

2025 - 2026 ACADEMIC CATALOG

WE DEFINE THE
Future

President's Welcome

It is my great pleasure to welcome you to California State University, San Bernardino, an institution committed to student success both in and out of the classroom. As a major metropolitan R2 (for “high research activity”) Research University with approximately 19,000 students on two campuses in San Bernardino and Palm Desert, we are here to support the higher educational needs of the Inland Empire and the Coachella Valley.

Our university has a rich tradition of providing quality education in an environment that reflects the dynamic diversity of the region. Our outstanding faculty are award-winning scholars, highly recognized for their academic contributions and teaching. Our experienced staff are caring and courteous, dedicated to assisting with any questions or needs. Together, our faculty and staff foster a culture of excellence committed to empowering student success.

Our beautiful and spacious campuses offer a wonderful environment in which to learn. You will find CSUSB a welcoming and inclusive place with exceptional facilities and extensive resources that provide a world-class educational experience. Our students **look like** the Inland Empire. And the vast majority are first-generation, that is, the first in their family to attend college. Additionally, CSUSB has also been a designated Hispanic-Serving Institution since 1994. We are ranked 4th among California HSIs in terms of proportional undergraduate Hispanic enrollment. Since 2009, we are a designated Minority-Serving Institution as well.

The university offers over 70 traditional baccalaureate and master's degree programs, education credential and certificate programs and a doctorate program in educational leadership, all within five academic colleges: the College of Arts and Letters, the Jack H. Brown College of Business and Public Administration, the James R. Watson and Judy Rodriguez Watson College of Education, the College of Natural Sciences and the College of Social and Behavioral Sciences. With extensive augmented learning opportunities such as internships, research and travel abroad, I am certain CSUSB has a degree program that is right for you.

I am immensely proud that CSUSB has climbed in the *Wall Street Journal's* social mobility rankings to 3rd nationally. The SMI benchmarks four-year U.S. colleges and universities according to how effectively they enroll students from low-income backgrounds and graduate them into good-paying jobs. Additionally, our campus was recognized in 2021, 2022 and 2023 as an Equity Champion of Higher Education for Excellence by the Campaign for College Opportunity (<https://collegecampaign.org/>) for

leading the state and working with intentionality to support Black and Latinx students through the associate degree for transfer program.

Also, Excelencia in Education, which is “committed to Ensuring America's Future by increasing Latino college completion,” has announced that CSUSB's Upward Bound program is one of 18 finalists in their “2024 Examples of Excelencia.” In addition, our “Dream Internship” has made their “Programs to Watch” list! These rankings, along with CSUSB's recognition by both *Washington Monthly* and *The Princeton Review* as among their best-in-the-western U.S. categories, demonstrate that affordability does not cancel quality.

These are exciting times at Cal State San Bernardino. Our new Performing Arts Center on the San Bernardino campus is set to open later in the 2024-25 academic year. Once completed, the Center will include a 500-seat theatre as well as a renovation of existing rehearsal and teaching spaces and will be the premier performing arts facility for our community and bi-county region. Out in Palm Desert, we have raised the required funding to move forward with our plans to construct a new Student Services Building! This facility will be designed for maximal flexibility as the PDC continues to grow.

All this and more demonstrates how, at CSUSB, **We Define the Future.**

Further information about CSUSB can be found online at www.csusb.edu (<http://www.csusb.edu/>). We offer campus visits, either virtually or onsite. To sign up for an in-person campus tour, visit: <https://www.csusb.edu/visit-csusb> (<https://www.csusb.edu/visit-csusb/>).

I hope you will look closely at all we have to offer and reach out to connect with our faculty, staff and students. I assure you it will be time well spent.

Sincerely,

Tomás D. Morales, Ph.D.
President

About the Catalog

Alameda, CA 94501
(510) 748-9001

This catalog represents the university's course descriptions and requirements at the undergraduate and graduate levels. California State University, San Bernardino reserves the right to revise catalog provisions in accordance with the official actions of the Board of Trustees of the California State University and other governing bodies. Students are advised to consult the appropriate department, college, or office for current information on specific programs. Additional information is available in the Changes in Rules and Policies statement. The Class Schedule (<https://www.csusb.edu/class-schedule/>), issued prior to each term, lists courses to be offered during that term.

Inquiries about admission to the university should be directed to:

Director of Admissions and Student Recruitment (<https://admissions.csusb.edu>)

California State University, San Bernardino

5500 University Parkway

San Bernardino, CA 92407-2397

(909) 537-5188

Changes in Rules and Policies

Although every effort has been made to assure the accuracy of the information in this catalog, students and others who use this catalog should note that laws, rules, and policies change from time to time and that these changes may alter the information contained in this publication. Changes may come in the form of statutes enacted by the Legislature, rules and policies adopted by the Board of Trustees of the California State University, by the chancellor or designee of the California State University, or by the president or designee of the campus. It is not possible in a publication of this size to include all of the rules, policies and other information that pertain to students, the institution, and the California State University. More current or complete information may be obtained from the appropriate department, school, or administrative office.

Nothing in this catalog shall be construed as, operate as, or have the effect of an abridgment or a limitation of any rights, powers, or privileges of the Board of Trustees of the California State University, the chancellor of the California State University, or the president of the campus. The trustees, the chancellor, and the president are authorized by law to adopt, amend, or repeal rules and policies that apply to students. This catalog does not constitute a contract or the terms and conditions of a contract between the student and the campus or the California State University. The relationship of students to the campus and the California State University is one governed by statute, rules, and policy adopted by the legislature, the trustees, the chancellor, the presidents and their duly authorized designees.

Please note: in the Print Options (in the right navigation of the online catalog), the Download PDF of the entire Catalog will be the Vol. 61, No. 2, May 2025 version. For current and updated information please use the Send Page to Printer. The PDF will include all information unique to the page.

California State University, San Bernardino is accredited by:
Western Association of Schools and Colleges
985 Atlantic Avenue, Suite 100

The CSU System

The California State University (CSU) is the nation's largest and most diverse four-year public university. With 23 unique universities and seven off-campus centers, the CSU serves more than 460,000 students and employs more than 63,000 faculty and staff.

Each year, the university awards nearly 127,000 degrees, changing the trajectory of students' lives by opening doors to opportunities for upward mobility. Nearly one-third of CSU students are the first in their families to attend college and more than half of CSU students are from traditionally underrepresented backgrounds.

For one of the most affordable tuitions in the country, students learn from world-class faculty, gain valuable hands-on experiences, and receive strong career advising, empowering them to become leaders in the changing workforce.

CSU graduates are serving as leaders in the industries that drive California's economy, including business, agriculture, entertainment, engineering, teaching, hospitality, and health care. To learn more, visit the California State University website (<https://www.calstate.edu/>).

A Tradition of Excellence for More than Six Decades

Since 1961, the CSU has provided an affordable, accessible, and high-quality education to millions of Californians. While each university is unique based on its curricular specialties, location and culture, every CSU is distinguished for the quality of its educational programs. All CSUs are fully accredited, provide a high-quality, broad liberal educational program and offer opportunities for students to engage in university life through the Associated Students, Inc., clubs, and service learning.

Facts

- Today, one in every 20 Americans with a college degree is a CSU graduate.
- 1 in every 10 employees in California is a CSU graduate.
- The CSU's network of more than 4 million alumni is larger than the population of 23 U.S. states.
- The CSU awards nearly half of the bachelor's degrees earned in California.
- The CSU awards more than one-quarter of California's baccalaureate nursing degrees.
- Between 2017 and 2022, the CSU prepared more of California's teachers than any other state institution.
- About 4% percent of the nation's teachers graduate from the CSU.
- In 2022-23, CSU students earned nearly 20,000 undergraduate business degrees and more than 7,300 engineering degrees.
- The CSU offers more than 4,000 degree programs that align with the state's workforce demands.
- The CSU's online concurrent enrollment program gives students the ability to enroll in courses offered by other universities in the CSU system.
- Through CSU community engagement centers, 33,765 students participated in service-learning, contributing more than 656,000 hours of service in 2022-23.

Governance

The CSU is governed by the Board of Trustees, most of whom are appointed by the governor and serve with faculty and student representatives. The CSU chancellor is the chief executive officer, reporting to the board. The presidents serve as the university-level chief executive officers. The trustees, chancellor and presidents develop university-wide educational policy. The presidents, in consultation with the CSU Academic Senate and other university stakeholder groups, render and implement local policy decisions.

CSU Historical Milestones

The individual California State Colleges were established as a system with a Board of Trustees and a chancellor in 1960 by the Donahoe Higher Education Act. In 1972, the system was designated as the California State University and Colleges, and in 1982 the system became the California State University (CSU). Today, the CSU is comprised of 23 member universities, including comprehensive and polytechnic universities and, since July 1995, the California State University Maritime Academy, a specialized university.

The oldest university — San José State University — was founded in 1857 and became the first institution of public higher education in California. The newest — California State University Channel Islands — opened in fall 2002, with freshmen arriving in fall 2003. And in 2022, the CSU in Humboldt became California State Polytechnic University, Humboldt, joining San Luis Obispo and Pomona as the state's third public polytechnic university.

In 1963, the CSU's Academic Senate was established to act as the official voice of CSU faculty in university-wide matters. Also, the California State College Student Presidents Association — which was later renamed the California State Student Association (CSSA), was founded to represent each university student association on issues affecting students.

Through its many decades of service, the CSU has continued to adapt to address societal changes, student needs and workforce trends. While the CSU's core mission has always focused on providing high-quality, affordable bachelor's and master's degree programs, over time the university has added a wide range of services and programs to support student success — from adding health centers and special programs for veterans to building student residential facilities to provide a comprehensive educational experience.

In 2010, in an effort to accommodate community college transfer students, the CSU, in concert with the California Community Colleges (CCC), launched the Associate Degree for Transfer (ADT), which guarantees CCC transfer students with an ADT admission to the CSU with junior status. The ADT has since proven to be one of the most effective paths to a CSU for community college transfer students. In 2023, the CSU launched the Transfer Success Pathway program to guarantee future CSU admission to high school graduates who are entering a California community college and who commit to transferring within three years.

Always adapting to changes in technology to support student learning and degree completion, the CSU launched CSU Fully Online, which enables CSU students to complete online courses at other CSUs, expanding enrollment opportunities and providing more educational opportunities for students who may prefer an online format to a traditional classroom setting.

The CSU marked a significant educational milestone when it broadened its degree offerings to include professional doctoral degrees. The CSU

independently offers Doctor of Education (Ed.D.), Doctor of Physical Therapy (DPT), Doctor of Audiology (AuD), Doctor of Nursing Practice (DNP) and Doctor of Occupational Therapy (OTD) degree programs. Additionally, the CSU was recently authorized to offer the independent Doctor of Public Health (DrPH). A limited number of other doctoral degrees are offered jointly with the University of California and private institutions in California.

The CSU strives to continually develop innovative programs, services and opportunities that will give students the tools they need to meet their full potential. In 2015, the CSU system launched Graduation Initiative 2025, a bold plan to support students, increase the number of California's graduates earning high-quality degrees and eliminate achievement and equity gaps for all students. Through this initiative, the CSU is ensuring that all students have the opportunity to graduate according to their personal goals, positively impacting their lives, families and communities.

By providing an accessible, hands-on education that prepares graduates for career success, the CSU has created a network of alumni so extensive and renowned that it spans across the globe. More than 4 million CSU alumni are making a difference in the lives of the people of California and the world.

Trustees of the California State University

Ex Officio Trustees

- The Honorable Gavin Newsom - Governor of California
- The Honorable Eleni Kounalakis - Lieutenant Governor of California
- The Honorable Robert Rivas - Speaker of the Assembly
- The Honorable Tony K. Thurmond - State Superintendent of Public Instruction
- Dr. Mildred Garcia - Chancellor, California State University

Officers of the Trustees

- The Honorable Gavin Newsom - President
- Jack B. Clarke Jr. - Chair
- Diego Arambula - Vice Chair
- Steve Relyea - Secretary
- Andrew Jones - Treasurer

Appointed Trustees

Appointments are for a term of eight years, except student, alumni, and faculty trustees whose terms are for two years. Terms expire in the year in parentheses. Names are listed alphabetically.

- Larry L. Adamson (2026)
- Diego Arambula (2028)
- Raji Kaur Brar (2029)
- Jack B. Clarke Jr. (2027)
- Douglas Faigin (2025)
- Jean P. Firstenberg (2026)
- Wenda Fong (2032)
- Mark Ghilarducci (2031)
- Leslie Gilbert-Lurie (2030)
- Jazmin Guarjardo (2026) (S)
- Julia I. Lopez (2028)
- Jonathan Molino Mancio (2025) (S)
- John "Jack" McGrory (2031)

- Sam Nejabat (2027)
- Yammilette Rodriguez (2029)
- Christopher J. Steinhauser (2026)
- Jose Antonio Vargas (2030)
- Darlene Yee-Melichar (2025) (F)

Correspondence with trustees should be sent to: c/o Trustees Secretariat, The California State University, 401 Golden Shore, Long Beach, California 90802-4210.

Office of the Chancellor

The California State University
401 Golden Shore
Long Beach, California 90802-4210
(562) 951-4000

- Dr. Mildred García – Chancellor
- Mr. Andrew Jones – Executive Vice Chancellor and General Counsel
- Mr. Steve Relyea – Executive Vice Chancellor and Chief Financial Officer
- Mr. Frank Hurtarte - Vice Chancellor for Human Resources and Chief HR Officer
- Mr. Vlad Marinescu – Vice Chancellor and Chief Audit Officer
- Mr. Greg Saks – Vice Chancellor, External Relations and Communications
- Dr. Nathan Evans – Deputy Vice Chancellor, Academic and Student Affairs, Chief Academic Officer
- Dr. Dilcie Perez – Deputy Vice Chancellor, Academic and Student Affairs, Chief Student Affairs Officer
- Ms. Danielle Garcia – Associate Vice Chancellor and Chief of Staff, Executive Office
- Ms. Michelle Kiss – Associate Vice Chancellor and Chief of Staff, Board of Trustees

International Programs

CSUSB Center for International Studies and Programs website (<http://international.csusb.edu/Default.aspx>)

Developing intercultural communication skills and international understanding among its students is a vital mission of the California State University (CSU). Since its inception in 1963, the CSU International Programs, a systemwide department operating from within the CSU Chancellor's Office in Long Beach, California, has contributed to this effort by providing qualified students an affordable opportunity to continue their studies abroad for a full academic year. More than 15,000 CSU students have taken advantage of this unique study option. In addition, CSU International Programs has student exchange agreements with institutions worldwide. California welcomes our international exchange students and values our reciprocal partnerships with top universities around the world.

International Programs participants earn resident academic credit at their CSU campuses while they pursue full-time, yearlong study at a host

university or special study center abroad. The International Programs serves the needs of students in over 100 designated academic majors. Affiliated with more than 70 recognized universities and institutions of higher education in 18 countries, the International Programs also offers a wide selection of study locales and learning environments.

International Programs pays all tuition and administrative costs for participating California resident students to the same extent that such funds would be expended to support similar costs in California. CSU IP participants are responsible for all personal costs, such as transportation, room and board, living expenses, and home campus fees. Financial aid, with the exception of Federal Work-Study, is available to qualified students.

To qualify for admission to the International Programs, students must have upper division or graduate standing at a CSU campus by the time of departure. Students at the sophomore level may, however, participate in the intensive language acquisition programs in China, France, Germany, Mexico and Taiwan, or the Study in English programs in Korea, Mexico, Sweden and Taiwan. California Community Colleges transfer students are eligible to apply directly from their community colleges. Students must also possess a current cumulative grade point average of 2.75 or 3.0, depending on the program for which they apply. Some programs also have language study and/or other coursework prerequisites.

Students can begin to explore study abroad programs, requirements and eligibility on the study abroad brochure pages (<https://csuip.calstate.edu/?FuseAction=Programs.MapSearch>) of this site. Incoming exchange students can begin by reviewing the list of CSU (https://csuip.calstate.edu/?FuseAction=Abroad.ViewLink&Parent_ID=01E879DA-5056-BA1F-7216FE7D6C361227&Link_ID=84F864E3-5056-BA1F-741F75749A19992D) IP exchange partners (https://csuip.calstate.edu/?FuseAction=Abroad.ViewLink&Parent_ID=01E879DA-5056-BA1F-7216FE7D6C361227&Link_ID=84F864E3-5056-BA1F-741F75749A19992D) to ensure their home university is on the list. If it is, students should contact the exchange coordinator at their home institution to understand the selection and admissions processes; if it is not, students are welcome to apply to the California State University as an international student (<https://www2.calstate.edu/apply/international/>).

Students participating in CSU IP pay CSU tuition and program fees, and are responsible for airfare, accommodations, meals, and other personal expenses. Financial aid, with the exception of Federal Work-Study, is available to qualified students and limited scholarship opportunities are

also available. All programs require students to maintain good academic and disciplinary standing, many programs are open to sophomores or graduate students. California Community College transfer students are eligible to apply (to select programs) directly from their community colleges. Students must possess a current cumulative grade point average of 2.75 or 3.0, depending on the program, and must fulfill all coursework prerequisites. Additional program information and application instructions can be found on the International Programs website (<https://csuip.calstate.edu/>).

Programs Leading to Licensure and Credentialing

Admission into programs leading to licensure and credentialing does not guarantee that students will obtain a license or credential. Licensure and credentialing requirements are set by agencies that are not controlled by or affiliated with the CSU and requirements can change at any time. For example, licensure or credentialing requirements can include evidence of the right to work in the United States (e.g., social security number or taxpayer identification number) or successfully passing a criminal background check. Students are responsible for determining whether they can meet licensure or credentialing requirements. The CSU will not refund tuition, fees or any associated costs to students who determine subsequent to admission that they cannot meet licensure or credentialing requirements. Information concerning licensure and credentialing requirements is available from Credential Processing in CE-221 or (909) 537-5609.

The California State University has not determined whether its programs meet other states' educational or professional requirements for licensure and certification. Students enrolled in a California State University program who are planning to pursue licensure or certification in other states are responsible for determining whether they will meet their state's requirements for licensure or certification. This disclosure is made pursuant to 34 CFR §668.43(a)(5)(v)(C).

Career Placement

The Career Development Center (<https://www.csusb.edu/career-center/>) may furnish, upon request, information about the employment of students who graduate from programs or courses of study preparing students for a particular career field. Data provided must be in a form that does not allow for the identification of any individual student. This information includes data concerning the average starting salary and the percentage of previously enrolled students who obtained employment.

The information may include data collected from graduates of the university or graduates of all universities in the California State University system.

Campus Safety Report

California State University, San Bernardino publishes a "Campus Safety Report" each September 1st in compliance with federal law. The report contains information on campus safety services, policies, procedures and recent crime statistics. This report is available through the university main web page index listing "Campus Safety Report" and copies may be obtained from the Department of Public Safety.

Average Support Cost Per Full-Time Equivalent Student and Sources of Funds

The total support cost per full-time equivalent student (FTES) includes the expenditures for current operations, including payments made to

students in the form of financial aid, and all fully reimbursed programs contained in state appropriations. The average support cost is determined by dividing the total cost by the number of FTES. The total CSU 2024-25 budget amounts were \$5,234,899,000 from state General Fund (GF) appropriations, \$2,614,362,000, from gross tuition revenue, and \$2,614,362,000 from other fee revenues for a total of \$8,601,958,000. The 2024-25 resident FTES target is 290,598 and the nonresident FTES based on past-year actual is 21,362 for a total of 411,960 FTES. The GF appropriation is applicable to resident students only whereas fee revenues are collected from resident and nonresident students. FTES is derived by dividing the total student credit units attempted by a fixed amount depending on academic level (e.g., 30 for a semester university and 45 for a quarter university, the figures that define a full-time undergraduate or postbaccalaureate student's academic load).

	Amount	Average Cost per FTES	Percentage
State Appropriation (GF) ¹	\$5,234,899,000	\$13,402	60.9%
Gross Tuition Revenue ²	\$2,614,362,000	\$6,346	30.4%
Other Fee Revenue ²	\$752,697,000	\$1,827	8.7%
Total Support Cost	\$8,601,958,000	\$21,575	100%

¹ Represents state GF appropriation in the Budget Act of 2024-25; GF is divisible by resident students only (390,598 FTES).

² Represents CSU Operating Fund, gross tuition and other fees revenue amounts submitted in university September 2024-25 final budgets. Revenues are divisible by resident and nonresident students (411,960 FTES).

The 2024-25 average support cost per FTES based on GF appropriation and tuition fee revenue only is \$19,748 and is \$21,757, with all fee revenue (e.g., tuition fees, application fees, and campus mandatory fees) in the CSU Operating Fund. Of this amount, the average tuition and other fee revenue per FTES is \$8,173.

The average CSU 2024-25 academic year, resident, undergraduate student basic tuition and other mandatory fees required to apply to, enroll in, or attend the university is \$8,065 (\$6,084 tuition fee plus \$1,981 average campus-based fees). However, the costs paid by individual students will vary depending on the university, program, and whether a student is part-time, full-time, resident, or nonresident.

Procedure for the Establishment or Abolishment of Campus-Based Mandatory Fees

The law governing the California State University provides that specific campus fees defined as mandatory, such as a student body association fee and a student body center fee, may be established. A student body association fee must be established upon a favorable vote of two-thirds of the students voting in an election held for this purpose (Education Code, Section 89300). The university president may adjust the student body association fee only after the fee adjustment has been approved by a majority of students voting in a referendum established for that purpose. The required fee shall be subject to referendum at any time upon the presentation of a petition to the university president containing

the signatures of 10 percent of the regularly enrolled students at the university. Student body association fees support a variety of cultural and recreational programs, childcare centers, and special student support programs. A *student body center fee* must be established upon a favorable vote of two-thirds of the students voting in an election held for this purpose (Education Code, Section 89304). Once bonds are issued, authority to set and adjust student body center fees is governed by provisions of the State University Revenue Bond Act of 1947, including, but not limited to, Education Code sections 90012, 90027, and 90068. A student success fee may be established or adjusted only after the university undertakes a rigorous consultation process and a fee referendum is held with a simple majority favorable vote (Education Code, Section 89712). The student success fee may be rescinded by a majority vote of the students only after six years have elapsed following the vote to implement the fee.

The process to establish and adjust other campus-based mandatory fees requires consideration by the campus fee advisory committee and a consultation or student referendum process as established by California State University Student Tuition and Fee Policy (<https://calstate.policystat.com/policy/16681992/latest/>), Section III (or any successor policy). The university president may use consultation mechanisms if they determine that a referendum is not the best mechanism to achieve appropriate and meaningful consultation, and referendum is not required by the Education Code or Student Success Fee policy. Results of the referendum and the fee committee review are advisory to the university president. The president may adjust campus-based mandatory fees but must request the chancellor to establish a new mandatory fee. The president shall provide to the campus fee advisory committee a report of all campus-based mandatory fees. The university shall report annually to the chancellor a complete inventory of all campus-based mandatory fees.

For more information or questions, please contact the System Budget Office in the CSU Chancellor's Office at (562) 951-4560.

Student Complaint Procedure (Complaints Regarding the CSU)

The California State University (CSU) takes very seriously complaints and concerns regarding the institution. If you have a complaint regarding the CSU, you may present your complaint as follows:

1. If your complaint concerns CSU's compliance with academic program quality and accrediting standards, you may present your complaint on the Western Association of Schools and Colleges (WASC) website (<http://www.wascsenior.org/comments/>). WASC is the agency that accredits the CSU's academic program.
2. If your complaint concerns an alleged violation by CSU of any law that prohibits discrimination, harassment or retaliation based on a protected status (such as age, disability (physical or mental), gender (or sex), gender identity, gender expression, nationality, race or ethnicity (including color, caste, or ancestry), religion (or religious creed) or veteran or military status), you may present your complaint as described in Section XVI (Interim Nondiscrimination Policy).
3. If your complaint concerns an alleged violation by the CSU of other state law, including laws prohibiting fraud and false advertising, you may present your claim complaint to the university president or designee. See the Student/Applicant Complaint Procedure for Alleged Violations of State Law Not Covered by Another CSU Complaint (<https://calstate.policystat.com/policy/11218423/latest/>) Procedure (<https://calstate.policystat.com/policy/11218423/latest/>)—Executive

Order No. 1063 for details regarding the complaint requirements and complaint process.

4. Other complaints regarding the CSU may be presented to the university dean of students [or other appropriate administrator], who will provide guidance on the appropriate university process for addressing your particular issue.

If you believe that your complaint warrants further attention after you have exhausted all the steps outlined by the university, or by WASC, you may file an appeal with the Assistant Vice Chancellor, Academic and Student Affairs (or designee) at the CSU Chancellor's Office.

This procedure should not be construed to limit any right that you may have to take legal action to resolve your complaint.

About the University

California State University, San Bernardino

Cal State San Bernardino is part of the California State University system, the largest and most diverse system of public higher education in the country. The CSU's 23 campuses plus its off-campus centers serve more than 450,000 students, extending from Humboldt State in Arcata in the north to San Diego State in the south, as well as employing approximately 63,000 faculty and staff to serve those students' needs.

The CSU system is the nation's largest four-year public university, providing opportunities for upward mobility to diverse students across the state and empowering them to become leaders in the changing workforce. The CSU plays a critical role in providing future leaders with the skills and knowledge they'll need to thrive in the workforce and help drive California's economy. The CSU is the state's greatest producer of bachelor's degrees—awarding nearly 127,000 degrees per year—and drives California's economy in agriculture, information technology, business, hospitality, life sciences, healthcare, public administration, education, media and entertainment.

The individual California State Colleges were brought together as a system by the Donahoe Higher Education Act of 1960. In 1972, the system became the California State University and Colleges, and in 1982, it became the California State University. Today, the campuses of the CSU include comprehensive and polytechnic universities, and, since July 1995, the specialized California Maritime Academy. Since 1960, the CSU has graduated over 4 million people.

The oldest campus—San José State University—was founded in 1857 and became the first institution of public higher education in California. California State University, Channel Islands is the newest CSU campus, opening in fall 2002, with freshmen arriving in fall 2003.

Responsibility for the CSU is vested in its Board of Trustees, whose members are appointed by the governor of California. The trustees appoint the chancellor, who is the chief executive officer of the system, and the presidents, who are the chief executive officers of their respective universities.

The CSU offers more than 4,000 undergraduate and graduate degree programs through both classroom and online instruction.

The CSU's Graduation Initiative 2025 (<https://www.calstate.edu/csu-system/why-the-csu-matters/graduation-initiative-2025/>) was launched in 2015, and has been successful in raising completion rates to all-time highs in all categories. The initiative continues to focus on narrowing equity gaps between underserved students and their peers.

For more information about the California State University and any of its 23 campuses, visit the California State University System website (<https://www.calstate.edu/>), along with its current Factbook (<https://www.calstate.edu/csu-system/about-the-csu/facts-about-the-csu/Documents/facts2024.pdf>).

About CSUSB

California State University, San Bernardino is a preeminent center of intellectual and cultural activity in Inland Southern California. The San Bernardino Campus opened in 1965, and is set at the foothills of the beautiful San Bernardino Mountains. The Palm Desert Campus opened in 1986 as the "Coachella Valley Center"; a permanent site was

granted in 1994 and the first permanent building occupied in 2002. The university serves approximately 18,000 students each year on its two campuses, and graduates approximately 5,000 students annually.

CSUSB continues to climb in national rankings, both overall and in specific disciplines. For example, we are climbing in the national rankings for social mobility (the Wall Street Journal has us at 3rd in the country for 2025), we have been designated as an R2 university by the Carnegie Classification of Institutions of Higher Education (raising our status from a "regional university" to a "national university"), and our efforts to serve transfer students have earned us the Equity Champion of Higher Education Award in 2021, '22 and '23 by the Campaign for College Opportunity.

CSUSB reflects the dynamic diversity of the region. The vast majority of students are first-generation, that is, the first in their family to attend college. Additionally, CSUSB has been a designated Hispanic-Serving Institution since 1994. Since 2009, we are a designated Minority-Serving Institution as well. In November 2023, CSUSB was recognized by the American Association of State Colleges and Universities with their Excellence and Innovation Award for Diversity, Equity, and Inclusion Leadership Award. CSUSB has also earned the prestigious Seal of *Excelencia* certification for 2024-27 from *Excelencia* in Education for demonstrating through data, evidence-based practices and leadership the ways in which it is intentionally serving Latino students.

CSUSB's five academic colleges offer more than 70 undergraduate degrees, master's degree programs and a doctoral program as well as certificates.

Vision Statement

CSUSB aspires to be a model for transforming lives.

Mission Statement

At CSUSB, we promote each other's growth and success and enhance the vitality of our region through active learning, effective mentoring, impactful scholarship, and civic engagement. We cultivate the professional, ethical and intellectual development of our diverse students, faculty and staff so they thrive and make positive contributions to our globally connected society.

CSUSB Strategic Plan

A task force representing all levels of California State University, San Bernardino worked throughout the 2022-2023 academic year to develop the 2023-2028 Strategic Plan. The plan builds on the foundation set forth by the previous plan, which was implemented in 2015-2020 and then extended for two years during the COVID-19 pandemic. The 2023-2028 plan continues goals and objectives from the previous plan, while proposing changes based on the university's new priorities and the shifting landscape of higher education. The 2023-2028 Strategic Plan is focused on four goals:

1. Student Success;
2. Faculty and Staff Success;
3. Diversity, Equity and Inclusion;
4. Internationalization.

For more information, please visit the Strategic Plan website (<https://www.csusb.edu/strategic-plan/>). Or you can download the plan (https://www.csusb.edu/sites/default/files/strategic_plan_23-28.pdf).

Economic Impact

The benefits of California State University, San Bernardino's economic, technological, social and environmental impacts can be felt throughout the region and all over California. CSUSB provides an exceptional return on investment not only for its students, but also for the region and state.

For every dollar California invests in CSUSB, the university returns \$6.62 of positive economic activity, a seven-fold return on the state's investment. When the impact of enhanced alumni earnings is included, \$31.70 in statewide industry activity is generated. CSUSB's impact has supported an additional 10,500 jobs, generated \$1.5 billion in industry activity, and generated \$118 million in state and local tax revenue.

With more than 2,500 employees, Cal State San Bernardino is one of the largest employers in the region. In addition to supporting job creation and reducing unemployment, 67% of alumni remain in the region, further strengthening and growing the Inland Empire economy.

As an additional clear benefit of a college degree, the latest data shows that Californians with a four-year college degree are more likely to be employed than those without one.

Academic Plan

California State University, San Bernardino operates on the semester system. The fall and spring terms each consist of 15 weeks of instruction plus a final exam week. The university also offers a self-support summer semester allowing students to accelerate their progress and take summer courses. Summer semester has two five-week sessions and one 10-week session in the term.

Most lecture/discussion/seminar courses are offered for three units of credit and meet three hours per week. Each unit of credit typically requires two hours of out-of-class study and preparation in addition to the hour of direct instruction in the class. Laboratories and activity-based courses meet for 2-3 hours of instruction a week for each unit of credit.

The minimum number of semester units required for the Bachelor's degree is 120. Some bachelor degree programs require additional units. Students planning to graduate in four years need to take an average of 15 units per semester to reach 120 units. Master degrees require a minimum of 30 units, but some professional degrees, such as the M.S.W. in Social Work and M.S. in Clinical/Counseling Psychology, have licensing and/or accreditation standards demanding 60 units or more. The Ed.D. in Educational Leadership, Community College Specialization and the PK-12 Specialization requires 61 units for completion. The Ed.S. in School Psychology requires 63 units for completion.

Institutional Learning Outcomes

1. **Breadth of Knowledge.** Students identify, explain, and apply multiple approaches to problem solving and knowledge production from within and across disciplines and fields to intellectual, ethical, social and practical issues.
2. **Depth of Knowledge.** Students demonstrate a depth of knowledge in a specific discipline or field and apply the values and ways of knowing and doing specific to that discipline or field to intellectual, ethical, social and practical issues.
3. **Critical Literacies.** Students analyze the ways artistic, oral, quantitative, technological and written expression and information both shape and are shaped by underlying values, assumptions and contexts, so that they can critically contribute to local and global communities.
4. **Ways of reasoning and inquiry.** Students engage in diverse methods of reasoning and inquiry to define problems, identify and evaluate potential solutions, and determine a course of action.
5. **Creativity and Innovation.** Students develop and use new approaches to thinking, problem solving and expression.
6. **Integrative Learning.** Students connect disciplines and learning experiences to frame and solve unscripted problems using lenses from multiple fields, contexts, cultures and identities.
7. **Engagement in the Campus, Local and Global Communities.** Students develop dispositions and apply intellect and behaviors to respect and promote social justice and equity on campus and across local and global communities.
8. **Diversity and Inclusion.** Students understand how dynamics within global communities influence the ways in which people see the world. They develop dispositions to respectfully interact and collaborate with diverse individuals and groups and acknowledge their own perspectives and biases.

Colleges of the University

The academic program of the university is offered through five colleges—Arts and Letters, Jack H. Brown College of Business and Public Administration, the James R. Watson and Judy Rodriguez Watson College of Education, Natural Sciences and Social and Behavioral Sciences—organized into departments and schools.

Degree programs are offered by departments, schools, colleges and interdisciplinary committees. Navigate to Programs A-Z (p. 843) for a complete listing of the degrees and programs available at the university.

CSUSB Philanthropic Foundation

(909) 537-7769 CSUSB Philanthropic Foundation website (<https://www.csusb.edu/philanthropic-foundation/>)

CSUSB Philanthropic Foundation, formerly known as the Foundation for California State University, San Bernardino, is the officially recognized charitable gift-processing auxiliary organization of California State University, San Bernardino (CSUSB). The Foundation operates as a tax-exempt 501(c)(3) organization and its federal Tax ID number is 45-2255077.

The Foundation encourages gifts and financial support while creating learning opportunities for students, alumni, and the community that complement the University's teaching, research and public service goals driven by intellectual interaction and creativity.

The CSUSB Philanthropic Foundation is a non-profit corporation chartered solely to support, benefit and advance the mission of California State University, San Bernardino that fosters a supportive and welcoming social and physical setting where students, faculty and staff feel they belong and can excel.

Director, Outreach & Student Recruitment	Melissa Guerra, Ed.D.
Director, Orientation and Transition Programs	Brian Willess, Ed.D.
Senior AVP, Marketing & Communication	Robert Tenczar, M.B.A.
Director, Marketing and Brand Management	Angela Gillespie, M.P.A.
Associate Director, Digital Brand Strategy	Elizabeth Ferreira, M.B.A.

Palm Desert Campus

Telephone: (760) 341-2883

Website: Palm Desert Campus (<https://www.csusb.edu/pdc/>)

Mission Statement

The Palm Desert Campus of California State University, San Bernardino is a dynamic, student-centered learning community that aspires to create transformational opportunities that nurture and sustain the intellectual, environmental, economic, and cultural richness of the Coachella Valley. By collaborating with and investing in students, faculty, staff, and communities, together we strive to define the future.

General Information

More than 38 years ago, Coachella Valley civic leaders began to call for a local public four-year college. The group's efforts lead to California State University, San Bernardino establishing a branch campus on the College of the Desert campus. From the beginning, the efforts were to serve Coachella Valley students locally with programs that met local needs. In 2002, a permanent campus was established on Cook Street.

The CSUSB Palm Desert Campus offers students the resources of a large, comprehensive university through the San Bernardino campus, and at the same time, the supportive environment of a small campus with small classes and more opportunities for contact with faculty.

Whether you are looking for a four-year degree, to enhance your professional skills, or complete one of our many degree, credential, or certificate programs, you will find everything you need at the CSUSB Palm Desert Campus..

Facilities

The CSUSB Palm Desert Campus is located on a 169-acre site off the I-10 freeway. The first building constructed and occupied in 2002 was the Mary Stuart Rogers Gateway Building, funded by the Mary Stuart Rogers Foundation, the Berger Foundation, the City of Rancho Mirage and Florence Rigdon, a Rancho Mirage resident. Housing the university's administrative offices, the building also has more than 3,000 square feet of classroom space, the 120-seat Richard and Janice Oliphant Auditorium, the campus bookstore, the Rancho Mirage Student Center and distance learning labs.

The second and third buildings, the Indian Wells Center for Educational Excellence and Indian Wells Theater, were occupied in 2005 and built largely with funds from the City of Indian Wells, The Annenberg Foundation, the H.N. and Frances C. Berger Foundation, Palm Desert National Bank, and Jean Hahn and John I. Hardy. The Indian Wells Center for Educational Excellence houses a variety of student services, including the Career Center, the Student Success Studio, the Porter Resource Center, Paws Radio and faculty offices. The Indian Wells Theater hosts many campus and community events throughout the year.

The Palm Desert Health Sciences Building, which is LEED Gold certified, opened in 2008. Donors for this building included all nine of the Coachella Valley's municipalities as well as the County of Riverside, The Desert Healthcare District, the R.D. and Joan Dale Hubbard Foundation, The Webb Foundation, Palm Desert National Bank, and many other community members. This facility houses the Helene A. Hixon Information Resource Center, biology and chemistry labs, nursing labs, the R.D. and

Joan Dale Hubbard Student Health and Psychological Counseling Center, the DEN Food Pantry, a Kinesiology lab, the Veteran's Success Center, as well as additional classrooms and computer labs.

These buildings include state-of-the-art classrooms, faculty offices, video conference classrooms, full computer and internet presentation capabilities in all classrooms, as well as computer laboratories for student research, and allow for study individually or in groups.

Admissions

To apply for admission to the CSUSB Palm Desert Campus, students must complete the CSUMentor application online at Cal State Apply (<https://www2.calstate.edu/apply/>) and have transcripts sent to:

CSUSB Palm Desert Campus

Office of Admissions

37500 Cook Street

Palm Desert, CA 92211

You can also watch the latest Palm Desert Campus video (<https://www.youtube.com/watch?v=6UcoqJcYBc0>) to learn more about the campus.

For further admissions information, please contact the PDC Admissions Team (<https://www.csusb.edu/pdc/prospective-students/>).

Freshman and Transfer Students

Jazmin Vera

(909) 537-8109, jazmin.vera@csusb.edu

Alissa Rocha

(909) 537-8147, alissa.rocha@csusb.edu

Graduate and Credential Programs

Visit the Meet the Counselors webpage (<https://www.csusb.edu/pdc/prospective-students/>) for more information.

Commencement

Special Events and Guest Services - Commencement Office
(909) 537-7360

Participation in commencement activities is voluntary.

For dates and deadlines, please visit commencement.csusb.edu (<http://commencement.csusb.edu/>).

Master's and Doctoral Students

To participate in commencement, candidates completing a master's or doctoral degree must file a grad check AND meet the eligibility requirements specified by their program. For the specific requirements, candidates should consult their program coordinator.

Credential Students

Students who complete a Multiple Subject, Single Subject, Education Specialist Basic credential, Pupil Personnel Services, or Designated Subjects credential can participate in a Credential Recognition Ceremony rather than commencement. The Credential Recognition Ceremony on

the San Bernardino campus will be held in May. Specific information can be obtained from the College of Education, Student Services Office, CE-102, (909) 537-5609. The Credential Recognition Ceremony on the Palm Desert Campus will be held in May at PDC. Specific information can be obtained from the Palm Desert Campus College of Education Office at (760) 341-2883.

Financial Aid & Scholarships

The Palm Desert Campus has a financial aid consultant to assist with questions, applications, and other issues pertaining to financial aid and scholarships.

Edith Passi

(909) 537-8143, edith.passi@csusb.edu

The Palm Desert Campus offers many scholarships to PDC students. Visit the Scholarships webpage (<https://www.csusb.edu/pdc/current-students/scholarships/>) for a list of scholarships and for more information.

There are many scholarships administered by the CSUSB Financial Aid Office available for PDC students. They can be applied for online at the Financial Aid website (<https://finaid.csusb.edu>) beginning January through March 2nd of each year. You can also search for off-campus scholarship opportunities using the "Search" feature on My Coyote.

Services Include:

- Review:
 - General Education (GE) requirements
 - Graduation requirements
 - Paws Report
 - University policies and procedures
 - Roadmaps
- Undeclared advisement
- Academic contracts
- Check holds and to-do list
- Plan classes for the next term
- Build or check myCAP
- Workshops
- Stay on track for graduation!

Accreditation

California State University, San Bernardino is accredited by the Western Association of Schools and Colleges (<https://www.wscuc.org/>), the official accrediting body for institutions of higher learning in the West. The teaching credential programs are approved by the California State Board of Education, California Commission on Teacher Credentialing, and the National Council for Accreditation of Teacher Education (NCATE).

The following professional programs have received specialized approval or accreditation from organizations recognized by the National Council on Postsecondary Education:

Accountancy (M.S.) - AACSB The Associate to Advance Collegiate Schools of Business

Administration (B.A., M.B.A.) - AACSB The Associate to Advance Collegiate Schools of Business

Art & Design (B.A., B.F.A., M.F.A.) - NASAD National Association of Schools of Art and Design

Chemistry (B.S.) - American Chemical Society Certified

Computer Engineering (B.S.) - Engineering Accreditation Commission of ABET (<http://www.abet.org>)

Computer Science (B.S.) - Computing Accreditation Commission of ABET (<http://www.abet.org>)

Entrepreneurship and Innovation (M.S.) - AACSB The Associate to Advance Collegiate Schools of Business

Finance (M.S.) - AACSB The Associate to Advance Collegiate Schools of Business

Health Science, Environmental Health (B.S.) - National Environmental Health Science and Protection Accreditation Council; California Department of Health Services, Environmental Health Specialist Registration Committee

Information System and Technology (B.S., M.S.) - AACSB The Associate to Advance Collegiate Schools of Business

Music (B.A.) - National Association of Schools of Music

Nursing (B.S.) - Commission on Collegiate Nursing Education

Nutrition and Food Sciences (B.S.) - Accreditation Council for Education of Nutrition and Dietetics (ACEND) as the Didactic Program in Dietetics (DPD) and individualized Supervised-Practiced Pathway (ISPP) Program.

Public Administration (M.P.A.) - NASPAA. Network of Schools of Public Policy, Affairs and Administration. (<https://www.naspaa.org/about-naspaa/>)

Rehabilitation Counseling (M.A.) - CACREP, The Council for Accreditation of Counseling and Related Educational Programs.

Social Work (B.A., M.S.W.) - Council on Social Work Education

Theatre Arts (B.A.) - National Association of Schools of Theatre

Academic Calendar

Fall Term 2025

Apr. 7-Aug. 22	Fall registration
Aug. 18	Beginning of Academic Year
Aug. 22	Last day to withdraw from all classes and receive 100% refund
Aug. 25	First day of instruction (Saturday classes begin Aug. 23)
Sep. 1	Labor Day holiday, campus closed
Sep. 22	CENSUS: Last day to drop classes without record
Nov. 11	Veteran's Day holiday, campus closed
Nov. 27-29	Academic recess, campus closed
Dec. 6	Last day of instruction
Dec. 8-13	Final examinations
Dec. 12-13	Commencement
Dec. 18	Grades due; end of term
Dec. 25-Jan. 1	Academic recess, campus closed

Winter Intersession 2025/26

Nov. 10- Dec. 18	Winter Intersession registration
Dec. 18	Last day to withdraw from all classes and receive 100% refund
Dec. 19	First day of instruction
Dec. 23	CENSUS - last day to drop without record
Jan. 12	Last day of instruction
Jan. 12	Final exams
Jan. 13	Grades due, end of term

Spring Term 2026

Oct. 27-Jan 19	Spring registration
Jan. 16	Last day to withdraw from all classes and receive 100% refund
Jan. 17	First day of instruction
Jan. 19	Martin Luther King Jr Day
Feb. 16	President's Day holiday, no classes, campus open
Feb. 17	CENSUS: Last day to drop classes without record
Mar. 30-Apr. 4	Academic recess
Mar. 31	César Chávez holiday, campus closed
May 8	Last day of instruction
May 9, 11-15	Final examinations
May 15-16	Commencement
May 21	Grades due; end of term

Summer Term 2026

Apr. 6-May 28	Summer registration
May 29	Last day for a full refund (10W & 5W1)
Jun. 1	First day of instruction (10W and 5W1)
Jun. 8	CENSUS: last day to drop classes without record (5W1)

Jun. 17	CENSUS: last day to drop classes without record (10W)
Jun. 18	Juneteenth holiday (observed), campus closed
Jul. 2	Independence Day holiday (observed), campus closed
Jul. 6	Last day of instruction (5W1)
Jul. 6	Final examinations (5W1)
Jul. 7	Grades due; end of term (5W1)
Jul. 7	Last day for a full refund (5W2)
Jul. 8	First day of instruction (5W2)
Jul. 15	CENSUS: Last to drop classes without record (5W2)
Aug. 12	Last day of instruction (10W & 5W2)
Aug. 12	Final examinations (10W & 5W2)
Aug. 13	Grades due; end of term (10W & 5W2)

The above calendar is not intended to be construed as an employee work calendar. For a more detailed calendar of academic dates and deadlines, see the University Calendar (<https://www.csusb.edu/university-calendar/>).

Admission

Requirements for admission to California State University, San Bernardino are in accordance with Title 5, Chapter 1, Subchapter 3, of the California Code of Regulations. Complete information is available on the California State University (CSU) website.

All CSU applications must be submitted online on the Cal State Apply website. An acknowledgement will be sent to the applicant when the online application has been submitted.

CSU Immunization Requirements

The CSU (<https://www.calstate.edu/attend/student-services/Documents/immunization-requirements-and-recommendations.pdf>) Immunization Requirements policy (<https://www.calstate.edu/attend/student-services/Documents/immunization-requirements-and-recommendations.pdf>) applies to undergraduate and graduate students, students matriculated in self-support degree programs, and K-12 students participating in concurrent enrollment courses entering the California State University (CSU) in or after fall 2023.

Immunization and Screening, Recommendations and Requirements are adopted from the American College Health Association (ACHA) Immunization Recommendations for College Students (<https://www.acha.org/resource/immunization-recommendations-for-college-students/>) and the California Department of Public Health (CDPH) Immunization & Screening Recommendations for College Students (<https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/Immunization/School/college.aspx>).

See the CSU (<https://www.calstate.edu/attend/student-services/Documents/immunization-requirements-and-recommendations.pdf>) Immunization Requirements policy (<https://www.calstate.edu/attend/student-services/Documents/immunization-requirements-and-recommendations.pdf>) for more information regarding additional authorized discretionary requirements, academic programs, fieldwork or clinical placement requirements, or immunization access.

NOTE: Any revisions of the CDPH recommendations for colleges and universities as of February 1, each year, will be reflected in CSU recommendations for the subsequent fall academic term.

Exemptions

A student may be exempted from any requirements in this policy as described below:

Medical Exemption: due to a medical condition for which an Approved Vaccine presents a significant risk of a serious adverse reaction. Any medical Exemption must be verified by a certified or licensed healthcare professional.

Religious Exemption: due to either (i) a person's sincerely held religious belief, observance, or practice, which includes any traditionally recognized religion, or (ii) beliefs, observances, or practices which an individual sincerely holds and that occupy a place of importance in that individual's life, comparable to that of traditionally recognized religions.

Required Immunization

Hepatitis B (Hep B) – Ages 18 and younger as per California law (HSC sections 120390-120390-7), enrollees who are 18 years of age or younger

are required to provide proof of full immunization against the hepatitis B virus prior to enrollment.

Immunization and Screening Recommendations

The CSU recommends that students are current for the immunizations listed below. Immunizations and screening recommendations, and immunization schedules are linked above. Campuses should link to this policy to provide students with detailed immunization and screening recommendations.

Recommended Vaccines to Reduce Outbreaks

1. Influenza Vaccine
2. Measles, Mumps and Rubella (MMR) Vaccine
3. Meningococcal Conjugate (Serogroups A, C, Y, W-135) Vaccine
4. Serogroup B Meningococcal Vaccine
5. Tetanus-Diphtheria-Pertussis (Tdap) Vaccine
6. Varicella (Chickenpox) Vaccine

Other Vaccines Recommended for Adults

1. Hepatitis A (Hep A) Vaccine
2. Hepatitis B (Hep B) Vaccine – Ages 19 and older
3. Human Papillomavirus (HPV) Vaccine
4. Pneumococcal Vaccine
5. Polio Vaccine

Recommend Screening

1. Tuberculosis Screen/Risk Assessment (TB)

The above are not admission requirements but are required of students as conditions of enrollment in CSU. For more information, review the Student Immunization Policy (<https://www.csusb.edu/policies/student-immunization-policy/>).

Importance of Filing Complete, Accurate and Authentic Application Documents

CSUSB advises prospective students that they must supply complete and accurate information on the application for admission, residency questionnaire and financial aid forms. Further, applicants must, *when requested*, submit authentic and official transcripts of all previous academic work attempted. Failure to file complete, accurate and authentic application documents may result in denial of admission, cancellation of registration or academic credit, suspension or expulsion (Section 41301, Article 1.1, Title 5, California Code of Regulations).

Undergraduate Application

Undergraduate Application Procedures

Prospective students applying for part-time or full-time undergraduate programs of study must submit a completed undergraduate application. The \$70 nonrefundable application fee should be paid online at the time of application via credit card or PayPal and may not be transferred or used to apply to another term. An alternate major may be requested on the application if desired by the university. The applications of persons denied admission to an impacted university may be redirected to another university at no cost, but only if the applicant is CSU eligible.

Impacted Programs

The CSU designates programs as impacted when more applications from regularly eligible applicants are received in the initial filing period (October and November for fall terms, June for winter terms, August for spring terms, February for summer terms) than can be accommodated. Some programs are impacted at every university which they are offered; others are impacted only at a few universities.

Candidates for admission must meet all of the university's specified supplementary admission criteria if applying to an impacted program or university.

The CSU will announce during the fall filing period those CSUs or programs that are impacted. Detailed information on university and program impactation is available on the Impaction at the CSU website (<https://www.calstate.edu/attend/impaction-at-the-csu/>).

Each university will communicate supplementary admission criteria for all impacted programs to high schools and community colleges in their application service area and will disseminate this information to the public through appropriate media. This information will also be published on the CSUSB's Impaction Information website (<https://www.csusb.edu/admissions/impaction-information/>).

Applicants must file applications for admission to an impacted program during the initial filing period. Applicants who wish to be considered for impacted programs at more than one CSU should file an application at each university for which they seek admission consideration.

Supplementary Admission Criteria

Each university with impacted programs or class-level admission categories uses supplementary admission criteria in screening applicants. Supplementary criteria may include rank-ordering of freshman applicants based on the combination of student's "A-G" GPA and supplemental factors or rank-ordering of transfer applicants based on verification of the Associate in Arts for Transfer (AA-T) or Associate in Science Transfer (AS-T) degrees, the overall transfer grade point average (GPA), completion of specified prerequisite courses and a combination of campus-developed criteria. Applicants for freshman admission to impacted universities or programs may need to have a higher "a-g" GPA. In no case will standardized test scores be utilized in making freshman admission decisions.

The supplementary admission criteria used by individual CSUs to screen applicants are made available by the universities to all applicants seeking admission to an impacted program.

CSU Application Filing Periods

Not all campuses/programs are open for admission to every term. Visit Cal State Apply to determine if a campus is open or still accepting applications for the term.

Terms	Applications first accepted	Initial Filing Period
Summer term	Feb. 1	February 1-28
Fall term	Oct. 1	Oct. 1-Nov. 30
Spring term	Aug. 1	August 1-31

Students interested in attending only the summer term at CSUSB should visit Admissions & Student Recruitment (<http://admissions.csusb.edu/>) around April 1 for information.

Each non-impacted campus accepts applications until capacities are reached. Many campuses limit undergraduate admission in an enrollment category due to overall enrollment limits. If applying after the initial filing period, consult the campus admission office for current information.

Similar information is conveniently available at Cal State Apply and Admissions & Student Recruitment (<http://admissions.csusb.edu/>).

On-time applicants may expect to receive an acknowledgment from the campuses to which they have applied within two to four weeks of filing the application. The notice may also include a request that applicants submit additional records necessary to evaluate academic qualifications. Applicants may be assured of admission if the evaluation of relevant qualifications indicates that applicants meet CSU admission requirements, and in the case of admission impactation, supplemental criteria for admission to an impacted program. Unless specific written approval/confirmation is received, an offer of admission is not transferable to another term or to another campus.

Application Acknowledgement

On-time applicants may expect to receive an e-mail acknowledgement from the universities to which they have applied within two to four weeks of filing the application. The notice may include a request that applicants submit additional records necessary to evaluate academic qualifications. Applicants may be assured of admission if the evaluation of relevant qualifications indicates that applicants meet CSU admission requirements, and in the case of admission impactation, supplemental criteria for admission to an impacted program. Unless specific written approval/confirmation is received, an offer of admission is not transferable to another term or to another university.

Hardship Petitions

The university has established procedures for consideration of qualified applicants who would be faced with extreme hardship if not admitted. Petitioners should write to the university Admission Office regarding specific policies governing hardship admission. Admission Appeal website (<https://www.csusb.edu/admissions/apply-csusb/what-if-i-dont-qualify/>).

Undergraduate Admission Requirements

Freshman Requirements

Generally, applicants will qualify for consideration for first-time freshman admission if they meet the following requirements:

1. Have graduated from high school, have earned a Certificate of General Education Development (GED), or have passed the California High School Proficiency Examination (CHSPE);
2. Complete the 15-unit comprehensive "a-g" pattern of college preparatory courses;
3. Have completed, with grades of C- or better, each of the courses in the comprehensive pattern of college preparatory subject requirements also known as the "a-g" pattern (see "Subject Requirements"); and
4. Earn a qualifying "a-g" grade point average (GPA) as described below.
 - California residents and graduates of California high schools will be eligible for admission by earning a 2.50 or greater "a-g" GPA.
 - Any California high school graduate or resident of California earning a GPA between 2.00 and 2.49 may be evaluated for admission based upon supplemental factors such as number

of courses exceeding minimum "a-g" requirements, household income, extracurricular involvement, and other available information that would inform the university admission decision.

- Non-California residents may be eligible for admission to the CSU by earning a 3.00 or greater "a-g" GPA along with other supplemental factors utilized by the individual university, including those outlined by impacted universities and programs.
- Any non-California resident earning a GPA between 2.47 and 2.99 may be evaluated for admission based upon supplemental factors such as number of courses exceeding minimum "a-g" requirements, household income, extracurricular involvement, and other available information that would inform the university admission decision.

5. Each CSU will determine the supplemental factors used with GPA to determine eligibility in these cases and communicate these criteria publicly for prospective students.

The California State University (CSU) has permanently discontinued the use of ACT/SAT examinations in determining admission eligibility. Submitted test scores by admitted students would be considered only for purposes of student placement in Math or English courses.

Provisional Admission

CSUSB may provisionally admit first-time freshman applicants based on their academic preparation through the junior year of high school and planned coursework for the senior year. The university will monitor the final terms of study to ensure that admitted students complete their secondary school studies satisfactorily, including the required college preparatory subjects, and graduate from high school. Students are required to submit an official transcript after graduation to certify that all coursework has been satisfactorily completed. Official high school transcripts must be received prior to the deadline set by the university. In no case may documentation of high school graduation be received any later than the census date for a student's first term of CSU enrollment. A CSU may rescind admission decisions, cancel financial aid awards, withdraw housing contracts and cancel any university registration for students who are found to be ineligible after the final transcript has been evaluated.

Applicants will qualify for regular (non-provisional) admission when the university verifies that they have graduated and received a high school diploma, have completed the comprehensive pattern of college preparatory "a-g" subjects and, if applying to an impacted program or university, have met all supplementary criteria.

Subject Requirements

The CSU requires that first-time freshman applicants complete, with grades of C- or better, a comprehensive pattern of college preparatory study totaling 15 units. A "unit" is one year of study in high school.

- 2 years of social science, including 1 year of U.S. history, or U.S. history and government
- 4 years of English
- 3 years of math (algebra, geometry, and intermediate algebra; four years recommended)
- 2 years of laboratory science (1 biological & 1 physical, both must have laboratory instruction)
- 2 years in the same foreign language (subject to waiver for applicants demonstrating equivalent competence)

- 1 year of visual and performing arts: art, dance, drama/theater, or music
- 1 year of electives: selected from English, advanced mathematics, social science, history, laboratory science, foreign language, visual and performing arts or other courses approved and included on the UC/CSU "a-g" list

Finish in Four, Through in Two Program (formerly California Promise)

The Finish in Four, Through in Two Program enables a specific number of CSUs to establish pledge programs for entering first-time students who are both interested and able to complete baccalaureate degrees in 4-years. All CSUs have established programs for students with Associate Degrees for Transfer from any California Community College to complete their baccalaureate degrees in 2-years. The program is limited to students who are residents of California.

Students who commit to enter either the 4-year or 2-year pledge will be given a priority registration appointment for each state-supported enrollment period and will be provided with routine and thorough academic advisement. In order to remain in the program, students must meet with their advisors as prescribed, develop an enrollment plan, and complete 30 semester units or the quarter equivalent within each academic year, including summer. Participating CSUs may stipulate other requirements as well. Interested students entering the CSU should contact university offices or visit the Finish in Four, Through in Two (https://www.calstate.edu/apply/freshman/getting_into_the_csu/pages/the-california-promise-program.aspx?utm_source=google&utm_medium=performance-max&utm_campaign=ss23-engage) website.

High School Students

High school students may be considered for enrollment in certain special programs if recommended by the principal and the appropriate university department chair and if preparation is equivalent to that required of eligible California high school graduates. Such admission is only for a given specific program and does not constitute a right to continued enrollment.

High school students may be considered for enrollment in certain special programs if recommended by the principal and the appropriate university department chair and if preparation is equivalent to that required of eligible California high school graduates. Such admission is only for a given specific program and does not constitute a right to continued enrollment.

Transfer Policies of CSU Campuses

Most commonly, college-level credits earned from an institutionally accredited college or university are accepted for transfer to member universities of the CSU; However, authority for decisions regarding the transfer of undergraduate credits is delegated to each university.

California Community Colleges can certify up to 34 semester (45 quarter) units of General Education Transfer Curriculum (Cal-GETC) for transfer students to fulfill lower-division general education requirements for any CSU prior to transfer.

"Certification" is the official notification from a California Community College that a transfer student has completed courses fulfilling lower-division general education requirements. The Cal-GETC certification course lists for particular community colleges can be accessed on the

official transfer and articulation system for California's public colleges and universities website, assist. (<http://assist.org/>)org (<http://assist.org/>).

CSUs may enter into course-to-course or program-to-program articulation agreements with other CSUs, any or all of the California community colleges and other institutionally accredited colleges or universities. Established CSU and CCC articulations may be found on assist. (<https://assist.org/>)org (<https://assist.org/>). Students may be permitted to transfer no more than 70 semester (105 quarter) units to a CSU from an institution which does not offer bachelor's degrees or their equivalents, for example, community colleges. Given the university's 30-semester (45-quarter) unit residency requirement, no more than a total of 90 semester (135 quarter) units may be transferred into the university from all sources.

Transfer Requirements

Applicants who have completed fewer than 60 transferable semester college units (fewer than 90 quarter units) are considered lower-division transfer students. Applicants who have completed 60 or more transferable semester college units (90 or more quarter units) are considered upper-division transfer students. Applicants who complete college units during high school or through the summer immediately following high school graduation are considered first-time freshmen and must meet the CSU minimum eligibility requirements for first-time freshman admission. Transferable courses are those designated for baccalaureate credit by the college or university offering the courses and accepted as such by the university to which the applicant seeks admission.

Lower-Division Transfer Requirements

Some CSUs admit lower-division transfer applicants. Students are advised to check the respective university they are interested in to see if lower-division transfer applications are accepted.

An applicant who completes fewer than 60 semester (90 quarter) units of college credit is considered a lower-division transfer student. Due to enrollment pressures, a limited number of CSUs do not admit lower-division transfers so that more upper-division transfers can be accommodated.

Having fewer than 60 semester (90 quarter) units at the point of transfer may affect eligibility for registration priority at a CSU and may affect the student's financial aid status.

California resident transfer applicants with fewer than 60 semester or 90 quarter units must:

- Have a cumulative grade point average of 2.0 (C) or better in all transferable units attempted;
- Have completed, with a grade of C- or better, a course in English Composition and a course in mathematical and quantitative reasoning at a level satisfying CSU General Education Subject Area 1A and Subject Area 2, respectively;
- Be in good standing at the last institution attended; and
- Meet any one of the following eligibility standards.

Transfer Based on Current Admission Criteria

The applicant meets the freshman admission requirements in effect for the term for which the application is filed; - OR -

Transfer Based on High School Eligibility

The applicant was eligible as a freshman at the time of high school graduation and has been in continuous attendance in an accredited college since high school graduation; - OR -

Transfer Based on Making Up Missing Subjects

The applicant had a qualifiable eligibility index at the time of high school graduation (combination of GPA and test scores if needed), has made up any missing college preparatory subject requirements with a grade of C- or better, and has been in continuous attendance in an accredited college since high school graduation.

One baccalaureate-level course of at least 3 semester (4 quarter) units is usually considered equivalent to one year of high school study.

(Note: Some CSUs may require lower-division transfer students to complete specific college coursework, for example the four basic skill courses, as part of their admission criteria.)

Upper-Division Transfer Requirements

Generally, applicants will qualify for consideration for upper-division transfer admission if they meet all of the following requirements:

1. Cumulative grade point average of at least 2.0 in all transferable units attempted;
2. In good standing at the last college or university attended; and
3. Completed at least sixty (60) transferable semester (90 quarter) units of college-level coursework with a grade point average of 2.0 or higher and a grade of C- or better in each course used to meet the CSU General Education Requirements in written communication, oral communication, critical thinking, and mathematical concepts and quantitative reasoning, e.g. mathematics.

The 60 units must include at least 30 units of courses that meet CSU General Education Requirements, including all of the general education requirements in Communication in the English language (both oral and written) and critical thinking and the requirement in mathematical concepts and quantitative reasoning (3 semester units) OR the California General Education Transfer Curriculum (Cal-GETC) requirements in English Communication and Mathematical Concepts and Quantitative Reasoning.

Associate Degrees for Transfer (AA-T or AS-T)

The Associate in Arts for Transfer (AA-T) and the Associate in Science for Transfer (AS-T) degrees offered at the California Community Colleges (CCC) are designed to provide a California community college student the optimum transfer preparation and a clear admission pathway to the CSU degree majors.

CCC students who earn an Associate Degree for Transfer (AA-T or AS-T) are guaranteed admission with junior standing to a CSU and given priority admission consideration over other transfer applicants when applying to a local CSU or non-impacted CSU program. AA-T or AS-T admission applicants are given limited priority consideration based on their eligibility ranking to an impacted university/program or to CSUs/programs that have been deemed similar to the degree completed at the community college. Students who have completed an AA-T/AS-T in a program deemed similar to a CSU major are able to complete remaining requirements for graduation within 60 semester (90 quarter) units. It is the responsibility of the student who has earned an AA-T/AS-T to provide documentation of the degree to the CSU. For the admissions process, students are responsible for working with their community college counselors to

complete verification of AA-T or AS-T degree progress through the E-verify process within the established university deadlines.

Provisional Admission

CSUSB may provisionally or conditionally admit transfer applicants based on their academic preparation and courses planned for completion. The university will monitor the final terms to ensure that those admitted complete all required courses satisfactorily. All accepted applicants are required to submit an official transcript of all college-level work completed. CSUs may rescind admission for any student who is found to be ineligible after the final transcript has been evaluated. In no case may such documents be received and validated by the university any later than a student's registration for their second term of CSU enrollment.

English Language Requirement

All undergraduate applicants whose native language is not English, and who have not attended schools at the secondary level or above for at least three years full-time where English is the principal language of instruction, must present a score of 61 or above on the Test of English as a Foreign Language (TOEFL). Some majors may require a score higher than 61. Some majors and some CSUs may require a higher score. A few CSUs may also use alternative methods of assessing English fluency: Pearson Test of English Academic (PTE Academic), the International English Language Testing System (IELTS) and the International Test of English Proficiency (ITEP). Each university will post the tests it accepts on its website and will notify students after they apply about the tests it accepts and when to submit scores. CSU minimum TOEFL standards are:

	Internet	Paper
Undergraduate	61	500
Graduate	80	550

Placement Measures for First-Year GE Written Communication and Mathematics/Quantitative Reasoning Courses

Freshman skills assessment and placement for general education written communication and mathematics/quantitative reasoning shall be based on systemwide skills assessment standards that include the Early Assessment Program/ Smarter Balanced Achievement Levels, ACT scores and/or SAT scores, high school coursework, high school GPA and math GPA.

Skills assessments are not a condition for admission to the CSU; they are a condition of enrollment.

These skills assessments are designed to inform entering freshmen of placement in appropriate baccalaureate-level courses based on their skills and needs.

First-time freshmen in need of support as determined by the skills assessment will be placed in supported instruction. Supported instruction is designed to assist students in credit bearing courses. Students may also be required to participate in the Supportive Pathways for First-Year Students Program.

The Supportive Pathways for First-Year Students Program offers pathways and academic and social support that align with each incoming student's needs. The program's goal is to ensure that first time students successfully complete the General Education (GE) English Composition

(Area 1A) and Mathematical Concepts and Quantitative Reasoning (Area 2) requirements within their first year.

Assessments and Placement for GE Written Communications Has Fulfilled the GE Sub-area 1A English Composition Requirement.

The student has met the requirement via completion of one of the following:

Advanced Placement (AP) Test

- 3 or above: AP Language and Composition
- 3 or above: AP Composition and Literature

College Transfer Coursework

- Completed approved college course that satisfies CSU GE Area 1A (English Composition) with a grade of C- or better

Placement in a GE Sub-area 1A English Composition Course

- The student has met examination standards and/or multiple measures- informed standards via one of the criteria below:

English CAASPP/EAP Test:

- Standard Exceeded
- Standard Met and completed 12th grade approved year-long English course (CSU ERWC, AP, Weighted Honors English) with grade of C- or better

SAT Evidence-Based Reading and Writing Test:

- 550 or above
- 510 – 540 and completed 12th grade approved year-long English course (CSU ERWC, AP, Weighted Honors English) with grade of C- or better English

ACT Test:

- 22 or higher
- 19-21 and completed 12th grade approved year-long English course (CSU ERWC, AP, Weighted Honors English) with grade of C- or better

High School Courses and GPA:

- Weighted GPA 3.3 or above
- GPA 3.0 or above and completed approved 12 grade year-long English course (AP, CSU ERWC, Weighted Honors English)
- GPA 3.0 or above and completed Honors English
- GPA 3.0 or above and 5 or more years of high school English

Placement in a Supported GE Sub-area 1A English Course

The student has met examination standards and/or multiple measures- informed standards via one of the criteria below:

SAT Evidence-Based Reading and Writing Test:

- 510 – 540 and 4 or more years of high school English

ACT Test:

- 19-21 and 4 or more years of high school English

High School Courses and GPA:

- Weighted GPA 3.0 or above and 4 or more years of high school English

Placement in a Supported GE Sub-area 1A English Course and Participation in the Supportive Pathways for First-Year Students Program

Based on multiple measures evaluation, student need additional academic support including participation in the Supportive Pathways for First Year Students Program. Visit [csustudentsuccess](http://csustudentsuccess.org/) (<http://csustudentsuccess.org/>). (<http://csustudentsuccess.org/>)org (<http://csustudentsuccess.org/>) to learn about this program.

Assessments and Placement for GE Mathematics/Quantitative Reasoning: Non-Math Intensive Majors (Algebra and Statistics Disciplines, Non-STEM and Undecided Majors) Has Fulfilled the GE Sub-area Mathematical Concepts and Quantitative Reasoning Requirement

The student has met the requirement via completion of one of the following:

Advanced Placement (AP) Test:

- 3 or above: Calculus AB
- 3 or above on AP Calculus BC
- 3 or above on AP Statistics
- 3 or above on AP Computer Science Principles

International Baccalaureate (IB) Test:

- 4 or above on Math Higher Level (HL)

College Level Examination Program (CLEP):

- 50 or above on: Calculus, College Algebra, College Algebra-Trigonometry, Pre-Calculus or Trigonometry

College Transfer Coursework:

- Completed math/quantitative reasoning college course with a C- or better that satisfies CSU GE Area 2

Placement in a GE Sub-area 2 Mathematical Concepts and Quantitative Reasoning

The student has met examination standards and/or multiple measures-informed standards via one of the following criteria:

CAASPP/EAP Math Exam:

- Standard Exceeded
- Standard Met and completed 12th grade approved year-long math course beyond Algebra 2 with a C- or better
- Standard Met and 4 or more years of high school math or quantitative reasoning

SAT Math Test:

- 570 or above
- 520 – 560 and completed 12th grade approved year-long math course beyond Algebra 2 with a C- or better

ACT Math Test:

- 23 or above
- 20-22 and completed 12th grade approved year-long math course beyond Algebra 2 with a C- or better

High School Courses and GPA:

- Weighted math GPA 3.0 or above and completed 12th grade approved year-long math course beyond Algebra 2 with a C- or better
- Weighted math GPA 3.0 or above and 5 or more years of high school math or quantitative reasoning
- Weighted high school GPA 3.7 or above
- Weighted high school GPA 3.5 or above and 4 or more years of high school math or quantitative reasoning

Placement in a Supported GE Sub-area 2 Mathematical Concepts and Quantitative Reasoning

- The student has met examination standards and/or multiple measures- informed standards via one of the criteria below:

High School GPA:

- Weighted math GPA 3.3 or above
- Weighted high school GPA 3.0 or above

Placement in a Supported GE Sub-area 2 Mathematical Concepts and Quantitative Reasoning and Participation in the Supportive Pathways for First-Year Students Program Required

Based on multiple measures evaluation, student needs additional academic support including participation in the Supportive Pathways for First-Year Students Program. Visit [csustudentsuccess](http://csustudentsuccess.org/) (<http://csustudentsuccess.org/>). (<http://csustudentsuccess.org/>)org (<http://csustudentsuccess.org/>) to learn about this program.

Assessments and Placement for GE Mathematical Concepts and Quantitative Reasoning: Pre- STEM/STEM and Other Math-Intensive Majors

Has Fulfilled the GE Sub-area 2 Mathematical Concepts and Quantitative Reasoning Requirement

The student has met the requirement via completion of one of the following:

Advanced Placement (AP) Test:

- 3 or above on AP Calculus AB
- 3 or above on AP Calculus BC

- 3 or above on AP Statistics
- 3 or above on AP Computer Science Principles

International Baccalaureate (IB) Test:

- 4 or above on Math Higher Level (HL)

College Level Examination Program (CLEP):

- 50 or above on: Calculus, College Algebra, College Algebra-Trigonometry, Pre-Calculus or Trigonometry

College Transfer Coursework:

- Completed math/quantitative reasoning college course with a C- or better that satisfies CSU GE Area 2

Placement in a GE Sub-area 2 Mathematical Concepts and Quantitative Reasoning:

The student has met examination standards and/or multiple measures-informed standards via one of the criteria below:

CAASPP/EAP Math Exam:

- Standard Exceeded
- Standard Met and completed 12th grade approved year-long math course beyond Algebra 2 with a C- or better

SAT Math Test:

- 570 or above
- 520 – 560 and completed 12th grade approved year-long math course beyond Algebra 2 with a C- or better

ACT Math Test:

- 23 or above
- 20-22 and completed 12th grade approved year-long math course beyond Algebra 2 with a C- or better

High School Courses and GPA:

- Weighted math GPA 3.5 or above and completed 12th grade approved year-long math course beyond Algebra 2 with a grade of C- or better
- Weighted math GPA 3.5 or above and 5 or more years of high school math or quantitative reasoning
- Weighted high school GPA 3.7 or above

Placement in a Supported GE Sub-area 2 Mathematical Concepts and Quantitative Reasoning

The student has met examination standards and/or multiple measures-informed standards via the criteria below:

High School Math GPA:

- Weighted math GPA 3.3 or above

Placement in a Supported GE Sub-area 2 Mathematical Concepts and Quantitative Reasoning and Participation in the Supportive Pathways for First-Year Students Program Required

Based on multiple measures evaluation, student needs additional academic support including participation in the Supportive Pathways for First Year Students Program. Visit [csustudentsuccess \(http://csustudentsuccess.org/\)](http://csustudentsuccess.org/). (<http://csustudentsuccess.org/>)org (<http://csustudentsuccess.org/>) to learn about this program.

- The goal of the Supportive Pathways for First-Year Students Program (SPFY) is to ensure that first-time students successfully complete the General Education (GE) written communication (A2) and math/quantitative reasoning (B4) requirements within their first year.
- Better prepare students in written composition and mathematics/quantitative reasoning before the fall term of freshman year, improving students' chances of successful completion of a baccalaureate degree.
- For general information about Supportive Pathways for First-Year Students Program (SPFYP), visit [csustudentsuccess \(http://csustudentsuccess.org/supportive-pathways/\)](http://csustudentsuccess.org/supportive-pathways/). Students are encouraged to visit the university website for SPFYP information once admitted.
- Eligible financial aid applicants with an Estimated Family Contribution (EFC) of \$6,000 or less will be eligible for waiver of the per unit SPFY fee. For more information on assessments, placements, and the Supportive Pathways for First Year Students Program, please visit [csustudentsuccess \(http://www.csustudentsuccess.org/\)](http://www.csustudentsuccess.org/). (<http://www.csustudentsuccess.org/>)org (<http://www.csustudentsuccess.org/>).

Adult Students

As an alternative to regular admission criteria, an applicant who is 25 years of age or older may be considered for admission as an adult student if they meet all of the following conditions:

- Possesses a high school diploma (or has established equivalence through either the General Educational Development or California High School Proficiency Examinations).
- Has not been enrolled in college as a full-time student for more than one term during the past five years.
- If there has been any college attendance in the last five years, has earned a 2.00 GPA or better in all college work attempted.

Consideration will be based upon a judgment as to whether the applicant is as likely to succeed as a regularly admitted freshman or transfer student and will include an assessment of basic skills in the English language and mathematical computation.

Graduation Requirement in Writing Proficiency

All students must demonstrate competency in writing skills as a requirement for graduation. Information on currently available ways to meet this graduation requirement may be obtained from the Office of the Registrar.

Early Start Program

The Early Start Program serves CSU admitted freshmen who have not demonstrated proficiency in written communication and/or mathematics/quantitative reasoning as determined by systemwide placement standards. Participation in the Early Start Program is required for students needing skills development in these areas; students will be expected to enroll in a written communication course or a mathematics/quantitative reasoning course (but not both) during the summer period prior to the start of the fall term. Students required to participate in the Early Start Program may choose to enroll at any CSU campus; the earned baccalaureate credit will be transferred seamlessly to the student's destination campus.

The goals of the Early Start Program are to:

- Better prepare students in written communication and mathematics/quantitative reasoning before the start of the fall semester of the freshman year;
- Add an important and timely assessment tool in preparing students for college; and
- Improve the opportunity for students to successfully complete their college degrees.

International (Foreign) Student Admission Requirements

The CSU must assess the academic preparation of foreign students. For this purpose, "foreign students" include those who hold U.S. temporary visas as students, exchange visitors, or in other non-immigrant classifications. The CSU uses separate requirements and application filing dates in the admission of "foreign students". Verification of English proficiency (see the section on the English Language Requirement for undergraduate applicants), financial resources, and academic performance are each important considerations for admission. Academic records from foreign institutions must be on file for the first term and, if not in English, must be accompanied by certified English translations.

Applicants for admission as either graduates or undergraduates whose education has been in another country should file an application for admission, official certificates and detailed transcripts of record from each secondary school and collegiate institution attended several months in advance of the beginning of the term in which the applicant expects to attend. If certificates and transcripts are not in English, they must be accompanied by certified English translations. Credentials will be evaluated in accordance with the general regulations governing admission to California State University, San Bernardino. Priority in admission is given to residents of California. There is little likelihood of nonresident applicants, including international students, being admitted either to impacted majors or to those campuses with limited openings.

An applicant whose education has been in a language other than English must take the Test of English as a Foreign Language (TOEFL). This test is administered in most countries and official test scores must be received by the university before admission to the university can be granted. Information as to the time and place at which this test is given may be obtained from: Educational Testing Service (TOEFL), Princeton, New Jersey 08540, U.S.A. or TOEFL (<http://www.toeflgoanywhere.org/>).

International applicants must also submit a statement of financial responsibility to the Center for International Studies & Programs (CISP) (<https://www.csusb.edu/cisp/>) to be considered for admission to the university. International students are also required to submit evidence of

adequate medical/hospital insurance to the international student advisor in CISP.

Arrangements for housing should be completed before the student's arrival on the campus. Detailed information regarding housing may be obtained from the director of H (<https://www.csusb.edu/housing/>) at California State University, San Bernardino (<https://www.csusb.edu/housing/>). (<https://www.csusb.edu/housing/>) Scholarship aid for entering students is limited; no scholarships are specifically reserved for students from another country.

Upon arrival at California State University, San Bernardino, international students should make an appointment with CISP as early as possible.

Insurance Requirement. Effective August 1, 1995, all F-1 and J-1 visa applicants must agree to obtain and maintain health insurance as a condition of receiving an I-20 or DS-2019 form and for registration and continued enrollment in the California State University. Such insurance must be in amounts as specified by the United States Information Agency (USIA) and NAESA: Association of International Educators. The campus president or designee shall determine which insurance policies meet these criteria. Further information can be obtained from the Center for International Studies & Programs.

English Language Requirement

All undergraduate applicants whose native language is not English, and who have not attended schools at the secondary level or above for at least three years full time where English is the principal language of instruction, must present a score of 61/500 or above on the Test of English as a Foreign Language (TOEFL). Some majors may require a higher score. A few campuses may also use alternative methods of assessing English fluency: Pearson Test of English Academic (PTE Academic), the International English Language Testing System (IELTS), and the International Test of English Proficiency (ITEP). Each campus will post the tests it accepts on its website and will notify students after they apply about the tests it accepts and when to submit scores.

CSU minimum TOEFL standards are:

	Internet	Paper
Undergraduate	61	500
Graduate	80	550

Placement Measures for First-Year GE Written Communication and Mathematics/Quantitative Reasoning Courses

Freshman skills assessment and placement for general education written communication and mathematics/quantitative reasoning shall be based on systemwide skills assessment standards that include the Early Assessment Program/ Smarter Balanced Achievement Levels, ACT scores and/or SAT scores, high school coursework, high school GPA and math GPA.

Skills assessments are not a condition for admission to the CSU; they are a condition of enrollment.

These skills assessments are designed to inform entering freshmen of placement in appropriate baccalaureate-level courses based on their skills and needs.

First-time freshmen in need of support as determined by the skills assessment will be placed in supported instruction. Supported instruction is designed to assist students in credit bearing courses. Students may also be required to participate in the Supportive Pathways for First-Year Students Program.

- The Supportive Pathways for First-Year Students Programs offers pathways and academic and social support that align with each incoming student's needs. The programs' goal is to ensure that first time students successfully complete the General Education (GE) written communication (A2) and math/quantitative reasoning (B4) requirements within their first year.

Assessments and Placement for GE Written Communications Has Fulfilled the GE Subarea A2 English Requirement

The student has met the requirement via completion of one of the following:

Advanced Placement (AP) Test

- 3 or above: AP Language and Composition
- 3 or above: AP Composition and Literature

College Transfer Coursework

- Completed approved college course that satisfies CSU GE Area A2 (written communication) with a grade of C- or better

Placement in a GE Subarea A2 English Course

- The student has met examination standards and/or multiple measures- informed standards via one of the criteria below:

English CAASPP/EAP Test:

- Standard Exceeded
- Standard Met and completed 12th grade approved year-long English course (CSU ERWC, AP, Weighted Honors English) with grade of C- or better

SAT Evidence-Based Reading and Writing Test:

- 550 or above
- 510 – 540 and completed 12th grade approved year-long English course (CSU ERWC, AP, Weighted Honors English) with grade of C- or better English

ACT Test:

- 22 or higher
- 19-21 and completed 12th grade approved year-long English course (CSU ERWC, AP, Weighted Honors English) with grade of C- or better

High School Courses and GPA:

- Weighted GPA 3.3 or above
- GPA 3.0 or above and completed approved 12 grade year-long English course (AP, CSU ERWC, Weighted Honors English)
- GPA 3.0 or above and completed Honors English
- GPA 3.0 or above and 5 or more years of high school English

Placement in a Supported GE Subarea A2 English Course

The student has met examination standards and/or multiple measures-informed standards via one of the criteria below:

SAT Evidence-Based Reading and Writing Test:

- 510 – 540 and 4 or more years of high school English

ACT Test:

- 19-21 and 4 or more years of high school English

High School Courses and GPA:

Weighted GPA 3.0 or above and 4 or more years of high school English

Placement in a Supported GE Subarea A2 English Course and Participation in the Supportive Pathways for First-Year Students Program

Based on multiple measures evaluation, student needs additional academic support including participation in the Supportive Pathways for First Year Students Program. Visit csustudentsuccess.org to learn about this program.

Assessments and Placement for GE Mathematics/Quantitative Reasoning: Non-Math Intensive Majors (Algebra and Statistics Disciplines, Non-STEM and Undecided Majors) Has Fulfilled the GE Subarea B4 Math/Quantitative Reasoning Requirement

The student has met the requirement via completion of one of the following:

Advanced Placement (AP) Test:

- 3 or above: Calculus AB
- 3 or above on AP Calculus BC
- 3 or above on AP Statistics
- 3 or above on AP Computer Science Principles

International Baccalaureate (IB) Test:

- 4 or above on Math Higher Level (HL)

College Level Examination Program (CLEP):

- 50 or above on: Calculus, College Algebra, College Algebra-Trigonometry, Pre-Calculus or Trigonometry

College Transfer Coursework:

- Completed math/quantitative reasoning college course with a C- or better that satisfies CSU GE Area B4

Placement in a GE Subarea B4 Math/Quantitative Reasoning Requirement

- The student has met examination standards and/or multiple measures-informed standards via one of the following criteria:

CAASPP/EAP Math Exam:

- Standard Exceeded
- Standard Met and completed 12th grade approved year-long math course beyond Algebra 2 with a C- or better
- Standard Met and 4 or more years of high school math or quantitative reasoning

SAT Math Test:

- 570 or above
- 550 or above on Subject Test in Math Level 1 or 2
- 520 – 560 and completed 12th grade approved year-long math course beyond Algebra 2 with a C- or better

ACT Math Test:

- 23 or above
- 20-22 and completed 12th grade approved year-long math course beyond Algebra 2 with a C- or better
- SAT score conversion for scores prior to March 2016 (old SAT) (<https://collegereadiness.collegeboard.org/sat-scoring-before-march-2016/>)

High School Courses and GPA:

- Weighted math GPA 3.0 or above and completed 12th grade approved year-long math course beyond Algebra 2 with a C- or better
- Weighted math GPA 3.0 or above and 5 or more years of high school math or quantitative reasoning
- Weighted high school GPA 3.7 or above
- Weighted high school GPA 3.5 or above and 4 or more years of high school math or quantitative reasoning

Placement in a Supported GE Sub-area B4 Math/ Quantitative Reasoning Requirement

The student has met examination standards and/or multiple measures-informed standards via one of the criteria below:

High School GPA:

- Weighted math GPA 3.3 or above
- Weighted high school GPA 3.0 or above

Placement in a Supported GE Sub-area B4 Math/ Quantitative Reasoning Requirement and Participation in the Supportive Pathways for First-Year Students Program Required

Based on multiple measures evaluation, student needs additional academic support including participation in the Supportive Pathways for First-Year Students Program. Visit csustudentsuccess.org to learn about this program.

Assessments and Placement for GE Mathematics/Quantitative Reasoning: Pre-STEM/STEM and Other Math- Intensive Majors Has Fulfilled the GE Sub-area B4 Math/ Quantitative Reasoning Requirement

The student has met the requirement via completion of one of the following

Advanced Placement (AP) Test:

- 3 or above on AP Calculus AB
- 3 or above on AP Calculus BC
- 3 or above on AP Statistics
- 3 or above on AP Computer Science Principles

International Baccalaureate (IB) Test:

- 4 or above on Math Higher Level (HL)

College Level Examination Program (CLEP):

- 50 or above on: Calculus, College Algebra, College Algebra-Trigonometry, Pre-Calculus or Trigonometry

College Transfer Coursework:

- Completed math/quantitative reasoning college course with a C- or better that satisfies CSU GE Area B4

Placement in a GE Subarea B4 Math/ Quantitative Reasoning Requirement

The student has met examination standards and/or multiple measures-informed standards via one of the criteria below:

CAASPP/EAP Math Exam:

SAT Math Test:

- 570 or above
- 550 or above on Subject Test in Math Level 1 or 2
- 520 – 560 and completed 12th grade approved year-long math course beyond Algebra 2 with a C- or better

ACT Math Test:

- 23 or above
- 20-22 and completed 12th grade approved year-long math course beyond Algebra 2 with a C- or better

High School Courses and GPA:

- Weighted math GPA 3.5 or above and completed 12th grade approved year-long math course beyond Algebra 2 with a grade of C- or better
- Weighted math GPA 3.5 or above and 5 or more years of high school math or quantitative reasoning
- Weighted high school GPA 3.7 or above

- SAT score conversion for scores prior to March 2016 (old SAT) (<https://collegereadiness.collegeboard.org/sat-scoring-before-march-2016/>)

Placement in a Supported GE Subarea B4 Math/ Quantitative Reasoning Requirement

The student has met examination standards and/or multiple measures-informed standards via the criteria below:

High School Math GPA:

Weighted math GPA 3.3 or above

Placement in a Supported GE Subarea B4 Math/ Quantitative Reasoning Requirement and Participation in the Supportive Pathways for First-Year Students Program Required

Based on multiple measures evaluation, student needs additional academic support including participation in the Supportive Pathways for First Year Students Program. Visit csustudentsuccess.org to learn about this program.

- The goal of the Supportive Pathways for First-Year Students Program (SPFY) is to Ensure that first-time students successfully complete the General Education (GE) written communication (A2) and math/quantitative reasoning (B4) requirements within their first year
- Better prepare students in written composition and mathematics/quantitative reasoning before the fall term of freshman year, improving students' chances of successful completion of a baccalaureate degree.
- For general information about Supportive Pathways for First-Year Students Program (SPFYP), visit csustudentsuccess.org/supportive-pathways. Students are encouraged to visit the university website for SPFYP information once admitted.
- Eligible financial aid applicants with an Estimated Family Contribution (EFC) of \$6,000 or less will be eligible for waiver of the per unit SPFY fee. For more information on assessments, placements and the Supportive Pathways for First Year Students Program, please visit www.csustudentsuccess.org.

Adult Students

As an alternative to regular admission criteria, an applicant who is 25 years of age or older may be considered for admission as an adult student if they meet all of the following conditions:

1. Possesses a high school diploma (or has established equivalence through either the General Educational Development or California High School Proficiency Examinations).
2. Has not been enrolled in college as a full-time student for more than one term during the past five years.
3. If there has been any college attendance in the last five years, has earned a 2.00 GPA or better in all college work attempted.

Consideration will be based upon a judgment as to whether the applicant is as likely to succeed as a regularly admitted freshman or transfer student and will include an assessment of basic skills in the English language and mathematical computation.

Graduation Requirement in Writing Proficiency

All students must demonstrate competency in writing skills as a requirement for graduation. Information on currently available ways to meet this graduation requirement may be obtained from the Office of Graduate Studies (<https://www.csusb.edu/graduate-studies/prospective-students/explore-graduate-education/>).

Other Applicants

An applicant who is not admissible under one of the above provisions should enroll in a community college or other appropriate institution. Only under the most unusual circumstances will such applicants be permitted to enroll in the university. Permission is granted only by special action of the university.

The university reserves the right to select its students and deny admission to the university or any of its programs as the university, in its sole discretion, determines appropriate based on an applicant's suitability and the best interest of the university.

Admission as an Auditor

A student who wishes only to audit a course instead of enrolling for credit must complete a statement of residency issued by the Office of the Registrar. Auditors must pay the same fees as would be charged if the courses were taken for credit. See Page 48 for auditing courses.

Admission to Teaching Credential Programs

Admission to the university as a student does not constitute admission to a teaching credential program. Students who intend to pursue work toward credentials should also make application to the College of Education.

Matriculation Policy

An undergraduate student is considered matriculated only if they register, pay fees and do not drop all of their courses prior to census for a given term through the regular campus enrollment. An application and application fee are required if:

1. the student was not matriculated in any of the three terms (not including summer) prior to the term in which they plan to register,
2. the student was enrolled at another four-year institution during an absence from California State University, San Bernardino, and
3. the student has since earned a baccalaureate degree.

Enrollment through Open University, College of Extended and Global Education, or a Visitor program does not constitute regular enrollment.

Returning Students

Undergraduate students in good standing may be readmitted to the university after an absence of one term by notifying the Office of the Registrar (<https://www.csusb.edu/registrar/>).

The application and fee of \$70 are required if the student was not enrolled in any of the three terms (not including summer) prior to the term for which the student is seeking admission or if the student was enrolled in another institution during the absence from California State University, San Bernardino. Enrollment through Open University or the College of Extended and Global Education during fall, winter or spring terms

does not constitute enrollment for this purpose. (See Leave of Absence (p. 128).)

Returning students who must reapply must apply during the priority application filing period and be fully eligible as an upper-division transfer student before they will be admitted to CSUSB again.

Readmission of Previously Disqualified Students

After receiving notice of disqualification, a returning student who has applied to CSUSB for a coming term may petition the director of Advising and Academic Services (<https://www.csusb.edu/advising/>) for readmission to the university on probation. All petitions for readmission must be submitted to the director of Advising and Academic Services (<https://www.csusb.edu/advising/>) according to the following schedule:

Petition for	Petition on file on or before
Fall	July 1
Winter	December 1
Spring	March 1
Summer	June 1

Transfer of Credit

A maximum of 70 transferable semester units (105 quarter units) of work taken at a community college can be applied toward the requirements for a degree from the university. No upper-division credit will be allowed from courses taken at a community college. No more than six semester units (nine quarter units) in education courses taken at a community college may be applied toward the baccalaureate degree or the professional preparation requirements of a teacher education basic credential program.

The Office of the Registrar will evaluate previous college work to determine its applicability to the requirements of the university. All undergraduate degree candidates will be issued a Program Advising Worksheet for Students (PAWS), indicating which requirements remain unfilled. Once issued to a student, the PAWS remains valid as long as the student matriculates for the term specified, pursues the objective specified, and remains in continuous attendance. Students will not be held to additional graduation requirements unless such requirements become mandatory as a result of changes in the California Code of Regulations or the California Education Code.

Credit for work completed at institutions with regional accreditation will be accepted toward the satisfaction of degree requirements at the university within limitations of residency and major requirements, community college transfer maximums, and course applicability.

Concurrent Enrollment. Once a student has matriculated at this university, transfer courses will only be accepted for credit if the courses have prior approval on the Concurrent Enrollment for Equivalent Transfer Course(s) form (<https://www.csusb.edu/registrar/regISTRATION/cross-enrollment/>). For complete policy, see Concurrent Enrollment (<https://www.csusb.edu/registrar/regISTRATION/cross-enrollment/>).

Students attending CSUSB on I-20 visas are not eligible for concurrent enrollment. They may, however, participate in the CSU Intrasytem Concurrent program or the UCR/CSUSB Cross Registration Program but must be concurrently enrolled in (and complete) at least 12 units at CSUSB and may only enroll in upper-division courses that are not

offered at CSUSB. For more information, see Intrasytem and Intersystem Enrollment Programs or UCR/CSUSB Cross Registration Program.

General Information - Admission and Evaluation of Academic Records

Advanced Placement

CSUSB grants credit toward its undergraduate degrees for successful completion of examinations of the Advanced Placement Program of the College Board. Students who present scores of three or better will be granted up to six-semester units of college credit. Questions regarding the acceptance of Advanced Placement exams should be directed to the Office of the Registrar (<https://www.csusb.edu/registrar/>).

Credit by Examination

Students may challenge courses by taking examinations developed at CSUSB.

Credit shall be awarded to those who pass them successfully.

Credit for Military Service

The university grants lower-division undergraduate credit for completion of basic training in the armed forces of the United States. This credit is applied to the Lifelong Understanding area of General Education.

A limited amount of additional credit may be granted to students who have completed certain service schools in addition to basic training. Credit will only be evaluated if needed to fulfill admission requirements or for use toward graduation. Credit is allowed on the basis of recommendations of the Commission on Educational Credit and Credentials of the American Council on Education and must be documented on the Member 4 copy of a DD-214, DD-295 or AARTS (Army/American Council on Education Registry Transcript System) transcript. Credit-based on military rank (MOS) will not be awarded.

The total amount of credit earned on the basis of externally developed tests and through recommendations of the commission, which may be applied to a baccalaureate degree, shall not exceed 45 term units. Advanced placement credit and international baccalaureate credit are excluded from the limit.

Credit for Non-Collegiate Instruction

CSUSB grants undergraduate degree credit for successful completion of non-collegiate instruction, either military or civilian, appropriate to the baccalaureate degree, which has been recommended by the Commission on Educational Credit and Credentials of the American Council on Education. The numbers of units allowed are those recommended in the Guide to the Evaluation of Educational Experience in the Armed Services and the National Guide to Educational Credit for Training Programs.

Appeal of Admission Decision

Section 89030.7 of the California Education Code requires that the CSU establishes specific requirements for appeal procedures for a denial of admission. Each CSU must publish appeal procedures for applicants denied admission to the university. The procedure is limited to addressing university decisions to deny an applicant admission to the university.

Admission appeal procedures must address the basis for appeals, provide 15 business days for an applicant to submit an appeal, stipulate a maximum of one appeal per academic term, provide specific contact information for the individual or office to which the appeal should be

submitted and indicate a time estimate for when the university expects to respond to an appeal.

CSUSB is an impacted campus, so out of local area and/or specific program admissions criteria may apply. Applicants who are denied admission to CSU San Bernardino may appeal the decision no more than 15 business days after the date the applicant was or should have reasonably been notified of denial by the Admissions Office. Applicants are to submit the electronic appeal request form through links provided in all denial communications as well as on the CSUSB Admissions (<https://www.csusb.edu/admissions/>) website. If documentation is received, appeals will be reviewed and answered within 15 business days after the request for appeal has been received by the Admissions Office.

The basis of appeal may include the following:

1. Credit not considered during the initial review of the application
2. Miscalculation of transferable college credit
3. Applied to an impacted major and wish to be reconsidered to another major
4. Special/extenuating circumstances

Applicants are limited to one appeal per term.

High School-University Program

High school students may be considered for enrollment in certain special programs if recommended by the principal and the appropriate campus department chair and if preparation is equivalent to that required of eligible California high school graduates. Such admission is only for a given specific program and does not constitute a right to continued enrollment. For more information, contact the Office of Admissions & Student Recruitment (<https://www.csusb.edu/admissions/apply-csusb/non-degree-programs/>) at (909) 537-5188.

Fee Waiver Program for California Residents Sixty Years of Age or Older

California State University, San Bernardino offers a program that allows California residents, sixty years of age or older, to enroll in regular session courses without payment of certain specified fees. All regular admission requirements and deadlines must be met. The program is required to adhere to the following standards:

1. enrollment shall be limited to persons who are California residents as defined by the Education Code, are 60 years of age or older, and are eligible for admission to the university, and
2. persons enrolling in the program will be able to register on the last day of registration appointments.

Contact the Office of the Registrar, (909) 537-5200, option 5.

Intrasystem and Intersystem Enrollment Programs

Fully matriculated students enrolled at any CSU have access to courses at other CSUs on a space available basis unless those universities/programs are impacted. This access is offered without students being required to be admitted formally to the host university and in most cases without paying additional fees. Students should consult their home university academic advisors to determine how such courses may apply to their specific degree programs before enrolling at the host university.

There are two programs for enrollment within the CSU and one for enrollment between CSU and the University of California or California Community Colleges. Additional information about these programs is available from the Office of the Registrar (<https://www.csusb.edu/registrar/>).

CSU Fully Online Courses – Matriculated students in good standing may request enrollment in one course per term, offered by a CSU host university. Enrollment requests will be granted based on available space, as well as completion of any stated pre-requisites. Credit earned at the host university is electronically reported to the student's home university to be included on the student's transcript at the home university.

CSU Visitor Enrollment – Matriculated students in good standing enrolled at one CSU may enroll at another CSU for one term. Credit earned at the host university is reported at the student's request to the home university to be included on the student's transcript at the home university.

Intersystem Cross Enrollment – Matriculated CSU, UC or community college students may enroll on a "space available" basis for one course per term at another CSU, UC, or community college and request that a transcript of record be sent to the home university.

CSU Interim COVID-19 Vaccination Policy

Entering CSU students are required to present proof of the following immunizations to the CSU they will be attending before the beginning of their first term of enrollment.

All individuals who access university/programs must be Fully Vaccinated against the COVID-19 virus, as defined by this policy, subject to the terms and limited Exemptions described in this policy, as well as comply with Other Safety Measures established on each CSU.

A Student may be exempted from the vaccine requirement in this policy as described below:

Medical Exemption: due to a medical (including mental health) condition for which an Approved Vaccine presents a significant risk of a serious adverse reaction. Any medical Exemption must be verified by a certified or licensed healthcare professional.

Religious Exemption: due to either (i) a person's sincerely held religious belief, observance, or practice, which includes any traditionally recognized religion, or (ii) beliefs, observances, or practices which an individual sincerely holds and that occupy a place of importance in that individual's life, comparable to that of traditionally recognized religions.

UCR/CSUSB Cross Registration Program

On a limited basis, students may be permitted to take advantage of courses offered at the nearby University of California campus in Riverside. Note: this opportunity is available only for undergraduate courses not normally offered at CSUSB and is subject to availability of space at UC Riverside after their early registration process is completed. The following conditions apply:

1. A limited number of students may participate.
2. A limit of one course per student per term.
3. The student is matriculated and currently enrolled in a degree program.
4. Students attending CSUSB on I-20 visas may participate, but must be concurrently enrolled in (and complete) at least 12 units at CSUSB,

- and may enroll only in upper-division courses that are not offered at CSUSB.
5. Student must pay sufficient (full) tuition fees at the Home Campus. No additional registration fees will be required at the Host Campus.
 6. The desired course is not offered at the Home Campus.
 7. Student must be in good academic standing.
 8. Student must observe all academic deadlines and regulations of the Host Campus.
 9. Enrollment is subject to space availability and consent of the instructor.
 10. Student must meet course prerequisites of the Host Campus.
 11. Records of grades will be maintained by the Host Campus and forwarded to the Home Campus. The Home Campus will include the "transfer" work on the student's transcript, with a footnote indicating that the course was taken through the exchange program.
 12. Residence credit will be granted for courses taken by CSUSB students under this arrangement.
 13. Cross-registration students will have the use of library facilities at the Host Campus. The student is not eligible for other student services or facilities.

Determination of Residency for Tuition Purposes

University requirements for establishing residency for tuition purposes are independent from requirements for establishing residency for other purposes, such as for tax purposes, or other state or institutional residency. These regulations were promulgated not to determine whether a student is a resident or nonresident of California, but rather to determine whether a student qualifies to pay university fees at the in-state or out-of-state rate. A resident for tuition purposes is someone who meets the requirements set forth in the Uniform Student Residency Requirements. These laws governing residency for tuition purposes at the California State University are California Education Code sections 68000-68086, 68120- 68133, and 89705-89707.5, and California Code of Regulations, Title 5, Subchapter 5, Article 4, sections 41900- 41915. This material can be viewed by accessing the California State University website (<http://www.calstate.edu/residency/>).

Each CSUs Admissions Office is responsible for determining the residency status of that university's new and returning students based, as applicable, on the student's Application for Admission, Residency Questionnaire, and, as necessary, other information the student furnishes. A student who fails to provide sufficient information to establish resident status will be classified as a nonresident.

Residency Requirements

Initial Determination: Eligible Immigration Status, Physical Presence and Intent

A student seeking to pay in-state tuition at a California State University (CSU) as a first-time freshman, transfer, or as a post-baccalaureate/graduate student must have an eligible immigration status to establish residency (see Eligible Immigration Information), meet physical presence by the Residence Determination Date, and demonstrate intent to indefinitely remain in the State of California for more than one year immediately preceding the Residence Determination Date. If the student is under the age of 19 (with limited exceptions), the student's residence status is derived from that of the parent or from that of the legal guardian.

Requirements for Residency for Tuition Purposes

Physical Presence: The student or parent/guardian must be physically present in California for more than one year immediately preceding the Residence Determination Date on which enrollment is considered. For example, if a student plans to attend the CSU for the fall 2025 academic term, and the Residence Determination Date for that term is September 20, 2025, the student must establish physical presence in California no later than September 19, 2024.

Eligible Immigration Status

A student seeking to pay in-state tuition at a California State University campus as a first-time freshman, transfer, or post-baccalaureate/graduate student must have an eligible immigration status (<https://www.calstate.edu/apply/california-residency-for-tuition-purposes/Documents/Immigration-Statuses.pdf>) to establish residency. Therefore, the student must be a United States citizen, a permanent resident (Green Card holder), or hold an eligible visa status (all eligible visas can be found at www.calstate.edu/residency (<http://www.calstate.edu/residency/>)).

Students in the category of Deferred Action for Childhood Arrivals (DACA), Humanitarian Parole, or Temporary Protected Status (TPS) are also eligible to establish residency for tuition purposes. Also, students who are adjusting their immigration status, such as asylum, may qualify for residency depending on where they are in the application process.

Most non-immigrant visa holders, such as an F-1 or J-1 visa holder, are not eligible to establish California residency for tuition purposes. Students with a visa or without an immigration status should contact the university Admissions Office.

If a student does not qualify as a California resident, the student may be eligible for certain exceptions and exemptions (<https://www.calstate.edu/apply/california-residency-for-tuition-purposes/Pages/exceptions-exemptions.aspx>), such as California Nonresident Tuition Exemption, commonly known as AB 540. Nonresident students (including US citizens, permanent residents, and undocumented individuals, including students with a T visa U visa, DACA, Humanitarian Parole (certain countries), Special Immigrant Juvenile, asylum, refugee, or Temporary Protected Status) may be exempted from paying nonresident tuition. Students seeking the AB 540 Exemption must satisfy attendance and graduation/transfer requirements from a California school (e.g., K-12, adult school, and community college).

Physical Presence: The student or parent/guardian must be physically present in California for more than one year immediately preceding the Residence Determination Date on which enrollment is considered. For example, if a student plans to attend the CSU for the fall 2025 academic term, and the Residence Determination Date for that term is September 20, 2025, the student must establish physical presence in California no later than September 19, 2024.

Residency Determination Dates

Fall	September 20
Winter Intersession	January 5
Spring	January 25
Summer	July 1

Intent: California law stipulates the burden of proof rests with the student, and merely living in California for a year does not support a claim for residency for tuition purposes. The student, or in some cases a parent or legal guardian, must demonstrate intent to remain indefinitely in the state for more than one year immediately preceding the Residence

Determination Date (RDD) and sever all residential ties with the former state or country of residence. If the student is under the age of 19, the student's residence status is derived from that of the parent or legal guardian unless an exception applies. There must be sufficient documentation to demonstrate that intent was established more than one year (a minimum of one year and one day) before the RDD.

Documents must include the student's name, the student's California address, and a date at least one year and one day prior or on the RDD for the term. For students under the age of 19, documents must be in the parent or legal guardian's name unless an exception applies. Also, a parent or legal guardian's immigration status does not preclude a student from establishing residency; therefore, the parent or legal guardian is not required to provide any immigration documents to demonstrate intent.

Evidence demonstrating intent to remain in the State of California indefinitely may vary from case to case, but will include, and is not necessarily limited to, the absence of residential ties to any other state, California voter registration and history of actually voting in California elections, maintaining California vehicle registration and driver's license, maintaining active California bank accounts, filing California income tax returns and listing a California address on federal tax returns, owning residential property or occupying or renting a residence where permanent belongings are kept, maintaining active memberships in California professional or social organizations, and maintaining a permanent military address and home of record in California. For a complete list of acceptable supporting documents, please visit www.calstate.edu/residency (<http://www.calstate.edu/residency/>) under Intent.

Residency Exceptions and Exemptions

Students not classified as California residents for tuition purposes may qualify for an exception or an exemption from payment of nonresident tuition. Exceptions to the general residency requirements are contained in California Education Code sections 68070-68086 and California Code of Regulations, Title 5, Subchapter 5, Article 4, sections 41906- 41906.6, 41910. Whether an exception applies to a particular student can only be determined after the submission of an application for admission and, as necessary, additional supporting documentation. Because neither the university nor the Chancellor's Office staff may give legal advice, applicants are strongly urged to review the material for themselves and consult with a legal advisor.

Fall	September 20
Winter	January 5
Spring	January 25
Summer	June 1

Reclassification - Financial Independence (only applies to continuing students)

A student classified as a nonresident for a prior term may seek reclassification in any subsequent term; however, reclassification requires that, in addition to satisfying the requirements of physical presence and intent to remain indefinitely in the state, the student must also satisfy the requirement of financial independence as outlined in Title 5 CCR § 41905.5. To do so, the student must contact the appropriate person in the university admissions office and complete a Residency Questionnaire Form and provide supporting documents.

41905.5. Residence Reclassification - Financial Independence Requirement

- Any nonresident student requesting reclassification to resident for tuition purposes must demonstrate financial independence or meet one of the criteria to exclude financial independence from reclassification analysis. A student is considered financially independent if all three requirements are met:
 - Student has not and will not be claimed as an exemption for state and federal tax purposes by his/her parent in the calendar year the reclassification application is made and in any of the three calendar years prior to the reclassification application.
 - Student has not and will not receive more than seven hundred fifty dollars (\$750) per year in financial assistance from their parent in the calendar year the reclassification application is made and in any of the three calendar years prior to the reclassification application.
 - Student has not lived and will not live for more than six weeks in the home of their parent during the calendar year the reclassification application is made and in any of the three calendar years prior to the reclassification application.

Note: Students who receive a government scholarship and/or financial assistance should be viewed the same as state and federal financial aid, and athletics grants-is aid; and should not be counted as parental support.

Effective Fall 2020 academic term, if the student meets at least one of the following criteria, the student does not have to meet the financial independence requirement. Students must provide the university admissions office supporting documents (e.g. state income tax returns, court documents, marriage certificate, military order form) that demonstrate they meet the criteria.

- Dependent on a parent who has California residence for more than one year immediately preceding the residence determination date;
- Enrolled in a graduate or postbaccalaureate program, regardless of age;
- Turned 24 years of age by the residence determination date;
- Married or registered domestic partner as of the residence determination date;
- Active-duty members serving in the U.S Armed Forces;
- Veteran of the U.S. Armed Forces;
- Legal dependent other than spouse or registered domestic partner;
- Former ward of the court, foster youth or both parents are deceased;
- Declared by a court to be an emancipated minor; or
- Unaccompanied youth who are homeless or at risk of becoming homeless.

Residency Appeals

A student classified as a nonresident may appeal a final university decision within 30 days of notification by the university. Appeals will be accepted only if at least one of the following criteria applies:

- The decisions were based on:
 - A significant error of fact by the university;
 - A significant procedural error by the university; or
 - An incorrect application of the law which, if corrected would require that the student be reclassified as a California resident; and/or
 - Significant new information, not previously known or available to the student, became available after the date of the university decision classifying the student as a nonresident and based

on the new information, the classification as a nonresident is incorrect.

Instructions to submit an appeal and additional information can be found on the California Residency for Tuition Purposes website (<http://www.calstate.edu/residency/>).

Appeals via email, fax and U.S. mail will not be accepted. A student with a documented disability who is requesting an accommodation to submit an appeal through the California State University (CSU) website (<https://www.calstate.edu/>) should contact Strategic Enrollment Management at residencyappeals@calstate.edu (residencyappeals@calstate.edu).

The Office of the Chancellor will either decide the appeal or send the matter back to the university for further review.

A student incorrectly classified as a resident or incorrectly granted an exception from nonresident tuition is subject to reclassification as a nonresident or withdrawal of the exception and subject to payment of nonresident tuition in arrears. If incorrect classification results from false or concealed facts, the student may also be subject to discipline pursuant to Section 41301 of Title 5 of the California Code of Regulations. A student previously classified as a resident or previously granted an exception is required to immediately notify the Admissions Office if the student has reason to believe that the student no longer qualifies as a resident or no longer meets the criteria for an exception.

Changes may have been made in the rate of nonresident tuition and in the statutes and regulations governing residency for tuition purposes in California between the time this information is published and the relevant residency determination date. Students are urged to review the statutes and regulations stated above.

Use of Social Security Number

Applicants are required to include their correct social security numbers in designated places on applications for admission pursuant to the authority contained in Section 41201, Title 5, California Code of Regulations, and Section 6109 of the Internal Revenue Code (26 U.S.C. 6109). The university uses the social security number to identify students and their records including identification for purposes of financial aid eligibility and disbursement and the repayment of financial aid and other debts payable to the institution. Also, the Internal Revenue Service (IRS) requires the university to file information returns that include the student's social security number and other information such as the amount paid for qualified tuition, related expenses, and interest on educational loans. This information is used by the IRS to help determine whether a student, or a person claiming a student as a dependent, may take a credit or deduction to reduce federal income taxes. The Financial Aid Office will also use it to report Federal Work Study earnings to the Federal Department of Education.

Reservation

The University reserves the right to select its students and deny admission to the University or any of its programs as the University, in its sole discretion, determines appropriate based on an applicant's suitability and the best interests of the University.

Campus Tours

Office of Admissions and Student Recruitment (<https://www.csusb.edu/admissions/visit-csusb/>)

(909) 537-5188 tours@csusb.edu

Tours of the Cal State campus are available throughout the year for individuals or groups. Student visitors interested in acquiring firsthand information about the university's programs or classes may request a meeting with faculty or an admissions counselor. Arrangements can be made to visit the residence halls.

General Requirements for Admission

Graduate and post-baccalaureate applicants may apply for a degree objective, a credential or certificate objective, or where approved, may have no program objective. Depending on the objective, the CSU will consider an application for admission as follows:

- **General Requirements** — The minimum requirements for admission to graduate and post-baccalaureate studies at a CSU are in accordance with university regulations as well as Title 5, Chapter 1, Subchapter 3 of the California Code of Regulations.
- **Specifically, a student shall at the time of enrollment:**
 - a. Have completed a four-year college course of study and hold an acceptable baccalaureate degree from an institution accredited by a regional accrediting association, or shall have completed equivalent academic preparation as determined by appropriate university authorities;
 - b. Be in good academic standing at the last college or university attended;
 - c. Have earned a grade point average of at least 2.5 on the last degree completed by the candidate or have attained a grade point average of at least 2.5 (A=4.0) in the last 60 semester (90 quarter) units attempted; and
 - d. Satisfactorily meet the professional, personal, scholastic, and other standards for graduate study, including qualifying examinations, as appropriate university authorities may prescribe. In unusual circumstances, a university may make exceptions to these criteria.
- **Students who meet the minimum requirements for graduate and post-baccalaureate studies may be considered for admission in one of the four following categories:**
 - a. **Graduate Classified** – To pursue a graduate degree, applicants are required to fulfill all of the professional, personal, scholastic, and other standards, including qualifying examinations, prescribed by the university; or
 - b. **Graduate Conditionally Classified** – Applicants may be admitted to a graduate degree program in this category if, in the opinion of appropriate university authority, deficiencies may be remedied by additional preparation; or
 - c. **Post-Baccalaureate Classified** (e.g., admission to an education credential program) – Persons wishing to enroll in a credential or certificate program will be required to satisfy additional professional, personal, scholastic, and other standards, including qualifying examinations, prescribed by the university; or
 - d. **Post-Baccalaureate Unclassified** – To enroll in undergraduate courses as preparation for advanced degree programs or to enroll in graduate courses for professional or personal growth, applicants must be admitted as post-baccalaureate unclassified students. By meeting the general requirements, applicants are eligible for admission as post-baccalaureate unclassified students. Admission in this status does not constitute admission to, or assurance of consideration for admission to, any graduate degree

or credential program. (Most CSUs do not offer admission to unclassified postbaccalaureate students).

(These and other CSU admission requirements are subject to change as policies are revised and laws are amended. The CSU website and the CSU admission portal are good sources for the most up-to-date information.)

Admission of Graduates with Baccalaureate Degrees from International Universities

An applicant who has earned a bachelor's degree from an institution outside of the USA (including a three-year bachelor degree) is eligible to apply for admission. The institution must be licensed and/or accredited in its home nation to award diplomas or degrees. Admission is subject to departmental review.

Graduate and Post-Baccalaureate English Language Requirement

All graduate and post-baccalaureate applicants, regardless of citizenship, whose native language is not English and whose preparatory education was principally in a language other than English must demonstrate competence in English. Those who do not possess a bachelor's degree from a postsecondary institution where English is the principal language of instruction must receive a minimum score of 550 on the Test of English as a Foreign Language (TOEFL). Some programs require a higher score. Several CSUs may use alternative methods for assessing fluency in English including Pearson Test of English Academic (PTE Academic), the International English Language Testing System (IELTS) and the International Test of English Proficiency (ITEP).

International Student Admission Requirements

The CSU must assess the academic preparation of foreign students. For this purpose, "foreign students" include those who hold U.S. temporary visas as students, exchange visitors or in other nonimmigrant classifications.

The CSU uses separate requirements and application filing dates in the admission of foreign students. Verification of English proficiency (see the section on the English Language Requirement for undergraduate applicants), financial resources, and academic performance are each important considerations for admission. Academic records from foreign institutions must be on file at least **30-days before** for the first term and, if not in English, must be accompanied by certified English translations.

Graduate and Post-Baccalaureate Admission Procedures

All graduate and post-baccalaureate applicants (i.e., doctorate, joint Ph.D. applicants, master's degree applicants, those seeking educational credentials or certificates and, where permitted, holders of baccalaureate degrees interested in taking courses for personal or professional growth or seeking a second bachelor's degree) must file a complete graduate application as described in the graduate and post-baccalaureate admission materials on the Cal State Apply website (https://www.calstate.edu/apply/?utm_source=google&utm_medium=performance-max&utm_campaign=ss23-engage). Applicants who completed undergraduate degree requirements in the preceding term are also required to complete and submit an application and the \$70

nonrefundable application fee. To be assured of initial consideration by more than one CSU, it is necessary to submit separate applications (including fees) to each. All CSU applications must be submitted online via the Cal State Apply website (https://www.calstate.edu/apply/?utm_source=google&utm_medium=performance-max&utm_campaign=ss23-engage). An acknowledgement will be sent to the applicant when the online application has been submitted.

Terms	Applications first accepted	Initial Filing Period
Fall Semester ¹	October 1	October 1 - November 30
Spring Semester	August 1	August 1 - 31
Summer Semester ²	February 1	February 1-28

¹ Each non-impacted university accepts applications until capacities are reached. Many universities limit undergraduate admission in an enrollment category due to overall enrollment limits. If applying after the initial filing period, consult the university.

² Most CSUs **do not** admit students to the summer term.

Application Acknowledgement

On time applicants may expect to receive an e-mail acknowledgement from the universities to which they have applied within two to four weeks of filing the application. The notice may include a request that applicants submit additional records necessary to evaluate academic qualifications. Applicants may be assured of admission if the evaluation of relevant qualifications indicates that applicants meet CSU admission requirements, and in the case of admission impactation, supplemental criteria for admission to an impacted program. Unless specific written approval/confirmation is received, an offer of admission is not transferable to another term or to another university.

Hardship Petitions

The university has established procedures for consideration of qualified applicants who would be faced with extreme hardship if not admitted. Petitioners should write to the university Admission Office regarding specific policies governing hardship admission. Visit the Admission's Appeal website (<https://www.csusb.edu/admissions/apply-csusb/what-if-i-dont-qualify/>) to learn about the process.

Appeal of Admission Decision

Section 89030.7 of the California Education Code requires that the California State University establishes specific requirements for appeal procedures for a denial of admission. Each CSU campus must publish appeal procedures for applicants denied admission to the University. The appeal process is limited to addressing campus decisions to deny an applicant admission to the University.

Admissions appeal procedures must address the basis for appeals, provide 15 business days for an applicant to submit an appeal, stipulate a maximum of one appeal per academic term, provide specific contact information for the individual or office to which the appeal should be submitted, and indicate a time estimate for when the campus expects to respond to an appeal. The appeal procedures must be included in all denial of admission notifications to students, and must also be published on the campus website.

Post-baccalaureate applicants who are denied admission to CSUSB may appeal the decision in writing no more than 15 business days after the

date the applicant was denied or should have reasonably been notified of denial by the Office of Graduate Studies. Applicants are to submit the appeal form to the Office of Graduate Studies. Appeals will then be reviewed by the program coordinator and answered before the last day of registration in the term applied for.

Admission by Special Action

According to Title 5 of the California Code of Regulation, an applicant who does not meet university or program requirements for admission may be admitted by "Special Action." Each program coordinator can determine, on the basis of acceptable evidence, if the applicant possesses sufficient academic, professional and other potential pertinent to the applicant's educational objectives to merit such action.

