students who have completed MATH 1201, 1203 or 165. Graded A through C-/No Credit. Satisfies GE B4/2.

MATH 1301. Modeling with Functions. Units: 3

Algebraic and geometric concepts of functions of one variable, including linear, exponential, logarithmic, and power functions. Applications to business, government, science, and other fields. Use of spreadsheets and other technologies for visualization, experimentation, and problem solving. Placement determined by campus placement standards and advising. Previously offered as MATH 110, students may not receive credit for both. Graded A through C-/No Credit. Satisfies GE B4/2.

MATH 1302. Stretch Modeling with Functions A. Units: 3

Algebraic and geometric concepts of functions of one variable, including linear, exponential, logarithmic, and power functions. Applications to business, government, science, and other fields. Use of spreadsheets and other technologies for visualization, experimentation, and problem solving. First term of a two-term version of Math 1301. Successful completion of the two-term sequence Math 1302-1303 satisfies GE B4/2. Placement determined by campus placement standards and advising. May not be taken for credit by students who have completed Math 1301, Math 110, Math 111A or Math 112B. Graded A through C-/No Credit.

MATH 1303. Stretch Modeling with Functions B. Units: 3

Semester Prerequisite: MATH 1302

Algebraic and geometric concepts of functions of one variable, including linear, exponential, logarithmic, and power functions. Applications to business, government, science, and other fields. Use of spreadsheets and other technologies for visualization, experimentation, and problem solving. Second term of a two-term version of Math 1301. Successful completion of the two-term sequence Math 1302-1303 satisfies GE B4/2. Placement determined by campus placement standards and advising. May not be taken for credit by students who have completed Math 1301, Math 110, Math 111B or Math 112C. Graded A through C-/No Credit.

MATH 1304. Modeling with Functions with Support Lab. Units: 4

Algebraic and geometric concepts of functions of one variable, including linear, exponential, logarithmic, and power functions. Applications to business, government, science, and other fields. Use of spreadsheets and other technologies for visualization, experimentation, and problem solving. Three hours lecture and three hours lab. Placement determined by campus placement standards and advising. May not be taken for credit by students who have completed MATH 1301, 1303 or 110. Graded A through C-/No Credit. Satisfies GE B4/2.

MATH 1401. Accelerated Preparation for Calculus. Units: 4

An accelerated course covering the content of Math 1402 and 1403 in one term. Algebraic and geometric concepts and skills needed for calculus. The algebra of functions, including linear, exponential, logarithmic, trigonometric, polynomial, and rational functions. Use of mathematical technologies for visualization, experimentation, and problem solving. Directed self-placement in this course is based on campus placement standards, mathematics department assessments, and advising. Formerly offered as the MATH 110, MATH 120 sequence. May not be taken for credit by students who have completed MATH 120 or MATH 1403. Graded A through C-/no credit. Satisfies GE Category B4.

MATH 1402. Preparation for Calculus A. Units: 3

Algebraic and geometric concepts and skills needed for calculus. The algebra of expressions, equations and functions, including linear, exponential, logarithmic, and polynomial functions. Use of mathematical technologies for visualization, experimentation, and problem solving. Directed self-placement in this course is based on campus placement standards, mathematics department assessments and consultation with an advisor. May not be taken for credit by students who have completed Math 1401 or Math 120. Graded A through C-/no credit. Satisfies GE B4/2.

MATH 1402L. Preparation for Calculus A Lab. Unit: 1

Semester Corequisite: Math 1402

Additional instruction in algebraic and geometric concepts and skills needed for calculus, including the algebra of expressions, equations and functions. Use of mathematical technologies for visualization, experimentation, and problem solving. Directed self-placement in this course is based on campus placement standards, mathematics department assessments and consultation with an advisor. May not be taken for credit by students who have completed Math 1401, 1402, 1403 or Math 120. Graded credit/no credit.

MATH 1403. Preparation for Calculus B. Units: 3

Semester Prerequisite: MATH 1402

Algebraic and geometric concepts and skills needed for calculus. The algebra of functions, including linear, trigonometric functions, rational functions and their limits. Use of mathematical technologies for visualization, experimentation, and problem solving. Directed self-placement in this course is based on campus placement standards, mathematics department assessments and consultation with an advisor. May not be taken for credit by students who have completed Math 1401 or Math 120. Graded A through C-/no credit. Satisfies GE B4/2.

MATH 1403L. Preparation for Calculus B Lab. Unit: 1

Semester Corequisite: Math 1403

Additional instruction in algebraic and geometric concepts and skills needed for calculus, including including trigonometric functions, rational functions and their limits. Use of mathematical technologies for visualization, experimentation, and problem solving. Directed self-placement in this course is based on campus placement standards, mathematics department assessments and consultation with an advisor. May not be taken for credit by students who have completed Math 1401, 1403 or Math 120. Graded credit/no credit.

MATH 1501. Critical Thinking Through Applications of Mathematical Logic. Units: 3

Analysis of formal and informal arguments from a wide range of examples drawn from everyday and mathematical contexts. Comparison of logic in natural and mathematical language. Inductive and deductive reasoning. Students will present and critique arguments in small peer groups. Formerly offered as MATH 180, students may not receive credit for both courses. Satisfies GE A3/1B.

MATH 1601. Modeling with Calculus. Units: 3

Semester Prerequisite: MATH 1301 or MATH 1303 or MATH 1401 or MATH 1402 or equivalent or satisfactory placement status
Survey of differential and integral calculus with emphasis on conceptual understanding and modeling the world around us. Use of mathematical technologies for visualization, experimentation, and problem solving. Not a substitute for any course in the calculus sequence MATH 2210, MATH 2220, MATH 2310, MATH 2320. Satisfies GE B4/2.

MATH 2210. Calculus I. Units: 4

Semester Prerequisite: Math 1401 or Math 1403 or satisfactory score on department placement exam
Differentiation of functions in one variable with an emphasis on conceptual understanding, problem solving, multidisciplinary applications, and use of technology for numerical methods and graphical representation. Topics will include limits, continuity, derivatives, modeling, optimization, and related rates. Additional topics include definite and indefinite integrals and the Fundamental Theorem of Calculus. Satisfies GE B4/2.

MATH 2210L. Calculus I Lab. Unit: 1

Semester Corequisite: Math 2210

Additional instruction in algebraic and geometric concepts and skills needed for Calculus I. Use of mathematical technologies for visualization, experimentation, and problem solving. Recommended for students registered in Math 2210. Directed self-placement in this course is based on campus placement standards, mathematics department assessments and consultation with an advisor. May not be taken for credit by students who have completed Math 211 or Math 2210. Graded Credit/No Credit.

MATH 2220. Calculus II. Units: 4

Semester Prerequisite: MATH 2210 or MATH 2120Q2S with a grade of C- (1.7) or better

Integration of functions in one variable with an emphasis on conceptual understanding, problem solving, multidisciplinary applications, and use of technology for numerical methods and graphical representation. Topics will include definite and indefinite integrals, applications of integration, modeling, techniques of integration, numerical integration, sequences and series, power series, parametric equations, and polar coordinates. Formerly offered as part of the MATH 211, 212, 213 sequence. Students may not earn credit for both MATH 213 and MATH 2220.

MATH 2220L. Calculus II Lab. Unit: 1

Semester Corequisite: Math 2220

Additional instruction in algebraic and geometric concepts and skills needed for Calculus II. Use of mathematical technologies for visualization, experimentation, and problem solving. Recommended for students registered in Math 2220. Directed self-placement in this course is based on campus placement standards, mathematics department assessments and consultation with an advisor. May not be taken for credit by students who have completed Math 212 or Math 2220. Graded Credit/No Credit.

MATH 2229L. Two-Dimensional Geometry Lab. Unit: 1

Two-dimensional geometry using technology and hands-on constructions. Topics include Euclidean geometry constructions, transformations, graphs of functions, parametrized curves. Recommended for students in or preparing for calculus, Math 3329, and future secondary teachers. Graded Credit/No Credit.

MATH 2239L. Three-Dimensional Geometry Lab. Unit: 1

Prerequisites: Math 2229L. Graded Credit/No Credit

Three-dimensional geometry using technology and hands-on constructions. Topics include lines and planes, polyhedra, curves and surfaces, graphs of functions of several variables, vector computations. Recommended for students in Math 2310, Math 2320, and future secondary teachers. Recommended.

MATH 2265. Statistics with Applications. Units: 3

Semester Prerequisite: MATH 2210 as a pre- or co-requisite. Quarter Prerequisite: MATH 211 as a pre- or co-requisite

Acquisition, organization, evaluation, and visual representation of data. Multivariate data, correlation, and regression. Estimation of parameters. Inference, including classical hypothesis testing. Computer-based simulations and the use of resampling methods. Emphasis on applications to real data. Formerly MATH 262; students may not earn credit for both.

MATH 2270. Differential Equations with Dynamical Systems I. Units: 3

Semester Prerequisite: MATH 2310. Quarter Prerequisite: MATH 251

Differential equations theory and applications. First-order linear and nonlinear differential equations with analytic and numerical techniques. Planar and higher order systems of linear differential equations with constant coefficients. Slope fields and phase portraits. Formerly Math 270; students may not earn credit for both.

MATH 2310. Applied Linear Algebra. Units: 4

Semester Prerequisite: MATH 2210 with a grade of C- or better; and MATH 2220 as a pre- or co-requisite. Quarter Prerequisite: MATH 212 with a grade of C- or better

Introduction to the algebra and geometry of vectors and matrices over the real numbers with an emphasis on conceptual understanding and applications. Topics will include solving systems of linear equations, linear transformations, eigenvalues and eigenvectors, vector products, orthogonal projections, and vector parametrizations of curves in two and three dimensions. Applications of these topics may include computer graphics, electrical networks, difference equations, dynamical systems, and economics. Students should expect to make appropriate use of technology for visualization and computation. Formerly part of MATH 251 and MATH 331; students may not earn credit for both MATH 2310 and MATH 331.

MATH 2320. Multivariable Calculus. Units: 4

Semester Prerequisite: MATH 2220 and MATH 2310 with a grade of C- or better. Quarter Prerequisite: MATH 251 and MATH 213 with a grade of C- or better

An extension of the notions of differentiation and integration to functions of several variables, vector analysis, and applications. Applications of differentiation will include linear approximation, directional derivatives, and optimization. Applications of integration will include area, volume, and other physical applications such as centers of mass, work, and flux.

The course culminates with important theorems in vector analysis, in particular, those of Gauss, Green, and Stokes. Formerly part of the MATH 251 and MATH 252 sequence; students may not earn credit for MATH 2320 and MATH 252.

MATH 2372. Discrete Mathematics. Units: 3

Semester Prerequisite: Completion of the Quantitative Reasoning General Education requirement. Quarter Prerequisite: Completion of the general education requirement in mathematics

Introduction to the study and use of discrete mathematical structures including number systems and bases, propositional logic, sets, Boolean algebra, functions and relations, and induction. Additional topics may include graph theory and asymptotic notation as time permits. May not be counted toward fulfilling requirements in the mathematics major. Formerly Math 272. Formerly Math 2720. May not be taken for credit by students who have completed Math 272 or Math 2720.

MATH 2900. Problem Solving and Mathematical Reasoning for Teachers I. Units: 4

Semester Prerequisite: MATH 1401 or MATH 1403 or MATH 2210.

Quarter Prerequisite: MATH 120 or MATH 211

Development of problem solving skills for future secondary teachers that foster mathematical habits of mind and practices. Incorporation of technological tools for teaching and learning secondary school mathematics. Emphasis on flexible thinking with a variety of strategies and representations. Topics include numerical reasoning, algebraic thinking, proportional reasoning and structure of number systems with connections to geometry. Formerly MATH 199 and MATH 299; students may not earn credit for both MATH 299 and MATH 2900. Graded ABC/NC.

MATH 3010. Mathematical Concepts and Problem Solving for Educators I. Units: 4

Semester Prerequisite: Completion of the general education requirements in quantitative reasoning, written communication, oral communication and critical thinking

Pedagogical content knowledge, problem solving skills, and communication skills in mathematics. Mathematical reasoning behind the structure and arithmetic of the real number system. Connections between numbers, measurement, and geometry. Mathematical content knowledge and skills related to the K-8 curriculum, at the conceptual depth required for high-quality teaching. Includes activities intended to support students in flexibly applying these skills. A demonstration of mastery of fundamental skills as determined by the Department of Mathematics is required for credit. Three hours seminar and one hour discussion. May not be counted toward fulfilling requirements in the mathematics major. Formerly Math 3011 and Math 3011L. Formerly part of the Math 301ABC and Math 308 sequence. May not be taken for credit by students who have completed MATH 301A or Math 3011. Graded ABC/No Credit.

MATH 3012. Mathematical Concepts and Problem Solving for Educators II. Units: 3

Semester Prerequisite: Completion of MATH 3010 or MATH 3011 with a course grade of at least C

Pedagogical content knowledge, problem solving skills, and communication skills in mathematics related to the K through 8 curriculum, at the conceptual depth required for high quality teaching. Development of algebraic thinking and multiplicative structures. Investigation of linear and proportional relationships through multiple representations. A demonstration of mastery of fundamental skills as determined by the Department of Mathematics is required for credit. Concurrent enrollment in MATH 3012L is recommended. May not be counted toward fulfilling requirements in the mathematics major. Formerly part of the Math 301ABC and Math 308 sequence. May not be taken for credit by students who have completed MATH 301B. Graded ABC/No Credit.

MATH 3012L. Proportional Reasoning Lab for Educators. Unit: 1

Semester Corequisite: Math 3012

Mathematical content knowledge and skills related to the K-8 curriculum, at the conceptual depth required for high-quality teaching. Skills and concepts to include measurement, multiplicative structures, proportional reasoning and algebraic thinking. Lab activities intended to support students in flexibly using fundamental skills required for passage of Math 3012. Recommended for students registered in Math 3012. Directed self-placement in this course is based on mathematics department assessments and consultation with an advisor. Graded Credit/No Credit. May be repeated for credit two times for a total of 2 units.

MATH 3013. Mathematical Concepts and Problem Solving for Educators III. Units: 3

Semester Prerequisite: Completion of MATH 3012 with a course grade of at least C. Quarter Prerequisite: Completion of MATH 301B with a grade of C or better

Pedagogical content knowledge, problem solving skills, and communication skills in mathematics related to the K through 8 curriculum, at the conceptual depth required for high quality teaching. Conceptual foundations of measurement and data analysis. Geometric reasoning about figures in 2 and 3 dimensions, including concepts of congruence, similarity, and geometric transformations. A demonstration of mastery of fundamental skills as determined by the Department of Mathematics is required for credit. Concurrent enrollment in MATH 3013L is recommended. May not be counted toward fulfilling requirements in the mathematics major. Formerly part of the Math 301ABC and Math 308 sequence. May not be taken for credit by students who have completed MATH 301C. Graded ABC/No Credit.

MATH 3013L. Algebra and Geometry Lab for Educators. Unit: 1

Semester Corequisite: Math 3013

Mathematical content knowledge and skills related to the K-8 curriculum, at the conceptual depth required for high-quality teaching. Skills and concepts to include polynomial and other nonlinear functions, and geometric reasoning about figures in 2 and 3 dimensions. Lab activities intended to support students in flexibly using fundamental skills required for passage of Math 3013. Recommended for students registered in Math 3013. Directed self-placement in this course is based on mathematics department assessments and consultation with an advisor. Graded Credit/No Credit. May be repeated for credit 2 times for a total of 2 units.

MATH 3100. Mathematical Thinking: Communication and Proof. Units: 4

Semester Prerequisite: MATH 2220 with a grade of C- or better

Disciplinary ways of thinking in mathematics with emphasis on the construction of valid mathematical arguments, critiques of arguments, and structure of professional mathematical writing including typesetting. Content will include topics from logic, set theory, divisibility, modular arithmetic, properties of real numbers, properties of relations/functions, and methods of proof. Three hours of lecture and one hour online. Graded ABC/NC. Satisfies WI designation.

MATH 3140. Introduction to Systems Modeling. Units: 3

Semester Prerequisite: Completion of GE 2

Construction of mathematical models and simulations of complex systems with many inputs and outputs using systems modeling software. Applications to include environmental, economic/business, social, scientific, and medical systems. Satisfies GE B5/UD-5, Environmental Sustainability, Diversity and Social Justice pathways.

MATH 3178. Methods and Practices for Teaching Mathematics. Unit: 1

Semester Prerequisite: A cumulative GPA of at least 2.9 in MATH courses numbered 2000 or higher. Quarter Prerequisite: A cumulative GPA of at least 2.9 in MATH courses numbered 200 or higher

Seminar on evidence-based teaching practices in mathematics.

Topics include how people learn, active learning pedagogies, use of technology in teaching and learning, cognitive considerations, and ways of thinking in mathematics. Course expectations include study of research on mathematics learning and teaching and participation in learning community activities such as peer observations and lesson study. Consent of instructor required. Graded Credit/No-Credit. May be repeated for credit.

MATH 3320. Mathematical Interest Theory. Units: 3

Semester Prerequisite: MATH 2220 with a grade of C- or better. Quarter Prerequisite: MATH 213 with a grade of C- or better and MATH 241

Development of the mathematical theory of interest, including special cases of simple and compound interest, nominal and effective rates of interest, force of interest, and discount rate. Application of the theory to actuarial science, including the valuation of various streams of cash flow, annuities, yield rates, loans, and bonds. Formerly MATH 320; students may not earn credit for both.

MATH 3329. Euclidean Geometry with Transformations. Units: 3

Semester Prerequisite: MATH 3100 and high school geometry or equivalent; MATH 2310 as a pre- or co-requisite. Quarter Prerequisite: MATH 251 and high school geometry or equivalent

Euclidean geometry with emphasis on deductive proof and written communication. Definition of congruence and similarity by transformations. History of important theorems with analysis of dependence on Euclid's parallel postulate. Classification and construction of planar rigid motions and similarities. Formerly Math 329; students may not earn credit for both.

MATH 3345. Number Theory. Units: 3

Semester Prerequisite: Math 3100. Quarter Prerequisite: MATH 355
Classical number theory. Topics include the Euclidean Algorithm, Diophantine equations, primes, linear congruences, theorems of Fermat, Euler, and Wilson, and number theoretic functions. Emphasis on rigorous proof and mathematical communication. Formerly Math 345; students may not earn credit for both.

MATH 3372. Combinatorics. Units: 3

Semester Prerequisite: MATH 2220 with a grade of C- or better; or MATH 2210, MATH 2265, and MATH 2372 with a grade of C- or better
Study of enumeration techniques, generating functions, recurrence relations, and principle of inclusion and exclusion. Formerly MATH 372; students may not earn credit for both.

MATH 3460. Probability Theory. Units: 3

Semester Prerequisite: MATH 2320. Quarter Prerequisite: MATH 252
Introduction to counting techniques. Definition and properties of probability spaces. Random variables and their fundamental properties including densities, mass and distribution functions, means and variances. Theoretical properties of random variables including Chebyshev's inequality and the law of large numbers. Multivariate distributions with related concepts such as independence and joint distributions. Modeling of probabilistic processes including the use of appropriate software. Formerly MATH 465; students may not earn credit for both.

MATH 3465. Computational Statistics. Units: 3

Semester Prerequisite: Math 2265, Math 3460

Essential concepts of computational statistics, including probability distributions, generating random variables, exploratory data analysis, Monte Carlo Methods for Inferential Statistics, data partitioning, probability density estimation, variance reduction techniques, bootstrapping, and optimization methods for maximum likelihood estimation. We will use the statistical software package R/R studio extensively in this course. May not be counted toward fulfilling requirements in the mathematics major.

MATH 3480. Topics in History of Mathematics. Units: 3

Semester Prerequisite: Math 2220 with grade of C- or better. Quarter Prerequisite: Math 213 with grade of C- or better

Exploration of the historical and topical development of interconnected areas of mathematics, such as algebra, geometry and analysis.

Discussion of the influence of a variety of cultures and societies on the development of mathematical ideas and discovery will be included. Formerly Math 480; students may not earn credit for both.

MATH 3510. Topics in Mathematics. Units: 3

An in-depth study of selected areas of mathematics. Department consent required. May be repeated for credit with consent of department as topics change.

MATH 3770. Introduction to Graph Theory. Units: 3

Semester Prerequisite: MATH 2320. Prerequisite: MATH 252

Introduction to graph theory and its applications. Topics will include properties of graphs, trees, directed graphs, graph isomorphisms, Eulerian and Hamiltonian graphs, planarity, and graph coloring problems. Formerly a topic in MATH 510.

MATH 3951. Directed Study. Unit: 1

Reading and research in mathematics conducted under the direction of a faculty member. Consent of instructor and departmental approval of a written project proposal submitted on a standard application to be submitted in advance of the semester in which the course is to be taken. May be repeated for credit.

MATH 3952. Directed Study. Units: 2

Reading and research in mathematics conducted under the direction of a faculty member. Consent of instructor and departmental approval of a written project proposal submitted on a standard application to be submitted in advance of the semester in which the course is to be taken. May be repeated for credit.

MATH 3953. Directed Study. Units: 3

Reading and research in mathematics conducted under the direction of a faculty member. Consent of instructor and departmental approval of a written project proposal submitted on a standard application to be submitted in advance of the semester in which the course is to be taken. May be repeated for credit.

MATH 4270. Differential Equations with Dynamical Systems II. Units: 3

Semester Prerequisite: Math 2270. Quarter Prerequisite: MATH 270
Theory of ordinary differential equations. Planar and higher order systems of equations with an emphasis on graphical and numerical techniques, as well as models and applications. Phase trajectory and stability analysis. Existence and uniqueness. Additional topics may include Laplace transformations, matrix methods, Gauss-Jordan and iterative techniques, series solutions, chaos theory. Formerly Math 470; students may not earn credit for both.

MATH 4300. Real Analysis. Units: 4

Semester Prerequisite: MATH 2320 and MATH 3100. Quarter Prerequisite: MATH 252 and MATH 355
Properties of the set of real numbers and foundations of calculus: Equivalence relations, functions, cardinality, convergence of sequences and series of real numbers, topology of the real line, continuity, and differentiation. Emphasis on rigorous proof and mathematical communication. Professional mathematical typesetting and visualization technology. Formerly MATH 553 and part of MATH 355; students may not earn credit for both MATH 553 and MATH 4300.

MATH 4320. Introduction to Actuarial Modeling. Units: 3

Semester Prerequisite: MATH 3460. Quarter Prerequisite: MATH 465
Introduction to modeling and actuarial methods that are useful in modeling short-term insurance coverage problems, including frequency, severity, and aggregate models.

MATH 4360. Linear Statistical Models. Units: 3

Semester Prerequisite: MATH 3460 and Math 2265. Prerequisite: MATH 465 and MATH 262
Simple linear regression; multiple regression; analysis of variance; model validation and diagnostics. Additional topics may include ridge regression, LASSO, or logistic regression. Emphasis on computing and communication of statistical analyses.

MATH 4455. Partial Differential Equations & Fourier Analysis. Units: 3

Semester Prerequisite: MATH 2270 and MATH 2320 with a C- or better. Quarter Prerequisite: MATH 270, MATH 252
Theory of partial differential equations and Fourier analysis, including graphical and numerical methods. Classification of partial differential equations. Fourier series and the Fourier transform, convergence properties and orthogonality. Topics may include the heat equation, Laplace's equation, boundary-value problems, applications of Fourier and Laplace transforms. Formerly parts of MATH 455 and MATH 570. Students may not earn credit for all three courses.

MATH 4485. Differential Geometry. Units: 3

Semester Prerequisite: Math 2320 and Math 3100. Quarter Prerequisite: MATH 252, 331 and 355
An introduction to the differential geometry of curves and surfaces, including first and second fundamental forms, curvatures, geodesics, minimal surfaces, and Gauss-Bonnet Theorem. Formerly Math 485; students may not earn credit for both.

MATH 4600. Theory of Rings and Fields. Units: 4

Semester Prerequisite: MATH 2320 and MATH 3100. Quarter Prerequisite: MATH 252 and MATH 345
An introduction to the study of rings and fields including the algebraic structure of the integers, polynomials, real and complex numbers, Gaussian integers, and matrix rings. Topics include ideals, integral domains, quotient rings, homomorphisms, and related theorems including the Fundamental Homomorphism Theorem. The course will conclude with an introduction to group theory. Formerly MATH 546 and part of 545. Students may not earn credit for both MATH 546 and MATH 4600.

MATH 4900. Problem Solving and Mathematical Reasoning for Teachers II. Units: 4

Semester Prerequisite: MATH 2900 and MATH 3329
Continued development of problem solving skills and flexible thinking for future secondary teachers using multiple approaches and representations, mathematical habits of mind, and mathematical practices. Includes topics related to secondary mathematics and emphasizes communication, argumentation, mathematical structure and connections. Includes observations of secondary mathematics lessons via video with analysis of and reflection on effective teaching practices. Three hours in class and one hour online. Formerly MATH 399 and MATH 499. Students may not earn credit for MATH 499 and MATH 4900. Graded ABC/NC.

MATH 5170. Complex Analysis. Units: 3

Semester Prerequisite: Math 2320 and Math 3100. Quarter Prerequisite: MATH 252 and 355
Theory of functions of a complex variable with an emphasis on definitions and proof. Complex numbers and their properties, analytic functions and the Cauchy-Riemann equations, elementary functions of a complex variable, integration of complex functions, the Cauchy integral theorem and its consequences, contour integrals, residues, transforms, and conformal mappings. Formerly Math 557; students may not earn credit for both.

MATH 5300. Advanced Real Analysis. Units: 3

Semester Prerequisite: C- or better in MATH 4300. Quarter Prerequisite: C- or better in MATH 553
Further topics in the theory of single variable calculus: Continuation of differentiability, sequences of functions, series of functions and function approximation, uniform convergence, Riemann integration, pathological functions. May include selected topics from analysis as time permits, e.g., metric spaces, Lebesgue measure, normed linear spaces, historical developments. Emphasis on rigorous proof and mathematical communication. Professional mathematical typesetting and visualization technology. Formerly MATH 554; students may not earn credit for both.

MATH 5310. Advanced Linear Algebra. Units: 3

Semester Prerequisite: Math 2310 and Math 3100. Quarter Prerequisite: MATH 331 and at least one of MATH 329, MATH 345, or MATH 355
Theoretical aspects of vector spaces, linear transformations, and inner product spaces that include linear independence, dimension, matrix representations, dual spaces, quadratic forms, spectral theory, and canonical forms. Emphasis on rigorous proof and mathematical communication. Professional mathematical typesetting and visualization technology. Formerly MATH 531; students may not earn credit for both.

MATH 5360. Statistical Methods for Machine Learning. Units: 3

Semester Prerequisite: MATH 2265 - Statistics with Applications, MATH 4360 - Linear Statistical Models

In this class, we will explore and discuss statistical learning methods and their application to modern problems in science, industry, and society. Topics will include statistical learning, linear regression, classification, linear model selection, lasso and ridge regression, non-linear regression, and unsupervised learning. We will use the statistical software package R/R studio extensively in this course. May not be counted toward fulfilling requirements in the mathematics major.

MATH 5510. Topics in Advanced Mathematics. Units: 3

Quarter Prerequisite: Senior or graduate standing

Study of selected areas of advanced mathematics. May be repeated for credit with consent of instructor as topics change.

MATH 5529. Advanced Topics in Geometry. Units: 3

Semester Prerequisite: Math 2320 and Math 3329. Quarter Prerequisite: MATH 329, MATH 331 and MATH 355

Study and comparison of non-Euclidean geometries such as elliptical and hyperbolic geometries, with an emphasis on transformations. Non-Euclidean analogues of classical theorems in Euclidean geometry. Formerly Math 529; students may not earn credit for both.

MATH 5550. Introduction to Topology. Units: 3

Semester Prerequisite: C- or better in MATH 4300. Quarter Prerequisite: C- or better in MATH 355

An introduction to topological spaces, including metric spaces. Concepts will include continuous functions, homeomorphisms, and homotopies between topological spaces, notions of connectedness and compactness, Hausdorff spaces, product spaces, the quotient topology, and the fundamental group. Formerly MATH 555. Students may not earn credit for both.

MATH 5565. Mathematical Statistics. Units: 3

Semester Prerequisite: C- or better in MATH 2265 and MATH 3460.

Quarter Prerequisite: C- or better in MATH 465

Likelihood ratio, estimators, distributions of estimators, theory of hypothesis testing; resampling methods; introduction to Bayesian methods. Formerly MATH 565. Students may not earn credit for both.

MATH 5580. CSUSB to PhD Bridge. Units: 3

Semester Prerequisite: MATH 4300 or MATH 4600

Information about mathematics graduate school and tools to succeed in graduate school, with an emphasis on PhD-level work and programs. Activities may include independent investigation of advanced mathematics, locating professional funding and resources, preparing application materials, designing and delivering presentations, attendance at local seminars and research conferences, exploration of government and industry careers that use mathematics and statistics, and learning how to create a supportive research community. This is not a GRE preparation course. Formerly a topic in MATH 5510. Graded CR/NR. Department consent required.

MATH 5600. Group Theory. Units: 3

Semester Prerequisite: MATH 4600 with a grade of C- or better

A study of groups including symmetry groups, normal subgroups, isomorphisms, cosets, quotient groups, Sylow groups, and related theorems including Lagrange's Theorem, Cayley's Theorem, the Fundamental Theorem of Finite Abelian Groups. Formerly MATH 545; students may not earn credit for both.

MATH 5900. Senior Seminar for Future Mathematics Educators. Units: 3

Semester Prerequisite: Senior standing, Math 4900, and either MATH 4300 or MATH 4600

Culminating experience in problem solving, reasoning, and communication for future secondary mathematics teachers. Student led presentations and discussions around topics in mathematics education. Each student will reflect on their own mathematical growth throughout their undergraduate program and make connections to content and practice standards within secondary mathematics. Formerly MATH 599, students may not earn credit for both. Graded ABC/NC.

MATH 5951. Independent Study. Unit: 1

Semester Prerequisite: MATH 3100 and a minimum overall grade point average of a B or better. Quarter Prerequisite: MATH 345 or MATH 355, and a minimum overall grade point average of a B or better

An independent study course for junior or senior mathematics majors. Consent of instructor required and departmental approval of a written project proposal submitted in advance of the semester in which the course is to be taken. Repeatable for a maximum of three units; no more than three units of MATH 5951, MATH 5952, or MATH 5953 may be applied toward math elective credit for the degree.

MATH 5952. Independent Study. Units: 2

Semester Prerequisite: MATH 3100 and a minimum overall grade point average of a B or better. Quarter Prerequisite: MATH 345 or MATH 355, and a minimum overall grade point average of a B or better

An independent study course for junior or senior mathematics majors. Consent of instructor required and departmental approval of a written project proposal submitted in advance of the semester in which the course is to be taken. No more than three units of MATH 5951, MATH 5952, or MATH 5953 may be applied toward math elective credit for the degree.

MATH 5953. Independent Study. Units: 3

Semester Prerequisite: MATH 3100 and minimum overall grade point average of a B or better. Quarter Prerequisite: MATH 345 or MATH 355, and a minimum overall grade point average of a B or better

An independent study course for junior or senior mathematics majors. Consent of instructor required and departmental approval of a written project proposal submitted in advance of the semester in which the course is to be taken. No more than three units of MATH 5951, MATH 5952, or MATH 5953 may be applied toward math elective credit for the degree.

MATH 6000. Communicating Mathematics. Units: 2

Semester Prerequisite: Admission to the MA program in Mathematics.

Prerequisite: Admission to the MA program in Mathematics

Seminar focusing on effective and precise written and oral communication of mathematics. Students will become familiar with scientific word processing and presentation programs such as LaTeX and Beamer, and will prepare an article and presentation in professional style. This course meets the Writing Requirement for Graduate Candidacy.

MATH 6016. Graduate Algebra. Units: 4

Semester Prerequisite: Math 5600 and Admission the MA program in Mathematics. Quarter Prerequisite: MATH 546 and admission to the MA program

Continuation of Math 5600. Review of basic ring theory focusing on irreducibility and associated ideals, followed by fields and field extensions, Galois groups, solvability of groups and solvability of polynomials by radicals, and the Fundamental Theorem of Galois Theory. Formerly Math 616; students may not receive credit for both.

MATH 6018. Analysis in Several Variables. Units: 4

Semester Prerequisite: Math 5300 and admission to the MA program in Mathematics. Quarter Prerequisite: MATH 553; either MATH 554, MATH 555, or MATH 557; and admission to the MA program

A rigorous development of the calculus of vector valued functions of several variables, including a theoretical development of the derivative and its applications, the Inverse and Implicit Function Theorems, a development of Riemann Integration, Fubini's Theorem, differential forms, change of variables in integration, and Stokes' Theorem. Additional topics may include but are not limited to: abstract measure theory, metric spaces, or an introduction to manifolds and differential geometry. Formerly Math 618; students may not receive credit for both.

MATH 6110. Topics in Mathematics. Units: 3

Study of selected areas of advanced mathematics to be determined by the instructor. May be repeated for credit with department consent as topics change. There is no limit to the number of times this course may count towards the 6000-level elective requirement.

MATH 6145. Problem Solving. Units: 4

Semester Prerequisite: Admission to the MA program. Quarter Prerequisite: MATH 329, MATH 331, MATH 345, MATH 355 and MATH 372

A problem solving seminar in the style of George Polya, presenting techniques for attacking and solving challenging problems in mathematics. A variety of problem solving heuristics will be introduced, with an emphasis on induction and analogy. After surveying problems in a variety of content areas (e.g. geometry, algebra, combinatorial reasoning, and number theory), one area of mathematics will then be investigated and explored at a deeper level, employing the students' new problem solving skills. Formerly Math 604; students may not receive credit for both.

MATH 6178. Teaching Practicum. Units: 2

Semester Prerequisite: Admission to the MA program. Quarter Prerequisite: Admission to the MA program

Seminar on teaching methods for mathematics. It is strongly recommended that students have a teaching or tutoring position. Topics include active learning techniques, use of technology, and cognitive issues to look for, for example, proportional reasoning. Activities include readings and writings in mathematics pedagogy and learning community activities such as peer observations, lesson study, and class visits as available. Only one occurrence of Math 6178 may count toward the 6000 level elective requirement, however this course may be repeated for credit. Formerly Math 678. Students may receive credit for both, however only one may count toward the 6000 level elective requirement.

MATH 6301. Algebra from a Teaching and Problem Solving Perspective. Units: 4

Semester Prerequisite: Admission to the MAT program and MATH 3100, or consent of instructor, MATH 4600 is recommended. Quarter Prerequisite: Admission to the MAT in Mathematics program and MATH 345, or consent of instructor

Algebraic thinking building from numerical reasoning, algebraic structures, and fundamental concepts of functions. Problem solving using multiple representations will be stressed throughout. Students will adapt methods from this course for implementation in a secondary classroom setting and submit a written reflection on their learning in the course. Formerly MATH 631. May not be taken for credit by students who have completed MATH 631.

MATH 6302. Geometry from a Teaching and Problem Solving Perspective. Units: 4

Semester Prerequisite: Admission to the MAT program and MATH #transformation-geometry, or consent of instructor. Quarter Prerequisite: MATH 329 and admission to the MAT in Mathematics program, or consent of instructor

Development of geometric thinking, problem solving and proof with emphasis on Euclidean and transformational geometry. Geometric constructions using appropriate tools, including dynamic geometry software. Topics to include analytic geometry and concepts of trigonometry with applications. Students will adapt methods from this course for implementation in a secondary classroom setting and submit a written reflection on their learning in the course. Formerly MATH 632; may not be taken for credit by students who have completed MATH 632.

MATH 6303. Advanced Concepts of Secondary Mathematics from a Teaching and Problem Solving Perspective I. Units: 4

Semester Prerequisite: Admission to the MAT program, MATH 2220 and either MATH 2310 or MATH 2320, or consent of instructor, Math 6301 and 6302 are recommended. Quarter Prerequisite: MATH 213, MATH 251, and admission to the MAT in Mathematics program, or consent of instructor

The first of two courses addressing concepts typically addressed in the fourth year of secondary mathematics, from an advanced perspective, with active learning teaching strategies. Topics to include the further development of algebra, geometry, and trigonometry leading to a problem based approach to calculus. Emphasis on the study and application of functions. Students will adapt methods from this course for implementation in a secondary classroom setting and submit a written reflection on their learning in the course. May not be taken for credit by students who have completed Math 633 and Math 634.

MATH 6304. Advanced Concepts of Secondary Mathematics from a Teaching and Problem Solving Perspective II. Units: 4

Semester Prerequisite: Admission to the MAT program and either MATH 2265 or MATH 3460, or consent of instructor, Math 6301, 6302 and 6303 are recommended. Quarter Prerequisite: MATH 372 and admission to the MAT in Mathematics program, or consent of instructor

The second of two courses addressing concepts typically addressed in the fourth year of secondary mathematics, from an advanced perspective, with active learning teaching strategies. Topics to include further development of calculus, basic probability and descriptive and inferential statistics. Students will adapt methods from this course for implementation in a secondary classroom setting. Students will submit a written reflection on their learning in the course. May not be taken for credit by students who have completed Math 634 and Math 635.

MATH 6309. MAT Candidates' Seminar. Units: 4

Semester Prerequisite: Advancement to Candidacy. Prerequisite: Advancement to Candidacy and approval of graduate program coordinator

Analysis and synthesis of research literature in secondary mathematics education. Problem solving in secondary school mathematics. Consent of graduate program coordinator required. Graded Credit/No Credit.

MATH 6411. Operations Analysis. Units: 3

Semester Prerequisite: Admission to the MA program in National Security Studies

Scientific approach to the resolution of operational problems. Structure and function of models and decision strategy commonly used in national policy analysis including measures of effectiveness, uncertainty and the misuse of modeling. May not be counted toward fulfilling the requirements in either the MA or MAT in Mathematics programs. Formerly Math 611; students may not receive credit for both.

MATH 6880. Data Science Capstone Project. Units: 4

Semester Prerequisite: Advancement to candidacy in the MS in Applied Data Science program

Culmination of the MS in Applied Data Science program. Work on real-world projects that emphasize preparation for professional practice. Demonstration of proficiency in presenting and documenting work and preparing a formal data science project report. Requires departmental approval of a written project proposal submitted in advance of the semester in which the course is to be taken. May not be taken for credit in the Mathematics MA program. Offered as CSE 6880 and MATH 6880. Students may not receive credit for both.

MATH 6900. Comprehensive Exam Preparation in Elective Topics. Unit: 1

Semester Prerequisite: Advancement to candidacy

Semester Corequisite: Math 6916 and Math 6918

To be taken in the final semester of the program with Math 6916 and 6918, the objective of this course for the student is to prepare for the elective topic comprehensive exam; the scope of this exam is content from two elective courses the student has taken. This exam is administered by the student's faculty committee, which is generally expected to be the instructors from those elective courses the exam covers and one additional faculty of the student's choosing. Graded as CR when the exam is successfully passed, and RP otherwise. The exam may only be retaken once in the event it is not passed. Consent of instructor required. A written proposal must be submitted to the MA coordinator before the final week of classes in the semester preceding enrollment in Math 6900. This proposal must contain the date, time, and location of all comprehensive exams, it must also list the parameters of the Elective Topic Comprehensive Exam, and must have the approval of the instructors of the student's committee before submission to the MA coordinator for approval by the MA Committee.

MATH 6916. Comprehensive Exam Preparation in Algebra. Unit: 1

Semester Prerequisite: Advancement to candidacy

Semester Corequisite: Math 6900 and Math 6918

To be taken in the final semester of the program with Math 6918 and Math 6900, the objective of this course for the student is to prepare for the Algebra Comprehensive Exam. Graded as CR when the exam is successfully passed, and RP otherwise. The exam may only be retaken only once in the event it is not passed. Consent of instructor required.

MATH 6918. Comprehensive Exam Preparation in Analysis. Unit: 1

Semester Prerequisite: Advancement to candidacy

Semester Corequisite: Math 6916 and Math 6900

To be taken in the final semester of the program with Math 6916 and Math 6900, the objective of this course for the student is to prepare for the Analysis Comprehensive Exam. Graded as CR when the exam is successfully passed, and RP otherwise. The exam may only be retaken only once in the event it is not passed. Consent of instructor required.

MATH 6951. Graduate Independent Study. Unit: 1

Semester Prerequisite: Advancement to candidacy in the Mathematics MA or MAT program. Quarter Prerequisite: Advancement to candidacy in the Mathematics MA or MAT program; consent of the instructor and approval by the graduate committee

An independent study course for graduate students in mathematics. A written proposal for independent study must be submitted to the graduate committee before the final week of classes in the term preceding the term of enrollment in independent study. A maximum of four units of Graduate Independent Study (MATH 6951, 6952, 6953 or 6954) may count towards the 6000-level elective requirement in the Mathematics MA program. Department consent required.

MATH 6952. Graduate Independent Study. Units: 2

Semester Prerequisite: Advancement to candidacy in the Mathematics MA or MAT program. Quarter Prerequisite: Advancement to candidacy in the MA or MAT in Mathematics program; a grade point average of at least 3.5 in courses in the program, consent of the instructor and approval by the graduate committee

An independent study course for graduate students in mathematics. A written proposal for independent study must be submitted to the graduate committee before the final week of classes in the term preceding the term of enrollment in independent study. A maximum of four units of Graduate Independent Study (MATH 6951, 6952, 6953 or 6954) may count towards the 6000-level elective requirement in the Mathematics MA program. Formerly MATH 695B. Department consent required.

MATH 6953. Graduate Independent Study. Units: 3

Semester Prerequisite: Advancement to candidacy in the Mathematics MA or MAT program. Quarter Prerequisite: Advancement to candidacy in the MA or MAT in Mathematics program, a grade point average of at least 3.5 in courses in the program, consent of the instructor and approval by the graduate committee

An independent study course for graduate students in mathematics. A written proposal for independent study must be submitted to the graduate committee before the final week of classes in the term preceding the term of enrollment in independent study. A maximum of four units of Graduate Independent Study (MATH 6951, 6952, 6953 or 6954) may count towards the 6000-level elective requirement in the Mathematics MA program. Formerly MATH 695C. Department consent required.

MATH 6954. Graduate Independent Study. Units: 4

Semester Prerequisite: Advancement to candidacy in the Mathematics MA or MAT program. Quarter Prerequisite: Advancement to candidacy in the MA or MAT in Mathematics program, a grade point average of at least 3.5 in courses in the program, consent of the instructor and approval by the graduate committee

An independent study course for graduate students in mathematics. A written proposal for independent study must be submitted to the graduate committee before the final week of classes in the term preceding the term of enrollment in independent study. Students will be required to give an oral presentation of their work to the mathematics department to count this course towards the 6000-level elective requirement in the Mathematics MA program. A maximum of four units of Graduate Independent Study (MATH 6951, 6952, 6953 or 6954) may count towards the 6000-level elective requirement in the Mathematics MA program. Formerly MATH 695D. Department and College consent required.

MATH 6963. Master of Arts in Teaching Mathematics Project. Units: 3

Semester Prerequisite: Advancement to candidacy in the Mathematics MAT program. Quarter Prerequisite: Graduate standing, consent of the instructor, approval of the thesis proposal by the graduate committee and submission of at least three contributions to the Assessment Portfolio. Written project and oral presentation of the project to the department of Mathematics. A written project proposal following departmental guidelines must be submitted to the graduate committee before the last week of classes in the term preceding enrollment in MATH 6963. Instructor consent required. May not be counted toward fulfilling the requirements of the Mathematics MA. Formerly Math 699. Graded Credit/No Credit.

MATH 6972. Graduate Thesis I. Units: 2

Semester Prerequisite: advancement to candidacy (and GPA greater than or equal to 3.25 in the MA program). Quarter Prerequisite: Graduate standing, consent of instructor, approval of the project proposal by the graduate committee and approval of at least five contributions to the assessment portfolio of the seven listed under 6b and 6c in the requirements for graduation

Thesis preparation. Objectives: assemble thesis committee and submit thesis proposal to the MA Committee. Consent of thesis advisor. A written course proposal must be submitted to the MA coordinator before the final week of classes of the semester preceding enrollment in Math 6972. Graded as CR upon completion of work, RP until that time. Formerly Math 696; students may not receive credit for both.

MATH 6974. Graduate Thesis II. Units: 4

Semester Prerequisite: A GPA in the MA program of 3.25 or higher, Math 6972, advancement to candidacy, and approval of thesis proposal produced in Math 6972 by the MA Committee. Quarter Prerequisite: MATH 696 and consent of instructor

Continuation of Math 6972. Objectives: successful completion and defense of the thesis. Graded CR upon successful completion of the thesis and acceptance of it by Graduate Studies, graded RP until then. Consent of Department required. Formerly Math 697; students may not receive credit for both.

MATH 6980. MAT Comprehensive Examination. Units: 0

Semester Prerequisite: advancement to candidacy in the Mathematics MAT program, completion of program coursework, and approval of the graduate coordinator. Prerequisite: advancement to candidacy in the Mathematics MAT program, completion of program coursework, and approval of the graduate coordinator

An assessment of the student's ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter. Examination topics to include the content of MATH 6301, 6302, 6303 and 6309. Candidates for the Mathematics MAT may enroll no earlier than the last term in which MAT coursework is taken. May not be counted towards the requirements of the Mathematics MA degree. Graded credit/no credit.

MATH 6981. MA Comprehensive Examination. Units: 0

Semester Prerequisite: Advancement to candidacy in the Mathematics MA program and expected completion of program coursework in the semester enrolled

An assessment of the student's ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter. Students should enroll in this course in the expected final semester of the program concurrent with Math 6900, 6916, and 6918. Approval of the graduate coordinator required. Graded credit/no credit. The grade of Credit is given when all three MA Comprehensive Exams are passed.

MATH 6990. Continuous Enrollment for Graduate Candidacy Standing. Units: 0

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

MATH 6991. Continuous Enrollment for Graduate Candidacy Standing. Unit: 1

Quarter Prerequisite: Advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

MATH 6992. Continuous Enrollment for Graduate Candidacy Standing. Units: 2

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

MATH 6993. Continuous Enrollment for Graduate Candidacy Standing. Units: 3

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

MATH 6994. Continuous Enrollment for Graduate Candidacy Standing. Units: 4

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

MATH 6995. Continuous Enrollment for Graduate Candidacy Standing. Units: 5

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

MATH 6996. Continuous Enrollment for Graduate Candidacy Standing. Units: 6

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

Management (MGMT)

Courses

MGMT 2300. Legal Environment of Organizations. Units: 3

An introduction to statutory and common law developments impacting organizational transactions. Emphasizes principles of constitutional law and commercial speech, civil procedure, white collar crime, corporate social responsibility, ethics, contract law, creditor/debtor law and bankruptcy. Formerly offered as MGMT 230.

MGMT 3020. Organizational Behavior. Units: 3

This course is designed to cover the theory, research, and practice of organizational behavior. Students will be exposed to concepts associated with individual, group, and organizational levels of analysis in the context of dynamic and diverse work environments and organization types. Topics will include personality, motivation, group and team dynamics, leadership, and organizational culture. Formerly offered as MGMT 302.

MGMT 3300. Legal Environment of Business. Units: 3

Semester Prerequisite: MGMT 2300 or consent of instructor. Quarter Prerequisite: MGMT 230

Study of the legal system, nature and source of law as applied to business activity, statutes and significant cases involving business policies and the effect of public policies on private enterprise system sale of goods under the Uniform Commercial Code. Additional topics include regulations, employment law, commercial paper and secured transactions and forming business organizations including sole proprietorships, LLCs, and corporations. Formerly offered as MGMT 330.

MGMT 3350. Business, Ethics, and Society. Units: 3

Semester Prerequisite: Students should have complete 1 writing-intensive (WI) course prior to enrollment in MGMT 3350

This course equips future professionals with the knowledge and skills required to address the most pressing challenges of our era by focusing on the three core pillars of Environment, Social, and Governance (ESG). Social and legal factors influencing business; social expectations for ethical conduct and corporate social responsibility (CSR); role of business in alleviating societal problems. Students will develop a comprehensive understanding of ESG principles and their application in real-world business scenarios. Satisfies WI designation.

MGMT 3370. Business Ethics and Sustainability. Units: 3

This course equips future professionals with the knowledge and skills required to address the most pressing challenges of our era by focusing on the three core pillars of Environment, Social, and Governance (ESG). Social and legal factors influencing business; social expectations for ethical conduct and corporate social responsibility (CSR); role of business in alleviating societal problems. Students will develop a comprehensive understanding of ESG principles and their application in real-world business scenarios.

MGMT 3470. Fundamentals of Business Law. Units: 3

Study of the legal system, nature and source of law as applied to business activity, statutes and significant cases involving business policies and the effect of public policies on private enterprise system sale of goods under the Uniform Commercial Code. Includes commercial paper and forming business organizations including sole proprietorships, LLCs, and Corporations. Also introduces such topics as statutory and common law as well as constitutional and commercial speech, civil procedure. Additional topics include regulations, employment law, commercial procedure, white collar crime, corporate social responsibility, ethics, contract law, creditor/debtor law and bankruptcy.

MGMT 3500. Applied Communication. Units: 3

Semester Prerequisite: Junior standing. Students should have completed at least 60 semester units

This course focuses on written and oral communication skills and theories most relevant to local and global organizations. It emphasizes effective and ethical interactions in an organizational context. Students will learn how to communicate to address specific audiences using appropriate mechanics and how to professionally and effectively present their ideas. Formerly offered as MGMT 350. Satisfies WI designation.

MGMT 3900. Principles of Strategy. Units: 2

Quarter Prerequisite: Upper Division Status

Learn about the fundamental principles of business, concepts of business policy, and how these can be applied to strategic functions and practices, for strategic planning and decision making in the organization context. Understand environmental ecosystem, network of stakeholders, and portfolio of value transformation capabilities.

MGMT 4020. Organizational Change and Disruptions. Units: 3

Semester Prerequisite: MGMT 3020. Quarter Prerequisite: MGMT 302 or PSYC 302

This course is designed to cover the theory, research, and practice of organizational change and development. The course examines organizational strategies and the effects of contingency factors on changes within organizations. Additionally, it examines various change management strategies used by organizations to illustrate why some survive while others do not. Formerly offered as MGMT 402.

MGMT 4030. Managing Negotiations. Units: 3

Semester Prerequisite: Junior Standing. Prerequisite: Junior Standing
Managing the art and method of negotiation and bargaining. Topics will include laws, regulations, theories, practices, and skills necessary to prepare, plan, present, and manage dispute and resolutions. Cultural, ethical, institutional, and demographic dimensions will also be addressed.

MGMT 4040. Managing Technological Innovation. Units: 3

Semester Prerequisite: Junior Standing. Prerequisite: Junior Standing
This course is focused on the importance of technological innovation, types and patterns of innovation, standards battles and design dominance. The class provides training that helps students formulate, organize, and implement technological innovation strategies. Students also learn to make decisions related to launching technological innovations.

MGMT 4500. Interpersonal Relationships at the Workplace. Units: 3

Semester Prerequisite: Junior standing. Prerequisite: Junior standing
Concepts, theories, and practices related to interpersonal communication and relationships at the workplace. Selected topics include relationship development, supportive communication, interpersonal influences & conflicts, intercultural communication, and the dark side of relationships at the workplace.

MGMT 4520. Leadership and Followership. Units: 3

Semester Prerequisite: MGMT 3020. Quarter Prerequisite: MGMT 302 or PSYC 302
Classical and contemporary theories, approaches, and applications of leadership for leading individuals and groups effectively and for developing ethical awareness to respond appropriately to ethical dilemmas. An analysis of the role of followers in leader effectiveness. Formerly offered as MGMT 452.

MGMT 4590. Teams in Organizations. Units: 3

Semester Prerequisite: MGMT 3020. Quarter Prerequisite: MGMT 302 or PSYC 302
This course is focused on creating and sustaining successful teams through a better understanding of their dynamics and how to encourage others to work effectively in team settings. It covers research on groups and teams in organizations from the perspective of communication, organizational behavior and social psychology. Topics may include: norms, diversity, conflict, virtual teams, and scrum teams. Students will learn how to design and deliver workshops for teams in the workplace. Formerly offered as MGMT 459.

MGMT 4910. Strategic Management. Units: 3

Semester Prerequisite: Completion of MGMT 3900

Theories and practices of strategic advantage integrating diverse disciplinary perspectives; analyses of internal and external environments of the firm; functional and business strategies for creating and managing value; value chain and value chain networks; corporate, international, and technological growth strategies; strategic organization and governance sensitive to ecosystem and stakeholder values. Applications to case studies, research project, and/or simulation.

MGMT 4920. Future of Work and Management. Units: 3

Semester Prerequisite: Junior Standing. Quarter Prerequisite: Junior Standing

This course is designed to examine the wide variety of technological, economic, political, socio-cultural, and demographic trends that impact organizations, as well as national and global societies. It will focus on new business models, new categories of jobs, new management mindsets, and shifts in requisite skills, knowledge, and abilities as organizations and industries undergo transformation.

MGMT 4950. Managing Strategy in Dynamic Environments. Units: 3

This course focuses on the practical application of strategic management theories and practices for achieving sustainable competitive advantage by integrating diverse disciplinary perspectives. Students will conduct real-world analyses of external business environments and formulate effective business strategies, including corporate, global, and technological growth strategies. They will learn to implement these strategies through strategic organization, legal governance, and responsible sustainable management that is sensitive to ecosystem and stakeholder values. Practical applications include case studies, research projects, and simulations, providing hands-on experience in strategic business management.

MGMT 5050. Managing Across Borders. Units: 3

Quarter Prerequisite: MGMT 302 or PSYC 302

Identification and investigation of the diverse factors and actors that are important to the success of an organization planning or managing in an international setting, Balancing of local responsiveness and global integration, and sustainable and responsible decision-making skills across borders and cultures are emphasized. Formerly MGMT 4050. Equivalent to MGMT 6500; credit may not be received for both.

MGMT 5755. Internship. Unit: 1

Semester Prerequisite: Consent of college internship coordinator. Quarter Prerequisite: senior standing preferred; consent of instructor and the departments internship coordinator
Supervised work and study in private or public organizations. May be repeated for credit. A total of six units of Jack H. Brown College of Business and Public Administration 5753 or 5755 courses may be applied toward graduation. Graded credit/no credit.

MGMT 5915. Contemporary Topics in Management. Unit: 1

Analysis and discussion of selected topics relevant to managing effectively in the contemporary and dynamic business world. May be repeated for credit as topics change.

MGMT 5930. Contemporary Topics in Management. Units: 3

Analysis and discussion of selected topics relevant to managing effectively in the contemporary and dynamic business world. Formerly offered as MGMT 590C. May be repeated for credit as topics change.

MGMT 5951. Independent Study. Unit: 1

Semester Prerequisite: Junior status, or graduate status
Special topics involving library and/or field research. A total of 8 units in any Jack H. Brown College of Business and Public Administration 5951, 5952, 5953, 5955 may be applied toward graduation. Consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the Jack H. Brown College of Business and Public Administration on a standard application filed in advance of the semester in which the course is to be taken. Course is cross-listed across different departments within the college.

MGMT 5952. Independent Study. Units: 2

Semester Prerequisite: Junior status, or graduate status
Special topics involving library and/or field research. A total of 8 units in any Jack H. Brown College of Business and Public Administration 5951, 5952, 5953, 5955 may be applied toward graduation. Consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the Jack H. Brown College of Business and Public Administration on a standard application filed in advance of the semester in which the course is to be taken. Formerly offered as 595B. Course is cross-listed across different departments within the college.

MGMT 5953. Independent Study. Units: 3

Semester Prerequisite: Junior status, or graduate status
Special topics involving library and/or field research. A total of 8 units in any Jack H. Brown College of Business and Public Administration 5951, 5952, 5953, 5955 may be applied toward graduation. Consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the Jack H. Brown College of Business and Public Administration on a standard application filed in advance of the semester in which the course is to be taken. Formerly offered as 595D. Course is cross-listed across different departments within the college.

MGMT 5955. Independent Study. Unit: 1

Semester Prerequisite: Junior status, or graduate status
Special topics involving library and/or field research. A total of 8 units in any Jack H. Brown College of Business and Public Administration 5951, 5952, 5953, 5955 may be applied toward graduation. Consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the Jack H. Brown College of Business and Public Administration on a standard application filed in advance of the semester in which the course is to be taken. Course is cross-listed across different departments within the college.

MGMT 6010. Organization Theory and Behavior. Units: 3

A critical analysis of theories for viewing organizations and an examination of the common models for understanding human behavior, including executive behavior, within the constraints of a complex social system. Formerly offered as MGMT 601.

MGMT 6550. Leadership as Art and Science. Units: 3

Semester Prerequisite: MGMT 6010. Quarter Prerequisite: MGMT 601
An overview of leadership emphasizing an understanding of the empirical research on classical and contemporary theories in the fields of leadership and followership and an application of theories designed to enhance employee well-being and organizational effectiveness. Formerly offered as MGMT 655.

MGMT 6755. Internship. Unit: 1

Semester Prerequisite: Consent of college internship coordinator. Quarter Prerequisite: senior standing preferred; consent of instructor and the departments internship coordinator
Supervised work and study in private or public organizations. May be repeated for credit. A total of six units of Jack H. Brown College of Business and Public Administration 5753 or 5755 courses may be applied toward graduation. Graded credit/no credit.

MGMT 6850. Strategic Management. Units: 3

Using fundamental concepts of strategy, this course examines an organization in the globalization context from the perspective of different stakeholders who together share the overall responsibility for the performance of the firm. Within the lens of PRME (Principles of Responsible Management Education) from the United Nations, the course is an innovative educational survey of selected topics from the field of strategy based on scholarly research and global practices that exemplify or deviate from the principles of responsible management. Formerly offered as MGMT 685.

MGMT 6990. Continuous Enrollment for Graduate Candidacy Standing. Units: 0

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

MGMT 6991. Continuous Enrollment for Graduate Candidacy Standing. Unit: 1

Quarter Prerequisite: Advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

MGMT 6992. Continuous Enrollment for Graduate Candidacy Standing. Units: 2

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

MGMT 6993. Continuous Enrollment for Graduate Candidacy Standing. Units: 3

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

MGMT 6994. Continuous Enrollment for Graduate Candidacy Standing. Units: 4

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

MGMT 6995. Continuous Enrollment for Graduate Candidacy Standing. Units: 5

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

MGMT 6996. Continuous Enrollment for Graduate Candidacy Standing. Units: 6

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

Military Science (MILS)

Courses

MILS 1000. Leadership Laboratory. Unit: 1

Practicum in those skills taught in the classroom during other military science classes in the semester. To include Small Unit Operations, such as patrolling, air mobile operations, rappelling and weapons qualification. Some training is conducted on weekends. This course is only open to enrolled Army ROTC cadets. The course must be taken each semester the student is enrolled in the Military Science program. Formerly offered as MILS 100.

MILS 1151. Basic Military Skills I. Units: 3

Introduction to the role of the officer, the noncommissioned officer, and organization of the total Army. Formerly offered as MILS 151.

MILS 1152. Basic Military Skills II. Units: 3

Quarter Prerequisite: MILS 151 or consent of instructor

A continuation of basic military skills. Formerly offered as MILS 152.

MILS 2251. Leadership and Management I. Units: 3

Quarter Prerequisite: MILS 151, MILS 152, and MILS 153 or consent of instructor

Introduction to leadership and management which develops technical skills that must be learned in order to perform as a leader. Students master technical aspects that are specific to the military profession. Formerly offered as MILS 251.

MILS 2252. Leadership and Management II. Units: 3

Quarter Prerequisite: MILS 251 or consent of instructor

Continuation of leadership and management skills. Formerly offered as MILS 252.

MILS 2260. ROTC Basic Camp. Units: 2

Quarter Prerequisite: consent of Military Science Department advisor
ROTC Basic Camp is a six week course at FT Knox, KY. The basic camp offers students with no prior military training, or ROTC classes, the chance to enter the ROTC advanced program, if the student has two or more years of undergraduate or graduate study remaining. It is comparable to the first two years of the ROTC program. Formerly offered as MILS 260.

MILS 3351. Small Unit Operations I. Units: 3

Quarter Prerequisite: consent of instructor

Current tactical doctrine as applied to small unit operations. Formerly offered as MILS 351.

MILS 3352. Small Unit Operations II. Units: 3

Quarter Prerequisite: MILS 351

Continuation of current tactical doctrine as applied to small unit operations, with special attention to the leaders role. Formerly offered as MILS 352.

MILS 4451. Military Law. Units: 3

Quarter Prerequisite: consent of instructor

Military justice system, including a history of military law, philosophy and structure of the military justice system, courts-martial and alternatives to courts-martial. Formerly offered as MILS 451.

MILS 4452. Contemporary Military Policy. Units: 3

Quarter Prerequisite: consent of instructor

Contemporary military policy and related subjects of topical military interest, including personal ethics, relevant to the training of junior-level officers. Formerly offered as MILS 452.

MILS 5585. American Military History. Units: 2

Quarter Prerequisite: completion of all advanced military science courses and consent of instructor

A directed reading and research course in American Military History.

Oriented towards a students transition from cadet to commissioned officer. May be repeated twice for credit. Formerly offered as MILS 595.

Marketing (MKTG)

Courses

MKTG 1600. Restaurant Management. Units: 3

The principles of restaurant management and foodservice operations with particular attention to safety, sanitation, hygiene and cleanliness standards. Topics include menu planning, concept development, food production methods, procurement, budgeting and cost control analysis. This course will teach and assess the Food Protection Manager certification exam. Offered as HOSM 1600 and MKTG 1600, students may not receive credit for both.

MKTG 2500. Introduction to Hospitality and Tourism. Units: 3

This course includes the management of hotels, clubs, casinos, and resort properties in the areas of operations, customer service delivery, technology, property maintenance, and quality assurance. Front desk, rooms division, human resources, concierge, banquet, facilities, sales and marketing, and other departments will be reviewed. Tourism topics include destination marketing, itinerary planning, global travel, and intercultural communications that are the prerequisites for the annual study abroad to Italy during spring break. Offered as HOSM 2500 and MKTG 2500, students may not receive credit for both.

MKTG 3050. Marketing Principles. Units: 3

Quarter Prerequisite: Junior standing

The goal of this course is to build a basic framework to enable students to evaluate, describe, and design marketing activities with practical insights into the real world. An introduction to the controllable elements of the marketing mix that include product, pricing, promotion and place (distribution) as well as the uncontrollable elements that include consumer and industrial buying behavior, economic, technological and regulatory trends. Students will be introduced to the language of marketing such as SWOT, segmentation, targeting, and positioning. Formerly offered as MKTG 305.

MKTG 3160. Research Methods. Units: 3

Research as an activity of information gathering, analysis and interpretation for input into organizational decision making. Students will gain the skill-set to define the proper research problem, develop an appropriate research design, effectively sample the right population, and collect and analyze the data (secondary and/or primary) required to enable managers to make better decisions. Different methods of data collection (e.g. survey, observation, experiments, qualitative methods), tools utilized for data collection and analysis, and the type of data created will be covered.

MKTG 3300. Immersive Storytelling, Product Design, and Integrated Marketing Communication. Units: 3

This course explores how to use immersive storytelling theories and technologies, such as virtual reality, augmented reality, and mixed reality, to design and implement engaging and memorable product and/or service experiences that connect with customers on a deeper level. Students will also learn how to integrate immersive storytelling campaigns into their overall marketing strategy, as well as the fundamental principles of marketing: including market segmentation, targeting, positioning, and the marketing mix. Course equivalent to CAL 3030; credit may not be awarded for both.

MKTG 4100. Consumer Behavior. Units: 3

Semester Prerequisite: MKTG 3050 and MKTG 3160

An examination of factors that affect consumers during the pre-purchase, purchase, and post-purchase decision-making process. An analysis of the individual and aggregate market behavior of customers and the use of theoretical and empirical customer information in developing marketing policy and strategy through project-based learning. Factors that affect consumers' perceptions, attitudes and decision making will be introduced and discussed. Formerly offered as MKTG 410.

MKTG 4160. Marketing Research. Units: 3

Semester Prerequisite: MKTG 3050 and MKTG 3160. Quarter Prerequisite: MKTG 305

In this course, students will learn how to develop a marketing research plan, collect the data (secondary and/or primary), analyze and interpret the data, and present the results, in order to enable managers to make better decisions. Fundamental statistical analysis techniques commonly used in marketing research, such as frequency analysis, hypothesis testing, analysis of variance, correlation, and regression will be taught. The course will also feature many examples of contemporary marketing research applications. Formerly offered as MKTG 416. Materials fee required.

MKTG 4200. Marketing Communications. Units: 3

Semester Prerequisite: MKTG 3050 and MKTG 3160. Quarter Prerequisite: MKTG 305 and the upper-division writing requirement
An integrated approach to planning and creating the firm's total marketing communications program, primarily advertising, sales promotion, public relations and social media. Surveys the entire field of promotion in its social and management context and develops the creative approach, strategy, and tactics necessary to realize the objectives of the marketing program. Emphasizes application of concepts through project-based learning incorporating quantitative and qualitative research techniques, industry analysis, and graphic design, in developing and evaluating communication plans. Formerly offered as MKTG 420.

MKTG 4300. Professional Selling and Sales Management. Units: 3

Semester Prerequisite: MKTG 3050. Quarter Prerequisite: MKTG 305 and the upper division writing requirement

Students will learn about the sales process, the buying process, relationship selling, prospecting, sales call planning, communication, negotiating, and closing sales as well as how to motivate, compensate, and train sales people. Develops interpersonal communication skills through role-playing and other selling techniques in the selling of products and services. Skills in prospecting, relationship building analysis, sales demonstrations, sales negotiations, and closing of sales will be taught. Emphasis will be on personal selling techniques, sales management, and best practices in professional selling. Formerly offered as MKTG 430.

MKTG 4460. Integrated Marketing Communications. Units: 3

Semester Prerequisite: MKTG 4200. Quarter Prerequisite: MKTG 420

An experiential projects course focusing on the development of an integrated marketing communications campaign for a client's regional or national product or service. Formerly offered as MTKG 446.

MKTG 4500. Hotel Operations Tactics and Strategies. Units: 3

Quarter Prerequisite: No prerequisites

Hotel Operations Tactics and Strategies (HOTS) is a business management simulation to operate a large hotel where students develop technical and decision-making skills to increase market share, maximize revenues and increase profitability. A hotel's financial results depend on its ability to construct, promote and deliver a competitive price/value proposition to the marketplace. Student teams compete in a virtual environment that leads to critical thinking outcomes in the areas of operations, communications, revenue management, strategic planning, teamwork and career readiness. Course offered as HOSM 4500 and MKTG 4500; credit may not be awarded for both.

MKTG 4600. Retailing and Ecommerce. Units: 3

Semester Prerequisite: MKTG 3050. Quarter Prerequisite: MKTG 305
Development, organization and management of retail institutions. Emphasis is on brick & mortar and e-commerce operations and include merchandise planning, control of budgets, human resources planning, pricing and customer service. Students develop a retail strategy mix for a retailer within the context of today's retail practices. Formerly offered as MTKG 460.

MKTG 4700. International Marketing. Units: 3

Semester Prerequisite: MKTG 3050

Development of international marketing strategies and programs for the determination of objectives and methods of organization through execution of research, advertising, pricing, distribution, financing, and human resource management activities. Emphasis on the design of optimal strategies under varying physical, economic, political, social and cultural environments and specific marketing situations. Satisfies G designation.

MKTG 4760. Strategic Issues in International Business. Units: 3

Semester Prerequisite: MKTG 4700. Prerequisite: MKTG 470 and MGMT 405

An examination of strategic issues in conducting business across national boundaries. Development and implementation of strategic and tactical decisions for companies and brands drawing upon research, analysis, and strategic marketing skills to develop actionable plans that address critical challenges faced by organizations.

MKTG 4800. Sales and Negotiations. Units: 3

Semester Prerequisite: MKTG 3050

This course is designed to equip students with essential skills in selling and negotiating, focusing on practical application in real-world scenarios. Students will learn about the selling process, customer relationships, interest-based negotiation, and effective and persuasive communication. Skills in interpersonal and intercultural communications, problem-solving, negotiation preparation, reaching agreements, and the closing of sales will be taught. Emphasis will be on personal selling techniques as well as best practices in professional negotiations.

MKTG 4960. Strategic Marketing Planning. Units: 3

Semester Prerequisite: MKTG 4100 and MKTG 4160. Quarter Prerequisite: MKTG 410 and MKTG 416

Provides an overview of the role of sustainability in marketing strategy. Emphasis is on the use of the triple bottom line perspective to cast sustainability as the simultaneous pursuit of financial, social/relational, and environmental performance. Development and implementation of strategic and tactical decisions for companies and brands drawing upon research, analysis, and strategic marketing skills to develop actionable plans that address critical marketing challenges faced by organizations. Formerly offered as MKTG 496.

MKTG 5160. Marketing Data Analytics. Units: 3

Semester Prerequisite: MKTG 4160. Quarter Prerequisite: MKTG 416
Students will be able to identify, evaluate, and capture business analytic opportunities that create value. In addition, students will learn basic analytics methods to analyze big data (large data sets). Students will learn how to develop new insights based on business performance data and statistical methods. Students will learn how data analysts describe, predict, and inform business decisions, and they will develop data literacy and an analytic mindset that will help them make strategic decisions based on data.

MKTG 5200. Advanced Marketing Communication. Units: 3

Semester Prerequisite: MKTG 3050 or MKTG 6050. Quarter Prerequisite: MKTG 305 or MKTG 605

Management of the marketing communication function with emphasis on the integration and coordination of its activities. Advertising, direct marketing, personal selling, public relations, sales promotion, and digital strategies are mastered with consideration given to global, ethical, and technology-related issues. Includes development of an integrated marketing communication plan. Formerly offered as MKTG 520.

MKTG 5250. Sports and Entertainment Marketing. Units: 3

Semester Prerequisite: Must have completed MKTG 3050 or MKTG 6050. Quarter Prerequisite: MKTG 305 or MKTG 605

The application of marketing to sports and entertainment products and services with an emphasis on the marketing concepts most relevant to the industry, such as sponsorship, endorsement, licensing, etc. Students will apply these concepts by developing and presenting a strategic marketing plans for a sports or entertainment organization. The plan will include a situational analysis, SWOT analysis, mission statement, positioning statement, and marketing mix recommendations. Formerly offered as MKTG 525.

MKTG 5300. Meetings and Event Planning. Units: 3

The process of planning, developing, and coordinating a variety of meetings and events in hotels, clubs, convention centers, trade shows, and sports and entertainment venues. Topics include forecasting revenues, budget preparation, controlling expenses, contract negotiations, vendor selection, and supervising event personnel. Course offered as HOSM 5300 and MKTG 5300; credit may not be awarded for both.

MKTG 5400. Digital Marketing. Units: 3

Semester Prerequisite: MKTG 3050, or MKTG 6050, or instructor approval

Content emphasizes a hands-on immersion into e-commerce, project management, procurement, and social media, how this technology impacts the marketing mix and effective and efficient marketing strategies. Topics focus on applications, innovations, and future direction in marketing practice and includes application of content in marketing and communications planning. Formerly MKTG 4750.

MKTG 5500. Advanced Sports Marketing Planning and Strategy. Units: 3

Semester Prerequisite: MKTG 5250. Quarter Prerequisite: MKTG 525

An integrative approach to strategic sports marketing management providing theoretical and practical aspects of marketing management in the sports industry. Topics include the planning, design and execution of a comprehensive situation analysis, identification and evaluation of strategic marketing alternatives, and the implementation of marketing plans and programs. Formerly offered as MKTG 550.

MKTG 5550. Advanced Entertainment Marketing Planning and Strategy. Units: 3

Semester Prerequisite: MKTG 5250. Quarter Prerequisite: MKTG 525

An integrative approach to strategic entertainment marketing management providing theoretical and practical aspects of marketing management in the entertainment industry. Topics include the planning, design and execution of a comprehensive situation analysis, identification and evaluation of strategic marketing alternatives, and the implementation of marketing plans and programs. Formerly offered as MKTG 555.

MKTG 5600. Experiential Marketing. Units: 3

Semester Prerequisite: MKTG 3050 or MKTG 6050. Quarter Prerequisite: MKTG 305 or MKTG 605

The successful marketing of services and the delivery of excellent service are critical elements in the achievement of customer satisfaction and the long-term success of an organization. In this regard, service quality and its measurement will be emphasized, as will the link between service quality and customer satisfaction. This course will also cover the application of the principles of marketing to the marketing of services as well as in-depth understanding of the broader role of service excellence for both "pure" service organizations and organizations that offer a mix of goods and services. Formerly offered as MKTG 560.

MKTG 5700. Hospitality Operations Management. Units: 3

Quarter Prerequisite: MKTG 305 or MKTG 605

Students will have an opportunity to become acquainted with the social, economic and environmental context within which the hospitality industry operates to understand the structure, nature and operating characteristics of the different sectors of the hospitality industry such as food service, lodging and tourism. This introductory course will explore the various functions of management and their interrelationships with other key concerns of managers such as marketing, finance and human resource management. Additionally, the course emphasizes quality assurance, guest satisfaction and process improvement. The goal of this course is to help students develop capable minds to function as successful managers and leaders for the benefit of employees, customers, and stakeholders of the organization. Students will have opportunities to explore and evaluate their personal skills and qualities as they apply theories and case study scenarios to present and future operational assessment and trends.

MKTG 5720. Hotel Operations and Service Management. Unit: 1

Semester Prerequisite: MKTG 5700. Quarter Prerequisite: MKTG 570
Semester Corequisite: MKTG 5752

Hotel Management and operations to include room reservations, housekeeping, front desk management, concierge, sanitation, safety, security and bell stand. Rate and revenue management, forecasting, measuring performance, transient versus group displacement, service quality, pricing and inventory management, ethics. Formerly offered as MKTG 573.

MKTG 5730. Festival and Entertainment Management. Units: 3

Semester Prerequisite: MKTG 3050. Quarter Prerequisite: MKTG 525
Organization and administration of attraction-based events, focusing on scheduling, financing, budgeting, and revenue distribution, logistics, planning techniques, marketing, contracts and staging considerations.

MKTG 5740. Tribal Gaming: Cultural and Political Context. Units: 3

Semester Prerequisite: MKTG 5700. Quarter Prerequisite: MKTG 570
Social and political context of American Indian tribal gaming, political relationships between federal and tribal governments, contemporary examples of tribal gaming, sociocultural and economic forces leading to gaming as strategy for economic development, and responses by non-Indian communities to tribal gaming.

MKTG 5750. Hospitality Internship I. Unit: 1

Entry level experience in a hotel, restaurant, or related position at a university approved site with a focus on rotating through all departments in the organization. NOTE: Only students who have been approved for placement by internship coordinator may enroll in this course.

MKTG 5752. Hospitality Internship II. Units: 2

Quarter Prerequisite: MKTG 570

Food handler certification required for restaurant experience. Experience in a hotel, restaurant, tribal casino, or tourism site. Minimum of 75 hours of quality work at site required during semester in addition to completion of a project.

MKTG 5755. Internship. Unit: 1

Semester Prerequisite: Consent of college internship coordinator. Quarter Prerequisite: senior standing preferred; consent of instructor and the departments internship coordinator

Supervised work and study in private or public organizations. May be repeated for credit. A total of six units of Jack H. Brown College of Business and Public Administration 5753 or 5755 courses may be applied toward graduation. Graded credit/no credit.

MKTG 5915. Seminar in Marketing. Unit: 1

An intensive study of some phase of marketing to be developed by the instructor. May be repeated for credit as topics change.

MKTG 5930. Seminar in Marketing. Units: 3

An intensive study of some phase of marketing to be developed by the instructor. May be repeated for credit as topics change. Formerly offered as MKTG 590.

MKTG 5951. Independent Study. Unit: 1

Semester Prerequisite: Junior status, or graduate status
Special topics involving library and/or field research. A total of 8 units in any Jack H. Brown College of Business and Public Administration 5951, 5952, 5953, 5955 may be applied toward graduation. Consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the Jack H. Brown College of Business and Public Administration on a standard application filed in advance of the semester in which the course is to be taken. Course is cross-listed across different departments within the college.

MKTG 5952. Independent Study. Units: 2

Semester Prerequisite: Junior status, or graduate status
Special topics involving library and/or field research. A total of 8 units in any Jack H. Brown College of Business and Public Administration 5951, 5952, 5953, 5955 may be applied toward graduation. Consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the Jack H. Brown College of Business and Public Administration on a standard application filed in advance of the semester in which the course is to be taken. Formerly offered as 595B. Course is cross-listed across different departments within the college.

MKTG 5953. Independent Study. Units: 3

Semester Prerequisite: Junior status, or graduate status
 Special topics involving library and/or field research. A total of 8 units in any Jack H. Brown College of Business and Public Administration 5951, 5952, 5953, 5955 may be applied toward graduation. Consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the Jack H. Brown College of Business and Public Administration on a standard application filed in advance of the semester in which the course is to be taken. Formerly offered as 595D. Course is cross-listed across different departments within the college.

MKTG 5955. Independent Study. Unit: 1

Semester Prerequisite: Junior status, or graduate status
 Special topics involving library and/or field research. A total of 8 units in any Jack H. Brown College of Business and Public Administration 5951, 5952, 5953, 5955 may be applied toward graduation. Consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the Jack H. Brown College of Business and Public Administration on a standard application filed in advance of the semester in which the course is to be taken. Course is cross-listed across different departments within the college.

MKTG 6050. Marketing Management. Units: 3

An examination of managerial decision-making and problem-solving using the marketing mix and the activities it entails such as selling, advertising, pricing, consumer behavior, marketing research and channels of distribution. Formerly offered as MKTG 605.

MKTG 6100. Consumer and Organizational Buying Behavior. Units: 3

Semester Prerequisite: MKTG 6050. Quarter Prerequisite: MKTG 605
 Influences on the purchasing behavior of individual consumers and organizational buyers. Use of theories, concepts and research findings in management and public policy decisions. Formerly offered as MKTG 610.

MKTG 6400. Advanced Marketing Research. Units: 3

Semester Prerequisite: MKTG 6050. Quarter Prerequisite: MKTG 605
 Advanced study of current marketing research methods used to gather, analyze and transform data into information required for managerial decision-making. Includes qualitative and quantitative approaches to problem definition, research design, data collection and analysis, interpretation and presentation of research results. Requires use of statistical software packages. Formerly offered as MKTG 640.

MKTG 6500. E-Commerce. Units: 3

Semester Prerequisite: ADMN 6010 Data-Driven Decision Making, ADMN 6020 Advanced Managerial Communications
 This course introduces e-commerce and offers an understanding of the skills and technology which are necessary for e-commerce. Students will learn about business models and strategies surrounding e-commerce including digital marketing, online payment systems, and privacy issues.

MKTG 6700. Global Marketing Strategies. Units: 3

Semester Prerequisite: MKTG 6050. Quarter Prerequisite: MKTG 605
 Advanced marketing strategies for developing global markets. Includes the emerging changes in international markets and their impact on general marketing strategies. Formerly offered as MKTG 670.

MKTG 6755. Internship. Unit: 1

Semester Prerequisite: Consent of college internship coordinator. Quarter Prerequisite: senior standing preferred; consent of instructor and the departments internship coordinator
 Supervised work and study in private or public organizations. May be repeated for credit. A total of six units of Jack H. Brown College of Business and Public Administration 5753 or 5755 courses may be applied toward graduation. Graded credit/no credit.

MKTG 6900. Marketing Strategy. Units: 3

Semester Prerequisite: MKTG 6050, MKTG 6100, and MKTG 6400.
 Quarter Prerequisite: MKTG 605, MKTG 610, and MKTG 640
 A strategy planning approach to marketing management from conceptual and applications perspectives. Focus is on the strategic decision-making process supported by self-analysis and external analysis. Legal, ethical and international aspects are also considered. Formerly offered as MKTG 696.

MKTG 6990. Continuous Enrollment for Graduate Candidacy Standing. Units: 0

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
 Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

MKTG 6991. Continuous Enrollment for Graduate Candidacy Standing. Unit: 1

Quarter Prerequisite: Advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies
 Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

MKTG 6992. Continuous Enrollment for Graduate Candidacy Standing. Units: 2

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

MKTG 6993. Continuous Enrollment for Graduate Candidacy Standing. Units: 3

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

MKTG 6994. Continuous Enrollment for Graduate Candidacy Standing. Units: 4

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

MKTG 6995. Continuous Enrollment for Graduate Candidacy Standing. Units: 5

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

MKTG 6996. Continuous Enrollment for Graduate Candidacy Standing. Units: 6

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

Music (MUS)

Courses

MUS 1000. Music Forum. Unit: 1

Weekly meeting of music majors, grouped by area. Music Forum allows students to perform their repertoire in front of their peers, as well as learn from visiting guest clinicians. Graded Credit/No credit. Repeatable for credit. Department consent required. Materials fee required.

MUS 1010. Beginning Piano I for Non-Music Majors. Unit: 1

Introductory piano course for non-music majors, no prerequisite required. Focus on orientation to the keyboard, note reading, and basic rhythm drills. Develop eye-hand coordination and finger, hand, body control. The selection of pieces includes elementary piano repertoire, popular songs, folk tunes, and simple piano ensemble music. Study of a first-year piano book. Total of 30 hours lecture and 15 hours of music laboratory. This course is the first class of the two-semester course sequence. May be taken 2 time for 2 units.

MUS 1020. Beginning Piano Course II for Non-Music Majors. Unit: 1

Semester Prerequisite: Completion of MUS 1010, Beginning Piano Course I for Non-Music Majors OR by instructor's permission

This course is the second piano course for non-music majors. The course continues to develop student's skills and coordination at the piano. Focus on the intermediate level of keyboard skills, note reading, and rhythm drills. Develop eye-hand coordination and finger, hand, body control.

The selection of pieces includes intermediate piano repertoire, popular songs, folk tunes, and simple piano ensemble music. Study of a first-year (second-semester) piano book. Total of 30 hours lecture and 15 hours of music laboratory. This course (MUS 1020 BEG PIANO II) is the second class of the two-semester course sequence. May be taken up to two times for credit to strengthen fundamental skills.

MUS 1100. Fundamentals of Music Theory. Units: 3

An introduction to notation and fundamental theoretical elements of Western music: pitch, rhythm, form, and notation. Concepts include simple and compound meter, major and minor scales and keys, intervals, and diatonic chords. Credits may not be counted toward fulfilling the requirements of the music major. Formerly MUS 100.

MUS 1110. Basic Musicianship. Units: 2

Quarter Corequisite: MUS 100

Applied musicianship experience including sight-singing, solfege, and dictation, with both pitch and rhythm. Credits may not be counted toward fulfilling the requirements of the music major. Formerly MUS 101.

MUS 1270. History of Electronic Music. Units: 3

This introductory course examines significant moments in electronic music history through the composers, performers, and technologists who helped define it. In addition to developing an understanding of the compositional styles, technological developments and diverse histories of electronic music, students will gain experience reading, writing and engaging in critical discourse around topics in electronic music. Satisfies GE C2/3B, DI, G designations.

MUS 1390. Stretch applied music. Unit: 1

Semester Prerequisite: Placement audition and approval of music faculty
Semester Corequisite: MUS 1000

Forty-five minutes per week of applied instruction and 45 minutes of instruction for a group or small ensemble setting for a total of 90 minutes for music majors who need additional development to complete freshmen-level applied requirements. Graded Credit/No credit. May be taken twice for a total of 2 units. Must be taken concurrently with MUS 1000 (Music Forum). Formerly offered as MUS 80, 81, 82, 83, 84 or 85.

MUS 1400. Lower-Division Voice I. Unit: 1

Semester Prerequisite: placement audition and approval of music faculty. Quarter Corequisite: MUS 385, MUS 386. Quarter Prerequisite: placement audition and approval of music faculty
Semester Corequisite: MUS 1000, MUS 3850 or MUS 3860

Forty-five minutes of private instruction and 45 minutes of instruction in a group or small ensemble setting for a total of 90 minutes. Must be taken concurrently with either MUS 3850 or 3860 and MUS 1000 (Music Forum). May be repeated for a maximum of four units. Formerly offered as MUS 140.

MUS 1410. Lower-Division Keyboard I. Unit: 1

Semester Prerequisite: placement audition and approval of music faculty. Quarter Corequisite: One of the following MUS 380, MUS 381, MUS 385, MUS 386. Quarter Prerequisite: placement audition and approval of music faculty

Semester Corequisite: MUS 1000 and one of the following MUS 3800, MUS 3810, MUS 3850, MUS 3860

Forty-five minutes of private instruction and 45 minutes of instruction in a group or small ensemble setting for a total of 90 minutes. Must be taken concurrently with MUS 1000 and one of MUS 3800, MUS 3810, MUS 3850, or MUS 3860. May be repeated for a maximum of four units. Formerly offered as MUS 141A.

MUS 1420. Lower-Division String Instrument I. Unit: 1

Semester Prerequisite: placement audition and approval of music faculty. Quarter Corequisite: MUS 380. Quarter Prerequisite: placement audition and approval of music faculty

Semester Corequisite: MUS 1000, MUS 3800

Forty-five minutes of private instruction and 45 minutes of instruction in a group or small ensemble setting for a total of 90 minutes. May be repeated for a maximum of four units. Formerly offered as MUS 142A, MUS 142B, MUS 142C, MUS 142D, MUS 142E, MUS 142F.

MUS 1430. Lower-Division Wind Instrument I. Unit: 1

Semester Prerequisite: placement audition and approval of music faculty. Quarter Corequisite: MUS 381. Quarter Prerequisite: placement audition and approval of music faculty

Semester Corequisite: MUS 1000, MUS 3810

Forty-five minutes of private instruction and 45 minutes of instruction in a group or small ensemble setting for a total of 90 minutes. May be repeated for a maximum of four units. Formerly offered as MUS 143A, MUS 143B, MUS 143C, MUS 143D, MUS 143E.

MUS 1440. Lower-Division Brass Instrument I. Unit: 1

Semester Prerequisite: placement audition and approval of music faculty. Quarter Corequisite: MUS 381. Quarter Prerequisite: placement audition and approval of music faculty

Semester Corequisite: MUS 1000, MUS 3800 or MUS 3810

45 minutes of private instruction and 45 minutes of instruction in a group or small ensemble setting for a total of 90 minutes. Must be taken concurrently with MUS 1000 or one of MUS 3800 or MUS 3810. May be repeated for a maximum of four units. Formerly offered as MUS 144A, MUS 144B, MUS 144C, MUS 144D.

MUS 1450. Lower-Division Percussion Instrument I. Unit: 1

Semester Prerequisite: placement audition and approval of music faculty. Quarter Corequisite: MUS 381. Quarter Prerequisite: placement audition and approval of music faculty

Semester Corequisite: MUS 1000 and one of MUS 3800 or 3810

45 minutes of private instruction and 45 minutes of instruction in a group or small ensemble setting for a total of 90 minutes. Must be taken concurrently with MUS 1000 and one of MUS 3800 or MUS 3810. May be repeated for a maximum of four units. Formerly offered as MUS 145.

MUS 1800. Music Appreciation. Units: 3

Analysis and evaluation of musical performance through the study of the elements of music. Course surveys musical examples from varying genres, styles, time periods, and global traditions. Satisfies GE C1/3A, G designation.

MUS 1804. Rock and Roll: Justice and Society. Units: 3

Exploration of the evolution of rock and roll through a historical and socio-political context. The history of rock and roll and its emergence from Post World War II and its development through the second half of the 20th century through the present day are intertwined with the problematic issues of economics, race, gender, equality, politics, sexual orientation, class and culture. Satisfies GE C1/3A, DI designation. Course offered as CAL 1804 and MUS 1804, students may not receive credit for both.

MUS 1865. Global Hip Hop. Units: 3

Introduction to hip hop and rap in the United States and world-wide as a musical art, as a performance art, and as a tool for social justice. This course emphasizes the issues of race, gender, sexuality, and social mobility as they are addressed by or emerge from hip hop, exploring the genre's social and political impact through case studies in global hip hop traditions. Satisfies GE Category C1, designations DI and G. Satisfies the Global Connections, Diversity and Social Justice, and World Cultures and Diversity Pathways.

MUS 1880. Asian American Music. Units: 3

This is a survey course focusing on the music of the Asia-Pacific diaspora. The course examines music creation and consumption as sociocultural practices in contexts including immigration, political mobilization, community building, and racism resistance. Lectures and assignments will cover diverse musical genres ranging from folk traditions, to Western classical forms, to contemporary popular idioms. Satisfies GE C2/3B; DI and G designations.

MUS 1969. LGBTQ+ Influences in Music. Units: 3

A study of the LGBTQ artistic contributions to include composing, performing, and producing art and popular music from the queer perspective. Topics include biographies, non-traditional artistic/industry trends challenging gender and sexuality, queer audience appeal of straight musicians, the current state of queer music studies, and the role of evolving inclusion of LGBTQ prominence in the future of the arts. This course will focus on contemporary literary critique, listening/viewing and discussion. Satisfies GE C1/3A, DI designation.

MUS 2000. Large Music Ensemble. Unit: 1

Lower-division course for participation in large music ensembles such as Symphony Orchestra, Symphonic Band, Jazz Ensemble, Concert Choir, and Chamber Singers. May taken four times for 4 units. Formerly offered as MUS 200.

MUS 2010. Class Strings. Units: 2

Students will study foundations of the string family (violin, viola, cello, and bass) and gain a firm foundation in the planning and instruction of a beginning strings class (homogeneous or heterogeneous) in the public/private school system. One hour seminar and two hours activity. Formerly MUS 201A.

MUS 2020. Class Woodwinds. Units: 2

Students will study foundations of the woodwind family (flute, oboe, clarinet, bassoon, and saxophone) and gain a firm foundation in the planning and instruction of a beginning woodwinds class (homogeneous or heterogeneous) in the public/private school system. One hour seminar and two hours activity. Formerly MUS 202A.

MUS 2030. Class Brass. Units: 2

Students will study foundations of the brass family (trumpet, horn, trombone, euphonium, and tuba) and gain a firm foundation in the planning and instruction of a beginning brass class (homogeneous or heterogeneous) in the public/private school system. One hour seminar and two hours of activity. Formerly MUS 203A.

MUS 2040. Class Percussion. Units: 2

Students will study foundations of the percussion family (mallet percussion, accessory percussion, battery percussion, marching percussion, and world percussion) and gain a firm foundation in the planning and instruction of a beginning percussion class (homogeneous or heterogeneous) in the public/private school system. One hour seminar and two hours of activity. Formerly MUS 204A.

MUS 2050. Class Guitar. Unit: 1

Students will study foundations of the guitar and gain a firm foundation in the planning and instruction of a beginning guitar class in the public/private school system. Formerly MUS 205A.

MUS 2060. Class Voice. Unit: 1

Learn how to sing with good vocal production, diction, breath support, peer coaching, and peer review. Formerly MUS 206.

MUS 2070. Introduction to Music Composition. Units: 2

Semester Prerequisite: MUS 2120 or consent of instructor
Students will study foundations of creating original music compositions in this project-based class. Topics include notation, idiomatic instrumental and vocal writing, harmony, form, and timbre.

MUS 2080. Vocal Music Literature. Unit: 1

A survey of major works of solo and ensemble vocal literature. Formerly MUS 208.

MUS 2090. Instrumental Music Literature. Units: 2

A survey of major works of solo and ensemble instrumental literature. Formerly offered as MUS 209.

MUS 2100. Conducting. Units: 2

Quarter Prerequisite: MUS 122 and MUS 123 or equivalent
Introduction to basic conducting techniques. A minimum of two additional hours per semester of guided field experience at an approved setting is required. Formerly MUS 210.

MUS 2110. Lyric Diction I. Units: 2

A study of the International Phonetic Alphabet and how it applies to the proper usage of lyric diction for the Italian and English vocal literature. Examples are drawn from standard sacred, operatic and song literature. Formerly offered as MUS 211A.

MUS 2111. Lyric Diction II. Units: 2

A study of the International Phonetic Alphabet and how it applies to the proper usage of lyric diction for the French and German vocal literature. Examples drawn from standard operatic and song literature. Formerly offered as MUS 211B.

MUS 2112. Choral Music Literature. Units: 2

A survey of major works of ensemble vocal literature. Formerly MUS 212.

MUS 2114. Introduction to Music Education. Units: 2

Orientation to the field of music education. The course will cover history, philosophy, current practices and trends, music curricula, professional characteristics, and interpersonal skills required of music educators. Formerly MUS 214.

MUS 2120. Music Theory I: Diatonic Harmony. Units: 3

Quarter Prerequisite: MUS 100 and MUS 101, or department placement examination, or consent of instructor

Semester Corequisite: MUS 2125. Quarter Corequisite: MUS 121 and MUS 123 (1st half of course)

Introduction of basic concepts of diatonic harmony. Topics include major and minor scales, intervals, triads, seventh chords, inversions, Roman numeral analysis, and lead-sheet notation. First of four-semester music theory sequence. Formerly MUS 120. Consent required.

MUS 2125. Musicianship I. Units: 2

Quarter Prerequisite: MUS 101

Semester Corequisite: MUS 2120. Quarter Corequisite: MUS 120 and 122 (1st half of course)

Dictation and solf#ge sight-singing of melodies involving diatonic notes of the major, natural minor, harmonic minor, and melodic minor scales. Harmonic dictation involving common diatonic triads. Rhythmic dictation and sight-reading involving beat-division in simple and compound meter. Formerly MUS 121. Consent required.

MUS 2130. Music Theory II: Chromatic Harmony. Units: 3

Semester Prerequisite: MUS 2120 with a grade of "C-" or better

Semester Corequisite: MUS 2135

Continuation of 4-semester Western music theory sequence. Advanced tonal harmony and counterpoint, with an introduction to chromatic harmony. Topics covered include secondary dominants, secondary leading-tone chords, modulation to related keys, modal mixture, Neapolitan and Augmented 6th chords. Second of four-semester music theory sequence. Formerly MUS 122. Consent required.

MUS 2135. Musicianship II. Units: 2

Semester Prerequisite: MUS 2125 with a grade of "C" or better. Quarter Corequisite: MUS 122 (2nd half of course) and MUS 124 or MUS 122 (2nd half of course) and MUS 320 (old catalog). Quarter Prerequisite:

MUS 121 and 123 (1st half of course)

Semester Corequisite: MUS 2130

Dictation and solf#ge sight-singing of melodies involving leaps within the dominant- and leading-tone seventh chords, and simple chromaticism; harmonic dictation involving diatonic seventh chords, secondary dominants, and simple modulation; rhythmic dictation and sight-reading involving subdivision in simple and compound meter. Formerly MUS 123.

MUS 2140. Music Theory III: Analysis of Musical Form. Units: 3

Semester Prerequisite: MUS 2130 with a grade of "C-" or better

Semester Corequisite: MUS 2145

Continuation of 4-semester Western music theory sequence. Advanced chromaticism, enharmonic modulations, and an introduction to formal analysis (including simple and rounded binary, ternary, sonata, rondo, fugue, 12-bar blues, ballad, and other song forms). Third of four-semester music theory sequence. Formerly MUS 124. Consent required.

MUS 2145. Musicianship III. Units: 2

Semester Prerequisite: MUS 2135 with a grade of "C" or better. Quarter Corequisite: MUS 250 and MUS 252 (1st half of course) or MUS 322 and MUS 324 (1st half of course). Quarter Prerequisite: MUS 123 (2nd half of course) and MUS 125 or MUS 123 (2nd half of course) and MUS 321 (old catalog)

Semester Corequisite: MUS 2140

Dictation and solf#ge sight-singing of melodies involving modulation and leaps within Neapolitan, augmented-sixth, modally borrowed, extended tertian, and altered dominant chords; harmonic dictation involving modulation and Neapolitan, augmented-sixth, modally borrowed, extended tertian, and altered dominant chords; rhythmic dictation and sight-reading involving syncopation in simple and compound meter. Formerly MUS 125.

MUS 2150. Music Theory IV: 20th-21st Century Music Theory. Units: 3

Semester Prerequisite: MUS 2140 with a grade of "C-" or better

Semester Corequisite: MUS 2155

Culmination of 4-semester Western music theory sequence. A survey of 20th-21st century Western music theory topics, including Post-tonal harmony, Serialism, Impressionism, Minimalism, Jazz, Blues, American Popular Song, and other post-war and contemporary developments in harmonic and formal analysis. Fourth of four-semester music theory sequence. Formerly MUS 250. Consent required.

MUS 2155. Musicianship IV. Units: 2

Semester Prerequisite: MUS 2145 with a grade of "C" or better. Quarter Corequisite: MUS 252 (2nd half of course) and MUS 254 or MUS 324 (2nd half of course) and MUS 542 - old catalog numbers. Quarter

Prerequisite: MUS 251 and MUS 253 (1st half of course) or MUS 323 and MUS 325 (1st half of course) - old catalog numbers

Semester Corequisite: MUS 2150

Dictation and solf#ge sight-singing of melodies involving modes, synthetic scales, and atonal material; harmonic dictation involving enharmonic modulation; rhythmic dictation and sight-reading involving asymmetrical meters and polymeter. Formerly MUS 251. Department consent required.

MUS 2200. Class Piano I. Unit: 1

Quarter Prerequisite: permission of department

Basic keyboard techniques, including music reading, keyboard harmony and improvisation.

MUS 2210. Class Piano II. Unit: 1

Semester Prerequisite: MUS 2200 with a grade of C or better. Quarter Prerequisite: MUS 220

Continuation of basic keyboard techniques, including music reading, keyboard harmony and improvisation.

MUS 2220. Class Piano III. Unit: 1

Semester Prerequisite: MUS 2210 with a grade of C or better. Quarter Prerequisite: MUS 221

Basic keyboard techniques, including music reading, keyboard harmony and improvisation. Credit may not be counted toward fulfilling requirements of the music major.

MUS 2224. Popular/Commercial Class Piano. Unit: 1

Semester Prerequisite: MUS 1100 and MUS 2200, or consent of Instructor

Provides the basic piano skills and theory needed to perform popular music styles (Jazz, Rock, Pop, Blues, Country, etc.). Includes playing from a lead sheet, comping, popular scales, accompaniment styles, voicing pop and jazz chords, sight-reading, and beginning improvisation. Will also study prominent pianists and their style throughout different eras of modern popular music history.

MUS 2230. Class Piano IV. Unit: 1

Semester Prerequisite: MUS 2220 with a grade of "C" or better

Basic keyboard techniques, including music reading, keyboard harmony, and improvisation.

MUS 2250. Music in the Theatre. Units: 3

A survey of music as it is allied with drama, dance and film. Formerly offered as MUS 225.

MUS 2266. Creating Digital Media Using Personal Electronic Technology. Units: 3

An introduction to the use of personal electronic devices to create digital media. Topics include recording and editing digital audio, audiovisual media production, immersive/AR audio, and content hosting and distribution. This course includes individual and group project-based learning activities. Satisfies GE C1/3A, Digital Life pathway.

MUS 2300. Introduction to Jazz Improvisation. Units: 2

Quarter Prerequisite: MUS 122, MUS 123, MUS 221 or equivalent, or consent of instructor

Techniques of jazz improvisation covered include melodic construction, functional jazz harmonies, practice techniques, primary chord types, auxiliary tones, chromaticism and 12-bar blues form. May be repeated for credit. Formerly offered as MUS 230.

MUS 2350. Popular Music Literature. Units: 3

A survey of the contributions of operetta, show-tune styles, gospel music, the blues, standards of the 30s and 40s, folk and country music, rhythm-and-blues, early rock-and-roll, and the more contemporary and progressive styles of rock, pop and new wave music to twenty-first-century American popular culture. Formerly offered as MUS 235.

MUS 2390. Applied Voice and Repertoire I. Units: 2

Semester Prerequisite: Placement audition and permission of department. Quarter Corequisite: one of the following MUS 240, MUS 241, MUS 242, MUS 243, MUS 244, or MUS 245. Quarter Prerequisite: Placement audition and permission of department

Applied and repertoire study for two hours per week by sophomore-level vocal performance students in the Bachelor of Music degree. May be repeated for a maximum of six units (three semesters). Formerly offered as a combination of MUS 240 and MUS 239.

MUS 2391. Applied Piano and Repertoire I. Units: 2

Semester Prerequisite: Placement audition and permission of department. Applied and repertoire study for two hours per week by sophomore-level piano performance students in the Bachelor of Music degree. May be repeated for a maximum of six units (three semesters).

MUS 2392. Applied Strings and Repertoire I. Units: 2

Semester Prerequisite: Placement audition and permission of department. Applied and repertoire study for two hours per week by sophomore-level string performance students in the Bachelor of Music degree. May be repeated for a maximum of six units (three semesters).

MUS 2393. Applied Woodwind and Repertoire I. Units: 2

Semester Prerequisite: Placement audition and permission of department. Applied and repertoire study for two hours per week by sophomore-level woodwind performance students in the Bachelor of Music degree. May be repeated for a maximum of six units (three semesters).

MUS 2394. Applied Brass and Repertoire I. Units: 2

Semester Prerequisite: Placement audition and permission of department. Applied and repertoire study for two hours per week by sophomore-level brass performance students in the Bachelor of Music degree. May be repeated for a maximum of six units (three semesters).

MUS 2395. Applied Percussion and Repertoire I. Units: 2

Semester Prerequisite: Placement audition and permission of department. Applied and repertoire study for two hours per week by sophomore-level percussion performance students in the Bachelor of Music degree. May be repeated for a maximum of six units (three semesters).

MUS 2400. Lower-Division Voice II. Unit: 1

Semester Prerequisite: placement audition and approval of music faculty. Quarter Corequisite: either MUS 385 or MUS 386. Quarter Prerequisite: placement audition and approval of music faculty. Semester Corequisite: MUS 1000 and either MUS 3850 or MUS 3860. 45 minutes of private instruction and 45 minutes of instruction in a group or small ensemble setting for a total of 90 minutes. Must be taken concurrently with MUS 1000 and either MUS 3850 or 3860. May be repeated for a maximum of four units. Formerly offered as MUS 240.

MUS 2410. Lower-Division Keyboard II. Unit: 1

Semester Prerequisite: placement audition and approval of music faculty. Quarter Corequisite: One of the following: MUS 380, MUS 381, MUS 385 or MUS 386. Quarter Prerequisite: placement audition and approval of music faculty. Semester Corequisite: MUS 1000 and one of the following: MUS 3800, MUS 3810, MUS 3850, MUS 3860. 45 minutes of private instruction and 45 minutes of instruction in a group or small ensemble setting for a total of 90 minutes.. Must be taken concurrently with MUS 1000 and one of MUS 3800, MUS 3810, MUS 3850, or MUS 3860. May be repeated for a maximum of four units. Formerly offered as MUS 241A, MUS 241B, MUS 241C.

MUS 2420. Lower-Division String Instrument II. Unit: 1

Semester Prerequisite: placement audition and approval of music faculty. Quarter Corequisite: MUS 380. Quarter Prerequisite: placement audition and approval of music faculty

Semester Corequisite: MUS 1000, MUS 3800

45 minutes of private instruction and 45 minutes of instruction in a group or small ensemble setting for a total of 90 minutes. May be repeated for a maximum of four units. Formerly offered as MUS 242A, MUS 242B, MUS 242C, MUS 242D, MUS 242E, MUS 242F.

MUS 2430. Lower-Division Wind Instrument II. Unit: 1

Semester Prerequisite: placement audition and approval of music faculty. Quarter Corequisite: MUS 381. Quarter Prerequisite: placement audition and approval of music faculty

Semester Corequisite: MUS 1000, MUS 3800 or MUS 3810

45 minutes of private instruction and 45 minutes of instruction in a group or small ensemble setting for a total of 90 minutes. May be repeated for a maximum of four units. Formerly offered as MUS 243A, MUS 243B, MUS 243C, MUS 243D, MUS 243E.

MUS 2440. Lower-Division Brass Instrument II. Unit: 1

Semester Prerequisite: placement audition and approval of music faculty. Quarter Corequisite: MUS 381. Quarter Prerequisite: placement audition and approval of music faculty

Semester Corequisite: MUS 1000, MUS 3800 or MUS 3810

45 minutes of private instruction and 45 minutes of instruction in a group or small ensemble setting for a total of 90 minutes. May be repeated for a maximum of four units. Formerly offered as MUS 244A, MUS 244B, MUS 244C, MUS 244D.

MUS 2450. Lower-Division Percussion Instrument II. Unit: 1

Semester Prerequisite: placement audition and approval of music faculty. Quarter Corequisite: MUS 381. Quarter Prerequisite: placement audition and approval of music faculty

Semester Corequisite: MUS 1000 and one of MUS 3800 or MUS 3810

45 minutes of private instruction and 45 minutes of instruction in a group or small ensemble setting for a total of 90 minutes. May be repeated for a maximum of four units. Formerly offered as MUS 245.

MUS 2460. Lower-Division Composition. Unit: 1

Semester Prerequisite: MUS 2130 and MUS 2140 or equivalent, at least one year of applied vocal or instrumental instruction at the collegiate level (MUS 1400-1450), a placement audition, and approval of music faculty.

Quarter Prerequisite: MUS 122 and MUS 123 or equivalent, at least one year of applied vocal or instrumental instruction at the collegiate level (MUS 140-145), a placement audition, and approval of music faculty

45 minutes of private instruction and 45 minutes of instruction in a group or small ensemble setting for a total of 90 minutes. Must be taken concurrently with MUS 1000 and one of MUS 3800, MUS 3810, MUS 3850, or MUS 3860. May be repeated for a maximum of four units. Formerly offered as MUS 246.

MUS 2600. Commercial Songwriting. Units: 2

Semester Prerequisite: MUS 2120 and MUS 2125 or consent of the department. Quarter Prerequisite: MUS 120, MUS 121 and consent of the department

Introduction to the harmony, melody, form, and lyrics used in commercial song and jingle composition. Students will compose original songs and jingles as part of the course requirements. Formerly offered as MUS 260.

MUS 2660. Electronic Music Production. Units: 3

An introductory course in electronic music production designed to provide a working understanding of digital audio, including recording and editing tracks, applying audio effects, using software instruments, mixing, and mastering. Formerly MUS 266.

MUS 2670. Sound Recording. Units: 3

An introductory course in sound recording, including topics such as acoustics, digital audio signal processing, and microphone techniques within a Pro Tools software environment. Instruction includes lectures and hands-on projects. Formerly MUS 267.

MUS 2700. Music Therapy Orientation. Units: 3

This course provides an introduction to music therapy and its principles, including key ideas and methods within the field, primary treatments, relevant technologies within the field. It will cover the philosophical, psychological, physiological, and sociological basis of music as therapy. Department consent required.

MUS 2750. Functional Skills for Music Therapy. Units: 3

This course provides key skills for music therapy in leading group singing, guitar, and percussion activities. A basic repertoire of traditional, folk, and popular songs will be covered. It will teach techniques for improvisation in dance and body movement and musical improvisation for the therapeutic setting. It will consider the selection and adaptation of music, musical instruments, and equipment consistent with the strengths and needs of the music therapy client. Department consent is required.

MUS 2770. Improvisation for Music Therapy. Units: 2

Semester Prerequisite: MUS 2700

This course builds on pre-requisite music theory and musicianship skills to provide experience in musical repertoire and improvisation for the therapeutic setting.

MUS 3010. Advanced Choral Conducting and Literature. Units: 2

Semester Prerequisite: Students must have successfully completed MUS 2100; or have special instructor permission. Quarter Prerequisite: MUS 210

Techniques and skills employed in the performance of choral literature and conducting. A minimum of two additional hours per semester of guided field experience at an approved setting is required. Formerly MUS 301.

MUS 3020. Music Theatre Production. Units: 2

Preparation and performance of major musical theater productions, including Broadway-styled musicals, opera, opera scenes, madrigal feasts, variety shows, and the like. May be repeated for credit. Formerly offered as MUS 302.

MUS 3030. Advanced Instrumental Conducting and Literature. Units: 2

Semester Prerequisite: Students must have successfully completed MUS 2100; or have special instructor permission. Quarter Prerequisite: MUS 210

Techniques and skills employed in the performance of instrumental literature and conducting. A minimum of two additional hours per semester of guided field experience at an approved setting is required. One hour seminar and two hours of activity. Formerly offered as MUS 303.

MUS 3040. Western Music History to 1700. Units: 3

Quarter Prerequisite: MUS 122 and MUS 123 or consent of instructor
A historical study of Western music from Ancient Greece through 1700 CE. Study includes examination of major compositional trends, composers, musicians, and genres from primary stylistic trends in the period and includes investigation of cultural, economic, social, and other contexts in which Western music developed. Formerly offered as MUS 304. Graded A through C-/No Credit.

MUS 3050. Western Music History from 1700 to 1900. Units: 3

Quarter Prerequisite: MUS 122 and MUS 123 or consent of instructor
A historical study of Western music from 1700 through 1900 CE. The study includes an examination of major compositional trends, composers, musicians, and genres from primary stylistic trends in the period and includes investigation of cultural, economic, social, and other contexts in which Western music developed. Graded A through C-/No Credit. Satisfies WI designation.

MUS 3060. Western Music History from 1900 to the present. Units: 3

A historical study of Western music from 1900 CE to the present. The study includes an examination of major compositional trends, composers, musicians, and genres from primary stylistic trends in the period and includes an investigation of cultural, economic, social, and other contexts in which Western music developed. Graded A through C-/No Credit. Satisfies WI designation.

MUS 3070. Electronic and Electroacoustic Music Composition. Units: 2

Semester Prerequisite: MUS 2070 or consent of instructor
Project-based class, with creative explorations of topics including composing for instrumental and electroacoustic combinations, synthesizers, live processing, fixed media, and acoustic sound.

MUS 3080. Women in Music. Units: 3

A study of the contributions and roles of women as creators, performers and listeners in relation to music in popular and classical genres of various historic, contemporary, and cultural traditions. Satisfies GE C4/UD-3, DI designation.

MUS 3110. Performance Literature. Units: 2

Semester Corequisite: One of the following MUS 3400, MUS 3410, MUS 3420, MUS 3430, MUS 3440, MUS 3450, MUS 4400, MUS 4410, MUS 4420, MUS 4430, MUS 4440, MUS 4450. Quarter Corequisite: one of the following MUS 340, MUS 341, MUS 342, MUS 343, MUS 344, MUS 345, MUS 440, MUS 441, MUS 442, MUS 443, or MUS 445
A survey of musical literature most applicable to a student's applied study. Formerly MUS 311.

MUS 3300. Jazz Improvisation. Units: 2

Semester Prerequisite: MUS 2130 and 2135, or consent of instructor.
Quarter Prerequisite: MUS 230 or equivalent, or consent of instructor
Techniques of vocal and instrumental jazz improvisation including functional keyboard harmonies/progressions, 12-bar Blues and rhythm changes. Students will transcribe solos, and learn techniques including jazz, modal, pentatonic, and diminished scales; triad/7th chord patterns, and melodic alterations. May be repeated for credit up to 4 units. Formerly MUS 330.

MUS 3309. Jazz History in America and African-American Culture. Units: 3

Chronological study of jazz in the United States and the study of African American musical culture in the U.S. Addresses cultural, racial, social, musical, and gender-related influences of jazz on current American arts, pop culture, language, and entertainment demographics. Satisfies GE C4/UD-3, DI designation.

MUS 3337. Real-Time Multimedia Systems. Units: 3

This course introduces audio, video and other advanced programming concepts in Pure Data, a versatile and widely used programming language for artists. Students will learn to work with multichannel audio, create polyphonic synthesizers and samplers, design audio effects, and learn how to implement pitch and gesture tracking for live performance. Students will also learn how to incorporate video and 3D graphics into their projects using OpenGL. At the end of the semester, students will create and present original creative works that utilize the technologies they have developed.

MUS 3390. Applied Voice and Repertoire II. Units: 2

Semester Prerequisite: Placement audition and permission of department.
Quarter Corequisite: one of the following, MUS 340, MUS 341, MUS 342, MUS 343, MUS 344, or MUS 345. Quarter Prerequisite: Placement audition and permission of department
Applied and repertoire study for two hours per week by junior-level vocal performance students in the Bachelor of Music degree. May be repeated for a maximum of six units (three semesters). Formerly offered as a combination of MUS 340 and MUS 339.

MUS 3391. Applied Piano and Repertoire II. Units: 2

Semester Prerequisite: Placement audition and permission of department
Applied and repertoire study for two hours per week by junior-level piano performance students in the Bachelor of Music degree. May be repeated for a maximum of six units (three semesters).

MUS 3392. Applied Strings and Repertoire II. Units: 2

Semester Prerequisite: Placement audition and permission of department
Applied and repertoire study for two hours per week by junior-level string performance students in the Bachelor of Music degree. May be repeated for a maximum of six units (three semesters).

MUS 3393. Applied Woodwind and Repertoire II. Units: 2

Semester Prerequisite: Placement audition and permission of department
Applied and repertoire study for two hours per week by junior-level woodwind performance students in the Bachelor of Music degree. May be repeated for a maximum of six units (three semesters).

MUS 3394. Applied Brass and Repertoire II. Units: 2

Semester Prerequisite: Placement audition and permission of department
Applied and repertoire study for two hours per week by junior-level brass performance students in the Bachelor of Music degree. May be repeated for a maximum of six units (three semesters).

MUS 3395. Applied Percussion and Repertoire II. Units: 2

Semester Prerequisite: Placement audition and permission of department
Applied and repertoire study for two hours per week by junior-level percussion performance students in the Bachelor of Music degree. May be repeated for a maximum of six units (three semesters).

MUS 3400. Upper-Division Voice I. Unit: 1

Semester Prerequisite: placement audition and approval of music faculty.
Quarter Prerequisite: placement audition and approval of music faculty
45 minutes of private instruction and 45 minutes of instruction in a group or small ensemble setting for a total of 90 minutes. Must be taken concurrently with MUS 1000 and either MUS 3850 or 3860. May be repeated for a maximum of four units. Formerly offered as MUS 340.

MUS 3410. Upper-Division Keyboard Instrument I. Unit: 1

Semester Prerequisite: placement audition and approval of music faculty.
Quarter Prerequisite: placement audition and approval of music faculty
45 minutes of private instruction and 45 minutes of instruction in a group or small ensemble setting for a total of 90 minutes. Must be taken concurrently with MUS 1000 and one of MUS 3800, MUS 3810, MUS 3850, or MUS 3860. May be repeated for a maximum of four units. Formerly MUS 341A.

MUS 3420. Upper-Division String Instrument I. Unit: 1

Semester Prerequisite: placement audition and approval of music faculty.
Quarter Corequisite: MUS 380. Quarter Prerequisite: placement audition and approval of music faculty
Semester Corequisite: MUS 1000, MUS 3800
45 minutes of private instruction and 45 minutes of instruction in a group or small ensemble setting for a total of 90 minutes. Must be taken concurrently with MUS 1000 and MUS 3800. May be repeated for a maximum of four units. Formerly offered as MUS 342A, MUS 342B, MUS 342C, MUS 342D, MUS 342E, MUS 343F.

MUS 3430. Upper-Division Wind Instrument I. Unit: 1

Semester Prerequisite: placement audition and approval of music faculty.
Quarter Corequisite: MUS 381. Quarter Prerequisite: placement audition and approval of music faculty
Semester Corequisite: MUS 1000, MUS 3800 or MUS 3810
45 minutes of private instruction and 45 minutes of instruction in a group or small ensemble setting for a total of 90 minutes. May be taken four times for four units. Formerly offered as MUS 343A, MUS 343B, MUS 343C, MUS 343D, MUS 343E.

MUS 3440. Upper-Division Brass Instrument I. Unit: 1

Semester Prerequisite: placement audition and approval of music faculty.
Quarter Corequisite: MUS 381. Quarter Prerequisite: placement audition and approval of music faculty
Semester Corequisite: MUS 1000 and one of MUS 3800 or MUS 3810
45 minutes of private instruction and 45 minutes of instruction in a group or small ensemble setting for a total of 90 minutes. May be repeated for a maximum of six units. Formerly offered as MUS 344A, MUS 344B, MUS 344C, MUS 344D.

MUS 3450. Upper-Division Percussion Instrument I. Unit: 1

Semester Prerequisite: placement audition and approval of music faculty.
Quarter Corequisite: MUS 380. Quarter Prerequisite: placement audition and approval of music faculty
Semester Corequisite: MUS 1000 and one of MUS 3800 or MUS 3810
45 minutes of private instruction and 45 minutes of instruction in a group or small ensemble setting for a total of 90 minutes. May be repeated for a maximum of four units. Formerly offered as MUS 345.

MUS 3460. Upper-Division Composition I. Unit: 1

Semester Prerequisite: placement audition and approval of music faculty.
Quarter Prerequisite: placement audition and approval of music faculty
45 minutes of private instruction and 45 minutes of instruction in a group or small ensemble setting for a total of 90 minutes. Must be taken concurrently with MUS 1000 and one of MUS 3800, 3810, 3850, or 3860. May be repeated for a maximum of four units. Formerly offered as MUS 346.

MUS 3480. Applied Technology I. Unit: 1

Semester Prerequisite: MUS 4160 or MUS 4270 and approval of music faculty. Quarter Corequisite: One of MUS 380, MUS 381, MUS 385 or MUS 386. Quarter Prerequisite: MUS 416 or MUS 427 and approval of music faculty
Semester Corequisite: MUS 1000 and one of MUS 3800, MUS 3810, MUS 3850 or MUS 3860
Individual instruction in applied music technology and directed study in characteristic repertoire, live performance, digital programming, and/or creative layering of sound. 45 minutes of private instruction and 45 minutes of instruction in a group or small ensemble setting for a total of 90 minutes. May be repeated for a maximum of four units. Formerly offered as MUS 348.

MUS 3490. Applied Commercial Music. Unit: 1

Quarter Prerequisite: MUS 266 and MUS 414 and approval of music faculty
Individual instruction in applied commercial music composition, scoring, performance, and/or engineering, including directed study in ProTools and MIDI software and hardware, commercial performance practice for studio and live settings, refinement of compositional skills for particular commercial genres and needs, and other topics selected with instructor's approval. One-half hour per week of private instruction. Must be taken concurrently with one of MUS 380, MUS 381, MUS 385, or MUS 386. May be repeated for a maximum of six units.

MUS 3500. Global Music. Units: 3

A survey of select global musical traditions, including the historical, philosophical, cultural, and other contexts in which music is composed and performed. Satisfies GE C4/UD-3, G designation.

MUS 3510. Latin American Music. Units: 3

An interdisciplinary study of Latin American music and dance from the perspectives of music studies, cultural studies, diaspora studies, colonial studies, Latin American studies, and race, gender, and queer studies. Focusing on several waves of globalization experienced by the Caribbean and Central and South America, this course will address questions of musical roots and influences, economic and political forces, cultural and personal identity, colonialism and globalization, and migration and diaspora. Musical traditions to be covered might include those of Mexico, Colombia, Cuba, Brazil, Argentina, Peru, and the Latinx diaspora in the United States and Canada. Musical styles might include traditional styles, colonial hybrids, indigenous styles, and popular styles. Satisfies GE C4/UD-3, DI, G designations, Global Connections, World Cultures and Diversity pathways.

MUS 3520. African American Music. Units: 3

Historical development of the African American musical heritage. Formerly MUS 352.

MUS 3600. Choral Methods. Units: 2

Semester Prerequisite: Students must have successfully passed MUS 2112 and MUS 3010

Learn how to build and run a choral program. Learn how to choose choral literature from around the world appropriate for a variety of levels, how to build a choral sound, how to build a choral ensemble, as well as methodologies for sight-reading and musicianship, rehearsal techniques, and budgeting and administration.

MUS 3610. Music in the United States. Units: 3

Primarily concerned with music not directly related to Western European classical traditions: folk heritage, jazz, and blues tradition. Formerly offered as MUS 360.

MUS 3650. Music for the Screen. Units: 3

The history of film music around the world is the history of culture, industry, technology, style, and storytelling. Music for the screen not only facilitates narrative and mood for the audience's enjoyment, but also outlines changes over time across diverse traditions, national politics, social norms, cultural aesthetics, and audience expectations. This course contends with the power of music and sound in screen media across the globe, surveying feature-length films according to broad topics that apply to multiple film traditions from multiple film traditions. Weekly viewings will allow us to engage with screen media as a multisensorial, psychological, and artistic experience while also exploring genre conventions, key composers and styles, and the impact of technology and production practice on each practice we cover. Global practices will be considered not only through their filmic and musical trends, but also through histories of technology, international politics, and social politics. This course will help us engage more critically with a global art form that permeates our everyday and professional lives, illuminate the ideas and practices at its heart, and teach us to analyze it according to its cultural context and articulate our conclusions. Satisfies GE C4/UD-3, G designation, Global Connections pathway.

MUS 3670. Music in Video Games. Units: 3

This course will introduce central ideas, hot spots, and goals in the creation and study of video game music (VGM). Satisfies GE C4/UD3, WI designation.

MUS 3700. Marching Band Methods. Units: 2

Semester Prerequisite: The student must have successfully passed MUS 2090 and MUS 3030

Students enrolled in this class will learn and demonstrate knowledge of planning, budgeting and administration of band camps and marching band and develop an understanding and be able to create marching drill in the four primary styles of marching band - Corps Style, Squad Style, Block Band, Show Band, thus preparing them to be adaptable for any style used by school districts following their hiring. One hour seminar and two hours of activity.

MUS 3702. Symphonic Orchestral Methods. Units: 2

Semester Prerequisite: MUS 2090 and MUS 3030

Students enrolled in this course will learn and demonstrate knowledge of planning, budgeting, and administration of orchestral camps and symphonic orchestras, and develop an understanding and ability to create programs for symphonic orchestras and chamber orchestras, preparing them to be adaptable to different types of orchestras used by school districts following their hiring. One hour seminar and two hours of activity.

MUS 3705. Music for Elementary Classroom Teachers. Units: 3

Basic elements of music, including teaching strategies for using music in the elementary classroom. Class activities will include singing, movement, listening, playing classroom instruments, and musical composition. Students will also develop proficiency in the soprano recorder. Each student will develop and present a lesson plan integrating the teaching of musical skills with other areas of the elementary curriculum, in accordance with the California and National Standards of Visual and Performing Arts. One hour seminar and two hours of activity. Formerly offered as MUS 370.

MUS 3750. Music Theatre Internship. Units: 2

Semester Prerequisite: DAN 300, MUS 3400, and either MUS 3020, MUS 3870 or TA 302. Quarter Prerequisite: DAN 300, MUS 340, and either MUS 302, MUS 387 or TA 302

Supervised work in a public or private setting that includes primarily professional auditioning and performing experience in the field of music theater. May be repeated twice for credit. Generally assumes 30 hours of work per unit of credit. Graded credit/no credit. Formerly offered as MUS 375.

MUS 3760. Psychology of Music. Units: 3

This course provides students with an understanding of the psychological and biological aspects of musical behavior and experience. It also introduces students to the concurrent physiological, psychological, philosophical, and sociological affects and meanings of music, and to the various ways in which music and music therapy can be responsive to age group, culture, and stylistic preferences. Finally, it teaches students to interpret and employ qualitative, quantitative, and historical research methods in the study of music.

MUS 3780. Clinical Principles in Music Therapy. Units: 3

Semester Prerequisite: PSYC 1100 and MUS 2700

Semester Corequisite: MUS 3781

This course presents therapeutic methods, principles, and applications in the field of music therapy. It covers the biological, neurological, and psychological foundations of music therapy, addresses the therapist-client relationship, and explores the Standards of Clinical Practice and the American Music Therapy Association (AMTA) Code of Ethics. Students will also be introduced to collaborative partnerships, client assessment, documentation, treatment and discharge planning, and the implementation and evaluation of therapy.

MUS 3781. Music Therapy Observation. Units: 2

Semester Prerequisite: MUS 2700

Semester Corequisite: MUS 3780

This course provides supervised observation and discussion of the therapeutic setting in the field of music therapy.

MUS 3782. Music Therapy Group Lab. Unit: 1

Semester Prerequisite: MUS 3780

This course provides an opportunity for students to apply learned skills in music therapy in a practice setting. May be taken twice for up to two units.

MUS 3790. Music Therapy for Adults. Units: 2

Semester Prerequisite: MUS 3780

This course covers research surrounding, and best practices for, the music therapy setting with adult patients.

MUS 3791. Music Therapy for Children. Units: 2

Semester Prerequisite: MUS 3780

This course covers research surrounding, and best practices for, the music therapy setting with pediatric patients.

MUS 3800. Symphony Orchestra. Unit: 1

Quarter Prerequisite: Audition and consent of instructor

Orchestra provides string, woodwind, brass, percussion, and keyboard musicians the opportunity to play masterworks of the symphony orchestra repertory, and occasionally chamber and string orchestra repertory. The course is repeatable for credit. Department consent required. Formerly offered as MUS 380.

MUS 3810. Symphonic Band. Unit: 1

Quarter Prerequisite: Audition and consent of instructor

Symphonic Band provides woodwind, brass, and percussion musicians the opportunity to play masterworks of the symphonic band repertory. The course is repeatable for credit. Department consent required. Formerly offered as MUS 381.

MUS 3820. Chamber Winds. Unit: 1

Semester Prerequisite: Consent of instructor. Quarter Prerequisite: Consent of instructor

Performance of small ensemble music as determined by available instrumentation. Repeatable for credit. Formerly offered as MUS 382A.

MUS 3821. Chamber Music: Percussion Ensemble. Unit: 1

Semester Prerequisite: Consent of instructor. Quarter Prerequisite: Consent of instructor

Performance of small ensemble music as determined by available instrumentation. Repeatable for credit. Formerly offered as MUS 382B.

MUS 3822. Chamber Music: Flute Choir. Unit: 1

Semester Prerequisite: Consent of instructor. Quarter Prerequisite: Consent of instructor

Performance of small ensemble music as determined by available instrumentation. Repeatable for credit. Formerly offered as MUS 382C.

MUS 3823. Chamber Music: Brass Quintet. Unit: 1

Semester Prerequisite: Consent of instructor. Quarter Prerequisite: Consent of instructor

Performance of small ensemble music as determined by available instrumentation. Repeatable for credit. Formerly offered as MUS 382D.

MUS 3824. Chamber Music: Saxophone Ensemble. Unit: 1

Semester Prerequisite: Consent of instructor. Quarter Prerequisite: Consent of instructor

Performance of small ensemble music as determined by available instrumentation. Repeatable for credit. Formerly offered as MUS 382E.

MUS 3825. Chamber Music: Guitar Ensemble. Unit: 1

Semester Prerequisite: Consent of instructor. Quarter Prerequisite: Consent of instructor

Performance of small ensemble music as determined by available instrumentation. Repeatable for credit. Formerly offered as MUS 382F.

MUS 3826. Chamber Music: Clarinet Ensemble. Unit: 1

Semester Prerequisite: Consent of instructor. Quarter Prerequisite: Consent of instructor

Performance of small ensemble music as determined by available instrumentation. Repeatable for credit. Formerly offered as MUS 382G.

MUS 3827. Chamber Music: Jazz Combo. Unit: 1

Semester Prerequisite: Consent of instructor. Quarter Prerequisite: MUS 230 or consent of instructor

Performance of small ensemble music as determined by available instrumentation. Repeatable for credit. Formerly offered as MUS 382H.

MUS 3828. Chamber Music: World Music. Unit: 1

Semester Prerequisite: Consent of instructor. Quarter Prerequisite: Consent of instructor

Performance of small ensemble music as determined by available instrumentation. Repeatable for credit. Formerly offered as MUS 382I.

MUS 3829. Chamber Music: Early Music. Unit: 1

Semester Prerequisite: Consent of instructor. Quarter Prerequisite: Consent of instructor

Performance of small ensemble music as determined by available instrumentation. Repeatable for credit. Formerly offered as MUS 382J.

MUS 3830. Chamber Music: Strings. Unit: 1

Semester Prerequisite: Consent of instructor. Quarter Prerequisite: Consent of instructor

Performance of small ensemble music as determined by available instrumentation. Repeatable for credit. Formerly offered as MUS 382L.

MUS 3831. Chamber Music: Collaborative Piano. Unit: 1

Semester Prerequisite: Consent of instructor. Quarter Prerequisite: Consent of instructor
Performance of small ensemble music as determined by available instrumentation. Repeatable for credit. Formerly offered as MUS 382K.

MUS 3832. Cello Ensemble. Unit: 1

Semester Prerequisite: Consent of instructor
Performance of small ensemble music as determined by available instrumentation. Repeatable for credit.

MUS 3833. New Music Ensemble. Unit: 1

Semester Prerequisite: Consent of instructor
Performance of small ensemble music as determined by available instrumentation. Repeatable for credit.

MUS 3834. El Mariachi Los Coyotes. Unit: 1

Quarter Prerequisite: Consent of instructor
Performance of small ensemble music as determined by available instrumentation. Repeatable for credit.

MUS 3835. Alternative Styles Capstone. Unit: 1

Semester Prerequisite: Completion of all course requirements in the Minor in Alternative Styles of Music, and consent of instructor. Prerequisite: Completion of all course requirements in the Minor in Alternative Styles of Music, and consent of instructor
Performance of small ensemble music as determined by available instrumentation. Will culminate in a performance for the Coyote Music Society's Showcase Recital.

MUS 3836. Orchestral Repertoire. Unit: 1

Semester Prerequisite: Consent of instructor
Semester Corequisite: Co-registration in applied lessons
Orchestral repertoire class for all instrumental areas (strings, woodwinds, brass, percussion, and keyboard), covering a broad spectrum of the standard orchestral literature; emphasis on preparation for professional orchestral auditions. This course requires 2 hours of contact time per week. May be taken 4 times for a total of 4 units.

MUS 3837. Double Bass Ensemble. Unit: 1

Performance of small ensemble music as determined by available instrumentation. Repeatable for credit. Consent required.

MUS 3838. Viola Ensemble. Unit: 1

Semester Prerequisite: Consent of instructor
Performance of small ensemble music as determined by available instrumentation. Repeatable for credit. Department consent required.

MUS 3839. Violin Ensemble. Unit: 1

Semester Prerequisite: Consent of instructor
Performance of small ensemble music as determined by available instrumentation. Repeatable for credit. Department consent required.

MUS 3850. Concert Choir. Unit: 1

Learn vocal technique and basic skills for choral singing through rehearsal and performance of choral music. Repeatable for credit. Department consent required. Formerly offered as MUS 385.

MUS 3860. Chamber Singers. Unit: 1

Quarter Prerequisite: Audition and consent of instructor
Learn advanced skills for singing in a chamber choral ensemble through rehearsal and performance of choral music. Repeatable for credit. Department consent required. Formerly offered as MUS 386.

MUS 3870. Opera Theatre I. Unit: 1

Quarter Prerequisite: Audition and consent of instructor
Preparation and rehearsal of major musical theatre productions, including opera, operetta, and opera scenes. May be repeated for credit. Total credit units apply to any degree emphasis are outlined in the specific catalog description for that emphasis. Students admitted into this course must also register for MUS 3970 in the Spring semester of the same academic year. Formerly offered as MUS 387.

MUS 3880. Women's Chorus. Unit: 1

Semester Prerequisite: Consent of instructor. Quarter Prerequisite: Audition and consent of instructor
Learn vocal techniques and basic skills for choral ensemble singing through rehearsal and performance of women's chorus repertoire. Repeatable for credit. Department consent required. Formerly offered as MUS 388.

MUS 3890. Wind Ensemble. Unit: 1

Semester Prerequisite: Consent of instructor. Quarter Prerequisite: Audition and consent of instructor
Performance of representative literature for wind ensemble. Repeatable for credit. Formerly offered as MUS 389.

MUS 3910. Jazz Ensemble. Unit: 1

Semester Prerequisite: Audition and consent of instructor. Quarter Prerequisite: Audition and consent of instructor
Performance of representative jazz ensemble literature. Repeatable for credit. Formerly offered as MUS 391.

MUS 3920. Vocal Jazz. Unit: 1

Semester Prerequisite: Audition and consent of instructor. Quarter Prerequisite: Audition and consent of instructor
A select vocal ensemble dedicated to the performance of American vocal jazz, emphasizing vocal jazz improvisation and jazz styles. Active performance schedule can be expected. Repeatable for credit. Formerly offered as MUS 392.

MUS 3930. Collegium Musicum. Unit: 1

Semester Prerequisite: Consent of instructor. Quarter Prerequisite: Consent of instructor
Performance of representative vocal and instrumental literature from the Medieval and Renaissance periods. Four hours of activity per week. Repeatable for credit. Formerly offered as MUS 393.

MUS 3950. Symphonic Choir. Unit: 1

Semester Prerequisite: Audition and consent of instructor. Quarter Prerequisite: Audition and consent of instructor
Performance of major works for large choral ensemble. Repeatable for credit. Formerly offered as MUS 395.

MUS 3960. Reverence Singers. Unit: 1

Performance of vocal literature from the Afro-American tradition. Repeatable for credit. Formerly offered as MUS 396.

MUS 3970. Opera Theatre II. Units: 2

Semester Prerequisite: MUS 3870 in the same academic year. Quarter Prerequisite: MUS 387 in the same academic year
Continuation of MUS 3870. Preparation and performance of major music theatre productions, including opera, operetta, and opera scenes. May be repeated for credit. Total units may apply to any degree concentration area outlined in the specific catalog description for that emphasis. Formerly offered as MUS 397.

MUS 3990. Junior Recital. Unit: 1

Semester Prerequisite: Junior standing, attained 300-level in applied study, and consent of department. Quarter Prerequisite: junior standing, attained 300-level in applied study, and consent of department
Under the supervision of an applied instructor, preparation for and public performance of a recital. Formerly MUS 499.

MUS 3991. Community Service Project. Unit: 1

Quarter Prerequisite: Consent of instructor
Credit for performing academically related tasks in such agencies as governmental, social service and educational institutions. May be repeated for a total of six units. No more than six units of credit for Community Service Project courses may be applied toward degree requirements. Formerly MUS 399A.

MUS 3992. Community Service Project. Units: 2

Quarter Prerequisite: Consent of instructor
Credit for performing academically related tasks in such agencies as governmental, social service and educational institutions. May be repeated for a total of six units. No more than six units of credit for Community Service Project courses may be applied toward degree requirements. Formerly offered as MUS 399B.

MUS 4000. Studies in Composers. Units: 3

Quarter Prerequisite: MUS 306 or consent of instructor
Intensive study in the life and works of a particular composer. Content will vary. May be repeated for credit as topics change. Formerly offered as MUS 400.

MUS 4020. Topics in Music History. Units: 3

Quarter Prerequisite: MUS 306 or consent of instructor
Selected topics in the field of Music History. May be repeated for credit as topics change. Formerly offered as MUS 402.

MUS 4030. Score Study & Analysis for Conductors. Units: 3

Semester Prerequisite: MUS 2150 and 2155
Students enrolled in this course will learn and demonstrate knowledge of how a conductor studies, learns, and marks a score both as a rehearsal score, and also as a performance score. Students will learn how to effectively use the time to musically analyze a score for conducting, and to use a score in rehearsal and performance.

MUS 4040. Professional Conducting & Literature. Units: 2

Semester Prerequisite: MUS 2100, MUS 3010, and MUS 3030
Students enrolled in this course will learn and demonstrate knowledge of podium techniques and repertoire in use for professional organizations, both choral and orchestral. They will learn the responsibilities for programming, budgeting, and working with a board of directors, appropriate for being hired as an artistic director in the field of professional conducting. Course meets three hours per week.

MUS 4060. Orchestration. Units: 2

Semester Prerequisite: MUS 2120 with a grade of "C" or better and MUS 2125 with a grade of "C" or better. Quarter Prerequisite: MUS 122 and MUS 123 or consent of instructor
Instrumental literature and orchestration, including study of the instruments of the orchestra and writing for instrumental groups. Department consent required. Formerly MUS 406.

MUS 4080. Arranging. Units: 2

Semester Prerequisite: MUS 4060 with a grade of "C" or better. Quarter Prerequisite: MUS 406 or consent of instructor
Continuation of MUS 4060. Techniques of arranging for large instrumental groups, such as symphonic band. Department consent required. Formerly MUS 408.

MUS 4085. Instrumentation and Arranging. Units: 2

Semester Prerequisite: Students should have successfully completed either MUS 3030 or MUS 3010; or have special approval from the instructor
Course is geared toward pre-professional music educators. Study of writing and arranging for the strings, woodwinds, brass and percussion as well as choral ensembles. Functional ranges and practical applications through score study and projects.

MUS 4100. Music in the Elementary Schools. Units: 3

Semester Prerequisite: The student must have successfully passed Intro to MUS 2114 or have the consent of the instructor. Quarter Prerequisite: MUS 214 or consent of instructor
Materials and objectives in teaching music at the elementary school, including specialized instrumental and choral programs, singing and listening activities, and the use of simple instruments appropriate to child growth and development. Field work is included. Formerly MUS 410.

MUS 4110. Teaching Music in Secondary Schools. Units: 3

Semester Prerequisite: The student must have successfully passed Intro to MUS 2114 and MUS 4100; or have the consent of the instructor. Quarter Prerequisite: MUS 214 or consent of instructor
Materials and objectives for teaching music in the secondary schools, including specialized instrumental and choral programs and marching band techniques. Field work is included. Formerly MUS 411.

MUS 4140. Commercial Arranging and Scoring. Units: 2

Arranging and scoring techniques for groups of varied instrumentation, and for various commercial applications, including traditional songs, jingles, and video scoring. Formerly offered as MUS 414.

MUS 4170. Composition for Films and Television. Units: 3

Quarter Prerequisite: MUS 4140 or consent of instructor
Study of the aesthetic, psychological and practical techniques involved in composing music for films and television. Formerly MUS 417.

MUS 4180. Film Soundtrack Recording. Units: 3

Learn the techniques and skills for vocal/instrumental session work in film and television soundtrack recording. Develop your resume, audio clip demos, microphone techniques, home studio setup, and how to connect to vocal/instrumental contractors in the film industry. Students will gain hands-on experience sight-reading actual film soundtrack scores in mock soundstage sessions.

MUS 4260. Studies in Music History Style Periods. Units: 3

Semester Prerequisite: MUS 3340, 3350, 3360, or consent of instructor. Quarter Prerequisite: MUS 3340, 3350 and 3360, or consent of instructor. Intensive study in selected style periods of music. May be repeated for credit as topics change. Formerly offered as MUS 426.

MUS 4290. Topics in Music Technology. Units: 3

Areas of special interest in the field of music technology. May be repeated for credit as topics change. Formerly MUS 429.

MUS 4390. Applied Voice and Repertoire III. Units: 2

Semester Prerequisite: Placement audition and permission of department. Quarter Corequisite: one of the following MUS 440, MUS 441, MUS 442, MUS 443, MUS 444, or MUS 445. Quarter Prerequisite: placement audition and permission of department. Applied and repertoire study for two hours per week by senior-level vocal performance students in the Bachelor of Music degree. May be repeated for a maximum of six units (three semesters). Formerly offered as a combination of MUS 440 and MUS 439.

MUS 4391. Applied Piano and Repertoire III. Units: 2

Semester Prerequisite: Placement audition and permission of department. Applied and repertoire study for two hours per week by senior-level piano performance students in the Bachelor of Music degree. May be repeated for a maximum of six units (three semesters).

MUS 4392. Applied Strings and Repertoire III. Units: 2

Semester Prerequisite: Placement audition and permission of department. Applied and repertoire study for two hours per week by senior-level string performance students in the Bachelor of Music degree. May be repeated for a maximum of six units (three semesters).

MUS 4393. Applied Woodwind and Repertoire III. Units: 2

Semester Prerequisite: Placement audition and permission of department. Applied and repertoire study for two hours per week by senior-level woodwind performance students in the Bachelor of Music degree. May be repeated for a maximum of six units (three semesters).

MUS 4394. Applied Brass and Repertoire III. Units: 2

Semester Prerequisite: Placement audition and permission of department. Applied and repertoire study for two hours per week by senior-level brass performance students in the Bachelor of Music degree. May be repeated for a maximum of six units (three semesters).

MUS 4395. Applied Percussion and Repertoire III. Units: 2

Semester Prerequisite: Placement audition and permission of department. Applied and repertoire study for two hours per week by senior-level percussion performance students in the Bachelor of Music degree. May be repeated for a maximum of six units (three semesters).

MUS 4400. Upper-Division Voice II. Unit: 1

Semester Prerequisite: placement audition and approval of music faculty. Quarter Corequisite: one of MUS 385 or MUS 386. Quarter Prerequisite: placement audition and approval of music faculty. Semester Corequisite: MUS 1000 and one of MUS 3850 or MUS 3860. 45 minutes of private instruction and 45 minutes of instruction in a group or small ensemble setting for a total of 90 minutes. May be repeated for a maximum of four units. Formerly offered as MUS 440.

MUS 4410. Upper-Division Keyboard Instrument II. Unit: 1

Semester Prerequisite: placement audition and approval of music faculty. Quarter Corequisite: One of MUS 380, MUS 381, MUS 385, MUS 386. Quarter Prerequisite: placement audition and approval of music faculty. Semester Corequisite: MUS 1000 and One of MUS 3800, MUS 3810, MUS 3850, MUS 3860. 45 minutes of private instruction and 45 minutes of instruction in a group or small ensemble setting for a total of 90 minutes. May be repeated for a maximum of four units. Formerly offered as MUS 441A, MUS 441B, MUS 441C.

MUS 4420. Upper-Division String Instrument II. Unit: 1

Semester Prerequisite: placement audition and approval of music faculty. Quarter Corequisite: placement audition and approval of music faculty. Quarter Prerequisite: placement audition and approval of music faculty. Semester Corequisite: MUS 1000, MUS 3800. 45 minutes of private instruction and 45 minutes of instruction in a group or small ensemble setting for a total of 90 minutes. May be repeated for a maximum of four units. Formerly offered as MUS 442A, MUS 442B, MUS 442C, MUS 442D, MUS 442E, MUS 442F.

MUS 4430. Upper-Division Wind Instrument II. Unit: 1

Semester Prerequisite: placement audition and approval of music faculty. Quarter Corequisite: MUS 381. Quarter Prerequisite: placement audition and approval of music faculty. Semester Corequisite: MUS 1000, MUS 3800 or MUS 3810. 45 minutes of private instruction and 45 minutes of instruction in a group or small ensemble setting for a total of 90 minutes. May be repeated for a maximum of four units. Formerly offered as MUS 443A, MUS 443B, MUS 443C, MUS 443D, MUS 443E.

MUS 4440. Upper-Division Brass Instrument II. Unit: 1

Semester Prerequisite: placement audition and approval of music faculty. Quarter Corequisite: MUS 381. Quarter Prerequisite: placement audition and approval of music faculty. Semester Corequisite: MUS 1000 and one of MUS 3800 or MUS 3810. 45 minutes of private instruction and 45 minutes of instruction in a group or small ensemble setting for a total of 90 minutes. May be repeated for a maximum of six units. Formerly offered as MUS 444A, MUS 444B, MUS 444C, MUS 444D.

MUS 4444. Four on the Floor: Electronic Dance Music in Practice and Culture. Units: 3

Semester Prerequisite: Students should have completed both MUS 2660 and MUS 2670

A course on the the histories, techniques, and production styles of electronic dance music. Students will learn the basics of producing in Ableton Live, including recording audio and MIDI, sampling, creating and customizing software instruments, implementing filters and compressors, mixing, parameter automation, and using time-based effects such as reverb and delay.

MUS 4450. Upper-Division Percussion Instrument II. Unit: 1

Semester Prerequisite: placement audition and approval of the music faculty. Quarter Corequisite: MUS 381. Quarter Prerequisite: placement audition and approval of music faculty

Semester Corequisite: MUS 1000 and one of MUS 3800 or MUS 3810
45 minutes of private instruction and 45 minutes of instruction in a group or small ensemble setting for a total of 90 minutes. May be repeated for a maximum of four units. Formerly offered as MUS 445.

MUS 4455. Arts in Action: Music. Units: 3

Semester Prerequisite: MUS 3705. Prerequisite: MUS 370
Applied practice of arts education in the community. Projects will vary based on participants. May be repeated for credit up to 9 units if taken under a different Fine Arts subject (Dance, Visual Art, or Music).

MUS 4460. Upper-Division Composition II. Unit: 1

Semester Prerequisite: placement audition and approval of music faculty. Quarter Prerequisite: placement audition and approval of music faculty
45 minutes of private instruction and 45 minutes of instruction in a group or small ensemble setting for a total of 90 minutes. Must be taken concurrently with MUS 1000 and one of MUS 3800, MUS 3810, MUS 3850, or MUS 3860. May be repeated for a maximum of four units. Formerly offered as MUS 4460.

MUS 4480. Applied Technology. Unit: 1

Semester Prerequisite: MUS 3480 or consent of instructor. Quarter Corequisite: one of MUS 380, MUS 381, MUS 385 or MUS 386. Quarter Prerequisite: MUS 348 or consent of instructor
Semester Corequisite: MUS 1000 and one of MUS 3800, MUS 3810, MUS 3850 or MUS 3860

Advanced individual instruction in applied music technology, with directed study in the characteristic repertoire, live performance, digital programming, and creative layering of sound. 45 minutes of private instruction and 45 minutes of instruction in a group or small ensemble setting for a total of 90 minutes. May be repeated for a maximum of four units. Formerly offered as MUS 448.

MUS 4500. Applied Pedagogy. Unit: 1

Semester Corequisite: MUS 3390, 3391, 3392, 3393, 3394, 3395, 3400, 3410, 3420, 3430, 3440, 3450, 4390, 4391, 4392, 4393, 4394, 4395, 4400, 4410, 4420, 4430, 4440, or 4450

Study of pedagogical techniques and literature most applicable to a student's applied instrument. Includes review of recent pedagogical research, review of standard methodologies or "schools" of teaching, and supervised teaching experiences. Formerly offered as MUS 450A-G.