Readmission of Previously Disqualified Students

After receiving notice of disqualification, a student may petition for readmission to the university on academic notice.

General Education Program

Requirements (43 units)

General Education (GE) at CSUSB fosters intellectual rigor and exploration whereby students understand and investigate the foundations and consequences of ideas, theories, beliefs, and expressions. The program uses a multidisciplinary approach to encourage ongoing and self-motivated learning and to inform student creativity, reasoning, decision-making, expression, and responsible action. The GE program promotes curriculum choices that attend to the developmental nature of general education and student learning. Through multiple experiences with General Education Learning Outcomes (GLOs), and curriculum that leads to an inquiry in context students move from seekers and knowers to makers and doers.

By engaging in the breadth provided by GE students can find passions outside of major study areas and inspire life long learning. GE supports students both by preparing them to understand what it is to be a college level learner, and enabling students to be life long problem solvers able to bring the integration of knowledge together understanding the challenges and successes of modern society.

The general education requirements at California State University, San Bernardino are designed to assure that all graduates of the university, whatever their major, have acquired certain essential skills and a broad range of knowledge appropriate to educated persons in our society based on the following GE student learning outcomes:

1. Learning How to Learn/Metacognition
2. Thinking Critically
3. Critical Literacies - Information Literacy
4. Critical Literacies - Oral Communication
5. Critical Literacies - Written Communication
6. Critical Literacies - Quantitative Reasoning
7. Critical Literacies - Technological Literacy
8. Diverse Perspectives
9. Global Perspectives
10. Integrative Learning
11. Ethical Responsibility
12. Collaboration

For more information on the GLOs visit <https://www.csusb.edu/general-education/general-education-learning-outcomes-glos> (<https://www.csusb.edu/general-education/general-education-learning-outcomes-glos/>).

Lower-division foundation courses are intended to foster an ability to think clearly and logically, to find and critically examine information, and to communicate orally and in writing as life long problem solvers; to acquaint students with the physical universe and its life forms and to impart an understanding of scientific methodology and of mathematical concepts and quantitative reasoning; to cultivate-through the study of philosophy, literature, languages, and the arts-intellect, imagination, sensibility and sensitivity; and to deal with human social, political and economic institutions and their historical background, with human behavior, the principles of social interaction, and a commitment to diversity, equity, and inclusion. Upper-division courses include a further exploration of

disciplinary perspectives across fields providing a breadth of knowledge for CSUSB graduates.

In addition to foundation courses and upper-division disciplinary perspectives, designation requirements in the areas of diversity and inclusiveness, global perspectives, and writing provide students with knowledge in areas critical to global citizenry and central to the values of CSUSB. Designations overlay lower and upper-division GE courses. Students are required to complete one (1) diversity and inclusiveness (DI) course, one (1) global perspectives (G) course, and two (2) writing-intensive (WI) courses.

The GE program at CSUSB includes unique elements or signature features to enhance the student experience through opportunities for high engagement.

Foundation Seminar

This seminar, intended for first-year students, introduces them to the idea of academic inquiry and explores different disciplinary ways of knowing and doing, with attention to the metacognitive elements of learning. Students develop a sense of their role as a college-level learner. The foundation seminar is part of the GE requirements in Category 1B (Critical Thinking).

Please see the section on Foundation Seminar for more information.

Designations

CSUSB is committed to student learning experiences in diversity and inclusiveness, global perspectives, and written communication. Designated courses build on developmental opportunities in the GE program by requiring students to take courses with a central focus in these areas. The course requirements are designed to provide comprehensive opportunities for students in the areas of Diversity and Inclusiveness, Global Perspectives, and Written Communication. The designations overlay GE requirements across GE categories and can be completed with the same courses that complete GE requirements, with a few options outside of GE. Students are strongly encouraged to make GE selections that complete the GE requirements AND designations with the same class to avoid the need for additional unit requirements to complete the designations.

Please see the section on Designations for more information.

Pathways

Students may elect to further engage in general education through thematic pathways that provide integrative experiences based on interest in themes addressing modern societal issues. The Pathways program is optional but allows a student to complete GE requirements studying a common topic with the possibility of obtaining a minor through GE. Pathways can be completed as part of the unit requirements within GE.

Please see the section on GE Pathways and GE Minors for more information.

Substitutions

No substitutions in the general education program are possible without prior approval of a petition submitted to the Office of Academic Success & Undergraduate Advising. **Substitutions are rarely approved.**

Some majors require specific GE courses. Students should consult the catalog for their major's requirements or contact the department.

GE requirements equal to 43 units. Students must complete each category to complete GE.

Requirements for Lower-division General Education Program

Area 1: English Communication

1A: English Composition (3)

Minimum grade of C- (1.70) required in this area.

Choose three units from: 3

* Open only to students accepted into the University Honors Program (<https://www.csusb.edu/honors-program/>).

History, Constitution, Government Requirement

Each student must demonstrate competence in understanding the Constitution of the United States; American history, institutions and ideals; and the principles of state and local government as established in California.

The requirement in the U.S. Constitution may be met by completing one of the following (or both HIST 2000 and HIST 2010, if taken at CSUSB):

HIST 1460	History of the United States: Pre-Colonization to Present
HIST 1460H	Honors History of the United States: Pre-Colonization to Present *
HIST 2000 & HIST 2010	United States History to 1877 and United States History, 1877 to the Present
HIST 5400	Constitutional History of the United States
PSCI 2030	Government of the United States
PSCI 2030H	Government of the United States--Honors *
PSCI 4100	American Constitutional Law
PSCI 4110	The Bill of Rights

The requirement in U.S. History may be met by completing one of the following:

HIST 1460	History of the United States: Pre-Colonization to Present
HIST 1460H	Honors History of the United States: Pre-Colonization to Present *
HIST 2000	United States History to 1877
HIST 2010	United States History, 1877 to the Present
HIST 5400	Constitutional History of the United States
PSCI 3140	American Political Thought

The requirement in state and local government as established in California may be met by completing one of the following:

HIST 2700	California History
HIST 3700	History of California
PSCI 2030	Government of the United States
PSCI 2030H	Government of the United States-- Honors *
PSCI 3300	State and Local Politics

* Open only to students accepted into the University Honors Program (<https://www.csusb.edu/honors-program/>).

Note: General Education credit is only granted for the following: HIST 1460, HIST 1460H, HIST 2000, HIST 2010, PSCI 2030, and PSCI 2030H. Students must complete the U.S. Constitution, U.S. History, and California state and local government requirement to graduate. One of these requirements may be completed with a course in area 4. The remaining course(s) are part of the graduation requirements separate from GE.

Foundation Seminar

The Foundation Seminar is a critical offering preparing students for their developmental journey as college-level learners. It is designed to be a first-year learning experience providing an introduction to GLOs and learning principles critical to becoming life-long learners. Courses in this category will blend the structure of a first-year seminar that introduces students to academic inquiry and explores different disciplinary ways of knowing and doing. This includes an overview of what it is to be a college student and develops a sense of social belongingness for every student joining CSUSB. The seminar continues the encouragement for engagement initiated during student orientation. Courses in Category 1B must fulfill the Metacognition – learning how to learn GLO, Thinking Critically GLO, Ethical Responsibility GLO, and Collaboration GLO.

COMM 1007	Critical Thinking Through Argumentation
CSE 1100	Critical Thinking Through Computer Programming
HON 1200	Thinking Critically
MATH 1501	Critical Thinking Through Applications of Mathematical Logic
PHIL 1005	Critical Thinking Through Argument Analysis
PHIL 2100	Critical Thinking Through Symbolic Logic
PSYC 1105	Critical Thinking in Everyday Life
SOC 1800	Critical Thinking about Social Issues

General Education Pathways

Students may elect to further engage in general education through thematic pathways that provide integrative experiences based on student interest in themes addressing modern societal issues. Each thematic pathway includes suggested GE courses that fulfill GE requirements through coursework designed around inquiry questions. The GE Pathway Program offers not only an integrated learning experience across different fields of study, but also the opportunity to earn an interdisciplinary minor (see GE Minors).

- GE Pathway: Big Ideas that Change the World: Exploring Ideas, Innovations, Discoveries (p. 59)
- GE Pathway: Digital Life (p. 60)
- GE Pathway: Diversity and Social Justice (p. 60)
- GE Pathway: Environmental Sustainability (p. 61)
- GE Pathway: Global Connections (p. 62)
- GE Pathway: World Cultures and Diversity (p. 62)

General Education Minors

GE minors are interdisciplinary minors related to the GE Pathway program. Students making course choices based on integrative pathways may complete the pathway by following the requirements for the related minor. GE minors are reflected on student transcripts demonstrating a study concentration on the world issues related to the pathways.

GE Minor: Digital Literacies (p. 55)
 GE Minor: Diversity and Social Justice (p. 56)
 GE Minor: Environmental Sustainability (p. 56)
 GE Minor: Foundations of Change & Discovery (p. 57)
 GE Minor: Global Connections (p. 58)
 GE Minor: World Cultures and Diversity (p. 58)

To achieve the many different GE student learning outcomes in balance with the many other outcomes students must achieve to graduate several course designations have been created to overlay CSUSB campus requirements with the state requirements. These designations ensure that students complete requirements specific to CSUSB values regardless of their choices in GE. Courses with a designation go beyond a focus on the associated GLOs; they intentionally and comprehensively incorporate the designation in the content and goals of the course. Contained within the course offerings for GE foundations and disciplinary perspectives are offerings with course designations that fulfill the following GE requirements.

Students may satisfy Diversity and Inclusiveness, Writing Intensive, and Global Perspectives designations with courses in their major with classes that have designations.

Diversity and Inclusiveness Designation (DI)

Courses with a DI designation comprehensively explore multiple perspectives in order to develop student understanding to collaborate respectfully and effectively with others across a variety of cultures and contexts. Students must complete one DI designated course.

Writing Intensive Requirements (WI)

Students must complete two WI designated courses. Students satisfy the writing requirements by completing:

- Two Writing Intensive (WI) designated courses, at least one at the upper-division level (required to satisfy GVAR).
- Students may complete one writing-intensive course outside of GE (major, minor, or elective) to satisfy one WI course.

GE Minor: Digital Literacies

Digital technologies, such as computers, smartphones, social media, and the Internet, play increasingly central roles in 21st century life. Courses in the Digital Life General Education Pathway (and the associated Digital Literacies General Education Minor) explore our understandings and uses of digital technologies and their impacts in various personal, professional, political, economic, and social-cultural contexts. Students consider the opportunities and challenges these technologies present, and they cultivate crucial digital and information literacies -- understandings, judgments, and practical skills necessary for navigating and thriving in an increasingly complex, interconnected, and mediated world.

Requirements for a GE Minor in Digital Literacies (18 units)

In order to complete this GE Minor, students must take 18 units (six courses), from the list below:

- at least two must be upper-division courses
- at least one must be a Writing Intensive course

GE Category E -- Foundations Seminar

ADMN 1003 Leadership for Global Challenges:
Exploring the Digital Mindset

GE Category D4 -- Upper Division Social Science	
COMM 3305	Digital Media and Society
Total	18

GE Minor: Diversity and Social Justice Minor

The social justice minor offers students opportunities to examine issues and theories related to identity, diversity, and equity. Through interdisciplinary coursework and projects, students will deepen their understandings of the disparate ways that people access civil, political, economic, social, cultural, and environmental rights and opportunities and the ways that social structures impact equitable distribution.

Requirements for a GE Minor in Diversity and Social Justice (18 units)

To complete this GE Minor, students must complete six courses (18 units), from the list of choices below:

- At least two courses must be upper division courses (3000 or higher)
- At least one must be a Writing Intensive (WI) course

GE Category A3 -- Critical Thinking

SOC 1800	Critical Thinking about Social Issues
----------	---------------------------------------

GE Minor: Environmental Sustainability

The Environmental Sustainability GE minor provides holistic perspectives on environmental issues by exploring relationships between society and nature through interdisciplinary connections of natural science, social science, humanities, and business. Choose courses from this GE minor to broaden your awareness of the environment and human interactions with ecosystems, learn different viewpoints about what the concept of "sustainability" means, and meet the challenges of promoting sustainability in the local community and at a global scale.

Requirements for a GE Minor in Environmental Sustainability (18 units)

In order to complete this GE Minor, students must take 18 units (six courses), by choosing one course from six of the categories below:

- at least two must be upper-division courses
- at least one must be a Writing Intensive course

Students should take care to choose classes from a variety of departments and disciplinary perspectives.

Category E -- Foundation Seminar

Choose one of the following:

ADMN 1002	Leadership for Global Challenges: Citizenship in a Sustainable World (G)
NSCI 1200	Science, Environmental Sustainability and Social Responsibility

Category B1 -- Physical Science

Choose one of the following:

GEOL 1060	Environmental Geology and Geological Hazards (G, recommend GEOL 1060L)
GEOL 2040	Water in the West (G)
or GEOG 2040	Water in the West

Category B2 -- Life Science

BIOL 2180	Sustainable Agriculture
-----------	-------------------------

Category B5 -- Upper Division Scientific Inquiry

BIOL 3010	Human Ecology
CHEM 3100	Chemistry and the Environment
GEOL 3020	Natural Disasters (G)
GEOL 3040	Energy and the Environment (G)
MATH 3140	Introduction to Systems Modeling

Category C4 -- Upper Division Arts or Humanities

Choose one of the following:

ENG 3400	Analysis of Environmental Discourse (G, WI)
ENG 3410	Environmental Literature (G, WI)
PHIL 3014	Environmental Ethics (DI, WI)

Category D3 -- Social Science Discipline Perspective

Choose one of the following:

ECON 2000	The Economy: Problems and Perspectives (G)
GEOG 2000	Environment and Society (G)

Category D4 -- Upper Division Social Science

Choose one of the following:

GEOG 3501	Environmental Sustainability
SSCI 3390	Climate Change (G)

Total 18

GE Minor: Foundations of Change & Discovery

Pathway Description (for Students):

What ideas, innovations and discoveries change the world? Why is what we believe different from the ideas of others? Are our ideas always better than ideas people had in the past? Are some innovations more important than others? Do all innovations have a positive impact? Why have certain ideas about politics, economics, culture, science, and the natural world pushed aside competing claims?

The world we know today is not the world that peoples knew a hundred (or thousands of) years ago, and it is not the world that will exist a hundred years from now. This pathway will encourage you to think about connections between ideas, innovations, and discoveries from a variety of disciplinary perspectives. In this pathway, we will investigate how and what changes shape the world.

Ideas, innovations, and discoveries shape the world we live in and arise from a variety of contexts. For example, who am I (identity) and what is my role within my community (identity politics), how shall I live (ethics), how will I know if I'm successful (economics, psychology), where am I allowed to live (immigration policies), and how does the physical world work (science). In this pathway, you will explore a variety of ideas, innovations, and discoveries that made an impact on communities around the world.

Requirements for a GE Minor in Foundations of Change & Discovery (18 units)

In order to complete this GE Minor, students must take 18 units (six courses):

- at least two must be upper-division courses
- at least one must be a Writing Intensive course

Students should take care to choose classes from a variety of departments and disciplinary perspectives so that you see how Discoveries are represented throughout the curriculum.

GE Minor: Global Connections

The Global Competency General Education (GE) Minor is a new interdisciplinary minor associated with the new Global Connections GE Pathway program. Both have been developed as part of the conversion of the quarter GE curriculum to a new semester GE curriculum structure.

The Global Competency GE Minor encourages students to take more classes within the Global Connections GE Pathway and gain a more in-depth understanding of the connectivity around the globe and how that connectivity has impacted various components of human society.

The minor inspires students who are already completing the Global Connections GE Pathway to take additional classes in the pathway. These other classes lead to a more significant exploration of a particular facet of global connectivity the student found interesting when completing the Global Connections GE Pathway. For example, if a student is a part of the Global Connections GE Pathway and then becomes very interested in global connectivity and governance issues, they can take additional classes from the pathway they have not completed already. The minor allows the student to concentrate on that topic beyond the GE pathway classes. In doing so, students become more globally aware concerning a particular global issue and gain the skills and knowledge at a deeper level to be an actively engaged global citizen.

Requirements for a GE Minor in Global Connections (18 units)

In order to complete this GE Minor, students must take 18 units (six courses), by choosing one course from six categories:

- at least two must be upper-division courses
- at least one must be a Writing Intensive course
- Students for the Global Competency GE Minor can take up to two non-GE classes to complete the minor.

Note: Students should consult with departments who contribute courses to this minor and to the Global Connections GE Pathway to find co-curricular opportunities (e.g., participating in Coyote Career Center activities, participating in faculty-led research and participating in study abroad and study away programs) that can further enhance their educational experience.

GE Minor: World Cultures and Diversity

This minor introduces students to the construction of cultural similarities and differences among peoples and diverse identities across the world, including ethnic, sexual, economic, religious, and national identities. It fosters an understanding, appreciation, and respect for cultural differences by examining the production of art, literature, folklore, dance, music, and language, and the development of gender identities, belief systems and worldview, among other expressions, as well as their relationship to broader historical, economic, and political processes. Students will acquire cultural competency, cultivate sensitivity, and ethical responsibility, while also gaining a perspective on themselves and their local community.

Essential Questions include: 1. How are cultures and diversity created, maintained, expressed, and changed?; 2. How are diverse identities constructed in relation to historical, political, and economic processes on local and global scales?; 3. What are the causes and consequences of cross cultural interactions, and how are they interpreted?; 4. How is world

diversity manifested through art, literature, folklore, language, religion, worldview, gender identities, as well as material and non-material culture?

Requirements for a GE Minor in World Cultures and Diversity (18 units)

In order to complete this GE Minor, students must take 18 units (six courses), by choosing one course from six categories:

- at least two must be upper-division courses
- at least one must be a Writing Intensive course

Students are required to take one course from World Languages and Literature and one course from Anthropology.

GE Pathway: Big ideas that Change the World: Exploring Ideas, Innovations, and Discoveries

What ideas, innovations and discoveries change the world? Why is what we believe different from the ideas of others? Are our ideas always better than ideas people had in the past? Are some innovations more important than others? Do all innovations have a positive impact? Why have certain ideas about politics, economics, culture, science, and the natural world pushed aside competing claims?

The world we know today is not the world that peoples knew a hundred (or thousands of) years ago, and it is not the world that will exist a hundred years from now. This pathway will encourage you to think about connections between ideas, innovations, and discoveries from a variety of disciplinary perspectives. In this pathway, we will investigate how and what changes shape the world.

Ideas, innovations, and discoveries shape the world we live in and arise from a variety of contexts. For example, who am I (identity) and what is my role within my community (identity politics), how shall I live (ethics), how will I know if I'm successful (economics, psychology), where am I allowed to live (immigration policies), and how does the physical world work (science). In this pathway, you will explore a variety of ideas, innovations, and discoveries that made an impact on communities around the world.

Students interested in this pathway, have the option of completing a GE minor. See information on GE Minor: Foundations of Change & Discovery.

Pathway Requirements (12 units)

To complete this pathway, students are advised to complete four courses (12 units), of which:

- At least two courses must be upper division courses (3000 or higher) from the Big Ideas course list
- At least one must be a Writing Intensive (WI) course from the Big Ideas course list

You should take care to choose classes from a variety of departments and disciplinary perspectives (colleges) so that you see how Big Ideas are represented throughout the curriculum.

GE Pathway: Digital Life

Digital technologies, such as computers, smartphones, social media, and the Internet, play increasingly central roles in 21st century life. Courses in the Digital Life General Education Pathway (and the associated Digital Literacies General Education Minor) explore our understandings and uses of digital technologies and their impacts in various personal, professional, political, economic, and social-cultural contexts. Students consider the

opportunities and challenges these technologies present, and they cultivate crucial digital and information literacies -- understandings, judgments, and practical skills necessary for navigating and thriving in an increasingly complex, interconnected, and mediated world.

Students interested in this pathway, have the option of completing a GE minor. See information on GE Minor: Digital Literacies.

Pathway Requirements (12 units)

Students are advised to complete at least four courses (12 units) from the following list of courses, by choosing one course from four of the following six categories:

GE Category E -- Foundations Seminar

Choose one of the following:	
ADMN 1003	Leadership for Global Challenges: Exploring the Digital Mindset
CAL 1130	Digital You/U
CSE 1290	College Learning for Lives and Careers in the Information Age

GE Category A3 -- Critical Thinking

CSE 1100	Critical Thinking Through Computer Programming
----------	--

GE Category B5 -- Upper Division Scientific Inquiry

PHYS 3010	The Science of Digital Sound and Music
-----------	--

GE Category C1 -- Arts

Choose one of the following:	
CAL 1500	Digital Humanities and Arts (DI)
MUS 2266	Creating digital Media Using Personal Electronic Technology

GE Category C4 -- Upper Division Arts & Humanities

Choose one of the following:	
COMM 3332	Movies in the Digital Age
PHIL 3016	Real Ethics in a Virtual World (WI)

GE Category D4 -- Social Science

COMM 3305	Digital Media and Society
-----------	---------------------------

Total 12

GE Pathway: Diversity and Social Justice

The social justice pathway offers students opportunities to examine issues and theories related to identity, diversity, and equity. Through interdisciplinary coursework and projects, students will deepen their understandings of the disparate ways that people access civil, political, economic, social, cultural, and environmental rights and opportunities and the ways that social structures impact equitable distribution.

Students interested in this pathway, have the option of completing a GE minor. See information on GE Minor: Diversity and Social Justice.

Pathway Requirements (12 units)

To complete this pathway, students are advised to complete four courses (12 units), from the list of choices below:

- At least two courses must be upper division courses (3000 or higher)
- At least one must be a Writing Intensive (WI) course

GE Category A3 -- Critical Thinking

SOC 1800	Critical Thinking about Social Issues
----------	---------------------------------------

GE Category B2 -- Life Science

GE Pathway: Environmental Sustainability

The Environmental Sustainability GE pathway provides holistic perspectives on environmental issues by exploring relationships between society and nature through interdisciplinary connections of natural science, social science, humanities, and business. Choose courses from this pathway to broaden your awareness of the environment and human interactions with ecosystems, learn different viewpoints about what the concept of "sustainability" means, and meet the challenges of promoting sustainability in the local community and at a global scale.

Students interested in this pathway, have the option of completing a GE minor. See information on GE Minor: Environmental Sustainability.

Pathway Requirements (12 units)

To complete the Environmental Sustainability GE Pathway, students are advised to complete at least four courses (12 units) by choosing one course from four of the following seven categories:

Category E -- Foundation Seminar

ADMN 1002	Leadership for Global Challenges: Citizenship in a Sustainable World (G)
NSCI 1200	Science, Environmental Sustainability and Social Responsibility

GE Category B1 -- Physical Science

GEOL 1060	Environmental Geology and Geological Hazards (G; recommend GEOL 1060L to fulfill GE B3.)

GE Pathway: Global Connections

The Global Competency General Education (GE) Minor is a new interdisciplinary minor associated with the new Global Connections GE Pathway program. Both have been developed as part of the conversion of the quarter GE curriculum to a new semester GE curriculum structure.

The Global Competency GE Minor encourages students to take more classes within the Global Connections GE Pathway and gain a more in-depth understanding of the connectivity around the globe and how that connectivity has impacted various components of human society.

The minor inspires students who are already completing the Global Connections GE Pathway to take additional classes in the pathway. These other classes lead to a more significant exploration of a particular facet of global connectivity the student found interesting when completing the Global Connections GE Pathway. For example, if a student is a part of the Global Connections GE Pathway and then becomes very interested in global connectivity and governance issues, they can take additional classes from the pathway they have not completed already. The minor allows the student to concentrate on that topic beyond the GE pathway classes. In doing so, students become more globally aware concerning a particular global issue and gain the skills and knowledge at a deeper level to be an actively engaged global citizen.

Pathway Requirements (12 units)

To complete this pathway, students are advised to complete four courses (12 units), one course from each of the following categories:

- At least one course must be a Writing Intensive course (WI)

GE Category E -- Foundation Seminar

Total 12

GE Pathway: World Cultures and Diversity

This pathway introduces students to the construction of cultural similarities and differences among peoples and diverse identities across the world, including ethnic, sexual, economic, religious, and national identities. It fosters an understanding, appreciation, and respect for cultural differences by examining the production of art, literature, folklore, dance, music, and language, and the development of gender identities, belief systems and worldview, among other expressions, as well as their relationship to broader historical, economic, and political processes. Students will acquire cultural competency, cultivate sensitivity, and ethical responsibility, while also gaining a perspective on themselves and their local community.

Essential Questions include: 1. How are cultures and diversity created, maintained, expressed, and changed?; 2. How are diverse identities constructed in relation to historical, political, and economic processes on local and global scales?; 3. What are the causes and consequences of cross cultural interactions, and how are they interpreted?; 4. How is world diversity manifested through art, literature, folklore, language, religion, worldview, gender identities, as well as material and non-material culture?

Students interested in this pathway, have the option of completing a GE minor. See information on GE Minor: World Cultures and Diversity.

Pathway Requirements (15 units)

To complete this pathway, students are advised to complete five courses (15 units), one course from each of the following categories; Students are advised to take one course from World Languages and Literature and one course from Anthropology.

Undergraduate Degrees and Programs

The baccalaureate degree that students earn at California State University, San Bernardino will represent work done in three broad areas: General Education, courses in a major and free electives. The General Education program is explained elsewhere in this catalog, and all the courses that comprise the General Education program are listed. It is important to note that not all of these courses will be offered each semester. Students should consult the Class Schedule to find those courses offered during the current semester. Following the General Education requirements are several important process requirements that must be fulfilled in order to obtain an undergraduate degree. This catalog also contains the program requirements and course descriptions required of baccalaureate degrees, minors, certificates and credentials with appropriate contact information at the beginning of each section.

Undergraduate Academic Support Programs

Academic Success and Undergraduate Advising

University Hall, Room 352

(909) 537-7012 (fax)

Academic Success and Undergraduate Advising (<https://www.csusb.edu/undergraduate-studies/graduate-advising>) (<https://www.csusb.edu/academic-success-and-undergraduate-advising/>)

Academic Success and Undergraduate Advising (ASUA) is responsible for various programs designed to help students' academic success. Beginning with pre-college students, ASUA hosts the Early Assessment Program, where high school juniors can assess their readiness for college-level English and mathematics coursework. We help coordinate developmental education programs in English and mathematics for students who have not demonstrated college readiness in those subjects by the time they start college, including the Early Start Program and Coyote First STEP (Student Transition Enhancement Program), offered in the summer before first enrollment at CSUSB. For students in the first year of college, ASUA offers the Freshman Seminar (USTD 1000A) and courses in developmental mathematics. Academic Success and Undergraduate Advising coordinates CSUSB's team-based academic advising system, which includes peer advisors, professional advisors, and faculty advisors assigned to every student; we are home to the office of Academic Advising, which is directly responsible for advising students who have yet to declare a major or who find themselves needing to get off of academic probation. ASUA offers extensive opportunities to students for academic assistance and enrichment through Supplemental Instruction, the Student Mentoring Program, the Tutoring Center, the Writing Centers, and PDC's Student Success Studio (S3). Most of the work of ASUA involves supporting students, faculty members, and the various academic colleges. Academic Success and Undergraduate Advising oversees one degree program, the Bachelor of Arts: Special Major, through which qualified students can design their own personalized, interdisciplinary degree program.

Undergraduate Degree and Program Requirements

Program Requirements for a Bachelor's Degree

To be eligible for the bachelor's degree, a student must:

1. Complete a minimum of 120 semester units of baccalaureate level credit. Some majors require more than 120 semester units, particularly those with integrated teaching tracks.
2. Complete a minimum of 49 semester units in general education distributed in the manner outlined in the section titled General Education Program (p. 45).
3. Complete all requirements for a major, including at least 24 semester units of upper-division course work in the major for a BA and 27 units of semester units of upper-division course work in the major for a BS.
4. Complete at least 30 semester units at this university. (Refer to University Residence Requirement for Graduation, below.)
5. Earn a grade point average of 2.0 ("C") or better in all units used to fulfill the requirements of the major.
6. Earn a grade point average of 2.0 ("C") or better in all units attempted, and in all units attempted at the university.
7. Complete the upper-division Writing Intensive requirement. (See Upper-Division Writing Requirement (p. 45).)
8. Complete the history, constitution and California government requirement. (See History, Constitution, Government Requirement (p. 45).)
9. Be recommended for graduation by the faculty of the university.
10. Have a graduation requirement check (grad check) on file prior to the end of the term of graduation. (See Graduation Requirement Check (<http://bulletin.csusb.edu/academic-regulations/>)).

Supportive Pathways for First-Year Students Program

In order to help students improve their chances of graduating on time, the California State University system requires all new California resident freshmen students who have not demonstrated college readiness in mathematics and English to take action towards supporting college readiness during enrollment through participation in the Supportive Pathways for First-Year Students Program (SPFYS). The purpose of SPFYS is to give students an opportunity to make progress towards fulfilling their mathematics and English requirements early, so that doing so does not interfere with degree progress. Students may establish their level of readiness in English and mathematics in several ways: through the Early Assessment Program test in the junior year of high school (embedded in the CASPP assessments), or through successful grades in Advanced Placement (AP) or International Baccalaureate (IB) courses. Students who are required to participate in Early Start and who fail to do so will not be eligible to enroll for classes. For more information about the Supportive Pathways for First-Year Students Program, please visit the SPFYS website.

University Residence Requirement for Graduation

A minimum of 30 semester units must be completed at this university. At least 24 of these units must be upper-division, 12 in the major, and 9 in

general education. Extension credit, credit by examination or credit by evaluation may not be used to fulfill the minimum residency requirement.

Second Bachelor's Degree Requirements

A student who holds a bachelor's degree from California State University, San Bernardino or another accredited institution and who applies for a second degree must have satisfactorily completed each of the following in order to receive a second bachelor's degree in a different major:

1. General education requirements as stated in the appropriate catalog;
2. Upper-division Writing Intensive requirement completed with a grade of "B" (3.0) or better;
3. Requirements of the major involved;
4. In addition to whatever work was presented for the first bachelor's degree, a minimum of 30 semester units of residence work of which
 - a. 12 units must be in the second major,
 - b. 9 units must be in general education (international students only),
 - c. 24 units must be at the upper-division level;
5. Maintain a 2.5 grade point average in all work attempted;
6. Approval of the faculty of the university.

It is not necessary to complete a second bachelor's degree in order to graduate with a dual major. Students seeking a second bachelor's degree will be subject to the registration policies in effect for unclassified postbaccalaureates. See Fees (p. 107) for further information about fees for a second major.

Multiple Majors/Concentration

A student will normally meet graduation requirements for a degree in one of the major curricula. A student may be granted a bachelor's degree with two or more concentrations if the complete requirements of all curricula are satisfied at the same time, provided the concentration has a minimum of 9 semester units (12 quarter units) that are unique to the program. Students graduating with multiple concentrations will not be issued separate diplomas. The fact that the requirements of multiple concentrations with the same degree have been completed will be noted on the transcript.

Undergraduate Degrees

College of Arts & Letters

- Bachelor of Arts in Liberal Arts (p. 161)

Department of Art

- Bachelor of Arts in Art (p. 173)
- Bachelor of Arts in Art History
- Bachelor of Arts in Design Studies (p. 175)
- Bachelor of Arts in Studio Art Studies (p. 176)
- Bachelor of Fine Arts in Art (p. 176)

Department of Political Science

- Bachelor of Arts in Political Science (p. 356)

Department of Psychology

- Bachelor of Arts in Psychology (p. 365)

Department of Social Work

- Bachelor of Arts in Social Work (p. 384)

Department of Sociology

- Bachelor of Arts in Sociology (p. 369)

Interdisciplinary Studies

- Bachelor of Arts with Special Major (p. 83)

Jack H. Brown College of Business & Public Administration

- Bachelor of Arts in Administration (p. 389)
- Stater Bros. Markets Bachelor of Arts in Applied Business (p. 482)

Department of Information & Decision Sciences

- Bachelor of Science in Information Systems & Technology (p. 404)

Department of Marketing

- Bachelor of Arts in Tourism & Hospitality Management (p. 412)

Department of Public Administration

- Bachelor of Arts in Public Service (p. 418)

James R. Watson & Judy Rodriguez Watson College of Education

Department of Educational Leadership & Technology

- Bachelor of Arts in Career & Technical Studies (p. 432)
- Bachelor of Science in Career & Technical Studies (p. 432)

Minors

A minor is a formal aggregate of courses in a designated subject area **distinct from and outside of** the declared major. In other words, the minor is a pattern of courses similar to but less comprehensive than the major. The number of units required for a minor varies with each department - requirements are listed in each department's section of the catalog. Minors can only be granted for the same term in which the student graduates with an undergraduate degree. Minors will **not** be automatically dropped if the requirements have not been fulfilled by the term for which the student's graduation is posted. A minor is posted to the official transcript but does not appear on the diploma.

All minors require a 2.00-grade point average, a minimum of nine (9) units of the coursework required for the minor must be completed through regular enrollment at CSUSB, and six (6) units of the coursework required must be upper-division (3000-5999). Some minors require a higher minimum - check with the department for requirements.

Undergraduate students may submit a minor request through their myCoyote (<https://my.csusb.edu>) Student Center. If the requested minor is in the same department as the major, the department chair's approval will be required.

College of Arts & Letters

- Minor in Asian Studies (p. 165)
- Minor in Disability Studies (p. 165)

- Minor in Entrepreneurship in the Arts (p. 166)
- Minor in Immersive Storytelling, Design, & Innovative Marketing Communication (p. 168)
- Minor in Latin American Studies (p. 166)

Department of Art & Design

- Minor in Animation & Illustration (p. 179)
- Minor in Art History (p. 179)
- Minor in Digital Arts (p. 179)
- Minor in Studio Art (p. 179)
- Minor in Video and Photography (p. 180)

Department of Communication & Media

- Minor in Communication (p. 189)
- Minor in Digital Filmmaking (p. 188)
- Minor in Film Studies (p. 189)
- Minor in Media Studies (p. 188)
- Minor in Relational & Organizational Communication (p. 190)
- Minor in Strategic Communication (p. 190)

Department of English

- Minor in Border Studies (p. 200)
- Minor in Creative Writing (p. 201)
- Minor in English (p. 201)
- Minor in English Teacher Preparation (p. 203)
- Minor in Linguistics (p. 203)
- Minor in Multimedia Storytelling (p. 203)
- Minor in Speech-Language Pathology (p. 204)

Department of Music

- Minor in Alternative Styles of Music (p. 214)
- Minor in Music (p. 215)
- Minor in Music Technology (p. 215)

Department of Philosophy

- Minor in Applied Ontology (p. 218)
- Minor in Law and Philosophy (p. 218)
- Minor in Philosophical Logic (p. 219)
- Minor in Philosophy (p. 219)

Department of Theatre Arts

- Minor in Dance (p. 223)
- Minor in Theatre Arts (p. 224)

Department of World Languages & Literatures

- Minor in Arabic (p. 230)
- Minor in French (p. 231)
- Minor in Japanese (p. 231)
- Minor in Spanish (p. 231)
- Minor in World Literatures (p. 232)

College of Natural Science

- Minor in Entrepreneurship in the Sciences (p. 244)

Department of Biology

- Minor in Biology (p. 248)

Department of Chemistry and Biochemistry

- Minor in Chemistry (p. 255)

Department of Geological Sciences

- Minor in Geology (p. 263)

Department of Kinesiology

Certificates

The university offers a variety of programs leading to a certificate of competency in special areas. Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to impart specified professional/vocational/career competencies, or produce mastery of the content of a sub-field of an academic major (discipline), or provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Courses offered for the certificate may be the same ones used to satisfy major, minor, credential or general education requirements. In order to qualify for a certificate, undergraduate candidates must earn a grade point average of 2.0 ("C") or better in applicable course work. Post-baccalaureate candidates must earn a grade point average of 2.5. Standards for individual programs may exceed this minimum. Candidates must also receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

The certificate is awarded upon confirmation that the requirements for that program have been satisfied. The candidate is responsible for filing an application with the Office of the Registrar for granting of the certificate, no later than the last term of certificate-applicable study, and for notifying the coordinator of the certificate program of completion of required course work. The awarding of a certificate will be noted on the student's transcript.

Further information regarding the certificates offered by the university can be found under the appropriate department. Jump to the post-baccalaureate certificates (p.) at the bottom

Programs

ROTC

Air Force Reserve Officer Training Corps (AFROTC) is a nationwide program that allows students to earn a commission as an officer in the United States Air Force (USAF) or Space Force (USSF) while simultaneously attending college. AFROTC consists of four years of Aerospace Studies classes covering the Foundations of the USAF, the Evolution of USAF and Space Power, Air Force Leadership Studies, and National Security Affairs/Preparation for Active Duty. Students will also attend a corresponding Leadership Laboratory each semester focusing on leadership skills, effective communication, physical fitness, and military customs and courtesies. College students enrolled in the AFROTC program who successfully complete both AFROTC training and college degree requirements will graduate and simultaneously commission as Second Lieutenants in the Active Duty USAF or USSF. Classes are offered at California State University, San Bernardino; however, students at many other area universities may enroll using our crosstown agreement. All eligible crosstown universities along with AFROTC program information can be found at Air Force ROTC at CSUSB (<https://www.csusb.edu/afrotc/>). For questions contact the

Aerospace Studies Department, FO-144, (909) 537-5440. AFROTC course descriptions (p. 518) are listed in the Courses A-Z section of this bulletin. Program details are listed under the College of Social and Behavioral Sciences Programs (p. 319).

The **Army ROTC** is a two or four year program which leads to a commission in the U.S. Army and trains students for positions of responsibility in the active Army, Army Reserve, or National Guard. The university has the only ROTC program in San Bernardino and Riverside counties. Scholarships, simultaneous enrollment in the National Guard or Army Reserve, specialized summer training, and other challenging activities are some of the benefits of the program. Students may attend ROTC classes on this campus, and attend any of the other two- or four-year colleges in the area. For more information about Army ROTC at CSUSB (<https://www.csusb.edu/army-rotc/>), contact the ROTC Office, FO-124 and 125, (909) 537-5533. Army ROTC course descriptions (p. 718) are listed in the Courses A-Z section of this bulletin. Program details are listed under the College of Social and Behavioral Sciences Programs (p. 320).

Graduate Degrees & Programs

Office of Graduate Studies

College of Education, Room 356
 (909) 537-5058 Graduate Studies website (<http://gradstudies.csusb.edu>)
 Caroline Vickers, Associate Dean

Post-baccalaureate students are those who already hold a bachelor's degree and wish to continue their studies; they may be pursuing a certificate, credential, second bachelor's, master's, or doctorate degree. At CSUSB, post-baccalaureate students can choose from more than 40 master's degree programs and concentrations, as well as a wide range of credential and certificate programs. CSUSB is also one of the few California State University campuses to offer a doctoral program in Educational Leadership. As the university grows, its nationally accredited graduate programs continue to gain recognition and garner awards. Most classes are offered at convenient hours for working students. Financial assistance for research and travel is available, as well as grants, loans, and fellowships aimed at supporting doctoral aspirations and creating a more diverse university faculty.

The Office of Graduate Studies encourages graduate education and works to create programs of quality that respond to the needs of students and of the university's service area. Additionally, the office administers the M.A. in Interdisciplinary Studies, and is responsible for the following functions for all graduate programs:

- Waiver petitions for the seven-year limit for course work, the 12 quarter unit/9 semester unit limit for classification, and leaves of absence
- Petitions by all unclassified post-baccalaureate students
- The Graduate Equity Fellowship Program
- The California Pre-Doctoral Program
- The Chancellor's Doctoral Incentive Program
- Thesis, project, and dissertation final acceptance and publication
- Graduate admission

Graduate programs (p. 76) at the university are designed to serve a variety of needs. Some students pursue an advanced degree or a credential program in a professional area to enhance their career mobility; others, to expand their knowledge and understanding and to pursue research in a chosen discipline. The university welcomes both part-time and full-time students. Some programs are available in hybrid or online format. Detailed requirements of each program are listed by department and/or degree in the Graduate Degrees section of this catalog.

Graduate Degree and Program Requirements

Program Notices

Doctorate in Educational Leadership

Students pursuing a doctorate degree in the Educational Leadership program should contact the Office of Doctoral Studies at (909) 537-5651 for information on program requirements.

Master of Science in Physician Assistant

The developing Master of Science in Physician Assistant (MSPA) program was evaluated by the Accreditation Review Commission on Education for the Physician Assistant (ARC-PA) during their March 2025 ARC-PA meeting. Please visit <https://www.csusb.edu/mspa/about-mspa-program/accreditation-status> (<https://www.csusb.edu/mspa/about-mspa-program/accreditation-status/>) to see the program's current accreditation status and <https://www.csusb.edu/mspa/admissions> (<https://www.csusb.edu/mspa/admissions/>) to learn how to apply.

Graduate Program Standards

The following standards apply to all master's degree approved graduate programs (unless noted above):

1. The program must include at least 30 semester units of upper-division and graduate course work (i.e., courses numbered 3000-7999) taken while in post baccalaureate standing. At least 70% of this work must be in courses organized primarily for graduate students (courses numbered 5000-6999). Students enrolled in Coyote Accelerated Postbaccalaureate Education programs may take up to 12 units of graduate-level coursework while in undergraduate status, and these 12 units can count toward both the undergraduate and graduate degree.
2. Graduate Residency Requirement
 - a. At least 21 of 30 semester units must be taken in residence on this campus or proportionally more for programs that exceed 30 semester units.
 - b. No more than 9 units from Open University work for the requirement of a 30-unit semester program and proportionally more for programs that exceed 30 semester units may be used toward the graduate degree (e.g., a maximum of 18 semester units may be used in meeting the requirement of a 60-unit semester program if accepted by the program).
 - c. A maximum of 25% of of units towards the degree may be awarded by credit by assessment.
 - d. All units of a completed CSUSB graduate certificate are transferable to a master's degree with approval from the department and Dean of Graduate Studies.
 - e. Summer Semester academic units taken at CSUSB are counted as residence credit.
3. Except for students with coursework from accredited graduate social work programs, the program may not include more than 30% total program units in extension and transfer credit from other colleges.
4. California State University, San Bernardino will not consider for transfer credit course work from an institution which will not accept that work in its own advanced degree program.
5. The program must follow the department curriculum in effect at the time the student is officially admitted (classified) in the major

program or at the time the program is filed with the program graduate coordinator. Recommendations for any substitutions to the program must be approved in writing by the program coordinator and attached to the program.

6. All courses taken to satisfy the requirements for the degree must be completed with a minimum grade point average of 3.0 ("B") or better, except that a course in which no letter grade is assigned shall not be used in computing the grade point average.
7. The program must include only courses with grades of "C" (2.0) or better. (Grades of "C-" (1.7) or less cannot be used.)
8. The program may not include more than 9 semester units of work taken in unclassified status or before classified status was attained.
9. The program must be completed within a seven-year period. No more than seven years may elapse between the time of registration for the earliest course listed on the program and the completion of all requirements for the degree. Some programs must be completed within a four- or five-year period. (See specific program requirements.)
10. Courses numbered 1000 to 2999 and in the X1000 to X9999 series cannot be applied toward a master's degree. Courses taken to satisfy quantitative or qualitative deficiencies cannot be applied toward a master's degree.
11. A course taken at another college with a grade such as CR, S, or P cannot be accepted on a master's degree study plan unless such a course with such a grade is accepted by that college or university toward a graduate degree.
12. No units used to obtain a previously awarded degree may be used toward the graduate degree except if they are part of an approved curriculum in a blended program such as the Coyote Accelerated Post-baccalaureate Education (CAPE) program.

Advancement to Candidacy

To advance to candidacy, students and their graduate coordinators should complete a program plan after the student has taken at least 12 semester units but no later than the semester before graduation. Note that the program plan is typically completed through the MyCap, though some programs may have alternate means of completing program plans. Once the program plan is accepted and approved by the student's graduate coordinator, the graduate coordinator will advance the student to candidacy in the "Master's Approved Program Plan" section of the PAWS. When this process is completed, the student is officially advanced to candidacy.

Standards for Graduate Study

In general, graduate study deals with more complex ideas and demands more sophisticated techniques, searching analysis and creative thinking than undergraduate study. Extensive research is required in both primary and secondary sources, and high-quality writing is expected. The student is advised to consider these factors when deciding the amount of course work to be undertaken during any one semester. Post-baccalaureate students will be held to all prerequisites for all courses.

All students are required to maintain a 3.0 ("B") grade-point average in all courses taken to satisfy the requirements for the degree, except that a course in which no letter grade is assigned shall not be used in computing the grade point average. Students should check with their program for program-specific requirements.

Basic teaching credentials, single or multiple subject, accept no grade lower than a "B-" in all work attempted with the exception of the designated subjects credential which requires a 2.5 grade point average

in all work. Students should check with their program for program-specific requirements.

Academic Notice. Failure to maintain the appropriate grade point average will result in the student's being placed on academic notice. Students on academic notice must rectify their grade point deficiencies by the end of the semester of notification of academic notice status; students who do not raise their GPA may be subject to disqualification. To apply for reinstatement to a graduate degree or credential program after disqualification, the student must petition the appropriate program graduate committee.

A student who has been disqualified from a master's degree program may be admitted to another program only on the recommendation of the department to which the student has applied and with the approval of the Dean of Graduate Studies.

Nursing students seeking a second bachelor's degree must maintain a 2.5 grade point average in all work attempted. Students in this category who are dismissed from the university for failure to maintain these standards must petition the Dean of Graduate Studies for readmission to the university.

Administrative Academic Disqualification

A graduate student may also be placed on academic notice or may be disqualified by appropriate campus authorities for unsatisfactory scholastic progress regardless of cumulative grade point average or progress in the program. Such action shall be limited to those arising from repeated withdrawal, failure to progress toward an educational objective and noncompliance with an academic requirement and shall be consistent with guidelines issued by the chancellor.

Retroactive Withdrawal

Requests for withdrawal from a course(s) following the close of the term (retroactive withdrawal) will be considered only for: accident or illness (physical or mental), serious personal or family problems, or military transfer. Documentation is required. In addition, extenuating circumstances must be shown to have prevented withdrawal in a timelier fashion. Partial withdrawal of grades during a term is not permissible for any reason. All courses must be withdrawn and will be noted with a "W" on the official transcript. Lack of awareness of the withdrawal procedures is not an extenuating circumstance.

Employment-related reasons are not acceptable.

Requests by graduate students, unclassified post baccalaureate and credential candidates must be made in writing to the Dean of Graduate Studies, CE-356. Contact the Office of Graduate Studies for the appropriate form at gradstud@csusb.edu. Documentation is required.

Full Time Academic Load

Full time academic status for a post-baccalaureate or graduate student is six units of 5000 through 7000-level courses, following the unit loads used for veteran certification (see Enrollment Verification).

Course Overloads: To enroll in more than 15 units in any one semester, a student must have approval of the graduate coordinator of his/her graduate program. Course Overload Permit Cards are available at the Office of the Registrar Information Center, UH-171 and from the department office. Additional units may be added once "Late Registration" begins, if classes remain open and the overload is approved. Students who must work to support themselves, who have time-consuming family

responsibilities, who commute long distances, or who are in other difficult circumstances should, in conjunction with their advisors, weigh these factors and alter their course loads accordingly. Financial aid recipients should consult the Financial Aid Office for their definition of eligibility.

Late Registration

The dates of late registration each term will be announced in the *Class Schedule*. The Academic Calendar (p. 26) lists registration dates. Late registrants may find themselves handicapped in arranging their programs due to closed classes. A \$25 late registration fee is required.

Adding Classes

During the Open Enrollment and Schedule Adjustment period (see *Class Schedule* for specific dates) students may add classes by following the Registration Instructions detailed in the *Class Schedule*. It is important to note that students who add a class or classes after the first scheduled class session may find themselves at a distinct disadvantage in terms of doing well in the class(es). Students should also be aware that they are responsible for any material they may have missed as a result of adding after the first day.

Grade/Grievance/Complaint Procedures

Student Affairs website (<https://www.csusb.edu/registrar/records/grade-grievance/>)

Information concerning academic or nonacademic matters may be obtained from the Office of Graduate Studies. Generally, a grade grievance must be initiated by the student within no more than 40 calendar days after the grade is recorded. The complete policy statement is available from the Office of Graduate Studies, CE-356.

Information concerning non-academic grievances and discrimination complaints against the university and its employees by a student may be obtained from the Office of the Vice President for Student Affairs, UH-231, the Women's Resource Center, the Adult Re-Entry Center, the Cross-Cultural Center, Vice Presidents' offices, and College Deans' offices. A grievance or complaint must be filed within no more than 40 calendar days after the student learned or reasonably should have learned of the occurrence of the grievance/complaint event.

Election of Graduation Requirements

A student remaining in continuous attendance in regular sessions and continuing in the same graduate curriculum in the university may, for the purposes of meeting graduation requirements, elect to meet

1. those requirements in effect at the time the student is admitted into a formal graduate program and enters the curriculum, or
2. those requirements in effect at the time of graduation from the university.

Substitutions for discontinued courses may be authorized or required by the department or college graduate committee and by the graduate program coordinator.

Changing Master's Degree Programs and Concentrations

Each master's program and/or concentration may have its own professional, personal, scholastic, and other standards for graduate study, including qualifying examinations. All graduate students desiring

to change (or add) a master's, concentration or credential program must submit either a Graduate Change of Program form or a new application on CSU Apply. Please contact the Office of Graduate Studies, CE-356 for information regarding changing or adding a specific graduate program.

Two Master's Degrees

Students who wish to secure two different master's degrees may do so if the program allows it. At the discretion of the program, credits from one master's degree may be applicable to a second master's degree up to the maximum number of transfer units allowed within each program. In no case shall a student be awarded a given master's degree more than once. Students interested in obtaining two master's degrees should contact Graduate Studies at gradstud@csusb.edu.

Culminating Experience: Examination, Thesis, or Project

Comprehensive Examinations. Each program that offers the comprehensive examination for the master's degree shall implement and maintain in writing explicit guidelines that address both content and procedures relating to the examination. All comprehensive examinations must conform to the following requirement of Title 5, i.e., "A comprehensive examination is an assessment of the student's ability to integrate the knowledge of the area, show critical and independent thinking, and demonstrate mastery of the subject matter. The results of the examination provide evidence of independent thinking, appropriate organization, critical analysis, and accuracy of documentation. A record of the examination questions and responses shall be maintained in accordance with the records retention policy of the California State University."

Students must fulfill all department/division requirements for the written and/or oral comprehensive examinations. Such requirements include, but are not limited to, the date and time for the comprehensive examinations, length of testing, topics covered, and the number of questions for the comprehensive examinations.

Students whose program requires a comprehensive examination must declare to their major department/division, at least one semester in advance, their intent to take it, obtain department/division permission, and register for the appropriate comprehensive examination course in their major discipline. Students must consult with their program advisor regarding specific requirements for the comprehensive examination. Those who do not pass the comprehensive examination must fulfill any department, division, and/or college requirements for subsequent enrollments in these examinations.

Continuous Enrollment (Comprehensive Exam). Students who have completed all course work and are preparing for the comprehensive examination must remain in continuous enrollment until their degree is granted. To maintain continuous enrollment, students must register each term for the appropriate continuous enrollment course (Continuous Enrollment for Graduate Candidacy Standing) in their major discipline.

Thesis, Project, and Dissertation Requirements. Students who choose to write a thesis, project, or dissertation as their culminating experience work with a thesis, project, or dissertation committee to meet the specific requirements for their program. For document formatting requirements and archiving procedures, students should consult *A Guide to Thesis, Project, and Dissertation Format* available online on the Graduate Studies website.

Continuous Enrollment (Thesis and Project). Students who have completed all course work and are working on the thesis/project must register for the thesis or project course required in their major discipline for the master's degree. **IMPORTANT NOTE:** Students register **ONLY ONE TIME** for the thesis/project course. If the thesis/project is not completed in the semester in which the student first registered for the thesis/project course, then the student will receive a grade of RP (Report in Progress) for the course for that semester. The RP grade in the course remains until the thesis/project is completed and approved by the student's thesis/project advisor and the Dean of Graduate Studies, at which time the student's professor will submit a "Change of Grade" form, replacing the RP grade with a letter grade.

In addition, students who have completed all course work and are enrolled in a thesis/project course must also register every semester for one of the 6990-6996 courses (Continuous Enrollment for Graduate Candidacy Standing (<https://www.csusb.edu/pace/courses-programs/education/continuous-enrollment-graduate-candidacy-standing/>)) in their major discipline until their degree is granted. Earned units are not degree-applicable nor will they qualify for financial aid. This is a variable unit course, see the fee schedule.

Students in the doctoral program will follow their program's procedures for continuous enrollment.

Once officially accepted and processed, master's theses and projects are made available to the public through CSUSB ScholarWorks.

Graduation Requirement Check

Degree candidates must submit an online Graduation Requirement Check (Grad Check) via myCoyote at least one term prior to the end of the term of their expected graduation. Graduate students must request a Grad Check at least one term prior to their expected graduation and have been advanced to candidacy in order to submit an online Grad Check via myCoyote.

Students not completing their degree in the term applied for will need to refile and pay for the later term. Access to registration for terms subsequent to the stated graduation term will not be granted until the graduation check is refiled.

Commencement

Special Events and Guest Services- Commencement Office
(909) 537-7360

Participation in commencement activities is voluntary.

For dates and deadlines, please visit commencement.csusb.edu (<http://commencement.csusb.edu/>).

Master's and Doctoral Students

To participate in commencement, candidates completing a master's or doctoral degree must file a grad check AND meet the eligibility requirements specified by their program. For the specific requirements, candidates should consult their program coordinator.

Credential Students

Students who complete a Multiple Subject, Single Subject, Education Specialist Basic credential, Pupil Personnel Services, or Designated Subjects credential can participate in a Credential Recognition Ceremony rather than commencement. The Credential Recognition Ceremony on

the San Bernardino campus will be held in May. Specific information can be obtained from the College of Education, Student Services Office, CE-102, (909) 537-5609. The Credential Recognition Ceremony on the Palm Desert Campus will be held in May at PDC. Specific information can be obtained from the Palm Desert Campus College of Education Office at (760) 341-2883.

Change in Approved Graduate Program

If during graduate study a master's candidate wishes to change the approved program by adding or removing a course, this may be done under certain circumstances. A request for such a change must be initiated by the student and approved by the graduate coordinator.

Credit by Assessment

Students interested in seeking credit by assessment for prior learning through demonstrated learning, knowledge, or skills acquired through experience must first petition the department chair and instructor for the course for which they are seeking credit to determine if their prior learning experiences align with CSUSB course objectives and degree requirements. Upon approval of the course instructor and department chair, the student must petition the Dean of Graduate Studies. Graduate students shall complete three units in residence before academic credit can be earned by assessment. Department faculty are responsible for evaluating the appropriateness of student requests for credit by assessment. No instructor or department is obligated to offer credit by assessment.

Students may not enroll in a course they plan to challenge and must complete credit by assessment through the office of the college or department concerned before the first day of classes of the term in which the course is offered. Some presumptive evidence is required to indicate that the student has a reasonable chance of passing the assessment. Those students who are unsuccessful in challenging may add the course subject to the regulations for adding a class printed in the *Class Schedule*. A student who passes an assessment is given the grade of CR for that course. No official record is made of failures in these assessments. A fee may be charged for these assessments, and they are available only to currently enrolled students.

Phi Kappa Phi

Academic Affairs Office, AD-101
(909) 537-5024 Phi Kappa Phi website (<http://pkp.csusb.edu>)

The university has an active chapter of the national honor society of Phi Kappa Phi, whose purpose is the recognition and encouragement of superior scholarship in all academic disciplines. Membership is by invitation issued to selected juniors, seniors and graduate students who have excelled in scholarship and who meet the chapter's requirements. Graduating seniors who are members of Phi Kappa Phi have an opportunity to apply for a Fellowship from the national office to be used towards the first year of graduate study.

Graduate Council

Elected faculty from each college, one graduate student, the Dean of Graduate Studies and the Faculty Senate Chair make up the Graduate Council, which is a Faculty Senate committee. This group discusses all issues of policy and practice related to graduate study at the university.

The Coyote Graduate Student Guidebook

The *Coyote Graduate Student Guidebook* is updated annually by the Office of Graduate Studies with information relevant for graduate students. It is available on the Graduate Studies website.

Concurrent Enrollment

A graduate student enrolled at the university may enroll concurrently for additional courses at another institution only with advance written approval from the graduate program coordinator and the Associate Dean of Graduate Studies. Ordinarily, permission will not be granted when the study load in the proposed combined program exceeds 12 semester units.

Post Baccalaureate Credit for Senior Students

Senior students who need fewer than 12 semester units to graduate may be permitted to enroll for post-baccalaureate credit during the final term of their senior year. Post baccalaureate credit is used to signify courses taken after the baccalaureate degree, but does not necessarily mean graduate credit, i.e., credit applicable toward an advanced degree. Only 4000- to 6000-level courses will be considered. A petition for this purpose is available in the Office of the Registrar. Note: Some 5000- and 6000-level courses require prerequisites and are open only to students classified in a master's program.

Repeat of Course (Discount of Grade)

Classified and conditionally classified graduate students may be permitted to repeat one course at CSUSB that was taken for graduate credit (i.e. that is applied towards a master's degree) one time only by petition to and approval of the college or department graduate committee. The petition requesting this permission includes an automatic request to discount the first attempt. When approved, the original course grade on the student's permanent record will be discounted. Only the second grade earned shall apply to the student's cumulative post-baccalaureate grade point average. The first attempt will show on the transcript with the repeat (discount) noted.

Classified and conditionally classified graduate students may be permitted to repeat a course taken as an undergraduate once with approval of the advisor and only to remove a deficiency. A subsequent repeat must be approved by the college or department graduate committee. In no case shall such credit be counted toward the units required for a master's degree. The second grade earned shall apply toward the student's cumulative post baccalaureate grade point average and shall not replace the grade in the undergraduate record. Subsequent repeats of course will be averaged.

Classified post baccalaureate students (for example, students officially admitted to teaching credential programs) may be permitted to repeat a course taken as an undergraduate only by petition to and approval of the appropriate college or department committee and the grade earned shall not replace the grade in the undergraduate record. Courses taken for post baccalaureate credit may be repeated at CSUSB only by petition to and approval of the appropriate college or department committee. In both cases the second grade earned shall apply to the student's cumulative post baccalaureate grade point average. Subsequent repeats of course will be averaged. A petition, available through the Office of Graduate Studies, CE 356, (909) 537-5058, must be filed and approved.

Leave of Absence

Degree and credential seeking students who plan to be absent from the university must file a leave of absence to preserve their current catalog rights (Title 5, Article 5, See. 40401). A petition, available through the Office of Graduate Studies, CE 356, (909) 537-5058, must be filed and approved. The petition is also available on the Forms page of the Graduate Studies website (<https://www.csusb.edu/graduate-studies/forms/>).

The leave of absence policy covers both involuntary and voluntary interruptions. In most instances, with an approved leave of absence, a student may be absent from the campus without losing their rights to specific degree requirements under an earlier catalog.

Petitions for leaves of absence should be filed in advance of the interruption in enrollment. Each leave commences with the first regular semester of non-attendance. Medical and military leaves may be considered retroactively if supported by individual circumstances, but those leaves must be filed no later than census date of the first regular semester of non-attendance. Personal and planned educational leaves cannot be retroactive since they constitute an agreement or "contract" which must be set in advance. The maximum duration for any leave is two calendar years.

Leaves of absence will not be approved for students subject to disqualification or dismissal due to academic deficiencies or disciplinary action.

Other students ineligible for leaves of absence are those who are not completing any degree applicable course work, those who are enrolling only in extension courses, those who are only auditing courses, and those who have not yet completed the first semester of their current program.

Students who do not return to CSU, San Bernardino at the conclusion of their planned leaves and those who enroll elsewhere without permission of the Office of the Registrar will be considered to have withdrawn from the university at the end of their last semester of regular enrollment.

International students must submit a copy of the leave of absence petition to the Center for International Studies and Programs (CISP), CE-356. Visa students must be registered as full-time students except, when after one semester of regular enrollment they decide to take a semester off. All leave of absence periods must be approved by CISP prior to taking the leave in order to report the students properly to the Bureau of Citizenship and Immigration Services (BCIS). As a general rule, visa students must go back to their home country when applying for a leave of absence, as their primary goal in the U.S. is to obtain an academic degree.

The following Leaves of Absence may be requested:

Medical Leave of Absence

Requests must be accompanied by a statement from a medical doctor explaining why the student must interrupt enrollment. Exceptions to the two-year limit may be granted under extenuating circumstances.

Military Leave of Absence

CSUSB supports students called to active duty in the U.S. Military. The Military Leave Policy and forms are available from the Veterans Success Center (<https://www.csusb.edu/veterans/>).

Personal and Planned Educational Leaves of Absence

These leaves are defined as a planned interruption or pause in a student's regular education during which the student temporarily ceases formal studies at CSU, San Bernardino. The student must plan to return to CSU, San Bernardino at the end of the leave. Such activities may be for the purpose of clarifying or enriching educational goals or to allow time to address personal matters and thus enhance the prospect of successful completion of the student's academic program.

Since students usually maintain their catalog rights, courses completed at other institutions must have received prior approval in order to be transferred back to CSU, San Bernardino. Therefore, a student must also file a concurrent enrollment form with the Office of Graduate Studies to obtain that approval. Failure to file a concurrent enrollment form may result in coursework not being accepted and revised major requirements being required.

Returning from Approved Leave of Absence

When students return from their leave earlier than planned, a readmission form, available through the Office of the Registrar, UH-171, (909) 537-5200, must be submitted within the filing period for the semester of return. No application fee will be assessed for leaves of absence that meet the terms of the leave agreement.

Transcripts

Applicants must furnish unofficial transcripts from each college or university attended. The following unofficial transcripts will be required to determine eligibility:

- Transcripts with earned degree posted
- Transcripts where coursework was completed that counted toward earned degree(s)
- Transcripts with any post-baccalaureate level coursework taken
- Transcript from the last institution attended

A separate transcript from each college or university is required even though one transcript may show work taken at another institution. CSUSB graduates do not need to furnish a CSUSB transcript. Some credential and master's programs may require more than one transcript from each institution. Check with the program for application requirements.

Applicants who are officially admitted to CSUSB are required to submit official transcripts to the Office of Graduate Studies in order to secure their enrollment for the following term.

Admission from Nonaccredited Schools

Graduates of nonaccredited schools who give evidence of unusual promise and superior background may petition the Dean of Graduate Studies for admission as unclassified post baccalaureate students. Such students who wish to enter a specific graduate program must then petition the appropriate school or department for admission to conditionally classified graduate status. Requirements for admission to conditionally classified status shall be determined by the concerned department and approved by the Dean of Graduate Studies.

Limitations of Enrollment

Entrance of post baccalaureate students to any program may be subject to limitations (i.e., each master's degree or credential program may restrict enrollment whenever limitations of facilities and/or staff warrant).

Enrollment Verification

Student enrollment certification is based on the following minimum unit loads for graduate students:

Full Time Master's Student	6 units of graduate-level coursework
Half Time Master's Student	3 units of graduate-level coursework
Full Time Credential Student	12 units
Half Time Credential Student	6 units
Full Time 2nd BA and Certificate Student	12 units
Half Time 2nd BA and Certificate Student	6 units

Veterans Enrollment Certification

California State University, San Bernardino, is approved for the training of veterans of the military services and their dependents under educational assistance programs, established by the state and federal governments. Applications for educational benefits may be obtained directly from the veterans certification clerk. Student enrollment certification is based on the following unit loads:

Full Time Master's Student	6 units of graduate level coursework
Half Time Master's Student	3 units of graduate level coursework
Full Time Credential Student	12 units
Half Time Credential Student	6 units
Full Time 2nd BA and Certificate Student	12 units
Half Time 2nd BA and Certificate Student	6 units

The university will certify course loads to the Veterans Administration based on the criteria above for units which are degree or objective applicable. Veterans enrolled less than half time are eligible for reimbursement of tuition and fees only.

Independent study and self-paced courses will be certified for monthly educational benefits as regular residence courses.

Graduate Degrees

College of Arts & Letters

Department of Art

- Master of Arts in Art (p. 170)
- Master of Fine Arts in Studio Art (p. 172)

Department of Communication & Media

- Master of Arts in Communication Studies (p. 183)

Department of English

- Master of Arts in English & Writing Studies (p. 193)
- Master of Arts in Speech-Language Pathology (p. 196)

Department of World Languages & Literatures

- Master of Arts in Spanish (p. 226)

College of Education

Department of Educational Leadership & Technology

- Master of Arts Career & Technical Education (p. 428)
- Master of Arts in Instructional Design & Technology (p. 430)
- Master of Arts in Educational Administration (p. 429)
- Doctor of Education in Educational Leadership, Community College Specialization (p. 423)
- Doctor of Education in Educational Leadership, PK-12 Specialization (p. 426)

Department of Special Education, Rehabilitation & Counseling

- Master of Arts in Rehabilitation Counseling (p. 439)
- Master of Science in Counseling (p. 440)
- Master of Science in Special Education (p. 442)
- Education Specialist Degree in School Psychology (p. 438)

Department of Teacher Education & Foundations

- Master of Arts in Education (p. 458)
- Master of Arts in Reading and Literacy Education (p. 459) (*suspended*)
- Master of Arts in STEM Education (p. 460)
- Master of Arts in Teaching English to Speakers of Other Languages (TESOL) (p. 462)

College of Global & Extended Education

Department of Professional and Continuing Education

- Master of Science in Physician Assistant (p. 479)

College of Natural Sciences

- Master of Science in Materials Science (p. 241)

Department of Biology

- Master of Science in Biology (p. 245)

Department of Chemistry & Biochemistry

- Master of Science in Environmental Sciences (p. 250)

Department of Geological Sciences

- Master of Science in Geology (p. 259)
- Master of Science in Environmental Sciences (p. 250)

Department of Health Science & Human Ecology

- Master of Public Health (p. 265)
- Master of Science in Health Services Administration (p. 266)
- Master of Science in Nutrition Science (p. 268)

Department of Mathematics

- Master of Arts in Mathematics (p. 282)
- Master of Arts in Teaching Mathematics (p. 284)

Department of Nursing

- Master of Science in Nursing (p. 291)

School of Computer Science & Engineering

- Master of Science in Applied Data Science (p. 301)
- Master of Science in Computer Science (p. 302)

College of Social & Behavioral Sciences

- Master of Arts in National Security Studies (p. 310)
- Master of Science in National Cyber Security Studies (p. 313)
- Master of Arts in Social Sciences & Globalization (p. 311)

Department of Anthropology

- Master of Arts in Applied Archaeology (p. 322)

Department of Child, Adolescent, & Family Studies

- Master of Arts in Child Development (p. 326)

Department of Criminal Justice

- Master of Arts in Criminal Justice (p. 372)

Department of History

- Master of Arts in History (p. 345)

Department of Psychology

- Master of Arts in Psychological Science (p. 361)
- Master of Science in (p. 362) Clinical/Counseling Psychology (p. 362)
- Master of Science in Industrial & Organizational Psychology (p. 364)

Department of Social Work

- Master of Social Work (p. 378)
- Master of Social Work & Master of Public Administration Concurrent Degrees (p. 383)

Jack H. Brown College of Business & Public Administration

- Master of Business Administration (p. 387)

Department of Accounting & Finance

- Master of Science in Accountancy (p. 397)
- Master of Science in Finance (p. 399) (offered through the College of Extended & Global Education (<https://www.csusb.edu/pace/>))

Department of Information & Decision Sciences

- Master of Science in Information Systems Technology (p. 403)
- Master of Science in Business & Data Analytics (p. 477) (offered through the College of Extended & Global Education (<https://www.csusb.edu/pace/>))
- Master of Science in Cybersecurity (p. 477) (offered through the College of Extended & Global Education (<https://www.csusb.edu/pace/>))
- Master of Science in Logistics & E-Commerce (p. 478) (offered through the College of Extended and Global Education (<https://www.csusb.edu/pace/>))

Department of Management

- Master of Science in Human Resource Management (p. 410)

Department of Public Administration

- Master of Public Administration (p. 415)
- Master of Social Work and Master of Public Administration Concurrent Degrees (p. 383)

School of Entrepreneurship

- Master of Science in Entrepreneurship & Innovation (p. 420)

Graduate Studies

- Master of Arts in Interdisciplinary Studies (p. 85)

Certificates

The university offers a variety of programs leading to a certificate of competency in special areas. Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to impart specified professional/vocational/career competencies, or produce mastery of the content of a sub-field of an academic major (discipline), or provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Courses offered for the certificate may be the same ones used to satisfy major, minor, credential or general education requirements. In order to qualify for a certificate, undergraduate candidates must earn a grade point average of 2.0 ("C") or better in applicable course work. Post-baccalaureate candidates must earn a grade point average of 2.5. Standards for individual programs may exceed this minimum. Candidates must also receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

The certificate is awarded upon confirmation that the requirements for that program have been satisfied. The candidate is responsible for filing an application with the Office of the Registrar for granting of the certificate, no later than the last term of certificate-applicable study, and for notifying the coordinator of the certificate program of completion of required course work. The awarding of a certificate will be noted on the student's transcript.

Further information regarding the certificates offered by the university can be found under the appropriate department. Jump to the post-baccalaureate certificates (p.) at the bottom

College of Arts & Letters

- Certificate in Arts & Entrepreneurship (p. 180)
- Certificate in Asian Studies (p. 168)
- Certificate in Immersive Storytelling, Design, & Innovative Marketing Communication (p. 168)

Department of Art & Design

- Certificate in Art & Restorative Justice (p. 181)

Department of Communication & Media

- Certificate in Social Media Entrepreneurship & Innovation (p. 190)

Department of English

- Certificate in Creative Writing (p. 204)
- Certificate in Public & Professional Writing (p. 206)
- Graduate Certificate in Speech-Language Pathology Master's Preparatory (p. 205)
- Graduate Certificate in Teaching English as a Second Language (p. 205)
- Graduate Certificate in Teaching Writing (p. 206)

Department of World Languages & Literatures

- Certificate in Arabic (p. 233)
- Certificate in California Indian Languages & Cultures (p. 233)
- Certificate in Criminal Justice Spanish (p. 234)
- Certificate in Healthcare Spanish (p. 235)
- Certificate in Japanese Language & Culture (p. 234)
- Certificate in Spanish for Business Management & Public Administration (p. 235)

College of Natural Science

Department of Biology

- Certificate in Biotechnology (p. 249)

Department of Health Science & Human Ecology

- Certificate in Health Services Administration (p. 273)
- Certificate in Health Equity (p. 272)

Department of Mathematics

- Certificate in Introductory Actuarial Science (p. 288)
- Certificate in Introductory Mathematics (p. 288)

Department of Nursing

- Graduate Certificate in Advanced Community/Public Health Nursing (p. 294)
- Graduate Certificate in Nurse Educator (p. 295)

School of Computer Science and Engineering

- Computer Science for K-12 Educators (p. 307)
- Certificate in Computer Systems and Programming (p. 307)
- Certificate in Mobile Application Development (p. 308)

College of Social & Behavioral Sciences

- Certificate in Native Nations/Indigenous People (p. 319)

Department of Anthropology

- Certificate in Archaeology (p. 325)

Department of Geography & Environmental Studies

- Certificate in Geographic Information Systems (p. 343)

Department of History

- Certificate in Islamic & Middle Eastern Studies (p. 318)
- Certificate in Museum Studies (p. 354)

Department of Political Science

- Certificate in International Relations (p. 358)
- Graduate Certificate in National Cybersecurity Studies (p. 358)

Department of Sociology

- Certificate in Gerontology (<https://www.csusb.edu/sociology/majors-and-programs/gerontology-certificate/>)

School of Criminology & Criminal Justice

Jack H. Brown College of Business & Public Administration

Department of Accounting & Finance

- Certificate in Accounting (p. 402)

Department of Marketing

- Graduate Certificate in Hospitality & Tourism Management (p. 484)

Department of Information & Decision Sciences

- Certificate in Applied ERP (p. 407)
- Certificate in Cyber Security (p. 407)
- Certificate in Cyber Security Professional (p. 408)
- Certificate in Data Science (p. 308)
- Certificate in Information Systems Management (p. 408)
- Certificate in Supply Chain Management (p. 408)
- Graduate Certificate in Applied ERP (p. 407)

James R. Watson & Judy Rodriguez Watson College of Education

Department of Special Education, Rehabilitation & Counseling

- Graduate Certificate in Rehabilitation Counseling (p. 445)

Department of Teacher Education & Foundations

- Certificate in Gender and Sexuality Studies (p. 465)
- Graduate Certificate in E-Learning (p. 434)
- Graduate Certificate in Educational Technology (p. 434)

Credentials

Basic Teaching Credential Programs

Accredited by the National Council for Accreditation of Teacher Education (NCATE)

- Adapted Physical Education Added Authorization (p. 465)
- Designated Subjects Career and Technical Education (p. 436)
- Designated Subject Credential in Adult Education (p. 435)
- Internship Education Specialist Credential: Early Childhood Special Education (p. 445)
- Internship Education Specialist Credential: Mild to Moderate Support Needs (p. 447)
- Internship Education Specialist Credential: Extensive Support Needs (p. 449)
- Multiple Subject (p. 466)
- Preliminary Education Specialist Credential: Early Childhood Special Education (p. 451)
- Preliminary Education Specialist Credential: Mild to Moderate Support Needs (p. 455)
- Preliminary Education Specialist Credential: Extensive Support Needs (p. 453)
- Single Subject - Student Teaching Track (p. 470)
- Single Subject - Intern Track (p. 468)

Specialist and Services Credential Programs

- Administrative Services Preliminary (Internship) (p. 436)
- Administrative Services Professional (p. 435)
- Preliminary Administrative Services (p. 434)
- Pupil Personnel Services Credential: School Psychology (p. 457)
- Supervision and Coordination of Designated Subjects Program (p. 437)

Academic Success and Undergraduate Advising

CALIFORNIA PROMISE PROGRAM

Academic Advising, (909) 537-7345.

The California Promise Program, established by Senate Bill 412, required the California State University (CSU) system to offer pledge programs designed to facilitate first-time students in completing their baccalaureate degree in either two years (Transfer Students) or four years (First Time Freshman).

Students who commit to enter either the Four-Year or the Two-Year Graduation Pledge program will be given a higher registration appointment for each term and will be provided with routine and thorough academic advisement.

The program is limited to students who are residents of California.

CSU, San Bernardino commits to this promise by establishing the Two-Year Graduation Pledge Program and the Four-Year Graduation Pledge Program. To support students in this endeavor, the university pledges to provide a quality educational experience with an academic schedule and degree requirements, which can be completed by students who are willing to devote their time and energy to full-time enrollment.

TWO-YEAR GRADUATION PLEDGE PROGRAM

Who is Eligible?

Entering transfer students who: [Apply by deadline established on Two-Year Graduation Pledge website (<https://www.csusb.edu/advising/programs/two-year-graduation-pledge/>)]

- Transferred to CSUSB with an Associate Degree for Transfer (AA-T or AS-T)
- Have a declared major (approved by academic college)

STUDENT'S OBLIGATION Once Accepted Into the Program:

Students are required to attend a Graduation Pledge orientation session.

- Students **may not** have more than one major declared, as having multiple majors and/or minors will increase the amount of units required and may result in not meeting the two-year graduation deadline.
- Students **may not** have more than one minor declared.
- Students **may not** have more than one concentration declared, including any concentration required for their major.
- Students must complete an average of at least 15 semester units per term (30 semester units per academic year) to reach the minimum of 120 semester units required for a Bachelor of Arts degree in four years. NOTE: Majors that require more than 120 semester units will need to earn more units per year.
- Students are required to create an Education Plan with their major advisor.

- Students must enroll each term at the assigned on-line registration time. Students enrolling late cannot be assured of getting courses needed.
- Maintain a 3.0 CSUSB grade point average after each term.
- Meet regularly with their department academic advisor, follow the agreed upon Education Plan each term.
- Impacted majors must be accepted into their major according to the department's established schedule.
- Take courses at times (day or evening) when they are offered and/or available and in correct sequence. Note: Students who change their major or concentration or who take a leave of absence may not necessarily be able to graduate in four years. Approval from the Graduation Pledge Coordinator is required to change majors and for reinstatement into the Four-Year Graduation Pledge after a leave of absence. If approved, a new, advisor-approved, Education Plan demonstrating four-year graduation MUST be submitted to Academic Advising.
- Demonstrate accountability by complying with all administrative and academic policies and procedures. Non-compliance will result in cancellation of the pledge agreement.
- Students MUST file their Graduation Check no later than the Fall term of their 2nd and final academic year.

What is the University's Pledge?

- California State University, San Bernardino pledges to provide sufficient classes for the Graduation Pledge Program students in order for them to graduate in two years. All Two-Year Graduation Pledge Program students will receive a higher registration appointment date based on their academic standing monitored by the office of Academic Advising. (909) 537-7345. Email: gradpledge@csusb.edu.
- Participants who continue to meet eligibility (see above) must utilize their designated registration appointment and time to ensure timely advancement toward graduation.

FOUR-YEAR GRADUATION PLEDGE PROGRAM

Who is Eligible?

Entering freshmen who: [Apply by deadline established on Four-Year Graduation Pledge website (<https://www.csusb.edu/advising/programs/four-year-graduation-pledge/>)]

- Have declared a major (*and concentration if applicable*).
- Have met all entrance requirements for the major.
- **STUDENT'S OBLIGATION Once Accepted Into the Program:**

Students are required to attend a Graduation Pledge orientation session.

- Students **may not** have more than one major declared, as having multiple majors and/or minors will increase the amount of units required and may result in not meeting the four-year graduation deadline.
- Students **may not** have more than one minor declared.
- Students **may not** have more than one concentration declared, including any concentration required for their major.
- Students must complete an average of at least 15 semester units per term (30 semester units per year) to reach the minimum of 120

semester units required for a Bachelor of Arts degree in four years.

NOTE: Majors that require more than 120 semester units will need to earn more units per year.

- Students are required to create an Education Plan with their academic advisor.
- Students must enroll each term at the assigned on-line registration time. Students enrolling late cannot be assured of getting courses needed.
- Maintain a 3.0 CSUSB grade point average after each term.
- Meet regularly with their academic advisor and follow the agreed upon Education Plan each term.
- Impacted majors must be accepted into their major according to the department's established schedule.
- Take courses at times (day or evening) when they are offered and/or available and in correct sequence. Note: Students who change their major or concentration or who take a leave of absence may not necessarily be able to graduate in four years. Approval from the Graduation Pledge Coordinator is required to change majors and for reinstatement into the Four-Year Graduation Pledge after a leave of absence. If approved, a new, advisor-approved, Education Plan demonstrating four-year graduation MUST be submitted to Academic Advising.
- Demonstrate accountability by complying with all administrative and academic policies and procedures. Non-compliance will result in cancellation of the pledge agreement.
- Students MUST file their Graduation Check no later than the Fall term of their 4th and final academic year.
- **What is the University's Pledge?**
- California State University, San Bernardino pledges to provide sufficient classes for the Graduation Pledge Program students in order for them to graduate in four years. All Four-Year Graduation Pledge Program students will receive a higher registration appointment date based on their academic standing monitored by the office of Academic Advising. (909) 537-7345. Email: gradpledge@csusb.edu.
- Participants who continue to meet eligibility (see above) must utilize their designated registration appointment date and time to ensure timely advancement toward graduation.

Academic Advising

University Hall, Room 329

(909) 537-7345 Academic Advising website (<https://www.csusb.edu/advising/>)
advising@csusb.edu

Academic Advising provides guidance to undergraduate students throughout their academic journey by assisting them in making informed decisions that support their academic, personal, and career goals.

Services include:

- Academic Advising for all majors including Undeclared students
- Academic Probation and Subject to Dismissal Counseling
- Excessive Unit (Senior) Advising
- Coordination of Advising and Registration at New Student Orientation
- Two-Year Graduation Pledge Program
- Four-Year Graduation Pledge Program

Educational Opportunity Program

University Hall, Room 395

(909) 537-5042 Educational Opportunity Program website (<http://www-ugs.csusb.edu/eop/>)

The Educational Opportunity Program (EOP) is an admissions and comprehensive academic and student services program designed to support and provide access to higher education to historically low-income, disadvantaged, underrepresented students who meet specific income guidelines and demonstrate the potential to succeed at the university level.

The Educational Opportunity Program offers assistance with admissions, orientation, a summer transitional experience (Summer Bridge), academic advising, financial aid guidance, grants and scholarships, tutoring, personal counseling, academic and life skills workshops, career planning, graduate school information, and other support services, depending upon individual student needs.

Under the umbrella of the Educational Opportunity Program, current and former foster youth can receive additional support services such as year-around housing for select students through the EOP Renaissance Scholars Program.

In order for a student to participate in EOP or the Renaissance Scholars Program, students must submit a separate application prior to admission to the university, meet the income criteria and be selected via the EOP application process.

Student Mentoring Program

Pfau Library, Room 208

Student Mentoring Program (<https://www.csusb.edu/mentoring-programs/>)
(909) 537-4499
mentoring@csusb.edu

Student mentoring provides peer-to-peer experiences to cultivate academic success, community building, support, guidance, and personal/professional growth. Mentoring promotes success through peer-led programming focusing on academic excellence, identity, career readiness, leadership, and a sense of belonging. Student mentoring services are available to all undergraduate students.

The First-Year Learning Community

University Hall, Room 352

(909) 537-5032

The First-Year Community/University Studies 1000A (USTD 1000A) introduces students to academic and practical skills necessary to succeed at the university. Upon completion of this course, students will become aware of connections and differences across disciplines and learning experiences, explain how their knowledge, strengths, and life experiences influence their worldview and those of others, reflect upon academic processes and learning, and begin to develop a critical understanding of the information environment.

Supplemental Instruction

University Hall, Room 401.20

(909) 537-7320

Supplemental Instruction (<https://www.csusb.edu/supplemental-instruction/>)

Do you want to strengthen your understanding of material presented in course lectures and texts, develop both general and content specific learning strategies and study skills, and/or have the opportunity to review for exams and develop effective test taking strategies? If your response is yes to any of these, then Supplemental Instruction (SI) is the academic success resource for you!

SI is a research-based, locally proven method for helping students succeed in challenging courses by providing peer led, subject-matter discussion, support, and guidance for the strengthening of critical college skills. SI sessions meet twice a week for 50 minutes each (usually just after the content course lecture). SI is open to all students enrolled in the corresponding content course. Each SI session is limited to 20 students to maintain a small group learning environment. For more information about SI call (909) 537-4499 or email SI@csusb.edu.

Tutoring Center

University Hall, Room 350
(909) 537-5038

Tutoring (<https://www.csusb.edu/tutoring/>)

The Tutoring Center provides academic support to students enrolled in CSUSB courses on a walk-in basis. Tutors work collaboratively with students on coursework, strengthening study skills, and building academic confidence in a supportive, patient, and affirming atmosphere.

Drop-in tutoring in various subjects is available Monday through Friday. Please visit our website to find available subjects, days, and times. Subject offerings vary by term and include:

- Accounting
- Biology
- Chemistry
- Economics
- Finance
- Mathematics
- Physics
- Statistics
- Study Skills

Math Coaching

Pfau Library, Room 210
(909) 537-3035

Math Coaching (<https://www.csusb.edu/academic-success-and-undergraduate-advising/services/academic-centers-excellence/math-coaching/>)

Individual and group math coaching provides students expert assessment and guidance in working through course content, assignments, and exam preparation. Match coaching is provided by Stephen Wentworth, a CSUSB Lecturer in the Department of Mathematics. Request an appointment with Stephen Wentworth (Swentwor@csusb.edu?subject=Math%20Coaching%20Request) by email.

SAIL Program

University Hall, Room 386

(909) 537-5921 (<http://undergradstudies.csusb.edu/sail/>) SAIL Program website

Email: sail@csusb.edu

The Student Assistance in Learning (SAIL) program is the university's TRIO Student Support Services (<http://www2.ed.gov/programs/triostudsupp/>) project, which is 100% funded by a grant from the U.S. Department of Education. The goal of SAIL is to increase the retention and graduation rates of undergraduate students who are low-income, first-generation (parents have not earned a bachelor's degree) or who have a disability. Priority is granted to eligible students who have a demonstrated academic need. *(Please contact the SAIL office for more information about eligibility.)*

SAIL offers students a variety of supportive services to ensure academic and personal success at CSUSB and their persistence towards graduation. These include:

- Educational planning
- Financial aid counseling
- Personal finance education and planning support
- Career counseling
- Personal counseling
- Assistance with graduate school planning and preparation
- Academic coaching
- Workshops addressing student success strategies, student resources, and personal growth
- Study Marathons to help students prepare for final exams
- Community service and leadership development opportunities
- SAIL's First-Gen Community
- SAIL's Harbor - a computer lab and study area for SAIL students

The enrollment period for the SAIL program begins in May for the upcoming academic year and closes when the program reaches capacity. After that time period, students may be admitted on a space-available basis and/or through a letter of referral from a campus staff or faculty member, or administrator.

Writing Center

College of Education, Room 310
(909) 537-5232

Writing Center (<https://www.csusb.edu/writing-center/>)

Writing consultants work with students who are composing specific writing projects as well as with faculty members who are incorporating writing as a mode of learning in their courses. Consultants offer individual conferences to students in all disciplines at all stages of their composing processes; conferences focus on interpreting assignments, discovering topics, expanding ideas, clarifying organizational strategies, incorporating counter-arguments, and citing references, as well as on editing and proofreading. Consultants also facilitate English conversation groups for multilingual and ESL students, helping them to negotiate the linguistic and cultural differences in oral and written composition.

The Writing Center Director and staff members are always available to consult with faculty members who are designing writing components for their courses, conduct in-class writing workshops in courses in all disciplines, and read and respond to manuscripts in preparation.

Undergraduate Degree

Bachelor of Arts

Special Major (p. 83)

Bachelor of Arts with Special Major

Requirements (36 units)

Total units required for graduation: 120

(Program Code: SINT)

Occasionally, students with specialized educational or professional objectives may find that the existing degree programs offered at the university do not satisfy personal needs or career plans and that a carefully structured, interdisciplinary program of study is more appropriate.

The B.A. with Special Major is an interdisciplinary program intended for students with unusual interests and abilities who have the initiative and desire to design their own major with the aid of faculty and professional advisors. The purpose of these individually-designed special majors is to provide a carefully controlled opportunity for exceptional students to design, with faculty approval, a flexible interdisciplinary course of study that leads to a Bachelor of Arts degree.

Admission normally is limited to students who can design (with the aid of a faculty committee) individualized programs organized around a coherent topic or cross-disciplinary subject that involves two or more departments. Occasionally, short-term interests in interdisciplinary programs may be served by more structure and degree plans organized by faculty for groups of students.

The B.A. with Special Major is not intended to bypass normal graduation requirements or to avoid certain requirements of a regular major offered at CSUSB or at other nearby institutions. The self-designed major should not substantially duplicate any existing degree offered at CSUSB. Likewise, a Special Major cannot be developed in areas such as architecture, agriculture, or engineering where the campus lacks the necessary faculty expertise to guide the student and supervise the culminating project. Students must have an overall grade point average of 3.0 including work taken at all institutions and must maintain a 3.0 average in the courses required for the self-designed major.

Although the Special Major is a unique program that suits individual goals, has potential to combine fields and functions, and can add distinction to the degree, such an interdisciplinary program may pose professional obstacles and be difficult to explain to graduate schools and employers.

Career goals and prerequisites for higher degrees should be reviewed before proceeding with this major. In particular, students who will be seeking a teaching credential should consult with faculty in the College of Education to see how a Special Major might impact subject matter requirements for teachers.

Interested students should contact the Office of Academic Success and Undergraduate Advising to begin the application and screening process. Prospective majors should be prepared to present a one-page description and justification of the program which outlines the concepts, goals and objectives to be fulfilled by the Special Major. If, after discussing the tentative interdisciplinary interests of the student, the Office of Academic Success and Undergraduate Advising believes the student should be encouraged to prepare a formal application and proposal for a Special Major, a packet of information and forms for justifying and submitting the proposed interdisciplinary curriculum will be provided to the student. If the student has not yet found faculty members who are interested in helping the student develop the curriculum and guide their study, the Office of Academic Success and Undergraduate Advising will suggest possible faculty committee members.

Requirements for the Major

1. Only regularly matriculated students with a 3.0 overall grade point average may be admitted to the Special Major program.
2. The minimum requirements for a Special Major will be 36 units (with at least 24 units in upper-division coursework) of carefully structured coursework in two or more fields. Additional units beyond the minimum may be required by the faculty committee.
3. The Special Major must include at least one 3-unit upper division required 'writing-intensive' (WI) designated course as part of the structured coursework.
4. The Special Major must be proposed prior to the senior year. A student should have completed no more than 84 units at time of application for the Special Major and have a minimum of 36 units left to complete.
5. Neither lower-division nor upper-division General Education courses may be counted in the major, though they may supplement, strengthen and provide background for the major.
6. The Special Major is not available as a "double major," nor is it available to students pursuing a second bachelor's degree.
7. A culminating experience (project, research paper or other written documentation) and verification of accomplishment of project is required. Up to three units of credit for this may be built into the requirements of the major.

Application Process

1. Determine the feasibility of pursuing a Special Major by reviewing the requirements and examining available programs and majors to see if the proposed major could be met through any of these. Explore the resources of the campus needed for a Special Major in terms of course offerings, library resources, facilities, and faculty expertise.
2. Develop a statement of goals and objectives and the interdisciplinary program proposal which specifically addresses the following: What is the purpose or focus of this specially designed major? What skills does the student already have? What additional knowledge is needed? What is the best way to reach the goal? What is the student's career objective? Are there plans for advanced training and study?
3. Consult with the Office of Academic Success and Undergraduate Advising about the process as well as interests and goals. One week

prior to this meeting, the student must submit a written description and justification of the area of study based on goals and objectives. The Office of Academic Success and Undergraduate Advising will contact departments and faculty members to discuss the feasibility of this area of study. If the draft proposal is acceptable, forms for formally developing and proposing the degree requirements will be provided.

4. A faculty committee will be appointed at this time based on recommendations of the Office of Academic Success and Undergraduate Advising and appropriate departments. A chair will be elected by the committee. Normally, the faculty committee will be made up of faculty from the departments and disciplines of the interdisciplinary interests, e.g., a program in Arts Management would usually have faculty committee from the arts and business.
5. Work with the faculty committee to determine the best and most appropriate courses to include in the Special Major. Consideration should be given to prerequisites courses needed as preparation for the 36 units (24 upper-division) minimum of study required in the Special Major.
6. The Special Major proposal must be signed by three faculty members who have worked with the student in developing the proposed course of study. The faculty member who will chair the advisory committee must write a statement of support which includes a brief evaluation of the proposal.
7. On the form provided, list the lower-division support courses which were taken in preparation for the upper-division component. These may include General Education and transfer courses where appropriate and directly related to your planned area of study.
8. List the minimum of 36 units of course work to be included in the Special Major. As an interdisciplinary program, these courses should include work from at least two and usually three or more departments. To avoid later difficulties with key courses that are not offered prior to graduation, reasonable substitutions should be listed where possible.
9. Submit the Special Major proposal along with a copy of transcripts of all college work completed to the Office of Academic Success and Undergraduate Advising. This proposal will be forwarded to the University Curriculum Committee for consideration. The committee meets regularly throughout the academic year and applications can be submitted at any time, though every effort should be made to turn in the proposal early enough in the term to receive approval prior to registration for the next term. Applications cannot be considered during the summer quarter. (The application materials should be filled out with great care and accuracy. Hastily done or carelessly prepared proposals are unlikely to convince the Curriculum Committee of the seriousness of the proposal.)
10. In some cases, the University Curriculum Committee may invite students and/or their faculty advisor to discuss the proposal with the committee, especially where clarification or changes are requested.
11. The Office of Academic Success and Undergraduate Advising will notify the student in writing of the decision of the University Curriculum Committee. This may be approval, conditional approval based on recommend changes/revisions in curriculum or disapproval.
12. Any change or substitution of courses in the approved program must be approved by the student's faculty committee and the Office of Academic Success and Undergraduate Advising.
13. Upon approval of the Special Major proposal, the student may formally declare a Special Major. At graduation, the diploma will show only a B.A. with Special Major, but the transcript will reflect the nature or title of the special interdisciplinary study in this fashion: B.A. with Special Major in (subject area).

Graduate Studies

Office of Graduate Studies

College of Education, Room 356

(909) 537-5058 Graduate Studies website (<http://gradstudies.csusb.edu>)

gradstudies.csusb.edu

Caroline Vickers, Associate Dean

Post-baccalaureate students are those who already hold a bachelor's degree and wish to continue their studies; they may be pursuing a certificate, credential, second bachelor's, master's, or doctorate degree. At CSUSB, post-baccalaureate students can choose from more than 40 master's degree programs and concentrations, as well as a wide range of credential and certificate programs. CSUSB is also one of the few California State University campuses to offer a doctoral program in Educational Leadership. As the university grows, its nationally accredited graduate programs continue to gain recognition and garner awards. Most classes are offered at convenient hours for working students. Financial assistance for research and travel is available, as well as grants, loans, and fellowships aimed at supporting doctoral aspirations and creating a more diverse university faculty.

The Office of Graduate Studies encourages graduate education and works to create programs of quality that respond to the needs of students and of the university's service area. Additionally, the office administers the M.A. in Interdisciplinary Studies, and is responsible for the following functions for all graduate programs:

- Waiver petitions for the seven-year limit for course work, the 12 quarter unit/9 semester unit limit for classification, and leaves of absence
- Petitions by all unclassified post-baccalaureate students
- The Graduate Equity Fellowship Program
- The California Pre-Doctoral Program
- The Chancellor's Doctoral Incentive Program
- Thesis, project, and dissertation final acceptance and publication
- Graduate admission

Graduate programs (p. 76) at the university are designed to serve a variety of needs. Some students pursue an advanced degree or a credential program in a professional area to enhance their career mobility; others, to expand their knowledge and understanding and to pursue research in a chosen discipline. The university welcomes both part-time and full-time students. Some programs are available in hybrid or online format. Detailed requirements of each program are listed by department and/or degree in the Graduate Degrees section of this catalog.

Graduate Degree

Master of Arts

Interdisciplinary Studies (p. 85)

Master of Arts in Interdisciplinary Studies

Occasionally a student wishes to pursue special interests or career goals that are not met by existing graduate programs. For this student, the Master of Arts in Interdisciplinary Studies offers the opportunity to create a

unique master's degree program or one that is not otherwise substantially available in a current graduate program offered at this university.

This individualized master's degree is designed to be a highly challenging academic program for the self-motivated student who has a clear perception of objectives and a background which will allow advanced study in the disciplines combined in the program. The Interdisciplinary Studies M.A. is designed to accommodate unique student interests or to prepare students for fields which require programs not presently offered at the university. It is not a replacement of existing degree programs but an enrichment of the university's offerings. This program is designed by the student in consultation with three faculty members who comprise the student's faculty committee. These three faculty members are selected from more than one academic discipline. Once the program is approved by the committee, it is then submitted to the Associate Dean of Graduate Studies and then the University Curriculum Committee for approval.

Application Process: The procedures listed below are for the individualized M.A. in Interdisciplinary Studies.

1. Determine the feasibility of pursuing an Interdisciplinary Studies M.A. by reviewing the requirements and examining available CSUSB master's programs to see if the proposed degree could be met through any of these. Explore the resources of the campus needed for an Interdisciplinary Studies M.A. in terms of course offerings, library resources, facilities, and faculty expertise;
2. Prepare a written proposal eight pages in length to include the following:
 - a. Identify by title the proposed interdisciplinary program of study (i.e., Interdisciplinary Studies Master's Degree in [50-space limit]);
 - b. Describe the purpose or focus of this specially designed degree program;
 - c. Explain why this course of study cannot be pursued within one department with electives from other departments;
 - d. Explain how this program relates to the student's educational and career goals;
 - e. Indicate student's background, both academic and experiential, for undertaking this study;
 - f. List the CSUSB courses appropriate to meeting goals; the program of courses must not significantly duplicate any existing degree program on this campus or on any other state college or university campus within a commutable distance.
3. To complete the formal application for acceptance to an Interdisciplinary Studies Master's program the student must:
 - a. Secure the agreement of faculty in the disciplines related to the proposed special program to serve as members of the Interdisciplinary Studies Graduate Committee. This committee must consist of no less than three tenured/tenure-track, full-time faculty members at CSUSB;
 - b. On the form provided, list the five upper-division prerequisite courses, each with a grade of "B" (3.0) or better, in the major discipline of the proposed program. The determination of the major discipline is subject to the approval of the University Curriculum Committee;
 - c. On the Approved Study Plan form list the minimum of 30 units of course work, 100% of which must consist of 5000- or 6000-level courses, to be included in the Interdisciplinary Studies M.A. As an interdisciplinary program, these courses should include work from two or more departments. To avoid later difficulties with key courses that are not offered prior to graduation, reasonable substitutions should be listed where possible;

- d. Secure signatures on the application from the Interdisciplinary Studies Graduate Committee. The Interdisciplinary Studies M.A. proposal must be signed by three faculty members who have worked with the student in developing the proposed course of study. The faculty member who will chair the advisory committee must write a statement of support which includes a brief evaluation of the proposal;
 - e. Submit the approved M.A. in Interdisciplinary Studies proposal to the Associate Dean of Graduate Studies for approval;
4. These materials constitute the Application for a Master's Degree in Interdisciplinary Studies and will be forwarded to the University Curriculum Committee for consideration. The committee meets regularly throughout the academic year and applications can be submitted at any time, though every effort should be made to turn in the proposal early enough in the term to receive approval prior to registration for the next term. The application materials should be filled out with great care and accuracy. Hastily done or carelessly prepared proposals are unlikely to convince the Curriculum Committee of the seriousness of the proposal. The signature of the Chair of the University Curriculum Committee on the application for the Master's Degree in Interdisciplinary Studies signals acceptance of an applicant to the program;
 5. The Associate Dean of Graduate Studies will notify the applicant in writing of the decision of the University Curriculum Committee. This may be approval or request for resubmission;
 6. Once the proposal has been approved by the University Curriculum Committee, the applicant will request an invitation code from the Office of Graduate Studies to apply to the Master's Degree in Interdisciplinary Studies through Cal State Apply. Admission to the Master's Degree in Interdisciplinary Studies through Cal State Apply is the final step to admission and matriculation;
 7. Subsequent modification of an Approved Study Plan requires approval of the student's Interdisciplinary Studies Graduate Committee and Associate Dean of Graduate Studies on an official Change of Study form.
 8. Any change or substitution of courses in the approved program must be approved by the student's faculty committee and the Associate Dean of Graduate Studies;
 9. At graduation, the diploma will show only an M.A. in Interdisciplinary Studies, unless the student requests in writing the inclusion of the focus of the interdisciplinary study in this fashion: Master of Arts in Interdisciplinary Studies in (subject area). The transcript will reflect both the degree title and the focus of study.

Admission to the Program

In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

1. Meet minimum requirements for admission as a graduate student at CSUSB: at least a 2.5 cumulative undergraduate grade point average or at least a 2.5 g.p.a. in the last 60 semester units or 90 quarter units of the undergraduate record, or 12 or more semester units or 16 or more quarter units of master's coursework completed with at least a 3.0 cumulative g.p.a
2. Prerequisite of at least five upper-division courses, each with a grade of "B" (3.0) or better, in the major discipline of the proposed program. The determination of the major discipline is subject to the approval of the University Curriculum Committee;
3. A three-member faculty committee, the chair of which serves as primary advisor, to supervise the course of study;

4. Approval of Interdisciplinary Studies program proposal by the Faculty Director of Graduate Studies.

Advancement to Candidacy

To be advanced to candidacy, a student must have:

1. Completed at least 15 units of course work on an approved study plan with a minimum of a 3.0 grade point average in the program.

Requirements for Graduation

1. The program of study should be interdisciplinary, including course work from two or more departments represented at the university;
2. The program of study must include a minimum of 30 semester units of course work, 100% of all course work taken must be in 5000- or 6000-level courses;
3. The program of study must not include more than six units of independent study course work, excluding the units allowed for thesis or project.
4. The program must include a culminating experience (comprehensive examination, project or thesis). The project or thesis may include an oral defense. Students may register for no more than six units of thesis or project credit. The project or thesis may include an oral defense;
5. The program of study must include a course in research methods in the major discipline;
6. A grade point average of 3.0 ("B") must be earned in course work taken to satisfy the Master of Arts degree requirements and grades of "C" (2.0) or better in all courses in the program. Grades of "C-" (1.7) or less cannot be used toward the degree;
7. Completion of the Graduate Writing Assessment Requirement (GWAR);
8. Any additional general requirements not cited above and listed in Graduate Degree and Program Requirements (<http://bulletin.csusb.edu/graduate-degree-programs/graduate-degree-program-requirements/>).

Requirements for the M.A. in Interdisciplinary Studies (30 units)

Program Code (INTD)

Due to the unique nature of the program, courses required for the degree are determined by each student's individualized program plan. The program plan is designed by the student in consultation with three faculty members who also comprise the student's faculty committee. These three faculty members are selected from more than one academic discipline.

The program plan must consist of at least 30 units, all of which are graduate-level courses (numbered 5000 – 6000). The program must include a culminating experience (comprehensive examination, project or thesis).

See Requirements for Graduation listed above for additional Interdisciplinary Studies program requirements.

Culminating Experience

The program must include a culminating experience (comprehensive examination, project or thesis). The project or thesis may include an oral defense. Students may register for no more than six units of thesis or project credit. The project or thesis may include an oral defense

University Honors

University Honors Office

Coyote Village (Cajon Hall) 135
(909) 537-7472

The University Honors Program at California State University, San Bernardino offers a curriculum designed to meet the needs of highly motivated students who seek an exceptional, intellectually challenging experience. This program will add breadth, depth, and rigor to the student's undergraduate course of study. Honors students are encouraged to take an active role in their own learning process, to think about problems they will face in creating the future, and to explore their roles in addressing these problems. Integration of subject material across the curriculum and interdisciplinary approaches to learning are essential goals of the program, as is emphasis on the cognitive development of the student. The curriculum challenges students to develop thinking skills and to use these skills in analyzing and evaluating problems of contemporary society. In doing so, the curriculum fosters a learning community that promotes student research, creativity, and innovation. Honors students will have:

- Personalized advising;
- Priority registration;
- The opportunity to participate in honors activities such as excursions, performances, and art exhibits;
- Honors courses in basic skills such as expository writing, oral communication, and critical thinking;
- Honors seminars which promote interaction among students and faculty;
- Honors courses in specific academic disciplines and interdisciplinary areas.

Admission to the Program

Incoming first-year and rising juniors or transfer students who have shown scholastic ability, intellectual promise, and creativity are encouraged to apply for the University Honors Program. Incoming first-year students will be given written invitation to apply to the University Honors Program based on strong performance in high school.

Rising juniors and transfer students who have remained consistently on the Dean's List and/or have maintained a 3.5 overall grade point average in previous course work may apply to the program. These students should contact the University Honors Program for the application.

In addition, any faculty member identifying a student as one who has the potential to profit from the challenge of the program may sponsor a student into the program, with the approval of the Honors Committee.

University Honors Program

Requirements of the Program

To remain in good standing in the Honors Program, students are expected to maintain a grade point average of 3.3 ("B+") overall.

Requirements for students completing Lower Division Honors (12)

HON 1000	Constructing Knowledge	3
HON 1100	Writing Rhetorically	3
HON 1200	Thinking Critically	3

HON 1300	Communicating Orally	3
----------	----------------------	---

Optional Honors GE Courses

HIST 1460H	Honors History of the United States: Pre-Colonization to Present	
PSCI 2030H	Government of the United States-- Honors	

Requirements for students completing Upper Division Honors (11)

Six units from the following:	6

One unit from the following:	1
------------------------------	---

HON 4100	Junior Research Exploration Workshop	
HON 4200	Collaborative Project Workshop	
HON 4500	Senior Research Presentation Workshop	1

Students earn University Honors by completing both Lower Division Honors and Upper Division Honors

Total Units	23
--------------------	-----------

Academic Support and Campus Services

Scheduling of Classes

Most three-unit courses meet for 150 minutes per week. Three basic plans are used in scheduling classes: three meetings per week (usually Monday-Wednesday-Friday), two meetings per week or one meeting. Principal exceptions occur among laboratory, activity and studio courses and courses which carry less than three units of credit.

The two-period, two-day-per-week format is utilized for Monday-Wednesday/Tuesday-Thursday classes and most late afternoon and evening courses; the single three-hour period format has been found most appropriate for certain evening and weekend classes. The university attempts to maintain accurate information about changing student needs and to adjust its class schedule accordingly. Current Class Schedules (<http://academicscheduling.csusb.edu>) are available approximately two weeks before the beginning of Priority Registration for a term.

Late-Day and Evening Classes

Courses offered in the late afternoon and evening are in every respect the equal of courses offered earlier in the day; they have identical prerequisites and requirements and they confer equal credit. Late-day classes have proven to be of convenience to regular and part-time students, teachers, business people and others in the community. The proportion of late-day classes has been increasing and stands currently between one-third and one-half of all classes.

Class Size

A distinctive feature of the San Bernardino plan is the attempt to offer the majority of courses in a small lecture/discussion/seminar format. Currently approximately 70 percent of the courses are taught in this arrangement. This small class size increases the possibilities for discussion and for student-faculty contacts both within and outside the classroom.

To maintain the small class as the norm requires that some proportion of courses be offered in an intermediate size (enrollment of 30 to 72) or in a large-lecture format (maximum enrollment of 250).

Among lower-division general education courses, those in the basic skills area, in foreign language, in mathematics and in English are offered mostly through small classes, while those in other areas typically employ intermediate or large-lecture classes. Upper-division general education courses may be offered in the large-lecture format. Each department utilizes intermediate size classes for a small number of required or elective courses, but the majority of departmental offerings are in small classes. The typical laboratory section has a maximum enrollment of 24, sometimes less.

Faculty Office Hours

In addition to meeting with students during designated class hours, faculty members hold regularly scheduled office hours, which are posted outside their offices. A student who is unable to see a faculty member during class or the posted office hours may arrange an appointment by contacting the appropriate department office.

Course Credits and Study Expectations

Most courses at California State University, San Bernardino carry three semester units of credit; some carry six units; some two units; and a few variable credit. Course credits are indicated in the course descriptions in this catalog. Since each unit of credit presumes one hour of class time and two hours of preparation, a typical three-unit course would require a minimum of 9 hours per week of the student's time.

Credit Hour

On July 1, 2020, the United States Department of Education changed its definition of the student credit hour. Fundamentally, the change shifted responsibility for credit hour compliance to the accreditation agency and/or to the state.

As such, the CSU's accreditor, the WASC Senior College and University Commission (WSCUC), has published its own updated definition of student credit hour and related accreditation processes. The new regulations no longer require an accrediting agency to review an institution's credit hour policy and procedures. It does require the WSCUC to review the institution's definition of credit hour and an institution's processes and policies for ensuring the credit hour policy is followed.

The CSU credit hour definition is consistent with federal law (600.2 and 600.4 revised July 1, 2020) and the requirements of the WSCUC. The CSU defines a credit hour as an amount of work represented in stated learning outcomes and verified by evidence of student achievement. Such evidence is an institutionally established equivalency that:

1. Approximates not less than:
 - a. One hour of direct faculty instruction and a minimum of two hours of out-of-class student work each week for approximately 15 weeks for one semester or equivalent amount of work over a different amount of time; or
 - b. At least an equivalent amount of work as required in paragraph 1.a. of this definition for other academic activities as established by the institution including laboratory work, internships, practice, studio work and other academic work leading to the award of credit hours; and
2. Permits an institution, in determining the amount of work associated with a credit hour, to take into account a variety of delivery methods, measurements of student work, academic calendars, disciplines and degree levels. Institutions have the flexibility to award a greater number of credits for courses that require more student work.

As in the past, a credit hour is assumed to be a 50-minute (not 60-minute) period. In some courses, such as those offered online, in which "seat time" does not apply, a credit hour may be measured by an equivalent amount of work, as demonstrated by student achievement.

For purposes of accreditation, all CSUs are required to develop, communicate and implement procedures for regular, periodic review of this credit hour policy to ensure that credit hour assignments are accurate, reliable and consistently applied. WSCUC published new draft guidelines that took effect in June 2021. Universities are responsible for publishing a clearly stated practice or process that ensures they are in compliance with the student credit hour definition.

University Honors Program

The University Honors Program stands for an education that will give each student the opportunity to explore ideas and principles underlying the major areas of modern knowledge, the understanding that learning

is a continuous lifetime process, and the courage and enthusiasm to participate in the creation of a better world. This program offers integrated courses and other enrichment opportunities for highly-motivated students who seek an intellectual challenge. Most honors courses fulfill the general education requirements which all students at the university must meet.

Students who have shown scholastic ability, intellectual promise, and creativity are encouraged to apply for the program. Further information about the Honors Program can be obtained in Coyote Village 135, (909) 537-7472, or by visiting the University Honors Program website (<https://www.csusb.edu/honors-program/>).

Phi Kappa Phi

Academic Affairs Office, AD-101

(909) 537-5024 Phi Kappa Phi website (<http://pkp.csusb.edu>)

The university has an active chapter of the national honor society of Phi Kappa Phi, whose purpose is the recognition and encouragement of superior scholarship in all academic disciplines. Membership is by invitation issued to selected juniors, seniors and graduate students who have excelled in scholarship and who meet the chapter's requirements. Graduating seniors who are members of PKP have an opportunity to apply for a Fellowship from the national office to be used towards the first year of graduate study. The deadline is April 1st each year.

Gamma Lambda of Phi Beta Delta

Phi Beta Delta, founded in 1986, is the first U.S. honor society dedicated to recognizing individuals who have demonstrated scholarly achievement in the areas of international education and exchange. These individuals include: international (visa) students who have demonstrated high scholastic achievement at our university; U.S. students who have completed studies abroad in approved exchange programs with our university; distinguished international faculty at CSUSB; distinguished CSUSB faculty and staff who have been involved in recognized international endeavors (i.e. research, teaching, program development and service). The Gamma Lambda Chapter at CSUSB is a charter chapter of the national organization.

Student Mentoring Program

Pfau Library, Room 208

Student Mentoring Program (<https://www.csusb.edu/mentoring-programs/>)

(909) 537-4499

mentoring@csusb.edu

Student mentoring provides peer-to-peer experiences to cultivate academic success, community building, support, guidance, and personal/professional growth. Mentoring promotes success through peer-led programming focusing on academic excellence, identity, career readiness, leadership, and a sense of belonging. Student mentoring services are available to all undergraduate students.

Cooperative Education

The university is developing ways in which students may earn course credit through academically related work experience. Currently available are internship courses in accounting, administration, anthropology, art, Asian studies, biology, chemistry, communication, computer science, criminal justice, economics, education, English, environmental studies, ethnic studies, finance, French, gender and sexuality studies, geography, geology, health science, history, human development, humanities,

information management, management, marketing, philosophy, physics, public administration, paralegal studies, political science, psychology, social work, sociology, Spanish, supply chain management, and theatre arts. More specific information on special courses can be obtained from the Office of Academic Programs or the appropriate colleges, schools, and departments.

Facilities Planning & Management

California State University, San Bernardino, blends modern facilities with wide expanses of well-maintained landscapes and panoramic views. The 430-acre campus features more than 37 fully accessible and air-conditioned buildings. In addition to classrooms and laboratories for coursework in the arts, letters, sciences, and social sciences, the university has a number of rather distinctive facilities, such as simulation laboratories, a modern instructional television studio lab, an electronic music studio, glass blowing facilities, a Geographic Information Systems (GIS) Lab, Crime Analysis Lab, Anthropology Museum, Infant/toddler Teaching Lab, the Arrowhead Lab for Security Analysis, Literacy Center, Math and Science Teaching Methods Labs, and state-of-the-art self-instructional computer laboratories located in each of the major instructional buildings.

In 2017, the Board of Trustees approved the University's Master Plan for the future of the campus. The Master Plan addresses the current utilization of academic and service departments, future expansion of facilities to accommodate enrollment growth, parking and circulation, student housing, student life functions, landscape, playfields, and athletics, safety, lighting, and security, and strategies to create a more sustainable campus. The Performing Arts Center, which will open in 2025, was the most recent building to be completed under the Campus Master Plan and is home to the College of Arts and Letters Theater and Music programs and a 500-seat state-of-the-art performing arts theatre. For more information, please visit the Master Plan Webpage (<https://www.csusb.edu/master-plan/>).

University Library

Library website (<http://www.lib.csusb.edu/>)

The John M. Pfau Library provides essential support for the university's curriculum and strives to motivate and empower people to be life-long learners. The dedicated staff, most of which works behind the scene, acquires excellent resources, develops intellectual access to them, and provides research assistance at the point of need.

The collections include a wealth of materials in a variety of formats. While they are specially built and maintained to support the curriculum, they are not restricted to it. The Special Collections Department collects and preserves artifacts, photographs, and memorabilia on the local and regional history of this area along with the history of the university. The library is also a depository library for both Federal and State of California government documents.

Numerous database subscriptions provide a wealth of digital resources and extend the reach of scholars far beyond our walls. The efficient Interlibrary Loan service provides the means to obtain nearly any book or article not owned by the library.

Benefit from the special expertise of librarians in person at the Reference Desk, on the phone, or online via the web site. Faculty may schedule librarian-taught research instruction sessions for their classes. Individuals may make appointments with a librarian for more in-depth assistance.

There is much more to know about how the library works to enhance the university experience than will comfortably fit in this brief description. Students are invited to come on by and (pun intended!) check us out.

Academic Technologies & Innovation

(909) 537-7439 ATI website (<https://www.csusb.edu/academic-technology-innovation/>)

The Department of Academic Technologies & Innovation (ATI) focuses on fostering and supporting faculty's use of academic technologies for teaching and learning, including faculty-led innovation, student engagement technologies, and growth in hybrid and online learning courses. The ATI Department works closely with the Division of Academic Affairs, the Teaching Resource Center (TRC), and the College Deans and Department Chairs to identify and set priorities and standards in academic technology initiatives. The ATI Department consists of instructional designers, instructional technologists, and accessibility specialists who support online instruction and classroom technologies including smart classrooms. The department also works with the Academic Technologies and Distributed Learning subcommittee of the Faculty Senate to identify and develop academic technology innovations and initiatives.

The ATI office provides coordination and oversight of a multitude of online learning activities offered through CSUSB, including state-supported degree programs as well as technology-based extension courses and activities. ATI provides anytime, anywhere access for students who would otherwise be unable to attain a CSUSB degree.

The concept of distributed learning connotes a system through which CSUSB can more fully "distribute" its academic resources to its diverse and broad-based constituents, locally, nationally, and internationally. CSUSB offers several degree programs either fully or partially online (hybrid) or via videoconference, including programs in education, liberal studies, communications, nursing, business, public administration, and criminal justice.

Distributed learning techniques engage students actively (or interactively), and focus on helping students achieve class objectives via a number of state-of-the-art technologies, including online, blended (hybrid), and video/Web conferences. In addition, courses taught off-campus at remote sites are coordinated by the Academic Technologies and Innovation office.

Assistive Technology and Accessibility Center (ATAC)

ATI's Assistive Technology and Accessibility Center (ATAC) provides both software and hardware technology solutions to students, faculty, and staff at the CSUSB and Palm Desert campuses. Assistive technology helps individuals with disabilities receive equal access to information and resources.

Classroom Support

Media equipment is fast becoming the backbone of the instructional environment and ATI's **Classroom Support** team provides access to a wide variety of instructional technologies in our classrooms and learning spaces. Whether the equipment is already installed in one of our Smart Classrooms or media equipment is delivered to your classroom, our staff will ensure that you have what you need. Equipment for special campus events, meetings, or conferences is also available.

Keeping equipment in good operational order requires a thorough preventative maintenance program as well as access to knowledgeable

technical staff. Our classroom and instructional support staff are available to provide consultation to faculty and staff in the proper operation of classroom technologies. Installation of special software for use in Smart Classrooms is also available upon request.

Online Courses

Online and hybrid courses offered throughout CSUSB's colleges are identified as such in the official CSUSB Course Schedule. Online courses are taught completely on the Internet and are not assigned classroom space. Hybrid courses are assigned classroom space and meeting times, which range from once per semester to weekly, accompanied by significant online materials and activities. Students taking online courses should consult the Academic Technologies & Innovation website (linked at the top of this page) for minimum hardware and software requirements for taking any courses on the Internet.

For more information on support and professional development for faculty, contact ATI at (909) 537-7439.

Information Technology Services

Information Technology Services website (<http://www.csusb.edu/its/>)

The mission of the division of Information Technology Services (ITS) is to support student, faculty, and staff success by providing world-class customer service, fostering faculty-led innovation and research, and enhancing operational efficiency through the effective use of information technologies.