MUS 4660. Advanced Electronic Music. Units: 3

Quarter Prerequisite: MUS 266 or consent of instructor

Quarter Corequisite: MUS 2660 or consent of instructor

Intensive study in the history, development and practice of computer and electronic music.

MUS 4670. Advanced Studio Recording Techniques. Units: 3

Quarter Prerequisite: MUS 267 or consent of instructor

Quarter Corequisite: MUS 2670 or consent of instructor

Intensive course dealing with microphone techniques, aspects of recording, multi-tracking, mix-down and editing. Formerly MUS 427.

MUS 4700. Music Therapy Practicum. Unit: 1

Semester Prerequisite: MUS 3780 or department consent

This course allows students to explore and practice therapeutic methods, principles, ethics, applications, collaborations, and clinical practices (assessment, research, documentation, treatment, discharge, and administration). This course provides students with supervised clinical training paired with peer learning and discussion. May be taken four time for four units. If taken four times, students will receive at least 180 hours of supervised, pre-internship clinical training. Consent required.

MUS 4840. Vocal Pedagogy. Units: 2

Semester Prerequisite: one of MUS 2400 or MUS 2390. Quarter

Prerequisite: MUS 240

Fundamentals of vocal pedagogy with emphasis on historical background, comparative vocal methods, physiology, voice classification, and practical application to teaching individuals of all ages.

MUS 4850. Conducting Pedagogy. Units: 2

Semester Prerequisite: MUS 2100, MUS 3010, and MUS 3030

Students enrolled in this course will learn and demonstrate knowledge of how to successfully teach conducting in a classroom setting.

Fundamentals of conducting pedagogy with emphasis on historical background, comparative conducting methods, physiology, and practical application to teaching individuals in high school or college. One-hour lecture and two-hour activity per week.

MUS 4990. Senior Recital. Unit: 1

Semester Prerequisite: Senior standing attained 4000-level in applied study, and consent of department. Quarter Prerequisite: senior standing, attained 400-level in applied study, and consent of department
Under supervision of an applied instructor, preparation for and public performance of a recital. Formerly MUS 599.

MUS 5281. Special Projects. Unit: 1

Semester Prerequisite: consent of instructor. Quarter Prerequisite: consent of instructor

Individual projects in orchestration, conducting and score reading, theory, history, composition, electronic music. May be repeated for credit. Formerly offered as MUS 528A.

MUS 5282. Special Projects. Units: 2

Semester Prerequisite: consent of instructor. Quarter Prerequisite: consent of instructor

Individual projects in orchestration, conducting and score reading, theory, history, composition, electronic music. May be repeated for credit. Formerly offered as MUS 528B.

MUS 5283. Special Projects. Units: 3

Semester Prerequisite: consent of instructor. Quarter Prerequisite: consent of instructor
Individual projects in orchestration, conducting and score reading, theory, history, composition, electronic music. May be repeated for credit. Formerly offered as MUS 528C.

MUS 5750. Internship in Music. Unit: 1

Semester Prerequisite: Permission of department and senior standing. Quarter Prerequisite: permission of department and senior standing
Supervised work in a commercial, industry, or arts managements setting. May be repeated twice for a maximum of 2 units. Assumes 45 hours of work per unit of credit. Graded Credit/No credit.

MUS 5751. Internship in Music Technology 1. Unit: 1

Quarter Prerequisite: MUS 347, MUS 429, and consent of instructor
Semester Corequisite: MUS 2660 or 2670 and permission of department
Supervised work in a public or private setting that provides professional experience in the field of music technology. May be repeated three times for credit. Generally assumes 45 hours of work per unit of credit. Graded Credit/No credit.

MUS 5752. Internship in Music Technology 2. Units: 2

Semester Prerequisite: MUS 2660 or 2670 and permission of department
Supervised work in a public or private setting that provides professional experience in the field of music or audio technology. Generally assumes 45 hours of work per unit of credit. Graded Credit/No credit.

MUS 5753. Internship in Music Technology 3. Units: 3

Semester Prerequisite: MUS 2660 or 2670 and permission of department
Supervised work in a public or private setting that provides professional experience in the field of music technology. Generally assumes 45 hours of work per unit of credit. Graded Credit/No credit.

MUS 5754. Internship in Music Therapy. Units: 3

Semester Prerequisite: MUS 4700 and department consent
The internship provides students with advanced training and experience in the therapeutic setting. Students must take MUS 5754 twice for a total of 6 internship units which requires at least 900 hours of supervised clinical work over both enrollments. Graded Credit/No Credit. Department consent required.

MUS 5980. Senior Project. Unit: 1

Quarter Prerequisite: senior standing, completion of 300-level applied study requirements, and consent of department
Independent study with applied music instructor or principal instructor in area of emphasis. Consent required. Formerly MUS 598.

MUS 5981. Music Education Senior Project. Unit: 1

Semester Prerequisite: MUS 4100 or MUS 4110 and acceptance to the Music Education concentration in the Bachelor of Music
Capstone research or creative project for students accepted into the Music Education concentration of the Bachelor of Music degree.

Natural Sciences (NSCI)**Courses****NSCI 1110. Reacting to the Past: Natural Sciences Perspectives. Units: 3**

Examination of a critical change in the natural sciences through the study of the context and impact of a specific idea, innovation or discovery. Using the Reacting to the Past approach, students play complex role-playing games informed by important historical sources (specific themes and topics may vary). Students will develop skills in information literacy, collaboration, speaking, and writing as they pursue the objectives of their assigned role by convincing classmates of their views. Following the game, debriefing will facilitate deeper understandings of the focus concepts and provide reflection about how learning occurred. These skills are critical foundations of success in any field of study at the University and beyond. Satisfies Big Ideas that Change the World: Exploring Ideas, Innovations, Discoveries pathway.

NSCI 1200. Science, Environmental Sustainability and Social Responsibility. Units: 3

Exploration of scientific ways of thinking in the context of environmental sustainability. How scientific knowledge is created and how it is communicated to those who use it to solve environmental problems and to guide responsible action. Emphasis on acquisition of academic skills that will be transferrable to other courses. Learning to see the world and environmental issues through the lens of scientific and mathematical analysis and reflection on how this lens differs from other lenses. Learning how scientific knowledge is created through collaborative processes among those with diverse perspectives. Appreciation of the scientific literature as a professional conversation that expands our understanding of the environment in which we live. Group projects will apply scientific thinking and other approaches to solving environmental problems affecting our local and global communities. Satisfies Environmental Sustainability.

NSCI 1300. Survey of Chemistry and Physics. Units: 3

Introduction to principles of chemistry and physics. Chemistry topics include chemical principles, nomenclature, and molecular structure. Physics topics include Newtonian mechanics, electromagnetism, relativity, quantum theory, and nuclear and particle physics. Intended for students with little to no background in chemistry or physics. This course is for articulation only and will not be offered.

NSCI 2020. The Science of Cooking. Units: 3

Application of scientific principles to the preparation of food. Scientific topics include heat transfer, thermodynamics, density, anatomy, biochemistry, and the chemical transformations of ingredients. Application of scientific methods in measurement, inquiry, recipe analysis and modification, and experimental design. Satisfies GE B1/5A.

NSCI 2300. Introduction to the Natural Science. Unit: 1

Introduction to the Natural Science program, its learning outcomes, and potential career options. Development of active learning and metacognitive skills. Assistance with planning a set of courses that will prepare students for their career goals. Initiation of an e-portfolio to track student achievement of the program's learning outcomes.

NSCI 3001. Scientific Perspectives on Global Challenges. Units: 3

Semester Prerequisite: Lower-division GE 2, 5A-5C must be completed. Must attain junior or senior status

Global focus on the opportunities and challenges of living in an increasingly technological, globalized world. Students learn to connect their field of study to global issues such as pandemics, artificial intelligence, climate change, sustainability, health disparities, pollution, new dynamics of vector-borne diseases, obesity, physical inactivity, climate health, and scientific, medical and environmental justice, etc. The specific topics covered will depend on instructor. Using critical thinking skills, group projects, information literacy, scientific readings, group discussion and scaffolded writing with revision after feedback, students expand their knowledge about the issue and learn to communicate scientific research with those outside the scientific community. Students also create an individual development plan to help them prepare for the career path of their choice and to increase awareness of their roles and responsibilities to become involved in and to work towards resolution of one of these global conditions. Satisfies GE B5/UD-5, G, WI designations.

NSCI 3010. Introduction to STEM and STEM Research. Units: 2

Introduction to resources for upper division transfer students, including the library, financial aid, Office of Student Research, and the Career Center. Presents expectations for and tools to help achieve success for students, including active/collaborative learning, reflective learning, and how to pursue undergraduate research and internships. Satisfies WI designation.

NSCI 3040. Introduction to Math & Science Pedagogy. Units: 2

Basic concepts in how people learn and how best to apply that to a classroom setting. Topics may include questioning strategies, prior knowledge, conceptual framework, metacognition, group work, and equity. For students working as a teaching assistant in College of Natural Science courses, or those interested in teaching in STEM or healthcare fields.

NSCI 3250. Perspectives on Gender. Units: 3

Semester Prerequisite: Junior or senior standing

This interdisciplinary course uses scientific, humanistic, and social science perspectives to foster an understanding of how gender functions in individual lives, societies, and cultures. (Offered as CAL 3250, SSCI 3250 and NSCI 3250. Students may receive credit for only one of these courses.) Satisfies GE B5/UD-5, DI designation.

NSCI 3300. Natural Science Mid-Program Assessment. Unit: 1

Semester Prerequisite: NSCI 2300

Mid-program assessment of the Natural Science program learning outcomes. Feedback on e-portfolio development. Continued development of active learning and metacognitive skills.

NSCI 3368. U-RISE Seminar I. Units: 2

Semester Prerequisite: Admissions to the URISSE program and consent of instructor

A selected examination of original research articles in behavioral and biomedical sciences. Students will learn to critically read, critique, and present published scientific findings. Offered as NSCI 3368, PSYC 3368, and SSCI 3368 (students may receive credit for only one of these courses). Enrollment is limited to students whose formal application to the Undergraduate Research Training Initiative for Student Enhancement (U-RISE) program is approved. Formerly offered as NSCI 368, PSYC 369, SSCI 368.

NSCI 4300. Natural Science Capstone. Units: 2

Semester Prerequisite: NSCI 3300

Integration of knowledge and skills gained in the Natural Science program and application to complex problems, issues and policies related to science. Individual or group projects. Completion of an e-portfolio documenting and reflecting on achievement of the program learning outcomes and preparation for the student's selected career option(s). This course is intended for students in the Natural Science major and should be taken in the student's final semester at CSUSB.

NSCI 4468. U-RISE Seminar II. Units: 2

Semester Prerequisite: NSCI 3368, PSYC 3368, or SSCI 3368. Quarter Prerequisite: NSCI 368, PSYC 368 or SSCI 368

A selected examination of original research articles in behavioral and biomedical sciences focuses on improving scientific writing skills, shaping long-term research projects, and developing research funding proposals. Offered as PSYC 4468, NSCI 4468, and SSCI 4468 (students may receive credit for only one of these courses). Enrollment is limited to students whose formal application to the Undergraduate Research Training Initiative for Student Enhancement (U-RISE) program is approved. Formerly known as NSCI 468, PSCI 468, SSCI 468.

NSCI 5410. Commercializing Entrepreneurial Innovation. Units: 3

Examines the process of commercializing innovations and emerging technologies in entrepreneurial driven companies. Focus on understanding the innovation process and the strategy, tactics and behaviors necessary to manage the transition from basic development stages to commercial venture; intellectual property law and protection, technology transfer and licensing. Formerly offered as ENTR 541.

NSCI 5440. Developing the New Venture. Units: 3

Semester Prerequisite: ENTR 5430, ENTR 5435

Introduction to the process of developing a new venture concept. Focus on transitioning ideas into a viable business venture with special emphasis on developing a sustainable business model and a hands-on business planning experience. Cross-listed as NSCI 5440; students cannot receive credit for both.

NSCI 5951. Independent Study. Unit: 1

Investigations conducted under the direction of a faculty member. NSCI 5951-5953 may be repeated for credit up to a total of 6 units. Department consent required.

NSCI 5952. Independent Study. Units: 2

Investigations conducted under the direction of a faculty member. NSCI 5951-5953 may be repeated for credit up to a total of 6 units. Department consent required.

NSCI 5953. Independent Study. Units: 3

Investigations conducted under the direction of a faculty member. NSCI 5951-5953 may be repeated for credit up to a total of 6 units. Department consent required.

Nursing (NURS)**Courses****NURS 2602. Foundational Concepts in Professional Nursing. Units: 2**

Quarter Prerequisite: Admission to the nursing major

Introduction to the profession of nursing, including its history, educational preparation, credentials for professional practice, Code of Ethics, safety concerns in patient care, clinical reasoning, understanding the health care environment, legal responsibilities, political process, leadership and management roles. Department consent required.

NURS 2821. Foundational Theory and Skills for Nursing Practice. Units: 6

Semester Prerequisite: Admission to nursing major and BIOL 2200, BIOL 2230, BIOL 2240, PSYC 2201. Quarter Prerequisite: Admission to nursing major and BIOL 220, BIOL 223, BIOL 224

Semester Corequisite: NURS 2602, 3016

Focuses on the nursing care of adult patients and the beginning competencies required for application of the concepts of professional communication, infection control, patient safety, patient teaching, clinical skill development, clinical reasoning, and person-centered care. Concepts of communication, nursing process as clinical decision-making strategy, and critical thinking skills are introduced as essential to the practice of professional nursing. Emphasis is placed on the therapeutic interventions of safety, hygiene and comfort, health assessment and health promotion to promote physiologic function and overall population health and well-being, manage symptoms, restore function, and cope with illness.

Department consent required. Materials fee required.

NURS 3010. Role Transition to Professional Nursing Practice. Units: 3

Provides the conceptual basis for the practice of nursing, built around a core of theories and key concepts, to facilitate transition of the Registered Nurse to baccalaureate-prepared nursing practice. Focus is on the roles of the professional nurse as advocate, educator, provider and coordinator of care. Explore and apply concepts and theories related to professional nursing practice with individuals, families, communities, and populations in various settings and across the lifespan. Critical reading, discussion, and writing assignments on application of theories and concepts related to patient care in clinical settings. Satisfies WI designation for nursing students. Enrollment restricted to students in RN to BSN program or RN-BSN/CEP. Department consent required.

NURS 3016. Health Assessment. Units: 3

Quarter Prerequisite: Admitted to the nursing major. BIOL 220, BIOL 223, BIOL 224, PSYC 201

Quarter Corequisite: NURS 202

Theory and practice of health assessment for nursing practice. Holistic, culturally and developmentally sensitive approaches to assessment across lifespan are emphasized, including professional communication, establishing therapeutic relationships, health promotion, recognition of normal and abnormal findings, and accurately document findings. Department consent required. Materials fee required. One hour lecture, six hours lab.

NURS 3026. Health Assessment RN. Units: 3

Semester Prerequisite: Enrollment restricted to Registered Nurses or students admitted to the RN to BSN program track and BIOL 2200, BIOL 2230, BIOL 2240. Quarter Prerequisite: BIOL 220, BIOL 223, BIOL 224. Focuses on theoretical and clinical knowledge required to complete a comprehensive health assessment across the lifespan. Emphasis on health promotion, disease prevention, and risk assessment. Clinical practice of health assessment including history taking, physical examination and documentation of findings, interpretation of findings, psychosocial assessment techniques, and health promotion across the lifespan. Enrollment restricted to Registered Nurses or students admitted to the RN to BSN program track. Formerly offered as NURS 325, students may not earn credit in both courses. Department consent required. Materials fee required. (1.5 hours seminar, 4.5 hours lab per week).

NURS 3080. Pathophysiologic Concepts for Nursing Practice. Units: 3

Quarter Prerequisite: BIOL 223, BIOL 224; NURS 316

Exploration of the pathophysiological processes and changes associated with acute and chronic diseases and injuries across the lifespan. Focuses on the mechanisms of disease, exploring how disruptions in normal physiological functions lead to clinical manifestations, examining the pathophysiology of major body systems, and integrating knowledge of anatomy, physiology, and microbiology with the clinical symptom manifestations. Emphasis on critical thinking, critical reasoning, and the application of pathophysiological principles to nursing care. Department consent required.

NURS 3082. Pharmacology and Therapeutics for Nursing Practice. Units: 3

Quarter Prerequisite: CHEM 205; NURS 316, NURS 200 & 201

Emphasis on principles of pharmacology and medication therapy across the lifespan, with a focus on nursing roles and responsibilities. Application of pharmacogenetic concepts to understanding of medication therapy. Department consent required.

NURS 3100. Pathophysiology and Pharmacology. Units: 4

Quarter Prerequisite: BIOL 220; BIOL 223; BIOL 224

A systematic review of the principles of pharmacology with a focus on specific pharmacological and pharmacokinetic agents in relation to effects on body systems. A review of related pathophysiological disruptions to normal system functioning and the impact of these alterations on the individual throughout the life span. Includes focus on genetics and disease, and pharmacogenetics. Provides pathophysiological rationale for interprofessional and nursing interventions. Enrollment restricted to students in RN to BSN program or RN-BSN/CEP. Department consent required.

NURS 3221. Nursing Care of Adults & Older Adults I. Units: 6

Quarter Prerequisite: NURS 202, NURS 200, NURS 201

Focuses on the nursing care of adult patients experiencing acute and chronic diseases and illness. Emphasizes evidence-based practice and the application of clinical judgment to manage patients' bio-psychosocial needs. Explores a wide range of health issues affecting various body systems, with attention to prevention, early detection, treatment, and rehabilitation. Includes hands-on clinical experiences and simulations that promote/foster critical thinking, ethical decision-making, and collaboration with interdisciplinary teams to provide patient-centered care to diverse adult and older adult patient populations. Department consent required. Materials fee required. Three hours lecture, nine hours lab.

NURS 3530. Global Nursing. Units: 3

International health concerns affecting the delivery of nursing and health care in the U.S. and around the world. Investigation of global health issues and effective solutions to promote health of populations. Formerly offered as NURS 353; students may not earn credit for both courses. Department consent required.

NURS 3610. Patient Education, Health Promotion and Care Coordination. Units: 3

Integration, application and evaluation of health education, health promotion, health behavior change, and self-management theory, research, and interventions in nursing practice. Explores effects of developmental, motivational, and sociocultural factors on health behavior change. Additional focus on care coordination and case management models, nursing roles, and strategies used for interprofessional management of high-risk and chronically ill populations in community settings. Emphasis on comprehensive care coordination, brokerage, monitoring, discharge planning, patient/family advocacy, and strategies for application to direct care. Enrollment restricted to students in RN to BSN program or RN-BSN/CEP. Department consent required.

NURS 3633. Nursing Care of Children & Families. Units: 5

Quarter Prerequisite: NURS 380, NURS 382, NURS 220 and 221

Introduction and application of child and family theory in family-centered culturally sensitive care of children and adolescents. Includes pediatric clinical skill development and application of clinical judgment using the nursing process. Focus on growth and development, common acute and chronic illnesses in the pediatric population. Department consent required. Materials fee required. Three hours lecture, six hours clinical lab.

NURS 3635. Nursing Care of Women, Infants, & Families. Units: 5

Quarter Prerequisite: NURS 380, NURS 382, NURS 220 & 221

Introduction and application of maternal-child nursing and family theory in family-centered perinatal care for mother, neonate, and family. Focus on culturally-sensitive health promotion for pregnant women and neonates, risk reduction and management of normal and high-risk pregnancy, labor, delivery, and neonatal care. Includes clinical skill development and application of clinical reasoning using the nursing process. Department consent required. Materials fee required. Three hours lecture, six hours clinical lab.

NURS 3640. Introduction to Theories of Nursing & Health. Units: 3

Introduction to nursing theories, nursing conceptual models, and borrowed theories pertinent to professional nursing practice. Focuses on the relationship of theory to nursing research and practice, and the application of theories to selected clinical practice situations. Apply metaparadigm of nursing, holistic, individualized, cultural care, Diversity, Equity, Inclusion (DEI), and social determinants of health integrated in nursing practice. Includes critical reading, discussion, and writing assignments on the application of theories and concepts related to client care in support of professional collaboration with interprofessional team members, patients, families, and communities, to improve outcomes, optimize care, enhance the healthcare experience, and advocate for comprehensive and safe delivery of healthcare. Satisfies WI designation. Department consent required.

NURS 3960. Selected Topics in Nursing. Units: 2

Quarter Prerequisite: Consent of department chair prior to registration. Investigation of selected nursing topics. May be repeated for credit as topics change. Department consent required.

NURS 4222. Nursing Research and Evidence-Based Practice. Units: 3

Quarter Prerequisite: MATH 165, for students in the RN to BSN program track, NURS 340

Introduction to foundational understanding of the research process and its application in nursing practice. Through a competency-based approach, students will develop the skills necessary to effectively evaluate both quantitative and qualitative research methods commonly employed in nursing and healthcare contexts. Ethical standards governing research conduct will be emphasized throughout the course. Students will utilize evidence-based practice principles to inform nursing research and decision-making. Department consent required. Satisfies GE B5/UD-5 for nursing students.

NURS 4415. Psychiatric & Mental Health Nursing Practice. Units: 5

Quarter Prerequisite: NURS 220 and NURS 221, NURS 332 and NURS 333, NURS 334 and 335

Introduction and application of theories of psychiatric/mental health nursing. Emphasis on mental health promotion and early intervention, mental health care in the United States, culturally sensitive nursing care of common acute and chronic psychiatric and mental health conditions in individuals across the lifespan and in the context of families and social systems. Focus on skill development and application of clinical reasoning using the nursing process. Department consent required. Materials fee required. Three hours lecture, six hours clinical lab.

NURS 4417. Community & Public Health Nursing Practice. Units: 5

Semester Prerequisite: NURS 3221, NURS 3633, NURS 3635

Semester Corequisite: NURS 4222, NURS 4415

Focuses on the professional nurse's role in working with culturally diverse populations in the community, exploring contemporary public health problems, and working collaboratively with the community as part of the interprofessional team. Introduction to and application of social and health promotion theories and frameworks that guide community-based, population focused practice and research. Skill development in community assessment, program planning, and interventions to help identified populations within the community achieve and maintain their optimal level of health. Attention to social determinants of health and relevant health policy. Satisfies GE D/UD-4 (for nursing students), DI designation. Department consent required. Materials fee required. Three hours lecture, six hours clinical lab.

NURS 4510. Community/Public Health Promotion. Units: 3

Semester Prerequisite: NURS 3026, NURS 3100, NURS 3610

Semester Corequisite: NURS 4512

Focuses on the professional nurse's role in working with culturally diverse populations in the community, exploring contemporary public health problems, and working collaboratively with the community as part of the interprofessional team. Includes social and health promotion theories and frameworks that guide community based, population focused practice and research to develop skills in community assessment, program planning, and interventions to help identified populations within the community achieve and maintain their optimal level of health. Attention to social determinants of health and relevant health policy. Formerly offered as NURS 450. Students may not earn credit in both courses. Enrollment restricted to Registered Nurses admitted to the RN to BSN program track. Department consent required. Satisfies the GE D4/4, DI designation for nursing students.

NURS 4512. Community/Public Health Promotion Practicum. Units: 3

Semester Prerequisite: NURS 3026, NURS 3100, NURS 3610

Semester Corequisite: NURS 4222, NURS 4510

Application of skills to promote the health of culturally diverse communities and coordinate care of chronically ill, high-risk, and vulnerable populations in the community setting. Focuses on community- and population-level care delivery. Emphasis on community-level interventions for primary and secondary prevention. Additional emphasis on population-level care for maximizing functional and self-care ability, symptom management, improvement of quality of life, and reduction of need for hospitalization. Implementation of nursing care coordination/ case management strategies and interventions is emphasized, including efficient, effective and comprehensive care coordination, brokerage, monitoring, and patient education. Students may not earn credit in both courses. Satisfies DI designation. Enrollment restricted to students in RN to BSN program or RN-BSN/CEP. One hour seminar, six hours clinical lab. Materials fee required.

NURS 4610. Nursing Leadership. Units: 3

Quarter Prerequisite: NURS 325; NURS 330

Organizational theory and management practices applied to health care systems. The role of the nurse manager as leader and change agent in the delivery of care to patient groups, populations and communities within complex and diverse health care settings. Strategies for leading and managing practice changes are explored. Contemporary issues affecting the delivery of health care and the discipline and professional practice of nursing are explored. Enrollment restricted to students in RN to BSN program or RN-BSN/CEP. Department consent required.

NURS 4612. Nursing Leadership Practicum. Units: 2

Quarter Prerequisite: NURS 325; NURS 330, NURS 447

Quarter Corequisite: NURS 310; NURS 460

Application of organizational, leadership, and management theory in health care settings. Development of skills and competencies for the nurse leader and manager across health care settings. Operationalizes the role of the nurse as leader and change agent in the delivery of care to patient groups, populations and communities within complex and diverse health care settings. Enrollment restricted to students in RN to BSN program or RN-BSN/CEP. Department consent required. Materials fee required.

NURS 4833. Nursing Care of Adults & Older Adults II. Units: 7

Quarter Prerequisite: NURS 320 and NURS 323, NURS 422

Introduction of advanced medical-surgical nursing theory and evidence-based practice in the care of adults and older adults experiencing high-acuity, complex acute and chronic diseases. Application of clinical judgment using the nursing process with emphasis on continued clinical skill development, acute intervention for critical illness, and management of complex chronic disease, reduction of morbidity and disability, the nursing role in palliative and end-of-life care and organ donation.

Department consent required. Materials fee required. Three hours lecture, twelve hours clinical lab.

NURS 4840. Leadership & Management in Nursing. Units: 2

Semester Prerequisite: NURS 3640 and NURS 4222. Quarter

Prerequisite: NURS 340 and NURS 422

Semester Corequisite: NURS 4833 and NURS 4920

Introduction to management, leadership, organizational systems and change theory. Emphasis on the role of the nurse, individually and collectively, within organizations and within the greater sociopolitical context, in ethically leading change to improve health care access, care quality and safety, and health outcomes. Application of strategies for leading and managing change, with a focus on evidence-based practice improvements in selected health care settings. Department consent required.

NURS 4920. Integration of Knowledge for Professional Nursing Practice. Units: 2

Quarter Prerequisite: NURS 400, NURS 406

Integration of core nursing concepts, theories, and competencies in preparation for transitioning to professional nursing practice. Department consent required.

NURS 5411. Advanced Health Assessment Across the Life Span. Units: 3

Semester Prerequisite: NURS 5422 Advanced Pathophysiology. Quarter Prerequisite: Permission of the Nursing Department
Advanced competency in health assessment, including health history, interviewing, review of systems, and a comprehensive physical examination for persons across the lifespan. Based on a foundation of anatomy, physiology, pathophysiology, oral and written communication skills, and clinical application of the nursing process for nurses in advanced roles. Formerly offered as NURS 541, students may not earn credit for both courses. Department consent required. Two hours seminar; three hours practicum per week.

NURS 5422. Advanced Pathophysiology. Units: 3

Quarter Prerequisite: Permission of the Nursing Department
Principles of advanced pathophysiology as the foundation for recognizing and appropriately interpreting changes in normal function, including symptom recognition and diagnostic markers of illness. Topics include pathophysiology of disorders of all body systems, with an emphasis on prevalent conditions. Formerly offered as NURS 542; students may not earn credit in both courses. Department consent required.

NURS 5433. Advanced Pharmacology. Units: 3

Semester Prerequisite: NURS 5411 and NURS 5422. Quarter Prerequisite: permission of the Nursing Department
Pharmacologic principles applied to advanced clinical nursing practice with diverse populations. Topics include pharmacotherapy of cardiovascular, psychiatric, endocrine, respiratory, gastrointestinal, bone and joint, infectious, reproductive, and dermatological disorders. Introduction to clinical toxicology. Formerly offered as NURS 543; students may not earn credit in both courses. Department consent required.

NURS 5951. Independent Study. Unit: 1

Semester Prerequisite: Overall GPA of 3 or better. Quarter Prerequisite: Minimum overall grade point average of 3
Research conducted under the direction of a faculty member. Written project proposal required, filed and approved before registration for the course. Instructor consent and department consent required. A total of three units from NURS 5951 and/or 5952 may be applied toward graduation. Formerly NURS 595A.

NURS 5952. Independent Study. Units: 2

Semester Prerequisite: Minimum overall grade point average of 3. Quarter Prerequisite: Minimum overall grade point average of 3
Research conducted under the direction of a faculty member. Approval of a written project proposal required before registration for the course. Instructor consent and department consent required. May be repeated up to two times; a total of three units from NURS 5951 and/or NURS 5952 may be applied toward graduation. Formerly NURS 595B.

NURS 6000. Population Health Assessment. Units: 4

Semester Prerequisite: NURS 6455 Advanced Nursing Research. Quarter Prerequisite: classified graduate standing in MSN program and current RN licensure and consent of the department
Examines strategies and processes for assessing the health of communities, including environmental health and access to health care. Analysis of theoretical frameworks and assessment models applicable to population health assessment. Consideration of health issues faced by special populations. Formerly offered as NURS 600; student may not earn credit in both courses. Department consent required. Two hours seminar and six hours practicum per week.

NURS 6011. Preparation for Success in Graduate Education. Unit: 1

Quarter Prerequisite: consent of department
Overview of technologies used for graduate education, research, and writing. Emphasis on applications for learning, library research, and scholarly writing. Formerly offered as NURS 601, students may not earn credit in both courses. Department consent required.

NURS 6100. Program Planning and Evaluation. Units: 4

Semester Prerequisite: NURS 6000 Population Health Assessment. Quarter Prerequisite: NURS 600, current RN licensure and consent of department
Program planning, implementation and evaluation to improve health and meet health care needs of populations. Includes fiscal management and identifying grant sources. Formerly offered as NURS 610; students may not earn credit in both courses. Department consent required. Two hours seminar and six hours practicum per week.

NURS 6200. Health Policy Leadership. Units: 2

Quarter Prerequisite: NURS 610, current RN licensure, and consent of department
Social, ethical, political, economic, and ideological forces that shape health policy and law. Informed participation in interdisciplinary policy-making processes; impact of health policy on professional practice. Emphasis on leadership skills to champion solutions for health. Formerly offered as NURS 620; students may not earn credit in both courses. Department consent required.

NURS 6308. Advanced Nursing Roles. Unit: 1

Quarter Prerequisite: Consent of department
Overview of advanced nursing roles and elements of advanced nursing practice, including: expert clinical practice, education, research application, interprofessional collaboration, coaching, consultation, and leadership. Formerly offered as NURS 630; students may not earn credit in both courses. Department consent required. Materials fee required.

NURS 6355. Biostatistics. Units: 3

Quarter Prerequisite: Consent of department
Statistical knowledge and tools including the basic concepts of biostatistics, quantitative methodology in epidemiology, clinical applications for evidence based practice, and statistical utility for decision making. Introduction to statistical analysis software; the process of instrument development, validity and reliability assessment, and pilot testing; decision theory; the analysis and evaluation of the methods, results and discussion sections of a research report. Department consent required. Formerly offered as NURS 635, students may not receive credit for both courses.

NURS 6425. Epidemiology & Biostatistics. Units: 4

Fundamentals of epidemiology and biostatistics as they relate to assessing and improving the health of populations. Examination of determinants of health and illness; factors contributing to health promotion, disease prevention, and use of health services. Statistical theory and methods for epidemiologic research; analysis and evaluation of public/population health research. Introduction to statistical analysis software. Formerly offered in separate courses, NURS 646 Epidemiology and NURS 635 Biostatistics. Credit for NURS 6425 may not be earned after completion of both NURS 646 and NURS 635. Department consent required.

NURS 6435. Health Informatics. Units: 3

Semester Prerequisite: NURS 6425 Epidemiology & Biostatistics Principles and practices of health information systems, including administrative and clinical information systems, with applications for population health promotion, disease management, reduction of disparities, and quality and safety management. Emphasis on fundamental skills/competencies for information retrieval, data analysis, data visualization. Consideration of legal and ethical issues. Department consent required.

NURS 6455. Advanced Nursing Research. Units: 3

Semester Prerequisite: NURS 6011 Preparation for Success in Graduate Education; NURS 6558 Advanced Nursing Theory. Quarter Prerequisite: Consent of department

Overview of the research process including developing the research question, literature review, research design, sampling, data collection, and data analysis. Consideration of advanced nursing role in evidence-based practice. Use of meta-analysis, odds ratio, and risk ratio methods in population health research. Consideration of research ethics including human subjects' protection. Formerly offered as NURS 645; students may not earn credit in both courses. Department consent required.

NURS 6466. Epidemiology. Units: 3

Quarter Prerequisite: Consent of the department

Examination of the distribution and determinants of health and illness; factors contributing to health promotion and disease prevention; and factors influencing the use of health services. Examination of the terms and methods used to describe the health status of populations and investigate disease. Emphasizes a local to global perspective including implications for health care delivery, evaluation, and health policy. Department consent required. Formerly offered as NURS 646; students may not receive credit for both courses.

NURS 6548. Transcultural Healthcare. Units: 3

Quarter Prerequisite: Consent of department

Culturally sensitive assessment, planning, implementation and evaluation strategies for disease prevention and health promotion in diverse communities. Consideration of behaviors and views unique to how cultures impact health and equity. Formerly offered as NURS 654; students may not earn credit in both courses. Department consent required.

NURS 6558. Advanced Nursing Theory. Units: 2

Quarter Prerequisite: Classified standing in the MSN program or consent of department

Examines nursing knowledge in the context of history, philosophical perspectives, major influences, and current professional issues. Theoretical foundations of nursing as applied to the health and care of select populations. Formerly offered as NURS 655; students may not earn credit in both courses. Department consent required.

NURS 6575. Quality, Safety, Outcomes, & Case Management. Units: 3

Semester Prerequisite: NURS 6525 Epidemiology & Biostatistics; NURS 6435 Health Informatics

Foundations of quality, safety, outcomes, and case management. Principles, processes, and skills/competencies related to quality, safety, outcomes, and case management. Emphasis on legal and ethical issues, leadership skills, and tools and technology. Department consent required.

NURS 6585. Organizational Leadership for Population Health. Units: 3

Semester Prerequisite: NURS 6575

Theory and principles of organizational leadership applied to promote the health of populations. Emphasis on leadership competencies including communication, knowledge of the health care environment including economics and policy, systems thinking, change management, and foundational business skills. Legal and ethical implications of population health for the organization. Department consent required. Two hours seminar; three hours practicum per week.

NURS 6588. Nursing Education: Curriculum and Instruction. Units: 3

Semester Prerequisite: NURS 6455. Quarter Prerequisite: Consent of department

Teaching-learning theory as a basis for curriculum development, instruction, and facilitation of learner development. Focus on curriculum development, course and lesson planning, and evidence-based and instructional methodologies. Ethical and professional issues in education considered. Formerly offered as NURS 658; may not earn credit in both courses. Department consent required.

NURS 6598. Nursing Education: Assessment and Evaluation. Units: 3

Semester Prerequisite: NURS 6588. Quarter Prerequisite: NURS 658 and consent of department

Assessment and evaluation theories and strategies applied to evaluation of learner outcomes and program outcomes. Accreditation standards and processes examined within the context of continuous quality improvement. Formerly offered as NURS 659; students may not earn credit in both courses. Department consent required.

NURS 6608. Nursing Education: Technology for Instruction & Evaluation. Units: 3

Semester Prerequisite: NURS 6588. Quarter Prerequisite: NURS 658 and consent of department

Semester Corequisite: NURS 6588

Overview of instructional technologies that support the teaching, learning, assessment, and evaluation processes. Formerly offered as NURS 660; students may not earn credit in both courses. Department consent required.

NURS 6752. Advanced Community/Public Health Internship. Units: 2

Semester Prerequisite: NURS 6000, NURS 6100, NURS 6435, NURS 6548. Quarter Prerequisite: Consent of the Department of Nursing
Semester Corequisite: NURS 6100, NURS 6548

Application of advanced community/public health nursing in diverse settings allowing for a population-focused practice. 90 clinical hours. Graded credit/no credit. Formerly offered as NURS 681; students may not earn credit for both courses. Department consent required.

NURS 6754. Advanced Community/Public Health Internship II. Units: 2

Semester Prerequisite: NURS 6752. Quarter Prerequisite: Consent of Department of Nursing

Clinical application of advanced community/public health nursing in diverse settings allowing for a population-focused practice. 90 clinical hours. Graded credit/no credit. Department consent required. Formerly offered as NURS 682. Students may not receive credit for both courses.

NURS 6880. Advanced Role Practicum. Units: 2

Semester Prerequisite: NURS 6100, NURS 6752, NURS 6585, NURS 6598. Quarter Prerequisite: Consent of department
Semester Corequisite: NURS 6608

Integration and application of advanced nursing knowledge from MS in Nursing core and concentration courses. Practicum activities permit demonstration of core MS in Nursing competencies as well as competencies specific to the student's selected concentration. Formerly offered as NURS 688. May be repeated for credit if applied toward an additional concentration or a post-master's certificate in a concentration other than one previously earned. Graded credit/no credit. Department consent required. Six hours practicum per week.

NURS 6901. Preparation for Comprehensive Examination. Unit: 1

Semester Prerequisite: Advancement to candidacy. Quarter Corequisite: NURS 999. Quarter Prerequisite: Advancement to candidacy
Semester Corequisite: NURS 6980

Independent review conducted under the direction of a faculty member to prepare for comprehensive examinations in the Master of Science in Nursing. Formerly offered as NURS 690; students may not earn credit in both courses. Department consent required.

NURS 6980. Comprehensive Examination. Units: 0

Semester Prerequisite: Advancement to candidacy. Quarter Corequisite: Consent of department. Quarter Prerequisite: Consent of department
Semester Corequisite: NURS 6901

An integrative, written examination designed to assess student's ability to think critically, integrate knowledge of the discipline of nursing, and demonstrate mastery of core and specialty/concentration competencies. Formerly offered as NURS 999; students may not earn credit in both courses. Graded credit/no credit. Department consent required.

NURS 6990. Continuous Enrollment for Graduate Candidacy Standing. Units: 0

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

NURS 6991. Continuous Enrollment for Graduate Candidacy Standing. Unit: 1

Quarter Prerequisite: Advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

NURS 6992. Continuous Enrollment for Graduate Candidacy Standing. Units: 2

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

NURS 6993. Continuous Enrollment for Graduate Candidacy Standing. Units: 3

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

NURS 6994. Continuous Enrollment for Graduate Candidacy Standing. Units: 4

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

NURS 6996. Continuous Enrollment for Graduate Candidacy Standing. Units: 6

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

NURS 7000. Foundations of Scholarly Writing. Unit: 1

The purpose of this course is to enhance scholarly writing skills. Students develop skills in writing a strong introductory paragraph, organizing a critical review of the literature, and creating a concise conclusion. Bibliographic search methodology and American Psychological Association (APA) editorial format will be reviewed and utilized. Department consent required.

NURS 7005. Health Promotion & Population Health. Units: 3

This course provides a theoretical foundation and framework related to health promotion, population health, health equity and community-based interventions. Analyze data to improve health outcomes, students explore theoretical frameworks for health promotion programs. Evaluate existing evidence-based population health programs to promote health outcomes. Department consent required.

NURS 7010. Human Diversity and Health Equity. Units: 3

This course explores diversity among the individuals, families, and the communities served by the advanced practice registered nurse (APRN). A focus on disparities, determinants of health, vulnerable populations, and culturally congruent care informs nursing practice to improve patient and community outcomes. Students explore healthcare through a lens of diversity, equity, and inclusion. Emphasis on care for vulnerable populations. The APRN's role in health care advocacy within policy will be introduced. Department consent required.

NURS 7015. Biostatistics and Epidemiology###. Units: 3

This course examines the principles of statistics to analyze and interpret quantitative data. Students apply statistics to analyze data and used to guide evidenced based interventions that can be used to translate evidence into practice. Epidemiologic models will be assessed to identify factors contributing to health problems and to plan health care delivery programs to address contributing factors. Department consent required.

NURS 7020. Health Policy, Economics, and Fiscally Responsible Care. Units: 3

In this course students examine the policy, economic, and financial principles in the American healthcare system. Students obtain a working understanding of how legislative policies at both the federal and state level impact access to care and healthcare utilization. Involvement in the political process will be promoted. Contemporary issues involving legal, political, and ethical concerns related to health policy will be discussed. The economics of healthcare will be addressed with a focus on value-based care and improved patient outcomes. Students will apply financial management, strategic business planning and financial decision-making in providing care for individuals and populations. Department consent required.

NURS 7025. Introduction to the Advanced Practice Registered Nurse (APRN) Role.

Units: 3

Examine the dynamic role of the advanced practice registered nurse (APRN). Analyze common theoretical frameworks and models that support clinical practice and nursing education. Explore education standards that guide nursing curricula; models of best learning practices and the tools used to manage, execute, and evaluate clinical experiences for stakeholders. Explore the necessary skills to advocate individualized learning needs and role model best practices within the clinical environment. Department consent required.

NURS 7030. Introduction to Integrative Health & Self-Care for the Advanced Practice Registered Nurse (APRN). Units: 2

This course utilizes an evidence-based approach to holistic integrative health and well-being to support the APRN and their clinical practice. Students explore healing practices, including both integrative and complementary alternative medicine (CAM). This course covers the theoretical framework, efficacy, safety, appropriate use, and evidence for holistic integrative modalities and CAM supported by the U.S. Department of Health and Human Services, National Institutes of Health, National Center for Complimentary and Integrative Health. Students develop the necessary skills to model and role-model self-care, well-being, and resiliency. Department consent required.

NURS 7035. Leadership Role and Interprofessional Collaboration. Units: 3

This course analyzes leadership theories and organizational models for use in the healthcare setting. Additionally, students are presented with an overview of interprofessional collaboration with an emphasis placed on mediation, negotiation, conflict resolution, collaboration, and consultation. Students explore the principles of shared leadership, team dynamics, and interprofessional practice for holistic patient-centered care. Department consent required.

NURS 7040. Quality Improvement and Evidenced-Based Practice Methods. Units: 3

This course explores the theoretical foundations and application of quality improvement methods, tools and strategies needed to improve organizational effectiveness. There is also a focus on measurement and accountability in health care delivery systems through the examination and analysis of data, structures, processes, and outcomes. Students prepare to lead and practice in organizations that advance high reliability principles, patient safety, inter-professional teamwork, and continuous learning. Students apply evidence-based practice (EBP) methods to identify a problem, plan changes to improve a process or outcome, and develop innovative solutions related to health care delivery. Department consent required.

NURS 7045. Information Systems Technology and Telehealth. Units: 3

This course explores informatics for clinical practice, including nursing practice, public health, and health care. Telehealth will be explored for its potential to increase access to health care in all populations. The benefits and risks of electronic health records and telehealth will be covered including big data applications for population health promotion and privacy concerns. Ethical, regulatory, and legislative aspects will be discussed in relation to interprofessional practice, improved patient-provider communication, and coordinated care delivery. Department consent required.

NURS 7100. Advanced Physiology and Pathophysiology. Units: 3

This course utilizes a systematic approach to human physiology and pathophysiologic changes across the lifespan. Emphasis on clinical application that supports the advanced practice registered nurse (APRN). Students will focus on the interrelationship between physiology and pathophysiology. Students will apply this knowledge to identify levels of normal and identify underlying disease processes as well as prevention strategies. Department consent required.

NURS 7105. Advanced Pharmacotherapeutics 1. Units: 3

This course is designed to meet the California Board of Registered Nursing requirement for nurse practitioners to furnish medications and/or devices commonly used in the diagnosis, prevention, and treatment of health care conditions affecting patients across the life span, pursuant to the Business and Professions Code including utilizing standardized procedures, including controlled substances (Schedule II-V) and risk of addiction associated with their use. Content of focused discussion and testing will include, but not limited to: pharmacokinetics, pharmacodynamics, pharmacotherapeutic management; recognizing and managing side effects; interactions with medications, foods, and dietary supplements; ethical and legal issues related to the furnishing process, including furnishing controlled substance. Emphasis is on achieving optimal drug therapy outcomes as well as preparation for application for a furnishing license. Department consent required.

NURS 7110. Advanced Health Assessment Across the Lifespan. Units: 3

Semester Corequisite: NURS7110L

This course develops the knowledge, skills, and understanding needed to perform a comprehensive health assessment across the lifespan. Emphasis is placed on assessment, analysis and synthesis of all relevant physiological, pathophysiological, psychopathological as well as physical and psychosocial data. The student will incorporate assessments focused on the client's chief complaint in addition to screening for illness and promoting wellness. Evidence-based best practices will be used to analyze assessment findings to create individualized and holistic plans that identify health problems for clients across the lifespan. Student must receive a passing grade in both NURS 7110 and NURS 7110L or will be required to repeat both courses. Department consent required.

NURS 7110L. Advanced Health Assessment Lab. Unit: 1

Semester Corequisite: NURS 7110

This lab portion of Advanced Health Assessment accompanies NURS 7110. Students demonstrate competency in obtaining comprehensive health histories and assessments for clients across the lifespan. Integration of concepts and skills learned in the theory portion of the course are demonstrated in lab/clinical settings for students. Students will successfully demonstrate the ability to perform comprehensive health assessments, counsel clients on health promotion, document appropriately, and identify additional client needs for appropriate health management across the lifespan. Students must receive a passing grade in both NURS 7110 and NURS 7110L or will be required to repeat both courses. Department consent required.

NURS 7120. Advanced Pharmacotherapeutics 2. Units: 3

This course builds upon NURS 7105 (Advanced Pharmacotherapeutics 1) to address pharmacotherapeutic (uses and effects) and pharmacokinetic concepts across broad pharmacologic agent categories. Students will expand knowledge of medication actions, indications of use, interactions, contraindications, therapeutic dosage, route of administration, and adverse effects of the less commonly prescribed medications and in polypharmacologic practice across the lifespan. Content builds the knowledge required to manage comorbidity health conditions, including relevant legal, regulatory, and quality and safety issues necessary for the APRN in prescribing, managing multiple medications, and evaluating drug therapy. This course will include augmented pharmacological therapies utilizing vitamins and herbal supplements. This includes knowledge of actions, indications of use, interactions, contraindications, therapeutic dosage, route of administration, and adverse effects including relevant legal, regulatory, and quality and safety. Department consent required.

NURS 7400. Pediatric Health Management and Pharmacotherapeutics. Units: 3

This primary care course is designed to prepare the Family Nurse Practitioner (FNP) student to apply knowledge of pediatric healthcare maintenance, pathophysiology, pharmacology and symptom assessment to the management of well-child and common acute and chronic pediatric illness. The FNP student develops the skills to appropriately assess clinical presentation and formulate appropriate differential diagnosis, diagnostic approaches, appropriate management and advocacy strategies for the pediatric patient and families. Department consent required.

NURS 7410. Family Health Management Theory 1. Units: 3

Semester Corequisite: NURS 7410L

This course accompanies NURS 7410L Family Health Management 1 Simulation Lab. This family nurse practitioner course scaffolds and threads the information from all previous courses and is the first in a series of three disease management courses that focus on diagnosing and treating illness across populations. Students focus on health promotion and meeting the needs of patients with variations in differentiated and undifferentiated problems. Utilizing competency-based education techniques, students focus on simple acute illnesses for adults. Students analyze data collected to create differential diagnoses, order and evaluate appropriate diagnostic testing, select a diagnosis, and develop management strategies. Students begin to utilize evidence-based practice to develop clinical reasoning in decision-making while developing independent and collaborative health care plans. Students must receive a passing grade in both NURS 7410 and NURS 7410L or will be required to repeat both courses. Department consent required.

NURS 7410L. Family Health Management Simulation Lab 1. Unit: 1

Semester Corequisite: NURS 7140

This course accompanies NURS 7410 Family Health Management 1 Theory. This one-unit course is completed as an in-person on campus workshop to prepare for in person clinical. This simulation course utilizes competency-based learning experiences for family nurse practitioner students to meet the nationally recognized patient care competencies required prior to beginning direct patient care clinical hours. Students must receive a passing grade in both NURS 7410 and NURS 7410L or will be required to repeat both courses. Department consent required.

NURS 7415. Diagnostic and Management Reasoning. Units: 3

This course utilizes a holistic integrative approach to develop clinical reasoning and clinical judgment required to formulate differential diagnoses and an accurate diagnosis to manage acute and chronic conditions in patients across the lifespan. Students gain knowledge of principles used in clinical diagnosis and the development of treatment plans, effective interprofessional collaboration including specialty referrals, and ethical considerations. Department consent required.

NURS 7420. Women's Health and Obstetrics. Units: 2

This course provides content related to the principles of pharmacology, pathophysiology, and cultural considerations for the family nurse practitioner (FNP) student to provide reproductive health promotion and meet healthcare needs of women across the lifespan. This course focuses on women's health care for health promotion, health maintenance, and disease prevention, routine prenatal care in uncomplicated pregnancies (up to 36 weeks gestation), and assessment and management of common health problems in the primary care of women. This course expands upon the content within the family health management courses. Department consent required.

NURS 7430. Family Health Management Theory 2. Units: 3

Semester Corequisite: NURS 7430C, NURS 7430L

This course accompanies NURS 7430C Family Health Management 2 Clinical and NURS 7430L Family Health Management 2 Simulation Lab. This family nurse practitioner course scaffolds and threads the information from all previous courses and is the second in a series of three disease management courses that focus on diagnosing and treating illness across populations. Students focus on assessment and management of common chronic health problems across the lifespan in primary care settings. Students evaluate the evidence for screening, differential diagnosis, and wholistic management of health problems, including pharmacological and non-pharmacological treatment modalities in diverse populations. Technology and information systems are incorporated to improve patient outcomes and access to care. Students must receive a passing grade in each of the following courses: NURS 7430, NURS 7430C, and NURS 7430L. If any grade is below passing, students will be required to repeat all three courses. Department consent required.

NURS 7430C. Family Health Management Clinical 2. Units: 4

Semester Corequisite: NURS7430, NURS7430L

This course accompanies NURS 7430 Family Health Management 2 Theory and NURS 7430L Family Health Management 2 Simulation Lab. This course applies concepts for the family nurse practitioner student to assess, diagnose, and manage care in primary care and community-based settings. Pathophysiological and pharmacological concepts are applied in the clinical decision-making process. Supervised clinical practicum emphasizes using the best evidence to formulate diagnosis and management plan for common chronic illnesses in individuals and families across lifespan with the guidance of preceptors. Students must receive a passing grade in each of the following courses: NURS 7430, NURS 7430C, and NURS 7430L. If any grade is below passing, students will be required to repeat all three courses. Department consent required.

NURS 7430L. Family Health Management Simulation Lab 2. Unit: 1

Semester Corequisite: NURS7430, NURS7430C

This course accompanies NURS 7430 Family Health Management 2 Theory and NURS 7430C Family Health Management 2 Clinical. This one-unit course is completed as an in-person on-campus workshop to develop basic clinical skills for in-person clinical practice. This simulation course utilizes competency-based learning experiences for family nurse practitioner students to practice clinical skills that will be utilized in clinical practice. Students must receive a passing grade in each of the following courses: NURS 7430, NURS 7430C, and NURS 7430L. If any grade is below passing, students will be required to repeat all three courses. Department consent required.

NURS 7440. Concepts of Behavioral Health. Units: 2

This primary care course prepares the family nurse practitioner (FNP) student to apply knowledge of common mental health concerns, pathophysiology, pharmacology, screenings, and symptom assessment in the management of mental health concerns across the lifespan. The FNP student develops the skills to appropriately assess, including motivational interviewing, develop a management plan, and to refer to a specialist when appropriate. Department consent required.

NURS 7450. Family Health Management Theory 3. Units: 3

Semester Corequisite: NURS 7450C, NURS 7450L

This course accompanies NURS 7450C Family Health Management 3 Clinical and NURS 7450L Family Health Management 3 Simulation Lab. This family nurse practitioner course scaffolds and threads the information from all previous courses and is the third in a series of three disease management courses that focus on diagnosing and treating illness across populations. Students focus on assessment and management of comorbidities and complex health problems, including the role of genomics and genetics, across the lifespan in primary care settings. Students evaluate the evidence for screening, differential diagnosis, and holistic management of health problems, including pharmacological and non-pharmacological treatment modalities in diverse populations. Technology and information systems are incorporated to improve patient outcomes and access to care. Students must receive a passing grade in each of the following courses: NURS 7450, NURS 7450C, and NURS 7450L. If any grade is below passing, students will be required to repeat all three courses. Department consent required.

NURS 7450C. Family Health Management Clinical 3. Units: 6

Semester Corequisite: NURS 7450, NURS 7450L

This course accompanies NURS 7450 Family Health Management Theory 3, NURS 7450C Family Health Management 3 Clinical, and NURS 7450L Family Health Management 3 Simulation Lab. Application of family nurse practitioner concepts and skills in assessment, diagnosis, and management in primary care and community-based settings. Pathophysiological and pharmacological concepts are applied in the clinical decision-making process. Supervised clinical practice emphasizes using best evidence to formulate diagnosis and management plan for the common and less common comorbidity and chronic illness in individuals and families across lifespan with the guidance of preceptors. Students must receive a passing grade in each of the following courses: NURS 7450, NURS 7450C, and NURS 7450L. If any grade is below passing, students will be required to repeat all three courses. Department consent required.

NURS 7450L. Family Health Management Simulation Lab 3. Unit: 1

Semester Corequisite: NURS 7450, NURS 7450C

This course accompanies NURS 7450 Family Health Management 3 Theory and NURS 7450C Family Health Management 3 Clinical. This one-unit course is completed as an in-person on-campus workshop to develop advanced clinical skills for in-person clinical practice. This simulation course utilizes competency-based learning experiences for family nurse practitioner students to practice clinical skills that will be utilized in clinical practice. Students must receive a passing grade in each of the following courses: NURS 7450, NURS 7450C, and NURS 7450L. If any grade is below passing, students will be required to repeat all three courses. Department consent required.

NURS 7460. Family Clinical Practicum. Units: 8

This clinical practicum allows family nurse practitioner (FNP) students to incorporate all knowledge gained throughout the program to provide safe and effective patient-centered care using evidenced-based practice and clinical judgment in the primary care setting. Emphasis is placed on advanced competency in the formation and evaluation of comprehensive evidence-based plans of care for simple to complex and multisystem disorders across the lifespan. Extensive clinical experiences prepare the student to assume the advanced practice role and professional responsibilities of the entry-level FNP. Department consent required.

NURS 7500. DNP Systems Thinking 1#. Unit: 1

This first course in a series of four builds the skillset necessary for the DNP project development, implementation, and evaluation. Students initiate the development of the DNP project proposal by gathering the literature specific to the project's focus, explore the Institute for Healthcare Improvement (IHI) Quality Improvement (QI) Project Charter, learn how to work with stakeholders and develop outcome measures. Students select a theoretical framework to use within the project and develop the QI methods and ethical considerations for the proposed project, including IRB requirements and CITI training. Students work with their DNP Project Committee Chair to develop the project question and project's significance and draft the background section of the DNP project proposal. Department consent is required.

NURS 7510. DNP Systems Thinking 2. Units: 2

This is the second in a series of four DNP Systems Thinking courses. Students work with stakeholders, develop the significance and background, synthesize the relevant literature to support the project focus, apply a theoretical framework to use within the project, and develop the methods and ethical considerations for the proposed project. Students complete the writing of the DNP Project Proposal using SQUIRE Guidelines and APA format and following the associated DNP rubrics. Department consent required.

NURS 7520. DNP Systems Thinking 3. Unit: 1

This is the third in a series of four DNP Systems Thinking courses. In this course students will obtain IRB approval and implement their DNP project. Students learn to analyze and present data collected throughout this semester. Department consent required.

NURS 7530. DNP Systems Thinking 4. Units: 2

This is the fourth in a series of four DNP Systems Thinking courses. In this course students continue implementation of the DNP project, complete data analysis, develop a DNP project poster presentation, and complete writing of the DNP project paper final sections. Department consent required.

NURS 7540. APRN Role Transition to Practice. Units: 2

In this course, Advanced Practice Registered Nurse (APRN) students will prepare a resume or CV, employment interview skills, and negotiate an employment contract. Students explore the process and requirements for licensure and certification as a family nurse practitioner. In addition, students will successfully complete a certification review course. Department consent required.

NURS 7990. DNP Systems Thinking 5. Unit: 1

This course is a follow-up to the DNP Systems Thinking series courses. Students that have not completed the DNP Project may enroll in this course to complete the requirement. Learning outcomes will be determined by the student's DNP Project Committee Chair and DNP Program Director. Department consent required.

Philosophy (PHIL)

Courses

PHIL 1001. Moral Choices in Life. Units: 3

Fundamentals of ethical reasoning in the context of a first-year seminar. Introduction to moral theories and methods of moral decision making. Focus on such issues as ethics in the workplace, responsible citizenship, euthanasia, and responsibilities to the homeless, the environment and animals. Formerly offered as PHIL 101.

PHIL 1005. Critical Thinking Through Argument Analysis. Units: 3

Analysis of various kinds of reasoning employed in everyday life and in more specialized contexts to develop each student's skill in understanding and using carefully constructed arguments. Illustrations will include materials drawn from contemporary issues. Satisfies GE A3/1B.

PHIL 1011. Introduction to Philosophy. Units: 3

Prerequisites: Satisfaction of the GE Written Communication requirement
An introduction to philosophical thinking by means of reading, discussing and writing about selected philosophical works. Students are encouraged to develop their own philosophical views in a critical exchange with the views of the philosophers studied. Satisfies GE C2/3B, WI designation.

PHIL 1011H. Honors Introduction to Philosophy. Units: 3

Semester Prerequisite: Admission to the Honors Program; Satisfaction of GE 1A

An introduction to philosophical thinking by means of reading, discussing and writing about selected philosophical works. Students are encouraged to develop their own philosophical views in a critical exchange with the views of the philosophers studied. Satisfies GE C2/3B, WI designation. May be taken four time for four units.

PHIL 1012. Introduction to Ethics. Units: 3

An introduction to ethics and moral theory. Philosophical approaches to questions of right and wrong, duty and obligation, good and evil. Deals with both individual morality and social morality. Satisfies GE C2/3B, WI designation, Diversity and Social Justice pathway.

PHIL 1012H. Honors Introduction to Ethics. Units: 3

Semester Prerequisite: Admission to the Honors Program; Satisfaction of GE 1A

An introduction to ethics and moral theory. Philosophical approaches to questions of right and wrong, duty and obligation, good and evil. Deals with both individual morality and social morality. Satisfies GE C2/3B, WI designation, Diversity and Social Justice pathway.

PHIL 1013. Introduction to Philosophy of Religion. Units: 3

Introductory treatment of philosophical issues raised by religion and religious belief; discussion of issues such as relations between faith, belief and knowledge, arguments for the existence of god, the problem of evil, and immortality. Satisfies GE C2/3B, WI designation.

PHIL 1014. Introduction to Asian Philosophy. Units: 3

Introduction to the ways in which human life and reality is viewed from perspectives such as Buddhism, Hinduism, Taoism and Confucianism. Satisfies GE C2/3B, G, WI designations, World Cultures and Diversity pathway.

PHIL 1015. Introduction to Knowledge and Reality. Units: 3

Inquiry into philosophical presuppositions underlying common sense and scientific views of knowledge and reality. Possible topics include: Was the universe created? Is the world as it appears to us? Are humans merely complex machines or do they have souls? How do we know what we know? What are moral values? Satisfies GE C2/3B; WI designation.

PHIL 1015H. Honors Introduction to Knowledge and Reality. Units: 3

Semester Prerequisite: Admission to the Honors Program and satisfaction of GE 1A

Inquiry into philosophical presuppositions underlying common sense and scientific views of knowledge and reality. Possible topics include: Was the universe created? Is the world as it appears to us? Are humans merely complex machines or do they have souls? How do we know what we know? What are moral values? Satisfies GE C2/3B, WI designation.

PHIL 1016. Introduction to Latin American Philosophy. Units: 3

An introduction to Latin American philosophy through an examination of the philosophical traditions of Latin America and the study of Latin American philosophers. Satisfies GE C2/3B, DI, G, WI designations.

PHIL 2100. Critical Thinking Through Symbolic Logic. Units: 3

Introduction to logic and its application to everyday reasoning. Emphasis on formal methods and modern symbolic logic. Satisfies GE A3/1B.

PHIL 3006. Philosophy in Children's Literature. Units: 3

Semester Prerequisite: Satisfaction of the GE 1A, 1B. Junior or senior standing

Examination of philosophical questions in children's literature. Satisfies GE C4/UD-3, WI designation.

PHIL 3007. Philosophy in Young Adult Literature. Units: 3

Examination of philosophical questions in young adult literature. Satisfies GE C4/UD-3.

PHIL 3008. Philosophy in World Literature. Units: 3

Examination of philosophical questions in world literature. Satisfies GE C4/UD-3.

PHIL 3010. Truth, Lies and Bullshit. Units: 3

Semester Prerequisite: Satisfaction of the GE 1A, 1B. Junior or senior standing

Investigation of the nature of truth, lies and (the related concept) bullshit, with application to contemporary topics. Satisfies GE C4/UD-3, WI designation, and Diversity & Social Justice pathway.

PHIL 3011. Philosophy of Race. Units: 3

Semester Prerequisite: Satisfaction of GE 1A, 1B, and junior or senior standing

Inquiry into the nature of race and racial injustice through contemporary philosophical theories of these topics. Satisfies GE C4/UD-3, DI, WI designations, Diversity and Social Justice pathway.

PHIL 3012. Philosophy of Gender. Units: 3

Study of philosophical theories of gender and critical analysis of gender-related issues. Topics include the sex/gender distinction, analyses of gender and oppression, and the intersection of gender with other social identities like race and sexual orientation. Satisfies GE C4/UD-3, G, WI designations, and Diversity & Social Justice pathway.

PHIL 3013. Human Rights & Global Citizenship. Units: 3

Examination of the tension between respecting cultural traditions and the idea of universal human rights. Satisfies GE C4/UD-3, G, WI designations.

PHIL 3014. Environmental Ethics. Units: 3

Study of moral principles in application to the environment. Topics to be discussed include the value of the natural world, our moral obligations towards non-human life and our environment, and a variety of applied topics (for example, climate change, environmental justice, and technology and the environment). Satisfies GE C4/UD-3, WI designation, and Environmental Sustainability pathway.

PHIL 3015. Roots and Results of Democracy. Units: 3

Semester Prerequisite: Satisfaction of GE 1A, 1B, and junior or senior standing

Philosophical theories and movements leading to and emerging from democratic institutions. Satisfies GE C4/UD-3, WI designation, Big Ideas that Change the World: Exploring Ideas, Innovations, Discoveries pathway.

PHIL 3016. Real Ethics in a Virtual World. Units: 3

Semester Prerequisite: Satisfaction of GE 1A, 1B, and junior or senior standing

Examination of ethical issues arising with development of modern electronic media. Satisfies GE C4/UD-3, WI designation, Digital Life pathway.

PHIL 3017. Scientific Revolutions. Units: 3

Semester Prerequisite: Satisfaction of GE 1A, 1B, and junior or senior standing

Philosophical examination of major scientific revolutions. Satisfies GE C4/UD-3, WI designation, Big Ideas that Change the World: Exploring Ideas, Innovations, Discoveries pathway.

PHIL 3018. Biomedical Ethics. Units: 3

Semester Prerequisite: Satisfaction of GE 1A and junior or senior standing

Examination of ethical issues as they arise in the area of medicine and health care; including such topics as euthanasia, abortion, cloning, allocation of medical resources, genetic engineering, human trials and experimentation, and organ donation. Satisfies GE C4/UD-3, G, WI designations.

PHIL 3019. Happiness. Units: 3

Semester Prerequisite: Satisfaction of GE 1A and junior or senior standing

What is happiness? Should we strive to be happy? Does everyone strive to be happy? What is the relationship between a happy life and a meaningful life? How do we measure and evaluate the happiness and well-being of ourselves and others? In this course, we investigate these questions on the nature of happiness by considering discussions about them from ancient Greek authors to the present. In addition, we aim to connect philosophical discussions of happiness and well-being to recent empirical work. Satisfies GE C4/UD-3, G, WI designations.

PHIL 3020. Philosophy of Hip Hop. Units: 3

Semester Prerequisite: Satisfaction of GE 1A, 1B, and junior or senior standing

Inquiry into the aesthetic, epistemic, moral and political features of hip hop music through contemporary philosophical work from aestheticians, epistemologists, ethicists, political philosophers and philosophers of race. Satisfies GE C4/UD-3, DI, WI designations, and Diversity & Social Justice pathway.

PHIL 3025. Marginalized in America. Units: 3

Semester Prerequisite: Satisfaction of GE 1A, 1B, and junior or senior standing

Philosophical study of oppression and marginalization. Analysis of the variety of ways in which oppression or marginalization impacts the lives and psychologies of marginalized peoples in the United States. Satisfies GE C4/UD-3 DI, WI designations, Diversity and Social Justice pathway.

PHIL 3026. Philosophy of Disability. Units: 3

Semester Prerequisite: Satisfaction of GE 1A, 1B, and junior or senior standing

Study and critical analysis of ability and disability. Topics include social and medical models of disability, perspectives in critical disability studies, and disability as identity. Satisfies GE C4/UD-3, DI, WI designations, Diversity and Social Justice pathway.

PHIL 3040. Philosophy and Film. Units: 3

Semester Prerequisite: Satisfaction of GE 1A, 1B, and junior or senior standing

Study of philosophical themes as they arise in works of film. Satisfies GE C4/UD-3, WI designation.

PHIL 3100. Predicate Logic. Units: 3

Semester Prerequisite: PHIL 2100 or consent of instructor. Quarter

Prerequisite: PHIL 200 or consent of instructor

Introduction to the standard predicate calculus. Some metatheory. This course requires some basic mathematical or logical background. Formerly PHIL 300.

PHIL 3110. Alternative Logics. Units: 3

Semester Prerequisite: PHIL 2100 or consent of instructor. Quarter

Prerequisite: PHIL 200 or consent of instructor

Logics alternative to the classical predicate calculus. Topics include logics extending or contrasting with the classical approach. May be repeated for credit two times as topics change for a total of 6 units. Formerly known as PHIL 308.

PHIL 3210. Ancient Philosophy. Units: 3

Semester Prerequisite: Satisfaction of GE 1B and a 3A/3B Philosophy course or consent of instructor

Introduction to the origin of Western philosophy, as represented in the works of the Pre-Socratics, Plato, Aristotle, the Stoics, Epicureans, Skeptics and Mystics. Satisfies WI designation.

PHIL 3225. Medieval Philosophy. Units: 3

Semester Prerequisite: Satisfaction of the GE (A3) Critical Thinking requirement and a GE category C (C2, C3 or C4) Philosophy course, or consent of instructor

A study of philosophical issues from Augustine to Descartes. Satisfies WI designation.

PHIL 3230. Classical Arabic Philosophy. Units: 3

This course offers an introduction to the Arabic philosophical tradition, focusing on the period one might call the "classical" age of Arabic thought from al-Kindi and the transmission of Greek philosophy (9th century) to Averroes (12th century). Topics to be considered include the eternity of the world; the theory of soul and intellect; the relation between philosophy and religion; the attitude taken towards Greek philosophical texts, especially Aristotle, by Muslim philosophers; the problem of divine attributes; the nature of God as a cause; and the problem of free will. Satisfies DI, G, and WI designations.

PHIL 3250. Early Modern Philosophy. Units: 3

Semester Prerequisite: Satisfaction of GE 1B and a 3B Philosophy course

Major philosophical developments in Western philosophy from c 1600 to 1800. Figures examined may include: Descartes, Leibniz, Spinoza, Locke, Berkeley, Hume, Kant, Reid, Rousseau, Hobbes, Malebranche, Wollstonecraft, Newton, and Clarke. Satisfies WI designation.

PHIL 3290. Topics in the History of Philosophy. Units: 3

Semester Prerequisite: Satisfaction of GE 1B and a 3A/3B Philosophy course or instructor consent

Study of a specially-selected figure, movement, problem, or theory in the history of philosophy. May be repeated for credit as topics change. Satisfies WI designation.

PHIL 3310. Ethics. Units: 3

Semester Prerequisite: Satisfaction of GE 1B and a 3A/3B Philosophy course or consent of instructor

The nature of the meaningful life and its relation to concepts of right and wrong explored through various moral theories. Satisfies WI designation.

PHIL 3312. Free Will and Moral Responsibility. Units: 3

Semester Prerequisite: Satisfaction of GE 1B and a 3A/3B Philosophy course or consent of instructor

A study of the nature of free will and its relation to moral responsibility and ethical obligation. Satisfies WI designation.

PHIL 3315. Moral Psychology. Units: 3

Semester Prerequisite: Satisfaction of GE 1B and lower division

Philosophy course

A survey of major themes central to the philosophical study of moral psychology, including moral motivation, emotions and moral judgment, moral reasoning, and character formation. Satisfies WI designation.

PHIL 3317. Aesthetics: Philosophy of Art and Beauty. Units: 3

'Aesthetics' derives from the Greek word for sensation or perception, 'aisthesis,' and refers to the philosophy of art and artistic experience. In this course, we will analyze and evaluate the main approaches in the philosophy of art: representational theory, formalism, expressionism, contextualism, and postmodern theory. We aim to highlight the rich diversity of art to convey the difficulty of coming up with unified theories, especially in light of the expanding mediascape of digital culture. We also aim to explore the nature of beauty, taste, and the connection between art and morality. Readings will be drawn from classical Greek sources to contemporary works in the philosophy of art. Satisfies WI designation.

PHIL 3320. Latin American Philosophy. Units: 3

Semester Prerequisite: Satisfaction of GE 1B and lower division Philosophy course

Inquiry into Latin American philosophy through exploring current and historical philosophical views from and about Latin America. Satisfies the GE DI, G, WI designations.

PHIL 3330. Social and Political Philosophy. Units: 3

Semester Prerequisite: Satisfaction of GE 1B and a 3A/3B Philosophy course, or consent of instructor

An examination of major perspectives on how societies should be organized. Study of central issues such as legitimacy of government, and rights versus obligations; or of major concepts such as justice, equality, rights, class, patriarchy and power. Satisfies WI designation.

PHIL 3350. Philosophy of Law. Units: 3

Semester Prerequisite: Satisfaction of GE 1B and a 3A/3B Philosophy course, or consent of instructor

A study of philosophical problems raised by the law, such as the obligation to obey the law; concepts of justice; and justifications for legal rights. Satisfies WI designation.

PHIL 3355. Jurisprudence. Units: 3

Semester Prerequisite: Satisfaction of GE 1B and a 3A/3B Philosophy course, or consent of instructor

Addresses the classic question, "What is law?" and considers whether the criteria for identifying valid legal rules in a legal system refer exclusively to their origin or pedigree or whether they must also satisfy valid moral principles. Satisfies WI designation.

PHIL 3390. Topics in Value Theory. Units: 3

Semester Prerequisite: Satisfaction of GE 1B and a GE 3A/3B Philosophy course, or consent of instructor

Consideration of select problems in moral and political theory. May be repeated for credit as topics change. Satisfies WI designation.

PHIL 3410. Philosophy of Religion. Units: 3

Semester Prerequisite: Satisfaction of GE 1B and a 3A/3B Philosophy course, or consent of instructor

Problems arising in contemporary philosophy of religion. These may include those arising from consideration of the nature or existence of God, the rationality of belief in God, the problem of evil, the hiddenness of God, the relation between justified belief and religious experience, and God's relation to the world. Satisfies WI designation.

PHIL 3450. Asian Philosophy. Units: 3

Semester Prerequisite: Satisfaction of GE 1B and a 3A/3B Philosophy course, or consent of instructor

Study of various philosophical issues that arise within non-Western world views such as Buddhism, Hinduism, and Taoism. Satisfies G, WI designations.

PHIL 3510. Theory of Knowledge. Units: 3

Semester Prerequisite: Satisfaction of GE 1B and a 3A/3B Philosophy course, or consent of instructor

Problems concerning acquiring and justifying knowledge, including the roles of sense perception and reason, the distinction between knowledge and belief, the nature of evidence, and the concepts of truth and certainty. Satisfies WI designation.

PHIL 3520. Philosophy of Science. Units: 3

Semester Prerequisite: Satisfaction of GE 1B and a 3A/3B Philosophy course, or consent of instructor

Foundations of science, including the nature of scientific methodology, explanation, concept formation, and the structure of theories, using case studies from the natural sciences and social sciences. Satisfies WI designation.

PHIL 3530. Social Epistemology. Units: 3

Semester Prerequisite: Satisfaction of GE 1B and any lower-division Philosophy course

Inquiry into how knowledge and belief relate to social phenomena such as gender and racial injustice. Satisfies the GE DI, WI designations.