ITS division is guided by the following principles:

- Be responsive to the changing information technology needs of a highly diverse student, faculty, and staff community.
- Offer support and leadership through collaborative efforts with faculty, students, and staff.
- In a participative manner, perpetuate information technology integration as a part of the academic and administrative fabric covering all programs.
- Aggressively respond to the tactical objectives set forth by the campus strategic plan.
- Advance CSUSB as one of the foremost teaching/learning environments in higher education by applying, as appropriate, technology solutions.

The IT Governance Executive Committee governs university-wide technology initiatives.

Organizationally, ITS has six departments managed under the office of the Vice President and Chief Information Officer for Information Technology Services:

- Technology Operations & Customer Support
- Academic Technologies & Innovation
- Administrative Computing & User Experience
- Institutional Intelligence
- Strategic Technology Initiatives

Technology Operations and Customer Support

Technology Operations and Customer Support Website (<https://support.csusb.edu/>)

Technology Operations and Customer Support is led by the Associate Vice President of ITS. Composed of five distinct units, the department operates and maintains the university's most critical information technology infrastructure, ensures secure and reliable access, and provides world-class customer support on a 24x7x365 basis.

Technology Support Center

Technology Support Center (TSC) is the one-stop shop for support, information, and consultation on all technology-related matters. On a 24/7 basis, the technology support center provides the university with practical, timely, and consistent responses to technical support needs.

The TSC is the issuer of Coyote OneCard, the official CSUSB identification card. We provide students, faculty, and staff assistance and training for on-campus resources such as MyCoyote, Canvas, campus email systems, Google G Suite, and Office 365. We also assist with desktop support and provide access to many campus-licensed software.

The TSC is located in the Pfau Library Addition first floor (PL-1108) and can be reached by phone at 909-537-7677 or email at support@csusb.edu or on the web at <http://support.csusb.edu> (<http://support.csusb.edu/>). (<https://support.csusb.edu/>)

Enterprise and Cloud Services

Enterprise and Cloud Services (ECS) is primarily responsible for system administration and maintenance of hardware, software, and cloud environment supporting the campus enterprise systems.

ECS manages enterprise resources, including Private and Public Cloud Infrastructure, Office 365, Google G Suite, Mailman listserv, OnBase workflow, and imaging. Services rendered include server and desktop virtualization, cloud computing resources configuration and maintenance, backup, and recovery. ECS also provides server hosting and co-location services, data center management, Scantron exam scoring, and SOTE processing.

Identity, Security & Enterprise Technology

The Identity, Security & Enterprise Technology (ISET) department promotes confidentiality, privacy, availability, and integrity of information resources. ISET monitors compliance with CSU and CSUSB information security policies and standards and applicable State and Federal regulatory standards, such as FERPA, HIPAA, and PCI.

Telecommunications and Network Services

Telecommunications & Network Services (TNS) plans, supports, manages, maintains, and repairs the campus telecommunication system, the campus wired and wireless data network, and supporting servers.

Telecommunication Services is responsible for supplying and repairing telephone equipment, managing the campus operators, campus call center lines, emergency phone access, and cellular accounts, and maintaining the campus VoIP and voicemail system.

Network Services is responsible for installing, managing, and maintaining the campus wired and wireless network infrastructure, various campus-

wide network applications, and specific network systems providing campus-wide functions.

Distributed Technology Services

Distributed Technology Services (DTS) supports technology initiatives at CSUSB's six distributed Colleges (Arts and Letters, Business and Public Administration, Education, Extended Education, Natural Sciences, and Social and Behavioral Sciences) as well as the Library.

DTS is responsible for the overall planning, organizing, and execution of all IT functions at the distributed colleges and library at CSUSB. This includes directing all IT operations to meet customer requirements and supporting and maintaining existing applications, systems, infrastructure and development of new technical solutions consistent with campus protocol/standards and the ITS division's objectives.

Academic Technologies and Innovation

Academic Technologies and Innovation Website (<https://www.csusb.edu/ati/>)

Academic Technologies and Innovation (ATI) is CSUSB's instructional design and learning technology function. As the CSUSB leader in online education and academic technologies, ATI strives to promote quality online course design, expand online learning, and support faculty with their course development and academic technology needs. We take pride in providing high-quality instructional and technological solutions. That is why we are committed to helping you find the right solution that fits your needs.

Administrative Computing and User Experience

Administrative Computing and User Experience Website (<http://acs.csusb.edu/>)

The Department of Administrative Computing and User Experience (ACUx) develops, provides support for, and manages various campus enterprise software applications on a variety of hardware platforms. Support is provided for all CSUSB administrative systems. ACUx strives to be the richest source of support for information technology resource management. To do this, we encourage our teams to work in a collaborative environment, giving them the resources and support they need to bring the best practices to life. At ACBI, we realize that a supportive work environment is crucial to success. We understand success is about collaborating and maintaining clear communication between partners and technical support.

Institutional Intelligence

Digital Transformation

Digital Transformation Website (<https://www.csusb.edu/its/support/digital-transformation/>)

Utilizing the tools of web and mobile technologies, including AI and machine learning, Digital Transformation (Dx) strives to create a culture of easily accessible, intelligently designed, and seamless systems to improve the human experience at CSUSB by making interactions available from anywhere. We seek to improve university processes, eliminate administrative bottlenecks, reduce technology barriers, and increase operational efficiency by creating intuitive, agile, and efficient

tools to accelerate graduation, increase retention, and support the success of our students, faculty, and staff.

Institutional Research and Analytics

Institutional Research and Analytics Website (<https://www.csusb.edu/institutional-research/>)

Institutional Research and Analytics collaborates with the campus community to support strategic planning, enrollment planning, assessment, and continuous improvement through consultative program design and timely dissemination of reliable information. Our goals are: to provide expertise and support for program design, assessment, and continuous improvement; develop, provide, and maintain timely and accurate institutional data to internal and external audiences; and conduct project-based research and analyses.

Strategic Technology Initiatives

The purpose of the office of Strategic Technology Initiatives is to support the increase in efficiency and effectiveness of the ITS Division in terms of planning and managing IT projects that are aligned with the strategic objectives of the division and the institutional learning objectives of the university.

Degree Completion Programs for Part-Time Students

Increasing opportunities are being developed for part-time students to complete baccalaureate and master's degree programs by attending late-day classes, as well as Friday night and weekend courses with compressed schedules.

Students who wish to pursue a late-day degree-completion program should consult with the department of their proposed major regarding the availability of required courses and then apply for admission to the university in the usual manner.

National Student Exchange Program

Office of Student Engagement, SU-203

(909) 537-5234

CSUSB National Student Exchange (<https://www.csusb.edu/student-leadership-engagement/campus-activities-leadership/national-student-exchange/>)

National Student Exchange (NSE) offers study opportunities at over 200 diverse university settings across the US, Puerto Rico, Canada, Guam and the US Virgin Islands and provides access to a wide array of courses and programs. NSE offers options for students who may not yet be ready for an international program, but are seeking new academic, cultural and personal experiences to enhance their undergraduate education. NSE options include exchange among university honors and residential life programs, as well as access to internships, research options, and service learning opportunities of member campuses. NSE features a tuition reciprocity system that allows students to attend their host institution by paying either the in-state tuition/fees of their host institution or the normal tuition/fees here at Cal State San Bernardino. NSE students can exchange for a single term or a full academic year. Course work completed while on exchange at the host campus is brought back to the home institution and credited to the student's degree program.

Apply for exchange through the CSUSB-NSE office. The process includes a non-refutable application fee and current transcript.

CSUSB determines the manner in which the host campus courses are distributed and grades are recorded. Students should consult with an academic advisor regarding course selection prior to going on exchange and preferably during the time they are exploring possible host campuses. During the application process, students will need to meet with a Transfer and Graduation Counselor in the Office of the Registrar to ensure that classes taken on exchange will transfer back to CSUSB.

University Enterprises Corporation at CSUSB

(909) 537-5918 University Enterprises Corporation website (<http://uec.csusb.edu>)

University Enterprises Corporation at CSUSB ("UEC") supports the university's educational mission by providing quality services that complement the instructional program. The University depends upon UEC to provide services that cannot be supported with state funds. Although UEC is a legally separate 501(c)(3) nonprofit corporation, it is a fully integrated part of the California State University San Bernardino campus.

UEC is responsible for business enterprises on campus including, but not limited to, dining services, bookstore, convenience store, and vending services. UEC also serves as the grantee for federal, state and local funding for research and sponsored projects.

Coyote Bookstore

(909) 537-3966 Coyote Bookstore website (<http://www.bkstr.com/csusanbernardinostore/home/>)

The Coyote Bookstore carries all course-required textbooks and offers a textbook rental program, digital options, and year-round book buy-back. The Coyote Bookstore also has hundreds of other items for sale including school and office supplies, backpacks, fashionable CSUSB clothing, gifts, stationery and greeting cards, computers, computer software and supplies, general books, health and beauty aids, and various food, beverage and snack items. A satellite bookstore is operated at the Palm Desert campus to serve students, faculty and staff at that location. Students, faculty and staff enjoy educational discounts on computer hardware, peripherals and software purchases.

Dining Services

(909) 537-4232 Dine On Campus at CSU San Bernardino (<https://dineoncampus.com/csusb/>)

Dining services and convenience stores are provided throughout the University. The new Coyote Commons Dining Hall and Howl & Growl retail zone, located on the east side of campus between Jack Brown Hall and parking lot G, is the perfect location to sit down and relax while enjoying a delicious meal. The All-You-Care-To-Eat seasonal menus include various fresh choices to satisfy every taste and appetite. Enjoy everything from brick oven pizza, a fresh pasta bar, favorite classics from the grill, international options, soup and salad bar, desserts, and made-to-order deli. The two-story facility offers a variety of seating accommodations and features a beautiful view of the mountains for a relaxed, upscale atmosphere.

The food-court-style eatery in the Santos Manuel Student Union South features appetizing options from regional brands Bobos Pizza, Wild Blue

Sushi, and Frutas El Coyote. There are also an assortment of food and beverage vending machines located adjacent to the food-court to satisfy your needs. National food chains Habit Burger and Panda Express are located on the first floor of Santos Manual Student Union North. The Blue Coyote Cantina, also located on the first floor, offers a lively ambiance and appealing menu specials.

The two campus Coyote Market convenience stores provide the perfect solution to the busy college lifestyle with a wide variety of pre-packaged sandwiches and salads, cold drinks, coffee, espresso drinks and tempting snacks - perfect for on-the-go dining. Scantrons, bluebooks and other supplies are also stocked for our students' convenience. Convenience store locations currently include Howl and Growl next to Coyote Commons and the first floor of the Center for Global Innovation.

Cash, credit, and Coyote One Card Dining Dollars are accepted at all campus food service locations.

The Starbucks coffee house is located on the first floor of the Library and offers a full menu of your favorite beverages and food items. The new Einstein Bros. Bagels located on the first floor of the College of Social & Behavioral Sciences brings the aroma of freshly baked bagels to the west side of campus with breakfast, lunch, and dinner options. The Einstein Bros. Bagel Express gives the campus the option to bypass the long lines and grab a coffee and a bagel or a grab 'n' go item.

Coyote Dining's Catering Department offers full-service catering for all types of on- and off-campus events including weddings, banquets, retirement dinners, special department luncheons, and private parties.

Supplemental Instruction

University Hall, Room 401.20

(909) 537-7320

Supplemental Instruction (<https://www.csusb.edu/supplemental-instruction/>)

Do you want to strengthen your understanding of material presented in course lectures and texts, develop both general and content specific learning strategies and study skills, and/or have the opportunity to review for exams and develop effective test taking strategies? If your response is yes to any of these, then Supplemental Instruction (SI) is the academic success resource for you!

SI is a research-based, locally proven method for helping students succeed in challenging courses by providing peer led, subject-matter discussion, support, and guidance for the strengthening of critical college skills. SI sessions meet twice a week for 50 minutes each (usually just after the content course lecture). SI is open to all students enrolled in the corresponding content course. Each SI session is limited to 20 students to maintain a small group learning environment. For more information about SI call (909) 537-4499 or email SI@csusb.edu.

Tutoring Center

University Hall, Room 350

(909) 537-5038

Tutoring (<https://www.csusb.edu/tutoring/>)

The Tutoring Center provides academic support to students enrolled in CSUSB courses on a walk-in basis. Tutors work collaboratively with students on coursework, strengthening study skills, and building academic confidence in a supportive, patient, and affirming atmosphere.

Drop-in tutoring in various subjects is available Monday through Friday. Please visit our website to find available subjects, days, and times.

Subject offerings vary by term and include:

- Accounting
- Biology
- Chemistry
- Economics
- Finance
- Mathematics
- Physics
- Statistics
- Study Skills

Math Coaching

Pfau Library, Room 210

(909) 537-3035

Math Coaching (<https://www.csusb.edu/academic-success-and-undergraduate-advising/services/academic-centers-excellence/math-coaching/>)

Individual and group math coaching provides students expert assessment and guidance in working through course content, assignments, and exam preparation. Match coaching is provided by Stephen Wentworth, a CSUSB Lecturer in the Department of Mathematics. Request an appointment with Stephen Wentworth (Swentwor@csusb.edu?subject=Math%20Coaching%20Request) by email.

Writing Center

College of Education, Room 310

(909) 537-5232

Writing Center (<https://www.csusb.edu/writing-center/>)

Writing consultants work with students who are composing specific writing projects as well as with faculty members who are incorporating writing as a mode of learning in their courses. Consultants offer individual conferences to students in all disciplines at all stages of their composing processes; conferences focus on interpreting assignments, discovering topics, expanding ideas, clarifying organizational strategies, incorporating counter-arguments, and citing references, as well as on editing and proofreading. Consultants also facilitate English conversation groups for multilingual and ESL students, helping them to negotiate the linguistic and cultural differences in oral and written composition.

The Writing Center Director and staff members are always available to consult with faculty members who are designing writing components for their courses, conduct in-class writing workshops in courses in all disciplines, and read and respond to manuscripts in preparation.

Lactation Rooms for Nursing Mothers

CSUSB and the Division of Student Affairs are committed to supporting students who need to express milk or nurse their child during hours of operation by providing lactation rooms in close proximity to their classes. These spaces are private, secure, and located on the San Bernardino and Palm Desert campuses. For more information for nursing mothers, visit the Division of Student Affairs website (<https://www.csusb.edu/human-resources/benefits/miscellaneous-benefits/lactation-room/>).

Requests for reasonable academic accommodations can be made to Services to Students with Disabilities at (909) 537-5238 or email

ssd@csusb.edu. For more information about the rights of a parenting student, please contact the Institutional Equity & Compliance at (909) 537-5669 or visit their website (<https://www.csusb.edu/institutional-equity-compliance/>).

Centers & Institutes

CSUSB maintains a number of officially recognized Institutes and Centers with each of them focusing on leveraging faculty, staff, and student expertise for the benefit of the region we serve. Below is a brief description of all officially approved CSUSB centers and institutes with contact information and website links.

Approved Centers

Aging, Center on

The Center on Aging at CSUSB is a university-wide interdisciplinary unit sponsored by the College of Social and Behavioral Sciences. It was created in order to unite people and resources at CSUSB to better respond to the needs of a rapidly aging population in the Inland Empire.

The goals of the Center on Aging are: (1) build strategic and lasting relationships between CSUSB, community-based organizations, and local governments in order to increase the quality of life for local older adults; (2) educate and train future professionals on the best practices for serving an aging population; and (3) conduct and disseminate world-class gerontology research.

Director: Eric Vogelsang, eric.vogelsang@csusb.edu, Department of Sociology, 909-537-5575

Visit the Center on Aging Website (<http://centeronaging.csusb.edu/>)

Community Counseling Center, CSUSB

The Community Counseling Center was established in 1973 as a training clinic to provide low-cost, longer-term counseling services for CSUSB students and staff, and for members of the community as well. The Center provides confidential, one-to-one counseling services for personal and emotional problems. The Center is staffed by faculty and graduate students in the Psychology Department at California State University, San Bernardino. Anyone experiencing problems in relationships, feeling anxious or depressed, or seeking help with other personal problems can receive confidential counseling from the Center.

Director: Christina Hassija, chassija@csusb.edu, (chassija@csusb.edu) Department of Psychology (909) 537-5481.

Visit the CSUSB Community Counseling Center Website (<http://www.csusb.edu/ccc/>)

Correctional Education, Center for the Study of

The Community Counseling Center (CCC) was established in 1973 as a training clinic to provide low-cost, longer-term counseling services for CSUSB students, alumni, and staff, as well as members of the larger San Bernardino community. The CCC provides confidential, one-to-one counseling services for personal and emotional problems to children, adolescents, couples, and adults. The CCC is staffed by graduate students working towards the requirements to become Marriage and Family Therapists in the state of California through the Psychology Department at California State University, San Bernardino. Individuals experiencing relationship issues, mild to moderate anxiety or depression, or seeking help with other personal and behavioral problems can receive confidential counseling from the CCC.

Director: Christina Hassija, chassija@csusb.edu, (chassija@csusb.edu) Department of Psychology (909) 537-5569

Visit the CSUSB Community Counseling Center Website (<https://www.csusb.edu/ccc/>)

Criminal Justice Research, Center for

The Center for Criminal Justice Research (CCJR) provides research and training services to communities, criminal justice agencies, and other organizations. Through grants and contracts with local partners, CCJR conducts innovative research activities to address current crime problems and security concerns. These partnerships between academia, practitioners, and the community are what keep the field moving forward. Director: Gisela Bichler gbichler@csusb.edu, Department of Criminal Justice, 909-537-5510

Visit the Center for Criminal Justice Research Website (<http://ccjr.csusb.edu/>)

Cyber Security Center

The mission of the Cyber Security Center is to promote and study the application of cyber security, computer forensics and other related information assurance topics. California State University, San Bernardino (CSUSB) is a national leader in cyber security education. Since 2008, the National Security Agency and the Department of Homeland Security. CSUSB has been designated as a Center of Academic Excellence (CAE) in Cyber Defense. The center runs many grant-funded projects and student scholarship initiatives.

Director: Tony Coulson tcoulson@csusb.edu 909-537-5768

Visit the Cyber Security Center Website (<http://iasm.csusb.edu/>) (cyber.csusb.edu) (<http://cyber.csusb.edu>)

Entrepreneurship, Inland Empire Center for

The Inland Empire Center for Entrepreneurship (IECE) is a multifaceted organization that supports and promotes entrepreneurship on campus and in the community through educational programs in entrepreneurship, business assistance services and advocacy. The focus of these efforts is on achieving impact – creating entrepreneurial startups and entrepreneurial managers, helping businesses in the community achieve new levels of success and raising the awareness of and support for entrepreneurship throughout the Inland Empire region. Notable programs include the Spirit of the Entrepreneur Awards, Garner Holt Student Fast Pitch Competition, Small Business Development Center, Women's Business Center and the Catalyst Student Business Accelerator.

Director: Michael Stull mstull@csusb.edu 909-537-5708

Visit the Inland Empire Center for Entrepreneurship Website (<http://entre.csusb.edu/>)

Global Management, Center for

The Center for Global Management is created in order to facilitate developing programs in international business and public administration and supports regional internationalization efforts for the benefit of the faculty, the students, and the local international communities.

Co-Director: Vipin Gupta vgupta@csusb.edu 909-537-5787

Co-Director: Frank Lin flin@csusb.edu 909-537-5700

Visit the Center for Global Management Website: *Coming soon!*

Hate and Extremism, Center for the Study of

The Center for the Study of Hate and Extremism at California State University, San Bernardino is a nonpartisan research and policy center that examines the ways that bigotry, advocacy of extreme methods, or terrorism, both domestically and internationally deny civil or human rights to people on the basis of race, ethnicity, religion, gender, sexual orientation, disability or other relevant status characteristic. The center

seeks to aid scholars, community activists, government officials, law enforcement, the media and others with objective information to aid them in their examination and implementation of law, education and policy.
 Director: Brian Levin blevin@csusb.edu, Department of Criminal Justice, 909-537-7711

Visit the Center for the Study of Hate and Extremism Website (<http://hatemonitor.csusb.edu/>)

Health Equity, Center for

The Center for Health Equity will promote and accelerate faculty research at CSUSB in health disparities through mentorship and training from nationally recognized health disparities scientists. It will also provide a link between health disparities-related community organizations and university members; advance the number of CSUSB students seeking graduate careers in health disparities; and disseminate CSUSB faculty research and scholarship in the area of health disparities.

Director: Monideepa Becerra mbecerra@csusb.edu 909-537-5969

Co-Director: Caroline Vickers cvickers@csusb.edu 909-537-5684

Visit the Center for Health Equity Website (<http://cphdrt.csusb.edu/>)

Indigenous Peoples Studies, The Center for

The university offers a certificate program in Native Nations and Indigenous Peoples Studies, overseen by the Center for Indigenous Peoples Studies in the College of Social and Behavioral Sciences. The course work provides students with a broad introduction to Native Nations and Indigenous Peoples, creating a foundation for students to pursue advanced study or possible in employment in related fields. The curriculum is multidisciplinary, bringing together a diverse faculty of specialists. Core courses focus Indigenous cultures, history, cultural resource management and preservation, sovereignty, world systems analysis and the arts. Students then select courses in consultation with the certificate coordinator in order to meet both the certificate requirements and their own individual interests.

Director: James V. Fenelon jfenelon@csusb.edu, Department of Sociology, 909-537-7291

Visit The Center for Indigenous Peoples Studies Website (<http://cips.csusb.edu/>)

International Studies and Programs, Center for

The International Institute develops programs to enhance intercultural communications and understanding. It provides coordination, facilitation, and support of campus-wide faculty and student international program development and supports regional internationalization efforts, international business and exchange programs.

Director: John Binkley, tkarma@csusb.edu (john.binkley@csusb.edu), (909) 537-3909

Visit the Center for International Studies and Programs Website (<https://goabroad.csusb.edu/>)

Islamic and Middle East Studies, Center of

The Center for Islamic and Middle East Studies (CIMES) at CSUSB serves as a flagship for international dialogue and academic excellence for students and faculty as well as the local and international communities. The Center supports research, lectureships, curriculum development and community outreach in order to advance the study of Islam and the Middle East.

Director: Ahlam Muhtaseb, amuhtase@csusb.edu, Department of Communication Studies, 909-537-5897

Visit the Center of Islamic and Middle East Studies Website (<http://cimes.csusb.edu/>)

Labor Studies, Center for

The Center for Labor Studies promotes the economic and social advancement in the Inland Empire. The Center develops knowledge about the labor market in the Inland Empire, disseminate this knowledge in a way that contributes to social and economic advancement, and focus the skills and energies of members of the CSUSB community on issues relevant to labor in the Inland Empire. Importantly, the Center will give CSUSB students opportunities for research and extracurricular activities that will enhance their intellectual and personal development and will permit them to undertake leadership roles in the Inland Empire and beyond.

Director: Eric Nilsson enilsson@csusb.edu, Department of Economics, 909-537-5564

Leonard Transportation Center

As the world becomes more interconnected through the processes of globalization, domestic and international policies become more intertwined. Transportation and transnational studies are interlinked, especially for areas such as the Inland Empire, through the movement of goods, people, and ideas. These in turn are tied to local communities' quality of life. The understanding of outside influences (transnational studies) helps to better understand local impacts, which leads to better solutions. The Leonard Transportation Center focuses on transnational and local policy studies and solutions to assist communities, students, faculty, and international partners work together to improve life in the Inland Empire.

Director: Dr. Kimberly Collins kimberly@csusb.edu 909-537-5036

Visit the Leonard Transportation Center Website (<http://leonard.csusb.edu/>)

Mathematics Education, Center for the Enhancement of

The Center for the Enhancement of Mathematics Education identifies, analyzes, and addresses the needs of both in-service and pre-service mathematics teachers in the Inland Empire. The Center has taken the lead in developing collaborative grant proposals for mathematics, science and technology education with the county offices of education and K-12 school districts within the Inland Empire Region and currently manages the Inland Counties Mathematics Project (the regional site of the California Mathematics Project), three National Science Foundation projects (Noyce Scholarships, Noyce Fellowships, and Algebraic Concepts for Elementary Students), and the Department of Education-funded Teaching English Learners Early Mathematics project.

Director: Jeremy Aikin jaikin@csusb.edu, 909-537-5375

Co-director: Madeleine Jetter mjetter@csusb.edu 909-537-5377

Co-director: Lynn Scow Lynn.Scow@csusb.edu 909-537-5373

Business Manager: Karen Lin ylin@csusb.edu 909-537-7574

Visit the Center for the Enhancement of Mathematics Education Website (<https://cns.csusb.edu/ceme/>)

Media Arts Center (CAL MAC)

The College of Arts & Letters Media Arts Center is dedicated to the creation, production, and analysis of the media arts. It serves the region, the CSU, and the nation by providing a focus for interdisciplinary activities. The center's interests encompass film studies, video, photography, design, performance, music, press releases/articles, scripts/screenwriting, and all other print and electronic arts that are used to communicate

messages. The CAL-MAC supports the development of cross-disciplinary curricula, scholarship, artistic projects, activities, and outreach. Visit the Media Arts Center Website (<http://artsletters.csusb.edu/>)

Second Language Acquisition, Center for the Advancement of

The CSUSB Center for the Advancement of Second Language Acquisition provides workshops for Inland Empire teachers to enhance their skills. The center presents programs honoring K-12 student achievements and provides enrichment activities. It also provides scholarships for students and teachers to attend summer seminars at UC Santa Barbara. Director: World Languages and Literatures Department Chair 909-537-5847

Visit the Center for the Advancement of Second Language Acquisition Website (<http://flan.csusb.edu/>)

Teaching English Learners, Center for

The Center for Teaching English Learners serves as a resource center for prospective and practicing teachers whose classroom teaching is impacted by the presence of culturally and linguistically diverse (CLD) learners and who seek innovative strategies for teaching English; as a materials development laboratory for educational master's projects in the area of teaching English to speakers of other languages, as a resource and referral service for partnership school districts who seek training for teachers, and as locus for initiation of grant proposals in the area of providing high-quality education for English learners.

Director: Lynne Diaz-Rico diazrico@csusb.edu 909-537-5658

University Center for Developmental Disabilities

The UCDD provides evaluation, assessment, training, and support for autistic children, their parents and siblings. This is a clinical training program in the College of Education which focuses on Special Education credential programs in cooperation with the departments of Nursing, Social Work, and Psychology. The clinical program is under contract with the County Regional Center for client services.

Director: Dwight Sweeney dsweeney@csusb.edu 909-537-5495

Visit the University Center for Developmental Disabilities Website (<https://csbs.csusb.edu/icdfr/funded-projects/university-center-developmental-disabilities/>)

Watson and Associates Literacy Center

The Literacy Center offers tutoring in reading, writing and oral language for students across the K-12 grade levels as well as adults seeking empowerment and better life opportunities through literacy. Trained staff members pinpoint specific and general needs of children, adolescents and adults then design and implement remedial programs based on each individual's needs. This assessment and instructional emphasis is complemented by a research component.

Director: Catherine Terrell cterrell@csusb.edu 909-537-5697

Visit the Watson and Associates Literacy Center Website (http://literacy.csusb.edu/affiliates_watson.html)

Approved Institutes

Applied Research and Policy Analysis, Institute of

The Institute is a full-service consulting and applied research organization. The purpose of the Institute is to provide a variety of research and

consulting services to public agencies, business organizations, and individuals within the university's service area and beyond. It provides customized research so that each client receives thorough, timely, practical and accurate information tailored for the decision-making needs of the particular organization. The institute advises in multiple disciplines, drawing knowledge through social and public policy research, surveys, feasibility studies, marketing studies and program evaluations. Director: Barbara Sirotnik bsirotni@csusb.edu 909-537-5729 Visit the Institute of Applied Research and Policy Analysis Website (<http://iar.csusb.edu/>)

Child Development and Family Relations, Institute for

ICDFR is the umbrella organization, which covers many child and family related sub-projects established through partnerships between CSUSB and the surrounding community. Established in 2002, our mission is to promote the optimal development and well-being of the children and families in our geographic region. We do this through conducting research, providing services, and educating future professionals. The Institute draws upon the strengths and expertise of faculty throughout the university, who have devoted their careers to researching and teaching subjects related to both child development and the family dynamic.

Director: Mark Agars magars@csusb.edu, Department of Psychology 909-537-5433

Visit the Institute for Child Development and Family Relations Website (<http://icdfr.csusb.edu/>)

Inland Commerce and Security Institute

The mission of the ICSI is to promote the study, analysis and policies associated with the region's commerce and allied security activities. Further, the ICSI will become a center of excellence serving the commerce and security needs and aspirations of our students, faculty and community.

Executive Co-Director: C.E. Tapie Rohm, Jr. trohm@csusb.edu, 909-537-5786

Executive Co-Director: Jay Varzandeh, jvarzand@csusb.edu, 909-537-5730

Learning Research Institute

The CSUSB Learning Research Institute (LRI) promotes an interdisciplinary scholarly focus on the student learning experience and how it may be improved. The Institute supports this focus by sponsoring and conducting research activities that examine the cognitive, neurobiological, and environmental variables that contribute to the academic success of our diverse student body.

Co-Director: Jason Reimer jreimer@csusb.edu, Department of Psychology, 909-537-5578

Co-Director: Hideya Koshino hkoshino@csusb.edu, Department of Psychology, 909-537-5435

Visit the Learning Research Institute Website (<http://lri.csusb.edu/>)

Research, Assessment & Professional Development, Institute for

The Institute for Research, Assessment & Professional Development provides opportunities across the three domains of the institute (i.e., research, assessment, professional development) to enhance collaborations between program areas, faculty, graduate students and partnering activities with community agencies, such as the Department of Rehabilitation, Veterans Affairs, School Districts, Department of Corrections, and related community agencies. Services include (1)

Comprehensive Vocational Evaluations and Situational Assessments for individuals receiving services from the Department of Rehabilitation and (2) Neurofeedback interventions for the treatment of ADD/ADHD, anxiety, autism/Asperger's syndrome (mild-moderate), academic/performance enhancement, cognitive decline, conduct disorder, depression, stroke, post-traumatic stress disorder (PTSD), and other conditions. Neurofeedback (visit the Neurofeedback website (<http://neurofeedback.csusb.edu/>)), also known as cognitive rehabilitation or EEG biofeedback, is a ground-breaking technique that challenges the brain to better function. This powerful brain-based technique has been successfully helping clients around the world for more than 30 years. It is a noninvasive process with dramatic results for a multitude of symptoms. The effectiveness of neurofeedback for adults and children with a wide variety of symptoms has been repeatedly concluded in numerous research studies. Neurofeedback works by training the brain to function at its maximum potential, which is similar to the way the body is exercised, toned and maintained. The technology is safe and effective for children and adults ages 5 to 95.

Director: Connie McReynolds cmcreyno@csusb.edu 909-537-5453 / 909-537-5681

Visit the Institute for Research, Assessment & Professional Development Website (<https://coe.csusb.edu/institutional-research-assessment-professional-development/>)

Water Research Institute

The Water Resources Institute supports, coordinates and conducts regional and state wide policy analysis and research in all water-related areas. It has an extensive collection of current Geographic Information System-based data and historical records related to water, including aspects such as water rights, quantity, quality, treatment, and management. The institute also provides instruction in the form of federally-funded education programs, workshops, courses, certificates, and degree programs in water resources.

Director: Boykin Witherspoon bwithers@csusb.edu 909-537-7684

Visit the Water Resource Institute Website (<http://wri.csusb.edu/>)

Similar Organizations

Economic Education, California Council on

Statewide headquarters of the California Council on Economics Education which supports and encourages programs that provide K-12 teacher training in the economics method/enhancing K-12 economics curricular offerings to include information on the US economy, the world economic system, and the economic content of various social and political issues.

Student Life

Office of the Vice President for Student Affairs

Santos Manuel Student Union South, Room 222
(909) 537-5185 Student Affairs website (<https://www.csusb.edu/student-affairs/>)

The Office of the Vice President for Student Affairs provides administrative leadership within the division and the university to assist students in attaining their educational goals. This is accomplished through advocacy for providing numerous student services and intentionally creating programs and environments that enhance a student's learning, leadership potential, personal responsibility, and career development. This office administers specific policies regarding student non-academic and discrimination-related grievances, discipline, and emergency calls for students. A more complete statement on student privacy rights is available in the Academic Regulations and Standards (p. 128) section of the Bulletin of Courses.

Activities

The diverse interests and lifestyles of students are reflected in numerous activities sponsored by the university, the Santos Manuel Student Union (SMSU), and Associated Students Inc. (ASI). These programs include dances, drama productions, choral concerts, semesterly festivals, musical concerts, guest lecturers, and small group socials.

The university, SMSU, and ASI encourage and aid the formation of organizations that enhance students' educational opportunities. These organizations involve students, faculty, and staff working together in professional, recreational, educational, political, service, religious, and cultural activities. University-recognized groups have full use of campus facilities in planning their programs.

To get involved at CSUSB, visit Coyote Connection (<https://csusb.campuslabs.com/engage/>) to find campus events, learn about specific student clubs and organizations, sororities, and fraternities, and explore a variety of campus-wide engagement opportunities.

Alumni Association

(909) 537-3700 Alumni Association website (<http://alumni.csusb.edu/>)

Your CSUSB Alumni Association strives to serve and unite alumni for the purpose of advancing CSUSB and the community. Staying connected to other CSUSB alumni and giving back to your alma mater has never been easier! A portion of every alumni association membership fee is donated to our endowment to support programming, events, chapters, student success, and more.

Associated Students, Inc. (ASI)

(909) 537-5932 ASI website (<https://www.csusb.edu/asi/>)

The Associated Students, Incorporated (ASI) serves, empowers, and advocates on behalf of the students at California State University, San Bernardino, through the representation of student interests and needs, the inclusion of students in the decision-making process, the execution of premier events and services, and the provision of opportunities for students to be productive leaders of the campus community and beyond. Some of the services we offer are:

- **CAB Funding:** The Club Allocation Budget funds chartered campus clubs and organizations for on-campus events and conferences. For more information about the process of applying, contact the Vice President of Finance at asi-finance@csusb.edu or (909) 537-3936.
- **Graphic Design:** The ASI Graphics team provides a variety of design services for chartered student clubs and organizations at no cost. For more information, call (909) 537-7723 or send an email to asi-graphics@csusb.edu.
- **Howl Squad:** ASI's volunteer program offers CSUSB students a chance to get involved in ASI through various leadership opportunities. Students can choose to be part of the event planning process by helping with ASI events or participate in the governance process by serving as a student representative on campus-wide committees. For more information, visit www.csusb.edu/asi/howl-squad (<http://www.csusb.edu/asi/howl-squad/>).
- **Programming:** ASI hosts events to engage students in curricular and co-curricular activities that foster a sense of community and campus pride. For information about upcoming events or to submit event ideas, contact asi-programs@csusb.edu.
- **Scholarships:** As a commitment to academic success, ASI offers scholarships through its general fund as well as to the Athletic and Presidential Academic Scholars programs.
- **Coyote Garden:** Offering campus community engagement, the garden is cultivated by students who help grow food for campus events and the Coyote Den for distribution back to the student population. Please contact asi.sustainability@csusb.edu.

Athletics

Athletics website (<https://csusbathletics.com/>)

CSUSB Athletics began in the fall of 1984 and sponsors 10 sport programs. It is a member of the National Collegiate Athletic Association (NCAA) Division II and the California Collegiate Athletic Association (CCAA).

Admission to all home athletic contests is free to CSUSB students with valid student ID. All volleyball, soccer, basketball, and softball home contests take place on the CSUSB campus. The Coyotes baseball team competes at Fiscalini Field in San Bernardino.

The "Yotes" are winners of a 2019 NCAA national championship, 15 regional championships, and 29 conference titles. The Coyote Athletics

program promotes Champion Student-Athletes, Champion People, and Champion Performances.

Department of Basic Needs and Student Support

Santos Manuel Student Union South 118

(909) 537-FOOD (3663)

Email: BasicNeeds@csusb.edu

Department of Basic Needs & Student Support Website (<https://www.csusb.edu/basic-needs/>)

Basic Needs & Student Support Department, services and programs promote holistic well-being development of the student from entry, throughout progress, and beyond completion. We **engage** students inside and outside the classroom to provide basic needs services such as: food, housing, health and wellness, clothing, personal essentials, and financial resources. By **connecting** our students to support programs, we aim to increase persistence and completion, while empowering students to persevere and thrive in their educational journey.

Services and programs offered includes Obershaw DEN, PDC DEN, come grab a snack, Swipe Out Hunger, Cody's Closet - personal care and hygiene items, Holistic Advising, Emergency Grants, Emergency Housing placement, and CalFresh Assistant

SBC is located in the Santos Manuel Student Union South 118, and The PDC DEN is located in Health Science 118.

Career Center

(909) 537-5250 Career Center website (<https://www.csusb.edu/career-center/>)

Mission

Empowering students and recent alumni, the CSUSB Career Center is dedicated to fostering a comprehensive career readiness skill set that aligns with the evolving global market. Through a blend of exploration, tailored programming, and immersive experiential learning, we guide individuals in achieving their personal and professional aspirations while staying true to the spirit of CSUSB's commitment to student success, research, and regional engagement. By nurturing the holistic growth—professionally, ethically, and intellectually—of our students, alumni, faculty, and staff, we actively promote inclusive environments across industries.

Signature Programs and Services include:

- **On-Campus Recruitment:** The Career Center hosts 7-8 career fairs per academic year including one Graduate School Fair, with 300 plus employers and 50 plus graduate programs every year. In addition to job and internship fairs, recruitment opportunities include networking sessions, employer led workshops, and meet & greets.
- **Handshake:** A free online platform for CSUSB students and alumni to explore and apply for jobs/internships, view upcoming career fairs, panels, and workshops each semester.
- **Career Counseling:** Counselors are available to assist you with choosing, changing your major, career exploration, identifying internships, writing a résumé or cover letter, mock interviews, conducting a job search, and graduate school preparation.

- **Professional Development Programs: The Career Center hosts a series of professional development programs that serve to prepare students for engagement and recruitment opportunities.** Our Career Fair Prep Week is a series of workshops hosted by employers on topics ranging from resume, interviewing, and networking. In addition, the Career Center leads coordination of **Hispanic Association of Colleges and University (HACU) Conference** on behalf of the campus and provides students with a two-day preconference to prepare students for the annual event and HACU's award programs.
- **Clothing Resources:** The departments of Basic Needs and Student Support & the Career Center have partnered to relaunch Cody's Closet (<https://www.csusb.edu/career-center/career-resources/career-clothing-resources/>). The purpose of the clothing closet is to provide CSUSB students with daily personal wear and professional clothing to address clothing insecurities. Cody's Closet provides a FREE clothing resource for CSUSB students to access professional attire appropriate for career fairs, interviews, networking events, and the workplace. Professional attire available includes suits, blazers, skirts, button-down shirts, ties and more. Our aim is for students to feel confident and secure.
- **Internships:** We offer the Career Center Internship Award (<https://www.csusb.edu/career-center/students-alumni/internships/internship-awards/>) each academic year to support students participating in an internship opportunity, including assistance with connecting with relevant resources to find on- and off-campus internships year-round.

Children's Center

(909) 537-5928 Website (<https://www.csusb.edu/childrens-center/>)

The Children's Center's mission is to enable parents of young children to attend CSUSB by providing a preschool program and childcare in a nurturing environment which supports the developing child. Services are also available for staff, faculty, and community as space permits. The Center is open during the academic year (Monday through Friday, 7:00 a.m.-5:30 p.m.) and during Summer Session (Monday through Thursday, 7:00 a.m.-5:00 p.m., closed Fridays). Ages: 3 years (toilet trained) to 5 years. The school-age program only runs during the summer term and serves children from the ages of 6-12. Additional information regarding fees and availability may be obtained from the Children's Center.

Counseling and Psychological Services (CAPS)

Accredited by the International Association of Counseling Services

Student Health Center Building, West Entrance

(909) 537-5040 Counseling and Psychological Services website (<https://www.csusb.edu/caps/>)

Support from Counseling and Psychological Services is available to currently enrolled students for assistance with personal issues that may interfere with their efforts to achieve their educational or life goals, including adjustment to campus life, loneliness and sense of belonging, relationship concerns, anxiety, depression and other mood concern, grief, trauma, or any other issue of concern. An initial session includes assessment of presenting concerns and recommendations for further counseling at CAPS or referral to community resources. CAPS provides individual counseling, couples counseling, group counseling, and case management. CAPS also offers workshops on a wide variety of mental health related topics. All services are offered in person and

virtually. CAPS is staffed by Licensed Clinical Psychologists, Licensed Marriage and Family Therapists, Licensed Clinical Social Workers, Licensed Professional Clinical Counselors and supervised graduate and post-graduate interns. Fees for CAPS are covered by the health fee paid at the time of enrollment. Although the demand for counseling services is considerable, appointments are usually made within two weeks of the student's initial contact. If students have more urgent needs, they may be seen for same day walk in appointments. To schedule an assessment, call (909) 537-5040. Open Monday through Friday, call for hours. After-hours support can be obtained by calling the main CAPS phone number and selecting the option to speak with a mental health professional.

Community Engaged Learning

(909) 537-5793

Office of Community Engaged Learning

The Office of Community Engaged Learning (OCEL) facilitates service learning, community-based research, and academic internships by engaging students, faculty, staff, and community partners in collaborative partnerships that serve the public good. We lead the university-wide culture of community engagement as a high-impact practice that contributes to student success. Contact us at: leaveyourpawprint@csusb.edu.

Housing and Residential Education

Cajon Hall-127 (Coyote Village)

(909) 537-4155 Housing and Residential Education website (<https://www.csusb.edu/housing/>)

Live with the Pack

The Department of Housing and Residential Education (DHRE) takes pride in providing services to students in a safe, well-maintained, inclusive residential community that supports student success. By fostering a healthy living and learning environment and opportunities for holistic growth and development, DHRE supports students as they pursue academic, personal, and professional goals.

Living on campus is convenient (no commute) and provides residents access to all the great academic and social resources campus has to offer. Residents have a unique opportunity to explore who they are while living in a supportive community of other students, faculty, and staff. Additionally, DHRE offers numerous Living Learning Communities (<https://www.csusb.edu/housing/life-campus/living-learning-communities/>) that support the personal development and academic success of first year, transfer, and continuing residents.

Visit the DHRE website (<https://www.csusb.edu/housing/>) for more information about the residential experience, how to apply for on-campus housing, or to take a virtual tour.

Office of Ombuds Services

Due to ongoing budgetary reductions, the Office of Ombuds Services closed January 1, 2024. We have multiple resources on campus that students, faculty, and staff can utilize to ensure safe spaces to resolve conflicts and bring systemic concerns to the administration's attention for responsible and impartial resolution. Below is a partial listing of these resources:

Student Resources:

- ASUA (<https://www.csusb.edu/academic-success-and-undergraduate-advising/>) (Academic Success & Undergraduate Advising) – (909) 537-5032
- CAPS (<https://www.csusb.edu/caps/>) (Counseling & Psychological Services) – (909) 537-5040
- CARE Team (<https://www.csusb.edu/care-team/>) (Campus Assessment, Response & Education) – (909) 537-2273
- Office of the Dean of Students (<https://www.csusb.edu/node/524604/>) – (909) 537-5185
- SSD (<https://www.csusb.edu/ssd/>) (Services to Students with Disabilities) – (909) 537-5238

Faculty and Staff Resources:

- EAP (<https://www.csusb.edu/human-resources/current-employees/benefits/employee-assistance-program/>) (Employee Assistance Program) – (909) 537-5138
- FAD (<https://www.csusb.edu/faculty-affairs-development/>) (Faculty Affairs & Development) – (909) 537-5029
- Employee & Labor Relations (<https://www.csusb.edu/human-resources/current-employees/employee-relations/>) – (909) 537-5138

Students, Faculty, & Staff:

- UPD (<https://www.csusb.edu/police/>) (University Police) – (909) 537-7777
- IEC (<https://www.csusb.edu/institutional-equity-compliance/>) (Institutional Equity & Compliance) – (909) 537-5669

Sincerely,

Toma#s D. Morales
President

New Student Orientation and Family Programs (NSOFP)

(909) 537-5233 | [New Student Orientation and Family Programs website \(https://www.csusb.edu/orientation/\)](https://www.csusb.edu/orientation/)

New Student Orientation and Family Programs is dedicated to fostering a welcoming and inclusive environment for newly admitted students and their families as they transition into university life. Through a broad range of informative and engaging programs and services, the office plays a pivotal role in promoting academic success, campus resource awareness, and student engagement needed to better manage their transition into the university and help set them up for success here at CSUSB. These transition programs prepare students for academic success, provide knowledge of university resources, encourage involvement in student activities, and help build meaningful relationships. Each orientation program is designed to minimize anxiety and to promote positive attitudes about student success on campus.

In addition to its core programming, the office emphasizes student leadership development by recruiting and training a dynamic team of student Orientation Leaders. These peer ambassadors serve as guides, mentors, and role models, fostering a sense of belonging and connection within the Coyote family. Applications are available in the fall, with training and the primary workload being in spring and summer.

By offering high-impact transitional experiences, the New Student Orientation and Family Programs Office cultivates an environment where

new students and their families can build meaningful relationships, gain confidence in navigating university life, and embark on a successful academic journey.

Santos Manuel Student Union (SMSU)

(909) 537-5940 SMSU website (<https://www.csusb.edu/smsu/>)

The Santos Manuel Student Union (SMSU) North and South buildings serve as a welcoming space for all students to socialize, relax, study, and participate in the campus community. SMSU programs, facilities, and centers offer a diverse range of cultural, social, educational, and recreational activities that support the development of students. Additionally, these services provide free resources such as snacks, school supplies, and personal care items.

SMSU North offers a variety of amenities and services to enhance the student experience. The first floor features the Coyote Lanes Bowling Alley, Coyote Cantina, Coyote Bookstore, The Habit Burger Grill, Panda Express, pool tables, and dining areas. The second floor boasts a spacious 12,000 square foot conference center, an outdoor plaza deck, and numerous spaces for relaxation or study. The third floor houses a variety of cultural centers designed to create safe spaces, foster community, and provide co-curricular programs for students. This includes the APIDA Center, First Peoples Center, Latinx Center, Pan-African Student Success Center, Osher Adult Re-Entry Center, Queer & Transgender Resource Center, and the Women's Resource Center. It also houses Associated Students Incorporated, the Undocumented Student Success Center, and the Office of Student Leadership & Engagement.

SMSU South houses multiple resource centers, campus departments, meeting rooms, lounge space, and study areas for students. The first floor features a multi-purpose Events Center, Financial Literacy Center, The Retreat, Career Center, multiple dining areas, theater, and a state-of-the-art Esports Arena. The second floor includes the Graduate Student Success Center, Program Board office, SMSU Marketing offices, the Office of the Vice President for Student Affairs, the Obershaw DEN, Basic Needs & Student Support, Coyotes Achieve, the Career Center, and the Office of First Year Experience.

For more information on events, facilities, and updates, visit the SMSU website at www.csusb.edu/smsu or follow us on social media @csusb.smsu.

SMSU centers and departments include:

Asian, Pacific Islander, and Desi American Center: SMSU North (SUN-3310)

The Asian, Pacific Islander Center (APIDAC) creates an inclusive space fostering social justice, equity, and student success. Through engaging educational events and community participation, the center affirms and celebrates cultural identities within the API community on campus.

Cross-Cultural Center: SMSU North (SUN-3306)

The Cross-Cultural Center (CCC) invites students to explore issues of identity, ethnicity, and cultural diversity across all backgrounds. Offering programs and services that contribute to personal, educational, cultural, social, political, and professional growth, the CCC also aims to build a sense of community for students from underrepresented backgrounds.

First Peoples Center: SMSU North (SUN-3309)

The First Peoples Center (FPC) is dedicated to supporting the academic achievement and personal success of First Peoples' students while

promoting and celebrating traditional heritage at CSUSB. Its programs and services create innovative learning-centered opportunities for students.

Latinx Center: SMSU North (SUN-3308)

The Latinx Center (LC) offers a dynamic and inclusive environment for Latinos/as/x and allies. Striving to foster leadership opportunities and build community through culture, advocacy, and customs, the center is committed to recruiting, retaining, and graduating Latinx students at CSUSB.

Pan-African Student Success Center: SMSU North (SUN-3307)

The Pan-African Student Success Center (PASSC) supports the academic success, cultural awareness, leadership, and personal development of people of the African Diaspora. Its programs and services provide students with a sense of self-worth by focusing on academic excellence, cultural awareness, leadership development, personal development, and proactive community engagement.

Osher Adult Re-Entry Center: SMSU North (SUN-3316)

The Osher Adult Re-Entry Center (OARC) serves non-traditional/adult re-entry students, facilitating their transition to or return to university life. Acting as a bridge, the center provides programs and resources to enhance the college experiences of adult/transfer students.

Queer and Transgender Resource Center: SMSU North (SUN-3315)

The Queer and Transgender Resource Center (QTRC) serves the greater campus community through education, advocacy, and social justice. It focuses on creating an inclusive and supportive environment for all university members, including LGBTQIA+ students and allies. QTRC programs and resources educate and advocate on issues such as homophobia, heterosexism, inclusive language, and other sexual orientation or gender identity issues.

Women's Resource Center: SMSU North (SUN-3314)

The Women's Resource Center (WRC) provides support for students by offering a variety of programming and resources that focuses on the lives of women. Committed to addressing sexism and discrimination, the WRC provides a space for students to gather, receive support, and learn tools for social change.

Financial Literacy Center: SMSU South (SUS-111)

The Financial Literacy Center (FLC) empowers students to confidently navigate their finances in a way that supports their overall well-being. Through workshops, coaching, and collaborative efforts, the center equips students with knowledge, skills, and motivation to develop healthy financial habits.

E-Sports Arena: SMSU South (SUS-118)

The SMSU E-Sports Arena (SUS-118) provides a space for students to unwind, socialize, and enjoy free video gaming sessions. The center hosts free competitions, events, and training throughout the semester to help students de-stress and build community within their peers.

Graduate Student Success Center: SMSU South (SUS-202)

The Graduate Student Success Center (GSSC) provides support and community to graduate students at CSUSB. Serving as an information hub from orientation to graduation and beyond, the center supports academic success through tailored workshops, programs, panels, collaborative efforts, and networking opportunities.

Rancho Mirage Student Center: Palm Desert Campus (RG-111)

The Rancho Mirage Student Center (RMSC) serves as the campus social hub for students at the Palm Desert Campus. It provides resources and

support that emphasize student success, retention, and graduation rates through student engagement in extra-curricular activities. It strives to enrich the University experience and campus life through entertaining and educational events and activities for students.

Services to Students with Disabilities (SSD)

University Hall, Room 183
(909) 537-5238, TTY (909) 537-7230
Fax: (909) 537-7090, Email: ssd@csusb.edu
Services to Students with Disabilities website (<http://ssd.csusb.edu>)

The Office of Services to Students with Disabilities (SSD) strives to empower students with disabilities by fostering skills, such as self-advocacy, resourcefulness, and independence. The SSD office works collaboratively with the campus community to remove barriers, promoting an enriched learning environment where students with disabilities can utilize their skills and pursue their academic and personal development goals.

SSD provides academic accommodations to students who have a documented permanent or temporary disability. All students who are registered with the office are provided with an equal opportunity to participate in programs, services, and activities.

Some of the support services available include but not limited to alternate media, notetaking, smartpens, sign language interpreting and real-time captioning services for the hearing impaired, test-taking accommodations, priority registration, mobility assistance, and temporary medical parking permits. The SSD office is also a resource to faculty and staff members who help students with disabilities meet their educational objectives.

The SSD Office, in collaboration with the California State Department of Rehabilitation (DOR), provides the WorkAbility IV program. WorkAbility IV is designed to create career opportunities for CSUSB students with disabilities that are consumers of DOR. Knowledgeable staff assists registered students with résumé writing and cover letter development; job search skills, strategies, and resources; preparation for job fairs and interviews; networking and personal brand development; internships; job leads and placements; and Federal employment advising (Schedule A and Workforce Recruitment Program).

Both prospective and new students to the university are encouraged to contact SSD early in their CSUSB academic program.

Student Clubs and Organizations

Office of Student Leadership and Engagement
(909) 537-5234 Office of Student Leadership and Engagement website (<https://www.csusb.edu/student-engagement/>)

Student Clubs and Organizations

CSUSB is home to more than 100 student clubs and organizations that offer a wide range of roles and responsibilities. Clubs and organizations provide ready-made laboratories for students to strengthen their leadership skills and opportunities to test classroom learning in a real-world setting. They create their very own experiment with different roles, which help identify strengths, weaknesses, and preferences. Academic, cultural, faith-based, service, and special interest organizations are just a few examples of the types of clubs available to students. Membership in a club or organization is an excellent way to enjoy all the benefits that college life has to offer and to help students find their community. Students will learn how to lead an organization, manage effective

meetings, and conduct elections, as well as develop communication, mediation, and public-speaking skills.

Fraternity and Sorority Life

Fraternity (<https://www.csusb.edu/student-engagement/>) and Sorority membership is a great way to get involved on campus. CSUSB is home to 18 national fraternities and sororities. The fraternity and sorority community at California State University, San Bernardino has had a long rich history dating back to 1986. Since that time, they have had a continued and active presence on campus. The University is supportive of the goals and ideals of the fraternity and sorority community, which complement the mission of the institution. These ideals include academic achievement, personal development, leadership, campus involvement, community service and civic responsibility, and responsible social conduct. In addition to the fraternities and sororities on campus, governing councils and Greek Honor Societies exist to foster relationships between the organizations and set high scholarship standards.

National Student Exchange Program

National Student Exchange (NSE) offers study opportunities at over 150 diverse university settings across the US, US territories, and Canada and provides access to a wide array of courses and programs. Program benefits include academic, cultural, and personal experiences that will enhance the student's undergraduate education. NSE features a tuition reciprocity system that allows students to attend their host institution by paying either the in-state tuition/fees of their host institution or the normal tuition/fees here at Cal State San Bernardino. NSE students can exchange for a single term or a full academic year. Course work completed while on exchange at the host campus is brought back to the home institution and credited to the student's degree program.

Student Conduct and Ethical Development (SCED)

University Hall, Room 346
(909) 537-7172, Email: student-conduct@csusb.edu
Student Conduct and Ethical Development website (<https://www.csusb.edu/student-conduct/>)

The Office of Student Conduct and Ethical Development is responsible for upholding the *Standards for Student Conduct* and educating students on their social and ethical responsibilities as members of our University community. Student Conduct Administrators facilitate educational

conversations, experiences, and programs that promote student success, enhance learning experiences, and seek to engage students in intentional ways with their communities. The staff comprising the Office of Student Conduct and Ethical Development are committed to ensuring students have safe and healthy living and learning environments in which they are able to engage in campus life, interact with people who have a variety of beliefs and lived experiences, and participate in activities that encourage growth and curiosity, as well as scholarly and creative activity. Being a part of the Coyote community includes responsibilities for students to safeguard the academic mission of the institution; abide by federal, state, and local laws; and uphold the *Standards for Student Conduct*, University policies, and regulations to maintain a culture of integrity both in and out of the classroom.

The Office of Student Conduct and Ethical Development responds to a variety of behavioral concerns, including academic dishonesty and behavioral complaints. Behavior that is not consistent with the Standards for Student Conduct (<https://www.csusb.edu/sites/default/files/upload/file/Student%20Code%20of%20Conduct.pdf>) (Title 5, §41301, California Code of Regulations) or conducive to promoting a safe living and learning community is addressed in accordance with Executive Order 1098 Revised (August 14, 2020) – Student Conduct Procedures (<https://calstate.policystat.com/policy/8453518/latest/>). Copies of the *Standards for Student Conduct* and *Student Conduct Procedures* are available online (<https://www.csusb.edu/student-conduct> (<https://www.csusb.edu/student-conduct/>)) or via the Office of Student Conduct and Ethical Development, University Hall, Room 346.

Program staff are also available as a resource for consultation and to provide educational workshops or presentations upon request.

Student Health Center (SHC)

Accredited by the Accreditation Association for Ambulatory Health Care (909) 537-5241 Student Health Center website (<https://www.csusb.edu/student-health-center/>)

Office hours are:

Monday, Wednesday and Thursday: 8:00 a.m. - 5:00 p.m. and Tuesday and Friday: 9:00 a.m. - 5:00 p.m.

The Student Health Center is closed on official university holidays and campus closure dates. Summer hours may vary. Please check the SHC website for availability.

The CSUSB Student Health Center (SHC) supports students' academic success by providing high quality accessible health and psychiatric care as well as health education and wellness services in a safe, confidential and compassionate environment.

We are staffed with caring doctors, physician assistants, nurse practitioners, nurses, medical assistants and health educators. Our services include: limited primary care and psychiatry, immunizations, TB skin tests, labs, prescriptions, physicals, contraception, first aid, reproductive health, medication abortion and care for minor illnesses. The SHC on the San Bernardino campus is also conveniently equipped with a pharmacy and laboratory. On the Palm Desert Campus, students obtain services off campus for prescriptions and lab orders.

The Department of Health Promotion empowers students to achieve optimal health and well-being through engaging and interactive health education programs and activities. Hosted by professional health educators and well-trained peer health educators, these programs

promote not only healthier lifestyles but also a healthier campus culture and an enhanced learning environment.

All regularly enrolled students pay a student health fee and are eligible for health services. There is no fee for office visits, however fees may apply for physicals, laboratory testing, prescriptions, vaccines and other services. Care beyond our scope may be referred out.

Basic health care is provided by the Student Health Center, however, major illness and injury, as well as certain conditions requiring a specialist or hospitalization, are beyond our scope of service. Students requiring additional care will be referred to an outside provider. Students are encouraged to maintain health insurance to help cover the cost of health care received outside the Student Health Center.

Student Health Advisory Committee (SHAC): Students can offer important feedback about services and participate in campus-wide health initiatives through membership on the Student Health Advisory Committee (SHAC). SHAC members work with clinic staff on a variety of critical issues, health education projects, and also act as liaisons between the CSUSB student body and the Student Health Center.

For the latest information on COVID-19, please visit the Return of the Pack website (<https://www.csusb.edu/covid-19/>)

Student Immunization Requirements

CSUSB has implemented the following requirements and recommendations in accordance with the California State University (CSU) Policy (Executive Order 803) on immunization requirements and the CSUSB Student Immunization Policy (<https://www.csusb.edu/policies/student-immunization-policy/>). These policies apply to undergraduate and graduate students¹, students¹ matriculated in self-support degree programs and K-12 students¹ participating in concurrent enrollment courses entering the CSU.

Required Immunizations

CSUSB requires that students are current for the immunizations listed below. This requirement is not an admission requirement but is a condition of enrollment at CSUSB for undergraduate and graduate students¹, students¹ matriculated in self-support degree programs and K-12 students¹ participating in concurrent enrollment courses entering the California State University (CSU).

Required Immunizations:

- **Measles, mumps and rubella (MMR):** Two doses with the first dose on or after the first birthday; OR positive titer (laboratory evidence of immunity to disease)
- **Hepatitis B (Hep B):** Students age 18 and younger are required to complete the series. Based on the type of vaccine, the series is either two or three doses. (California Health & Safety Code, Section 120390.5)

Recommended Immunizations and Screenings

Recommended Immunizations to Reduce Outbreaks:

- Influenza (flu): Annually for all students, regardless of age.
- Meningococcal Conjugate (Serogroups A, C, Y, W-135): At least one dose at age 16 or older for students through age 21.
- Meningococcal B (Meningitis B): Complete series, may be two or three doses, for students age 16 through 21.

- Tetanus, diphtheria, pertussis (Tdap): One dose within the last ten years.

Other Vaccines Recommended for Adults:

- Hepatitis A (Hep A): All students regardless of age.
- Hepatitis B (Hep B): Students age 19 and older.
- Human Papillomavirus (HPV): For all students through age 45.
- Pneumococcal: For all students age 65 and older and for students with certain medical conditions (e.g., severe asthma, diabetes, chronic liver or kidney disease)
- Poliovirus (polio): Regardless of age, if the series was not completed as a child.

Recommended Screening/Risk Assessment:

- Tuberculosis (TB) screening / risk assessment: All incoming students should complete a tuberculosis risk assessment questionnaire. Incoming students who are at higher risk for TB infection, as determined by the screening questions, should undergo testing for TB infection within 30 days of CSUSB entry.

Meeting the Requirement

Students may fulfill the immunization requirements by submitting medical documentation of immunization online through the secure Patient Portal on the Student Health Center website (<https://www.csusb.edu/student-health-center/>).

Exemptions

Students are permitted to seek exemptions to the above immunization requirements for medical or for sincerely held religious beliefs. Students seeking an exemption will be required to submit an Exemption Request Form to the University.

Additional Discretionary Requirements

In the event of a local or campus-based outbreak of a vaccine-preventable disease, the local public health department and/or the California Department of Public Health is authorized to require immunizations beyond those currently required. CSUSB will consult with the appropriate public health authority in case of an outbreak.

Academic Program and Fieldwork or Clinical Placement Requirements

All students enrolled in healthcare fields of study or teacher education programs are required to provide documentation regarding the completion of immunizations and health screenings as established by the state licensing agencies or clinic placement sites or fieldwork sites. Students should contact the academic program for the specific required immunizations, health screenings (e.g., Tuberculosis screening and physical examination) and any other fieldwork or clinic placement requirements.

Registration Holds

Students who are not compliant with the University's immunization requirements may be subject to a registration hold. This hold may be implemented for the second semester of their enrollment at the University and will prevent registration for future terms.

¹Students are defined as all incoming students, with the exception of the following:

- Students enrolled in fully online degree programs
- Students enrolled in non-credit, professional development/extended education programs such as Extension or Open University

Student Recreation and Wellness Department

(909) 537-BFIT Recreation and Wellness Department website (<https://www.csusb.edu/recreation-wellness/>)

The Recreation and Wellness Department offers an exciting array of facilities, programs and services in the areas of fitness, group exercise, well-being, intramural and club sports, aquatics, adventures, and informal recreation. The Department operates several facilities on campus including the Student Recreation & Wellness Center (SRWC), Retreat, Leadership Challenge Center, and Aquatics Center. The marquee 38,000-square-foot SRWC, located at the east end of campus, houses a 34' climbing wall, 8,800-square-foot fitness room, multi-purpose athletic court, locker rooms, outdoor training area, and two group activity rooms for group exercise, dance, and martial arts classes. The Recreation and Wellness Department is dedicated to providing a variety of safe and enjoyable programs, services, and facilities to meet the diverse needs of the CSUSB community by creating a healthy social environment, enriching the quality of life and enhancing the educational experience. All enrolled CSUSB students, staff, faculty, and Alumni Association members regardless of age, gender, experience, and ability are welcomed.

Fitness

The fitness program offers one-on-one training, buddy training, personal training and group exercise development courses, and fitness assessments as a complement to our state-of-the-art fitness room. The Group Exercise program offers a diverse and robust weekly class schedule. All programs are designed to enhance the participant's experience and facilitate healthy living habits. Equipment and program examples include:

- Treadmills
- Elliptical Trainers
- Recumbent/Upright Bike
- Steppers
- Weight Trainers
- Functional Training Equipment
- Free Weights
- Plate Loaded Equipment
- Heavy/Speed Bags
- Fitness Consultations & Assessments
- Cardio Classes
- Cycling Classes
- Dance Classes
- Instructional Classes
- Mind/Body Classes
- Sculpt Classes

Well-being @ The Retreat

Located at the heart of campus (1st floor of the Santos Manuel Student Union South Building) is the Retreat. This facility is equipped with everything you need to retreat from your daily stressors including massage chairs, relaxation lounge, mind/body room and nap space.

Utilizing the holistic model of well-being created by the Be Well Yotes team, the facility also offers programs related to the many Dimensions of Well-being including financial, physical, emotional, spiritual, social, intellectual, and environmental.

Informal Recreation

The hours of the SRWC are designed to meet the demands of the busy lives of our participants with several opportunities from the early opening hours until the late evening. When there is not organized play in the gymnasium or group exercise rooms, drop-in use is allowed. Members can meet up with friends to shoot hoops or practice their hip-hop or martial arts skills. Informal recreation hours will be posted outside of each of the three available rooms.

Climbing Wall

As the centerpiece of the SRWC, a 34' climbing wall offers opportunities for beginner and intermediate classes, belay clinics, open climbing, and social events. All equipment is provided, and a safety orientation and skills test are offered to participants.

Adventure Trips

The unique location of the campus within close proximity to the Pacific coastline, the wilderness of Baja, the peaks of the Sierra Nevada Mountains, and the High Desert allows for a wide range of activities. Participants on trips will learn how to safely explore the great outdoors, develop an appreciation and understanding of their natural surroundings, engage in cultural and urban excursions, experience personal growth, leadership development, learn teamwork and healthy communication skills, and, of course, have fun.

Intramural Sports

The Intramural Sports program offers a variety of sport leagues and tournaments for all skill levels and interests. Opportunities are available for participants who just want to learn a new sport or for the very competitive players who want to own on-campus bragging rights. Intramural sports leagues are designed for players to enjoy themselves in a safe environment. Sports include:

- Basketball
- Flag Football
- Soccer
- eSports
- Softball
- Volleyball

- Bowling
- Indoor Soccer

Sport Clubs

The Sport Club program promotes student participation in a wide range of competitive and recreational sports. Each sport club is managed and run by student leaders. Sport Club participants not only enjoy the rewards of competition, but also gain skills in collaboration, leadership, problem-solving, and financial management. Current clubs include:

- Jui Jitsu
- Tennis
- Women's Soccer (SBC and PDC)
- Men's Soccer (SBC and PDC)
- Badminton Club

- Karate Club
- Cheerleading

- Powerlifting

Aquatics

The Aquatics Center is located behind the Physical Education building. Hours vary and can be found on the Recreation and Wellness webpage. Services include:

- Lap Swimming
- Certification and Training
- Learn To Swim Instructional Classes

Leadership Challenge Center

The state-of-the-art Leadership Challenge Center provides unique team-building and leadership development programs for CSUSB students, departments, clubs, and teams. The center also serves the surrounding community for groups such as school districts, military, and corporations alike.

Our programs are designed to help teach people how to appropriately build trust in others, increase individual interpersonal skills, social skills, and physical abilities. The Leadership Challenge Center consists of the 50-foot-high structure, as well as low challenge elements built lower to the ground. The team elements section allows teams of two to eight people to work together and support each other in problem solving, as well as an individual/partner portion that emphasizes support and goal setting. The center's programs provide a safe environment that allows participants to step outside their comfort zone, take a risk, learn, and grow.

University Police

911 for emergencies

(909) 537-5165 or (909) 537-7777 for police business

The University Police Department is a duly authorized law enforcement agency. The mission of the department is to safeguard the lives and property of the campus community. The department provides professional service to the University community through proactive patrol, diligent crime prevention, and disaster preparedness. We provide these services utilizing our core values of honor, integrity, and a commitment to excellence using a community COP (Campus Oriented Policing) approach. The Department's mission is reflected in our motto "Campus Safety Through Service."

CSUSB's peace officers have statewide police authority, and are vested with law enforcement powers and responsibilities, identical to the municipal police or sheriff's departments in our community. The officers provide a full range of service, including law enforcement, crime reporting and investigation, crime prevention training, motorist assistance, traffic enforcement, accident investigation, lost and found property, disaster preparedness, escorts, and medical and fire emergency response and coordination. The University Police Department provides 24 - hour protection, 365 days a year, and can be reached by dialing 911 for emergencies and (909) 537-5165 or (909) 537-7777 for all other requests.

A complete "Campus Safety Report" is available through the home university web page CSUSB website (<http://www.csusb.edu>), in a pamphlet from University Police, or from Human Resources. Additional information is available on the university web page under the University Police tab.

Veterans Success Center

(909) 537-5195 Veterans Success Center website (<http://veterans.csusb.edu/>)

Since opening in May 2012, the Veterans Success Center (VSC) at CSUSB has built a strong reputation throughout the Inland Empire for offering innovative leadership opportunities and education programs. The center is ranked as a top school in the nation by Military Times and as a top military school in the State of California by three top national college guides for veterans. On Nov. 10, 2014, the VSC opened its second location at the CSUSB Palm Desert campus to better serve Coachella Valley veterans and dependents. The center's mission is to support former, current, and future service members of the United States Armed Forces and their dependents with the **transition** from higher education to career, **navigation** through their academic experience, and **celebration** of their service and achievements, by offering high-quality support services, resources, and events. With locations at San Bernardino Campus and Palm Desert Campus, the VSC is a dedicated space that houses computer labs and group rooms for students. Both centers offer dynamic programs that are comprehensive in scope and sensitive to the unique needs of service members. Services include the School Certifying Official for education benefits, advising, orientation, seminars, a weekly support group, tutoring, IT services, advocacy and referral services, a military veteran's writers group, arts and crafts, and much more. The VSC is dedicated to providing a safe and healthy environment and provides services in hybrid format when necessary.

Financial Information

The CSU makes every effort to keep student costs to a minimum. Tuition and fees listed in published schedules or student accounts may need to be increased when public funding is inadequate. Therefore, CSU reserves the right, even after tuition or fees are initially charged or initial payments are made, to increase or modify any listed tuition or fees. All listed fees, other than mandatory systemwide tuition, are subject to change without notice, until the date when instruction for a particular semester or quarter has begun. All CSU-listed tuition and fees should be regarded as estimates that are subject to change upon approval by the Board of Trustees, the chancellor, or the presidents, as appropriate. Changes in mandatory systemwide tuition will be made in accordance with the requirements of the Working Families Student Fee Transparency and Accountability Act (Sections 66028 through 66028.6 of the California Education Code).

Fees

The following reflects applicable systemwide tuition and fees for both semester and quarter universities for undergraduate, credential, graduate, post-baccalaureate, and doctoral programs.

These rates are subject to change.

2024-25 Schedule of Tuition

All Students[%]

Application fee (nonrefundable), \$70.00
payable online at the time of
application via credit card or PayPal:

Basic Tuition 2024/25 Semester Rate

Undergraduate Tuition

6.1 or more units	\$3,042.00
0-6 units	\$1,764.00

Credential Program Tuition

6.1 or more units	\$3,531.00
0-6 units	\$2,049.00

Graduate or Other/Post baccalaureate

6.1 or more units	\$3,804.00
0-6 units	\$2,208.00

Doctorate Tuition[^]

Education	\$6,272.00
Nursing Practice	\$8,094.00

Graduate Business Professional Fee* \$285.00

[%]Mandatory systemwide tuition is waived for those individuals who qualify for such an exemption under the provisions of the California Education Code (see section on fee waivers).

[^] Applicable term tuition applies for universities with special terms, as determined by the university. Total college year tuition cannot exceed the academic year plus summer term tuition. The summer term tuition for the education doctorate at quarter universities is equal to the per semester tuition listed in the table. Total tuition for the education doctorate over the college year equals the per academic year tuition plus the per semester tuition for the summer term at all CSUs.

* The graduate business professional fee is paid on a per unit basis in addition to applicable systemwide tuition and campus fees for specific graduate business programs authorized to assess the fee. A list of academic programs authorized to assess the fee can be found on the CSU (<https://www.calstate.edu/attend/paying-for-college/csu-costs/tuition-and-fees/Pages/basic-tuition-and-fees.aspx>) Tuition website (<https://www.calstate.edu/apply/paying-for-college/csu-costs/tuition-and-fees/Pages/basic-tuition-and-fees.aspx>).

Nonresident Students (U.S. and Foreign)

Nonresident tuition (in addition to basic tuition and other systemwide fees charged all students) for all CSUs:

Nonresident Students (U.S. and Foreign) \$420.00

The total nonresident tuition paid per term will be determined by the number of units taken.

Cash, checks and ATM debit cards will be accepted at Student Financial Services. Visa, MasterCard, American Express and Discover credit cards may be used for payment of student tuition and fees but may be subject to a non-refundable credit card processing fee. There is no fee for electronic checks. The application fee, identification card fee, enrollment deposit, SOAR fees, housing nonrefundable prepayment, and late registration fees are nonrefundable.

2025-26 Schedule of Tuition and Fees

All Students[%]

Application fee (nonrefundable), \$70.00
payable online at the time of
application via credit card or PayPal:

Undergraduate

6.1 or more units	\$3,225.00
0 to 6.0 units	\$1,869.00

Credential Program

6.1 or more units	\$3,744.00
0 to 6.0 units	\$2,172.00

Graduate/Post Baccalaureate

6.1 or more units	\$4,032.00
0.0 to 6.0 units	\$2,340.00

Doctoral Programs[^]

Education	\$6,648.00
Nursing Practice	\$8,580.00

Graduate Business Professional Fee* \$303.00

[%]Mandatory systemwide tuition is waived for those individuals who qualify for such an exemption under the provisions of the California Education Code (see section on fee waivers).

[^] Applicable term tuition applies for universities with special terms, as determined by the campus. Total college year tuition cannot exceed the academic year plus summer term tuition. The summer term tuition for the education doctorate at quarter universities is equal to the per semester tuition listed in the table. Total tuition for the education doctorate over the college year equals the per academic year tuition plus the per semester tuition for the summer term at all CSUs.

* The graduate business professional fee is paid on a per unit basis in addition to basic tuition and campus fees for specific campus graduate

business programs authorized to assess the fee. A list of academic programs authorized to assess the fee can be found on the CSU (<https://www.calstate.edu/apply/paying-for-college/csu-costs/tuition-and-fees/Pages/basic-tuition-and-fees.aspx>) Tuition website. (<https://www.calstate.edu/apply/paying-for-college/csu-costs/tuition-and-fees/Pages/basic-tuition-and-fees.aspx>)

Nonresident Students (U.S. and Foreign)

Nonresident tuition (in addition to basic tuition and other systemwide fees charged all students) for all CSUs:

Charge Per Unit [@]	\$444.00
------------------------------	----------

[@]The total nonresident tuition paid per term will be determined by the number of units taken.

Cash, checks and ATM debit cards will be accepted at Student Financial Services. Visa, MasterCard, American Express and Discover credit cards may be used for payment of student tuition and fees but may be subject to a non-refundable credit card processing fee. There is no fee for electronic checks. The application fee, identification card fee, enrollment deposit, SOAR fees, housing nonrefundable prepayment, and late registration fees are nonrefundable.

Refund of Tuition and Mandatory Fees Including Nonresident Tuition

Regulations governing the refund of tuition and mandatory fees, including nonresident tuition, for students enrolling at the California State University (CSU) are included in Section 41802 of Title 5, *California Code of Regulations*. For purposes of the refund policy, mandatory fees are defined as those systemwide and campus fees that are required to be paid in order to enroll in state-supported academic programs at the CSU. Refunds of fees and tuition charges for self-support, special session and Professional and Continuing Education (PaCE) programs or courses at the CSU are governed by a separate policy established by the university, available at The College of Extended and Global Education (<https://csusb.edu/cege/>).

To receive a full refund of tuition and mandatory fees, including nonresident tuition, less an administrative charge established by the university, a student must cancel registration or drop all courses prior to the first day of instruction for the term. Information on procedures and deadlines for canceling registration and dropping classes is available The Office of Student Financial Services (<https://csusb.edu/student-financial-services/>).

For state-supported semesters, quarters and non-standard terms or courses of four weeks or more, a student who withdraws during the term in accordance with the university's established procedures or drops all courses prior to the university-designated drop period will receive a refund of tuition and mandatory fees, including nonresident tuition, based on the portion of the term during which the student was enrolled. No student withdrawing after the 60 percent point in the term will be entitled to a refund of any mandatory fees or nonresident tuition.

A student who, within the university designated drop period and in accordance with university procedures, drops units resulting in a lower tuition and/or mandatory fee obligation shall be entitled to a refund of applicable tuition and mandatory fees less an administrative charge established by the university.

For state-supported non-standard terms or courses of less than four weeks, no refunds of tuition and mandatory fees, including nonresident tuition, will be made unless a student cancels registration or drops all classes, in accordance with the university's established procedures and deadlines, prior to the first day of instruction for state-supported non-standard terms or courses or prior to the first meeting for courses of less than four weeks.

Students will also receive a refund of tuition and mandatory fees, including nonresident tuition, under the following circumstances:

- The tuition and fees were assessed or collected in error;
- The course for which the tuition and fees were assessed or collected was canceled by the university;
- The university makes a delayed decision that the student was not eligible to enroll in the term for which tuition and mandatory fees were assessed and collected and the delayed decision was not due to incomplete or inaccurate information provided by the student; or
- The student was activated for compulsory military service.

Students who are not entitled to a refund as described above may petition the university for a refund demonstrating exceptional circumstances and the chief financial officer of the university or designee may authorize a refund if they determine that the fees and tuition were not earned by the university.

Information concerning any aspect of the refund of fees may be obtained from Student Financial Services by calling (909) 537-5162.

Fees and Debts Owed to the University

Should a student or former student fail to pay a fee or a debt owed to the institution, including tuition and student charges, the institution may "withhold permission to register, to use facilities for which a fee is authorized to be charged, to receive services, materials, food or merchandise or any combination of the above from any person owing a debt" until the debt is paid (see Title 5, California Code of Regulations, Sections 42380 and 42381).

Prospective students who register for courses offered by the university are obligated for the payment of charges and fees associated with registration for those courses. Failure to cancel registration in any course for an academic term prior to the first day of the academic term gives rise to an obligation to pay student charges and fees including any tuition for the reservation of space in the course.

The institution may withhold permission to register, or other services offered by the institution from anyone owing fees or another debt to the institution. The institution may also report the debt to a credit bureau, offset the amount due against any future state tax refunds due the student, refer the debt to an outside collection agency and/or charge the student actual and reasonable collection costs, including reasonable attorney fees if litigation is necessary, in collecting any amount not paid when due.

The institution may not withhold an official transcript of grades by the institution from anyone owing fees or another debt to the institution (see Title 1.6C.7 (commencing with Section 1788.90) Part 4 of Division 3 of the Civil Code). The institution can still charge a fee for the issuance of the transcript pursuant to their published transcript processing fees.

If a person believes they do not owe all or part of an asserted unpaid obligation, that person may contact Student Financial Services. Student Financial Services may refer the person, will review all pertinent

information provided by the person and available to the campus and will advise the person of its conclusions.

Fee Waivers and Exemptions

The California Education Code provides for the waiver of mandatory systemwide tuition fees as summarized below:

Section 66025.3(a) - Dependent eligible to receive assistance under Article 2 of Chapter 4 of Division 4 of the Military and Veterans Code; child of any veteran of the United States military who has a service-connected disability, has been killed in service, or has died of a service-connected disability, and meets specified income provisions; dependent, or surviving spouse who has not remarried of any member of the California National Guard who, in the line of duty, and while in the active service of the state, was killed, died of a disability or permanently disabled as a result of an event that occurred while in the active service of the state, and any undergraduate student who is a recipient of a Medal of Honor, or an undergraduate student who is a child of a recipient of a Medal of Honor who is 27 years old or younger, who meets the income restriction and California residency requirement.

Section 66025.3(b) - Current or former foster youth who is 25 years of age or younger; has been in foster care for at least 12 consecutive months after reaching 10 years of age; meet any of the following:

1. Is under a current foster care placement order by the juvenile court.
2. Was under a foster care placement order by the juvenile court upon reaching 18 years of age.
3. Was adopted, or entered guardianship, from foster care.

The current or former foster youth needs to complete and submit the Free Application for Federal Student Aid (FAFSA), maintain a minimum grade point average and meets other conditions necessary to be in good standing at the university; and meet the financial need requirements established for Cal Grant A awards under Chapter 1.7 (commencing with Section 69430) of Part 42.

The waiver of mandatory systemwide tuition and fees under section 66025.3 shall apply only to a person who is determined to be a resident of California pursuant to Chapter 1 (commencing with Section 68000) of Part 41 of the California Education Code. Total mandatory systemwide tuition or fees waived shall not have in excess of the equivalent of attendance in a four-year undergraduate program.

Section 66602 – A qualifying student from the California State University (CSU) who is appointed by the Governor to serve as Trustee of the California State University (CSU) for the duration of the student member's term of office.

Section 68120 – Surviving spouse or child of a deceased California resident who was employed by a public agency or was a contractor, or an employee of a contractor, performing services for a public agency, or was a firefighter employed by the federal government whose duty assignment involved the performance of firefighting services in this state. The deceased person's principal duties consisted of active law enforcement service or active fire suppression and prevention and was killed in the performance of active law enforcement or active fire suppression and prevention duties (referred to as Alan Pattee Scholarships). Additionally, a person who qualifies for the waiver under this section as a surviving child of a contractor, or of an employee of a contractor, who performed services for a public agency, must be enrolled as an undergraduate student at the California State University and meet the applicable income restriction requirement with supporting documentation (i.e. student's

income, including the value of parent support, does not exceed the maximum household income and asset level for an applicant for a Cal Grant B award).

Section 68120.3 - Surviving spouse (until January 1, 2033) or surviving child (until attaining the age of 30) of a deceased California resident who was a licensed physician or licensed nurse employed by or under contract with a health facility regulated and licensed by the State Department of Public Health to provide medical services, or a first responder employed to provide emergency services as described in Section 8562 of the Government Code. The deceased person's principal duties consisted of providing medical services or emergency services during the COVID-19 pandemic state of emergency (started March 4, 2020, until the Governor lifts the state of emergency), and the deceased person died of COVID-19 during the COVID-19 pandemic state of emergency. The person who qualifies for this waiver must enroll as an undergraduate student at a CSU, was a resident of California during the COVID-19 pandemic state of emergency, and the annual income (including the value of parent's support) does not exceed the maximum household income and asset level for an applicant for a Cal Grant A award, as set forth in Section 69432.7.

Section 68121 – A qualifying undergraduate student (until attaining the age of 30) who is the surviving dependent of any individual killed in the September 11, 2001, terrorist attacks on the World Trade Center in New York City, the Pentagon building in Washington, D.C., or the crash of United Airlines Flight 93 in southwestern Pennsylvania, if the student meets the financial need requirements set forth in Government Code Section 69432.7 for the Cal Grant A Program and either the surviving dependent or the individual killed in the attacks was a resident of California on September 11, 2001.

Section 69000 – A California resident who has been exonerated, as that term is defined in Section 3007.05 of the Penal Code; completes and submits the FAFSA; and meets the financial need requirements established for Cal Grant A awards. The student's mandatory systemwide tuition and fees waived pursuant to this subdivision shall not have in excess of the equivalent of six years of full-time attendance in an undergraduate program.

Students who may qualify for the above benefits should contact the Admissions/Registrar's Office for further information and/or an eligibility determination.

The California Education Code provides for the following nonresident tuition exemptions as summarized below:

Section 68075 - A student who is a member of the Armed Forces of the United States stationed in this state, is entitled to resident classification only for the purpose of determining the amount of tuition and fees. If that member of the Armed Forces of the United States who is in attendance at an institution is thereafter transferred on military orders to a place outside this state where the member continues to serve in the Armed Forces of the United States, the member shall not lose the member's resident classification so long as the member remains continuously enrolled at that institution.

Section 68075.7 – A nonresident student is exempt from paying nonresident tuition or any other fee that is exclusively applicable to nonresident students if the student:

1. Resides in California;
2. Meets the definition of "covered individual" as defined in Section 3679(c)(2) of Title 38 of the United States Code; or

3. Is eligible for education benefits under the federal Montgomery GI Bill–Active Duty program (Chapter 30 (commencing with Section 3001) of Title 38 of the United States Code), the Veterans Readiness and Employment program (Chapter 31 (commencing with Section 3100) of Title 38 of the United States Code), the Post–9/11 GI Bill program (Chapter 33 (commencing with Section 3301) of Title 38 of the United States Code), or the Survivors' and Dependents' Educational Assistance program (Chapter 35 (commencing with Section 3500) of Title 38 of the United States Code), as each read on January 5, 2022.

Section 68122 – A student who is a victim of trafficking, domestic violence, and other serious crimes who has been granted a status under Section 1101(a)(15)(T)(i) or (ii), or Section 1101(a)(15)(U)(i) or (ii), of Title 8 of the United States Code shall be exempt from paying nonresident tuition to the same extent as individuals who are admitted to the United States as refugees under Section 1157 of Title 8 of the United States Code.

Section 68130.5 – A nonresident student, other than a person excluded from the term "immigrant" for purposes of the federal Immigration and Nationality Act (8 U.S.C. Sec. 1101), pursuant to paragraph (15) of subsection (a) of Section 1101 of Title 8 of the United States Code, shall be exempt from paying nonresident tuition if the student meets the requirements of (1) through (4), below.

1. Satisfaction of the requirements of either subparagraph (A) or subparagraph (B).
 - a. A total attendance of, or attainment of credits earned while in California equivalent to, three or more years of full-time attendance or attainment of credits at any of the following:
 - i. California high schools;
 - ii. California high schools established by the State Board of Education;
 - iii. California adult schools established by a county office of education, a unified school district or high school district, or the Department of Corrections and Rehabilitation (subject to the class hours' requirement);
 - iv. Campuses of the California Community Colleges (subject to the credit requirements); or
 - v. A combination of those schools set forth in clauses (i) to (iv), inclusive.
 - b. Three or more years of full-time high school coursework in California, and a total of three or more years of attendance in California elementary schools, California secondary schools, or a combination of both.
2. Satisfaction of any of the following:
 - a. Graduation from a California high school or attainment of the equivalent thereof;
 - b. Attainment of an associate degree from a campus of the California Community Colleges; or
 - c. Fulfillment of the minimum transfer requirements established for the California State University for students transferring from a campus of the California Community College.

Registration as an entering student at, or current enrollment at, an accredited institution of higher education in California not earlier than the fall semester or quarter of the 2001–02 academic year.

In the case of a person without lawful immigration status, the filing of an affidavit with the institution of higher education stating that the student has

filed an application to legalize the student's immigration status or will file an application as soon as the student is eligible to do so.

Federal Refund Policy

Effective September 1, 2000, federal financial aid regulations are very strict concerning dropping classes after receiving Federal Grant Aid. Students are expected to complete a minimum number of units per term. By dropping all classes prior to the 60% mark of the term, students will owe a repayment based on a chart of percentages available in the Financial Aid Office. Once repayment has been calculated, students have 30 days to repay the funds.

Federal financial aid regulations also state that students may not pay a prior debt with future financial aid. This means that students must repay the amount due prior to receiving future financial aid. Before deciding to drop classes, students should meet with a Financial Aid Advisor in the Financial Aid Office in University Hall to make an appointment with a financial aid advisor. The advisor will calculate the expected repayment of federal grant funds and will explain options.

Additional Fee Information

Additional fee information may be found on the Student Financial Services website (<https://www.csusb.edu/student-financial-services/>).

Parking and Transportation Services

(909) 537-5912; parking@csusb.edu
CSUSB Parking website (<http://parking.csusb.edu/>)

Parking and Transportation Services is located in University Hall Room 039. The office is open from 8:00 am to 5:00 pm, Monday through Friday.

All vehicles parked on campus must display a valid CSUSB permit. Students may purchase semester or annual permits online. Daily parking permits may be purchased from any of the parking permit machines located throughout the campus.

Drivers assume all risks when parking on campus. Neither the University nor the State of California is responsible for loss or damage to vehicles or to personal property within the vehicle when parked on campus.

Parking field staff will provide motorist assistance if you require a battery jump or lock your keys inside of your vehicle. You may phone for service at (909) 537-5165.

Alternative Transportation

CSUSB encourages the use of sustainable modes of transportation by students, faculty, and staff. Swipe your CoyoteOne card for free, unlimited rides on the OmniTrans and Sunline buses. Visit the transportation website for more information including vanpool, carpool, partner matching, incentives, and the Palm Desert Campus shuttle.

Availability of Institutional and Financial Assistance Information

The following information concerning student financial assistance may be obtained from the Office of Financial Aid & Scholarships, University Hall 150, (909) 537-5227.

- A description of the federal, state, institutional, local, and private student financial assistance programs available to students who enroll at CSUSB;

- For each aid program, a description of procedures and forms by which students apply for assistance, student eligibility requirements, criteria for selecting recipients from the group of eligible applicants, and criteria for determining the amount of a student's award;
- A description of the rights and responsibilities of students receiving financial assistance, including federal Title IV student assistance programs, and criteria for continued student eligibility under each program;
- The satisfactory academic progress standards that students must maintain for the purpose of receiving financial assistance and criteria by which a student who has failed to maintain satisfactory progress may reestablish eligibility for financial assistance;
- The method by which financial assistance disbursements will be made to students and the frequency of those disbursements;
- The way the school provides for Pell-eligible students to obtain or purchase required books and supplies by the seventh day of a payment period and how the student may opt out;
- The terms of any loan received as part of the student's financial aid package, a sample loan repayment schedule, and the necessity for repaying loans;
- The general conditions and terms applicable to any employment provided as part of the student's financial aid package;
- The terms and conditions of the loans students receive under the Direct Loan Program;
- The exit counseling information the school provides and collects for student borrowers; and
- Contact information for university offices available for disputes concerning federal, institutional and private loans.

Information concerning the cost of attending CSUSB is available from Admissions & Student Recruitment, University Hall 107, (909) 537-5188, and includes:

- Tuition and fees;
- The estimated costs of books and supplies;
- Estimates of typical student housing, food, and transportation costs; and
- If requested, additional costs for specific programs.

Information concerning the refund policies of CSUSB for the return of unearned tuition and fees or other refundable portions of institutional charges is available from Student Financial Services, University Hall 034, (909) 537-5162.

Information concerning policies regarding the return of federal Title IV student assistance funds as required by regulation is available from Office of Financial Aid & Scholarships, University Hall 150, (909) 537-5227.

Information regarding special facilities and services available to students with disabilities may be obtained from Services to Students with Disabilities, University Hall 183, (909) 537-5238.

Information concerning CSUSB policies, procedures, and facilities for students and others to report criminal actions or other emergencies occurring on campus may be obtained from University Police, UP 101, (909) 537-5165.

Information concerning CSUSB annual university security report and annual fire safety report may be obtained from University Police, UP 101, (909) 537-5165.

Information concerning the prevention of drug and alcohol abuse and rehabilitation programs may be obtained from University Police, UP 101, (909) 537-5165.

Information regarding student retention and graduation rates at CSUSB and, if available, the number and percentage of students completing the program in which the student is enrolled or has expressed interest may be obtained from Student Affairs, Student Union 222, (909) 537-5185.

Information concerning athletic opportunities available to male and female students and the financial resources and personnel that CSUSB dedicates to its men's and women's teams may be obtained from the Athletics Department, Health & PE Complex 106, (909) 537-5011.

Information concerning teacher preparation programs at CSUSB, including the pass rate on teacher certification examinations, may be obtained from College of Education, College of Education 221, (909) 537-5600.

Information concerning grievance procedures for students who feel aggrieved in their relationships with the university, its policies, practices and procedures, or its faculty and staff may be obtained from University Ombuds Services, Pfau Library 268, (909) 537-5635.

Information concerning student activities that CSUSB provides, must be easily accessible on CSUSB's website (<https://www.csusb.edu/>).

Information concerning student body diversity at CSUSB, including the percentage of enrolled, full-time students who are (1) male, (2) female, (3) Pell Grant recipients, and (4) self-identified members of a specific racial or ethnic group, must be obtained from Strategic Communication, AD 188, (909) 537-5007

The federal Military Selective Service Act (the "Act") requires most males residing in the United States to present themselves for registration with the Selective Service System within thirty days of their eighteenth birthday. Most males between the ages of 18 and 25 must be registered.

Information concerning other available campus services is listed below:

- University-related problems, complaints or concerns.
Ombuds Services, Pfau Library 268, (909) 537-5635.
- Provides policies and complaint procedures regarding Title IX discrimination on the basis of sex, educational, extracurricular and athletic activities.
Student Conduct & Ethical Development, University Hall 346, (909) 537-7172
- Provides comprehensive career services for the advancement of student learning and career success.
Career Center, Student Union 108, (909) 537-5250.

Financial Aid

Office of Financial Aid & Scholarships
(909) 537-5227 Office of Financial Aid & Scholarships (<http://finaid.csusb.edu/>)

The Office of Financial Aid & Scholarships administers a variety of Federal and State programs to assist eligible students. Sources of aid include the Federal Pell Grant, Supplemental Educational Opportunity Grant (SEOG), Cal Grant A & B, Federal Direct Loans, TEACH Grant and the Federal Work-Study program. Private/alternative loans are also available. The Office of Financial Aid & Scholarships also administers

the State University Grant (SUG), Graduate Business Grant (GBG), Ed Doctorate Grant (Ed Doc) and Educational Opportunity Program Grant (EOP). A full description of the university's financial aid programs is available on the Office of Financial Aid & Scholarships website.

- We recommend completing the Free Application for Federal Student Aid (FAFSA) by the priority deadline of March 2nd each year to be considered for the Cal Grant Programs. Applications are still accepted throughout the school year to be considered for other types of financial aid, as long as funding is available. You may complete the FAFSA at the Federal Student Aid website (<https://studentaid.gov/h/apply-for-aid/fafsa/>).
- The California Student Aid Commission's (CSAC) C (<http://www.csac.ca.gov/>) alifornia DREAM Act Application (<https://dream.csac.ca.gov/landing/>) (CADAA) is used to determine the financial aid eligibility of students who meet the qualifications of AB540, and who are without a valid immigration status. We recommend completing the CADAA by the March 2nd priority deadline each year to be considered for all CSAC financial aid programs. Applications are still accepted throughout the school year to be considered for other types of financial aid as long as funding is available. The application collects basic personal and income information to determine a student's eligibility for funding under AB 131.

Federal Work-Study. Work-Study is a federally funded program that provides part-time employment for students who are eligible to participate in need-based financial aid programs. Work-Study students are placed in on and off-campus positions to help offset a portion of their educational expenses. Work-Study at CSUSB also provides opportunities for students to develop job skills and secure academic or career-oriented jobs. For additional information visit the Office of Financial Aid & Scholarships website or contact the Student Employment Team at (909) 537-5226 or (909) 537-5479.

Financial Aid Chart

You may contact the Office of Financial Aid & Scholarships for questions and assistance with all aid programs.

Scholarships

Types of aid	Who can help	Determination of eligibility	Repayment requirement
Local scholarships	High school or college counselor	GPA, need	No
University scholarships	University financial aid officer	GPA or GPA and need	No

Grants

Types of aid	Who can help	Determination of eligibility	Repayment requirement
Federal Pell Grant	University financial aid officer	Need	No
Federal Supplemental Educational Opportunity Grant (SEOG)	University financial aid officer	Need	No

Scholarships listed below are awarded to new and continuing students attending CSUSB. The CSUSB Office of Financial Aid & Scholarships administers most scholarships on campus. Scholarships administered by the CSUSB Office of Financial Aid & Scholarships can be accessed online via MyCoyote (<https://mycoyote.cms.csusb.edu/>) from November 1 through March 2 each year. Applicants need only to complete the on-line scholarship application once to be considered for all scholarships for which they are eligible. For further information, contact the Office of Financial Aid & Scholarships Hotline at (909) 537-7399. Department majors and associations administer some of the scholarships listed below.

Scholarships for Incoming Freshmen

Alfred F. and Chella D. Moore Memorial Scholarship provides scholarships to incoming freshmen with outstanding academic records (3.5 GPA minimum). Some awards may automatically be renewed for an additional three years. No special application is required for renewal.

CSUSB President's Academic Excellence Scholarship is awarded to San Bernardino County high school students who graduate within the top 1% of their high school graduating class. Students must be nominated by their high school principal in order to be considered for this award. The scholarship is renewable.

Harris-Meyers Scholarship provides scholarships to incoming freshmen from San Bernardino City Schools with outstanding academic records (3.25 minimum GPA). Financial need is required. Some awards may be renewed for an additional three years. No special application is required for renewal.

Joseph K. Thomas Scholarship is awarded to incoming freshmen or transfer students registered as full-time music majors. The recipient must enter CSUSB with a high school or previous college or university cumulative GPA of 3.25 or better, must agree to participate fully in the major performing ensemble most appropriate to his/her applied performance emphasis during the entire academic year for which the scholarship is awarded, and with the scholarship application form each candidate must submit a letter summarizing the student's degree of need for scholarship assistance. Candidates who meet the above criteria will demonstrate their music performance proficiency at an audition to be scheduled about four weeks following the application deadline.

Robert and Claire Forsythe Scholarship is awarded to incoming freshmen with a minimum 2.0 GPA. Preference will be given to Arts and Letters majors.

Scholarships for College of Arts and Letters

Anthony and Lois Evans Scholarship is awarded to students that are involved in student performance activities such as music, theatre art, or debate/forensics. Student must have a minimum 3.5 GPA.

Arlene Roberts Memorial Scholarship provides support to full-time art majors with a minimum 3.0 GPA. Student must have financial need.

Art Department Scholarship provides scholarship support to students majoring in Art.

Asian Studies Expendable Scholarship provides scholarships to undergraduate students with a declared minor in Asian Studies.

Bill and Janice Lemann Art Scholarship provides support to students pursuing an undergraduate or graduate degree in the Art department. Students must demonstrate ongoing interest and involvement with RAFFMA through volunteer service. Undergraduate students must have a minimum 2.7 GPA and graduate students must have a minimum 3.25 GPA. Financial need is preferred.

Carol Channing & Harry Kullijan Scholarship is awarded to students pursuing a degree in visual and performing arts or a teaching credential in art education. Student must have a cumulative 3.0 GPA.

College of Arts and Letters President's Academic Excellence Scholarship provides scholarships to President's Academic Excellence students enrolled in the College of Arts and Letters.

Danny Ramadan Endowed Scholarship Fund provides scholarships to students studying music. First preference is given to students who study the trumpet or other brass instruments. Secondary preference will be given to music education students. Financial aid may be considered but is not essential. Student must have a minimum university cumulative GPA of 3.0 or better.

Diane and Scott Adams Endowed Scholarship Fund provides support to undergraduate students majoring in Liberal Studies with a minimum 3.0 GPA. Preference will be given to students who volunteer in the community or participate in service learning and who have financial need.

Douglas A. Housel Memorial Scholarship is awarded to junior or senior Liberal Studies students. Selected recipients must sign an agreement that they have never been convicted of a DUI.

Dr. Arthur A. Moorefield Scholarship is awarded to full-time music majors that have a cumulative 3.3 GPA.

Edison Scholars Program - Arabic Studies Scholarship provides support to upper division undergraduate students and graduate students majoring in Arabic studies with financial need. Must have a cumulative 2.8 GPA. Selected recipients must agree to participate in the Edison Scholars program.

Eri F. Yasuhara Scholarship Fund is awarded to Presidents Academic Excellence students who are enrolled in the College of Arts and Letters. Preference is given to students with financial need.

First Generation Acto Latino Scholarship provides scholarships to first generation students that are current students in the Spanish Master's Program majoring or minoring in Spanish. Students must have a minimum of 3.0 undergraduate or graduate GPA.

Gabriel Luis Acosta Art Scholarship Endowment provides support to undergraduate and graduate students in the CSUSB Department of Art who have a minimum 3.0 GPA and demonstrate an interest in pursuing a career in photography and/or painting. Preference is given to students with financial need.

Gerry and Glenda Bayless College of Arts and Letters Scholarship is awarded to students who are enrolled in the College of Arts and Letters, and have a minimum 3.0 GPA. Preference is given to students with financial need.

Jackie Preszler Endowed Scholarship provides support to undergraduate and graduate students pursuing a degree in the Department of Communication Studies. Preference is given to students demonstrating a commitment to community service.

James H. and Helen H. Urata Scholarship is awarded to College of Arts and Letters students with a cumulative 3.0 GPA. Financial need is preferred.

Josephine Lombardo Scholarship provides a scholarship to students enrolled under the College of Arts and Letters Music Program that demonstrates commitment to the study of classical music with a cumulative 3.0 GPA. Financial need is preferred.

Laveryn Grace Schulz Fellowship in Journalism Endowment will provide scholarship support for Graduate students in MA program with declared interest in journalism, community-oriented journalism, community investigative journalism, and/or investigative journalism. Minimum of 3.2 GPA.

Melvyn F. Burruss and Frieda E. Burruss Scholarship Endowment provides support to students pursuing a degree in the following: Studio Art Studies, Art with a concentration in Studio Art & Visual Studies, or a Masters in Studio Art Studies. Preference is given to students that have demonstrated interest in painting or photography.

Music Department Scholarship provides merit scholarships to students who have demonstrated above average proficiency with a musical instrument and have performed with a related university organization.

P. Richard Switzer Scholarship is awarded to CSUSB students who are enrolled in the CSU International Program or another approved academic program in France. Students must continue as full-time students during their study abroad period. Preference will be given to students with financial need but consideration will be given to others based on merit.

Roger Broadfoot Memorial Scholarship is awarded to students that work at the CSUSB Chronicle. The scholarship may also go to athletes or Spanish and French majors.

Ronald & Mary Barnes Scholarship provides renewable scholarships to Theater Arts majors with a 3.0 minimum GPA. Preference goes to students who participate in two or more theater-related areas.

Sam and Beverly Maloof Scholarship is awarded to undergraduates students majoring in art or a graduate student enrolled in M.A in Art or M.F.A in Studio Art and Design with a cumulative 3.0 GPA. Must demonstrate serious interest in pursuing a career in the Visual Arts. Financial need is preferred.

Theatre Arts Scholarship provides scholarships to Theatre Arts majors with a superior academic record.

Vivien Bull Scholarship provides support to students majoring in Liberal Studies with the goal of entering the teacher credential program. Student must have a minimum 3.0 GPA.

Scholarships for Jack H. Brown College of Business and Public Administration

Banner Bank Scholarship provides support to first-generation college students enrolled in the Jack H. Brown College of Business and Public Administration. Student must be pursuing an undergraduate degree and must have demonstrated financial need.

Bernadine A. Taylor President's Academic Excellence Scholarship provides scholarships to students who are pursuing a degree in Business. Student must be working part time or full time. Priority will be given to students enrolled in the President's Academic Excellence program. Must have a cumulative 3.5 GPA.

Beverly Smith Scholarship is awarded to a student majoring in Finance or Ecology and must have and maintain a 3.0 GPA.

Bruce and Nancy Varner Endowed Scholarship is awarded to a full-time sophomore, junior or senior student enrolled in the JHBC with a minimum 3.25 GPA.

Candace Hunter-Wiest Arrowhead Distinguished Executive Officer Scholarship provides support to students who are full-time sophomore or junior business majors and have a minimum 3.25 GPA.

Carroll J. Bellis Scholarship is presented to a Public Administration major who has completed an outstanding research paper as part of the requirements for any class in public administration.

Charles and Shelby Obershaw Scholarship for Business provides scholarships to full-time juniors pursuing a degree in Business with a minimum 3.0 GPA and has financial need.

CLA CPA Exam Prep Expendable Scholarship Fund provides support to upperclassmen accounting majors or Master of Science in Accountancy majors who are Veterans and/or students with disabilities. Student must have a minimum 3.0 GPA.

Daniel B. Bagdon Scholarship provides scholarships to full-time sophomore and juniors with a declared concentration in the Jack H. Brown College of Business and Public Administration. Student must have a cumulative 3.25 GPA.

David Montano Memorial Scholarship provides support to full-time juniors and seniors majoring in Business Administration and who plans to continue his or her post-secondary education at California State University, San Bernardino. Student must have a cumulative GPA of 2.7.

Dean Karen Dill Bowerman Scholarship provides support to seniors in the Jack H. Brown College of Business and Public Administration, preferably with a concentration in management. Student must have a minimum cumulative GPA of 3.25. Preference is given to students who graduated high school in San Bernardino or Riverside County.

Donald A. Driftmier 2003 Arrowhead Distinguished Executive Officer Scholarship provides scholarships to students enrolled in the Jack H. Brown College of Business and Public Administration with a cumulative 3.25 GPA.

Edison Cybersecurity Expendable Scholarship provides scholarship support for undergraduate Cybersecurity majors.

Food Industry Sales Association Scholarship Honoring Jack Brown offers five scholarships to full-time students majoring in Business or Public Administration. The scholarship is available to sophomores, juniors, or seniors with a minimum 3.0 GPA. Preference will be given to students employed in the food industry or demonstrate an intent of pursuing a career in the food industry. Financial need may be considered but academic excellence is the primary criterion for selection. Student scholarship recipients may reapply for up to four years.

Franklin Tomkins Memorial Scholarship provides scholarships to junior or seniors in the Jack H. Brown College of Business and Public Administration. Must have a cumulative 3.0 GPA. Preference is given to students concentrating in Marketing and to student with demonstrated financial need.

George H. Schnarre Arrowhead Distinguished Executive Officer Scholarship is awarded to students in the Jack H. Brown College of Business and Public Administration who have a cumulative 3.25 GPA. Preference given to students majoring in Real Estate, Finance or Accounting.

Glenda and Gerry Bayless College of Business and Public Administration Scholarship provides support to full-time students majoring in accounting that have completed Accounting 372 and has a 3.0 minimum GPA.

Hal Hoverland Scholarship provides support to students majoring in accounting. Students must have completed Accounting 372 and must have a minimum 3.5 GPA.

Hurtado Expendable Scholarship will provide support for students with an interest in diversity and social justice in underserved communities such as Indigenous/Native American, mixed heritage, people of color, Latinx American, African American, LGBTQIA+, and immigrants through involvement in courses taken in support of their commitment to diversity and minimum 2.5 GPA.

Independent Insurance Agents and Brokers of the Inland Empire (IIABC) Scholarship Fund is awarded to students enrolled as a President's Academic Excellence scholar in the College of Business and Public Administration.

Institute for Applied Research and Policy Analysis Quasi Endowment Scholarship provides support for full-time students in any JHBC major.

Jack C. Scott Memorial Scholarship provides support to students majoring in accounting. Students must have completed Accounting 426 with at least a B and must have a minimum 3.0 GPA.

Jack H. Brown College Leaders Scholarship provides support to incoming freshmen or transfer students pursuing a business degree who have graduated from a high school in the city of San Bernardino and live within the city of San Bernardino. Student must have demonstrated leadership in high school and have a cumulative high school GPA of 2.7 or higher. Scholarship is renewable provided student continues to meet the renewal criteria.

Jack H. Brown College Single Parent Scholarship provides support to single parents pursuing a business degree. The recipient must be a San Bernardino or Riverside County resident with a minimum 2.7 GPA. Preference will be given to incoming freshmen or transfer students. Preference will also be given to students who graduated from a high school in the city of San Bernardino. Scholarship is renewable provided student continues to meet the renewal criteria.

Jack H. Brown College Veterans Scholarship provides support to veterans pursuing a business degree. Student must be a San Bernardino or Riverside County resident with a minimum 2.7 GPA. Preference will be given to incoming freshmen or transfer students. Preference will also be given to students who graduated from a high school in the city of San Bernardino. Scholarship is renewable provided student continues to meet the renewal criteria.

James Robinson Scholarship provides scholarships to full-time students preparing to enter their junior or senior year toward a degree in the Jack H. Brown College of Business and Public Administration. Student must have a cumulative 3.2 GPA.

Janice Tillema Memorial Scholarship provides support to students with a minimum 3.0 GPA, living within Citizens Business Bank Service area which includes San Gabriel Valley, Inland Empire and Orange County. Student must be a full-time undergraduate or graduate student and must be a business major.

John F. Merrell Charitable Foundation Scholarship provides scholarships to students enrolled in the Jack H. Brown College of Business and Public Administration program with a cumulative 3.0 GPA. Must demonstrate an interest in accounting and/or finance.

Judy Davis Memorial Scholarship provides scholarships to marketing students with a 3.0 GPA or higher who demonstrate a commitment to serving the community.

Master in Business Administration Alumni Expendable Scholarship Fund provides support to applicants to the MBA program upon matriculation and to current students in the MBA program. Students must have a minimum 3.0 GPA.

Master of Public Administration Alumni Scholarship Fund provides support to current students or applicants to the Master of Public Administration program under matriculation. Students must have a minimum 3.0 GPA and preference will be given to CSUSB employees.

MBA for Executive Scholarship provides a scholarship for current MBA Executive students with an undergraduate or graduate GPA of 3.0 or greater.

"Met" Hawatmeh Endowed Scholarship Fund provides support to students enrolled in the Jack H. Brown College of Business and Public

Administration with a minimum 3.0 GPA. Financial need considered but not essential.

Michael T. Slaton, Sr. Memorial Scholarship is awarded to upper division students majoring in Business Marketing (preferably with an emphasis in Economics or Commercial Real Estate), enrolled full-time with an overall GPA of at least a 3.0 in all college coursework. Katrina McDowell Scholarship at PDC provides support for full-time students that have most of their class work at the Palm Desert Campus. Candidates must keep a 2.5 cumulative GPA. A demonstration of financial need is considered but not required as according to federal

and institutional eligibility criteria must be reflected in the applicant's application materials. Scholarship is renewable for 2 academic years.

Kiyoko & Yeji Kitawaga Endowed Fund provides support to full-time undergraduate students attending the CSUSB Palm Desert Campus with a minimum 3.0 GPA. Students must have graduated from Coachella Valley High School.

Linda Simmons Endowed Scholarship is awarded to students that are full-time sophomores, juniors, or seniors each quarter of the academic year at the CSUSB Palm Desert Campus, with the majority of class work being done at CSUSB Palm Desert Campus. These students are required to attend one Cal State University Associates presentation during the season and address audience members in regards to what the scholarship means to their education and life. Students must maintain a cumulative GPA of 3.0 or higher.

Mary Stuart Rogers scholarship awards scholarships to CSUSB Palm Desert Campus students. Must have a minimum GPA of 3.0 and be admitted to a Teaching Credential or Education master's degree program. A letter of recommendation from a current instructor is needed.

Palm Desert Campus Lou Fernandez Scholarship provides scholarships to undergraduate students with a cumulative 3.0 GPA.

Palm Desert-Indian Wells Women's Club Scholarship is awarded to CSUSB students enrolled in the BSN or MSN nursing programs at the Palm Desert Campus, must have a 3.0 GPA and must be a full-time student. Financial need is considered but not essential.

Park Hospitality Endowment will provide scholarship support to the students enrolled in the Hospitality Management Program at the Palm Desert Campus.

PDC Endowed Scholarship provides support to full-time students enrolled each semester of the academic year at CSUSB Palm Desert Campus. Students must maintain a minimum GPA of 2.5 or higher.

PDC Hospitality Management Scholarship provides support to full-time students attending the CSUSB Palm Desert Campus and majoring in the Hospitality Management Program.

PDC University Legacy Scholarship provides support to students attending the CSUSB Palm Desert Campus. Applicants are measured by academic and scholarship performance, leadership potential demonstrated by previous leadership experiences prior to graduation from high school and financial need.

Robert A. & Shirley Saccaro Endowed Scholarship provides support to full-time sophomores, juniors, and seniors attending the CSUSB Palm Desert Campus. Student must have a minimum 3.0 GPA.

Roderick M. Hendry Scholarship provides scholarships to students with an overall GPA of 3.0, open to any declared major available at the Palm Desert Campus (PDC), must be an undergraduate student, must be enrolled as a full-time student at CSUSB PDC, must have completed at least 30 semester units of college course work with a required minimum of 9 semester units of course work in their declared major with at least a 3.0 GPA, and must submit a 500 word essay as to why they want, need and deserve this scholarship. Financial need is considered but not mandatory.

Steve and Catharine Briggs Scholarship provides scholarships to students enrolled in the College of Natural Science's Nursing or Allied Health Professions degree programs, must attend the Palm Desert Campus and demonstrate a commitment to the pursuit of a career in

nursing or the allied health sciences. Financial need is considered but not essential.

Scholarships for Adult Re-Entry Students

Crankstart ReEntry Expendable Scholarship provides support to undergraduate students who are pursuing their first baccalaureate degree and who have experienced a cumulative gap in their education of five or more years. Student(s) must also demonstrate financial need. Scholarship monies are applied towards fees/tuition only. For more information, contact the Osher Adult Re-Entry Center (<https://www.csusb.edu/smsu/oarc/>).

Osher Re-Entry Scholarship provides support to undergraduate students who are pursuing their first baccalaureate degree and who have experienced a cumulative gap in their education of five or more years. Student(s) must also demonstrate financial need. Scholarship monies are applied towards fees/tuition only. For more information, contact the Osher Adult Re-Entry Center (<https://www.csusb.edu/smsu/oarc/>).

Off-Campus Scholarships

Off-campus scholarships are administered by other organizations not affiliated with CSUSB. Organizations such as community organizations, private companies, religious affiliations, etc. Listed below are just a few of the different sources to use when searching for off-campus scholarships. The information below was provided by off-campus organizations. Additional scholarships can also be found on the online Scholarship application by clicking on the "Search Scholarships" link.

Army ROTC Scholarships Through arrangements with Claremont McKenna College and the Department of Military Science at California State University San Bernardino, Army Reserve Officers' Training Corps programs are available to all qualified CSUSB students. Academic units earned in the program may be counted as elective units toward fulfillment of graduation requirements. Upon graduation and the successful completion of the Army ROTC program leads to a commission as a Second Lieutenant in the United States Army. Subsequent service will follow either as an active duty officer, an Army National Guard officer, or as a Reserve officer. Scholarships for two, three and four years are available to qualified students. Scholarships cover tuition or room and board. A monthly stipend is paid during participation in the program. In addition, participants receive a annual book allowance. Simultaneous participation with an Army National Guard or Reserve unit is also available. Army ROTC students in this program receive additional pay and benefits. There are also additional benefits for veterans. Interested students may obtain more information by calling the Army ROTC Program, California State University, San Bernardino at (909) 537-5533 or the enrollment officer at (909) 286-0113, email jmcb@csusb.edu.

Gates Millennium Scholars Program (GMS (<http://www.gmsp.org/>)) Established in 1999, the program was initially funded by a \$1 billion grant from the Bill & Melinda Gates Foundation. The goal of GMS is to promote academic excellence and to provide an opportunity for outstanding minority students with significant financial need to reach their highest potential. The GMS program is more than just a scholarship. The GMS program offers Gates Millennium Scholars with Academic Empowerment (ACE) services to encourage academic excellence; mentoring services for academic and personal development; and an online resource center that provides internship, fellowship and scholarship information.

Hispanic Scholarship Fund (HSF) and College Access Foundation have partnered to provide scholarship awards to assist outstanding Latinos

who are high school seniors from Inland Empire (California counties of Riverside and San Bernardino) and that are planning to enroll at either the University of California, Riverside or California State University, San Bernardino. Selected students may receive the award for up to four years.

National Federation of the Blind is currently accepting scholarship applications. Scholarship awards range from \$3,000 to \$10,000. Visit the National Federation of the Blind website to apply.

Pathways to Success Program awards scholarships to Coachella Valley undergraduate students who have a minimum 2.0 GPA, and have financial need. Students must demonstrate leadership or involvement in their community or school and have the desire and motivation to succeed. Students must submit two letters of recommendation from a professor, instructor, counselor, or community leader. Applications are available at The Pathways to Success Program and must be postmarked by the established deadline for the award year.

Paying for College Resource Guide is provided by congresswoman Lucille Roybal-Allard's District office. Constituents of the 34th District may request hardcopies to be mailed to them directly. This directory is updated once a year. Please check with each scholarship contact or website for the most current information.

SAP America Scholarship Program This program recognizes outstanding undergraduate students pursuing a degree in business, computer science, mathematics, or engineering. To learn more about the program and its requirements, visit their website. To apply for the scholarship program, visit the application site Scholarship Application. To be considered, applicants are required to submit the completed application, current transcript, resume, paper, and letter of recommendation following the directions listed in Program Requirements, to citizenship.usa@sap.com.

TELACU College Success Program provides support to students enrolled in a business-related field of study (business administration, accounting, finance, economics, international business relations, etc.) or STEM-related field of study (primarily engineering majors or computer science or technology majors). This scholarship is open to any grade level. Preference will be given to those who would particularly benefit from TELACU's program resources of professional, personal and academic empowerment and those that demonstrate financial need. Email CollegeSuccess@TELACU.com if interested (provide name, email and state your interest in the scholarship; they will then provide you with application materials and instructions).

Other Information Regarding Scholarships

Scholarship Search Engines are tools students can use to locate other scholarship opportunities. Students provide a profile, and the search engine alerts them to scholarship opportunities that match their criteria. Listed below are just a few examples of Scholarship Search Engines that students may use:

FastWEB is one of the largest scholarship search engines on the Internet. It provides access to a searchable database of more than 275,000 private sector scholarships, fellowships, grants, and student loans available to students.

ScholarshipExperts.com has been helping parents and students find scholarships for over five years. The database is constantly updated to provide the most accurate scholarship information available.

Scholarships.com is a free college scholarship search and financial aid information. It assists parents and students in obtaining scholarship awards for college and in exploring all financial aid for which the student is eligible. It also provides information and resources of local, state, and national scholarships and grant opportunities, in addition to the Federal and private loan options for funding a college education.

The Office of Financial Aid & Scholarships provides students with information on how to find scholarships, and also provides information that educates, such as scholarship scams. Listed below are some additional web sites:

- The Federal Trade Commission (FTC) web site (<http://www.ftc.gov/>) has information on scholarship scams and how to avoid them.
- National Association of Financial Aid Administrators (<http://www.nasfaa.org/>) has consumer scholarship tips.
- The Federal Student Aid (<http://studentaid.gov/>) programs are the largest source of student aid in America, providing over \$40 billion a year in grants, loans, and work-study assistance. Students will find help for every stage of the financial aid process, whether in school or out of school.

Academic Regulations and Standards

All students who register at California State University, San Bernardino in resident study must first be admitted to the university by the Office of Admissions and Student Recruitment.

No student may attend classes unless officially registered and appropriate fees have been paid. Students are required to make all payments on the regularly announced days.

Students are granted credit only for those courses in which they are formally registered and are responsible for completing all courses under their name on the schedule confirmation list, except those courses they officially change through myCoyote Self Service.

cClass Level of Students

Students are classified at the end of each term according to total earned credits accepted for transfer and/or completed at California State University, San Bernardino as follows:

Status	Units earned
Lower-division	
Freshman	0-29.9 units
Sophomore	30-59.9 units
Upper-division	
Junior	60-89.9 units
Senior	90 units or more
Postbaccalaureate	Holding a baccalaureate degree from an accredited college and not pursuing a graduate degree program (2nd B.A./certificate)
Unclassified	No degree or credential objective, nor pursuing a 2nd B.A. or B.S. or certificate
Conditionally classified	Completing prerequisite requirements for the credential
Classified	Pursuing a credential
Graduate	Postbaccalaureate student pursuing a graduate degree
Conditionally classified	Completing prerequisite requirements for graduate degree
Classified	Admitted to the degree program

New Student Orientation

CSUSB Orientation and First Year Experience website (<https://www.csusb.edu/orientation/>)

Orientation is CSUSB's new student orientation program that is required for all newly admitted undergraduate students to attend. It is much more than simply choosing classes or taking a campus tour. It is an opportunity to meet other new students, review academic choices with academic advisors, learn how to be a successful student, and learn what it means to be a CSUSB Coyote.

New Student Orientation provides students with key resources and tools to help ease the transition into the CSUSB community as students bond

with other new students, fellow upper classmen, and Orientation Leaders. Through workshops, discussions, guest speakers and special events, this experience will prepare students for life as a Coyote.

Advising

Students must take responsibility for the decisions which affect their academic progress. Faculty, staff, and peer advisors at the university are available to assist students by providing academic advisement during their office hours or by appointment.

However, before a student meets with an advisor, the following steps are highly recommended:

1. Become knowledgeable about university policies, procedures and requirements.
2. Review your PAWS (Program Advising Worksheet for Students) before your advising appointment. Create and update your myCAP (myCoyote Academic Planner).
3. Develop a tentative course schedule using the Academic Catalog, Class Schedule, PAWS, myCAP, and Roadmap.
4. Gather all relevant decision-making information such as work schedules or other time commitments.
5. Prepare a list of questions or topics to discuss with the advisor. This is a good opportunity to discuss educational and career goals.

Academic Advisor

Students can meet with a faculty, professional, or peer advisor each term for help planning their academic programs and schedules of classes. To contact an advisor, visit Academic Advising or contact the appropriate department in your myCoyote Student Center. Students who have yet to declare a major should contact the office of Academic Advising. All students should confer with an advisor regularly.

Academic Probation

Undergraduate students who are placed on academic probation must confer with an academic advisor in the office of Academic Advising prior to registration and must adhere to the advisor's specific recommendations which are designed to improve the student's grade point average and overall success at CSUSB. Students in EOP (Educational Opportunity Program) must meet with the EOP office for academic probation.

Academic Course Load

Students planning to finish their undergraduate degree requirements in four years by attending two semesters each academic year must complete a minimum of 15 degree applicable units per semester. To be considered full-time for veterans benefits and financial aid purposes, an undergraduate student must enroll in a minimum of 12 units. Students may register for up to 18 units per semester.

Unit Overloads

A student may register for more than 18 units only upon petition to their college dean. Normally, petitions are approved only if both the grade point average for the previous term and the overall grade point average are 3.0 or better. Additional units may be added once "Late Registration" begins, if classes remain open and the overload is approved. During summer, only 14 max units are allowed for the term.

Mandatory Basic Skills

Mandatory Basic Skills

College-level skills in written communication (composition), mathematics (quantitative reasoning), oral communication, and critical thinking are fundamental for success at the university.

To determine the appropriate first-year General Education Composition and Mathematics courses, all new students should consider their appropriate category (determined by admission, using multiple measures including high school English and mathematics/quantitative reasoning courses completed and grades earned; high school grade point averages (GPA); grades in collegiate courses; test scores such as the SAT; Advanced Placement (AP) or International Baccalaureate (IB) scores; Smarter Balanced Assessment/Early Assessment Program (EAP) scores; and the English Department's Directed Self-Placement (DSP) assessment for written communication) to determine the appropriate course sequence or pathway.

For written communication/composition course(s), students may choose to enroll in any of the first-year General Education composition options (ENG 1050A - ENG 1060A), (ENG 1050B - ENG 1060B), (ENG 1070A) or (ENG 1070B). They must remain enrolled in their chosen option until their General Education requirement has been completed (ENG 1060A, ENG 1060B, ENG 1070A or ENG 1070B).

For quantitative reasoning/mathematics course(s), after consultation with an advisor, students may enroll in a General Education mathematics course (MATH 1101, MATH 1201, MATH 1301, MATH 1401, MATH 1601, or MATH 2210) or the appropriate stretch course option (MATH 1102 - MATH 1103; or MATH 1202 - MATH 1203; or MATH 1302 - MATH 1303; or MATH 1402 - MATH 1403). Students must remain enrolled in their chosen option until their General Education requirement has been completed. For placement in math courses, additional evaluation may be required.

It is recommended that students should complete the first-year composition and mathematics courses during the first year of enrollment.

System-wide Placement Requirements

To provide consistent guidance to prospective CSU students and secondary schools, the following standards shall be applicable at each CSU campus. Placement in courses that satisfy CSU General Education (GE) Mathematics/Quantitative Reasoning and Written Communication requirements will be based on four categories described below. For students demonstrating indicators near the placement thresholds, campuses may make exceptions to this placement guidance, based on information regarding the academic progression of students. These exceptions may include outcomes of directed self-placement exercises.

Category I: Has fulfilled the GE University Foundations Subarea 3 or 5 requirement

Student has met the CSU GE Breadth University Foundations Subarea 3 and/or 5 requirement via Advanced Placement (AP) examination, International Baccalaureate (IB) examination or transferable course.

Category II: Placement in a GE University Foundations Subarea 3 or 5 course

Student has met examination standards and/or multiple measures-informed standards. Recommend GE written communication (ENG 1070A or ENG 1070B) or math/quantitative reasoning (MATH 1101,

MATH 1201, MATH 1301, MATH 1401, MATH 1601, or MATH 2210 with additional evaluation) course.

Category III: Require placement in a supported GE University Foundations Subarea 3 or 5 course or the first term of an applicable stretch course.

Based on new multiple measures, student needs additional academic support. Participation in the Supportive Pathways for First-Year Students Program is recommended and highly advisable for some students, particularly STEM majors.

Category IV: Require placement in a supported GE University Foundations Subarea 3 or 5 course or the first term of an applicable stretch course.

Based on new multiple measures, student needs additional academic support. Participation in the Supportive Pathways for First-Year Students Program is recommended and highly advisable for some students, particularly STEM majors..

Accelerated Progress

Some students choose to accelerate progress toward completion of their objectives through a program of independent study and registration for additional course credits.

In addition, credit-by-examination procedures permit students to demonstrate their mastery of the content of local courses, as described below, or courses offered through the Advanced Placement Program, International Baccalaureate Program, or the subjects tested by the College Level Examination Programs.

Students wishing to enroll for additional course work during the academic year should follow the procedures described in the section on academic course load, above.

Advanced Placement

CSUSB grants credit toward its undergraduate degrees for successful completion of examinations of the Advanced Placement Program of the College Board. Students who present scores of three or better will be granted up to six semester units (nine quarter units) of college credit.

Credit by Examination

Students may challenge courses by taking examinations developed at CSUSB.

Credit shall be awarded to those who pass them successfully.

A student who already possesses, or through independent study is able to acquire, the skills or knowledge of the ideas and concepts of a course can accelerate progress through the university. Students must register for the examination in the office of the college or department concerned before the first day of classes of the term in which the course is offered. Some presumptive evidence is required to indicate that the student has a reasonable chance of passing the examination. The student must complete the examination within the first two weeks of the term. Courses may be designated by a college, school, department or appropriate unit as inappropriate to be challenged by examination on the basis that course content is not suited to such examination.

No fee is charged for these examinations. A student who passes an examination is given the grade of CBE for that course, provided that this

does not duplicate credit counted for his admission to the university. No official record is made of failures in these examinations.

Examinations for course credit are given under the following restrictions:

1. They may be taken only by students matriculated through regular enrollment at the university in courses other than the one(s) to be challenged.
2. They may not be taken by students who have received credit for work in the subject in advance of the course in which the examination is requested, except where permission is granted by the college or department concerned.
3. They may not be taken to raise grades or remove failures in courses.
4. Once students have successfully challenged a course, they may not subsequently enroll in the course for credit. Units attempted, units earned and grade points for any such enrollment will be disallowed.
5. A maximum of 27 units of credit may be received through such examinations.
6. A student may repeat an examination for credit only upon approval of the associate provost for academic programs.
7. Credit by examination may not be used to fulfill the minimum residency requirement.
8. The course must be offered during the term in which the examination is taken. However, students may not enroll in a course they plan to challenge. If the challenge is unsuccessful, the student may add the course subject to the regulations for adding a class printed in the *Class Schedule*.

Exact times and places of examinations are announced by the departments concerned. Students who wish to take an examination should consult the departmental office well in advance.

Credit for Non-Collegiate Instruction

CSUSB grants undergraduate degree credit for successful completion of non-collegiate instruction, either military or civilian, appropriate to the baccalaureate degree, which has been recommended by the Commission on Educational Credit and Credentials of the American Council on Education. The numbers of units allowed are those recommended in the Guide to the Evaluation of Educational Experience in the Armed Services and the National Guide to Educational Credit for Training Programs.

For regulations concerning credit by examination in graduate programs refer to Graduate Degree and Program Requirements (p. 71).

Credit for Comprehensive Examination Courses

Any student admitted to this campus may earn degree credit for no more than three comprehensive examination courses regardless of the total units earned in those courses. This maximum is to be counted separately from all other out-of-class curriculum options (for example, credit by examination). The student's major discipline may further restrict the number of comprehensive examination credits acceptable toward the major.

In cases where the subject matter of a comprehensive examination course duplicates that of a course taken previously, the university's Repeat of Course policy will apply. In no instance will duplicate credit be awarded for a repetition of subject matter.

Appeal of Admission Decision

Section 89030.7 of the California Education Code requires that the CSU establishes specific requirements for appeal procedures for a denial of admission. Each CSU must publish appeal procedures for applicants denied admission to the university. The procedure is limited to addressing university decisions to deny an applicant admission to the university.

Admission appeal procedures must address the basis for appeals, provide 15 business days for an applicant to submit an appeal, stipulate a maximum of one appeal per academic term, provide specific contact information for the individual or office to which the appeal should be submitted and indicate a time estimate for when the university expects to respond to an appeal. The appeal procedures must be included in all denial of admission notifications to students and must also be published on the university website.

Appeal Procedures for Applicants Denied Admission to CSUSB (<https://www.csusb.edu/admissions/apply-csusb/what-if-i-dont-qualify/>)

Concurrent Enrollment

A student in good academic standing at California State University who has completed at least 12 semester units of work at the university, and who is eligible to register as a continuing student for the subsequent term, may enroll concurrently at another college.

Undergraduate students wishing to complete courses at another institution must submit a Concurrent Enrollment contract (<http://registrar.csusb.edu/evaluations/concenrollment.html>) with the Office of the Registrar 2-3 weeks prior to the start of the term. Credit may not be awarded for course work completed without this prior approval. Approval will only be granted for California Community Colleges, or other local institutions with which articulation agreements are in place. Upon completion of the course(s), the student must request that an official transcript be sent to CSUSB.

Courses that use non-traditional off-campus delivery systems, such as self-paced instruction, correspondence courses, or on-line computer instruction and testing may be required to be proctored through the Testing Office.

Intrasystem and Intersystem Enrollment Programs

Fully matriculated students enrolled at any CSU have access to courses at other CSUs on a space available basis unless those universities/programs are impacted. This access is offered without students being required to be admitted formally to the host university and in most cases without paying additional fees. Students should consult their home university academic advisors to determine how such courses may apply to their specific degree programs before enrolling at the host university.

There are two programs for enrollment within the CSU and one for enrollment between CSU and the University of California or California Community Colleges. Additional information about these programs is available from the Office of the Registrar (<https://www.csusb.edu/registrar/>).

CSU Fully Online Courses - Matriculated students in good standing may request enrollment in one course per term, offered by a CSU host university. Enrollment requests will be granted based on available space, as well as completion of any stated pre-requisites. Credit earned at the

host university is electronically reported to the student's home university to be included on the student's transcript at the home university.

CSU Visitor Enrollment - Matriculated students in good standing enrolled at one CSU may enroll at another CSU for one term. Credit earned at the host university is reported at the student's request to the home university to be included on the student's transcript at the home university.

Intersystem Cross Enrollment - Matriculated CSU, UC or community college students may enroll on a "space available" basis for one course per term at another CSU, UC, or community college and request that a transcript of record be sent to the home university.

UCR/CSUSB Cross Registration Program

On a limited basis, students may be permitted to take advantage of courses offered at the nearby University of California campus in Riverside. Note: this opportunity is available only for undergraduate courses not normally offered at CSUSB and is subject to availability of space at UC Riverside after their early registration process is completed. The following conditions apply:

1. A limited number of students may participate.
2. A limit of one course per student per term.
3. The student is matriculated and currently enrolled in a degree program.
4. Students attending CSUSB on I-20 visas may participate, but must be concurrently enrolled in (and complete) at least 12 units at CSUSB, and may enroll only in upper-division courses that are not offered at CSUSB.
5. Student must pay sufficient (full) tuition fees at the Home Campus. No additional registration fees will be required at the Host Campus.
6. The desired course is not offered at the Home Campus.
7. Student must be in good academic standing.
8. Student must observe all academic deadlines and regulations of the Host Campus.
9. Enrollment is subject to space availability and consent of the instructor.
10. Student must meet course prerequisites of the Host Campus.
11. Records of grades will be maintained by the Host Campus and forwarded to the Home Campus. The Home Campus will include the "transfer" work on the student's transcript, with a footnote indicating that the course was taken through the exchange program.
12. Residence credit will be granted for courses taken by CSUSB students under this arrangement.
13. Cross-registration students will have the use of library facilities at the Host Campus. The student is not eligible for other student services or facilities.

Class Schedule

An official academic term *Class Schedule*, prepared each term by the university, includes the registration schedule, procedure for registration, fees, classes offered by hours and instructors, and other pertinent registration information. The schedule is available just prior to advisement and registration each term at the Academic Scheduling website (<https://www.csusb.edu/academic-scheduling/>). Students are responsible for being aware of information contained in the academic term *Class Schedule*.

Registration Procedures

All registration, including schedule adjustments (adds and drops) and late registration, will be accomplished using myCoyote Self Service.

Simultaneous Enrollment

Procedures have been established whereby a student may enroll in two classes that are scheduled to meet at overlapping times. The student should obtain an approval for a Simultaneous Enrollment. Students will discuss with the instructors for both of the courses involved to make special arrangements, then obtain the approval of both class department chairs. To obtain these approvals, submit a request through the **Permission Request** link from your Student Center.

Late Registration

The dates of late registration each term will be announced in the academic term *Class Schedule*. The university calendar lists registration dates. Late registrants may find themselves at a disadvantage in arranging their programs due to closed classes. A \$37.50 late registration fee is required for students not already enrolled by the late registration deadline.

Auditing Courses

Enrollment in any course as an auditor shall be permitted only after students otherwise eligible to enroll in the course on a credit basis have had an opportunity to do so and only upon consent of the instructor. Auditors are subject to the same fee structure as credit students, and regular class attendance is expected.

Credit for courses audited will not subsequently be granted on the basis of the audit. Transcripts are not issued for audited courses.

Once enrolled as an auditor, a student may not change to credit status unless such a change is requested within the first week of class and is approved by the instructor. Students registered for credit may change their status from that of enrolled student to that of auditor with the approval of the class instructor concerned and within the first four weeks of class.

Forms for such changes may be obtained at the Office of the Registrar in University Hall.

Class Attendance

Regular attendance is expected of all students enrolled at the university. The instructor of each class sets specific standards expected of students.

A student absent from classes is responsible for arranging to make up missed class work and assignments. In cases of prolonged absence, the student should investigate the feasibility of withdrawal from the university.

Adding Classes

During the Open Enrollment and Schedule Adjustment period (see academic term *Class Schedule* (<https://www.csusb.edu/class-schedule/>) for specific dates) students may add classes by following the Registration Instructions detailed in the academic term *Class Schedule*. It is important to note that students who add a class or classes after the first scheduled class session may find themselves at a distinct disadvantage in terms of doing well in the class(es). Students should also be aware that they are responsible for any material they may have missed as a result of adding after the first day.

Adding an Open Class

Beginning with the first day of classes, students may add classes if space is available through the first week (five business days) of the term via myCoyote Self Service. During the second and third weeks of the term, classes may be added with the permission of the instructor. During the fourth week of the term, students will need the permission of the instructor and the department chair in order to add a class. Students will need to request permission through their myCoyote Student Center via Permission Request under Academics. Students may not add classes after the end of the fourth week of the term except for serious and compelling reasons and only with the approval of the instructor, the Department Chair, and Dean of the College in which the course resides. For questions concerning this policy, contact the Office of the Registrar at (909) 537-5200 or email at registrationhelp@csusb.edu.

Adding a Closed Class

During the first four weeks of the term, students may add a closed class with the permission of the instructor and the department chair. Students may not add closed classes after the end of the fourth week of the term except for serious and compelling reasons and only with the approval of the instructor, the Department Chair, and Dean of the College in which the course resides. Students will need to request permission through their myCoyote Student Center via Permission Request under Academics.

Retroactive Add

Requests for adding a class following the close of the term (retroactive add) will only be considered in the event of an error on the part of the university. Petitions for retroactive adds will be considered by the Associate Vice President & Dean of Academic Success and Undergraduate Advising for undergraduates or the Dean of Graduate Studies for postbaccalaureate and graduate students and will require documentation from the instructor that will indicate that the student attended the class and earned a passing grade.

Drops and Withdrawals

Beginning Fall 2009, undergraduate students may not exceed 18 semester units of withdrawals (grade of "W"). Withdrawals completed prior to Fall 2009 are not included in this total. This limit applies only to courses taken at CSUSB, including courses taken through Open University, the College of Extended and Global Education and special sessions. The policy for all undergraduate students will be available at the CSUSB Academic Advising (<https://www.csusb.edu/advising/>) website. For credential, postbaccalaureate, and graduate students, the policy can be found in the Graduate Programs section of the current Bulletin under "Retroactive Withdrawals."

Census Date

Census Date (also known as Census Day) refers to two very important deadlines:

1. Last day a student can add a class (by permit since it is the fourth week of classes)
2. Last day a student can drop a class without a record on the student's transcript.

Specific Census Dates for each term are listed in the Academic Calendar (p. 26) and in the academic term Class Schedule (<https://www.csusb.edu/class-schedule/>). Census Date falls on the last day of the fourth week of the Fall, Spring, and Summer (Regular) Session. Census Date for Summer Session 6W1 and Summer Session 6W2 falls on the sixth day in

either session. Census Date for the Winter Intersession falls on the third day of the session.

Dropping Classes

A drop is defined as a withdrawal through Census Date. Drops do not produce a record on the student's transcript.

Students should read this section carefully to understand fully when and for what reasons they may drop a course themselves.

It is the students' responsibility to verify their schedules prior to Census Date. Grades will be assigned for every course in which they are officially registered. It is also the students' responsibility to drop by Census Date any class which they do not plan to attend and complete. While an instructor **may** drop students for non-attendance during the first four weeks of classes (see "Administrative Drop Policy"), students should not assume this will be done.

Dropping Classes through Census Date

During the Open Enrollment and Schedule Adjustment period (see academic term Class Schedule (<https://www.csusb.edu/class-schedule/>) for specific dates) students may drop classes by following the Registration Instructions detailed in the academic term *Class Schedule*. Students may drop a class during the first four weeks of the Fall and Spring terms (i.e. from the first day of instruction through Census Date), and the course will not appear on their permanent records; however, a refund will not be granted if the drop is beyond the refund deadline date. See the academic term *Class Schedule* for specific dates for each term, including Summer and the Winter Intersession.

Administrative Drop

Faculty members may initiate an administrative drop of a student in their courses through their department's administrative support coordinator.

Students will be notified of these administrative drops via their CSUSB email. Students should not assume that they will be automatically disenrolled, however. Instead, they are strongly encouraged to check their myCoyote to confirm course enrollment and drops every term. Administrative drops are based on the following criteria:

Lack of attendance

Students who fail to attend two consecutive class meetings during the first four weeks of the term without contacting the faculty member or making special arrangements **may** be dropped. Students in on-line or hybrid classes who fail to make contact with the instructor either in person or electronically (via e-mail or Canvas) within the first four days of the start of the term may also be dropped during the first four weeks of the term.

Prerequisites not met

Students who are unable to show completion of required courses or who do not have the background needed to succeed in the course may be dropped.

Declared majors

Students who have not been formally admitted to certain major programs may be dropped from courses that are open only to declared majors in that program. To remain in such classes, permission of the instructor may be required.

Students should not assume they are automatically disenrolled. Instead, they are strongly encouraged to check their myCoyote to confirm course enrollment and drops every term.

If the administrative drop reduces the student's unit load below 6.1 units, the student may be eligible for a refund of certain fees. However, it is the student's responsibility to file a request for a refund of fees by the deadline printed in the academic term Class Schedule (<https://www.csusb.edu/class-schedule/>). Questions regarding refunds should be addressed to the Office of Student Financial Services by calling 909-537-5162 or emailing sfs@csusb.edu.

Withdrawing from Classes

Withdrawal from classes after Census Date

A course dropped after Census Date is defined as a withdrawal and a grade of "W" will be posted to the student's record if the withdrawal is approved. Beginning Fall 2009, undergraduate students may withdraw from no more than 18 semester units during their entire undergraduate academic career at CSUSB.

Withdrawals after Census Date and through the end of the twelfth week of the term are permitted only for serious and compelling reasons. See the Summer academic term Class Schedule (<https://www.csusb.edu/class-schedule/>) for withdrawal dates during the summer terms. The student will be required to submit a petition through the Permission Request process within your myCoyote Student Center. Documentation to support the request to withdraw is required. Poor performance or poor attendance in the course is not an acceptable reason to withdraw from a course during this period.

Withdrawals during this period will require written documentation along with the approval of the instructor, the department chair or school director of the class, and the Dean of the College of the student's major. Courses officially withdrawn during this time period will show a grade notation of "W" (withdrawn) on the student's transcript for the dropped course(s). Students receiving a "W" are still subject to fees for the courses. In certain circumstances, withdrawals after Census Date may qualify for an exemption to the 18 semester unit maximum. Such requests must meet the same standard and be processed in the same manner as described in the next section of this policy.

Withdrawal from classes in weeks thirteen through the last day of instruction shall not be permitted except in cases, such as accident or serious illness, where the cause of withdrawal is due to circumstances clearly beyond the student's control, and the assignment of an Incomplete is not practicable. Withdrawals of this sort may involve total withdrawal from the campus or may involve one or more courses. Before submitting a petition to withdraw from class, students are strongly advised to discuss with their instructor(s) the possibility of receiving an Incomplete. In cases in which sufficient work has been completed to permit an evaluation to be made, a grade and credit or an Incomplete may be assigned to allow the student to retain credit for work which would otherwise be lost due to complete withdrawal.

Requests for permission to withdraw in weeks thirteenth through the last day of instruction must be made by petition with documentation to support the request to withdraw. These requests will be reviewed by the Director of Advising and Academic Services, UH-380. If approved, such withdrawals will not count against the 18 semester units students are allowed to withdraw.

Excessive or Unauthorized Withdrawal

Students who do not officially withdraw or who exceed the 18 semester unit maximum will receive a grade notation of "WU" (withdrawal unauthorized) in the course, which for purposes of grade point averages is equivalent to an "F." Students receiving a "WU" are still subject to fees for the courses. Failure to follow formal university procedures may result in an obligation to pay fees as well as the assignment of failing grades in all courses not officially dropped, and the need to petition for readmission before being permitted to enroll in another academic term.

Cancellation of Registration or Withdrawal from the Institution

Students who find it necessary to cancel their registration or to withdraw from all classes after enrolling for any academic term *are required* to follow the university's official withdrawal procedures. Failure to follow formal university procedures may result in an obligation to pay fees as well as the assignment of failing grades in all courses and the need to apply for readmission before being permitted to enroll in another academic term. Information on canceling registration and withdrawal procedures is available from the Registration Help Desk at 909-537-7671.

Students who receive financial aid funds **must consult** with the Financial Aid & Scholarships Office prior to withdrawing from the university regarding any required return or repayment of grant or loan assistance received for that academic term or payment period. Students who have received financial aid and withdraw from the institution during the academic term or payment period may need to return or repay some or all of the funds received, which may result in a debt owed to the institution.

Term Withdrawal through Census Date

During the Open Enrollment and Schedule Adjustment period (see academic term Class Schedule (<https://www.csusb.edu/class-schedule/>) for specific dates) students may withdraw from the university by following the registration instructions detailed in the academic term *Class Schedule* during the first four weeks of the Fall or Spring terms (i.e. from the first day of instruction through Census Date) and will have no record of enrollment listed on their permanent record. A pro-ration of fees may or may not be granted; however, a refund will not be granted if the withdrawal is beyond the refund deadline date. See the academic term *Class Schedule* for specific dates for each term, including Summer and the Winter Intersession.

Term Withdrawal after Census Date

Term Withdrawals after Census Date and through the end of the twelfth week of the term are permitted only for serious and compelling reasons. See the Summer academic term Class Schedule (<https://www.csusb.edu/class-schedule/>) for withdrawal dates during the summer and winter intersession terms. The student will be required to submit a petition through the Permission Request process within your myCoyote Student Center. Poor performance or poor attendance in the course(s) is not an acceptable reason to withdraw during this period. All courses officially withdrawn during this time period will show a grade notation of "W" (withdrawn) on the student's transcript for the dropped course(s). Students receiving a "W" are still subject to fees for the courses.

In certain circumstances, withdrawals after Census Date may qualify for an exemption to the 18 semester unit maximum. Such requests must meet the same standard and be processed in the same manner as described in the next section of this policy.

Withdrawal from all classes in weeks thirteen through the last day of instruction shall not be permitted except in cases, such as accident or serious illness, where the cause of withdrawal is due to circumstances clearly beyond the student's control and the assignment of an Incomplete is not practicable.

Requests for permission to withdraw in weeks thirteen through the last day of instruction must be made by petition through the Permission Request process within your myCoyote Student Center. Documentation to support the request to withdraw is required. These requests will be reviewed by the Director of Advising and Academic Services. If approved, such withdrawals will not count against the maximum 18 semester units from which students are allowed to withdraw.

Retroactive Term Withdrawal

Requests for retroactive term withdrawals shall be permitted for serious and compelling reasons, such as accident or serious illness, where the cause of withdrawal was due to circumstances clearly beyond the student's control and an Incomplete was not assigned. Extenuating circumstances must be shown to have prevented withdrawal in a more timely fashion. Documentation is required. Poor performance or poor attendance in the course(s) is not an acceptable reason to withdraw after the term. Employment-related reasons are also unacceptable. Lack of awareness of the withdrawal procedure is not an extenuating circumstance. All courses must be withdrawn and will be noted with a "W" on the permanent record. If approved, such withdrawals will not count against the 18 semester units from which students are allowed to withdraw.

Forms for Retroactive Term Withdrawal by undergraduates are available only in the office of the Director of Advising and Academic Services in UH-380. Partial withdrawal of classes during a term is not permissible unless special circumstances exist and the Dean of the student's major grants approval. Requests for Retroactive Term Withdrawal by unclassified postbaccalaureate students, credential candidates and graduate students must be made in writing to the Dean of Graduate Studies, CH-123.

Leave of Absence

Degree-seeking undergraduate students who plan to be absent from the university for more than one consecutive semester must file a leave of absence to preserve their current catalog rights (Title 5, Article 5, See. 40401). Contact the office of Academic Advising in University Hall, Room 329 for more information.

The leave of absence policy covers both involuntary and voluntary interruptions. In most instances, with an approved leave of absence, a student may be absent from the campus without losing rights to specific degree requirements under an earlier catalog.

Petitions for leaves of absence should be filed in advance of the interruption in enrollment. Each leave commences with the first regular semester of non-attendance. Requests for medical and military leaves may be considered retroactively if supported by individual circumstances, but those requests must be filed no later than Census Date of the second regular semester of non-attendance. Personal and planned educational leaves cannot be retroactive since they constitute an agreement or "contract" which must be set in advance. The maximum duration for any leave is two calendar years, although exceptions to the two-year limit may be granted under extenuating circumstances.

Leaves of absence will not be approved for students subject to disqualification or dismissal due to academic deficiencies or disciplinary action. Other students ineligible for leaves of absence are those who are not completing any degree applicable course work, those who are enrolling only in extension courses or those who are only auditing courses.

Students who do not return to CSU, San Bernardino at the conclusion of their planned leaves and those who enroll elsewhere without permission of the Office of the Registrar will be considered to have withdrawn from the university at the end of their last term of regular enrollment.

International students must submit a copy of the leave of absence petition to the Center for International Studies & Programs. Visa students must be registered as full-time students except when, after two consecutive semesters of regular enrollment, they decide to take a term off. All leave of absence periods must be approved by ISS prior to taking the leave in order to report the students properly to the Bureau of Citizenship and Immigration Services (BCIS). As a general rule, visa students must go back to their home country when applying for a leave of absence, as their primary goal in the U.S. is to obtain an academic degree.

The following Leaves of Absence may be requested:

Medical Leave of Absence

Requests must be accompanied by a statement from a medical doctor explaining why the student must interrupt enrollment. Exceptions to the two-year limit may be granted under extenuating circumstances.

Personal and Planned Educational Leaves of Absence

These leaves are defined as a planned interruption or pause in a student's regular education during which the student temporarily ceases formal studies at CSU, San Bernardino. The student must plan to return to CSU, San Bernardino at the end of the leave. Such activities may be for the purpose of clarifying or enriching educational goals or to allow time to address personal matters and thus enhance the prospect of successful completion of the student's academic program.

Since students on leave maintain their catalog rights, courses completed at other institutions must have received prior approval in order to be transferred back to CSU, San Bernardino. Therefore, a student must also file a concurrent enrollment form (<https://www.csusb.edu/registrar/evaluations/concurrent-enrollment/>) with the Office of the Registrar to obtain that approval. Failure to file a concurrent enrollment form may result in coursework not being accepted and revised GE and major requirements being required. Official transcripts must be submitted once coursework is completed.

Military Leave of Absence

Short term absences due to military obligation:

California State University, San Bernardino (CSUSB) supports students called to active duty in the U.S. Armed Forces. The policies and procedures described in this document apply to CSUSB students who are U.S. Armed Forces service members that are voluntarily or involuntarily called to active duty including service in the National Guard or Reserves. Short term absence due to military commitment pertains to those who will miss classes for their military service or necessitates withdrawal for a period not to exceed one semester (excluding summer).

For absences within the semester that do not result in a withdrawal from the semester:

Military service members who will miss classes for short-term military service or for training exercises are encouraged to contact their instructors as soon as they become aware of the need for the absence.

- Faculty members may request a copy of orders, letter from a commanding officer, etc.
- Faculty members are encouraged to make academic accommodations or opportunities for students to complete course assignments and/or exams when possible.

For absences that result in withdrawal from a semester and/or no enrollment for up to one semester (excluding summer):

Military service members who were absent from CSUSB for service in the Armed Forces are eligible to return to CSUSB based on the following provisions:

- Absence is due to active service in the Armed Forces, including the National Guard or Reserves, for more than 30 days.
- Students will maintain their program, enrollment and academic status.
- As provided for in the California Education Code 66023, CSUSB will refund fees paid by the student for the term in which he or she was called to active military service.

Based on federal regulations, institutions have the discretion to determine whether a student is prepared to return to his or her program with the same academic status at the point where the student left off, or will not be able to complete the program. CSUSB will make reasonable efforts at no extra cost to the student to help the student become prepared or to enable the student to complete the program with additional assistance such as providing refresher courses at no extra cost to the student and allowing the student to retake a pretest at no extra cost to the student.

Long term absences due to military obligation:

California State University, San Bernardino (CSUSB) supports students called to active duty in the U.S. Armed Forces by providing for tuition relief and refunds, and for reinstatement of students whose documented service in the uniformed services has required their sudden withdrawal or prolonged absence from their enrollment in the institution. Long term absence due to military commitment pertains to those who will miss classes for their military service or necessitates withdrawal for a period that extends more than one semester consecutively (excluding summer). Included is service in the uniformed services whether voluntary or involuntary on active duty in the Armed Forces, including such service by a member of the National Guard or Reserve. When a CSUSB student is under call or ordered to active duty for a period of more than one semester consecutively, the following provisions will apply.

As provided for in the Code of Federal Regulations (CFR) 34, 668.18, California Education Code 66023 and the Federal Register CFR 34, section 668.18, students who leave CSUSB to serve in the Armed Forces of the United States will be promptly readmitted to the same program with the same enrollment and academic status.

Military service members and veterans who were absent from CSUSB for service in the Armed Forces are eligible to return to CSUSB based on the following provisions:

- Absence is due to active duty service in the Armed Forces, including the National Guard or Reserves, for more than 30 days.
- The service member or veteran provides CSUSB Advising & Academic Services with either:
 - Advance notice that the need for a leave of absence is due to military service
 - Students will be asked to submit the Leave of Absence Form (<https://live-csusb.pantheonsite.io/sites/default/files/upload/file/Leave%20of%20Absence%205-30-2017.pdf>). Or,
 - Documentation that the absence was due to service in the Armed Forces, which the student may provide at the time of return.*
 - Examples of such documentation include a DD214, a copy of orders, etc.
- The service member or veteran notifies the CSUSB Office of the Registrar of the intent to re-enroll within 3 years of completion of military service. A student who is injured during or becomes ill as a consequence of military service must submit his/her intent to re-enroll no later than 2 years after the end of the period that is necessary for recovery from such illness or injury.
 - Students will be required to notify CSUSB of intent to return.
- The cumulative length of all absences for service in the Armed Forces may not exceed five years. This period includes only the time spent actually performing service, not the period before reporting for duty and the time between completing service and returning to the institution.
- Students will return to the same academic program with the same enrollment and academic status as when the absence began. Students will return to the next class or classes in their program after they provide notice of their intent to re-enroll.
- Eligibility of readmission is terminated upon any of the following circumstances:
 - Dishonorable or bad conduct discharge from the Armed Forces.
 - Dismissal as permitted under section 1161(a) of title 10, United States Code.
 - Drop from the rolls pursuant to section 1161(b) of title 10, United States Code.

A service member or veteran who does not meet these criteria is subject to current CSUSB admissions requirements and may apply for readmission by submitting the Cal State Apply application and application fee during the CSU admissions period.

As provided for in the California Education Code 66023, CSUSB will refund fees paid by the student for the term in which he or she was called to active military service.

Based on federal regulations, institutions have the discretion to determine whether a student is prepared to return to his or her program with the same academic status at the point where the student left off, or will not be able to complete the program. CSUSB will make reasonable efforts at no extra cost to the student to help the student become prepared or to enable the student to complete the program with additional assistance such as providing refresher courses at no extra cost to the student and allowing the student to retake a pretest at no extra cost to the student.

*Students who are unable to provide documentation due to military necessity (for example, because of a classified mission, operation or exercise) may sign a statement attesting that the absence was due to military service.

Returning from Approved Leave of Absence

When students plan to return from their leave earlier than requested, a readmission form, available through the Office of the Registrar must be submitted within the filing period for the semester of return. Visit Leave of Absence (<https://www.csusb.edu/registrar/records/leave-absence/>) for more information on submitting a Return from Leave of Absence.

Nothing is needed to be done if returning the term that was approved. No application fee will be assessed for leaves of absence that meet the terms of the leave agreement. If a student was on an approved educational leave, official transcripts are required.

Final Examinations

Written examinations of two hours duration are held at the close of each term. In courses extending over more than one term, the examination in the concluding term may also cover work done in the preceding term or terms. Examinations may not be taken before or after the scheduled period nor may the time of an examination be changed without authorization by the dean of the appropriate college. Permission to take a final examination with a different section in the same course may be granted by the dean of the appropriate college with the consent of the instructors concerned. Failure to take or to pass any final or other course examinations will result in such deficiencies as instructors may assign.

Final Grade

Final grades will be available to students within two weeks after the last day of each term. Grades are accessed through myCoyote Self Service.

Student Academic Grievance Procedures

A student may appeal a final course grade or a grade on a Comprehensive Examination or a project (e.g., art exhibition) or thesis required for graduation. An appeal may be initiated when a student believes there has been any of the following:

1. Clerical error
2. Capricious or prejudicial evaluation
3. Inconsistent or inequitably applied standards for evaluation

Students may also appeal to other types of academic decisions. These include, but are not limited to:

1. Denial of admission to or dismissal from a course, major, or program
2. Placement on Academic Probation
3. Suspension or dismissal from the university

Every effort should be made to settle the disagreement informally. This document is not intended to limit a student, faculty member, or department from resolving a problem in any informal way they find satisfactory. However; the college-level appeal procedures outlined in Section 2 must be exhausted before a student may initiate the University-level procedures described in Section 3.

The Student Academic Grievance Procedures are available through the Faculty Senate FAM 800-875: Teaching / Research / Students (<https://www.csusb.edu/faculty-senate/fam/800-875-teaching-research-students/>).

Please contact the Dean's Office of the College of the course, major, or program. Please contact the AVP Office of Academic Success & Undergraduate Advising for university-level inquiries in University Hall, Room 352.

Grades

The grade symbols used at the university are as follows:

Grade symbol	Performance level	Grade points per term hour
A	Excellent	4.0
A-		3.7
B+		3.3
B	Good	3.0
B-		2.7
C+		2.3
C	Satisfactory	2.0
C-		1.7
D+		1.3
D	Passing	1.0
D-		.7
F	Failing	.0
WU	Withdrawal Unauthorized	.0
U	Unauthorized Incomplete	.0
I	Incomplete Authorized	.0
IC	Incomplete Charged	.0
RP	Report in Progress	
SP	Satisfactory Progress	
CR	Credit	
NC	No Credit	
CBE	Credit by Exam	
CBX	Credit by Exam (Remedial Course)	
AU	Audit	
RD	Report Delayed	
W	Withdrawn	
WF	Withdrawn Failing	.0
FW	Failed, Withdrew	.0
UW	Unofficial Withdrawl	.0

All courses, except those specifically designated otherwise, will be graded on the A through F basis.

Grade point averages are computed by dividing the number of grade points earned by the number of units attempted. Only units and grade points earned by a student while enrolled at this university are used to compute the resident grade point average. Grades from courses numbered 1-99 are not computed in this average.

The following administrative grades carry no grade points and are, therefore, not used to determine a student's grade point average. However, it should be pointed out that the Incomplete will be changed to an "IC" (incomplete charged) and calculated as an "F" if not removed within one calendar year from the date it was assigned, unless the instructor assigned an earlier completion date on the Incomplete form.

CBE	Credit by Examination
CBX	Credit by Examination/Remediation
CR	Credit

I	Incomplete (Authorized)
NC	No Credit
RD	Report Delayed
RP	Report in Progress
SP	Satisfactory Progress
W	Withdrawal

Expanded Grade Symbol Definitions

A (Excellent): Meeting course requirements with a superior level of performance. A is recognized to be an honors evaluation.

B (Good): Meeting course requirements with a high level of performance.

C (Satisfactory): Meeting course requirements with an acceptable performance.

D (Passing): Meeting course requirements with minimally adequate performance.

F (Failing): Inadequate performance or not meeting course requirements.

CR (Credit): A satisfactory or better level of performance, equivalent to the grade of "C" (2.0) or better, has been demonstrated in meeting course objective. For graduate courses, equivalent to grade of "B" (3.0) or better.

NC (No Credit): Performance at an unsatisfactory or failing level, equivalent to a grade of "C-" (1.7) or less. For graduate courses, equivalent to a grade of less than "B-" (2.7). Does not award credit for the course or affect grade point average.

CBE (Credit by Exam): This symbol indicates that a student has successfully passed a course through an examination. Awards units earned toward degree. It is not included in the calculation of grade point averages.

CBX (Credit by Exam/Remediation): This symbol indicates that a student has successfully passed a remedial course through an examination. Does not award units earned toward a degree. It is not included in the calculation of grade point average.

I (Incomplete): An Incomplete signifies that a portion of required course work has not been completed and evaluated in the prescribed time period due to unforeseen, but fully justified reasons and that there is still a possibility of earning credit. It is the responsibility of the student to bring pertinent information to the instructor and to reach agreement on the means by which the remaining course requirements will be satisfied. A final grade is assigned when the work agreed upon has been completed and evaluated. Students may not re-enroll in a course for which they have received an "I" until that "I" has been converted to a grade other than "I", e.g., C- through F, IC, or NC.

An Incomplete must be made up within one calendar year immediately following the end of the term in which it was assigned or before graduation unless the instructor assigned an earlier completion date on the Incomplete Grade Agreement. This limitation prevails whether or not the student maintains continuous enrollment. Failure to complete the assigned work will result in an Incomplete being converted to an IC (or an NC if applicable) for grade point average computation, unless a specific grade was assigned on the Incomplete Grade Agreement. Note: In some instances the instructor may have indicated on the Incomplete Grade Agreement a grade to be assigned in the eventuality that the remaining course work is not completed.

Students may not receive an "I" grade in any applicable degree course for the term in which their graduation check is filed. Their graduation check will moved to the term in which the outstanding requirements are fulfilled. An Incomplete in a course not required for the degree must have a final grade assigned at the time of graduation, or the Incomplete will convert to an "IC" (or an "NC" if applicable). At the time of graduation, no Incompletes may remain on a student's record.

IC (Incomplete Charged): The IC symbol is used when a student who received an authorized incomplete "I" has not completed the required course work within the allowed time limit. The "IC" replaces the "I" and is counted as a failing grade for grade point average and progress point computation.

RD (Report Delayed): The RD symbol is used in those cases where a delay in the reporting of a grade is due to circumstances beyond the control of the student. The symbol is assigned by the Office of the Registrar and is replaced by a more appropriate grading symbol as soon as possible. An RD is not included in the calculation of grade point averages.

RP (Report in Progress): The RP symbol (previously "SP") is used in connection with courses that extend beyond one academic term. It indicates work is in progress but that assignment of a final grade must await completion of additional work. Work is to be completed within one year except for graduate degree theses.

Students may not receive an "RP" grade in any applicable degree course for the term in which their graduation check is filed. Their graduation check will moved to the term in which the outstanding requirements are fulfilled. A Report in Progress in a course not required for the degree must have a final grade assigned at the time of graduation, or the "RP" will convert to an "F" (or an "NC" if applicable). At the time of graduation, no Reports in Progress may remain on a student's record.

W (Withdrawal): The symbol W indicates that the student was permitted to withdraw from the course after the 20th day of instruction with approval of the instructor and appropriate campus officials. It carries no connotation of quality of performance and is not used in calculating grade point average. For withdrawal limits, see the class schedule or Academic Advising website (<https://www.csusb.edu/advising/>). Students who have withdrawn from the maximum 18 semester units allowed will be assigned a "WU" grade for any subsequent withdrawals.

WU (Withdrawal Unauthorized): The symbol WU (previously "U") indicates that an enrolled student did not withdraw from the course and also failed to complete course requirements. It is used when, in the opinion of the instructor, completed assignments or course activities or both were insufficient to make normal evaluation of academic performance possible. A grade of WU will also be assigned to students who have withdrawn from the maximum of 18 allowed semester units. For purposes of grade point average and progress point computation this symbol is equivalent to an "F."

Policy on Nontraditional Grading

All courses are graded on an A through F basis, except those specifically designated as follows:

Credit/No credit

Credit is awarded for grades equivalent to C (2.0) or better. For graduate level courses, credit is awarded for grades equivalent to a grade of B (3.0) or better. No credit is awarded for grades equivalent to C- or less. For

graduate level courses, no credit is awarded for grades equivalent to B- or less.

ABC/No credit

Grades awarded are A, A-, B+, B, B-, C+ or C. No credit is awarded for grades equivalent to "C-" or less.

Certain activity courses, independent study projects, and other courses serving special needs are not readily evaluated in the traditional A through F manner. The non-traditional credit/no credit grading allows faculty to award credit for satisfactory performance in an activity, rather than assign a letter grade when such performance cannot be evaluated traditionally.

Courses graded credit/no credit, whether taken at this or at another institution, may not be used to satisfy requirements for the major, except specific courses designated by the department to be graded credit/no credit.

Students who, because of a change of major or because of transfer from another institution or for any other reason, present courses in the major field which have been graded on a credit/no credit basis may, at the discretion of the department or other appropriate academic unit, be required to pass competency examinations at an acceptable level or to take prescribed alternate courses before being allowed to continue in the major.

A student may offer no more than 24 semester units of work graded credit/no credit in satisfaction of the total units required in the student's baccalaureate degree program at California State University, San Bernardino. This number includes any combination of units graded credit/no credit earned at California State University, San Bernardino and any other institution or institutions, excepting that all units accepted for transfer credit from another institution at the time of the student's admission to the university may be used toward the satisfaction of the total units required for the baccalaureate degree. Acceptance for transfer credit by California State University, San Bernardino of 24 semester units or more graded credit/no credit at another institution or institutions precludes the student from taking courses graded credit/no credit at California State University, San Bernardino, for satisfaction of units required for the baccalaureate degree.

Course grades of credit received under a credit-by-examination program are exempt from the 24 semester unit limitation.

Retention, Academic Probation and Disqualification

For purposes of determining a student's eligibility to remain at the university, quality of academic performance toward the student's objective shall be considered. Such eligibility shall be determined by the use of grade point average. Also see the Student Conduct Code for other regulations governing expulsion, suspension, and probation. This policy is in effect beginning Spring 2009 following the Minimum Requirements for Probation and Disqualification established by Executive Order No. 1038.

Academic Probation

An undergraduate student is subject to academic probation if at any time the cumulative grade point average in all college work attempted or the cumulative grade point average at California State University, San Bernardino falls below 2.0 (Title 5, California Code of Regulations, Section 41300 (a)). The student shall be advised of probation status promptly.

An undergraduate student shall be removed from academic probation when the cumulative grade point average in all college work attempted and the cumulative grade point average at California State University, San Bernardino is 2.0 or higher.

Academic Disqualification

An undergraduate student on academic probation is subject to academic disqualification (as authorized by Section 41300 (b) of Title 5) when:

1. As a freshman (fewer than 30 semester units of college work completed) the student falls below a grade point average of 1.50 in all units attempted or in all units attempted at the campus where enrolled.
2. As a sophomore (30 through 59.9 semester units of college work completed) the student falls below a grade point average of 1.70 in all units attempted or in all units attempted at the campus where enrolled.
3. As a junior (60 through 89.9 semester units of college work completed) the student falls below a grade point average of 1.85 in all units attempted or in all units attempted at the campus where enrolled.
4. As a senior (90 or more semester units of college work completed) the student falls below a grade point average of 1.95 in all units attempted or in all units attempted at the campus where enrolled.

The President (as authorized by Section 41300 (c) of Title 5) has designated the Director of Academic Advising to act to disqualify an individual when the following circumstance exists:

1. At the end of any term, the student has a cumulative grade point average below 1.0, and
2. The cumulative grade point average is so low that in view of the student's overall educational record, it seems unlikely that the deficiency will be removed within a reasonable period, as defined by campus academic policy.

Notice of Disqualification

Students who are disqualified from further attendance at the end of any term under any of the provisions of this policy should be notified before the beginning of the next consecutive regular semester. Students disqualified from further attendance at the beginning of a summer enrollment break should be notified at least one month before the start of the fall term. In cases where a student ordinarily would be disqualified from further attendance at the end of a term, save for the fact that it is not possible to make timely notification, the student may be advised that the disqualification is to be effective at the end of the next term. Such notification should include any conditions which, if met, would result in permission to continue in enrollment. Failure to notify students does not create the right of a student to continue enrollment.

Probation and Disqualification

Probation and Disqualification of postbaccalaureate and graduate students are subject to Section 41300 (d), (e), and (f) of Title 5 and criteria established by the Office of Graduate Studies. See Standards for Graduate Study (<http://bulletin.csusb.edu/graduate-degree-programs/graduate-degree-program-requirements/>).

Administrative-Academic Probation

An undergraduate or graduate student may be placed on administrative-academic probation by action of appropriate campus officials (as authorized by Section 41300.1 of Title 5) for any of the following reasons:

1. Withdrawal from all or a substantial portion of a program of studies in two successive terms or in any three terms. (Note: A student whose withdrawal is directly associated with a chronic or recurring medical condition or its treatment is not to be subject to Administrative-Academic probation for such withdrawal.)
2. Repeated failure to progress toward the stated degree objective or other program objective, including that resulting from assignment of 15 units with grades of NC, when such failure appears to be due to circumstances within the control of the student.
3. Failure to comply, after due notice, with an academic requirement or regulation, as defined by campus policy, which is routine for all students or a defined group of students (examples: failure to complete a required CSU or campus examination, failure to complete a required practicum, failure to comply with professional standards appropriate to the field of study, failure to complete a specified number of units as a condition for receiving student financial aid or making satisfactory progress in the academic program).

When such action is taken, the student shall be notified in writing and shall be provided with the conditions for removal from probation and the circumstances that would lead to disqualification, should probation not be removed.

Administrative-Academic Disqualification

A student who has been placed on administrative-academic probation may be disqualified from further attendance (as authorized by Section 41300.1 of Title 5) if:

1. The conditions for removal of administrative-academic probation are not met within the period specified.
2. The student becomes subject to academic probation while on administrative-academic probation.
3. The student becomes subject to administrative-academic probation for the same or similar reason for which he has been placed on administrative-academic probation previously, although not currently in such status.

When such action is taken, the student shall receive written notification including an explanation of the basis for the action.

Administrative Contract Appeal and Readmission Process

An undergraduate student placed on academic probation may be required to meet with an academic advisor in the office of Academic Advising. Failure to meet with an academic advisor or meet the Administrative Contract's terms will result in a registration hold that prevents future enrollment. An undergraduate student on academic probation may appeal this action by contacting the Director of Academic Advising.

An undergraduate student subject to disqualification will not be permitted to enroll in any regular term and may be denied admission to other educational programs operated or sponsored by the university. The student must contact the office of Academic Advising at (909) 537-7345 in order to receive the guidelines to petition for readmission.

Repeat of Courses: Undergraduate Students

Undergraduate students may only repeat courses if they earned grades lower than a "C." This policy applies to any grade earned at CSUSB at any time. A maximum of 12 semester units may be repeated for grade forgiveness. An additional 12 semester units may be repeated with both grades averaged into the grade point average calculation. Students are allowed a maximum of two attempts per course (1 original and 1 repeat). Permission to enroll for the third attempt requires approval of Academic Success and Undergraduate Advising. Repeated courses are generally enrolled during the Open Enrollment period, assuming space is available in the course.

Course Repeats with Grade Forgiveness

Grade forgiveness (discounting a grade) follows the current grade forgiveness campus process, with the grade of the last course completed being used for GPA calculations, up to the 12 semester units. Students are allowed a maximum of two attempts per course (1 original and 1 repeat). Permission to enroll for the third attempt requires approval of Academic Success and Undergraduate Advising. Repeated courses may only be enrolled during the Open Enrollment period, assuming space is available in the course. Grade forgiveness is not applicable for courses where the original grade was the result of academic dishonesty. Students are strongly encouraged to speak with an advisor before repeating a course for grade forgiveness to ensure that the student is eligible to repeat that course to discount the grade.

1. Grade forgiveness (or discounting), as used in these guidelines, means that when computing grade point averages required for graduation with a baccalaureate degree, "units attempted," "units passed," and "grade points" for the first attempt shall be excluded. The first attempt will remain on the transcript with the repeat (discount) noted. Course repeats with discounting or "grade forgiveness" are permissible for undergraduate students subject to the following provisions:
 - a. Undergraduate students may repeat a maximum of 12 semester units with grade forgiveness. This maximum includes any repeats taken at any time at CSUSB.
 - b. Undergraduate students may repeat an individual course for grade forgiveness only one time. In other words, if a student earns a grade of "C-" or lower in a first attempt at a class, the student may repeat that class to replace the grade. No subsequent attempts will be allowed.
 - c. Grade forgiveness shall not be applicable to courses for which the original grade was the result of academic dishonesty.

Course Repeats with Grades Averaged

1. Undergraduate students may repeat an additional 12 semester units in which the repeated grade will be averaged with the most recent grade provided the original grade was lower than a "C." These units are in addition to the 12 semester units described above for which grade forgiveness is permitted. In such instances the repeat grade shall not replace the original grade. Units earned will be removed from the first attempt, and both grades shall be calculated into the student's overall grade point average.
2. A course may not be repeated for the purpose of removing an Incomplete. Incompletes that have changed to an "IC" or a letter grade lower than a "C" may be discounted on repeat.

3. If a course which was taken at CSUSB is repeated elsewhere, the grades will be averaged in determining a student's overall grade point average. Repeating a course elsewhere will not affect a student's CSUSB grade point average but will affect the cumulative GPA. Units earned will be removed from the first attempt.
4. Grades for courses taken at one institution (other than CSUSB) and repeated at another institution (other than CSUSB) will be averaged when determining a student's cumulative transfer grade point average. Units earned will be removed from the first attempt.
5. Grades for courses taken at one institution (other than CSUSB) and repeated at CSUSB will be averaged when determining a student's cumulative grade point average. Units earned will be removed from the first attempt.
6. For transfer work, CSUSB will honor the repeat-of-course policy in effect at the institution issuing the transfer transcript.
7. Courses taken for undergraduate credit may not be repeated for discount as a postbaccalaureate student.
8. Unclassified postbaccalaureate students may be permitted to repeat a course taken as an undergraduate. However, the grade earned shall not replace the grade in the undergraduate record.
9. Credit by Examination (CBE) may not be used to discount a course taken previously.
10. Students on approved Leaves of Absence or dismissal may repeat a course through the College of Extended and Global Education's Open University program in order to improve their CSUSB grade point average and petition for grade forgiveness. To take advantage of this provision, the student must first have a Leave of Absence approved by the Office of Advising and Academic Services. Once that is approved, the student must petition to repeat a course with a grade of "C" or better. If that is approved, the student can file a petition for grade forgiveness once the final grade has been posted. These shall count toward the maximum of 12 semester units that can be repeated for grade forgiveness.

Students taking classes during non-state supported summer sessions may also repeat a course in order to improve their CSUSB grade point average and petition for grade forgiveness. If the petition is approved, it will count toward the 12 semester unit maximum allowed for grade forgiveness and toward the 24 semester unit maximum of units applied from Open University. Simultaneous regular enrollment and enrollment through Open University is not permitted.

Contact Advising and Academic Services, UH-380, (909) 537-5034, for questions regarding repeating courses.

Petitions for waivers of this university regulation will only be considered in exceptional cases. Petitions must be made in writing to the Associate Vice President and Dean of Academic Success and Undergraduate Advising.

The foregoing provisions apply only to undergraduate students. Postbaccalaureate and graduate students must report to the Office of Graduate Studies to submit a petition for discounting. Regulations for repeating graduate courses can be found under Graduate Degree and Program Requirements (p. 71).

Academic Renewal

Under certain circumstances, a student may petition to have up to two terms of previous coursework disregarded from all considerations associated with requirements for the baccalaureate degree. In order for this to happen the following conditions must be met:

1. The work to be disregarded must have been completed at least five years before the date of the petition to disregard it.
2. The student has completed all General Education, major and elective requirements with the exception of the cumulative and/or CSUSB grade point average of 2.0. The student must demonstrate that it would be necessary to complete additional units and enroll for one or more additional terms in order to qualify for the baccalaureate if the request were not approved.
3. During the interval since completing the work to be disregarded, the student must have maintained a satisfactory record at CSUSB (15 semester units with at least a 3.0 grade point average; 30 semester units with at least a 2.5 grade point average; or 45 semester units with at least a 2.0 grade point average).

The approval would allow the student to be in good academic standing. Students seeking academic renewal should consult with the Director of Academic Advising in University Hall, Room 329.

Civil and Criminal Penalties for Violation of Federal Copyright Laws

Anyone who is found to be liable for copyright infringement may be liable for either the owner's actual damages along with any profits of the infringer or statutory damages of up to \$30,000 per work infringed. In the case of a willful infringement, a court may award up to \$150,000 per work infringed. (See 17 U.S.C. §504.) Courts also have discretion to award costs and attorneys' fees to the prevailing party. (See 17 U.S.C. §505.) Under certain circumstances, willful copyright infringement may also result in criminal penalties, including imprisonment and fines. (See 17 U.S.C. §506 and 18 U.S.C. §2319.)

1. Campus Community Values

The university is committed to maintaining a safe and healthy living and learning environment for students, faculty, and staff. Each member of the campus community should choose behaviors that contribute toward this end. Students are expected to be good citizens and to engage in responsible behaviors that reflect well upon their university, to be civil to one another and to others in the campus community, and contribute positively to student and university life.

2. Grounds for Student Discipline

Student behavior that is not consistent with the Student Conduct Code is addressed through an educational process that is designed to promote safety and good citizenship and, when necessary, impose appropriate consequences. The following are the grounds upon which student discipline can be based:

- a. Dishonesty, including:
 - i. Cheating, plagiarism, or other forms of academic dishonesty that are intended to gain unfair academic advantage.
 - ii. Furnishing false information to a university official, faculty member, or campus office.
 - iii. Forgery, alteration, or misuse of a university document, key, or identification instrument.
 - iv. Misrepresenting one's self to be an authorized agent of the university or one of its auxiliaries.
- b. Unauthorized entry into, presence in, use of, or misuse of university property.
- c. Willful, material and substantial disruption or obstruction of a University-related activity, or any on-campus activity.

- d. Participating in an activity that substantially and materially disrupts the normal operations of the university, or infringes on the rights of members of the university community.
- e. Willful, material and substantial obstruction of the free flow of pedestrian or other traffic, on or leading to campus property or an off-campus university related activity.
- f. Disorderly, lewd, indecent, or obscene behavior at a University related activity, or directed toward a member of the university community.
- g. Conduct that threatens or endangers the health or safety of any person within or related to the university community, including physical abuse, threats, intimidation, harassment, or sexual misconduct.
- h. Hazing or conspiracy to haze. Hazing is defined as any method of initiation or pre-initiation into a student organization or student body, whether or not the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury to any former, current, or prospective student of any school, community college, college, university or other educational institution in this state (Penal Code 245.6), and in addition, any act likely to cause physical harm, personal degradation or disgrace resulting in physical or mental harm, to any former, current, or prospective student of any school, community college, college, university or other educational institution. The term "hazing" does not include customary athletic events or school sanctioned events. Neither the express or implied consent of a victim of hazing, nor the lack of active participation in a particular hazing incident is a defense. Apathy or acquiescence in the presence of hazing is not a neutral act, and is also a violation of this section.
- i. Use, possession, manufacture, or distribution of illegal drugs or drug-related paraphernalia, (except as expressly permitted by law and university regulations) or the misuse of legal pharmaceutical drugs.
- j. Use, possession, manufacture, or distribution of alcoholic beverages (except as expressly permitted by law and university regulations), or public intoxication while on campus or at a university related activity.
- k. Theft of property or services from the university community, or misappropriation of university resources.
- l. Unauthorized destruction or damage to university property or other property in the university community.
- m. Possession or misuse of firearms or guns, replicas, ammunition, explosives, fireworks, knives, other weapons, or dangerous chemicals (without the prior authorization of the campus president) on campus or at a university related activity.
- n. Unauthorized recording, dissemination, or publication of academic presentations (including handwritten notes) for a commercial purpose.
- o. Misuse of computer facilities or resources, including:
 - i. Unauthorized entry into a file, for any purpose.
 - ii. Unauthorized transfer of a file.
 - iii. Use of another's identification or password.
 - iv. Use of computing facilities, campus network, or other resources to interfere with the work of another member of the university community.
 - v. Use of computing facilities and resources to send obscene or intimidating and abusive messages.
 - vi. Use of computing facilities and resources to interfere with normal university operations.
 - vii. Use of computing facilities and resources in violation of copyright laws.
 - viii. Violation of a campus computer use policy.
- p. Violation of any published university policy, rule, regulation or presidential order.
- q. Failure to comply with directions or, or interference with, any university official or any public safety officer while acting in the performance of his/her duties.
- r. Any act chargeable as a violation of a federal, state, or local law that poses a substantial threat to the safety or well-being of members of the university community, to property within the university community or poses a significant threat of disruption or interference with university operations.
- s. Violation of the Student Conduct Procedures, including:
 - i. Falsification distortion, or misrepresentation of information related to a student discipline matter.
 - ii. Disruption or interference with the orderly progress of a student discipline proceeding.
 - iii. Initiation of a student discipline proceeding in bad faith.
 - iv. Attempting to discourage another from participating in the student discipline matter.
 - v. Attempting to influence the impartiality of any participant in a student discipline matter.
 - vi. Verbal or physical harassment or intimidation of any participant in a student discipline matter.
 - vii. Failure to comply with the sanction(s) imposed under a student discipline proceeding.
- t. Encouraging, permitting, or assisting another to do any act that could subject him or her to discipline.

Procedures for Enforcing This Code The chancellor shall adopt procedures to ensure students are afforded appropriate notice and an opportunity to be heard before the university imposes any sanction for a violation of the Student Conduct Code. [Note: At the time of publication, such procedures are set forth in the California State University Student Conduct Procedures Policy (Revised August 14, 2020).

Application of This Code

Sanctions for the conduct listed above can be imposed on applicants, enrolled students, students between academic terms, graduates awaiting degrees, and students who withdraw from school while a disciplinary matter is pending. Conduct that threatens the safety or security of the university community, or substantially disrupts the functions or operation of the university is within the jurisdiction of this Article regardless of whether it occurs on or off campus. Nothing in this Code may conflict with Education Code Section 66301 that prohibits disciplinary action against students based on behavior protected by the First Amendment.

Title 5, California Code of Regulations, § 41302. Disposition of Fees: University Emergency; Interim Suspension.

The president of the university may place on probation, suspend, or expel a student for one or more of the causes enumerated in Section 41301. No fees or tuition paid by or for such student for the semester, quarter, or summer session in which the student is suspended or expelled shall be refunded. If the student is readmitted before the close of the semester, quarter, or summer session in which the student is suspended,

no additional tuition or fees shall be required of the student on account of the suspension.

During periods of campus emergency, as determined by the president of the individual university, the president may, after consultation with the chancellor, place into immediate effect any emergency regulations, procedures, and other measures deemed necessary or appropriate to meet the emergency, safeguard persons and property, and maintain educational activities.

The president may immediately impose an interim suspension in all cases in which there is reasonable cause to believe that such an immediate suspension is required in order to protect lives or property and to insure the maintenance of order. A student so placed on interim suspension shall be given prompt notice of charges and the opportunity for a hearing within 10 days of the imposition of interim suspension. During the period of interim suspension, the student shall not, without prior written permission of the president or designated representative, enter any campus of the CSUs other than to attend the hearing. Violation of any condition of interim suspension shall be grounds for expulsion.

Declaring (or Changing) a Major

Work in a major field of study is designed to afford students the opportunity to engage in intensive study of a discipline. Because there is a strong correlation between having a declared major and persistence at the university, all students are strongly encouraged to declare a major as quickly as possible. Students may declare a major at the time of admission. For some students, there may be a period of time early in their academic careers when they are unsure of the course of study they wish to pursue, and those students may take longer to declare a major. All CSUSB students with fewer than 45 semester units must declare a major by the time they achieve junior class status (60 semester units). Students transferring to CSUSB with 45 or more semester units are strongly encouraged to declare a major when they matriculate. Students are permitted to declare one major and one minor prior to reaching junior status.

In order to declare or change a major, students should submit an online Change of Major via myCoyote Student Center. Before submitting the Change of Major, students should contact an advisor in the new major for advising. Students who declare a major or change from one major to another following admission will be held to either:

1. The current catalog for requirements of the major and to the catalog under which they entered for other college requirements (for example, general education), or
2. The catalog in effect at the time of graduation for all requirements.

Note: Dual concentrations within the same major will require approval from the Department Chair.

Students who are applying to an impacted major must complete the Application for Impacted Majors (<http://registrar.csusb.edu/misc/documents/ApplicationforImpactedMajors2015.pdf>) form. Impacted majors are noted in the Bulletin of Courses. A complete list is also posted in the Office of the Registrar.

A processing fee will be assessed each time a student files a Change of Major/Minor. (See *Class Schedule* for fee.)

Required Declaration of a major

A non-transfer CSUSB student who has not declared a major will receive a notice from the office of Advising and Academic Services when the student has 45 semester units (this will include work-in-progress). The notice will require that the student come into the office of Advising and Academic Services and meet with an advisor to talk about selecting a major. A registration service indicator hold will be placed on the student's file, and the student will not be allowed to register for a subsequent term until they have come in for that appointment. Advising regarding the selection of a major will be the focus of that appointment leading to referral to an academic department or, in some cases, to the Career Development Center. A student who does not declare a major by the time they have completed 60 semester units will not be allowed to register without the approval of the Director of Advising and Academic Services.

The procedure for transfer students will depend on the total number of units CSUSB counts toward the student's degree. Students who receive credit for fewer than 45 semester units will be held to the same timeline for declaring a major as students who began at CSUSB as first-time freshmen. Students who come in with 45 or more semester units will be required to declare a major after they have completed 15 semester units at CSUSB. If a major is not declared at admission, the transfer student will receive a notice from the Office of Advising and Academic Services. The notice will require that the student come into the office of Advising and Academic Services and meet with an advisor to talk about selecting a major. A registration hold will be placed on the student's file, and the student will not be allowed to register for a subsequent term until he or she has come in for that appointment. Counseling regarding the selection of a major will be the focus of that appointment leading to a referral to an academic department or, in some cases, to the Career Development Center. If a major is not declared by the completion of 15 semester units at CSUSB, a transfer student held to this policy will not be allowed to register without the approval of the Director of Advising and Academic Services.

Election of Graduation Requirements

A student remaining in continuous attendance in regular sessions and continuing in the same major in this university, in any of the California community colleges, or in any combination of California community colleges and campuses of the California State University, may, for purposes of meeting graduation requirements, elect to meet the graduation requirements in effect at this university either at the time of entering the program or at the time of graduation from this university, except that substitutions for discontinued courses may be authorized or required by the proper university authorities. (See the section on Leave of Absence.)

University Honors

University Honors for graduation

To be considered for University Honors for graduation, an undergraduate student must have completed a minimum of 30 semester units of work at CSUSB in courses for which letter grades (A, B, C and D) were received. University Honors for commencement are based on the student's units and GPA through the end of the term prior to commencement (i.e. fall for spring commencement and summer for fall commencement).

- *Summa Cum Laude*: an overall cumulative undergraduate grade point average of 3.9 or above and a grade point average of 3.9 or above in all work attempted at this university.

- *Magna Cum Laude*: an overall cumulative undergraduate grade point average of 3.75 or above and a grade point average of 3.75 or above in all work attempted at this university.
- *Cum Laude*: an overall cumulative undergraduate grade point average of 3.5 or above and a grade point average of 3.5 or above in all work attempted at this university.

In determining eligibility for graduation with University Honors with a second bachelor's degree, all baccalaureate-level coursework completed past high school will be used in the GPA calculation.

Dean's List

An undergraduate student completing 12 or more semester units for which letter grades (A, B, C and D) were received, and who earns a 3.5 or above in any regular academic term will be placed on a Dean's List.

- *Dean's Letter of Recognition*. Any full-time undergraduate student, meeting the above requirements, who earns a 4.0 in any regular academic term will receive a letter of special recognition from the appropriate dean.
- *Presidential Letter of Recognition*. Any full-time undergraduate student, meeting the above requirements, who earns a 4.0 in two consecutive regular academic terms will receive a letter of special recognition from the president of the university.

Departmental Honors

Individual departments may award departmental honors at graduation, recognizing distinguished students majoring in that field. The requirements to be met to earn honors are specified by the respective departments. Departmental honors are currently awarded in accounting and finance, anthropology, Arabic, art, biology, chemistry, communication, computer engineering, computer science, criminal justice, economics, English, environmental studies, French, geography, geology, health science, history, human development, human services, information and decision sciences, kinesiology, liberal studies, management, marketing, mathematics, music, nursing, philosophy, physics, political science, psychology, public administration, sociology and Spanish.

University Initiated Graduation Requirement Check and Graduation Requirement Check

Undergraduates

A University Initiated Graduation Requirement Check (UIGC) will be filed on behalf of undergraduate students when they have completed 90 semester units towards their degree. Students pursuing a blended degree (such as the BA/MSA in Accountancy) must submit a paper Grad Check form to the Office of the Registrar in UH-171 or by email to graduationinfo@csusb.edu.

Undergraduate students who do not complete the requirements in the term for which the Grad Check was filed, will automatically be re-filed for the next appropriate term.

Graduates

Graduate students who have been advanced to candidacy must request a Grad Check at least one term prior to their expected graduation via their myCoyote Student Center. Graduate students who do not complete the requirements in the term for which the Grad Check was filed must re-

file for the next appropriate term in which all degree requirements will be completed through their myCoyote Student Center.

Re-filing and Commencement

No fee will be charged to re-file unless a major/concentration or minor is added after the initial filing. Access to registration in subsequent terms will not be allowed until the Grad Check has been re-filed.

Refer to the Office of the Registrar's website for more information on Grad Check fees (<https://www.csusb.edu/registrar/evaluations/graduation-requirement-check/>). Please note, participation in commencement activities is voluntary. For dates and deadlines please visit commencement.csusb.edu (<http://commencement.csusb.edu/>).

Degree Completion and Conferral Date

The degree conferral date is the last day of final exams for that term.

All coursework must be fully completed by the conferral date in order for graduation to be processed for that term. If a student is scheduled to graduate in a particular term but has coursework with a completion date that is after the conferral date, the student's graduation must be processed for a subsequent term.

Conferral of Degree Upon Completion of Requirements

The CSU Chancellor has authorized campus presidents to confer degrees upon students as soon as they have completed all degree requirements. To ensure that students do not take unnecessary units beyond those required for the degree, the Office of the Registrar will monitor progress toward the degree based, in part, on units completed. Particular attention will be paid to those students who have completed 120% of the units required for a degree. If it is determined that a student has completed all requirements for a degree and has not filed a graduation check, the student will be notified by the Office of the Registrar that appropriate fees will be assessed and the degree will be conferred.

Students may petition the Associate Vice President and Dean of Academic Success and Undergraduate Advising to delay conferral of the degree. Such petitions must be filed within two weeks of receipt of the notice referred to above. Such petitions will only be considered when there is a compelling academic reason to allow the student additional time. Petitions will not be granted for additional time to improve a GPA, nor will petitions be granted for time beyond one term to complete a second undergraduate degree.

In the event that a student does not petition to delay conferral of the degree within the two-week grace period, the degree will be posted to the student's transcript for the term in which all requirements were completed. In addition, a hold will be placed on the student's record that will prevent the student from registering for classes or obtaining a diploma or enrollment verification. Students enrolled in the subsequent term will be disenrolled from all classes. The student will also be assessed the graduation check fee and any late fees to which they are subject.

Diplomas

Diplomas are issued for a specific degree. Minors are not included on the diploma but are recorded on the student's university transcript.

Commencement

Special Events and Guest Services- Commencement Office
(909) 537-7360

Participation in commencement activities is voluntary.

For dates and deadlines, please visit commencement.csusb.edu (<http://commencement.csusb.edu/>).

Master's and Doctoral Students

To participate in commencement, candidates completing a master's or doctoral degree must file a grad check AND meet the eligibility requirements specified by their program. For the specific requirements, candidates should consult their program coordinator.

Credential Students

Students who complete a Multiple Subject, Single Subject, Education Specialist Basic credential, Pupil Personnel Services, or Designated Subjects credential can participate in a Credential Recognition Ceremony rather than commencement. The Credential Recognition Ceremony on the San Bernardino campus will be held in May. Specific information can be obtained from the College of Education, Student Services Office, CE-102, (909) 537-5609. The Credential Recognition Ceremony on the Palm Desert Campus will be held in May at PDC. Specific information can be obtained from the Palm Desert Campus College of Education Office at (760) 341-2883.

Postbaccalaureate Credit for Senior Students

Upon approval, senior students who need fewer than 15 semester units to graduate may be permitted to enroll for postbaccalaureate credit during the final term of their senior year. Postbaccalaureate credit is used to signify courses taken after the baccalaureate degree, but does not necessarily mean graduate credit, i.e., credit applicable toward an advanced degree. Only 3000- to 6000-level courses will be considered. Note: Some 5000- and 6000-level courses require prerequisites and are open only to students classified in a master's program. A petition for this purpose is available in the Office of the Registrar.

Information for Issuance of Transcripts

Official transcripts may be ordered by mail or online through the Transcript Ordering Service (<https://www.credentials-inc.com/cgi-bin/dvcgitp.pgm?ALUMTRO001142>). More information and the fee schedule are available through the Office of the Registrar (<https://www.csusb.edu/registrar/records/request-csusb-transcript/>).

If the transcript request specifies inclusion of grades just earned or verification of a degree just awarded, two or three weeks must be allowed beyond the end of the term for a transcript to be issued.

All transcripts will be complete as of the date of issuance showing all work attempted at California State University, San Bernardino.

The university will not issue official transcripts to the student, another educational institution or a third party if there is a transcript service indicator hold in place. The student must contact the Office of the Registrar once the hold has been lifted so that the transcript request can be processed.

Access to Records

All student records, including recommendations, are kept by the university in accordance with the Family Educational Rights and Privacy Act of 1974, which allows students access to their records. Inquiries and concerns about this federal regulation should be directed to the Office

of the Associate Vice President for Enrollment Management for further information.

Enrollment Verification

Student enrollment certification is based on the following minimum unit loads for undergraduate students:

Full time	12 units
3/4 time	9-11 units
1/2 time	6-8.5 units

Veterans Enrollment Certification

California State University, San Bernardino, is approved for the training of veterans of the military services and their dependents under educational assistance programs, established by the state and federal governments. Applications for educational benefits may be obtained directly from the veterans certification clerk in the Veterans Success Center.

Student enrollment certification is based on the following minimum unit loads for undergraduates:

Full time	12 semester units
3/4	9-11.5 semester units
1/2 time	6-8.5 semester units

The university will certify course loads to the Veterans Administration based on the criteria above for units which are degree or objective applicable. Veterans enrolled less than half time are eligible for reimbursement of tuition and fees only.

Student Email Policy

The University intends to replace many of the letters sent to students via the U.S. Postal Service with email communications. As a result, it is strongly recommended that students check their email accounts daily.

The consequences of not checking email are the same as those for not checking a U.S. Postal mailbox. Some of these consequences include missing payment deadlines, missing registration deadlines, missing immunization deadlines, missing out on opportunities for financial aid, and missing requirements and deadlines for graduation.

Students are responsible for the consequences of not reading university-related communications sent to their email account. Students have the responsibility to recognize that certain communications may be time-critical. Errors in forwarding email to a personal email address or failure to read emails regularly are not acceptable reasons for missing university deadlines.

Students have the responsibility to monitor their email accounts and avoid emails being rejected due to limited space in their account.

Privacy Rights of Students in Education Records

The federal Family Educational Rights and Privacy Act of 1974 (20 U.S.C. 1232g) (FERPA) and regulations adopted thereunder (34 C.F.R. 99) set out requirements designed to protect students' privacy in their educational records maintained by the university. The statute and regulations govern access to certain student records maintained by the university and the release of those records. FERPA provides that the university must give a student access to most records directly related to the student and must also provide an opportunity to correct the records if the student believes

the records are inaccurate, misleading, or otherwise inappropriate. The right to petition to correct a record under FERPA does not include the right to challenge the appropriateness of a grade determined by the instructor. In addition, FERPA generally requires the university obtain a student's written consent before releasing personally identifiable data pertaining to the student. The university has adopted a set of policies and procedures governing the implementation of FERPA and its regulations. Copies of these policies and procedures may be obtained at Division of Student Affairs (<https://www.csusb.edu/student-affairs/>). Among the information included in the university statement of policies and procedures is:

1. The student records maintained and the information they contain;
2. The university official responsible for maintaining each record;
3. The location of access lists identifying persons requesting or receiving information from the record;
4. Policies for reviewing and expunging records;
5. Student access rights to their records;
6. Procedure for challenging the content of student records; and
7. The student's right to file a complaint with the Department of Education, which enforces FERPA. The Department of Education has established an office and review board to investigate complaints and adjudicate potential FERPA violations. The designated office is: Student Privacy Policy Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, D.C. 20202-5920.

FERPA authorizes that the university may release "directory information" pertaining to students. "Directory information" may include the student's name, address, telephone listing, electronic mail address, photograph, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, grade level, enrollment status, degrees, honors, and awards received, and the most recent previous educational agency or institution the student attended. The university may release this "directory information" unless the university has received prior written objection from the student specifying the information the student requests not be released. Written objections must be sent to Student Financial Services (<https://www.csusb.edu/student-financial-services/services/ferpa/>).

FERPA authorizes the university to provide access to student records without prior student consent to university officials, employees and others who have legitimate educational interests in such access. These persons include those with legitimate reasons to access student records to perform the university's academic, administrative or service functions, and those with a reason for accessing student records associated with their university or other related academic responsibilities. Student records will also be disclosed to the CSU Chancellor's Office to conduct research, to analyze trends, or to provide other administrative services. Student records may also be disclosed without prior student consent to other persons or organizations under certain conditions (e.g., as part of the accreditation or program evaluation, in response to a court order or subpoena, in connection with financial aid, or to other institutions to which the student is transferring).

Privacy Rights of Students in Education Records

The federal Family Educational Rights and Privacy Act of 1974 (20 U.S.C. 1232g) (FERPA) and regulations adopted thereunder (34 C.F.R. 99) set out requirements designed to protect students' privacy in their educational records maintained by the university. The statute and regulations govern

access to certain student records maintained by the university and the release of those records. FERPA provides that the university must give students access to most records directly related to the student and must also provide an opportunity to correct the records if the student believes the records are inaccurate, misleading, or otherwise inappropriate. The right to petition to correct a record under FERPA does not include the right to challenge the appropriateness of a grade determined by the instructor. In addition, FERPA generally requires the university obtain a student's written consent before releasing personally identifiable data pertaining to the student. The university has adopted a set of policies and procedures governing the implementation of FERPA and its regulations. Copies of these policies and procedures may be obtained at the **Division of Student Affairs** (<https://www.csusb.edu/student-affairs/>). Among the information included in the university statement of policies and procedures is:

1. The student records maintained and the information they contain;
2. The university official responsible for maintaining each record;
3. The location of access lists identifying persons requesting or receiving information from the record;
4. Policies for reviewing and expunging records;
5. Student access rights to their records;

7. The student's right to file a complaint with the Department of Education, which enforces FERPA. The Department of Education has established an office and review board to investigate complaints and adjudicate potential FERPA violations. The designated office is: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, D.C. 20202-5920.

FERPA authorizes that the university may release "directory information" pertaining to students. "Directory information" may include the student's name, address, telephone listing, electronic mail address, photograph, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, grade level, enrollment status, degrees, honors, and awards received, and the most recent previous educational agency or institution the student attended. The university may release this "directory information" at any time unless the university has received prior written objection from the student specifying the information the student requests not be released. Written objections must be sent to Student Financial Services (<https://www.csusb.edu/student-financial-services/services/ferpa/>).

The university is authorized to provide access to student records without prior student consent to university officials, employees and others who have legitimate educational interests in such access. These persons include those with legitimate reasons to access student records to perform the university's academic, administrative or service functions, and those with a reason for accessing student records associated with their university or other related academic responsibilities. Student records will also be disclosed to the CSU Chancellor's Office to conduct research, to analyze trends, or to provide other administrative services. Student records may also be disclosed without prior student consent to other persons or organizations under certain conditions (e.g., as part of the accreditation or program evaluation, in response to a court order or subpoena, in connection with financial aid, or to other institutions to which the student is transferring).

Plagiarism and Cheating

Plagiarism and cheating are violations of the *Standards for Student Conduct* (Title 5, §41301, California Code of Regulations). Definitions and procedures for addressing cheating and plagiarism are found in the CSUSB Faculty Senate Policies and Procedures Concerning Academic Dishonesty (FAM 803.5) (https://www.csusb.edu/sites/default/files/upload/file/%28FSD96-12.R2%29Academic_Dishonesty_0.pdf) and the California State University *Student Conduct Process* (Executive Order 1098) and may be addressed by both the instructor and the Student Conduct Administrator.

Procedures for addressing cheating and plagiarism are described below. Questions about academic dishonesty and the policy should be addressed to the Office of Student Conduct and Ethical Development (student-conduct@csusb.edu).

As described in FAM 803.5, plagiarism is the act of presenting the ideas and writing of another as one's own. Cheating is the act of obtaining or attempting to obtain credit for academic work through the use of any dishonest, deceptive, or fraudulent means.

Cheating includes but is not limited to:

- Copying, in part or in whole, from another's test, software, or other evaluation instrument;
- Submitting work previously graded in another course unless this has been approved by the course instructor or by departmental policy;
- Submitting work simultaneously presented in two courses, unless this has been approved by both course instructors or by the department policies of both departments;
- Using or consulting during an examination sources or materials not authorized by the instructor;
- Altering or interfering with grading or grading instructions;
- Sitting for an examination by a surrogate, or as a surrogate;
- Any other act committed by a student in the course of his or her academic work, which defrauds or misrepresents, including aiding or abetting in any of the actions defined above.

Plagiarism is academically dishonest and subjects the offending student to penalties up to and including expulsion. Students must make appropriate acknowledgements of the original source where material written or compiled by another is used.

Procedure

Allegations of academic dishonesty are initially addressed by the instructor **and must also be referred by the instructor to the Office of Student Conduct and Ethical Development, in accordance with CSUSB FAM 803.5 and California State University *Student Conduct Process* (Executive Order 1098).**

The instructor may employ any of the following sanctions:

- Verbal or written reprimand;
- Assignment of appropriate task or examination;
- Change of grade, including assigning a punitive grade to the work involving the dishonesty, or for the course, project, thesis, or any other summary evaluation of the student's academic work.

If the instructor takes any of the actions described above, the instructor has the following responsibilities:

- To preserve the evidence in support of the allegation;
- To notify the student of the allegation and of the evidence on which it is based;
- To provide the student a reasonable opportunity to challenge or rebut the allegation;
- To notify the student of the action being taken.

If any penalties are assigned by the instructor, the instructor must submit a referral to the Office of Student Conduct and Ethical Development, and may include a recommendation as to whether any further disciplinary action should be taken by the Student Conduct Administrator. If the student does not wish to accept the sanction proposed by the instructor, the student may request and require that the allegation be referred to the Office of Student Conduct and Ethical Development. Once referred to the Office of Student Conduct, the procedures specified under CSU *Student Conduct Process* (Executive Order 1098) of the California State University shall be observed. The instructor shall not impose any sanction other than the sanction(s) imposed through the disciplinary procedure.

Standards for Student Conduct

The Office of Student Conduct and Ethical Development is responsible for upholding the *Standards for Student Conduct* and educating students on their social and ethical responsibilities as members of our University community. The Office investigates student discipline matters in accordance with CSU *Student Conduct Process* (Executive Order 1098). Questions about the student discipline process may be directed to the Office of Student Conduct and Ethical Development via (909) 537-7172 or student-conduct@csusb.edu.

Standards for Student Conduct

Title 5, California Code of Regulations, § 41301, *Standards for Student Conduct*.

1. Campus Community Values

The university is committed to maintaining a safe and healthy living and learning environment for students, faculty, and staff. Each member of the campus community should choose behaviors that contribute toward this end. Students are expected to be good citizens and to engage in responsible behaviors that reflect well upon their university, to be civil to one another and to others in the campus community, and contribute positively to student and university life.

1. Grounds for Student Discipline

Student behavior that is not consistent with the Student Conduct Code is addressed through an educational process that is designed to promote safety and good citizenship and, when necessary, impose appropriate consequences.

The following are the grounds upon which student discipline can be based:

1. Dishonesty, including:
 - a. Cheating, plagiarism, or other forms of academic dishonesty that are intended to gain unfair academic advantage.
 - b. Furnishing false information to a university official, faculty member, or campus office.
 - c. Forgery, alteration, or misuse of a university document, key, or identification instrument.
 - d. Misrepresenting one's self to be an authorized agent of the university or one of its auxiliaries.

2. Unauthorized entry into, presence in, use of, or misuse of university property.
 3. Willful, material and substantial disruption or obstruction of a University-related activity, or any on-campus activity.
 4. Participating in an activity that substantially and materially disrupts the normal operations of the university, or infringes on the rights of members of the university community.
 5. Willful, material and substantial obstruction of the free flow of pedestrian or other traffic, on or leading to campus property or an off-campus university related activity.
 6. Disorderly, lewd, indecent, or obscene behavior at a University related activity, or directed toward a member of the university community.
 7. Conduct that threatens or endangers the health or safety of any person within or related to the university community, including physical abuse, threats, intimidation, harassment, or sexual misconduct.
 8. Hazing or conspiracy to haze. Hazing is defined as any method of initiation or pre-initiation into a student organization or student body, whether or not the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury to any former, current, or prospective student of any school, community college, college, university or other educational institution in this state (Penal Code 245.6), and in addition, any act likely to cause physical harm, personal degradation or disgrace resulting in physical or mental harm, to any former, current, or prospective student of any school, community college, college, university or other educational institution. The term "hazing" does not include customary athletic events or school sanctioned events.
Neither the express or implied consent of a victim of hazing, nor the lack of active participation in a particular hazing incident is a defense. Apathy or acquiescence in the presence of hazing is not a neutral act, and is also a violation of this section.
 9. Use, possession, manufacture, or distribution of illegal drugs or drug-related paraphernalia, (except as expressly permitted by law and university regulations) or the misuse of legal pharmaceutical drugs.
 10. Use, possession, manufacture, or distribution of alcoholic beverages (except as expressly permitted by law and university regulations), or public intoxication while on campus or at a university related activity.
 11. Theft of property or services from the university community, or misappropriation of university resources.
 12. Unauthorized destruction or damage to university property or other property in the university community.
 13. Possession or misuse of firearms or guns, replicas, ammunition, explosives, fireworks, knives, other weapons, or dangerous chemicals (without the prior authorization of the campus president) on campus or at a university related activity.
 14. Unauthorized recording, dissemination, or publication of academic presentations (including handwritten notes) for a commercial purpose.
 15. Misuse of computer facilities or resources, including:
 - a. Unauthorized entry into a file, for any purpose.
 - b. Unauthorized transfer of a file.
 - c. Use of another's identification or password.
 - d. Use of computing facilities, campus network, or other resources to interfere with the work of another member of the university community.
 - e. Use of computing facilities and resources to send obscene or intimidating and abusive messages.
 - f. Use of computing facilities and resources to interfere with normal university operations.
 - g. Use of computing facilities and resources in violation of copyright laws.
 - h. Violation of a campus computer use policy.
 16. Violation of any published university policy, rule, regulation or presidential order.
 17. Failure to comply with directions or, or interference with, any university official or any public safety officer while acting in the performance of his/her duties.
 18. Any act chargeable as a violation of a federal, state, or local law that poses a substantial threat to the safety or well-being of members of the university community, to property within the university community or poses a significant threat of disruption or interference with university operations.
 19. Violation of the Student Conduct Procedures, including:
 - a. Falsification distortion, or misrepresentation of information related to a student discipline matter.
 - b. Disruption or interference with the orderly progress of a student discipline proceeding.
 - c. Initiation of a student discipline proceeding in bad faith.
 - d. Attempting to discourage another from participating in the student discipline matter.
 - e. Attempting to influence the impartiality of any participant in a student discipline matter.
 - f. Verbal or physical harassment or intimidation of any participant in a student discipline matter.
 - g. Failure to comply with the sanction(s) imposed under a student discipline proceeding.
 20. Encouraging, permitting, or assisting another to do any act that could subject him or her to discipline.
1. **Procedures for Enforcing This Code**
The chancellor shall adopt procedures to ensure students are afforded appropriate notice and an opportunity to be heard before the university imposes any sanction for a violation of the Student Conduct Code. [Note: At the time of publication, such procedures are set forth in California State University *Student Conduct Process* (Executive Order 1098) available at <https://calstate.policystat.com/policy/8453518/latest/>.
 2. **Application of This Code**
Sanctions for the conduct listed above can be imposed on applicants, enrolled students, students between academic terms, graduates awaiting degrees, and students who withdraw from school while a disciplinary matter is pending. Conduct that threatens the safety or security of the campus community, or substantially disrupts the functions or operation of the university is within the jurisdiction of this Article regardless of whether it occurs on or off campus. Nothing in this Code may conflict with Education Code Section 66301 that prohibits disciplinary action against students based on behavior protected by the First Amendment.
- Title 5, California Code of Regulations, § 41302. Disposition of Fees: Campus Emergency; Interim Suspension.**
- The president of the campus may place on probation, suspend, or expel a student for one or more of the causes enumerated in Section 41301. No fees or tuition paid by or for such student for the semester, quarter, or summer session in which he or she is suspended or expelled

shall be refunded. If the student is readmitted before the close of the semester, quarter, or summer session in which he or she is suspended, no additional tuition or fees shall be required of the student on account of the suspension.

During periods of campus emergency, as determined by the president of the individual campus, the president may, after consultation with the chancellor, place into immediate effect any emergency regulations, procedures, and other measures deemed necessary or appropriate to meet the emergency, safeguard persons and property, and maintain educational activities.

The president may immediately impose an interim suspension in all cases in which there is reasonable cause to believe that such an immediate suspension is required in order to protect lives or property and to insure the maintenance of order. A student so placed on interim suspension shall be given prompt notice of charges and the opportunity for a hearing within 10 days of the imposition of interim suspension. During the period of interim suspension, the student shall not, without prior written permission of the president or designated representative, enter any campus of the California State University other than to attend the hearing. Violation of any condition of interim suspension shall be grounds for expulsion.

Standards for Student Conduct

The Office of Student Conduct and Ethical Development is responsible for upholding the *Standards for Student Conduct* and educating students on their social and ethical responsibilities as members of our University community. The Office investigates student discipline matters in accordance with *Executive Order 1098 Revised (August 14, 2020) – Student Conduct Procedures*. Questions about the student discipline process may be directed to the Office of Student Conduct and Ethical Development via (909) 537-7172 or student-conduct@csusb.edu.

Title 5, California Code of Regulations, § 41301. Standards for Student Conduct

University Community Values

The university is committed to maintaining a safe and healthy living and learning environment for students, faculty, and staff. Each member of the university community should choose behaviors that contribute toward this end. Students are expected to be good citizens and to engage in responsible behaviors that reflect well upon their university, to be civil to one another and to others in the university community and contribute positively to student and university life.

Grounds for Student Discipline

Student behavior that is not consistent with the Student Conduct Code is addressed through an educational process that is designed to promote safety and good citizenship and, when necessary, impose appropriate consequences.

The following are the grounds upon which student discipline can be based:

1. Dishonesty, including:

- Cheating, plagiarism, or other forms of academic dishonesty that are intended to gain unfair academic advantage.
- Furnishing false information to a university official, faculty member, or university office.
- Forgery, alteration, or misuse of a university document, key, or identification instrument.

- Misrepresenting one's self to be an authorized agent of the university or one of its auxiliaries.
2. Unauthorized entry into, presence in, use of, or misuse of university property.
 3. Willful, material and substantial disruption or obstruction of a university-related activity, or any on-campus activity
 4. Participating in an activity that substantially and materially disrupts the normal operations of the University, or infringes on the rights of members of the University community.
 5. Willful, material and substantial obstruction of the free flow of pedestrians or other traffic, on or leading to campus property or an off-campus University related activity.
 6. Disorderly, lewd, indecent, or obscene behavior at a university related activity, or directed toward a member of the University community.
 7. Conduct that threatens or endangers the health or safety of any person within or related to the university community, including physical abuse, threats, intimidation, harassment, or sexual misconduct.
 8. Hazing or conspiracy to haze. Hazing is defined as any method of initiation or pre-initiation into a student organization or student body, whether or not the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury to any former, current, or prospective student of any school, community college, college, university or other educational institution in this state (Penal Code 245.6), and in addition, any act likely to cause physical harm, personal degradation or disgrace resulting in physical or mental harm, to any former, current, or prospective student of any school, community college, college, university or other educational institution. The term "hazing" does not include customary athletic events or school sanctioned events. Neither the express or implied consent of a victim of hazing, nor the lack of active participation in a particular hazing incident is a defense. Apathy or acquiescence in the presence of hazing is not a neutral act and is also a violation of this section.
 9. Use, possession, manufacture, or distribution of illegal drugs or drug-related paraphernalia, (except as expressly permitted by law and university regulations) or the misuse of legal pharmaceutical drugs.
 10. Use, possession, manufacture, or distribution of alcoholic beverages (except as expressly permitted by law and university regulations), or public intoxication while on campus or at a university related activity.
 11. Theft of property or services from the university community, or misappropriation of university resources.
 12. Unauthorized destruction or damage to university property or other property in the university community.
 13. Possession or misuse of firearms or guns, replicas, ammunition, explosives, fireworks, knives, other weapons, or dangerous chemicals (without the prior authorization of the university president) on campus or at a university related activity.
 14. Unauthorized recording, dissemination, or publication of academic presentations (including handwritten notes) for a commercial purpose.
 15. Misuse of computer facilities or resources, including:
 - Unauthorized entry into a file, for any purpose.
 - Unauthorized transfer of a file.
 - Use of another's identification or password.
 - Use of computing facilities, campus network, or other resources to interfere with the work of another member of the University Community.
 - Use of computing facilities and resources to send obscene or intimidating and abusive messages.

- Use of computing facilities and resources to interfere with normal university operations.
 - Use of computing facilities and resources in violation of copyright laws.
 - Violation of a university computer use policy.
16. Violation of any published university policy, rule, regulation or presidential order.
 17. Failure to comply with directions or, or interference with, any university official or any public safety officer while acting in the performance of their duties.
 18. Any act chargeable as a violation of a federal, state, or local law that poses a substantial threat to the safety or well-being of members of the university community, to property within the university community or poses a significant threat of disruption or interference with university operations.
 19. Violation of the Student Conduct Procedures, including:
 - Falsification distortion, or misrepresentation of information related to a student discipline matter.
 - Disruption or interference with the orderly progress of a student discipline proceeding.
 - Initiation of a student discipline proceeding in bad faith.
 - Attempting to discourage another from participating in the student discipline matter.
 - Attempting to influence the impartiality of any participant in a student discipline matter.
 - Verbal or physical harassment or intimidation of any participant in a student discipline matter.
 - Failure to comply with the sanction(s) imposed under a student discipline proceeding.
 20. Encouraging, permitting, or assisting another to do any act that could subject him or her to discipline.

Procedures for Enforcing This Code

The chancellor shall adopt procedures to ensure students are afforded appropriate notice and an opportunity to be heard before the university imposes any sanction for a violation of the Student Conduct Code (<https://calstate.policystat.com/policy/8453518/latest/>). [Note: At the time of publication, such procedures are set forth in the California State University Student Conduct Procedures Policy (<https://calstate.policystat.com/policy/8453518/latest/>) (Revised October 6, 2023).

Application of This Code

Sanctions for the conduct listed above can be imposed on applicants, enrolled students, students between academic terms, graduates awaiting degrees, and students who withdraw from school while a disciplinary matter is pending. Conduct that threatens the safety or security of the university community, or substantially disrupts the functions or operation of the university is within the jurisdiction of this Article regardless of whether it occurs on or off campus. Nothing in this Code may conflict with Education Code Section 66301 that prohibits disciplinary action against students based on behavior protected by the First Amendment.

Title 5, California Code of Regulations, § 41302. Disposition of Fees: University Emergency; Interim Suspension.

The president of the university may place on probation, suspend, or expel a student for one or more of the causes enumerated in Section 41301. No fees or tuition paid by or for such student for the semester,

quarter, or summer session in which the student is suspended or expelled shall be refunded. If the student is readmitted before the close of the semester, quarter, or summer session in which the student is suspended, no additional tuition or fees shall be required of the student on account of the suspension.

During periods of emergency, as determined by the president of the individual university, the president may, after consultation with the chancellor, place into immediate effect any emergency regulations, procedures, and other measures deemed necessary or appropriate to meet the emergency, safeguard persons and property, and maintain educational activities.

The president may immediately impose an interim suspension in all cases in which there is reasonable cause to believe that such an immediate suspension is required in order to protect lives or property and to insure the maintenance of order. A student so placed on interim suspension shall be given prompt notice of charges and the opportunity for a hearing within 10 days of the imposition of interim suspension. During the period of interim suspension, the student shall not, without prior written permission of the president or designated representative, enter any of the CSUs other than to attend the hearing. Violation of any condition of interim suspension shall be grounds for expulsion.

Institutional Equity & Compliance Office

Protected Status: Age, Genetic Information, Marital Status, Medical Condition, Nationality, Race or Ethnicity (including color, caste, or ancestry), Religion or Religious Creed, and Veteran or Military Status.

The California State University does not discriminate on the basis of age, genetic information, marital status, medical condition, nationality, race or ethnicity (including color, caste and ancestry), religion (or religious creed), and veteran or military status – as these terms are defined in the in its programs and activities, including admission and access. Federal and state laws, including Title VI of the Civil Rights Act of 1964 (<https://www.justice.gov/crt/fcs/TitleVI/>) and the California Equity in Higher Education Act (https://calmatters.digitaldemocracy.org/bills/ca_202320240ab2326/), prohibit such discrimination. Steven Vasquez, Executive Director has been designated to coordinate the efforts of CSUSB to comply with all applicable federal and state laws prohibiting discrimination on these bases. Inquiries concerning compliance may be presented to this person at Sierra Hall 103 or (909) 537-5669. The Interim CSU Nondiscrimination Policy-Student Respondent Procedure (<https://www.calstate.edu/csu-system/administration/systemwide-human-resources/civil-rights/titleix/Documents/Superseded-Procedures-Student-Dated-8-1-2024.pdf>)s (or any successor procedure) is the systemwide procedure for all complaints or discrimination, harassment or retaliation *made against* other CSU students. The Interim CSU Nondiscrimination Policy-Employee or Third-Party Respondent Procedures (<https://calstate.policystat.com/policy/17650990/latest/>) (or any successor procedure) is the system wide procedure for all complaints of discrimination, harassment or retaliation made against the CSU, a CSU employee or a third party.

Protected Status: Disability

The California State University does not discriminate on the basis of disability (physical and mental) – as this term is defined in the Interim CSU Nondiscrimination Policy (<https://www.calstate.edu/csu-system/administration/systemwide-human-resources/civil-rights/titleix/Pages/>

policies.aspx) – in its programs and activities, including admission and access. Federal and state laws, including sections 504 and 508 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990, prohibit such discrimination. Steven Vasquez, Executive Director has been designated to coordinate the efforts of CSUSB to comply with all applicable federal and state laws prohibiting discrimination on the basis of disability. Inquiries concerning compliance may be presented to this person at Sierra Hall 103 or (909) 537-5669. The Interim CSU Nondiscrimination Policy-Student Respondent Procedures (<https://calstate.policystat.com/policy/17650729/latest/>) (or any successor procedure) is the systemwide procedure for all complaints of discrimination, harassment or retaliation *made against*, other CSU students. The Interim CSU Nondiscrimination Policy-Employee or Third-Party Respondent Procedures (<https://calstate.policystat.com/policy/17650990/latest/>) (or any successor procedure) is the systemwide procedure for all complaints of discrimination, harassment or retaliation made against the CSU, a CSU employee or a third party.

Protected Status: Gender (or sex), Gender Identity (including Nonbinary and Transgender), Gender Expression, Pregnancy and Sexual Orientation.

The California State University does not discriminate on the basis of gender (or sex), gender identity (including nonbinary and transgender) gender expression, pregnancy and sexual orientation – as these terms are defined in CSU (<https://www.calstate.edu/csu-system/administration/systemwide-human-resources/civil-rights/titleix/Pages/policies.aspx>) policy (<https://www.calstate.edu/csu-system/administration/systemwide-human-resources/civil-rights/titleix/Pages/policies.aspx>) – in its programs and activities, including admission and access. Federal and state laws, including Title IX of the Education Amendments of 1972, prohibit such discrimination. Steven Vasquez, Executive Director has been designated to coordinate the efforts of CSUSB to comply with all applicable federal and state laws prohibiting discrimination on these bases. Inquiries concerning compliance may be presented to this person at Sierra Hall 103 or (909) 537-5669. The California State University is committed to providing equal opportunities to all CSU students in all university programs, including intercollegiate athletics. The Interim CSU Nondiscrimination Policy-Student Respondent Procedures or Track 1 (Federal Mandated Hearing Process (<https://calstate.policystat.com/policy/17650729/latest/>) or any successor policy) are the systemwide procedures for all complaints of discrimination, harassment or retaliation made against other CSU students. The Interim Procedure (<https://www.calstate.edu/csu-system/administration/systemwide-human-resources/civil-rights/titleix/Pages/policies.aspx>) (or any successor procedure) are the systemwide procedure for all complaints of discrimination, harassment or retaliation made against the CSU, a CSU employee or a third party.

Track 1 (Federal Mandated Hearing Process) applies to Complaints against a Student, Employee, Third Parties, and/or Student-Employees where the alleged conduct:

1. Meets the definition of Sexual Harassment as defined in Article V.B of the Nondiscrimination Policy (also defined in Track 1, Article II.K); and
2. Occurred in the United States; and
3. Occurred in an education program or activity at the university, as defined in Track 1, Article II.E.

As a matter of federal and state law and California State University policy, the following types of conduct are prohibited:

Discrimination

Discrimination is conduct that causes harm to a Complainant based on their actual or perceived Protected Status within the CSU's educational programs, activities, or employment which results in the denial or limitation of services, benefits, or opportunities provided by the CSU. Under the CSU Nondiscrimination Policy, the definition of Discrimination includes:

- Different Treatment Discrimination: Different Treatment Discrimination occurs when the Complainant is: 1) treated less favorably; 2) than other similarly situated individuals under similar circumstances; 3) because of the Complainant's actual or perceived Protected Status; and 4) not for a legitimate, nondiscriminatory reason. Insignificant or trivial actions or conduct not reasonably likely to do more than anger or upset a Complainant do not constitute "Different Treatment Discrimination."
- Under this Nondiscrimination Policy, discrimination in employment includes any adverse employment action or conduct that is reasonably likely to impair the Employee's job performance or prospects for advancement or promotion.
- An allegation that an Employee is receiving unequal pay because of their Protected Status (for example, under the California Equal Pay Act) constitutes a Discrimination Complaint under this Nondiscrimination Policy.

Harassment

Harassment means unwelcome verbal, nonverbal, or physical conduct engaged in because of an individual Complainant's Protected Status. Harassment includes but is not limited to, verbal harassment (e.g., epithets, derogatory comments, or slurs), physical harassment (e.g., assault, impeding or blocking movement, or any physical interference with normal work or movement), and visual forms of harassment (e.g., derogatory posters, cartoons, drawings, symbols, or gestures.). Single, isolated incidents will typically be insufficient to rise to the level of Harassment.

Harassment may occur when:

Submitting to, or rejecting verbal, nonverbal, or physical conduct is explicitly or implicitly a basis for:

- Any decision affecting a term or condition of the Complainant's employment; or
- Any decision affecting a Complainant's academic status or progress, or access to benefits and services, honors, programs, or activities available at or through the University.

OR

- The conduct is sufficiently severe or pervasive so that its effect, whether intended or not, could be considered by a reasonable person under similar circumstances and with similar identities, and is in fact considered by the Complainant, as creating an intimidating, hostile, or offensive work or educational environment that denies or substantially limits an individual's ability to participate in or benefit from employment and/or educational, services, activities, or other privileges provided by the CSU.

Whether a hostile environment has been created is a fact-specific inquiry that includes consideration of the following:

- The frequency, nature, and duration of the conduct;
- Whether the conduct was physically threatening;
- Whether the conduct arose in the context of other discriminatory conduct or other misconduct;
- The degree to which the conduct affected the Complainant's ability to access the CSU's educational programs, activities, or employment;
- The Parties' ages, roles within the CSU's educational programs or activities, previous interactions, and other factors about each Party that may be relevant to evaluating the effects of the conduct; and
- Other Harassment in the CSU's educational programs, activities, or employment.

Sexual Harassment

- Sexual Harassment means unwelcome verbal, nonverbal or physical conduct of a sexual nature that includes, but is not limited to, sexual advances, requests for sexual favors, offering employment benefits or giving preferential treatment in exchange for sexual favors, or any other conduct of a sexual nature. There are two kinds of Sexual Harassment:
- Quid pro quo: Quid pro quo is Latin for "this for that" and occurs when an Employee, agent, or other person in a position of power conditions an employment or educational benefit or service on submission to sexual advances or other conduct based on sex. Quid pro quo harassment exists when submitting to, or rejecting, the verbal, nonverbal or physical conduct is explicitly or implicitly a basis for:
- Any decision affecting a term or condition of the Complainant's employment; or
- Any decision affecting a Complainant's academic status or progress, or access to benefits and services, honors, programs, or activities available at or through the University.

OR

- Hostile environment harassment is unwelcome sex-based conduct that, based on the totality of the circumstances, is subjectively and objectively offensive and so severe, persistent, or pervasive that it limits or denies the Complainant's ability to participate in or benefit from the CSU's educational programs, activities, or employment. Hostile environment harassment must either:
- Create an intimidating, hostile or offensive work environment; or
- Limit a Student's ability to participate in or benefit from the services, activities, or opportunities offered by the University. Whether a hostile environment has been created is a fact-specific inquiry that includes consideration of the following:
- The frequency, nature, and duration of the conduct;
- Whether the conduct was physically threatening;
- Whether the conduct arose in the context of other discriminatory conduct or other misconduct;
- The degree to which the conduct affected the Complainant's ability to access the CSU's educational programs, activities, or employment;
- The Parties' ages, roles within the CSU's educational programs or activities, previous interactions, and other factors about each Party that may be relevant to evaluating the effects of the conduct; and
- Other Sexual Harassment in the CSU's educational programs, activities, or employment. Sexual Harassment could include being forced to engage in unwanted sexual contact as a condition of

membership in a student organization or in exchange for a raise or promotion; being subjected to video exploitation or a campaign of sexually explicit content; or frequently being exposed to unwanted images of a sexual nature in a work environment, or in a classroom where the images are unrelated to the coursework. Claiming that the conduct was not motivated by sexual desire is not a defense to a Complaint of Sexual Harassment.

Sexual Misconduct

All sexual activity between members of the CSU community must be based on Affirmative Consent. Engaging in any sexual activity without first obtaining Affirmative Consent to the specific activity is Sexual Misconduct, whether or not the conduct violates any civil or criminal law.

1. Sexual activity includes, but is not limited to:
 - Kissing
 - touching intimate body parts
 - fondling
 - intercourse
 - penetration, no matter how slight, of the vagina or anus with any part or object
 - oral copulation of a sex organ by another person.
2. Sexual Misconduct includes, but is not limited to, the following conduct:
 - an attempt, coupled with the ability, to commit a violent injury on the person of another because of that person's Gender or Sex,
 - the intentional touching of another person's intimate body parts without Affirmative Consent,
 - intentionally causing a person to touch the intimate body parts of another without Affirmative Consent,
 - using a person's own intimate body part to intentionally touch another person's body without Affirmative Consent,
 - any unwelcome physical sexual acts, such as unwelcome sexual touching,
 - using physical force, violence, threat, or intimidation to engage in sexual activity,
 - ignoring the objections of the other person to engage in sexual activity,
 - causing the other person's incapacitation through the use of drugs or alcohol to engage in sexual activity,
 - taking advantage of the other person's incapacitation to engage in sexual activity.
3. Intimate body part means the sexual organ, anus, groin, buttocks, or breasts of any person.
4. Sexual activity between a Minor (a person younger than 18 years old) and a person who is at least 18 and two years older than the Minor always constitutes Sexual Misconduct, even if there is Affirmative Consent to all sexual activity. The existence of Affirmative Consent and/or the type of sexual activity may be relevant to the determination of an appropriate Sanction.
5. Persons of all Genders, Gender Identities, Gender Expressions, and Sexual Orientations can be victims of these forms of Sexual Misconduct. Sexual Misconduct can be committed by an individual known to the victim including a person the Complainant may have just met, i.e., at a party, introduced through a friend, or on a social networking website.

Affirmative Consent

Affirmative Consent means an agreement to engage in sexual activity that is informed, affirmative, conscious, voluntary, and mutual. Affirmative Consent must be given freely and without coercion, force, threats, intimidation, or by taking advantage of another person's incapacitation. It is the responsibility of each person involved in the sexual activity to ensure Affirmative Consent has been obtained from the other participant(s) prior to engaging in the sexual activity.

- Affirmative consent is given by clear words or actions. Affirmative consent includes knowledge and agreement to engage in the specific sexual activity.
- Affirmative Consent must be ongoing throughout a sexual activity and can be withdrawn or revoked at any time, including after sexual activity begins. Once consent is withdrawn or revoked and clearly communicated, the sexual activity must stop immediately.
- Consent to one form of sexual activity or one sexual act does not constitute consent to other forms of sexual activity. Consent given to sexual activity on one occasion does not constitute consent on another occasion.
- Affirmative Consent cannot be inferred from an existing or previous dating, social, or sexual relationship between the Parties.
- Silence does not mean there is Affirmative Consent.
- Lack of protest or resistance does not mean there is Affirmative Consent.
- A request for someone to use a condom or birth control does not, in and of itself, mean there is Affirmative Consent.
- Affirmative Consent cannot be given by a person who is incapacitated. A person is unable to consent when asleep, unconscious, or incapacitated due to the influence of drugs, alcohol, or medication.

Incapacitation: A person is incapacitated if they lack the physical and/or mental ability to make informed, rational decisions about whether or not to engage in sexual activity. A person with a medical or mental disability may also lack the capacity to give consent. Incapacitation exists when a person could not understand the fact, nature, or extent of the sexual activity.

It shall not be a valid excuse that a person affirmatively consented to the sexual activity if the Respondent knew or reasonably should have known that the person was unable to consent to the sexual activity under any of the following circumstances:

- The person was asleep or unconscious;
- The person was incapacitated due to the influence of drugs, alcohol, or medication, so that the person could not understand the fact, nature, or extent of the sexual activity; or
- The person was unable to communicate due to a physical or mental condition.
- It shall not be a valid excuse that the Respondent believed that the person consented to the sexual activity under either of the following circumstances:
 - The Respondent's belief in Affirmative Consent arose from the intoxication or recklessness of the Respondent;
 - The Respondent did not take reasonable steps, in the circumstances known to the Respondent at the time, to ascertain whether the person affirmatively consented.
- Whether an intoxicated person (as a result of using alcohol, drugs, or medication) is incapacitated will require an individualized

determination about the extent to which the alcohol or other drugs impact the person's decision-making ability, awareness of consequences, and ability to make informed judgments. The level of intoxication may change over a period of time based on a variety of individual factors, including the amount of substance consumed, speed of intake, body mass, height, weight, tolerance, food consumption, drinking patterns, and metabolism. A person's own intoxication or incapacitation from drugs or alcohol does not diminish that person's responsibility to obtain Affirmative Consent before engaging in sexual activity.

- Incapacitation due to alcohol, drugs or medication is a state of intoxication that is so severe that it interferes with a person's capacity to make informed and knowing decisions. A person who is incapacitated may not be able to understand where they are, whom they are with, how they got there, or what is happening. Signs that a person may be incapacitated due to the influence of drugs, alcohol, or medication include, but are not limited to, the following:
 - slurred speech or difficulty communicating clearly;
 - clumsiness or lack of physical coordination (e.g., difficulty standing or walking without assistance);
 - impaired motor skills (e.g., eating, drinking, texting);
 - disorientation regarding time and place;
 - difficulty concentrating;
 - vomiting;
 - combativeness or emotional volatility; or
 - sleeping, unconsciousness, or going in and out of consciousness.
- Incapacitation may also include memory impairment or an inability to recall entire or partial events (sometimes referred to as "black-out" or "brown-out"). A person may experience this symptom while appearing to be functioning "normally," including communicating through actions or words that can reasonably and objectively be interpreted as communicating consent to engage in sexual activity. Total or partial loss of memory alone may not be sufficient, without additional evidence, to prove that an individual was incapacitated under this Policy. Whether sexual activity under these circumstances constitutes Prohibited Conduct depends on the presence or absence of the outwardly observable factors indicating that an individual is incapacitated, as described above.
- In evaluating Affirmative Consent in cases involving incapacitation, the CSU considers the totality of available information in determining whether a Respondent knew or reasonably should have known that the Complainant was incapacitated.

Sexual Exploitation means a person taking sexual advantage of another person for the benefit of anyone other than that person without that person's consent, including, but not limited to, any of the following acts:

- The prostituting of another person.
- The trafficking of another person, defined as the inducement of a person to perform a commercial sex act, or labor of services, through force, fraud, or coercion.
- The recording of images, including video or photograph, or audio of another person's sexual activity or intimate parts, without that person's consent.
- The distribution of images, including video or photographs, or audio of another person's sexual activity or private body parts, if the individual distributing the images or audio knows or should have known that the person depicted in the images or audio did not consent to the

disclosure. This includes distribution of digitally altered or artificial-intelligence-generated images, video, and audio.

The viewing of another person's sexual activity or private body parts, in a place where that other person would have a reasonable expectation of privacy, without that person's consent, for the purpose of arousing or gratifying sexual desire.

Dating Violence and Domestic Violence

Dating Violence means physical violence or threat of physical violence committed by a person:

1. Who is or has been in a social relationship of a romantic or intimate nature with the Complainant; and
2. Where the existence of such a relationship shall be determined based on a consideration of the following factors:
 - a. The length of the relationship.
 - b. The type of relationship.
 - c. The frequency of interaction between the persons involved in the relationship.

Domestic Violence means physical violence or threat of physical violence committed by a current or former spouse or intimate partner of the Complainant, by a person with whom the Complainant shares a child in common, by a person who is cohabitating with or has cohabitated with the Complainant as a spouse or intimate partner, or by a person similarly situated to a spouse of the Complainant. Domestic violence also includes acts against a Minor or adult victim who is protected from those acts under the family or domestic laws of the state.

Stalking

Stalking means engaging in a Course of Conduct directed at a specific person that would cause a reasonable person to fear for the safety of self or others' safety or to suffer Substantial Emotional Distress. For purposes of this definition:

- Course of Conduct means two or more acts, including but not limited to, acts in which one party directly, indirectly, or through third parties, by any action, method, device, or means, follows, monitors, observes, surveils, threatens, or communicates to or about the other party, or interferes with the other party's property.
- Substantial Emotional Distress means significant mental suffering or anguish that may but does not necessarily require medical or other professional treatment or counseling.

Prohibited Consensual Relationships

A Prohibited Consensual Relationship includes consensual sexual or romantic relationships between an Employee and any Student or Employee over whom they exercise direct or otherwise significant academic, administrative, supervisory, evaluative, counseling, or extracurricular authority.

1. A consensual relationship means a sexual or romantic relationship between two individuals who voluntarily enter into such a relationship.
2. While sexual and/or romantic relationships between members of the University community may begin as consensual, they may evolve into situations that lead to Discrimination, Harassment, Retaliation, Sexual Misconduct, Sexual Exploitation, Dating Violence, Domestic Violence, or Stalking subject to this Nondiscrimination Policy.
3. It is a violation of this Nondiscrimination Policy for an Employee to enter into a Prohibited Consensual Relationship.

4. Examples of Prohibited Consensual Relationships include, but are not limited to, a supervisor and an employee in their chain of command; a faculty member and a student enrolled in their class; a counselor and a student they are advising; a resident advisor and a student in their building; a club advisor and club member.

Retaliation

Retaliation is intimidation, coercion, or discrimination against any individual for the purpose of interfering with their exercise of any rights under this Nondiscrimination Policy by:

- Reporting or filing a Complaint;
- Participating or refusing to participate in any manner in any Policy-related investigation or proceeding, including a hearing;
- Opposing conduct which was reasonably and in good faith believed to be in violation of this Nondiscrimination Policy;
- Assisting or participating in an investigation or proceeding under this Nondiscrimination Policy, regardless of whether the Complaint was substantiated; or
- Assisting someone else in reporting or opposing a violation of this Nondiscrimination Policy or assisting someone else in reporting or opposing Retaliation under this Nondiscrimination Policy.
 - For purposes of this definition, Retaliation includes conduct that would discourage a reasonable person from reporting or participating in a process provided for in this Policy, including threats, intimidation, coercion, reprisals, discrimination, and adverse employment or educational actions.
 - Peer Retaliation, which is defined as Retaliation by one Student against another Student, is also prohibited.
 - Retaliation may occur even when there is not a power or authority differential between the individuals involved.
 - The exercise of rights protected under the First Amendment does not constitute Retaliation prohibited under this definition.
 - Good faith actions lawfully pursued in response to a Complaint, such as gathering evidence, providing Supportive Measures, or disciplining Students or Employees found to be in violation of this Nondiscrimination Policy, without more, are not considered Retaliation.