PHIL 3540. Feminist Philosophy. Units: 3

Semester Prerequisite: Satisfaction of the GE (A3) Critical Thinking requirement and a GE category C (C2, C3 or C4) Philosophy course, or consent of instructor

This course addresses feminist philosophy as a distinctive field of philosophy. Students will learn the philosophical concepts and skills needed to understand key feminist theoretical paradigms and arguments. This course will address a variety of topics in feminist philosophy, such as sex and gender; embodiment; oppression and domination; objectification; and more. Satisfies WI and DI designations.

PHIL 3550. Metaphysics. Units: 3

Semester Prerequisite: Satisfaction of GE 1B and a 3A/3B Philosophy course, or consent of instructor

Problems relating to existence. Includes issues such as realism and anti-realism, the nature of modal truth, free-will and determinism, the mind-body problem, and the nature of identity. Satisfies WI designation.

PHIL 3560. Philosophy of Logic and Mathematics. Units: 3

Semester Prerequisite: Satisfaction of GE 1B and a 3A/3B Philosophy course, or consent of instructor

Philosophical issues raised by logic and mathematics, such as the nature of mathematical and logical truth, the nature of logical consequence, the relation between logic, mathematics and the world, and justification of logical and mathematical systems. Satisfies WI designation.

PHIL 3580. Philosophy of Language. Units: 3

Semester Prerequisite: Satisfaction of GE 1B and a 3A/3B Philosophy course, or consent of instructor

Inquiry into the syntactic, semantic and pragmatic dimensions of language, focusing on different theories of these components, and the philosophical implications of these theories. Satisfies WI designation.

PHIL 3590. Topics in Metaphysics and Knowledge. Units: 3

Semester Prerequisite: Satisfaction of GE 1B and a 3A/3B Philosophy course, or consent of instructor

Consideration of select problems in metaphysics, philosophy of language, theory of knowledge and philosophy of science. May be repeated for credit as topics change. Satisfies WI designation.

PHIL 3610. Phenomenology. Units: 3

Semester Prerequisite: Satisfaction of GE 1B and a lower-division Philosophy course

A study of core themes in phenomenology, such as subjectivity, consciousness, embodiment, and lived experience. This course also includes phenomenological analyses of particular kinds of lived experiences (for example, gendered embodiment). Satisfies WI designation.

PHIL 3620. Existentialism. Units: 3

Semester Prerequisite: Satisfaction of GE 1B and a lower-division Philosophy course

Exploration of core existentialist themes of freedom, subjectivity, despair, death, and ethics in the works of 19th and 20th century philosophers and application of these themes to contemporary topics. Satisfies WI designation.

PHIL 3630. Continental Philosophy. Units: 3

Semester Prerequisite: Satisfaction of GE 1B and a lower-division Philosophy course

A survey of intellectual traditions comprising 20th-century Continental philosophy, including post-structuralism, and the works of Heidegger, Merleau-Ponty, Foucault and others, as well as contemporary applications of Continental thought (e.g., in contemporary Black existentialism and feminist theories of embodiment). Satisfies WI designation.

PHIL 3900. Topics in Philosophy. Units: 3

Study of a specially-selected figure, movement, problem, or theory in philosophy. May be repeated for credit as topics change. Satisfies WI designation.

PHIL 4100. Advanced Issues in Logic. Units: 3

Semester Prerequisite: PHIL 3100 or consent of instructor. Quarter Prerequisite: PHIL 300 or consent of instructor

Discussion of issues such as axiomatic logic, proofs of soundness and completeness, the incompleteness of arithmetic and set theory. May be repeated for credit as topics change. Formerly PHIL 400.

PHIL 4200. Advanced Issues in History of Philosophy. Units: 3

Semester Prerequisite: At least two 3000-level philosophy courses.
 Quarter Prerequisite: at least two 300-level philosophy courses
 An intensive study of one or more philosophical figures or topics in the history of philosophy. May be repeated for credit as topics change. Formerly PHIL 410.

PHIL 4300. Advanced Issues in Value Theory. Units: 3

Semester Prerequisite: At least two 3000-level philosophy courses
 Intensive study of topics in ethics, social philosophy and/or political philosophy. May be repeated for credit as topics change. Formerly PHIL 460.

PHIL 4500. Advanced Issues in Metaphysics and Knowledge. Units: 3

Semester Prerequisite: At least two 3000-level philosophy courses.
 Quarter Prerequisite: at least two 300-level philosophy courses
 Intensive study of topics in metaphysics, philosophy of language, theory of knowledge and/or philosophy of science. May be repeated for credit as topics change. Formerly PHIL 485.

PHIL 4900. Advanced Topics in Philosophy. Units: 3

Intensive study of a specially selected figure, movement, problem, or theory in philosophy. May be repeated for credit as topics change. Formerly PHIL 490.

PHIL 5751. Internship in Philosophy. Unit: 1

Semester Prerequisite: consent of instructor. Quarter Prerequisite: consent of instructor
 Supervised intensive work of an applied nature that requires advanced skills in philosophy. A total of six internship units may be applied toward graduation; a total of three internship units may be applied to the major. Graded credit/no credit. Formerly PHIL 575B.

PHIL 5752. Internship in Philosophy. Units: 2

Semester Prerequisite: consent of instructor. Quarter Prerequisite: consent of instructor
 Supervised intensive work of an applied nature that requires advanced skills in philosophy. A total of six internship units may be applied toward graduation; a total of three internship units may be applied to the major. Graded credit/no credit. Formerly PHIL 575C.

PHIL 5753. Internship in Philosophy. Units: 3

Semester Prerequisite: consent of instructor. Quarter Prerequisite: consent of instructor
 Supervised intensive work of an applied nature that requires advanced skills in philosophy. A total of six internship units may be applied toward graduation; a total of three internship units may be applied to the major. Graded credit/no credit. Formerly PHIL 575D.

PHIL 5951. Independent Study. Unit: 1

Semester Prerequisite: Consent of instructor. Quarter Prerequisite: Consent of instructor
 Intensive study of topics not offered in other existing philosophy courses. No more than six units of independent study can apply towards the philosophy major without departmental approval. Formerly PHIL 595B.

PHIL 5952. Independent Study. Units: 2

Semester Prerequisite: Consent of instructor. Quarter Prerequisite: Consent of instructor
 Intensive study of topics not offered in other existing philosophy courses. No more than six units of independent study can apply towards the philosophy major without departmental approval. Formerly PHIL 595C.

PHIL 5953. Independent Study. Units: 3

Semester Prerequisite: Consent of instructor. Quarter Prerequisite: Consent of instructor
 Intensive study of topics not offered in other existing philosophy courses. No more than six units of independent study can apply towards the philosophy major without departmental approval. Formerly 595D.

Physician Assistant (MSPA)

Courses

MSPA 6100. Foundations of Clinical Medicine. Units: 4

Semester Prerequisite: Admission to the MSPA Program
 This integrated course provides a foundational knowledge of physiology, microbiology, and the genetics of health and disease across all organ systems. It emphasizes the scientific principles essential for the Clinical Medicine course series, advanced clinical courses, and professional practice. Learners will explore the intricate workings of the human body, including cellular processes, organ function, and the interplay between systems for homeostasis. The course examines the impact of infectious diseases, including microorganisms, pathogenic mechanisms, transmission, and host responses. It also delves into human genetics, inheritance patterns, gene expression, and factors contributing to disease development. Through lectures, interactive discussions, and case studies, learners develop critical thinking skills for applying knowledge to clinical scenarios. Graded A, B, C, F. Departmental consent required.

MSPA 6110. Medical Anatomy. Units: 4

Semester Prerequisite: Admission to the MSPA Program
 This course provides a regionally focused study of human anatomy, combining didactic and laboratory instruction. It emphasizes clinical applications by correlating virtual dissection, diagnostic studies, and physical examination with anatomical concepts to prepare learners for advanced clinical courses and professional practice. Through interactive activities and a regionally based approach, learners will develop a comprehensive knowledge of the structure and function of the human body. State-of-the-art computer-based learning and imaging techniques enhance spatial ability and promote three-dimensional thinking. Topics covered include integumentary, muscular, skeletal, endocrine, gastrointestinal, renal/urinary, vascular/lymphatic, respiratory, neurological, and gonadal systems. Three hours lecture and three hours lab. Graded A, B, C, F. Departmental consent required.

MSPA 6120. Communication in Healthcare. Units: 2

Semester Prerequisite: Admission to the MSPA Program

This course establishes a strong basis for future healthcare providers to communicate effectively with patients, caregivers, and members of the interprofessional team. Learners will gain a foundation for patient-centered communication, adapting to evolving healthcare communication needs. Learners will also develop strategies to foster rapport, active listening, and empathy in patient and caregiver interactions, while seamlessly integrating cultural competency and cultural humility training. The course covers vital topics in medical interviewing, written documentation, oral presentation, and telemedicine, with emphasis on patient privacy and confidentiality. Graded A, B, C, F. Departmental consent required.

MSPA 6130. Laboratory Medicine and Diagnostics. Units: 2

Semester Prerequisite: Admission to the MSPA Program

This course equips learners with comprehensive knowledge of laboratory and diagnostic medicine, including the essential skills needed to select and interpret basic clinical tests and diagnostic imaging procedures. Through interactive lectures and case-based discussions, learners will develop critical thinking skills to effectively utilize laboratory tests in the diagnostic process. Learners will examine the reference ranges, typical findings, and critical thresholds for various laboratory tests and diagnostic imaging. The course also examines the ethical and legal considerations of informed consent related to laboratory and diagnostic studies. Graded A, B, C, F. Departmental consent required.

MSPA 6140. Evidence Based Medicine. Units: 3

Semester Prerequisite: Admission to the MSPA Program

The course equips learners to critically evaluate and apply scientific evidence, employ biostatistical methods, and navigate ethical considerations in clinical decision-making. Through interactive lectures, case discussions, and practical exercises, learners will explore the fundamental principles of evidence-based medicine, including study design, research methodology, critical appraisal, and application of findings to patient care. Emphasis will be on integrating research evidence with clinical expertise and patient values to deliver optimal, culturally sensitive, patient-centered care. The course serves as a foundation for Evidence Based Medicine and builds upon foundational knowledge of research methods and biostatistics. It is designed to prepare physician assistant (PA) learners for advanced clinical courses and professional practice. Graded A, B, C, F. Departmental consent required.

MSPA 6150. Community Health and Service. Units: 2

Semester Prerequisite: Admission to the MSPA Program

This course introduces concepts of public and community health through didactic instruction and community service projects. Critical topics to be covered include health disparities, cultural competency/humility, and health literacy, as well as the basics of patient education and counseling. To complement classroom instruction, learners are provided service opportunities within the community. The course focuses on addressing the local community's needs and reducing health disparities while developing cultural sensitivity to care for diverse populations. Graded A, B, C, F. Departmental consent required.

MSPA 6160. Professional Development and Practice I. Unit: 1

Semester Prerequisite: Admission to the MSPA Program

This first course in a four-part series covers topics related to PA professional practice, including the profession's historical development, PA professional organizations, practice laws and regulations, medical ethics, and the business of healthcare. The course series also promotes professional development through the growth of professional behaviors and leadership skills essential for effective teamwork and collaboration as an interprofessional team. Graded A, B, C, F. Departmental consent required.

MSPA 6161. Professional Development and Practice II. Unit: 1

Semester Prerequisite: MSPA 6160

This second course in a four-part series covers topics related to PA professional practice, including the profession's historical development, PA professional organizations, practice laws and regulations, medical ethics, and the business of healthcare. The course series also promotes professional development through the growth of professional behaviors and leadership skills essential for effective teamwork and collaboration as an interprofessional team. Graded A, B, C, F. Departmental consent required.

MSPA 6162. Professional Development and Practice III. Unit: 1

Semester Prerequisite: MSPA 6161

This third course in a four-part series covers topics related to PA professional practice, including the profession's historical development, PA professional organizations, practice laws and regulations, medical ethics, and the business of healthcare. The course series also promotes professional development through the growth of professional behaviors and leadership skills essential for effective teamwork and collaboration as an interprofessional team. Graded A, B, C, F. Departmental consent required.

MSPA 6163. Professional Development and Practice IV. Unit: 1

Semester Prerequisite: MSPA 6162

This final course in a four-part series covers topics related to PA professional practice, including the profession's historical development, PA professional organizations, practice laws and regulations, medical ethics, and the business of healthcare. The course series also promotes professional development through the growth of professional behaviors and leadership skills essential for effective teamwork and collaboration as an interprofessional team. Graded A, B, C, F. Departmental consent required.

MSPA 6200. Clinical Medicine I. Units: 6

Semester Prerequisite: MSPA 6100

This first course in a three-part course series provides a systems-based approach to foundational clinical medicine across the lifespan by exploring human diseases, clinical conditions, and pathophysiology. Learners will integrate basic science into etiology, pathogenesis, clinical presentation, diagnosis, therapeutic interventions, and follow up. Learners will also consider the social determinants of health and other patient factors when developing care plans for diverse populations. Graded A, B, C, F. Departmental consent required.

MSPA 6201. Clinical Medicine II. Units: 6

Semester Prerequisite: MSPA 6200

This second course in a three-part course series provides a systems-based approach to foundational clinical medicine across the lifespan by exploring human diseases, clinical conditions, and pathophysiology. Learners will integrate basic science into etiology, pathogenesis, clinical presentation, diagnosis, therapeutic interventions, and follow up. Learners will also consider the social determinants of health and other patient factors when developing care plans for diverse populations. Graded A, B, C, F. Departmental consent required.

MSPA 6202. Clinical Medicine III. Units: 6

Semester Prerequisite: MSPA 6201

This final course in a three-part course series provides a systems-based approach to foundational clinical medicine across the lifespan by exploring human diseases, clinical conditions, and pathophysiology. Learners will integrate basic science into etiology, pathogenesis, clinical presentation, diagnosis, therapeutic interventions, and follow up. Learners will also consider the social determinants of health and other patient factors when developing care plans for diverse populations. Graded A, B, C, F. Departmental consent required.

MSPA 6210. Pharmacotherapeutics I. Units: 3

Semester Prerequisite: MSPA 6100

This first course in a three-part course series provides a systems-based approach to pharmacotherapeutic management with a core focus on patient-centered care and a thoughtful consideration of the social determinants of health. The Pharmacotherapeutics course series parallels the Clinical Medicine course series by covering the major pharmacotherapeutic agents vital to each system. In addition to a systems-based approach, this first course introduces pharmacokinetic, pharmacodynamic, pharmacogenomics, and prescription writing. Graded A, B, C, F. Departmental consent required.

MSPA 6211. Pharmacotherapeutics II. Units: 3

Semester Prerequisite: MSPA 6210

This second course in a three-part course series provides a systems-based approach to pharmacotherapeutic management with a core focus on patient-centered care and a thoughtful consideration of the social determinants of health. The Pharmacotherapeutics course series parallels the Clinical Medicine course series by covering the major pharmacotherapeutic agents vital to each system. Graded A, B, C, F. Departmental consent required.

MSPA 6212. Pharmacotherapeutics III. Units: 3

Semester Prerequisite: MSPA 6211

This final course in a three-part course series provides a systems-based approach to pharmacotherapeutic management with a core focus on patient-centered care and a thoughtful consideration of the social determinants of health. The Pharmacotherapeutics course series parallels the Clinical Medicine course series by covering the major pharmacotherapeutic agents vital to each system. Graded A, B, C, F. Departmental consent required.

MSPA 6220. Patient Assessment and Communication I. Units: 3

Semester Prerequisite: MSPA 6120

This first course of a three-part course series combines a systems-based approach to physical examination with continued development of communication skills. The Patient Assessment and Communication course series works in conjunction with the Clinical Medicine course series to cover the physical examination techniques used for each system. This course will expand upon the written documentation and oral presentation presented in MSPA 6120 to enable learners to continue honing their communication skills. Learners will also adapt physical exam techniques as they apply to telemedicine visits. Two hours lecture and three hours lab. Graded A, B, C, F. Departmental consent required.

MSPA 6221. Patient Assessment and Communication II. Units: 3

Semester Prerequisite: MSPA 6220

This second course of a three-part course series combines a systems-based approach to physical examination with continued development of communication skills. The Patient Assessment and Communication course series works in conjunction with the Clinical Medicine course series to cover the physical examination techniques used for each system. This course will expand upon the written documentation and oral presentation presented in MSPA 6120 to enable learners to continue honing their communication skills. Learners will also adapt physical exam techniques as they apply to telemedicine visits. Two hours lecture and three hours lab. Graded A, B, C, F. Departmental consent required.

MSPA 6222. Patient Assessment and Communication III. Units: 3

Semester Prerequisite: MSPA 6221

This final course of a three-part course series combines a systems-based approach to physical examination with continued development of communication skills. The Patient Assessment and Communication course series works in conjunction with the Clinical Medicine course series to cover the physical examination techniques used for each system. This course will expand upon the written documentation and oral presentation presented in MSPA 6120 to enable learners to continue honing their communication skills. Learners will also adapt physical exam techniques as they apply to telemedicine visits. Two hours lecture and three hours lab. Graded A, B, C, F. Departmental consent required.

MSPA 6230. Clinical and Diagnostic Skills I. Units: 4

Semester Prerequisite: MSPA 6130

This first course in a three-part course series provides a systems-based approach to laboratory medicine, diagnostic studies, and clinical procedures. The course series includes a laboratory component for learners to develop their clinical and technical skills for performing common clinical procedures. The course series integrates pillars of patient and provider safety with best practices to ensure that learners are not only skilled, but also compassionate and accountable. Point-of-Care Ultrasound (POCUS) will also be implemented throughout the course series within applicable systems. Three hours lecture and three hours lab. Graded A, B, C, F. Departmental consent required.

MSPA 6231. Clinical and Diagnostic Skills II. Units: 4

Semester Prerequisite: MSPA 6230

This second course in a three-part course series provides a systems-based approach to laboratory medicine, diagnostic studies, and clinical procedures. The course series includes a laboratory component for learners to develop their clinical and technical skills for performing common clinical procedures. The course series integrates pillars of patient and provider safety with best practices to ensure that learners are not only skilled, but also compassionate and accountable. Point-of-Care Ultrasound (POCUS) will also be implemented throughout the course series within applicable systems. Three hours lecture and three hours lab. Graded A, B, C, F. Departmental consent required.

MSPA 6232. Clinical and Diagnostic Skills III. Units: 4

Semester Prerequisite: MSPA 6231

This final course in a three-part course series provides a systems-based approach to laboratory medicine, diagnostic studies, and clinical procedures. The course series includes a laboratory component for learners to develop their clinical and technical skills for performing common clinical procedures. The course series integrates pillars of patient and provider safety with best practices to ensure that learners are not only skilled, but also compassionate and accountable. Point-of-Care Ultrasound (POCUS) will also be implemented throughout the course series within applicable systems. Two hours lecture and three hours lab. Graded A, B, C, F. Departmental consent required.

MSPA 6240. Clinical Reasoning I. Unit: 1

This first course in a three-part course series promotes the integration of clinical knowledge, technical skills, and evidence-based medicine for effective and cohesive patient care. The course series advances the learner's clinical reasoning and problem-solving skills through interprofessional education, case-based learning, and simulated patient encounters. By integrating theory and practice, this course series prepares learners to make informed clinical decisions and work collaboratively within the interprofessional team. Graded A, B, C, F. Departmental consent required.

MSPA 6241. Clinical Reasoning II. Unit: 1

Semester Prerequisite: MSPA 6240

This second course in a three-part course series promotes the integration of clinical knowledge, technical skills, and evidence-based medicine for effective and cohesive patient care. The course series advances the learner's clinical reasoning and problem-solving skills through interprofessional education, case-based learning, and simulated patient encounters. By integrating theory and practice, this course series prepares learners to make informed clinical decisions and work collaboratively within the interprofessional team. Graded A, B, C, F. Departmental consent required.

MSPA 6242. Clinical Reasoning III. Unit: 1

Semester Prerequisite: MSPA 6241

This final course in a three-part course series promotes the integration of clinical knowledge, technical skills, and evidence-based medicine for effective and cohesive patient care. The course series advances the learner's clinical reasoning and problem-solving skills through interprofessional education, case-based learning, and simulated patient encounters. By integrating theory and practice, this course series prepares learners to make informed clinical decisions and work collaboratively within the interprofessional team. Graded A, B, C, F. Department consent required.

MSPA 6250. Applied Community and Behavioral Health I. Units: 2

Semester Prerequisite: MSPA 6150

This first course in a three-part series further explores public and community health concepts, including topics related to social issues, behavioral health, and mental wellness. To complement classroom instruction, learners are provided clinical experiences within the community. By the conclusion of the course series, learners will develop foundation skills to provide equitable care by fostering professional behaviors, cultural humility, and consideration of the social determinants of health in preparation for clinical rotations. Graded A, B, C, F. Departmental consent required.

MSPA 6251. Applied Community and Behavioral Health II. Units: 2

Semester Prerequisite: MSPA 6250

This second course in a three-part series further explores public and community health concepts, including topics related to social issues, behavioral health, and mental wellness. To complement classroom instruction, learners are provided clinical experiences within the community. By the conclusion of the course series, learners will develop foundation skills to provide equitable care by fostering professional behaviors, cultural humility, and consideration of the social determinants of health in preparation for clinical rotations. Graded A, B, C, F. Departmental consent required.

MSPA 6252. Applied Community and Behavioral Health III. Unit: 1

Semester Prerequisite: MSPA 6251

This final course in a three-part series further explores public and community health concepts, including topics related to social issues, behavioral health, and mental wellness. To complement classroom instruction, learners are provided clinical experiences within the community. By the conclusion of the course series, learners will develop foundation skills to provide equitable care by fostering professional behaviors, cultural humility, and consideration of the social determinants of health in preparation for clinical rotations. Graded A, B, C, F. Departmental consent required.

MSPA 6400. Principles of Emergency Medicine and Surgery. Units: 2

The Principles of Emergency Medicine and Surgery course offers an intensive and comprehensive training program that integrates both emergency medicine and surgical skills. Learners will gain expertise in emergency triage and executing acute intervention, including basic and advanced life support. The course will explore pre-, intra-, and post-operative care for diverse surgical scenarios to hone critical thinking skills in a high-stress environment. This course combines didactic instruction, simulations, and dynamic discussions to support active learning and collaboration. One hour lecture and three hours lab. Graded A, B, C, F. Departmental consent required.

MSPA 6500. Transition to Practice I. Unit: 1

This first course in a three-part series prepares learners for the transition from learner to clinical practice through informative sessions, summative examination preparation activities, and a comprehensive PANCE review. Session topics include job interview preparation, contract negotiation, financial planning, and advanced PA professional practice issues. Graded A, B, C, F. Departmental consent required.

MSPA 6501. Transition to Practice II. Unit: 1

Semester Prerequisite: MSPA 6500

This second course in a three-part series prepares learners for the transition from learner to clinical practice through informative sessions, summative examination preparation activities, and a comprehensive PANCE review. Session topics include job interview preparation, contract negotiation, financial planning, and advanced PA professional practice issues. Graded A, B, C, F. Departmental consent required.

MSPA 6502. Transition to Practice III. Units: 3

Semester Prerequisite: MSPA 6501

This final course in a three-part series prepares learners for the transition from learner to clinical practice through informative sessions, summative examination preparation activities, and a comprehensive PANCE review. Session topics include job interview preparation, contract negotiation, financial planning, and advanced PA professional practice issues. Graded A, B, C, F. Departmental consent required.

MSPA 6800. Family Medicine Clinical Rotation. Units: 4

This four-week supervised clinical practice experience (SCPE), or clinical rotation, provides a comprehensive overview of Family Medicine practice. Building upon the didactic phase curriculum, learners will advance their clinical knowledge, clinical reasoning and problem solving, and clinical and technical skills within a supervised clinical setting. Learners will also refine their interpersonal and communication skills to create effective rapport with patients, caregivers, and the healthcare team. The Family Medicine SCPE prepares learners to provide equitable care by fostering professional behaviors, cultural humility, and a consideration of the social determinants of health. Graded A, B, C, F. Departmental consent required.

MSPA 6801. Emergency Medicine Clinical Rotation. Units: 4

This four-week supervised clinical practice experience (SCPE), or clinical rotation, provides a comprehensive overview of Emergency Medicine practice. Building upon the didactic phase curriculum, learners will advance their clinical knowledge, clinical reasoning and problem solving, and clinical and technical skills within a supervised clinical setting. Learners will also refine their interpersonal and communication skills to create effective rapport with patients, caregivers, and the healthcare team. The Emergency Medicine SCPE prepares learners to provide equitable care by fostering professional behaviors, cultural humility, and a consideration of the social determinants of health. Graded A, B, C, F. Departmental consent required.

MSPA 6802. Internal Medicine Clinical Rotation. Units: 4

This four-week supervised clinical practice experience (SCPE), or clinical rotation, provides a comprehensive overview of Internal Medicine practice. Building upon the didactic phase curriculum, learners will advance their clinical knowledge, clinical reasoning and problem solving, and clinical and technical skills within a supervised clinical setting. Learners will also refine their interpersonal and communication skills to create effective rapport with patients, caregivers, and the healthcare team. The Internal Medicine SCPE prepares learners to provide equitable care by fostering professional behaviors, cultural humility, and a consideration of the social determinants of health. Graded A, B, C, F. Departmental consent required.

MSPA 6803. Surgery Clinical Rotation. Units: 4

This four-week supervised clinical practice experience (SCPE), or clinical rotation, provides a comprehensive overview of Surgery. Building upon the didactic phase curriculum, learners will advance their clinical knowledge, clinical reasoning and problem solving, and clinical and technical skills within a supervised clinical setting. Learners will also refine their interpersonal and communication skills to create effective rapport with patients, caregivers, and the healthcare team. The Surgery SCPE prepares learners to provide equitable care by fostering professional behaviors, cultural humility, and consideration of the social determinants of health. Graded A, B, C, F. Departmental consent required.

MSPA 6804. Pediatrics Clinical Rotation. Units: 4

This four-week supervised clinical practice experience (SCPE), or clinical rotation, provides a comprehensive overview of Pediatric practice. Building upon the didactic phase curriculum, learners will advance their clinical knowledge, clinical reasoning and problem solving, and clinical and technical skills within a supervised clinical setting. Learners will also refine their interpersonal and communication skills to create effective rapport with patients, caregivers, and the healthcare team. The Pediatrics SCPE prepares learners to provide equitable care by fostering professional behaviors, cultural humility, and consideration of the social determinants of health. Graded A, B, C, F. Departmental consent required.

MSPA 6805. Women's Health Clinical Rotation. Units: 4

This four-week supervised clinical practice experience (SCPE), or clinical rotation, provides a comprehensive overview of Women's Health. Building upon the didactic phase curriculum, learners will advance their clinical knowledge, clinical reasoning and problem solving, and clinical and technical skills within a supervised clinical setting. Learners will also refine their interpersonal and communication skills to create effective rapport with patients, caregivers, and the healthcare team. The Women's Health SCPE prepares learners to provide equitable care by fostering professional behaviors, cultural humility, and consideration of the social determinants of health. Graded A, B, C, F. Consent required.

MSPA 6806. Behavioral and Mental Health Clinical Rotation. Units: 4

This four-week supervised clinical practice experience (SCPE), or clinical rotation, provides a comprehensive overview of Behavioral and Mental Health. Building upon the didactic phase curriculum, learners will advance their clinical knowledge, clinical reasoning and problem solving, and clinical and technical skills within a supervised clinical setting. Learners will also refine their interpersonal and communication skills to create effective rapport with patients, caregivers, and the healthcare team. The Behavioral and Mental Health SCPE prepares learners to provide equitable care by fostering professional behaviors, cultural humility, and consideration of the social determinants of health. Graded A, B, C, F. Departmental consent required.

MSPA 6807. Clinical Rotation Elective I. Units: 4

This four-week supervised clinical practice experience (SCPE), or clinical rotation, provides a comprehensive overview of selected Clinical Elective practice. Building upon the didactic phase curriculum, learners will advance their clinical knowledge, clinical reasoning and problem solving, and clinical and technical skills within a supervised clinical setting. Learners will also refine their interpersonal and communication skills to create effective rapport with patients, caregivers, and the healthcare team. The Clinical Elective SCPE I prepares learners to provide equitable care by fostering professional behaviors, cultural humility, and consideration of the social determinants of health. Graded A, B, C, F. Departmental consent required.

MSPA 6808. Clinical Rotation Elective II. Units: 4

This four-week supervised clinical practice experience (SCPE), or clinical rotation, provides a comprehensive overview of selected Clinical Elective practice. Building upon the didactic phase curriculum, learners will advance their clinical knowledge, clinical reasoning and problem solving, and clinical and technical skills within a supervised clinical setting. Learners will also refine their interpersonal and communication skills to create effective rapport with patients, caregivers, and the healthcare team. The Clinical Elective SCPE II prepares learners to provide equitable care by fostering professional behaviors, cultural humility, and consideration of the social determinants of health. Graded A, B, C, F. Departmental consent required.

MSPA 6809. Clinical Rotation Elective III. Units: 4

This four-week supervised clinical practice experience (SCPE), or clinical rotation, provides a comprehensive overview of selected Clinical Elective practice. Building upon the didactic phase curriculum, learners will advance their clinical knowledge, clinical reasoning and problem solving, and clinical and technical skills within a supervised clinical setting. Learners will also refine their interpersonal and communication skills to create effective rapport with patients, caregivers, and the healthcare team. The Clinical Elective SCPE III prepares learners to provide equitable care by fostering professional behaviors, cultural humility, and consideration of the social determinants of health. Graded A, B, C, F. Departmental consent required.

MSPA 6980. Comprehensive Examination. Units: 0

This culminating course is designed to assess the clinical and technical skills, medical knowledge, clinical reasoning and problem-solving skills, interpersonal skills, and professional behaviors acquired throughout the physician assistant (PA) program. This comprehensive and integrative written and practical examination evaluates the competency and preparedness of learners to function effectively as competent and compassionate healthcare providers ready to enter clinical practice. Graded A, B, C, F. Departmental consent required.

Physics (PHYS)

Courses

PHYS 1000. Physics in the Modern World. Units: 3

Introduction to the physical world, including Newtonian mechanics, electromagnetism, relativity, quantum theory, and nuclear and particle physics. Implications of physics for society. Intended for students with little background in science. Satisfies GE B1/5A.

PHYS 1000L. Physics in the Modern World Lab. Unit: 1

Laboratory associated with Physics in the Modern World (PHYS 1000). Satisfies GE B3/5C. Materials fee required.

PHYS 1500. Tools for Physicists. Units: 3

Introduction to tools and techniques necessary to prepare students for the physics curriculum. Topics include problem solving techniques, basic programming, data analysis, and discussions of careers and research in physics. Intended for students majoring in physics. Two hours lecture and three hours lab. Materials fee required.

PHYS 2000. Introduction to Physics I. Units: 4

Semester Prerequisite: MATH 1601 or 2210, with a grade of C or better. First course of a year long sequence surveying the basic concepts of physics, primarily for natural science students. Student majoring in physics, computer science or engineering, or closely related fields should enroll in PHYS 2500. This course will cover the basic principles of mechanics, oscillations, thermodynamics and fluids. Satisfies GE B1/5A.

PHYS 2000L. Introduction to Physics I Lab. Unit: 1

Semester Prerequisite: MATH 1601 or 2210, with a grade of C or better. Laboratory associated with Introduction to Physics I (PHYS 2000). Student majoring in physics, computer science or engineering, or closely related fields should enroll in PHYS 2500 and PHYS 2500L. Satisfies GE B3/5C. Materials fee required.

PHYS 2010. Introduction to Physics II. Units: 4

Semester Prerequisite: PHYS 2000. Quarter Prerequisite: PHYS 121. Second course of a year long sequence surveying the basic concepts of physics, primarily for natural science students. Students majoring in physics, computer science or engineering, or closely related fields should instead enroll in PHYS 2510. This course will cover the basic principles of electricity, magnetism, waves, optics, and modern physics. Formerly part of the PHYS 121, 122, and 123 sequence.

PHYS 2010L. Introduction to Physics II Lab. Unit: 1

Semester Prerequisite: PHYS 2000 and 2000L. Prerequisite: PHYS 121. Semester Corequisite: PHYS 2010. Laboratory associated with Introduction to Physics II (PHYS 2010). Students majoring in physics, computer science or engineering, or closely related fields should instead enroll in PHYS 2510 and PHYS 2510L. Formerly part of the PHYS 121, 122, and 123 sequence. Materials fee required.

PHYS 2500. General Physics I. Units: 4

Semester Prerequisite: Math 2210

First course of a two-course sequence in introductory calculus-based physics for scientists and engineers. This sequence is intended for students with a strong background in mathematics and the sciences. Topics include mechanics and oscillations. Satisfies GE B1/5A.

PHYS 2500L. General Physics I Lab. Unit: 1

Semester Prerequisite: Math 2210

Laboratory for General Physics I (PHYS 2500). This sequence is intended for students with a strong background in mathematics and the sciences. Satisfies GE B3/5C. Materials fee required.

PHYS 2510. General Physics II. Units: 4

Semester Prerequisite: MATH 2220, PHYS 2500. Quarter Prerequisite: PHYS 221 and MATH 213

Second course of a two-course sequence in introductory calculus-based physics for scientists and engineers. This sequence is intended for students with a strong background in mathematics. Topics include electromagnetism and optics. Formerly part of the PHYS 221, 222, and 223 sequence.

PHYS 2510L. General Physics II Lab. Unit: 1

Semester Prerequisite: MATH 2220, PHYS 2500, PHYS 2500L.

Prerequisite: MATH 213, PHYS 221

Semester Corequisite: PHYS 2510

Laboratory for General Physics II (PHYS 2510). This sequence is intended for students with a strong background in mathematics. Formerly part of the PHYS 221, 222, and 223 sequence. Materials fee required.

PHYS 2512. General Physics - Supplement. Units: 2

Semester Prerequisite: MATH 2220

An additional course for students who transfer in credit for parts of PHYS 2500 and PHYS 2510, the introductory calculus-based physics sequence for scientists and engineers. This sequence is intended for students with a strong background in mathematics. Intended for transfer students only. Department consent required.

PHYS 2600L. Introduction to Electronics. Unit: 1

Semester Prerequisite: PHYS 2510, MATH 2310. Quarter Prerequisite: PHYS 222, MATH 331

Introduces electronics for the sciences and engineering. Focus is on analog electronics, practical circuits, troubleshooting, passive and active circuit elements, signal conditioning, and test and measurement skills. Formerly PHYS 150; students may not earn credit for both courses. Materials fee required.

PHYS 2700. Modern Physics. Units: 3

Semester Prerequisite: MATH 2310, PHYS 1500, PHYS 2510 and PHYS 2510L. Quarter Corequisite: MATH 252. Quarter Prerequisite: PHYS 223, MATH 331

Semester Corequisite: MATH 2320

An introduction to special relativity, wave-particle duality, quantum mechanics, atomic physics, nuclear physics, and elementary particle physics. Formerly PHYS 225; students may not earn credit for both courses.

PHYS 2951. Special Projects in Physics. Unit: 1

Quarter Prerequisite: consent of instructor

Individual investigation, research, study, or survey of selected problems. May be repeated for credit. Department consent required. Formerly PHYS 295A.

PHYS 2952. Special Projects in Physics. Units: 2

Quarter Prerequisite: consent of instructor

Individual investigation, research, study, or survey of selected problems. May be repeated for credit. Department consent required. Formerly PHYS 295B.

PHYS 2953. Special Projects in Physics. Units: 3

Individual investigation, research, study, or survey of selected problems. May be repeated for credit. Department consent required.

PHYS 3000. Pop Culture Physics. Units: 3

Introduction to the concepts of physics through popular media such as movies, television, books, and video games. Intended for students having little background in science but who wish to understand what is possible in this universe and what is not. Satisfies GE B5/UD-5.

PHYS 3010. The Science of Digital Sound and Music. Units: 3

Semester Prerequisite: Completion of GE 2, 5A and junior or senior standing

This course will use the physics and mathematics of waves and sound in order to understand how digital sound and music can be created, shaped, and used to express creative ideas. Topics will include sound and waves, the study of electronics and programs that can be used to shape and filter waveforms, and how these applications can be used to create different types of sound and music. Satisfies GE B5/UD-5, Digital Life pathway.

PHYS 3050. Physics and Astronomy in the Classroom. Units: 3

Semester Prerequisite: MATH 3012. Quarter Prerequisite: MATH 301C

Semester Corequisite: PHYS 3050L; MATH 3013

Basic concepts of physics and astronomy as related to the elementary and middle school classroom. Topics include mechanics, electricity and magnetism, optics, thermodynamics, and astronomy. Course content and practices are aligned with the Next Generation Science Standards (NGSS) and specially designed for students interested in teaching grades K through 8. Formerly a combination of PHYS 100 and ASTR 311 or part of PHYS 3040; credit may not be earned for this course and both PHYS 100 and ASTR 311 or PHYS 3040.

PHYS 3050L. Physics and Astronomy in the Classroom Laboratory. Unit: 1

Semester Prerequisite: MATH 3012. Quarter Prerequisite: MATH 301C

Semester Corequisite: PHYS 1000 or PHYS 3040

Basic concepts of astronomy and physics as related to the elementary and middle school classroom in a hands-on laboratory environment. Course content and practices are aligned with the Next Generation Science Standards (NGSS) and specially designed for students interested in teaching grades K through 8. Topics will include, but are not limited to, all space science NGSS standards. Materials fee required. Formerly a combination of PHYS 100 and part of ASTR 311; credit may not be earned for this course and both PHYS 100 and ASTR 311.

PHYS 3060. Physics and Astronomy in the Classroom. Units: 2

Basic concepts of physics and astronomy as related to the elementary and middle school classroom taught with in-class activities and experiments. Topics include mechanics, electricity and magnetism, optics, thermodynamics, and astronomy. Course content and practices are aligned with the Next Generation Science Standards (NGSS) and specially designed for students interested in teaching grades K through 8. Formerly a combination of PHYS 100 and ASTR 311 or part of PHYS 3040 or PHYS 3050 and PHYS 3050L; credit may not be earned for this course and both PHYS 100 and ASTR 311 or PHYS 3040 or PHYS 3050.

PHYS 3100. Mathematical Methods of Physics. Units: 4

Semester Prerequisite: MATH 2310, MATH 2320 with a grade of C or better, PHYS 1500, PHYS 2510, Combined 2 GPA in 2000-level PHYS courses. Quarter Prerequisite: Math 331 and Math 252 with a grade of C or better, PHYS 223, Combined 2 GPA in 200-level PHYS courses. Vector calculus, ordinary and partial differential equations, special functions, and integral transform techniques including Fourier and Laplace. Emphasis on techniques applicable to the problems of physics and engineering. Formerly PHYS 373, students may not earn credit for both courses.

PHYS 3200. Classical Mechanics. Units: 4

Semester Prerequisite: PHYS 2510 and 2510L. Quarter Prerequisite: PHYS 223

Semester Corequisite: PHYS 3100

A study of translational and rotational dynamics including Newtonian, Lagrangian, and Hamiltonian formulations in inertial and non-inertial reference frames. Applications include oscillations, central-force motion, and systems of particles. Formerly PHYS 306; students may not earn credit for both courses.

PHYS 3300. Computational Physics. Units: 3

Semester Prerequisite: PHYS 2510, PHYS 2510L. Prerequisite: PHYS 223

Semester Corequisite: PHYS 3100

Numerical methods in Python. Topics include numerical integration, applications of computational techniques to differential equations, modeling, Monte Carlo techniques, and non-linear systems. Materials fee required. Formerly a topic under PHYS 485; students may not earn credit for both courses. One hour lecture and six hours laboratory.

PHYS 3400. Electricity & Magnetism. Units: 3

Semester Prerequisite: PHYS 2700 and PHYS 3100 with a grade of C- or better in each course. Quarter Prerequisite: PHYS 225 and 373 with a grade of C- or better in each course

Semester Corequisite: PHYS 2700

A study of classical electromagnetic fields and applications of Maxwell's equations. Topics include electrostatics, magnetostatics, and electrodynamics. Formerly PHYS 313, students may not earn credit for both courses.

PHYS 3500. Statistical and Thermal Physics. Units: 4

Semester Prerequisite: PHYS 2700 and PHYS 3100 with grades of C- or better in each course. Quarter Prerequisite: PHYS 225 and PHYS 373 with a grade of C- or better in each course

Basics of equilibrium thermodynamics and statistical mechanics. Topics include entropy and temperature, partition functions and free energies, classical and quantum statistical ensembles, phase transitions, and selected applications. Formerly PHYS 324, students may not earn credit for both courses.

PHYS 3600. Data Acquisition and Control. Units: 2

Semester Prerequisite: PHYS 2600L, PHYS 3100, PHYS 3300. Quarter Prerequisite: CSE 201, PHYS 150, PHYS 222, and PHYS 373

An introduction to computer-based data acquisition, control, and analysis. Topics include instrument control, graphical programming, algorithm development, feedback control algorithms, and computer-based data analysis. One hour lecture and three hours laboratory. Materials fee required. Formerly PHYS 350; students may not earn credit for both courses.

PHYS 3800. Intermediate Physics Laboratory. Units: 2

Semester Prerequisite: PHYS 3300, PHYS 2700, PHYS 2600L.

Prerequisite: CSE 201, PHYS 225, PHYS 150

Semester Corequisite: PHYS 2700, PHYS 2600L

Seminal experiments in physics. Topics include modern scientific instrumentation, probability and statistics, and data and error analysis techniques. Development of written and oral communication skills. One hour lecture and three hours laboratory. Materials fee required.

PHYS 4400. Electricity & Magnetism II. Units: 3

Semester Prerequisite: PHYS 3400 with grade of C- or better. Quarter Prerequisite: PHYS 313 with grade of C- or better

A continuing study of classical electromagnetic fields and applications of Maxwell's equations. Topics may include electrodynamics in media, gauge invariance, electromagnetic waves, radiation, and special relativity. Formerly PHYS 314; students may not earn credit for both courses.

PHYS 4600. Electronics. Units: 3

Semester Prerequisite: PHYS 3600. Quarter Prerequisite: PHYS 350 and PHYS 373

Electronics for science and engineering. Topics may include modular circuit design, linear systems theory, electronic design software, high frequency techniques, communication theory, and control theory. Two hours lecture and three hours laboratory. Materials fee required. Formerly PHYS 352; students may not earn credit for both courses.

PHYS 4700. Quantum Mechanics. Units: 4

Semester Prerequisite: PHYS 2700, PHYS 3100, PHYS 3200, and PHYS 3400 with grades of C- or better in each course. Quarter Prerequisite: MATH 331, PHYS 225, PHYS 373, PHYS 313, and PHYS 306 with a grade of C- or better in each course

Quantum mechanics presented in the Dirac formalism. Topics include spin and orbital angular momentum, two-level systems, time evolution, the harmonic oscillator, and the hydrogen atom. Formerly PHYS 421, students may not earn credit for both courses.

PHYS 4800. Senior Thesis. Units: 2

Quarter Prerequisite: PHYS 306 and PHYS 313

Culminating laboratory experience in physics includes working in groups to select, design, perform, and analyze an experiment. Presentations throughout the course using multiple methods of written and oral communication. Satisfies WI designation. One hour lecture and three hours laboratory.

PHYS 4851. Special Topics in Physics. Unit: 1

A lecture course on a specialized topic in physics. May be repeated for credit as topics change. Department consent required. Formerly PHYS 485A.

PHYS 4851L. Special Topics in Physics Laboratory. Unit: 1

A laboratory course to coincide with a special topics lecture course. May be repeated for credit as topics change. Department consent required. Materials fee required.

PHYS 4852. Special Topics in Physics. Units: 2

A lecture course on a specialized topic in physics. May be repeated for credit as topics change. Department consent required. Formerly PHYS 485B.

PHYS 4852L. Special Topics in Physics Laboratory. Units: 2

A laboratory course to coincide with a special topics lecture course. May be repeated for credit as topics change. Department consent required. Materials fee required.

PHYS 4853. Special Topics in Physics. Units: 3

A lecture course on a specialized topic in physics. May be repeated for credit as topics change. Department consent required. Formerly PHYS 485C.

PHYS 5100. Mathematical Methods of Physics II. Units: 3

Semester Prerequisite: PHYS 3100. Quarter Prerequisite: PHYS 373
Topics may include functions of a complex variable, tensor analysis, Hilbert spaces, Bayesian statistics, and group theory. Emphasis on techniques applicable to the problems of physics and engineering. Formerly PHYS 473. Students may not earn credit for both courses.

PHYS 5400. Optics. Units: 3

Semester Prerequisite: PHYS 4400. Quarter Prerequisite: PHYS 314
Applications of propagating electromagnetic fields to optical systems. Topics may include physical optics, holography, adaptive optics, lasers, quantum optics, photonics, and non-linear optics. Formerly PHYS 315. Students may not earn credit for both courses.

PHYS 5500. Solid State Physics. Units: 3

Semester Prerequisite: Required: PHYS 2700 and PHYS 3100 or consent of instructor; Recommended: PHYS 3500 and PHYS 4700
An introduction to solid state physics, including structural, electrical, and thermal properties. Topics may include crystal structure, bonding, phonons, electronic states, band structure, and nanomaterials. Formerly PHYS 450. Students may not earn credit for both courses.

PHYS 5700. Quantum Mechanics II. Units: 3

Semester Prerequisite: PHYS 4700 with a grade of C or better. Quarter Prerequisite: PHYS 421 with a grade of C or better
Continued study of the principles of quantum mechanics introduced in PHYS 4700. Topics may include perturbation theory, density functional theory, exchange interactions, scattering, and path integrals. Formerly PHYS 422, students may not earn credit for both courses.

PHYS 5751. Internship. Unit: 1

Supervised work and study in private or public setting. May be repeated for credit. Department consent required. Graded credit/no credit. Only 3 units of PHYS 5751-5753 may be counted towards the Physics degree. Formerly PHYS 585D.

PHYS 5752. Internship. Units: 2

Supervised work and study in private or public setting. May be repeated for credit. Department consent required. Graded credit/no credit. Only 3 units of PHYS 5751-5753 may be counted towards the Physics degree. Formerly PHYS 585B.

PHYS 5753. Internship. Units: 3

Supervised work and study in private or public setting. May be repeated for credit. Department consent required. Graded credit/no credit. Only 3 units of PHYS 5751-5753 may be counted towards the Physics degree. Formerly PHYS 585C.

PHYS 5851. Special Topics in Physics. Unit: 1

A lecture course on a specialized topic in physics. May be repeated for credit as topics change. Department consent required.

PHYS 5851L. Special Topics in Physics Laboratory. Unit: 1

A laboratory course to coincide with a special topics lecture course. May be repeated for credit as topics change. Department consent required. Materials fee required.

PHYS 5852. Special Topics in Physics. Units: 2

A lecture course on a specialized topic in physics. May be repeated for credit as topics change. Department consent required.

PHYS 5852L. Special Topics in Physics Laboratory. Units: 2

A laboratory course to coincide with a special topics lecture course. May be repeated for credit as topics change. Department consent required. Materials fee required.

PHYS 5853. Special Topics in Physics. Units: 3

A lecture course on a specialized topic in physics. May be repeated for credit as topics change. Department consent required.

PHYS 5951. Independent Study. Unit: 1

Investigations conducted under the direction of a faculty member. PHYS 5951-5953 may be repeated for credit up to a total of 6 units. Department consent required. Only 3 units of PHYS 5951-5953 may be counted towards the Physics degree. Formerly PHYS 595A.

PHYS 5952. Independent Study. Units: 2

Investigations conducted under the direction of a faculty member. PHYS 5951-5953 may be repeated for credit up to a total of 6 units. Department consent required. Only 3 units of PHYS 5951-5953 may be counted towards the Physics degree. Formerly PHYS 595B.

PHYS 5953. Independent Study. Units: 3

Investigations conducted under the direction of a faculty member. PHYS 5951-5953 may be repeated for credit up to a total of 6 units. Department consent required. Only 3 units of PHYS 5951-5953 may be counted towards the Physics degree. Formerly PHYS 595C.

Portuguese (PORT)**Courses****PORT 1111. Language Study I: Portuguese. Units: 3**

Introduction to a language not offered as a major or minor. Fundamentals of pronunciation, structure and culture designed to develop the ability to use and understand the language. Formerly FLAN 101D. Materials fee required.

PORT 1112. Language Study II: Portuguese. Units: 3

Quarter Prerequisite: FLAN 101D or 2 years high school language study, placement exam, equivalent college-level course (1111) or consent of department
Intermediate study in a language not offered as a major or minor. Emphasis on oral and written competency at the intermediate level in a cultural context. May be repeated for credit as topics change. Satisfies GE C2/3B, DI, G designations. Materials fee required.

Political Science (PSCI)**Courses****PSCI 1000. Introduction to Politics. Units: 3**

Introduction to political science as a discipline, including its principal subfields. Survey of perennial questions of political life, including freedom and justice, war and peace, and the rule of law. Satisfies GE Category D3.

PSCI 2030. Government of the United States. Units: 3

Political structure and processes of the American governmental system. This course meets the state code requirements in U.S. Constitution and state and local government. Satisfies GE D1/4.

PSCI 2030H. Government of the United States--Honors. Units: 3

Quarter Prerequisite: admission to University Honors Program
Examination of the political structure and processes of the American governmental system, including study of primary documents. This course meets the state code requirements in U.S. Constitution and state and local government. Satisfies GE D1/4.

PSCI 2040. International Relations. Units: 3

A survey of major regions and ideologies of the world, and of the basic concepts of foreign and security policies, international political economy, international law, and international organizations. Formerly offered as PSCI 204.

PSCI 3000. Western Political Systems. Units: 3

Comparative examination of domestic and foreign politics of Western countries, with an emphasis on European states. Formerly offered as PSCI 300.

PSCI 3010. African Politics. Units: 3

Comparative examination of domestic and foreign politics of African governments. Formerly offered as PSCI 301.

PSCI 3040. East European Political Systems. Units: 3

Comparative examination of the domestic and foreign policies of East European states. Formerly offered as PSCI 304.

PSCI 3050. East Asian Politics. Units: 3

Comparative examination of domestic and foreign politics of East Asian governments. Formerly offered as PSCI 305.

PSCI 3060. Latin American Politics. Units: 3

Comparative examination of domestic politics and foreign policies of Latin American governments. Formerly offered as PSCI 306.

PSCI 3080. Government and Politics of the Middle East. Units: 3

Governmental and political structures of representative states in the Middle East, including Turkey, Israel, and the Arab States. Formerly offered as PSCI 308.

PSCI 3100. Classical Political Thought. Units: 3

Classical political thought through a consideration of representative political thinkers such as Plato, Aristotle, Thucydides, Cicero, Lucretius. Formerly offered as PSCI 310.

PSCI 3110. Foundations of Modern Political Thought. Units: 3

Major political ideas of the early modern period ranging from Machiavelli through Hobbes, Locke, Rousseau and Burke. Formerly offered as PSCI 311.

PSCI 3130. Modern Political Thought. Units: 3

Major political ideas of the nineteenth century. Formerly offered as PSCI 313.

PSCI 3140. American Political Thought. Units: 3

American political ideas from the colonial period to the present. This course meets the state code requirement in U.S. history. Formerly offered as PSCI 314.

PSCI 3150. Post Modern Political Thought. Units: 3

Major political ideas of the twentieth century. Formerly offered as PSCI 315.

PSCI 3200. The Legislative Process. Units: 3

Law-making processes in the United States and/or other selected political systems. Formerly offered as PSCI 320.

PSCI 3250. American Foreign Policy. Units: 3

Political analysis of American foreign policy with emphasis on foreign policy making in the nuclear age. Formerly offered as PSCI 325.

PSCI 3260. Political Parties and Interest Groups. Units: 3

Organization, objectives and activities of political parties and political interest groups and their functions in modern political systems. Formerly offered as PSCI 326.

PSCI 3280. Judicial Process. Units: 3

Process of judicial decision-making with emphasis on factors influencing that process and concepts of judicial roles. Formerly offered as PSCI 328.

PSCI 3300. State and Local Politics. Units: 3

Comparison of state and local political systems within the American Federal System. This course meets the state code requirement in state and local government. Formerly PSCI 330.

PSCI 3400. Sex and Politics. Units: 3

Emphasis will be on sex roles in traditional and modern political systems, sex stereotypes in politics; effects of changing technology on conventional male and female roles; dynamics of change affecting the woman's place in the political world. Formerly offered as PSCI 340.

PSCI 3520. Ethnic Politics. Units: 3

Ethnic groups in the American political system. Formerly offered as PSCI 352A.

PSCI 3521. African American Politics. Units: 3

African-Americans in the U.S. political system. Formerly offered as PSCI 352B.

PSCI 3522. Latino Politics. Units: 3

Latinos in the American political system. Formerly offered as PSCI 352C.

PSCI 3523. Asian American Politics. Units: 3

Asian-Americans in the American political system. Formerly offered as PSCI 352D.

PSCI 3524. Native American Politics. Units: 3

Native Americans in the U.S. political system. Formerly offered as PSCI 352E.

PSCI 3600. International Law. Units: 3

Historical basis and present trends in the development of international law. Formerly offered as PSCI 500 and PSCI 5000.

PSCI 3800. Introduction to Public Administration. Units: 3

An introduction to the purposes, methods and characteristics of public management, including organization of public services, roles and relationships of public administrators, accountability and the achievement of public goals. Formerly offered as PSCI 380 and PA 380.

PSCI 4000. International Politics. Units: 3

Selected theories and evolving patterns of international politics as developed within the nation-state system. Formerly offered as PSCI 400.

PSCI 4100. American Constitutional Law. Units: 3

Principles of the American Constitution as announced by the Supreme Court in selected cases. Judicial review, separation of powers, presidential power, federalism and commerce are included. This course meets the state code requirement in the U.S. Constitution. Formerly offered as PSCI 410.

PSCI 4110. The Bill of Rights. Units: 3

Limitation on federal and state power arising out of the provisions of the first eight and the 14th Amendments to the Constitution. Modern developments are stressed. This course meets the state code requirement in the U.S. Constitution. Formerly offered as PSCI 411.

PSCI 4120. Civil Rights. Units: 3

Jurisprudence of the 13th, 14th and 15th Amendments as articulated by the U.S. Supreme Court. Formerly offered as PSCI 412.

PSCI 4310. The American Presidency. Units: 3

Office and institution of the presidency of the United States. Formerly offered as PSCI 431.

PSCI 4400. Public Opinion. Units: 3

Exploration of causes of political opinions and their role in political participation and government. Includes interpretation of public opinion polls.

PSCI 4500. Law and Social Policy. Units: 3

Examination of major areas of U.S. social policy and how they have been shaped by theory, legislation, and litigation. Includes historical roots of legal entitlements.

PSCI 4550. Politics, Economics and Law. Units: 3

Effects of politics and laws on economic activity over time. Includes globalization and international trade law.

PSCI 4600. Politics, Law and Bureaucracy. Units: 3

Introduction to the regulatory process and the laws and court decisions governing the administration of legislation by federal executive branch agencies.

PSCI 4840. National Security Policy. Units: 3

Introduction to concepts and principles of national security policy through an examination of topics in international relations, foreign policy, arms control, strategic thought and alliance strategy. Formerly offered as PSCI 484.

PSCI 5100. International Organization. Units: 3

History, structure and dynamics of the United Nations and other multi-national organizations. Formerly offered as PSCI 510.

PSCI 5200. War and Politics. Units: 3

The study of the origins and political consequences of war. Formerly offered as PSCI 520.

PSCI 5250. Constitutional Interpretation. Units: 3

Examination of theories and approaches to constitutional interpretation. Formerly offered as PSCI 525.

PSCI 5280. Formulation of Public Policy. Units: 3

Approaches to public policy analysis, emphasizing interaction between substance and process in policy development. Formerly offered as PSCI 528.

PSCI 5300. Studies in Political Theory. Units: 3

Concentrated study of one political theorist or one subject in political theory. May be repeated for credit as topics change. Formerly offered as PSCI 530.

PSCI 5350. Seminar in Constitutional Law. Units: 3

Intensive study in one or more aspects of constitutional law. May be repeated as topics change. Formerly offered as PSCI 535.

PSCI 5400. Seminar in Comparative Politics. Units: 3

Theories, methods, and paradigms of comparative politics. May be repeated as topics change. Formerly offered as PSCI 540.

PSCI 5500. Intelligence, Law and Security. Units: 3

Analysis of the history, institutions and laws pertaining to intelligence agencies and national security practices.

PSCI 5751. Internship in Political Science. Unit: 1

Quarter Prerequisite: Consent of instructor and department
Supervised work and study in public and private organizations. Requires weekly meetings of at least one hour. May be repeated for six times for six units. A total of six units in PSCI 5751, PSCI 5752, and PSCI 5753 may be applied toward graduation. Graded credit/no credit.

PSCI 5752. Internship in Political Science. Units: 2

Quarter Prerequisite: consent of instructor and department
Supervised work and study in public and private organizations. Requires weekly meetings of at least two hours. May be taken three times for six units.. A total of six units in PSCI 5751, PSCI 5752, and PSCI 5753 may be applied toward graduation. Department consent required. Graded credit/no credit. Formerly offered as PSCI 575C.

PSCI 5753. Internship in Political Science. Units: 3

Quarter Prerequisite: Consent of instructor and department
Supervised work and study in public and private organizations. Requires weekly meetings of at least three hours. May be taken twice for six units. A total of six units in PSCI 5751, PSCI 5752, and PSCI 5753 may be applied toward graduation. Graded credit/no credit.

PSCI 5900. Seminar in International Relations. Units: 3

Intensive study of some phase of foreign policy-making or international relations to be developed by instructor with class. May be repeated for credit as topics change. Formerly offered as PSCI 590.

PSCI 5920. Seminar in Government. Units: 3

An intensive study of some phase of government to be developed by instructor with class. May be repeated for credit as topics change. Formerly offered as PSCI 592.

PSCI 5951. Independent Study. Unit: 1

Quarter Prerequisite: A minimum overall grade point average of 3
Special topics involving library and/or field research. May be taken six times for six units. A total of six units in PSCI 5951, PSCI 5952, and PSCI 5953 may be applied toward graduation. Consent of instructor and departmental approval of a written proposal for a project submitted by the first week of the semester in which the course is to be taken. Formerly PSCI 595B.

PSCI 5952. Independent Study. Units: 2

Quarter Prerequisite: a minimum overall grade point average of 3
Special topics involving library and/or field research. Requires weekly meetings of at least two hours. May be taken three times for six units. A total of six units in PSCI 5951, PSCI 5952, and PSCI 5953 may be applied toward graduation. Consent of instructor and departmental approval of a written proposal for a project submitted by the first week of the semester in which the course is to be taken.

PSCI 5953. Independent Study. Units: 3

Quarter Prerequisite: A minimum overall grade point average of 3
Special topics involving library and/or field research. Requires weekly meetings of at least three hours. May be taken two times for six units. A total of six units in PSCI 5951, PSCI 5952, and PSCI 5953 may be applied toward graduation. Consent of instructor and departmental approval of a written proposal for a project submitted by the first week of the semester in which the course is to be taken.

PSCI 5970. Senior Honors Thesis. Units: 3

In-depth research culminating in a written thesis. Written proposals may be submitted by seniors with a 3.5 grade point average in all political science courses. Enrollment is limited to those students whose proposals are approved by a faculty member with consent of the chair. Requires weekly meetings of at least three hours. May be taken two times for six units. Formerly offered as PSCI 595D.

PSCI 6000. Theory and History of Strategy. Units: 3

Seminar on strategy and conflict throughout history with emphasis on contemporary concerns in a nuclear-armed world. Formerly offered as PSCI 600.

PSCI 6010. Strategic Systems and Strategic Thought. Units: 3

Evolution of strategic thought, policy, doctrine and force structure relative to national security objectives. Formerly offered as PSCI 601.

PSCI 6020. International Security. Units: 3

Seminar on international security and the theories that inform our analysis of contemporary national and international security problems. Formerly offered as PSCI 602.

PSCI 6030. Cyber Security and Cyber Warfare. Units: 3

Examination of cyberspace as a domain of war and conflict used by state and non-state actors. Formerly offered as PSCI 603.

PSCI 6040. Seminar in International Law. Units: 3

Survey of the literature and a study of the Law of the Sea, Aerospace Law, and International Regulation of the Use of Force. Formerly offered as PSCI 604.

PSCI 6050. Topics in Strategy:. Units: 3

Intensive study of a specific phase or area of defense strategy developed by the instructor. May be taken two times for six units, as topics change. Formerly offered as PSCI 605.

PSCI 6060. Analysis of International Terrorism. Units: 3

Seminar on patterns of international terrorism and the analysis of terrorist groups. Formerly offered as PSCI 606.

PSCI 6090. International Relations Theory. Units: 3

An examination of the theoretical literature on international relations, including issues of war and peace, foreign relations, and international security. Formerly offered as PSCI 609.

PSCI 6100. Proseminar in Political Science. Units: 2

Quarter Prerequisite: consent of instructor

Survey of the concepts and ideas that political scientists study, how they approach the study of political phenomena, and what methods they employ in their analysis. Formerly known as PSCI 610.

PSCI 6110. Regional Security of Eurasia. Units: 3

Strategic factors in Russia and other post-Soviet states, with emphasis on the relations between the military and society. Formerly offered as PSCI 611.

PSCI 6120. African Security. Units: 3

Examination of security and defense issues of Africa. Formerly offered as PSCI 612.

PSCI 6130. Middle East Security. Units: 3

Middle East security, including its political, military, ideological, and economic components. Formerly offered as PSCI 613.

PSCI 6140. Regional Security of East Asia. Units: 3

Strategic factors in East Asia, with emphasis on the relationships between politics and military factors. Formerly offered as PSCI 614.

PSCI 6200. Understanding Intelligence Failure. Units: 3

Examination of surprise attacks and the problem of intelligence failure. Formerly offered as PSCI 620.

PSCI 6210. Intelligence Assessments and Estimates. Units: 3

Seminar on strategic and tactical intelligence assessment and estimates. Formerly offered as PSCI 621.

PSCI 6220. Arms Control. Units: 3

The background, history, development, and theory of arms control. Formerly offered as PSCI 622.

PSCI 6240. Politics of National Security. Units: 3

Examination of the influence of American political institutions and processes on U.S. national security strategy. Formerly offered as PSCI 624.

PSCI 6250. American Foreign Policy. Units: 3

Seminar on contemporary American foreign policy. Formerly offered as PSCI 625.

PSCI 6973. Thesis. Units: 3

Quarter Prerequisite: completion of coursework and consent of thesis committee
Supervised research. Formerly offered as PSCI 699.

PSCI 6980. Comprehensive Examination. Units: 0

Quarter Prerequisite: advancement to candidacy, approval of department, completion of course work in the masters program and in good academic standing

An assessment of the student's ability to integrate knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter. Graded Credit/No Credit. Department consent required. Formerly known as PSCI 999.

PSCI 6990. Continuous Enrollment for Graduate Candidacy Standing. Units: 0

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

PSCI 6991. Continuous Enrollment for Graduate Candidacy Standing. Unit: 1

Quarter Prerequisite: Advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

PSCI 6992. Continuous Enrollment for Graduate Candidacy Standing. Units: 2

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

PSCI 6993. Continuous Enrollment for Graduate Candidacy Standing. Units: 3

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

PSCI 6994. Continuous Enrollment for Graduate Candidacy Standing. Units: 4

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

PSCI 6995. Continuous Enrollment for Graduate Candidacy Standing. Units: 5

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

PSCI 6996. Continuous Enrollment for Graduate Candidacy Standing. Units: 6

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

Psychology (PSYC)

Courses

PSYC 1100. Introduction to Psychology. Units: 3

A survey of the field of modern psychology. Topics include the neurological bases of behavior and mental experience; learning and memory; sensation and perception; consciousness and higher-order thinking (problem-solving, reasoning, decision-making); the emotions and motivation; social aspects of behavior; human development, and psychological disorders and treatments. Satisfies GE D3/4.

PSYC 1101. Psychology as a Major. Units: 2

Semester Prerequisite: PSYC 1100. Quarter Prerequisite: PSYC 100
An introduction to the psychology major at CSUSB including different areas of specialization and professional activities of psychologists. This is an online course. Graded credit/no credit. Formerly offered as PSYC 101.

PSYC 1105. Critical Thinking in Everyday Life. Units: 3

Development of basic skills in critical thinking including identifying and understanding common fallacies, recognizing techniques of persuasion and propaganda, problem solving strategies, decision-making, and applying skills of critical thinking to the complex issues of everyday life. Satisfies GE A3/1B.

PSYC 1115. Personal Adjustment and Growth. Units: 3

Application of psychological principles to predictable challenges and problems over the life span. Explores opportunities for adjustment and growth in a variety of circumstances, such as family and college life. May not be counted toward fulfillment of requirements in the psychology major. Formerly offered as PSYC 115.

PSYC 1120. Career Development. Unit: 1

Examination of theories of career development and exploration of career aspirations and goals, including self assessments. Formerly offered as PSYC 120.

PSYC 2201. Developmental Psychology. Units: 3

Semester Prerequisite: PSYC 1100. Quarter Prerequisite: PSYC 100
Introduction to the psychological development of the person from the prenatal period through old age. Formerly offered as PSYC 201.

PSYC 2210. Psychological Statistics. Units: 4

Semester Prerequisite: GE B4 Math/Quantitative Reasoning and PSYC 1100
Introduction to statistical reasoning and application of basic statistical procedures in psychology. Includes both descriptive and inferential statistics with emphasis on parametric techniques. Three hours lecture and two hours of laboratory. Materials fee required. Formerly offered as PSYC 210.

PSYC 2211. Introduction to Psychological Research. Units: 3

Semester Prerequisite: PSYC 1100
Introduction to the science of psychology and its research methods. Topics include the philosophy of science, scientific thinking and reasoning, correlation vs. causation, threats to validity, formulating testable research questions and hypotheses, basic concepts of research design, and research ethics.

PSYC 2220. Brain and Behavior. Units: 3

Semester Prerequisite: PSYC 1100
Introduction to brain science, including nervous system structure, function, and interaction with other biological systems. Examination of the complex relations among biology, cognition, and behavior.

PSYC 3300. Positive Psychology. Units: 3

Exploration of theories and empirical research related to positive psychology. Topics include values, human strengths, health, positive thinking, happiness, gratitude, and close relationships. Formerly offered as PSYC 300. Semester Prerequisite: PSYC 1100.

PSYC 3301. Psychology of Human Sexuality. Units: 3

Theory and empirical findings from the areas of clinical, developmental, evolutionary, physiological, and social psychology as they apply to human sexual psychology and behavior. Formerly offered as PSYC 301. Semester Prerequisite: PSYC 1100.

PSYC 3303. Parenting and Family Relations. Units: 3

Semester Prerequisite: PSYC 2201 or PSYC/CD 2240. Quarter Prerequisite: PSYC 201 or HD 240
Effects of parenting and intra-family relations on child and life-span psychological development. Formerly offered as PSYC 303.

PSYC 3305. Language Development. Units: 3

Semester Prerequisite: PSYC 2201 or PSYC/CD 2240. Quarter Prerequisite: PSYC 201 or PSYC/HD 240
An introduction to theory and research on the psychological study of language and language development. Topics include speech perception, phonology, morphology, semantics, syntax, and pragmatics. Formerly offered as PSYC 305.

PSYC 3311. Research Methods in Psychology. Units: 4

Semester Prerequisite: Must have completed PSYC 2210 and PSYC 2211, each with a grade of C or better. Restricted to Psychology and Child Development majors, or consent of department. Quarter Prerequisite: PSYC 100 and 210; restricted to psychology majors, human development majors, or consent of department
Design and execution of psychological research. Three hours lecture and three hours laboratory. Materials fee required. Formerly offered as PSYC 311.

PSYC 3318. Health Psychology. Units: 3

Semester Prerequisite: PSYC 1100. Quarter Prerequisite: PSYC 100
Examination of psychological aspects of health related behaviors with emphasis on the effects of interpersonal and social psychological factors on physical health and effective medical care. Formerly offered as PSYC 318.

PSYC 3325. Development of Intimate Relationships. Units: 3

Exploration of intimate relationship formation, maintenance, and termination with emphasis on theory and empirical research. Topics include attraction, communication, love, sex, power, and conflict. Formerly offered as HD 550. Semester Prerequisite: PSYC 1100.

PSYC 3326. Developmental Psychobiology. Units: 3

Psychobiological bases of human behavioral development throughout childhood. Formerly offered as PSYC/HD 324 and PSYC 3324.

PSYC 3329. Psychology of Adulthood and Aging. Units: 3

Semester Prerequisite: PSYC 1100 and PSYC 2201, or consent of instructor
An examination of physical, social, cognitive, and personality development from young adulthood through death. Special attention is given to theory, research, and applications in the area of gerontology. Formerly known as PSYC 329.

PSYC 3331. Psychology of Women and Gender. Units: 3

Semester Prerequisite: PSYC 1100. Quarter Prerequisite: PSYC 100

A critical study of psychological theory and data on the cultural and societal factors that influence the development of gender identity and expression, and the ways in which these social constructions shape many aspects of women's (and people of all genders') psychological and social experience. Satisfies the Diversity and Social Justice GE Pathway. Formerly offered as PSYC 331.

PSYC 3333. Drugs and Behavior. Units: 3

Semester Prerequisite: PSYC 1100 or consent of instructor. Quarter Prerequisite: PSYC 100 or consent of instructor

Analysis of drugs from psychological, behavioral and physiological viewpoints. Topics include drug classification, altered states of consciousness, addiction, chemical nature and treatment of mental illness. Formerly offered as PSYC 333.

PSYC 3334. Addiction and Recovery. Units: 3

Semester Prerequisite: PSYC 1100 or consent of instructor. Quarter Prerequisite: PSYC 100 or consent of instructor

Research and theories related to the psychological, behavioral and physiological basis of addiction and recovery. A variety of common addictive disorders will be considered including eating, smoking, gambling, work, sex and drugs. Formerly offered as PSYC 334.

PSYC 3339. Methods in Human Neuroscience. Units: 3

Semester Prerequisite: PSYC 1100 or consent of instructor. Quarter Prerequisite: PSYC 100 or consent of instructor

An examination of the human neuroscience literature with emphasis on research findings. Clinical applications and theory related to the analysis of the relationships among bodily processes, psychological states, and behavior. Formerly offered as PSYC 339.

PSYC 3340. Stereotyping, Prejudice and Discrimination. Units: 3

Semester Prerequisite: PSYC 1100. Quarter Prerequisite: PSYC 100 or consent of instructor

Psychological underpinnings of stereotyping, prejudice, and discrimination are examined. Topics include implicit and explicit attitudes, stereotyping & stereotype threat, prejudice formation & change, discrimination, and health disparities. Satisfies the Diversity and Social Justice GE Pathway. Formerly offered as PSYC 340.

PSYC 3341. Women and Violence. Units: 3

Semester Prerequisite: PSYC 1100 or consent of instructor. Quarter Prerequisite: PSYC 100 or consent of instructor

Issues of women and violence, combining empirical and theoretical work with community training in agencies dealing with violence against women; includes service learning. Two hours lecture and 40 hours of volunteer training. Formerly offered as PSYC 341.

PSYC 3342. Sports Psychology. Units: 3

Overview of psychological principles and theories related to human behavior and performance in sport and physical activity. Topics include motivation, social interaction, performance enhancement, coaching and leadership, mindfulness, and issues related to health and well-being.

PSYC 3345. Cross-Cultural Psychology. Units: 3

Semester Prerequisite: PSYC 1100

Cross-cultural psychology focusing on cultural variability in basic psychological processes, their application, and the cultural limits of traditional psychological theories. Formerly known as PSYC 345.

PSYC 3349. Gay and Lesbian Issues: Psychological Perspectives. Units: 3

Semester Prerequisite: PSYC 1100

Examines theories and research concerning sexual minority individuals. Topics covered include identity formation, disclosure, stigmatization, health disparities, group identification, and inter-group interaction. Satisfies the Diversity and Social Justice GE Pathway. Formerly offered as PSYC 349.

PSYC 3351. Behavior Modification: Principles and Applications. Units: 3

Semester Prerequisite: PSYC 1100 or consent of instructor. Quarter Prerequisite: PSYC 100 or consent of instructor

Analysis of the theory, empirical evidence, and the implementation of behavior modification techniques in applied settings. Formerly offered as PSYC 351.

PSYC 3354. Organizational Psychology. Units: 3

Theories and practices of modern organizational psychology. Includes the topics of work motivation, job satisfaction, leadership, work groups, and organizational development and communication. Formerly offered as PSYC 302 and cross-listed with MGMT 302.

PSYC 3355. Industrial Psychology. Units: 3

Semester Prerequisite: PSYC 1100, PSYC 1101, PSYC 2210, and PSYC 2211 each with a grade of C or better; restricted to psychology majors, or consent of department. Quarter Prerequisite: PSYC 100 or consent of instructor

Models and practices of modern industrial and personnel psychology. Includes recruitment, selection, placement, training, job analysis, evaluation and occupational stress. Formerly offered as PSYC 355.