Track 1 Prohibited Conduct Definitions

1. Sexual Harassment means conduct on the basis of Sex that satisfies one or more of the following:
 - a. An Employee conditioning the provision of an aid, benefit, or service of the University on an individual's participation in unwelcome sexual conduct;
 - b. Unwelcome conduct determined based on the reasonable person standard to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to an Education Program or Activity.
2. Sexual Assault includes the following:
 - a. Rape is the penetration or attempted penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the Affirmative Consent of the Complainant. Rape also includes the attempted penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the Affirmative Consent of the Complainant, with the present ability and the intent to commit Rape.

- b. Fondling is the touching of the private body parts of another person for the purpose of sexual gratification, without the Affirmative Consent of the victim, including instances where the Complainant is incapable of giving Affirmative Consent because of their age or because of their temporary or permanent mental incapacity.
 - c. Incest is sexual intercourse between persons who are related to each other within the degrees wherein marriage is prohibited by law.
 - d. Statutory Rape is sexual intercourse with a person who is under the age of 18 years, the California statutory age of consent. The definition of Affirmative Consent is that under Article VII.A.3 above.
3. Dating Violence means physical violence or threat of physical violence committed by a person:
- a. who is or has been in a social relationship of a romantic or intimate nature with the Complainant; and
 - b. where the existence of such a relationship shall be determined based on a consideration of the following factors:
 - The length of the relationship.
 - The type of relationship.
 - The frequency of interaction between the persons involved in the relationship.
4. Domestic Violence means physical violence or threat of physical violence committed by a current or former spouse or intimate partner of the Complainant, by a person with whom the Complainant shares a child in common, by a person who is cohabitating with or has cohabitated with the Complainant as a spouse or intimate partner, or by a person similarly situated to a spouse of the Complainant.
5. Stalking means engaging in a course of conduct directed at a specific person that would cause a reasonable person to:
- fear for their safety or the safety of others; or
 - suffer substantial emotional distress.

See further information in CSUSB's sexual violence prevention and education statement, Title IX Notice of Nondiscrimination (which includes facts and myths about sexual violence), and Victim's Rights and Options Notice, at <https://www.csusb.edu/institutional-equity-compliance>. (<https://www.csusb.edu/institutional-equity-compliance/>)

Whom to Contact If You Have Complaints, Questions or Concerns

Title IX requires the university to designate a Title IX Coordinator to monitor and oversee overall Title IX compliance. The university Title IX Coordinator is available to explain and discuss the university's complaint process, including the investigation and hearing process; the availability of reasonable supportive measures (both on and off campus regardless of whether the person chooses to report the conduct); the right to file a criminal complaint (for example, in cases of sexual misconduct); how confidentiality is handled; and other related matters. *If you are in the midst of an emergency, please call the police immediately by dialing 9-1-1.*

- 4. M-F 8:00 am-5:00 pm
- 5. University Police (<https://www.csusb.edu/police/>) (909) 537-7777

Title IX requires the university to adopt and publish complaint procedures that provide for prompt and equitable resolution of gender discrimination complaints, including sexual harassment and misconduct, as well as provide training, education and preventive measures related to sex discrimination. Interim CSU Nondiscrimination Policy – Student Respondent Procedure (<https://calstate.policystat.com/policy/17650729/latest/>) (or any successor procedure) is the systemwide procedure for all complaints of discrimination, harassment or retaliation made against, other CSU students. CSU Nondiscrimination Policy – Respondent Procedure of Track 1 (Federal Mandated Hearing Process (or any successor procedures) are the systemwide procedures for all complaints of discrimination, harassment or retaliation made against the CSU, a CSU employee or a third party.

Duty to Report

Except as provided below under confidentiality and sexual misconduct, dating violence, domestic violence, and stalking, any university employee who knows or has reason to know of allegations or acts that violate university policy shall promptly inform the Title IX Coordinator. These employees are required to disclose all information including the names of the parties, even where the person has requested that their name remain confidential. The Title IX Coordinator will determine whether confidentiality is appropriate given the circumstances of each such incident. (See confidential reporting options outlined below.)

Regardless of whether an alleged victim of gender discrimination ultimately files a complaint, if the university knows or has reason to know about possible sexual discrimination, harassment or misconduct, it must review the matter to determine if an investigation is warranted. The university must then take appropriate steps to eliminate any gender discrimination/harassment/misconduct, prevent its recurrence, and remedy its effects.

U.S. Department of Education, Office for Civil Rights (OCR):

(800) 421-3481 (National Headquarters); or (800) 877-8339 (TDD) or ocr@ed.gov ([ocr@ed.gov](https://www.ed.gov)) (National Headquarters) or (415) 486-5555 (California office), or ocr.sanfrancisco@ed.gov ([ocr.sanfrancisco@ed.gov](https://www.ed.gov)) (California office)

If you wish to fill out a complaint form online with the OCR, you may do so using the OCR Electronic Complaint Form.

Safety of the University Community is Primary

The university's primary concern is the safety of its university community members. The use of alcohol or drugs never makes the victim at fault for gender discrimination, harassment or sexual misconduct; therefore, victims should not be deterred from reporting incidents of sexual misconduct out of a concern that they might be disciplined for related violations of drug, alcohol or other university policies. Except in extreme circumstances, victims of sexual misconduct shall not be subject to discipline for related violations of the Student Conduct Code.

Information Regarding University, Criminal and Civil Consequences of Committing Acts of Sexual Violence

Individuals alleged to have committed sexual misconduct may face criminal prosecution by law enforcement and may incur penalties as a result of civil litigation. In addition, students may face discipline

at the university, up to and including suspension or expulsion and withholding of their degrees. Employees may face sanctions up to and including suspension, demotion or dismissal from employment, pursuant to established CSU policies and provisions of applicable collective bargaining unit agreements.

Students who are found responsible by the university with gender discrimination, harassment or sexual misconduct will be subject to discipline, pursuant to The Interim CSU Nondiscrimination Policy-Student Respondent Procedures (<https://calstate.policystat.com/policy/17650729/latest/>) for complaints made against a student and the California State University and Student Conduct Procedures (see the Student Conduct Procedures Policy (<https://calstate.policystat.com/policy/8453518/latest/>), revised on August 14, 2020, or any successor policy) and will be subject to appropriate sanctions. In addition, during any investigation, the university may implement interim measures in order to maintain a safe and non-discriminatory educational environment. Such measures may include but not be limited to: immediate interim suspension from the university; a required move from university-owned or affiliated housing; adjustments to course schedule; and/or prohibition from contact with parties involved in the alleged incident.

Confidentiality and Sexual Misconduct, Dating Violence, Domestic Violence and Stalking

The university encourages victims of sexual misconduct, dating violence, domestic violence or stalking to talk to someone about what happened – so they can get the support they need, and so the university can respond appropriately.

Privileged and Confidential Communications

Physicians, Psychotherapists, Professional Licensed Counselors, Licensed Clinical Social Workers, and Clergy - Physicians, psychotherapists, professional, licensed counselors, licensed clinical social workers, and clergy who work or volunteer on or off campus, acting solely in those roles or capacities as part of their employment, and who provide medical or mental health treatment or counseling (and those who act under their supervision, including all individuals who work or volunteer in their centers and offices) may not report any information about an incident of sexual misconduct to anyone else at the university, including the Title IX Coordinator, without the victim's consent. A victim can seek assistance and support from physicians, psychotherapists, professional, licensed counselors, licensed clinical social workers and clergy without triggering a university investigation that could reveal the victim's identity or the fact of the victim's disclosure. However, see limited exceptions below regarding when health care practitioners must report to local law enforcement agencies. Health care practitioners should explain these limited exceptions to victims, if applicable.

Sexual Assault and Domestic Violence Counselors and Advocates

- Sexual assault and domestic violence counselors and advocates who work or volunteer on or off campus in sexual assault centers, victim advocacy offices, women's centers and health centers (including those who act in that role under their supervision, along with non-professional counselors or advocates who work or volunteer in sexual assault centers, victim advocacy offices, women's centers, gender equity centers, or health centers), may talk to a victim without revealing any information about the victim and the incident of sexual misconduct to anyone else at the university, including the Title IX Coordinator, without the victim's consent. A victim can seek assistance and support from these counselors and advocates without triggering a university investigation that could reveal his/her identity or that a victim disclosed an incident to them. However, see limited exceptions below regarding when sexual assault

and domestic violence counselors and advocates must report to local law enforcement agencies. Counselors and advocates should explain these limited exceptions to victims, if applicable.

The university will be unable to conduct an investigation into a particular incident or pursue disciplinary action against a perpetrator if a victim chooses to:

1. Speak only to a physician, professional licensed counselor, licensed clinical social worker, clergy member, sexual assault counselor, domestic violence counselor or advocate; and
2. Maintain complete confidentiality. Even so, these individuals will assist victims in receiving other necessary protection and support, such as victim advocacy, disability services, medical/health or mental health services, or legal services, and will advise victims regarding their right to file a Title IX complaint with the university and a separate complaint with local or university police.

If a victim insists on confidentiality, such professionals, counselors and advocates will likely not be able to assist the victim with: university academic support or accommodations; changes to university-based living or working schedules; or adjustments to course schedules. A victim who at first requests confidentiality may later decide to file a complaint with the university or report the incident to the police, and thus have the incident fully investigated. These counselors and advocates can provide victims with that assistance if requested by the victim. These counselors and advocates will also explain that Title IX includes protections against retaliation, and that the university will not only take steps to prevent retaliation when it knows or reasonably should know of possible retaliation, but will also take strong responsive action if retaliation occurs.

Exceptions

Under California law, any health practitioner employed in a health facility, clinic, physician's office, or local or state public health department or clinic is required to make a report to local law enforcement if the health practitioner provides medical services for a physical condition to a patient/victim who the health practitioner knows or reasonably suspects is suffering from:

1. A wound or physical injury inflicted by a firearm; or
2. Any wound or other physical injury inflicted upon a victim where the injury is the result of assaultive or abusive conduct (including sexual misconduct, domestic violence, and dating violence).

This exception does not apply to sexual assault and domestic violence counselors and advocates. Health care practitioners should explain this limited exception to victims, if applicable.

Additionally, under California law, all professionals described above (physicians, psychotherapists, professional counselors, licensed clinical social workers, clergy, and sexual assault and domestic violence counselors and advocates) are mandatory child abuse and neglect reporters, and are required to report incidents involving victims under 18 years of age to local law enforcement. These professionals will explain this limited exception to victims, if applicable.

Finally, some or all of these professionals may also have reporting obligations under California law to:

1. Local law enforcement in cases involving threats of immediate or imminent harm to self or others where disclosure of the information is necessary to prevent the threatened danger; or

2. To the court if compelled by court order or subpoena in a criminal proceeding related to the sexual misconduct, dating or domestic violence, or stalking incident.

If applicable, these professionals will explain this limited exception to victims.

Reporting to University or Local Police

If a victim reports to local or university police about sexual misconduct crimes, the police are required to notify victims that their names will become a matter of public record unless confidentiality is requested. If a victim requests that their identity be kept confidential, their name will not become a matter of public record. However, even if the victim requests confidentiality of identity, the University Police should specifically ask the victim if the victim's name can be provided to the Title IX Office so that the Title IX Coordinator can contact the victim to discuss supportive measures that can be offered. If a victim gives consent to law enforcement to provide their name to the Title IX Coordinator, their name will not become a matter of public record. Even if a victim does not give the police permission to provide their name to the Title IX Coordinator, University police will report the facts of the incident itself to the Title IX Coordinator being sure not to reveal to the Title IX Coordinator victim names/identities or compromise their own criminal investigation. The university is required by the federal Clery Act to report certain types of crimes (including certain sex offenses) in statistical reports. However, while the university will report the type of incident in the annual crime statistics report known as the Annual Security Report, victim names/identities will not be revealed.

Reporting to the Title IX Coordinator and Other University Employees

Most university employees have a duty to report incidents of sexual misconduct when they are on notice of it. When a victim tells the Title IX Coordinator or another university employee about an incident of sexual misconduct, the victim has the right to expect the university to take immediate and appropriate steps to investigate what happened and to resolve the matter promptly and equitably. In all cases, the university strongly encourages victims to report incidents of sexual misconduct directly to the university Title IX Coordinator. As detailed above, in the "Privileged and Confidential Communications" section of this policy, all university employees except physicians, licensed professional counselors, licensed clinical social workers, sexual assault counselors and advocates, must report to the Title IX Coordinator all relevant details about any incidents of sexual misconduct of which they become aware. The university will need to determine what happened – and will need to know the names of the victim(s) and the perpetrator(s), any witnesses, and any other relevant facts, including the date, time and specific location of the incident.

To the extent possible, information reported to the Title IX Coordinator or other university employees will be shared only with individuals responsible for handling the university's response to the incident. The university will protect the privacy of individuals involved in a sexual misconduct violence incident except as otherwise required by law or university policy. A report of sexual misconduct may result in the gathering of extremely sensitive information about individuals in the university community. While such information is considered confidential, university policy regarding access to public records and disclosure of personal information may require disclosure of certain information concerning a report of sexual misconduct. In such cases, efforts will be made to redact the records, as appropriate, in order to protect the victim's identity and privacy and the privacy of other involved individuals. Except as detailed in the section on "Privileged and Confidential Communications" above, no university

employee, including the Title IX Coordinator, should disclose the victim's identity to the police without the victim's consent or unless the victim has also reported the incident to the police.

If a victim requests of the Title IX Coordinator or another university employee that their identity remain completely confidential, the Title IX Coordinator will explain that the university cannot always honor that request or guarantee complete confidentiality. If a victim wishes to remain confidential or request that no investigation be conducted or disciplinary action taken, the university must weigh that request against the university's obligation to provide a safe, non-discriminatory environment for all students, employees, and third parties, including the victim. Under those circumstances, the Title IX Coordinator will determine whether the victim's request for complete confidentiality and/or no investigation can be honored under the facts and circumstances of the particular case, including whether the university has a legal obligation to report the incident, conduct an investigation or take other appropriate steps. Without information about a victim's identity, the university's ability to meaningfully investigate the incident and pursue disciplinary action against the perpetrator may be severely limited. See the Interim CSU Nondiscrimination Policy (<https://www.calstate.edu/csu-system/administration/systemwide-human-resources/civil-rights/titleix/Pages/policies.aspx>) (or any successor policy) for further details around confidential reporting, and other related matters.

Online Programs

CSUSB follows the Integrated Postsecondary Education Data System's (IPEDS) definition (<https://nces.ed.gov/ipeds/use-the-data/distance-education-in-ipeds/>) of distance education. Distance education (DE) is education that uses one or more types of technology to deliver instruction to students who are separated from the instructor and to support regular and substantive interaction between the students and the instructor synchronously or asynchronously. The following types of technology may be used for distance instruction:

- Internet;
- Satellite or wireless communication; and
- Audio and video conferencing

Bachelor of Arts in Liberal Arts

(Program Code: LIBA)

A Bachelor of Arts in Liberal Arts represents a broad, interdisciplinary approach to earning a higher education degree. The Liberal Arts B.A. is designed for students, who might not necessarily desire a career in education, to obtain a multidisciplinary degree that is transferable to many of the needs of the twenty-first century.

All Bachelor of Arts in Liberal Arts students should give special attention to the following points before they begin their course work:

1. Grades in lower division courses (2999 and below) must be a "C-" or better
2. Grades in upper division courses (3000 and above) must be a "C" or better.
3. Some courses can be counted towards multiple requisites so, upon admission and frequently thereafter, be sure to seek consultation from the Liberal Studies Programs Coordinator. Consultation should be obtained at least once a semester.
4. Assessments are a required component of the Bachelor of Arts in Liberal Arts and are found under Culminating Experience. All entering freshmen and transfer students must enroll in CAL 2970 during one of the first two semesters of enrollment at CSUSB. All students must enroll in CAL 5900 in either of their last two semesters before graduation.
5. Please note that students may choose to pursue a second minor and/or a certificate program at CSUSB instead of and as an optional means to fulfill the Focus Field requirement.

All graduating Bachelor of Arts in Liberal Arts students must maintain a grade point average of at least 2.0 ("C").

Requirements (39-52 units)

Total units for graduation: 120

Requirements for the B.A. in Liberal Arts

Applied and Acquired Skills, Experience, and Service Requirements (4-17)

Introductory Experience (3)			
CAL 2970	Liberal Studies: Introduction and Assessment Preparation	3	
Required Minor Field within the College of Arts and Letters (18)			
Students must complete one minor offered through the College of Arts and Letters. Minors vary in size and range beginning at 18 units in a single discipline. Minor exceptions must be approved by Liberal Studies Programs Coordinator.		18	
Culminating Experience (5)			
CAL 5900	Liberal Studies and Liberal Arts Senior Assessment and Writing Workshop	2	
To be taken during one of the last two semesters before graduation.			
CAL 5953	Independent Study in the Humanities	3	
Three-unit Independent Study Project to be completed in one of the disciplines used for the Minor and/or Certificate area(s) and should be taken during one of the last two semesters before graduation. This project should result in a significant presentation or written paper reporting on the research project carried out and should include a concluding essay relating the research topic to other courses and subjects in the areas of Minor study. Students must enroll in CAL 5953 or other appropriate independent study course offered by the department of the faculty member who has agreed to supervise this project. This is in addition to the Experiential/Service Learning and Engagement requirement previously listed.			
Focus Field (9) ¹		9	

Students must complete nine units of course work from any single discipline other than the discipline chosen for the required minor field. A minimum of six units must be upper-division.

Total Units **39-52**

¹ Please note that students may choose to pursue a second minor and/or a certificate program at CSUSB as an optional means to fulfill the Focus Field requirement.

Pathway to Graduation within 120 Semester Units

***In order to complete this degree within 120 units, please consult the Liberal Studies Programs Coordinator to know which courses fulfill multiple graduation requirements.**

Minor in Asian Studies

Asian Studies Minor is a cohesive and interdisciplinary program that draws on a range of courses focusing on Asian regions and cultures.

Admission to the Program

1. Students must meet general university admission requirements.
2. Students in all majors are eligible to participate in this program.

Requirements for a minor in Asian Studies (18 units)

Core Requirements (6)

Six units of upper division courses chosen from the following with at least three units being a seminar course. **6**

Seminar Courses:

ANTH 3703R	Anthropology of Asia: Cultures, Communities, and Migration
CAL 3888	Asian Humanities in a Globalized World
FIN 3555	Business and Asian Culture
HIST 4400	History of Modern East Asia
PHIL 3450	Asian Philosophy

Experiential Courses

CAL 5753	Internship in Humanities
CAL 5783	International Experience: Asian Studies
CAL 5953	Independent Study in the Humanities

Electives (12)

Twelve units from the following courses (may not receive credit as an elective if taken as a core course) with at least 3 units from each of the categories listed below: **12**

Group A: Arts and Humanities

AH 3310	Asian Contemporary Art
CAL 3888	Asian Humanities in a Globalized World
CHIN 1112	College Chinese II
CHIN 2900	Chinese Literature in Translation
ENG 3250	Asian American Literature
JAPN 1112	Beginning Japanese II
JAPN 2900	Japanese Literature in English
JAPN 3900	Voices & Visions from the World of Japanese Anime and Manga

KOR 1112	Beginning Korean 2
KOR 2900	Korean Literature in English
PHIL 3450	Asian Philosophy
Group B: Business and Social Behavioral Sciences	
ANTH 3703R	Anthropology of Asia: Cultures, Communities, and Migration
FIN 3555	Business and Asian Culture
HIST 4260	Ancient and Early Imperial China
HIST 4280	Medieval China
HIST 4290	Modern China I, 1644-1911
HIST 4310	Modern China II, 1911-Present
HIST 4330	Modern Chinese History in Fiction and Film
HIST 4400	History of Modern East Asia
HIST 4560	Mughal India and the Early Modern World
HIST 4570	Modern India at the Crossroads of Empire
HIST 4580	Gandhi: Life and Legacy
HIST 4590	Media Cultures of the Indian Subcontinent
PSCI 3050	East Asian Politics

Total Units **18**

Minor in Disability Studies

The Minor in Disability Studies provides an introduction to the fast-growing field of Disability Studies, an interdisciplinary field that centers the knowledge, contributions, experiences, histories, and cultures of people with disabilities. The minor can prepare students for careers in medicine, social work, public service, and teaching, in which they may serve people with disabilities, but more importantly, it encourages all students to celebrate disabled joy, creation, and community while promoting social justice for people with disabilities. The Minor's requirements make it easy to integrate with a student's General Education courses or the student's major.

Requirements for the Minor

18 units minimum

Required Courses (9) **9**

ENG 3280	Disability Literature
PHIL 3026	Philosophy of Disability
HIST 3791	Disability History

Electives (9) **9**

Students select 9 units from the sections below. One class may be an internship, practicum, or service course.

ASL 1111	American Sign Language I
ASL 1112	American Sign Language II
ENG 1210	Diversity Literature and Social Justice
HSCI 2200	Introduction to Public Health
KINE 3050	Disability, Society and Physical Activity
KINE 3100	Introduction to Adapted Physical Activity
HIST 3790	The History of Madness
PSYC 3340	Stereotyping, Prejudice and Discrimination

SOC 4530	Citizenship, Status, and Inequality
ESPE 3350	Introduction to Special Populations for General Education Teachers

Internships, Practicums, and Service Learning (0)

This program encourages outreach and community activism. Because issues around disability identity, rights, and access reach across many disciplines, you can apply the concepts from the disability studies minor to a practicum or internship experience in your major. To apply these courses toward the minor, the topic is restricted to those related to disability studies. Talk to your advisor in your major to find out more. Possible 3-unit electives for this experience include:

ANTH 5753	Internship in Anthropology
ART 5753	Internship in Art
CJUS 5753	Internship in Criminal Justice
COMM 5793	Internship in Communication
DES 5590	Design Internship
ENG 5753	Internship in English
HIST 5750	Internship in History
HSCI 5754	Internship in Environmental Health
MUS 4700	Music Therapy Practicum
PHIL 5753	Internship in Philosophy
PSCI 5753	Internship in Political Science
PSYC 5575	Internship
SOC 5753	Internship and Practicum
SPAN 4443	Internship Project
SSCI 5750	Social Science Internship
TA 5753	Internship in Theatre Arts III

Community Service Courses (0)

COMM 2593	Service Learning in Communication
ENG 3993	Community Service Project
HIST 3990C	Community-Based Project
HSCI 5213	Community Service Project in Public Health
WLL 3893	Community Service Project

Total Units	18
--------------------	-----------

Minor in Entrepreneurship in the Arts

This interdisciplinary Entrepreneurship in the Arts minor will service all of the College of Arts and Letters students who are seeking to blend their primary area of study in arts and humanities with entrepreneurship. Specifically, the goal of this minor is to educate students as to the nature and accessibility of entrepreneurship, to celebrate, explore, and capitalize on their inherent creativity as students of the arts and humanities, and to teach them the practical entrepreneurial skill sets that they will need to be able to blend their area of expertise with entrepreneurship as they look toward further developing their careers post-graduation.

Requirements for a minor in Entrepreneurship in the Arts (18 units)

CAL 4000	The Artist Entrepreneur: Innovation and Leadership in the Arts	3
CAL 4100	The Artist Entrepreneur's Toolkit	3

CAL 4200	Venture Ideation, Analysis, and Development in the Arts	3
CAL 4300	The Artist Entrepreneur Launch	3
Six units chosen in consultation with the Entrepreneurship in the Arts minor program advisor, from coursework from the following departments: Art, Communication Studies, English, Entrepreneurship, Music, Philosophy, Theatre Arts, World Languages		6
Total Units		18

In addition to the grade point average requirements stated in Program Requirements for a Bachelor's Degree, students must earn a grade of "C" (2.0) or better in all courses required to fulfill the Minor in Entrepreneurship in the Arts.

Minor in Latin American Studies

Admission to the Program

1. Students must meet general university admission requirements;
2. Students should discuss this minor with their academic advisors. All majors are eligible to participate in this minor.
3. Students must complete SPAN 1112 or PORT 1112 prior to beginning the program.

Requirements for Graduation

1. Minors can only be granted for the same term in which students graduate;
2. CSUSB will not consider for transfer credit coursework from an institution that will not accept that coursework in its own degree program.

Requirements for a minor in Latin American Studies (18 units)*

Introductory course (3)		
LAS 2000	Introduction to Latin American Studies (Core course)	3

MGMT 4050	Managing Across Borders
MKTG 4700	International Marketing
PA 5900	Special Topics in Public Administration

Total Units **18**

* **Note:** Students may not receive credit for more than 2 courses per Department and more than 4 courses per College.

** **Note:** Spanish courses are taught in Spanish.

Foreign Language Requirement for Spanish or Portuguese

The following rules apply to challenging a language course for credit in this minor:

1. Only courses at the 1112-level or higher may be challenged.
2. Students whose language of instruction in secondary school was Spanish or Portuguese may satisfy this category by submitting official academic transcripts showing that either language was, indeed, the medium of instruction in the school from which they graduated.
3. Providing documentation of significant foreign language experience such as the successful completion of two years of Peace Corps experience in a Spanish- or Portuguese-speaking country.
4. Results from Spanish AP exams may satisfy this requirement.

1.

Minor in Immersive Storytelling, Design, & Innovative Marketing Communication

The art of the story is evolving as media becomes more participatory and more immersive. Creators must utilize immersive technologies like mixed and virtual reality, 360-degree technology, and video games to excel in developing and marketing their ideas, products and services. This 15-unit minor prepares any major to become an adept creator of immersive stories. Students will synthesize the disciplines of theater, design, visual art, creative writing, computer science, data science, marketing, business, and communications, into concepts of storytelling. Then, through four courses and a capstone project, students will merge their ideas with creative technology platforms to build a portfolio of immersive work, launching them into this dynamic field.

Requirements (15 units)

CSE 1300	Introduction to Data Science	3
CAL 3000	Foundations and Theoretical Concepts of Immersive Storytelling and Emerging Technologies	3
CAL 3010	Extended Reality, Storytelling, and World Building	3
CAL 3020	Story-driven Game Design	3
CAL 3030	Immersive Storytelling, Product Design, and Integrated Marketing Communication	3
Total Units		15

Certificate in Asian Studies

The certificate in Asian Studies is a cohesive and interdisciplinary program that draws on a range of courses focusing on Asian regions and cultures. The certificate in Asian Studies consists of 12 units.

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 6000-level courses as requirements and/or electives. These 6000-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Certificate Requirements (12 units)

Core Requirements (3)

Three units chosen from:		3
ANTH 3703R	Anthropology of Asia: Cultures, Communities, and Migration	

CAL 3888	Asian Humanities in a Globalized World

Department of Art and Design

Accredited by the National Association of Schools of Art and Design

Visual Arts Center, Room 105

(909) 537-5802 Department of Art & Design website (<http://art.csusb.edu>)

CSUSB's Department of Art & Design offers outstanding teaching in Art History, Design, Art Education, and Studio Art at both undergraduate and postgraduate levels. Housed within the 100,000 sq. ft. Visual Arts Building at the San Bernardino Campus, the department has some of the best art and design making facilities in the CSU system.

The following bachelor's degrees are offered: the BA in Art History & Global Cultures, the BA in Design Studies, the BFA in Design (with concentrations in 3D, Interface Design, Motion Graphics, and Marketing), the BA in Visual Art Studies, the BA in Art (with concentrations in Studio Art & Art Education), and the BFA in Art (with a concentration in Studio Art).

We also offer an MA in Art and an MFA in Studio Art. The MA in Art is a 30-unit degree for those interested in further development of their studio practice. The MFA in Art, a 3-year, 60-unit degree, is the terminal degree for the field, and requires the mounting of an exhibition of artwork as the culminating experience. Those with an MFA can also teach at the University level.

In the studio arts degrees, we have specialized workshops and studios for painting, drawing, ceramics, glassmaking, photography, sculpture, illustration, wood, and furniture design, as well as printmaking and digital electronic fabrication.

The design degrees cover a broad range of design sub-disciplines, including graphic design (also known as interface design), web design, UX/UI (user-experience/user-interface) design, 3D modelling, virtual and augmented reality design, motion graphics and video editing design, or students can study design in tandem with marketing. The design studios and workshops are equipped with iMacs and digital electronic fabrication tools (such as large-scale color printers, plotters, 3D printers, 3D scanners, laser cutters, and CNC routers) to prepare students for the diverse and rapidly changing design universe.

The art history degree is for those students wishing to move into careers in museums, galleries, archives and other arts organizations or to pursue graduate study. The art history classes also feed into all our other teaching, bringing rigorous research, analysis and contextualization skills to every artist and designer in our department to help develop all types of scholarly and creative professional practices.

A long-standing collaboration with the College of Education on campus also sees the art education area creating innovative, skilled, and thoughtful K-12 teachers for our community as well as a whole host of other collaborations with community partners, giving our students the

opportunity to become life-long educators, community leaders, and arts activists.

The Department of Art & Design also has a long partnership with RAFFMA, the campus museum, which hosts a year end, juried student exhibition of art and design work. Students can also opt to exhibit their work and curate exhibitions in some of the galleries and exhibition spaces throughout the Visual Arts Building.

Students in our department also benefit from access to The Visual Resource Center (room VA208, and online at Visual Resource Center website (<https://www.csusb.edu/visual-resource-center/>)). The VRC has a wealth of study materials for the study of art and design, both in hard copy form and many more online resources specially chosen for the department's curricula. Also, the VRC is home to the Innovative Materials Collection, from which students can learn about new materials for art and design making of any kind by handling and researching the samples of materials.

Studio and design courses meet typically for five hours per week, while art history courses meet for three hours per week. The workshops and studios are open from 8am to 10pm through the week, and for 6 hours on Saturdays, so students can continue working on their projects outside of class time. Field trips are mandatory in most art history courses and many studio art and design courses. Materials fees are required in all courses in the department.

Departmental Honors

To be awarded Honors in Art & Design, a student must:

1. Achieve a university grade point average of 3.25;
2. Achieve a grade point average of 3.5 in the major;
3. In special circumstances, the department may grant honors to students who fail to meet some or all the above requirements but have in some other way demonstrated exceptional achievement in the field of art & design. In these cases, the student must be recommended by three faculty, at least one of whom is in their area of specialization.

Students who meet criteria #1 and 2 will automatically be notified that they will be receiving an honors designation. For those interested in receiving honors who do not meet criteria #1 and 2, the student must initiate the process by making a formal application to the Department of Art & Design prior to their final term of study.

Master of Arts in Art

(Program Code: ARSA)

The Master of Arts is designed to provide opportunities for further study in one or more of the various studio areas within the Department of Art and Design. The objectives of the program are to foster the artistic growth and competence of the individual, to provide the preparation for a professional career in the visual arts, and to provide a basis for further graduate study in the field.

Admission to the Program

In addition to the general requirements of the university, specific requirements for admission to classified graduate standing are:

1. A baccalaureate degree from an accredited institution with a minimum of 30 semester units of upper-division art courses comparable to

those required of a major in art at this university. The Department of Art and Design determines which courses are comparable.

2. Completion of a minimum of 12 semester units of upper-division studio art.
3. Completion of a minimum of 9 semester units in art history with a minimum of 3 that are upper-division units.
4. A grade point average of 3.0 ("B") or better in all art courses taken.
5. Admission to the program will additionally be based upon evaluations by the Department of Art and Design graduate committee of the following items:
 - a. A portfolio displaying a comprehensive body of work with strong technical abilities and potential for a clear direction in graduate study. A portfolio consists of 15 images of the applicant's artwork in the form of a single PDF. The portfolio needs to be accompanied by a typed list of artworks with the applicant's name, and title, medium, size and date for each artwork.
 - b. A 500 word "Statement of Purpose" describing the conceptual and technical aspects of the artwork and the applicant's reason for seeking graduate studies in art. This statement should also demonstrate applicant's knowledge of historical and contemporary art in relation to their work. This statement should be carefully crafted and will also be used to evaluate the student's writing ability and critical thinking skills.
 - c. Optional three letters of recommendation supporting the student's application. Letters should be from professionals and/or educators in the field able to assess the student's competence and to make relevant comments on the student's likely success in a graduate art program.

Applicants who have satisfied the general requirements for admission, but who have deficiencies in prerequisite preparation which can be met by specified additional preparation may be admitted to the program with conditionally classified standing. Deficiencies must be made up as early in the program as possible, normally within the first 9 units after conditional admission.

Applications to the M.A. in Studio Art program are reviewed once a year. Contact the Department of Art and Design Graduate Coordinator for further information.

Advancement to Candidacy

Candidacy denotes that the student is fully qualified to complete the final stages of the Master of Arts program in Art, and complete their Master's Project in the form of a culminating portfolio submission. To be formally advanced to candidacy, the student must have:

1. Completed 12 units of graduate coursework, with a GPA of 3.0 (B) or better.
2. Successfully completed an advancement review conducted by the Department of Art and Design Graduate Coordinator in consultation with the Department Graduate Committee.

Requirements for Graduation

1. A minimum of 30 semester units of approved graduate-level work, with at least 21 completed at this university;
2. A GPA of at least 3.0 ('B') in all courses taken;
3. Submission of a portfolio and documentation of the project approved by the Department of Art and Design Graduate Coordinator and the Department Graduate Committee.

4. Any general requirements not cited above and noted in Graduate Degree and Program Requirements (p. 71).

Degree Requirements (30 units)

6 units each of:	12
ART 6610	MA Graduate Studio in Art
ART 6612	MA Graduate Critique
ART 6630	Graduate Seminar in Professional Practices
ART 6685	Master's Project in Art- MA
Six units of upper division Art History (AH) coursework.	6
Six units of electives and/or independent study appropriate to the student's goals. Courses may be chosen from upper-division and graduate offerings of any department in the university subject to prior approval by the Department of Art & Design Department Graduate Coordinator.	6
Total Units	30

The Culminating Experience is expressed by the Master's Project, a submission of a portfolio and documentation of the project approved by the Department of Art and Design Graduate Coordinator.

Master of Fine Arts in Studio Art

The Master of Fine Arts in Studio Art provides rigorous study for students with a strong direction and focus in art and a high level of technical proficiency. The program provides advanced study and practice in preparation for professional careers in studio art or teaching in higher education. Graduates will be prepared to take their place in the visual arts community and make significant contributions to our visual culture. The program focuses on creative studio work, supplemented by art history and theory, professional and critical writing, graduate studio critiques, professional development, studio electives and/or independent study.

Admission to the Program

In addition to the general requirements of the university, specific requirements for admission to classified graduate standing are:

1. A baccalaureate degree from an accredited institution with a minimum of 30-semester units of upper-division art courses comparable to those required of a major in art at this university. The Art Department determines which courses are comparable.
2. Completion of a minimum of 14-semester units of upper-division studio art.
3. Completion of a minimum of 14-semester units in art history; a minimum of 5 should be upper-division units, and at least one course that is equivalent to AH 4250 and/or AH 5250.

4. A grade point average of 3.0 ("B") or better in all art courses taken.
5. Admission to the program will additionally be based upon evaluations by the Art Department graduate committee of the following items:
 - a. A portfolio displaying a comprehensive body of work with strong technical abilities and potential for a clear direction in graduate study. A portfolio consists of 15 images of the applicant's artwork in the form of a single PDF. The portfolio needs to be accompanied by a typed list of artworks with the applicant's name, and title, medium, size, and date for each artwork.
 - b. A 500-word "Statement of Purpose" describing the conceptual and technical aspects of the artwork and the applicant's reason for seeking graduate studies in art. This statement should also demonstrate the applicant's knowledge of historical and contemporary art in relation to their work. This statement should be carefully crafted and will be used to evaluate the student's writing ability and critical thinking skills.
 - c. Three letters of recommendation to support the student's application. Letters should be from professionals and/or educators in the field able to assess the student's competence and to make relevant comments on the student's likely success in a graduate art program.

Applicants who have satisfied the general requirements for admission, but who have deficiencies in prerequisite preparation that can be met by specified additional preparation may be admitted to the program with conditionally classified standing. Deficiencies must be made up as early in the program as possible, normally within the first 8 units after conditional admission.

They will be advanced to classified standing when the Art Department graduate coordinator certifies that they have satisfied all appropriate requirements.

Applications to the M.F.A. in Studio Art program are reviewed annually for Fall admission. There are two admission applications, one to the University (primary application) and one to the Art Department (secondary application). The secondary application deadline is January 15. Please note that this may differ from University application deadlines. The secondary application, when the portal is live, can be submitted here:

<https://csusb.infoready4.com/CompetitionSpace/#homePage>

Contact the Art Department graduate coordinator for further information.

Graduate Teaching Assistantships

Students interested in university teaching are encouraged to apply for a Graduate Teaching Assistantship. This competitive program offers first and second-year students teaching assistant opportunities with professors in the lower-division studio and foundation courses. After the practicum (and ART 6630) is successfully completed, the second and third-year students have the opportunity for a paid position as a Teaching Associate, pending adequate enrollment.

Advancement to Candidacy

Candidacy denotes that the student is fully qualified to complete the final stages of the Master of Fine Arts in Studio Art program and is thus eligible to enroll in ART 6695 Master's Project in Studio Art. To be formally advanced to candidacy, the student must have:

1. Completed the Writing Requirement for Graduate Candidacy (WRGC) which is the successful completion of ART 6617 with a grade of 'B' or better.
2. Achieved classified status.
3. Been accepted by an advisor to supervise the course of study.
4. Completed, with the approval of the Art Department graduate coordinator, at least 20-semester units of applicable course work at this university, and achieved a minimum grade point average of "B" (3.0) or better.
5. Successfully completed an advancement review conducted by the Department of Art graduate committee and graduate coordinator.
6. Filed a program of graduate course work prepared in consultation with the student's advisor and approved by the Art Department graduate coordinator.

Requirements for Graduation

1. A minimum of 60-semester units of approved graduate-level work, with at least 42 completed at this university.
2. A GPA of at least 3.0 ("B") in all courses taken to satisfy the Master of Fine Arts degree requirements.
3. Completion and exhibition of an acceptable project, and submission of a report and documentation of the project approved by the student's graduate committee and the Art Department graduate coordinator.
4. The Graduation Writing Assessment Requirement is met upon successful completion of the extensive written artist statement that is developed in ART 6630 and that accompanies the Master's Project in ART 6695.
5. Any general requirements not cited above for graduate degrees and noted in Graduate Degree and Program Requirements (p. 71).

Bachelor of Arts in Art

A liberal arts degree based in a broad program of general studies with 2 areas of concentration: Art Education and Studio Art. The Art Education concentration is designed for students who wish to pursue teaching at the K-12 level, art activism, nonprofit leadership, and community arts. The concentration in Studio Art offers a breadth of artistic exposure and experiences for the student with a strong professional interest in art who may wish to pursue graduate studies.

Bachelor of Arts in Art History and Global Cultures

(Program Code: AHGC)

The study of art history equips and empowers students with acute visual literacy, tools for intellectual discovery, and deep understanding and mastery of the political and social significance of art in the global and historical context (including contemporary art and design produced in diverse cultures) through introduction and implementation of research and scholarship.

The BA in Art History & Global Cultures prepares and qualifies students for meaningful and rewarding careers after university, in such areas as gallery and museum occupations, archives and libraries of the visual arts, non-profit arts organizations, governmental and NGO arts funding bodies, arts journalism and communications, advertising and marketing industries, as well as preparing many students for post-graduate study in art history and related fields.

Requirements (48-50 units)

Bachelor of Arts in Design Studies

The Bachelor of Arts in Design Studies is a flexible program that teaches students how to use design for communication and problem-solving. This degree allows students to explore other subjects they're interested in alongside design. In this program, students learn to create meaningful design work in different areas, such as branding, graphic design, illustration, animation, 3D design, and user interface/user experience (UI/UX) design.

Students can choose from various design courses to shape their education. They learn both the theory and practice of design, as well as its history and cultural impact. This degree prepares students for many different careers and helps them develop design skills that can be useful in other jobs. Students learn to think critically, be creative, and design responsibly in today's changing world. Graduates of this program understand how design works in society. They can use their skills to solve problems and communicate ideas effectively in many fields.

Bachelor of Arts in Visual Art Studies

This program is designed for students with a general interest in the studio arts, who may want to also pursue coursework in other areas.

Requirements (36)

Total units required for graduation: 120

Requirements for the B.A. in Visual Art Studies

(Program Code: VAST)

Lower Division Studio Requirements (21)

Choose three foundation courses from the following list: 9

ART 1120	2D Foundation: Line, Color and Composition
ART 1130	3D Foundation: Form, Space & Time
ART 1140	Creative Technology for Artists
ART 1150	Language of Art
ART 1160	Introduction to Drawing and Life Drawing

Choose 2 beginning courses for a total of 6 units: 6

ART 2240	Beginning Imaging and Illustration
ART 2260	Beginning Photography
ART 2290	Beginning Painting
ART 2320	Beginning Ceramics
ART 2330	Beginning Glass
ART 2350	Beginning Sculpture

Art History. Choose two lower-division Art History course from: 6

AH 1103	Art History Methodologies 1
AH 1104	Art History Methodologies 2
AH 1120	Globalization, Art, and Visual Culture
AH 1221	Art History Foundations 1
AH 1222	Art History Foundations 2

Upper Division Studio Requirements: (12)

Choose 2 core intermediate level courses. 6

ART 3160	Intermediate Drawing and Life Drawing
ART 3240	Intermediate Imaging and Illustration
ART 3260	Intermediate Photography
ART 3290	Intermediate Painting
ART 3320	Intermediate Ceramics
ART 3330	Intermediate Glass
ART 3350	Intermediate Sculpture

Choose 2 upper division level courses; one must be 4000 level. 6

ART 3000	Art and Activism
----------	------------------

ART 3270	Printmaking
ART 3370	Woodworking and Furniture Design
ART 3430	Digital Fabrication: Functional Art/ Object Design 1
ART 3520	Socially-engaged Art
ART 3700	Public Art
ART 3710	Video Art
ART 3720	Performance Art
ART 3730	Installation Art
ART 3740	Visiting Artist Residency: Collaborative Production & Exhibition Practice
ART 3760	Border Art
ART 3780	Special Topics in Art
ART 4160	Advanced Drawing and Life Drawing
ART 4240	Advanced Imaging and Illustration
ART 4260	Advanced Photography/Video Studio
ART 4270	Advanced Printmaking
ART 4290	Advanced Painting
ART 4320	Advanced Ceramics
ART 4330	Advanced Glass
ART 4350	Advanced Sculpture
ART 4370	Advanced Woodworking and Furniture Design
ART 4430	Digital Fabrication: Functional Art/ Object Design 2

Senior Capstone (3)

ART 5500	Undergraduate Professional Practices	3
----------	--------------------------------------	---

Total Units **36**

Bachelor of Fine Arts in Art

The Bachelor of Fine Arts is a degree that allows for protracted and thorough creative study and practice in the art studio. Students will be exposed to a broad repertoire of contemporary art practices and have the option of specializing in certain studio art areas. The degree is designed for those wanting to develop a professional practice in the studio art. The culminating experience is an exhibition of artwork.

All incoming majors will be enrolled in the BA in Art. If students are interested in enrolling in the BFA in Art degree, they should contact a full-time faculty member to make arrangements for a portfolio review in their third year, or in their first semester of residency for transfer students, after the student has successfully completed all lower division requirements (or its equivalent) with a GPA of 3.0 or better. Once accepted into the BFA in Art, a *Change of Major* will be filed with the Office of the Registrar.

Requirements (77)

Total units required for graduation: 132

Requirements for the B.F.A. in Art

Lower Division requirements: (36)

Foundation Requirements		
ART 1120	2D Foundation: Line, Color and Composition	3
ART 1130	3D Foundation: Form, Space & Time	3

ART 1140	Creative Technology for Artists	3
ART 1160	Introduction to Drawing and Life Drawing	3
Art History. Two lower division art history courses.		
Choose one from:		3
AH 1103	Art History Methodologies 1	
AH 1104	Art History Methodologies 2	
And choose one from:		3
AH 1221	Art History Foundations 1	
AH 1222	Art History Foundations 2	
Studio Art lower division requirements. Choose 5 from the following lower division studio courses:		15
ART 2240	Beginning Imaging and Illustration	
ART 2260	Beginning Photography	
ART 2290	Beginning Painting	
ART 2320	Beginning Ceramics	
ART 2330	Beginning Glass	
ART 2350	Beginning Sculpture	
Plus, choose one of the following:		3
ART 2329	Xicanx Art	
ART 3760	Border Art	
Upper Division requirements: (41)		
AH 3250	Topics and Themes of Art History and Exhibitions	3
AH 4250	Art History Seminar	3
ART 4500	Advanced Art Laboratory	2
ART 5500	Undergraduate Professional Practices	3
ART 5510	BFA Project	3
Choose 5 intermediate level studio art courses:		15
ART 3000	Art and Activism	
ART 3160	Intermediate Drawing and Life Drawing	
ART 3240	Intermediate Imaging and Illustration	
ART 3260	Intermediate Photography	
ART 3270	Printmaking	
ART 3290	Intermediate Painting	
ART 3320	Intermediate Ceramics	
ART 3330	Intermediate Glass	
ART 3350	Intermediate Sculpture	
ART 3370	Woodworking and Furniture Design	
ART 3430	Digital Fabrication: Functional Art/ Object Design 1	
ART 3520	Socially-engaged Art

Minor in Video and Photography

The Minor in Photography and Video provides students the technical, creative, and analytical skills to develop original photography and video work for fine art and/or commercial applications. Students will develop skills in photo/video production, studio lighting, editing, printing, publishing, and other forms of presentation and distribution. This minor will be of interest to students interested in producing photographic content and entering the fields of photography, videography, editing, audiovisual communication, and other related fields. Students from other disciplines such as the performing arts, anthropology, entrepreneurship, marketing, and communications may also benefit from the skills offered in this program.

Certificate in Arts and Entrepreneurship

This Certificate program will support learning about the integration of arts practice and entrepreneurship, including how to start an independent arts business and bringing creativity to the process of entrepreneurship. It will serve the needs of students in the College of Arts and Letters and the Jack H. Brown College of Business and Public Administration. Art students will benefit from knowledge about entrepreneurship and Business students will benefit from increased creativity. The Certificate entails 24 units.

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 6000-level courses as requirements and/or electives. These 6000-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Certificate in Art and Restorative Justice

This certificate will explore the integration of the arts and restorative justice from a multidisciplinary perspective. This will serve the needs of students in multiple colleges and departments, including Art, Criminal Justice, Psychology, Anthropology, and Sociology by providing a prescribed set of courses to explore the intersections of the arts and humanities with social justice. Students will gain experience in a growing field through the practice of research, theory, and applied practice. The certificate is comprised of 24 units.

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or

Department of Communication & Media

University Hall, Room 018

(909) 537-5815 Department of Communication & Media website
(<http://communication.csusb.edu>)

Defined as "the creation, transmission and evaluation of messages," communication is a multifaceted discipline combining both academic and professional interests.

Through courses in communication, students learn to describe, interpret and evaluate the communication processes as they occur within and among individuals, groups, organizations and societies. Students explore problems in diverse media (platform, conference, print, radio, television, film, digital media), settings (family, industrial, professional, governmental) and contexts (racial, cultural, international).

The educational objectives established for the degree program in communication are the following terminal competencies: understand relationships between symbols and culture, discover information from its sources, describe characteristics of potential audiences, translate information into an audience's conceptual framework, transmit information/messages clearly in media appropriate to the audience, evaluate messages and their effects on audiences and appreciate the ethics of communication.

By the mid-1980s more than half of the country's gross national product was spent on information products and services. Communication is the means by which information is shared. The growth of communication studies reflects, in part, a growing technology permitting spoken language to move from the forum of Greece to the surface of the moon and around the planet in mere moments.

Communication majors enter careers in business and industry, government and social services, education, media and the professions in positions of public relations, marketing, teaching, sales, media production, writing, personnel, on-air media, advertising and training. Men and women across the ages have testified how the study of communication aided their personal and professional lives, whether they be persuaders, conciliators, diplomats, teachers and scholars, or researchers.

In today's world of changing and integrated communications technology, the department's curriculum reflects the belief that communication should be studied as a single discipline integrated into the liberal arts. Practica and internships support but do not substitute for a sound theoretical base. Internships are available on and off campus in the full range of communication professions.

Departmental Honors

Students majoring in communication are eligible to receive honors in communication at graduation if the following conditions are met:

1. At least one-half of the course work required by the major is completed at this university;
2. At least a 3.5 grade point average in the major;
3. An overall grade point average of 3.5 or better;
4. An independent study course that culminates in a research presentation to the department;
5. Recommendation for departmental honors by the Communication Studies faculty.

Students interested in this recognition must file a formal application with the department and enroll in an Independent Study at least one semester prior to graduation.

Master of Arts in Communication Studies

The Master of Arts in Communication Studies is designed for students who wish to advance from this degree to further graduate work and for those wishing to apply advanced communication perspectives, methodologies, and competencies in their careers.

Admission to the Program

Applicants must fulfill all the general requirements for admission to graduate studies at this University. The program welcomes applications from international students and advises them to review the program's English language proficiency requirements (see D. below).

To be admitted to the graduate program in Communication Studies:

The applicant must submit to the Graduate Admissions Office (in addition to all other required materials):

1. Three letters of recommendation attesting to the applicant's character, academic aptitude, accomplishments, and potential for success at the graduate level. Applicants are encouraged to secure letters of recommendation from former faculty. Letters from other individuals who can attest to the applicant's potential for success in graduate school are also welcome.
2. A 5- to 10-page sample of academic or professional writing; and

3. A one- to two-page, single-spaced essay describing: the applicant's interests in Communication Studies; their motivation for pursuing a Master's degree; why they are applying to CSUSB's M.A. in Communication Studies, specifically; and how graduate study will help them achieve their personal and/or professional goals.

Note: If the applicant wishes to be considered for a Graduate Teaching Associateship, the applicant must also submit:

1. a curriculum vitae or resume; and
 2. a one-page statement of intent outlining related experience along with the other application material.
- B. The applicant must have completed 6-semester units of undergraduate classes in communication theory and communication research methods, or their equivalents
- C. The applicant must have earned an undergraduate grade point average of 3.0 overall and/or 3.0 for the last 60 semester units or 90 quarter units of undergraduate work. In exceptional cases, students with a GPA below 3.0 will be considered. Please contact the graduate coordinator.
- D. International students must have received a minimum score of: 550 on the TOFEL Paper-Based Exam; 79 on TOFEL iBT; or 6.0 on IELTS Indicator Overall.

Applicants may also be asked to interview with the program coordinator or graduate committee.

Successful applicants are admitted to the program as conditionally classified graduate students. Advancement to classified status is conditional upon the completion of all prerequisites, as well as completion (after admission) of the following course with a grade of "B-" or higher:

COMM 6000	Introduction to Graduate Study	3
-----------	--------------------------------	---

Graduate Associateships

A limited number of graduate associateships are available, on a competitive basis, for students who wish to pursue the degree full-time. Interested applicants should contact the graduate coordinator in the Department of Communication Studies for further information.

Advancement to Candidacy

1. During the first semester of enrollment, the student shall, with the consent of the faculty member chosen and the approval of the graduate coordinator, select an advisor.
2. Prior to completion of 12 units, the student and advisor shall form the student's graduate advisory committee. The committee shall consist of the advisor and two faculty members, one of whom may be from a related discipline. The committee shall function to:
 - a. approve the student's program of study;
 - b. compose and evaluate the student's comprehensive examination (if applicable); and
 - c. evaluate and approve the student's thesis or project (if applicable).
3. Upon establishing the committee, and prior to completion of 15 units, the student shall forward for the committee's approval a plan of study listing coursework to be taken and the culminating experience chosen to complete the degree. The plan of study should reflect some unifying theme.

4. Upon approval of the plan by the advisory committee, the program of study shall be sent to the graduate coordinator for departmental approval resulting in advancement to candidacy.

Requirements for Graduation

1. Students must complete an approved program of 30 units with a minimum overall grade point average of 3.0 at this university.
2. Students must receive a "B-" or higher in all required courses.
3. No more than 6 units at the 4000- or 5000-level may count towards the degree. Courses at the 1000, 2000, and 3000 level may not count toward the degree.
4. No course may be counted for which a grade of "C-" or less was received.
5. The student is responsible for fulfilling all other requirements for graduation established by the Graduate Studies Office.

Degree Requirements (30 units)

(Program Code: COMS)

Note: Students must receive a grade of "B-" or higher in all required courses.

Required/Core Courses (12)		12
COMM 6000	Introduction to Graduate Study	
COMM 6001	Theoretical Perspectives in Communication Studies	
COMM 6002	Quantitative Research Methods in Communication Studies	
COMM 6003	Qualitative Research Methods in Communication Studies	

Electives (12-15)

Students choose from the following elective courses. Those completing a Master's thesis or graduate project as their culminating experience choose 12 elective units. Those completing a comprehensive examination choose 15 elective units.

Students choose their elective courses with the advice and approval of their advisory committee and the graduate coordinator. In doing so, all parties are strongly encouraged to include 6000-level Communication Studies courses in the student's plan of study, if feasible and appropriate. These courses have been specifically developed for graduate students pursuing the Master of Arts in Communication Studies.

Students may, with the approval of the advisory committee and the graduate coordinator, substitute up to six total units of course work from disciplines other than Communication Studies. Students cannot apply to this degree any course previously applied to another degree or track.

Culminating Experience (0-3)		0-3
Total Units (30)		30

Culminating Experience (0-3 units)

Students will choose one of the following culminating experiences to complete their program.

Comprehensive Examination Option (0 units)

Students may, with the approval of their advisory committee and graduate coordinator, fulfill the culminating experience requirement through a comprehensive examination. The examination tests the student's mastery of perspectives and competencies in the core curriculum as well as those associated with the individual student's program of study. The examination will be developed and evaluated by the student's advisory committee, administered during the student's final semester in residence, and carry **no academic credit**. Students choosing this option must take 15 units of electives and register for:

COMM 6980	Comprehensive Examination	0
-----------	---------------------------	---

Thesis Option (3 units)

Students may, with the approval of their advisory committee and the graduate coordinator, fulfill the culminating experience requirement by developing and executing an original research project designed to extend or apply our understanding of communication in important and unique ways. The proposal must be approved by the advisory committee, and filed with the Graduate Coordinator. The student will make a public defense of the thesis during the last semester of residence. The completed thesis must be approved by the advisory committee and the Dean of the Graduate School. Students choosing this option must take 12 units of electives and register for:

COMM 6973	Thesis	3
-----------	--------	---

Project Option (3 units)

Students may, with the approval of their advisory committee and the graduate coordinator, fulfill the culminating experience requirement by developing and executing a project with a significant written component. The project shall be developed between the student and the advisor. The proposal must be approved by the advisory committee, and filed with the Graduate Coordinator. The written component of the project must follow specified guidelines, be approved by the advisory committee, and will be presented publicly during the student's last semester in residence. The completed project must be approved by the advisory committee and the Dean of Graduate Studies. Students choosing this option must take 12 units of electives and register for:

COMM 6963	Graduate Project	3
-----------	------------------	---

Bachelor of Arts in Communication

Communication and media shape the ways we understand and interact in our social worlds. The 45-unit Bachelor of Arts in Communication degree helps students develop valuable communication understandings and skills through a deep, practical, timely, and relevant curriculum. Five core courses expose students to major communication institutions and processes, theoretical perspectives and research techniques for studying those phenomena, and career pathways and ethical considerations for communication professionals. Students deepen these understandings and sharpen their skills by specializing in one of three concentrations: Relational and Organizational

Communication, Media Studies, and Strategic Communication. Further, a wide range of Experiential Learning courses gives students hands-on experience in communication and media practices to prepare them for their careers. Together, this mix of theory and practice prepares students for a lifetime of personal, civic, and professional communication, including careers in various fields, such as: human resources, training and development; journalism, broadcasting, and filmmaking; digital/social media strategy and management; strategic communication for corporations, non-profits, and government entities; and many others.

Requirements (45 units)

Total units required for graduation: 120

Requirements for the B.A. in Communication

Core course requirements (15)

COMM 2101	Introduction to Communication Studies	3
COMM 3101	Communication, Self, and Others	3
COMM 3102	Media, Culture, and Society	3
COMM 4101	Communication Research Methodology	3
COMM 4102	Ethical Aspects of Communication	3

Experiential Learning requirements (6)

Students choose six units from at least two of the following experiential learning courses. In these courses, students apply Communication theories and practices in supervised, "hands-on" activities, and they reflect on those experiences. 6

Students can only apply six experiential learning units toward the B.A. in Communication; however, additional experiential learning units may contribute to a minor (where applicable), or to a student's general graduation requirements (120 units).

Experiential learning courses may not be used as elective units, either in the B.A. in Communication or its respective concentrations.

COMM 2291	Practicum in Relational and Organizational Communication	
COMM 2292	Practicum in Mentoring	
COMM 2293	Practicum in Intercollegiate Forensics: Coyote Debate	
COMM 2391	Practicum in Multimedia Journalism: Coyote Chronicle

COMM 4293	Advanced Practicum in Intercollegiate Forensics: Coyote Debate	
COMM 4391	Advanced Practicum in Multimedia Journalism: Coyote Chronicle	

COMM 4392	Advanced Practicum in Digital Audio and Radio: Coyote Radio	
COMM 4393	Advanced Practicum in Television Journalism Production: Local Matters	
COMM 4491	Advanced Practicum in Strategic Communication: Coyote PR	
COMM 4492	Advanced Practicum in Advertising: National Student Advertising Competition team	
COMM 4592	Advanced Practicum in Communication Research	
COMM 5792	Internship in Communication	
COMM 5793	Internship in Communication	
COMM 5794	Internship in Communication	
COMM 5892	Communication Teaching Shadowship	

Electives (6)

In addition to the Communication core, experiential learning, and concentration coursework, students choose six elective units in COMM coursework to broaden and deepen their understandings of communication processes. 6

Students can only apply six elective units toward the B.A. in Communication; however, additional elective units may contribute to a minor (where applicable), or to a student's general graduation requirements (120 units).

Elective courses should be chosen in consultation with an advisor and, in the case of non-departmental electives, the approval of the chair. COMM 1000, 1002, 1006, and 1007 may not be applied toward the B.A. in Communication.

Three of the six elective units must be upper division.

Concentration (18)

A minimum of 18 units from one of the following concentrations below to be chosen in consultation with an advisor. 18

Total Units 45

Note: Transfer students from a California community college who earned an appropriate Associate Degree for Transfer (AA-T or AD-T) in communication may complete the B.A. in Communication by selecting any of the three concentrations.

Concentrations (18 units)

Relational and Organizational Communication Concentration (18 units)

(Program Code: CMRO)

Total Units 18

Specialized Concentration (18 units)

(Program Code: CMSP)

Students may propose a unique, individualized and specialized 18-unit concentration if the proposed concentration is viable and if it fulfills objectives that cannot be met through one of the other Communication Studies concentrations (e.g., Media Studies, Relational and Organizational, and Strategic Communication). To be eligible for the Specialized Concentration, students must complete a proposal (pre-generated questions) for their program plan, including all the communication courses that they intend to take in the concentration and a rationale for the course of study. The proposal will be reviewed by a Communication Studies faculty advisor before a student can be approved for this concentration. Before declaring this concentration, a student must have completed the following core classes: COMM 2101, COMM 3101, and COMM 3102. Only 9 units of Communication Studies course work completed prior to such approval can be applied toward the specialized concentration. Importantly, not intended to bypass normal graduation requirements or to avoid certain requirements of a regular concentration offered by the department.

The Specialized Concentration Proposal Form can be located on the Department of Communication Studies website under FAQs: <https://www.csusb.edu/communication-studies/graduate/frequently-asked-questions-0> (<https://www.csusb.edu/communication-studies/graduate/frequently-asked-questions-0/>)

Minor in Digital Filmmaking

The Minor in Digital Filmmaking provides students with the theory and practice of television studio production, digital video editing, screenwriting, and single-camera digital filmmaking. Students in the minor will gain a deep understanding of how to write, produce, direct, and edit the moving image. While the focus is digital filmmaking, these skills easily translate into other sound/image practices such as television and online technologies. Digital Filmmaking students typically pursue careers in film, television, multimedia journalism, and public relations.

Requirements for a minor in Digital Filmmaking (20 units)

Required courses (17)

COMM 2351	Television Studio Production	4
COMM 3351	Introduction to Digital Video Editing	3
COMM 3353	Digital Video Field Production	4
COMM 4355	Digital Filmmaking I	3

Elective course (3)

COMM 3335	Visual Communication	3
or COMM 3354	Fundamentals of Screenwriting	

Total Units **20**

Minor in Media Studies

In the Minor in Media Studies, students gain understandings and skills for navigating and participating and working in our increasingly mediated social and cultural worlds. Media Studies students develop media literacies, theoretical and critical competencies, aesthetic and ethical sensibilities, and media production skills. The Minor's focus is on four main areas of theory and practice: (1) media studies, including media

institutions, representations, uses, and effects; (2) film studies, including motion picture history, film aesthetics and analysis, and global cinema studies; (3) digital production, including digital filmmaking, and television and radio production; and (4) multimedia journalism, including newswriting and reporting, and the integrative use of audio, video, photography, text, and interactive tools for storytelling. In addition to using media for personal, social, and civic purposes, Media Studies students typically pursue careers in journalism, broadcasting, filmmaking, or digital/social media, or they continue their education in graduate programs.

Requirements for a minor in Media Studies (18 units)

Core requirements (6)

COMM 3102	Media, Culture, and Society	3
COMM 3301	Media Institutions in Context	3

Total Units 21-25

Minor in Relational and Organizational Communication

The minor in Relational and Organizational Communication enables students to engage in focused study of specific areas of communication studies including interpersonal, family, organizational, conflict, and intercultural communication. Students will complete nine units of core courses (Intercultural, Relational, and Organizational Communication), and will select nine units of concentration electives. The electives introduce students to both communication theory and praxis while preparing them for the professional world. This minor may be appropriate for students interested in honing their communication skills and deepening their understanding of relational and organizational communication.

Requirements for a minor in Relational and Organizational Communication (18 units)

Core Courses (9)

COMM 2201	Intercultural Communication	3
COMM 4202	Relational Communication	3
COMM 4203	Organizational Communication	3

Elective Courses (9)

Nine units selected from the following: 9

COMM 2231	Small Group Communication	
COMM 2251	Fundamentals of Interpersonal Communication	
COMM 2291	Practicum in Relational and Organizational Communication	
COMM 2293	Practicum in Intercollegiate Forensics: Coyote Debate	
COMM 3211	Business and Professional Communication	
COMM 3212	Persuasion	
COMM 3227	Topics in Relational and Organizational Communication	
COMM 3230	Nonverbal Communication	
COMM 3231	Communication for Training Programs	
COMM 4211	Communication and Gender	
COMM 4222	Communication and Conflict	
COMM 4231	Classroom Communication	
COMM 4241	Interviewing	
COMM 4291	Advanced Practicum in Relational and Organizational Communication	
COMM 4293	Advanced Practicum in Intercollegiate Forensics: Coyote Debate	
COMM 5222	Mediation Theory and Practice	
COMM 5267	Advanced Topics in Relational and Organizational Communication	
COMM 5280	Culture and Ethnicity in Language	

No more than 4 Experiential Learning units (i.e. units from COMM 2291, COMM 2293, COMM 4291, or COMM 4293) may be applied toward the minor in Relational and Organizational Communication. In addition, Experiential Learning units that applied toward a major in Communication Studies may not count toward the minor in Relational and Organizational Communication.

Total Units

18

Minor in Strategic Communication

Strategic communication involves the identification, establishment, and maintenance of mutually beneficial relationships between an organization and the various publics on whom it depends. The Minor in Strategic Communication prepares students in both traditional and digital communication skills, thereby readying them for careers in the global workforce.

Requirements for a minor in Strategic Communication (18 units)

Required Courses (15)

COMM 2301	Newsriting and Reporting	3
COMM 3401	Introduction to Strategic Communication	3
COMM 3402	Writing for Public Relations	3
COMM 4401	Strategic Communication Campaigns	3
COMM 5401	Crisis Communication	3

Elective Course (3)

Three units chosen from: 3

COMM 3403	Business Literacy for Strategic Communication	
COMM 3419	Topics in Strategic Communication	
COMM 5419	Advanced Topics in Strategic Communication	
ECON 2201	Principles of Microeconomics	
MKTG 3050	Marketing Principles	
ADMN 1500	Introduction to Administration	
ENTR 3000	Entrepreneurship and Innovation	
MGMT 3900	Principles of Strategy	

Total Units

18

Certificate in Social Media Entrepreneurship and Innovation

Requirements (24 units)

Offered online through the College of Extended Learning

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or

3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 6000-level courses as requirements and/or electives. These 6000-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Certificate Requirements (18 units)

COMM 3305	Digital Media and Society	3
COMM 5302	Communication Law and Policy	3
COMM 5311	Fundamentals of Social Media Management	3
COMM 5312	Political Economy of Social Media Communication	3
COMM 5313	Audience Analysis in Social Media	3
COMM 5314	Social Media for Social Good	3
Total Units		18

Department of English

University Hall, Room 334

(909) 537-5824 Department of English website (<http://english.csusb.edu>)

Like English departments in most colleges and universities, the English Department at California State University, San Bernardino is devoted to the study of literature and language. The major in English consists of a common core and five concentrations. The core provides background for more advanced courses, with offerings in English literature, American literature, analysis of particular genres, writing studies, creative writing, literary theory, and introduction to linguistics.

The Creative Writing Concentration gives students the opportunity to study and create work in a range of genres and across a variety of platforms. The Linguistic Concentration enables students to understand human language in its many facets: its history, its structure, its variation, its relationship with society and culture, and how it is acquired by children and adults. The Literature Concentration offers courses focused on particular themes, genres, authors, topics, and periods. The Rhetoric and Writing Studies Track offers students opportunities to study and practice rhetoric, writing, teaching, and literacy from a variety of theoretical perspectives and in a range of academic, public, and professional contexts. The Self-Directed Study Concentration allows students, working with a faculty advisor and with departmental approval, to combine courses into a unique program of study.

The English Department also sponsors *The Pacific Review*, a literary journal mingling professional and student contributions. Work on this journal provides excellent training for students in editorial work.

As language and culture are understood best in a global context, the English Department encourages students to participate in the California State University's International Programs (p. 13).

Departmental Honors

Students majoring in English are eligible to receive honors in English at graduation if they have:

1. Completed at least one-half of the course work required in the major at this university;
2. Earned a grade point average of at least 3.5 in all courses attempted in the major at this university;
3. Earned an overall undergraduate grade point average of at least 3.0;
4. Successfully completed ENG 5170. Honors Project.

Master of Arts in English and Writing Studies

The Master of Arts in English and Writing Studies is designed for students interested in pursuing advanced studies in the related fields of applied linguistics and teaching English as a second language, literature, composition and rhetoric, as well as English pedagogy and public and professional writing.

With its firm grounding in theory, research, and pedagogy, the M.A. in English and Writing Studies prepares students to excel as scholars, as writers, and as teachers of writing, literature, and English as a second language. The mission of the graduate program is to engage students in an exploration of how written and spoken texts work rhetorically and stylistically, as well as how historical, cultural, and social conditions affect the ways in which speakers, writers, and readers construct meaning. In addition, the program provides students with a strong foundation for pursuing a Ph.D. degree. The M.A. enables students, whatever their career path, to become socially committed, rhetorically flexible scholars, teachers and writers, well-prepared to make significant contributions in their chosen fields and communities, both local and global.

The Graduate Committee, under the leadership of the graduate coordinators, has general supervision of the program and the work of students. Students are required to consult regularly with the graduate coordinators for advising. Petitions for waiver of requirements must be approved by the graduate coordinators and the Dean of Graduate Studies when appropriate.

The B.A. in English + M.A. in English and Writing Studies 4+1 Option is a possible pathway for students who wish to complete both degrees. The B.A. in English + M.A. in English and Writing Studies provides an accelerated, time intensive pathway to the completion of the graduate degree by allowing undergraduate students to take 4 graduate level courses (12 units) while in undergraduate status. These 12 graduate level units can double count toward both the undergraduate and graduate degree requirements. Admission to the B.A. in English + M.A. in English and Writing Studies is open only to students who have a cumulative undergraduate GPA of 3.0 or an average GPA of 3.0 in undergraduate coursework in English completed at the time of the application. Students

who have a lower GPA than 3.0 may still apply and will be evaluated based on the strength of their other supporting materials. Admission must be approved by the Department of English following the C.A.P.E Scholars Program policies and procedures (Coyote Accelerated Postbaccalaureate Education). Furthermore, students who do not maintain a 3.0 GPA upon completion of the B.A. in English will not be permitted to move to graduate status and will graduate with the B.A.

Students in the B.A. in English + M.A. in English and Writing Studies 4+1 program may choose from the following three concentrations for the BA and MA.

- BA in English – Linguistics Concentration + MA in English & Writing Studies – Applied Linguistics and TESL Concentration
- BA in English – Literature Concentration + MA in English & Writing Studies – Literature Concentration
- BA in English – Rhetoric & Writing Studies Concentration + MA in English & Writing Studies – Composition and Rhetoric Concentration

Admission to the Program

The Graduate Committee cannot act on applications until they have been reviewed by the Office of Admissions and Student Recruitment and have met university admissions requirements. Please check the MA in English and Writing Studies website and/or the office of Graduate Studies for the specific schedule of application due dates for each year. The program admits students in both Fall and Spring semesters.

A student who meets all entrance requirements except one or more course prerequisites or the minimum grade requirements may be admitted to the program as a conditionally classified graduate student. Conditionally classified students must fulfill certain conditions (such as taking or retaking prerequisite courses) within a specified period of time. Prerequisite courses are not be counted toward the units required for the master's degree.

The specific requirements for admission as a classified graduate student in the English Department are:

1. Typically, a grade point average of 3.0 ("B") in all undergraduate English upper-division courses. However, a student's undergraduate GPA or score on a test does not always predict their potential for success and should not exclude them from consideration. Therefore, the MA in English and Writing Studies takes a holistic approach to the admissions process, considering a broad range of candidate qualities, including a student's personal attributes, past experiences, and future goals, and how those might contribute to a good fit with our program and its values and objectives. Moreover, we do not require or consider GRE scores for admission.
2. For applicants who do not possess a bachelor's degree from a postsecondary institution in a country where English is the principal language of instruction, the program suggests a minimum score of 575 (computer-based score of 233 or internet-based score of 90) on the Test of English as a Foreign Language (TOEFL), or a minimum score of 6.5 on the International English Language Testing System (IELTS), in order to be successful. If an applicant does not meet that score, they may request an interview for individual assessment.
3. Two letters of recommendation supporting the student's application. Letters should be from people able to make relevant comments on the student's likely success in English and Writing Studies with a Concentration in Composition and Rhetoric; Literature; Applied Linguistics and Teaching English as a Second Language; Pedagogy; or Public and Professional Writing.

4. A one-page personal statement giving a sense of who the student is and their particular interests and goals in pursuing a graduate degree. See the M.A. in English and Writing Studies website for potential prompts and tips for writing the personal statement.
5. A 5-10 page writing sample that showcases the student's ability to think critically and articulate their ideas in writing.

The M.A. in English and Writing Studies welcomes all applicants regardless of previous field of study or work. To ensure students are prepared for the rigor of graduate work in English and Writing Studies, students may be admitted "conditionally." Students who do not have an undergraduate degree in a relevant field, such as English, Linguistics, Literature, Rhetoric/Composition, TESL, Creative Writing, or Writing Studies, may take prerequisite coursework to prepare them for the program. These prerequisite courses are specified at the time of admission by the graduate coordinator and can be taken by students as they begin the MA program.

Admission to the 4+1 Option (blended) Program

In addition to the general requirements of the university, specific requirements for being invited into the English BA/MA 4+1 Option (blended) are:

1. Invitee must be a CSUSB undergraduate student with at least a junior year academic standing with at least 60 units completed;
2. Invitee must apply before the completion of 90-105 semester units;
3. Invitee must have completed at least three courses from a concentration within the Bachelor of Arts in English program with a GPA of 3.0 or higher across all three courses;
4. Invitee's overall CSUSB grade point average (GPA) should be 3.0 or higher or an average GPA of 3.0 in undergraduate coursework in English. Students who have a lower GPA than 3.0 may still apply and will be evaluated based on the strength of their other supporting materials.
5. Invitee should submit two letters of recommendation supporting their application. Letters should be from people able to make relevant comments on the student's ability to succeed in an accelerated BA/MA blended program in their chosen concentration.
6. Invitee should submit a one-page personal statement giving a sense of who the student is and their particular interests and goals in pursuing a graduate degree.
7. Invitee should submit a 5-10 page writing sample that showcases the student's ability to think critically and articulate their ideas in writing.

Students who accept invitation into the English BA/MA 4+1 program shall be designated as CAPE undergraduates until the BA is conferred. Then they will move to CAPE graduate status.

Advancement to Candidacy

To be advanced to candidacy, the student must have:

1. Achieved classified status;
2. Completed at least 12 units of coursework required by the program with a grade point average of at least 3.0 ("B");
3. Filed a program plan approved by the Graduate Coordinator.

Requirements for Graduation

1. A minimum of 30 semester units of acceptable graduate-level coursework (5000-level and 6000-level) in the formal program, with no fewer than 22 units completed at CSUSB and no fewer than 24 units completed in 6000-level courses.
2. Advancement to candidacy;
3. A grade point average of at least 3.0 ("B") in all graduate coursework fulfilling the requirements of the student's concentration, and grades of "C" (2.0) or better in all courses in the program;
4. For students in all concentrations, demonstrated minimal competence in a language other than English. Can be fulfilled by one of the options below, but note that a course taken to fulfill the language requirement cannot be applied toward any graduate degree unit requirements. After completing one of these options, students will write a brief reflection (400-500 words) about the experience and submit the reflection to their coordinator.
 - a. One semester of college course work (with a grade of A, B, C, or CR) studying a language other than English;
 - b. Attesting to fluency in a language other than English;
 - c. Meaningfully incorporating multilingual texts in the thesis project.
5. The graduation writing requirement is met upon successful completion of the thesis or comprehensive examination;
6. The program must be completed within a seven-year period. No more than seven years may elapse between the time of registration for the earliest course listed on the program and the completion of all requirements for the degree. Students who have taken any required or elective course that expires because it exceeds this seven-year limitation will be required to retake the course or its equivalent as designated by the graduate coordinator, regardless of the grade originally earned. Petitions to waive this requirement will not be approved.

Note: Students interested in pursuing dual concentrations should contact their graduate coordinator about dual concentration requirements.

Degree Requirements (30 units)

Before enrolling in courses, students should consult the course descriptions for course prerequisites.

ENG 6000	Critical Approaches to Literature	3
ENG 6090	Cultures of Research in English & Writing Studies	3
ENG 6120	Contemporary Composition and Discourse Theory	3
ENG 6150	Discourse, Cognition, and Society	3
ENG 6620	Sites of Praxis	3
Culminating Experience (3)		3
Concentration (12)		
Students must satisfy the requirements of one of the concentrations listed below		12
Total Units		30

Culminating Experience (3 units)

Students select either the Thesis Option or the Comprehensive Examination Option. Successful completion of either option satisfies the graduation writing requirement.

Thesis Option (3 units)

ENG 6973	Thesis	3
----------	--------	---

Students electing the Thesis option must select from among two thesis project models (A or B) and are required to complete a thesis project appropriate to their concentration: applied linguistics and teaching English as a second language; composition and rhetoric; literature; pedagogy; or public and professional writing. Dual concentration students may devise a project in either of their concentrations.

A. Traditional Thesis

The first thesis model option is a traditional thesis: an independent project that demonstrates mastery of both the subject matter and the written discourse of the discipline and results in an original manuscript of approximately 60 pre-formatted pages plus bibliography.

To pursue this option, students develop an acceptable thesis project and prepare a 1000-word proposal in accordance with program guidelines.

To develop a thesis proposal for this project and obtain approval of it, students carry out the following steps:

1. Gain the support of a committee of two English Department faculty members (the thesis reading committee).
2. Submit the Thesis Proposal to the coordinator of the student's concentration(s) for approval.

The student will then be given a permit to add ENG 6973 to complete the thesis.

B. Professional Paper

The second thesis model option is a professional paper that demonstrates mastery of both the subject matter and the written discourse of the discipline, and results in an original manuscript of approximately 30 pre-formatted pages plus bibliography. Depending on the student's chosen concentration and project and after consultation with faculty readers, this professional paper will take the form of one of the following:

1. Academic Journal Article
2. Scholarship of Teaching and Learning Article
3. Policy Paper
4. Public or Professional Piece

To pursue this option, students develop an acceptable thesis project from work begun in one of the M.A. program seminar classes and prepare a 1000-word thesis proposal that: a) announces the project and purpose, and explains how the work contributes to the field; b) identifies an appropriate professional venue to which this work might be submitted.

To develop a thesis proposal for this project and obtain approval of it, students carry out the following steps:

1. Gain the support of a committee of two English Department faculty members (the thesis reading committee).
2. Submit the Thesis Proposal to the coordinator of the student's concentration(s) for approval.

The student will then be given a permit to add ENG 6973 to complete the thesis. After completion of the thesis the student will present his or her work at a department colloquium.

Comprehensive Examination Option (3 units)

ENG 6983	Comprehensive Exam Preparation and Completion	3
ENG 6980	English Comprehensive Examination	0

Students electing the Comprehensive Examination Option must take the examination no earlier than in the last semester of program coursework.

Students must declare their intent to take the examination at least one semester in advance and register for ENG 6983 and ENG 6980. The comprehensive examination is offered twice yearly, once in fall semester and once in spring semester.

The reading committees for the comprehensive examination in each concentration will be established annually by the graduate program, and will consist of two English Department faculty members and the graduate coordinator responsible for each concentration.

The comprehensive examination involves two take-home essay questions related to the student's concentration(s). The examination will be graded pass/fail, and students have the option of revising a non-passing exam based on feedback. If the revised exam still does not pass, they may re-take the exam once with new questions. Candidates who re-take the examination must do so within one calendar year.

Concentrations (12 units)

Students cannot count any courses completed for a bachelor's degree toward the MA program.

Applied Linguistics and Teaching English as a Second Language (TESL) Concentration (12 units)

(Program Code: EWAL)

Before enrolling in courses, students should consult the course descriptions for course prerequisites.

ENG 6190	Multilingualism and Second Language Acquisition	3
ENG 6260	TESL Methods	3
Choose three units from:		3
ENG 5230	Grammar and Discourse	
ENG 5240	Sociolinguistics	
ENG 5260	Phonetics and Phonology	
ENG 5270	Studies in Language and Linguistics	
ENG 6050	Special Topics in Applied Linguistics & TESL	
One 3-unit course from another concentration in the M.A. program.		3
Total Units		12

Composition and Rhetoric Concentration (12 units)

(Program Code: EWCR)

Before enrolling in courses, students should consult the course descriptions for course prerequisites.

ENG 6330	Seminar in Rhetorics	3
or ENG 6340	Seminar in Literacy Studies	
ENG 6580	Multimodal Writing and the Public Sphere	3
Choose three units from:		3
ENG 6300	Writing Center Studies	
ENG 6600	Approaches to Teaching Writing	
ENG 6310	Seminar in Public and Professional Discourses	
ENG 6570	Seminar in Teaching Writing	
One 3-unit course from another concentration in the M.A. program.		3
Total Units		12

Literature Concentration (12 units)

(Program Code: EWLTL)

Before enrolling in courses, students should consult the course descriptions for course prerequisites.

Choose six units from:		6
ENG 6010	Seminar in a Literary Period	
ENG 6020	Seminar in a Literary Genre	
ENG 6030	Seminar in a Literary Theory	
ENG 6510	Seminar in a Literary Topic	
Choose three units from:		3
ENG 5120	Literary and Cultural Criticism in the Public Sphere	
ENG 6590	Approaches to Teaching College-Level English Literature	
ENG 6210	Approaches to Teaching Imaginative Writing	
One 3-unit course from another concentration in the M.A. program.		3
Total Units		12

Pedagogy Concentration (12 units)

(Program Code: EWPPD)

Before enrolling in courses, students should consult the course descriptions for course prerequisites.

Choose 12 units from the following (only 3 units may be 5000-level):		12
ENG 5100	Teaching English in the Secondary Schools	
ENG 5110	Creative Writing in the Secondary Classroom	
ENG 5140	Community-Based Writing	
ENG 6190	Multilingualism and Second Language Acquisition	
ENG 6210	Approaches to Teaching Imaginative Writing	
ENG 6260	TESL Methods	
ENG 6300	Writing Center Studies	
ENG 6570	Seminar in Teaching Writing	

ENG 6590	Approaches to Teaching College-Level English Literature	
ENG 6600	Approaches to Teaching Writing	
ENG 6660	Seminar in English and Writing Studies Pedagogies	
Total Units		12

Public and Professional Writing Concentration (12 units)

(Program Code: EWPP)

Before enrolling in courses, students should consult the course descriptions for course prerequisites.

ENG 6580	Multimodal Writing and the Public Sphere	3
Choose nine units from the following (only 3 units may be 5000-level):		9
ENG 5120	Literary and Cultural Criticism in the Public Sphere	
ENG 5230	Grammar and Discourse	
ENG 5300	Creative Nonfiction	
ENG 5430A	Literary Production I	
ENG 5430B	Literary Production II	
ENG 6310	Seminar in Public and Professional Discourses	
ENG 6330	Seminar in Rhetorics	
ENG 6340	Seminar in Literacy Studies	
Total Units		12

Master of Arts in Speech-Language Pathology

Pending Office of the Chancellor approval

The Master of Arts in Speech-Language Pathology provides the graduate-level academic and clinical training needed to become a speech-language pathologist. Offering a rigorous curriculum that engages students in globally relevant research, the M.A. program prepares students to serve the culturally and linguistically diverse people of our region affected by communication disorders. Graduates are trained in the prevention, assessment, and treatment of communication and swallowing disorders throughout the lifespan, and prepared to work in professional settings such as hospitals, clinics, schools, and private practice, or to continue their education in a PhD program. Students in this five-semester cohort M.A. program also have the option of completing the Certificate in Healthcare Spanish (<https://catalog.csusb.edu/colleges-schools-departments/arts-letters/world-languages-literatures/healthcare-spanish-certificate/>).

Admission to the Program

The Graduate Committee cannot act on applications until they have been reviewed by the Office of Admissions and Student Recruitment and have met university admissions requirements. Please check the M.A. in Speech-Language Pathology website and/or the office of Graduate Studies for the specific application due date for each year. The program admits students in Fall semester only.

In addition to the general requirements of the University, which include a baccalaureate degree from an accredited college, specific requirements for classification in the program are:

1. Typically, a cumulative undergraduate grade point average of at least 3.0 ("B"), or a cumulative GPA of 3.0 in communicative sciences and disorders coursework. However, a student's undergraduate GPA does not always predict their potential for success and should not exclude them from consideration. Therefore, the admissions committee takes a holistic approach to the admissions process, considering a broad range of candidate qualities, including a student's personal attributes, past experiences, and future goals, and how those might contribute to a good fit with our program and its values and objectives.
2. A bachelor's degree in Speech-Language Pathology, Communicative Disorders, or Speech, Language and Hearing Sciences, or a bachelor's degree in another field with a preparatory minor/certificate in Speech-Language Pathology or coursework in the following areas:
 - a. Child Language and Literacy Development
 - b. Introduction to Speech-Language Pathology and Audiology
 - c. Language and Speech Science
 - d. Child Language Disorders
 - e. Phonetics and Phonology
 - f. Anatomy and Physiology of the Speech and Hearing Mechanism
 - g. Clinical and Research Methods and Procedures in Speech-Language Pathology
 - h. Fluency, Voice, and Speech Sound Disorders
 - i. Neurology and Neurogenic Communication Disorders
 - j. Audiology & Audiometry
3. In addition to the above courses, ASHA requires completion of one course each in the following areas: biological sciences, physical sciences, statistics, and social/behavioral sciences. These courses must be completed prior to admission to the M.A.
4. Two letters of recommendation.
5. A one- to two-page personal statement describing the student's professional goals in the field of Speech-Language Pathology.
6. Submission of official transcripts from all previous college work to the admissions committee.
7. An interview may also be required.

Advancement to Candidacy

To be advanced to candidacy, the student must have:

1. Achieved classified status;
2. Completed at least 31 units of coursework required by the program with a grade point average of at least 3.0 ("B");
3. Filed a program plan approved by the MA SLP Coordinator.

Requirements for Graduation

1. Advancement to candidacy;
2. Successful completion of 60-semester units of acceptable graduate work with at least 48 units completed at CSUSB. All coursework taken at other institutions must be approved by the M.A. SLP Coordinator;

3. An overall GPA of at least 3.0 ("B") in all graduate-level coursework;
4. Successful completion of Culminating Experience: ENG 6543 or ENG 6550/6553.
5. The graduation writing requirement is met upon successful completion of the thesis or comprehensive examination.

Degree Requirements (60 units)

ENG 6100	Clinical Practicum I	1
ENG 6140	Language Disorders I: Infancy to Preschool	3
ENG 6160	Basic and Applied Research Methods in Speech-Language Pathology	3
ENG 6170	Neurogenic Language and Cognition Disorders I	3
ENG 6180	Articulation and Phonological Disorders	3
ENG 6200	Clinical Practicum II	2
ENG 6220	Motor Speech Disorders	3
ENG 6230	Dysphagia	3
ENG 6240	Language Disorders II: School-Age to Adolescence	3
ENG 6270	Neurogenic Language and Cognition Disorders II	3
ENG 6350	Clinical Practicum III	4
ENG 6400	Advanced Clinical Practicum I	4
ENG 6420	Voice, Resonance and Fluency	3
ENG 5560	Cultural and Linguistic Diversity in Speech-Language Pathology	3
ENG 6500	Advanced Clinical Practicum II	4
ENG 6520	Aural Rehabilitation	3
ENG 6530	Augmentative and Alternative Communication	3
Choose 6 units from:		6
ENG 6360	Counseling Tools in Speech-Language Pathology	
ENG 6370	Special Topics in Speech-Language Pathology	
ENG 6380	Directed Studies in Speech-Language Pathology	
Culminating Experience (3)		3
Total Units (60)		60

Culminating Experience (3 units)

Students select either the Thesis Option or the Comprehensive Examination Option. Successful completion of either option satisfies the graduation writing requirement.

Thesis Option (3 units)

ENG 6543	Speech-Language Pathology Thesis	3
----------	----------------------------------	---

Students electing the Thesis option must complete a research project under the supervision of faculty members. To develop a thesis proposal for this project and obtain approval of it, students carry out the following steps:

1. Gain the support of a committee of two Speech-Language Pathology faculty members (the thesis reading committee).
2. Write a 1000-word thesis proposal and submit it to the thesis reading committee and the M.A. SLP Coordinator for approval.

The student will then be given a permit to add ENG 6543 to complete the thesis.

Comprehensive Examination Option (3 units)

ENG 6550	Speech-Language Pathology Comprehensive Exam	0
ENG 6553	Speech-Language Pathology Comprehensive Exam Preparation	3

Students electing the Comprehensive Examination Option must take the examination no earlier than in the last semester of program coursework.

Students must declare their intent to take the examination at least one semester in advance and register for ENG 6550 and ENG 6553. The comprehensive examination preparation course is offered only in Spring semester. The exam itself is offered twice yearly, once in Fall semester and once in Spring semester.

The reading committees for the comprehensive examination in each concentration will be established annually by the graduate program and will consist of two Speech-Language Pathology faculty members.

The comprehensive examination will be graded pass/fail, and students have the option of revising a non-passing exam based on feedback. If the revised exam still does not pass, they may retake the exam once with new questions. Candidates who retake the examination must do so within one calendar year.

Bachelor of Arts in English

The Department of English at CSUSB is a vibrant community of teachers, scholars, and writers committed to the interdisciplinary exploration and development of English Studies. Our B.A. in English integrates four distinct approaches that are rarely united in English programs: literary studies, creative writing, linguistics, and rhetoric/writing studies. Students in our program gain an in-depth understanding of the imaginative, discursive, and practical aspects of language, as they read, interpret, synthesize, and write texts of various kinds. With this background, our graduates are prepared for careers in writing, business, public relations, advertising, technology, public health, teaching, and many other fields. They can also pursue graduate studies in a wide variety of disciplines, including law and medicine. Additionally, our graduates will find themselves well-prepared to take on the responsibilities of civic and community engagement.

The English major consists of a common, multidisciplinary core, and a choice of four concentrations that allow students to focus their coursework in literature, linguistics, creative writing, or rhetoric/writing studies. As a fifth option, the Department offers an individualized concentration where students, under the direction of a faculty advisor and with the approval of a faculty committee, can create their own course of study based on their personal and professional interests.

Requirements (51 units)

Total units required for graduation: 120

Requirements for the B.A. in English

Lower-division requirements (18)

ENG 2000	Introduction to English Studies	3
ENG 2100	Historical Approaches to English Literature	3
ENG 2250	Historical Approaches to American Literature	3
ENG 2300	Historical Approaches to British Literature	3
ENG 2400	Writing in the Public Sphere	3
ENG 2500	Introduction to Creative Writing Studies	3

Upper-division requirements (15)

ENG 3010	Analysis of Poetry and Drama	3
ENG 3030	Analysis of Fiction and Nonfiction Prose	3
ENG 3110	Introduction to Linguistics	3
ENG 3750	Studies in Literary Theory	3
ENG 5160	Professional Pathways for English Majors	3

Concentration (18)

Students must satisfy the requirements of one of the concentrations listed below:

Total Units 51

Concentrations (18 units)

Students must complete 18 units from one of the following concentrations.

Note: if an elective for the concentration is also a GE course, the course may count as both an elective for the concentration and for GE credit.

Creative Writing Concentration (18 units)

(Program Code: ENCW)

ENG 3500	Literary Movements: Aesthetics and Craft	3
Three units chosen from:		3
ENG 4170	Poetry Writing Workshop	
ENG 4180	Fiction Writing Workshop	
ENG 5300	Creative Nonfiction	
ENG 5130	Advanced Creative Writing in Specialized Genres	3

Total Units		18

Self-Directed Study Concentration (18 units)

(Program Code: ESDS)

To be eligible for the Self-Directed Study Concentration, students must write a proposal for their program plan, including all of the courses that they intend to take in the concentration and a rationale for the course of study. The proposal will be vetted by an English faculty committee before a student can be approved for this concentration. Before declaring this concentration, a student must have completed the following core classes:

ENG 2000, ENG 2400, ENG 2500, ENG 3110, and either ENG 3010 or ENG 3030.

Eighteen units of any upper-division English courses, selected according to a plan developed in consultation with the English Department. With prior approval of the Department, students in this concentration may substitute up to 6 units of coursework from outside of the English major. We also encourage students to take 3 of their 18 units from the following:

ENG 5751	Internship in English	
ENG 5752	Internship in English	
ENG 5753	Internship in English	
ENG 5020	English Study Abroad	
ENG 5010	Media Performance Practicum	
ENG 5170	Honors Project	
ENG 5180	Research Project	
ENG 5030	English Practicum	

Minor in Border Studies

Border Studies is a trans-disciplinary study of the material and symbolic processes of border making, erasing, and transcending. Our approach is the policy-practice-perception study of borders as culturally, historically, and spatially produced material and symbolic landscapes. Studying borders teaches us that societies are complex, contested, and power-laden hybrid spaces and processes that deepen our understanding of how people relate to each other across borders and barriers: political, social

and cultural. Special focus will be given to the Mexican and American border area and its impact across our continent and our academic fields study.

Requirements for a minor in Border Studies (18 units)

Complete at least 18 units from three different programs. A minimum of 6 units must be upper-division. Select courses from the following list: (18)

ANTH 1002	Understanding Cultural Diversity
ANTH 3603	Gendered Worlds: Power, Difference, and & In/equality
ANTH 3606	Indigenous Politics
ANTH 3701R	Cultures of Mexico and Central America
ART 2329	Xicanx Art
ART 2400	Introduction to Chicanx Art
ART 3760	Border Art
AH 3210	Visualizing Gender, Performing Identity
AH 3250	Topics and Themes of Art History and Exhibitions
AH 4250	Art History Seminar
CAL 3350	Latinx Border Identity: A Transmedia Perspective
COMM 3319	Topics in Media Studies
COMM 3339	Topics in Film Studies
COMM 4302	Latinx, Media, and Cultures
ENG 3000	Studies in Global Literatures
ENG 3140	Native American and Indigenous Literatures
ENG 3230	Chicana/o Literature
ENG 3260	Caribbean Literature
ENG 3500	Literary Movements: Aesthetics and Craft
ENG 5020	English Study Abroad
ES 1000	Introduction to Ethnic Studies
ES 1020	Introduction to Chicana/o/x and Latina/o/x Studies
GEOG 3060	Political Geography
GEOG 4055	US-Mexico Border Region
GEOG 4060	Emerging World Regions
GEOG 4070	Advanced World Regions
GEOG 4450	Globalization and Identity
GEOG 5150	Global Governance and the United Nations System
HIST 3420	American Indian History
HIST 3710	California Indian History
HIST 5680	History of the U.S. - Mexico Borderlands
PA 5900	Special Topics in Public Administration
SOC 4420	The Latino Experience in the U.S.

SOC 5450	Indigenous Peoples

HSCI 4210	Cultural Competency	
HSCI 4212	Topics about Special Populations	
SPAN 2900	Spanish Literature and Film in English	
SPAN 3900	Voices & Visions from the Hispanic World	
Total Units		18

Minor in Creative Writing

Designed for non-English majors, the 21 unit Minor in Creative Writing supports development of students' creative writing processes. In three required course categories (foundations, workshop, and seminar) students draft, appreciate, and critique their original work and that of published authors, working independently and collaboratively. In three elective courses, students choose from a variety of creative writing practices, applications, and vocations, to gain hands-on experience teaching, editing, publishing, and/or performing. Some examples of such experience include working with K-12 students, editing a campus literary magazine, working with the campus radio station, performing at open mics on and off campus, and using creative writing approaches, pedagogies, and processes toward other forms of community outreach. Students will gain expertise relevant to a wide range of careers such as those in other arts, communications, science, business, government, and health and human services.

Requirements for a minor in Creative Writing (21 units)

ENG 2500	Introduction to Creative Writing Studies	3
ENG 3500	Literary Movements: Aesthetics and Craft	3
ENG 5130	Advanced Creative Writing in Specialized Genres	3
One Workshop Chosen From:		3
ENG 4170	Poetry Writing Workshop	
ENG 4180	Fiction Writing Workshop	
ENG 5300	Creative Nonfiction	
One Creative Writing Elective Chosen From:		3
ENG 3470	Writing for Performance	
ENG 4170	Poetry Writing Workshop	
ENG 4180	Fiction Writing Workshop	
ENG 5010	Media Performance Practicum	
ENG 5100	Teaching English in the Secondary Schools	
ENG 5110B	Creative Writing in the Secondary Classroom B	
ENG 5130	Advanced Creative Writing in Specialized Genres	
ENG 5430A	Literary Production I	
ENG 5430B	Literary Production II	
Two English Electives Chosen from any Upper-Division English Courses		6

Please note: ENG 3500 can only be taken once for credit; ENG 4170 and ENG 4180 can each be taken for up to 6 units of credit; and ENG 5130 may be taken again for credit as topics change.

Total Units **21**

Minor in English

The English Minor allows students to select courses related to their personal interests and professional goals. With offerings in creative writing, linguistics, literature, and rhetoric and writing studies, the English Minor pairs well with any major—whether in science, social science, business, or humanities. It prepares students for any career requiring them to write effectively, think creatively, or understand human nature.

Requirements for a minor in English (18 units)

Eighteen units chosen from courses in the following areas. Students are free to select and mix courses across any of these areas. **18**

Creative Writing and Literary Production	
ENG 2500	Introduction to Creative Writing Studies
ENG 3500	Literary Movements: Aesthetics and Craft
ENG 4170	Poetry Writing Workshop
ENG 4180	Fiction Writing Workshop
ENG 5300	Creative Nonfiction
ENG 5130	Advanced Creative Writing in Specialized Genres
ENG 5110	Creative Writing in the Secondary Classroom (may repeat twice for credit)
ENG 5430A	Literary Production I
ENG 5430B	Literary Production II
ENG 5190	Creative Writing: Thesis and Performance
Rhetoric, Literacy, and Writing Studies	
ENG 2400	Writing in the Public Sphere
ENG 3070	Theories of Public and Professional Writing
ENG 3290	Introduction to Literacy and Writing Studies

ENG 4090	English Literature of the Restoration and Eighteenth Century
ENG 4120	Romantic Literature
ENG 4150	Victorian Literature
ENG 4420	Modern Poetry
ENG 4410	Studies in a Major Authors
ENG 4430	Contemporary Poetry
ENG 4400	Studies in a Literary Period or Movement
ENG 4470	Modern Fiction
ENG 4480	Contemporary Fiction
ENG 4630	Advanced Studies in Literary Topics
ENG 5150	Senior Seminar in Literature

Minor in English Teacher Preparation

The courses in the English Teacher Preparation Minor provide subject-matter training (supplementing the English BA) for students who are planning to obtain a single-subject teaching credential in English. Coursework has been certified by the California Commission on Teacher Credentialing (CTCC) as part of the English Department's subject matter waiver program.

Minor Requirements (24 units)

Students must take the following eight courses to complete the ETP Minor. (NOTE: Students may apply any of the ENG courses listed here toward the elective units in their concentration in the English Major. ENG 3000 and TA 2660 also satisfy General Education Requirements)

ENG 3000	Studies in Global Literatures	3
ENG 3200	Literature for Children and Young Adults	3
ENG 3220	English Grammar	3
ENG 3290	Introduction to Literacy and Writing Studies	3
ENG 3320	Second Language Acquisition	3
ENG 4750	Shakespeare and Renaissance Drama	3
ENG 5100	Teaching English in the Secondary Schools	3
or ENG 5110	Creative Writing in the Secondary Classroom	
TA 2660	Introduction to Theatre	3
Total Units		24

Minor in Linguistics

The Linguistics Minor provides students with a strong introduction to various aspects of language, including speech sounds, grammar, discourse, language acquisition, and language use and its relationship to context, culture, and thought. This minor builds expertise relevant to careers in speech therapy, health communication, conflict management, business and marketing, voice recognition, search engine optimization, artificial intelligence, cyber security, education, social services, and other areas. As such, it may be of particular interest to students majoring in a foreign language, computer science, psychology, anthropology, communication studies, philosophy, social work, nursing, or health science. It is open, however, to students in any major. The program includes one required course and five elective linguistics classes.

Requirements for a minor in Linguistics (18 units)

Required Course (3)

ENG 3110	Introduction to Linguistics	3
----------	-----------------------------	---

Electives (15)

Fifteen units chosen from: 15

ENG 3210	Language, Thought, and Culture
ENG 3220	English Grammar
ENG 3310	Child Language and Literacy Development
ENG 3320	Second Language Acquisition

ENG 5210	Introduction to Speech-Language Pathology and Audiology
ENG 5220	Language and Speech Science
ENG 5230	Grammar and Discourse
ENG 5240	Sociolinguistics
ENG 5250	Child Language Disorders
ENG 5260	Phonetics and Phonology
ENG 5270	Studies in Language and Linguistics

Total Units 18

Minor in Multimedia Storytelling

Multimedia storytelling involves the combination of text, still photography, video, audio, graphics, and interactivity presented online or in another format in a nonlinear manner. The key to multimedia storytelling is using the media form to present a story in a compelling and informative way. Students pursuing this minor will learn the various aspect of this media form including storyboarding, fieldwork, editing and assembling the story. In short, students will discover the importance of merging new multimedia technology and revising culturally rich and fundamental concepts of storytelling. While telling their stories, students can also explore the issues surrounding social media, community activism, and social justice and change.

Requirements for a minor in Multimedia Storytelling (18 units)

Complete at least 18 units from three different programs in the College of Arts and Letters. A minimum of 6 units must be upper-division. Select from the following list of courses: (18) 18

ART 1140	Creative Technology for Artists
ART 2240	Beginning Imaging and Illustration
ART 2260	Beginning Photography
ART 3710	Video Art
COMM 2301	Newsriting and Reporting
COMM 2351	Television Studio Production
COMM 2391	Practicum in Multimedia Journalism: Coyote Chronicle
COMM 2392	Practicum in Digital Audio and Radio
COMM 2491	Practicum in Strategic Communication: Coyote PR
COMM 3102	Media, Culture, and Society
COMM 3305	Digital Media and Society
COMM 3332	Movies in the Digital Age
COMM 3335	Visual Communication
COMM 3351	Introduction to Digital Video Editing
COMM 3371	Multimedia Journalism
COMM 3379	Topics in Multimedia Journalism
DES 1100	Digital Applications Basics
DES 1110	Fundamental Design Principles
DES 1125	Design Thinking - Problem Solving & Critical Thinking in Visual Studies
DES 3500	Business of Creativity
ENG 2400	Writing in the Public Sphere
ENG 3240	Studies in Literary Topics

ENG 3470	Writing for Performance	
ENG 3500	Literary Movements: Aesthetics and Craft	
ENG 4630	Advanced Studies in Literary Topics	
ENG 5010	Media Performance Practicum	
ENG 5130	Advanced Creative Writing in Specialized Genres	
MUS 2266	Creating digital Media Using Personal Electronic Technology	
TA 3210	Voice and Movement	
TA 3602	Dramatic Analysis and Playwriting for Teachers	
TA 3647	Playwriting	
TA 4241	Styles of Acting	

Note: Students are able to receive credit for summer arts courses pertaining to the minor.

Total Units 18

Minor in Speech-Language Pathology

The Minor in Speech-Language Pathology provides an introduction to the fast-growing field of communication disorders. Students in the minor can complete the required coursework needed to apply to most master's programs in Speech-Language Pathology and Communication Sciences & Disorders. The courses in the minor are taught by faculty from several departments with expertise in communication sciences and disorders and related fields.

Admission to the Minor

The minimum requirements for admission to the minor are as follows:

Evidence of success potential in the program, including transcript showing strong academic performance in undergraduate coursework; personal statement; writing sample; contact information for two references. Please note that the program takes a holistic approach to the admissions process, considering various candidate qualities, including a student's personal attributes, past experiences, and future goals, and how those might contribute to a good fit with the program. Admission to the minor is also contingent on spaces available in the program.

For more information about applying to the minor and application deadlines, please see the program website.

Please note that if you are planning to apply for a master's degree program in speech-language pathology or communication sciences and disorders, you must also have completed General Education (GE) coursework in several areas. Please see the program website for more information.

Minor Requirements (36 units)

ENG 3310	Child Language and Literacy Development	3
ENG 5210	Introduction to Speech-Language Pathology and Audiology	3
ENG 5220	Language and Speech Science	3
ENG 5250	Child Language Disorders	3
ENG 5260	Phonetics and Phonology	3

ENG 5290	Anatomy and Physiology of the Speech and Hearing Mechanism	3
ENG 5520	Methods and Procedures in Speech-Language Pathology	3
ENG 5530	Fluency and Speech Sound Disorders	3
ENG 5540	Neurology and Neurogenic Communication Disorders	3
ENG 5550	Introduction to Voice Disorders	3
ENG 5560	Cultural and Linguistic Diversity in Speech-Language Pathology	3
ENG 5570	Audiology & Audiometry	3
Total Units		36

Certificate in Creative Writing

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 6000-level courses as requirements and/or electives. These 6000-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Designed for non-English majors, the 18-unit Certificate in Creative Writing supports development of students' creative writing processes. In three required courses (foundations, workshop, and seminar) students draft, appreciate, and critique their original work and that of exemplary authors, working independently and collaboratively. In three elective courses, students choose from a variety of creative writing practices, applications, and vocations, to gain hands-on experience teaching, editing, publishing, and/or performing. Some examples of such experience include working with local K-12 students, editing a campus literary magazine, working with the campus radio station, performing at open mics on and off campus, and using creative writing approaches, pedagogies, and processes toward other forms of community outreach. Students will gain expertise relevant to a wide range of careers such as those in other arts, communications, science, business, government, and health and human services.

Certificate Requirements (18 Units)

ENG 3500	Literary Movements: Aesthetics and Craft	3
One workshop chosen from:		3
ENG 4170	Poetry Writing Workshop	
ENG 4180	Fiction Writing Workshop	
ENG 5300	Creative Nonfiction	
ENG 5130	Advanced Creative Writing in Specialized Genres	3
One Creative Writing elective chosen from:		3

ENG 3470	Writing for Performance	
ENG 4170	Poetry Writing Workshop	
ENG 4180	Fiction Writing Workshop	
ENG 5010	Media Performance Practicum	
ENG 5110	Creative Writing in the Secondary Classroom	
ENG 5110B	Creative Writing in the Secondary Classroom B	
ENG 5130	Advanced Creative Writing in Specialized Genres	
ENG 5300	Creative Nonfiction	
ENG 5430A	Literary Production I	
ENG 5430B	Literary Production II	
Two English electives chosen from any upper-division English courses.		6

Please note: ENG 5300 can only be taken once for credit; ENG 4170 and ENG 4180 can each be taken for up to 6 units of credit; and ENG 5130 may be taken again for credit as topics change.

Certificate in Speech-Language Pathology Master's Preparatory

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 6000-level courses as requirements and/or electives. These 6000-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

The Speech-Language Pathology Master's Preparatory Certificate provides students with the prerequisite coursework needed to apply to most master's programs in Speech-Language Pathology and Communication Sciences & Disorders. The certificate is designed for college graduates who majored in other areas but are now interested in the fast-growing field of speech-language pathology. The courses in the certificate are taught by faculty from several departments with expertise in communication sciences and disorders and related fields.

Admission to the Certificate

The minimum requirements for admission to the certificate are as follows:

Evidence of success potential in the program, including transcript showing strong academic performance in undergraduate coursework; personal statement; writing sample; contact information for two references; and typically a minimum undergraduate GPA of 3.0. Please note that the program takes a holistic approach to the admissions process, considering various candidate qualities, including a student's personal attributes, past

experiences, and future goals, and how those might contribute to a good fit with the program. Admission to the certificate is also contingent on spaces available in the program.

For more information about applying to the certificate and application deadlines, please see the program website.

Please note that if you are planning to apply for a master's degree program in speech-language pathology or communication sciences and disorders, you must also have completed General Education (GE) coursework in several areas. Please see the program website for more information.

Certificate in Teaching English as a Second Language

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 6000-level courses as requirements and/or electives. These 6000-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

The Certificate in Teaching English as a Second Language allows students to gain expertise in this area of teaching and is often a necessary qualification for teaching English as a foreign language

overseas and for teaching English as a second language in intensive language programs in the United States.

Students must earn a minimum GPA of 3.0 in their TESL Certificate coursework in order to be granted the certificate. Students must finish their TESL Certificate coursework within seven years.

Certificate Requirements (18 units)

ENG 3110	Introduction to Linguistics	3
ENG 3220	English Grammar	3
ENG 6260	TESL Methods	3
Three units chosen from:		3
ENG 3320	Second Language Acquisition	6
ENG 6190	Multilingualism and Second Language Acquisition	
Six units chosen from:		6
ENG 5230	Grammar and Discourse	18
ENG 5240	Sociolinguistics	
ENG 5260	Phonetics and Phonology	
ENG 5270	Studies in Language and Linguistics	
ENG 6050	Special Topics in Applied Linguistics & TESL	
ENG 6150	Discourse, Cognition, and Society	
Total Units		18

Certificate in Teaching Writing

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 6000-level courses as requirements and/or electives. These 6000-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Admission to the Certificate

Contact the English Department graduate coordinator for information about the certificate program.

1. Postbaccalaureate standing;
2. A minimum grade point average of 3.0 in undergraduate upper-division coursework.

Recommendation for the Certificate

1. Completion of the certificate coursework with a minimum grade point average of 3.0;
2. Completion of the certificate within a seven-year period. Students who have taken any required course that expires because it exceeds the seven-year limitation will be required to retake the course or

its equivalent, as designated by the English Department graduate coordinator. Petitions to waive this requirement will not be approved.

Certificate Requirements (18 units)

ENG 6120	Contemporary Composition and Discourse Theory	3
ENG 6600	Approaches to Teaching Writing	3
Twelve units chosen from (at least 6 units must be 6000-level):		12
ENG 2400	Writing in the Public Sphere	3
ENG 3290	Introduction to Literacy and Writing Studies	
ENG 3300	Tutoring Writing: Theory and Practice	3
ENG 6260	TESL Methods	
ENG 6300	Writing Center Studies	3
ENG 6570	Seminar in Teaching Writing	
ENG 6580	Multimodal Writing and the Public Sphere	3
Total Units		18

Certificate in Writing: Public and Professional Writing

The Certificate in Writing: Public and Professional Writing prepares students for professional, workplace, and public writing and editing in print and online contexts. Core certificate classes offer theoretical and rhetorical foundations for learning and engaging with central concepts and practices in public and professional writing. Elective classes in the certificate allow students to select writing classes that complement their academic majors and align with their professional goals. Students who plan to pursue writing-oriented or writing-intensive careers will benefit from both the core and elective classes, which are designed to prepare students for a variety of writerly possibilities, from professional writers to professionals who write, and prepare students to write confidently and successfully in a wide range of professions, genres, and contexts.

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 6000-level courses as requirements and/or electives. These 6000-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Department of Music

Accredited by the National Association of Schools of Music (NASM)

Performing Arts Building, Room 111

(909) 537-5859 Department of Music website (<http://music.csusb.edu/>)

The CSUSB Department of Music provides students with a rigorous musical education as a foundation for a lifelong understanding and love of music, as well as preparation for a wide variety of careers in music. We accomplish this through an emphasis on undergraduate education, small class size, and close interactions between faculty and students, all with a continual focus on artistic expression. Consistent with the university's mission, the department is also committed to serving the campus and Inland Empire communities through on-going performance and educational initiatives.

CSUSB's Bachelor of Arts in Music provides a broad study of music balanced with significant general studies in the humanities, natural sciences, and social sciences. The core of required music courses provides a foundation in music theory, history, and performance, while General Education courses balance musical study with significant exposure to many other disciplines. Additionally, the degree's free electives allow students to pursue study in areas of particular interest, including, with the permission of a music advisor, the substitution of courses from disciplines outside of music. Students are encouraged to consider completion of a minor as part of their elective study.

CSUSB's Bachelor of Music program prepares students for careers as professional performers of classical art music or in music teaching. Students must meet rigorous academic and artistic standards to enter and continue in the program, and after graduation the majority of students in performance concentrations pursue advanced music degrees or similar post-baccalaureate training. Students in the education pre-certification concentration pursue post-baccalaureate credentials to teach music. The performance concentrations put particular focus on real world performing as a supplementary learning experience, with emphasis on auditions for professional engagements and competitions, service learning, and formation of ad hoc ensembles. The education pre-certification concentration puts similar focus on pre-professional activities, including substantive observations in school music settings, as well as pursuit of meaningful paid or volunteer teaching in such settings.

The Bachelor of Music program does have entrance requirements. For specific requirements, see the degree information below or the department's handbook, available online at Department of Music website. (<https://music.csusb.edu/>)

Students wishing to be recommended for the single subject teaching credential in music must complete the Bachelor of Music Education Pre-Certification Concentration, and certain other prerequisites to the teacher education program. For information about the professional education component of the credential program, admission to the teacher education program, and specific requirements for the single subject waiver program contact the Credentials Office, CE-102.

Departmental Honors

To be awarded honors in Music, music majors must meet all of the following criteria:

1. Achieve a university grade point average of 3.6 or higher;
2. Achieve a Music Department grade point average of 3.8 or higher;
3. Demonstrate superior ability in musical performance, composition or scholarship as determined by judgment of Music Department faculty. This may be based on a project, performance, competition, teaching or other activity on or off campus.

Current Faculty

Nicholas Bratcher, Associate Professor of Music
B.A. 2008, M.A. 2009, Coastal Carolina University
Ed.D. 2015, University of Georgia

Catherine Stacey Fraser, Professor of Music
B.M. 1994, University of Toronto
M.M. 1996, Manhattan School of Music
D.M.A. 2003, University of California, San Diego

Martim Galvão, Assistant Professor of Music
B.B.A. 2010, Emory University M.F.A. 2014, University of California, Irvine
M.A. 2017, Brown University Ph.D. 2022, Brown University

Jessica Getman, Assistant Professor of Music
B.A. 2002, California Polytechnical State University San Luis Obispo
M.M., 2008, Boston University Ph.D., 2015, University of Michigan

Todd Johnson, Professor of Music
B.M./B.S. 1988, Central Michigan University
M.M. 1989, Northwestern University
D.M.A. 1999, University of Oklahoma

Robert J. Knop, Professor of Music
B.M. 1971, Roosevelt University
M.M. 1998, Northern Illinois University
D.A. 2002, University of Northern Colorado

Lesley Leighton, Associate Professor of Music, Chair
B.A. 1984, Loyola Marymount University M.M. 1991, University of Southern California D.M.A. 2012, University of Southern California

Lucy Lewis, Associate Professor of Music
B.M./B.S. 2008, Andrews University
M.M. 2011, University of Cincinnati
D.M.A. 2014, University of Iowa

Kevin Zhang, Assistant Professor
B. M. New England Conservatory of Music

Music (p. 215)

Music Technology (p. 215)

Bachelor of Arts in Music

Any student accepted for admission to CSUSB can declare music as major and pursue the BA in Music degree. Students may pursue any of three concentrations offered within the BA in Music degree: General Music Studies (GMS), Music Industry Studies (MIS), or Music, Sound, & Technology (MST).

All new music majors should schedule an audition with department faculty in order to determine placement in applied music lessons and performance ensembles. Incoming students are also encouraged to take a keyboard skills proficiency diagnostic examination and a music theory diagnostic examination.

Applied instruction is available only to declared music majors. Students interested in applied composition (MUS 2460 (<http://bulletin.csusb.edu/search/?P=MUS%202460>)) will be required to complete one year of applied vocal or instrumental music instruction (MUS 1400 (<http://bulletin.csusb.edu/search/?P=MUS%201400>)-MUS 1450 (<http://bulletin.csusb.edu/search/?P=MUS%201450>)) as a prerequisite. Students in applied music technology (MUS 3480 (<http://bulletin.csusb.edu/search/?P=MUS%203480>)) or applied commercial music (MUS 3490 (<http://bulletin.csusb.edu/search/?P=MUS%203490>)) will be required to complete two years of applied vocal or instrumental music instruction (MUS 1400 (<http://bulletin.csusb.edu/search/?P=MUS%201400>)-MUS 1450 (<http://bulletin.csusb.edu/search/?P=MUS%201450>)) and MUS 2400 (<http://bulletin.csusb.edu/search/?P=MUS%202400>)-MUS 2450 (<http://bulletin.csusb.edu/search/?P=MUS%202450>)) as a prerequisite. Students may enroll in a maximum of four units at any one collegiate level of applied instruction (MUS 1400 (<http://bulletin.csusb.edu/search/?P=MUS%201400>)-MUS 1450 (<http://bulletin.csusb.edu/search/?P=MUS%201450>), MUS 2400 (<http://bulletin.csusb.edu/search/?P=MUS%202400>)-MUS 2460 (<http://bulletin.csusb.edu/search/?P=MUS%202460>), MUS 3400 (<http://bulletin.csusb.edu/search/?P=MUS%203400>)-MUS 3490 (<http://bulletin.csusb.edu/search/?P=MUS%203490>), or MUS 4400 (<http://bulletin.csusb.edu/search/?P=MUS%204400>)-MUS 4480 (<http://bulletin.csusb.edu/search/?P=MUS%204480>)).

bulletin.csusb.edu/search/?P=MUS%204480)). After four semesters at one level, students unable to satisfy completion requirements for that level will be counseled to select a major in a different discipline and will be denied enrollment in any higher level of applied instruction.

All students enrolled as full-time music majors in the General Music Studies concentration are required to participate each semester until graduation (8 total) in a major performing ensemble (MUS 3800 (<https://catalog.csusb.edu/search/?P=MUS%203800>), 3810 (<https://catalog.csusb.edu/search/?P=MUS%203810>), 3850 (<https://catalog.csusb.edu/search/?P=MUS%203850>), or 3860 (<https://catalog.csusb.edu/search/?P=MUS%203860>)) most appropriate to a student's applied emphasis. Students enrolled in the Music Industry Studies and the Music, Sound, & Technology concentrations are required to participate for at least 4 semesters in a major performing ensemble.