PSYC 3357. History and Systems of Psychology. Units: 3

Semester Prerequisite: PSYC 1100, PSYC 1101, PSYC 2210, PSYC 2220, and PSYC 2211 each with a grade of C or better; restricted to psychology majors, or consent of department. Quarter Prerequisite: PSYC 100

A historical framework for integrating basic orientations in contemporary psychology, including the development of the major schools of thought in psychology. Formerly offered as PSYC 357.

PSYC 3358. Cognitive Development. Units: 3

Semester Prerequisite: PSYC 2201 or PSYC/CD 2240. Quarter Prerequisite: PSYC 100 and PSYC 201

Survey of the major theories, issues and research in the development of perceptual and cognitive capacities from childhood through adulthood. Formerly offered as PSYC 358.

PSYC 3359. Evolutionary Psychology. Units: 3

Semester Prerequisite: PSYC 1100, PSYC 1101, PSYC 2210, PSYC 2220, and PSYC 2211 each with a grade of C or better; restricted to psychology majors or consent of department. Quarter Prerequisite: PSYC 100

Theories and empirical research related to evolutionary psychology. Topics include natural selection, sexual selection, inclusive fitness theory, misconceptions about evolution, mating, status, cooperation, aggression, kin relationships, and sexual conflict. Formerly offered as PSYC 359.

PSYC 3360. Cognitive Psychology. Units: 3

Semester Prerequisite: PSYC 1100, PSYC 1101, PSYC 2210, PSYC 2220, and PSYC 2211 each with a grade of C or better; restricted to psychology majors or consent of department. Quarter Prerequisite: PSYC 100

Research and theories concerning human information processing; topics include sensory processes, attention, memory, language and other higher mental processes. Formerly offered as PSYC 360.

PSYC 3361. Intelligence and Creativity. Units: 3

Semester Prerequisite: PSYC 1100

Introduction to intelligence and creativity with an emphasis on theories, measurement and current debates, including among others, the Bell Curve, the link between creativity and mental illness, and role of IQ tests and creativity in school and work assessment. Formerly offered as PSYC 361.

PSYC 3362. Learning and Motivation. Units: 3

Semester Prerequisite: PSYC 1100, PSYC 1101, PSYC 2210, PSYC 2220, and PSYC 2211 each with a grade of C or better; restricted to psychology majors or consent of department. Quarter Prerequisite: PSYC 100

Survey of research and major theories in animal and human learning and motivation. Applications of learning and motivational principles. Formerly offered as PSYC 362.

PSYC 3363. Biological Psychology. Units: 3

Semester Prerequisite: PSYC 1100, PSYC 1101, PSYC 2210, PSYC 2220, and PSYC 2211 each with a grade of C or better; restricted to psychology majors or consent of department. Quarter Prerequisite: PSYC 100

Overview of the biological basis of behavior with emphasis on the relationship between brain function and thought, emotion, perception, language, learning, memory, and motivation. Formerly offered as PSYC 363.

PSYC 3364. Perception. Units: 3

Semester Prerequisite: PSYC 1100, PSYC 1101, PSYC 2210, PSYC 2220, and PSYC 2211 each with a grade of C or better; restricted to psychology majors or consent of department. Quarter Prerequisite: PSYC 100 or consent of instructor

Selected topics in the field of sensory and perceptual processes. Includes review of contemporary theories and research. Class demonstrations and mini-projects. Formerly offered as PSYC 364.

PSYC 3365. Cognitive Neuroscience. Units: 3

Semester Prerequisite: PSYC 1100, PSYC 1101, PSYC 2210, PSYC 2220, and PSYC 2211 or consent of department. Quarter Prerequisite: PSYC 100, PSYC 101, PSYC 210, or consent of department

Examination of the neural foundations of human mental functioning, including perception, attention, memory, language, thinking, and consciousness. Special emphasis on human neuroimaging as well as behavioral and cognitive impairments from brain injury. Formerly offered as PSYC 365.

PSYC 3367. Neuropsychiatric Disorders. Units: 3

Semester Prerequisite: PSYC 1100 and PSYC 2220 or consent from instructor. Quarter Prerequisite: PSYC 100 or consent of instructor

An examination of brain systems involved in psychiatric syndromes and neurological disorders, including Parkinson's disease, Alzheimer's disease, schizophrenia, depression, and bipolar disorders. Provides a basic understanding of brain dysfunctions that contribute to these disorders and rationales for pharmacological treatments. Formerly offered as PSYC 367.

PSYC 3368. U-RISE Seminar I. Units: 2

Semester Prerequisite: Admissions to the UR-RISE program and consent of instructor

A selected examination of original research articles in behavioral and biomedical sciences. Students will learn to critically read, critique, and present published scientific findings. Offered as NSCI 3368, PSYC 3368, and SSCI 3368 (students may receive credit for only one of these courses). Enrollment is limited to students whose formal application to the Undergraduate Research Training Initiative for Student Enhancement (U-RISE) program is approved. Formerly offered as NSCI 368, PSYC 369, SSCI 368.

PSYC 3369. Research Ethics and Reproducibility in Science. Units: 3

This course covers Research Ethics (also known as Responsible Conduct of Research) and will cover use of humans and animals as research subjects, intellectual property, authorship, and research misconduct. The course also covers the importance of rigor and reproducibility in designing and performing scientific research. Consent required.

PSYC 3370. Topics in Psychology. Units: 2

Semester Prerequisite: PSYC 1100

Selected psychology topics with specific focus within relatively narrow content areas. May be repeated for credit as topics change. Formerly known as PSYC 370.

PSYC 3372. Psychology of Death and Dying. Units: 3

Semester Prerequisite: Semester Prerequisite: PSYC 2201 or equivalent
Quarter Prerequisite: PSYC 2201 or equivalent

A review of current theory and research on the psychology of grief, death and dying. Formerly offered as PSYC 372.

PSYC 3375. Seminar in Psychology. Units: 3

Quarter Prerequisite: PSYC 100

Selected topics which encompass areas of current theoretical and/or research interest in psychology. May be repeated for credit as topics change. Formerly offered as PSYC 375.

PSYC 3377. Tests and Measurements. Units: 3

Semester Prerequisite: PSYC 1100, PSYC 1101, PSYC 2210, PSYC 2220, and PSYC 2211 each with a grade of C or better; restricted to psychology majors or consent of department. Quarter Prerequisite: PSYC 100 and PSYC 210

Principles of testing and measurement of psychological constructs including coverage of widely used professionally constructed tests, and the approaches to construct, validate, and interpret tests and their data. Formerly offered as PSYC 377.

PSYC 3381. Forensic Psychology. Units: 3

Semester Prerequisite: PSYC 1100

Major issues relevant to the field of forensic psychology. Current research and theory in psychology applicable to the understanding and practice of forensic science in areas including law enforcement, criminal justice, and human services, such as child and adult protective services. Formerly known as PSYC 381.

PSYC 3382. Social Psychology. Units: 3

Semester Prerequisite: PSYC 1100. Quarter Prerequisite: PSYC 100

An introduction to major theories, issues and psychological research in Social Psychology. Topics covered include Social Cognition, Attraction, Prejudice & Stigma, Aggression, the Self, and Group Processes. Formerly offered as PSYC 382.

PSYC 3384. Social and Emotional Development. Units: 3

Semester Prerequisite: PSYC 2201 OR CD 2240

Social and emotional development from childhood through adolescence and early adulthood. Formerly offered as PSYC 384.

PSYC 3385. Personality Psychology. Units: 3

Semester Prerequisite: PSYC 1100. Quarter Prerequisite: PSYC 100 or consent of instructor

Examines theories of personality and current topics in personality research. Examines cognitive, biological and social/cultural influences on personality. Formerly offered as PSYC 385.

PSYC 3386. Introduction to Psychotherapy. Units: 3

Semester Prerequisite: PSYC 1100, PSYC 1101, PSYC 2210, PSYC 2220, and PSYC 2211 each with a grade of C or better; restricted to psychology majors or consent of department. Quarter Prerequisite: PSYC 100

Introduction to psychotherapy theories and research. Formerly offered as PSYC 386.

PSYC 3387. Community Psychology. Units: 3

Semester Prerequisite: PSYC 1100. Quarter Prerequisite: PSYC 100

Comprehensive study of the discipline of community psychology which emphasizes the importance of community diversity, contextual factors, comprehensive change strategies, active collaboration and community resources in relation to individual and community mental health needs. Formerly offered as PSYC 387.

PSYC 3390. Abnormal Psychology. Units: 3

Semester Prerequisite: PSYC 1100. Quarter Prerequisite: PSYC 100 or consent of instructor

An introduction to psychopathology, emphasizing the diagnostic criteria, etiology, and treatment of psychological disorders. Formerly offered as PSYC 390.

PSYC 3391. Psychopathology of Childhood. Units: 3

Semester Prerequisite: PSYC 1100 and either PSYC 2201 or PSYC/CD 2240. Quarter Prerequisite: PSYC 100 and PSYC 201

Psychological, developmental and behavior disorders of childhood with special emphasis on diagnosis, etiology, and clinical treatment. Formerly offered as PSYC 391.

PSYC 3395. Psychology of Consciousness. Units: 3

Quarter Prerequisite: PSYC 100

Human consciousness from the perspectives of the philosophical, experimental psychological, and neuroscience literatures. Includes survey of research and theory on topics such as waking consciousness, dreams, meditation and altered states of consciousness. Formerly offered as PSYC 395.

PSYC 4410. Advanced Psychological Statistics. Units: 4

Semester Prerequisite: Prerequisites: PSYC 2210 or consent of instructor.

Quarter Prerequisite: ADMN 210 or PSYC 210 or consent of instructor

Coverage of advanced statistical reasoning and application of statistical procedures in psychology. Includes both parametric and nonparametric techniques with an introduction to multivariate statistics. Statistical computer packages will be introduced. Three hours lecture and two hours laboratory. Formerly offered as PSYC 410. Materials fee required.

PSYC 4421. Advanced Seminar in Psychology: Developmental. Units: 3

Semester Prerequisite: PSYC 2201 and PSYC 3311, or consent of instructor

A review of selected research areas in the fields of child and life-span developmental psychology. Students will develop an advanced project. Satisfies WI designation.

PSYC 4422. Advanced Seminar in Psychology: Clinical. Units: 3

Semester Prerequisite: PSYC 3311, and PSYC 3386 or PSYC 3390

Contemporary topics in clinical psychology, such as integrative treatment approaches, outcome research, psychopathology, adaptation and coping, health promotion, cultural factors in diagnosis and treatment, and common factors in effective treatment such as the working alliance and other relationship factors. Students will develop an advanced project. Satisfies WI designation.

PSYC 4423. Advanced Seminar in Psychology: Biological. Units: 3

Semester Prerequisite: PSYC 3311 and PSYC 3363, or consent of instructor

A review of the literature regarding the neural and endocrine processes underlying brain function and behavior. Students will develop an advanced project. Satisfies WI designation.

PSYC 4424. Advanced Seminar in Psychology: Social. Units: 3

Semester Prerequisite: PSYC 3311 and PSYC 3382

A review of theories and empirical results of experimental social psychology in selected areas such as group dynamics, social perception, communication and attitudes. Students will develop an advanced project. Satisfies WI designation.

PSYC 4425. Advanced Seminar in Psychology: Personality. Units: 3

Semester Prerequisite: PSYC 3311 and PSYC 3385

A review of contemporary personality theories and the relationship of personality to behavior. Students will develop an advanced project. Satisfies WI designation.

PSYC 4426. Advanced Seminar in Psychology: Learning and Motivation. Units: 3

Semester Prerequisite: PSYC 3311 and PSYC 3362

A review of selected theories and research in areas of learning and motivation. Students will develop an advanced project. Satisfies WI designation.

PSYC 4427. Advanced Seminar in Psychology: Cognition and Perception. Units: 3

Semester Prerequisite: PSYC 3311 and either PSYC 3360 or PSYC 3364

A review of human information processing, memory, thinking and perceptual processes. Students will develop an advanced project. Satisfies WI designation.

PSYC 4428. Advanced Seminar in Psychology: Industrial and Organizational. Units: 3

Semester Prerequisite: PSYC 3311, PSYC 3377, and one of the following: PSYC 3354 or PSYC 3355

A review of industrial/organizational psychology, in selected areas such as work motivation, leadership, work groups, occupational stress, performance evaluation, training techniques, and selection approaches. Students will develop an advanced project. Satisfies WI designation.

PSYC 4431. Experimental Psychology: Developmental. Units: 4

Semester Prerequisite: PSYC 2201 and PSYC 3311

Selected research areas in the fields of child and life-span developmental psychology. Includes review of current literature and experimental techniques in developmental research. Three hours lecture and three hours laboratory. Materials fee required. Satisfies WI designation.

PSYC 4432. Experimental Psychology: Clinical. Units: 4

Semester Prerequisite: PSYC 3311, and PSYC 3386 or PSYC 3390

Empirical studies in clinical psychology. Study options include experimental psychopathology, adaptation and coping, health promotion, anxiety/stress, mood/emotion and cultural factors in diagnosis and treatment. Three hours lecture and three hours laboratory. Materials fee required. Satisfies WI designation.

PSYC 4433. Experimental Psychology: Biological. Units: 4

Semester Prerequisite: PSYC 3311 and PSYC 3363, or consent of instructor

Introduction to the neural processes underlying brain function and behavior. Particular emphasis will be placed on neuroanatomy and the actions of drugs on brain and behavior. Students will receive practical training in advanced neuroscience techniques. Three hours lecture and three hours laboratory. Materials fee required. Satisfies WI designation.

PSYC 4434. Experimental Psychology: Social. Units: 4

Semester Prerequisite: PSYC 3311 and PSYC 3382

Methods, theories and empirical results of experimental social psychology in selected areas such as group dynamics, social perception, communication and attitudes. Lecture and laboratory. Materials fee required. Satisfies WI designation.

PSYC 4435. Experimental Psychology: Personality. Units: 4

Semester Prerequisite: PSYC 3311, PSYC 3377, and PSYC 3385

Empirical study of personality theories and the relationship of personality to behavior. Three hours lecture and three hours laboratory. Materials fee required. Satisfies WI designation.

PSYC 4436. Experimental Psychology: Learning and Motivation. Units: 4

Semester Prerequisite: PSYC 3311 and PSYC 3362

Selected theories and research in areas of learning and motivation. Includes literature review and experimental analysis. Lecture and laboratory. Three hours lecture and three hours lab. Materials fee required. Satisfies WI designation.

PSYC 4437. Experimental Psychology: Cognition and Perception. Units: 4

Semester Prerequisite: PSYC 3311 and either PSYC 3360 or PSYC 3364

Empirical study of human information processing, memory, thought and perceptual processes. Three hours lecture and three hours laboratory. Materials fee required. Satisfies WI designation.

PSYC 4438. Experimental Psychology: Industrial and Organizational. Units: 4

Semester Prerequisite: PSYC 3311 and PSYC 3377, and either PSYC 3354 or PSYC 3355

Methods and empirical study of industrial-organizational psychology, in selected areas such as work motivation, leadership, work groups, occupational stress, performance evaluation, training techniques, and selection approaches. Three hours lecture and three hours laboratory. Materials fee required. Satisfies WI designation.

PSYC 4442. Behavioral Neuroscience. Units: 3

Semester Prerequisite: PSYC 3324 or PSYC 3363

Intensive review of the neural mechanisms underlying behavior. Considerable emphasis is placed on sensory, motor, and homeostatic functioning. Higher-order functioning, including learning and memory, will also be covered. Formerly known as PSYC 442.

PSYC 4468. U-RISE Seminar II. Units: 2

Semester Prerequisite: NSCI 3368, PSYC 3368, or SSCI 3368. Quarter Prerequisite: NSCI 368, PSYC 368 or SSCI 368

A selected examination of original research articles in behavioral and biomedical sciences focuses on improving scientific writing skills, shaping long-term research projects, and developing research funding proposals. Offered as PSYC 4468, NSCI 4468, and SSCI 4468 (students may receive credit for only one of these courses). Enrollment is limited to students whose formal application to the Undergraduate Research Training Initiative for Student Enhancement (U-RISE) program is approved. Formerly known as NSCI 468, PSCI 468, SSCI 468.

PSYC 5530. Instructional Assistant Practicum. Units: 3

Quarter Prerequisite: For undergraduates, Psychology major status and consent of the department; for graduate students, classified standing in the Psychology MA or MS programs

Training in a variety of skills necessary to serve as an Instructional Student Assistant (ISA) supporting a college-level instructor in the use of high impact practices. Required for students applying to be an ISA for the Psychology Department BA, MS, or MA degree programs. Formerly offered as PSYC 530.

PSYC 5538. Introduction to Psychopharmacology. Units: 3

Semester Prerequisite: For undergraduates, PSYC/HD 3324, PSYC 3333 or PSYC 3363, or consent of instructor, For graduate students, classified standing in the MA Psychological Science Program or consent of instructor. Quarter Prerequisite: HD 324, PSYC 324, 333 or 363, or consent of instructor

Examination of the basic pharmacological principles of psychoactive drugs. Particular emphasis is placed on neuronal functioning, mechanisms of drug action, and behavioral outcomes. Formerly offered as PSYC 538.

PSYC 5539. Current Methods in Neuroscience. Units: 3

Semester Prerequisite: For undergraduates, PSYC 3311, PSYC 3363, PSYC 4442, or consent of instructor, For graduate students, classified standing in the Psychological Sciences MA Program or consent of instructor

Introduction to experimental methods used in behavioral neuroscience research. Includes relevant experimental designs and surgical, histological, imaging and behavioral techniques.

PSYC 5562. Neural Mechanisms of Learning and Memory. Units: 3

Neural mechanisms responsible for learning and memory formation, including the neurological bases of encoding, consolidation and retrieval of memories.

PSYC 5567. Neural Substrates of Psychiatric Disorders. Units: 3

Semester Prerequisite: For undergraduates, PSYC 3311, PSYC 3363, PSYC 3367, or consent of instructor, For graduate students, classified standing in the Psychological Sciences MA Program or instructor permission

Neural anatomical and physiological alterations associated with the clinical diagnoses of several psychiatric disorders including schizophrenia, major depression, obsessive-compulsive disorder, substance abuse, and Alzheimer disorder. Consideration of how these neuropsychiatric disorders originate and develop. Therapeutic interventions will be discussed in depth.

PSYC 5575. Internship. Units: 3

Semester Prerequisite: Consent of Instructor and Department
Supervised work and study in private and public organizations. Arrangements for the internship must be made during the semester preceding the semester in which the student plans on enrolling in this course (see Department Website). Graded credit/no credit. May be repeated two times for six units. Only three units may be applied to upper-division credit. Formerly known as PSYC 575/5755, CD 5755, HD 575.

PSYC 5581. Current Professional Issues in Industrial-Organizational Psychology. Unit: 1

Semester Prerequisite: Upper-division or graduate standing and consent of department. Quarter Prerequisite: upper-division or graduate standing and consent of department

Overview and critical appraisal of the current professional issues facing I-O psychologists. Topics include the roles that I-O psychologists play in support of organizations and their members, the status of the profession, and future opportunities. Formerly known as PSYC 581A.

PSYC 5582. Diversity, Work, and Family. Units: 3

Semester Prerequisite: PSYC 3354 and PSYC 3355 or graduate standing and consent of department

Prerequisites: upper-division or graduate standing and consent of department

Theory, empirical research, and applications of diversity and inclusion in organizations and the impact of organizational policies on family life. Topics will include discrimination in the workplace, individual, group, and organizational barriers to advancement, diversity management, and the work-family interface.

PSYC 5583. Occupational Health Psychology. Units: 3

Semester Prerequisite: PSYC 3354 and PSYC 3355 or graduate standing and consent of department

Prerequisites: upper-division or graduate standing and consent of department

Theory and research of the workplace issues and structures that impact the physical and mental well-being of workers. Topics will include work-related stressors, workplace safety, and interventions.

PSYC 5584. Work Across the Lifespan. Units: 3

Semester Prerequisite: PSYC 3354 and PSYC 3355 or graduate standing or consent of department

Theory and research on work across the lifespan, including mid and late career issues, bridge employment, and retirement during the adult years. Formerly offered as PSYC 5540.

PSYC 5596. Practicum in Psychology: Peer Advising. Units: 2

Quarter Prerequisite: consent of instructor and department

Training and practice in the basic knowledge, skills, and abilities involved in academic peer advising. One-hour seminar, two hours practicum. A total of six units may be applied toward graduation, of which a maximum of three units can be an upper-division elective in the psychology major. Graded credit/no credit. An application must be submitted during the semester prior to the semester student plans to enroll. May be taken three times for six units. Formerly known as PSYC 596.

PSYC 5597. Honors Seminar. Units: 3

Students develop an independent research project under the direction of a faculty mentor. Students meet as a class with the Program Director to discuss their projects and professional development topics including research ethics, oral and written presentation of their thesis projects, graduate school applications, and career directions. Enrollment is limited to students whose formal application for departmental honors is approved. Formerly known as CD 5597, HD 597, PSYC 597.

PSYC 5598. Honors Project. Units: 3

Semester Prerequisite: PSYC/CD 5597 and consent of department.
 Quarter Prerequisite: CD/PSYC 597 and consent of department
 Students complete an independent research project under the direction of a faculty mentor. Enrollment is limited to students whose formal application for departmental honors is approved. May not be used to satisfy the requirements of the psychology major.

PSYC 5951. Independent Study. Unit: 1

Semester Prerequisite: A minimum grade point average of 3. Quarter Prerequisite: A minimum overall grade point average of 3
 Special topics involving literature and/or experimental effort. A total of six units of PSYC 595X may be applied toward graduation, of which a maximum of three units can be applied toward the upper-division requirements in the psychology major. Requires consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the semester in which the course is to be taken.

PSYC 5952. Independent Study. Units: 2

Semester Prerequisite: A minimum overall grade point average of 3. Quarter Prerequisite: A minimum overall grade point average of 3
 Special topics involving literature and/or experimental effort. A total of six units of PSYC 595X may be applied toward graduation, of which a maximum of three units can be applied toward the upper-division requirements in the psychology major. Requires consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the semester in which the course is to be taken. Formerly offered as PSYC 595B.

PSYC 5953. Independent Study. Units: 3

Semester Prerequisite: A minimum overall grade point average of 3. Quarter Prerequisite: A minimum overall grade point average of 3
 Special topics involving literature and/or experimental effort. A total of six units of PSYC 595X may be applied toward graduation, of which a maximum of three units can be applied toward the upper-division requirements in the psychology major. Requires consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the semester in which the course is to be taken. Formerly offered as PSYC 595D.

PSYC 6001. Proseminar in Psychological Science I. Units: 2

Research seminar for first-year graduate students. Provides exposure to faculty research while providing peer and instructional support for students attempting to develop their own research projects. First-year graduate standing in Psychological Science MA degree program or consent of program director are required.

PSYC 6002. Proseminar in Psychological Science II. Unit: 1

Research seminar for second-year graduate students. Provides exposure to faculty research while providing peer and instructional support for students attempting to develop their own research projects.

PSYC 6091. Graduate Research in Psychology. Unit: 1

Semester Prerequisite: Classified graduate standing in an MA or MS Psychology program and consent of instructor
 Original research in psychology conducted under the direction of a faculty member. Units may not count towards the MA and MS in Psychology. Graded credit/no credit. Formerly offered as PSYC 609B.

PSYC 6092. Graduate Research in Psychology. Units: 2

Semester Prerequisite: Classified graduate standing in an MA or MS Psychology Program and consent of instructor. Quarter Prerequisite: classified standing and consent of instructor
 Original research in psychology conducted under the direction of a faculty member. Units may not count towards the MA and MS in Psychology. Graded credit/no credit. Formerly offered as PSYC 609B.

PSYC 6093. Graduate Research in Psychology. Units: 3

Semester Prerequisite: Classified graduate standing in an MA or MS Psychology Program and consent of instructor are required. Quarter Prerequisite: classified standing and consent of instructor
 Original research in psychology conducted under the direction of a faculty member. Units may not count towards the M.A. and M.S. in Psychology. Graded credit/no credit. Formerly offered as PSYC 609C.

PSYC 6094. Graduate Research in Psychology. Units: 4

Semester Prerequisite: Classified graduate standing in an MA or MS Psychology Program and consent of instructor are required. Quarter Prerequisite: classified standing and consent of instructor
 Original research in psychology conducted under the direction of a faculty member. Units may not count towards the MA and MS in Psychology. Graded credit/no credit. Formerly offered as PSYC 609D.

PSYC 6095. Graduate Research in Psychology. Units: 5

Semester Prerequisite: Classified graduate standing in an MA or MS Psychology Program and consent of instructor are required. Quarter Prerequisite: classified standing and consent of instructor
 Original research in psychology conducted under the direction of a faculty member. Units may not count towards the MA and MS in Psychology. Graded credit/no credit. Formerly offered as PSYC 609E.

PSYC 6121. Directed Readings. Unit: 1

Semester Prerequisite: Classified graduate standing and consent of department
 Special topics involving supervised readings under the direction of a faculty member.

PSYC 6122. Directed Readings. Units: 2

Semester Prerequisite: Classified graduate standing and consent of department. Quarter Prerequisite: graduate standing and consent of department
 Special topics involving supervised readings under the direction of a faculty member. Formerly offered as PSYC 612B.

PSYC 6123. Directed Readings. Units: 3

Semester Prerequisite: Classified graduate standing and consent of department. Quarter Prerequisite: graduate standing and consent of department
 Special topics involving supervised readings under the direction of a faculty member. Formerly offered as PSYC 612C.

PSYC 6124. Directed Readings. Units: 4

Semester Prerequisite: Classified graduate standing and consent of department. Quarter Prerequisite: graduate standing and consent of department
 Special topics involving supervised readings under the direction of a faculty member. Formerly offered as PSYC 612D.

PSYC 6125. Directed Readings. Units: 5

Semester Prerequisite: Classified graduate standing and consent of the psychology department. Quarter Prerequisite: graduate standing and consent of department

Special topics involving supervised readings under the direction of a faculty member. Formerly offered as PSYC 612E.

PSYC 6601. Job Analysis, Performance Management, & Compensation. Units: 3

Quarter Prerequisite: classified graduate standing in MA or MS degree program or consent of department

Current research and methods of performance appraisal. Topics include the study of job analysis, performance appraisal processes and instrumentation, including examination of research on compensation systems. Formerly PSYC 601.

PSYC 6602. Organizational Development, Training, and Work Groups. Units: 3

Quarter Prerequisite: classified graduate standing in MA or MS degree program or consent of department

Critical review of current psychological theories and methods of organizational change and group processes. Topics include interventions at the individual (training), group, and organizational levels. Formerly offered as PSYC 602.

PSYC 6603. Talent Acquisition and Legal Issues. Units: 3

Quarter Prerequisite: classified graduate standing in MA or MS degree program or consent of department

Principles and methods of personnel selection, including validation strategies and the effects of governmental and legal issues on personnel actions. Formerly known as PSYC 603.

PSYC 6604. Motivation and Leadership. Units: 3

Quarter Prerequisite: classified graduate standing in MA or MS degree program or consent of department

Review and critical discussion of major theories and current research of motivation and leadership in the workplace including a review of their application in work organizations. Formerly known as PSYC 604.

PSYC 6614. Couples Counseling. Units: 3

Theory and practice of counseling with couples. Formerly offered as PSYC 614.

PSYC 6617. Clinical Psychopharmacology. Units: 3

Theory and application of psychotropic principles for the major DSM psychiatric disorders, including the examination of the effects of psychotropic drugs and medications on experience, behavior and symptoms. Classified graduate standing or consent of department are required. Formerly offered as PSYC 617.

PSYC 6618. Community and Public Mental Health. Units: 3

Provision of marriage and family therapy in community and public mental health settings, including recovery-oriented principles, client advocacy, case management, and systems of care as well as strategies for therapeutic intervention consistent with strengths-based, evidence-based practice. Formerly offered as PSYC 618.

PSYC 6619. Community Disaster, Trauma and Resilience. Units: 3

Community disaster and trauma response, crisis intervention, as well as training in resilience models for trauma recovery. Formerly offered as PSYC 619.

PSYC 6630. Teaching of Psychology. Units: 3

Quarter Prerequisite: classified graduate status in psychology or consent of department

Instructional methods for teaching of psychology at the college level. Formerly offered as PSYC 630.

PSYC 6633. Professional Ethics & Law in Counseling. Units: 3

Semester Prerequisite: Classified standing in a Psychology MS degree program or consent of department

Ethical and legal considerations involved in counseling practice, including statutory law, legal trends, and ethical behavior in the mental health profession. Formerly offered as PSYC 663.

PSYC 6636. Multicultural Counseling. Units: 3

Semester Prerequisite: Classified standing in the MS Clinical and Counseling Program or consent of department. Quarter Prerequisite: classified standing in a Psychology MS or MA degree program or consent of department

Study of how cultural values and ethnic backgrounds influence counseling process and outcome, with focus on counseling with African American, Latinx, Asian, and Native American populations. Classified standing in the MS Clinical/Counseling Program or consent of department are required. Formerly offered as PSYC 636.

PSYC 6638. Substance Abuse: Detection, Assessment and Treatment. Units: 3

Semester Prerequisite: Classified standing in a Psychology MS or MA program and consent of department. Quarter Prerequisite: Classified standing in Psychology MS or MA programs and consent of department

Assessment and treatment of substance abuse, including alcoholism and other forms of chemical dependency with a focus on etiological factors and relapse prevention. Classified standing in a Psychology MS or MA Program and consent of department are required. Formerly offered as PSYC 638 as well as PSYC 6638: Neuropharmacology of Psychiatric Disorders in AY 2020-2021.

PSYC 6640. Advanced Methods in Psychological Research. Units: 3

Semester Prerequisite: Classified graduate standing and department consent required. Quarter Prerequisite: classified standing and consent of department

Those aspects of philosophy of science and methods of inquiry as applied to procedures for obtaining and evaluating data as well as issues in experimental design. Classified graduate standing and department consent required. Formerly known as PSYC 640.

PSYC 6641. Analysis of Variance. Units: 4

Semester Prerequisite: Classified graduate standing or consent of department

Review of concepts of statistical inference. Applications of statistical techniques to the design and interpretation of experimental research with an emphasis on Analysis of Variance (ANOVA). Statistical computer packages will be introduced in the laboratory section. Three hours lecture and three hours laboratory. Formerly offered as PSYC 641. Materials fee required.

PSYC 6642. Regression and Nonparametric Statistics. Units: 4

Semester Prerequisite: Classified graduate standing or department consent. Quarter Prerequisite: classified standing or consent of department

Review of concepts of statistical estimation. Applications of statistical techniques to the design and interpretation of applied correlational and quasi-experimental research with an emphasis on correlation, regression, and nonparametric techniques. Statistical computer packages will be introduced in the laboratory section. Three hours lecture and three hours laboratory. Materials fee required. Formerly known as PSYC 642.

PSYC 6643. Multivariate Methods. Units: 3

Semester Prerequisite: PSYC 6641 or equivalent, classified graduate standing or consent of department. Quarter Prerequisite: PSYC 641 or equivalent, classified standing or consent of department

Multivariate models used in psychological research, including multiple regression, discriminant function analysis, factor analysis, canonical analysis, and multiple analysis of variance. Two hours lecture and three hours laboratory. Formerly offered as PSYC 643.

PSYC 6644. Applied Psychological Measurement. Units: 3

Semester Prerequisite: Classified graduate standing or consent of department. Quarter Prerequisite: classified graduate standing in MA or MS program or consent of department

Theories, methods, and issues of psychological measurement and assessment. Topical coverage will include test construction, test evaluation, survey development, ethics, and testing in applied settings. Two hours lecture and three hours lab. Formerly offered as PSYC 644.

PSYC 6650. Advanced Cognitive Psychology. Units: 3

Quarter Prerequisite: Classified graduate standing in Psychology MA or MS degree program and consent of department

Research and theories in the psychology of thinking, knowing and remembering. Classified graduate standing in Psychology MA or MS degree program or consent of instructor are required. Formerly offered as PSYC 650.

PSYC 6652. Advanced Learning and Motivation. Units: 3

Quarter Prerequisite: Classified graduate standing in Psychology MA or MS degree program and consent of department

Major theories and research in learning and motivation with emphasis on current issues. Formerly offered as PSYC 652.

PSYC 6654. Advanced Life-Span Developmental Psychology. Units: 3

Examination of the developmental processes, theories, issues and research in life-span developmental psychology. Formerly offered as PSYC 654.

PSYC 6656. Advanced Biological Psychology. Units: 3

Quarter Prerequisite: Classified graduate standing in Psychology MA or MS degree program and consent of department

Study of biological bases of behavior with emphasis on recent research. Classified graduate standing in Psychology MA or MS degree program or consent of instructor are required. Formerly offered as PSYC 656.

PSYC 6658. Advanced Social Psychology. Units: 3

Quarter Prerequisite: Classified graduate standing in Psychology MA or MS degree program and consent of department

Major theories, methods and empirical findings in social psychology. Example topics include prejudice and stereotyping, social cognition, social perception, the self, group processes, and emotions. Classified graduate standing in Psychology MA or MS degree program or consent of instructor are required. Formerly offered as PSYC 658.

PSYC 6665. Psychopathology. Units: 3

Semester Prerequisite: Classified standing in the MS Clinical/Counseling Program and consent of department; or PSYC 3390, classified standing in another Psychology MA or MS program and consent of department; or PSYC 3390, or consent of department. Quarter Prerequisite: PSYC 390, classified standing in other Psychology MA or MS degree programs or consent of department; or PSYC 390 or consent of department

Review of major classification systems of mental disorders including descriptive symptomatology, etiology, and treatment considerations. Formerly offered as PSYC 665.

PSYC 6667. Family Processes. Units: 3

Normal and dysfunctional family processes, including analysis of family and couple systems, family communication, intimate partner violence and strategies for therapeutic intervention. Formerly offered as PSYC 667.

PSYC 6671. Marriage and Family Therapy Skills I. Units: 6

Semester Prerequisite: Classified standing in the MS Clinical/Counseling program or consent of department. Quarter Corequisite: Concurrent enrollment in PSYC 687A. Quarter Prerequisite: Classified standing in the MS program or consent of department

Semester Corequisite: Concurrent enrollment in PSYC 6871

Foundational skills in counseling, the therapeutic alliance, crisis management and treatment planning. Three hours seminar and three hours recitation. Formerly offered as PSYC 671.

PSYC 6672. Marriage and Family Therapy Skills II. Units: 6

Semester Prerequisite: Classified standing in the MS Clinical/Counseling program and a grade of no less than B- in PSYC 6671, or consent of department. Quarter Corequisite: concurrent enrollment in PSYC 687B and consent of department. Quarter Prerequisite: grade of no less than B- in PSYC 671

Semester Corequisite: Concurrent enrollment in PSYC 6872

Advanced counseling skills used to identify and modify familial, relational, emotional, cognitive and behavioral aspects of individual, couple, family and sexual functioning. Three hours seminar and three hours recitation. Formerly offered as PSYC 672.

PSYC 6674. Child Therapy. Units: 3

Advanced counseling skills used with children and adolescents, including detection, assessment, and treatment of child abuse. Classified standing in the Clinical/Counseling MS Program and consent of department.

PSYC 6675. Practicum in Applied Psychology. Units: 3

Training in the application of methods and theories of psychology to the solution of practical problems within organizations. The course will include both a classroom component and out-of-class applications. Applications will include issues of ethical awareness, decision-making, and behavior in organizational analysis and interventions. Formerly offered as PSYC 675.

PSYC 6679. Theories of Counseling and Psychotherapy. Units: 3

Semester Prerequisite: Classified standing in the MS Clinical/Counseling Psychology program or consent of department

Comparative analysis of major theories related to current practice of counseling and psychotherapy. Formerly offered as PSYC 679.

PSYC 6680. Advanced Seminar in Psychology. Units: 3

Semester Prerequisite: Classified graduate standing or consent of department. Quarter Prerequisite: Classified standing or consent of department

Selected advanced topics which encompass areas of current theoretical and/or research interest in psychology. May be repeated for credit as topics change. Formerly offered as PSYC 680.

PSYC 6682. Clinical Assessment. Units: 3

Semester Prerequisite: Classified standing in the MS Clinical/Counseling Program or consent of department. Quarter Prerequisite: classified standing or consent of department

Methods of intellectual, diagnostic, and personality assessment with children and adults. Classified standing in the MS Clinical/Counseling Program or consent of department are required. May not be taken for credit by students who have received credit for PSYC 683. Formerly offered as PSYC 682.

PSYC 6684. Topics in Counseling Psychology. Units: 3

Semester Prerequisite: Classified standing in the MS Clinical/Counseling Program or consent of department

Selected topics within counseling psychology. May be repeated for credit as topics change. Formerly offered as PSYC 684.

PSYC 6871. Marriage and Family Therapy Practicum I. Units: 3

Semester Prerequisite: Classified standing in MS Clinical/Counseling Program or consent of department. Quarter Corequisite: concurrent enrollment in PSYC 671. Quarter Prerequisite: consent of department

Semester Corequisite: Concurrent enrollment in PSYC 6671
Supervised counseling practicum. Graded credit/no credit. Formerly offered as PSYC 687.

PSYC 6872. Marriage and Family Therapy Practicum II. Units: 3

Semester Prerequisite: Classified standing in MS Clinical/Counseling Program or consent of department. Quarter Corequisite: concurrent enrollment in PSYC 672. Quarter Prerequisite: consent of department

Semester Corequisite: concurrent enrollment in PSYC 6672
Supervised counseling practicum. Graded credit/no credit. Formerly offered as PSYC 687.

PSYC 6891. Externship in Applied Psychology. Unit: 1

Semester Prerequisite: PSYC 6640 and consent of department. Quarter Prerequisite: PSYC 6640 and consent of department

Supervised field work in a public or private setting for additional training and extension of skills developed in the graduate program. The externship requires approval by a faculty supervisor. A total of three units of externship may apply toward the M.S. in Industrial and Organizational Psychology degree. Graded credit/no credit. Formerly offered as PSYC 689A.

PSYC 6892. Externship in Applied Psychology. Units: 2

Semester Prerequisite: PSYC 6640 and consent of department. Quarter Prerequisite: PSYC 640 and consent of department

Supervised field work in a public or private setting for additional training and extension of skills developed in the graduate program. The externship requires approval by a faculty supervisor. A total of three units of externship may apply toward the M.S. in Industrial and Organizational Psychology degree. Graded credit/no credit. Formerly offered as PSYC 689B.

PSYC 6893. Externship in Applied Psychology. Units: 3

Semester Prerequisite: PSYC 6640 and consent of department. Quarter Prerequisite: PSYC 6640 and consent of department

Supervised field work in a public or private setting for additional training and extension of skills developed in the graduate program. The externship requires approval by a faculty supervisor. A total of three units of externship may apply toward the M.S. in Industrial and Organizational Psychology degree. Graded credit/no credit. Formerly offered as PSYC 689C.

PSYC 6951. Advanced Independent Study. Unit: 1

Semester Prerequisite: PSYC 6640 or PSYC 6641; Classified graduate standing and consent of department. Prerequisite: PSYC 640 or PSYC 641; advancement to candidacy and consent of department

Advanced research on a specific topic selected by the student with the approval of the students thesis advisor. May be repeated up to two times for a total of 3 units credit with approval of the student's advisor and the department chair. Only three to five units of independent study are required for the masters degree depending on the program. Formerly offered as PSYC 611A.

PSYC 6952. Advanced Independent Study. Units: 2

Semester Prerequisite: PSYC 6640 or PSYC 6641; Classified graduate standing and consent of department. Quarter Prerequisite: PSYC 640 or PSYC 641; advancement to candidacy and consent of department

Advanced research on a specific topic selected by the student with the approval of the students thesis advisor. May be repeated one time for a total of 4 units credit with approval of the student's advisor and the department chair. Only three to five units of independent study are required for the masters degree depending on the program. Formerly offered as PSYC 611B.

PSYC 6953. Advanced Independent Study. Units: 3

Semester Prerequisite: PSYC 6640 or PSYC 6641; Classified graduate standing and consent of department. Quarter Prerequisite: PSYC 640 or PSYC 641; advancement to candidacy and consent of department

Advanced research on a specific topic selected by the student with the approval of the students thesis advisor. May be repeated one time for a total of 6 units credit with approval of the student's advisor and the department chair. Only three to five units of independent study are required for the masters degree depending on the program. Formerly offered as PSYC 611C.

PSYC 6954. Advanced Independent Study. Units: 4

Semester Prerequisite: PSYC 6640 or PSYC 6641; Classified graduate standing and consent of department. Quarter Prerequisite: PSYC 640 or PSYC 641; advancement to candidacy and consent of department. Advanced research on a specific topic selected by the student with the approval of the student's thesis advisor. May be repeated one time for a total of 8 units credit with approval of the student's advisor and the department chair. Only three to five units of independent study are required for the masters degree depending on the program. Formerly offered as PSYC 611D.

PSYC 6955. Advanced Independent Study. Units: 5

Semester Prerequisite: PSYC 6640 or PSYC 6641; Classified graduate standing and consent of department. Quarter Prerequisite: PSYC 640 or PSYC 641; advancement to candidacy and consent of department. Advanced research on a specific topic selected by the student with the approval of the student's thesis advisor. May be repeated one time for a total of 10 units credit with approval of the student's advisor and the department chair. Only three to five units of independent study are required for the masters degree depending on the program. Formerly offered as PSYC 611E.

PSYC 6971. Advanced Practicum in Counseling Psychology I. Units: 2

Semester Prerequisite: Classified standing in the MS Clinical/Counseling program, PSYC 6671, PSYC 6672, PSYC 6871, PSYC 6872, PSYC 6971, or consent of department. Quarter Prerequisite: classified standing in the Psychology MS Program and consent of department. Supervised counseling field work in private or public mental health agencies. Graded credit/no credit. Formerly offered as PSYC 697A.

PSYC 6972. Advanced Practicum in Counseling Psychology II. Unit: 1

Semester Prerequisite: Classified standing in the MS Clinical/Counseling program, PSYC 6671, PSYC 6672, PSYC 6871, PSYC 6872, PSYC 6971, and consent of department. Quarter Prerequisite: Classified standing in the MS degree program, PSYC 671, PSYC 672, PSYC 687A, PSYC 687B, PSYC 687C; or consent of department. Supervised counseling field work in private or public mental health agencies. Graded credit/no credit. Formerly offered as PSYC 697B.

PSYC 6974. Thesis. Units: 4

Semester Prerequisite: PSYC 6640 and/or PSYC 6641, 3 to 5 units of independent study (depending on the program), advancement to candidacy, and consent of department. Quarter Prerequisite: PSYC 640 and/or PSYC 641; PSYC 611; advancement to candidacy and consent of department.

Independent graduate research conducted under the guidance of the major advisor and resulting in a written thesis. Formerly offered as PSYC 699.

PSYC 6980. Comprehensive Examination. Units: 0

Semester Prerequisite: Advancement to candidacy, approval of department, completion of course work in the MS Clinical/Counseling Psychology program and good academic standing. Quarter Prerequisite: advancement to candidacy, approval of department, completion of course work in the masters program and good academic standing. An assessment of the student's ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter. Department consent required. Formerly offered as PSYC 999A.

PSYC 6990. Continuous Enrollment for Graduate Candidacy Standing. Units: 0

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies.

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

PSYC 6991. Continuous Enrollment for Graduate Candidacy Standing. Unit: 1

Quarter Prerequisite: Advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies.

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

PSYC 6992. Continuous Enrollment for Graduate Candidacy Standing. Units: 2

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

PSYC 6993. Continuous Enrollment for Graduate Candidacy Standing. Units: 3

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

PSYC 6994. Continuous Enrollment for Graduate Candidacy Standing. Units: 4

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

Public Administration (PA)

Courses

PA 3050. Organizations in Multicultural and Diverse Societies. Units: 3

Semester Prerequisite: junior standing

Integrative, multicultural exploration of the challenge of ensuring that business and government organizations as they pursue their economic or public policy missions, also promote the societal goals of human dignity, diversity, democracy and inclusion. This course examines the roles and powers of business and government organizations in meeting or failing to meet the rights and needs of citizens of all genders and ethnicities. Satisfies GE D4/UD-4, DI designation.

PA 3070. Public Relations in the Public Sector. Units: 3

Public relations as an inherent aspect of management in the public sector. Problems and techniques of administration of programs to manage and improve public relations. Formerly offered as PA 307.

PA 3150. Society, Business, & Global Governance. Units: 3

Description and analysis of government and society. Addresses business' ethical obligations to society, and government policies affecting business at local, state and national levels. Covers global governance focusing on international trade treaties, trading blocs, and international financial institutions. Satisfies GE D4/UD-4, G designation.

PA 3800. Introduction to Public Administration. Units: 3

An introduction to the foundations of public and nonprofit administration, including organization of public services, roles and relationships of public administrators, accountability and the achievement of public goals.

Formerly offered as PA 380.

PA 4620. Managing Human Resources For Public Service Organizations. Units: 3

Semester Prerequisite: PA 3800. Quarter Prerequisite: PA 380 and the upper division writing requirement

An introduction to managing human resources in public service organizations, including technical processes of personnel management and the basics of human relations and supervision. Formerly offered as PA 462.

PA 4630. Budgeting for Public Service Organizations. Units: 3

Semester Prerequisite: PA 3800. Quarter Prerequisite: the upper division writing requirement

Role of the budgetary process in the public service environments. Class includes budgeting, budget formulation and administration. Formerly offered as PA 463.

PA 4700. Public Policy and Administration. Units: 3

Formulation and implementation of public policy with an emphasis on the role of public agencies. Students critically examine the role individuals and organizations play in the policy process and methods of policy implementation.

PA 5010. Ethical Public Service Leadership. Units: 3

Semester Prerequisite: Junior status, or graduate status. Quarter Prerequisite: the upper division writing requirement

A course in ethical public service leadership. Emphasis on the theory and practice of leading public service organizations. Topics include various theories of leadership as well as leader traits, skills, styles, behaviors, development, evaluation, and ethics. Formerly offered as PA 501.

PA 5120. Performance Measurement and Management. Units: 3

Semester Prerequisite: Must have junior or graduate standing
Examines performance management in public agencies. Explains the relationship among key terms and concepts - performance measures, performance indicators and benchmarks. Provides an understanding of the benefits and challenges of implementing an effective performance management system for public and nonprofit organizations to ensure that services are delivered effectively, efficiently and equitably.

PA 5140. Nonprofit Management and Leadership. Units: 3

Semester Prerequisite: Junior status, or graduate status. Quarter Prerequisite: the upper division writing requirement

Introduction to the theory and practice of nonprofit management. Students will identify the unique role of nonprofits as public serving private organizations; understand the nonprofit legal framework; review concepts in nonprofit leadership and governance, including the roles and responsibilities of the board of directors; learn how to strategically manage staff and volunteers; and understand the unique financial management practices of nonprofit organizations. Formerly offered as PA 514.

PA 5150. Nonprofit Staff and Volunteer Management. Units: 3

Nonprofit staff and volunteer management is a comprehensive course that provides students with a solid foundation in managing staff and volunteers within the nonprofit sector. This course blends theoretical concepts with practical applications, enabling students to understand the unique characteristics of the nonprofit sector, develop effective recruitment and talent retention strategies, create engaging and meaningful volunteer experiences, and navigate the legal and ethical complexities specific to nonprofit human resource management.

PA 5170. Nonprofit Fundraising and Grantwriting. Units: 3

Students will learn the practical skills necessary to generate resources for nonprofit organizations. This course will emphasize foundational principles in philanthropy, including: donor prospecting, donor relation management, and the design and production of fundraising campaigns. Students will also learn specific grant writing techniques for various funder types, such as foundations, corporations, and government agencies. A full overview of the grant cycle, which involves locating grant opportunities, developing proposals, and the management of grant reporting will be covered.

PA 5190. Managing Diversity in Organizations. Units: 3

Semester Prerequisite: Junior status, or graduate status

Exploration of the diversity challenges facing organizations as they pursue their missions. Topics include: theories of diversity, its benefits and challenges, legal managerial and ethical obligations. Formerly offered as PA 619.

PA 5200. Sustainability Policy and Management. Units: 3

Semester Prerequisite: Junior status, or graduate status

This course is centered around the sustainable management of natural and built environment systems with an emphasis on California and the Inland Empire Region. This course will review the current state of the environment in CA, including its systemic threats to a sustainable future; and laws, regulations and policy incentives for sustainable development outcomes. Key topics will include water and waste systems; transportation systems management and programmatic innovations; renewable energy systems adaptations; as well as green infrastructure planning and policy.

PA 5210. Community Planning and Management. Units: 3

Semester Prerequisite: Junior status, or graduate status. Quarter Prerequisite: the upper division writing requirement

This course serves as a primer on local government management and community planning with a focus on these issues in California and the Inland Empire Region. Key topics will include the history of urban systems; local and regional governance structures; the fiscal basis for local governments; local government policy; planning laws and regulations; land use management; environmental impact review; transportation and mobility planning; place-making and design; and citizen engagement models.

PA 5280. Intergovernmental Relations and Policy Networks. Units: 3

Semester Prerequisite: Junior status, or graduate status

This course provides students with an understanding of both the process and the philosophy of intergovernmental relations and policy networks in the United States, its foundations, its evolution, and its current status.

Relationships among 90,000 independent federal, state and local governments in addition to non-governmental actors. Formerly offered as PA 628.

PA 5570. Public Sector Labor Relations. Units: 3

Semester Prerequisite: Junior status, or graduate status. Quarter Prerequisite: the upper division writing requirement

Analyzes issues created by collective bargaining and unionism in public sectors. Examples: selection of bargaining agents, bargaining scope and obligation, impasse resolution and grievance procedure. Formerly offered as PA 557.

PA 5640. Economic and Community Development. Units: 3

Semester Prerequisite: Junior status, or graduate status. Quarter Prerequisite: the upper division writing requirement

This course is focused on economic and community development policy and practice for local communities, with a special focus on California and the Inland Empire Region. Key topics include theories of economic growth, distribution and community impact; policy and program strategies for regional and local economic development; financing and implementation of economic development programs; policy innovations for equitable growth; and the political economy of the housing market.

PA 5680. Accounting for Government and Not-for-Profit Organizations. Units: 3

Semester Prerequisite: ACCT 2110. Quarter Prerequisite: ACCT 211 Provides students an opportunity to study the specialized the GASB accounting principles applicable to state and local governments. It affords learners an opportunity to acquire proficiency with the FASB financial reporting standards applicable to a variety of tax exempt non-profit organizations encountered in practice with an emphasis on fair value accounting and the basic principles used to record of assets, liabilities, equity, revenues, and expenditures. The course also covers the analysis and interpretation of government financial statements. Previously offered as ACCT 468.

PA 5730. Public Transportation Systems. Units: 3

Semester Prerequisite: Junior status, or graduate status. Quarter Prerequisite: the upper division writing requirement

Transportation systems are the backbone of any community and highly impact the local quality of life, depending on how they function. This course takes a systems approach to transportation planning and policy. Topics include: techniques of analysis of transportation networks and plans; land use and economics; location theories and spatial analysis; and the human element. Formerly offered as PA 573.

PA 5753. Internship in Public Administration. Units: 3

Semester Prerequisite: Consent of PA internship coordinator. Quarter

Prerequisite: Consent of PA internship coordinator

Supervised work and study in government or non-profit organizations.

May be repeated for credit. A total of six units of Jack H. Brown College of Business and Public Administration PA 5753 or PA 5755 courses may be applied toward graduation. Graded credit/no credit. Formerly offered as PA 575.

PA 5755. Internship. Unit: 1

Semester Prerequisite: Consent of college internship coordinator. Quarter

Prerequisite: senior standing preferred; consent of instructor and the departments internship coordinator

Supervised work and study in private or public organizations. May be repeated for credit. A total of six units of Jack H. Brown College of Business and Public Administration 5753 or 5755 courses may be applied toward graduation. Graded credit/no credit.

PA 5900. Special Topics in Public Administration. Units: 3

Semester Prerequisite: Junior status, or graduate status

An intensive study of some phase of public administration to be developed by the instructor. May be repeated for credit as topics change.

Formerly offered as PA 590.

PA 5915. Special Topics in Public Administration. Unit: 1

An intensive study of some phase of public administration to be developed by the instructor. May be repeated for credit as topics change.

PA 5951. Independent Study. Unit: 1

Semester Prerequisite: Junior status, or graduate status

Special topics involving library and/or field research. A total of 8 units in any Jack H. Brown College of Business and Public Administration 5951, 5952, 5953, 5955 may be applied toward graduation. Consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the Jack H. Brown College of Business and Public Administration on a standard application filed in advance of the semester in which the course is to be taken. Course is cross-listed across different departments within the college.

PA 5952. Independent Study. Units: 2

Semester Prerequisite: Junior status, or graduate status
 Special topics involving library and/or field research. A total of 8 units in any Jack H. Brown College of Business and Public Administration 5951, 5952, 5953, 5955 may be applied toward graduation. Consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the Jack H. Brown College of Business and Public Administration on a standard application filed in advance of the semester in which the course is to be taken. Formerly offered as 595B. Course is cross-listed across different departments within the college.

PA 5953. Independent Study. Units: 3

Semester Prerequisite: Junior status, or graduate status
 Special topics involving library and/or field research. A total of 8 units in any Jack H. Brown College of Business and Public Administration 5951, 5952, 5953, 5955 may be applied toward graduation. Consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the Jack H. Brown College of Business and Public Administration on a standard application filed in advance of the semester in which the course is to be taken. Formerly offered as 595D. Course is cross-listed across different departments within the college.

PA 5955. Independent Study. Unit: 1

Semester Prerequisite: Junior status, or graduate status
 Special topics involving library and/or field research. A total of 8 units in any Jack H. Brown College of Business and Public Administration 5951, 5952, 5953, 5955 may be applied toward graduation. Consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the Jack H. Brown College of Business and Public Administration on a standard application filed in advance of the semester in which the course is to be taken. Course is cross-listed across different departments within the college.

PA 6030. Research Methods in Administration. Units: 3

Quarter Prerequisite: ADMN 210 or equivalent introductory statistics class

Introduces the fundamentals of scientific inquiry in administration and provides the theoretical and practical base for a research project, particularly as applicable to public managers. Addresses issues of research design, sampling, data collection and analysis of basic quantitative and qualitative methods, as well as evaluation of research. Formerly offered as PA 603.

PA 6110. Public Administration Theory and Practice. Units: 3

A critical analysis of major theories of public administration and their application, including development of the discipline, evolution of institutional forms, concepts of decision-making, ethics in the public sphere, the politics-administration dichotomy, and the role of public administration in society. The course is constructed on a writing intensive approach with foci on public service values and motivation. Formerly offered as PA 611.

PA 6150. Public and Nonprofit Financial Management. Units: 3

Management of financial resources in public and nonprofit organizations with emphasis on both micro and macro approaches. Topics include evaluation and monitoring of financial conditions and trends, capital financing strategies, debt administration, cash management, retirement systems, and risk management. Formerly offered as PA 615.

PA 6170. Management of Local Economic Development. Units: 3

Theories and strategies of economic development in California and the Nation. Topics include planning, financing and implementation of economic development programs, as well as the social and environmental impacts of alternatives. Formerly offered as PA 617.

PA 6300. Program Evaluation. Units: 3

Semester Prerequisite: PA 6030. Quarter Prerequisite: MATH 305 or ADMN 210

The purpose, methods, and utility of program evaluations in public and nonprofit organizations. Addresses selection of programs for evaluation, research design, and research methodology as well as organizational and personnel challenges associated with the evaluation process. Formerly offered as PA 630.

PA 6500. Government in the Digital Age. Units: 3

Quarter Prerequisite: the upper division writing requirement
 Surveys the uses of information technology (IT) in public sector, impact of IT on public organizations, and the functions of IT in a democratic society. Theories and principles of technology design and management of change, electronic delivery of government information and services, and problems of managing IT in government. Formerly offered as PA 650.

PA 6550. Capstone: Strategic Planning for Government and Nonprofit Organizations. Units: 3

Semester Prerequisite: Completion of a minimum of 27 units within the MPA program

Description and analysis of public sector and non-profit strategic planning, including key planning components, the planning process, the organizational environment and leadership. Topics include organizational mission, vision, goal setting, environmental assessment, prioritization, strategy development, implementation and performance measurement. Must be passed with a B or higher grade. Formerly offered as PA 655.

PA 6610. Principles of Public and Nonprofit Procurement. Units: 3

Introduction to theory and practice of public and nonprofit procurement at the local, state and federal levels including best practices, trends, ethics and the legal framework of procurement. Formerly offered as PA 661.

PA 6620. Human Resource Management in the Public Sector. Units: 3

Analysis of the human resource management function as it applies to public sector organizations. Topics include development of modern public service, professionalism and ethics, recruitment, selection, position management, compensation practices, appraisal, and personnel development. Formerly offered as PA 662.

PA 6630. Public Budgeting and Finance. Units: 3

Budgeting and finance theories, and concepts, and principles used in various settings that include federal, state, and local governments and nonprofit organizations. Includes economic, management, and political approaches to appropriation and revenue decision-making processes, as well as ethics and major issues in contemporary budgeting. Formerly offered as PA 663.

PA 6640. Management of Public Organizations. Units: 3

Examines public service management, including the role of the public executive, theories of public organizations, human behavior in public organizations, innovation, and professional ethics. Formerly offered as PA 664.

PA 6700. Emergency Management. Units: 3

Covers basic theory and practice in emergency management. Topics include approaches to emergency management, the political and administrative environment, administration of complex systems, behavioral aspects, and establishing and implementing community wide policies. Formerly offered as PA 670.

PA 6720. Administrative Regulation. Units: 3

Semester Prerequisite: PA 6110

Discretionary authority of regulatory agencies, the manner in which power is exercised by such agencies, and the administrative structure of the regulatory process. Topics include Constitutional analysis, legal research, administrative immunity, rulemaking, evidentiary adjudication, due process, transparency, and privacy, as well as judicial and legislative review of administrative action. Formerly offered as PA 672.

PA 6750. Internship. Units: 0

Prerequisites: senior standing preferred; consent of instructor and the departments internship coordinator
Supervised work and study in a public service organization to satisfy Advancement to Candidacy requirement 4 of the MPA program. Graded credit/no credit.

PA 6755. Internship. Unit: 1

Semester Prerequisite: Consent of college internship coordinator. Quarter Prerequisite: senior standing preferred; consent of instructor and the departments internship coordinator
Supervised work and study in private or public organizations. May be repeated for credit. A total of six units of Jack H. Brown College of Business and Public Administration 5753 or 5755 courses may be applied toward graduation. Graded credit/no credit.

PA 6800. Public Policy Analysis. Units: 3

Semester Prerequisite: PA 6110 and PA 6030. Quarter Prerequisite: PA 611, PA 662, and PA 663

Theoretical and practical issues to the development, application, and management of policy issues in public administrative systems. The emphasis is upon the development of critical thinking and evaluative skills for applied decision making in the workplace. Selected contemporary policy challenges and solutions are explored. Formerly offered as PA 680.

PA 6900. Advanced Topics in Public Administration. Units: 3

Intensive study of an advanced topic in public administration. May be repeated for credit as topics change. Formerly offered as PA 690.

PA 6980. MPA Culminating Experience. Units: 0

Semester Prerequisite: Advancement to candidacy, approval of department, completion of required course work in the masters program, and in good academic standing

An assessment students' ability to integrate the knowledge gained in the program through the completion of a project. Students should show critical and independent thinking and demonstrate mastery of the subject matter. A project is a significant undertaking appropriate to a professional field. It is described and summarized in a written abstract that includes the project's significance, objectives, methodology and a conclusion or recommendation. Other end-of-program activities will also guide the course content. Credit/No credit.

PA 6985. Professional Development Seminar. Units: 0

This seminar addresses a variety of topics required for students including professional and career development program, current topics, advising and networking. Students must enroll and receive credit for two semesters during their program.

PA 6990. Continuous Enrollment for Graduate Candidacy Standing. Units: 0

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

PA 6991. Continuous Enrollment for Graduate Candidacy Standing. Unit: 1

Quarter Prerequisite: Advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

PA 6992. Continuous Enrollment for Graduate Candidacy Standing. Units: 2

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

PA 6993. Continuous Enrollment for Graduate Candidacy Standing. Units: 3

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

PA 6994. Continuous Enrollment for Graduate Candidacy Standing. Units: 4

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

PA 6995. Continuous Enrollment for Graduate Candidacy Standing. Units: 5

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

PA 6996. Continuous Enrollment for Graduate Candidacy Standing. Units: 6

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

Supply Chain Management (SCM) Courses

SCM 3040. Principles of Supply Chain Management. Units: 3

Semester Prerequisite: ADMN 2100. Quarter Prerequisite: ADMN 2100

Introduction to supply chain management concepts and techniques.

Methods that aid the manager in making rational decisions in manufacturing and service industries are discussed. Emphasis is on the application of models to managerial decision making. Formerly offered as SCM 304.

SCM 3500. Problem Solving and Decision Making. Units: 3

Semester Prerequisite: ADMN 2100 and IST 3110

This course covers many approaches in solving business problems from a managerial point of view. Students experiment with typical techniques and learn why/how these techniques work. Spreadsheets are used to experiment with such techniques. Emphasis is placed on input requirements and interpretation of results. Topics include: what-if analysis, networks, decision trees, sensitivity analysis, and goal seeking. Formerly offered as SCM 350. Also offered as IST 3500 and SCM 3500; credit cannot be awarded for both.

SCM 4000. Strategic Supply Chain and Logistics Management. Units: 3

This course provides an in-depth exploration of logistics and supply chain management, emphasizing its critical role in driving operational efficiency and achieving a competitive advantage in today's global business environment. Students will gain a comprehensive understanding of the strategies and practices involved in effectively managing the forward and reverse flow of goods, services, information, and capital between various supply chain entities, including suppliers, manufacturers, distributors, retailers, customers, and third-party logistics providers. This course applies strategic supply chain management to real-world scenarios, solving practical industry problems.

SCM 4100. Project Management: Principles and Practices. Units: 3

This course introduces the core principles of project management, focusing on defining projects, organizing project structures, and understanding the project life cycle. Students will explore essential methodologies, such as Agile, Critical Path Methods, Earned Value Management and other modern approaches. The course emphasizes best practices for mitigating risks, aligning budgets and schedules, and fostering effective teamwork. It covers the ethical and social responsibilities of project management teams. Practical experience includes developing a project plan, identifying and managing the project's critical path, and applying strategies to ensure successful project outcomes.

SCM 4400. Logistics and Transportation Management. Units: 3

Semester Prerequisite: SCM 3040

Logistics operations including demand management, inventory management, facility location, warehouse management, packaging and material handling, transportation management, and international freight movement planning in global supply chains. Formerly SCM 440.

SCM 4450. International Logistics. Units: 3

Semester Prerequisite: SCM 3040. Quarter Prerequisite: SCM 304

Logistics management involving goods and services in different countries. International business environment, international transportation, intermediaries, import/export regulations, payment and risks, and cultural differences of the global supply chain. Formerly offered as SCM 445.

SCM 4700. Advanced Supply Chain and Logistics Management. Units: 3

Semester Prerequisite: SCM 3040. Quarter Prerequisite: SCM 304

Comprehensive study of all activities and processes to supply products or services to final customers. Topics include: purchasing, logistics and supply chain optimization, risk management, inventory control, warehouse and distribution management. Formerly offered as SCM 470.

SCM 4750. Supply Chain Business Analytics. Units: 3

Semester Prerequisite: ADMN 2100. Quarter Prerequisite: IST 274

Comprehensive practice of the Business Analytics process, including forecasting, data extraction and mining, analytical modeling, detailed analysis, and reporting utilizing business cases. Formerly offered as SCM 475.

SCM 5030. Enterprise Resource Planning. Units: 3

Semester Prerequisite: SCM 3040 or SCM 6070. Quarter Prerequisite: SCM 304 or consent of instructor

This course introduces students to the concept and usage of Enterprise Resource Planning (ERP) to support organizational processes. It emphasizes how businesses are using ERP systems to integrate their business processes. Students will learn and understand business process data flows, and how that impacts the functional areas of an organization. Students will have hands-on experience using an ERP system. Formerly known as SCM 305/IST 3050/SCM 3050. Course is offered as IST 5030 and SCM 5030; credit cannot be awarded for both.

SCM 5050. Advanced Enterprise Resource Planning. Units: 3

Semester Prerequisite: SCM/IST 3050

This course will discuss the concepts, principles, and techniques for configuring and implementing organizational processes in enterprise resource planning (ERP). Emphasis will be placed on the cross-functional business processes and critical integration points that are necessary for the success of a company. Students will learn how to create relevant databases and configure an ERP system from the ground up. Formerly SCM 505. Also offered as IST 5050.

SCM 5150. Project Management. Units: 3

Semester Prerequisite: IST 3110

This course introduces students to project management theory, terms and concepts. Students will learn about project management constraints and their impact on a project's ability to meet business goals: time, cost, and performance. Students will learn techniques to manage people and how the workforce will impact, and be impacted by, the project management constraints. Topics include: project life cycle, how to build a successful project from pre-implementation to completion, sequencing and budgeting, project evaluation and control, project feasibility, risk analysis, resource allocation and project management tools. Formerly offered as SCM 515. Course is offered as IST 5150 and SCM 5150; credit cannot be awarded for both.

SCM 5250. Quality Management. Units: 3

Semester Prerequisite: SCM 3040 or SCM 6070

Description and analysis of quality assurance programs and techniques and their many applications in supply chain management from a total quality management perspective. Topics include quality planning, statistical quality control, quality design and measurement, management of quality and reliability, employee involvement for total quality management, and management of six sigma quality and inspection. Formerly offered as SCM 480 and 4800.

SCM 5753. Apprenticeship. Units: 3

Supervised work and study in private or public organizations in a department of labor registered apprenticeship. May be taken two times for six units. A total of six units of IST/SCM 5753 courses may be applied toward graduation. Graded credit/no credit.

SCM 5755. Internship. Unit: 1

Semester Prerequisite: Consent of college internship coordinator. Quarter Prerequisite: senior standing preferred; consent of instructor and the departments internship coordinator

Supervised work and study in private or public organizations. May be repeated for credit. A total of six units of Jack H. Brown College of Business and Public Administration 5753 or 5755 courses may be applied toward graduation. Graded credit/no credit.

SCM 5915. Seminar in Supply Chain Management. Unit: 1

Semester Prerequisite: SCM 3040 and consent of instructor. Quarter Prerequisite: SCM 304 and consent of instructor

An intensive study of some phase of supply chain management to be developed by the instructor. May be repeated for credit as topics change.

SCM 5930. Seminar in Supply Chain Management. Units: 3

Semester Prerequisite: SCM 3040 and consent of instructor. Quarter Prerequisite: SCM 304 and consent of instructor

An intensive study of some phase of supply chain management to be developed by the instructor. May be repeated for credit as topics change. Formerly offered as SCM 590.

SCM 5951. Independent Study. Unit: 1

Semester Prerequisite: Junior status, or graduate status
Special topics involving library and/or field research. A total of 8 units in any Jack H. Brown College of Business and Public Administration 5951, 5952, 5953, 5955 may be applied toward graduation. Consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the Jack H. Brown College of Business and Public Administration on a standard application filed in advance of the semester in which the course is to be taken. Course is cross-listed across different departments within the college.

SCM 5952. Independent Study. Units: 2

Semester Prerequisite: Junior status, or graduate status
Special topics involving library and/or field research. A total of 8 units in any Jack H. Brown College of Business and Public Administration 5951, 5952, 5953, 5955 may be applied toward graduation. Consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the Jack H. Brown College of Business and Public Administration on a standard application filed in advance of the semester in which the course is to be taken. Formerly offered as 595B. Course is cross-listed across different departments within the college.

SCM 5953. Independent Study. Units: 3

Semester Prerequisite: Junior status, or graduate status
Special topics involving library and/or field research. A total of 8 units in any Jack H. Brown College of Business and Public Administration 5951, 5952, 5953, 5955 may be applied toward graduation. Consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the Jack H. Brown College of Business and Public Administration on a standard application filed in advance of the semester in which the course is to be taken. Formerly offered as 595D. Course is cross-listed across different departments within the college.

SCM 5955. Independent Study. Unit: 1

Semester Prerequisite: Junior status, or graduate status
Special topics involving library and/or field research. A total of 8 units in any Jack H. Brown College of Business and Public Administration 5951, 5952, 5953, 5955 may be applied toward graduation. Consent of instructor and approval by the department of a written project/proposal submitted to the appropriate department in the Jack H. Brown College of Business and Public Administration on a standard application filed in advance of the semester in which the course is to be taken. Course is cross-listed across different departments within the college.

SCM 6070. Managing the Supply Chain. Units: 3

Integration and application of analytical techniques used in logistics and supply chain management. Concepts of decision models are examined for planning, control, forecasting, scheduling, and analysis within an enterprise. Formerly offered as SCM 607.

SCM 6110. Global Supply Chain Management and Logistics. Units: 3

Semester Prerequisite: SCM 6070. Quarter Prerequisite: SCM 607
Development, implementation and integration of global supply chain management and operations management strategy with business and other functional strategies of an organization. Topics include: decisions involving positioning, structuring and managing for superior competitive performance. Formerly offered as SCM 611.

SCM 6200. Integrated Logistics Management. Units: 3

Semester Prerequisite: SCM 6070 or consent of instructor
This course is a comprehensive study of integrated logistics including: supply chain strategy, competitiveness and sustainability, strategic procurement, material management, purchasing and supply management, third-party relationships, logistics information systems technologies, demand management, order processing systems and customer service management, inventory management, packaging and material handling systems, transportation modes, and forward and reverse logistics.#.

SCM 6300. Warehouse and Distribution Management. Units: 3

Semester Prerequisite: SCM 6070 or consent of instructor
This course covers order fulfillment management, distribution, omnichannel network design, warehouse design, materials handling, movement of goods and packaging in the warehouse, freight transportation, demand and cost factors, market structure, domestic and global policies and regulations, warehouse cost management, LEEDS, optimization, social and environmental impacts warehouse management systems, robots and technologies, inbound processes, storage, and outbound processes. Consent required.

SCM 6400. Supply Chain Security and Blockchain. Units: 3

Semester Prerequisite: IST 6090
Supply chain security is the part of supply chain management that focuses on minimizing risk for supply chain, logistics, and transportation management systems. The distributed ledger-driven blockchain technology has the potential to enhance supply chain visibility and transparency. Students will learn the importance of creating a secure end-to-end supply chain infrastructure and the use of blockchain-enabled smart contracts to integrate business processes, promote data standardization and protect operational technologies, systems, and resources. Additional topics include the purpose and requirements of ISO 28000, NIST-Cyber Supply Chain Risk Management (C-SCRM), and C-TPAT Supply Chain Risk Management System.

SCM 6600. Transportation and Supply Chain Management. Units: 3

Semester Prerequisite: SCM 6070. Quarter Prerequisite: SCM 607
Comprehensive study of managing transportation and the supply chain. Logistics of managing the pipeline of goods from initial contracts with suppliers and control of work-in-process to the movement of finished goods through the channels of distribution. Formerly offered as SCM 660.

SCM 6620. Business Analytics and Decision Making. Units: 3

Semester Prerequisite: IST 6090 or consent of instructor. Quarter Prerequisite: IST 609

The course provides an overview of the wide area of data analytics, with a particular focus on the tools required to store, clean, manipulate, visualize, model, and ultimately extract information from various sources of data as well as an introduction to deterministic decision-making, decision making under uncertainty/risk, and application of optimization decision analysis tools. Topics include the analytics life cycle, data integration and modeling, the use of univariate and multivariate statistical methods to analyze data, relational databases and SQL, text processing and sentiment analysis, data visualization and the use of Business Intelligence Tools for modeling and decision support. Offered as IST 6620 and SCM 6620, students may not receive credit for both. Formerly offered as IST 650.

SCM 6755. Internship. Unit: 1

Semester Prerequisite: Consent of college internship coordinator. Quarter Prerequisite: senior standing preferred; consent of instructor and the departments internship coordinator

Supervised work and study in private or public organizations. May be repeated for credit. A total of six units of Jack H. Brown College of Business and Public Administration 5753 or 5755 courses may be applied toward graduation. Graded credit/no credit.

SCM 6910. Culminating Experience Project. Units: 3

Semester Prerequisite: Completion of 24 semester equivalent units or consent of the Program Director

The culminating experience will be a comprehensive logistics/e-commerce project to be directed, reviewed, and assessed by faculty and selected professionals to ensure students ability to integrate the knowledge of the area and to show critical and independent thinking and demonstrate mastery of the subject matter. Can be taken in fall or spring semester after advancement to candidacy.