Total units required for graduation: 120

Core Requirements for the B.A. in Music

MUS 2120	Music Theory I: Diatonic Harmony	3
MUS 2125	Musicianship I	2
MUS 2130	Music Theory II: Chromatic Harmony	3
MUS 2135	Musicianship II	2
MUS 3500	Global Music (double counts for General Education C4 requirement)	3
MUS 2660	Electronic Music Production	3
Four units chosen from the student's instrument of study:		4
MUS 1400-MUS 1450 (1000-level Applied Study)		
MUS 2400-MUS 2460 (2000-level Applied Study)		
Four units chosen from:		4
Participation in one of the major performance organizations most appropriate to the student's applied emphasis.		
MUS 2000	Large Music Ensemble	
MUS 3800	Symphony Orchestra	
MUS 3810	Symphonic Band	
MUS 3850	Concert Choir	
MUS 3860	Chamber Singers	
MUS 1000	Music Forum (must take at least 4 times)	4
MUS 5980	Senior Project	1
Concentration chosen below		26-28
Total Units		55-57

Concentrations (26-28 Units)

General Music Studies Concentration

(Program Code: MUGM)

MUS 2140	Music Theory III: Analysis of Musical Form	3
MUS 2145	Musicianship III	2
MUS 2150	Music Theory IV: 20th-21st Century Music Theory	3
MUS 2155	Musicianship IV	2
MUS 3040	Western Music History to 1700	3
MUS 3050	Western Music History from 1700 to 1900	3

MUS 3060	Western Music History from 1900 to the present	3
MUS 2230	Class Piano IV (or passing of an equivalent piano proficiency examination)	1
Two upper-division units of applied study:		2
MUS 3400-MUS 3490 (3000-level applied study)		
Four additional units of large performance ensemble most relevant to student's applied vocal/instrumental emphasis:		4
MUS 2000	Large Music Ensemble	
MUS 3800	Symphony Orchestra	
MUS 3810	Symphonic Band	
MUS 3850	Concert Choir	
MUS 3860	Chamber Singers	
Total Units		26

Music Industry Studies Concentration

(Program Code: MUMI)

Concentration Requirements (16)

MUS 2210	Class Piano II (or passing of an equivalent piano proficiency exam)	1
MUS 1270	History of Electronic Music	3
or MUS 1865	Global Hip Hop	
MUS 2670	Sound Recording	3
CAL 1140	Sustaining a Life in the Arts (similar lower-division course in a related field may be substituted with department consent)	3
or CAL 1000	You/U: Applied Humanities and Arts	
or ADMN 1001	Leadership for Global Challenges: Exploring the Entrepreneurial Mindset	
or ADMN 1002	Leadership for Global Challenges: Citizenship in a Sustainable World	
or ADMN 1003	Leadership for Global Challenges: Exploring the Digital Mindset	
CAL 4000	The Artist Entrepreneur: Innovation and Leadership in the Arts	3
CAL 4100	The Artist Entrepreneur's Toolkit	3
Concentration Electives (12)		12

12 units chosen from:

MUS 2070	Introduction to Music Composition	
MUS 2140	Music Theory III: Analysis of Musical Form	
MUS 2150	Music Theory IV: 20th-21st Century Music Theory	
MUS 2266	Creating Digital Media Using Personal Electronic Technology	
MUS 2600	Commercial Songwriting	
MUS 3050	Western Music History from 1700 to 1900	
MUS 3060	Western Music History from 1900 to the present	
MUS 3460	Upper-Division Composition I	
MUS 3480	Applied Technology I	

MUS 3490	Applied Commercial Music
MUS 3650	Music for the Screen
MUS 3670	Music in Video Games
MUS 4140	Commercial Arranging and Scoring
MUS 4170	Composition for Films and Television
MUS 4290	Topics in Music Technology (Topics classes may be repeated multiple times for credit)
MUS 4444	Four on the Floor: Electronic Dance Music in Practice and Culture
MUS 4460	Upper-Division Composition II
MUS 4480	Applied Technology
MUS 4660	Advanced Electronic Music
CAL 4200	Venture Ideation, Analysis, and Development in the Arts
CAL 4300	The Artist Entrepreneur Launch
Total Units	28

Music, Sound, & Technology Concentration

(Program Code: MUST)

Concentration Requirements (16)

MUS 2210	Class Piano II (or passing of an equivalent piano proficiency exam)	1
MUS 1270	History of Electronic Music	3
MUS 2670	Sound Recording	3
MUS 1337	Introduction to Audio Programming	3
MUS 3337	Real-Time Multimedia Systems	3
MUS 4660	Advanced Electronic Music	3

Concentration Electives (12)

12 units chosen from:

MUS 1865	Global Hip Hop
MUS 2070	Introduction to Music Composition
MUS 2266	Creating Digital Media Using Personal Electronic Technology
MUS 2600	Commercial Songwriting
MUS 3460	Upper-Division Composition I
MUS 3480	Applied Technology I
MUS 3070	Electronic and Electroacoustic Music Composition
MUS 3833	New Music Ensemble
MUS 4085	Instrumentation and Arranging
MUS 3650	Music for the Screen
MUS 3670	Music in Video Games
MUS 4140	Commercial Arranging and Scoring
MUS 4170	Composition for Films and Television
MUS 4180	Film Soundtrack Recording
MUS 4290	Topics in Music Technology (may be repeated multiple times for credit)
MUS 4444	Four on the Floor: Electronic Dance Music in Practice and Culture
MUS 4460	Upper-Division Composition II
MUS 4480	Applied Technology

MUS 4670	Advanced Studio Recording Techniques
Total Units	28

Bachelor of Arts in Music Therapy

The Bachelor of Arts in Music Therapy is a four-year plus internship undergraduate degree that prepares students to be leaders among their communities in the field of music therapy. Music Therapy is an allied health profession in which music interventions are used to address therapeutic or palliative care needs. Our program is designed to generate an understanding of music, human development and exceptionality, clinical practice, and the music therapy process through classroom experience and clinical training in local and community-based settings.

This degree provides not only required core courses in music, clinical studies, and music therapy practice--thereby providing the professional competencies required by the American Music Therapy Association (AMTA)--but also 1200 hours of supervised clinical training (at least 900 of which are completed through the internship process). Completing this degree will prepare students to sit for the certification exam with the Certification Board for Music Therapists (the MT-BC credential).

Requirements: 74 Units

Total units required for graduation: 120

Requirements for the B.A. in Music Therapy

MUS 1000	Music Forum (must take at least 4 times)	4
MUS 2120	Music Theory I: Diatonic Harmony	3
MUS 2125	Musicianship I	2
MUS 2130	Music Theory II: Chromatic Harmony	3
MUS 2135	Musicianship II	2
MUS 2230	Class Piano IV	1
MUS 2660	Electronic Music Production	3
Four units chosen from the student's instrument of study:		4

MUS 1410	Lower-Division Keyboard I
MUS 1420	Lower-Division String Instrument I
MUS 1430	Lower-Division Wind Instrument I
MUS 1440	Lower-Division Brass Instrument I
MUS 1450	Lower-Division Percussion Instrument I
MUS 2400	Lower-Division Voice II
MUS 2410	Lower-Division Keyboard II
MUS 2420	Lower-Division String Instrument II
MUS 2430	Lower-Division Wind Instrument II
MUS 2440	Lower-Division Brass Instrument II
MUS 2450	Lower-Division Percussion Instrument II

Six units chosen from the following (at least two must be MUS 3860)

MUS 2000	Large Music Ensemble
MUS 3800	Symphony Orchestra
MUS 3810	Symphonic Band
MUS 3850	Concert Choir

MUS 3860	Chamber Singers	
MUS 2050	Class Guitar	1
MUS 2060	Class Voice	1
MUS 2700	Music Therapy Orientation	3
MUS 2750	Functional Skills for Music Therapy	3
MUS 2770	Improvisation for Music Therapy	2
MUS 3050	Western Music History from 1700 to 1900	3
MUS 3500	Global Music	3
MUS 3760	Psychology of Music	3
MUS 3780	Clinical Principles in Music Therapy	3
MUS 3781	Music Therapy Observation	2
Two units of Music Therapy Group Lab		2
MUS 3782	Music Therapy Group Lab	
MUS 3790	Music Therapy for Adults	2
MUS 3791	Music Therapy for Children	2
PSYC 1100	Introduction to Psychology	3
PSYC 3390	Abnormal Psychology	3
Four units of Music Therapy Practicum		4
MUS 4700	Music Therapy Practicum	
Internship in Music Therapy (6 units total required)		6
MUS 5754	Internship in Music Therapy	
Total Units		74

Bachelor of Music

The Bachelor of Music program prepares students for careers as professional performers of classical art music or in music teaching. Students must meet rigorous academic and artistic standards to enter and continue in the program, and after graduation the majority of students in performance concentrations pursue advanced music degrees or similar post-baccalaureate training. Students in the music education concentration pursue post-baccalaureate credentials to teach music. The performance concentrations puts particular focus on real world performing as a supplementary learning experience, with emphasis on auditions for professional engagements and competitions, service learning, and formation of ad hoc ensembles. The music education concentration puts similar focus on pre-professional activities, including substantive observations in school music settings, as well as pursuit of meaningful paid or volunteer teaching in such settings.

Entrance to Bachelor of Music requires a demonstration of significant academic, performance, and intellectual achievement. Students may apply at any time for entrance to the Bachelor of Music, but freshmen students usually apply to enter the program after the completion of two semesters of CSUSB coursework, and transfers usually apply immediately before their first semester of enrollment. Students whose initial application does not result in acceptance into the program may apply a maximum of one additional time.

Only Bachelor of Music students in performance concentrations may enroll in "applied and repertoire" courses (MUS 2390-MUS 2395, MUS 3390-MUS 3395, and MUS 4390-MUS 4395), and they may enroll for a maximum of three semesters at each level. After three semesters at one level, a student unable to satisfy completion requirements cannot continue in the Bachelor of Music degree and will be counseled to instead pursue the BA in Music or a degree in some other discipline.

All students enrolled as full-time music majors in the Bachelor of Music are required to participate each semester until graduation in a major performing ensemble most appropriate to a student's applied emphasis:

As prerequisites for acceptance into the Bachelor of Music, students must complete the following as a Pre-Bachelor of Music major.

1. Complete the following courses with a minimum grade of C- in each:

MUS 2120	Theory I	3
MUS 2125	Musicianship I	2
MUS 2130	Theory II	3
MUS 2135	Musicianship II	2

2. Complete 2 units in one of:

MUS 1400	Lower-Division Voice I	1
MUS 1410	Lower-Division Keyboard I	1
MUS 1420	Lower-Division String Instrument I	1
MUS 1430	Lower-Division Wind Instrument I	1
MUS 1440	Lower-Division Brass Instrument I	1
MUS 1450	Lower-Division Percussion Instrument I	1

3. Pass a diagnostic test of music theory knowledge;

4. Pass a performance audition. Students must demonstrate a high potential for success as a professional musical performer or music teacher based on a performance audition for a committee of music faculty. Students must perform two contrasting works of significant repertoire for their audition; vocalists must include works in two different languages;

5. Submit a written essay as part of a formal application process. More information about the essay's expected content is available in the Department of Music's handbook.

Upon acceptance into the Bachelor of Music, the student's major will be changed from Pre-Bachelor of Music to Bachelor of Music. The requirements for the Pre-Bachelor of Music major are also requirements for the Bachelor of Arts in Music. Students who are not accepted to the Bachelor of Music degree, or who decide not to pursue it, can easily change their degree objective to the Bachelor of Arts in Music. More information about the application process is available in the Department of Music's handbook, the department office in Performing Arts, room 111, and by phone at (909) 537-5859. Transfer students who have already completed the Pre-Bachelor of Music requirements listed below should apply to the Bachelor of Music in Performance program immediately after acceptance to CSUSB.

Continuation in and graduation from the program require the following:

1. A minimum GPA of 2.0 in all CSUSB coursework, and a minimum GPA of 2.0 in all CSUSB music coursework. Students whose academic achievement falls below either GPA minimum for two or more consecutive semesters in a row cannot continue in the program;

2. Normally two semesters are required in each level of applied lessons, and a maximum of three semesters of enrollment are allowed in each level. Students not able in three semesters to

complete requirements for an applied level cannot continue in the Bachelor of Music program.

Additionally, before enrolling in MUS 3390 Junior Recital or MUS 5981 Music Education Senior Project, students must satisfy the piano proficiency requirement (by examination or completion of MUS 2210) and complete all "core" music theory and musicianship courses (MUS 2120, MUS 2125, MUS 2130, MUS 2135, MUS 2140, MUS 2145, MUS 2150, and MUS 2155). Approval to give a performance for MUS 3390 Junior Recital or MUS 4990 Senior Recital requires completion of a recital hearing at least four weeks before the planned performance date. Recital hearings are played for a faculty committee that includes a student's studio teacher and at least two other faculty members. For MUS 4990, students must submit written program notes at their hearings that meet writing, formatting, and content standards published in the Department of Music handbook. If program notes do not meet the department's minimum standards, the hearing committee can deny the student permission for the recital performance. The department's handbook is published online at the Music department website.

Requirements (79-82 units)

Total units required for graduation (125-128)

Requirements for the B.M.

Core Requirements (46)

Music Theory		
MUS 2120	Theory I	3
MUS 2125	Musicianship I	2
MUS 2130	Theory II	3
MUS 2135	Musicianship II	2
MUS 2140	Theory III	3
MUS 2145	Musicianship III	2
MUS 2150	Theory IV	3
MUS 2155	Musicianship IV	2
MUS 2660	Electronic Music Production	3
Conducting		
MUS 2100	Conducting	2
Piano proficiency		
MUS 2230	Class Piano IV	1
Piano proficiency can also be met by examination. Contact the Department of Music for details		
Music history		
MUS 3040	Western Music History to 1700	3
MUS 3050	Western Music History from 1700 to 1900	3
MUS 3060	Western Music History from 1900 to the present	3
MUS 3500	Global Music *	3
Eight units chosen from:		8
MUS 2000	Large Music Ensemble	
MUS 3800	Symphony Orchestra	
MUS 3810	Symphonic Band	
MUS 3850	Concert Choir	
MUS 3860	Chamber Singers	
MUS 3880	Women's Chorus	

Participation in one of the major performance organizations most appropriate to the student's major instrument is required each semester in residence with a maximum of eight units being applied to the Major

Concentration (33-36)

Students must satisfy the requirements of one of the concentrations listed below

Total Units **79-82**

* MUS 3500 double counts for General Education's upper-division C-category requirement.

Concentrations (33-36 units)

Conducting Performance Concentration (34)

(Program Code: MUCP)

Two units selected from: 2

MUS 1400	Lower-Division Voice I
MUS 1410	Lower-Division Keyboard I
MUS 1420	Lower-Division String Instrument I
MUS 1430	Lower-Division Wind Instrument I
MUS 1440	Lower-Division Brass Instrument I
MUS 1450	Lower-Division Percussion Instrument I

Two units selected from: 2

MUS 2400	Lower-Division Voice II
MUS 2410	Lower-Division Keyboard II
MUS 2420	Lower-Division String Instrument II
MUS 2430	Lower-Division Wind Instrument II
MUS 2440	Lower-Division Brass Instrument II
MUS 2450	Lower-Division Percussion Instrument II

Two units selected from: 2

MUS 3400	Upper-Division Voice I
MUS 3410	Upper-Division Keyboard Instrument I
MUS 3420	Upper-Division String Instrument I
MUS 3430	Upper-Division Wind Instrument I
MUS 3440	Upper-Division Brass Instrument I
MUS 3450	Upper-Division Percussion Instrument I

Two units selected from: 2

MUS 2010	Class Strings
MUS 2020	Class Woodwinds
MUS 2030	Class Brass
MUS 2040	Class Percussion

Successfully complete each of the following:

MUS 1000	Music Forum ^{Must be taken three times.}	3
MUS 2060	Class Voice	1
MUS 2100	Conducting	2
MUS 2110	Lyric Diction I	2
MUS 2111	Lyric Diction II	2
MUS 3010	Advanced Choral Conducting and Literature	2
MUS 3030	Advanced Instrumental Conducting and Literature	2
MUS 3600	Choral Methods	2

MUS 3702	Symphonic Orchestral Methods	2
MUS 4030	Score Study & Analysis for Conductors	3
MUS 4040	Professional Conducting & Literature	2
MUS 4850	Conducting Pedagogy	2
MUS 4990	Senior Recital	1
Total Units		34

Pre-Certification (Music Education) Concentration (35-36)

(Program Code: MUME)

Applied Study

Two units selected from: 2

MUS 1400	Lower-Division Voice I
MUS 1410	Lower-Division Keyboard I
MUS 1420	Lower-Division String Instrument I
MUS 1430	Lower-Division Wind Instrument I
MUS 1440	Lower-Division Brass Instrument I
MUS 1450	Lower-Division Percussion Instrument I

Two units selected from: 2

MUS 2400	Lower-Division Voice II
MUS 2410	Lower-Division Keyboard II
MUS 2420	Lower-Division String Instrument II
MUS 2430	Lower-Division Wind Instrument II
MUS 2440	Lower-Division Brass Instrument II
MUS 2450	Lower-Division Percussion Instrument II

Two units selected from: 2

MUS 3400	Upper-Division Voice I
MUS 3410	Upper-Division Keyboard Instrument I
MUS 3420	Upper-Division String Instrument I
MUS 3430	Upper-Division Wind Instrument I
MUS 3440	Upper-Division Brass Instrument I
MUS 3450	Upper-Division Percussion Instrument I

MUS 1000 Music Forum (for a total of 4 units)) 4

MUS 2010 Class Strings 2

MUS 2020 Class Woodwinds 2

MUS 2030 Class Brass 2

MUS 2040 Class Percussion 2

MUS 2050 Class Guitar 1

MUS 2114 Introduction to Music Education 2

One course selected from: 1-2

MUS 2060	Class Voice
MUS 2110	Lyric Diction I
MUS 2111	Lyric Diction II

One course selected from: 2

MUS 3010	Advanced Choral Conducting and Literature
MUS 3030	Advanced Instrumental Conducting and Literature

One course selected from: 2

MUS 3600	Choral Methods
MUS 3700	Marching Band Methods
MUS 4085	Instrumentation and Arranging

MUS 4100	Music in the Elementary Schools	3
MUS 4110	Teaching Music in Secondary Schools	3
MUS 5981	Music Education Senior Project	1

Total Units 35-36

Vocal Performance Concentration (33 units)

(Program Code: MUVP)

Applied Study

MUS 1400 Lower-Division Voice I (for a total of 2 units) 2

MUS 2390 Applied Voice and Repertoire I (for a total of 4 units) 4

MUS 3390 Applied Voice and Repertoire II (for a total of 4 units) 4

MUS 4390 Applied Voice and Repertoire III (for a total of 4 units) 4

MUS 1000 Music Forum (for a total of 2 units) 2

Chamber music

Three units chosen from: 3

MUS 3870 Opera Theatre I

MUS 3970 Opera Theatre II

MUS 2110 Lyric Diction I 2

MUS 2111 Lyric Diction II 2

MUS 3110 Performance Literature 2

MUS 4500 Applied Pedagogy 1

MUS 3990 Junior Recital 1

MUS 4990 Senior Recital 1

Language

Three units from German, French, and Italian language, subject to advisor's approval. Additional units in language highly recommended. 3

Elective units in music 2

Total Units 33

Instrumental Performance Concentration (33 units)

(Program Code: MUIP)

Applied Study 14

Two units selected from:

MUS 1420 Lower-Division String Instrument I

MUS 1430 Lower-Division Wind Instrument I

MUS 1440 Lower-Division Brass Instrument I

MUS 1450 Lower-Division Percussion Instrument I

Four units selected from:

MUS 2392 Applied Strings and Repertoire I

MUS 2393 Applied Woodwind and Repertoire I

MUS 2394 Applied Brass and Repertoire I

MUS 2395 Applied Percussion and Repertoire I

Four units selected from:

MUS 3392 Applied Strings and Repertoire II

MUS 3393 Applied Woodwind and Repertoire II

MUS 3394 Applied Brass and Repertoire II

MUS 3395	Applied Percussion and Repertoire II	
Four units selected from:		
MUS 4392	Applied Strings and Repertoire III	
MUS 4393	Applied Woodwind and Repertoire III	
MUS 4394	Applied Brass and Repertoire III	
MUS 4395	Applied Percussion and Repertoire III	
MUS 1000	Music Forum (for a total of 2 units)	2

Total Units		33

Minor in Alternative Styles of Music

This minor is being proposed to meet the needs of our students who frequently come in to the Music Department with a background in alternative styles (jazz, mariachi, rock n'roll, etc.), and are seeking to pursue a career in a field other than western classical music. The minor

essentially requires students to take six units of music history courses that are pertinent to alternative styles, students need to do eight units of "applied" instrument, composing/arranging, and/or technology studies, they have a three unit alternative styles ensemble requirement, and then the music business class "The Artist Entrepreneur's Toolkit" and the Alternative Styles Capstone, which will require them to prepare a final project performance, based on what they have learned and assimilated as performers throughout the coursework for this minor. The goal is to help students become well-rounded in the history, construction, and performance practice associated with alternative styles, and then to be able to couple this knowledge with a music business class and a capstone project that will prepare our students for a career in the "real world" industry of alternative/popular styles of music.

Requirements for a minor in Alternative Styles in Music (21 units)

Pre-requisite requirements: (0)

MUS 1100	Fundamentals of Music Theory
MUS 1110	Basic Musicianship
MUS 2120	Theory I
MUS 2125	Musicianship I

6 units chosen from: (6)

MUS 2350	Popular Music Literature
MUS 3309	Jazz History in America and African-American Culture
MUS 3500	Global Music
MUS 3510	Latin American Music
MUS 3520	African American Music
CAL 1804	Rock and Roll: Justice and Society
MUS 3610	Music in the United States

8 units chosen from: (8)

MUS 2050	Class Guitar
MUS 2200	Class Piano I
MUS 2210	Class Piano II
MUS 2220	Class Piano III
MUS 2224	Popular/Commercial Class Piano
MUS 2600	Commercial Songwriting
MUS 2660	Electronic Music Production
MUS 2670	Sound Recording
MUS 3300	Jazz Improvisation
MUS 4140	Commercial Arranging and Scoring
MUS 4170	Composition for Films and Television
MUS 4290	Topics in Music Technology
MUS 4660	Advanced Electronic Music
MUS 4670	Advanced Studio Recording Techniques

3 units chosen from: (3)

MUS 3827	Chamber Music: Jazz Combo
MUS 3828	Chamber Music: World Music
MUS 3834	El Mariachi Los Coyotes
MUS 3910	Jazz Ensemble
MUS 3920	Vocal Jazz
MUS 3960	Reverence Singers

Required courses: (4)

CAL 4100	The Artist Entrepreneur's Toolkit
MUS 3835	Alternative Styles Capstone
Total Units	21

In addition to the grade point average requirements stated in Program Requirements for a Bachelor's Degree, students must earn a grade of "C" (2.0) or better in all courses required to fulfill the Minor in Alternative Styles of Music.

Minor in Music

The Minor in Music offers the opportunity for non-music majors to participate in the performing, creative, and scholarly activities of the Music Department. The 19-unit minor begins with lower-division introductory studies in music appreciation, music theory, and on performing on an instrument/voice, and continues with participation in chamber and/or large performance ensembles (such as orchestra, choir, or band), as well as upper-division elective courses in the scholarly and/or musicological study of various topics within the discipline.

Requirements for a minor in Music (19 units)

MUS 1800	Music Appreciation	3
----------	--------------------	---

Three units chosen from: 3

MUS 1100	Fundamentals of Music Theory
MUS 2120	Music Theory I: Diatonic Harmony

Two units chosen from: 2

MUS 2050	Class Guitar
MUS 2060	Class Voice
MUS 2200	Class Piano I
MUS 2210	Class Piano II

Nine units chosen from: 9

MUS 3040	Western Music History to 1700
MUS 3050	Western Music History from 1700 to 1900
MUS 3080	Women in Music
MUS 3309	Jazz History in America and African-American Culture
MUS 3500	Global Music
MUS 3610	Music in the United States
MUS 3650	Music for the Screen
MUS 3670	Music in Video Games
MUS 4020	Topics in Music History

Two units chosen from: 2

MUS 3821-3838:	Chamber Music Ensembles
MUS 3800	Symphony Orchestra
MUS 3810	Symphonic Band
MUS 3850	Concert Choir
MUS 3860	Chamber Singers

Total Units 19

Minor in Music Technology

The Minor in Music Technology provides students with a foundational core of study in music theory, electronic music production, and sound

recording. After attaining this proficiency, students then have to opportunity to hone in their focus on a variety of specialized topics, such as analog and digital synthesis, live sound reinforcement, post-production sound design, and scoring for diverse media (including film, television, and video games). The minor is intended to augment career preparation for not only students majoring in music, but also students majoring in other media-related disciplines.

Requirements for a Minor in Music Technology (18 units)

3 units of Music Theory chosen from:	3
MUS 1100	Fundamentals of Music Theory
MUS 2120	Music Theory I: Diatonic Harmony
6 units of the Music Technology core:	6
MUS 2660	Electronic Music Production
MUS 2670	Sound Recording
9 units of advanced electives chosen from:	9
MUS 3070	Electronic and Electroacoustic Music Composition
MUS 3337	Real-Time Multimedia Systems
MUS 3670	Music in Video Games
MUS 4170	Composition for Films and Television
MUS 4180	Film Soundtrack Recording
MUS 4290	Topics in Music Technology (may be repeated multiple times for credit)
MUS 4444	Four on the Floor: Electronic Dance Music in Practice and Culture
MUS 4660	Advanced Electronic Music
MUS 4670	Advanced Studio Recording Techniques
Total Units	18

Department of Philosophy

University Hall, Room 235

(909) 537-5869 Department of Philosophy website (<http://philosophy.csusb.edu>)

Philosophy is excellent preparation for a career in law, business, government, journalism and a wide variety of professional areas; and it is excellent preparation for different sorts of graduate and professional study. Philosophy focuses on clear thinking and critical evaluation of ideas, and thus it provides rigorous training for anyone whose profession involves creative thought, analysis, clear articulation of ideas, clear writing, and application and evaluation of diverse perspectives and methodologies. Philosophy does not provide training in specific job tasks; rather, it focuses on broadly applicable intellectual skills that will prepare students for the more challenging jobs they will encounter as their career advances.

Philosophy's range of application is particularly broad. Through philosophy, one may think about and develop perspectives on topics as diverse as God, science, language, logic, truth, ethics, politics and law. Typically, philosophy leaves aside the doing of the religion and science and asks fundamental questions about the nature of and justification for the various perspectives.

Departmental Honors

To attain departmental honors, a student must write a successful honors thesis under the guidance of a faculty committee. To qualify for the honors program a student must have:

1. An overall grade point average of 3.0 ("B");
2. A grade point average of 3.5 in philosophy courses;
3. At least five philosophy courses must have been taken at California State University, San Bernardino, one of which may be lower-division, not counting courses satisfying the general education requirements.

Application for the honors program must be made in writing to the department two semesters before graduation. Students contemplating an honors thesis are encouraged to consult with a faculty member well in advance and they are also welcome to drop into the department office to request more information.

Current Faculty

Eric Bayruns Garcia, Assistant Professor of Philosophy
B.A. 2013, Hunter College, CUNY
M.A. 2017, The Graduate Center, CUNY
Ph.D. 2019, The Graduate Center, CUNY

Kaitlyn Creasy, Assistant Professor of Philosophy
BA. 2010, New York University
Ph.D. 2017, University of New Mexico

Matthew Davidson, Professor of Philosophy, Chair
B.A. 1994, University of Illinois
M.A. 1997, University of Notre Dame
Ph.D. 2000, University of Wisconsin

Brandon Johns, Lecturer in Philosophy
B.A. 2003, University of California - Riverside
Ph.D. 2012, University of Southern California

John Mumma, Professor of Philosophy

B.A. 1996, Cornell University
M.S. 2006, Ph.D. 2006, Carnegie Mellon University

Chris Naticchia, Professor of Philosophy
B.A. 1985, Cornell University
M.A. 1987, New York University, New York
Ph.D. 1995, University of Virginia, Charlottesville

William Vanderburgh, Professor of Philosophy
B.A. 1993, University of Western Ontario
M.A. 1994, University of Western Ontario
Ph.D. 2001, University of Western Ontario

Emeriti

B. Jill Buroker, Professor of Philosophy

Susan M. Finsen

Paul J. Johnson

Thomas E. Moody

Peter Robertshaw, Professor of Philosophy, Interim Chair, Interim Chair

Tony D. Roy, Professor of Philosophy
B.A. 1979, M.A. 1988, University of California, San Diego
Ph.D. 1991, University of California, Davis

PHIL 4900	Advanced Topics in Philosophy
Electives (15)	

Fifteen units chosen from philosophy courses. Elective units may include philosophy courses taken to satisfy General Education requirements. No more than 6 elective units from philosophy courses numbered 1005 – 3099. In consultation with the chair, philosophy majors are encouraged to include philosophy courses from study abroad in their elective category. Students with philosophy as a double major may complete the elective requirements for the philosophy major by taking up to nine units in non-philosophy courses that are related to the philosophy major. These customized non-philosophy elective packages need to form a coherent plan of study within the philosophy major and should be constructed in consultation with a faculty advisor; the plan of the elective package then needs to be submitted to and approved by the department chair.

Critical Thinking: Majors need not satisfy the GE Critical Thinking Requirement with PHIL 2100; but students who fulfill the requirement with PHIL 2100 thereby satisfy the prerequisite for PHIL 3100.

Minor in Applied Ontology

The minor in applied ontology will help prepare students for jobs in industry (technology and government) that require understanding of applied ontology. Applied ontology finds application in various industries, such as informational system modeling, artificial intelligence, library science, and biomedical research. Large technology and biomedical

companies are hiring people trained in applied ontology to help them organize and implement core business elements. This minor provides the student with training to succeed in this sort of industrial setting.

Minor in Applied Ontology (18-19 units)

Core Requirements (15)

PHIL 1015	Introduction to Knowledge and Reality	3
PHIL 2100	Critical Thinking Through Symbolic Logic	3
PHIL 3100	Predicate Logic	3
PHIL 3550	Metaphysics	3
Three units chosen from:		3
PHIL 4100	Advanced Issues in Logic	
PHIL 3110	Alternative Logics	
PHIL 3560	Philosophy of Logic and Mathematics	
PHIL 4500	Advanced Issues in Metaphysics and Knowledge	
PHIL 3580	Philosophy of Language	

Electives. (3-4) 3-4

Choose 3-4 units from:

PHIL 4100	Advanced Issues in Logic
PHIL 3110	Alternative Logics
PHIL 3560	Philosophy of Logic and Mathematics
PHIL 4500	Advanced Issues in Metaphysics and Knowledge
PHIL 3580	Philosophy of Language
CSE 1100	Critical Thinking Through Computer Programming
CSE 1250	Programming Basics

Total Units **18-19**

No course may count both as satisfying a core requirement and an elective.

Minor in Law and Philosophy

Requirements for a minor in Law and Philosophy (18 units)

Core requirements (9)

PHIL 2100	Critical Thinking Through Symbolic Logic	3
Three units chosen from:		3
PHIL 3350	Philosophy of Law	
PHIL 3355	Jurisprudence	
Three units chosen from:		3
PHIL 3310	Ethics	
PHIL 3330	Social and Political Philosophy	

Electives (9)

Nine units chosen from the following courses, or any 3000 level course above not used to satisfy a core requirement.

PHIL 3100	Predicate Logic
PHIL 3390	Topics in Value Theory
PHIL 4300	Advanced Issues in Value Theory
PHIL 5752	Internship in Philosophy

PHIL 5951	Independent Study	
Total Units		18

The Law and Philosophy minor is open to students in any major. However, only core requirements PHIL 2100 and PHIL 3310 or PHIL 3330 will count toward satisfaction of general education requirements, the philosophy major, the philosophy minor, or the minor in philosophical logic.

Minor in Philosophical Logic

Requirements for a minor in Philosophical Logic (18 units)

Core requirements (9)		
PHIL 2100	Critical Thinking Through Symbolic Logic	3
PHIL 3100	Predicate Logic	3
PHIL 3560	Philosophy of Logic and Mathematics	3
Advanced Issues (3)		
PHIL 4100	Advanced Issues in Logic	3
(Introductory Metalogic or Incompleteness and Computability Topic)		
Electives (6)		
Six units from the non-classical logics topic of PHIL 3110, the inductive logic topic of PHIL 3110, and/or a topic of PHIL 4100 not used to satisfy the advanced issues requirement.		6
Total Units		18

NOTE:

The Minor in Philosophical Logic is open to students in any major. However, only the core requirements PHIL 2100 and PHIL 3100 may also count toward satisfaction of General Education requirements, the philosophy major, philosophy minor, or minor in law and philosophy.

Minor in Philosophy

Requirements for a minor in Philosophy (18 units)

Basic Logic (3)		
PHIL 2100	Critical Thinking Through Symbolic Logic	3
History (3)		
Three units chosen from:		3
PHIL 3210	Ancient Philosophy	
PHIL 3250	Early Modern Philosophy	
PHIL 3290	Topics in the History of Philosophy	
PHIL 3630	Continental Philosophy	
PHIL 4200	Advanced Issues in History of Philosophy	
Metaphysics/Knowledge (3)		
Three units chosen from:		3
PHIL 3550	Metaphysics	
PHIL 3580	Philosophy of Language	
PHIL 3510	Theory of Knowledge	

PHIL 3520	Philosophy of Science	
PHIL 3590	Topics in Metaphysics and Knowledge	
PHIL 4500	Advanced Issues in Metaphysics and Knowledge	
Value Theory (3)		
Three units chosen from:		3
PHIL 3310	Ethics	
PHIL 3320	Latin American Philosophy	
PHIL 3330	Social and Political Philosophy	
PHIL 3350	Philosophy of Law	
PHIL 3355	Jurisprudence	
PHIL 3390	Topics in Value Theory	
PHIL 4300	Advanced Issues in Value Theory	
Electives (6)		
Six units chosen from philosophy courses. Elective units may include philosophy courses taken to satisfy General Education requirements. No more than 3 elective units numbered 1000 – 2999, no more than 3 elective units numbered 3000 – 3099.		6
Total Units		18

The philosophy minor is not open to philosophy majors (since all the courses in the minor contribute to the major). Only the logic requirement PHIL 2100 may also count toward satisfaction of General Education requirements, minor in philosophical logic, or minor in law and philosophy.

Minor in Philosophy, Policy, and Economics

Requirements for a minor in Philosophy, Policy and Economics (21 units)

Students must complete 21 units from the courses listed below with a minimum of six units in each of the fields. Students who major in philosophy, political science or economics must earn 15 units outside their major from the courses listed below.

Philosophy		
PHIL 3330	Social and Political Philosophy	
PHIL 3350	Philosophy of Law	
PHIL 3355	Jurisprudence	
PHIL 3390	Topics in Value Theory	
PHIL 4300	Advanced Issues in Value Theory	
Economics		
ECON 3101	Political Economy of Southern California	
ECON 3103	Environmental Economics	
ECON 3105	Political Economy	
ECON 3109	Political Economy of Women	
ECON 3125	Economic History of the United States	
Political Science		
PSCI 3100	Classical Political Thought	
PSCI 3110	Foundations of Modern Political Thought	
PSCI 3130	Modern Political Thought	

PSCI 3150	Post Modern Political Thought
<hr/>	
Total Units	21

Department of Theatre Arts

Performing Arts Building, Room 111

(909) 537-5876 Department of Theatre Arts website (<http://theatre.csusb.edu/>)

The theatre arts major is a practical liberal arts degree. The broad range of subjects studied enable the theatre student to qualify for a wide variety of fields. Theatre majors are found in the professional areas of live theatre, film, television, corporate and media training, radio, public relations, advertising, business law, teaching, and higher education.

The diverse nature of theatre explores expressions of human interactions and conflict. This study develops intellectual awareness about the human condition. It helps develop skills for working as a theatre artist and as an individual who understands team work.

Liberal studies majors will benefit from a departmental philosophy that good theatre training is also excellent teacher training. Many courses in the department have no prerequisites, and they will help liberal studies students to prepare for careers in teaching.

The Theatre Arts Department produces five major plays during the academic year. The department also presents several student directed/ designed productions. In addition, the department has touring groups including The Imagination Players, an elementary school tour; and the Sun Tour, multiethnic theme plays for high school and community college students.

In addition to acting and backstage opportunities, theatre students are encouraged to work with faculty as assistant directors, designers, stage managers, and in theatre administration. Theatre faculty encourage highly motivated and qualified students to develop their own creative efforts. New student play scripts and innovative approaches to theatre are strongly encouraged.

Emerita

Kathryn Ervin, Professor of Theatre Arts
B.F.A. 1978, Wayne State University
M.F.A. 1980, Illinois State University

Current Faculty

Carol Damgen, Lecturer in Theatre Arts

Bachelor of Arts in Theatre Arts

Requirements (49-55 units)

Total units required for graduation: 120

Requirements for the B.A. in Theatre Arts

Lower Division Requirements (12)

TA 1140	Fundamentals of Acting	3
TA 2131	Fundamentals of Stage Design	3

Lower division technical requirements (6) (for all concentrations EXCEPT TSEC)

6 units chosen from: 6

TA 1631	Makeup for Stage and Screen
TA 2136	Costume Construction
TA 2135	Lighting for Stage and Screen
TA 2134	Sound for Stage and Screen

Upper Division Requirements (19)

TA 3122	Performance Practicum	2
TA 3132	Technical Practicum	2
TA 3143	Fundamentals of Directing	3
TA 3161	Theatre History and Literature I	3
TA 3162	Theatre History and Literature II	3
TA 4163	Criticism of Plays in Performance	3

One from the following courses: 3

TA 4661	Dramatic Literature I: Classical to 1800 (One from the following)
TA 4662	Dramatic Literature II: 19th Century to Contemporary

TA 4663	Dramatic Literature of Identity	
Concentration (18-24)		
Students must satisfy the requirements of one of the concentrations listed below		18-24
Total Units		49-55

Concentrations (18-24 units)

Acting Concentration (24 units)

(Program Code: TACT)

TA 3210	Voice and Movement	3
TA 3240	Scene Study	3
TA 4241	Styles of Acting	3
One course (3) from:		
TA 4242	Acting for the Camera	3
or TA 4510	Acting in Musical Theatre	
TA 4510	Acting in Musical Theatre	3
TA 1141	Improvisation	3
Professional Preparation Courses: (6)		
TA 4170	Theatre Applications/Project Preparation	3
TA 4171	Theatre Arts Capstone	3
Total Units		24

Design/Technical Concentration (18 units)

(Program Code: TADT)

Two of the following courses:		6
TA 3320	Scenic Design	
TA 3330	Costume Design	
TA 3340	Sound Design	
TA 3350	Lighting Design	
Two of the following courses:		6
TA 4320	Scenic Crafts	
TA 4330	Costume Crafts	
TA 4340	Lighting Crafts	
TA 4350	Audio Crafts

TA 4171	Theatre Arts Capstone	3
Total Units		18

Musical Theatre Concentration (21 units)

(Program Code: TMUS)

TA 3210	Voice and Movement	3
TA 3240	Scene Study	3
TA 4515	Singing and Dancing for Musicals	3
One course from the following:		2
TA 3713	Dance Techniques: Tap	
TA 3715	Dance Techniques: Musical Theatre	
TA 3711	Dance Techniques: Jazz	2
TA 3712	Dance Techniques: Modern	2
Professional Preparation Courses: (6)		
TA 4170	Theatre Applications/Project Preparation	3
TA 4171	Theatre Arts Capstone	3
Total Units		21

Theatre for Secondary Education Concentration (24 units)

(Program Code: TSEC)

Pre-Credential Courses: (6)

TA 3210	Voice and Movement	3
TA 3602	Dramatic Analysis and Playwriting for Teachers	3

6 units chosen from: (6)

TA 3320	Scenic Design	
TA 3330	Costume Design	
TA 3340	Sound Design	
TA 3350	Lighting Design	

6 units chosen from: (6)

TA 4241	Styles of Acting	
TA 4242	Acting for the Camera	
TA 4410	Drama in Education	
TA 4420	Touring Practicum	
TA 4430	Puppetry	
TA 4510	Acting in Musical Theatre	
TA 4665	Shakespeare I	
TA 4666	Shakespeare II	

Professional Preparation Courses: (6)

TA 4643	Directing and Devising Performance	3
TA 5170	Teaching Theatre in Secondary Schools	3
Total Units		24

Minor in Dance

Requirements for a minor in Dance (18 units)

Lower-division requirement (3)

TA 2660	Introduction to Theatre	3
---------	-------------------------	---

Upper-division requirement (3)

Three units chosen from:		3
--------------------------	--	---

TA 3122	Performance Practicum	
TA 3123	Performance Practicum	
TA 3131	Technical Practicum	
TA 3132	Technical Practicum	
TA 4420	Touring Practicum	

Electives (12)

Select courses from the list below, in consultation with a Department Advisor, to meet the goals for which the Minor is chosen. A minimum of 12 units must be taken in upper division Dance-related courses in the TA program. 12

TA 2711	Studies in Dance: Jazz	
TA 2712	Studies in Dance: Modern	
TA 2713	Studies in Dance: Tap	
TA 2714	Studies in Dance: Ballet	
TA 3711	Dance Techniques: Jazz	
TA 3712	Dance Techniques: Modern	
TA 3713	Dance Techniques: Tap	
TA 3714	Dance Techniques: Ballet	
TA 3715	Dance Techniques: Musical Theatre	
TA 3720	World Dance Traditions	
TA 3730	Dance Notation	
TA 3731	Dance History	
TA 4440	Creative Movement in the Classroom	
TA 4451	Arts in Action: Dance	
TA 4643	Directing and Devising Performance	
TA 5440	Advanced Creative Dance Methods	

Other TA courses may be included with advisor approval.

Total Units		18
--------------------	--	-----------

Minor in Film Studies

The Minor in Film Studies is ideal for students interested in learning about both film studies and digital media production. Students have the flexibility to take courses that focus on film aesthetics, history, and critical analysis of representation, and those that involve hands-on creation of moving image digital media. Each student can tailor the balance between film studies courses and digital production courses to their own interests. Requires 21 to 25 units.

Requirements for a minor in Film Studies (21-25 units)

Lower-division requirements (3-4)		3-4
Three or four units chosen from:		
ART 2260	Beginning Photography	
COMM 1020	Looking at Movies	
COMM 2351	Television Studio Production	
TA 1160	World Drama	
Upper-division requirements (18-21)		
Six units chosen from:		6
COMM 3331	The Development of Motion Pictures	
COMM 3335	Visual Communication	
ENG 3150	Studies in a Literary Genre ((when the topic is Film and Literature))	
Three units chosen from:		3
COMM 3332	Movies in the Digital Age	
COMM 3333	Film Analysis	
COMM 3339	Topics in Film Studies	
(when the topic is Contemporary Cinema and Society)		
Nine to twelve units chosen from the following two categories:		9-12
Film and Digital Media Theory and Criticism:		
COMM 3102	Media, Culture, and Society	
COMM 3301	Media Institutions in Context	
COMM 3334	Global Cinema	
COMM 3336	Queer Cinema	
ENG 3010	Analysis of Poetry and Drama	
FREN 3112	From Cannes to Cameroon: Francophone Cinema and Culture	
SPAN 4411	Special Topics in Spanish Language Cinema and/or Theatre	
TA 3602	Dramatic Analysis and Playwriting for Teachers	
Digital Media Production:		
ART 3710	Video Art	
COMM 3351	Introduction to Digital Video Editing	
COMM 3353	Digital Video Field Production	
COMM 3354	Fundamentals of Screenwriting	
COMM 3371	Multimedia Journalism	
DES 3600	Digital Motion Graphics	
TA 4242	Acting for the Camera	
Total Units		21-25

Minor in Theatre Arts

Requirements for a minor in Theatre Arts (18 units)

Lower-division requirement (3)		
TA 2660	Introduction to Theatre	3
Upper-division requirement (3)		
Three units chosen from:		3
TA 3122	Performance Practicum	
TA 3123	Performance Practicum	
TA 3131	Technical Practicum	
TA 3132	Technical Practicum	
TA 4420	Touring Practicum	
Electives (12)		
Select courses, in consultation with a Department Adviser, to meet the goals for which the Minor is chosen. A minimum of 12 units must be taken in upper division courses in TA.		12
Total Units		18

Department of World Languages and Literatures

University Hall, Room 314
(909) 537-5847 Department of World Languages and Literatures
website (<http://flan.csusb.edu>)

The Department of World Languages & Literatures offers a wide variety of courses in the world languages, including American Sign Language, Arabic, French, Japanese, Korean, Mandarin Chinese, and Spanish, as well as a number of California Indian languages: Cahuilla, Luiseño, Nahuatl and Serrano. Master's degree is available in Spanish; Bachelor's degrees are available in Arabic, French, and Spanish; minors are available in Arabic, French, Japanese, and Spanish, as well as Asian Studies, Latin American Studies, and World Literatures. Certificates of Competency are available in California Indian Languages and Cultures, Arabic, Japanese Language and Culture, Criminal Justice Spanish, and Healthcare Spanish.

Our classes will teach you to understand, speak, read and write the language you are studying. Our courses promote an understanding of world civilizations and an appreciation of their literatures. This background will prepare you for jobs in a variety of professions such as international trade, librarian, interpreter, translator, foreign service officer, foreign trade specialist, diplomacy, intelligence, teaching and law enforcement.

Study of another language truly places the world in your hands: you will be prepared to meet and work with people from multiple cultures around the world and within the U.S. With the advancement of technology and the global marketplace, study of another language enhances job opportunities for everyone. Be prepared for the world of tomorrow by studying another language today.

A materials fee is required for all undergraduate lecture/seminar courses offered by World Languages and Literatures.

Arabic

The study of Arabic at CSUSB combines training in language, literature, culture, and contemporary affairs of the Arab world. It develops students'

understandings, perspectives, and attitudes of Arab-speaking cultures and people. The program is carefully crafted to allow participants to enrich and broaden their academic training by drawing from disciplines related to and in demand in the Arab World (such as Anthropology, Communication, Comparative Literature, Computer Science, Criminal Justice, Health Care, History, International Business and Law, Linguistics, Political Science, Social Studies, etc.).

A major in Arabic provides a strong and competitive professional background and opens career opportunities especially when combined with an appropriate second major, a teaching credential or a specialized graduate degree.

Graduates with Arabic have found employment in education, international business, foreign trade and banking, government services, science and technology, and the tourism industry. Some careers require additional education or experience yet many positions are available for graduates regardless of academic discipline.

Fulfill the general education requirement in the Humanities (C-2) section by taking one of the following ARAB 1112 or ARAB 2900.

Fulfill the general education requirement in the Arts or Humanities (C-3) section by taking one of the following (if not previously taken) ARAB 1112 or ARAB 2900.

Fulfill the general education requirement in the Upper Division Arts and Humanities (C-4) section by taking one of the following: ARAB 3900, WLL 3920, WLL 3940, or WLL 3950.

French

The B.A. in French is designed to prepare students for the CSET exam (required for the single subject teaching credential in French in California). For information about the professional education component, admission to the teacher education program or specific requirements of the single subject teaching credential, contact the College of Education.

Japanese

The Japanese program offers courses that develop language capabilities and an appreciation and comprehension of the literature and culture of Japan. Fulfill the general education requirement in the Humanities (C-2) section by taking either one of the following courses JAPN 1112 or JAPN 2900.

Spanish

The study of Spanish at California State University, San Bernardino is based on the recognition that Hispanic cultures in the United States form an integral part of American society, and that the Spanish language, far from being "foreign," is spoken in nearly all sections of our nation alongside of English. In some areas of Southern California as well as other parts of the United States, speakers of Spanish outnumber those who speak English. Moreover, the importance of the Hispanic culture in the United States is increasing daily as additional immigrants arrive from Latin America.

Knowledge of Spanish for those seeking employment in our region is critical for the fields of teaching, journalism, publishing, advertising, writing, business, law, law enforcement, government, health services, as well as other career opportunities. Even a basic knowledge of Spanish at the SPAN 1112 level may increase the probability of employment for these and other fields.

Fulfill the general education requirement in the Humanities (C-2) section by taking one of the following courses SPAN 1112 or SPAN 2900.

Fulfill the general education requirement in the Arts or Humanities (C-3) section by taking a course from the following (if not previously taken) SPAN 1112 or SPAN 2900.

Fulfill the general education requirement in the Upper Division Arts and Humanities (C-4) section by taking the following: SPAN 3900, WLL 3920, WLL 3940, and WLL 3950.

The minor in Spanish and the Certificates in Healthcare Spanish and Criminal Justice Spanish can be combined with each other and with any non-Spanish major, giving students additional experience in Hispanic cultures, literature, and linguistics. A double major of Spanish and another subject is also an option.

Departmental Honors

A graduating senior will be awarded departmental honors after meeting the following requirements:

1. Earned a 3.5 grade point average in the major.
2. Completed at least 30 units of the major at this university.
3. Successful completion of an oral and written honors evaluation.

Qualified students should apply for honors recognition before the deadline.

Undergraduate Degrees

Bachelor of Arts

- Arabic Language, Literature, and Culture (p. 228)
- Spanish (p. 228) with concentrations in:
 - Business Studies
 - Communication
 - Hispanic Studies
 - Hispanic Literature, Language, and Civilization

Graduate Degree

Master of Arts

Spanish (p. 226)

Minors

Arabic (p. 230)
French (p. 231)
Japanese (p. 231)
Spanish (p. 231)
World Literatures (p. 232)

World Literatures

The World Literatures minor offers a variety of courses taught in English about literatures from around the world. Students majoring in a world language are often interested in diversifying their knowledge of literature but learning a new language well enough to be able to read those literatures in the original version takes too long. This minor will take advantages of the GE literature in translation courses (i.e. courses taught in English about literatures from around the globe), as well as relevant courses in the English department. The minor will also be of interest to other majors such as English and Theatre Arts, in particular, and enhance their familiarity with literature from various parts of the world.

Fulfill the general education requirement in Upper Division Arts and Humanities (C-4) section by taking the following: WLL 3920, WLL 3940 or WLL 3950

Certificates

- Arabic (p. 233)
- California Indian Languages and Cultures (p. 233)
- Criminal Justice Spanish (p. 234)
- Healthcare Spanish (p. 235)
- Japanese Language and Culture (p. 234)
- Spanish for Business Management and Public Administration (p. 235)

California Indian Languages and Cultures

The California Indian Languages and Cultures certificate offers a variety of courses taught in California Indian languages and in English that inform about worldviews and cultural beliefs of local indigenous groups and center on how social practices of language use shape communication, social life, and sociocultural identity in general and in California Indian contexts.

Master of Arts in Spanish

The M.A. in Spanish focuses on the strengthening of the knowledge of Spanish teachers as well as of the intensive study of literature, linguistics, and culture for those students who will be continuing their advanced studies. The degree is also appropriate for those students seeking employment in the public or private sector in positions that serve the Latino community or require knowledge of Spanish at an advanced level.

The B.A. in Spanish + M.A. in Spanish is a possible pathway for students who wish to complete both degrees. The B.A. in Spanish + M.A. in Spanish provides an accelerated pathway to the completion of the graduate degree by allowing undergraduate students to take 4 graduate level courses (12 units) while in undergraduate status. These 12 graduate level units can double count toward both the undergraduate and graduate degree requirements. Admission to the B.A. in Spanish + M.A. in Spanish is open to students who have a cumulative undergraduate GPA of 3.0 or an average GPA of 3.0 in undergraduate coursework in Spanish completed at the time of the application. Students who have a lower GPA than 3.0 may still apply and will be evaluated based on the strength of their other supporting materials. Admission must be approved by the Department of World Languages and Literatures following the C.A.P.E Scholars Program policies and procedures (Coyote Accelerated Postbaccalaureate Education). Furthermore, students who do not maintain a 3.0 GPA upon completion of the B.A. in Spanish will not be permitted to move to graduate status and will graduate with the B.A.

Students in the B.A. in Spanish + M.A. in Spanish program must choose the following concentration for the BA: Spanish – Hispanic Language, Literature and Civilization Concentration (SLLC).

Admission to the Program

In addition to the general requirements of the University, which include a baccalaureate degree from an accredited college, specific requirements for classification in the program are:

1. Completion of an undergraduate major in Spanish from an accredited institution consisting of at least 30 semester units, or 45 quarter units, or equivalent, of upper-division course work;
2. A cumulative undergraduate grade point average of at least 3.0 ("B"), and a minimum grade point average of 3.0 in all Spanish classes;

3. Good standing at the last college attended (verified by student transcripts, see below);
4. Three letters of recommendation;
5. A one- to two-page statement describing the student's professional goals in the area of Spanish;
6. Submission of official transcripts from all previous college work to the department's graduate committee;
7. Verification of oral and written proficiency in Spanish at the ACTFL level of advanced mid or higher as determined by an entrance exam given by the Department of World Languages and Literatures, CSUSB. (This requirement is waived for candidates who received their B.A. in Spanish from CSUSB within the last five years of application to the M.A. in Spanish.);
8. Students who do not meet the above criteria may be admitted as conditionally classified graduate students per approval by the Graduate Committee and may be required to take additional upper-division Spanish undergraduate courses. Students who do not possess a B.A. in Spanish (but have a degree in another discipline) may also be required to take selected upper-division undergraduate courses (earning a minimum grade of "B" (3.0) in each assigned class).

Admission to the 4+1 Option (Blended Program)

In addition to the general requirements of the university, specific requirements for being invited into the Spanish BA /MA 4+1 Option (blended program) are:

1. Invitee must be a CSUSB undergraduate student with at least a junior year academic standing with at least 60 units completed;
2. Invitee must apply before the completion of 90-105 semester units;
3. Invitee must have completed at least three courses from the Hispanic Language, Literature and Civilization (SLLC) concentration within the Bachelor of Arts in Spanish program with a GPA of 3.0 or higher across all three courses;
4. Invitee's overall CSUSB grade point average (GPA) should be 3.0 or higher or an average GPA of 3.0 in undergraduate coursework in Spanish. Students who have a lower GPA than 3.0 may still apply and will be evaluated based on the strength of their other supporting materials.
5. Invitee should submit two letters of recommendation supporting their application. Letters should be from people able to make relevant comments on the student's ability to succeed in an accelerated BA/MA blended program.
6. Invitee should submit a one-page personal statement giving a sense of who the student is and their particular interests and goals in pursuing a graduate degree.
7. Invitee should submit a 5-10 page writing sample in Spanish that showcases the student's ability to think critically and articulate their ideas in writing.

Students who accept invitation into the Spanish BA/MA 4+1 program shall be designated as CAPE undergraduates until the BA is conferred. Then they will move to CAPE graduate status.

Advancement to Candidacy

To be advanced to candidacy, the student must have:

1. Achieved classified status;
2. Completion of the writing requirement for graduate candidacy through completion of a program-specific writing intensive mandatory course, SPAN 6606, with a grade no lower than B;
3. Completed all course work taken before advancement to candidacy with a minimum grade point average of 3.0 ("B"). Completed all course work with no more than one course with a grade of "C" or lower. If a second such grade is earned, the student will be dismissed from the program, but may petition the graduate admission committee for readmission. After reviewing the petition, the committee may allow readmission under such conditions as it deems appropriate. A third grade of "C" or lower will result in permanent dismissal from the program with no recourse to petition;
4. Submission of appropriate documentation verifying knowledge of a language other than English or Spanish at either the 1112 or second semester (or equivalent) level.

Requirements for Graduation

1. Advancement to candidacy;
2. Successful completion of 30-semester units of acceptable graduate work with at least 23 units completed at CSUSB. All coursework taken at other institutions must be approved by the Graduate Committee;
3. An overall GPA of at least 3.0 ("B") in all graduate-level course work;
4. Successful completion of Culminating Experience: SPAN 6698;
5. The graduation writing requirement is met upon the successful completion of SPAN 6606.

Degree Requirements (30 units)

Hispanic Literature, Linguistics, and Civilization (Program Code: SPNM)

Designed for students who wish to pursue an in-depth study of Spanish, Spanish American, and Latino literatures along with Spanish linguistics, and to prepare students for further advanced study.

Core Courses (3)

SPAN 6606	Research Methods	3
-----------	------------------	---

Students may only count four 5000-level courses towards the M.A. (at least six courses must be at the 6000-level)

Linguistics Electives (9)

Nine units (three of the following courses):

SPAN 5505	Seminar in Hispanic Linguistics
SPAN 5507	Seminar in Special Interdisciplinary Topics in Spanish Literature, Linguistics, or Culture
SPAN 6608	History of the Spanish Language
SPAN 6615	Second Language Acquisition in Spanish
SPAN 6620	General Spanish Linguistics
SPAN 6655	Spanish Applied Linguistics
SPAN 6656	Spanish Semantics and Pragmatics

Literature Electives (18)

Eighteen units (six of the following courses) - students must take at least one course in Peninsular literature and one course in Spanish American literature:

SPAN 5501	Seminar in Peninsular Literature, Culture, Theater and Film
-----------	---

SPAN 5503	Seminar in Spanish American Literature, Culture, Theater and Film	
SPAN 5507	Seminar in Special Interdisciplinary Topics in Spanish Literature, Linguistics, or Culture	
SPAN 6625	Spanish Peninsular Literature	
SPAN 6630	Spanish American Literature	
SPAN 6650	Spanish Peninsular Literature and Culture	
SPAN 6651	Spanish American Literature and Culture	
SPAN 6652	Modern Spanish American Literature	
SPAN 6653	Contemporary Chicano/Latino Literature in Spanish	
SPAN 6654	Modern Spanish Peninsular Literature	
Culminating Experience (0)		0
Total Units		30

Culminating Experience (0 units)

Bachelor of Arts in Arabic Language, Literature, and Culture

Requirements (44 units)

Total units required for graduation: 120

Requirements for the B.A. in Arabic Language, Literature, and Culture

(Program Code: ARAB)

1. Proficiency in Arabic equal to that of ARAB 1112 or equivalent.
2. No more than 18 units in Arabic can be transferred from other institutions.
3. Students who have completed high school in an Arab country may get credit for up to 8 units of second year Arabic.
4. Students who have completed Arabic as a second language in High School must take a placement exam. Highest placement is second year Arabic.

Lower-division requirements (8)

Eight units chosen from:		8
ARAB 2111	Arabic Communication	
ARAB 2112	Arabic Literature and societies	
ARAB 2113	Arabic Media	
ARAB 2114	Arabic for Professional Communication	

Upper-division requirements (15)

ARAB 3111	Arab Culture, Media and Identity	3
ARAB 3112	Explorations of Arabic Literary Texts	3
ARAB 3113	Spoken Arabic	3
ARAB 3114	Introduction to Arabic Linguistics	3
ARAB 3150	Arabic Conversation Activity	1

ARAB 3160	Writing Explorations	1
ARAB 4500	Signature Work	1

Electives (21)

Twenty one units chosen from: 21

(Only 6 units may be chosen from courses taught in English)

ARAB 3115	Introduction to Arabic Translation	
ARAB 3116	Explorations in Arabic Media	
ARAB 3117	Advanced Arabic for Professional Communication	
ARAB 4112	Advanced Readings in Arabic	
ARAB 4113	Arabic Pedagogy	
Courses Taught in English		
ARAB 3900	Female Voices in Arab American Literature (Taught in English)	
ARAB 4900	Voices and Visions from the Arab World (Taught in English)	
ARAB 5900	Global Perspectives and Study Abroad	
Total Units		44

Minor/Certificate in Islamic and Middle Eastern Studies

Students receiving a minor, certificate or B.A. in Arabic Language, Literature and Culture may also be able to earn a minor or certificate in Islamic and Middle Eastern studies.

Bachelor of Arts in Spanish

The B.A. in Spanish coursework includes the following areas: Culture, Linguistics, Peninsular Literature, and Spanish American Literature, some with interdisciplinary approaches. These areas serve students as subject matter preparation for the single-subject teaching credential, bilingual teaching, as well as students with career plans in journalism, advertising, professional writing, law, criminal justice, business, public services, healthcare-related fields, national security, diplomatic services, translation services, publishing, entertainment, and others.

Requirements (48-57 units)

Total units required for graduation: 120

Requirements for the B.A. in Spanish

Core Requirements (37)

Eight units chosen from:		8
SPAN 2111	Intermediate Spanish 1st Semester	
SPAN 2112	Intermediate Spanish 2nd. Semester	
SPAN 2151	Accelerated Intermediate Spanish	
SPAN 2251	Intermediate Healthcare Spanish I

Certificate in Arabic

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 6000-level courses as requirements and/or electives. These 6000-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Certificate Requirements (18 units)

Proficiency in Arabic equal to ARAB 1112 or equivalent. Entering students with previous training in Arabic or those who are native speakers should contact the Department of World Languages and Literatures or the Arabic program coordinator for information about placement and credit by examination. Students with no prior exposure to Arabic need to take ARAB 1111, ARAB 1112, and ARAB 1102 which will not count toward the 18-unit requirement for the certificate.

Lower-division requirements (8)

Eight units chosen from: 8

ARAB 2111	Arabic Communication
ARAB 2112	Arabic Literature and societies
ARAB 2113	Arabic Media
ARAB 2114	Arabic for Professional Communication

One unit chosen from (1) 1

ARAB 3150	Arabic Conversation Activity
ARAB 3160	Writing Explorations

Upper-division requirements (9)

Nine units chosen from 9

(Only 3 units may be chosen from courses taught in English)

ARAB 3111	Arab Culture, Media and Identity
ARAB 3112	Explorations of Arabic Literary Texts
ARAB 3113	Spoken Arabic
ARAB 3114	Introduction to Arabic Linguistics
ARAB 3115	Introduction to Arabic Translation
ARAB 3116	Explorations in Arabic Media
ARAB 3117	Advanced Arabic for Professional Communication

Courses taught in English:

ARAB 2900	Arabic Literature in Translation
ARAB 3900	Female Voices in Arab American Literature
ARAB 4900	Voices and Visions from the Arab World
ARAB 5900	Global Perspectives and Study Abroad

Total Units 18

Certificate in California Indian Languages and Cultures

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 6000-level courses as requirements and/or electives. These 6000-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Admission to the Program

1. Students must meet general university admission requirements.
2. Students in all majors are eligible to participate in this program.

Certificate Requirements (18 units)

ENG 3140	Native American and Indigenous Literatures	
ENG 3190	Studies in Literary Diversity	
ENG 5270	Studies in Language and Linguistics	
COMM 2201	Intercultural Communication	
COMM 3102	Media, Culture, and Society	
Total Units		18

* Special Topics Courses require approval from the Certificate Coordinator Prof. Carmen Jany. Contact her at cjany@csusb.edu or at UH-314.

Certificate in Criminal Justice Spanish

The Certificate Program in Criminal Justice Spanish focuses on specialized competency-based and profession-oriented language and culture instruction for students in criminal justice and related fields to meet the needs for expertise and competence in the Spanish language and cultures.

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 6000-level courses as requirements and/or electives. These 6000-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Certificate Requirements (18 units)

Admission to the Program

1. Students must meet general university admission requirements.
2. Students in all majors are eligible to participate in this program.

Required Courses

SPAN 2261	Intermediate Criminal Justice Spanish I	4
SPAN 2262	Intermediate Criminal Justice Spanish II	4

SPAN 3061	Criminal Justice and Cultures of Spain and Latin America	3
SPAN 4401	Spanish for the Professions (Needs to be Criminal Justice)	3
SPAN 4402	Spanish for the Professions Activity (Needs to be Criminal Justice)	1
Service Learning - three units chosen from: (3)		3
SPAN 4443	Internship Project	
SPAN 5557	Study Abroad and International Experience (OR equivalent service-learning course)	
Total Units		18

Certificate in Japanese Language and Culture

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 6000-level courses as requirements and/or electives. These 6000-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Certificate Requirements (17 units)

Proficiency in Japanese equal to JAPN 1111 or equivalent.

Note: Entering students with previous training in Japanese or those who are heritage/native speakers should contact the Department of World Languages and Literatures for information about placement and credit by examination. Students with no prior exposure to Japanese must complete JAPN 1111 which will not count toward the 17-unit requirement for the certificate.

Lower-Division Core (11)

JAPN 1112	Beginning Japanese II	3
JAPN 2111	Second Year College Japanese A	4
JAPN 2112	Second Year College Japanese B	4

Electives (6)

6 units chosen from: **6**

JAPN 2100	Japanese Calligraphy	
JAPN 2204	Conversation in Japanese	
JAPN 2900	Japanese Literature in English	
JAPN 3100	Analysis of Japanese Culture through Film	
JAPN 3111	Third Year College Japanese A	
JAPN 3112	Third Year College Japanese B	
JAPN 3204	Advanced Conversation in Japanese	

JAPN 3900	Voices & Visions from the World of Japanese Anime and Manga
May substitute no more than 3 units from the list below:	
JAPN 3701	Study Abroad in Japan
JAPN 3702	Study Abroad in Japan
JAPN 3703	Study Abroad in Japan
WLL 3891	Community Service Project
WLL 3892	Community Service Project
WLL 3893	Community Service Project
Total Units	17

Certificate in Healthcare Spanish

The Healthcare Spanish Certificate Program has 18 units, of which 8 units are Lower Division and 7 units are Upper Division, in addition to 3 units of service-learning.

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 6000-level courses as requirements and/or electives. These 6000-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Certificate Requirements (18 Units)

Certificate Requirements (15)

SPAN 2251	Intermediate Healthcare Spanish I	4
SPAN 2252	Intermediate Healthcare Spanish II	4
SPAN 3051	Culture, Health, and Food in Latin America	3
SPAN 4401	Spanish for the Professions	3
SPAN 4402	Spanish for the Professions Activity	1

Service Learning (3)

Three units chosen from:		3
SPAN 5557	Study Abroad and International Experience	
SW 4011, SW 4012 or any 5000-level internship related to health care		
SPAN 4443	Internship Project	

Total Units **18**

Certificate in Spanish for Business Management & Public Administration

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 6000-level courses as requirements and/or electives. These 6000-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

The Certificate in Spanish for Business Management and Public Administration has 18 units, of which 8 units are Lower Division and 7 units are Upper Division, in addition to 3 units of service-learning.

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or

Liberal Studies Program

James R. Watson and Judy Rodriguez Watson College of Education Building, Rm-114
(909) 537-5857 Liberal Studies website

Coordinator: Kelly Dortch

Associate Coordinator: Dany Doueiri

Peer Ambassadors for Liberal Studies (PALS) Studio
 James R. Watson and Judy Rodriguez Watson College of Education Building, Rm-114
 (909) 537-5482

The Bachelor of Arts in Liberal Studies (p. 236) is a multidisciplinary degree program designed for students whose needs or interests require a more broadly based liberal arts curriculum than is possible through existing disciplines.

Most students pursuing this major intend to become teachers in K-8 classrooms. To facilitate achieving this goal, the Liberal Studies program provides the subject matter content that is aligned with the California Commission on Teacher Credentialing (CCTC) guidelines.

The Integrated concentration leads to both a Bachelor of Arts degree in Liberal Studies and a Multiple Subject Credential. It is designed for students who plan to become elementary, K-8, school teachers and who want to save time and money by working on the credential along with their B.A. degree. (Credential).

The General concentration prepares students to enter the Multiple Subject (elementary school) teaching credential program, generally during post-graduate study in the James R. Watson and Judy Rodriguez Watson College of Education. This option is best for those seeking credentials other than the Multiple Subject Credential, such as special education or for students who wish to earn a master's degree along with their credential. (Pre-Credential).

The Spanish Studies concentration prepares students to enter the Multiple Subject (elementary school) teaching credential program, generally during post-graduate study in the James R. Watson and Judy Rodriguez Watson

College of Education. This concentration is especially designed for those students interested in pursuing the added Bilingual Authorization as part of a post-graduate credential program in preparation to teach in a bilingual Spanish classroom setting. (Pre-Credential).

The Bachelor of Arts in Liberal Arts (p. 161) represents a broad, interdisciplinary approach to earning a higher education degree. The B.A. in Liberal Arts is designed for students, who might not necessarily desire a career in education but who still wish to obtain a multidisciplinary degree that is transferable to many of the needs of the twenty-first century. (Non-Credential)

Departmental Honors

The Liberal Studies/Liberal Arts student will be eligible for departmental honors upon verification of the following three requirements:

1. Earned a 3.5 or greater grade point average in the major.
2. Completed at least 30 units of Liberal Studies/Liberal Arts courses at this university.
3. Successfully completed the oral and written honors evaluations as determined by the Liberal Studies Coordinator.

Undergraduate Degrees

Bachelor of Arts

Liberal Arts (p. 161)

Liberal Studies (p. 236) with concentrations in:

- General
- Integrated
- Spanish Studies

Bachelor of Arts in Liberal Studies

The BA in Liberal Studies major is designed to prepare students for Multiple-Subject Teaching Credential Programs in California. It has three concentrations: Precredential-General (12 units); Precredential-Spanish Studies (10 units); and Credential-Integrated (33 units). Students who are not planning for a teaching career but are interested in a liberal arts education, please consult the BA in Liberal Arts degree.

Unless otherwise specified, grades in lower division courses (2999 and below) must be a "C-" or better; grades in upper division courses (3000 and above) must be a "C" or better.

All graduating Liberal Studies students must maintain a minimum grade point average (GPA) of 2.0 ("C"). Students who plan to seek their Multiple Subject Teaching Credential at CSUSB must achieve a minimum GPA of 2.67. Other institutions offering Multiple Subject Teaching Credentials may have different GPA requirements, usually between 2.5 to 3.0.

BA in Liberal Studies (120+ units) consists of GE (43 units), American Institutions Requirement (3 units), and the major, which is divided into the core (66-72) and concentrations (10-33).

13 units in the core will also count for GE and American Institutions requirements.

Students should pay special attention to the following classes that satisfy the requirements of both GE and the core of the major. Be sure to take them in their respective GE categories.

B1/5A and B3/5C: GEOL 1090

B2/5B: BIOL 1000 or BIOL 1010

D1/4 and American Institutions: HIST 1460, HIST 2000 & HIST 2010, or PSCI 2030

Advising for the Liberal Studies major is offered by the Liberal Studies Office <https://www.csusb.edu/liberal-studies> (<https://www.csusb.edu/liberal-studies/>).

Requirements (76-105 units)

Total units required for graduation: 120

Requirements for the B.A. in Liberal Studies

The core of the program has four areas: Arts and Humanities, Natural Sciences and Mathematics, Social Sciences and Child Development, and Program Requirements.

These areas are designed to provide students with coursework that is both foundational and focused. The first three areas – Arts and Humanities, Natural Sciences and Mathematics, Social Sciences and Child Development – enable students to build a broad repertoire of knowledge in the arts, humanities, natural and social sciences, technology, and civics and government. These areas of knowledge ensure a well-rounded education for students; they also provide the content of what they will teach in California's K-8 schools. The program requirements include courses on learning assessment and metaknowledge of their studies and chosen careers.

Area 1: Arts & Humanities (15)

Choose one of the following: 3

ENG 3010	Analysis of Poetry and Drama
ENG 3030	Analysis of Fiction and Nonfiction Prose
PHIL 3008	Philosophy in World Literature
TA 3602	Dramatic Analysis and Playwriting for Teachers

ENG 3110 Introduction to Linguistics 3

Choose one of the following: 3

ENG 3200	Literature for Children and Young Adults
PHIL 3006	Philosophy in Children's Literature
PHIL 3007	Philosophy in Young Adult Literature
TA 4664	Theatre for Youth: History and Literature

Choose one of the following: 3

AAED 2431	Art in the Classroom
AAED 3431	Art and Human Development
AAED 3432	Critical and Pedagogical Theories in Contemporary Art and Design Education
ART 3000	Art and Activism
ART 4450	Arts in Action: Visual Art
COMM 3305	Digital Media and Society
COMM 3332	Movies in the Digital Age
COMM 3333	Film Analysis
COMM 3334	Global Cinema
COMM 3335	Visual Communication

Choose one of the following: 3

MUS 2266	Creating Digital Media Using Personal Electronic Technology
MUS 3705	Music for Elementary Classroom Teachers
MUS 4100	Music in the Elementary Schools
MUS 4455	Arts in Action: Music
TA 2640	Acting for All Majors
TA 3410	Theatre in the Classroom
TA 4410	Drama in Education
TA 4420	Touring Practicum
TA 4430	Puppetry
TA 4440	Creative Movement in the Classroom
TA 4450	Arts in Action: Theatre

Area 2: Natural Sciences & Mathematics (23-26)

Choose one of the following: 3

BIOL 1000	Introduction to Biology
BIOL 1010	Biology for Teachers
HSCI 1000	Concepts in Health
KINE 3520	Movement for Children
MATH 3010	Mathematical Concepts and Problem Solving for Educators I
MATH 3012	Mathematical Concepts and Problem Solving for Educators II
MATH 3013	Mathematical Concepts and Problem Solving for Educators III
GEOL 1090	Earth: The Blue Planet

Choose one of the following: 3-6

CHEM 1000 & PHYS 1000	Introduction to Chemistry and Physics in the Modern World
NSCI 1300	Survey of Chemistry and Physics
PHYS 3060 & CHEM 1090L	Physics and Astronomy in the Classroom and Structures and Properties of Matter Laboratory
PHYS 1000 & CHEM 1090L	Physics in the Modern World and Structures and Properties of Matter Laboratory

Area 3: Social Sciences & Child Development (18-21)

Choose one of the following: 3

HIST 1460	History of the United States: Pre-Colonization to Present
HIST 2000	United States History to 1877
HIST 2010	United States History, 1877 to the Present
PSCI 2030	Government of the United States
HIST 2700	California History
ECON 3199	Economics in the Elementary and Middle School

Choose one of the following: 3-6

EDMS 3010	Growth and Development in Socio-Educational Contexts
-----------	--

ENG 3310 & CD 2246	Child Language and Literacy Development and Observation and Methods: School Age Development	
CD 2240 & CD 2246	Introduction to Child Development and Observation and Methods: School Age Development	
Choose one of the following:		3
GEOG 1010	Introduction to Human Geography	
GEOG 1650	World Regions and Peoples	
GEOG 3605	Geography in the Elementary and Middle School Classroom	
Area 4: Program Requirements (10)		
CAL 2970	Liberal Studies: Foundation Seminar and Assessment Preparation	3
CAL 3970	Gateway to Liberal Studies	3
CAL 5900	Liberal Studies and Liberal Arts Senior Assessment and Writing Workshop	2
EDMS 2301	Introduction to Education	2
Concentration (10-33)		
Students must satisfy the requirements of one concentration below.		10-33
Total Units		76-105

Concentrations (10-33 units)

Note: Courses completed for this program or for the General Education program cannot be applied to any concentration.

Pre-Credential General Concentration

(Program Code: LBSG)

Twelve units of electives from the Colleges of Arts and Letters, Natural Sciences, and Social and Behavior Sciences, three of which must be upper-division (numbered 3000 and above).

This concentration is for students who wish to design their own course of study. They can seek the breadth of knowledge by taking classes from all three academic colleges mentioned above. They can also focus on particular areas by selecting classes in one area of study. In the latter case, they are encouraged to consult with the Liberal Studies Office and/or relevant departments.

Students who wish to pursue a credential in Special Education should take ESPE 3350, , ESPE 5530, ESPE 5531, or ESPE 5532 as one of their electives.

Pre-Credential Spanish Studies Concentration

(Program Code: LBSS)

The Precredential-Spanish Studies Concentration is designed for those students interested in the Bilingual Added Authorization in the Multiple Subject Credential program, which gives them the eligibility to teach in a bilingual/Spanish classroom setting.

SPAN 3305	Applied Spanish Grammar	3
Select one of the following combinations:		4

SPAN 3301 & SPAN 3302	Advanced Spanish Language and Composition and Advanced Spanish Language and Composition Writing Lab	
SPAN 4401 & SPAN 4402	Spanish for the Professions and Spanish for the Professions Activity	
Choose one of the following courses:		3
ANTH 3601	Case Studies in Linguistic Anthropology	
ANTH 3701R	Cultures of Mexico and Central America	
ANTH 3702R	Anthropology of South America	
ART 2329	Xicanx Art	
CAL 3350	Latinx Border Identity: A Transmedia Perspective	
CAL 5763	International Experience: Latin American Studies	
CAL 5823	International Experience: European Studies	
COMM 4302	Latinx, Media, and Cultures	
GEOG 4055	US-Mexico Border Region	
HIST 3710	California Indian History	
HIST 3900	History of Modern Mexico	
HIST 3910	Chicana/o History	
HIST 4650	Modern Central America	
HIST 4660	Foreign Relations of Latin America	
HIST 4670	Latin American History Through Film	
HIST 4690	Colonial Latin America	
HIST 4700	Modern Latin America	
HIST 5640	Chicana/Mexicana Feminisms	
HIST 5680	History of the U.S. - Mexico Borderlands	
MGMT 4050	Managing Across Borders	
MUS 3510	Latin American Music	
SOC 3420	The Latino Family	
SOC 4420	The Latino Experience in the U.S.	
SOC 4510	Sociology of Migration	
SOC 4530	Citizenship, Status, and Inequality	
Any 3000+ SPAN course not taken elsewhere to fulfill degree requirements.		
Total Units		10

Credential-Integrated Concentration

(Program Code: LBSI)

This concentration includes all the courses in the CSUSB Multiple Subject Credential program. It offers students a cost-cutting and time-saving option by allowing them to complete the BA degree and the credential coursework simultaneously. Reminder: Formal admission into the Multiple Subject Credential Program at CSUSB is required before commencing Credential-Integrated Concentration courses.

EDMS 4100	Psychological Foundations of Education	3
EDMS 4101A or EDMS 4101B	Language Arts Teaching and Learning Language Arts Teaching and Learning in Bilingual Settings	3

EDMS 4102	Pedagogical Foundations for Teaching English Learners	3
EDMS 4103	Creating Supportive and Engaging Learning Environments	2
EDMS 4107A	Supervised Student Teaching in Multiple Subject	6
EDMS 4110	Assessment Seminar: CalTPA Cycle	3
EDMS 5104	Mathematics Teaching and Learning	3
EDMS 5105	Science Teaching and Learning	3
EDMS 5106A	Social Studies and the Arts Teaching and Learning	3
or EDMS 5106B	Social Studies and the Arts Teaching and Learning in Bilingual Settings	
EMAT 5100	Technology and Instructional Practices for Educators	1
EMAT 5101	Education, Diversity and Social Justice	3

Graduate Degree

Master of Science

- Materials Science (p. 241)

Undergraduate Degree

Bachelor of Science

- Natural Science (p. 242) with concentrations in:
 - Biology
 - Chemistry
 - Physics
 - Science and Society

Minor

Entrepreneurship in the Sciences (p. 244)

Master of Science in Materials Science

The MS Materials Science degree is appropriate for students who have earned bachelor's degrees in either chemistry, physics, materials science or related fields. Other STEM degree recipients may be accepted with appropriate additional coursework. There are two tracks for this MS Degree with a common core of courses: a thesis option, appropriate for students interested in continuing their scientific education, and an Entrepreneurial option, appropriate for students wanting to combine materials science with business.

Admission to the Program

Specific requirements to be considered for admission to the program are:

1. A baccalaureate degree from an accredited college or university.
2. Completion of an undergraduate major in physics, chemistry, materials science or related majors. Additional undergraduate coursework may be required for related majors.
3. A cumulative undergraduate grade point average of at least 2.5 overall, and in all courses used for credit in the major (3.0 recommended).
4. Submission of scores from the Graduate Record Examination (GRE) to Graduate Admissions is optional, and may provide evidence of mastery of quantitative skills in the absence of a high GPA.
5. Submission to the Graduate Coordinator of a one to two-page, typewritten statement of the student's preparation for graduate study, goals in the graduate program, potential area of study and possible advisor, and professional goals following completion of the M.S.
6. Submission of three letters of recommendation from people who are in a position to make relevant comments on the student's intent and potential for success in the program. At least two of the letters should be from current or former college or university faculty familiar with the student's scholarship and related activities, or from current or former employers in STEM industries/government labs. All letters should be sent to the Graduate Coordinator.

Students are accepted by the Program Graduate Committee as classified students for admission for Fall semester. Spring admissions may be considered under compelling circumstances. In some cases, students who do not meet these criteria may be conditionally admitted to the program. Please consult the Graduate Coordinator for more information.

Advancement to Candidacy

To be advanced to candidacy, the student must have:

1. Achieved classified status;
2. Been accepted by a major advisor from the M.S. in Materials Science program;
3. Completed at least 6 semester units of work applicable to the degree program as a graduate student at this university, and with a minimum grade point average of 3.0;
4. Submitted a formal program of graduate course work, in addition to a project or thesis proposal, prepared in consultation with and approved by the student's thesis committee, and approved by the graduate coordinator;
5. Gained final approval of the program and of the candidacy itself by the Dean of Graduate Studies.

Requirements for Graduation

1. A minimum of 30 semester units of acceptable graduate level work included in the formal program, with no less than 21 units completed in residence at this University and with at least 21 units gained from 5000- and 6000-level courses approved by the program;
2. Advancement to candidacy for the degree and approval of the specific program of courses;
3. A cumulative grade point average of "B" (3.0) or better in all graduate course work fulfilling the requirements of the program, and a grade of "C" (2.0) or better in each course in the program;
4. Completion and defense of an entrepreneurial project, or a thesis;
5. The graduation writing requirement is met upon successful completion of the project or thesis, if not met earlier;
6. Any additional general requirements not cited above and listed in [Graduate Degree and Program Requirements](#).

Degree Requirements (30 units)

CHEM 4800	Chemistry Foundations for Material Science	3
or PHYS 3100	Mathematical Methods of Physics	
MSCI 6110	Material Structure	3
MSCI 6000	First Year Materials Science Seminar	1
MSCI 6120	Material/Solid State Properties	3
MSCI 6130	Thermodynamics of Materials	3
MSCI 6500	Advanced Instrumentation and Experimentation in Materials Science	2
MSCI 6050	Second Year Materials Science Seminar	1
Concentration		14
Total Units		30

Concentrations (14 units)

Interdisciplinary Materials Investigation Concentration

(Program Code: MSIM)

Research Units: a minimum of 4 units must be taken from a combination of the following, repeatable courses. 4

MSCI 6952	Graduate Research in Materials Science
MSCI 6953	Graduate Research in Materials Science

Electives: a minimum of 6 units, chosen in consultation with your graduate advisor or thesis/project advisor 6

CHEM 4300	Inorganic Chemistry
CHEM 5002	Topics in Chemistry (When topic is materials related)
CHEM 5100	Polymer Science
CHEM 5150	Materials Chemistry
CHEM 5410	Solid State Chemistry
CHEM 5550	Computational Chemistry
GEOL 5300	Microscopy

ENTR 6230	Exploring Entrepreneurial Opportunities	3
ENTR 5410	Commercializing Entrepreneurial Innovation	3
MSCI 6965	Materials Entrepreneurial MS Project	5
Total Units		14

Culminating Experience

- Students in the Graduate Thesis Concentration will take MSCI 6973 for their culminating experience.
- Students in the Entrepreneurial Concentration will take MSCI 6965 for their culminating experience.

Bachelor of Science in Natural Science

The BS Natural Sciences Degree is designed for students seeking an interdisciplinary background in the life, physical, and general science. The major consists of a comprehensive core of biological and physical science foundation courses combined with a variety of science and laboratory course electives. Students intending to earn a graduate degree in one of the sciences should pursue a BS degree in the discipline in which they are interested. This program is not designed to prepare students for graduate programs in Biology, Chemistry or Physics.

Requirements (56-78 units)

Total units required for graduation: 120

Lower-Division Requirements (35-41)

Introduction to the Natural Science		
NSCI 2300	Introduction to the Natural Science	1
Statistics (select one course below)		3

MATH 1201	Introduction to Statistical Thinking	
HSCI 2203	Introduction to Statistics in Health Sciences	
MATH 2265	Statistics with Applications	
KINE 3700	Statistics in Kinesiology	
Calculus (Select one course)		3-4
MATH 1601	Modeling with Calculus	
MATH 2210	Calculus I ^{Required to meet prerequisites in the Physics concentration.}	
Biology Series I (Select Group A or B) ^{Group B is required to meet prerequisites in the Biology concentration.}		4-5
Group A		
BIOL 1000 & 1000L	Introduction to Biology and Introduction to Biology Lab	
Group B		
BIOL 2010	Principles of Biology I	
Biology Series II (Select Group C, D, or E) ^{Group E is required to meet prerequisites in the Biology concentration.}		5-8
Group C		
BIOL 2200	Microbiology for Allied Health Majors	
BIOL 2230	Human Anatomy and Physiology I for Allied Health Majors	
Group D

Upper-division requirements (9)

NSCI 3300	Natural Science Mid-Program Assessment	1
NSCI 4300	Natural Science Capstone	2
Choose one of the following	Geology courses (meets GE B5 requirement)	3
GEOL 3020	Natural Disasters	
GEOL 3040	Energy and the Environment	
Minimum of 3 upper-division general science electives from below:	Cannot also be used in concentration	3
Any biology labeled BIOL 3100 or higher.		
CHEM 3200	Quantitative Analysis	
or CHEM 3400	Principles of Organic Chemistry I	
or CHEM 3500	Principles of Organic Chemistry II	
or CHEM 5100	Polymer Science	
or CHEM 5150	Materials Chemistry	
or CHEM 5200	Instrumental Analysis	
or CHEM 5300	Environmental Chemistry	
or CHEM 5320	Atmospheric Chemistry	
or CHEM 5400	Chemistry of the Elements	
or CHEM 5420	Pyrotechnics	
or CHEM 5500	Medicinal Chemistry	
HSCI 3052	Principles of Environmental Health	
or HSCI 3067	Human Diseases and Disorders	
or HSCI 3067	Human Diseases and Disorders	
or HSCI 4023	Health and Wellness of Older Adults	
KINE 3200	Principles of Human Movement	
or KINE 3250	Exercise Techniques for Resistance Training	
or KINE 3500	Motor Development Across the Lifespan	
or KINE 3600	Physical Activity and Aging	
or KINE 3810	Sport and Exercise Nutrition	
or KINE 4100	Motor Learning and Control	
Students must complete one of the concentrations (12-28)		12-28
Total Units		56-78

Biology Concentration (16-17)

(Program Code: NSBI)

Lower-Division Requirements (4-5)

The following courses are prerequisites to other courses in the Biology concentration and should be taken as part of the core requirements.

BIOL 2010	Principles of Biology I (counts toward core)	
BIOL 2020	Principles of Biology II	
CHEM 2100 & 2100L	General Chemistry I and General Chemistry I Laboratory (counts toward core)	
CHEM 2200 & 2200L	General Chemistry II and General Chemistry II Laboratory	
Organic Chemistry (choose Group A, B, or C)		4-5
Group A		

CHEM 2300 & CHEM 2400L	Organic Chemistry for Life Sciences and Organic Chemistry I Laboratory (5 units total)
------------------------	---

Group B

CHEM 2400 & 2400L	Organic Chemistry I Lecture and Organic Chemistry I Laboratory (4 units total)
-------------------	--

Group C

CHEM 3400	Principles of Organic Chemistry I (5 units)
-----------	---

Upper-Division Requirements (12) 12

A minimum of 12 upper-division units in biology, excluding courses numbered BIOL 3000-3099

Total Units 16-17**Chemistry Concentration (20-22)**

(Program Code: NSCH)

Lower-Division Requirements (8-10)

The following courses are prerequisites to other courses in the Chemistry concentration and should be taken as part of the core.

CHEM 2100 & 2100L	General Chemistry I and General Chemistry I Laboratory (counts toward core)
-------------------	---

CHEM 2200 & 2200L	General Chemistry II and General Chemistry II Laboratory
-------------------	--

Organic Chemistry (choose from Group A or B) 8-10

Group A

CHEM 2400 & 2400L	Organic Chemistry I Lecture and Organic Chemistry I Laboratory
-------------------	--

CHEM 2500 & 2500L	Organic Chemistry II and Organic Chemistry II Laboratory
-------------------	--

Group B

CHEM 3400	Principles of Organic Chemistry I
CHEM 3500	Principles of Organic Chemistry II

Upper-Division Requirements (12) 12

A minimum of 12 upper-division units in Chemistry chosen from CHEM 3200, 4100-5500

Total Units 20-22**Physics Concentration (28)**

(Program Code: NSPH)

Lower-Division Requirements (16)

The following courses are prerequisites to other courses in the Physics concentration and should be taken as part of the core.

MATH 2210	Calculus I
-----------	------------

PHYS 2500 & 2500L	General Physics I and General Physics I Lab
-------------------	---

PHYS 2510 & 2510L	General Physics II and General Physics II Lab
-------------------	---

MATH 2220	Calculus II	4

PHYS 3100	Mathematical Methods of Physics	4
PHYS 3300	Computational Physics	3
PHYS 3800	Intermediate Physics Laboratory	2
3 units of upper-division coursework in PHYS or ASTR, chosen in consultation with a Physics department adviser.		3
Total Units		28

Science and Society (12)

(Program Code: NSSS)

General Science	6
A minimum of 6 units of upper-division general science electives selected from the list below. <small>Courses that were used to meet a core requirement may not be used.</small>	
a. Any upper-division units in biology labeled BIOL 3100 or higher.	
b. Any upper-division units in chemistry, chosen from CHEM 3200, CHEM 3400, CHEM 3500 or CHEM 5100-5500.	
c. Any upper-division Health Science and Human Ecology courses chosen from HSCI 3052, HSCI 3067 or HSCI 4023.	
d. Any upper-division Kinesiology courses chosen from KINE 3200, KINE 3250, KINE 3500, KINE 3600, KINE 3800, KINE 3810, KINE 4100.	
General Education Upper Division Scientific Inquiry	6
A minimum of 6 Upper-Division Scientific Inquiry Electives (from GE category B-5 that do not duplicate a course taken to meet the Geology requirement)	
Total Units	12

Minor in Entrepreneurship in the Sciences

This minor will serve students in the College of Natural Sciences that desire to blend their primary area of study with entrepreneurship. The primary goal of the minor will be to teach science students essential skill sets in entrepreneurship to enhance their careers after graduation. In addition to learning applicable tools to bring their ideas to market, the program will also provide guidance to help students become entrepreneurial thinkers that will benefit them as employees, managers, leaders, and/or business owners.

Required Courses (18 units)

ENTR 3000	Entrepreneurship and Innovation	3
ENTR/NSCI 5410	Commercializing Entrepreneurial Innovation (Cross list as NSCI 5410)	3
ENTR 5430	Ideation and Creative Problem Solving	3
ENTR/NSCI 5440	Developing the New Venture (Cross List as NSCI 5440)	3
ENTR 5450	Resources for the Entrepreneur	3
ENTR/NSCI 5980	Reflective Essay (Cross List as NSCI 5980)	0

Three (3) unit course chosen from non-GE upper-division courses in: ENTR, ASTR, BIOL, CHEM, PHYS, GEOL, CSE, MATH, KINE, NURS, or HSCI. Students with majors outside of the College of Natural Sciences may NOT use an ENTR course for their elective.

Total Units **18**

Department of Biology

Biological Sciences Building, Room 302
(909) 537-5305 Department of Biology website (<https://www.csusb.edu/biology/>)

The major in biology emphasizes the relationship between structure and function in living systems and the concept that biological processes can be studied at different levels of organization. The program provides a balanced blend of traditional and modern biology, incorporating the important generalizations of traditional biology and the more recent advances essential to the successful biologist or medical practitioner of the future.

The excellent facilities and equipment of the department are readily available to all students enrolled in biology courses. Seniors are encouraged to engage in research projects through the independent study program. Field trips are a normal and required part of a number of courses.

Many career opportunities are available to the student majoring in biology. The undergraduate program provides an excellent background for further work in medicine, dentistry, veterinary medicine and graduate programs. It can also serve for entry into a career in education, industry and governmental organizations.

Preprofessional students of medicine, dentistry or other science-based fields seeking a major in biology should consult with a departmental advisor or with the Health Professions Advising Center (<https://cns.csusb.edu/hpac/>).

The B.S. in Bioinformatics is essentially the interdisciplinary study of biology and biochemical systems using mathematics and computer science. Bioinformatics is a growing area, with many definitions and descriptions. Bioinformatics is the use of computers and statistics to make sense out of the huge mounds of data that are accumulating from high-throughput biological and chemical experiments, such as sequencing of whole genomes, DNA microarray chips, two-hybrid experiments, and tandem mass spectrometry.

There are three different approaches to bioinformatics:

- Tool building. Creating new programs and methods for analyzing and organizing data.
 - Tool using. Using existing programs and data to answer biologically interesting questions.
 - Tool maintenance. Setting up databases, translating biologists' questions into ones that programs can answer, keeping the tools working and the databases up to date.
- The main goal of the degree is to prepare the students for graduate studies in bioinformatics. A secondary goal is to provide the students with very relevant bioinformatics skills that will be useful for Research and Development in the growing biotechnology industries.

The degree is jointly administered by the Department of Biology, the Department of Chemistry and Biochemistry, and the School of

Computer Science and Engineering. The program is housed in the School of Computer Science and Engineering.

Departmental Honors

Candidacy for departmental honors in biology is voluntary. To be eligible a student must fulfill the following requirements:

1. Achieve a minimum grade point average of 3.5 for all courses satisfying the requirements for the major (as defined above);
2. Take at least five courses in the major at this university;
3. Satisfactorily complete Biology Independent Research.

Application for candidacy must be made at the beginning of the senior year. Approval of candidacy and of the project and project advisor rests with the department. The project advisor will have sole responsibility for acceptance of the completed project.

The department may grant honors to exceptional students who fail to meet the above requirements, but who have in the judgment of the department brought distinction upon themselves and the department in some other appropriate manner.

Master of Science in Biology

The Master of Science in Biology is designed to provide the flexibility required to develop specific course programs and acceptable thesis research proposals based upon the individual graduate student's interests and background. The general goal of the program is to provide the student with opportunity for improvement of competence, development of

the ability to continue self-directed study, and development of intellectual responsibility in preparation for professional leadership in biology.

Admission to the Program

In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

1. Admittance into the program **requires** acceptance into the research laboratory of a full-time faculty member in Biology who will serve as the student's thesis advisor. Applicants are encouraged to contact prospective advisors *before* submitting your application regarding the availability of Master student positions;
2. Baccalaureate degree in biology or a related field from an accredited institution of higher learning;
3. Cumulative Grade Point Average (GPA) of at least 3.0 in all biology and supporting coursework in chemistry, physics, and mathematics;
4. Submission of scores on the Graduate Record Examination (GRE) General test. Scores are used in the evaluation process;
5. Submission of a one-page, typewritten personal statement to the Department of Biology Graduate Committee. Statement should include the student's preparation for graduate study, goals in the graduate training program, potential area of research and possible advisor, and professional goals following completion of the M.S.;
6. Submission of three letters of recommendation from people who are in a position to make relevant comments on the student's intent and potential for success in the M.S. program. At least two of the letters should be from current or former college or university faculty familiar with the student's scholarship and related activities.

Application deadlines for fall admission is March 31.

Advancement to Candidacy

In order to be advanced to candidacy, the student must have:

1. Achieved classified status;
2. Been accepted by a major advisor from the Department of Biology;
3. Completed at least 8 semester units of work applicable to the degree program as a graduate student at this university with the approval of the student's Thesis Graduate Committee, and with a minimum grade point average of 3.0 ("B");
4. Received recommendations for advancement to candidacy from the major advisor and from the Thesis Graduate Committee;
5. Submitted a formal program of graduate course work prepared in consultation with and approved by the student's Thesis Graduate Committee;
6. Approval of a written thesis proposal in conjunction with the completion of BIOL 6940. The graduate writing requirement is met upon successful completion of the written thesis proposal.
7. Gained final approval of the program and of the candidacy itself by the Dean of Graduate Studies.

Requirements for Graduation

1. A minimum of 30 semester units of acceptable graduate-level work included in the formal program, with no less than 21 units completed in residence at this university;

2. Advancement to candidacy for the degree and approval of the specific program of courses;
3. A grade point average of 3.0 ("B") in all graduate course work fulfilling the requirements of the Master of Science in Biology and grades of "C" (2.0) or better in each course in the program;
4. Completion of a final oral examination (thesis defense) and acceptance of the written thesis, approved by the student's Thesis Graduate Committee and Dean of Graduate Studies;
5. The Graduate Writing Assessment Requirement is met through successful completion of the thesis proposal;
6. Any additional general requirements not cited above and listed in Graduate Degree and Program Requirements (p. 71).

Thesis Graduate Committee and Major Advisor

The Thesis Graduate Committee consists of the graduate student's major advisor and two or more CSUSB Biology faculty members. Although a student must have three CSUSB Biology faculty, additional committee members from external Departments and/or Universities may be included. Students are advised to form a Thesis Graduate Committee early and meet most semesters as this committee has general supervision over a student's progress toward the Master's degree.

It is **required** for students to enter the program with the support of a major advisor. Therefore, students are responsible for contacting potential major advisors and encouraged to do so before applying to the program. The student in consultation with the major advisor will develop a program of specific courses and an acceptable thesis research proposal. The program plan and thesis proposal, as well as any subsequent modification, must be approved by the Thesis Graduate Committee and the Dean of Graduate Studies to advance to candidacy. Degree is granted upon completion and acceptance of the final thesis by the major advisor, Thesis Graduate Committee, and the Dean of Graduate Studies.

Students currently enrolled in the graduate program wishing to take courses off campus towards their graduate degree must petition the Department of Biology for approval through the graduate program coordinator and the Graduate Committee.

Upper division undergraduate level courses (course numbers 3010-4999) will only be applied towards Graduate course work with written approval of the department.

Repetition of courses requires approval of the Department of Biology Graduate Committee.

Degree Requirements (30 units)

(Program Code: BIOM)

BIOL 5010	Ethics in Biological Research	1
BIOL 5050	Biostatistics and Experimental Design	4
Students who have completed BIOL 5010 or BIOL 5050 at the undergraduate level may substitute any other 5000- or 6000-level course, selected in consultation with their thesis advisor, to meet the unit requirements of the degree.		
BIOL 6010	Effective Teaching Strategies for Graduate TAs	2
BIOL 6020	Professional Writing in the Biological Sciences	2

BIOL 6030	Presentation in Biological Sciences	1
BIOL 6100	Primary Literature in Biology	1
BIOL 6930	Supervised Graduate Research in Biology	1
BIOL 6940	Thesis proposal	3
Three units of Independent Graduate Research in Biology (from BIOL 6951, 6952, 6953, 6954, 6955, and/or 6956)		3
Two units selected from Biology courses numbered 6300-6490.		2
Seven units of electives to be chosen from courses in biology or related fields. Courses taken outside the department to fulfill these electives require prior approval of the Graduate Committee and thesis advisor. A maximum of three units from any combination of independent study and independent research courses, taken in addition to the required Independent Graduate Research, may be applied toward these electives.		7
Culminating Experience (3)		3
Total Units		30

Culminating Experience (3 units)

BIOL 6970	Graduate Thesis	3
Total Units		3

Proposing and Defending the Thesis

Students must conduct original research, and write a thesis acceptable to their major advisor, Thesis Graduate Committee, and the Dean of Graduate Studies. Early in their graduate studies, the student, in consultation with their major advisor, will select a Thesis Graduate Committee. The student is responsible for setting regular meetings with the Thesis Graduate Committee. In order to advance to candidacy, the student will provide a public presentation and a formal written proposal of their planned research to the Thesis Graduate Committee. A final public oral defense of the thesis research, followed by examination by the Thesis Graduate Committee, is required. Successful completion of the final oral examination includes acceptance of the thesis by the Thesis Graduate Committee and the Dean of Graduate Studies.

Bachelor of Science in Biology

The Bachelor's of Science in Biology is designed to give students a broad foundation in the biological sciences while affording them the freedom to specialize in a subfield of their choice. The core requirements emphasize the relationship between structure and function in living systems and the concept that biological processes can be studied at the cellular/molecular, organismal, population, and ecosystem levels. Upper division electives allow students the option to tailor their curriculum towards particular subjects in biology. The degree prepares students for a variety of careers in the biological sciences and related fields, such as: biology- or science-related positions in academia, government, non-government organizations (NGOs), or industry; entry to graduate programs in biological research; or entry to pre-professional programs including medicine, dentistry, or veterinary medicine.

Students majoring in Biology may repeat an upper-division Biology course no more than once. Failing any two upper-division Biology courses disqualifies the student from continuation as a Biology major.

Nearly all of the courses in the BS in Biology curriculum are always entirely in-person. When hybrid or online courses are offered, there will be

alternative courses that fulfill the same requirement that can be taken that are entirely in-person.

The Department also offers an articulation and Early Admission Program that provides admission to the Doctor of Osteopathic Medicine Program at Western University of Health Sciences. It is available on a competitive basis to a limited number of CSUSB Biology students. The program is open to CSUSB Biology majors only, who may apply for admission to the program after completing BIOL 2010, 2020, CHEM 2100, 2100L, 2200, 2200L, and MATH 2210 at CSUSB with a grade point average of at least 3.3 in those courses. Applicants will be screened and interviewed by a joint committee from CSUSB and Western University of Health Sciences, and up to four students will be admitted annually.

Candidates accepted to the program who (1) maintain a minimum grade point average of 3.3 in the required courses and complete specified upper division coursework for the major, (2) achieve a score of 500 or higher Medical College Admission Test (MCAT), and (3) complete the specified course work will:

1. satisfy the requirements for the B.S. in Biology and
2. have a position reserved for them in the Doctor of Osteopathic Medicine program at Western University of Health Sciences for the year following completion of the B.S. degree. Additional information regarding application and admission to the program is available in the Biology Department Office and on the Biology Department website.

Requirements (71-80 units)

Total units required for graduation: 120

Students majoring in Biology may repeat an upper-division Biology course no more than once. Failing any two upper-division Biology courses disqualifies the student from continuation as a Biology major.

Requirements for the B.S. in Biology

(Program Code: BIOL)

Lower-division requirements (41-50)

BIOL 2010	Principles of Biology I	5
BIOL 2020	Principles of Biology II	5
CHEM 2100	General Chemistry I	4
CHEM 2100L	General Chemistry I Laboratory	1
CHEM 2200	General Chemistry II	4
CHEM 2200L	General Chemistry II Laboratory	1

Organic chemistry

One of the sets of chemistry courses listed below (choose Group A, Group B, Group C, or Group D): 8-9

Group A:

CHEM 2400	Organic Chemistry I Lecture
CHEM 2400L	Organic Chemistry I Laboratory
CHEM 2500	Organic Chemistry II
CHEM 2500L	Organic Chemistry II Laboratory

Group B:

CHEM 2300	Organic Chemistry for Life Sciences
CHEM 2400L	Organic Chemistry I Laboratory
CHEM 4100	Biochemistry I
CHEM 4100L	Biochemistry I Laboratory

Group C:

CHEM 2300	Organic Chemistry for Life Sciences	
CHEM 2400L	Organic Chemistry I Laboratory	
CHEM 3200	Quantitative Analysis	
Group D:		
CHEM 3400	Principles of Organic Chemistry I	
CHEM 3500	Principles of Organic Chemistry II	

Note: The requirement in organic chemistry may be met by the completion of one year of transferable organic chemistry course work from another institution of higher education.

A series of math courses: Choose Group A or B below: 3-8

Group A:		
MATH 2210	Calculus I	
MATH 2220	Calculus II	
Group B:		
MATH 1601	Modeling with Calculus	

A series of physics courses: chose Group A or B below: 10-13

Group A:		
PHYS 2000	Introduction to Physics I	
PHYS 2000L	Introduction to Physics I Lab	
PHYS 2010	Introduction to Physics II	
PHYS 2010L	Introduction to Physics II Lab	
Group B:		
PHYS 2500	General Physics I	
PHYS 2500L	General Physics I Lab	
PHYS 2510	General Physics II	
PHYS 2510L	General Physics II Lab	
PHYS 2700	Modern Physics	

Upper-division requirements (30)

BIOL 5000	Biology Seminar	1
-----------	-----------------	---

A minimum of 29 units of upper-division course work in biology (excluding courses numbered BIOL 3000-3099), with at least one course from each of Groups A, B, and C below: 29

Group A (Cell and Molecular Biology):

BIOL 3100-3399		
----------------	--	--

Group B (Organismal Biology):

BIOL 3400-3699		
----------------	--	--

Group C (Population and Ecosystem Biology):

BIOL 3700-3959		
----------------	--	--

Total Units 71-80

CHEM 2400	Organic Chemistry I Lecture	
A minimum of twelve upper-division units (3-4 courses) in biology, excluding courses numbered BIOL 3000-3099.		12
Total Units		35-36

Minor in Biology

Requirements for a minor in Biology (35-36 units)

BIOL 2010	Principles of Biology I	5
BIOL 2020	Principles of Biology II	5
CHEM 2100	General Chemistry I	4
CHEM 2100L	General Chemistry I Laboratory	1
CHEM 2200	General Chemistry II	4
CHEM 2200L	General Chemistry II Laboratory	1
One course in organic chemistry, chosen from:		3-4
CHEM 2300	Organic Chemistry for Life Sciences	

Certificate in Biotechnology

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 6000-level courses as requirements and/or electives. These 6000-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Pre-Requisites for the Certificate Program

One of the following:

Group A: Completion of the following courses for students majoring in biology, chemistry or biochemistry:

BIOL 2010	Principles of Biology I	5
BIOL 2020	Principles of Biology II	5
CHEM 2100	General Chemistry I	4
CHEM 2200	General Chemistry II	4
CHEM 2300	Organic Chemistry for Life Sciences	3-4
or CHEM 2400	Organic Chemistry I Lecture	

Group B: Completion of a B.A. or B.S. in Biology, Chemistry or Biochemistry at this university, or equivalent.

Certificate Requirements (18 units)

A minimum of 8 units chosen from: 8

BIOL 3100	Cell Biology
BIOL 3120	Molecular Biology
BIOL 3200	Microbiology
BIOL 3300	Genetics

A minimum of 8 units chosen from: 8

BIOL 4200	Medical Microbiology
BIOL 4270	Functional Microbial Genomics
BIOL 5100	Experimental Cellular Analysis
BIOL 5130	Animal Tissue Culture
BIOL 5260	Genomics
BIOL 5310	Advanced Molecular Techniques
BIOL 5320	Virology
BIOL 5370	Immunology

A minimum of 2 units from the following: 2

BIOL 5752C	Internship in Biology: Biotechnology
BIOL 5951	Independent Research
BIOL 5952	Independent Research
BIOL 5953	Independent Research
BIOL 5954	Independent Research

BIOL 5955 Independent Research

BIOL 5956 Independent Research

Total Units 18

Department of Chemistry and Biochemistry

Bachelor's of Science Degree Certified by the American Chemical Society

Chemical Science Building, Room CS-204

(909) 537-5318 Department of Chemistry and Biochemistry website
(<http://chem.csusb.edu>)

The Department of Chemistry and Biochemistry provides:

1. Undergraduate training in chemistry and biochemistry for students planning professional careers in chemistry and allied professions such as medicine, dentistry, pharmacy, health sciences and veterinary medicine and for those contemplating graduate work for advanced degrees;
2. Appropriate courses for the teacher credential program;
3. Fundamental chemical science courses required by students majoring in related fields such as biology, health science, nursing, and geology;
4. An understanding of the achievements and contributions of chemistry as a science.

The Bachelor of Science in Chemistry satisfies the requirements for certification by the American Chemical Society.

The Bachelor of Arts in Chemistry provides greater elective flexibility for double majors and for preprofessional, interdisciplinary or other programs involving substantial preparation in chemistry.

Preprofessional students of medicine, dentistry or other science-based fields seeking a major in chemistry should See Preprofessional Programs in this catalog and consult with an advisor in the Health Professions Advising Center.

Students interested in fields such as environmental science, environmental law, business, and clinical chemistry can pursue these by following the minimum requirements of the major and appropriate electives.

Departmental Honors

To qualify for departmental honors, students must have at least a 3.50 G.P.A. in all chemistry courses taken at CSUSB, and complete an approved, independent research project.

Current Faculty

Andreas Beyersdorf, Associate Professor of Chemistry and Biochemistry
B.A. 2001, Chapman University
M.S. 2007, Ph.D. 2007, UC Irvine

Jason Burke, Assistant Professor of Chemistry
B.S. 2004, University of Oregon
Ph.D. 2012, University of California, Santa Cruz

Kimberly R. Cousins, Professor of Chemistry and Biochemistry
B.S. 1984, Duke University
Ph.D. 1991, University of Texas, Austin

Yu Jung Kim, Professor of Chemistry and Biochemistry

B.S. 1995, M.S. 1995, Ph.D. 2002, University of California, Riverside

Jeremy Mallari, Associate Professor of Chemistry and Biochemistry
B.A. 2000, B.S. 2003, California State University, San Francisco
Ph.D. 2008, University of California, San Francisco

David F. Maynard, Professor of Chemistry and Biochemistry, Interim Chair
B.S. 1976, California State University, San Bernardino
M.S. 1988, California State University, Long Beach
Ph.D. 1992, University of California, Riverside

Larry M. Mink, Professor of Chemistry and Biochemistry
B.S. 1984, Hebrew University of Jerusalem
M.S. 1986, Ph.D. 1990, University of California, Riverside

James A. Noblet, Professor of Chemistry and Biochemistry
B.S. 1983, University of California, Los Angeles
M.S. 1991, California State University, Long Beach
Ph.D. 1997, University of California, Los Angeles

Lisa Shamansky, Professor of Chemistry and Biochemistry
B.S. 1980, Indiana University, Bloomington
Ph.D. 1986, University of Illinois, Urbana

Douglas C. Smith, Professor of Chemistry and Biochemistry, Chair
B.A. 1988, Wittenburg University, Ohio
Ph.D. 1994, Purdue University

Brett J. Stanley, Professor of Chemistry and Biochemistry
B.S. 1987, University of Pittsburgh
Ph.D. 1992, Utah State University

John Tate, Associate Professor of Chemistry and Biochemistry
B.Sc. 1979, Ph.D. 1982, University of Sheffield, England

Shumei Yang, Professor of Chemistry and Biochemistry
B.S. 1982, Zhengzhou University, P.R. China
Ph.D. 1991, Iowa State University

Renwu Zhang, Professor of Chemistry
B.S. 1988, Anhui Normal University
M.S. 1993, University of Science, China
Ph.D. 2002, University of Missouri

Teaching Credential Program

Teaching Credential Subject Matter Preparation Program in Science: Chemistry

Chemistry majors pursuing a single subject teaching credential in science with a chemistry specialization will need to take the CSET Exam to verify subject matter competence. To prepare for the CSET exam, the following courses are recommended as part of, or in addition to the chemistry degree.

ASTR 1000	Introduction to Planetary Astronomy	3
ASTR 1000L	Introduction to Planetary Astronomy Lab	1
PHYS 3050	Physics and Astronomy in the Classroom	3
BIOL 2010	Principles of Biology I	5
BIOL 2020	Principles of Biology II	5
GEOL 1000	Introductory Geology	3
GEOL 1000L	Introductory Geology Laboratory	1
GEOL 1090	Earth: The Blue Planet	4
GEOL 2500	Geology of California	3

In addition, certain prerequisites and professional education courses are required. For information about admission to the teacher education program, education courses required, or the specific requirements of the single subject teaching credential in a science program, contact the Department of Science, Mathematics, and Technology Education in the College of Education.

Master of Science in Environmental Sciences

The Master of Science in Environmental Sciences is a multidisciplinary program. In addition to courses in chemistry and geology, there are opportunities for study in economics, geography, health sciences, management, and public administration. Students are admitted from numerous backgrounds, but generally with bachelor's degrees in scientific fields such as chemistry, geology, biology, or environmental science.

This program is designed to provide a broad background in sciences relevant to the environment, and is designed so that it can potentially be completed in two years.

The culminating experience in the M.S. in Environmental Sciences is either an internship coupled with an extended project and its defense, or a research thesis and defense of the thesis.

Admission to the Program

Specific requirements for admission to classified graduate status are:

1. A baccalaureate degree from an accredited college or university;
2. Completion of an undergraduate major in chemistry, geology, or associated fields with one year of general chemistry and one full-term course in organic chemistry, physics and basic calculus (or methods in calculus). Students with undergraduate degrees in unrelated fields or without all required courses are also encouraged to apply and to discuss provisional admission with the Graduate Coordinator or potential faculty mentors. Provisional admission may require completion of preparatory coursework at CSUSB;
3. A cumulative undergraduate grade point average of at least 3.0 in all courses used for credit in the major;
4. A personal statement explaining the student's preparation for graduate study, goals in the program, potential areas of research, possible advisors, and professional goals upon graduation. Prospective students should contact potential advisors available at CSUSB noted on the program website;
5. Submission of three confidential letters of recommendation from people who are in a position to make relevant comments on the student's intent and potential for success in the program. At least two of the letters should be from current or former college or university faculty familiar with the student's scholarship and related activities;
6. Optional submission of scores from the Graduate Record Examination (GRE).

Students are considered for admission for the fall semester. Under compelling circumstances, applications may be considered for spring semester. Please consult the Graduate Coordinator for more information.

Advancement to Candidacy

To be advanced to candidacy, the student must have:

1. Achieved classified status;
2. Been accepted by a major advisor from the M.S. in Environmental Sciences program;
3. Completed at least 6 semester units of work applicable to the degree program as a graduate student at this university, and with a minimum grade point average of 3.0 ("B");
4. Submitted a formal program of graduate course work, in addition to a project or thesis proposal, prepared in consultation with and approved by the student's thesis committee, and approved by the graduate coordinator;

Gained final approval of the program and of the candidacy itself by the Dean of Graduate Studies.

Requirements for Graduation

1. A minimum of 30 semester units of acceptable graduate level work included in the formal program, with no less than 21 units completed in residence at this University and with at least 21 units gained from 5000- and 6000-level courses approved by the program;
2. Advancement to candidacy for the degree and approval of the specific program of courses;
3. A cumulative grade point average of "B" (3.0) or better in all graduate course work fulfilling the requirements of the program, and a grade of "C" (2.0) or better in each course in the program;
4. Completion and defense of an internship and project, or a thesis;

5. The graduation writing requirement is met upon successful completion of the project or thesis, if not met earlier;
6. Any additional general requirements not cited above and listed in Graduate Degree and Program Requirements.

Department Graduate Admissions Committee and Major Advisor

The Environmental Sciences Graduate Admissions Committee consists of the graduate program coordinator and two or more faculty members available for consultation. This committee will determine whether students are adequately prepared for graduate study in environmental sciences, and has general supervision over the work of students progressing toward the master's degree.

Each new graduate student will consult with the graduate program coordinator for academic advising until the student has been accepted by a major advisor. Early in their graduate studies, students in consultation with their advisor, will select a project or thesis committee including the advisor and at least two other appropriate faculty. When appropriate, one member of the committee may be a person from another department or another institution who has expertise in the area of proposed research.

All students are responsible for selecting their major advisor and, in turn, must be accepted by the major advisor. The student, in consultation with their committee, will develop a program of specific courses and an acceptable project research proposal based on the student's interests, abilities and preparation. The major advisor will direct the research and, where appropriate, supervise the internship. The program of courses and the project/research topic, as well as any subsequent modification of these, are subject to approval by the student's committee, the Graduate Coordinator, and the Dean of Graduate Studies.

Students enrolled in the graduate program wishing to take courses off campus and include them in the degree program must petition the Graduate Coordinator for approval, otherwise the course may not be accepted as part of the program. Extension courses at the X1000- to X9999-level are not applicable to the graduate program. Courses at the 3000- and 4000-level, other than those specified as possible electives in the program will be accepted only by written approval of the committee. Courses taken to satisfy quantitative or qualitative deficiencies cannot be applied toward a master's degree. Repeat of courses require approval of the Graduate Coordinator and will be granted only for serious and compelling reasons.

Degree Requirements (30 units)

(Program Code: ENSI)

Core Courses (15)

BIOL 5050	Biostatistics and Experimental Design	3
or HSCI 6210	Advanced Biostatistics for Public Health	
or NURS 6355	Biostatistics	
CHEM 5320	Atmospheric Chemistry	3
or GEOG 6400	Advanced Watershed Hydrology and Management	
ECON 3740	Economics of Climate Change	3
or ECON 3103	Environmental Economics	
GEOG 6000	Advanced Environmental Chemistry and Geosciences	4
or CHEM 6000	Advanced Environmental Chemistry and Geosciences	
Two units chosen from the following:		2
GEOG 6900	Graduate Seminar	

or CHEM 6900 Graduate Seminar

Elective Courses (6) **6**

Choose a minimum of 6 units; at least one course must be 5000- or 6000-level (some of these elective courses have prerequisites that must be satisfied before the course can be taken).

BIOL 3200	Microbiology
BIOL 3800	Ecology
CHEM 5320	Atmospheric Chemistry (if not previously used as a core course)
CHEM 5200	Instrumental Analysis
CHEM 5753	Internship in Chemistry (if not previously used as a core course)
CHEM 5903	Directed Laboratory Research
CHEM 6752	Advanced Internship
CHEM 6753	Advanced Internship
GEOG 4880	Remote Sensing of the Environment
GEOG 3710	Advanced Geographic Information Systems
GEOG 3730	Geo-Spatial Analysis
GEOG 4860	GIS and Socio-Economic Applications
GEOG 6400	Advanced Watershed Hydrology and Management (if not previously used as a core course)
GEOG 6500	Environmental Issues of Land Management
GEOL 3700	Groundwater Hydrology
GEOL 3750	Field Methods in Hydrology
GEOL 4100	Engineering Geology
GEOL 5280	Digital Mapping and GIS for Scientists
GEOL 5400	Environmental Hydrology
GEOL 5430	Isotope Geochemistry
GEOL 5440	Environmental Geochemistry
GEOL 5460	Low-temperature Geochemistry
GEOL 5600	Earth Resources
GEOL 5620	Site Investigation, Siting, and Case Histories in Engineering Geology
GEOL 5753	Internship in Geology (if not previously used as core courses)
GEOL 5951	Independent Study
GEOL 5952	Independent Study
GEOL 5953	Independent Study
GEOL 6100	Graduate Geological Mapping
GEOL 6752	Advanced Internship
HSCI 3580	Principles of Toxicology
HSCI 4578	Environmental Health Management
MGMT 3350	Business, Ethics, and Society
PA 3150	Society, Business, & Global Governance
PA 5200	Sustainability Policy and Management
PA 6720	Administrative Regulation

Culminating Experience (9) **9****Total Units** **30****Culminating Experience (9 units)**

The culminating experience in the M.S. in Environmental Sciences is either an internship coupled with an extended project and its defense, or a research thesis and defense of the thesis.

Internship and Project Option (9 units)

CHEM 6940	Graduate Research Methods and Design	3
or GEOL 6940	Graduate Research Methods and Design	
or SSCI 6950	Directed Graduate Studies

Bachelor of Arts in Chemistry

The Bachelor's of Art degree program in chemistry is designed for the student who plans a career in chemistry or the related sciences upon graduation, continuation to graduate school in the chemical sciences, or professional health sciences such as medicine or pharmacy, but is interested in studying other subjects to augment a basic chemistry curriculum, perhaps with a minor or a double major in another field, for example. The program provides foundational course work in the sub-disciplinary areas of organic, inorganic, physical, analytical, and biochemistry with cognate course work in biology, mathematics and physics. A concentration in biochemistry or chemistry is required. The B.A. program is not certified by the American Chemical Society.

The B.A. in Chemistry provides additional chemistry electives and fewer requirements than the B.S. degree program. The Chemistry concentration may be an appropriate degree for those that would like to become high school chemistry teachers, for example. A total of 14 free elective units are available. The biochemistry option requires biology and biochemistry course and laboratory work, and may be more appropriate for students interested in the biotech industry, medical or pharmacy school, or clinical laboratory science. Ten free elective units are available.

Requirements (68-72 units)**Total units required for graduation: 120****Requirements for a B.A. in Chemistry****Lower-division requirements (28)**

CHEM 2100	General Chemistry I	4

Bachelor of Science in Chemistry

The Bachelor of Science in Chemistry program is certified by Committee on Professional Training of the American Chemical Society. It is designed for the student who plans a career in chemistry or a related field upon graduation or plans to go on to graduate school in the chemical sciences.

It is also an option for students interested in medicine, pharmaceutical sciences, clinical laboratory science, forensics, environmental science, as well as industries such as petrochemicals, instrumentation, food, nutraceuticals, or cosmetics. The program provides foundational course work in the sub-disciplinary areas of organic, inorganic, physical, analytical, and biochemistry with cognate course work in biology, mathematics and physics. A concentration in biochemistry or chemistry is required.

The chemistry option requires in-depth courses in instrumental analysis, an inorganic chemistry lab, materials or polymer chemistry, one upper-division chemistry elective, and completion of a senior project. The biochemistry option requires additional biology and biochemistry course and laboratory work, and may be more appropriate for students interested in the biotech industry, medical, or pharmacy school.

Note the following: BS Chemistry majors pursuing a Chemistry Concentration will fulfill the Upper Division Scientific Inquiry GE B5 requirement by taking the following courses: CHEM 3200, CHEM 4550, and either CHEM 5850 or CHEM 5860.

BS Chemistry majors pursuing a Biochemistry Concentration will fulfill the Upper Division Scientific Inquiry GE B5 requirement by taking the following courses: CHEM 3200, CHEM 4750, and CHEM 5700.

Total Units **25**

Minor in Chemistry

A minor in chemistry requires foundational coursework in calculus and physics, general chemistry, organic chemistry, quantitative analysis, and six units of upper-division chemistry electives. It may be appropriate for students interested in careers that involve some knowledge of chemistry and chemical laboratory work, but not a full degree in chemistry.

Requirements for a Minor in Chemistry (38-46 units)

CHEM 2100	General Chemistry I	4
CHEM 2100L	General Chemistry I Laboratory	1
CHEM 2200	General Chemistry II	4
CHEM 2200L	General Chemistry II Laboratory	1

The organic chemistry requirement may be met by either: 5-8

CHEM 2300	Organic Chemistry for Life Sciences	
CHEM 2400L	Organic Chemistry I Laboratory	

or the following four courses:

CHEM 2400	Organic Chemistry I Lecture	
CHEM 2400L	Organic Chemistry I Laboratory	
CHEM 2500	Organic Chemistry II	
CHEM 2500L	Organic Chemistry II Laboratory	

CHEM 3200	Quantitative Analysis	4
Choose either of the following:		3-8

MATH 1601	Modeling with Calculus	
MATH 2210 & MATH 2220	Calculus I and Calculus II	

PHYS 2000	Introduction to Physics I	4
PHYS 2000L	Introduction to Physics I Lab	1
PHYS 2010	Introduction to Physics II	4
PHYS 2010L	Introduction to Physics II Lab	1

Note: Physics requirement may be met by taking PHYS 2500, 2500L, 2510, and 2510L (10 units) instead of PHYS 2000, 2000L, 2010 and 2010L.

Choose 6 units of upper-division chemistry electives from the following list: 6

CHEM 4100	Biochemistry I	
CHEM 4200	Biochemistry II	
CHEM 4300	Inorganic Chemistry	
or CHEM 4350	Bioinorganic Chemistry	
CHEM 4400	Physical Chemistry I	
CHEM 4500	Physical Chemistry II	
CHEM 4600	Physical Chemistry for Biochemists I	
CHEM 4700	Physical Chemistry for Biochemists II	
CHEM 5001	Topics in Chemistry	
CHEM 5001L	Topics in Chemistry Laboratory	
CHEM 5002	Topics in Chemistry	
CHEM 5100	Polymer Science	
CHEM 5150	Materials Chemistry	
CHEM 5200	Instrumental Analysis	
CHEM 5300	Environmental Chemistry	
CHEM 5400	Chemistry of the Elements	
CHEM 5410	Solid State Chemistry	
CHEM 5420	Pyrotechnics	
CHEM 5500	Medicinal Chemistry	
CHEM 5550	Computational Chemistry	
CHEM 5751	Internship in Chemistry	
CHEM 5752	Internship in Chemistry	
CHEM 5753	Internship in Chemistry	
CHEM 5901	Directed Laboratory Research	
CHEM 5902	Directed Laboratory Research	
CHEM 5903	Directed Laboratory Research	
CHEM 5951	Independent Study	
CHEM 5952	Independent Study	
CHEM 5953	Independent Study	

Total Units **38-46**

Department of Geological Sciences

Biological Sciences Building, Room 113A

(909) 537-5336 Department of Geological Sciences website (<http://geology.csusb.edu/>)

The study of geology includes working to understand the chemical, physical and biological processes that affect and are recorded in rocks, minerals, and earth materials, and using that information to decipher the development of our planet. In addition, understanding geology is essential for locating necessary earth resources (oil, minerals, water) and solving those environmental problems that affect the Earth's surface. Much of the information geologists use is obtained by careful, systematic fieldwork and laboratory work, the former being an inherent requirement for geological studies.

The mission of the department is to provide high-quality training in the science of geology so as to equip our students (undergraduate and graduate) to successfully enter the geological workforce, and to contribute to the science of geology through faculty and students conducting and disseminating research in this field. Geology is a broad science that integrates with other classical sciences and disciplines such as astronomy, biology, chemistry, computer science, geography, mathematics, and physics. Course work in those disciplines, integrated within a geological framework, provides students with a broad marketable understanding.

The department offers a B.S. and a B.A. degree in geology each of which offers a choice between two concentrations:

The **B.S. in Geology, General Geology Concentration** is recommended for students planning to continue to graduate school or to other careers in the geosciences. This Concentration has more flexibility to allow the student to tailor electives to pursue a particular interest.

The **B.S. in Geology, Environmental Geology Concentration** is recommended for students planning to become professional geologists in the environmental, geotechnical, government service, petroleum, or mining areas, and to prepare for Professional Licensure.

The **B.A. in Geology, General Geology Concentration** is recommended for students planning a career in public service and education (e.g. government agencies, park rangers, and K-12 science teaching), non-profit or non-governmental environmental organizations, or pre-environmental law. This Concentration has maximum elective flexibility to produce an experience tailored to the needs of the student.

The **B.A. in Geology, Field and Applied Geology Concentration** is recommended for students planning to become professional geologists employed by environmental and geotechnical firms, governmental agencies, oil and mining companies, and for those students planning to pursue a graduate degree in geology. Emphasizing field and applied geology courses, and experiential learning, this program is designed to permit students to meet existing requirements for Professional Licensing.

Geology majors must earn a grade of "C-" (1.7) or better in all required geology courses for those courses to satisfy the degree requirements for a B.A or B.S. degree in Geological Sciences.

Departmental Honors

Students majoring in geological sciences are eligible to earn honors in geological sciences at graduation if the following conditions are met:

1. The student applies to the department for candidacy at the beginning of their senior year;
2. A minimum grade-point average of at least 3.5 in all geology courses has been earned, with a minimum of five geology courses taken at this university.
3. Satisfactory completion of at least 2 units of GEOL 4800 Senior Honors Research.

Granting of departmental honors rests with the department faculty.

Master of Science in Environmental Sciences

The Master of Science in Environmental Sciences is a multidisciplinary program. In addition to courses in chemistry and geology, there are opportunities for study in economics, geography, health sciences, management, and public administration. Students are admitted from numerous backgrounds, but generally with bachelor's degrees in scientific fields such as chemistry, geology, biology, or environmental science.

This program is designed to provide a broad background in sciences relevant to the environment, and is designed so that it can potentially be completed in two years.

The culminating experience in the M.S. in Environmental Sciences is either an internship coupled with an extended project and its defense, or a research thesis and defense of the thesis.

Admission to the Program

Specific requirements for admission to classified graduate status are:

1. A baccalaureate degree from an accredited college or university;
2. Completion of an undergraduate major in chemistry, geology, or associated fields with one year of general chemistry and one full-term course in organic chemistry, physics and basic calculus (or methods in calculus). Students with undergraduate degrees in unrelated fields or without all required courses are also encouraged to apply and to discuss provisional admission with the Graduate Coordinator or potential faculty mentors. Provisional admission may require completion of preparatory coursework at CSUSB;
3. A cumulative undergraduate grade point average of at least 3.0 in all courses used for credit in the major;
4. A personal statement explaining the student's preparation for graduate study, goals in the program, potential areas of research, possible advisors, and professional goals upon graduation. Prospective students should contact potential advisors available at CSUSB noted on the program website;
5. Submission of three confidential letters of recommendation from people who are in a position to make relevant comments on the student's intent and potential for success in the program. At least two of the letters should be from current or former college or university faculty familiar with the student's scholarship and related activities;
6. Optional submission of scores from the Graduate Record Examination (GRE).

Students are considered for admission for the fall semester. Under compelling circumstances, applications may be considered for spring semester. Please consult the Graduate Coordinator for more information.

Advancement to Candidacy

To be advanced to candidacy, the student must have:

1. Achieved classified status;
2. Been accepted by a major advisor from the M.S. in Environmental Sciences program;
3. Completed at least 6 semester units of work applicable to the degree program as a graduate student at this university, and with a minimum grade point average of 3.0 ("B");
4. Submitted a formal program of graduate course work, in addition to a project or thesis proposal, prepared in consultation with and approved by the student's thesis committee, and approved by the graduate coordinator;

Gained final approval of the program and of the candidacy itself by the Dean of Graduate Studies.

Requirements for Graduation

1. A minimum of 30 semester units of acceptable graduate level work included in the formal program, with no less than 21 units completed in residence at this University and with at least 21 units gained from 5000- and 6000-level courses approved by the program;
2. Advancement to candidacy for the degree and approval of the specific program of courses;
3. A cumulative grade point average of "B" (3.0) or better in all graduate course work fulfilling the requirements of the program, and a grade of "C" (2.0) or better in each course in the program;
4. Completion and defense of an internship and project, or a thesis;
5. The graduation writing requirement is met upon successful completion of the project or thesis, if not met earlier;
6. Any additional general requirements not cited above and listed in [Graduate Degree and Program Requirements](#).

Department Graduate Admissions Committee and Major Advisor

The Environmental Sciences Graduate Admissions Committee consists of the graduate program coordinator and two or more faculty members available for consultation. This committee will determine whether students are adequately prepared for graduate study in environmental sciences, and has general supervision over the work of students progressing toward the master's degree.

Each new graduate student will consult with the graduate program coordinator for academic advising until the student has been accepted by a major advisor. Early in their graduate studies, students in consultation with their advisor, will select a project or thesis committee including the advisor and at least two other appropriate faculty. When appropriate, one member of the committee may be a person from another department or another institution who has expertise in the area of proposed research.

All students are responsible for selecting their major advisor and, in turn, must be accepted by the major advisor. The student, in consultation with their committee, will develop a program of specific courses and an acceptable project research proposal based on the student's interests, abilities and preparation. The major advisor will direct the research and, where appropriate, supervise the internship. The program of courses and the project/research topic, as well as any subsequent modification of

these, are subject to approval by the student's committee, the Graduate Coordinator, and the Dean of Graduate Studies.

Students enrolled in the graduate program wishing to take courses off campus and include them in the degree program must petition the Graduate Coordinator for approval, otherwise the course may not be accepted as part of the program. Extension courses at the X1000- to X9999-level are not applicable to the graduate program. Courses at the 3000- and 4000-level, other than those specified as possible electives in the program will be accepted only by written approval of the committee. Courses taken to satisfy quantitative or qualitative deficiencies cannot be applied toward a master's degree. Repeat of courses require approval of the Graduate Coordinator and will be granted only for serious and compelling reasons.

Degree Requirements (30 units)

(Program Code: ENSI)

Core Courses (15)

BIOL 5050	Biostatistics and Experimental Design	3
or HSCI 6210	Advanced Biostatistics for Public Health	
or NURS 6355	Biostatistics	
CHEM 5320	Atmospheric Chemistry	3
or GEOG 6400	Advanced Watershed Hydrology and Management	
ECON 3740	Economics of Climate Change	3
or ECON 3103	Environmental Economics	
GEO 6000	Advanced Environmental Chemistry and Geosciences	4
or CHEM 6000	Advanced Environmental Chemistry and Geosciences	
Two units chosen from the following:		2
GEO 6900	Graduate Seminar	
or CHEM 6900	Graduate Seminar	

Elective Courses (6)

Choose a minimum of 6 units; at least one course must be 5000- or 6000-level (some of these elective courses have prerequisites that must be satisfied before the course can be taken).

BIOL 3200	Microbiology
BIOL 3800	Ecology
CHEM 5320	Atmospheric Chemistry (if not previously used as a core course)
CHEM 5200	Instrumental Analysis
CHEM 5753	Internship in Chemistry (if not previously used as a core course)
CHEM 5903	Directed Laboratory Research
CHEM 6752	Advanced Internship
CHEM 6753	Advanced Internship
GEOG 4880	Remote Sensing of the Environment
GEOG 3710	Advanced Geographic Information Systems
GEOG 3730	Geo-Spatial Analysis
GEOG 4860	GIS and Socio-Economic Applications
GEOG 6400	Advanced Watershed Hydrology and Management (if not previously used as a core course)

GEOG 6500	Environmental Issues of Land Management	
GEOL 3700	Groundwater Hydrology	
GEOL 3750	Field Methods in Hydrology	
GEOL 4100	Engineering Geology	
GEOL 5280	Digital Mapping and GIS for Scientists	
GEOL 5400	Environmental Hydrology	
GEOL 5430	Isotope Geochemistry	
GEOL 5440	Environmental Geochemistry	
GEOL 5460	Low-temperature Geochemistry	
GEOL 5600	Earth Resources	
GEOL 5620	Site Investigation, Siting, and Case Histories in Engineering Geology	
GEOL 5753	Internship in Geology (if not previously used as core courses)	
GEOL 5951	Independent Study	
GEOL 5952	Independent Study	
GEOL 5953	Independent Study	
GEOL 6100	Graduate Geological Mapping	
GEOL 6752	Advanced Internship	
HSCI 3580	Principles of Toxicology	
HSCI 4578	Environmental Health Management	
MGMT 3350	Business, Ethics, and Society	
PA 3150	Society, Business, & Global Governance	
PA 5200	Sustainability Policy and Management	
PA 6720	Administrative Regulation	
Culminating Experience (9)		9
Total Units		30

Culminating Experience (9 units)

The culminating experience in the M.S. in Environmental Sciences is either an internship coupled with an extended project and its defense, or a research thesis and defense of the thesis.

Internship and Project Option (9 units)

CHEM 6940	Graduate Research Methods and Design	3
or GEO 6940	Graduate Research Methods and Design	
or SSCI 6950	Directed Graduate Studies	
CHEM 5753	Internship in Chemistry	3
or GEO 5753	Internship in Geology	
or GEOG 5753	Internship in Geography	
CHEM 6960	Graduate Project in Chemistry	3
or GEO 6960	Graduate Project	
or SSCI 6973	Graduate Project or Thesis	
Total Units		9

Research and Thesis Option (9 units)

CHEM 6940	Graduate Research Methods and Design	3
or GEO 6940	Graduate Research Methods and Design	

or SSCI 6950	Directed Graduate Studies	
CHEM 6950	Directed Graduate Research in Chemistry	3
or GEOL 6950	Directed Graduate Research in Geology	
or SSCI 6950	Directed Graduate Studies	
CHEM 6970	Graduate Thesis	3
or GEOL 6970	Graduate Thesis	
or SSCI 6973	Graduate Project or Thesis	
Total Units		9

Master of Science in Geology

The Master of Science in Geology is designed to provide strong preparation in geological sciences, focused directly on geological study and research. The program is designed so that it can potentially be completed in two years of full-time work. This program is intended for students who wish to pursue graduate level work as a prelude for doctoral studies, or as professional preparation for careers in geological fields.

Department Graduate Committee and Thesis Advisor

The Geology Graduate Admissions Committee consists of the graduate program coordinator and two or more faculty members available for consultation. This committee will determine whether students are adequately prepared for graduate study in Geology, and has general supervision over the work of students progressing toward the master's degree.

Each new graduate student will consult with the graduate program coordinator for academic advising until the student has been accepted by a thesis advisor. All students are responsible for selecting their thesis advisor and, in turn, must be accepted by the thesis advisor.

Early in their graduate studies, students in consultation with their thesis advisor, will select a thesis committee including the thesis advisor and at least two other faculty from the Department of Geological Sciences. When appropriate, one member of the committee may be a person from another department or another institution who has expertise in the area of proposed thesis research. The student, in consultation with their thesis committee, will develop a program of specific courses and an acceptable thesis proposal based on the student's interests, abilities and preparation. The thesis advisor will guide the research. The program of courses and the research topic, as well as any subsequent modification of these, are subject to approval by the student's thesis committee, the Graduate Coordinator, and the Dean of Graduate Studies. Upon completion of the research, an oral defense consisting primarily of discussion of the thesis research is required. Successful completion of the defense includes acceptance of the final thesis by the thesis committee.

Students enrolled in the graduate program wishing to take courses off campus and include them in the degree program must petition the Graduate Coordinator for approval, otherwise the course may not be accepted as part of the program. Extension courses at the X1000- to X9999-level are not applicable to the graduate program. Courses at the 3000- and 4000-level, other than those specified as possible electives in the program will be accepted only by written approval of the committee. Courses taken to satisfy quantitative or qualitative deficiencies cannot be applied toward a master's degree. Repeat of courses require approval of the Graduate Coordinator and will be granted only for serious and compelling reasons.

Admission to the Program

Specific requirements for admission to classified graduate status are:

1. A baccalaureate degree from an accredited college or university;
2. We recommend the completion of an undergraduate major in geology or associated field (e.g., geography or environmental studies) with at least 24 semester units of upper-division geology course work. However, students with undergraduate degrees in unrelated fields are also encouraged to apply and to discuss provisional admission with the Graduate Coordinator or potential faculty mentors. Provisional admission may require completion of upper-division geology or other coursework at CSUSB.
3. A cumulative undergraduate grade point average of at least 3.0 in all courses used for credit in the major;
4. Submission to the Graduate Coordinator of a one-page, typewritten statement of the student's preparation for graduate study, goals in the graduate program, potential area of research and possible advisor, and professional goals following completion of the M.S.;
5. Submission of three letters of recommendation from people who are in a position to make relevant comments on the student's intent and potential for success in the program. At least two of the letters should be from current or former college or university faculty familiar with the student's scholarship and related activities.

Submission of scores from the Graduate Record Examination (GRE) is optional.

Students are considered for admission for the fall semester. Under compelling circumstances, applications may be considered for spring semester. Please consult the Graduate Coordinator for more information.

Advancement to Candidacy

To be advanced to candidacy, the student must have:

1. Achieved classified status;
2. Been accepted by a major advisor from the M.S. in Geology program;
3. Completed at least 6 semester units of work applicable to the degree program as a graduate student at this university, and with a minimum grade point average of 3.0 ("B");
4. Submitted a formal program of graduate course work, in addition to a thesis proposal, prepared in consultation with and approved by the student's thesis committee, and approved by the graduate coordinator;
5. Gained final approval of the program and of the candidacy itself by the Dean of Graduate Studies.

Requirements for Graduation

1. A minimum of 30 semester units of acceptable graduate level work included in the formal program, with no less than 21 units completed in residence at this University and with at least 21 units gained from 5000- and 6000-level courses approved by the program;
2. Advancement to candidacy for the degree and approval of the specific program of courses;
3. A cumulative grade point average of 3.0 ("B") in all graduate course work fulfilling the requirements of the program, and a grade of "C" (2.0) or better in each course in the program;

4. Completion and defense of a thesis;
5. The graduation writing requirement is met upon successful completion of the thesis, if not met earlier;
6. Any additional general requirements not cited above and listed in Graduate Degree and Program Requirements (<http://bulletin.csusb.edu/graduate-degree-programs/graduate-degree-program-requirements/>).

GEOL 5280	Digital Mapping and GIS for Scientists	
GEOL 3990	Geological Research Design	3
GEOL 4000	Undergraduate Geological Research	2
GEOL 4900	Senior Seminar	2

Concentration (7-15)

Students must satisfy the requirements of one of the concentrations listed below: 7-15

Total Units **69-78**

Concentrations (7-15 Units)

General Geology Concentration (7 units)

(Program Code: GEOL)

A minimum of 7 units chosen from the following list after consultation with a faculty advisor. No more than 3 units may be taken from supervision courses. At least 3 units of elective must be from Geology courses. 7

GEOL 2500	Geology of California	
Any 3100-level or above Geology course, not previously used for the degree, including:		
GEOL 3400	Sedimentary Geology: Environmental Systems Analysis	
GEOL 3500	Introductory Paleontology	
GEOL 3700	Groundwater Hydrology	
GEOL 3750	Field Methods in Hydrology	
GEOL 4100	Engineering Geology	
GEOL 4200	Topics in Applied Geology	
GEOL 5000	Advanced Topics in Geology	
GEOL 5000L	Laboratory for Advanced Topics in Geology	
GEOL 5200	Tectonics	
GEOL 5220	Neotectonics and Seismic Hazard Analysis	
GEOL 5240	Volcanology and Volcanic Hazard Assessment	
GEOL 5260	Advanced Structural Geology	
GEOL 5280	Digital Mapping and GIS for Scientists	
GEOL 5300	Microscopy	
GEOL 5400	Environmental Hydrology	
GEOL 5420	Geochemical Thermodynamics	
GEOL 5430	Isotope Geochemistry	
GEOL 5440	Environmental Geochemistry	
GEOL 5600	Earth Resources	
GEOL 5620	Site Investigation, Siting, and Case Histories in Engineering Geology	
GEOL 6100	Graduate Geological Mapping	

Total Units **7**

Environmental and Engineering Geology Concentration (13-15 units)

(Program Code: ENVG)

GEOL 3700	Groundwater Hydrology	3
GEOL 4100	Engineering Geology	4
Choose a minimum of two courses:		6-8
GEOL 2500	Geology of California	
GEOL 3750	Field Methods in Hydrology	
GEOL 5220	Neotectonics and Seismic Hazard Analysis	
GEOL 5400	Environmental Hydrology	
GEOL 5600	Earth Resources	
GEOL 5620	Site Investigation, Siting, and Case Histories in Engineering Geology	
GEOG 2250	Introduction to Geographic Information Systems and Cartography	
GEOG 4400	Geomorphology	
Total Units		13-15

Minor in Geology

Requirements for a minor in Geology (20 units)

Requirements (8)

Choose one of the following: 3

GEOL 1000	Introductory Geology	
GEOL 1020	Plate Tectonics: Key to Understanding Earthquakes, Volcanoes and Tsunami	
GEOL 1060	Environmental Geology and Geological Hazards	

Choose one of the following laboratories: 1

GEOL 1000L	Introductory Geology Laboratory	
GEOL 1060L	Environmental Geology and Geological Hazards Laboratory	

GEOL 2000 Interpreting Earth Systems History: Stories from an Ancient Planet 4

Electives (12)

12 units chosen from Geology courses numbered 2500 or above, with no more than two courses chosen from GEOL 3020, 3030, and 3040. Note: GEOL 3090 may not be counted towards the Minor in Geology. 12

Total Units **20**

Department of Health Science and Human Ecology

Physical Sciences Building, Room 226
(909) 537-5339 Department of Health Science and Human Ecology
website (<http://health.csusb.edu/>)

The Department of Health Science and Human Ecology provides relevant instruction for personal growth, community service, intellectual stimulation, and professional career opportunities in the fields of public health, health services, and environmental health. The department emphasizes an ecological approach to health and attempts to provide students with the necessary tools to understand factors contributing to the promotion of general health and well-being, disease prevention, and the elimination of health disparities.

The Department of Health Science and Human Ecology offers the following Bachelor of Science degrees: Environmental Health Science, Health Services Administration, Public Health, and Nutrition and Food Sciences. In addition, the department offers a Master of Science in Health Services Administration, and a Master of Public Health. The department also offers certificates in several specialized areas.

A Bachelor of Science is appropriate for students interested in becoming health professionals, such as health educators, health administrators, or those desiring to work in environmental protection agencies, private businesses, industrial hygiene, and safety. The programs are also designed to provide a career ladder opportunity for persons currently engaged in public health, health services, and environmental occupations or preparing for graduate work in medicine, public health, allied health, and social or natural sciences.

Specifically, the Bachelor of Science in Nutritional Sciences and Dietetics is appropriate for students preparing for careers dealing with foods, nutrition, or dietetics. After graduation, students are eligible to apply and complete an ACEND accredited internship/supervised-practice programs. After completion of 1,200 hours of supervised-practice, they are eligible to take the registration to become a registered dietitian/nutritionist (RDN). Also, graduates with Verification Statement may take the exam for Diet Technician Registered (DTR) to become Nutrition and Dietetic Technician Registered (NDTR). Graduates may also work as Certified Dietary Manager (CDM), dietary aides, School Nutrition Specialists (SNS), and in many other food- and nutrition-related jobs.

The department offers a blend of traditional and modern approaches to education and career development in the health science field. It encourages multidisciplinary orientation, community interaction, and a social outlook, and provides appropriate instruction in the health-related areas of science. In their senior year, students intern in community agencies such as health departments, hospitals, industrial plants, environmental improvement agencies, and consumer affairs offices. This high-impact practice prepares students for a successful career by, thus combining theory and practice in a professional setting.

Audiometrist Certification

Offered through the College of Extended Learning, HSCI 3374 leads to a certificate of registration as a school audiometrist issued by the California State Department of Health Services.

Departmental Honors

A graduating senior will be awarded departmental honors in Health Science after meeting the following requirements:

1. At least a 3.5 grade point average in all courses required for the major taken at California State University, San Bernardino;
2. At least a 3.0 ("B") grade point average overall;
3. An "A-" or better in HSCI Independent Study (at least three units).

Current Faculty

Monideepa Becerra, Professor of Health Science and Human Ecology
 B.S. 2008, University of California, Riverside
 M.P.H. 2011, D.PH. 2014, Loma Linda University

Dorothy C. Chen-Maynard, Professor of Health Science and Human Ecology

Master of Public Health

The Master of Public Health program is a CEPH accredited program that is appropriate for health professionals furthering their careers as health educators, supervisors, leaders, and administrators in public health settings including county, state, and federal health agencies, as well as community-based organizations, healthcare organizations, and public institutions dedicated to the improvement of population health.

The purpose of the MPH program is to prepare professionals to develop knowledge and skills to identify, assess, evaluate, and resolve public health problems with competence in program planning, implementation, and evaluation.

Specific entrance requirements have been established by the University and the Department of Health Science and Human Ecology. Further information and application materials are available on the department web pages.

This is a hybrid-required program. About 51-60% of the instruction will be offered in-person and about 40-49% of instruction will be offered online.

Admission to the Program

In addition to the general requirements of the University, specific requirements for admission to classified graduate status are:

1. Meet all university admissions requirements.
2. A minimum grade point average of 3.0 ("B") in the last 60 semester units of undergraduate coursework and in all post-graduate coursework;
3. Undergraduate coursework in the natural and social sciences, including those focused on diversity and population health;
4. A copy of most recent resume or *curriculum vitae*;
5. Three letters of recommendations that highlight the applicant's (1) academic ability and potential to succeed in the graduate program and (2) professional experiences that make the candidate ideal for public health. At least one letter of recommendation must be from the coordinator/director or an instructor from the school where applicant most recently completed coursework that highlights how the student met the standards of the undergraduate program (if such a coordinator/director does not exist, a faculty member may write such a letter);
6. A statement of purpose, double-spaced and 2-3 pages maximum, detailing: (1) practical experience(s) in public health and how it relates to the program (this is weighted most), (2) academic experience(s) in public health or related field, (3) immediate and long-term professional goals and how that relates to the program, (4) reasons for being interested in the MPH program, and (5) key skills the applicant can bring to the program.
7. Writing sample based on a public health topic of interest to the applicant, typed, approximately 1,000 words, double-spaced, with appropriate references (not counted in the word limit). The writing sample should highlight the applicant's basic understanding of community health needs, epidemiology, and application of public health concepts to solve population health issues.

The admissions committee evaluates the applicant as a whole package, including grade point average, letters of recommendation, and other supporting documents. Majority of emphasis and priority, however, is given to public health experiences beyond those required by curriculum, such as externship, employment, etc. that highlight the applicant's ability to be successful in the field, in addition to grade point average in core public health or related courses.

Students accepted as conditionally classified can attain fully classified status by completing at least 10 semester units of MPH core coursework with a minimum grade point average of 3.0 ("B") and must remove any deficiencies stated as conditions for acceptance into the program or otherwise set by the department's admissions committee.

Advancement to Candidacy

Candidacy will be granted to students based on:

1. Achieving classified status;
2. Completion of 20 semester units towards the MPH with a minimum grade point average of 3.0 ("B") and a B (3.0) or higher in all required coursework;
3. Submitting a formal program of study of graduate coursework prepared in consultation with the MPH program director and receiving recommendation for candidacy;
4. Completing the Writing Requirement for Graduate Candidacy (WRGC) which will be satisfied by completion of a program-specific course upon discussion with advisor.

Requirements for Graduation

1. Advancement to candidacy for the degree and approval of the specific program of study;
2. A cumulative grade point average of 3.0 ("B") or better, in all graduate course work fulfilling the requirements of the Master of Public Health and grades of "B" (3.0) or better in all coursework;
3. A minimum of 42 semester units of approved graduate-level coursework included in the formal program, with at least half of the units required for the degree gained from 6000-level courses in Health Science and Human Ecology (HSCI), a minimum of 30 units must be completed at this university;
4. Completion of all program requirements, including culminating experience;
5. The Graduate Writing Assessment Requirement is met by completion of a program-specific course in consultation with an advisor.

Degree Requirements (42 units)

(Program Code: PHLT)

Core courses (38)

HSCI 6200	Professional Development and Leadership in Public Health	4
HSCI 6210	Advanced Biostatistics for Public Health	4
HSCI 6220	Advanced Topics in Epidemiology	4
HSCI 6230	Advanced Topics in Environmental and Occupational Health	3
HSCI 6240	Advanced Study in Health Promotion	4
HSCI 6250	Advanced Topics in Public Health Policy and Administration	4
HSCI 6260	Health Education Program Planning and Evaluation	4
HSCI 6280	Grant Writing for Health Sciences	4
HSCI 6390	Advanced Professional Development and Leadership in Public Health	2
HSCI 6410	Project Preparation	1
HSCI 6954	Field Experience	4
Culminating Experience Options (4)		4

Total Units **42**

Culminating Experience (4 units)

Choose one of the following		4
HSCI 6960	Project	
HSCI 6974	Thesis	
Total Units		4

Students complete an integrative learning experience that demonstrates a synthesis of foundational and concentration competencies. In consultation with the program director and faculty, students select specific competencies appropriate for students' educational and professional goals.

Master of Science in Health Services Administration

The Master of Science in Health Services Administration is appropriate for students preparing to become health service administrators or managers in hospitals, health maintenance organizations, medical group clinics, nursing homes, public health departments, state and federal health agencies, military health services, or other health service organizations.

Specific entrance requirements have been established by the University and the Department of Health Science and Human Ecology. Information about entrance requirements is available at the department website.

Students who wish to design a specific, individualized master's degree related to health science should also consider the M.A. in Interdisciplinary Studies. Students can successfully combine courses from several relevant fields to build interdisciplinary programs serving their career goals in such areas as Community Health Education, Health Promotion, Environmental Health, Occupational Health/ Industrial Hygiene, Public Health, and Gerontology.

Students may also earn a certificate in Finance, Accounting, and Information Systems along with the Master of Science in Health Services Administration.

Admission to the Program

In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

1. A minimum grade point average of 3.0 ("B") for the major or for the last 60 semester units of undergraduate coursework and in all post-graduate coursework;
2. A copy of most recent resume or *curriculum vitae*;
3. A statement of purpose, double-spaced and 2-3 pages maximum, describing those experiences which have shaped the applicant's interest in the MSHSA program. Comment on your current knowledge, skills, experience, and preferred areas of work in the field of health services administration, one academic experience which has meant the most to your professional career, immediate and long-term professional goals, reasons for being interested in the MSHSA program, strengths the applicant brings to the program, skills which the applicant would like to improve, and how the MSHSA degree will help you grow professionally.;
4. Writing sample based on a health services management topic of interest to the applicant, typed, approximately 1,000 words, double spaced;
5. Recommendation for advancement to candidacy from the Graduate Director of the Master of Science in Health Service Administration Program.

Students who meet the above criteria may be admitted as conditionally classified graduate students. To attain fully classified status, students must complete at least 16 semester units of MSHSA core coursework with a minimum grade point average of 3.0 ("B") and must remove

any deficiencies stated as conditions for acceptance in the program or otherwise set by the department's graduate committee.

Advancement to Candidacy

To be advanced to candidacy, the student must have:

1. Completed 20 semester units toward the MSHSA with a minimum grade point average of 3.0 ("B");
2. Submit a formal program of study of graduate coursework prepared in consultation with the MSHSA graduate director;
3. Be recommended for advancement to candidacy by the MSHSA Graduate Director;
4. Completed an undergraduate-level writing course.

Requirements for Graduation

In addition to the general requirements of the university and the department, graduation requirements include:

1. Advancement to candidacy for the degree and approval of the specific program of study;
2. A minimum of 82% (36 units) of 44 units must be completed at this university;
3. The Graduate Writing Assessment Requirement is met through successful completion of an upper-division Writing Intensive course;
4. A grade point average of 3.0 ("B"), or better, in all graduate course work and research fulfilling the requirements of the Master of Science in Health Services Administration and grades of "B-" (2.7) or better in all coursework.

Classified and conditionally classified graduate students in the Master of Science program must complete their degree requirements within seven years.

Degree Requirements (43-44 units)

3-4

Master of Science in Nutrition Science

(Program Code: NTSC)

The MS in Nutrition Science prepares students for careers in nutrition and related fields by developing their knowledge and skills in nutrition science, cultural competencies, and applied research methods. As part of the program, students will complete original or applied research, and write and present a thesis or a project. Only students jointly enrolled in the Individualized Supervised-Practice Pathway (ISPP) and the MS program have the option to complete a project that includes supervised-practice experience rather than a thesis. This project-based option requires students to complete the Accreditation Council for Education of Nutrition and Dietetics (ACEND) requirement of 1,200 hours of supervised-practice experience, complete an applied research project in one of the rotation sites, and present their findings.

1. Meet all university admissions requirements.
2. A minimum grade point average of 3.0 ("B") in the last 60 semester units of undergraduate coursework and in all post-graduate coursework.
3. Minimum prerequisites for the Master of Science in Nutrition Science include completion of the following college-level courses with a grade of "C" or better: General Chemistry series with lab (CHEM 2050 & 2050L), Organic and biochemistry series with lab (CHEM 2060 & 2060L), Nutritional Biochemistry (e.g., HSCI 4661), Anatomy & Physiology with lab (BIOL 2230 & 2240), Statistics (MATH 1201 or HSCI 3205), Fundamentals of Human Nutrition (HSCI 3601). Exposure to life cycle nutrition as part of another course or as a devoted course is highly recommended (HSCI 3602). Most students with a Bachelor of Science in Nutrition degree will meet the prerequisite requirements.
4. A copy of most recent resume or *curriculum vitae*.
5. Three letters of recommendations that highlight the applicant's (1) academic ability and potential to succeed in the graduate program and (2) professional experiences that make the candidate ideal for nutrition science.
6. A statement of purpose, double-spaced and no more than 1,000 words, detailing: (1) practical experience(s) in nutrition science and how it relates to the program (this is weighted most), (2) academic experience(s) in nutrition or related field, (3) immediate and long-term professional goals and how that relates to the program, (4) reasons for being interested in the Nutrition Science M.S. program at CSUSB, and (5) key skills the applicant can bring to the program.
7. Writing sample based on a nutrition topic of interest to the applicant, typed, approximately 1,000 words, double-spaced, with appropriate references (not counted in the word limit). The writing sample should highlight the applicant's basic understanding of human nutrition science and relevant concepts to solve health issues.

Note that students who apply for the dual MS and ISPP will require a DPD verification statement for this track. This will be part of the ISPP admissions review process, which is complementary but independent from the MS admissions process.

1. Completion of 18 semester units towards the MSNS including the core courses: HSCI 6601, HSCI 6602, HSCI 6603 and HSCI 6653, with a minimum grade point average of 3.0 ("B") and a B (3.0) or higher in all required coursework.

2. Thesis or project primary advisor, topic and committee have been approved by the MSNS program director.
3. Submitting a formal program of study of graduate coursework prepared in consultation with the MSNS program director and receiving recommendation for candidacy.

1. Advancement to candidacy for the degree and approval of the specific program of study.
2. A GPA of 3.0 (grade of B) or better must be achieved in all courses taken to satisfy the program course requirements.
3. Completion of 32 semester units of approved graduate-level coursework included in the formal program.
4. The satisfactory completion of a thesis or project, including an exit seminar, is required prior to completion of the program.

HSCI 6601	Macronutrient Biochemistry	3
HSCI 6602	Micronutrient Biochemistry	3
HSCI 6603	Research Methods and Biostatistics in Nutrition Science	3

Thesis Option

The thesis will be based on supervised original research conducted by the student with close supervision from the student's major professor. The thesis concept (i.e., the proposed research prior to starting the work) must first be approved by the student's thesis committee, and the final thesis must be reviewed and approved by the students' thesis committee before submitting to Graduate Studies.

The following is an outline of the development and completion of the thesis.

1. **Thesis advisor and committee selection** - Within the first semester of the program, the student meets with faculty to learn about their research and finds a faculty member they would like to work with as a major professor. With the major professor, the student selects two additional faculty as the thesis committee (major professor plus two other faculty).
2. **Thesis proposal** - By the end of the first year, the student should complete a proposal for the thesis work, which must be approved by the student's thesis committee before the student can start the research. This proposal should include an in-depth literature review of the research topic, a problem statement, the hypothesis of the research, the research design, methods that will be used, and APA-formatted references.
3. **Register for HSCI 6973 - Thesis in order to conduct the thesis research and write the thesis** - In the second year of the program the student will need to register for a total of 6 units of HSCI 6973. During this year, the student will carry out the thesis research and write the thesis. The summer between the first and second year should be used to work on conducting the research and Fall and Spring semesters of the second year should be focused on writing the thesis.
4. **Approval of written thesis** - The thesis committee must approve a final version of the thesis that will then be submitted to graduate studies.
5. **Exit seminar** - Upon completion of the approved thesis, the student should schedule an exit seminar during a time that the thesis committee can attend.

Project Option

The project will be based on the students'/interns' experience while completing the ACEND required hours, typically 1,200 hours, of supervised-practice experience to complete their ISPP Program training, which can be completed in 11 months. The interns will work closely with the ISPP Program Coordinator, preceptors, HSCI faculty, and Didactic Program in Dietetics (DPD) Director to complete the supervised-practice hours and competencies requirements including an applied research project to be conducted during a supervised-practice rotation. The applied research project proposal must be submitted and approved by the ISPP Program Coordinator prior to starting the project. The research project should focus on a question or problem relevant to applied nutrition or dietetic practice. The proposal and project should include a systemic approach and application of research methodology. After completion of HSCI 6603 in the first year, interns should have some idea of a research topic and method for data collection.

ISPP interns must register for HSCI 6963 in Fall and Spring semesters of their second year. Their rotation hours, sites, and preceptors must be approved by the ISPP Program Coordinator. The final portfolio, reflective

statement, and a research report must be submitted to the ISPP Program Coordinator prior to conferral of the degree.

Exit Seminar: The ISPP interns will present their supervised-practice experiences and research findings to their peers, preceptors, ISPP Program Coordinator, DPD Director, and program faculty.

Bachelor of Science in Environmental Health Science

The Environmental Health Science Program is the appropriate choice for students who want to become health inspectors (i.e., registered environmental health specialists, REHS), industrial hygienists, hazardous waste control experts, air pollution control specialists, or vector control specialists. For those who plan on becoming registered environmental health specialists (REHS), this program is approved by the Environmental Health Specialist Registration Committee of the California Department of Public Health. Students who are certified by the Environmental Health Coordinator will have met the academic and experience requirements for admittance to the California Environmental Health Specialist Registration Examination. The program is also accredited by the National Environmental Health Science and Protection Accreditation Council, making its graduates eligible for job opportunities as environmental health officers in the Commissioned Corps of the U.S. Public Service.

Although a few courses in this program may be offered in online or hybrid mode, most courses are only offered in-person.

Note: All upper-division courses with an HSCI prefix or any course approved for upper-division Health Science substitutions require a grade of "C" (2.0) or better.

Total Units 77

Bachelor of Science in Health Services Administration

The B.S. Degree in Health Services Administration is designed to prepare a diverse-student body for management roles in public, not-for-profit, and private health care settings, to enhance the quality and innovation in the delivery of health care services for all individuals.

Graduates from this program gain relevant work-related experiences and are: 1) trained in health care management competencies including marketing, finance, human resources, and other related functions, with a working knowledge of operations, information systems, statistical analysis, and quality improvement, and 2) prepared to enter the profession or a graduate program. This program aligns with certification standards of the Association of University Programs in Health Administration (AUPHA).

Note: For graduation, students must complete all upper-division courses required for the major with a grade of "C" (2.0) or better.

Completion of the requirements for the degree will also meet the following GE categories: B2 and laboratory activity.

Although a few courses in this program may be offered in online or hybrid mode, most courses are only offered in-person.

Total Units 65

Bachelor of Science in Nutritional Science and Dietetics

Program restricted to San Bernardino Campus students.

Program Requirements (81 units)

Total units required for graduation: 120 units

Requirements for the B.S. in Nutritional Science and Dietetics

(Program Code: NSCD)

Note: For graduation, students must complete all upper-division courses required for the major with a grade of "C" (2.0) or better.

Completion of the requirements for the degree will also meet the following GE categories: B1; B2; B3:laboratory activity; B4; and 3 lower division units from category D.

In order to receive the Verification Statement from the Didactic Program in Dietetics (DPD), graduates must have a minimum overall GPA of 2.8; must receive a grade of B- (2.7) or higher in the 3000 and 4000-level DPD courses; and score of greater or equal to 80% on the summative exam in HSCI 4690. This Verification Statement is required for dietetic internship or supervised-practice program to become a registered dietitian/nutritionist (RDN) as well as to take the Nutrition and Dietetic Technician Registration (NDTR) exam. Starting January 1, 2024, Commission on Dietetic Registration (CDR) will require a minimum of a master's degree to be eligible to take the credentialing exam to become a RDN. Please contact Dr. Dorothy Chen-Maynard at dchen@csusb.edu for information and questions.

Lower Division Courses* some courses count for both GE and major

HSCI 1100	Problem Solving Skills for Health Science	1
HSCI 1200	Health and Society: An Ecological and Societal Approach	3
HSCI 1200L	Health and Society: An Ecological and Societal Approach Lab	1

Total Units 81

Bachelor of Science in Public Health

The Bachelor of Science in Public Health program prepares students for professional positions in public health agencies, community-based organizations, health care, tribal health, and international organizations. The curriculum is competency based in compliance with standards set by the Council on Education for Public Health and by the National Commission for Health Education Credentialing. Graduates of the

program will be eligible to take the Certified Health Education Specialist (CHES) national examination administered by the National Commission for Health Education Credentialing.

Many of the courses in this program are offered in different modalities (in-person, hybrid, or online). All required courses in the program will be offered in-person at least once per year. At least one elective course in the program will be offered in-person each semester. At least 75% of lower-division courses in the program will be in-person and at least 60% of upper-division courses in the program will be in-person in during Fall and Spring semesters. It is not possible to take all of the program courses in online or hybrid mode.

Requirements (65 units)

Total units required for graduation: 120

Requirements for the B.S. in Public Health

Note: All Health Science concentrations require grades of "C" (2.0) or better in all upper-division coursework with an HSCI prefix or any course approved for upper-division Health Science substitutions required in the major.

(Program Code: PBHL)

Lower-division requirements - includes 4 GE units: (13)

Total Units 65

Certificate in Health Equity

This certificate is designed as an interdisciplinary certificate that provides a background in disciplines that relate to the social and behavioral determinants of health. Determinants of health are social, cultural, political, and economic factors coupled with individual factors that impact population as well as individual health outcomes. Socio-economic (upstream) factors are shaped by the distribution of money, power and resources at global, national and local levels, which are themselves influenced by policy choices (e.g. policies to promote economic development and reduce poverty; policies to promote healthier homes, neighborhoods, schools, and workplaces; housing policy; policies affecting access to health care; education policy; social policy; community empowerment; social capital; social inclusion/ exclusion; transportation policy; job training programs; food policy; health system policy and more). Individual (downstream) factors are those of behavior/lifestyle; gender; genes/family history, stress, income, education, food insecurity, access to health care, and housing.

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 6000-level courses as requirements and/or electives. These 6000-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Certificate Requirements (18 units)

Core Courses (6)

Six units chosen from:	6
ANTH 3605	Anthropology of Health
HSCI 3200	Foundations of Public Health Education
SOC 3550	Medical Sociology
PSYC 3318	Health Psychology

Measurement Courses (3)

Three units chosen from:	3
HSCI 4068	Research Methodology in Health Science
HSCI 4204	Research Methods and Evaluation in Public Health
SOC 3010	Qualitative Analysis & Field Research
SOC 3020	Introduction to Community-Based Research
SOC 3070	Quantitative Analysis & Survey Research
PSYC 3311	Research Methods in Psychology

Elective Courses (6)

Six units chosen from:	6
COMM 4301	Gender, Race, and Class in Media
COMM 4302	Latinx, Media, and Cultures
COMM 5267	Advanced Topics in Relational and Organizational Communication
HSCI 3207	Social Determinants of Health
HSCI 3206	Public Health Law and Ethics
HSCI 4206	Infectious Disease Burden in U.S.
HSCI 4207	Chronic Disease Burden in U.S.

Department of Kinesiology

Health and Physical Education Building, Room 120
(909) 537-5349 Department of Kinesiology website (<https://www.csusb.edu/kinesiology/>)

The B.S in Kinesiology is designed for the student preparing to:

1. Become a physical education teacher;
2. Select a career in nonteaching fields related to physical activity, such as commercial physical fitness, sport business, research and development, or commercial leisure services;
3. Pursue graduate work in kinesiology or related disciplines.

Departmental Honors

A graduating senior will be awarded departmental honors in kinesiology after meeting the following requirements:

1. Earned a 3.5 grade point average in all Kinesiology course work;
2. Earned a 3.0 ("B") grade point average overall;
3. Over one-half of the course work for the Kinesiology major must be taken at California State University, San Bernardino;
4. Recommendation by the Kinesiology faculty.

Current Faculty

V Ambati, Associate Professor of Kinesiology
 B.E. 2007, Osmania University, India
 M.S. 2009, University of South Florida
 Ph.D. 2014, University of Texas at El Paso

Nathaniel Bodell, Assistant Professor of Kinesiology
 B.S. 2013, California State University, San Bernardino
 M.S. 2015, California Baptist University
 Ph.D. 2019, University Of Nevada, Las Vegas

Zhaojing Chen, Assistant Professor of Kinesiology
 B.S. 2011, Shanghai University of Sport
 M.A. 2013, Ph.D. 2017, University of Oklahoma

James Clover, Lecturer in Kinesiology
 B.S. 1980, Ohio University Main Campus
 M.Ed. 1989, Azusa Pacific University

Nicole Dabbs, Professor of Kinesiology, Chair
 B.S. 2008, M.S. 2010, California State University, Fullerton
 Ph.D. 2013, University of Mississippi - Main Campus

Sarah Dunn, Professor of Kinesiology
 B.S. 1998, Pepperdine University
 M.S. 2004, University of Sydney
 Ph.D. 2009, University of New South Wales

Guillermo Escalante, Associate Professor of Kinesiology
 B.S. 1997, M.B.A. 1999, University of LaVerne, CA
 D.S.C 2012, Rocky Mountain University of Health Professions

Christopher Gentry, Professor of Kinesiology
 B.S. 2005, M.S. 2011, Southern Illinois University
 Ph.D. 2014, University of Illinois

Bryan Haddock, Professor of Kinesiology
 B.A. 1986, The Master's College

M.S. 1988, Ph.D. 1998, Loma Linda University

Christopher Hill, Assistant Professor of Kinesiology
 B.S. 2011, Louisiana State University
 M.S. 2014, Miami University
 Ph.D. 2018, Michigan State University

April Karlinsky, Assistant Professor of Kinesiology

Jason Ng, Professor in Kinesiology
 B.S. 2009, M.S. 2011, California State University, Fullerton
 Ph.D. 2015 The University of Alabama

Hyun-Kyoung Oh, Professor of Kinesiology
 B.S. 1998, Dongduk Women's University, Seoul, Korea
 M.S. 2000, Seoul National University, Seoul, Korea
 Ph.D. 2006, Indiana University, Bloomington

Wagner Prado, Assistant Professor of Kinesiology
 B.S. 1999, College of Santo Andre
 M.S. 2004, Federal University of Sao Carlos
 Ph.D. 2007, Federal University of Sao Paulo

Amanda Rymal, Professor of Kinesiology
 B.A. 2005, Laurentian University, Ontario
 M.A. 2007, Ph.D. 2011, University of Ottawa

Hosung So, Professor of Kinesiology
 B.S. 1993, M.S. 1995, Chug-Ang University, Seoul Korea
 Ph.D. 2002, University of Nevada, Las Vegas

Sang Ouk Wee, Assistant Professor of Kinesiology
 B.S. 2000, Korea University
 M.E. 2004, Auburn University
 M.S. 2012, California State University Northridge
 Ph.D. 2017, University of Illinois at Chicago

Undergraduate Degrees

Bachelor of Science

Kinesiology (p. 276)
 with concentrations in: (p. 276)

- Allied Health Professions
- Exercise Science
- Physical Education and Adapted Physical Education

Minors

Kinesiology (p. 279)

Bachelor of Science in Kinesiology

The Kinesiology undergraduate program at CSUSB provides a comprehensive education in the science of human movement. Students can choose from four concentrations, including Exercise Science (ES), Allied Health Professions (AHP), Physical Education and Adapted Physical Education (PEAPE), and Health Promotion (HP), each tailored to specific career goals within the field. The curriculum integrates theoretical knowledge with practical experience through laboratory work, internships, and community engagement. The program emphasizes the development of critical thinking, ethical decision-making, and effective communication skills essential for success in the diverse field of kinesiology. Faculty members are dedicated professionals who bring diverse expertise and research interests to the classroom, ensuring a dynamic and supportive learning environment. Graduates are well-prepared for various professional roles, further studies, and certifications in health, fitness, rehabilitation, and education.

The Kinesiology Department offers the Exercise Science and Health Promotion Concentration at the satellite Palm Desert Campus (PDC) for a 4-year degree completion program.

Note: Although some courses in this program may be offered in online or hybrid mode, most courses are only offered in-person. Students should consult an adviser for supporting course work offered for all concentrations in the Kinesiology major.

Allied Health Professions (AHP)

The concentration in Allied Health Professions (AHP) is for people interested in eventual graduate education in allied health professions (e.g., physical therapy, occupational therapy, physician's assistant, medical or dental school) after graduation from CSUSB. CSUSB Kinesiology AHP students will engage in a rigorous course of study in Kinesiology, Biology, Chemistry, and Physics. This concentration offers undergraduate students essential pre-requisite courses for eventual graduate study in a preferred AHP. Students are strongly encouraged to review admission requirements at accredited universities to which they may apply for specific allied health professional graduate programs. Twelve units in the AHP concentration meets the requirements for GE and major. Note: AHP concentration is the only Kinesiology concentration that is impacted at this time. Students must request to transfer into the program once meeting the admission requirements.

Minimum Admission Requirements for Transfer Students:

1. 3.20 cumulative GPA required;
2. Complete the following:

MATH 1601	Modeling with Calculus	3
or MATH 2210	Calculus I	
BIOL 2230	Human Anatomy and Physiology I for Allied Health Majors	4

BIOL 2240	Human Anatomy and Physiology II for Allied Health Majors	4
-----------	--	---

A minimum of one (1) science series chosen from Group A, B or C

Group A:

CHEM 2100	General Chemistry I	4
CHEM 2100L	General Chemistry I Laboratory	1
CHEM 2200	General Chemistry II	4
CHEM 2200L	General Chemistry II Laboratory	1

Group B:

PHYS 2000	Introduction to Physics I	4
PHYS 2000L	Introduction to Physics I Lab	1
PHYS 2010	Introduction to Physics II	4
PHYS 2010L	Introduction to Physics II Lab	1

Group C:

PHYS 2500	General Physics I	4
PHYS 2500L	General Physics I Lab	1
PHYS 2510	General Physics II	4
PHYS 2510L	General Physics II	1

The grade earned in each of the above courses must be no lower than a "C" (2.0).

Department Recommendations: It is strongly recommended that students in the Allied Health Professions Concentration maintain a minimum 3.20 GPA once admitted to the concentration.

Exercise Science (ES)

The Exercise Science (ES) concentration is for people interested in a variety of health/fitness-related fields including but not limited to: personal trainer, cardiac rehab, athletic training, wellness, strength and conditioning specialist, sport psychologist, etc. This concentration prepares undergraduate students to work in a variety of health/fitness related fields.

Physical Education and Adapted Physical Education (PEAPE)

The Physical Education and Adapted Physical Education (PEAPE) concentration is for people interested in becoming physical education teachers and/or adapted physical education teachers. The concentration prepares undergraduate students to go into the teacher education credential program. Formerly known as Pedagogy concentration. The two units from the KINE core count toward the PEAPE concentration. For students in the PEAPE concentration KINE 3700 meets the requirements for GE Upper Division Scientific Inquiry (B5). Students in the PEAPE concentration are eligible to obtain the added authorization (<http://bulletin.csusb.edu/colleges-schools-departments/education/teacher-education-foundations/adapted-physical-education-added-authorization/>) for Adapted Physical Education during the credential program through the college of education.

Health Promotion (HP)

The Health Promotion (HP) concentration is for people interested in a broad spectrum of health-related careers with the goal to help others improve their overall health and well-being. This concentration prepares students to work in areas such as, but not limited to, health education and

promotion, school-based health, workplace wellness, community health, and health consulting.

Requirements (69-78)

Total units required for graduation (120)

Requirements for the B.S. in Kinesiology

Lower-division requirements (19)

BIOL 2230	Human Anatomy and Physiology I for Allied Health Majors	4
-----------	---	---

BIOL 2240	Human Anatomy and Physiology II for Allied Health Majors *Counts toward GE B2	4
-----------	---	---

MATH GE Category B4	*Counts toward GE B4	3
---------------------	----------------------	---

It is strongly suggested for ES and PEAPE concentration students to take MATH 1301. AHP concentration students must take MATH 1601 or MATH 2210.

Complete a minimum of 2 units from the following courses:	2
---	---

PEAPE concentration students must take KINE 2610 to meet this requirement

KINE 1010A	Individual and Dual Activities: Badminton	
KINE 1010B	Individual and Dual Activities: Pickleball	
KINE 1010D	Individual and Dual Activities: Bowling	
KINE 1010E	Individual and Dual Activities: Tennis	
KINE 1140A	Physical Fitness and Conditioning Activities: Body Conditioning

Department of Mathematics

Jack Brown Hall, Room 370

(909) 537-5361 Department of Mathematics website (<http://www.csusb.edu/mathematics/>)

The Department of Mathematics offers a Bachelor of Arts degree and a Bachelor of Science degree. The Bachelor of Arts degree is appropriate for students pursuing a mathematics-related career. The Bachelor of Science degree is appropriate for students pursuing a career in a mathematics-intensive field. The Bachelor of Science degree has three concentrations: general mathematics, applied mathematics, and teaching mathematics.

In addition to our undergraduate degree programs, the department offers a minor in mathematics, a certificate in Introductory Mathematics, and a certificate in Introductory Actuarial Science.

The department also offers a Master of Arts degree designed for those wishing to pursue a career in teaching mathematics at the community college level or those wishing to pursue a higher degree in mathematics or a related field.

In many ways mathematics functions as a universal language in today's global culture. Upper-division students are encouraged to participate in the California State University's International Programs (p. 13).

The department's Center for Enhancement of Mathematics Education (<https://www.csusb.edu/ceme/>) organizes many activities aimed at improving mathematics teaching and learning in K-12 schools. We encourage undergraduates interested in mathematics teaching careers to acquaint themselves with these programs.

Preparing for Teaching Credential Programs

One of the requirements to enter the Single Subject Credential Program is verification of subject matter competency. For mathematics, to be best prepared for the credential program and future teaching, students should complete the requirements of the B.S. in Mathematics, Teaching Mathematics Concentration with a C or better in all required math courses. If students choose to instead complete a different Mathematics degree program, then it is strongly recommended that students consult with a faculty advisor to select appropriate math elective courses. If a student completes a degree in another field but still wants to earn a Single Subject Credential in Mathematics, then the student must pass the Mathematics CSET Subtests I, II and III or the equivalent coursework as approved by the Mathematics Department. Other prerequisites of the teacher education program must be met, including a minimum GPA requirement.

Important: verifying subject matter competency is only one of several requirements for admission to the Single Subject Credential Program. Students interested in that program must refer to the Program Admissions Advising page on the College of Education website or contact College of Education Student Services in CE-102 for a complete and up-to-date list of requirements. We recommend doing so as soon as possible, since some items may take time to complete.

Departmental Honors

The department faculty will determine whether a student is to be awarded departmental honors upon graduation. The criteria will be:

1. A grade point average of at least 3.5 in all mathematics courses taken at this university and counted toward fulfilling requirements of the mathematics major.
2. MATH 5953, completed with a grade of "A-" or better, and culminating in a presentation to the department.

Emerita

Susan L. Addington, Professor of Mathematics

B.S. 1976, Marlboro College

M.A. 1978, Ph.D. 1981, State University of New York at Stony Brook

Master of Arts in Mathematics

The Master of Arts degree in Mathematics is a flexible program that allows students to tailor their studies to individual career goals. It emphasizes mathematical content courses and communication of mathematics.

It is appropriate not only for college teaching but also for students considering further graduate work or work in industry. There are two possible culminating experiences: a thesis, or, a set of comprehensive exams. See below for more information on these.

Admission to the Program

In addition to the general requirements of the university, which include a baccalaureate degree from an accredited college, specific requirements for admission to the program are:

1. Successful completion with a grade of at least "B" (3.0) of course work in abstract algebra, real analysis, in addition to upper division course work in pure, applied, and advanced mathematics deemed equivalent to the core of the mathematics major at California State University, San Bernardino. More specifically, course work in pure mathematics must include one of number theory, geometry, combinatorics, or graph theory. Course work in applied mathematics must include one of ordinary differential equations, numerical analysis, Fourier analysis, or mathematical modeling. Course work in advanced mathematics must include one of topology, complex analysis, or differential geometry. Substitutions may be made in certain circumstances at the discretion of the MA coordinator. In addition, an overall GPA of at least 3.0 is required;
2. In some cases, students who do not meet these criteria may be admitted as conditionally classified graduate students following review by the Department of Mathematics Graduate Committee;

3. Submission of a completed M.A. in Mathematics application form, including all undergraduate transcripts;
4. Three letters of recommendation submitted to the Department of Mathematics main office;
5. A letter of not more than three pages, outlining background, interest in this program, and career goals.

Advising

Each graduate student is encouraged to seek advising information from the Department of Mathematics either before enrolling or soon after being admitted to the program where they will develop an appropriate course of study based on their preparation and interests. The specific program must be approved by the department graduate committee at Advancement to Candidacy.

Advancement to Candidacy

In order to be advanced to candidacy, the student must:

1. Achieve classified status;
2. Complete between 11 and 15 units of applicable work as a graduate student, with a grade point average of at least 3.0 ("B");
3. Complete MATH 6000 with a grade of B or better. (This is the Writing Requirement for Graduate Candidacy.)
4. Submit a formal program of graduate work as part of Advancement to Candidacy prepared in consultation with and approved by the departmental graduate committee;
5. Gain final approval of the program and of the candidacy itself by the Dean of Graduate Studies.

Requirements for Graduation

1. Advancement to candidacy for the degree;
2. A minimum of 31 semester units of acceptable graduate level work as specified below in the formal program;
3. No less than 22 units completed in residence at this university;
4. Completion of a thesis or successfully pass all comprehensive exams (see below for more on these options);
5. A grade point average of at least 3.0 in the program, with no course grade being less than "B-;"
6. The Graduate Writing Assessment requirement is met through successful completion of MATH 6000;
7. Any additional general requirements not cited above and listed in Graduate Degree and Program Requirements (p. 71).

Degree Requirements (31 units)

(Program Code: MTHM)

Core courses (10)

MATH 6000	Communicating Mathematics	2
MATH 6016	Graduate Algebra	4
MATH 6018	Analysis in Several Variables	4

Electives (15)

5 elective courses for at least 15 units. At least 6 units must be at the 6000 level. The 6000-level electives may be chosen from Math 6110, 6145, 6178, or any of the independent study courses.

Approved 5000- or 6000-level courses in mathematics not used to satisfy any other requirement

Approved 4000-level courses in mathematics not in the core of the major

Culminating Experience (6)	6
Total Units	31

Culminating Experience (6 units)

The student may choose as their culminating experience to either write a thesis or pass three comprehensive examinations. This decision is made when the student advances to candidacy.

Thesis option (6 units)

MATH 6972	Graduate Thesis I	2
MATH 6974	Graduate Thesis II	4
Total Units		6

If the student chooses to pursue a thesis to fulfill the above requirement for graduation, they must have a GPA in the program of 3.25 or higher, and then complete the thesis preparation courses Math 6972 and Math 6974. To enroll in Math 6972, the student must submit a short proposal with a faculty mentor (who agrees to be the chair of their thesis committee) to the MA Coordinator by the final week of classes in the semester prior to enrolling in Math 6972. A detailed thesis proposal approved by two other faculty members who agree to be on the student's thesis committee is usually produced by the student during Math 6972. In any event, this proposal must be submitted to the MA Coordinator before the last week of classes of the semester prior to enrolling in Math 6974 so that it can be reviewed and approved by the MA Committee, at which time the student may enroll in Math 6974 and complete the writing and defense of their thesis.

Comprehensive Exam option (6 units)

MATH 6900	Comprehensive Exam Preparation in Elective Topics	1
MATH 6916	Comprehensive Exam Preparation in Algebra	1
MATH 6918	Comprehensive Exam Preparation in Analysis	1
At least 3 additional units at the 5000 or 6000 level		3
MATH 6981	MA Comprehensive Examination	0
Total Units		6

If the student does not pursue a thesis, then they must pass three comprehensive exams and enroll in at least 3 additional math units at the 5000 or 6000 level (this course level requirement may be waived in certain circumstances). These exams are each taken any time during the expected final semester of the program, this schedule is developed by those faculty involved. Two of the exams cover standard material in MATH 6016 and MATH 6018. The third exam *must not be* predominantly written (for example, oral), and covers material from two elective courses (excluding Math 6178 and Math 6411); one of these selected courses must be at the 6000 level. The instructors of these two courses comprise two of the three members of the student's elective examination committee, while the third is chosen by the student. The chair of this committee is responsible for helping to arrange administrative aspects of the exam but also help to mentor the student as they prepare.

The instructors of the most recent MATH 6016 and MATH 6018 courses will write and evaluate the written Algebra and Analysis exams, and will be the instructors of MATH 6916 and MATH 6918, respectively.

The chair of the student's elective examination will be the instructor for MATH 6900, and this committee will evaluate the student's performance in their elective comprehensive examination. To enroll in MATH 6900, the student must submit a proposal to the MA Coordinator for approval by the MA Committee before the final week of classes prior to the semester they will enroll in MATH 6900, MATH 6916, and MATH 6918. This proposal must have the names and signatures of the student's elective examination committee and the instructors of MATH 6916 and MATH 6918. In addition, it must contain the dates, times, and locations of all three examinations. It must also list what two courses the elective examination covers, and a short summary of the material from those courses the student shall be responsible for, along with any other information relevant to the exam, for example, any special topics or responsibilities of the student. This proposal functions as a contract for how the exams will be administered. The student must also enroll in the 0 unit course MATH 6981, where a grade of "Credit" is given once the student successfully passes all three comprehensive exams.

If a student fails any of the exams, they may retake it only once. Only failed exams need to be retaken. If an exam is failed twice, the student may petition the department for subsequent attempts in exceptional circumstances. Approval of such petitions may be contingent upon completion of additional designated courses.

Master of Arts in Teaching-Mathematics

The Master of Arts in Teaching Mathematics (MAT) program is designed for single subject credential teachers who wish to deepen their mathematical knowledge for teaching as it applies to the secondary level.

Admission to the Program

In addition to the general requirements of the university, which include a baccalaureate degree from an accredited college, specific requirements for classification in the program are:

- Successful completion with a grade of "B" (3.0) or better in course work deemed equivalent to the following courses at California State University, San Bernardino:

MATH 2220	Calculus II	4
MATH 2310	Applied Linear Algebra	4
or MATH 2320	Multivariable Calculus	
MATH 3100	Mathematical Thinking: Communication and Proof	4
MATH 3329	Euclidean Geometry with Transformations	3
MATH 2265	Statistics with Applications	3
- A teaching credential;
- Submission of a completed Master of Arts in Teaching Mathematics (MAT) application form;
- Three letters of recommendation, at least one of which addresses the applicant's educational background and at least one addressing the applicant's teaching practice;
- Submission of a one- or two-page typewritten statement of the student's area of interest, preparation for study in this program and professional goals;
- Approval by the Graduate Coordinator.

Students who do not meet these criteria may be admitted as conditionally classified graduate students following review by the Department of Mathematics and the College of Education.

Advising

Each graduate student must be advised by the graduate coordinator or other MAT faculty before enrolling in the program. Students will develop an appropriate course of study based on their preparation and interests in consultation with an advisor. The specific program must be approved by the MAT Graduate Committee prior to advancement to candidacy.

Advancement to Candidacy

In order to be advanced to candidacy, the student must:

- Achieve classified status;
- Submit a formal program of graduate work prepared in consultation with an advisor and approved by the MAT Graduate Committee;
- Complete at least 10 units and not more than 18 units of applicable work as a graduate student at this university, with a grade point average of at least 3.0 ("B");
- Complete a written paper in at least one of the following courses that achieves a satisfactory score on a departmental rubric evaluating elements of scholarly writing and reflective practice: MATH 6301, MATH 6302, MATH 6303 or MATH 6304.
- Gain final approval of the program and of the candidacy itself by the Dean of Graduate Students.

Bachelor of Arts in Mathematics

The Bachelor of Arts degree program in Mathematics is designed for the student who, upon graduation, will begin a career involving mathematics or plans to pursue graduate studies in mathematics, and is interested in augmenting their foundational mathematics curriculum with a minor in another field or studies in other subjects.

The B.A. in Mathematics requires a total of 55-58 units of coursework; of those, up to 6 units may be selected from courses that count towards the University's General Education requirements in categories A3/1B and B4/2, and one course (MATH 3100) counts toward the upper-division writing intensive requirement.

Students pursuing a career in education are strongly encouraged to consult a faculty advisor when selecting their elective coursework (MATH 3345, MATH 3460, MATH 2900, and MATH 4900 should be included).

All Math courses required for these programs will be offered in-person when offered during Fall or Spring semester, with the exception of MATH 3100 and MATH 4900, which will be offered in hybrid mode, with 25% of the instruction occurring online.

Requirements (55-58 units)

Total units required for graduation: 120

Requirements for the B.A. in Mathematics

(Program Code: MATH)

Lower-division requirements (25-26)

MATH 2210	Calculus I	4
MATH 2220	Calculus II	4

MATH 2265	Statistics with Applications	3
MATH 2270	Differential Equations with Dynamical Systems I	3
MATH 2310	Applied Linear Algebra	4
MATH 2320	Multivariable Calculus	4
Select one of the following CSE courses:		3-4

CSE 1100 Critical Thinking Through Computer Programming

CSE 1250 Programming Basics

CSE 2010 Computer Science I

Upper-division requirements (15)

MATH 3100	Mathematical Thinking: Communication and Proof	4
MATH 3329	Euclidean Geometry with Transformations	3
MATH 4300	Real Analysis	4
MATH 4600	Theory of Rings and Fields	4

Note: MATH 3100 satisfies the GE upper-division Writing Intensive (WI) requirement.

Electives (15-17)

Five courses (15-17 units) selected from the following with at least one course from each of Group A, Group B, and Group C. At least two of the five elective courses must be at the 4000-level or above.

Group A:

MATH 3345 Number Theory

MATH 3372 Combinatorics

MATH 3770 Introduction to Graph Theory

Group B:

MATH 3320 Mathematical Interest Theory

MATH 3460 Probability Theory

MATH 4270 Differential Equations with Dynamical Systems II

MATH 4455 Partial Differential Equations & Fourier Analysis

Group C:

MATH 4485 Differential Geometry

MATH 5170 Complex Analysis

MATH 5310 Advanced Linear Algebra

MATH 5529 Advanced Topics in Geometry

MATH 5550 Introduction to Topology

Group D:

MATH 2900 Problem Solving and Mathematical Reasoning for Teachers I

MATH 4900 Problem Solving and Mathematical Reasoning for Teachers II

MATH 3480 Topics in History of Mathematics

MATH 4320 Introduction to Actuarial Modeling

MATH 4360 Linear Statistical Models

MATH 5510 Topics in Advanced Mathematics

MATH 5300 Advanced Real Analysis

MATH 5565 Mathematical Statistics

MATH 5600 Group Theory

MATH 5580 CSUSB to PhD Bridge

MATH 5953	Independent Study
PHIL 3560	Philosophy of Logic and Mathematics

Bachelor of Science in Mathematics

The Bachelor of Science in Mathematics program is designed for the student who, upon graduation, plans to pursue graduate studies in mathematics, begin a career in mathematics or closely related field, or pursue teaching. We offer three distinct concentrations. Students are encouraged to speak to a mathematics faculty advisor to select the appropriate concentration and elective courses that will best fit their career goals.

The General Mathematics Concentration provides a deep level of study in mathematics and includes advanced topics in real analysis and algebra, which are prerequisites for many graduate programs. This concentration requires a total of 64-67 units of coursework; of those, up to 13 units may be selected from courses that count towards the University's General Education requirements in categories A3/1B, B1/5A or B2/5B, B3/5C, B4/2, and the requirement for an upper-division writing-intensive course.

The Applied Mathematics Concentration combines mathematics coursework with coursework options in actuarial science, biology, chemistry, computer science, economics, geography, and physics. This concentration requires a total of 67-74 units of coursework; of those, up to 16 units may be selected from courses that count towards the University's General Education requirements in categories A3/1B, B1/5A, B2/5B, B3/5C, B4/2, and the requirement for an upper-division writing-intensive course.

The Teaching Mathematics Concentration is the best option for prospective secondary mathematics teachers and includes courses designed to help build the specialized content knowledge necessary for successful teaching. This concentration requires a total of 63-64 units of coursework; of those, up to 9 units count towards the University's General Education requirements in categories A3/1B, B4/2, and the requirement for an upper-division writing-intensive course.

All Math courses required for these programs will be offered in-person when offered during Fall or Spring semester, with the exception of MATH 3100 and MATH 4900, which will be offered in hybrid mode, with 25% of the instruction occurring online.

Requirements (63-74 units)

Total units required for graduation: 120

Requirements for the B.S. in Mathematics

Lower-division requirements (22-23)

MATH 2210	Calculus I	4
MATH 2220	Calculus II	4
MATH 2265	Statistics with Applications	3
MATH 2310	Applied Linear Algebra	4
MATH 2320	Multivariable Calculus	4

Select one of the following CSE courses: 3-4

CSE 1100 Critical Thinking Through Computer Programming Satisfies GE category A3

CSE 1250 Programming Basics

CSE 2010	Computer Science I	
Upper-division requirements (15)		
MATH 3100	Mathematical Thinking: Communication and Proof	4
Note: MATH 3100 satisfies the GE upper-division Writing Intensive (WI) requirement.		
MATH 3329	Euclidean Geometry with Transformations	3
MATH 4300	Real Analysis	4
MATH 4600	Theory of Rings and Fields	4
Concentration (26-36)		
Students must complete one of the three concentrations listed below:		26-36
Total Units		63-74

Concentrations (26-36 Units)

General Mathematics Concentration

(Program Code: MATH)

Lower-division requirements (6-8)

MATH 2270	Differential Equations with Dynamical Systems I	3
In addition to the lower-division CSE requirement, select one 2000-level course from the following: BIOL 2010*, BIOL 2160, BIOL 2170, BIOL 2180, CHEM 2050, CHEM 2070, CHEM 2100, CSE 2010*, ECON 2201, ECON 2202, GEOL 2040, GEOG 2040, GEOG 2249, GEOG 2250, PHIL 2100, PHYS 2000, or PHYS 2500. *Note course has prerequisite(s).		3-5

Upper-division requirements (6)

MATH 5300	Advanced Real Analysis	3
MATH 5600	Group Theory	3

Electives (15)

Five courses (15 units) selected from the following with at least one course from each of Group A, Group B, and Group C.

Group A:

MATH 3345	Number Theory
MATH 3372	Combinatorics
MATH 3770	Introduction to Graph Theory

Group B:

MATH 4270	Differential Equations with Dynamical Systems II
MATH 4455	Partial Differential Equations & Fourier Analysis

Group C:

MATH 4485	Differential Geometry
MATH 5170	Complex Analysis
MATH 5310	Advanced Linear Algebra
MATH 5529	Advanced Topics in Geometry
MATH 5550	Introduction to Topology

Group D:

MATH 3320	Mathematical Interest Theory
MATH 3460	Probability Theory

MATH 3480	Topics in History of Mathematics
MATH 4320	Introduction to Actuarial Modeling
MATH 4360	Linear Statistical Models
MATH 5510	Topics in Advanced Mathematics

Total Units 26

Minor in Mathematics

Requirements for a minor in Mathematics (26-28 units)

Lower-division requirements (16)

MATH 2210	Calculus I	4
MATH 2220	Calculus II	4
MATH 2310	Applied Linear Algebra	4
MATH 2320	Multivariable Calculus	4

Upper-division requirements (10-12)

MATH 3100	Mathematical Thinking: Communication and Proof	4
-----------	--	---

Two courses chosen from upper-division mathematics courses applicable to a Mathematics major (with the exception of MATH 2900, MATH 4900, and MATH 5900), selected in consultation with a math faculty advisor. Note: PHYS 3100 may be substituted for MATH 4270. 6-8

Total Units 26-28

Minor in Statistics

The statistics minor has a minimum requirement of 34 credits. The minor in statistics consists of 8 required courses (28 units) and 2 elective courses (6 units). Our goal with the statistics minor is to offer a concentrated applied and theoretical curriculum. The statistics minor is suitable for chemistry, computer science & engineering, mathematics, and physics majors who already complete coursework in Calculus and/or Statistics with Applications. Upon completion of this program, students will

1. understand fundamental theoretical and applied principles of statistics needed for the job market.
2. acquire programming skills required for data analysis.
3. be able to communicate effective statistical concepts to statisticians and non-statisticians, both verbally and in writing.
4. be able to effectively conduct quantitative analyses which is compliant with industry and academic standards.

Requirements for a minor in Statistics (34 units)

Lower-division Requirements (19)

MATH 2210	Calculus I	4
MATH 2220	Calculus II	4
MATH 2265	Statistics with Applications	3
MATH 2310	Applied Linear Algebra	4
MATH 2320	Multivariable Calculus	4

Upper-division Requirements (9)

MATH 3460	Probability Theory	3
MATH 3465	Computational Statistics	3
MATH 4360	Linear Statistical Models	3

Electives (6)

Two courses chosen from the following, with at least one MATH course. MATH 5510 may count towards elective units with departmental permission.

MATH 5360	Statistical Methods for Machine Learning	
MATH 5565	Mathematical Statistics	
IST 2510	Big Data Analytics	
HSCI 3205	Biostatistics for Health Science	
PSYC 4410	Advanced Psychological Statistics	
BIOL 5050	Biostatistics and Experimental Design	

Total Units **34**

Certificate in Introductory Actuarial Science

This program is designed to prepare students for the preliminary examinations given by the Society of Actuaries. Completion of those exams is normally considered the prerequisite for internships and entry-level positions in the field of actuarial science. For more information contact the Department of Mathematics.

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 6000-level courses as requirements and/or electives. These 6000-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Certificate Requirements (34 units)

Lower-division requirements (22)

ECON 2201	Principles of Microeconomics	3
ECON 2202	Principles of Macroeconomics	3
MATH 2210	Calculus I	4
MATH 2220	Calculus II	4
MATH 2310	Applied Linear Algebra	4
MATH 2320	Multivariable Calculus	4

Upper-division requirements (6)

MATH 3320	Mathematical Interest Theory	3
MATH 3460	Probability Theory	3

Electives (6)

Select TWO of the following courses:

MATH 2265	Statistics with Applications	
MATH 3372	Combinatorics	
MATH 4320	Introduction to Actuarial Modeling	

Total Units **34**

Certificate in Introductory Mathematics

The Certificate in Introductory Mathematics meets the required components for the Subject Matter Authorization: Introductory Mathematics. Completion of this program allows individuals who hold a valid California teaching credential to apply for the Subject Matter Authorization: Introductory Mathematics for teaching the content matter up through ninth grade mathematics. This certificate may be earned by regularly matriculated or extended learning students.

All core certificate requirements are offered in-person during the academic year. Certain electives have occasional online offerings (Math 2372) or are offered in hybrid mode with up to 25% of instruction occurring online (Math 3100).

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 6000-level courses as requirements and/or electives. These 6000-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Certificate Requirements (29-36 units)

Courses must be completed with a grade of C (2.0) or better.

Core Requirements and Electives (29-36) 29-36

Core Requirements

Select at least one course from each of the following five areas, with no course used to satisfy more than one area:

A1: Algebra

MATH 1301	Modeling with Functions
or MATH 1402	Preparation for Calculus A
MATH 1401	Accelerated Preparation for Calculus
or MATH 1402	Preparation for Calculus A
MATH 1601	Modeling with Calculus
or MATH 2210	Calculus I

Note: MATH 1302 and MATH 1303 may substitute for MATH 1301; however, only 3 units will apply towards the total units for the Certificate.

A2: Advanced Algebra

MATH 1401	Accelerated Preparation for Calculus
or MATH 1403	Preparation for Calculus B
MATH 1601	Modeling with Calculus
or MATH 2210	Calculus I
MATH 2220	Calculus II
MATH 2310	Applied Linear Algebra

A3 : Geometry

MATH 1601	Modeling with Calculus
or MATH 2210	Calculus I
MATH 2220	Calculus II
MATH 2320	Multivariable Calculus
MATH 3013	Mathematical Concepts and Problem Solving for Educators III

A4: Probability & Statistics

MATH 1201	Introduction to Statistical Thinking
or MATH 2265	Statistics with Applications

A5 : Development of the Real Number System

MATH 1601	Modeling with Calculus
or MATH 2210	Calculus I
MATH 2220	Calculus II
MATH 3010	Mathematical Concepts and Problem Solving for Educators I

Electives

Select an additional 14-17 units from: (1) other courses listed above not already used to meet the required categories (unless courses are restricted between two options in those categories), (2) any mathematics course numbered 2000 to 4000 applicable to the BS in Mathematics - Teaching Mathematics Concentration, or (3) the following courses:

MATH 1501	Critical Thinking Through Applications of Mathematical Logic
MATH 2229L	Two-Dimensional Geometry Lab
MATH 2239L	Three-Dimensional Geometry Lab
MATH 2372	Discrete Mathematics
MATH 3012	Mathematical Concepts and Problem Solving for Educators II
MATH 3510	Topics in Mathematics

Total Units

29-36

Department of Nursing

Health and Physical Education, Room 215

(909) 537-5380 Department of Nursing website (<http://nursing.csusb.edu>)

The Department of Nursing offers two programs. One program leads to the Bachelor of Science degree in nursing (BSN). The other program leads to the Master of Science degree in nursing (MSN). The BSN and MSN programs are accredited by the Commission on Collegiate Nursing Education (<https://www.aacnnursing.org/ccne-accreditation/>) (CCNE).

The BSN program offers two tracks, a pre-licensure BSN track and an RN-BSN track. The pre-licensure BSN is approved by the Board of Registered Nursing of California. The pre-licensure BSN and RN-BSN meet the requirements for public health nursing certification in California.

The MSN program offers three concentrations: Advanced Community/Public Health Nursing, Population Health for Clinical Nurse Leaders, and Nurse Educator.

BSN

The Department of Nursing offers didactic and clinical courses for students to experience caring of diverse patients across the entire life span. A variety of health care agencies are utilized for students' clinical rotation experience. This program is to graduate entry level professional registered nurses to promote optimal health in a variety of healthcare settings.

As an impacted program, the pre-licensure BSN program is offered in the San Bernardino campus and the Palm Desert campus. Students should apply for admission to the Department of Nursing in addition to the CSUSB university admission. Please check the Department of Nursing website for detailed department admission requirements. Conditional department admission is contingent upon satisfactory results from background check and drug screen test. Students are also expected to meet the compliance requirements per the department and/or rotating health care agencies' requirements.

RN-BSN

The RN-BSN is a hybrid program including the traditional RN-BRN program and Concurrent Enrollment Program (CEP). The traditional RN-BSN program is designed for students holding a California RN license who wishes to complete a BSN degree. The CEP is an innovative program in collaboration with community colleges. Associate degree nursing (ADN) students enrolled in the community colleges can take the traditional ADN courses and simultaneously enroll in the required CSUSB hybrid courses. Upon completion of the ADN program at the community college, students are eligible and will take the NCLEX licensure exam to

complete the CEP CSUSB nursing courses, and eventually will graduate from CSUSB with a BSN degree.

MSN

The MSN is a hybrid program and designed for working registered nurses (RNs) who are ready to further advancement in different specialties. Every student completes a series of core courses and selects from one of three concentrations: Advanced Community/Public Health Nursing, Population Health for Clinical Nurse Leaders, or Nurse Educator.

All didactic courses are delivered in a hybrid format and a variety of health care agencies/facilities are utilized for students' clinical rotation experience.

Post Graduate Certificates

The Department of Nursing offers two post-graduate nursing certificate programs for Registered Nurses who hold an earned master's or doctoral degree and are interested in expanding their expertise in an added specialty. The certificate programs build on completed graduate course work and provide options for professional development.

The post-graduate nursing certificates are in the following specialty areas:

1. Advanced Community/Public Health Nursing (<https://www.csusb.edu/nursing/programs/post-graduate-certificates/advanced-community-public-health-post-graduate/>)
2. Nurse Educator

Departmental Honors

A graduating senior will be awarded departmental honors in nursing after meeting the following requirements:

1. Achieve a minimum grade point average of 3.6 in all upper division courses taken at the university.
2. A clear demonstration of the ability to do independent work in nursing and recommendation by the faculty of the Department of Nursing.

Master of Science in Nursing

The Department of Nursing offers a graduate program leading to a Master of Science in Nursing with three concentrations: 1) Population Health for Clinical Leaders, 2) Nurse Educator, and 3) Advanced Community/Public Health Nursing. The program is designed to educate professional nurses for practice, leadership, and service in culturally diverse, pluralistic communities. Graduates of the MS in Nursing program will work collaboratively with other health care providers and participate effectively in interprofessional health care delivery.

The Population Health for Clinical Leaders concentration prepares the graduate to apply a population-focused perspective in delivery of expert nursing care in a wide range of clinical settings. The Nurse Educator concentration prepares the graduate for nurse educator positions in both academic and clinical settings. The concentration in Advanced Community/Public Health prepares the graduate to deliver expert nursing care to community-based populations in positions in public health departments, home health agencies, and other community-based organizations.

CSUSB MS in Nursing Requirements:

A "B" (3.0) average is required to remain in good standing in the CSUSB MS in Nursing program.

Most MSN courses (except for clinicals) are offered in hybrid mode only, with weeks 1 and 15 being in-person and either week 8 or week 9 being online synchronous. All other instruction is via asynchronous modules. Most courses are assessed based on projects rather than exams.

Admission to the Program

In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

1. A baccalaureate degree in nursing from a CCNE-accredited program, OR a regionally-accredited baccalaureate degree in a discipline related to nursing;
 - a. Applicants with non-nursing baccalaureate degrees or with a baccalaureate degree in nursing from a Department of Education-recognized accrediting body other than CCNE must

meet competencies as defined in the AACN Essentials of Baccalaureate Education which include but are not limited to:

- i. Health assessment
- ii. Research
- iii. Leadership
- iv. Community/public health

Competency may be verified through completed courses, credit by examination, certification, or documented professional expertise in the subject. Applicants are encouraged to discuss options with the Graduate Coordinator.

1. 3.0 ("B") minimum GPA calculated according to recommended practice of the CSUSB Graduate Council;
2. Current California registered nurse (RN) license, unencumbered, unrestricted, with no disciplinary action pending or imposed.
3. Three (3) satisfactory letters of professional recommendation;
4. Personal statement;
5. Successful completion of an undergraduate statistics course.

Applicants may consult the information on the Department of Nursing webpage for details about the significant clinical compliance requirements that must be met upon admission to the MS in Nursing program.

Advancement to Candidacy

In order to be advanced to candidacy, the student must have:

1. Achieved classified status;
2. Completed at least 20 semester units of course work with a minimum grade point average of 3.0 ("B"), approved by the Graduate Program Coordinator;
3. Filed an approved Program Plan for completion of the graduate degree. The degree program must be prepared in consultation with the faculty advisor and approved by the Graduate Program Coordinator and the Dean of Graduate Studies;
4. Demonstrated professional competence and integrity in academic and clinical practice settings.

Requirements for Graduation

In addition to the general requirements of the university:

1. Advancement to candidacy for the MS degree in nursing;
2. Fulfillment of the semester units and clinical hours, as designated by the Program concentration;
3. Maintain a grade point average of at least 3.0 ("B") and a minimum grade of "B-" (2.7) for each individual course;
4. Complete 24 units in residency for students in the Population Health for Clinical Leaders concentration, 27 units in residency for students in the Nurse Educator concentration, and 23 units in residency for students in the Advanced Community Nursing concentration;
5. The Graduate Writing Assessment Requirement is met by one of the following options:
 - Earn a grade of B or better in an upper division undergraduate writing course
 - Achieve an acceptable standardized test score on the Writing section of the Graduate Record Exam;
6. Successfully complete the comprehensive examination, which includes completing NURS 6901 and NURS 6980

Degree Requirements (32-38 units)**Core Requirements (20)**

NURS 6011	Preparation for Success in Graduate Education	1
NURS 6000	Population Health Assessment	4
NURS 6100	Program Planning and Evaluation	4
NURS 6200	Health Policy Leadership	2
NURS 6308	Advanced Nursing Roles	1

NURS 6880	Advanced Role Practicum	2
NURS 6901	Preparation for Comprehensive Examination	1

Culminating Experience (0) **0**

Concentration (12-18)

Students must choose one concentration from the list below: 12-18

Total Units **32-38**

Culminating Experience (0 units)

NURS 6980	Comprehensive Examination	0
-----------	---------------------------	---

Total Units **0**

The written comprehensive examination is an integrative examination designed to assess the student's ability to think critically, integrate knowledge of the discipline of nursing, and demonstrate mastery of core and specialty/concentration competencies. Students may enroll in the examination no earlier than the last term in which coursework is taken and must be advanced to candidacy one term before taking the comprehensive examination. Students who do not receive a passing score may petition the Department of Nursing Graduate Affairs Committee to retake the exam within one year. After an exam failure, the candidate and advisor will discuss actions necessary for remediation of shortcomings. For more information related to the comprehensive examination process and scheduling contact the Graduate Program Coordinator.

Concentrations (12-18 units)**Population Health for Clinical Leaders (13 units)**

(Program Code: NPBA)

Bachelor of Science in Nursing

Admission Requirements

Admission is selective. Meeting minimum prerequisites does not guarantee admission to the program.

1. Acceptance into CSUSB as a Pre-nursing student.
2. Completed pre-licensure BSN program application, submitted by applicable published deadline;
3. Completion of the ATI Test of Essential Academic Skills (TEAS) pre-admission examination, with a score of at least 70, by admission application deadline;
4. An overall cumulative grade point average (GPA) of 3.5 or better;
5. A GPA of 3.0 or better on completed required prerequisite courses (all prerequisite courses listed below);
6. A grade of C (2.0) or better in each prerequisite course;
7. Attendance at a CSUSB Nursing Information Session;
8. California Residency per requirements for admission to CSU Impacted Programs;

Additional consideration and preference is given to:

1. Residents of the CSUSB local area.
2. Applicants who are bilingual.

Department Regulations

1. Students in the Nursing major must earn grades of "C" or better in all nursing prerequisite courses, corequisite courses, and courses in the nursing major. If a grade less than C (2.0) is earned in any nursing major course, the student will be dismissed from the Nursing program. Dismissed students may request readmission after failure of a nursing course one time. If readmission is approved, the student may re-take the failed course and take all remaining nursing courses a maximum of one time on a space-available basis.
2. Students are responsible for all information and adherence to all policies in the Department of Nursing BSN Nursing Student Handbook including annual updates.

Requirements: 92 units

Total units required for graduation: 120

Requirements for a B.S. in Nursing

(Program Code: NRSRG)

Prerequisite support courses required for admission (29)

BIOL 2200	Microbiology for Allied Health Majors	4
BIOL 2230	Human Anatomy and Physiology I for Allied Health Majors	4
BIOL 2240	Human Anatomy and Physiology II for Allied Health Majors	4
CHEM 2070	Fundamentals of General, Organic, and Biochemistry (The following courses can be substituted for CHEM 2070: CHEM 2050 AND CHEM 2060 (transfer students only) OR [CHEM 205 OR CHEM 215] AND CHEM 2060.)	5
MATH 1201	Introduction to Statistical Thinking	3

Course that fulfills GE Category A1 Oral Communication	3
Course that fulfills GE Category A2 Written Communication	3
Course that fulfills GE Category A3 Critical Thinking	3

Support courses required which may be taken after admission to the nursing major (3)

PSYC 2201	Developmental Psychology	3
-----------	--------------------------	---

Lower-division requirements (8)

NURS 2602	Foundational Concepts in Professional Nursing	2
NURS 2821	Foundational Theory and Skills for Nursing Practice	6

Upper-division requirements (52)

NURS 3016	Health Assessment	3
NURS 3080	Pathophysiologic Concepts for Nursing Practice	3
NURS 3082	Pharmacology and Therapeutics for Nursing Practice	3
NURS 3221	Nursing Care of Adults & Older Adults I	6
NURS 3633	Nursing Care of Children & Families	5
NURS 3635	Nursing Care of Women, Infants, & Families	5
NURS 3640	Introduction to Theories of Nursing & Health	3
NURS 4222	Nursing Research and Evidence-Based Practice	3
NURS 4415	Psychiatric & Mental Health Nursing Practice	5
NURS 4417	Community & Public Health Nursing Practice	5
NURS 4833	Nursing Care of Adults & Older Adults II	7
NURS 4840	Leadership & Management in Nursing	2
NURS 4920	Integration of Knowledge for Professional Nursing Practice	2

Total Units 92

Note: Two required upper division nursing courses also fulfill upper division GE requirements for nursing students ONLY. NURS 4222 fulfills the upper division Scientific Inquiry (GE-B5) requirement. NURS 4417 fulfills the upper division Social Science (GE-D4) requirement.

Bachelor of Science in Nursing - RN to BSN Bridge Program

The RN to BSN program is for students who are Registered Nurses who wish to earn a Bachelor of Science (B.S.) in Nursing OR for students who are participating in a collaborative program from an affiliated community college who wish to earn a B.S. in Nursing.

Admission Requirements:

Applicants must:

1. Document achievement of IGETC certification. Please note the prerequisite support courses listed below satisfy specific IGETC certification areas.

2. Designate the pathway of the RN to BSN program track to which admission is being requested (i.e., collaborative or post-associate-degree).
3. Meet the requirements of the desired pathway.
 - a. Collaborative pathway - current enrollment and good standing in an Associate of Science in Nursing degree program at a collaborating community college.
 - b. Post-associate-degree pathway - completion of an Associate of Science in Nursing degree and an active California RN license.
4. Earn a grade of C (2.0) or better in all required prerequisite courses.

Prerequisite Support Courses (29)

BIOL 2200	Microbiology for Allied Health Majors	4
BIOL 2230	Human Anatomy and Physiology I for Allied Health Majors	4
BIOL 2240	Human Anatomy and Physiology II for Allied Health Majors	4
CHEM 2070	Fundamentals of General, Organic, and Biochemistry	5
MATH 1201	Introduction to Statistical Thinking	3
Course that fulfills the GE A1 Oral Communication requirement		3
Course that fulfills the GE A2 Written Communication requirement		3
Course that fulfills the GE A3 Critical Thinking requirement		3
Total Units		29

Requirements (95 units)

Total units required for graduation: 120

Requirements for the B.S. in Nursing RN to BSN Bridge

(Program Code: RNBS)

Admitted students must earn a grade of C (2.0) or better on all courses required for the major.

Admitted students may transfer in lower-division General Education courses, prerequisite support courses, and acceptable Associate Degree nursing courses, for a maximum of 70 semester units.

- 16 units of completed Associate of Science in Nursing coursework will be transferred in and applied to the major.

An additional 20 upper division academic units will be awarded to admitted students who are licensed Registered Nurses and have earned an Associate of Science in Nursing, for completed Nursing courses that were not included in the transferred units and for demonstrating nursing knowledge sufficient to pass the National Council of Licensure Exam for Registered Nurses (NCLEX-RN).

Detailed distribution of units in the RN to BSN (Bridge) program is as follows:

- Units for courses that may be transferred to CSUSB (total of 45 units):
 - 29 units of prerequisite support courses, many of which will also meet lower-division GE requirements
 - 16 units of completed Associate of Science in Nursing courses
- Units awarded to licensed Registered Nurses (RNs) (total of 20 units)

- 20 upper-division units for demonstration of knowledge required to pass the NCLEX-RN
- Units for courses that must be taken at CSUSB:
 - 27 units of upper-division nursing courses, which also meet requirements for 3 units UD GE B5 and 3 units UD GE D4, as well as the upper-division WI designation
 - 3 units of upper-division GE courses to meet UD GE C4 requirement

Foundational Courses/Credits

Prerequisite Support Courses (29)	29
Associate of Science in Nursing Courses (16)	16
Credit for RN Licensure (20)	20
Total Units	65

CSUSB Core Courses

NURS 3010	Role Transition to Professional Nursing Practice	3
NURS 3026	Health Assessment RN	3
NURS 3100	Pathophysiology and Pharmacology	4
NURS 3610	Patient Education, Health Promotion and Care Coordination	3
NURS 4222	Nursing Research and Evidence-Based Practice	3
NURS 4510	Community/Public Health Promotion	3
NURS 4512	Community/Public Health Promotion Practicum	3
NURS 4610	Nursing Leadership	3
NURS 4612	Nursing Leadership Practicum	2
One GE course that meets the upper division GE-C requirement		3
Total Units		30

Note: Three required upper division nursing courses double-count toward upper division GE requirements for nursing majors ONLY. Those courses are NURS 3010 for the UD writing requirement, NURS 4222 for the UD Scientific Inquiry (Category B) requirement, and NURS 4510 for the UD Social Science (Category D) requirement.

After graduation, students are eligible to apply for a public health nurse certificate from the California Board of Registered Nursing.

Advanced Community/Public Health Nursing Certificate

The Department of Nursing demonstrates its commitment to preparing nurses for advanced nursing roles by offering a post-graduate certificate for nurses with graduate nursing degrees in other specializations who wish to prepare for an advanced role in community/public health. The Advanced Community/Public Health Nursing certificate prepares the holder for practice in community/public health settings. The certificate program consists of a total of 17 units.

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 6000-level courses as requirements and/or electives. These 6000-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Admission Requirements:

- An earned master's or doctoral degree in nursing from a regionally accredited institution and CCNE-accredited program;
- 3.0 ("B") minimum GPA calculated according to recommended practice of the CSUSB Graduate Council;
- Current California Registered Nurse (RN) license, unencumbered, unrestricted, with no disciplinary action pending or imposed;
- Three (3) satisfactory letters of professional recommendation;
- Personal statement;
- Completion of the following prerequisite courses or their equivalent:
 - NURS 6425 Epidemiology & Biostatistics 4 units
 - NURS 6435 Health Informatics 3 units

Applicants may consult the information on the Department of Nursing webpage for details about the significant clinical compliance requirements that must be met upon admission to the Advanced Community/Public Health Nursing certificate program.

Extension and transfer credit from other colleges and/or universities may make up no more than 30% of total certificate units.

Certificate Requirements (17)

NURS 6000	Population Health Assessment	4
NURS 6100	Program Planning and Evaluation	4
NURS 6200	Health Policy Leadership	2
NURS 6548	Transcultural Healthcare	3
NURS 6752	Advanced Community/Public Health Internship	2
NURS 6880	Advanced Role Practicum	2
Total Units		17

Certificate in Nurse Educator

The Department of Nursing demonstrates its commitment to preparing nurse educators for the profession by offering a Nurse Educator post-graduate certificate for nurses with graduate nursing degrees in other specializations who wish to prepare for the nurse educator role. The Nurse Educator certificate prepares the holder for nurse educator positions in both academic and clinical settings. The certificate program consists of a total of 20 units.

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 6000-level courses as requirements and/or electives. These 6000-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Admission Requirements:

In addition to the general requirements of the university, specific requirements are:

1. An earned master's or doctoral degree in nursing from a regionally accredited institution and CCNE-accredited program.
2. 3.0 ("B") minimum GPA calculated according to recommended practice of the CSUSB Graduate Council;
3. Current California registered nurse (RN) license, unencumbered, unrestricted, with no disciplinary action pending or imposed.
4. Three (3) satisfactory letters of professional recommendation;
5. Personal statement;

Applicants may consult the information on the Department of Nursing webpage for details about the significant clinical compliance requirements that must be met upon admission to the Nurse Educator certificate program.

Extension and transfer credit from other colleges and/or universities may make up no more than 30% of total certificate units.

Applicants who have taken graduate courses equivalent to NURS 5411, NURS 5422, and/or NURS 5433 from another CSU entity may petition to substitute the course(s).

NURS 6588, NURS 6598, NURS 6608, and NURS 6880 must be taken at CSUSB.

Certificate Requirements (20 units)

NURS 5411	Advanced Health Assessment Across the Life Span	3
NURS 5422	Advanced Pathophysiology	3
NURS 5433	Advanced Pharmacology	3
NURS 6588	Nursing Education: Curriculum and Instruction	3
NURS 6598	Nursing Education: Assessment and Evaluation	3
NURS 6608	Nursing Education: Technology for Instruction & Evaluation	3
NURS 6880	Advanced Role Practicum	2
Total Units		20

Department of Physics and Astronomy

Physical Sciences Building, Room 119

(909) 537-5397

Traditionally, physics majors have gone on to graduate work in physics, high school teaching, or employment in industrial or government laboratories. Other opportunities which have recently become interesting for physics graduates include atmospheric physics (including air pollution studies), geophysics, radiation safety, oceanography, astrophysics, technical administration, biophysics, computer science, and medical instrumentation development.

The program for a bachelor of arts degree in physics provides basic knowledge in the main subject areas of physics as well as an opportunity for students to elect a considerable number of courses in other disciplines. This is a good choice for students planning careers in high school teaching. The bachelor of science program includes additional coursework in physics and related fields which further prepares a student for employment or graduate work.

The Department of Physics and Astronomy offers a minor in physics, a minor in applied physics, and a minor in astronomy. providing students with the opportunity to concentrate on a specialized area in physics. The minor in physics provides science students with the opportunity to take an additional course in physics and complement their primary major by selecting physics courses in a related area or courses of their interest.

The minor in applied physics is designed to prepare students for direct employment in high-technology firms upon graduation. For traditional design tasks, high-technology firms typically hire applied physicists with flexible and creative technical abilities who can address a wide range of technical problems and develop an experimental system to attack problems.

The minor in astronomy is designed for any interested student with a background in calculus. Combined with a physics, geology, chemistry, or biology degree, it can give students the background needed to pursue a career or graduate degree in an astronomy-related field including astrophysics, planetary science, cosmology, and more.

Pre-engineering

The department provides a pre-engineering program that enables students to complete the first two years of courses generic to engineering. Students may then transfer to an accredited engineering program of their choice. The following courses have been recommended as appropriate transfer courses:

Students considering a physics or pre-engineering major should call the department office for advising.

Departmental Honors

To be awarded departmental honors in physics a student must:

1. Achieve at least a 3.5 minimum grade point average in courses required for the major taken at California State University, San Bernardino, and at least a 3.0-grade point average overall;
2. Conduct advanced research on a topic approved by a faculty member who will serve as project director;
3. Obtain written approval upon successful completion of the project from the project director and the chair, present the results of the research to the department or at a research conference, and/or publish the results in a peer-reviewed scientific journal.

Current Faculty

Sara Callori, Professor of Physics
B.A. 2007, New York University
M.A. 2009, Ph.D. 2013, Suny at Stony Brook

Paul K. Dixon, Professor of Physics
B.S. 1983, University of Michigan
M.A. 1985, Ph.D. 1990, University of Chicago

Carol Hood, Professor of Physics
B.S. 2004, Virginia Polytechnic Institute
M.S. 2007, Ph.D. 2011, University of California, Irvine

Karen Kolehmainen, Professor of Physics
B.S. 1977, Michigan State University
Ph.D. 1983, State University of New York at Stony Brook

Paul A. Renteln, Professor of Physics
B.A. 1981, University of California, Berkeley
Ph.D. 1988, Harvard University

Timothy D. Usher, Professor of Physics
B.S. 1981, Appalachian State University
Ph.D. 1990, University of South Carolina

Laura M. Woodney, Professor of Physics
B.A. 1993, John Hopkins University
M.S. 1997, Ph.D. 2000, University of Maryland

Bachelor of Arts in Physics

The program for a bachelor of arts degree in physics provides basic knowledge in the main subject areas of physics as well as an opportunity for students to elect a considerable number of courses in other disciplines. This is a good choice for students planning careers in high school teaching, medical or other pre-professional schools, or other interdisciplinary careers. The BA in Physics requires a total of 66 units listed below; of those 7 units count towards the university's General Education requirements. In addition to the General Education and the BA Physics

requirements, students will need to complete 12 additional units in order to satisfy the 120 units required for graduation.

Departmental Honors

To be awarded departmental honors in physics a student must:

1. Achieve at least a 3.5 minimum grade point average in courses required for the major taken at California State University, San Bernardino and at least a 3.0 grade point average overall;
2. Conduct advanced research on a topic approved by a faculty member who will serve as project director;
3. Obtain written approval upon successful completion of the project from the project director and the chair, and present the results of the research to the department or at a research conference, and/or publish the results in a peer-reviewed scientific journal.

Bachelor of Science in Physics

The bachelor of science program includes appropriate course work in physics to prepare students for employment or graduate work in a variety of physics-related fields. Students are encouraged to speak to their advisor to select elective courses that will best meet their career needs. The BS in Physics requires a total of 75 units listed below; of those 7 units count towards the university's General Education requirements.

Departmental Honors

To be awarded departmental honors in physics a student must:

1. Achieve at least a 3.5 minimum grade point average in courses required for the major taken at California State University, San Bernardino and at least a 3.0 grade point average overall;
2. Conduct advanced research on a topic approved by a faculty member who will serve as project director;
3. Obtain written approval upon successful completion of the project from the project director and the chair, and present the results of the research to the department or at a research conference, and/or publish the results in a peer-reviewed scientific journal.

School of Computer Science and Engineering

Accredited by ABET (B.S. in Computer Science, BS in Computer Engineering)

Jack Brown Hall, Room 307
(909) 537-5326 Computer Science and Engineering website

Computer science is a discipline with historical foundations in science, mathematics and engineering. It is concerned with the study of a variety of topics including computer design, computer programming, information processing, data communication, machine intelligence, robotics, the algorithmic solution of problems, and the various representations of information including numeric, alphabetic, visual, audio and sensory. This discipline deals with effective ways to represent and display information, algorithms to process information, languages in which to express algorithms, hardware systems to interpret such languages, theoretical techniques for insuring the accuracy and cost effectiveness of these processes and the philosophical foundations of computing and machine intelligence.

The Bachelor of Science in Computer Science degree program is accredited by ABET/CAC. The program emphasizes the fundamentals of computer science and the skills required to apply computer science to application areas, as well as professional ethics. The objective of the program is to prepare the student upon graduation for: immediate entry into a programming, software engineering, systems and network administration or similar position in either the public or private sectors; or for graduate education in computer science or a closely related discipline leading to a master or doctoral degree.

The Bachelor of Science in Computer Engineering is accredited by ABET/EAC. Computer engineering is a discipline with historical foundations in computer science and electrical engineering. It is concerned with the study of a variety of topics including circuit design, programmable logic, computer design, computer programming, software engineering, data communication, machine intelligence, robotics, the algorithmic solutions of problems, and the various representations of information including numeric, alphabetic, visual, audio, and sensory. This discipline deals with effective ways to represent and manipulate information, algorithms to process information, hardware systems and technologies to run software, design methodologies for hardware and software systems, and engineering techniques for ensuring the accuracy and cost effectiveness of these processes.

The Bachelor of Science in Bioinformatics provides students with a background and skills useful for research and development in the growing biotechnology industries. Bioinformatics is the interdisciplinary study of biology and biochemical systems using mathematics and computer science. It involves the use of computers and statistics to make sense out of large amounts of data that are accumulating from high-throughput biological and chemical experiments, such as sequencing of whole genomes, DNA, microarray chips, two-hybrid experiments, and tandem mass spectrometry. The bioinformatics degree program is a collaboration between the School of Computer Science and Engineering, the Department of Biology and the Department of Chemistry and Biochemistry.

The Bachelor of Arts in Computer Systems program emphasizes the application of principles to practical problem solving in a domain of interest. Students complete a core set of foundation courses and

coursework in one of the following concentrations: web programming, system administration, game development, graphics programming. Students also have the ability to combine the study of computer systems with another field of study through the general interdisciplinary option.

The Minor in Computer Science is designed to give students from all academic disciplines a foundation in computing which will enrich and support the student's own field of study.

The Certificate Program in Computer Systems and Programming is a short course of study provided for those individuals who desire a career in the computer science field which does not require a formal degree.

Departmental Honors

1. Demonstration of independent work by achieving a grade of "C" (2.0) or better in a three-unit CSE 5950 (<https://bulletin.csusb.edu/search/?P=CSE%205950>) Independent Study or credit in CSE 5750 (<https://bulletin.csusb.edu/search/?P=CSE%205750>) Internship in Computer Science and Engineering;
2. Attainment of a minimum overall grade point average of 3.0 ("B") in all university courses attempted and a minimum grade point average of 3.5 in all Computer Science and Engineering (CSE) courses required by the major;
3. At least five upper-division major courses required by the major must be taken at this university.

Emerita

Josephine G. Mendoza, Professor of Computer Science and Engineering
 B.S. 1974, M.Eng. 1977, University of the Philippines
 Ph.D. 1984, University of Illinois

Current Faculty

Khalil Dajani, Professor of Computer Science and Engineering, Director
 B.S. 1988, M.S. 1991, University of Illinois
 Ph.D. 2000, University of Toledo

George M. Georgiou, Professor of Computer Science and Engineering
 B.S.E.E. 1985, Louisiana Tech University
 M.S.E.E. 1987, M.S. 1988, Louisiana State University
 M.S. 1990, Ph.D. 1992, Tulane University

Amir Ghasemkhani, Assistant Professor of Computer Sciences
 B.S. 2011, M.S. 2014, University of Tabriz, Iran
 Ph.D. 2019, University of Nevada Reno

Yunfei Hou, Professor of Computer Science
 B.A. 2009, Xi'an Jiaotong University
 M.S. 2011, Saint Cloud State University
 Ph.D. 2016, University of Buffalo

Jennifer Jin, Assistant Professor of Computer Science and Engineering
 B.S. 2009 University of Dallas
 M.S. 2011 University of California
 Los Angeles
 Ph.D. 2019 University of California, Irvine

Yasha Karant, Professor of Computer Science and Engineering
 B.A. 1975, Immaculate Heart/Cal Tech
 M.S. 1978, Ph.D. 1981, University of California, Berkeley

Fadi Muheidat, Assistant Professor of Computer Science and Engineering
 B.A. 2000, Jordan University of Science and Technology

M.S. 2015, University of Missouri, Columbia
Ph.D. 2017, University of Missouri, Columbia

Haiyan Qiao, Professor of Computer Science and Engineering
B.S. 1993, M.S. 1996, Huanzhong University, China
M.S. 2002, North Dakota State University
Ph.D. 2007, University of Arizona

Ronald Salloum, Assistant Professor of Computer Science and Engineering
B.S. 2010, California State Polytechnic University, Pomona
Ph.D. 2019, University of Southern California

Qingquan Sun, Professor of Computer Science
B.S. 2006, XI'AN University of Technology
M.S. 2012, University of Alabama
Ph.D. 2013, University of Alabama

Kerstin Voigt, Professor of Computer Science and Engineering
Vordiplom 1981, Johann-Wolfgang-Goethe University of Frankfurt, Germany
M.S. 1984, Ph.D. 1994, Rutgers University

Yan Zhang, Assistant Professor of Computer Science and Engineering
B.E. 2000, Lanzhou Jiaotong University
Ph.D. 2011, Beijing Jiaotong University
Ph.D. 2018, University of Regina, Canada

Emeriti

Arturo I. Concepcion

Ernesto Gomez, Professor of Computer Science and Engineering
B.A. 1969, Cornell University
M.S. 1975, Universidad de Puerto Rico
Ph.D. 2005, University of Chicago

Owen J. Murphy, Professor of Computer Science and Engineering
B.A. 1979, Holy Cross
M.S. 1982, Worcester Polytechnic Institute
Ph.D. 1985, Syracuse University

David A. Turner, Professor of Computer Science and Engineering
B.S. 1980, Wichita State University
M.S. 1983, University of Massachusetts
Ph.D. 2001, Institute Eurecom, Sophia Antipolis, France

Tong L. Yu, Professor of Computer Science and Engineering
B.S. 1977, Chinese University of Hong Kong
M.S.E. 1982, Ph.D. 1986, Johns Hopkins University

Kay Zemoudeh, Professor of Computer Science and Engineering
B.S. 1981, M.S. 1984, University of Southwestern Louisiana
Ph.D. 1990, University of South Carolina

Undergraduate Degrees

Bachelor of Arts

- Computer Systems (p. 304)
with concentrations in:
 - General Interdisciplinary
 - Game Development
 - System Administration

Bachelor of Science

- Bioinformatics (p. 305)
- Computer Engineering (p. 305)
- Computer Science (p. 306)

Graduate Degree

Master of Science

Computer Science (p. 302)

Minor

- Computer Science (p. 306)
- Data Science (p. 307)

Certificates

- Computer Science for K-12 Educators (p. 307)
- Computer Systems and Programming (p. 307)
- Data Science (p. 308)
- Mobile Application Development (p. 308)

Master of Science in Applied Data Science

This program aims to admit students from various backgrounds with undergraduate training in quantitative fields (e.g., engineering, physics, math, statistics). Applicants are expected to have some experience in programming and probability/statistics. The objective of this Applied Data Science program is to provide training in various aspects of the data lifecycle. Students will learn techniques in data collection, data cleaning, data integration, data management, and data visualization, as well as the theories and techniques necessary for data analysis from data mining, machine learning, information retrieval, and artificial intelligence.

In addition to the general requirements of the university, specific requirements for admission are:

- Official transcript(s) confirming at least a Bachelor's Degree from an accredited institution, preferably but not necessarily accredited by an accreditor endorsed by the Council for Higher Education Accreditation (CHEA);
- Applicants with unaccredited Bachelor's Degrees can be considered for admission on a case by case basis;
- Transcribed studies should reflect adequate preparation for study in the relevant graduate program;
- Programming experience equivalent to CSE 2020 and coursework in statistics and probability equivalent to Math 2265 and Math 3460;
- Minimum GPA of 3.0 preferred. Applicants with a GPA below 3.0 but above 2.5 will be considered on a case by case basis.

1. Achieved classified standing (i.e., not conditionally classified);
2. Completed a minimum of 12 units towards the Master's degree;
3. Completed or currently registered in the four required core courses as a graduate student at this university;

4. Minimum grade point average of 3.0 ("B") in all courses completed towards the Master's degree and a grade of "C" (2.0) or better in each course;

5. Formed a committee, consisting of the student's advisor and one other committee member (committee members must be tenure-track faculty members);

6. Presented and submitted a project proposal that was approved by the student's committee;

7. Completed the Advancement to Candidacy form.

1. A minimum of 31 semester units of acceptable graduate-level work, with a minimum grade point average of 3.0 ("B") and a grade of "C" (2.0) or better in each course in the program;

2. Advancement to candidacy;

3. Successful completion of the Capstone Project (CSE 6880 or MATH 6880);

4. The program must be completed within a seven-year period. No more than seven years may elapse between the time of registration for the earliest course listed on the program and completion of all requirements for the degree;

5. Any additional general requirements not cited above and listed in Graduate Degree and Program Requirements (<https://catalog.csusb.edu/graduate-degree-programs/graduate-degree-program-requirements/>).

Degree Requirements (31 units)

Required Courses (12)

CSE 6010	Foundations of Data Science	3
CSE 6300	Theory of Algorithms and Their Analysis	3
CSE 6320	Big Data Management	3
CSE 6330	Data Mining	3

Elective Courses (15)

Choose five courses from the following list: 15

MATH 5565	Mathematical Statistics	
CSE 5140	Computational Intelligence	
CSE 5160	Machine Learning	
CSE 5720	Database Systems	
CSE 6220	Data Visualization	
CSE 6400	Artificial Intelligence	
CSE 6800	Distributed Database Management Systems	

Culminating Experience (4) 4

Total Units 31

CSE 6880	Data Science Capstone Project	4
OR		
MATH 6880	Data Science Capstone Project	4

Master of Science in Computer Science

The Master of Science in Computer Science degree program provides a technically oriented postbaccalaureate scientific education for those who wish to acquire or extend their knowledge in the field of computer science. The program combines both the study of modern computer devices and their applications along with the study of the philosophical foundations which underlie the discipline.