SCM 6990. Continuous Enrollment for Graduate Candidacy Standing. Units: 0

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

SCM 6991. Continuous Enrollment for Graduate Candidacy Standing. Unit: 1

Quarter Prerequisite: Advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

SCM 6992. Continuous Enrollment for Graduate Candidacy Standing. Units: 2

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

SCM 6993. Continuous Enrollment for Graduate Candidacy Standing. Units: 3

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

SCM 6994. Continuous Enrollment for Graduate Candidacy Standing. Units: 4

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

SCM 6995. Continuous Enrollment for Graduate Candidacy Standing. Units: 5

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

SCM 6996. Continuous Enrollment for Graduate Candidacy Standing. Units: 6

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

Serrano (SERR)

Courses

SERR 1111. Language Study I: Serrano. Units: 3

Introduction to Serrano language. Fundamentals of pronunciation, structure and culture designed to develop the ability to use and understand the language. Formerly FLAN 101S. Materials fee required.

SERR 1112. Language Study II: Serrano. Units: 3

Quarter Prerequisite: FLAN 101S or 2 years high school language study, placement exam, equivalent college-level course (1111) or consent of department

Intermediate study in Serrano language. Emphasis on oral and written competency at the intermediate level in a cultural context. Satisfies GE C2/3B, DI, G designations. Materials fee required.

SERR 2111. Language Study III: Serrano. Units: 3

Semester Prerequisite: SERR 1112S. Quarter Prerequisite: FLAN 103 or consent of department

Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis. Formerly FLAN 201S. Materials fee required.

SERR 2112. Language Study IV: Serrano. Units: 3

Semester Prerequisite: SERR 2111S. Quarter Prerequisite: FLAN 201S or consent of department

Further study of the language to develop proficiency in listening, speaking, reading, and writing with cultural emphasis. Formerly FLAN 202S. Materials fee required.

Sociology (SOC)

Courses

SOC 1000. Introduction to Sociology. Units: 3

Using a sociological perspective to examine how social forces, cultural processes, and institutional arrangements shape human behavior. Satisfies GE D3/4.

SOC 1100. Latino Communities, Wellness, and Life Skills. Units: 3

The course is designed to provide students with lifelong understanding and development of their capacities as members of a community, health promotion and decision making, the value of multidisciplinary study, and learning how to learn. Graded A through C-/no credit. Satisfies DI designation.

SOC 1800. Critical Thinking about Social Issues. Units: 3

Develop students' skills to analyze a range of social problems, focusing on their causes, consequences, mechanisms of change, and potential solutions. Satisfies GE A3/1B.

SOC 3010. Qualitative Analysis & Field Research. Units: 3

Semester Prerequisite: SOC 1000. Quarter Prerequisite: SOC 100
This course focuses on qualitative research methods such as participant observation, in-depth interviews, and unobtrusive methods and the analysis of qualitative data to examine social problems and other issues. Formerly offered as SOC 301.

SOC 3020. Introduction to Community-Based Research. Units: 3

Semester Prerequisite: SOC 1000 or instructor consent. Quarter Prerequisite: SOC 1000
Examination of community-based participatory research as an approach to collaborative research between academic partners and community-based organizations and social service agencies. Emphasis on issues of power, trust, social justice, and empowering communities in building knowledge through research. Students in the Social Services and Community Research concentration are required to take this course to fulfill their qualitative research methods requirement.

SOC 3070. Quantitative Analysis & Survey Research. Units: 4

Basic concepts and techniques of survey research and statistical analysis. 3 hours of Lab activities in addition to 3 hours of lecture. Formerly offered as SOC 307 and SOC 309. Materials fee required.

SOC 3110. Sociological Theory. Units: 3

Semester Prerequisite: SOC 1000. Quarter Prerequisite: SOC 100
Exploration of classical and contemporary sociological theories, with applications to contemporary social life. Formerly offered as SOC 311.

SOC 3300. Aging and The Lifecourse. Units: 3

Semester Prerequisite: SOC 1000. Quarter Prerequisite: SOC 100
Issues facing individuals, families and communities in a rapidly aging world. Includes social, psychological, physical and economic aspects of aging. Formerly offered as SOC 330.

SOC 3360. Black Women and Feminism. Units: 3

Semester Prerequisite: SOC 1000. Quarter Prerequisite: SOC 100
Examines Black women in the US, their experiences and work on behalf of women's rights, focusing on the interplay of racism, sexism, and class stratification within women's movements. Formerly offered as SOC 336.

SOC 3390. Socialization. Units: 3

Semester Prerequisite: SOC 1000. Quarter Prerequisite: SOC 100
Comprehensive examination of socialization throughout the life course, childhood to adulthood. Theories and processes of socialization will be introduced by exploring social roles, norms, and agents of socialization such as the family, peer groups, schools, religious organizations, work, and mass media. Formerly offered as SOC 339.

SOC 3400. Sociology of Families. Units: 3

Semester Prerequisite: SOC 1000. Quarter Prerequisite: SOC 100
A systematic and comparative analysis of family structures, processes, and effects of social change on families. Topics include: marriage, reproduction, child rearing, and diversity of family structures. Formerly offered as SOC 340.

SOC 3410. The African American Family. Units: 3

Macro and Micro forces affect the contemporary African American family, emphasizing the socio-historical experience of these families. Satisfies GE D4/UD-4, DI designation.

SOC 3420. The Latino Family. Units: 3

Study of the changing Latino family patterns, and how these patterns shape Latino identities, social mobility, and social engagement in a multicultural society. The course will also examine regional and social class variations in Latino family structures and dynamics. Satisfies DI designation.

SOC 3430. Sociology of Violence. Units: 3

Semester Prerequisite: SOC 1000
Examining the prevalence, causes, and effects of selected violent relations as social phenomena, including family violence, domestic abuse, and intimate partner violence. Formerly offered as SOC 343.

SOC 3500. Criminology. Units: 3

Semester Prerequisite: SOC 1000. Quarter Prerequisite: SOC 100
Comprehensive examination of crime and theories of its causes with an emphasis on sociological factors. Formerly offered as SOC 350.

SOC 3540. Deviant Behavior. Units: 3

Semester Prerequisite: SOC 1000. Quarter Prerequisite: SOC 100
Examination of deviance and understanding of how such behavior is perceived as deviant by society; processes of personal-social interactions in developing individual and group deviance. Formerly SOC 354.

SOC 3550. Medical Sociology. Units: 3

Semester Prerequisite: SOC 1000. Quarter Prerequisite: SOC 100
Sociological examination of health and disease, training and socialization of health care providers, doctor-patient interactions, and health beliefs and behavior. Critical analysis of U.S. healthcare system and the economic and political factors that contribute to health inequalities. Formerly offered as SOC 355.

SOC 3560. Sociology of Mental Health. Units: 3

Semester Prerequisite: SOC 1000. Quarter Prerequisite: SOC 100
Social factors, race, class, gender, etc in mental health, including cultural variations in definitions of mental health and mental disorders, social processes in defining and labeling mental health, stigma, treatment of mental disorders, prevalence of mental disorders and indicators of quality of life. Formerly offered as SOC 356.

SOC 3600. Social Psychology. Units: 3

Semester Prerequisite: SOC 1000. Quarter Prerequisite: SOC 100
The study of social interaction as it influences the development of self, role behavior, attitudes and values. Emphasis on field research and symbolic interaction as a school of thought. Formerly offered as SOC 360.

SOC 3700. Sociology of Globalization. Units: 3

Semester Prerequisite: SOC 1000
Examines three dimensions of globalization: the economic, the cultural/social, and the political. Explore key debates and perspectives on globalization, different aspects and consequences of globalization, and inequalities between countries and within countries. Satisfies G designation.

SOC 3750. Population and Society. Units: 3

Semester Prerequisite: SOC 1000. Quarter Prerequisite: SOC 100

Examines social issues and problems influenced by population, population distributions, and population dynamics (fertility, mortality, and migration). Formerly known as SOC 335/3350. Satisfies GE G designation.

SOC 3800. Sociology of Religion. Units: 3

Semester Prerequisite: SOC 1000. Quarter Prerequisite: SOC 100

Theoretical analysis of religion as a social institution in complex societies. The course will explore the social organization of both established religions and emerging religious movements. Themes include the structures and functioning of religions and religious movements, their leadership and the potentials of social change that underlie many religious groups and organizations. Formerly offered as SOC 380.

SOC 3900. Sociology of Education. Units: 3

Semester Prerequisite: SOC 1000

Theoretical analysis of education as a social institution. The course will explore the social organization of education in the United States, including K-12 and postsecondary institutions. Topics include school segregation, tracking, and achievement gaps.

SOC 3940. Topics in Sociology. Units: 3

In-depth study of a selected subfield in Sociology. May be taken three times for a total of nine units as topics change.

SOC 4100. Sociology of Race and Ethnicity. Units: 3

Semester Prerequisite: SOC 1000. Quarter Prerequisite: SOC 100

Historical and contemporary analysis of racial and ethnic groups in the U.S. Examination of social, political, and economic factors that contribute to racial and ethnic inequality. Formerly offered as SOC 410.

SOC 4180. Social Welfare in the U.S.. Units: 3

Quarter Prerequisite: SOC 100

Survey of the development, implementation, and social implications of social welfare policies in the US. Analysis on the impact of the economy, politics, and social change on welfare programs, and contemporary social problems. Formerly offered as SOC 418.

SOC 4200. Social Movements. Units: 3

Quarter Prerequisite: SOC 100

Study of collective behavior and social movements. Covers historical and contemporary cases to examine theories of the emergence and mobilization of social movements and the culture and consequences of them. Formerly offered as SOC 420.

SOC 4220. Sociology of Work. Units: 3

Quarter Prerequisite: SOC 100

Examines the ways in which both paid and unpaid work in families and places of employment are organized by gender and other forms of power, difference and inequality such as race, class, and migration/citizenship status. Formerly offered as SOC 422.

SOC 4240. Social Networks. Units: 3

Quarter Prerequisite: SOC 100

Examining how social connections shape individual outcomes, organizational performance, and community well being. Using the technique of social network analysis (SNA), this course also surveys how social structures arise and maintain themselves. Formerly offered as SOC 424.

SOC 4300. Urban Sociology. Units: 3

Quarter Prerequisite: SOC 100

Nature, causes and consequences of urbanization; metropolitan areas; location and types of cities; social and demographic characteristics of urban populations. Formerly offered as SOC 430.

SOC 4320. Political Sociology. Units: 3

Quarter Prerequisite: SOC 100

Examination of political process from the perspective of sociology, exploring in depth the nature, distribution and exercise of power, and related areas of interest. Formerly offered as SOC 432.

SOC 4340. Community Organization. Units: 3

Quarter Prerequisite: SOC 100

Programs of action, operative and proposed, for the organization of the community and the solution of its problems. Formerly offered as SOC 434.

SOC 4360. Group Dynamics. Units: 3

Quarter Prerequisite: SOC 100

Groups are fundamental units of society. This course surveys group structures, processes, and change in the social psychological and social interactionist traditions. Formerly offered as SOC 436.

SOC 4400. Social Inequality. Units: 3

Quarter Prerequisite: SOC 100

Understanding different forms of social inequality and processes that produce variable outcomes for groups and individuals in terms of access and barriers to resources. The course highlights the intersection of social class, race, ethnicity, gender, sexuality, and physical abilities. Formerly offered as SOC 440.

SOC 4410. Black Americans in Contemporary Society. Units: 3

Quarter Prerequisite: SOC 100

An examination of contemporary social issues facing Black Americans, including social stratification, social mobility, and the organized efforts for social change. Formerly offered as SOC 441.

SOC 4420. The Latino Experience in the U.S.. Units: 3

The Latino Experience in the U.S. course will provide material on social, political and economic institutions and behavior, and their historical background as it relates to this community. The goal of this course is to give an overview of sociological, economic, and political and public policy, other issues about Chicano/Latino populations in the U.S., with particular attention to the experiences of persons of Mexican, Cuban, Puerto Rican, Dominican, and Salvadoran origin populations. The course can explore multiple topics which include the migration experience to the U.S., the construction of a Chicano/Latino racial identities, political integration of Latino migrants into U.S. domestic politics, social stratification, education, housing, gender inequality, popular culture, and U.S. born Latinos. Graded A through C-/no credit. Satisfies GE D4/UD-4, DI designation.

SOC 4440. Sociology of Sex and Gender. Units: 3

Quarter Prerequisite: SOC 100

Study of how sex and gender, as organizing principles of contemporary society, shape and is shaped by social institutions, cultural understandings, and social interactions. The course also examines how sex and gender relations affect individuals, their identities, and collective life in contemporary society. Formerly offered as SOC 444.

SOC 4510. Sociology of Migration. Units: 3

The course explores migration as a social process, focusing on the cultural, political, and historical contexts of immigration and the ways in which migrants interact with different institutions and identities, such as gender and race. Issues of assimilation, integration, incorporation, and diversity will be discussed to understand the impact of migration on individuals and society.

SOC 4520. Social Change and Innovation. Units: 3

Survey sociological theories on social change. Explore how structural and institutional transformation emerge and become routinized in society. Additionally, the course explores how social change spreads through social networks, affecting social interactions at various levels of society.

SOC 4530. Citizenship, Status, and Inequality. Units: 3

This course examines the concepts of citizenship and non citizenship, and how they are mobilized to produce social inequality. Themes include the production of migration "illegality" through law, media, and institutions. The course will also explore the strategies of undocumented migrants to negotiate their status, and the ways immigration status interlocks with other modes of oppression including race, gender, sexuality, age, and disability.

SOC 4550. Sexualities and Society. Units: 3

This course provides an introduction to the sociology of sexualities. We often think of sex and sexuality as deeply personal and private, but in this class, we'll also learn how sexualities are profoundly social - that is, how sexualities are situated in larger social contexts. In this class, we will critically unpack how sex and sexuality are socially constructed, experienced, regulated, and contested in society.

SOC 4840. Social Casework. Units: 3

Processes used by social work agencies to assist and empower individuals facing various challenges and ways to effectively cope with their issues. Formerly SOC 484.

SOC 5250. Indian Nations and Native America. Units: 3

Reviews the 500 years of conquest, genocide, resistance, and survival, including the contemporary realities of indigenous peoples. Satisfies WI designation.

SOC 5300. Global Aging. Units: 3

Semester Prerequisite: SOC 3010 or 3020 and SOC 3070 and SOC 3110 or senior standing or consent of instructor
Current research, issues, and societal changes related to global population aging. Satisfies G, WI designations.

SOC 5400. Sociology of Higher Education. Units: 3

Semester Prerequisite: SOC 3010 or 3020 and SOC 3070 and SOC 3110 or senior standing
Sociological analysis of higher education institutions in the United States, issues of inequality in the college-going process, specific attention to application, enrollment, and graduation. Satisfies WI designation.

SOC 5440. LGBTQ Families. Units: 3

Semester Prerequisite: SOC 3010 or 3020 and SOC 3070 and SOC 3110 or senior standing

Social forces affecting lesbian, gay, bisexual, transgender, and queer (LGBTQ) families. Emphasis on the socially constructed ways in which people who identify as LGBTQ create and define families. Topics include: legal issues, fertility and parenting concerns. Satisfies WI designation.

SOC 5450. Indigenous Peoples. Units: 3

Semester Prerequisite: SOC 3010 or 3020 and SOC 3070 and SOC 3110 or senior standing or consent of instructor
Sociological study of Indigenous Peoples from the local to the global. Formerly SOC 545/3450.

SOC 5490. Crime, Desistance, and Reentry. Units: 3

Semester Prerequisite: SOC 3010 or 3020 and SOC 3070 and SOC 3110 or senior standing

This course discusses the conduits and barriers to reentry for formerly incarcerated individuals in the United States, with special attention paid to issues affecting this population in California, including the social relationships between formerly incarcerated individuals and their family, friends, and communities. Formerly SOC 4900. Satisfies WI designation.

SOC 5500. Applied Sociological Research. Units: 3

This advanced course explores applied sociological and social science methods and frameworks which include evaluation research, public sociology, public policy, and community-based research. The course would include strategies for working with communities and the challenges that come with applied approaches. Satisfies WI designation.

SOC 5510. Borders, Knowledges, and Identities. Units: 3

Semester Prerequisite: SOC 3010 or 3020 and SOC 3070 and SOC 3110 or senior standing or consent of instructor
The course explores the production and reproduction of borders, not just national borders but numerous social and symbolic boundaries that underpin social mobility and immobility, inclusion and exclusion, how people interpret their social world, their identities and resistance. Satisfies G and WI designations.

SOC 5600. Social Determinants of Health. Units: 3

Semester Prerequisite: SOC 3010 or 3020 and SOC 3070 and SOC 3110 or senior standing
Overview of social determinants of health, including sociological theories and methods to examine health disparities among various social groups. The course will investigate social and environmental causes of disease, and contributors to physical and mental health. Additionally, the course will examine how health is impacted by health policies, socioeconomic status, race, gender, insurance status, etc. and ways to reduce and eliminate health disparities. Satisfies WI designation.

SOC 5753. Internship and Practicum. Units: 3

Quarter Prerequisite: Soc 1000

Quarter Corequisite: Consent of instructor

Supervised service-learning work in private companies, non-profit organizations, community-based organizations, or government agencies. Focus on hands-on practices and developing occupational skills.

The course involves class meetings on work progress and career development. Consent of instructor required. In order to receive credit, students are required to complete 120 hours of volunteer work in a semester. Graded credit/no credit. Formerly SOC 575 and SOC 5751.

SOC 5900. Seminar in Sociology. Units: 3

In-depth study of a selected topic in Sociology. Survey of a specific sub-field with an emphasis on writing research papers or research proposals. May be repeated once for a total of 6 units as topics change. Satisfies WI designation.

SOC 5951. Independent Study 1. Unit: 1

Quarter Prerequisite: senior or graduate standing, a minimum overall grade point average of 3

Special topics involving library and/or field research. Consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the semester in which the course is to be taken. May be taken 3 times for 3 units. Formerly SOC 595D.

SOC 5952. Independent Study 2. Units: 2

Semester Prerequisite: SOC 1000

Special topics involving library and/or field research. Consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the semester in which the course is to be taken. May be repeated once for a total of 4 units.

SOC 5953. Independent Study 3. Units: 3

Quarter Prerequisite: Soc 1000

Special topics involving library and/or field research. Consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the semester in which the course is to be taken. May be repeated once for a total of 6 units.

SOC 5971. Honors Seminar 1. Units: 3

Quarter Prerequisite: formal application approved by department chair

First course in the honor sequence. Independent research in an area of sociology, culminating in a major research report. The research project may be quantitative or qualitative. Class meetings focus on developing research designs, refining research ideas, and discussing research ethics and other topics on professional practices. Honor sequence 1 prepares students to collect data, write up, and create presentations during sequence 2. Enrollment limited to students whose formal application for departmental honors is approved. Formerly offered as SOC 597. Satisfies Designation WI.

SOC 5972. Honors Seminar 2. Units: 3

Quarter Prerequisite: SOC 5971

Second course in the honors sequence. Independent research in an area of sociology, culminating in a major research report. The research project may be a quantitative or qualitative. Class meetings explore issues on data collection, write up, presentations, research ethics, and professional practices. Enrollment limited to students whose formal application for departmental honors is approved.

SOC 6000. Proseminar in Sociology. Units: 3

Survey of the concepts and ideas that sociologists employ to study, describe, and analyze globalization and other related issues. Formerly offered as SOC 600.

Spanish (SPAN)**Courses****SPAN 1102. College Spanish II Language Activity. Unit: 1**

Semester Corequisite: Spanish 1112 or consent of department

A minimum of two academic hours (100 minutes) of weekly practice in the language laboratory. Cr/NC only. Must be taken concurrently with Spanish 1112 or consent from Department.

SPAN 1111. College Spanish I. Units: 4

Fundamentals of pronunciation, structure and Hispanic culture designed to develop the ability to use and understand basic spoken Spanish.

Students who have not taken Spanish at California State University, San Bernardino, must take a placement test before registration. Contact department office for details. Materials fee required.

SPAN 1112. College Spanish 2. Units: 3

Quarter Prerequisite: SPAN 102 or consent of department

Emphasis on oral and written competency at the beginning level in a cultural context. Students who have not taken Spanish at California State University, San Bernardino, must take a placement test before registration. Contact department office for details. Satisfies GE C2/3B, DI, G designations. Materials fee required.

SPAN 2111. Intermediate Spanish 1st Semester. Units: 4

Semester Prerequisite: SPAN 1112, SPAN 1113, or equivalent

Review of fundamentals and the study of structural patterns of Spanish. Readings of Spanish and Spanish American authentic cultural materials. Develops students' oral and written Spanish language skills. Students who have not taken Spanish at California State University, San Bernardino must take a placement test before registration. Formerly SPAN 201. Materials fee required.

SPAN 2112. Intermediate Spanish 2nd. Semester. Units: 4

Semester Prerequisite: Spanish 2111 or equivalent. Quarter Prerequisite: SPAN 201 or equivalent

Develops students' oral and written Spanish language skills. Reading and Writing intensive. A skills assessment exam based on defined performance standards is given at the end of the course. New students to the Spanish program must take a placement test before registration. Formerly Spanish 203. Materials fee required.

SPAN 2151. Accelerated Intermediate Spanish. Units: 8

Semester Prerequisite: Spanish 1112 or equivalent. Quarter Prerequisite: Span 103 or equivalent

Intensive course combines the content of the intermediate Spanish course sequence (Spanish 2111 and 2112) at an accelerated pace. The development of listening, speaking, reading and writing skills are emphasized through active use of the language. A Spanish Skills Assessment Exam based on defined performance standards is given at the end of the course. Materials fee required.

SPAN 2204. Conversation. Units: 4

Semester Prerequisite: Spanish 1112 or equivalent. Quarter Prerequisite: SPAN 103 or equivalent

Intensive Spanish oral practice stressing the discussion of current topics, panel discussions, debates, and oral presentations. This course begins with intermediate level oral practice and culminates in advanced levels of oral skills. Formerly SPAN 214. Materials fee required.

SPAN 2251. Intermediate Healthcare Spanish I. Units: 4

Semester Prerequisite: SPAN 1112, SPAN 1113, or equivalent

First course in an intermediate-level two-course sequence in Healthcare Spanish. Develops students' oral and written Spanish language skills, as well as knowledge of cultures with particular attention to healthcare related vocabulary, concepts, and situations. This writing-intensive course requires weekly written assignments and discussion. Formerly SPAN 251. Materials fee required.

SPAN 2252. Intermediate Healthcare Spanish II. Units: 4

Semester Prerequisite: Spanish 2111 or 2251. Quarter Prerequisite: SPAN 251 or equivalent

Second course in an intermediate-level sequence in Healthcare Spanish. Develops students' oral and written Spanish language skills, as well as knowledge of cultures with particular attention to healthcare related vocabulary, concepts, and situations. This writing-intensive course requires weekly written assignments and discussion. At the end of this course, students take the Junior Spanish Skills Assessment Exam to successfully enroll in Upper Division Spanish Language Courses. Formerly SPAN 253. Materials fee required.

SPAN 2261. Intermediate Criminal Justice Spanish I. Units: 4

Semester Prerequisite: SPAN 1112, SPAN 1113, or equivalent

The first course in an intermediate-level two-course sequence in Criminal Justice Spanish. Develops students' oral and written Spanish language skills and knowledge of cultures with particular attention to criminal justice-related vocabulary, concepts, and situations. This course requires weekly written assignments and discussions. Materials fee required.

SPAN 2262. Intermediate Criminal Justice Spanish II. Units: 4

Semester Prerequisite: SPAN 2111 or SPAN 2251 or SPAN 2261

Second course in an intermediate-level two-course sequence in Criminal Justice Spanish. Develops students' oral and written Spanish language skills, as well as knowledge of cultures with particular attention to criminal justice related vocabulary, concepts, and situations. This course requires weekly written assignments and discussion. At the end of this course, students take the Junior Spanish Skills Assessment Exam to successfully enroll in Upper Division Spanish Language Courses. Materials fee required.

SPAN 2900. Spanish Literature and Film in English. Units: 3

Introduction to Spanish literature, drama, and film read in English translation. Satisfies GE C2/3B, DI, G designations. Materials fee required.

SPAN 3051. Culture, Health, and Food in Latin America. Units: 3

Semester Prerequisite: SPAN 2112 or SPAN 2252. Quarter Prerequisite: SPAN 203 or 253 or equivalent

Exploration of culture as related to healthcare practices and nutrition in Latin America and Spanish-speaking communities in the US. Includes oral and written practice of the terminology. Includes activities with an interdisciplinary focus demonstrating cultural knowledge of diverse Hispanic cultures as they relate to healthcare. Materials fee required. Formerly SPAN 351.

SPAN 3061. Criminal Justice and Cultures of Spain and Latin America. Units: 3

Semester Prerequisite: SPAN 2262 or equivalent. Quarter Prerequisite: SPAN 203 or equivalent

Exploration of culture as related to practices in criminal justice in Spain, Latin America, and Spanish-speaking communities in the US. Includes oral and written practice of the terminology. Includes activities with an interdisciplinary focus demonstrating cultural knowledge of diverse Hispanic cultures related to criminal justice.

SPAN 3301. Advanced Spanish Language and Composition. Units: 3

Semester Prerequisite: SPAN 2112 or SPAN 2252 or SPAN 2262

Written and spoken Spanish to increase students' proficiency in advanced composition. Introduction to research and the preparation of critical essays and studies. Orientation to skills, resources, and strategies leading to the development of the Senior E-Portfolio to demonstrate success in the field of Spanish. Materials fee required.

SPAN 3302. Advanced Spanish Language and Composition Writing Lab. Unit: 1

Semester Prerequisite: SPAN 2112 or SPAN 2252 or SPAN 2262

Practice strategies to improve writing and use of grammatical structures. Students implement their Spanish skills by providing supervised and guided Spanish tutoring on campus or in the community as a service-learning activity. Student reports will be included in their E-portfolio. Graded Credit/No Credit.

SPAN 3303. Introduction to Literature in Spanish Speaking World. Units: 3

Semester Prerequisite: SPAN 3301 and SPAN 3302. Quarter Prerequisite: SPAN 302

An analytical study of the literary genres of Spanish and Spanish American literature with the objective of increasing vocabulary, reading for greater understanding, and content analysis. Introduction of key concepts and principles of literary analysis with an emphasis on undergraduate research. Literary critical writing emphasized and writing samples included in the students' E-Portfolio. Materials fee required.

SPAN 3305. Applied Spanish Grammar. Units: 3

Semester Prerequisite: SPAN 2112 or SPAN 2252 or SPAN 2262

A detailed study of the grammatical structures of Spanish (phonetics, phonology, morphology, and syntax). Includes an overview of methods and materials used for teaching Spanish. Requires analysis, discussion in class, and practical application of linguistic principles to the analysis of the Spanish language. Materials fee required.

SPAN 3307. Cultures of Spain. Units: 3

Semester Prerequisite: SPAN 2112 or SPAN 2252 or SPAN 2262

A study of the development of the cultures and origins of Spain, and the formations of identities in its history, literature, film and art. A survey course including lectures, discussion and writing. Materials fee required.

SPAN 3308. Cultures of Spain Activity. Unit: 1

Semester Prerequisite: SPAN 2112 or SPAN 2252 or SPAN 2262

Students demonstrate their acquired Spanish skills by engaging in a supervised and guided service-learning activity in relation to the cultures and origins of Spain. Scaffolding and guidance are provided by the instructor. A specific number of service hours is required. May be in a community or university-sponsored event. Graded Credit/No Credit.

SPAN 3309. Cultures of Spanish America. Units: 3

Semester Prerequisite: SPAN 2112 or SPAN 2252 or SPAN 2262

A study of the development of the cultures and origins of Spanish America, and the formations of identities in its history, literature, film and art. A survey course including lectures, discussion and writing. Materials fee required.

SPAN 3310. Cultures of Spanish America Activity. Unit: 1

Semester Prerequisite: SPAN 2112 or SPAN 2252 or SPAN 2262

Students demonstrate their acquired Spanish skills by engaging in a supervised and guided service-learning activity in relation to the cultures and origins of Spanish America. Scaffolding and guidance are provided by the instructor. A specific number of service hours is required. May be in a community or university-sponsored event. Graded Credit/No Credit.

SPAN 3900. Voices & Visions from the Hispanic World. Units: 3

Manifestations of culture and identity are examined through the study of Hispanic literature, past and present, and of the Spanish-speaking cultures. Satisfies GE C4/UD-3, DI, G, WI designations. Taught in English. May be taken for up to 6 units as topics change, but only 3 units can be used for GE. Materials fee required.

SPAN 4401. Spanish for the Professions. Units: 3

Semester Prerequisite: SPAN 2112 or SPAN 2252 or SPAN 2262

A study of the Spanish terminology and jargon used in various professions. Includes oral and written practice of the terminology and practical application of the newly acquired vocabulary and related cultural aspects. May be taken four times for 12 units as the topic changes. Materials fee required.

SPAN 4402. Spanish for the Professions Activity. Unit: 1

Semester Prerequisite: Span 2112 or Span 2252 or Span 2262

Students demonstrate their acquired Spanish skills by engaging in a supervised and guided in a service-learning activity. It may be in a community, university, or private sector-sponsored events, such as health fairs, radio, and television, in law enforcement, public service conferences, and/or cultural events. Students add their activity reports to their e-portfolio. May be taken four times for four units as the topic changes.

SPAN 4403. Spanish Dialectology. Units: 3

Semester Prerequisite: SPAN 3301 and SPAN 3302. Quarter

Prerequisite: SPAN 302

An introduction to the history and description of existing Spanish varieties in Spain and Latin America. Overview of social factors in language, variation, and change and study of contemporary spoken and written Spanish in the United States. Requires discussion in class and class presentation of original research. Materials fee required.

SPAN 4404. Spanish Dialectology Activity. Unit: 1

Semester Prerequisite: Span 3301 and Span 3302. Prerequisite: Span 302

Students demonstrate their acquired Spanish skills by engaging in a supervised and guided service-learning activity. A specific number of service hours is required. May include providing tutoring in the university setting or in the community, and/or in public service events, conferences, or cultural fairs. Students will add their activity reports to their E-portfolio. Graded Credit/No Credit.

SPAN 4407. Special Topics in Peninsular Literature. Units: 3

Detailed study of representative authors, genres, periods, or regions of Spain. Emphasis on active involvement in investigative undergraduate research. Requires discussion in class and presentation of research demonstrating a deep understanding of subject matter to be included in E-Portfolio. May be taken for credit for 6 units as topics change. Materials fee required.

SPAN 4409. Special Topics in Spanish American Literature. Units: 3

Detailed study of representative authors, genres, periods, or regions of Spanish America. # Emphasis on active involvement in investigative undergraduate research. Requires discussion in class and presentation of research demonstrating a deep understanding of subject matter to be included in E-Portfolio. May be taken two times for a total of six units as topics change. Materials fee required.

SPAN 4411. Special Topics in Spanish Language Cinema and/or Theatre. Units: 3

Semester Prerequisite: SPAN 3301, 3302, 3303, and 3305. Quarter

Prerequisite: SPAN 302, 318, and 402

Detailed study of representative Spanish language cinema and/or theatre. Explores the development of the genre of theater in the Hispanic World in its social, cultural, historical, and political context either across time periods (medieval to 20th century) or within a certain literary movement (Romanticism, Avant-garde movement, etc). May be taken 2 times as topics change for a total of 6 units. Materials fee required.

SPAN 4412. Special Topics in Spanish Language Cinema and/or Theatre Activity. Unit: 1

Semester Prerequisite: Span 3301 and Span 3302, Span 3303, Span

3305. Prerequisite: Span 302, Span 402, Span 318

Includes original research and performance of stage or cinematic productions. May be repeated for a total of 2 units as topics change. Graded Credit/No Credit.

SPAN 4441. Internship Project. Unit: 1

An internship in Spanish may be completed at the Department or the university level or in the community. It must include 30 hours of service in Spanish. May be taken three times for three units. Graded Credit/No Credit. Consent required.

SPAN 4442. Internship Project. Units: 2

An internship in Spanish may be completed at the Department or the university level or in the community. It must include 60 hours of service in Spanish. Graded Credit/No Credit. Department consent required.

SPAN 4443. Internship Project. Units: 3

An internship in Spanish may be completed at the Department or the university level or in the community. It must include 90 hours of service in Spanish. Graded Credit/No Credit. Department consent required.

SPAN 4444. Internship Project. Units: 4

An internship in Spanish may be completed at the Department or the university level or in the community. It must include 120 hours of service in Spanish. Graded Credit/No Credit. Department consent required.

SPAN 5051. Seminar in Healthcare Spanish. Units: 3

Semester Prerequisite: SPAN 4402

Capstone seminar focusing on representative themes in the field of Healthcare Spanish. Includes oral and written practice of the relevant terminology and cultural aspects, as well as a practical application in a healthcare setting. Requires completion of a final project and an e-portfolio. Materials fee required.

SPAN 5501. Seminar in Peninsular Literature, Culture, Theater and Film. Units: 3

Semester Prerequisite: SPAN 3303, SPAN 3305, and SPAN 4401

Capstone seminar focusing on representative themes in the field of Peninsular literature, culture, theater or film. May be taken 2 times for 6 units as topics change. Materials fee required.

SPAN 5502. Peninsular Literature, Culture, Theater, and Film: Portfolio. Unit: 1

Semester Prerequisite: Span 3301 and Span 3302, Span 3303, Span 3305, Span 3307 or Span 3309, Span4401 and Span 4402, Span 4403 and Span 4404. Quarter Prerequisite: Span 302, Span 402, Span 318, Span 415, Span 410 or Span 412

Students will demonstrate their acquired Spanish skills by preparing and completing their senior E-Portfolio. May include delivering a scholarly presentation at a professional meeting or conference with guidance and supervision by the instructor. A Senior Skills Assessment Exam is administered (includes testing proficiency in the subject matter). May be taken 2 times for 2 units. Graded Credit/No Credit.

SPAN 5503. Seminar in Spanish American Literature, Culture, Theater and Film. Units: 3

Semester Prerequisite: SPAN 3302, SPAN 3305, and SPAN 4401

Capstone seminar focusing on representative themes in the field of Spanish American literature, culture, theater or film. May be taken 2 times for 6 units as topics change. Materials fee required.

SPAN 5504. Spanish American Literature, Culture, Theater, and Film: Portfolio. Unit: 1

Semester Prerequisite: Span 3301 and Span 3302, Span 3303, Span 3305, Span 3307 or Span 3309, Span4401 and Span 4402, Span 4403 and Span 4404. Quarter Prerequisite: Span 302, Span 37x, Span 402, Span 318, Span 415, Span 410 or Span 412

Students will demonstrate their acquired Spanish skills by preparing and completing their senior E-Portfolio. May include delivering a scholarly presentation at a professional meeting or conference with guidance and supervision by the instructor. A Senior Skills Assessment Exam is administered (includes testing proficiency in the subject matter). May be taken 2 times for 2 units. Graded Credit/No Credit.

SPAN 5505. Seminar in Hispanic Linguistics. Units: 3

Semester Prerequisite: SPAN 3303, SPAN 3305, and SPAN 4401

Capstone seminar in Hispanic linguistics. May be taken 2 times for 6 units as topics change. Materials fee required.

SPAN 5506. Hispanic Linguistics: Portfolio. Unit: 1

Semester Prerequisite: Span 3301 and Span 3302, Span 3303, Span 3305, Span 3307 or Span 3309, Span4401 and Span 4402, Span 4403 and Span 4404. Quarter Prerequisite: Span 302, Span 402, Span 318, Span 415, Span 410 or Span 412, Span 401, Span 416

Students will demonstrate their acquired Spanish skills by preparing and completing their senior E-Portfolio. May include delivering a scholarly presentation at a professional meeting or conference with guidance and supervision by the instructor. A Senior Skills Assessment Exam is administered (includes testing proficiency in the subject matter). May be taken 2 times for 2 units. Graded Credit/No Credit.

SPAN 5507. Seminar in Special Interdisciplinary Topics in Spanish Literature, Linguistics, or Culture. Units: 3

Semester Prerequisite: SPAN 3303 and SPAN 3305 and SPAN 4401

Seminar focusing on a significant interdisciplinary theme involving literatures, linguistics or cultures of Spain and/or Spanish America. May be taught in Spanish or English. Requires completion and presentation of a final project. May be taken two times for six units. Materials fee required.

SPAN 5555. Study Abroad and International Experience. Unit: 1

Semester Prerequisite: Instructor consent. Quarter Prerequisites:

Instructor consent

Research project based on traveling or living in a Spanish-speaking country. Research for the project will be completed in the country of choice. When study is associated with an academic program, copies of grades, syllabus and submitted work may substitute for research project. May be repeated for credit for a total of 2 units. Graded credit/no credit.

SPAN 5556. Study Abroad and International Experience. Units: 2

Semester Prerequisite: Instructor consent. Quarter Prerequisite: Instructor consent

Research project based on traveling or living in a Spanish-speaking country. Research for the project will be completed in the country of choice. When study is associated with an academic program, copies of grades, syllabus and submitted work may substitute for research project. May be repeated for credit for a total of 4 units. Graded credit/no credit.

SPAN 5557. Study Abroad and International Experience. Units: 3

Semester Prerequisite: Instructor consent. Quarter Prerequisite: Instructor consent

Research project based on traveling or living in a Spanish-speaking country. Research for the project will be completed in the country of choice. When study is associated with an academic program, copies of grades, syllabus and submitted work may substitute for research project. May be repeated for credit for a total of 6 units. Graded credit/no credit.

SPAN 6606. Research Methods. Units: 3

Quarter Prerequisite: Graduate standing or consent of the graduate committee

Introduction to bibliography, research techniques, professional discourse styles, analysis and application of methods of contemporary literary theory and criticism. This course is a prerequisite to all 600-level courses in the M.A. in Spanish. It fulfills the writing intensive mandatory course requirement. Formerly offered as SPAN 606. Materials fee required.

SPAN 6608. History of the Spanish Language. Units: 3

Semester Prerequisite: SPAN 6606, graduate standing or consent of the graduate committee/coordinator. Quarter Prerequisite: SPAN 606, graduate standing or consent of the graduate committee/coordinator
Diachronic study of the development of Spanish from Latin to modern varieties of the language. In-depth analysis of phonological, morphological, and syntactic changes related to relevant events of Spanish and Spanish American history. Formerly SPAN 608. Materials fee required.

SPAN 6615. Second Language Acquisition in Spanish. Units: 3

Semester Prerequisite: Graduate standing, or consent of the graduate committee. Quarter Prerequisite: Graduate standing, or consent of the graduate committee

Study and application of current theories, research practices, and practical applications in second language acquisition with discussion of the development of different instructional approaches in relation to language acquisition theories focusing on current Spanish teaching practices. Materials fee required. Formerly offered as SPAN 615.

SPAN 6620. General Spanish Linguistics. Units: 3

Semester Prerequisite: Graduate standing and SPAN 6606, or consent of the graduate committee. Quarter Prerequisite: Graduate standing and SPAN 606, or consent of the graduate committee

Linguistics of the Hispanic World. Intensive study of contemporary issues in Spanish linguistics. Materials fee required. Formerly offered as SPAN 620 (Topics A-D).

SPAN 6625. Spanish Peninsular Literature. Units: 3

Semester Prerequisite: Graduate standing and SPAN 6606, or consent of the graduate committee. Quarter Prerequisite: Graduate standing and SPAN 606, or consent of the graduate committee

Advanced study of the literature of Spain from Medieval to Contemporary times. Formerly SPAN 650 A-D. Materials fee required.

SPAN 6630. Spanish American Literature. Units: 3

Semester Prerequisite: Graduate standing and SPAN 6606, or consent of the graduate committee. Quarter Prerequisite: Graduate standing and SPAN 606, or consent of the graduate committee

Advanced study of the literature of Spanish America from Colonial to Contemporary periods. Formerly SPAN 651 A-D. Materials fee required.

SPAN 6650. Spanish Peninsular Literature and Culture. Units: 3

Semester Prerequisite: Graduate standing and SPAN 6606, or consent of the graduate committee/coordinator. Quarter Prerequisite: Graduate standing and SPAN 606, or consent of the graduate committee/coordinator

Intensive study of significant works or a principal author from Spanish Peninsular literature and culture, from medieval to 21st century. Analysis and application of methods of contemporary literary theory and criticism employing principal texts from Spanish literature. A maximum of 6 units (different topics) may be applied toward the M.A. in Spanish. Formerly offered as SPAN 625A. Materials fee required.

SPAN 6651. Spanish American Literature and Culture. Units: 3

Semester Prerequisite: Graduate standing and SPAN 6606, or consent of the graduate committee/coordinator. Quarter Prerequisite: Graduate standing and SPAN 606, or consent of the graduate committee/coordinator

Intensive study of significant works or a principal author from Spanish-American Literature and Culture, or Latino cultures. Analysis and application of methods of contemporary literary theory and criticism employing principal texts from Spanish-American Literature. May be taken for up to 6 units as topics change for the M.A. in Spanish. Formerly offered as SPAN 630A. Materials fee required.

SPAN 6652. Modern Spanish American Literature. Units: 3

Advanced study of important contemporary aspects of Spanish-American culture and literature. May be taken two times for six units as topics change. Formerly 652A. Materials fee required.

SPAN 6653. Contemporary Chicanx/Latinx Literature in Spanish. Units: 3

Semester Prerequisite: graduate standing and SPAN 6606, or consent of the graduate committee/coordinator. Quarter Prerequisite: graduate standing and SPAN 606, or consent of the graduate committee/coordinator

Intensive analysis of works by Chicanx and Latinx writers in Spanish in the United States. Formerly offered as SPAN 653. Materials fee required.

SPAN 6654. Modern Spanish Peninsular Literature. Units: 3

Semester Prerequisite: Graduate standing and SPAN 6606, or consent of the graduate committee/coordinator. Quarter Prerequisite: Graduate standing and SPAN 606, or consent of the graduate committee/coordinator

Advanced study of the literature of the eighteenth to twenty-first centuries in Spain. A maximum of 6 units (different topics) may be applied to the M.A. in Spanish. Formerly SPAN 654A. Materials fee required.

SPAN 6655. Spanish Applied Linguistics. Units: 3

Semester Prerequisite: SPAN 6606, and graduate standing; or consent of the graduate committee/coordinator. Quarter Prerequisite: SPAN 606, and graduate standing; or consent of the graduate committee/coordinator. Study and discussion of current issues in Hispanic applied linguistics relevant to the following professions: Spanish teachers, translators, bilingual administrators, bilingual media specialist. A maximum of 6 units (different topics) may be applied toward the M.A. in Spanish. Formerly SPAN 665A. Materials fee required.

SPAN 6656. Spanish Semantics and Pragmatics. Units: 3

Semester Prerequisite: Graduate standing and SPAN 6606, or consent of graduate committee/coordinator. Quarter Prerequisite: Graduate standing and SPAN 606, or consent of graduate committee/coordinator. Study of noun and verbal systems of the Spanish language, as found in a variety of discourses, and analysis of forms and functional meaning in social contexts. Formerly SPAN 656. Materials fee required.

SPAN 6661. Graduate Portfolio. Unit: 1

Semester Prerequisite: Graduate standing or consent of Graduate Committee/Coordinator. Quarter Prerequisite: Graduate standing or consent of Graduate Committee/Coordinator. Preparation and submission of a portfolio with appropriate reflective writing samples and experiences of Spanish language instruction at the college level. Includes a discussion of current instructional methodology for foreign languages and a field component consisting of observation and teaching of college level Spanish language classes. Graded credit/no credit. Formerly offered as SPAN 696. Materials fee required.

SPAN 6695. Comprehensive Exam Preparation: Spanish Literature. Unit: 1

Guided practice of essay writing covering major aspects of critical literary analysis.

SPAN 6696. Comprehensive Exam Preparation: Spanish American Literature. Unit: 1

Guided practice of essay writing covering fundamental areas of literary analysis.

SPAN 6697. Comprehensive Exam Preparation: Spanish Linguistics. Unit: 1

Guided practice of essay writing covering fundamental areas of Spanish linguistics and analysis.

SPAN 6698. Comprehensive Examination. Units: 0

Semester Prerequisite: Department Consent Required. Written and oral examination covering Spanish linguistics, peninsular literature and culture, Spanish-American literature and culture, and Latino cultures in the United States. Examination is based on the core of required classes for the M.A. in Spanish as well as a reading list. Student must pass exam and any retests within one year of completion of the core and elective courses. Exam may be repeated once, and only the sections failed will be retested. Formerly SPAN 697. Materials fee required.

SPAN 6991. Continuous Enrollment for Graduate Candidacy Standing. Unit: 1

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in 6991 each semester until the project or thesis is accepted or the comprehensive examination passed. Students who enroll in 6991 through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. See fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid. Formerly offered as SPAN 698.

Social Sciences (SSCI)

Courses

SSCI 1110. Reacting to the Past: Social Sciences Perspectives. Units: 3

Examination of a critical change in social sciences through the study of the context and impact of a specific idea, innovation or discovery. Using the "Reacting to the Past" approach, students play complex role-playing games informed by important historical sources (specific themes and topics may vary). Students will develop skills in information literacy, collaboration, speaking, and writing as they pursue assigned roles' objectives by convincing classmates of their views. Following each game, debriefing will facilitate a deeper understanding of the focus concepts and provide reflection about how learning occurred through the game. These skills are critical foundations of success in any field of study at the University and beyond. Satisfies Big Ideas that Change the World: Exploring Ideas, Innovations, Discoveries pathway.

SSCI 3000. Global Issues and Perspectives. Units: 3

Studies current pressing issues ('wicked problems') facing the global community. This course explores various issues facing the global community using various social science perspectives to explore these issues and how to best address these pressing issues. The course focuses on one topic per term and the topics vary from term to term. May be repeated for credit as topics change. Students may take any combination of SSCI 3000 and SSCI 3001, for a maximum of 9 units. Satisfies GE D4/UD-4, DI, G designations, Global Connections pathway.

SSCI 3001. Global Issues and Perspectives. Units: 3

Studies current pressing issues ('wicked problems') facing the global community. This course explores various issues facing the global community using various social science perspectives to explore these issues and how to best address these pressing issues. The course focuses on one topic per term and the topics vary from term to term. May be repeated for credit as topics change. Students may take any combination of SSCI 3000 and SSCI 3001, for a maximum of 9 units. Satisfies GE D4/UD-4, DI, G, WI designations, Global Connections pathway.

SSCI 3010. Revolutions and Revolutionary Ideas. Units: 3

Studies social and political revolutions and revolutionary movements throughout history. The course explores how ideas forwarded by various revolutionaries and movements shaped and continue to influence our modern world, paying special attention to social, economic, and/or political programs of revolutionaries and to the global impact and circulation of their message/ideas. Satisfies GE D4/UD-4, DI, G designations.

SSCI 3011. Revolutions and Revolutionary Ideas. Units: 3

Studies social and political revolutions and revolutionary movements throughout history. The course explores how ideas forwarded by various revolutionaries and movements shaped and continue to influence our modern world, paying special attention to social, economic, and/or political programs of revolutionaries and to the global impact and circulation of their message/ideas. Satisfies GE D4/UD-4, DI, G, WI designations, Global Connections pathway.

SSCI 3020. The 20th Century World. Units: 3

Major events and significant individuals of the 20th century are explored and analyzed.

SSCI 3060. Expository Writing for the Social Sciences. Units: 3

Semester Prerequisite: GE 1C

Writing Intensive Course on topics in the social sciences. Instruction on literary quality development, proper citation formatting, documented research reports writing, summaries and analytical papers. Revision and rewriting will be required. Course fulfills the graduation requirement in writing proficiency. Students who have received a grade of no credit in any combination of the expository writing courses two or more times must meet with the 3060 coordinator or designee to design a developmental writing plan as a condition for enrolling for a third quarter. All students must obtain junior status at the time of registration or their course request will be cancelled. Satisfies WI designation.

SSCI 3160. Race and Racism. Units: 3

Quarter Prerequisite: Junior or senior standing

An interdisciplinary and cross-cultural examination of the concepts of race, ethnic group, prejudice and racism which includes studies of changing prejudiced attitudes. Satisfies GE D4/UD-4, DI, G designations.

SSCI 3250. Perspectives on Gender. Units: 3

Quarter Prerequisite: junior or senior standing

This interdisciplinary course uses scientific, humanistic, and social science perspectives to foster an understanding of how gender functions in individual lives, societies, and cultures. (Offered as CAL 3250, SSCI 3250 and NSCI 3250. Students may receive credit for only one of these courses.) Satisfies GE D4/UD-4, DI designation.

SSCI 3290. Topics in Social Science. Units: 3

Examination of popular and significant topics in social science. May be taken 3 times for a total of 9 units, as topics change.

SSCI 3320. Understanding Capitalism. Units: 3

Quarter Prerequisite: junior or senior standing

Exploration into the origins and nature of capitalism. Study of the political, cultural, and ideological structures that arise alongside capitalism. Consideration of differences between capitalism in different countries. The development of capitalism at the global level. Satisfies GE D4/UD-4, G designation, Big Ideas that Change the World: Exploring Ideas, Innovations, Discoveries pathway.

SSCI 3368. U-RISE Seminar I. Units: 2

Semester Prerequisite: Admissions to the URISSE program and consent of instructor

A selected examination of original research articles in behavioral and biomedical sciences. Students will learn to critically read, critique, and present published scientific findings. Offered as NSCI 3368, PSYC 3368, and SSCI 3368 (students may receive credit for only one of these courses). Enrollment is limited to students whose formal application to the Undergraduate Research Training Initiative for Student Enhancement (U-RISE) program is approved. Formerly offered as NSCI 368, PSYC 369, SSCI 368.

SSCI 3390. Climate Change. Units: 3

The causes and consequences of climate change. Economic, political, cultural, ideological, and psychological factors are involved in climate change. Policies are proposed to mitigate climate change and facilitate adaptation to climate change. Global, national, and local aspects of climate change. Satisfies GE D4/UD-4, G designation, Environmental Sustainability pathway.

SSCI 4468. U-RISE Seminar II. Units: 2

Semester Prerequisite: NSCI 3368, PSYC 3368, or SSCI 3368. Quarter Prerequisite: NSCI 368, PSYC 368 or SSCI 368

A selected examination of original research articles in behavioral and biomedical sciences focuses on improving scientific writing skills, shaping long-term research projects, and developing research funding proposals. Offered as PSYC 4468, NSCI 4468, and SSCI 4468 (students may receive credit for only one of these courses). Enrollment is limited to students whose formal application to the Undergraduate Research Training Initiative for Student Enhancement (U-RISE) program is approved. Formerly known as NSCI 468, PSCI 468, SSCI 468.

SSCI 5000. Credit For Prior Learning. Units: 3

Students may receive college credit for their Prior Learning outside of a traditional classroom in a professional environment. Can be taken a maximum of two times for a total of six units. Graded credit/no credit.

SSCI 5750. Social Science Internship. Units: 3

Quarter Prerequisite: consent of the internship coordinator or department chair/coordinator

Supervised work and study in work situations involving social science skills. May be repeated once for a total of 6 units. Graded Credit/no credit.

SSCI 5761. Study Abroad. Units: 3

Explore issues related to the social and behavioral sciences through a pre-approved study abroad program at CSUSB. Department consent required.

SSCI 5799. California Water History and Resource Management. Units: 3

This course examines water in California Culture, History and Resource Management.

SSCI 5940. Senior Seminar. Units: 3

Quarter Prerequisite: senior standing

Assessment of the students academic progress through the preparation and submission of a portfolio of completed course work. Students also compose a research essay in one of the social science, arts or humanities fields, in consultation with the instructor. Satisfies WI designation.

SSCI 5950. Social Science Independent Study. Units: 3

Quarter Prerequisite: a minimum overall grade point average of 3

Special topics in social science research. A total of six units in SSCI 5950 may be applied toward the SSCI major and be applied toward graduation. Consent of the department chair/coordinator, filed in advance of the quarter in which the course is to be taken.

SSCI 5951. Social Science Independent Study. Unit: 1

Special topics in social science research. A total of six units of Social Science Independent Study (SSCI) may be applied toward the SSCI major. Consent of the department chair/coordinator, filed in advance of the term in which the course is to be taken. Make by taken 6 times for a total of 6 units.

SSCI 5952. Social Science Independent Study. Units: 2

Special topics in social science research. A total of six units of Social Science Independent Study (SSCI) may be applied toward the SSCI major. Consent of the department chair/coordinator, filed in advance of the term in which the course is to be taken. May be taken 3 times for a total of 6 units.

SSCI 5973. Social Science Honors Project. Units: 3

Original research or project in an area of the social sciences, culminating in a major research report or scholarly paper. A minimum GPA of 3.5 and department consent required.

SSCI 6000. Social and Cultural Perspectives in the Social Sciences. Units: 3

The relationship of values, behavior, social setting, and environment in the analysis of human interaction. Both intracultural and crosscultural perspectives will be addressed in light of interdisciplinary social science theories. Substantive and methodological contributions will be presented. Formerly known as SSCI 600.

SSCI 6010. Social Science Colloquium. Units: 2

Bi-Weekly research presentations by faculty, students, and visitors in multiple fields of Social Science on rotating topics. Supplemented by class discussions and online coursework related to these presentations and other material on current research interdisciplinary methodology. May be repeated for credit as topics change. Graded Credit/No credit.

SSCI 6020. Professional Development and Portfolio. Units: 2

Introduces students to professionalism in their academic disciplines and in academia, including conference proposals, presentation skills, curriculum vitae development, grant writing, networking, and program required digital portfolios.

SSCI 6030. Teaching Social Science Practicum. Units: 3

Methods of teaching within one or more disciplines in social sciences, observation of classroom management, development of syllabi and lectures, supervised teaching in the university classroom, and supervised assessment of student work.

SSCI 6200. Advanced Studies Of The 20th Century World. Units: 3

Advanced study of the major events and significant individuals of the 20th century are explored and analyzed.

SSCI 6750. Advanced Internship in the Social Sciences. Units: 3

Advanced supervised work and study in professional situations involving social science skills. May be repeated once for credit. May be taken 2 times for 6 units. Graded credit/no credit.

SSCI 6940. Directed Graduate Research. Units: 3

Graduate-level directed research for students conducting research under the direction of their faculty advisor and/or thesis/project committee chair. Department consent required.

SSCI 6950. Directed Graduate Studies. Units: 3

Graduate-level independent study for students; to be conducted under direct supervision of a faculty member from the student's committee and approval from the appropriate graduate coordinator.

SSCI 6973. Graduate Project or Thesis. Units: 3

Quarter Prerequisite: advancement to candidacy and consent of program coordinator

Independent graduate project or research conducted under guidance of the major advisor culminating in a written project or thesis. Graded Credit/No credit. Formerly offered as SSCI 699.

SSCI 6983. Comprehensive Examination. Units: 3

Quarter Prerequisite: approval of the department, completion of a minimum of two thirds of the course work in the master's program, and in good academic standing

Assessment of the student's ability to apply the theories, methods and understanding of the social sciences to the phenomena of globalization and in their area of specialization.

SSCI 6990. Continuous Enrollment for Graduate Candidacy Standing. Units: 0

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

SSCI 6991. Continuous Enrollment for Graduate Candidacy Standing. Unit: 1

Quarter Prerequisite: Advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

SSCI 6992. Continuous Enrollment for Graduate Candidacy Standing. Units: 2

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

SSCI 6993. Continuous Enrollment for Graduate Candidacy Standing. Units: 3

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

SSCI 6994. Continuous Enrollment for Graduate Candidacy Standing. Units: 4

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

SSCI 6995. Continuous Enrollment for Graduate Candidacy Standing. Units: 5

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

SSCI 6996. Continuous Enrollment for Graduate Candidacy Standing. Units: 6

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

Social Work (SW)

Courses

SW 2000. Introduction to Social Work. Units: 3

Introductory survey of levels of social work practice and fields of practice. Review of NASW professional code of ethics and social work resources. Formerly offered as SW 200.

SW 3001. Social Welfare Policy I. Units: 3

Semester Prerequisite: Admission into the BASW Program. Quarter Prerequisite: admission to BASW program
History of social work, development of structures of social welfare services and the role of policy in service delivery in Social Work. Formerly offered as SW 300A.

SW 3002. Social Welfare Policy II. Units: 3

Semester Prerequisite: SW 3001. Quarter Prerequisite: SW 300A
Frameworks for policy analysis of social welfare policies and social service delivery in organizational, local, state, national and international settings. Introductory social work policy practice skills. Formerly offered as SW 300B.

SW 3010. Social Work Research. Units: 3

Semester Prerequisite: Admission into the BASW Program. Quarter Prerequisite: SW 300B and SW 302B
Social Work approaches to qualitative and quantitative research that builds knowledge for social work practice. Interpreting and applying social work practice research to students own practice. Skills needed to implement a social work research project in a social work setting. Three hours of lecture and three hours of lab. Satisfies WI designation.

SW 3011. Social Work Research. Units: 3

Social Work approaches to qualitative and quantitative research that builds knowledge for social work practice. Interpreting and applying social work practice research to students own practice. Skills needed to implement a social work research project in a social work setting. Three hours of lecture and three hours of lab. Equivalent to SW 3010, cannot receive credit for both. Satisfies WI designation.

SW 3021. Human Behavior and the Social Environment I. Units: 3

Semester Prerequisite: Admission into the BASW Program. Quarter Prerequisite: admission to BASW Program

Theories and knowledge of human bio-psycho-social development from birth to young adulthood, including theories and knowledge about the range of social systems in which individuals live (families, groups, organizations, institutions and communities). Interactions between and among human biological, social, psychological and cultural systems as they affect and are affected by human behavior. Formerly offered as SW 302A.

SW 3022. Human Behavior and the Social Environment II. Units: 3

Semester Prerequisite: SW 3021

Theories and knowledge of human bio-psycho-social development in relation to adulthood and aging. Includes theories and knowledge about the range of social systems in which individuals live (families, groups, organizations, institutions and communities). Interactions between and among human biological, social, psychological and cultural systems as they affect and are affected by human behavior. Satisfies DI designation.

SW 4001. Social Work Practice I. Units: 3

Semester Prerequisite: SW 3002 and SW 3022. Quarter Prerequisite: SW 301

Theories, models and skills for social work interventions with individuals and families using a generalist model of social work practice. Designed to run concurrently with the field placement education.

SW 4002. Social Work Practice II. Units: 3

Semester Prerequisite: SW 4001. Quarter Prerequisite: SW 400A
Theories, models and skills for social work interventions with groups, communities, and organizations using a generalist model of social work practice. Designed to run concurrently with the field placement education.

SW 4011. Field Work. Units: 3

Semester Prerequisite: SW 3002 and SW 3022. Quarter Prerequisite: SW 301

Practice experience in public and private social service agencies with individuals, families, groups, formal organizations and communities. Field placement hours (240) and monthly seminar. Graded credit/no credit.

SW 4012. Field Work II. Units: 3

Semester Prerequisite: SW 4001 and SW 4011. Quarter Prerequisite: SW 301

Practice experience in public and private social service agencies with individuals, families, groups, formal organizations and communities. Field placement hours (240) and monthly seminar. Graded credit/no credit.

SW 4181. Social Work Practicum I. Units: 5

Semester Corequisite: SW 4001

Practice experience in public and private social service agencies with individuals, families, groups, formal organizations and communities. Practicum placement hours (240) and monthly seminar. Graded credit/no credit. Equivalent to SW 4011, cannot receive credit for both.

SW 4182. Social Work Practicum II. Units: 4

Semester Prerequisite: SW 4181 (formerly known as 4011)

Semester Corequisite: SW 4002

Practice experience in public and private social service agencies with individuals, families, groups, formal organizations and communities. Practicum placement hours (240) and monthly seminar. Graded credit/no credit. Equivalent to SW 4012, cannot receive credit for both.

SW 5031. Social Work in the Global Perspective. Units: 3

Major concepts and practices in international social work. Includes a study abroad component. Formerly known as SW 6031.

SW 5033. Social Work Intervention with Older Adults and Their Families. Units: 3

Quarter Prerequisite: SW 604B

Interventions with older adults and their families. Case management functions of social work practice with older adults and their families as well as clinical interventions for problems in later life. Formerly known as SW 6033.

SW 5034. Social Work with Alcohol and Drug Abuse II. Units: 3

Quarter Prerequisite: SW 604B

An examination of theories, research and treatment regarding alcohol and drug abuse. Satisfies California LCSW and MFCC requirement. Formerly known as SW 6034.

SW 5038. Public Child Welfare: Policy and Practice. Units: 3

Public child welfare services and issues from an advanced generalist perspective. Prepares social work students for evidence-based, culturally responsive, family-focused, strength-based, and outcome-oriented child welfare practice. Formerly known as SW 6038.

SW 5052. Social Welfare and American Indian/Alaska Native People. Units: 3

Semester Prerequisite: Junior, senior, or graduate student standing required, optional 10 day course trip requires application and fees
This course examines the social welfare of American Indian and Alaska Native people and tribes, focusing on historical efforts to undermine tribes' very existence. Students will explore the ways tribes draw on sovereignty, cultural beliefs, and kinship networks to counter these efforts. In addition, students will interrogate the roles of social welfare policies and providers in harming Native communities and analyze contemporary efforts to provide culturally competent services. An optional 10 day service learning trip to the Pine Ridge Indian Reservation in South Dakota allows students to examine these social issues in depth among the Oglala Lakota people.

SW 5053. Social Work Practice with the LGBTQ2SIA+ Community. Units: 3

Integration of psychological, social, and political issues with which social workers should be familiar when working with members of the LGBTQ2SIA+ community.

SW 5054. Diversity, Equity, and Inclusion in Social Work Practice. Units: 3

This course examines diversity, equity, and inclusiveness, of specialized minority groups and subgroups within the context of social work practice. The course aims to enhance cultural competence/humility, by raising students' awareness of their own values, assumptions, and biases, as well as their relationships and styles of interaction and communication with people from cultures different than their own.

SW 5900. Special Topics. Units: 3

Semester Prerequisite: Admission into the BASW Program. Quarter

Prerequisite: admission to the BASW Program

Special topics in social work. May be repeated for credit with consent of instructor as topics change. Formerly offered as SW 590.

SW 5951. Independent Study. Unit: 1

Special topics involving library and/or field research. May be repeated four times for four units. No more than four units of 5951-5953 may be awarded. Department consent required.

SW 5952. Independent Study. Units: 2

Special topics involving library and/or field research. May be repeated two times for four units. No more than four units of 5951-5953 may be awarded. Department consent required.

SW 5953. Independent Study. Units: 3

Quarter Prerequisite: consent of instructor

Special topics involving library and/or field research. No more than four units of 5951-5953 may be awarded. Department consent required.

SW 5973. Social Work Honors Project. Units: 3

Semester Prerequisite: SW 3010 and consent of the instructor. Quarter Prerequisite: SW 301 and consent of instructor

Original in-depth research in an area of social work practice.

SW 6011. Social Work Research I. Units: 3

Semester Prerequisite: SW 6041 and SW 6042. Quarter Prerequisite: SW 604B

Introduction to research methods, ethics, and politics of research, the role of research in social work practice, sampling techniques, measurement, data analysis, research designs, problem formulation, and literature review. Culminates in a preliminary Research Project Proposal. Formerly offered as SW 612.

SW 6012. Social Work Research II. Units: 3

Semester Prerequisite: SW 6011. Quarter Prerequisite: SW 612
Continued refinement of the Research Project Proposal. Revision and expansion of various quantitative and qualitative research methodologies, preparation and completion of human subjects application, and an introduction to computerized analysis. Formerly offered as SW 613.

SW 6013. Research Project I. Unit: 1

Semester Prerequisite: SW 6012. Quarter Prerequisite: SW 613
A culminating graduate experience in which a practice issue specific to the students field setting and specialization is objectively evaluated and presented orally and in writing. Students gather data and complete initial stages of implementation of research project under individual supervision. Formerly offered as SW 625A.

SW 6014. Research Project II. Units: 2

Semester Prerequisite: SW 6013. Quarter Prerequisite: SW 625A
Culminating graduate experience in which a practice issue specific to the students field setting and specialization is objectively evaluated and presented orally and in writing. Students complete data analysis, write the research report and present findings under individual supervision. Formerly offered as SW 625B.

SW 6015. Social Work Research Bridge. Units: 2

Semester Prerequisite: Admission into the Advanced Standing MSW program

Review of social work research methods, ethics, and politics of research, the role of research in social work practice, identifying reputable research materials, sampling techniques, measurement, data analysis, research designs, problem formulation, and literature review and synthesis.

Students will be able to develop mastery in formulating research problem statements as well as appropriate research questions and/or hypotheses. Cumulates in a preliminary Research Project Proposal.

SW 6016. Social Work Research III. Units: 3

Semester Prerequisite: SW 6011 and SW 6012

A culminating graduate experience in which a practice issue specific to the student's practicum setting and/or specialization is presented orally and in writing. Students complete a Research Project proposal, submit the final proposal to Graduate Studies for publication, and present the proposed study in the form of a poster.

SW 6021. Generalist Micro Practice I. Units: 3

Semester Prerequisite: Classified graduate standing in the MSW program.

Quarter Prerequisite: classified graduate standing in the MSW program and consent of department

Semester Corequisite: SW 6081

Introduction to generalist model of practice with individuals, families and groups across diverse populations, comparative theories of micro practice, introductory assessment, diagnosis and intervention skills. History of micro practice, application of beginning phases of generalist intervention model. Formerly offered as SW 602A.

SW 6022. Generalist Micro Practice II. Units: 3

Semester Prerequisite: SW 6021. Quarter Prerequisite: SW 602A, classified graduate standing in the MSW program and consent of department

Semester Corequisite: SW 6082

Continued introduction to the generalist model of practice with individuals, families, and groups across diverse populations, comparative theories of micro practice, and intervention skills. Continued application of the generalist intervention model. Formerly offered as SW 602B.

SW 6023. Advanced Generalist Micro Practice I. Units: 3

Semester Prerequisite: SW 6022. Quarter Prerequisite: SW 602C

Semester Corequisite: SW 6083

Advanced theories, models, and skills applied to practice with diverse populations of individuals, groups and families. Micro practice in complex, interprofessional, interagency contexts. Formerly offered as SW 645.

SW 6024. Advanced Generalist Micro Practice II. Units: 3

Semester Prerequisite: SW 6023. Quarter Prerequisite: SW 645

Semester Corequisite: SW 6084

Continued advanced theories, models, and skills applied to practice with diverse populations of individuals, groups and families. Integration of advanced generalist skills and models of practice. Formerly offered as SW 646.

SW 6034. Addictions in Social Work Practice. Units: 3

Semester Prerequisite: Admission into the MSW Program

The design of this course will provide students with an introduction to a comprehensive, system-based examination of substance abuse and dependence.

SW 6035. Generalist Practice Bridge. Units: 3

Semester Prerequisite: Admission into the Advanced Standing MSW program

Writing intensive course giving instruction into the generalist model of practice with individuals, families, groups, organizations/agencies, and communities across diverse populations, social work ethics, comparative theories of practice, and intervention skills. This course blends contents of micro practice, macro practice, and human behavior in the social environment. This course provides students with an overview of psychopathology and diagnosis of mental disorders, and applies transdisciplinary theories toward understanding how pertinent macro issues (e.g., poverty, immigration, and racism) impact individuals' daily lives.

SW 6041. Human Behavior in the Social Environment: Lifespan Development. Units: 3

Semester Prerequisite: classified graduate standing in the MSW program.

Quarter Prerequisite: classified graduate standing in the MSW program and consent of department

Critical examination and application of biological, psychological, and social aspects of human development from infancy through old age. Major theories, risk and protective factors. Formerly offered as SW 604A.

SW 6042. Human Behavior in the Social Environment: Critical Topics. Units: 3

Semester Prerequisite: SW 6041. Quarter Prerequisite: SW 604A, classified graduate standing in the MSW program and consent of department

Writing intensive course covering social work ethics, generalist practice, social systems theory, strengths perspective, empowerment, diversity, and oppression/discrimination. Also covers human sexuality, addiction, and beginning theoretical content on family and group dynamics. Formerly offered as SW 604B.

SW 6061. Generalist Macro Practice I. Units: 3

Semester Prerequisite: classified graduate standing in the MSW program.

Quarter Prerequisite: classified graduate standing in the MSW program and consent of department

Overview of social welfare, social service sectors, and social work history and its mission in the U.S. Introduction to generalist model of practice with communities including theories of practice for planned change within communities. Formerly offered as SW 606A.

SW 6062. Generalist Macro Practice II. Units: 3

Semester Prerequisite: SW 6061. Quarter Prerequisite: SW 606A, classified graduate standing in the MSW program and consent of department

Introduction to social welfare legislation and policy analysis within the social, economic, and political context of the U.S. Emphasis on theories and skills for policy advocacy practice in the community, organizational/agency, and legislative arenas. Formerly offered as SW 606B.

SW 6063. Advanced Generalist Macro Practice I. Units: 3

Semester Prerequisite: SW 6062. Quarter Prerequisite: SW 606C
Theories and practice models of organizational/agency development, management, and, administration. Emphasis on managing and leading change within complex organizations. Formerly offered as SW 655.

SW 6064. Advanced Generalist Macro Practice II. Units: 3

Semester Prerequisite: SW 6063. Quarter Prerequisite: SW 655
Strategies and skills for leading large-scale change to address complex social problems through inter-agency/inter-professional collaboration & innovation. Formerly known as SW 656.

SW 6081. Generalist Field Work I. Units: 3

Semester Prerequisite: Classified graduate standing in the MSW program and consent of department. Quarter Prerequisite: classified graduate standing in the MSW program and consent of department
Semester Corequisite: SW 6021

Orient students to social work profession, define core areas of competent practice, and discuss application of theory to micro and macro practice within the context of field practicum and field seminar. Attain generalist practice experience in social service agencies with diverse populations of individuals, families, groups, organizations and communities. Field placement hours (240) and monthly seminar. Graded Credit/No credit. Formerly offered as SW 608A.

SW 6083. Advanced Generalist Field Work I. Units: 3

Semester Prerequisite: SW 6082. Quarter Prerequisite: SW 608C, classified graduate standing in the MSW program and consent of department

Semester Corequisite: SW 6023

Case conceptualization from an interprofessional, collaborative, and interagency perspective. Examine the roles, responsibilities, and characteristics of change agency and leadership in diverse complex situations within micro and macro practice settings. Attain advanced practice experience in social service agencies with diverse populations of individuals, families, groups, organizations and communities. Field placement hours (300) and monthly seminar. Graded Credit/No credit. Formerly offered as SW 608D.

SW 6084. Advanced Generalist Field Work II. Units: 3

Semester Prerequisite: SW 6083. Quarter Prerequisite: SW 608D, classified graduate standing in the MSW program and consent of department

Semester Corequisite: SW 6024

Continued case conceptualization from an interprofessional, collaborative, and interagency perspective. Examine the roles, responsibilities, and characteristics of change agency and leadership in diverse complex situations within micro and macro practice settings. Attain advanced practice experience in social service agencies with diverse populations of individuals, families, groups, organizations, and communities. Field Placement hours (300) and monthly seminar. Graded Credit/No credit. Formerly offered as SW 608E.

SW 6085. Generalist Field Work Bridge. Unit: 1

Semester Prerequisite: Admission into the Advanced Standing MSW program

Defining core areas of competent generalist social work practice, discussing application of theory to micro and macro practice within the context of field seminar. Preparation for advanced practice experience in social service agencies with diverse populations of individuals, families, groups, organizations, and communities. Graded credit/no credit.

SW 6113. Research Project I. Units: 3

Semester Corequisite: SW 6012

A culminating graduate experience in which a practice issue specific to the students field setting and specialization is objectively evaluated and presented orally and in writing. Students gather data and complete initial stages of implementation of research project under individual supervision. Equivalent to SW 6013, cannot receive credit for both.

SW 6114. Research Project II. Units: 3

Semester Prerequisite: SW 6113

Culminating graduate experience in which a practice issue specific to the students field setting and specialization is objectively evaluated and presented orally and in writing. Students complete data analysis, write the research report and present findings under individual supervision. Equivalent to SW 6014, cannot receive credit for both.

SW 6181. Generalist Practicum I. Units: 4

Orient students to social work profession, define core areas of competent practice, and discuss application of theory to micro and macro practice within the context of practicum and practicum seminar. Attain generalist practice experience in social service agencies with diverse populations of individuals, families, groups, organizations and communities. Field placement hours (240) and monthly seminar. Graded Credit/No credit. Equivalent to SW 6081, cannot receive credit for both.

SW 6182. Generalist Practicum II. Units: 3

Semester Prerequisite: SW 6181. Quarter Prerequisite: SW 608A, classified graduate standing in the MSW program and consent of department

Semester Corequisite: SW 6021

Continue orienting students to social work profession, defining core areas of competent practice, and discussing application of theory to micro and macro practice within the context of practicum and practicum seminar. Attain generalist practice experience in social service agencies with diverse populations of individuals, families, groups, organizations and communities. Field placement hours (240) and monthly seminar. Graded Credit/No Credit. Formerly offered as SW 608B and 6082.

SW 6183. Advanced Generalist Practicum I. Units: 4

Semester Prerequisite: SW 6082

Semester Corequisite: SW 6023

Case conceptualization from an interprofessional, collaborative, and interagency perspective. Examine the roles, responsibilities, and characteristics of change agency and leadership in diverse complex situations within micro and macro practice settings. Attain advanced practice experience in social service agencies with diverse populations of individuals, families, groups, organizations and communities. Practicum placement hours (300) and monthly seminar. Graded Credit/No credit. Equivalent to SW 6083, cannot receive credit for both.

SW 6184. Advanced Generalist Practicum II. Units: 4

Semester Prerequisite: SW 6183

Semester Corequisite: SW 6024

Continued case conceptualization from an interprofessional, collaborative, and interagency perspective. Examine the roles, responsibilities, and characteristics of change agency and leadership in diverse complex situations within micro and macro practice settings. Attain advanced practice experience in social service agencies with diverse populations of individuals, families, groups, organizations, and communities. Practicum placement hours (300) and monthly seminar. Graded Credit/No credit. Equivalent to SW 6084, cannot receive credit for both.

SW 6901. Advanced Topics in Social Work I. Units: 3

Quarter Prerequisite: classified graduate standing in the MSW program or consent of instructor

An intensive study of some aspects of social work. May be taken two times for 6 units. Formerly offered as SW 690.

SW 6902. Advanced Topics in Social Work II. Units: 3

Semester Prerequisite: SW 6041 and SW 6042

Advanced study of some aspects of social work. May be taken two times for six units as the topic changes.

SW 6971. Thesis Research. Units: 3

Quarter Prerequisite: classified graduate standing and consent of department

Preparation of a thesis for the Master of Social Work degree program under the direction of a students thesis committee. Formerly offered as SW 699.

SW 6990. Continuous Enrollment for Graduate Candidacy Standing. Units: 0

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

SW 6991. Continuous Enrollment for Graduate Candidacy Standing. Unit: 1

Quarter Prerequisite: Advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

SW 6992. Continuous Enrollment for Graduate Candidacy Standing. Units: 2

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

SW 6993. Continuous Enrollment for Graduate Candidacy Standing. Units: 3

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

SW 6994. Continuous Enrollment for Graduate Candidacy Standing. Units: 4

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

SW 6995. Continuous Enrollment for Graduate Candidacy Standing. Units: 5

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

SW 6996. Continuous Enrollment for Graduate Candidacy Standing. Units: 6

Quarter Prerequisite: advancement to candidacy and approval of program graduate coordinator or, if an interdisciplinary studies major, consent of the Dean of Graduate Studies

Independent study leading to completion of requirements (other than course work) for the master's degree. To retain classified standing in the master's program, a student must enroll in a Continuous Enrollment for Graduate Candidacy Standing course each quarter until the project or thesis is accepted or the comprehensive examination passed. Students who enroll through the university have full use of all university facilities. See Culminating Experience: Exam, Thesis, or Project in Graduate Degree and Program Requirements section of the Bulletin of Courses. Continuous Enrollment for Graduate Candidacy Standing is a variable unit course, see fee schedule in the Financial Information section of the Bulletin of Courses. Earned units are not degree-applicable nor will they qualify for financial aid.

Theatre Arts (TA)

Courses

TA 1140. Fundamentals of Acting. Units: 3

Foundation training for actors through theatre games, improvisation and exercises for developing expressive freedom, creativity, relaxation and concentration. Fundamentals for creating a role exploring the use of such elements as objectives, given circumstances, character analysis and conflict. Formerly offered as TA 252.

TA 1141. Improvisation. Units: 3

A beginning course in improvisational techniques for the actor and for those who will use drama as an educational tool. May be taken 2 times for up to 6 units. Formerly offered as TA 240.

TA 1160. All the World's A Stage: A Tour of Global Performance. Units: 3

Quarter Prerequisite: satisfaction of the GE written communication (A1) requirement or equivalent

An exploration of plays and performances from around the world and analysis of how they are both products and shapers of the cultures that produced them. Satisfies GE C2/3B, G designation.

TA 1631. Makeup for Stage and Screen. Units: 3

Theory and application of makeup for theatre, television and film. Materials fee required. Formerly TA 131.

TA 2131. Fundamentals of Stage Design. Units: 3

Study of the elements and principles of design as related to theatrical applications and visual analysis of dramatic literature. Materials fee required.

TA 2132. Scenography. Units: 3

Semester Prerequisite: TA 2131. Quarter Prerequisite: TA 235

An introduction to the major disciplines of theatrical design (Scenery, Lighting, Costuming and Sound) as viewed from a synthesis of art and craft. Introduction to the basic processes and skills needed to analyze and communicate concepts in a theatrical design format. Materials fee required. Formerly offered as TA 239.

TA 2133. Stagecraft. Units: 3

Introduction to the theory and practice of scenery and prop construction including the use of tools, materials, techniques and drafting required in execution of designs.

TA 2134. Sound for Stage and Screen. Units: 3

Basic design theories of stage and screen sound, production techniques, instrumentation and control equipment.

TA 2135. Lighting for Stage and Screen. Units: 3

Basic electrical theory of stage lighting, production techniques, instrumentation and control equipment.

TA 2136. Costume Construction. Units: 3

Costume techniques including basic pattern drafting, cutting, fitting and construction.

TA 2612. Oral Interpretation of Literature. Units: 3

Literary and aesthetic analysis of poetry, prose or drama through performance techniques of oral interpretation. Satisfies GE C2/3B.

TA 2621. Festival Practicum I. Unit: 1

Students select and prepare material for acting auditions and technical interviews, both for inter-college competition and professional theatre/film work. Two hours activity. May be repeated for credit. Formerly offered as TA 223.

TA 2622. Festival Practicum II. Units: 2

Remounting and reconfiguring University production for touring to national and international festivals and venues. May be repeated for credit. Formerly offered as TA 225.

TA 2640. Acting for All Majors. Units: 3

Introduction to acting for communication, collaboration, and leadership skills. Satisfies GE C1/3A.

TA 2660. Introduction to Theatre. Units: 3

Introduction to the art of Theatre, including the nature of theatrical presentation and the contributions of the playwright, actor, director, designer, technician and audience to the process of theatre-making. Students will authentically experience this process as production crew or audience members. Satisfies GE C1/3A.

TA 2711. Studies in Dance: Jazz. Units: 2

Quarter Prerequisite: KINE 150F or consent of instructor
Movement study and body conditioning in specific dance styles. May be repeated for credit. No more than 6 units may be used to satisfy graduation requirements. Formerly offered as DAN200A.

TA 2712. Studies in Dance: Modern. Units: 2

Quarter Prerequisite: KINE 150G or consent of instructor
Movement study and body conditioning in specific dance styles. May be repeated for credit. No more than 6 units may be used to satisfy graduation requirements. Formerly DAN 200B.

TA 2713. Studies in Dance: Tap. Units: 2

Quarter Prerequisite: KINE 150H or consent of instructor
Movement study and body conditioning in specific dance styles. May be repeated for credit. No more than 6 units may be used to satisfy graduation requirements. Formerly offered as DAN 200C.

TA 2714. Studies in Dance: Ballet. Units: 2

Movement study and body conditioning in specific dance styles. May be repeated for credit. No more than 6 units may be used to satisfy graduation requirements. Formerly offered as DAN 200D.

TA 3122. Performance Practicum. Units: 2

Students experience role preparation, rehearsal and acting before varied audiences. Open to all students. May be repeated for credit. Formerly offered as TA 320A.

TA 3123. Performance Practicum. Units: 3

Students experience role preparation, rehearsal and acting before a variety of audiences. Open to all students. May be repeated for credit. Formerly offered as TA 320B.

TA 3131. Technical Practicum. Unit: 1

Application of scenic, costume, lighting or audio crafts for a live performance. May be repeated for credit. Formerly offered as TA 321A.

TA 3132. Technical Practicum. Units: 2

Application of scenic, costume, lighting or audio crafts for a live performance. May be repeated for credit. Formerly offered as TA 321B.

TA 3141. The Improvisational Mind. Units: 3

Development of foundational performance skills essential for success in any fast-paced, unpredictable business environment. Students will focus on developing cognitive flexibility, accessing creativity, exploring ensemble-based collaboration, mastering active storytelling, and honing their unique communication tools. Satisfies GE C4/UD-3; DI designation. Course is offered as ENTR 3141 and TA 3141; credit cannot be awarded for both.

TA 3143. Fundamentals of Directing. Units: 3

Semester Prerequisite: TA 1140 and TA 2131. Quarter Prerequisite: TA 235 and TA 252 or consent of instructor
Theory and practices of stage direction including script analysis, staging and management. Formerly offered as TA 346.

TA 3161. Theatre History and Literature I. Units: 3

Quarter Prerequisite: Junior standing or consent of instructor
Exploration of theatre architecture, practices, and literature for the purpose of understanding the major trends in the development of theatre arts. Origins through 1800. Satisfies WI designation.

TA 3162. Theatre History and Literature II. Units: 3

Quarter Prerequisite: Junior standing or consent of instructor
Exploration of theatre architecture, practices, and literature for the purpose of understanding the major trends in the development of theatre arts. 19th Century through contemporary. Satisfies WI designation.

TA 3210. Voice and Movement. Units: 3

Theory and fundamentals of specialized stage movement and vocal techniques for the actor. May be taken 3 times for up to 9 units. Formerly offered as TA 245 and TA 253.

TA 3240. Scene Study. Units: 3

Semester Prerequisite: TA 1140 and TA 1141. Quarter Prerequisite: TA 252

Application of acting techniques through scene study of plays. Formerly offered as TA 351.

TA 3310. Graphic Communication for Theatrical Design. Units: 3

Semester Prerequisite: TA 2131. Quarter Prerequisite: TA 235
An Introduction to principles of communicating design concepts and details by utilizing models, sketches, computer drafting, perspective rendering and hand rendering. Basics of elements of design and history of styles. Materials fee required. Formerly offered as TA 130.

TA 3320. Scenic Design. Units: 3

Semester Prerequisite: TA 2132. Quarter Prerequisite: TA 235 and 239 or consent of instructor

Prerequisites: TA 2132

Advanced principles of scenic design. An exploration of Design for Theatre and other spaces for audience interaction.

TA 3330. Costume Design. Units: 3

Semester Prerequisite: TA 2132. Quarter Prerequisite: TA 233 and 235 or consent of instructor

Advanced Principles of costume design and rendering techniques. Formerly TA 337.

TA 3340. Sound Design. Units: 3

Semester Prerequisite: TA 2132. Quarter Prerequisite: TA 231 and 235 or consent of instructor

Advanced principles of sound design, concepts, and aural research. Formerly offered as TA 333.

TA 3350. Lighting Design. Units: 3

Semester Prerequisite: TA 2132. Quarter Prerequisite: TA 232 and TA 235

An in-depth study of the principles of lighting design, research and concepts. Formerly TA 332.

TA 3410. Theatre in the Classroom. Units: 3

Comprehensive overview of methods of Theatre creation, performance, and production with young children in a public school setting. Includes standards-based approaches to teaching Theatre, cross-curricular applications, and assessment strategies. Two hours seminar and two hours of activity. Formerly TA 479.

TA 3602. Dramatic Analysis and Playwriting for Teachers. Units: 3

Quarter Prerequisite: satisfaction of the GE written communication (A1) requirement

Analysis and Writing. Literary analysis of selected plays with special emphasis on how to write about dramatic literature, including integrated practice in writing for performance. Formerly TA 302B.

TA 3647. Playwriting. Units: 3

Semester Prerequisite: Junior or Senior standing. Quarter Prerequisite: one course from ENG 302A, ENG 302B, TA 302A, TA 302B; or consent of instructor

Fundamentals of play development, including plot, character, structure, and theme. Classroom exercises will culminate in students creating their own dramatic scenes and short plays. Formerly TA 347.

TA 3711. Dance Techniques: Jazz. Units: 2

Semester Prerequisite: TA 2711 or consent of instructor. Quarter Prerequisite: DAN 200A or equivalent experience and consent of instructor

Complex movement technique and artistic interpretation in specific dance styles. May be repeated for up to 6 units. Formerly DAN 300A.

TA 3712. Dance Techniques: Modern. Units: 2

Semester Prerequisite: TA 2712 or consent of instructor. Quarter Prerequisite: DAN 200B or equivalent experience and consent of instructor

Complex movement technique and artistic interpretation in specific dance styles. May be taken for up to 6 units. Formerly DAN 300B.

TA 3713. Dance Techniques: Tap. Units: 2

Semester Prerequisite: TA 2713 or consent of instructor. Quarter Prerequisite: DAN 200C or equivalent experience and consent of instructor

Complex movement technique and artistic interpretation in specific dance styles. May be taken for up to 6 units. Formerly DAN 300C.

TA 3714. Dance Techniques: Ballet. Units: 2

Semester Prerequisite: TA 2714 or consent of instructor. Quarter Prerequisite: DAN 200D or equivalent experience and consent of instructor

Complex movement technique and artistic interpretation in specific dance styles. May be taken for up to 6 units. Formerly DAN 300D.

TA 3715. Dance Techniques: Musical Theatre. Units: 2

Quarter Prerequisite: DAN 200 or equivalent experience and consent of instructor

Complex movement technique and artistic interpretation in specific dance styles. May be taken for up to 6 units. Formerly DAN 300E.

TA 3720. World Dance Traditions. Units: 2

Study and application of traditional dance forms from throughout the world. Technique and cultural context will be emphasized. May be repeated for credit as topics change. One hour seminar and two hours activity. Formerly offered as DAN 310A.

TA 3730. Dance Notation. Units: 3

Semester Prerequisite: six units of Theater Arts Dance technique class.

Quarter Prerequisite: six units of DAN 300 or consent of instructor

Study and application of written notation for the analysis, reading and preservation of dance. One hour seminar and two hours activity. Formerly DAN 355.

TA 3731. Dance History. Units: 3

Chronological study of major styles and personalities in dance. Formerly DAN 360.

TA 4163. Criticism of Plays in Performance. Units: 3

Quarter Prerequisite: TA 302, ENG 306 or consent of instructor

Critical analysis of public theatrical performance with an emphasis on the journalistic review. Textual analysis, artistic perception and aesthetic evaluation of acting, directing and design. Both individual and class attendance at several theatrical performances outside of regular meeting times will be required. Satisfies WI designation.

TA 4170. Theatre Applications/Project Preparation. Units: 3

Semester Prerequisite: Instructor approval

Approaches and tools critical to the preparation and investigation for Capstone Project. Requires instructor approval.

TA 4171. Theatre Arts Capstone. Units: 3

Semester Prerequisite: TA 4170 and instructor approval. Quarter Prerequisite: senior status; must be taken in winter quarter immediately prior to graduation

Presentation of Capstone Project. Instructor Approval Required. Formerly offered as TA 585.

TA 4241. Styles of Acting. Units: 3

Studies and performance of selected styles in theatre. May be taken for up to 6 units as topics change. Formerly offered as TA 353.

TA 4242. Acting for the Camera. Units: 3

Semester Prerequisite: TA 3240. Quarter Prerequisite: TA 351 or TA 385

Study and application of acting techniques unique to current media. May be taken for up to 6 units. Formerly offered as TA 357.

TA 4320. Scenic Crafts. Units: 3

Theory and application of Scenic Crafts. May be taken again for credit as topics change. Materials fee required. Formerly offered as TA 334.

TA 4330. Costume Crafts. Units: 3

Semester Prerequisite: TA 2131. Quarter Prerequisite: TA 235

Theory and application of a Costume Craft. May be taken again for credit as topics change. Formerly TA 233. Materials fee required.

TA 4340. Lighting Crafts. Units: 3

Semester Prerequisite: TA 2131. Quarter Prerequisite: TA 235

Theory and application of a Lighting Craft. May be taken again for credit as topics change. Formerly TA 232. Materials fee required.

TA 4350. Audio Crafts. Units: 3

Semester Prerequisite: TA 2131. Quarter Prerequisite: TA 235

Theory and application of an Audio craft. Materials fee required. Formerly TA 231.

TA 4410. Drama in Education. Units: 3

Introduction to theories and practices of using drama as a cross-disciplinary teaching tool. Two hours seminar and two hours activity. Formerly offered as TA 481.

TA 4420. Touring Practicum. Units: 3

Touring experience including rehearsal and performance before an audience. Open to all students. May be taken again for credit. Formerly offered as 320C.

TA 4430. Puppetry. Units: 3

Overview of puppetry as a fine art and the uses of puppets as interdisciplinary teaching tools. Includes lesson planning and performance techniques for teachers. Two hours seminar and two hours activity. Formerly offered as TA 486.

TA 4440. Creative Movement in the Classroom. Units: 3

Dance techniques that emphasize concentration, imagination, body awareness and self-expression and are designed to develop creative leadership for parents, recreational leaders, elementary and secondary teachers. Formerly offered as DAN 481.

TA 4450. Arts in Action: Theatre. Units: 3

Semester Prerequisite: TA 3410. Quarter Prerequisite: TA 481

Applied practice of arts education in the community. Projects will vary based on participants. May be repeated for credit if taken under a different Fine Arts subject (Dance, Visual Art, or Music).

TA 4451. Arts in Action: Dance. Units: 3

Semester Prerequisite: TA 4440. Quarter Prerequisite: DAN 481

Applied practice of arts education in the community. Projects will vary based on participants. May be repeated for credit if taken under a different Fine Arts subject (Theatre, Visual Art, or Music).

TA 4510. Acting in Musical Theatre. Units: 3

Semester Prerequisite: TA 3240. Quarter Prerequisite: TA 351

Concentrated study on performing musical theatre, with an emphasis on voice, dance, and character development. May be taken for up to 6 units. Formerly TA 355.

TA 4515. Singing and Dancing for Musicals. Units: 3

An overview of the specific vocal and physical techniques specific to performers of musical theatre.

TA 4520. Singing for Musicals. Units: 2

Solo and choral singing from the American Musical Theatre canon. Formerly offered as TA 340.

TA 4643. Directing and Devising Performance. Units: 3

Semester Prerequisite: TA 1140 and TA 2131. Quarter Prerequisite: TA 346

Advanced studies in play directing and devising new work for performance. Formerly TA 446.

TA 4661. Dramatic Literature I: Classical to 1800. Units: 3

Development of World Drama: Origins to 1800. Formerly TA 450.

TA 4662. Dramatic Literature II: 19th Century to Contemporary. Units: 3

Development of World Drama: 19th Century to Contemporary. Formerly TA 455.

TA 4663. Dramatic Literature of Identity. Units: 3

Examination of dramatic literature and performances produced by diverse communities to understand how their identities and histories shape the contemporary experience. Satisfies GE C4/UD-3, DI designation. May be taken for up to 9 units as topics change, but only 3 units may be used for GE.

TA 4664. Theatre for Youth: History and Literature. Units: 3

Exploration and analysis of the history and literature of performance for young audiences, from its origins to current trends. Formerly offered as TA 458.

TA 4665. Shakespeare I. Units: 3

Semester Prerequisite: junior or senior standing. Quarter Prerequisite: one course from ENG 301A, ENG 301B, ENG 302A, ENG 302B; or consent of instructor

Comedies and history plays. Formerly TA 475/ENG 475.

TA 4666. Shakespeare II. Units: 3

Semester Prerequisite: junior or senior standing. Quarter Prerequisite: one course from ENG 301A, ENG 301B, ENG 302A, ENG 302B; or consent of instructor

Tragedies and romances. Formerly offered as TA 476/ENG 476.

TA 4750. Choreography. Units: 3

Semester Prerequisite: six units of Theater Arts Dance Technique class. Quarter Prerequisite: six units of DAN 300 or consent of instructor. Study and application of dance composition. May be repeated for credit. One hour seminar and four hours activity. Formerly DAN 450.

TA 5141. Entrepreneurial Improvisation and Creativity. Units: 3

Exploration of improvisation as a tool to frame problems, think creatively, develop compelling presentation skills, and express energy and passion in varied business environments. Course is offered as ENTR 5141 and TA 5141; credit cannot be awarded for both. Department consent required.

TA 5170. Teaching Theatre in Secondary Schools. Units: 3

Advanced studies and application of methods of teaching theatre in secondary schools, including producing work appropriate for and accessible to young people as well as networking with community stakeholders to create a successful theatre program. Includes standards-based unit planning and service learning. Graded ABC/no credit. Consent required.

TA 5440. Advanced Creative Dance Methods. Units: 3

Semester Prerequisite: TA 4440. Quarter Prerequisite: DAN 481
Advanced methods for teaching dance techniques, emphasizing concentration, imagination, body awareness, and self-expression. Course intended for teachers and recreation and community leaders who will plan lessons with the California Visual and Performing Arts Framework and Standards. Requires a minimum six-hour field component. May be repeated for up to 6 units. Formerly offered as DAN 580.

TA 5751. Internship in Theatre Arts I. Unit: 1

Quarter Prerequisite: consent of internship coordinator
Supervised study in private or public organizations. May be taken for up to 12 units of internship credit. Generally assumes thirty hours of work/study per unit of credit. Formerly TA 575A.

TA 5752. Internship in Theatre Arts II. Units: 2

Quarter Prerequisite: consent of internship coordinator
Supervised study in private or public organizations. May be taken for up to 12 internship units. Generally assumes thirty hours of work/study per unit of credit. Formerly 575B.

TA 5753. Internship in Theatre Arts III. Units: 3

Quarter Prerequisite: consent of internship coordinator
Supervised study in private or public organizations. May be taken for up to 12 internship units. Generally assumes thirty hours of work/study per unit of credit. Formerly 575C.

TA 5754. Internship in Theatre Arts IV. Units: 4

Quarter Prerequisite: consent of internship coordinator
Supervised study in private or public organizations. May be taken for up to 12 internship units. Generally assumes thirty hours of work/study per unit of credit. Formerly 575D.

TA 5755. Internship in Theatre Arts V. Units: 5

Quarter Prerequisite: consent of internship coordinator
Supervised study in private or public organizations. May be taken for up to 12 internship units. Generally assumes thirty hours of work/study per unit of credit. Formerly offered as 575E.

TA 5756. Internship in Theatre Arts VI. Units: 6

Quarter Prerequisite: consent of internship coordinator
Supervised study in private or public organizations. May be taken for up to 12 internship units. Generally assumes thirty hours of work/study per unit of credit. Formerly 575F.

TA 5951. Independent Study I. Unit: 1

Quarter Prerequisite: a minimum overall grade point average of 3
Study and analysis culminating in demonstrated expertise in the areas of performance, direction, design or theatre research. Consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the semester in which the course is to be taken. May be taken for up to 12 units of independent study credit. Formerly offered as TA 555A.

TA 5952. Independent Study II. Units: 2

Quarter Prerequisite: a minimum overall grade point average of 3
Study and analysis culminating in demonstrated expertise in the areas of performance, direction, design or theatre research. Consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the semester in which the course is to be taken. May be taken for up to 12 independent study units. Formerly TA 555B.

TA 5953. Independent Study III. Units: 3

Quarter Prerequisite: a minimum overall grade point average of 3
Study and analysis culminating in demonstrated expertise in the areas of performance, direction, design or theatre research. Consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the semester in which the course is to be taken. May be taken for up to 12 independent study units. Formerly TA 555C.

TA 5954. Independent Study IV. Units: 4

Quarter Prerequisite: a minimum overall grade point average of 3
Study and analysis culminating in demonstrated expertise in the areas of performance, direction, design or theatre research. Consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the semester in which the course is to be taken. May be taken for up to 12 independent study units. Formerly TA 555D.

TA 5955. Independent Study V. Units: 5

Quarter Prerequisite: a minimum overall grade point average of 3
Study and analysis culminating in demonstrated expertise in the areas of performance, direction, design or theatre research. Consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the semester in which the course is to be taken. May be taken for up to 12 independent study units. Formerly TA 555E.

TA 5956. Independent Study VI. Units: 6

Quarter Prerequisite: a minimum overall grade point average of 3
Study and analysis culminating in demonstrated expertise in the areas of performance, direction, design or theatre research. Consent of instructor and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the semester in which the course is to be taken. May be taken for up to 12 independent study units. Formerly TA 555F.

University Studies (USTD)

Courses

USTD 70. Individualized Study Contract. Unit: 1

Designed for the student who needs to work on an independent basis under the direction of a study specialist in order to improve skills such as quantitative reasoning or written communication. May be repeated. Units awarded are not applicable to a baccalaureate degree. Graded credit/no credit. Formerly USTD 27B.

USTD 80. Topics in Advanced Notetaking and Organization. Unit: 1

Quarter Prerequisite: consent of SAIL

Instruction in adaptation of note taking skills across the curriculum with emphasis on editing, organizing and combining notes from text, class, lab, field and library. Organization of content to enhance concentration and memory and improve test taking ability. Units awarded are not applicable to a baccalaureate degree. May be repeated as topics change. Graded credit/no credit. S.A.I.L. (Student Assistance in Learning) Program. Formerly USTD 40.

USTD 1000A. Freshman Learning Community. Unit: 1

Introduction to the university's history and its mission to enhance the intellectual, cultural and personal development of each student. Application of the First-Year Student Success principles, critical thinking, information literacy and integrative learning. Graded A, B, C-/no credit. May be taken only by first time freshman students during their first year of attendance. May be repeated once for a total of 2 units. Formerly USTD 100A.

USTD 1000B. Transfer Student Learning Community. Unit: 1

Introduction to the university's history and its mission to enhance the intellectual, cultural and personal development of each student. Application of the Second-Year Student Success principles, critical thinking skills, information literacy and integrative learning techniques. Graded A, B, C-/no credit. May be taken only by transfer students during their first year of attendance. Formerly USTD 100B.

USTD 2000. Sophomore Learning Community. Unit: 1

Learn to maximize use of university resources, prepare for post-baccalaureate work and facilitate graduation. Explores the subject matter of university success and overcoming the challenges of career and life decision adjustments. May be repeated once for a total of 2 units. Graded A, B, C-/no credit. Formerly USTD 200.

USTD 3000. Academic and Research Experience Learning Community. Units: 0

The Academic and Research Experience Learning Community (ARELC) is designed to provide students with a collaborative and supportive environment to enhance their academic and research based program participation. This course offers a unique opportunity for students to engage in academic experiences and research projects.

USTD 3001. Academic Research & Experience Learning Community. Unit: 1

The Academic Research and Experience Learning Community (ARELC) is designed to provide students with a collaborative and supportive environment to enhance their academic and research skills. This interdisciplinary course offers a unique opportunity for students to engage in research and experiential education towards their degree.

USTD 3002. Academic Research & Experience Learning Community. Units: 2

The Academic Research and Experience Learning Community (ARELC) is designed to provide students with a collaborative and supportive environment to enhance their academic and research skills. This interdisciplinary course offers a unique opportunity for students to engage in research and experiential education towards their degree.

USTD 3003. Academic Research & Experience Learning Community. Units: 3

The Academic Research and Experience Learning Community (ARELC) is designed to provide students with a collaborative and supportive environment to enhance their academic and research skills. This interdisciplinary course offers a unique opportunity for students to engage in research and experiential education towards their degree.

World Languages and Literatures (WLL)

Courses

WLL 1101. Language Study. Units: 3

Introduction to a language not offered as a major or minor. Fundamentals of reading, writing, listening, speaking, pronunciation, grammatical structure, and culture. Designed to develop the ability to use and understand the chosen language. May be taken 10 times for 30 units as topics change.

WLL 1102. Language Study II. Units: 3

Semester Prerequisite: WLL 1101 or consent of instructor
Continuation of language study not offered as a major or minor. Further development of reading, writing, listening, speaking, pronunciation, grammatical structure in a variety of cultural contexts. Designed to develop the ability to use and understand the chosen language. May be taken 10 times for 30 units as topics change.

WLL 1111. Indigenous Language Study 1. Units: 3

The first in a series of four topics courses in Indigenous Languages. Fundamentals of pronunciation, structure and culture designed to develop the ability to use and understand an Indigenous language. May be taken 10 times for 30 units as topics change.

WLL 1112. Indigenous Language Study 2. Units: 3

Semester Prerequisite: WLL 1111 or instructor consent
The second in a series of four topics courses in Indigenous Languages. Study of an Indigenous Language to build linguistic competency at the intermediate level in a cultural context. May be taken 10 times for 30 units as topics change. Satisfies GE C2/3B, DI, G designations.

WLL 2101. Language Study III. Units: 3

Semester Prerequisite: WLL 1102 or consent of instructor
 Second year of college level language study not offered as a major or minor. Further development of reading, writing, listening, speaking, pronunciation, grammatical structure in a variety of cultural contexts. Improvement of target language skills through a study of stories, films, media, cultural practices and the arts. Designed to develop the ability to use and understand the chosen language at the Novice High to Intermediate Low Levels. May be taken 10 times for 30 units as topics change.

WLL 2102. Language Study IV. Units: 3

Semester Prerequisite: WLL 2101 or consent of instructor
 Second year and second semester of college level language study not offered as a major or minor. Further development of reading, writing, listening, speaking, pronunciation, grammatical structure in a variety of cultural contexts. Improvement of target language skills through a study of stories, films, media, cultural practices and the arts. Designed to develop the ability to use and understand the chosen language at the Intermediate Level. May be taken 10 times for 30 units as topics change.

WLL 2111. Indigenous Language Study 3. Units: 3

Semester Prerequisite: WLL 1112 or instructor consent
 The third in a series of four topics courses in Indigenous Languages. Further study of an Indigenous language to develop proficiency in listening, speaking, reading, and writing with a cultural emphasis. Students may repeat as languages vary. May be taken 10 times for 30 units as topics change.

WLL 2112. Indigenous Language Study 4. Units: 3

Semester Prerequisite: WLL 2111 or instructor consent
 The fourth in a series of four topics courses in Indigenous Languages. Further study of an Indigenous language to develop proficiency in listening, speaking, reading, and writing with a cultural emphasis. May be taken 10 times for 30 units as topics change.

WLL 3120. Pedagogies for Foreign Language Teaching. Units: 3

Theories and practice of foreign language acquisition and teaching in an English-speaking environment. Focuses on relevant methodological practices and familiarizes prospective foreign language teachers with the Standards for Language Learning from the American Council on the Teaching of Foreign Languages. Offered for World Language majors. Class taught in English. Formerly FLAN 312. Materials fee required.

WLL 3302. World Languages: Writing Center Practicum. Units: 2

Practice strategies to improve writing and use of grammatical structures. Students implement their writing skills by providing supervised and guided tutoring on campus or in the community as a service-learning activity. Department consent required. Graded Credit/No Credit.

WLL 3350. Language Acquisition and Early Field Experience for Future Teachers. Units: 3

Semester Prerequisite: Junior standing or consent of instructor. Quarter Prerequisite: junior standing or consent of instructor
 Theories of language acquisition, including supervised observation of the public school classroom. Taught in English for all prospective single-subject teachers in the department. Formerly FLAN 350. Materials fee required.

WLL 3891. Community Service Project. Unit: 1

Semester Prerequisite: consent of department. Quarter Prerequisite: consent of department
 Credit for academically-related tasks using world language skills as performed as part of an internship or service-learning project in governmental or social service agencies, or in an educational context. Departmental permission required. Formerly FLAN 399 A-D. Graded credit/no credit.

WLL 3892. Community Service Project. Units: 2

Semester Prerequisite: Department permission required
 Credit for academically-related tasks using world language skills as performed as part of an internship or service-learning project in governmental or social service agencies, or in an educational context. Departmental permission required. Formerly FLAN 399 A-D. Graded credit/no credit.

WLL 3893. Community Service Project. Units: 3

Semester Prerequisite: Department permission
 Credit for academically-related tasks using world language skills as performed as part of an internship or service-learning project in governmental or social service agencies, or in an educational context. Departmental permission required. Formerly FLAN 399 A-D. Graded credit/no credit.

WLL 3894. Community Service Project. Units: 4

Semester Prerequisite: Department permission required
 Credit for academically-related tasks using world language skills as performed as part of an internship or service-learning project in governmental or social service agencies, or in an educational context. Departmental permission required. Formerly FLAN 399 A-D. Graded credit/no credit.

WLL 3920. Great Works, Revolutionary Ideas, and Important Discoveries. Units: 3

In-depth investigation of an author, event or cross-cultural encounter through literature and essays in translation, with a focus on better understanding impact on contemporary societies where the language is spoken. May include historical simulation. Satisfies GE Category C4; G designation; WI designation. May be taken two times for up to six units. Taught in English. Materials fee required.

WLL 3940. Mediterranean Languages and Identities. Units: 3

Selected literary masterpieces and authors from the Mediterranean region. Investigation of different ways in which people find meanings in texts and events, with focus on linguistic, literary and folkloric diversity across different representative languages and their literary traditions. Course taught entirely in English. Satisfies GE C4/UD-3, DI, G designations. Materials fee required.

WLL 3950. Languages & Cultures. Units: 3

An exploration of the intersections between languages and cultures around the globe, including the arts and literature as well as theological, philosophical, and social perspectives. Satisfies GE C4/UD-3, DI, G designations. May be taken three times for up to nine units as topics change; only three units may be used for GE. Taught in English. Materials fee required.

WLL 5551. Independent Study. Unit: 1

Semester Prerequisite: Prerequisites: satisfactory completion of one 3000-level course or higher in the language under study, consent of department, minimum overall grade point average of 3, and department approval of a written proposal for the project (submitted on a standard application, filed in advance of the semester in which the independent study is to be taken). Quarter Prerequisite: one 300-level course in the language under study or consent of instructor, a minimum overall grade point average of 3

Prerequisites: satisfactory completion of one 3000-level course or higher in the language under study, consent of department, minimum overall grade point average of 3, and department approval of a written proposal for the project (submitted on a standard application, filed in advance of the semester in which the independent study is to be taken). May be repeated for credit. Formerly FLAN 555A

Independent study focused on an author, genre and/or theme.

WLL 5552. Independent Study. Units: 2

Quarter Prerequisite: one 300-level course in the language under study or consent of instructor, a minimum overall grade point average of 3
Independent study of individual writers and genres. Minimum overall grade point average of 3.0, and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken. May be repeated for credit. Formerly FLAN 555B.

WLL 5553. Independent Study. Units: 3

Semester Prerequisite: One 300-level course in the language under study or consent of instructor, a minimum overall grade point average of 3.
Quarter Prerequisite: One 300-level course in the language under study or consent of instructor, a minimum overall grade point average of 3
Independent study of individual writers and genres. Minimum overall grade point average of 3.0, and departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken. May be repeated for credit. Formerly FLAN 555C.

WLL 5554. Independent Study. Units: 4

Semester Prerequisite: One 3000-level course in the language under study or consent of instructor, a minimum overall grade point average of 3. Quarter Prerequisite: One 300-level course in the language under study or consent of instructor, a minimum overall grade point average of 3
Independent study of individual writers and genres. Departmental approval of a written proposal of a project submitted on a standard application filed in advance of the quarter in which the course is to be taken. May be repeated for credit. Department consent required. Formerly FLAN 555D.

WLL 5561. International Experience. Unit: 1

Project based learning with service and exposure to domestic international communities. Variable topics relevant to each language or culture. Project application and consent of department required. May repeat three times for a total of three units. Department consent required.

WLL 5562. International Experience. Units: 2

Project based learning with service and exposure to domestic international communities. Variable topics relevant to each language or culture. Project application and consent of department required. May repeat twice for a total of four units. Department consent required.

WLL 5563. International Experience. Units: 3

Project based learning with service and exposure to domestic international communities. Variable topics relevant to each language or culture. Project application and consent of department required. May repeat twice for a total of six units.

Faculty

The University instituted a program of recognizing outstanding teaching efforts through the Distinguished Teaching Awards. Selections for this honor are based upon recommendations of the Academic Senate committee which follows the procedure of soliciting nominations from students and alumni. Evaluations and recommendations of the nominees are based upon an in-depth review by the committee, including classroom visitations. Recipients of the Distinguished Teaching Awards and their departments are listed among these pages.

Outstanding Professor

Gisela Bichler, Professor of Criminal Justice

Gisela Bichler, professor of criminal justice at the College of Social and Behavioral Sciences, received the 2023-2024 Outstanding Professor Award for her exceptional contributions to teaching, research and service.

Bichler earned her B.A. in criminology from Simon Fraser University and her M.A. and Ph.D. in criminal justice from Rutgers University. She joined CSUSB in 1999 and has been a cornerstone of the School of Criminology and Criminal Justice.

Bichler co-founded and directed the CSUSB Center for Criminal Justice Research (2008-2021) and played a key role in developing the crime analysis option into a full B.S. degree program. Her dedication to student success is evident in her teaching philosophy, which incorporates research components in every class, and her mentorship of over 10 thesis committees, 20+ independent studies, and numerous students throughout her tenure.

An accomplished researcher, Bichler has published more than 38 peer-reviewed articles, authored four books, and secured over \$4.5 million in external funding. Her work has earned over 1,500 citations on Google Scholar. She is widely recognized for her collaborative approach, mentoring students and new faculty alike.

Bichler's accolades include the President's Award from the Western Society of Criminology (2019), the CSUSB Outstanding Scholarship, Research, and Creative Activities Award (2017-18), and the Exceptional Service to Students Award (2016-17).

Golden Apple Award for Teaching Excellence

Manijeh Badiee, Professor of Psychology

Manijeh Badiee, professor of psychology at the College of Social and Behavioral Sciences, received the 2023-2024 Golden Apple Award, the university's highest teaching honor. Joining CSUSB in 2013, she is recognized for her dedication to mentoring students and creating an inclusive learning environment.

Badiee earned her bachelor's degree in Spanish and computer science from Austin College in Sherman, Texas; her master's degree in counseling from St. Edward's University in Austin, Texas; and her Ph.D. in counseling psychology from the University of Nebraska-Lincoln, where she also completed her doctoral internship.

She leads the "DREAM" research team (Dare to Research, Empower and Make the World Better), has supervised 17 undergraduate honors theses, and served on 16 graduate thesis committees. As internship coordinator for the master's clinical/counseling psychology program, she redesigned courses to include high-impact practices.

Her accolades include the Research and Creative Activity Faculty Mentor Award (2020) and the Outstanding Faculty in Instructionally Related Activities Award (2019).

Outstanding Service Award

Qingquan Sun, Professor of Computer Science and Engineering

Qingquan Sun, professor in the School of Computer Science and Engineering at the College of Natural Sciences, received the 2023-2024 Outstanding Scholarship, Research and Creative Activities Award for his exceptional research contributions and dedication to student success.

Sun earned his Ph.D. in electrical and computer engineering from the University of Alabama. Before joining CSUSB in 2014 as an assistant professor, he worked as a research assistant at the University of Alabama and as an assistant professor at Oakland University. He became an associate professor in 2019 and a full professor in 2023.

At CSUSB, Sun leads the intelligent sensing and machine learning lab, focusing on machine learning, computer vision, human behavioral analysis, and AI applications in healthcare and cyber-physical systems. He has published 35 high-quality papers, with over 750 citations, and secured funding for 24 grant proposals totaling millions of dollars, including an NSF S-STEM grant for \$2.5 million.

His commitment to his field includes serving as the general conference chair for the first International Conference on Machine Learning and Intelligent Communications. Additionally, Sun has served as the chief guest editor for "Sensors" journal, a guest editor for two international journals, and an associate editor for three prestigious international journals.

Sun's dedication extends to mentoring underrepresented students in STEM, fostering their research success, and helping attract new faculty to the college. He previously received the College of Natural Sciences' Outstanding Professor Award in Research (2022).

Outstanding Faculty Advisor

Julie Taylor, Associate Professor of Communication and Media

Julie Taylor, associate professor of communication and media at the College of Arts and Letters, received the 2023-2024 Outstanding Faculty Advisor Award. She was recognized for her exceptional advising practices, mentorship and dedication to student success.

Taylor joined CSUSB in 2016 and serves as the departmental advising coordinator for communication studies, where she has transformed the advising process through tutorials, FAQ resources, and comprehensive support for faculty and students. She also plays a key role in interdisciplinary initiatives, such as her work with the speaking center in the Jack H. Brown College of Business and Public Administration.

Taylor earned her B.A. in speech communication and teacher licensure and her M.A. in communication studies with a certificate in women's studies from Colorado State University, and her Ph.D. in communication from the University of Utah. She is a member of the steering committee for the National Academic Advising Association and co-chair of the Technology-Enabled Advising Conditions Committee, where she advances research to improve equitable student success.

Outstanding Lecturer

Matthew Habich, Lecturer of Management

Matthew Habich, lecturer of management in the Jack H. Brown College of Business and Public Administration (JHBC), received the 2023-2024 Outstanding Lecturer Award for his exceptional teaching and dedication to students. Known for his commitment to student success, Habich is recognized for his ability to make learning practical, engaging and impactful.

Habich joined CSUSB as a full-time lecturer in 2013 and has since taught 122 sections across nine different courses in various formats, including undergraduate, graduate, in-person, and online. He is also the founding co-director of the JHBC Public Speaking Center, established in 2018, which helps students become confident and effective public speakers.

He holds a B.S. in electrical engineering from Pennsylvania State University, an M.S. in telecommunications management from Golden Gate University, and an M.B.A. from the University of Michigan.

Habich's prior accolades include the 2016-2017 JHBC Lecturer Award.

Current Faculty

Stephen Abbott, 2017

Lecturer in Management

B.S. 1976, California Polytechnic State University - San Luis Obispo

M.B.A. 2001, Claremont Graduate School

Jurgita Abromaviciute, 2019

Assistant Professor of Sociology

BA. 2003, Vilnius University, Lithuania

MA. 2007, East Carolina University

Ph D. 2018, University of Arizona

Nancy Acevedo-Gil, 2014

Professor of Education

B.A. 2006, University of California, Berkeley

M.A. 2009, San Jose State University

Ph.D. 2014, University of California, Los Angeles

Helena Addae, 2014

Professor of Management

B.A. 1980, Ph.D. 2003, Concordia University

M.B.A. 1983, McGill University, Montreal

Taofeeq Adebayo, 2022

Assistant Professor of English

B.A. 2013, Obafemi Awolowo University, Ile-Ife

M.A. 2019, Ph.D. 2022 Tulane University, New Orleans

Mark D. Agars, 1999

Professor of Psychology

B.A. 1992, Sienna College

M.S. 1996, Ph.D. 1999, Pennsylvania State University

Danny Sosa Aguilar

Assistant Professor of Anthropology

B. A. 2009, University of California, Berkeley

M. S. 2009, CSU, Northridge

Ph. D. University of California, Berkeley

Joyce C. Ahlgren, 2003

Lecturer in Mathematics

B.A. 1972, University of California, Santa Barbara

M.A. 2003, California State University, San Bernardino

Lida Ahmadi, 2019

Assistant Professor of Mathematics

B.S. 2011, University of Tehran

Ph.D. 2019, Purdue University

Jeremy Aikin, 2014

Professor of Mathematics

B.S. 2003, University of California, Riverside

M.S. 2005, Ph.D. 2009, Louisiana State University

Lasisi Ajayi, 2014

Professor of Teacher Education Foundation, Chair

B.A. 1983, M.S. 1989, Obafemi Awolowo University, IFE

Ph.D. 1996, Literacy-University of Ibadan

Adil Al-Azzawi

Professor of Computer Science

Jennifer Alford, 2017

Associate Professor of Geography and Environmental Studies

B.A. 2003, North Carolina State University

M.A. 2005, Ph.D. 2014, University of North Carolina at Greensboro

Ece Algan, 2006

Professor of Communication Studies
B.S. 1994, Istanbul Teknik University
M.A. 1996, Marmara University-Istanbul
Ph.D. 2003, Ohio University

Rachel Allinson, 2006

Lecturer in Social Work
B.A. 1994, University of California, Los Angeles
M.S.W. 1996, The Ohio State University

Francis Almendarez, 2022

Assistant Professor of Art
MFA Fine Art (with Distinction), Goldsmiths, University of London,
UKBFA Sculpture/New Genres, minor in Teacher Credential
Preparation: Single Subject in Art, Otis College of Art and Design,
Los Angeles, CA, USA Mobility/Exchange Program, École Nationale
Supérieure des Beaux-Arts, Paris, France Photography and
Foundation, Pasadena City College, Pasadena, CA, USAe

Raisa Alvarado, 2022

Assistant Professor of Communication Studies

Makiko Amaya, 2017

Lecturer in World Languages and Literatures
B.A. 1997, Aoyama Gakuin University
M.A. 2001, California State University - San Bernardino

V Ambati, 2020

Associate Professor of Kinesiology
B.E. 2007, Osmania University, India
M.S. 2009, University of South Florida
Ph.D. 2014, University of Texas at El Paso

Dionisio Amodeo, 2016

Professor of Psychology
B.A. 2006, CSU San Bernardino
M.A. 2009, CSU San Bernardino
Ph.D. 2015, University of Illinois at Chicago

Leslie Amodeo, 2017

Associate Professor of Psychology
B.A. 2008, California State University, San Bernardino
M.A. 2010, California State University, San Bernardino
Ph.D. 2016, University of Illinois

Jennifer L. Andersen, 1996

Professor of English
B.A. 1988, University of California, Los Angeles
M.A. 1991, Ph.D. 1996, Yale University

Annika Anderson, 2015

Associate Professor of Sociology, Chair
B.A. 2006, Pennsylvania State University
M.A. 2010, Washington State University
Ph.D. 2015, Washington State University

Manijeh Badiee, 2013

Professor of Psychology
B.A. 2002, Austin College
M.A. 2007, Saint Edward's University
Ph.D. 2012, University of Nebraska-Lincoln

Eun-OK Baek, 2002

Professor of Education

B.A. 1987, M.Ed. 1993, Chinju National University, Korea
M.A. 1998, Ph.D. 2002, Indiana University

C. Mo Bahk, 2001

Professor of Communication Studies
B.A. 1980, Yonsei University, Seoul, Korea
M.A. 1983/1990, State University of New York, Albany
Ph.D. 1994, Michigan State University

Melissa Bakeman, 1999

Lecturer in Management
B.A. 1996, M.A. 2001, California State University, San Bernardino

Maria V. Balderrama, 1994

Mark Ballard, 2017

Lecturer in Mathematics
M.A. 1977, University of California, Irvine

Cary Barber, 2019

Associate Professor of History
B.A. 2008, University Of North Carolina - Chapel Hill
M.S. 2010, Ohio State University
Ph.D. 2016, Ohio State University

Armando Barragan, 2015

Associate Professor of Social Work
B.A. 2006, University of California, Los Angeles
M.S.W. 2009, University of California, Berkeley
Ph.D. 2015, University of Southern California

Eric Bayruns Garcia, 2019

Assisant Professor of Philosophy
B.A. 2013, Hunter College, CUNY
M.A. 2017, The Graduate Center, CUNY
Ph D. 2019, The Graduate Center, CUNY

Mohammad Bazaz, 2011

Professor of Accounting and Finance
B.A. 1972, Advanced School of Accountancy, Iran
M.A. 1973, National Iranian School of Accountancy, Iran
Ph.D. 1984, University Of Oklahoma

Monideepa Becerra, 2014

Professor of Health Science and Human Ecology
B.S. 2008, University of California, Riverside
M.P.H. 2011, D.PH. 2014, Loma Linda University

Francisca Beer, 1990

Professor of Accounting and Finance, Associate Dean of Academic
Equity
B.A. 1982, M.A. 1983, University of Catholique de Mons
Ph.D. 1990, Catholic University of Louvain

Bailey Benedict, 2026

Professor of Management
B.A. 2015, University of Wisconsin
M. A. 2021, University of Wisconsin
Ph. D. 2021, Purdue University (ABD)

Gretchen Bergquist, 2018

Associate Professor of Communication Studies
B.S. 2010, University of Nebraska, Kearney M.S. 2014, Texas
Christian University Ph.D. 2018, University of Nebraska, Lincoln

Gretchen Bergquist , 2018

Assistant Professor of Communication Studies
 B.S. 2010, University of Nebraska, Kearney
 M.S. 2014, Texas Christian University
 Ph.D. 2018, University of Nebraska, Lincoln

Mariam Betlemidze, 2016

Associate Professor of Communication Studies
 B.A. 2007, Tbilisi State University Georgia
 M.S. 2010, University of Utah-Salt Lake
 Ph.D. 2016, University of Utah-Salt Lake

Andreas Beyersdorf, 2016

Associate Professor of Chemistry and Biochemistry
 B.A. 2001, Chapman University
 M.S. 2007, Ph.D. 2007, UC Irvine

Gisela Bichler, 2000

Professor of Criminal Justice
 B.A. 1994, Simon Frazier University
 M.A. 1996, Ph.D. 2000, Rutgers University

Jessica Block-Nerren, 2017

Lecturer of Communication Studies
 B.A. 2004, Pitzer College
 M.A. 2005, California State University Fullerton

Brittany Bloodhart, 2019

Assistant Professor of Psychology
 B.A. 2005, University of Kansas
 M.S. 2009, Pennsylvania State University
 Ph.D. 2013, The Pennsylvania State University

Dawn Blue, 2016

Professor of Nursing
 B.S.N. 2002, CSU San Bernardino
 D.N.P. 2015, Brandman University

Nathaniel Bodell, 2019

Assistant Professor of Kinesiology
 B.S. 2013, California State University, San Bernardino
 M.S. 2015, California Baptist University
 Ph.D. 2019, University Of Nevada, Las Vegas

Fabián Borges, 2015

Associate Professor of Political Science
 B.A. 2005, Universidad de Costa Rica
 M.A. 2008, Georgetown University
 Ph.D. 2014, University of Southern California

Nicole Bournias-Vardiabasis, 1987

Professor of Biology
 B.S. 1975, University of California, Irvine
 Ph.D. 1978, University of Essex, United Kingdom

Maggie Boyraz, 2018

Associate Professor of Management
 B.S. 2001, Silesian University
 M.A. 2006, Brooklyn College - University of New York
 Ph.D. 2016, Rutgers State University

Meredith Brand

Professor of History
 B. A. 2006, The American University in Cairo
 M. A. 2008, University of Toronto

Ph. D. 2019, University of Toronto

Cheryl Brandt, 2016

Professor of Nursing
 B.S.N. 1979, Southwest Missouri State University
 M.S.N. 1982, University of Minnesota
 Ph.D. 2005, University of Minnesota

Diane K. Brantley, 2003

Professor of Education
 B.A. 1985, San Diego State University
 M.A. 1997, California State University, San Bernardino
 Ph.D. 2001, University of Nevada, Las Vegas

Nicholas Bratcher, 2017

Associate Professor of Music
 B.A. 2008, M.A. 2009, Coastal Carolina University
 Ed.D. 2015, University of Georgia

Stephen Bronack, 2017

Professor of Educational Leadership and Technology
 Ph.D. 1998, University of Virginia Main Campus

Haakon Brown, 2009

Professor of Marketing, Chair
 B.S. 1995, Columbia University
 M.B.A. 2001, Massachusetts Institute of Technology
 Ph.D. 2009, Northwestern University

Terese Burch, 2017

Professor of Nursing
 B.S.N. 1974, Loyola University
 M.S. 1977, Rush University
 Ph.D. 1989, University of Illinois at Chicago

Jason Burke, 2018

Assistant Professor of Chemistry
 B.S. 2004, University of Oregon
 Ph.D. 2012, University of California, Santa Cruz

Sidney Burks, 2014

Lecturer in Education
 B.A. 1970, M.A. 1972, San Diego State University

Cesar Caballero

University Librarian, Dean, Library
 B.B.A. 1972, University of Texas, El Paso
 MLS 1974, University of Texas, Austin

Sara Callori, 2015

Professor of Physics
 B.A. 2007, New York University
 M.A. 2009, Ph.D. 2013, Suny at Stony Brook

Diana Camilo

Assistant Professor of Special Education, Rehabilitation and Counseling
 B. S. University of Rochester, NY
 M. S. University of Rochester, NY
 Ed. D. 2011, Argosy University, Chicago, IL

Jesus Canelon, 2018

Assistant Professor of Information and Decision Sciences
 B.S. 1995, University of Centrocidental
 M.S. 1998, University of Centrocidental

Ph.D. 2011, Claremont Graduate University

Emily Carian, 2019

Assistant Professor of Sociology
B.A., 2011 Dartmouth College
M.A. 2017, Stanford University
Ph D. 2019, Stanford University

David Carlson, 2001

Professor of English
B.A. 1992, Colgate University
M.A. 1994, Ph.D. 2000, Indiana University

Megan Carroll, 2019

Assistant Professor of Sociology
B.A. 2008, University of North Texas
MA. 2012, University of Southern California
Ph D. 2019, University of Southern California

Kerry Cato, 2016

Professor of Geological Sciences
B.S. 1982, Texas Tech University
M.S. 1985, Ph.D. 1991, Texas AM University

Alexandra Cavallaro, 2015

Associate Professor of English
B.A. 2008, Kutztown University Of Pennsylvania
M.A. 2009, Ph.D. 2015, University Of Illinois, Urbana

Janet C. Chang, 1999

Professor of Social Work
B.A. 1998, Ewha Women's University, Seoul, Korea
M.A. 1985, California State University, Los Angeles
M.S.W. 1993, Ph.D. 1998, University of California, Los Angeles

Michael Y. Chao, 2005

Professor of Biology
B.S. 1993, National Taiwan University
Ph.D. 2001, University of Texas Southwestern Medical Center

Brandy Chappell

Lecturer of Public Administration
B. A. 2003, California State Polytechnic University, Pomona
M. P. P. 2010, University of Southern California, Los Angeles
Ph. D. 2016, University of Southern California, Los Angeles

David V. Chavez, 1988

Professor of Psychology
A.B. 1982, Harvard
M.A. 1986, Ph.D. 1993, University of California, Berkeley

Zeng-yin Chen, 2001

Professor of Sociology
B.A. 1981, Beijing Normal University
M.A. 1988, Dartmouth College
M.S. 1993, Ph.D. 1994, Stanford University

Zhaojing Chen, 2017

Assistant Professor of Kinesiology
B.S. 2011, Shanghai University of Sport
M.A. 2013, Ph.D. 2017, University of Oklahoma

Michael Chen, 2018

Professor of Educational Leadership and Technology

Ph.D, 1990, University of Monnesota Twin Cities

Dorothy C. Chen-Maynard, 1992

Professor of Health Science and Human Ecology
B.S. 1978, University of Southern California
M.S. 1981, California State University, Los Angeles
Ph.D. 1994, University of California, Davis.

Ying Cheng, 2018

Assistant Professor of Management
B.A. 2011, Southwest Jiaotong University
M.A. 2013, Michigan State University
Ph.D. 2018, Michigan State University

Tai-Yin Chi, 2016

Lecturer of Information and Decision Sciences
B.A. 1996, Taichung Taiwan
M.B.A 2002, California State University, San Bernardino

Steven Childs, 2016

Associate Professor of Political Science
B.A. 2005, University of Southern California
M.A. 2009, Claremont Graduate University
Ph.D. 2011, Claremont Graduate University

Rueyling Chuang, 2000

Professor of Communication Studies, Dean
B.A. 1987, Tamkang University, Taiwan
M.S. 1992, California State University, Hayward
Ph.D. 1996, Ohio University, Athens

John P. Clapper, 2002

Professor of Psychology
B.A. 1983, State University of New York at Buffalo
Ph.D. 1988, Stanford University

James Clover, 2017

Lecturer in Kinesiology
B.S. 1980, Ohio University Main Campus
M.Ed. 1989, Azusa Pacific University

Kelly Deckard, 2019

Assistant Professor of Nursing
BSN. 2008, University of Phoenix
MS. 2013, Azusa Pacific University
Ph D. 2016, Frontier Nursing University

Manpreet Dhillon Brar, 2020

Assistant Professor of Child Development

Ismael Diaz, 2015

Associate Professor of Psychology
B.A. 2008, University of California, Riverside
M.S. 2011, Ph.D. 2013, Texas AM, College Station

Lynn Diaz-Rico, 1989

Professor of Education
B.A. 1968, University of Pittsburgh
M.A. Ed. 1977, Arizona State University
Ed.D. 1988, InterAmerican University of Puerto Rico

Bibiana Diaz-Rodriguez, 2012

Professor of World Languages and Literatures
B.S. 1998, Universidad de la Saban
M.A. 2005, California State University, Long Beach
Ph.D. 2014, University of California, Irvine

Yasemin Dildar, 2016

Associate Professor of Economics
B.A. 2007, M.S. 2009, Middle East Technical University
Ph.D. 2015, University of Massachusetts

Paul K. Dixon, 1992

Professor of Physics
B.S. 1983, University of Michigan
M.A. 1985, Ph.D. 1990, University of Chicago

Jeremy Dodsworth, 2014

Professor of Biology, Chair
B.S. 2000, University of Wisconsin, Madison
Ph.D. 2006, University of Washington

John R. Dorocak, 1991

Professor of Accounting and Finance
A.B. 1973, Xavier University, Cincinnati, Ohio
J.D. 1977, Case Western Reserve University, Cleveland, Ohio
D.B.A. 1990, University of Florida

Kelly Dortch, 2017

Lecturer in Liberal Studies
M.F.A. 2014, California State University - San Bernardino

Dany Doueiri, 2006

Professor of World Languages and Literatures
B.S. 1989, California Polytechnic University
M.S. 1991, University of California, Davis
Ph.D. 1996, University of California, Los Angeles

Sarah Dowman, 2022

Assistant Professor of World Languages and Literatures
B.A. 2009, Ramapo College M.A. 2013, Bowling Green State University
Ph.D. 2019, University of Maryland, College Park

Corey M. Dunn, 2006

Professor of Mathematics
B.S. 2000, Pacific Lutheran University
M.S. 2002, Ph.D. 2006, University of Oregon

Sarah Dunn, 2020

Professor of Kinesiology
B.S. 1998, Pepperdine University
M.S. 2004, University of Sydney
Ph.D. 2009, University of New South Wales

Nadia Dyakevich, 2002

Professor of Mathematics
M.Sc. 1997, Moscow State Institute of Electronics and Mathematics
M.S. 1998, University of Southwestern Louisiana
Ph.D. 2002, University of Louisiana at Lafayette

Carolyn R. Eggleston, 1991

Essia Hamouda El Hafsi, 2017

Assistant Professor of Information and Decision Sciences
B.S. 1986, Ohio State University
M.S. 1989, Ecole National d'Ingenieurs
M.S. 1994, University of Florida
Ph.D. 2006, University of California, Riverside

Guillermo Escalante, 2014

Associate Professor of Kinesiology
B.S. 1997, M.B.A. 1999, University of LaVerne, CA
D.S.C 2012, Rocky Mountain University of Health Professions

Karen Escalante, 2019

Assistant Professor of Education
BA. 1998, California State University, Northridge

MA. 2008, Concordia University, Irvine
Ph.D. 2016, University of Southern California

Christine N. Famega, 2002

Professor of Criminal Justice, Chair
B.A. 1993, University of Manitoba
M.A. 1996, Minot State University
Ph.D. 2003, University of Cincinnati

Evangeline Fangonil-Gagalang, 2015

Lecturer in Nursing
A.S. 1998, Pasadena City College
B.S.N. 2001, University of Phoenix
M.S.N. 2005, California State University, Fullerton

Kamvar Farahbod, 1991

Professor of Information and Decision Sciences
B.A. 1976, University of Tehran
M.S. 1979, Ph.D. 1986, Oklahoma State University

Dianne Fass, 2012

Student Services Professional, II
M.S. California State University, San Bernardino, 2002

Parastou Feiz, 2007

Professor of English
B.A. 1998, Shahid Beheshti University, Iran
M.A. 2002, Ph.D. 2007, Pennsylvania State University

Hajrudin Fejzic, 1994

Professor of Mathematics
B.S. 1987, University of Sarajevo, Sarajevo, Bosnia and Herzegovina

Ph.D. 1992, Michigan State University

James V. Fenelon, 1999

Professor of Sociology
B.A. 1978, Loyola Marymount University
M.A. 1981, M.A. 1983, School of International Training
Ph.D. 1995, Northwestern University

Miriam Fernandez , 2018

Assistant Professor of English
B.A. 2007, University of California, Los Angeles
M.A. 2013, California State University, Fresno
Ph.D. 2018, Washington State University

Arturo Fernández-Gilbert, 2001

Professor of World Languages and Literatures
B.A. 1988, M.A. 1991, Universidad Complutense de Madrid
Ph.D. 2001, University of New Mexico, Albuquerque

Antony Field, 2011

Associate Professor of Political Science
B.A. 2000, University of Hull, England
M.S. 2002, Missouri State University
Ph.D. 2010, University of Warwick

Jay Fiene, 2009

Professor of Education
B.M.E. 1983, M.M. 1990, Pittsburgh State
Ph.D. 1995, University of Missouri-Columbia, Columbia

Geraldine Fike, 2014

Associate Professor of Nursing

B.S.N. 1998, M.S.N. 2002, California State University, Dominguez Hills
D.N.P. 2012, Western University

Patrick Flaherty, 2015

Lecturer in Management
MBA 1985, California State University, San Bernardino

Stacy Forcino, 2017

Assistant Professor of Psychology
B.A. 2003, University of California, Los Angeles
M.S. 2008, Ph.D. 2010, Idaho State University

Sherri Franklin-Guy, 2007

Professor of Education
B.A. 1994, M.E.D. 2001, Ph.D. 2006, Wichita State University

Catherine Stacey Fraser, 2007

Professor of Music
B.M. 1994, University of Toronto
M.M. 1996, Manhattan School of Music
D.M.A. 2003, University of California, San Diego

Marc Fudge, 2011

Professor of Special Education, Rehabilitation Counseling
B.A. 1992, Howard University
M.P.A. 1999, Fairleigh Dickinson University
Ph.D. 2011, Rutgers University

Shuryo Fujita, 2016

Assistant Professor of Criminal Justice
B.S. 2000, Southeast Missouri State University
M.A. 2003, California State University, San Bernardino
Ph.D. 2011, Rutgers-State University of New Jersey

Jordan Fullam, 2016

Associate Professor of Education
B.A. 2006, Montclair State University
M.A. 2007, University of Chicago
Ph.D. 2016, New York University

Martim Galvão, 2022

Assistant Professor of Music
B.B.A. 2010, Emory University M.F.A. 2014, University of California, Irvine M.A. 2017, Brown University Ph.D. 2022, Brown University

Donna Garcia, 2009

Professor of Psychology
B.A. 1999, Wilfrid Laurier University
M.A. 2001, University of Guelph
Ph.D. 2006, University of Kansas

Maria Garcia-Puente, 2013

Associate Professor of World Languages and Literatures
B.A. 2005, Santiago Compostela
M.A. 2007, Ph.D. 2014, University of Kansas

Maria Garcia-Puente, 2013

Associate Professor of World Languages and Literatures
B.A. 2005, Santiago Compostela M.A. 2007, Ph.D. 2014, University of Kansas

Thom G. Gehring, 1991

Christopher Gentry, 2014

Professor of Kinesiology
B.S. 2005, M.S. 2011, Southern Illinois University
Ph.D. 2014, University of Illinois

George M. Georgiou, 1992

Professor of Computer Science and Engineering
B.S.E.E. 1985, Louisiana Tech University
M.S.E.E. 1987, M.S. 1988, Louisiana State University
M.S. 1990, Ph.D. 1992, Tulane University

Kareen Gervasi, 2006

Professor of World Languages and Literatures
B.A. 1992, Pontifical Catholic University of Peru
M.A. 1994, Ph.D. 2000, University of Southern California

Jessica Getman, 2020

Assistant Professor of Music
B.A. 2002, California Polytechnical State University San Luis Obispo
M.M., 2008, Boston University Ph.D., 2015, University of Michigan

Amir Ghasemkhani, 2021

Assistant Professor of Computer Sciences
B.S. 2011, M.S. 2014, University of Tabriz, Iran
Ph.D. 2019, University of Nevada Reno

Janelle Gilbert, 1994

Professor of Psychology
B.A. 1988, New York University
M.A. 1990, Ph.D. 1994, George Mason University

Thomas Girshin, 2019

Professor of English
B.A. 2003, University of Albany
M.A. 2006, Binghamton University
Ph.D. 2012, Binghamton University

Cari Goetz, 2014

Professor of Psychology
B.S. 2006, University of California, Los Angeles
Ph.D. 2014, University of Texas, Austin

Brett Goforth, 2013

Professor of Geography and Environmental Studies
B.S. 2001, California State University, Polytechnic, San Luis Obispo
Ph.D., 2009, University of California, Riverside

Ed Gomez, 2016

Associate Professor of Art
B.F.A. 1999, Arizona State University
M.F.A. 2003, Otis College of Art and Design

Pablo Gomez, 2020

Associate Professor of Psychology
B.S. 1995, National University of Mexico
M.S. 1999, Northwestern University
Ph.D. 2003, Northwestern University

Gregory Gondwe

Assistant Professor of Communication Studies
B. A. 2005, Pontifica Universidade Antonianum, Rome Italy
B.A. 2011, St. Augustine University of Tanzania
M. A. 2014, University of Oregon
M. S. 2017, University of Oregon
Ph. D. 2017, University of Colorado - Boulder

Donna Gotch, 2002

Lecturer in Communication Studies
B.A. 1984, M.A. 1986, California State University, Los Angeles

Jo Anna Grant, 2003

Professor of Communication Studies
B.A. 1988, M.S. 1990, Texas Christian University
Ph.D. 1996, University of Oklahoma, Norman

Katherine Gray, 2007

Professor of Art, Chair
B.A. 1989, Ontario College of Art
M.F.A. 1991, Rhode Island School of Design

Wilbert Greer, 2014

Assistant Professor of Education
B.A. 2001, University of California, Riverside
M.A. 2007, California State University, San Bernardino
Ph.D. 2013, Claremont Graduate University

Kevin Grisham, 2010

Professor of Geography and Environmental Studies
B.A. 1997, California State University, San Bernardino
M.A. 2005, Ph.D. 2009, University of California, Riverside

Mark Groen, 2006

Professor of Education
B.A. 1981, California State University, Northridge
M.A. 1992, University of Southern California
Ph.D. 2002, University of California, Riverside

Liang Kevin Guo, 2013

Professor of Accounting and Finance
B.A. 2002, Peking University
M.S. 2006, Boston University
Ph.D. 2013, University of Texas - San Antonio

Vipin Gupta, 2010

Professor of Management
B.A. 1988, Shri Ram College of Commerce, Delhi University
M.B.A. 1990, Indian Institute of Management, Ahmedabad
Ph.D. 1998, Wharton School, University of Pennsylvania

D. Raleigh Guthrey, 2017

Lecturer in Mathematics
B.A. 1997, M.A. 1998, California State Polytechnic University, Pomona

Matthew Habich, 2015

Lecturer in Management
M.S. 1995, Golden Gate University

Bryan Haddock, 2001

Professor of Kinesiology
B.A. 1986, The Master's College
M.S. 1988, Ph.D. 1998, Loma Linda University

Erin Hall, 2020

Assistant Professor of English
MSc, Speech-Language Pathology - University of British Columbia, 2006 MA, Linguistics - University of Toronto, 2012 PhD, Linguistics - University of Toronto, 2020

Ilseop Han, 2001

Professor of Mathematics

B.A. 1986, M.S. 1988, Korea University
Ph.D. 1999, University of California, San Diego

Kassandra Harding, 2019

Assistant Professor of Health Science and Human Ecology
BS. 2010, University of California, Davis
Ph D. 20114, University of California, Davis

Andre Harrington, 2006

Professor of Theatre Arts, Chair
B.S. 1986, University of Maryland, College Park
M.F.A. 2005, The University of Iowa, Iowa City

Shyra Harris, 2014

Lecturer in Social Work
B.A. 2009, California State University, San Bernardino
M.S.W. 2011, California State University, San Bernardino

Zahid Hasan, 1985

Professor of Mathematics
B.Sc. 1973, M.Sc. 1976, University of Punjab, Pakistan
Ph.D. 1982, University of Birmingham, England

Christina Hassija, 2013

Professor of Psychology, Dean
B.A. 2004, California State University Northridge
M.A. 2006, California State University Northridge
Ph.D. 2011, University of Wyoming

Lorraine Hedtke, 2012

Professor of Education
B.A. 1978, University of Redlands
M.S.W. 1985, Arizona State University
Ph.D. 2003, University of California, Los Angeles

Brian Heisterkamp, 2001

Professor of Communication Studies
B.A. 1989, Arizona State University
M.A. 1997, Loma Linda University
Ph.D. 2000, Arizona State University

Nicole Henley, 2015

Associate Professor of Health Sciences
B.B.A. 1997, University Of Wisconsin-Whitewater
M.B.A. 2000, University Of Wisconsin-Whitewater
Ph.D. 2007, University of California, Los Angeles

Guy Hepp, 2016

Associate Professor of Anthropology
B.A. 2004, University of Colorado at Boulder
M.A. 2007, Florida State University
Ph.D. 2015, University of Colorado at Boulder

Edwin Hernandez, 2018

Assistant Professor of Special Education, Rehabilitation and Counseling
B.A. 2011, California State University, Northridge
M.A. 2013, New York University
Ph.D. ABD, University of California, Los Angeles

John Hernandez, 2019

Senior Assistant Librarian
B.A. 1997, Columbia University
MSI. 2000, University of Michigan

Ph.D. 2017, University of California, Los Angeles

Christopher Hill, 2018

Assistant Professor of Kinesiology
B.S. 2011, Louisiana State University
M.S. 2014, Miami University
Ph.D. 2018, Michigan State University

Danelle Hodge, 2017

Lecturer in Child Development
B.A. 1994, California State University - San Bernardino
M.A. 1998
Ph.D. 2009, Claremont Graduate School

Danelle Hodge, 2018

Lecturer Professor of Psychology
B.A. 1994, Cal State San Bernardino
M.A. 1998, Claremont Graduate University
Ph.D. 2009, Claremont Graduate University

Chris Hoff, 2018

Assistant Professor of Special Education, Rehabilitation and Counseling
B.A. 2004, Argosy University
M.A. 2010, Pepperdine University
Ph.D. 2016, Loma Linda University

Carol Hood, 2012

Professor of Physics
B.S. 2004, Virginia Polytechnic Institute
M.S. 2007, Ph.D. 2011, University of California, Irvine

Angela Horner, 2013

Professor of Biology
B.S. 2000, Centre College
M.S. 2005, University of Cincinnati
Ph.D. 2010, Ohio University - Main Campus

Yunfei Hou, 2016

Professor of Computer Science
B.A. 2009, Xi'an Jiaotong University
M.S. 2011, Saint Cloud State University
Ph.D. 2016, University of Buffalo

Kathryn Howard, 2012

Associate Professor of Education, Chair
B.A. 1990, University of Oregon
M.A. 1997, Ph.D. 2003, University of California, Los Angeles

Isabel Huacuja Alonso, 2016

Assistant Professor of History
B.A. 2005, Cornell University
M.A. 2009, Ph.D. 2015, University of Texas at Austin

Crystal Xiaoyu Huang, 2016

Professor of Management
B.S. 2011, Cornell University
Ph.D. 2016, University of Toronto

Joe S. Hughes, 1998

Assistant Professor of Health Science and Human Ecology
B.A. 1978, George Washington University
M.S. 1985, Ph.D. 1989, Washington State University

Jacqueline Hughes, 2013

Professor of Education

Ph.D. 1996, Arizona State University

Andrew Hughes, 2016

Professor of Education
B.S. 2006, California University of Pennsylvania
M.S. 2008, Illinois State University
Ed.D. 2015, Northern Carolina State University

Arianna Huhn, 2015

Professor of Anthropology
B.A. 2002, University of California, Berkeley
M.A. 2005, George Washington University
Ph.D. 2013, Boston University

Young Suk Hwang, 2000

Professor of Education
B.A. 1989, Chongshin University, Korea
M.Ed. 1993, Ph.D. 1998, Auburn University, Alabama

Sung-Heh Hyon, 1994

Professor of English
B.A. 1989, University of California, San Diego
Ph.D. 1995, University of Michigan

Yongseok Jang, 2015

Associate Professor of Management
B.A. 2001, Inha University
M.A. 2004, University of Florida
Ph.D. 2009, University of Florida

Brian P. Janiskee, 1998

Professor of Political Science, Interim Chair
B.A. 1989, Western Michigan University
M.A. 1992, Michigan State University
Ph.D. 1996, Michigan State University

Carmen Jany, 2007

Professor of World Languages and Literatures
M.A. 2004, University of California, Santa Barbara
Ph.D. 2001, University of Zurich, Switzerland

Todd E. Jennings, 1990

Professor of Education
B.A. 1983, Biola University
M.A. 1989, Ph.D. 1991, Claremont Graduate University

Jesus D. Jerez-Gomez, 2006

Professor of World Languages and Literatures
B.A. 1998, Universidad de Granada, Spain
M.A. 2000, Kansas State University
Ph.D. 2006, University of California, Davis

Madeleine Jetter, 2007

Professor of Mathematics, Chair
B.A. 1999, Columbia University
M.A. 2001, Ph.D. 2007, University of California, Los Angeles

Nicholas Jew, 2018

Assistant Professor of Anthropology
B.A. 2003, UC Santa Barbara
M.A. 2007, University of Alaska, Fairbanks
Ph.D. 2013, University of Oregon

John Jin, 2009

Professor of Accounting and Finance
 B.A. 1979, M.B.A. 1981, Yon-Sei University
 M.S. 1984, University of Illinois at Urbana-Campaign
 Ph.D. 1989, University of Arizona

Jennifer Jin, 2020

Assistant Professor of Computer Science and Engineering
 B.S. 2009 University of Dallas
 M.S. 2011 University of California
 Los Angeles
 Ph.D. 2019 University of California, Irvine

Susan Jindra, 2007

Lecturer in Education
 B.A. 1972, Columbia University
 MILS, 1974, DED 2001, University of Southern California

Brandon Johns, 2017

Lecturer in Philosophy
 B.A. 2003, University of California - Riverside
 Ph.D. 2012, University of Southern California

Todd Johnson, 2006

Professor of Music
 B.M./B.S. 1988, Central Michigan University
 M.M. 1989, Northwestern University
 D.M.A. 1999, University of Oklahoma

Ann Marie Johnson, 2013

Professor of Management
 B.A. 1995, Northern Michigan University
 J.D. 1998, University Of Cincinnati
 Ph.D. 2011, University of Delaware

Cory Johnson, 2014

Professor of Mathematics
 B.S. 2009, University of Redlands
 Ph.D. 2014, Colorado State University

Diana Johnson, 2019

Assistant Professor of History
 B.A., 2010 Eastern Washington University
 Ph.D., 2017 University of California, Davis

Tiffany Jones, 2007

Professor of History
 B.A. 1999, M.A. 2000, Dalhousie University
 Ph.D. 2005, Queen's University, Canada

Jacob Jones, 2018

Professor of Psychology
 B.A. 2009, CSU Channel Islands
 M.S. 2012, University of Florida
 Ph.D. 2016, University of Florida

Rigaud Joseph, 2017

Assistant Professor of Social Work
 B.S. 2011, M.S.W. 2012, Florida Atlantic University
 Ph.D. 2017, Florida International University

Yuichiro Kakihara, 2000

Professor of Mathematics
 B.S. 1974, M.S. 1976, Dr. Sci. 1985, Tokyo Institute of Technology,
 Japan

Rajrani Kalra, 2008

Professor of Geography and Environmental Sciences
 B.A. 1993, 1998, M.A. 1995, 1999, University of Dehli
 M.A. 2003, University of Akron
 Ph.D. 2007, Kent State University

Yasha Karant, 1989

Professor of Computer Science and Engineering
 B.A. 1975, Immaculate Heart/Cal Tech
 M.S. 1978, Ph.D. 1981, University of California, Berkeley

April Karlinsky, 2020

Assistant Professor of Kinesiology

Ryan Keating, 2013

Professor of History
 B.S. 2008, University of California, Davis
 M.S. 2012, University of New Mexico
 Ph.D. 2013, Fordham University

Rachel Keener, 2007

Student Services Professional, III
 Psy.D. 2006, Fuller Graduate School of Psychology

Hareem Khan, 2019

Assistant Professor of Anthropolgy
 B.A. 2009, Northwestern University
 M.A. 2013, UC Santa Barbara
 Ph.D. 2018, UC Santa Barbara

Dong Man Kim, 1990

Professor of Accounting and Finance
 B.S. 1978, So Gang University
 M.B.A. 1984, West Georgia College
 Ph.D. 1990, Arizona State University

Yu Jung Kim, 2006

Professor of Chemistry and Biochemistry
 B.S. 1995, M.S. 1995, Ph.D. 2002, University of California, Riverside

Younglee Kim, 2015

Professor of Nursing
 B.S. 1998
 M.S.N. 2009, California State University, San Bernardino
 Ph.D. 2014, Azusa Pacific University

Jemma Kim, 2016

Associate Professor of Education
 B.A. 1994, M.A. 1996, Seoul National University
 Ph.D. 2013, University of California, Los Angeles

Taewoo Kim, 2016

Professor of Accounting and Finance
 B.A. 2000, Sungkyunkwan University
 M.S. 2002, Sungkyunkwan University
 Ph.D. 2013, State University of New York at Buffalo

Yeon Kim, 2016

Associate Professor of Nursing
 B.S.N. 1991, Seoul National University
 M.S.N. 2011, CSU Dominguez Hills
 D.N.P. 2015, CSU Fullerton

Paul Kirwan, 2008

Lecturer in Management

B.A. 1998, M.S.C. 2001, University College Cork
Ph.D. 2008, University of Twente, the Netherlands

Hannah Kivalahula-Uddin, 2019

Assistant Professor of Education
B.S. 1991, University Of Missouri-Saint Louis
M. ED. 2008, City University of Seattle
Ph D 2018, University of Hawaii at Manoa

Nicole Klimow, 2019

Assistant Professor of Education
B.A. 1988, Colgate University
M. Ed. 2008, University of Nevada
Ph D. 2018, University of Nevada

Robert J. Knop, 2004

Professor of Music
B.M. 1971, Roosevelt University
M.M. 1998, Northern Illinois University
D.A. 2002, University of Northern Colorado

Michal Kohout, 2003

Professor of Geography and Environmental Studies
B.A. 1993, University of Western Ontario
M.A. 1996, Southwest Texas State University
Ph.D. 2004, Clark University

Karen Kolehmainen, 1988

Professor of Physics
B.S. 1977, Michigan State University
Ph.D. 1983, State University of New York at Stony Brook

Melilka Kordrostami, 2017

Associate Professor in Marketing
B.S. 2006, MBA 2009, Sharif University of Technology
Ph.D. 2017, Iowa State University

Hideya Koshino, 1994

Professor of Psychology
B.A. 1983, M.A. 1985, International Christian University, Tokyo
Ph.D. 1994, University of Kansas

Kurt Kowalski, 2003

Professor of Education
B.A. 1990, Ph.D. 1995, Arizona State University

Janine Kremling, 2008

Professor of Criminal Justice
B.A. 2001, University of Leipzig
M.A. 2004, Ph.D. 2010, University of South Florida

Deirdre Lanesskog, 2016

Associate Professor in Social Work, Director
B.A. 1993, University of Illinois at Urbana-Champaign
M.P.A. 1995, The George Washington University
Ph.D. 2016, University of Illinois at Urbana-Champaign

George Codi Lazar, 2015

Associate Professor of Geological Sciences
B.A. 1995, University of Florida
M.A. 2001, Columbia University
Ph.D. 2010, University of California, Los Angeles

W. Britt Leatham, 1987

Associate Professor of Geological Sciences

B.A. 1981, Weber State College
M.S. 1984, Ph.D. 1987, Ohio State University

Jasmine Lee, 2018

Assistant Professor of English
B.A. 2008, UC San Diego
M.A. 2011, Cal State San Bernardino
Ph.D. 2018, UC Irvine

Lesley Leighton, 2019

Associate Professor of Music, Chair
B.A. 1984, Loyola Marymount University M.M. 1991, University of Southern California D.M.A. 2012, University of Southern California

Brian Levin, 1999

Professor of Criminal Justice
B.A. 1989, University of Pennsylvania
J.D. 1992, Stanford Law School

Michael Lewin, 1995

Professor of Psychology
B.A. 1983, State University of New York, Albany
M.S. 1987, Ph.D. 1992, Oklahoma State University

Lucy Lewis, 2014

Associate Professor of Music
B.M./B.S. 2008, Andrews University
M.M. 2011, University of Cincinnati
D.M.A. 2014, University of Iowa

Yawen Li, 2021

Professor of Social Work
B.A. 1999, Yunnan University
M.A. 2002, The University of Hong Kong
Ph.D. 2009, University of Southern California, Los Angeles

Su Liang, 2010

Associate Professor of Mathematics
B.A. 2003, M.S. 2007, Ph.D. 2010, University of Connecticut

Caroline Lim

Assistant Professor of The School of Social Work
B. A. 2002, University of Michigan
M. S. 2004, Columbia University
Ph. D. 2017, University of Southern California

Frank M. Lin, 1991

Professor of Information and Decision Sciences
B.A. 1981, Tatung Institute of Technology, Taiwan
M.B.A. 1986, Ph.D. 1991, State University of New York at Buffalo

Kate Liszka, 2015

Professor of History
B.A. 2001, Pennsylvania State University
M.A. 2007, Ph.D. 2012, University of Pennsylvania

Xiang Liu, 2009

Professor of Accounting and Finance
B.A. 1998, Beijing Foreign Studies University
M.B.A. 2004, University of Washington
Ph.D. 2009, University of North Texas

Yu Liu, 2015

Associate Professor in Accounting and Finance
B.E. 2003, Huazhong University

MBA 2010 Southern New Hampshire University
Ph.D. 2016 Georgia State University

Erica Lizano, 2014

Assistant Professor of Social Work
B.A. 2005, California State University, Fullerton
M.S. 2007, University of Southern California
Ph.D. 2014, University of Southern California

Giovanna Lloset, 2007

Professor of Mathematics
B.A. 1999, University of Costa Rica
M.S. 2006, Ph.D. 2007, University of Iowa

Min-Lin Lo, 2004

Professor of Mathematics
B.S. 1997, National Tsing-Hua University, Taiwan
M.A. 2000, Ph.D. 2004, State University of New York at Buffalo

Matthew Logan, 2015

Assistant Professor of Criminal Justice
B.A. 2009, University of Western Ontario
M.A. 2011, University of Western Ontario
Ph.D. 2015, University of Cincinnati

Thomas Long, 2006

Professor of History
B.A. 1993, Sonoma State University
M.A. 2001, California State University, Fullerton
Ph.D. 2006, University of California, Riverside

Lisa Looney, 2020

Professor of Child Development
B.A. 1996, California State University, San Bernardino
M.A. 1999, Michigan State University
Ph.D. 2003, University of Maryland, College Park

Angela Louque, 2000

Professor of Education
B.A. 1983, University of California, Los Angeles
M.A. 1986, Loyola Marymount
Ed.D. 1995, Pepperdine University

Chad Luck, 2008

Professor of English
B.A. 1994, University of Washington
M.A. 2001, Ph.D. 2006, Indiana University

Jessica Luck, 2008

Professor of English, Chair
B.A. 1996, M.S. 1997, University of Tennessee
M.A. 1999, Wake Forest University
Ph.D. 2006, Indiana University

Risa Lumley, 2011

Librarian
B.A. 1985, University of California, Riverside
M.A. 1989, University of Iowa

Daniel MacDonald, 2013

Associate Professor of Economics, Chair
B.A. 2007, Seton Hall University
Ph.D., 2013, University of Massachusetts Amherst

Stacy Magedanz, 2000

Librarian
B.A. 1990, M.A. 1992, University of Nebraska-Lincoln
M.A. 1996, University of Missouri-Columbia

Neal Malik, 2019

Assistant Professor of Health Science and Human Ecology
B.A. University of California, Irvine
MPH. Loma Linda University
Ph.D. 2011, Loma Linda University

Jeremy Mallari, 2015

Associate Professor of Chemistry and Biochemistry
B.A. 2000, B.S. 2003, California State University, San Francisco
Ph.D. 2008, University of California, San Francisco

Oraib Mango, 2011

Professor of World Languages and Literatures
B.A. 1992, University of Jordan, Amman
M.A. 2000, Ph.D. 2008, Arizona State University

Jason Mann, 2015

Associate Professor of Theatre Arts
B.A. 1994, Gettysburg College
MFA 2001, George Washington University

David Marshall, 2007

Professor of English
B.A. 1993, College of the Holy Cross
M.A. 1998, University of York
Ph.D. 2007, Indiana University

Nerea Marteache, 2013

Professor of Criminal Justice
B.A. 2002, ESADE University of Spain
B.A. 2008, University of Barcelona
M.A. 2006, University of Barcelona
M.A. 2010, Rutgers School of Criminal Justice
Ph.D. 2013, Rutgers School of Criminal Justice

Edna Martinez, 2014

Assistant Professor of Education
B.S. 2005, M.Ed. 2007, University of Texas, El Paso
Ph.D. 2014, Clemson University

David F. Maynard, 1993

Professor of Chemistry and Biochemistry, Interim Chair
B.S. 1976, California State University, San Bernardino
M.S. 1988, California State University, Long Beach
Ph.D. 1992, University of California, Riverside

B. Theo Mazumdar, 2020

Assistant Professor of Communication Studies
B.A. 1998, University of Texas at Austin M.A. 2014, Ph.D. 2019, University of Southern California

Carolyn McAllister, 2008

Professor of Social Work
B.A. 1996, University of California, Davis
M.S.W. 1999, University of California, Los Angeles
Ph.D. 2003, Michigan State University

Sanders McDougall, 1991

Professor of Psychology
B.A. 1979, M.A. 1981, West Washington University

Ph.D. 1988, University of Kentucky

Sally McGill, 1991

Professor of Geological Sciences
A.B. 1985, Harvard and Radcliffe
M.S. 1989, Ph.D. 1992, California Institute of Technology

Miranda McIntyre

Assistant Professor of Psychology
B.S. 2012, Central Michigan University
M.S. 2015, Purdue University
Ph.D. 2018, Purdue University

Shawnee L. McMurrin, 2000

Professor of Mathematics
B.S. 1985, M.S. 1987, Ph.D. 1991, University of California, Riverside

Connie McReynolds, 2008

Professor of Education
B.S. 1982, Oklahoma City University
M.S. 1988, Emporia State University
Ph.D. 1998, University of Wisconsin-Madison

Thomas McWeeney, 2015

Lecturer in Public Administration
B.A. 1973, California State University, San Diego
M.A. 1977, Ph.D. 1982, Georgetown University

Pamela Medina, 2019

Assistant Professor of Public Administration
B.A. 1990, Florida Atlantic University
M.A. 2010 University of Central Florida
Ph.D. 2015, University of Central Florida

Norman Meek, 1989

Professor of Geography and Environmental Studies
B.A. 1982, University of Kansas
M.A. 1984, Michigan State University
Ph.D. 1990, University of California, Los Angeles

Erik B. Melchiorre, 2002

Professor of Geological Sciences
B.S. 1990, University of Southern California
M.S. 1993, Arizona State University
Ph.D. 1998, Washington University

Anthony E. Metcalf, 1999

Professor of Biology
B.A. 1977, Simon Fraser University
B.S. 1988, Ph.D. 1998, University of California, Riverside

C. Rod Metts, 2002

Associate Professor of Communication Studies
B.A. 1984, M.A. 1988, San Francisco State University
Ph.D. 1994, The Ohio State University

Jeff Meyer, 2016

Associate Professor of Mathematics
B.S. 2007, University of Chicago
Ph.D. 2013, University of Michigan

Jeannine Meza, 2013

Lecturer in Social Work
B.A. 1999, University of California, Los Angeles

M.S.W. 2004, University of Southern California

Eric Milenkewicz, 2020

Librarian
B.A. 1999, University of California, Riverside
M.I.L.S. 2007, San Jose State University

Larry M. Mink, 1992

Professor of Chemistry and Biochemistry
B.S. 1984, Hebrew University of Jerusalem
M.S. 1986, Ph.D. 1990, University of California, Riverside

Nasrin Mohabbati, 2019

Assistant Professor of Information and Decision Sciences
B.S. 2010, University of Tabriz
MISE 2016, Amirkabir University of Technology
Ph.D. 2019, Auburn University

Rafik Mohamad, 2015

Professor of Sociology
B.S. 1992, George Washington University
M.A. 1996, University of California, Irvine
Ph.D. 2002, University of California, Irvine

Taylor Moon

Professor of Art and Design
B.A. 2018, UC Santa Barbara
M.A. 2019, University of Oxford

Stacey Morris, 2020

Assistant Professor of Child Development

Salome Mshigeni, 2018

Assistant Professor of Health Science and Human Ecology
B.A. 2000, University of Nevada, Las Vegas
M.S. 2006, University of Nevada, Las Vegas
Ph.D. 2014, Walden University

Fadi Muheidat, 2019

Assistant Professor of Computer Science and Engineering
B.A. 2000, Jordan University of Science and Technology
M.S. 2015, University of Missouri, Columbia
Ph.D. 2017, University of Missouri, Columbia

Ahlam H. Muhtaseb, 2003

Professor of Communication Studies
B.A. 1994, Hebrew University
M.A. 2000, Ph.D. 2004, University of Memphis

John Mumma, 2012

Professor of Philosophy
B.A. 1996, Cornell University
M.S. 2006, Ph.D. 2006, Carnegie Mellon University

Vishal Munsif, 2011

Associate Professor of Accounting and Finance
B.B.A. 2007, M.A.C.C. 2007, Northern Kentucky University
Ph.D. 2011, Florida International University

Enrique Murillo, 1999

Professor of Education
B.A. 1988, University of California, Los Angeles
M.A. 1995, California State University, Los Angeles
Ph.D. 1999, University of North Carolina Chapel Hill

Jeremy Murray, 2011

Professor of History
B.A. 2001, SUNY at Albany
M.A. 2004, Columbia University in the City of New York
Ph.D. 2011, University of California, San Diego

José Muñoz, 2011

Associate Professor of Sociology
B.A. 1995, University of California, Irvine
M.A. 1998, California State University, Dominguez Hills
Ph.D. 2008, State University of New York, Stony Brook

Kathleen M. Nadeau, 1999

Professor of Anthropology
B.S. 1976, Fitchburg State University
M.A. 1980, University of San Carlos
Ph.D. 1995, Arizona State University

Sang Seok Nam, 2006

Professor of Education
B.Ed. 1984, M.A. 1987, Taegu University
Ph.D. 1996, Arizona State University

Chris Naticchia, 1995

Professor of Philosophy
B.A. 1985, Cornell University
M.A. 1987, New York University, New York
Ph.D. 1995, University of Virginia, Charlottesville

Vincent Nestler, 2014

Associate Professor of Information and Decision Sciences
B.A. 1991, SUNY College at New Paltz
M.A.T. 1993, Columbia University
M.S. 2004, Capitol College, Laurel
Ph.D. 2012, University of Idaho, Pocatello

Laura Newcomb, 2007

Professor of Biology
B.S. 1995, University of Wisconsin, Milwaukee
Ph.D. 2001, University of Wisconsin, Madison

Eric J. Newman, 2001

Professor of Marketing
B.S. 1991, M.B.A. 1992, University of Montana
Ph.D. 2001, Washington State University

Jason Ng, 2015

Professor in Kinesiology
B.S. 2009, M.S. 2011, California State University, Fullerton
Ph.D. 2015 The University of Alabama

Ya (Anna) Ni, 2007

Professor of Public Administration
B.A. 1993, University of Beijing, China
M.A. 2001, Iowa State University
Ph.D. 2007, Syracuse University

Ethel Nicdao , 2018

Professor of Sociology, Chair
B.A. 1993, University of California
M.A. 2001, California State University, East Bay
Ph.D. 2006, University of New Mexico

Daniel Nickerson, 2015

Associate Professor of Biology

B.S. 2000, Kenyon College
Ph.D. 2008, University Of Colorado at Boulder

Wesley A. Niewoehner, 2001

Professor of Anthropology, Chair
B.A. 1982, Colorado College
M.A. 1990, Colorado State University
Ph.D. 2000, University of New Mexico

James A. Noblet, 2003

Professor of Chemistry and Biochemistry
B.S. 1983, University of California, Los Angeles
M.S. 1991, California State University, Long Beach
Ph.D. 1997, University of California, Los Angeles

Alexis Norris, 2014

Associate Professor of Criminal Justice
B.A. 2005, Hampton University
M.A. 2008, Ph.D. 2014, Michigan State University, Lansing

Roderick O'Handley , 2018

Assistant Professor of Special Education, Rehabilitation and Counseling
B.A. 2011, Cal State San Bernardino
M.A. 2014, University of Southern Mississippi
Ph.D. 2016, University of Southern Mississippi

Andrew Oakes, 2014

Professor of Art
B.A. 1997, California State University, San Bernardino
M.F.A. 2014, Azusa Pacific Univeristy

Hyun-Kyoung Oh, 2006

Professor of Kinesiology
B.S. 1998, Dongduk Women's University, Seoul, Korea
M.S. 2000, Seoul National University, Seoul, Korea
Ph.D. 2006, Indiana University, Bloomington

Paulchris Okpala, 2015

Professor of Health Science and Human Ecology
B.S. 2005
M.S. 2007
DPH 2010

Roberto Oregel, 2019

Assistant Professor of Communication Studies
B.A. 1990, University of California, Berkley
M.A. 1998, University of California, Los Angeles
MFA. 2005, University of California, Los Angeles

Paul M. Orwin, 2003

Professor of Biology
B.S. 1991 Harvey Mudd College
Ph.D. 2001, University of Minnesota

Vanessa Ovalle Perez, 2019

Assistant Professor of English
B.A. 2010, Cornell University
M.A. 2017, University of Southern California
Ph D. 2019, University of Southern California

Tomasz Owerkowicz, 2011

Professor of Biology
B.A. 1994, Ph.D. 2003, Harvard University

Sen Padilla , 2018

Assistant Professor of Health Science and Human Ecology
 B.S. 2007, UC San Diego
 M.S. 2011, Loma Linda University
 Ph.D. 2018, Loma Linda University

Kristi Papailler, 2019

Assistant Professor of Theater Arts
 BA. 2009, University of Louisville
 MFA 2014, University of Louisville

Deborah A. Parsons, 1996

Professor of Criminal Justice
 B.A. 1990, University of California, Irvine
 M.S. 1992, California State University, Long Beach
 Ph.D. 1996, University of California, Irvine

Pinthusorn Pattayakorn, 2018

Professor of Nursing, Chair
 B.S.N. 1992, Rangsit University
 M.S.N. 1996, Mahidol University
 Ph.D. 2009, Mahidol University

Hang Pei, 2016

Associate Professor of Accounting and Finance
 B.A. 2007, Beihang University
 M.A. 2010, The George Washington University
 Ph.D. 2016, The George Washington University

Angela Penaredondo, 2018

Assistant Professor of English
 B.A. 2007, San Francisco State
 M.F.A. 2013, University of California, Riverside

Jason Magabo Perez , 2016

Assistant Professor of English
 B.A., 2003, University of California, San Diego
 M.F.A., 2006, New College of California
 Ph.D. 2016, University of California, San Diego

Teresa Perry, 2022

Assistant Professor of Economics
 B.A. University of California Santa Barbara, 2013
 Ph.D. Economics Colorado State University, 2022

Bonnie L. Petry, 1992

Librarian
 B.A. 1979, California State University, Sacramento
 M.L.S. 1989, University of California, Los Angeles

Kathleen M. Phillips, 2001

Lecturer in Education
 B.A. 1987, Michigan State University
 M.A. 1994, California State University, San Bernardino

Sharon Pierce, 2019

Assistant Professor of Public Administration
 B.A. 2013, California State University, San Bernardino
 MPA. 2014, California State University, San Bernardino
 Ph D. 2017, California State University, San Bernardino

Matthew Poole, 2015

Professor of Art, Chair
 B.F.A. 1996, Ruskin School of Fine Art, University of Oxford

M.F.A. 1997, University of Northumbria, Newcastle-Upon-Tyne

Mihaela Popescu, 2006

Professor of Communication Studies
 B.A. 1994, University of Bucharest, Romania
 M.A. 1995, Central European University
 M.A. 2001, Ph.D. 2008, University of Pennsylvania

Zachary Powell, 2018

Assistant Professor of Criminal Justice
 B.S. 2012, University of North Texas
 M.S. 2015, The University of Texas at Dallas
 Ph.D. 2018, The University of Texas at Dallas

Wagner Prado, 2019

Assistant Professor of Kinesiology
 B.S. 1999, College of Santo Andre
 M.S. 2004, Federal University of Sao Carlos
 Ph D. 2007, Federal University of Sao Paulo

Martin Premoli, 2020

Assistant Professor of English
 B.A. English, Pepperdine University 2010 M.A. English, University of Virginia 2012 M.A. Comparative Literature, University of Pennsylvania 2017 Ph.D. Comparative Literature and Literary Theory, University of Pennsylvania 2020

Lynne (Susie) Pryor, 2017

Associate Professor of Management
 B.A. 1995, MidAmerica Nazarene University
 M.B.A. 1999, MidAmerica Nazarene University
 Ph.D. 2006, University of Nebraska

Breanna Putman, 2019

Assistant Professor of Biology
 B.S. 2010, California Polytechnic State University San Luis Obispo
 Ph.D. 2016, San Diego State

Timothy E. Pytell, 2003

Professor of History
 B.A. 1985, Colorado Springs College
 M.A. 1990, Ph.D. 1999, New York University

Haiyan Qiao, 2007

Professor of Computer Science and Engineering
 B.S. 1993, M.S. 1996, Huanzhong University, China
 M.S. 2002, North Dakota State University
 Ph.D. 2007, University of Arizona

Ranfeng Qiu, 2010

Professor of Management, Chair
 B.S. 2000, University of International Business and Economics
 M.A. 2005, Indiana University at Bloomington
 Ph.D. 2010, Rutgers University, New Jersey

Abbas Quamar

Associate Professor of Special Education, Rehabilitation and Counseling
 B. S. 2009, University of Pittsburgh
 M. S. 2013, University of Pittsburgh
 Ph. D. 2018, University of Pittsburgh

Abbas Quamar

Professor of Special Education, Rehabilitation and Counseling
 B. A. 2009, University of Pittsburgh

M. A. 2013, University of Pittsburgh
Ph. D. 2018, University of Pittsburgh

Barbara A. Quarton, 1999

Librarian
B.A. 1977, University of San Diego
M.L.I.S. 1999, San Jose State University

Alison Ragguette, 2006

Professor of Art
B.F.A. 1997, Concordia University
M.F.A. 2004, California College of the Arts

Shafiqur Rahman, 2019

Professor of Communication Studies
B.A. 1989, Dhaka University
M.A. 2001, University of Louisiana
Ph.D. 2007, Southern Illinois University

Luz Ramirez, 2001

Professor of English
B.A. 1991, Tulane University
M.A. 1994, Ph.D. 1998, University of Texas, Austin

Robert Ray

Associate Professor of Art and Design
B. A. 2006, Northeastern Illinois University
M. A. 2010, Rensselaer Polytechnic Institute - Troy NY

Jason Reimer, 2001

Professor of Psychology
B.A. 1993, M.A. 1996, University of Nebraska at Omaha
Ph.D. 2001, University of Nebraska-Lincoln

John Reitzel, 2014

Associate Professor of Criminal Justice
B.A. 2001, SUNY, Cortland
M.A. 2003, Ph.D. 2006, University of Florida, Gainesville

Paul A. Renteln, 1991

Professor of Physics
B.A. 1981, University of California, Berkeley
Ph.D. 1988, Harvard University

David Rhoads, 2013

Associate Professor of Biology
B.S. 1994, Pennsylvania State University
Ph.D., 1992, Michigan State University

Oscar Rios, 2017

Lecturer in World Languages and Literatures
B.A. 2006, M.A. 2008, California State University - San Bernardino

Stacie Robertson, 2016

Associate Professor of Education
B.S. 1988, Illinois State University
M.S. 1995, University of Illinois
Ph.D. 2003, Penn State University

Karen Robinson, 2014

Associate Professor of Sociology
B.A. 1998, University of California, Los Angeles
Ph.D. 2011, University of California, Irvine

Marc Robinson, 2018

Assistant Professor of History
B.A. 2004, University of Washington, Seattle
Ph.D. 2012, Washington State University, Pullman

Jonathan Robinson Anthony, 2022

Assistant Professor of English
B.A., Human Development - Early Childhood Development, California State University, East Bay B.S., Communicative Disorders and Deaf Education, Utah State University M.S., Communicative Disorders - Speech-Language Pathology, San Francisco State University Ph.D., Language and Communicative Disorders, San Diego State University/ University of California San Diego Joint Doctoral Program

Alexandru Roman, 2013

Professor of Public Administration
B.A. 2004, Utica College of Syracuse University
M.A. 2006, State University of New York at Albany
Ph.D. 2013, Florida Atlantic University

Jacqueline Romano, 2018

Assistant Professor of Teacher Education Foundations
B.A. 2000, California State University, San Bernardino
M.A. 2004, California State University, San Bernardino
Ph.D. 2009, Texas Tech University

Lawrence Rose, 2011

Professor of Accounting and Finance
Dean
B.S. 1976, Bradley University
M.A. 1978, Northern Illinois University
Ph.D. 1985, Texas A and M

Karen Rowan, 2008

Professor of English
B.A. 1996, Guilford College
Ph.D. 2005, State University of New York at Albany

Jason Ryan, 2011

Professor of Marketing
B.A. 1995, Swarthmore College
M.B.A. 2000, Washington University
A.M. 2002, Washington University
Ph.D. 2007, University College Dublin

Amanda Rymal, 2014

Professor of Kinesiology
B.A. 2005, Laurentian University, Ontario
M.A. 2007, Ph.D. 2011, University of Ottawa

Ronald Salloum, 2019

Assistant Professor of Computer Science and Engineering
B.S. 2010, California State Polytechnic University, Pomona
Ph D. 2019, University of Southern California

Michael Salvador, 2012

Professor of Communication Studies
B.A. 1979, Cal State University, San Francisco
M.A. 1984, Cal State University, Monterey Bay
Ph.D. 1989, University of Utah

Gilna Samuel, 2018

Assistant Professor of Accounting and Finance
B.S. 2011, Morgan State University
M.S. 2013, Pennsylvania State University

Ph.D. 2018, Rensselaer Polytechnic Institute

Richard Samuelson, 2007

Associate Professor of History
B.A. 1992, Bates College
M.A. 1995, Ph.D. 2000, University of Virginia

Maria Santos, 2018

Assistant Professor of Psychology
B.A. 2008, University of California, Los Angeles
M.S. 2013, University of Wisconsin, Milwaukee
Ph.D. 2016, University of Wisconsin, Milwaukee

Ghulam Sarwar, 2006

Professor of Accounting and Finance
B.S. 1980, University of Faisalabad
M.S. 1984, University of Philippines
Ph.D. 1989, University of Nebraska, Lincoln
Ph.D. 1997, Oklahoma State University

Joseph A. Scarcella, 1998

Professor of Educational Leadership and Technology, Interim Chair
B.A. 1985, M.A. 1992, San Diego State University
Ph.D. 1997, University of Missouri-Columbia

Gina Schlesselman-Tarango, 2014

Associate Librarian
B.A. 2007, Drake University
M.S. 2012, University of Colorado at Denver
M.L.I.S. 2014, University of Denver

Andrea Schoepfer, 2007

Professor of Criminal Justice
B.A. 2001, M.A. 2004, Ph.D. 2007, University of Florida

Pamela J. Schram, 1998

Professor of Criminal Justice
B.S. 1988, Loyola University of Chicago
M.A. 1990, Rutgers University
Ph.D. 1996, Michigan State University

Cynthia Schreihans, 2006

Lecturer in Management
B.A. 1998, M.B.A. 2000, California State University, San Bernardino
Ph.D. 2006, University of La Verne

Winifred Scott, 2018

Associate Professor of Accounting and Finance
B.S. 1981, California State University, Dominguez Hills
M.B.A. 1993, California State University, San Bernardino
Ph.D. 2000, Florida State University

Lynn Scow, 2016

Associate Professor of Mathematics
B.A. 2004, Ph.D. 2010, University of California, Berkeley

Christy Scroggins, 2017

Lecturer in Health Science and Human Ecology
B.A. 2011, California State University - Fullerton
M.P.H. 2015, California State University - San Bernardino

Craig Seal, 2011

Professor of Management
B.A. 1991, Santa Clara University
M.A. 1995, Boston College

Ph.D. 2007, George Washington University

Victoria A. Seitz, 1991

Professor of Marketing
B.S. 1978, Kansas State University
M.S. 1984, Ph.D. 1987, Oklahoma State University

David Senteney, 2014

Professor of Accounting and Finance
B.S. 1980, Eastern Illinois University
M.A.S. 1983, Ph.D. 1987, University Of Illinois, Urbana-Champaign

Lisa Shamansky, 1989

Professor of Chemistry and Biochemistry
B.S. 1980, Indiana University, Bloomington
Ph.D. 1986, University of Illinois, Urbana

Conrad Shayo, 1994

Professor of Information and Decision Sciences, Chair
B. of Commerce 1981, University of Dar-Es-Salaam, Tanzania
M.B.A. 1985, University of Nairobi, Kenya
Ph.D. 1995, Claremont Graduate University

Austin Shelton, 2019

Assistant Professor of Accounting Finance
B.S. 2008, University of Arizona
M.S. 2010, University of Arizona
Ph.D. 2019, Florida Atlantic University

Herbert P. Shon, 2004

Assistant Professor of Social Work
B.A. 1987, California State University, Los Angeles
M.S.W. 1991, Ph.D. 2001, University of California, Los Angeles

Kenneth S. Shultz, 1992

Professor of Psychology, Chair
B.A. 1984, State University of New York, College at Potsdam
M.A. 1987, Ph.D. 1992, Wayne State University

Anthony Silard, 2016

Associate Professor of Public Administration
B.A. 1989, UC Berkley
M.P.P. 1995, Harvard JFK School of Government
Ph.D. 2016, IESE Business School

James Simon, 2017

Assistant Professor of Social Work
B.A. 2004, California State University Northridge
M.S.W. 2006, University of California, Los Angeles
Ph.D. 2016, University of Southern California

Kate Simonian, 2020

Assistant Professor of English
B.A. University of Sydney, 2010 MFA fiction CUNY (Brooklyn College) 2014 Ph.D. Texas Tech University 2020

Brent Singleton, 2002

Librarian
B.A. 1993, M.L.I.S. 2001, University of California, Los Angeles

John Skillman, 1998

Professor of Biology
B.S. 1988, Oregon State University
Ph.D. 1994, Duke University

Douglas C. Smith, 1995

Professor of Chemistry and Biochemistry, Chair
B.A. 1988, Wittenburg University, Ohio
Ph.D. 1994, Purdue University

Johanna L. Smith, 2000

Professor of Theatre Arts
B.A. 1994, Miami University, Ohio
M.F.A. 1998, Arizona State University

Terry D. Smith, 2006

Professor of Theatre Arts
B.F.A. 1974, Virginia Commonwealth University, Richmond
M.A. 1993, California State University, Northridge
Ph.D. 1996, University of Washington, Seattle

Patricia Smith

Lecturer of Teacher Education and Foundations
B. A. 2008, Rutgers University, Camden, NJ
M. A. 2013, Texas Tech University - Lubbock, TX
:Ph. D. 2018, University of Maryland, College Park

Robert Kyriakos Smith, 2020

Assistant Professor of English
B.A., English and Comparative Literary Studies, Occidental College,
2003 M.A., English Literature, Loyola Marymount University, 2009
Ph.D., English, UCLA, 2020

David Smith , 2019

Assistant Professor of Biology
B.S. 2001, Texas State University
Ph. D, 2012 Northern Arizona University

Hosung So, 2002

Professor of Kinesiology
B.S. 1993, M.S. 1995, Chug-Ang University, Seoul Korea
Ph.D. 2002, University of Nevada, Las Vegas

Joon Son, 2012

Associate Professor of Information and Decision Sciences
B.S. 1994, University of California, Berkeley
M.S. 2008, University of Minnesota Twin Cities
Ph.D. 2008, University of Idaho

Chanho Song, 2015

Associate Professor of Marketing
B.S. 2004
M.B.A. 2010, University of California, San Diego
Ph.D. 2015, Kent State University

Eva Marie Sorrell, 2005

Librarian
B.A. 1995, University of California, Riverside
M.L.I.S. 2001, University of California, Los Angeles

Shannon Sparks, 2016

Professor of Education
B.S. 2006, University of Nevada, Las Vegas
M.A. 2007, University of Nevada, Las Vegas
Ph.D. 2013, University of Nevada, Las Vegas

Brad Spence, 2006

Professor of Art
B.A. 1990, University of Florida

M.F.A. 1996, California Institute of the Arts

Kathy Stafford, 2017

Lecturer in Nursing
B.S.N. 2000, Phoenix Cc

Brett J. Stanley, 1994

Professor of Chemistry and Biochemistry
B.S. 1987, University of Pittsburgh
Ph.D. 1992, Utah State University

Beth Steffel, 2007

Associate Professor of Art
B.F.A. 2004, University of Akron
M.F.A. 2006, University of Cincinnati

Daniel Stewart, 2013

Lecturer in Education
B.A. 2008
M.S. 2011, California State University, San Bernardino
Ph.D. 2017, University of Louisiana, Monroe

Michael Stull, 2006

Professor of Entrepreneurship, Director
B.A. 1988, M.B.A. 1989, California State University, San Bernardino
EDM 2005, Case Western Reserve University

Becky Sumbera, 2017

Assistant Professor of Education
B.S. 1990, California State University Sacramento
M.A. 2002, National University
D.ED. 2017, Pepperdine University

Stuart S. Sumida, 1992

Professor of Biology
B.A. 1981, M.A. 1983, Ph.D. 1987, University of California, Los Angeles

Qingquan Sun, 2014

Professor of Computer Science
B.S. 2006, XI'AN University of Technology
M.S. 2012, University of Alabama
Ph.D 2013, University of Alabama

Doguhan Sundal, 2022

Assistant Professor of Economics
B.A. Bilkent University, 2014
M.A. Bilkent University, 2016
Ph.D. Economics University of Utah, 2022

Stanley L. Swartz, 1989

Professor of Education
A.B. 1970, Findlay College
M.Ed. 1972, Ph.D. 1976, Bowling Green State University

J. Chad Sweeney, 2011

Professor of English
B.A. 1993, University of Oklahoma Norman Campus
M.F.A. 2006, California State University, San Francisco
Ph.D. 2011, Western Michigan University

Judith Sylva, 2006

Professor of Education
B.A. 1992, University of California, Irvine

Ph.D. 1999, University of California, Riverside

Halil Tasova

Professor of Teacher Education and Foundations
B. S. 2008, Marmara University, Istanbul, Turkey
M. S. 2011, Marmara University, Istanbul, Turkey

John Tate, 1989

Associate Professor of Chemistry and Biochemistry
B.Sc. 1979, Ph.D. 1982, University of Sheffield, England

Julie Taylor, 2016

Associate Professor of Communication Studies
B.A. 2008, M.A. 2010, Colorado State University
Ph.D. 2014, University of Utah, Salt Lake

George Antony Thomas, 2020

Professor of World Languages and Literatures, Chair
B. A. 1992, University of Texas, Austin
M. A. T. 1996, Kent State University
M.A. 2000, University of Wisconsin, Madison
Ph.D. 2006, Emory University

Kathyrne Tiras, 2012

Lecturer in Nursing
B.S.N. 1983, University of Kansas Main Campus
M.S.N. 2009, Loma Linda University

Claire Todd, 2021

Professor of Geological Sciences, Chair
B.A. 2000, Claremont McKenna College
M.S. 2002, Columbia University School of Engineering and Applied Science
Ph.D. 2007, University of Washington

Nena M. Torrez, 1996

Professor of Education
B.A. 1972, University of California, Berkeley
J.D. 1975, California Western School of Law
M.A. 1980, California State University, Dominguez Hills
Ph.D. 1988, Claremont College

Roland Trapp, 1994

Professor of Mathematics
B.A. 1984, Knox College
M.A. 1985, Ph.D. 1990, Columbia University

Jodie B. Ullman, 1996

Professor of Psychology
B.A. 1980, M.A. 1989, Ph.D. 1997, University of California, Los Angeles

Timothy D. Usher, 1990

Professor of Physics
B.S. 1981, Appalachian State University
Ph.D. 1990, University of South Carolina

Amy Van Schagen, 2016

Associate Professor of Child Development
B.S. 2007, M.S. 2013, Ph.D. 2016, University of North Carolina at Greensboro

Montgomery Van Wart, 2005

Professor of Educational Leadership Technology
B.A. 1973, Franklin College

M.A. 1981, Lewis and Clark College
Ph.D. 1990, Arizona State University

William Vanderburgh, 2014

Professor of Philosophy
B.A. 1993, University of Western Ontario
M.A. 1994, University of Western Ontario
Ph.D. 2001, University of Western Ontario

Javad Varzandeh, 1987

Professor of Information and Decision Sciences
B.S. 1974, National University, Iran
M.S. 1976, St. Mary's University
Ph.D. 1981, Oklahoma State University

Jill Vassilakos-Long, 1999

Librarian
B.A. 1990, Stanford
M.L.S. 1992, San Jose State University

Teresa Velasquez, 2012

Professor of Anthropology, Chair
B.A. 1999, University of California, Davis
M.A. 2004, Ph.D. 2012, University of Texas at Austin

Michael Verdi, 2001

Professor of Education
B.S. 1985, University of Notre Dame
M.S. 1986, Northwestern University
Ph.D. 1994, Arizona State University

Angie Verissimo, 2014

Assistant Professor of Health Science
B.A. 2005, University of Redlands
M.P.H. 2007, Ph.D. 2011, University of California, Los Angeles

Caroline H. Vickers, 2004

Professor of English
B.A. 1994, University of Georgia
M.S. 1997, Georgetown University
Ph.D. 2004, University of Arizona

Christina Villegas, 2015

Professor of Political Science
B.A. 2003, California State University, San Bernardino
M.A. 2006, Ph.D. 2013, University of Dallas

Paloma Villegas, 2018

Assistant Professor of Sociology
B.A. 2004, University of California, Berkeley
M.A. 2006, San Francisco State University
Ph.D. 2012, University of Toronto

Eric Vogelsang, 2015

Professor of Sociology
B.S. 1996, Syracuse University
M.S. 2011, Ph.D. 2015, University of Wisconsin, Madison

Kerstin Voigt, 1994

Professor of Computer Science and Engineering
Vordiplom 1981, Johann-Wolfgang-Goethe University of Frankfurt, Germany
M.S. 1984, Ph.D. 1994, Rutgers University

Laura J. Wallace, 2000

Professor of Mathematics
 B.S. 1991, California State Polytechnic University, Pomona
 M.S. 1992, Ph.D. 1998, University of California, Riverside

Wenxiang Wang, 1994

Professor of Mathematics
 B.A. 1982, Tsinghua University, Beijing, China
 M.A. 1984, Ph.D. 1988, Princeton University

Zhonghui Wang, 2017

Assistant Professor of Management
 B.A. 1991, Northern Jiaotong University
 M.B.A. 2004, Georgia Institute of Technology
 M.S.F. 2008, Boston College
 Ph.D. 2013, Purdue University

ChunXue "Viktor" Wang, 2021

Professor of Educational Leadership and Technology
 B.A. 1999, Dalian University of Foreign Languages
 M.S. 1999, Pittsburg State University
 M.S. 2001, University of Arkansas
 Ph.D. 2002, University of Arkansas

Sharon L. Ward, 1999

Professor of Special Education Rehabilitation and Counseling
 B.A. 1993, California State University, San Bernardino
 Ph.D. 1998, University of California, Riverside

Amy Wassing, 2015

Lecturer of Communication Studies
 M.A. 2015, California State University, San Bernardino

Andrew Nick Watson, 2002

Lecturer of Social Work
 B.A.S.W. 1982, San Diego State University
 M.S.W. 1984, San Diego State University

Sang Ouk Wee, 2017

Assistant Professor of Kinesiology
 B.S. 2000, Korea University
 M.E. 2004, Auburn University
 M.S. 2012, California State University Northridge
 Ph.D. 2017, University of Illinois at Chicago

Douglas Weiss, 2014

Professor of Criminal Justice
 B.S. 2002, Illinois Institute of Technology
 M.A. 2008, University of Southern Carolina
 Ph.D. 2014, University of Maryland

Amanda S. Wilcox-Herzog, 1999

Professor of Child Development, Chair
 B.A. 1988, University of California, Irvine
 M.Ed. 1992, Chapman University
 M.A. 1995, Ph.D. 1999, Purdue University

Peter D. Williams, 1983

Professor of Mathematics
 B.S. 1979, Ph.D. 1983, University of St. Andrews, Scotland

Doris Wilson, 2008

Associate Professor of Education, Associate Dean
 B.S. 1964, Southwest Missouri State University
 M.S. 1971, Azusa Pacific College

Ed.D. 1975, University of Southern California

Nancy Wolf, 2013

Lecturer in Nursing
 B.S.N. 2008, M.S.N. 2011, California State University - San Bernardino

Eugene H. Wong, 1994

Professor of Child Development
 B.A. 1986, University of California, Los Angeles
 M.A. 1989, Ph.D. 1991, University of California, Riverside

Laura M. Woodney, 2005

Professor of Physics
 B.A. 1993, John Hopkins University
 M.S. 1997, Ph.D. 2000, University of Maryland

John Wu, 2008

Professor of Information and Decision Sciences
 Ph.D., 1995, Penn State University

Bo Xu, 2008

Professor of Geography and Environmental Sciences, Chair
 B.S. 1998, Beijing Normal University
 M.S. 2001, East China Normal University
 M.S. 2007, Ph.D. 2008, University of Georgia

David N. Yaghoubian, 2003

Professor of History
 B.A. 1989, University of California, Santa Cruz
 M.A. 1994, Ph.D. 2000, University of California, Berkeley

Priyanka Yalamanchili, 2015

Assistant Professor of Education
 B.A. 2006
 M.A. 2008
 Ph.D. 2014, Southern Illinois University, Carbond

Shumei Yang, 1997

Professor of Chemistry and Biochemistry
 B.S. 1982, Zhengzhou University, P.R. China
 Ph.D. 1991, Iowa State University

Taewon Yang, 2002

Professor of Accounting and Finance, Chair
 B.S. 1993, Hankuk Aviation University
 M.B.A. 1996, Ohio State University
 Ph.D. 2002, University of Massachusetts

Meng-Jung Yang, 2022

Assistant Professor of Art
 Ph.D. Northern Illinois University, DeKalb, IL. M.F.A. National Taiwan Normal University, Taiwan.

King-To Yeung, 2014

Associate Professor of Sociology
 B.A. 1996, University of Guam
 M.A. 1998, Texas Tech University
 Ph.D. 2007, Rutgers University

Xinying Yin, 2013

Professor of Education
 B.S. 2004, Beijing Normal University
 Ph.D. 2013, Indiana University - Bloomington

Yolonda Youngs, 2021

Professor of Geography
 B.A. 1993, Florida State University
 M.S. 2004, Montana State University
 Ph.D. 2009, Arizona State University

Scot J. Zentner, 1993

Professor of Political Science, Chair
 B.A. 1988, California State University, San Bernardino
 M.A. 1991, Ph.D. 1994, Michigan State University

Renwu Zhang, 2011

Professor of Chemistry
 B.S. 1988, Anhui Normal University
 M.S. 1993, University of Science, China
 Ph.D. 2002, University of Missouri

Jing Zhang, 2016

Associate Professor of Management
 B.A. 2009, Shandong Normal University
 M.A. 2014, University of Houston
 Ph.D. 2016, University of Houston

Yan Zhang, 2018

Assistant Professor of Computer Science and Engineering
 B.E. 2000, Lanzhou Jiaotong University
 Ph.D. 2011, Beijing Jiaotong University
 Ph.D. 2018, University of Regina, Canada

Kevin Zhang, 2020

Assistant Professor
 B. M. New England Conservatory of Music
 M.F.A. University of California, Irvine
 Ph. D. University of California, San Diego

Jun (Jake) Zhu, 2002

Professor of Information and Decision Sciences
 B.A. 1988, Hunan Educational Institute, China
 M.A. 1991, University of Redlands
 Ph.D. 1997, University of California, Riverside

Professor of Education, Teacher Education and Foundations. Emeritus, 2016

Janice Loutzenhiser
Associate Professor, Management. Emeritus, 2008

Joseph E. Lovett
Professor, Health Science. Emeritus, 2006

Dale Lund
Professor, Sociology. Emeritus, 2015

Lee A. Lyons
Professor, Theatre Arts. Emeritus, 2008

Loralee MacPike
Professor, English. Emeritus, 1997

Sarojam Mankau
Professor, Biology. Emeritus, 1994

Kenneth A. Mantei
Professor, Chemistry. Emeritus, 2005

Alemayehu Mariam
Professor, Political Science.

Norton E. Marks
Professor, Marketing. Emeritus, 2005

Carolyn Martin
Professor, Kinesiology. Emeritus, 2004

Nancy Mary

Professor, Social Work. Emeritus, 2007

Audrey Mathews
Professor, Public Administration. Emeritus, 2006

Clark Mayo
Professor, English. Emeritus, 2001

Ward M. McAfee
Professor, History. Emeritus, 2002

Marjorie McCabe
Professor, Special Education, Rehabilitation and Counseling. Emeritus, 2015

Rosemary McCaslin
Professor, Social Work. Emeritus, 2015

Theodore R. McDowell
Professor, Geography. Emeritus, 2008

Larry E. McFatter
Professor, Music. Emeritus, 2010

Susan J. McGee-Stehsel
Assistant Professor, Nursing. Emeritus, 2016

George McGinnis
Professor, Art. Emeritus, 2010

Thomas McGovern
Professor, Art. Emeritus, 2020

Mary L. McGregor
Associate Professor, Nursing. Emeritus, 1992

Patrick McInturff
Professor, Management. Emeritus, 2010

Susan Meisenholder
Professor, English. Emeritus, 2006

Thomas Meisenholder
Professor, Sociology. Emeritus, 2004

Lal S. Mian
Professor, Health Science. Emeritus, 2017

Randi L. Miller
Professor, Sociology. Emeritus, 2009

Steven Mintz
Professor, Accounting. Emeritus, 2003

Mary E. Molle
Professor, Nursing. Emeritus, 2010

Clark Molstad
Professor, Management. Emeritus, 2010

Kenton L. Monroe
Professor, Psychology. Emeritus, 1988

Thomas E. Moody
Associate Professor, Philosophy. Emeritus, 2012

Teresa Morris

Social Work. Emeritus, 2013

Bernhardt L. Mortensen
Associate Professor, Sociology. Emeritus, 1978

Richard Moss
Professor, Education. Emeritus, 2002

T. Patrick Mullen
Professor, Education. Emeritus, 2002

James Mulvihill
Professor, Geography. Emeritus, 2007

Owen J. Murphy
Professor, Computer Science. Emeritus, 2019

Jamal Nassar
Professor, Political Science. Emeritus, 2015

Gary A. Negin
Professor, Teacher Education and Foundations. Emeritus, 2015

Terri J. Nelson
Professor, World Languages. Emeritus, 2022

Robert (Brett) Nelson
Professor, Special Education, Rehabilitation and Counseling. Emeritus, 2020

Brian W. Newberry
Professor, Educational Leadership and Technology. Emeritus, 2015

Frederick A. Newton
Professor, Psychology. Emeritus, 2005

Eric Nilsson
Professor, Economics. Emeritus, 2021

Ruth A. Norton
Professor, Education. Emeritus, 2010

C. Michael O'Gara
Professor, Kinesiology. Emeritus, 1977

James S. Okon
Professor, Mathematics. Emeritus, 2012

Shari Oliver
Student Services Professional, Emeritus, 2006

Walter Oliver
Professor, World Languages. Emeritus, 2001

Theron Pace
Professor, English. Emeritus, 2006

E. Phillip Page
Professor, English. Emeritus, 2006

Elinore H. Partridge
Associate Professor, English. Emeritus, 2003

Gary D. Patterson
Professor, Management. Emeritus, 2014

Mary G. Patterson

Professor, Nursing. Emeritus, 1985

Gordon Patzer
Professor, Accounting. Emeritus, 2004

Cynthia Paxton
Professor, Health Science. Emeritus, 2007

Clifford T. Paynton
Professor, Sociology. Emeritus, 1992

M. Jean Peacock
Professor, Psychology. Emeritus, 2013

Lloyd E. Peake
Professor, Management. Emeritus, 2010

Dennis M. Pederson
Professor, Chemistry. Emeritus, 2010

Margaret A. Perry
Professor, Theatre Arts. Emeritus, 2015

Stuart M. Persell
Professor, History. Emeritus, 2002

Thomas J. Pierce
Professor, Economics. Emeritus, 2016

James C. Pierson
Professor, Anthropology. Emeritus, 2005

Renee Pigeon
Professor, English. Emeritus, 2019

Bonnie J. Piller
Associate Professor, Education. Emeritus, 2012

David Polcyn
Professor, Biology. Emeritus, 2020

Shelly Pope
Student Health Center. Emeritus, 2018

Lee Porter
Dean, Extended Education. Emeritus, 1998

Chetan Prakash
Professor, Mathematics. Emeritus, 2013

Gregory L. Price
Professor, Kinesiology. Emeritus, 2009

Reginald Price
Professor, Kinesiology. Emeritus, 2005

Jerrold Pritchard
Professor, Music. Emeritus, 2004

Thomas E. Provenzano
Professor, Theatre Arts. Emeritus, 2020

Johnnie Ann Ralph
Emeritus, 2007

Nabil Y. Razzouk
Professor, Marketing. Emeritus, 2011

Ernesto M. Reza
Professor, Management. Emeritus, 2014

Jacqueline R. Rhodes
Professor, English. Emeritus, 2017

Robert B. Ricco
Professor, Psychology. Emeritus, 2020

David M. Riefer
Professor, Psychology.

Cheryl A. Riggs
Professor, History. Emeritus, 2013

Matt L. Riggs
Professor, Psychology.

Dan C. Rinne
Professor, Mathematics. Emeritus, 2014

Terry L. Rizzo
Professor, Kinesiology. Emeritus, 2021

Peter Robertshaw
Professor, Philosophy. Emeritus, 2017

James Rogers
Professor, Management. Emeritus, 2001

Nancy E. Rose
Professor, Economics. Emeritus, 2010

Richard Rowland
Professor, Geography. Emeritus, 2007

Tony D. Roy
Professor, Philosophy.

Amanda Sue Rudisill
Professor, Theatre Arts. Emeritus, 1997

Treadwell Ruml, II
Professor, English. Emeritus, 2016

Mireille G. Rydell
Professor, World Languages. Emeritus, 1988

Elisabeth Ryland
Professor, Management. Emeritus, 2007

Judith M. Rymer
Professor, Education. Emeritus, 2002

Ralph Salmi
Professor, Political Science. Emeritus, 2007

Arthur Saltzman
Professor, Marketing. Emeritus, 2000

Ruth A. Sandlin
Professor, Education. Emeritus, 2012

Rowena Santiago
Professor, Education. Emeritus, 2011

Pedro Santoni

Professor, History. Emeritus, 2019

John Sarli
Professor, Mathematics. Emeritus, 2015

Christine Schalow
Professor, Management. Emeritus, 2007

David Schalow
Professor, Accounting. Emeritus, 2007

Terry Schmitt
Student Services Professional, Student Health Center. Emeritus, 2014

Ed Schneiderhan
Student Services Professional, Psychology. Emeritus, 2005

Kent Schofield
Professor, History. Emeritus, 2001

Peter R. Schroeder
Professor, English. Emeritus, 2003

John Scribner
Professor, Accounting. Emeritus, 2004

Robert Senour
Professor, Education. Emeritus, 2000

Billie P. Sessions
Professor, Art. Emeritus, 2008

Hossein Shalchi
Professor, Accounting. Emeritus, 2010

Gary Sherwin
Associate Professor, Education. Emeritus, 2010

David Shichor
Professor, Criminal Justice. Emeritus, 1997

A.I. Clifford Singh
Professor, Kinesiology. Emeritus, 2010

Mary Jo Skillings
Professor, Education. Emeritus, 2010

Alan L. Smith
Professor, Geological Sciences. Emeritus, 2015

Wendy Smith
Professor, English. Emeritus, 2016

Sue A. Spitzer
Associate Professor, Education. Emeritus, 2013

Geraldine B. Stahly
Professor, Psychology. Emeritus, 2013

Charles S. Stanton
Professor, Mathematics.

Gordon E. Stanton
Professor, Education. Emeritus, 1988

Helena Villacres Stanton
Associate Professor, Education. Emeritus, 1990

Robert G. Stein
Professor, Mathematics. Emeritus, 2004

Deborah E. Stine
Professor, Educational Leadership and Technology. Emeritus, 2014

David Stine
Professor, Education. Emeritus, 2001

Darleen K. Stoner
Professor, Education. Emeritus, 2008

Dwight P. Sweeney
Professor, Special Education, Rehabilitation and Counseling. Emeritus, 2014

Dolores Tanno
Professor, Communication Studies. Emeritus, 2000

Edward C. Teyber
Professor, Psychology. Emeritus, 2013

James D. Thomas
Professor, Political Science. Emeritus, 1990

Jeffrey M. Thompson
Professor, Biology. Emeritus, 2016

Elton N. Thompson
Professor, Education. Emeritus, 1983

Kenneth Thygeson
Professor, Accounting. Emeritus, 2000

John Tibbals
Librarian, Emeritus, 1999

Javier Torner
Professor, Physics.

Mayo Toruño
Professor, Economics. Emeritus, 2017

Arthur J. Townley
Professor, Education. Emeritus, 1999

Michael Trubnick
Associate Professor, Accounting. Emeritus, 2003

David A. Turner
Professor, Computer Science. Emeritus, 2018

Joseph Turpin
Professor, Special Education, Rehabilitation and Counseling. Emeritus, 2013

Elsa O. Valdez
Professor, Sociology. Emeritus, 2017

Mohamad T. Vaziri
Professor, Accounting. Emeritus, 2013

Belisario Ventura
Professor, Mathematics. Emeritus, 2020

J. Paul Vicknair
Professor, Mathematics. Emeritus, 2020

Steven R. Wagner
Associate Professor, Education. Emeritus, 1997

William Warehall
Professor, Art. Emeritus, 1999

Del LaVerne Watson
Professor, Nursing. Emeritus, 1989

Brian Watts
Professor, Public Administration. Emeritus, 2004

L. Curtis Westbrook, Jr.
Professor, Accounting. Emeritus, 2004

Daniel Whitaker
Professor, World Languages. Emeritus, 2006

Edward M. White
Professor, English. Emeritus, 1996

Dudley J. Wiest
Professor, Special Education, Rehabilitation and Counseling. Emeritus,
2014

Linda D. Wilkin
Associate Professor, Kinesiology. Emeritus, 2011

Franklin P. Williams III
Professor, Criminal Justice. Emeritus, 2000

Robert D. Wilson
Professor, Information and Decision Sciences. Emeritus, 2012

Ruth Wilson
Professor, Biology. Emeritus, 2001

John M. Winslade
Professor, Special Education, Rehabilitation and Counseling. Emeritus,
2019

Janet Woerner
Professor, Education. Emeritus, 2007

Alvin Wolf
Professor, Education. Emeritus, 2002

Don Woodford
Professor, Art. Emeritus, 2001

Joanna Worthley
Professor, Psychology. Emeritus, 2010

Eri F. Yasuhara
Dean Emeritus, World Languages. Emeritus, 2013

Clifford Young
Professor, Public Administration. Emeritus, 2011

Salaam Y. Yousif
Professor, English. Emeritus, 2015

Tong L. Yu
Professor, Computer Science. Emeritus, 2019

Kay Zemoudeh
Professor, Computer Science. Emeritus, 2019

Xiwen Zhang
Librarian, Emeritus, 2016

Donna M. Ziebarth
Associate Professor, Nursing. Emeritus, 1994

Special Appointments

Kelly Campbell, 2008

Professor of Psychology
B.A. 2000, M.A. 2003, University of British Columbia
Ph.D. 2008, University of Georgia

Jon Usher, 2000

Studio Music Instructor
B.M. 1980, M.M. 1983, University of Redlands
D.M.A. 2012, Claremont Graduate University

Degrees and Programs

A-Z

- Accountancy, MS (p. 397) (Program Code: ACCY)
- Accounting, Certificate (p. 402)
- Accounting, Minor (p. 400)
- Adapted Physical Education Added Authorization Credential (p. 465)
- Administration, BA (p. 389) (Program Codes: ACCT, BSAN, ENTR, FIN, FINPL, HOSM, HRMG, ISEC, INST, INSB, MNGT, MKTG, PA, RLST, SPEN, SCM)
- Administrative Services Preliminary (Internship) Credential (p. 436)
- Administrative Services Professional Credential (p. 435)
- Advanced Community/Public Health Nursing, Certificate (p. 294)
- Aerospace Studies, Minor (p. 316)
- Aerospace Studies (Air Force ROTC) Program (p. 319)
- Alternative Styles of Music, Minor (p. 214)
- Animation & Illustration, Minor (p. 179)
- Anthropology, BA (p. 323) (Program Code: ANTH)
- Anthropology, Minor (p. 324)
- Applied Archaeology, MA (p. 322) (Program Code: AARC)
- Applied Business, SBM-BA (p. 482) (Program Codes: *pending Office of the Chancellor's approval*)
- Applied Data Science, MS (p. 301)
- Applied ERP, Certificate (p. 407)
- Applied ERP, Graduate Certificate (p. 407)
- Applied Ontology, Minor (p. 218)
- Applied Physics, Minor (p. 298)
- Arabic, Certificate (p. 233)
- Arabic, Minor (p. 230)
- Arabic Language, Literature, & Culture, BA (p. 228) (Program Code: ARAB)
- Archaeology, Certificate (p. 325)
- Art, BA (p. 173) (Program Codes: ASTA, AAED)
- Art, BFA (p. 176) (Program Code: ART)
- Art, MA (p. 170) (Program Code: ARSA)
- Art History, Minor (p. 179)
- Art History & Global Cultures, BA (p. 174) (Program Code: AHGC)
- Art & Restorative Justice, Certificate (p. 181)
- Arts & Entrepreneurship, Certificate (p. 180)
- Asian Studies, Certificate (p. 168)
- Asian Studies, Minor (p. 165)
- Astronomy (p. 298), Minor (p. 298)
- Bioinformatics, BS (p. 305) (Program Code: BINF)
- Biology, BS (p. 247) (Program Code: BIOL)
- Biology, Minor (p. 248)
- Biology, MS (p. 245) (Program Code: BIOM)
- Biotechnology, Certificate (p. 249)
- Border Studies, Minor (p. 200)
- Business Administration, MBA (p. 387) (Program Codes: ACIA, CSEC, ENTP, EXEC, EXCG, FINN, GSCH, HOSM, HRMG, INDF, MANM, MRKM)
- Business Administration, Minor (p. 395)
- Business Analytics, Minor (p. 406)
- Business & Data Analytics, MS (p. 476) (Program Code: BSDA)
- Business Skills for the Artist, Certificate (p. 180)
- California Indian Languages & Cultures, Certificate (p. 233)
- Career & Technical Education, MA (p. 428) (Program Code: CTEC)
- Career & Technical Education Minor (p. 433)
- Career & Technical Studies, BA (p. 432) (Program Code: CTEC)
- Career & Technical Studies, BS (p. 432) (Program Code: CTEC)
- Chemistry, BA (p. 252) (Program Codes: CHEM, CBIO)
- Chemistry, BS (p. 254) (Program Codes: CHEM, CBIO)
- Chemistry, Minor (p. 255)
- Child, Adolescent, and Family Studies, BA (p. 327) (Program Codes: CDCA, CDEC)
- Child, Adolescent, and Family Studies, MA (p. 326) (Program Code: CHDV)
- Child, Adolescent, and Family Studies: Child and Adolescent, Minor (p. 329)
- Child, Adolescent, and Family Studies: Early Childhood, Minor (p. 329)
- Child, Adolescent, and Family Studies: General Track, Minor (p. 329)
- Clinical/Counseling Psychology, MS (p. 362) (Program Code: CCPY)
- Communication, BA (p. 185) (Program Codes: CMRO, CMMS, CMSC, CMSP)
- Communication, Minor (p. 189)
- Communication Studies, MA (p. 183) (Program Code: COMS)
- Computer Engineering, BS (p. 305) (Program Code: COEN)
- Computer Science, BS (p. 306) (Program Code: CSCI)
- Computer Science, Minor (p. 306)
- Computer Science, MS (p. 302) (Program Code: CSCM)
- Computer Systems & Programming, Certificate (p. 307)
- Computer Systems, BA (p. 304) (Program Codes: CSGD, CSGI, CSSA)
- Counseling, MS (p. 440) (Program Codes: CPCC, CSCI, CSPC)
- Counseling & Social Change, Minor (p. 443)
- Creative Writing, Minor (p. 201)
- Creative Writing, Certificate (p. 204)
- Criminal Justice, BA (p. 374) (Program Code: CJUS)
- Criminal Justice, Minor (p. 376)
- Criminal Justice Spanish, Certificate (p. 234)
- Criminal Justice, MA (p. 372) (Program Code: CJUM)
- Cyber Security, Certificate (p. 407)
- Cyber Security Professional, Certificate (p. 408)
- Cybersecurity & Analytics, MS (p. 477) (Program Code: CYAN)
- Dance, Minor (p. 223)
- Data Science, Minor (p. 307)
- Data Science, Certificate (p. 308)
- Design, BFA (p. 177) (Program Codes: DSID, DSMO, DDDD, DSMK)
- Design, BS (p. 178) (Program Codes: DSID, DSMO, DDDD, DSMK)
- Design Studies, BA (p. 175) (Program Code: DEST)
- Designated Subjects Career & Technical Education Credential (p. 436)
- Designated Subject Credential in Adult Education (p. 435)

- Digital Arts, Minor (p. 179)
- Digital Filmmaking, Minor (p. 188)
- Disability Studies, Minor (p. 165)
- Diversity, Equity & Inclusion, Certificate (p. 318)
- Economics, BA (p. 331) (Program Codes: ECON, ECMA, APEC)
- Economics, Minor (p. 332)
- Education, MA (p. 458) (Program Codes: EDEL, EDSE)
- Educational Administration, MA (p. 429) (Program Code: EACC, EATK)
- Educational Leadership, Community College Specialization, EdD (p. 423) (Program Code: ELCC)
- Educational Leadership, PK-12 Specialization, EdD (p. 426) (Program Code: ELPT)
- Educational Technology, Certificate (p. 434)
- Egyptology, Certificate (p. 353)
- Egyptology, Advanced Certificate (p. 353)
- E-Learning, Certificate (p. 434)
- English, BA (p. 198) (Program Codes: ENCW, ELNG, ENLT, ERWS, ESDS)
- English & Writing Studies, MA (p. 193) (Program Codes: EWAL, EWCR, EWLT, EWPD, EWPP)
- English, Minor (p. 201)
- English Teacher Preparation, Minor (p. 203)
- Entrepreneurship, Minor (p. 421)
- Entrepreneurship & Innovation (p. 420), MS (Program Code: ENIN)
- Entrepreneurship in the Arts, Minor (p. 166)
- Entrepreneurship in the Sciences, Minor (p. 244)
- Environmental Health Science, BS (p. 269) (Program Code: ENHS)
- Environmental Sciences, MS (p. 250) (Program Code: ENSI)
- Environmental Studies, BA (p. 337) (Program Codes: ESSU, ESSY)
- Environmental Studies, Minor (p. 340)
- Ethnic Studies, BA (p. 334)
- Ethnic Studies - Chicana/o/x, Latina/o/x Studies, Minor (p. 335)
- Ethnic Studies, Minor (p. 335)
- Film Studies, Minor (p. 189)

- Geographic Information Systems, Certificate (p. 343)
- Geography, BA (p. 339) (Program Codes: GEUS, GSRG, GGIS)
- Geography - Global Studies, Minor (p. 342)
- Geography, Minor (p. 341)
- Geology, BA (p. 260) (Program Codes: GEOL, GEFA)
- Geology, BS (p. 261) (Program Codes: GEOL, ENVG)
- Geology, MS (p. 259) (Program Code: GEOL)
- Geology, Minor (p. 263)
- Gerontology, Certificate (p. 371)
- Healthcare Spanish, Certificate (p. 235)
- Health Equity, Certificate (p. 272)
- Health Services Administration, BS (p. 270) (Program Code: HSAD)
- Health Services Administration, MS (p. 266) (Program Code: HSAD)
- Health Services Administration, Certificate (p. 273)
- History, BA (p. 346) (Program Codes: HISG, HSTP)
- History, MA (p. 345) (Program Code: HIST)
- History, Minor (p. 350)
- Hospitality Management, Minor (p. 413)
- Hospitality & Tourism Management, Certificate (p. 484)
- Human Resource Management, MS (p. 410) (Program Code:)
- Human Resource Management, Minor (p. 411)
- Immersive Storytelling, Design, & Innovative Marketing Communication, Certificate (p. 168)
- Immersive Storytelling, Design, & Innovative Marketing Communication, Minor (p. 168)
- Industrial & Organizational Psychology, MS (p. 364) (Program Code: IOPY)
- Information Systems & Technology, BS (p. 404) (Program Codes: ISBI, ISCY, ISNS)
- Information Systems & Technology, Minor (p. 406)
- Information Systems Management, Certificate (p. 408)
- Information Systems & Technology, MS (p. 403) (Program Codes: ISBI, ISTC)
- Instructional Design & Technology, MA (p. 430) (Program Code: INTD)
- Intelligence & Crime Analysis, BS (p. 375) (Program Codes: ICGI, ICCS, ICHS)
- Interdisciplinary Studies, MA (p. 85) (Program Code: INTD)
- International Business, Minor (p. 413)
- International Relations, Certificate (p. 358)
- Internship Education Specialist Credential - Early Childhood Special Education (p. 445)
- Internship Education Specialist Credential - Mild to Moderate Support Needs (p. 447)
- Internship Education Specialist Credential - Extensive Support Needs (p. 449)
- Introductory Actuarial Science, Certificate (p. 288)
- Introductory Mathematics, Certificate (p. 288)
- Islamic & Middle Eastern Studies, Certificate (p. 318)
- Islamic & Middle Eastern Studies, Minor (p. 316)
- Japanese, Minor (p. 231)

- Japanese Language & Culture, Certificate (p. 234)
- Kinesiology, BS (p. 276) (Program Codes: KAHP, KEXS, KHPR, KPEC)
- Kinesiology, Minor (p. 279)
- Latin American Studies, Minor (p. 166)
- Law & Philosophy, Minor (p. 218)
- Liberal Arts, BA (p. 161) (Program Code: LIBA)
- Liberal Studies, BA (p. 236) (Program Codes: LBSG, LBSI, LBSS)
- Linguistics (p. 203), Minor (p. 203)
- Logistics & E-Commerce, MS (p. 478) (Program Code: LOEC)
- Management, Minor (p. 411)
- Marketing, Minor (p. 413)
- Materials Science, MS (p. 241) (Program Codes: MSEN, MSIM)
- Mathematics, BA (p. 284) (Program Code: MATH)
- Mathematics, BS (p. 285) (Program Codes: MATH, MAAM, MATM)
- Mathematics, MA (p. 282) (Program Code: MTHM)
- Mathematics, Minor (p. 287)
- Media Studies, Minor (p. 188)
- Military Science (Army ROTC) Program (p. 320)
- Mobile Application Development, Certificate (p. 308)
- Multimedia Storytelling, Minor (p. 203)
- Multiple Subject Credential (p. 466)
- Museum Studies, Certificate (p. 354)
- Music, BA (p. 208) (Program Codes: MUGM, MUMI, MUST)
- Music, BM (p. 211) (Program Codes: MUCP, MUME, MUVF, MUIP, MUSP, MUGP)
- Music, Minor (p. 215)
- Music Technology, Minor (p. 215)
- Music Therapy, BA (p. 210) (Program Code: MUTH)
- National Cyber Security Studies, MS (p. 313) (Program Code: NCSS)
- National Cybersecurity Studies, Certificate (p. 358)
- National Security Studies, MA (p. 310) (Program Code: NTSS)
- Native Nations/Indigenous Peoples Studies, Certificate (p. 319)
- Natural Science, BS (p. 242) (Program Codes: NSBI, NSCH, NSPH, NSSS)
- Nonprofit Management, Minor (p. 418)
- Nurse Educator, Certificate (p. 295)
- Nursing, BS (p. 293) (Program Code: NRSG)
- Nursing, MS (p. 291) (Program Codes: NRNE, NCNS, NPBA)
- Nursing - RN to BSN, BS (p. 293) (Program Code: RNBS)
- Nutrition Science, MS (p. 268) (Program Code: NTSC)
- Nutritional Science & Dietetics, BS (p. 271) (Program Code: NSCD)
- Philosophical Logic, Minor (p. 219)
- Philosophy, BA (p. 217) (Program Code: PHIL)
- Philosophy, Minor (p. 219)
- Philosophy, Policy, & Economics, Minor (p. 219)
- Photography & Video, Minor (p. 180)
- Physician Assistant, MS (p. 479)
- Physics, BA (p. 296) (Program Code: PHYS)
- Physics, BS (p. 297) (Program Code: PHYS)
- Physics, Minor (p. 298)
- Political Economy, BA (p. 332) (Program Code: POEC)
- Political Economy, Minor (p. 333)
- Political Science, BA (p. 356) (Program Code: PSCI)
- Political Science, Minor (p. 357)
- Pre-Law, Minor (p. 357)
- Preliminary Administrative Services Credential (p. 434)
- Preliminary Education Specialist Credential: Early Childhood Special Education (p. 451)
- Preliminary Education Specialist Credential: Mild to Moderate Support Needs (p. 455)