In addition to the above goals and objectives, the program is also committed to improving the writing and communication skills of the student.

Nearly all of the courses in the School of Computer Science and Engineering curriculum are taught in-person. However, some of the courses in these programs can be offered in different modalities (in-person, hybrid, or online), but it is not possible to take all of the program courses in online or hybrid mode. At least 75% of lower division and 60% of upper division and graduate CSE courses will be offered in-person. All courses will be offered in-person at least once per year, and courses that have multiple sections per semester will have at least one in-person section per semester.

Admission to the Program

In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

1. An acceptable score on the GRE (general examination only);
2. A statement of purpose from the student; and
3. Either A or B below:
 - a. A baccalaureate degree in computer science or computer engineering;
 - b. A baccalaureate degree in a related field with a cumulative grade point average of "B" (3.0) or better with no grade lower than "C +" (2.3) in a selection of program preparatory courses including:

The equivalent of a one-year sequence of "Introduction to Computer Science" courses, as defined by the ACM Curriculum Committee as courses CS1 and CS2. This can be satisfied by successful completion of courses equivalent to:

CSE 2010	Computer Science I	4
CSE 2020	Computer Science II	4

Courses in calculus, discrete mathematics and linear algebra equivalent to:

MATH 2720	Discrete Mathematics	3
MATH 2210	Calculus I	4
MATH 2220	Calculus II	4
MATH 2310	Applied Linear Algebra	4

Courses in computer science equivalent to:

CSE 3100	Digital Logic	4
CSE 4010	Contemporary Computer Architecture	4
CSE 4600	Operating Systems	3

CSE 5000	Introduction to Formal Languages and Automata Theory	3
or CSE 5700	Compilers	

Applicants who have not completed the above courses may still be considered for conditional admission.

Advancement to Candidacy

In order to be advanced to candidacy, a student must have:

1. Achieved classified standing;
2. Secured a major advisor from the School of Computer Science and Engineering for the preparation of the thesis or the implementation of a project;
3. Completed at least 9 semester units and no more than 15 semester units of work applicable to the degree program as a graduate student at this university with a minimum grade point average of 3.0 ("B");
4. Submitted a formal program of graduate study prepared in consultation with and approved by the School of Computer Science and Engineering graduate committee and/or the major advisor. This program of graduate study should include an abstract to serve as a thesis research proposal for Thesis or a tentative title and description of the project for Master Project, or enrollment in CSE 6890 and CSE 6980 for the comprehensive written exam;
5. For students choosing Master Project, satisfactory passage of the comprehensive oral examination to be administered by the graduate committee;
6. Obtained final approval of the program and of the candidacy itself by the School of Computer Science and Engineering graduate committee and the Dean of Graduate Studies.

Requirements for Graduation

1. A minimum of 31 semester units of acceptable graduate-level work included in the formal program with 5000- and 6000-level courses in computer science, with 22 units completed in residence at this university. No more than nine units may be earned from 5000-level courses;
2. Advancement to candidacy and approval of the specific program of study;
3. A public presentation for the thesis or project option;
4. Completion of a final oral examination concluded by acceptance of the thesis, for the thesis option; satisfactory completion of the comprehensive oral examination and completion of the project, for the project option; or satisfactory completion of the comprehensive written examination, for the examination option;
5. The program must be completed within a seven-year period. No more than seven years may elapse between the time of registration for the earliest course listed on the program and completion of all requirements for the degree;
6. A grade point average of at least 3.0 ("B") in all graduate course work fulfilling the requirements of the Master of Science in Computer Science and a grade of "C" (2.0) or better in each course in the program;
7. For the thesis option, the student will submit the written thesis in electronic form to the school. For the project option, the student will submit the written software engineering documentation in electronic form to the school;

8. The graduation writing requirement is met upon successful completion of term papers in the graduate courses taken by the student and the writing of the thesis or software engineering documentation of the project;
9. Any additional general requirements not cited above and listed in Graduate Degree and Program Requirements (p. 71).

Department Graduate Committee and Major Advisor

The School of Computer Science and Engineering graduate committee consists of the graduate coordinators and two or more faculty members from the School of Computer Science and Engineering. The committee has general supervision over the work of students progressing towards the master's degree and will determine whether students are adequately prepared for graduate study. Each new graduate student should consult with the graduate coordinator for advice in the selection of the appropriate program of graduate study.

Students enrolled in the thesis or project option must choose and be accepted by a major advisor prior to their advancement to candidacy and the initiation of a thesis or project. The major advisor in consultation with the student will develop a program of graduate study consisting of specific courses and an acceptable thesis abstract or project proposal based on the student's interest, abilities and preparation. The major advisor will direct this research.

The program of graduate study as well as any subsequent modification of the thesis or project are subject to the approval of the School of Computer Science and Engineering graduate committee and the Dean of Graduate Studies.

Students enrolled in Comprehensive Examination are advised by the graduate coordinator. The program of study for Comprehensive Examination consists of declaring and choosing the Comprehensive Exam and may not be modified to Thesis or Master Project.

Thesis Preparation, Presentation and Examination

The student must conduct a research study, and from these efforts, write a thesis acceptable to the student's thesis committee and the Dean of Graduate Studies. The student's thesis committee shall be chaired by the major advisor and two other faculty members who are chosen by the student upon consultation with the major advisor and the graduate coordinator. The thesis topic and major advisor must be included on the program of graduate study submitted with the application to candidacy, although this may be amended.

The student shall enroll in Thesis at a rate of two to five units per semester for all contiguous academic year semesters starting from the time of advancement to candidacy until the thesis is completed and accepted. Over that period, seven units of Thesis will count toward the degree.

The student, upon completion of the thesis, must give a public presentation of the research and stand for the defense of the thesis before the faculty made up of the thesis committee and any other faculty members who wish to attend. The student is given a maximum of five years from the time the student was advanced to candidacy to finish the degree.

Project Preparation, Presentation and Examination

The student must implement and complete a project acceptable to the student's project committee and the Dean of Graduate Studies. The student's project committee shall be chaired by the major advisor and two

other faculty members who are chosen by the student after consultation with the major advisor and the graduate coordinator.

The project topic and major advisor must be included on the program of graduate study submitted with the application to candidacy, although this may be amended.

The student shall enroll in Master Project at the rate of two or four units per semester for all contiguous academic semesters starting from the time of advancement to candidacy until the project is completed and accepted. Over that period, four units of Master Project will count toward the degree.

The student, upon completion of the project, must give a public presentation. The student is given a maximum of five years from the time the student was advanced to candidacy to finish the degree.

Comprehensive Written Examination

The student shall enroll in CSE 6890 and CSE 6980 after consultation with the graduate coordinator and completion of the last core course(s).

CSE 6890 is a graduate seminar in preparation of the comprehensive examination CSE 6980 and CSE 6980 may be repeated only once. Students enrolled in CSE 6980 must pass a written examination on the material in the core courses.

Degree Requirements (31 units)

(Program Code: CSCM)

Required Courses (15)

CSE 6020	Computation and Complexity Theory	3
CSE 6100	Modern Computer Architecture	3
CSE 6300	Theory of Algorithms and Their Analysis	3
CSE 6550	Software Engineering Concepts	3
CSE 6600	Operating Systems Concepts and Theory	3

In rare instances past 5000-level course work may preclude a student from enrolling in a required course. In that case, the student must seek advising by the graduate coordinator who will determine a viable alternative.

Culminating Experience (16)

Sixteen units from one of the following options: 16

Total Units 31

Culminating Experience (16 units)

Examination Option (16 units)

CSE 6890	Graduate Seminar	1
CSE 6980	Comprehensive Examination	0
15 units of elective coursework chosen from 5000- to 6000-level computer science courses deemed appropriate by the department graduate committee. Up to 9 units of 5000-level computer science courses may be taken.		15
Total Units		16

Project Option (16 units)

CSE 6962	Masters Project (for a total of 4 units)	4
or CSE 6964	Masters Project	

12 units of elective coursework chosen from 5000- to 6000-level computer science courses deemed appropriate by the department graduate committee. Up to nine units of 5000-level computer science courses may be taken.	12
---	----

Total Units 16

Thesis Option (16 units)

Six units chosen from: 6

CSE 6972	Thesis	
CSE 6973	Thesis	
CSE 6974	Thesis	
CSE 6976	Thesis	

10 units of elective coursework chosen from 5000- to 6000-level computer science courses deemed appropriate by the department graduate committee.	10
---	----

Total Units 16

Bachelor of Arts in Computer Systems

The Bachelor of Arts (BA) in Computer Systems program emphasizes the application of principles to practical problem solving in a domain of interest. Students complete a core set of foundation courses and courses in one of the following concentrations: system administration, game development, and general interdisciplinary.

Requirements (60-67 units)

Total units required for graduation: 120

Requirements for the B.A. in Computer Systems

Lower-division requirements (21)

CSE 2010	Computer Science I	4
CSE 2020	Computer Science II	4
CSE 2130	Machine Organization	3
MATH 2210	Calculus I	4
MATH 2720	Discrete Mathematics	3
MATH 2265	Statistics with Applications	3

Upper-division requirements (12)

CSE 4050	Web Application Development	3
CSE 4500	Platform Computing	3
CSE 4550	Software Engineering	3
CSE 4880	Ethics Senior Seminar	3

Ethics Senior Seminar will count towards the GE Writing Intensive Requirement.

Electives (9)

Nine units chosen from CSE courses numbered 3000 and above. 9

Concentration (18-25)

Students must satisfy the requirements of one of the concentrations listed below: 18-25

Total Units 60-67

Concentrations (18-25 units)

General Interdisciplinary Concentration (18 units)

(Program Code: CSGI)

Three units chosen from CSE courses numbered 3000 and above.	3
Fifteen units of coursework in another discipline such as a minor or other cohesive program of study; subject to approval by the School of Computer Science and Engineering.	15
Total Units	18

Game Development Concentration (25 units)

(Program Code: CSGD)

PHYS 2500	General Physics I	4
or PHYS 2000	Introduction to Physics I	
MATH 2220	Calculus II	4
MATH 2310	Applied Linear Algebra	4
PHYS 2500L	General Physics I Lab	1
or PHYS 2000L	Introduction to Physics I Lab	
CSE 4200	Computer Graphics	3
CSE 4410	Game Programming	3
CSE 4400	Game Design	3
Three units of supporting coursework such as 3D modeling, animation, level design, image editing, and other coursework related to game development. Subject to approval by the School of Computer Science and Engineering.		3
Total Units		25

System Administration Concentration (23 units)

(Program Code: CSSA)

CSE 3100	Digital Logic	4
CSE 3650	Systems Administration I	3
CSE 3660	Systems Administration II	3
CSE 4010	Contemporary Computer Architecture	4
CSE 4600	Operating Systems	3
CSE 5720	Database Systems	3
Three units chosen from CSE courses numbered 3000 and above.		3
Total Units		23

Bachelor of Science in Bioinformatics

Bioinformatics is an interdisciplinary field that develops methods and software tools for understanding biological data. As an interdisciplinary field of science, bioinformatics combines computer science, statistics, mathematics, and engineering to analyze and interpret biological data.

Requirements (72 units)

Total units required for graduation: 120

Minor in Computer Science

Courses taken in fulfillment of the minor in Computer Science cannot be applied toward the Certificate in Computer Systems and Programming.

Nearly all of the courses in the School of Computer Science and Engineering curriculum are taught in-person. However, some of the courses in these programs can be offered in different modalities (in-person, hybrid, or online), but it is not possible to take all of the program courses in online or hybrid mode. At least 75% of lower division and 60% of upper division and graduate CSE courses will be offered in-person. All courses will be offered in-person at least once per year, and courses that have multiple sections per semester will have at least one in-person section per semester.

Requirements for a minor in Computer Science (20 units)

MATH 2372	Discrete Mathematics	3
or MATH 3372	Combinatorics	
CSE 2010	Computer Science I	4
CSE 2020	Computer Science II	4
Nine units of upper-division CSE courses, excluding CSE 3900 to CSE 3904.		9
Total Units		20

Minor in Data Science

The Data Science minor is designed to provide students with hands-on experience of the concepts and techniques used in data science, including statistical methodology and data-oriented computing. The minor will provide students from all majors (including science, business, humanities, social sciences, education etc.) with the foundational skills to collect, process, analyze data, and think critically about data-driven problems in their respective disciplines. The minor has a requirement of 32 credits, consisting of 6 required courses (26 units) and 2 elective courses (6 units).

Requirements for a minor in Data Science (32 units)

Required Courses (26)

CSE 1300 & 1300L	Introduction to Data Science and Introduction to Data Science Lab	4
CSE 2010	Computer Science I	4
CSE 2020	Computer Science II	4
MATH 2210	Calculus I	4
MATH 2220	Calculus II	4
MATH 2265	Statistics with Applications	3
Choose one of the following courses:		3
CSE 5160	Machine Learning	
MATH 5360	Statistical Methods for Machine Learning	

Electives (6)

Choose two courses from the following list:		6
MATH 3465	Computational Statistics *	
MATH 4360	Linear Statistical Models *	
CSE 5120	Introduction to Artificial Intelligence	
CSE 5720	Database Systems	

Total Units **32**

*Note course have prerequisites. Completion of prerequisites or consent of instructor required.

Certificate in Computer Science for K-12 Educators

Provides training for K-12 educators to teach computer science subjects. The program will cover certain content areas in accordance with the guidelines specified by the California Commission on Teacher Credentialing (CTC). The program offers two pathways to obtain supplementary authorization in computer science: (1) Specific Authorization and (2) Introductory Authorization.

Introductory supplementary authorizations added to a Single Subject, Standard Secondary, or Special Secondary (in academic subject areas only) Teaching Credential authorize the holder to teach the supplementary subject matter content typically included in curriculum guidelines and textbooks for study in grades 9 and below. This allows an employer to assign a teacher with an introductory supplementary authorization to teach a class in which the curriculum is for grades 9 and below but the students in the class may be in grades 10-12. Introductory supplementary authorizations added to a Multiple Subject or Standard Elementary Teaching Credential authorize the holder to teach departmentalized

classes related to the supplementary authorization listed on their credential in grades 9 and below. Specific supplementary authorizations may be added to Single Subject, Standard Secondary and Special Secondary (academic subject areas only) Teaching Credentials and authorize the holder to teach the specific subject in grades preschool, kindergarten-12, and classes organized primarily for adults.

The required courses for Specific Authorization are:

CSE 3901	Computer Programming for Educators	3
CSE 3902	Data Structures and Algorithms for Educators	3
CSE 3903	Software Development for Educators	3
CSE 3904	Information and Communication Technologies and Social Implications	3

The required courses for Introductory Authorization are:

CSE 3900	Computational Thinking and Block-based / Visual Programming for Educators	3
CSE 3901	Computer Programming for Educators	3
CSE 3903	Software Development for Educators	3
CSE 3904	Information and Communication Technologies and Social Implications	3

Certificate in Computer Systems and Programming

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 6000-level courses as requirements and/or electives. These 6000-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Courses taken in fulfillment of the Certificate cannot be applied toward a Minor in Computer Science.

Nearly all of the courses in the School of Computer Science and Engineering curriculum are taught in-person. However, some of the courses in these programs can be offered in different modalities (in-person, hybrid, or online), but it is not possible to take all of the program courses in online or hybrid mode. At least 75% of lower division and 60% of upper division and graduate CSE courses will be offered in-person. All courses will be offered in-person at least once per year, and courses that have multiple sections per semester will have at least one in-person section per semester.

Certificate Requirements (20 units)

CSE 2010	Computer Science I	4
CSE 2020	Computer Science II	4
MATH 2372	Discrete Mathematics	3
Nine units of upper-division CSE courses, excluding CSE 3900 to CSE 3904.		9
Total Units		20

Certificate in Data Science

Data Science Certificate Program Objectives

1. Enhance the skill-set of students to improve their marketability in the job market
2. Streamline accessibility of classes by building prerequisites within the program and offering them in online format
3. Serve current CSUSB students/recent graduates and working professionals with a background in Math and/or Computer Science looking to update/expand their skill sets
4. Provide hands-on experience with statistical packages and Big Data tools through coursework
5. Be able to communicate effective statistical concepts orally and in writing

Data Science Certificate Program Outcomes

1. Develop proficient users of various Data Analysis tools
2. Use statistical data analysis techniques to solve Data Analytics and Data Science problems
3. Design and develop Data Analytics projects effectively

Pre-requisites include satisfying one of the following:

Group A: Completion of the following courses for currently matriculated undergraduates:

CSE 2010	Computer Science I	4
MATH 2210	Calculus I	4
MATH 2220	Calculus II	4
MATH 2310	Applied Linear Algebra	4
MATH 2320	Multivariable Calculus	4
MATH 3460	Probability Theory	3

Group B: Completion of a BA or BS in Data Science, Computer Science, Mathematics, or a related field. Admission is determined on an individual basis based on course work and background. Please contact us for more information at (909) 537-5326.

Additional Information

Students who complete the certificate program will have the option of continuing their education in the CSUSB Master of Science (MS) in Applied Data Science program as the certificate program includes some of the required coursework in the MS in Applied Data Science curriculum.

Certificate Requirements (19 units)

CSE 2020	Computer Science II *	4
MATH 2265	Statistics with Applications	3
MATH 3465	Computational Statistics *	3

MATH 5360	Statistical Methods for Machine Learning *	3
CSE 5160	Machine Learning	3
CSE 5720	Database Systems	3
Total Units		19

*Note course has prerequisites. Completion of prerequisites or instructor consent required.

Certificate in Mobile Application Development

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 6000-level courses as requirements and/or electives. These 6000-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Certificate Requirements (20 units)

CSE 2010	Computer Science I	4
CSE 2020	Computer Science II	4
CSE 4050	Web Application Development	3
CSE 4500	Platform Computing	3
A minimum of 6 units chosen from:		6
CSE 4100	Computer Networking and Security	
CSE 4200	Computer Graphics	
CSE 4400	Game Design	
CSE 4410	Game Programming	
CSE 4550	Software Engineering	
CSE 5720	Database Systems	
Total Units		20

Note: CSE 4200 Computer Graphics has a prerequisite of MATH 2310 Applied Linear Algebra. If this option is chosen, the certificate would be 20-24 units.

Undergraduate Degrees

Bachelor of Arts

- Social Sciences (p. 315) with concentrations in:
 - Economics
 - Geography
 - Political Science
 - Psychology
 - Sociology
- Social Sciences (p. 483) (online option available through the College of Extended and Global Education)

Graduate Degree

Master of Arts

National Security Studies (p. 310)

Social Sciences and Globalization (p. 311)

- with concentrations in:
 - Disciplinary
 - Thematic
 - Applied Social Science

Master of Science

National Cyber Security Studies (p. 313)

Minors

- Aerospace Studies (p. 316)
- Islamic and Middle Eastern Studies (p. 316)

The university offers a minor and certificate program in Islamic and Middle Eastern Studies, overseen by the Center for the Study of Muslim and Arab Worlds. The course work provides students with a broad introduction to Middle Eastern Studies, creating a foundation for students to pursue advanced study or possible employment in related fields. The curriculum is multidisciplinary, bringing together a diverse faculty of specialists from the departments of Anthropology, Communication Studies, History, Humanities, Political Science and World Languages and Literatures. Core courses focus on the politics, culture and history of the Middle East.

Students then select courses in a variety of fields that reflect the dynamic inter-relationship of cultures in the Middle East.

Certificates

Diversity, Equity and Inclusion (p. 318)

Islamic and Middle Eastern Studies (p. 318)

Native Nations/Indigenous Peoples Studies (p. 319)

Programs

Aerospace Studies (Air Force ROTC) (p. 319)

Military Science (Army ROTC) (p. 320)

Master of Arts in National Security Studies

The Master of Arts in National Security Studies is a professionally oriented, interdisciplinary, graduate-level program housed within the College of Social and Behavioral Sciences. The program is designed to develop an understanding of the substance and principles of strategic studies, including defense policy analysis, intelligence analysis, strategic planning, regional security, and terrorism in relation to the contemporary international environment. Flexibility within elective courses permits the student to emphasize research in national security issues of their special interests.

The program is relevant to established career personnel in foreign and defense policy, federal and regional law enforcement, the civil service, intelligence community, and the private sector. Additionally, the program is structured to provide motivated persons holding a Bachelor of Arts degree and/or Bachelor of Science degree from an accredited institution with the higher educational skills necessary for entry into the above-mentioned career fields or to pursue doctoral studies.

The program was designated an Intelligence Community Center of Academic Excellence (IC CAE) in 2006 by the Office of the Director of National Intelligence (ODNI).

Admission to the Program

In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

1. A baccalaureate degree from an accredited college or university;
2. A minimum cumulative undergraduate grade point average of at least 2.5 overall and at least 3.0 ("B") in the student's undergraduate major;
3. Submission to the National Security Studies Admissions Committee of a brief statement (one or two double-spaced typewritten pages) of the student's preparation for graduate study and professional aspirations following receipt of the master's degree. This statement further serves as a graduate entrance writing requirement;
4. Submission of two evaluations from individuals familiar with the student's academic or professional work and potential to complete the program successfully. Evaluation prompts must come directly through the Cal State Apply system.

Students who meet the requirements for admission to graduate study, but who do not meet the program requirements, may be admitted to graduate study in unclassified postbaccalaureate status or to the program in conditionally classified graduate standing. When the specified deficiencies are removed, student status is changed from conditionally classified to classified. (Unclassified postbaccalaureate students may enroll, when space is available, in selected graduate courses.) No more than 9 semester units of national security studies course work taken as an unclassified or conditionally classified graduate student may be applied to the program as a classified graduate student.

Advancement to Candidacy

To be advanced to candidacy, a student must have:

1. Achieved classified status;
2. Completed at least 18 semester units of national security studies program course work at this university, and achieved a minimum grade point average of 3.0 ("B") in those courses;

3. Filed a graduate program approved by the student's advisor, the national security studies program coordinator and the Dean of Graduate Studies.

Requirements for Graduation

1. A minimum of 30 semester units of acceptable graduate-level work, with at least 24 semester units completed in residence at California State University, San Bernardino;
2. A grade point average of at least 3.0 ("B") in all national security studies program courses taken;
3. Choose Option A or B:
 - a. Completion of acceptable comprehensive final written and oral examinations;
 - b. Completion and defense of an original master's thesis.
4. The graduation writing requirement will be satisfied by achieving a minimum grade point average of 3.0 ("B") in the two core courses listed below. Each core course will allow the student to develop competence in various forms of writing traditional to the field. These are:
 - a. Critical reviews (PSCI 6000),
 - b. Article length essay (PSCI 6020) and the process of "peer review".
5. Any additional general requirements not cited above and listed in Graduate Degree and Program Requirements (p. 71).

Classified graduate students in the Master of Arts program must complete their degree requirements within five years of admission to the program. Students in classified status who fail to register for at least one course in the program each semester will automatically be declassified. PSCI 6980-6986, Continuous Enrollment for Graduate Candidacy Standing, must be taken if another course is not taken during a given semester.

The Master of Arts in National Security Studies is a thesis option course of study requiring either written and oral comprehensive examinations (to be taken in the last semester of program course work) or a thesis. Students with less than a 3.0 grade point average in the program will not be permitted to take the examinations or propose a thesis. All students are required to take the prerequisite and core courses.

Comprehensive Examination

The comprehensive examination committee for each candidate will consist of three faculty members from the department. The examinations will be graded credit/no credit.

An oral examination by the student's committee follows successful completion of the written examination. The oral examination is open for public attendance, but not participation. Should the candidate fail one or more written or oral examination areas, the entire oral or written examination may be repeated one time after any required remedial course work or study is completed. The scope and deadline for completion of this remedial work will be determined by the student's examination committee at a post-examination conference.

Students must enroll in PSCI 6980 - the Political Science Comprehensive Examination..

Thesis

The criteria for determining who will be allowed to choose the thesis option will be determined by the proposed thesis committee. After completion of a minimum of 15 semester units, the student will request

three faculty to form a preliminary committee, at least two of whom have instructed a course that the student has taken in the program.

Degree Requirements (30-33 Units)

(Program Code: NTSS)

Core Courses (18)

PSCI 4840	National Security Policy	3
PSCI 5920	Seminar in Government (Research Methods)	3
PSCI 6000	Theory and History of Strategy	3
PSCI 6020	International Security	3
PSCI 6210	Intelligence Assessments and Estimates	3
PSCI 6250	American Foreign Policy	3

Electives (12)

Choose 12 units from the following: 12

ECON 6303	International Economic Issues	
GEOG 6100	Military Geography for National Security	
HIST 5560	Foreign Relations of the United States	
MATH 6411	Operations Analysis	
PSCI 5400	Seminar in Comparative Politics (Middle East Politics)	
PSCI 5400	Seminar in Comparative Politics (African Dictatorships)	
PSCI 5400	Seminar in Comparative Politics (East Asian Politics)	
PSCI 5400	Seminar in Comparative Politics (Latin American Politics)	
PSCI 5900	Seminar in International Relations (Techniques of Intelligence Analysis)	
PSCI 5900	Seminar in International Relations (Terrorism in Africa)	
PSCI 5900	Seminar in International Relations (Intelligence Ethics)	
PSCI 5900	Seminar in International Relations (US - Israel Relations)	
PSCI 5900	Seminar in International Relations (Cases in Strategy)	
PSCI 6010	Strategic Systems and Strategic Thought	
PSCI 6030	Cyber Security and Cyber Warfare	
PSCI 6040	Seminar in International Law	
PSCI 6050	Topics in Strategy:	
PSCI 6060	Analysis of International Terrorism	
PSCI 6090	International Relations Theory	
PSCI 6110	Regional Security of Eurasia	
PSCI 6120	African Security	
PSCI 6130	Middle East Security	
PSCI 6140	Regional Security of East Asia	
PSCI 6200	Understanding Intelligence Failure	
PSCI 6220	Arms Control	
PSCI 6240	Politics of National Security	
SSCI 6950	Directed Graduate Studies	

Culminating Experience (0-3)	0-3
Total Units	30-33

Internship

Some internships in government service are occasionally available on a competitive basis. Other nonprofit research internships are available.

Transfer Credit

A maximum of 6 semester hours of acceptable postbaccalaureate credit taken at an accredited institution of higher learning may be applied toward the requirements for the M.A. in National Security Studies. Selected Department of Defense courses (War College, Command and Staff College and Squadron Officers School) have been approved for transfer credit. Determination of acceptability of transfer credit requests is made upon receipt of official transcripts by the Office of the Registrar and upon recommendation of the coordinator of the national security studies program.

Culminating Experience (0-3)

Students must complete one of the following:

Choose one from:	0-3
PSCI 6973	Thesis ¹
PSCI 6980	Comprehensive Examination
Total Units	0-3

¹ Thirty six units of course work and three units of thesis must be completed before the degree will be awarded.

Master of Arts in Social Sciences and Globalization

The objective of the M.A. in Social Sciences is to provide students with a survey of the concepts and ideas social scientists study with emphasis placed upon the domestic and international impact of global processes and global connectivity. While the program provides course work in each of the contributing disciplines of Anthropology, Economics, Geography, History, Political Science, and Sociology, the program also supports interdisciplinary learning and research through a colloquium series. This program is especially attractive to those pursuing a career in or seeking advancement in secondary school and community college teaching in the social sciences. Those interested in work in other types of educational and social science related fields, such as non-profit or non-governmental work, applied social sciences, and those interested in pursuing advanced degrees (Ph.D., J.D., etc.) may also benefit from this program.

Admission to the Program

In addition to the general requirements of the university, specific requirements for admission to classified status are:

1. A baccalaureate degree in a social science discipline or in social science itself, or another baccalaureate degree with course work that satisfies the College of Social and Behavioral Sciences that the student has received adequate preparation to undertake the program;
2. A cumulative undergraduate grade point average of at least 2.5 overall and at least 3.0 ("B") in the major (preference will be given to applicants who have at least 3.0 overall);

3. A brief 1 to 2 page statement of purpose (not to exceed 1,000 words), describing the applicant's preparation for graduate study and academic and professional goals, to be submitted to the College of Social and Behavioral Sciences;
4. A writing sample (at least 10 pages but not to exceed 25 pages) that demonstrates the applicant's ability to write analytical prose, to construct a reasoned argument based upon evidence, and to create a context for assessing the significance of what has been presented. Writing sample should demonstrate preparation for the applicant's proposed field of study;
5. Three letters of recommendation, with at least two from former professors. Letters should come directly from the recommenders or be included in a placement file. It is the applicant's responsibility to determine if letters have been received. It is assumed that students who request confidential letters to be submitted on their behalf have waived their right to view those letters as per FERPA (1974) requirements to maximize the confidentiality and integrity of the letters of reference. Applicants who do not wish to waive their right to view those letters are responsible for letting their letter-writers know in advance that they retain their right to view the letters.

Applicants who meet the general requirements of the university for admission to graduate study but do not meet the additional requirements listed above may be admitted to the university in the unclassified postbaccalaureate status. Unclassified postbaccalaureate students may enroll, when space permits, in elective graduate courses in the program but not the required graduate proseminars. An unclassified postbaccalaureate student should consult with the College of Social and Behavioral Sciences to determine what steps would be necessary to advance to classified status.

Advancement to Candidacy

In order to be formally advanced to candidacy, a student must have:

1. Achieved classified status;
2. Secured a graduate advisor to supervise the course of study;
3. Completed, with the approval of the advisor, at least 9 semester units of graduate course work at this university and achieved a minimum grade point average of 3.0 ("B") in those courses;
4. Satisfy the Graduate Writing Requirement with completion of at least one paper in the program that satisfies the program-specific Graduate Writing Requirement (GWR) rubric at the "meets expectations" or "exceeds expectations" level (see graduate coordinator for more information);
5. Filed an approved program which must have the approval of the student's advisor and the coordinator of the program.

Requirements for Graduation

1. Completion of a minimum of 30 semester units of acceptable graduate-level work, with at least 23 semester units completed in residence at this university;
2. A grade point average of at least 3.0 ("B") in all courses taken as part of the program;
3. To provide a breadth of content in this graduate program, students are allowed to take a 5000- or 6000-level course as an elective from any University department with the approval of the program coordinator;
4. Satisfy the Graduate Writing Assessment Requirement with completion of at least one paper in the program that satisfies the program-specific Graduate Writing Requirement (GWR) rubric at the

"meets expectations" or "exceeds expectations" level (see graduate coordinator for more information);

5. In addition to completion of the graduate writing requirement, classified students enrolled in the M.A. in Social Sciences must satisfy the program's writing requirements by:
 - a. Successful completion of the M.A. in Social Sciences with a grade point average of "B" or better in Social Sciences core courses requiring students to write in a manner appropriate to the relevant social science disciplines; and
 - b. Successful completion of the Social Science Comprehensive Examination (SSCI 6970) requiring acceptable writing skills, or preparation of an acceptable graduate thesis (SSCI 6990);
6. At least 23 units of 600-level courses;
7. Any additional requirements not cited above and listed in Graduate Degree and Program Requirements (p. 71).

Degree Requirements (30 units)

ANTH 6000	Proseminar in Anthropology	3
GEOG 6000	Proseminar in Geography	2
HIST 6000	Proseminar in History	2
PSCI 6100	Proseminar in Political Science	2
SOC 6000	Proseminar in Sociology	3
ECON 6000	Proseminar in Economics	2
SSCI 6010	Social Science Colloquium	2
SSCI 6020	Professional Development and Portfolio	2
Culminating Experience (3)		3
Concentration (9)		
Students must satisfy the requirements of one of the concentrations listed below		9
Total Units		30

Culminating Experience (3 units)

Students must select either the Comprehensive Exam Option or the Thesis/Project Option as their Culminating Experience.

Comprehensive examination Option

SSCI 6983	Comprehensive Examination	3
Total Units		3

Students who choose the comprehensive examination option must take that examination no earlier than in the second to the last quarter of program course work. These students must enroll in SSCI 6970. Students with less than a 3.0 grade point average in the program will not be permitted to take the examination. The comprehensive examination committee for each candidate will consist of the program coordinator and the student's advisor. The comprehensive examination will have two components. The first will be a general examination that covers the areas of social science treated in the course requirements with a special focus on globalization. The second will be a specific field and focus on the student's specialization. The examination will be graded pass/fail, and candidates failing the examination may take it a second time within one year. If a second examination is needed, the student, coordinator and advisor should discuss what actions may be necessary to remedy the student's shortcomings. No student will be permitted to take the comprehensive examination more than twice.

Thesis or Project Option

SSCI 6973	Graduate Project or Thesis	3
Total Units		3

A student selecting the thesis or project option must complete a thesis or project that is approved by his or her faculty committee. The thesis or project must reflect original work and show a level of competence appropriate for a master's degree. The faculty committee shall consist of two or three faculty members, including the student's advisor, mutually agreed upon by the student and faculty. By mutual agreement between the student and advisor, an additional member may be added to the committee. At least one member of the thesis committee must also be affiliated with the Graduate faculty. The student must enroll in SSCI 6990, Thesis or Cumulative Project, in the quarter when completion of the thesis is anticipated.

Concentrations (9 units)

Disciplinary Concentration (9 units)

(Program Code: SSDI)

1. Nine semester units chosen from one of the following six disciplines at the 5000-level or above, or as approved by the major advisor and program coordinator.
 - a. Anthropology
 - b. Economics
 - c. Geography
 - d. History
 - e. Political Science
 - f. Sociology
2. Only six semester units may be taken as independent study or Directed Readings/Directed Research. Independent Study or Directed Readings/Research courses will involve research which builds on the methods and theories of the student's disciplinary concentration and contribute to the student's thesis/special field.
3. All coursework must be chosen in consultation with the disciplinary advisor (members of the affiliated faculty representing the corresponding disciplines). All electives must be 5000-level courses or above unless approved by the coordinator.

Thematic Concentration (9 units)

(Program Code: SSTH)

1. Nine semester units of elective coursework must consist of courses related to a program theme (social justice, sustainability, migrations and social movements, global analysis, or conflict and peace studies). Six semester units can consist of an independent study, directed readings or directed research. Independent Study, directed readings/research courses will involve research which focuses on the student's regional emphasis and contribute to the student's thesis/special field.
2. Select one emphasis from the following, or develop one not on the list in consultation with faculty advisor and program coordinator:
 - a. social justice
 - b. sustainability
 - c. migrations and social movements
 - d. global analysis
 - e. conflict and peace studies

3. All coursework must be chosen in consultation with the coordinator of the program.
4. All electives must be 5000-level or above or above unless approved by the coordinator.

Applied Social Science Concentration (9 units)

(Program Code: SSAP)

1. Nine semester units in an area of applied Social Science selected in consultation with faculty advisor and program coordinator.
2. Select one emphasis from the following, or develop one not on the list in consultation with faculty advisor and program coordinator:
 - a. GIS and Spatial Analysis
 - b. Public History
 - c. Museum Studies
3. All coursework must be chosen in consultation with the coordinator of the program.
4. All electives must be 5000-level or above or above unless approved by the coordinator.

Master of Science in National Cyber Security Studies

The Master of Science in National Cyber Security Studies will prepare students for careers in the field of cyber security and intelligence analysis.

The program is designed for students who are interested in developing the professional skills necessary to understand cyber security threats and communicate strategic intelligence effectively to decision-makers in government, the military, law enforcement and the private sector. No prior technical experience is required in the field of cyber security and the degree is open to students from any academic background.

[The National Cyber Security Studies program is part of the Intelligence Community Center of Academic Excellence \(IC CAE\) at CSUSB, which was awarded in 2006 by the Office of the Director of National Intelligence \(ODNI\).](#)

Admission to the Program

In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

1. A baccalaureate degree from an accredited college or university;
2. A minimum cumulative undergraduate grade point average of at least 2.5 overall and at least 3.0 ("B") in the student's undergraduate major;
3. Submission to the National Security Studies Admissions Committee of a brief statement (one or two double-spaced typewritten pages) that demonstrates the ability to communicate clearly through writing, an understanding of our graduate program, and preparation for graduate study;
4. Submission of two letters of recommendation from individuals familiar with the student's academic or professional work and potential to complete the program successfully.

Students who meet the requirements for admission to graduate study, but who do not meet the program requirements, may be admitted to graduate study in unclassified postbaccalaureate status or to the program in conditionally classified graduate standing. When the specified deficiencies

are removed, student status is changed from conditionally classified to classified. (Unclassified postbaccalaureate students may enroll, when space is available, in selected graduate courses.) No more than 12 semester units of national security studies course work taken as an unclassified or conditionally classified graduate student may be applied to the program as a classified graduate student.

Advancement to Candidacy

To be advanced to candidacy, a student must have:

1. Achieved classified status;
2. Selected a graduate advisor to supervise the course of study;
3. Completed at least 18 semester units of national cyber security studies program course work at this university, and achieved a minimum grade point average of 3.0 ("B") in those courses;
4. Filed a graduate program approved by the student's advisor, the national cyber security studies graduate coordinator and the Dean of Graduate Studies.

Requirements for Graduation

1. A minimum of 36 semester units of acceptable graduate-level work, with at least 30 semester units completed in residence at California State University, San Bernardino. A minimum of 30 semester units must be at the 5000-6000 level;
2. A grade point average of at least 3.0 ("B") in all national security studies program courses taken;
3. Choose Option A or B:
 - a. Completion of acceptable comprehensive final written and oral examinations;
 - b. Completion and defense of an original master's thesis;
4. The graduation writing requirement will be satisfied by achieving a minimum grade point average of 3.0 ("B") in the following three core courses. Each core course will allow the student to develop competence in three forms of writing traditional to the field:
 - a. Writing for Intelligence (PSCI 6210),
 - b. Analysis of Cyber Security (PSCI 6030),
 - c. Analysis of either theory or practice of strategy (PSCI 6000 or PSCI 6020);
5. Any additional general requirements not cited above and listed in Graduate Degree and Program Requirements (p. 71).

Classified graduate students in the Master of Science program must complete their degree requirements within five years of admission to the program. Students in classified status who fail to register for at least one course in the program each semester will automatically be declassified. PSCI 6980-6986, Continuous Enrollment for Graduate Candidacy Standing, must be taken if another course is not taken during a given semester.

The Master of Science in National Cyber Security Studies is a thesis option course of study requiring either written and oral comprehensive examinations (to be taken in the last semester of program course work) or a thesis. Students with less than a 3.0 grade point average in the program will not be permitted to take the examinations or propose a thesis. All students are required to take the prerequisite, Core and Cyber Security field courses.

Comprehensive Examination

Comprehensive examinations must be taken in the Core and the Cyber Security fields. The comprehensive examination committee for each candidate will consist of the Core advisor, one advisor from the Cyber Security field and a third faculty member from either department. The examinations will be graded credit/no credit.

An oral examination by the student's committee follows successful completion of the written examination. The oral examination is open for public attendance, but not participation. Should the candidate fail one or more written or oral examination areas, the entire oral or written examination may be repeated one time after remedial course work or study is completed. The scope and deadline for completion of this remedial work will be determined by the student's examination committee at a post-examination conference.

Students must enroll in PSCI 6980 - the Political Science Comprehensive Examination..

Thesis

The criteria for determining who will be allowed to choose the thesis option will be determined by the proposed thesis committee. Students are still required to develop a course of study consistent with the Core and Cyber Security fields, as noted above. After completion of a minimum of 21 semester units, the student will request three faculty to form a preliminary committee, at least two of whom have instructed a course that the student has taken in the program in each of the Core and Cyber Security fields.

Degree Requirements (36-39 units)

(Program Code: NCSS)

Core courses (18)

PSCI 4840	National Security Policy	3
PSCI 5900	Seminar in International Relations (Techniques of Intelligence Analysis)	3
PSCI 6000	Theory and History of Strategy	3
PSCI 6020	International Security	3
PSCI 6030	Cyber Security and Cyber Warfare	3
PSCI 6210	Intelligence Assessments and Estimates	3

Cyber Security Field (15)

IST 5250	Incident Handling and Cyber Investigation	3
IST 6470	Database Management and Policies	3
IST 6700	Cybersecurity Policy and Risk Management	3
IST 6720	Cyber Defense and Vulnerability Analysis	3
IST 6730	Cybersecurity Theory and Practice	3

Electives (3)

Three units chosen from among courses not used for the core requirements listed below.

ECON 6303	International Economic Issues
GEOG 6100	Military Geography for National Security
HIST 5560	Foreign Relations of the United States
MATH 6411	Operations Analysis
PSCI 5400	Seminar in Comparative Politics (Middle East Politics)

PSCI 5400	Seminar in Comparative Politics (African Dictatorships)	
PSCI 5400	Seminar in Comparative Politics (East Asian Politics)	
PSCI 5400	Seminar in Comparative Politics (Latin American Politics)	
PSCI 5900	Seminar in International Relations (Intelligence and Ethics)	
PSCI 5900	Seminar in International Relations (Terrorism in Africa)	
PSCI 5900	Seminar in International Relations (US - Israel Relations)	
PSCI 5900	Seminar in International Relations (Cases in Strategy)	
PSCI 5920	Seminar in Government (Research Methods)	
PSCI 6040	Seminar in International Law	
PSCI 6050	Topics in Strategy:	
PSCI 6060	Analysis of International Terrorism	
PSCI 6090	International Relations Theory	
PSCI 6110	Regional Security of Eurasia	
PSCI 6120	African Security	
PSCI 6130	Middle East Security	
PSCI 6140	Regional Security of East Asia	
PSCI 6200	Understanding Intelligence Failure	
PSCI 6220	Arms Control	
PSCI 6240	Politics of National Security	
PSCI 6250	American Foreign Policy	
SSCI 6950	Directed Graduate Studies	
Culminating Experience (0-3)		0-3
Total Units		36-39

Culminating Experience (0-3 units)

Students must complete one of the following:

Choose one from:		0-3
PSCI 6973	Thesis ¹	
PSCI 6980	Comprehensive Examination	
Total Units		0-3

¹ Thirty six units of course work and three units of thesis must be completed before the degree will be awarded.

Bachelor of Arts in Social Sciences

This program is designed for students who wish to build a unique BA in Social Sciences program that suits their interests and professional goals OR for those who wish to teach social science subjects in California's schools, middle school through high school.

For those interested in teaching, in addition to this coursework, students will have to pass 2 California pre-credential exams in order to be admitted into a Teaching Credential Program, post-BA: the California Subject Examination for Teachers (CSET), which encompasses knowledge

and understanding primarily of history, but also economics, geography, political science, psychology and sociology and the California Basic Educational Skills Test (CBEST) which is comprised of three subtests: basic math, reading, and writing skills for individuals planning a career in teaching.

Students are required to complete 30 units in the Core discipline of Social Science. Students may choose an alternative Core set of courses or discipline in consultation with an Advisor or the Program Coordinator.

Students choose a Concentration from one of the following disciplines and complete a total of 15 units: child development, economics, geography, history, political science, psychology, or sociology. Included in the core, students will choose take an additional 12-units in one field outside of their Concentration. Field from child development, economics, geography, history, political science, psychology, or sociology. Students may choose an alternative Concentration set of courses or discipline in consultation with an Advisor or the Program Coordinator.

Students interested in pursuing Teaching are encouraged to see their Social Science advisor early in their program for assistance in choosing courses.

For those with interests outside of teaching in multidisciplinary and individualized programs, this program is also designed for students with a varied set of academic and career interests. Students develop skills in areas that are deemed crucial in a wide array of contemporary professions: Globalism, Multiculturalism, and Intercultural Fluency, Critical Thinking and Problem Solving, Oral and Written Communication, Teamwork and Collaboration, and Professionalism and Work Ethics. For students interested in the multidisciplinary and individualized programs, it is recommended that you first meet with an Academic Advisor in order to develop your program. All multidisciplinary and individualized programs must be approved by the BA in Social Sciences Coordinator.

Additionally, students looking to enhance their career prospects may elect to complete up to 6 units of SSCI 5750 Internship and 6 units of SSCI 5950 Independent Studies, for a total of 3-12 units, with the consent of the Program Coordinator.

Requirements (45 units)

Total units required for graduation: 120

Requirements for the B.A. in Social Sciences

Core requirements (30)

Twelve units chosen from:		12
SSCI 3000	Global Issues and Perspectives	
or SSCI 3001	Global Issues and Perspectives	
SSCI 3010	Revolutions and Revolutionary Ideas	
or SSCI 3011	Revolutions and Revolutionary Ideas	
SSCI 3020	The 20th Century World	
SSCI 3160	Race and Racism	
SSCI 3250	Perspectives on Gender	
SSCI 3290	Topics in Social Science	
SSCI 3320	Understanding Capitalism	
SSCI 3390	Climate Change	

Six units chosen from:

6

SSCI 3060	Expository Writing for the Social Sciences	
SSCI 5940	Senior Seminar	
Students take an additional 12-units in one field outside of their concentration from the following:		12
Child Development (CD 2240 + 9 upper division units of CD courses)		
Economics (12 upper division units of ECON courses)		
Geography (12 upper division units of GEOG courses)		
History (12 upper division units of HIST courses)		
Political Science (12 upper division units of PSCI courses)		
Psychology (12 upper division units of PSYC courses)		
Sociology (SOC 1000 + 9 upper division units of SOC courses)		
Concentration (15)		
Students must complete 15 units in one of the concentrations listed below or design their own Concentration in consultation with the Program Coordinator:		15
Total Units		45

Concentrations (15 units)

Child Development Concentration

(Program Code: pending Office of the Chancellor approval)

CD 2240	Introduction to Child Development	3
Twelve units of upper division Child Development Coursework.		12

Economics Concentration

(Program Code: SSEC)

Fifteen units of upper division Economics coursework		15
Total Units		15

Geography Concentration

(Program Code: SSGY)

Fifteen units of upper division Geography coursework.		15
Total Units		15

History Concentration

(Program Code: pending Office of the Chancellor approval)

Fifteen units of upper division History coursework.		15
Total Units		15

Political Science Concentration

(Program Code: SSPL)

Fifteen units of upper division Political Science coursework.		15
Total Units		15

Psychology Concentration

(Program Code: SSPS)

Fifteen units of upper division Psychology coursework.		15
Total Units		15

Sociology Concentration

(Program Code: SSSC)

SOC 1000	Introduction to Sociology	3
Plus twelve additional units of upper division Sociology coursework		12
Total Units		15

Minor in Aerospace Studies

The minor in aerospace studies consists of a minimum of 18 units in aerospace studies, 12 of which must be upper-division.

Requirements for a minor in Aerospace Studies (16 units)

AS 1001	Heritage and Values I	1
AS 1002	Heritage and Values II	1
AS 2001	Team and Leadership Fundamentals I	1
AS 2002	Team and Leadership Fundamentals II	1
AS 3001	Leading People/Effective Communication I	3
AS 3002	Leading People/Effective Communication II	3
AS 4001	National Security/Leadership Responsibilities/Commissioning Preparation I	3
AS 4002	National Security/Leadership Responsibilities/Commissioning Preparation II	3
Total Units		16

Minor in Islamic and Middle Eastern Studies

Requirements for a minor in Islamic and Middle Eastern Studies (27 units)

Core Courses (12)

Twelve units chosen from:		12
ANTH 3704R	Anthropology of the Middle East	
CAL 3750	Exploring the World of Islam	
GEOG 3900	Emerging Topics in Human Geography	
HIST 3830	Classical Islamic Civilization	
PSCI 3080	Government and Politics of the Middle East	
ARAB 4900	Voices and Visions from the Arab World	

Language Requirement (3)

A minimum of three units from one of the following courses chosen in consultation with the Coordinator for the Islamic and Middle Eastern Studies minor:		3
ARAB 1111	Beginning Arabic 1	
ARAB 1112	Beginning Arabic 2	

ARAB 2111	Arabic Communication
ARAB 2112	Arabic Literature and societies
ARAB 2113	Arabic Media
ARAB 2114	Arabic for Professional Communication
ARAB 3113	Spoken Arabic
ARAB 3114	Introduction to Arabic Linguistics
Electives (12)	12
Twelve units chosen from:	
ARAB 2900	Arabic Literature in Translation
ANTH 3003R	Prehistory of the Middle East and Europe (Electives)
ARAB 3111	Arab Culture, Media and Identity
ARAB 3112	Explorations of Arabic Literary Texts
ARAB 3900	Female Voices in Arab American Literature
ENG 3190	Studies in Literary Diversity
COMM 5303	Muslim Women in Media and Society
COMM 5319	Advanced Topics in Media Studies
HIST 3300	Topics in Oral History
HIST 3840	Modern Middle East
HIST 4560	Mughal India and the Early Modern World
HIST 4570	Modern India at the Crossroads of Empire
HIST 4800	History of Christianity I
HIST 4850	Arab-Israeli Conflict
HIST 4860	Modern Iran
HIST 4870	Topics in Modern Middle Eastern History
HIST 4910	Nationalism and Conflict in the Middle East
HIST 4920	U.S. Media and the Middle East
HIST 4930	Iran-U.S. Relations
HIST 4950	Politics of Oil
PSCI 5400	Seminar in Comparative Politics
An Independent Study course chosen in anthropology, English, history, humanities or political science on a Middle Eastern topic.	
Total Units	27

Certificate in Diversity, Equity and Inclusion

The Certificate offers professional and academic training to individuals who wish to enhance their knowledge and skills in these important aspects of contemporary American Society. The Certificate in Ethnic Studies consists of 15 units.

Certificate Requirements (15 units)

15 units chosen from:

ES 1000	Introduction to Ethnic Studies	3
ES 1400	Race, Class, Gender and Sexuality	3
ES 3100	Black Feminist Movements	3
ES 3201	Race, Ethnicity and Immigration in the United States	3
ES 3501	Politics of Multiculturalism and Diversity	3
ES 4200	US Empire and Foreign Policy 1898-Present	3
ES 4400	Transnational Feminisms and Global Raciality	3
SSCI 3160	Race and Racism	3

Certificate in Islamic and Middle Eastern Studies

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 6000-level courses as requirements and/or electives. These 6000-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

PSCI 5400 Seminar in Comparative Politics

An Independent Study course chosen in anthropology, English, history, humanities or political science on an Islamic/ Middle Eastern topic.

PSCI 6050 Topics in Strategy: (When the topic is Islamic/Middle East)

Other courses related to the Middle East and Islamic World, to be approved in advance by the Islamic and Middle East Studies coordinator, can be used to fulfill the electives area.

NOTE: 6000 level courses are not available for undergraduate students.

Total Units 30

Certificate in Native Nations/ Indigenous Peoples Studies

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 6000-level courses as requirements and/or electives. These 6000-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Certificate Requirements (15 units)

Certificate Requirements (15)

SOC 5250	Indian Nations and Native America (3 units chosen from:)	3
or SOC 5450	Indigenous Peoples	

Six units chosen from: 6

ANTH 3706R	Indians of North America
ANTH 3707R	Indians of the Southwest
ANTH 5772	Internship in Archaeology
HIST 3710	California Indian History
HIST 3420	American Indian History
HIST 5750	Internship in History
SOC 5900	Seminar in Sociology

Electives. Six units chosen from: 6

ENG 3140	Native American and Indigenous Literatures
ENG 3190	Studies in Literary Diversity (Coordinator approval required)
HIST 3750	Museum Management
HIST 3760	Exhibition Development and Design
HIST 3120	Historical Archaeology
HIST 3160	Archival Practices

ANTH 3180 Introduction to Cultural Resource Management

HIST 3260 Historic Preservation

SOC 5900 Seminar in Sociology (Coordinator approval required)

Total Units 15

Up to six units of outside coursework may be substituted with the approval of a certificate coordinator.

Aerospace Studies (Air Force ROTC) Program

Aerospace Studies (Air Force ROTC) Program

Aerospace Studies Office Faculty Office Bldg, Room 144

(909) 537-5440 Aerospace Studies Office website (<https://www.csusb.edu/afrotc/>)

Aerospace Studies Program

Air Force ROTC is a college-level program designed to select and train highly qualified men and women to become commissioned Air Force officers. After graduation from college and completion of all Air Force ROTC requirements, cadets are commissioned as second lieutenants in the U.S. Air Force and Space Force. Typical service is four years; however, service duration for some career fields (i.e. pilots, navigators, air battle managers) is longer. These individuals serve in a broad range of careers to include flying, engineering, administration and a host of other fields, depending on the needs of the Air Force.

To enter Air Force ROTC, an individual must have at least three years of college left to earn a college degree. In addition, the individual must be a United States citizen prior to entering the last two years of the program, be able to pass an Air Force medical exam, be of high moral character, and be in good academic standing in school with a cumulative GPA of 2.0 or higher. Entry into the last two years of the program is on a competitive basis.

Students are required to graduate with a bachelor's degree, in any academic major. AFROTC offers 2, 3, and 4-year scholarships (some of which cover ALL tuition and fees), but scholarships are not required to participate in the program. AFROTC cadets under scholarship and

all juniors and seniors receive a \$300-\$500 per month tax-free stipend, plus a \$600 textbook allowance each year. No military commitment is incurred until entering the last two years of the program (Professional Officer Course) or accepting an AFROTC scholarship.

Classes consist of one hour of academics plus two hours of leadership laboratory for freshmen and sophomores. Juniors and seniors will have three hours of academics plus two hours of leadership laboratory. The academic hours earned can normally be counted as elective credit toward graduation. All AFROTC classes and laboratories are held on Fridays to better accommodate students commuting from other colleges and universities.

More information is available at the Air Force ROTC website. (<http://www.afrotc.com/>)

Program Requirements

Program Requirements (16 units)

The Air Force ROTC program is available to students with three to four years of undergraduate/graduate study remaining. Entry into the program requires university course enrollment and consultation with the AFROTC admissions officer in the department. The program consists of three parts: General Military Course (academics and laboratory), Field Training, and the Professional Officer Course (academics and laboratory).

General Military Course (GMC) (4)

AS 1001	Heritage and Values I	1
AS 1002	Heritage and Values II	1
AS 2001	Team and Leadership Fundamentals I	1
AS 2002	Team and Leadership Fundamentals II	1
AS 5001	Leadership Laboratory	0

Field Training (0)

Field Training A 17-day, noncredit course conducted at an Air Force base during the summer between the second and third years of the program. Successful completion is required to continue in the Professional Officer Course Program.

Professional Officer Course (POC) (12)

AS 3001	Leading People/Effective Communication I	3
AS 3002	Leading People/Effective Communication II	3
AS 4001	National Security/Leadership Responsibilities/Commissioning Preparation I	3
AS 4002	National Security/Leadership Responsibilities/Commissioning Preparation II	3
AS 5001	Leadership Laboratory	0

Total Units **16**

Military Science (Army ROTC) Program

Military Science Office
Faculty Office Building, Rooms 124 and 125
(909) 537-5533

Military Science Program

The military science program is designed to provide an on-campus program for qualified students in all academic majors who desire to serve as an Army officer on active duty or in a local Army Reserve or Guard unit. While students may participate in either undergraduate or graduate studies, the program requires at least two years to complete.

Students who have completed at least basic training in any of the armed services may be eligible to enter the advanced course directly. Other students must complete three to six of the courses in the basic course of study or complete a six-week summer camp prior to entering the advanced course.

ROTC students are required to participate in off-campus leadership laboratories one weekend each quarter.

Scholarships are available on a competitive basis. All ROTC students receive \$450-500 per month during the final two years of the program.

Program Requirements

Option I (Four Year Program)

Program Requirements (39-41 units)

Basic Course of Study (12)

MILS 1151	Basic Military Skills I	3
MILS 1152	Basic Military Skills II	3
MILS 2251	Leadership and Management I	3
MILS 2252	Leadership and Management II	3

Advanced Course of Study (12)

Twelve units chosen from: 12

MILS 3351	Small Unit Operations I
MILS 3352	Small Unit Operations II
MILS 4451	Military Law
MILS 4452	Contemporary Military Policy
MILS 5585	American Military History

Leadership Laboratory (8)

Students must be enrolled in the following each semester they are enrolled in the ROTC Program: 8

MILS 1000	Leadership Laboratory
-----------	-----------------------

Note: In addition, a six-week advanced camp is required between the final two years of study.

In addition to the ROTC curriculum, cadets must complete one of each of the following type courses in order to ensure they have an understanding of skills, values, and knowledge beyond the military skills taught by the military science staff and the ROTC curriculum.

These classes do not substitute for any military science classes and are in addition to the required classes for ROTC cadets.

Additional Requirements (7-9)

Computer Literacy.	1-3
CSE 1290	College Learning for Lives and Careers in the Information Age
or IST 1110	Introduction to Information Technology
Written Communications Skills.	3

SSCI 3060	Expository Writing for the Social Sciences	
Military History:		3
HIST 6030	Seminar in Modern Military History	
Total Units		39-41

Other classes may be substituted for those listed in each category upon approval of the military science staff.

Note: Some of these requirements are fulfilled by general education classes.

Option II (Two Year Program)

Program requirements (25-27 units)

Program Requirements (2)

Basic Course Equivalent:

MILS 2260	ROTC Basic Camp	2
-----------	-----------------	---

Advanced Course of Study (12)

Twelve units chosen from: 12

MILS 3351	Small Unit Operations I	
MILS 3352	Small Unit Operations II	
MILS 4451	Military Law	
MILS 4452	Contemporary Military Policy	

Leadership Laboratory (4)

Students must be enrolled in the following each semester they are enrolled in the ROTC program. 4

MILS 1000	Leadership Laboratory	
-----------	-----------------------	--

Note: In addition, a six week advanced camp is required between the final two years of study.

In addition to the ROTC Curriculum, cadets must complete one of each of the following type courses in order to ensure they have an understanding of skills, values, and knowledge beyond the military skills taught by the military science staff and the ROTC curriculum. These classes do not substitute for any military science classes and are in addition to the required classes for ROTC cadets.

Additional Requirements (7-9)

Computer Literacy		1-3
CSE 1290	College Learning for Lives and Careers in the Information Age	
or IST 1110	Introduction to Information Technology	
Written Communications Skills		3
SSCI 3060	Expository Writing for the Social Sciences	
Military History		3
HIST 6030	Seminar in Modern Military History	
Total Units		25-27

Other classes may be substituted for those listed in each category upon approval of the military science staff.

Note: Some of these requirements are fulfilled by general education classes.

Department of Anthropology

Social and Behavioral Sciences Building, Room 327J
(909) 537-5502 Department of Anthropology website (<http://anthropology.csusb.edu/>)

The study of anthropology promotes an understanding of self and all humankind by exploring the human condition at all times and in all places. In the modern world in which every society depends upon other societies, ignorance of the goals, values and ways of life of others may become a fear leading to discrimination and racism in the community or to war and oppression between nations. The challenges of desert life for the Australian Aborigine and the problems of contemporary ghetto existence are of equal interest to the anthropologist, and courses in these topics and world ethnography are offered by the Anthropology Department. Human physical and cultural evolution, the distribution and significance of cultural differences, the history and ecology of specific areas, and the role of language in culture are treated in courses in physical anthropology, cultural anthropology, archaeology and prehistory, and linguistics.

Participation in The California State University's International Programs (p. 13) is one way students can experience other cultures first-hand.

Departmental Honors

Students majoring in anthropology are eligible to receive honors in anthropology at graduation if the following conditions are met:

1. At least one-half of the course work required by the major is completed at this university;
2. A grade point average of at least 3.5 in the major, both at this university and overall;
3. An overall undergraduate grade point average of 3.0 ("B") or better;
4. Successful completion of ANTH 5955, resulting in a thesis paper.

Applications for candidacy must be made by the beginning of the senior year. Approval of candidacy and of the project and project advisor rests with the department. The project advisor and one other faculty reader from the department will have responsibility for evaluation of the completed thesis paper.

Current Faculty

Danny Sosa Aguilar, Assistant Professor of Anthropology
 B. A. 2009, University of California, Berkeley
 M. S. 2009, CSU, Northridge
 Ph. D. University of California, Berkeley

Guy Hepp, Associate Professor of Anthropology
 B.A. 2004, University of Colorado at Boulder
 M.A. 2007, Florida State University
 Ph.D. 2015, University of Colorado at Boulder

Arianna Huhn, Professor of Anthropology
 B.A. 2002, University of California, Berkeley
 M.A. 2005, George Washington University
 Ph.D. 2013, Boston University

Nicholas Jew, Assistant Professor of Anthropology
 B.A. 2003, UC Santa Barbara
 M.A. 2007, University of Alaska, Fairbanks

Master of Arts in Applied Archaeology

The Master of Arts in Applied Archaeology is a professionally-orientated program designed to provide a solid anthropological archaeology foundation for students and to prepare them for middle- and upper-level careers in the archaeological sector of the cultural resource management (CRM) industry. The program provides training in anthropological archaeology with a focus on developing a solid background in archaeological method and theory combined with practical experience in field and laboratory studies. Students are then trained how to use that background in an applied setting through curriculum focused on CRM regulations and practice, along with on-the-job training through an internship with a federal or state agency, a private firm, or a tribal entity that conducts archaeological investigations in the context of CRM. All students are required to design and execute a research project and successfully complete a thesis based on that project. Students earning

their MA through this program will have the background regulatory and practical knowledge to enter the field of CRM or pursue a Ph.D. degree as a competitive candidate with a solid training in anthropological archaeology. The program is intended for evening students primarily and, therefore, classes are predominantly scheduled between 6 and 10 p.m.

Admission to the Program

In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

1. A baccalaureate degree in anthropology or a closely related field from an accredited college or university;
2. A minimum cumulative undergraduate grade point average of at least 2.5 overall and at least 3.0 ("B") in the student's undergraduate major;
3. Demonstration of field experience by EITHER:
 A. Completion of the following prerequisite course or its equivalent, completed with a grade of B or better: ANTH 4020L
 OR
 B. Documented field experience in archaeology under professional supervision that is deemed by the Admissions Committee as being equivalent to successful completion of ANTH 4020L;
4. A brief statement (one to two double-spaced typewritten pages) describing the applicant's preparation for graduate study and professional goals;
5. Submission of three letters of recommendation from people who are in a position to make relevant comments on the student's likely success in the program. At least one of the letters should be from a former professor who is familiar with the student's scholarly abilities.

Advancement to Candidacy

In order to be formally advanced to candidacy, a student must have:

1. Achieved classified status;
2. Satisfied the Writing Requirement for Graduate Candidacy;
3. Secured a graduate advisor to supervise the course of study;
4. Secured a thesis committee to supervise the thesis project;
5. Completed, with the approval of the advisor, at least 9 semester units of graduate course work at this university and achieved a minimum grade point average of 3.0 ("B") in those courses;
6. Filed a graduate program plan approved by the student's advisor and the coordinator of the program;
7. Filed a thesis proposal approved by all members of the student's thesis committee.

Requirements for Graduation

1. A minimum of 30 semester units of acceptable graduate-level work, with at least 21 semester units completed in residence at California State University, San Bernardino. Twenty-three semester units must be in 5000- and 6000-level courses;
2. A minimum grade point average of at least 3.0 ("B") in all courses;
3. Successful completion of a thesis or project (ANTH 6970)
4. The Graduate Writing Assessment Requirement is met though the MA thesis proposal submitted during the first year of work for the degree.

Degree Requirements (30-31 units)

(Program Code: AARC)

Required courses (24)

ANTH 6003	Advanced Studies in California Archaeology	3
ANTH 6004	History and Theory of Archaeology	3
ANTH 6005	Archaeological Research, Methods, and Proposal Design	3
ANTH 6013	Cultural Resource Management: Laws, Regulations, and Procedures	3
ANTH 6014	Cultural Resource Management in Practice	4
ANTH 6021L	Advanced Archaeological Laboratory Analysis	4
ANTH 6754	Graduate Internship in Applied Archaeology	4

Electives (3-4)

Three or four units chosen from the following courses:		3-4
ANTH 3015R	Archaeology of the Southwest	
ANTH 3019L	Experimental Archaeology and Ethnoarchaeology	
ANTH 5099	Selected Topics in Archaeology	
ANTH 5399	Selected Topics in Biological Anthropology	
ANTH 5699	Selected Topics in Sociocultural Anthropology	
ANTH 6008	Advanced Indigenous Archaeology	
ANTH 6012	Advanced Historical Archaeology	
ANTH 6603L	Advanced Museum Research and Exhibition Development	
GEOG 3710	Advanced Geographic Information Systems	
GEOG 4400	Geomorphology	
GEOG 4860	GIS and Socio-Economic Applications	
GEOL 5280	Digital Mapping and GIS for Scientists	
HIST 3260	Historic Preservation	
HIST 5600	History of the American West	
HIST 6230	Advanced Public History	
HIST 6160	Advanced Archival Practices	

Culminating Experience (3) 3**Total Units** 30-31**Culminating Experience (3 units)**

ANTH 6970	Thesis Research	3
-----------	-----------------	---

Thesis/Project: Under normal circumstances, a student must complete a thesis that is approved by his or her thesis committee. The thesis must reflect original work and show a level of competence appropriate for a master's degree. The thesis committee shall consist of two or three faculty members, including the student's advisor, mutually agreed upon by the student and faculty. By mutual agreement between the student and advisor, a third committee member may be recruited to the committee if that third member has specialized knowledge of the thesis project and holds a PhD from an accredited institution. The student should enroll in ANTH 6970 in the semester when completion of the thesis is anticipated. On occasion a student may be allowed to substitute a completed project for the thesis. Such a project must have a completed product and would reflect at least the same amount of work

as a thesis and be completed to the same standard. The content and appropriateness of the project will be determined by a project committee constituted in the same way as a thesis committee.

Bachelor of Arts in Anthropology

The study of anthropology promotes an understanding of self and other by exploring the human condition at all times and in all places. In an interconnected world in which societies depend upon one another, failures in understanding and appreciating differences in goals, values and ways of life can lead to fear, discrimination, oppression, and war. The subfields of biological anthropology, archaeology, and sociocultural anthropology explore human evolution and the emergence of culture, cultural differences and similarities, regional history and ecology, and the role of language in culture.

Students can earn additional first-hand experience abroad through participation in faculty-led programs (<http://international.csusb.edu/StudyAbroad.aspx>), the California State University's International Programs (<http://csuip.calstate.edu/>), and independent field schools.

Requirements (46 units)

Total units for Graduation: 120

Requirements for the B.A. in Anthropology

(Program Code: ANTH)

Lower-division requirements (9)

ANTH 1001	Humans, Apes, and Monkeys: Introduction to Biological Anthropology	3
ANTH 1002	Understanding Cultural Diversity	3
ANTH 1400	World History to c. 1500	3
or HIST 1400	World History to c. 1500	

Upper-division requirements (37)

ANTH 3501	Human Origins	3
ANTH 3600	The History of Anthropological Thought	3
ANTH 5000	Senior Seminar in Anthropology	3

Archaeology

Nine units chosen from: A minimum of three units must be from a regional study course designated by the R suffix. 9

ANTH 3005R	North American Archaeology	
ANTH 3006R	Mesoamerican Archaeology	
ANTH 3007R	Andean Archaeology	
ANTH 3008	Indigenous Archaeology

Certificate in Archaeology

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 6000-level courses as requirements and/or electives. These 6000-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Certificate Requirements (23 units)

ANTH 4020L	Archaeological Survey and Excavation	4
or ANTH 5770B-E: Internship in Archaeology		
ANTH 3019L	Experimental Archaeology and Ethnoarchaeology	4
or ANTH 4021L: Archaeological Laboratory Analysis		
ANTH 4001T	Archaeological Theory and Method	3

Department of Child, Adolescent, and Family Studies

Social and Behavioral Sciences Building, Room 458
(909) 537-4239 Department of Child, Adolescent, and Family Studies
website (<https://www.csusb.edu/child-development/>)

The Child Development major serves undergraduate students who have professional and personal interests in children's growth and change and who are interested in how that foundational knowledge may be applied in a variety of professional settings (e.g., preschools and K-12 education, child service agencies). The twin tracks of the Child Development major provide cutting-edge coursework and experiences that will fully prepare our students to pursue these types of professional interests. Additionally, because of the scientific basis of the Child Development major, those students wishing to pursue graduate work (i.e., Master's level and beyond) will be highly qualified to apply to a variety of advanced degree programs (e.g., school psychology, special education, child development, developmental psychology, and child clinical psychology).

The following two concentrations are available for students working toward a Bachelor of Arts in Child Development. Each concentration provides students with a solid background in neurological, biological, social, emotional, and cognitive development:

The Child and Adolescent Development Concentration address development during the late elementary and secondary school years. This concentration prepares students for a wide range of occupations and careers serving children in this age range and their families. Examples include skills coach, child/family/school social worker, child welfare worker, child advocate, adoption counselor, child life specialist, Head Start family specialist, and teen parent educator. This concentration will also prepare students for graduate-level training necessary to become elementary or secondary school teachers, school psychologists, special education teachers, child clinical psychologists, and other professions.

The Early Childhood Development Concentration addresses development in infancy, toddlerhood, preschool, and the early school age years. This concentration prepares students for a variety of careers serving young children and their families, including infant/toddler specialists, preschool teachers, Head Start teachers, and early childhood curriculum coordinators. This concentration will also prepare students for graduate-level training necessary to become an early childhood program director, child agency administrators, special education teachers, and other professionals. The Infant/Toddler Lab School and Children's Center are an integral component of this track and are used as observation and practicum sites for students. Students selecting this concentration earn a Child Development Site Supervisor Permit (i.e., an early childhood teaching and administrative credential).

Departmental Honors

Students majoring in child development are eligible to receive honors in child development at graduation if the following conditions are met:

1. At least a 3.5-grade point average in the major;
2. An overall grade point average of 3.5 or better*;
3. Completion of one WI designated course (typically fulfilled through GE) with a "B" or better prior to enrollment in the Honors Program;

4. Completion of the Application for Honors Program in Child Development, which includes a statement of purpose and approval of a faculty sponsor;
5. Completion of the two-semester Honors Program with a grade of "B" (3.0) or better

Students interested in this recognition must file a formal application for enrollment in the Child Development Honors Program in their junior year.

Note that the qualifications above are ideal rather than absolute; students who fall short on one of the requirements may be considered on a case-by-case basis.

Master of Arts in Child, Adolescent, and Family Studies

The Master of Arts in Child, Adolescent, and Family Studies is a 38-unit, evening program designed to provide students with an in-depth background in child growth and development. This program is targeted to students wishing to continue their studies at the graduate level in child development, for those currently in careers relating to children and families (e.g., early childhood education, elementary education, special education, or social service professionals), for those wishing to teach early childhood coursework at a community college, and for those who plan to pursue doctoral-level studies in related fields such as child/human development, child and family studies, developmental psychology, and clinical/counseling psychology.

This program provides training in core areas of child development, including development of the whole child from birth through adolescence, family studies, and research design and methodology. This program has a uniquely applied focus and integrates many areas relevant to child development, such as early childhood education, special education, counseling, and social work. Students exiting this program take with them skills that are marketable under current and expected socioeconomic conditions.

Admission to the Program

In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

1. A baccalaureate degree with a major in human development, child development, psychology; or with any other undergraduate major that satisfies the graduate admissions committee of the MA CAFS program;
2. A cumulative undergraduate grade point average of at least 3.0 ("B") overall and a 3.2 minimum in the major.
3. A brief statement describing the applicant's preparation for graduate study, goals of graduate study, and professional aspirations, to be submitted to the department;
4. Three letters of recommendation, with at least two from former professors. Letters should come directly from the writers or be included in a placement file. (It is the applicant's responsibility to determine if letters have been received.);
5. Satisfaction of the following prerequisites: a. One class in Child Development. b. One class in statistics, and c. One class in research methodology.

Advancement to Candidacy

At the end of the spring semester, all first year graduate students will be evaluated to determine whether or not they will be advanced to candidacy for the Master of Arts degree. Students will be reevaluated each semester until they are either advanced to candidacy or declassified.

To be formally advanced to candidacy, a student must, to the satisfaction of the chair of the department, have:

1. Achieved classified status;
2. Successfully completed 12 units of course work in the program and maintained a 3.0 ("B") grade point average in the course work;
3. Selected a graduate advisor to supervise the coursework relevant to the student's culminating experience;
4. Completed at least one annual evaluation demonstrating satisfactory knowledge, skills, and dispositions;
5. Satisfied the Writing Requirement for Graduate Candidacy (WRGC);
6. Filed an approved graduate program which must have the approval of the student's advisor, the department chair or the graduate program director and the Dean of Graduate Studies;

Requirements for Graduation

1. A minimum of 38-semester units of approved graduate-level work, with at least 27 semester units completed in residence at this university;
2. A grade point average of at least 3.0 ("B") in all courses taken to satisfy the Master of Arts degree, grades of "B-" (2.7) or better in each required course in the program, and grades of "C" (2.0) or better in each elective course;
3. Successful completion of the course work listed below, including a culminating experience consisting of the completion and defense of a comprehensive examination, project or thesis;
4. Completion of any additional general requirements not cited above and listed in Graduate Degree and Program Requirements (p. 71);
5. Completion of the Program's degree requirements within seven years of admission to the program;
6. The Graduate Writing Assessment Requirement is met upon successful completion of CD 6640 Advanced Research Methods with a grade of B-or higher;.
7. Also note that students in classified status who fail to register for at least one course in the MACD program each semester will be automatically declassified. CD 6990 Continuous Enrollment for Graduate Candidacy Standing may be taken if all mandatory coursework has been completed and another course is not taken during a given semester.

Degree Requirements (38 units)

(Program Code: CAFS)

CAFS 5531	Effective, Inclusive, and Equitable Practices with Children	3
CAFS 6614	Advanced Theories of Child Development	3
CAFS 6624	Advanced Developmental Neuroscience	3

Culminating Experience (14)		14
Total Units		38

Culminating Experience (14 units)

MA CAFS students must demonstrate successful research participation with a faculty advisor. This requirement can be fulfilled in one of three ways:

Comprehensive Examination Option (14 units)

Students will be required to become familiar with the literature in a research area which will be related to their comprehensive examination. This could take the form of a partial literature review, an annotated bibliography and/or a presentation of the literature of interest to faculty/student groups.

Six units of 5000-6000 level courses chosen in consultation with the Program Coordinator or Faculty Advisor		6
CAFS 6124	Advanced Academic Writing	4
CAFS 6894	Externship in Child Development	4
CAFS 6980	Comprehensive Examination	0
Total Units		14

Project Option (14 units)

Students will be required to become familiar with the literature in one or more research areas and to acquire specialized knowledge of any particular methodologies needed for the development of a project.

Six units of 5000-6000 level courses chosen in consultation with the Program Coordinator or Faculty Advisor		6
CAFS 6954	Advanced Independent Study	4
CAFS 6964	Graduate Project	4
Total Units		14

Thesis Option (14 units)

Students will be required to become familiar with the literature in one or more research areas and to become skilled in certain specialized research methods which will pertain to their abilities to gather data for a thesis. Examples of such activities could include gathering pilot data to acquire interview skills, knowledge of survey procedures, assessment skills, advanced statistical skills, understanding of content analysis, skills to work with a special population, or advanced physiological measurement skills.

CAFS 6641	Advanced Data Analysis in Quantitative Methods	3
CAFS 6642	Advanced Data Analysis in Qualitative Methods	3
CAFS 6954	Advanced Independent Study	4

Bachelor of Arts in Child, Adolescent, and Family Studies

There are two concentrations within the Child, Adolescent, and Family Studies B.A.: **Early Childhood Development** and **Child and Adolescent Development**. Students must select one of the concentrations when they declare Child, Adolescent, and Family Studies as their major.

These concentrations conform to the Transfer Model for early childhood education and child development degrees.

Requirements to enter the B.A. in Child, Adolescent, and Family Studies

General Education Basic Skills in Mathematics (1B)	3
General Education Basic Skills in English (1C)	3
Additional Requirements	
CAFS 2220 Introduction to Data Analysis in Child Development	3
CAFS 2240 Introduction to Child Development	3
Total Units	12

Students may earn no grade lower than a "C" (2.0) in each of these courses. In addition, students must have a GPA of 2.5 in the Pre-child development major and an overall University GPA of 2.25.

The Office of the Registrar will change the student's status once the above requirements have been met.

Requirements (61 units)

Total units required for graduation: 120

Requirements for the B.A. in Child, Adolescent, and Family Studies

Department of Economics

Social and Behavioral Sciences Building, Room 327
(909) 537-5511 Department of Economics website (<http://economics.csusb.edu/>)

Economics is the study of how individuals and societies organize the production and distribution of goods and services. Economics is also concerned with the historical development of economies along with how various groups and classes interact within the economy.

All policy issues in modern societies have an economic dimension, and so the study of economics provides students the ability to understand many of the fundamental problems faced by society. Further, because economics emphasizes systematic thinking and the analysis of data, training in economics offers excellent preparation for careers in industry, nonprofits, and government. Economics also provides excellent preparation for many professions including law, education, public administration, and management.

Reflecting the interests and training among its faculty, the Economics Department at CSUSB offers two Bachelor of Arts degrees: a B.A. in Economics and a B.A. in Political Economy.

Departmental Honors

Departmental honors will be awarded upon graduation to students majoring in economics who have:

1. Earned a 3.5 grade point average in all economics courses attempted at this university;
2. Completed at least half of all work in economics at this university;
3. Been recommended for departmental honors by economics faculty.

Students who qualify for departmental honors are strongly encouraged to discuss with their faculty advisor the possibility of enrolling in ECON 5999.

Students who have completed a minimum of 12 semester units of economics course work with a grade point average of at least 3.0 ("B") and who also have an overall grade point average of at least 3.0 may join the university's chapter of Omicron Delta Epsilon, the national honor society in economics. Additional information can be obtained from the Department of Economics.

Current Faculty

Yasemin Dildar, Associate Professor of Economics
 B.A. 2007, M.S. 2009, Middle East Technical University
 Ph.D. 2015, University of Massachusetts

Daniel MacDonald, Associate Professor of Economics, Chair
 B.A. 2007, Seton Hall University
 Ph.D., 2013, University of Massachusetts Amherst

Teresa Perry, Assistant Professor of Economics
 B.A. University of California Santa Barbara, 2013
 Ph.D. Economics Colorado State University, 2022

Doguhan Sundal, Assistant Professor of Economics
 B.A. Bilkent University, 2014
 M.A. Bilkent University, 2016
 Ph.D. Economics University of Utah, 2022

Emeriti

Carolyn B. Aldana

Ralph James Charkins

Kazim Konyar

Eric Nilsson, Professor of Economics
 A.B. 1979, University of California, Berkeley
 Ph.D. 1989, University of Massachusetts, Amherst

Thomas J. Pierce

Nancy E. Rose

Mayo Toruño

Undergraduate Degrees

Bachelor of Arts

Economics (p. 331)

with concentrations in:

- General Economics
- Mathematical Economics
- Applied Economics

The B.A. in Economics provides the student with rigorous training in economic theory, data analysis, and the analysis of public policy. On the one hand, the major involves a consideration of how individuals, firms, and governments balance costs and benefits to achieve their goals. On the other hand, the major considers the larger institutional and macroeconomics structures that shape the decisions of economic and non-economic actors.

The major provides excellent preparation for a variety of jobs in the private sector, non-profits, and government. It also provides excellent preparation for a variety of graduate and professional schools.

Political Economy (p. 332)

The Political Economy major provides students with a knowledge of contemporary issues and policy along with a set of practical skills preparing students for employment in community groups, unions, non-profits, government, and private businesses. This program also equips students to enter professional schools along with graduate schools in various disciplines.

The major combines course work from Economics and other disciplines to create a coherent program investigating the behavior of the economy and society using a broader and more inclusive framework than found in

standard economics programs. In particular, this program is an innovative blend of coursework from mainstream economics, heterodox economics, and non-economics disciplines. The program provides students with the skills necessary to perform research and data analysis along with allowing students to gain additional practical skills such as writing for the public, accounting, and geographic information systems.

Importantly, the program gives students the option to systematically investigate gender, race, and ethnicity. To promote student engagement with the community, the program has a service-learning course.

Minors

Economics (p. 332)

Philosophy, Policy, and Economics (p. 219)

Political Economy (p. 333)

Bachelor of Arts in Economics

Requirements (48-54 units)

Total units required for graduation: 120

Requirements for the B.A. in Economics

Lower-division requirements (3-6)

Choose from the following: 3-6

ECON 2000 The Economy: Problems and Perspectives

ECON 2201 & ECON 2202 Principles of Microeconomics and Principles of Macroeconomics

Upper-division requirements (24)

ECON 3100 Intermediate Microeconomics 3

ECON 3200 Intermediate Macroeconomics 3

ECON 3400 Money, Banking, and Financial Markets 3

ECON 3500 Tools of Economic Analysis 3

ECON 3700 History of Economic Thought 3

ECON 3900 Writing in Economics 3

Three units chosen from: 3

ECON 3105 Political Economy

ECON 3109 Political Economy of Women

ECON 3125 Economic History of the United States

ECON 4230 Economic Development

Three units chosen from: 3

ECON 4412 Firms and Markets

ECON 4414 Public Economics

ECON 4416 Labor Economics

ECON 4418 International Economics

Concentration (21-24)

All students must complete one of the concentrations listed below. 21-24

Total Units 48-54

Concentrations (21-24 units)

General Economics Concentration (21-22 units)

(Program Code: ECON)

Lower-division requirements (6-7)

Three units chosen from: 3

MATH 1201 Introduction to Statistical Thinking

MATH 2265 Statistics with Applications

ADMN 2100 Applied Business Statistics

One course chosen from: 3-4

MATH 1301 Modeling with Functions

MATH 1401 Accelerated Preparation for Calculus

MATH 1601 Modeling with Calculus

MATH 2210 Calculus I

Upper-division requirements (15)

Three units chosen from: 3

ECON 3800 Quantitative Methods in Economics

ECON 4300 Econometrics

ECON 4550 Advanced Tools of Economic Analysis

Choose twelve additional units of upper-division economics courses. ECON 3199 does not satisfy this requirement. 12

Total Units 21-22

Mathematical Economics Concentration (23-24 units)

(Program Code: ECMA)

Lower-division requirements (14-15)

MATH 2265 Statistics with Applications 3

MATH 2210 Calculus I 4

MATH 2220 Calculus II 4

One course chosen from: 3-4

MATH 2310 Applied Linear Algebra

CSE 1100 Critical Thinking Through Computer Programming

Upper-division requirements (9)

ECON 4300 Econometrics 3

Three units chosen from: 3

ECON 3800 Quantitative Methods in Economics

ECON 4550 Advanced Tools of Economic Analysis

Choose three additional units of upper-division economics courses. ECON 3199 does not satisfy this requirement. 3

Total Units 23-24

Applied Economics Concentration (21-22 units)

(Program Code: APEC)

Lower-division requirements (12-13)

ADMN 2100 Applied Business Statistics 3

ACCT 2110 Introductory Accounting I 3

ACCT 2120 Introductory Accounting II 3

One course chosen from:	3-4
MATH 1301 Modeling with Functions	
MATH 1401 Accelerated Preparation for Calculus	
MATH 1601 Modeling with Calculus	
MATH 2210 Calculus I	
Upper-division requirements (9)	
FIN 3001 Finance I	3
Three units chosen from:	3

Department of Ethnic Studies

Social Behavioral, Room 207A
(909) 537-7500 Department of Ethnic Studies website (<https://www.csusb.edu/ethnic-studies/>)

The Program of Ethnic Studies is committed to the teaching of Ethnic Studies from historical, interdisciplinary, intersection, theoretical and relational perspectives. Our faculty members offer courses on and conduct research in the political and intellectual cultures of communities of color in the United States and within transnational contexts. In our teaching and research, we work to uphold pedagogues and methodologies that reflect and respect the myriad communities that our student body represents. Moreover, we see community engagement to be revolutionary grounding for Ethnic Studies praxis. Nurturing and building relationships within and across communities of color creates radical openings for understanding the nature of systemic violence while centering the resistance that is at the core of community and Indigenous knowledge and activism. Students and faculty in our program are encouraged to engage ethically with communities; students will be provided with support offered through courses focused on community engagement, faculty mentoring and career advising.

We recognize the 1968-1969 struggles of the Black Student Union and the Third World Liberation Front (a coalition of organizations led by students of color) at San Francisco State University and the University of California, Berkeley, and of revolutionary youth and student movements across the world as foundational to our being. We affirm the long-standing and ongoing intellectual and political activism of Black, Native/American Indian/Indigenous, Asian American, Pacific Islander and Chicanx/Latinx scholars, artists and activists in our endeavors to build with, struggle alongside and learn from our students, our local communities of color and each other. We understand that communities of color are differently affected and produced by histories of empire, colonialism and slavery and within the afterlives of such violences. Centering these historical roots and embodied knowledge, we remain committed to understanding the ever-evolving field as being relational, feminist, queer and collective at its core.

We unequivocally support and affirm the resistance, knowledge, joy and power of Black peoples. We recognize that there is an unpaid and unpayable debt to Black communities and their unwavering commitment to imagining a world that exceeds the boundaries of the one in which we presently live. All of us pledge to research, teach, and serve from a commitment to supporting Black liberation struggles and challenging the anti-blackness which under girds the ongoing violence against Black peoples.

We unequivocally support and affirm the resistance, knowledge, joy and power of Native/American Indian/Indigenous peoples. We recognize that CSUSB sits on the territory and ancestral land of the San Manuel Band of Mission Indians (Yuhaaviatam) and that we continue to benefit from the genocidal project of settler colonialism. All of us pledge to research, teach and serve from a commitment to decolonization and supporting Native/ American Indian/Indigenous sovereignties and stewardship.

Undergraduate Degree

Bachelor of Arts

Ethnic Studies (p. 334)

Minors

- Ethnic Studies (p. 335)
- Ethnic Studies - Chicana/o/x, Latina/o/x Studies (p. 335)

Bachelor of Arts in Ethnic Studies

Born out of the late-1960s student protests led by the Black Student Union and Third World Liberation Front at San Francisco State University, Ethnic Studies is overtly and proudly a political and intellectual project that envisions and enacts paths to self-determination by communities of color. Ethnic Studies at CSUSB invites students who are inspired to take on the critical study of race, ethnicity, gender, sexuality, class, disability and citizenship to examine all systems and structures of oppression. Our BA consists of distinct theoretical and methodological approaches that have shaped the field of Ethnic Studies including Critical Race Theory, Intersectionality, Queer of Color Critique, Settler Colonialism and Transnational Feminisms. Students who major in Ethnic Studies will analyze the power dynamics at play in structuring white supremacy, heteropatriarchy and class oppression through the centering of historically racialized groups in the United States.

Ethnic Studies at CSUSB is comprised of educators, students and staff who are dedicated to creating supportive and nurturing academic environments for all majors and minors. By majoring in Ethnic Studies, students are prepared for a range of opportunities at CSUSB, including interdisciplinary and collaborative research, study abroad and internships on campus and in our surrounding communities. Moreover, students will be prepared to pursue a wide variety of fields after graduation, including organizing and activism, public policy, medicine, social work, secondary and college-level educational work, law and government. Majors are also well-situated for graduate studies in a number of disciplines in the social sciences and humanities.

Department of Geography and Environmental Studies

Social and Behavioral Sciences Building, Room 327J
(909) 537-5519 Department of Geography and Environmental
Studies website (<https://www.csusb.edu/geography/>)

Environmental Studies

To accomplish its principal objective of promoting an understanding of the interaction of human with their environment, this interdisciplinary degree program includes courses primarily from the natural sciences and social sciences.

Major requirements from the natural sciences develop fundamental principles about the composition and functioning of the earth's ecosystems, principles deemed essential to a sound working knowledge of the environment. Course offerings from the social sciences assess the impact of humans upon the environment and the possibility of creating different environments.

The program is designed for students who desire either to focus on a study of the environment as part of a broader liberal arts curriculum or to prepare for an environmentally related career or graduate school. Professional opportunities for graduates include a wide range of positions in public agencies responsible for developing and enforcing environmental controls, and in business, industry and nonprofit organizations which need qualified individuals to communicate environmental information and to assist in compliance with environmental regulations. Additional opportunities are available in conjunction with other programs of study, such as environmental law, environmental health, education and public administration.

Geography

Geography is concerned with the spatial variations and interrelationships between the natural and cultural features of the earth. Geographers study the earth primarily as the home of humans. As an approach to knowledge, geography forms an interdisciplinary bridge between the physical and cultural worlds, examining both humans and their environment. As a synthesizing discipline, geography is an especially attractive major for liberal arts and science students. Its body of theory and methodologies provides an analytic technique applicable to a wide range of questions.

For students planning to end their formal education with a bachelor's degree, it also provides both the regional and world perspective required of responsible citizens. For the same reasons, geography is especially valuable for those who plan to do graduate work. Geography offers job opportunities in teaching, business, government, armed forces, conservation and water resources, planning and market research, geographic information systems (GIS) and international organizations.

Students who can meet the qualifications are also encouraged to participate in the California State University's International Programs (p. 13). Such participation will not only contribute immediately to the student's geographical knowledge and degree program, but may have longer-term educational and career benefits as well.

Departmental Honors

Students majoring in Geography and Environmental Studies are eligible to receive honors in geography at graduation if they have:

1. Completed at least one-half of the course work required by the major at this university;
2. Earned a grade point average of at least 3.5 in the major, both at this university and overall;
3. Earned an overall undergraduate grade point average of 3.0 or better;
4. Completed GEOG 5970 (for Geography majors) or GEOG 5971 (for Environmental Studies majors) approved in advance by the department chair.

Students interested in receiving this recognition must initiate the process by making a formal application with the Geography Department Administrative Support Coordinator.

Current Faculty

Jennifer Alford, Associate Professor of Geography and Environmental Studies

B.A. 2003, North Carolina State University

M.A. 2005, Ph.D. 2014, University of North Carolina at Greensboro

Brett Goforth, Professor of Geography and Environmental Studies

B.S. 2001, California State University, Polytechnic, San Luis Obispo

Ph.D., 2009, University of California, Riverside

Kevin Grisham, Professor of Geography and Environmental Studies

B.A. 1997, California State University, San Bernardino

M.A. 2005, Ph.D. 2009, University of California, Riverside

Rajrani Kalra, Professor of Geography and Environmental Sciences

B.A. 1993, 1998, M.A. 1995, 1999, University of Dehli

M.A. 2003, University of Akron

Ph.D. 2007, Kent State University

Michal Kohout, Professor of Geography and Environmental Studies

B.A. 1993, University of Western Ontario

M.A. 1996, Southwest Texas State University

Ph.D. 2004, Clark University

Norman Meek, Professor of Geography and Environmental Studies

B.A. 1982, University of Kansas

M.A. 1984, Michigan State University

Ph.D. 1990, University of California, Los Angeles

Bo Xu, Professor of Geography and Environmental Sciences, Chair

B.S. 1998, Beijing Normal University

M.S. 2001, East China Normal University

M.S. 2007, Ph.D. 2008, University of Georgia

Yolonda Youngs, Professor of Geography
B.A. 1993, Florida State University
M.S. 2004, Montana State University
Ph.D. 2009, Arizona State University

Undergraduate Degrees

Bachelor of Arts

Environmental Studies (p. 337)

with concentrations in:

- Environmental Sustainability
- Environmental Systems

Geography (p. 339)

with concentrations in:

- Urban Studies
- Global Studies & Regional Geography
- Geographic Information Sciences (GIS)

Minors

Environmental Studies (p. 340)

Geographic Information Science (p. 341)

Geography (p. 341)

Global Studies (p. 342)

Certificate

Geographic Information Systems (p. 343)

Bachelor of Arts in Environmental Studies

Environmental Studies is an interdisciplinary B.A. degree program that examines interactions of human society and nature through approaches of the natural sciences, social sciences, and humanities. Courses introduce foundation principles of ecology and environmental science in relation to issues of policy, politics, law, economics, social aspects, planning, pollution control, and natural resources management. Two degree concentrations are designed to prepare students for a broad field of environmental career pathways: **Environmental Sustainability** and **Environmental Systems**. Upon successful completion of the Environmental Studies B.A. degree program, students who want further training may go to graduate school in the natural sciences, public administration, planning, environmental law, environmental health, or education.

The **Environmental Studies B.A., Environmental Sustainability Concentration**, focuses on the concept of sustainability from an interdisciplinary perspective. This concentration includes instruction in sustainable development, environmental policies, ethics, ecology, landscape architecture, city and regional planning, economics, natural resource issues, sociology, and anthropology. Career pathways explored by this concentration include the work of government agencies and non-governmental organizations, natural resource planners and managers, environmental regulators, K-12 educators, and advocates. This concentration is recommended for students that want a broad and flexible liberal arts program that allows them follow diverse interests.

The **Environmental Studies B.A., Environmental Systems Concentration**, focuses on the application of biological, chemical, and physical principles to the study of environmental problems and solutions, including subjects such as abating or controlling environmental pollution and degradation; physical interactions between human society and the natural environment; and approaches to natural resources management. This concentration provides a science intensive background with instruction in biology, chemistry, physics, geosciences, environmental health, climatology, statistics, and mathematical modeling.

Career pathways explored by this concentration include the work of environmental specialists in consulting firms, governmental agencies that monitor and protect environmental quality, as well as in multiple fields of scientific research on human impacts to the environment.

This concentration is recommended for students preparing to pursue a graduate degree in the natural sciences, or preparing for an environmentally related technical career.

Requirements (45-52 units)

Total units required for graduation: 120

B.A. in Environmental Studies

Lower-division requirements (13)

GEOG 1070	Environmental Studies Orientation Seminar (must take in first fall semester for the major)	2
-----------	--	---

Three units chosen from: 3

GEOG 1030	Physical Geography
GEOL 1000	Introductory Geology
HSCI 1200	Health and Society: An Ecological and Societal Approach

One unit chosen from: 1

GEOG 1030L	Physical Geography Laboratory
GEOL 1000L	Introductory Geology Laboratory
HSCI 1200L	Health and Society: An Ecological and Societal Approach Lab

GEOG 2000 Environment and Society 3

GEOG 2250 Introduction to Geographic Information Systems and Cartography 4

Upper-division requirements (0)

Environmental Systems (7) 7

Seven units chosen from:

GEOG 3300	Weather and Climate
GEOG 4250	Watershed Hydrology and Management
GEOG 4300	Biogeography
GEOG 4360	Climate Change

or GEOG 4400 Geomorphology

Nature-Society Relations (6)		
GEOG 3500	Conservation and Natural Resources	3
or GEOG 3501	Environmental Sustainability	
Three units chosen from:		3
ANTH 3607	Environmental Anthropology	
ECON 3103	Environmental Economics	
ECON 3740	Economics of Climate Change	
ENG 3400	Analysis of Environmental Discourse (WI)	
ENG 3410	Environmental Literature	
GEOG 3630	Environmental Justice	
PHIL 3014	Environmental Ethics	
Experiential Learning (4)		
GEOG 5000	Senior Seminar (must take in spring semester prior to graduation)	2
Minimum of two units chosen from:		2
GEOG 5240	National Parks and Public Lands	
GEOG 5351	Professional Conferences	
GEOG 5352	Professional Conferences	
GEOG 5551	Laboratory Experience	
GEOG 5552	Laboratory Experience	
GEOG 5651	Field Experience	
GEOG 5652	Field Experience	
GEOG 5751	Internship in Geography	
GEOG 5752	Internship in Geography	
GEOG 5753	Internship in Geography	
GEOG 5756	Model United Nations Practicum (Spring Semester MUN Team)	
GEOG 5761	Study Abroad	
GEOG 5762	Study Abroad	
GEOG 5763	Study Abroad	
GEOG 5771	Study Away	
GEOG 5772	Study Away	
GEOG 5773	Study Away	
GEOG 5781	Service Learning in Geography, Global Studies and Environmental Studies	
GEOG 5782	Service Learning in Geography, Global Studies and Environmental Studies	
GEOG 5783	Service Learning in Geography, Global Studies and Environmental Studies	
GEOG 5951	Independent Study	
GEOG 5952	Independent Study	
GEOG 5953	Independent Study	
GEOG 5971	Senior Honors Project - Environmental Studies	

Concentration (15-22)

All students must satisfy the requirements of one of the concentrations listed below:

Total Units 45-52**Concentrations (15-22 units)**

Courses taken in a concentration cannot be used elsewhere to meet requirements of this major.

Environmental Sustainability Concentration (15 units)

(Program Code: ESSU)

MATH 1201	Introduction to Statistical Thinking	3
or GEOG 3018	Geographic Statistics and Research Methods	
Minimum of six units chosen from:		6
GEOG 3300	Weather and Climate	
GEOG 3520	Environmental Inquiry and Education	
GEOG 3701	Environmental Policy and Impact Assessment	
GEOG 4250	Watershed Hydrology and Management	
GEOG 4300	Biogeography	
GEOG 4710	Water Wars	
GEOG 4750	Ecosystem Assessment	
GEOG 4870	Environmental GIS	

May choose one of the following:

GEOG 3020	Social Geography	
GEOG 3030	Cultural Geography	
GEOG 3045	Global Cities and Urban Environment	
GEOG 3050	Economic Geography	
GEOG 3060	Political Geography	
GEOG 4050	Geography of California	

Six units chosen from: 6

ANTH 3607	Environmental Anthropology	
COMM 3227	Topics in Relational and Organizational Communication (Topic: Environmental Communication)	
or COMM 4222	Communication and Conflict	
ECON 3103	Environmental Economics	
or ECON 3740	Economics of Climate Change	
GEOG 3630	Environmental Justice	
HIST 4950	Politics of Oil	
PA 5140	Nonprofit Management and Leadership	
or PA 5170	Nonprofit Fundraising and Grantwriting	
or PA 5200	Water Law, Regulation and Policy	
or PA 5210	Urban Growth and Planning	
PSCI 3300	State and Local Politics	
or PSCI 3420	The Politics of Environment	
SOC 4340	Community Organization	

May choose one of the following GE courses:

ART 3000	Art and Activism	
BIOL 2180	Sustainable Agriculture	
BIOL 3010	Human Ecology	
CHEM 3100	Chemistry and the Environment	
GEOL 3020	Natural Disasters	
GEOL 3040	Energy and the Environment	
ENG 3400	Analysis of Environmental Discourse (WI)	

ENG 3410	Environmental Literature	
PHIL 3014	Environmental Ethics	
Total Units		15

Environmental Systems Concentration (22 units)

(Program Code: ESSY)

BIOL 1000 or BIOL 2010	Introduction to Biology Principles of Biology I	3
CHEM 1000 or CHEM 2050 or CHEM 2100	Introduction to Chemistry Survey of General Chemistry General Chemistry I	3
CHEM 1000L or CHEM 2050L or CHEM 2100L	Introduction to Chemistry Laboratory Survey of General Chemistry Laboratory General Chemistry I Laboratory	1
MATH 1201 or MATH 1301 or MATH 1601 or GEOG 3018	Introduction to Statistical Thinking Modeling with Functions Modeling with Calculus Geographic Statistics and Research Methods	3
PHYS 1000 or PHYS 2000 or PHYS 2500	Physics in the Modern World Introduction to Physics I General Physics I	3
Minimum of nine units chosen from:		9
GEOG 3300	Weather and Climate	
GEOG 3701	Environmental Policy and Impact Assessment	
GEOG 4250	Watershed Hydrology and Management	
GEOG 4300	Biogeography	
GEOG 4360	Climate Change

May choose one of the following:		
GEOL 3100	Introduction to Geologic Mapping	
GEOL 3600	Structural Geology	
GEOL 4100	Engineering Geology	
GEOL 3700	Groundwater Hydrology	
GEOL 5400	Environmental Hydrology	
HSCI 3052	Principles of Environmental Health	
HSCI 3522	Air Pollution and Radiological Health	
HSCI 3558	Water Quality and Pollution Control	
HSCI 4577	Environmental Health Engineering	
HSCI 5557	Solid and Hazardous Waste Management	
Total Units		22

Bachelor of Arts in Geography

Geography is an interdisciplinary study of place and human-environment relations. Geographers ask where things are located on the surface of the

earth, why they are located where they are, and how places differ from one another. Geographers also study the relationships between human activity and natural systems. Geography is unique in linking the social sciences and natural sciences together. Geographical qualitative and quantitative techniques such as Geographic Information Systems (GIS) are among the most important ways of understanding our complex world.

Requirements (42-45 units)

Total units required for graduation: 120

Requirements for the B.A. in Geography

Lower-division requirements (14)

GEOG 1010 or GEOG 1650	Introduction to Human Geography World Regions and Peoples	3
GEOG 1030	Physical Geography	3
GEOG 1030L	Physical Geography Laboratory	1
GEOG 2000	Environment and Society	3
GEOG 2250	Introduction to Geographic Information Systems and Cartography	4

Upper-division requirements (16)

Courses taken in a concentration cannot be used elsewhere to meet requirements of this major.

Three units chosen from:		3
GEOG 3500	Conservation and Natural Resources	
GEOG 3501	Environmental Sustainability	
GEOG 3520	Environmental Inquiry and Education	

Electives (10)

A minimum of 10 units chosen from the following courses in groups 1 and 2 (Students must take at least one course in each group, provided that none have been used elsewhere to meet requirements of this minor). In consultation with the environmental studies coordinator, a student can choose other courses, besides those listed below, to meet the elective requirement.

Group 1: NATURE-SOCIETY RELATIONS

ANTH 3607	Environmental Anthropology
COMM 3227	Topics in Relational and Organizational Communication (Topic: Environmental Communication)
ECON 3103	Environmental Economics
or ECON 3740	Economics of Climate Change
GEOG 3500	Conservation and Natural Resources
or GEOG 3501	Environmental Sustainability
GEOG 3520	Environmental Inquiry and Education
GEOG 3630	Environmental Justice
GEOG 3701	Environmental Policy and Impact Assessment
GEOG 4710	Water Wars
HIST 4950	Politics of Oil
or PSCI 3420	The Politics of Environment
May choose one of the following GE courses:	
BIOL 3010	Human Ecology
CHEM 3100	Chemistry and the Environment
ENG 3400	Analysis of Environmental Discourse (WI)
ENG 3410	Environmental Literature
GEOL 3020	Natural Disasters
GEOL 3040	Energy and the Environment
PHIL 3014	Environmental Ethics

Group 2: ENVIRONMENTAL SYSTEMS

GEOG 3300	Weather and Climate
GEOG 4250	Watershed Hydrology and Management
GEOG 4300	Biogeography
GEOG 4360	Climate Change
GEOG 4400	Geomorphology
GEOG 4651	Coastal Resources Management

Total Units 20

Minor in Geographic Information Science

Geographic information science (GISci) has been developing rapidly and increasingly become a vital part in academic research, government policy-making, and industrial applications. The minor in GISci is designed to provide students with the fundamental concepts, theories and cutting-edge technology in GIS and related disciplines. This minor is recommended for students to pursue a graduate degree in GIS and related disciplines.

10

Requirements for a Minor in Geographic Information Science (29-30 units)

Total Units	18
--------------------	-----------

GEOG 5150	Global Governance and the United Nations System
GEOG 5755	Model United Nations Practicum (Fall Semester MUN Team)
GEOG 5756	Model United Nations Practicum (Spring Semester MUN Team)
PSCI 5000	International Law
SSCI 3000 or SSCI 3001	Global Issues and Perspectives Global Issues and Perspectives
Total Units	21

Minor in Global Studies

The Minor in Global Studies promotes an understanding of how globalization impacts the physical and human environment. The minor allows students who are already enrolled in other degree programs at CSUSB to gain an abbreviated interdisciplinary perspective in the study of globalization. The goal is to better understand how the social, cultural, political and economic spheres of human life effect, and are affected by, globalization.

Requirements for a minor in Global Studies (21 units)

Lower-division requirements (12)

GEOG 1010	Introduction to Human Geography	3
GEOG 1650	World Regions and Peoples	3
GEOG 2200	Introduction to Global Studies	3
GEOG 2201	Issues in the Global System	3

Upper-division requirements (9)

Students must take a minimum of 9 units from the following:	9
---	---

ANTH 3610	Cultural Entanglements and the Global Economy
COMM 3334	Global Cinema
ECON 3105	Political Economy
FIN 3555	Business and Asian Culture
FREN 3960	French for Reading 1
FREN 3961	French for Reading 2
GEOG 3020	Social Geography
GEOG 3030	Cultural Geography
GEOG 3050	Economic Geography
GEOG 3060	Political Geography
GEOG 3065	Migration and Borderlands
GEOG 3900	Emerging Topics in Human Geography
GEOG 3902	Emerging Topics in Environmental Studies
GEOG 3903	Emerging Topics in Global Studies
GEOG 4055	US-Mexico Border Region
GEOG 4060	Emerging World Regions
GEOG 4070	Advanced World Regions
GEOG 4450	Globalization and Identity

Certificate in Geographic Information Systems

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 6000-level courses as requirements and/or electives. These 6000-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Geographic information systems (GIS) has been developing rapidly and increasingly become a vital part in government policy-making, and industrial applications. The Certificate in Geographic Information Systems is designed to provide students with the fundamental principles and cutting-edge techniques in GIS and related technology. Upon completion of the certificate, students are well equipped with necessary knowledge and skills for their GIS or GIS-related career. Requirements (22 - 23 units).

Certificate Requirements (22-23 units)

Required courses (15)

GEOG 2250	Introduction to Geographic Information Systems and Cartography	4
GEOG 3710	Advanced Geographic Information Systems	4
GEOG 3730	Geo-Spatial Analysis	3
GEOG 4880	Remote Sensing of the Environment	4

Elective courses (7-8)

Choose any two courses from the following: 7-8

GEOG 4850	Web GIS
GEOG 4860	GIS and Socio-Economic Applications
GEOG 4870	Environmental GIS
GEOG 5753	Internship in Geography

Total Units **22-23**

Department of History

Social and Behavioral Sciences Building, Room 357B
(909) 537-5524 Department of History website (<https://www.csusb.edu/history/>)

History is the study of the changes throughout the past as a means to understand our present and inform our future. It enables us to obtain context for contemporary systems, institutions, politics, cultures, and moral questions. It engages students in questions about causality and asks students to see the contingent conditions that have shaped our world. History asks students to do much more than memorize facts, but instead challenges students to see the world from various viewpoints,

evaluate a multiplicity of sources, develop a sense of context and coherence, all while recognizing the complexity and obscurity of our world.

Through historical inquiry, students will learn how to confront, contemplate, analyze, evaluate, and present their own assessments of the past. History majors at CSUSB don't just read and write about history, but engage with the past in creative, practical, and innovative ways. In addition to community engagement, and through diverse course offerings that span different periods and places, students will not only gain a new understanding of their local and global communities, they will also be well prepared for a multitude of career opportunities, including, but not limited to, education, government, law, public history, business, and media. Applying new and dynamic methods of history, our students learn vital skills that can be applied in the marketplace.

The department offers courses across all areas of the world and temporal time periods. Courses are offered in the areas of African, Asian, European, Latin American, Middle East, and United States history. Courses are often integrative and are constantly updated to reflect new areas of interest and faculty expertise.

We offer a BA in History with two concentrations; the general concentration for students who want a traditional history degree with a research focus, and the pre-credential concentration, for students wanting to go on to become history teachers and complete their teaching credential. CSUSB's history department is also one of the few in the country to offer an undergraduate degree in public history for those interested in working in archives, libraries, museums, historic preservation, and other public history venues. The department also offers a Master of Arts in History.

The history department contributes to the B.A. Social Sciences program, the B.A. in Liberal Studies, and the M.A. in Social Sciences and Globalization. We also offer key courses in the GE program. History courses also are part of the American Studies, Asian Studies, Ethnic Studies, Gender and Sexuality Studies, Islamic and Middle Eastern Studies, Latin American Studies, and Native Nations programs.

Departmental Honors

Students majoring in history are eligible to receive honors in history at graduation if the following conditions are met:

1. At least one-half of the course work required in the major is completed at this university;
2. Earned a grade point average of at least 3.5 in the major, including courses for the major taken elsewhere;
3. Earned an overall undergraduate grade point average of 3.0 ("B") or better;
4. Successful completion of HIST 5970, resulting in a thesis paper.

Applications for candidacy must be made by the beginning of the senior year. Approval of candidacy and of the project and project advisor rests with the department. The project advisor and one other faculty reader from the department will have the responsibility for evaluation of the completed thesis paper.

Phi Alpha Theta

Phi Alpha Theta is an international history honor society. Students who have completed at least 12 units of history (3 courses) at CSUSB, and who have a minimum overall G.P.A. of 3.0 and a minimum G.P.A.

in History of 3.1 may join the university's chapter of Phi Alpha Theta. Membership is not limited to History majors.

Masters of Arts in History

The Masters of Arts in History at California State University San Bernardino is a dynamic program designed to prepare students to enhance their historical skills and knowledge as they prepare themselves for a variety of potential careers or to move on to doctoral study.

The MA program offers students the opportunity to work one-on-one with world renowned faculty as they pursue a variety of fields of study and interests. Students will gain an overall appreciation of the historical discipline, including an understanding how the past is connected to the present, recognizing the diversity of the human experience across time and space, and realizing the historical discipline's practical contribution to our society. Students who earn an MA through this program will have the opportunity to pursue research opportunities, present their work at regional and national conferences, and complete a thesis or public history project showcasing their work.

The Masters of Arts in History prepares graduates for Ph.D. programs in history or related fields, as well as the following careers:

- K-12 teachers with advanced skills and knowledge
- Community college level instructors
- Professional historians employed in museums, archives, historic preservation, historical research, historic parks and homes and other related fields of public history.

Current Faculty

Cary Barber, Associate Professor of History
B.A. 2008, University Of North Carolina - Chapel Hill
M.S. 2010, Ohio State University
Ph.D. 2016, Ohio State University

Meredith Brand, Professor of History
B. A. 2006, The American University in Cairo
M. A. 2008, University of Toronto
Ph. D. 2019, University of Toronto

Isabel Huacuja Alonso, Assistant Professor of History
B.A. 2005, Cornell University
M.A. 2009, Ph.D. 2015, University of Texas at Austin

Diana Johnson, Assistant Professor of History
B.A., 2010 Eastern Washington University
Ph D., 2017 University of California, Davis

Tiffany Jones, Professor of History
B.A. 1999, M.A. 2000, Dalhousie University
Ph.D. 2005, Queen's University, Canada

Ryan Keating, Professor of History
B.S. 2008, University of California, Davis
M.S. 2012, University of New Mexico
Ph.D. 2013, Fordham University

Kate Liszka, Professor of History
B.A. 2001, Pennsylvania State University
M.A. 2007, Ph.D. 2012, University of Pennsylvania

Thomas Long, Professor of History
B.A. 1993, Sonoma State University

M.A. 2001, California State University, Fullerton
Ph.D. 2006, University of California, Riverside

Jeremy Murray, Professor of History
B.A. 2001, SUNY at Albany
M.A. 2004, Columbia University in the City of New York
Ph.D. 2011, University of California, San Diego

Timothy E. Pytell, Professor of History
B.A. 1985, Colorado Springs College
M.A. 1990, Ph.D. 1999, New York University

Marc Robinson, Assistant Professor of History
B.A. 2004, University of Washington, Seattle
Ph.D. 2012, Washington State University, Pullman

Richard Samuelson, Associate Professor of History
B.A. 1992, Bates College
M.A. 1995, Ph.D. 2000, University of Virginia

David N. Yaghoubian, Professor of History
B.A. 1989, University of California, Santa Cruz
M.A. 1994, Ph.D. 2000, University of California, Berkeley

Master of Arts in History

The MA in History at California State University, San Bernardino offers students the opportunity to further their study of history in an innovative, active, and rigorous program. It is intended to train future historians and promote the professional, career, and personal goals of its student population. It is designed to provide students a comprehensive understanding of the historical origins of the contemporary and increasingly globalized world. Aspiring historians, current social studies teachers, and professionals that want to immerse themselves in the study of history will acquire a sophisticated understanding of current historical practice. The MA in History offers students the opportunity to go substantially beyond their undergraduate coursework, obtain advanced research, critical analysis, and writing skills, and gain a comprehensive and global understanding of the history profession.

Admission to the Program

In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

1. A baccalaureate degree in history or closely related field from an accredited college or university. The baccalaureate degree must have included at least six upper-division courses in history;
2. A minimum cumulative undergraduate grade point average of at least 2.5 overall and at least 3.0 ("B") in the student's undergraduate major. In addition, applications must have obtained an overall 3.0 GPA or higher in upper-division history courses, or a bachelor's degree with 18 units of upper-division courses in history. These courses must be comparable to those required of a major in history at this University.
3. A brief statement (one to two double-spaced typewritten pages) describing the applicant's preparation for graduate study and professional goals;
4. A writing sample (at least 10 pages but not to exceed 25 pages) that demonstrates the applicant's ability to write analytical prose, to construct a reasoned argument based upon evidence, and to create a context for assessing the significance of what has been presented.
5. Three letters of recommendation, with at least two from former professors. Letters should come directly from the recommenders or be included in a placement file. It is the applicant's responsibility to determine if letters have been received. It is assumed that students who request confidential letters to be submitted on their behalf have waived their right to view those letters as per FERPA (1974) requirements to maximize the confidentiality and integrity of the letters of reference. received. Applicants who do not wish to waive their right to view those letters are responsible for letting their letter-writers know in advance that they retain their right to view meet the letters.

Advancement to Candidacy

In order to be formally advanced to candidacy, a student must have:

1. Achieved classified status;
2. Secured a graduate advisor to supervise the course of study and a second faculty member for their advisory committee;
3. Completed the first four core courses (HIST 6001, 6002, 6003, 6004: 12 units) of graduate course work and achieved a minimum grade point average of 3.0 ("B") in those courses;
4. Satisfied the Graduate Writing Requirement with completion of at least one paper in the program that satisfies the program-specific Graduate Writing Requirement (GWR) rubric at the "meets expectations" or "exceeds expectations" level (see Graduate Coordinator for more information).
5. Filed a graduate program plan approved by the student's advisor and the coordinator of the program;
6. Students who choose the thesis or project option must have filed a thesis or project proposal approved by all members of the student's graduate advisory committee.

Requirements for Graduation

1. Completion of a minimum of 30 semester units of acceptable graduate-level course work, with at least 23 units completed in residence at this university, at least 21 units must be at the 5000-6000 level;
2. A grade point average of at least 3.0 ("B") in all courses taken as part of the program, and grades of "C" (2.0) or better in all courses in the program. Grades of "C-" (1.7) or less cannot be used toward the degree. Courses taken to fulfill undergraduate deficiencies do not count toward graduate program requirements;
3. Satisfy the Graduate Writing Requirement with completion of at least one paper in the program that satisfies the program-specific Graduate Writing Requirement (GWR) rubric at the "meets expectations" or "exceeds expectations" level (see Graduate Coordinator for more information);
4. Successful completion of a culminating project (thesis, project, or portfolio). The project or thesis may include an oral defense;
5. The program of study must not include more than six units of independent study course work, excluding the units allowed for thesis or project.
6. Any additional requirements not cited above and listed in Graduate Degree and Program Requirements. (<http://bulletin.csusb.edu/graduate-degree-programs/graduate-degree-program-requirements/>)

Degree Requirements (30 units)

(Program Code: HIST)

Required Core Courses (15)

HIST 6001	Historical Thinking and Research	3
HIST 6002	Topics in Global/World History	3
HIST 6003	Topics in United States History	3
HIST 6004	The Historian's Craft	3
HIST 6005	Advanced Writing and Research in History Scholarship	3

Elective Courses (9)

Electives must include nine units in advisor-approved graduate-level content courses, a minimum of two (6 units) of which must be in history. 9

Cultural Skills Requirement (3)

In consultation with the Graduate Coordinator, students must complete a cultural skills requirement, which may be fulfilled in a variety of ways: 1) an examination on reading ability in a foreign language; 2) completion of a Study Abroad Program or other overseas program with a similar academic focus; 3) completion of an approved internship that fulfills the cultural skills requirement.

Culminating Project (3) 3

Total Units 30

Culminating Project (3 units)

Students choose one of the following culminating project options: 3

HIST 6970	Thesis
An M.A. thesis is a research project that is based on primary evidence and demonstrates a student's mastery of historical research methods. It should present an original argument and contribute to the field. The thesis must be approved by the student's MA committee made up of two full-time faculty members.	
HIST 6960	Graduate Project
The M.A. project is a cumulative project that is more practically based than the thesis option, that demonstrates historical research methods and contributes to the field. It must follow graduate manuscript guidelines and format requirements and be approved by the student's MA committee made up of two full-time faculty members.	
HIST 6940	Graduate Portfolio
The portfolio is a capstone project in lieu of the thesis or project that includes at least four academic writing samples made up of: 1) one historiographical essay written in one of the core 6000-level courses; and 2) one research essay based on primary sources and 25-35 pages in length, written with the goal of publication; 3) two historiographical essays written as part of take-home comprehensive examinations written in their final semester; and 4) a current resume or curriculum vitae. Students may also include a cultural skills reflection report if applicable. The portfolio will be evaluated by the student's MA committee made up of two full-time faculty members.	
Total Units 3	

Bachelor of Arts in History

Through historical inquiry, students will learn how to confront, contemplate, analyze, evaluate, and present their own assessments of the past. History majors at CSUSB don't just read and write about history, but engage with the past in creative, practical, and innovative ways. In addition to community engagement, and through diverse course offerings that span different periods and places, students will not only gain a new understanding of their local and global communities, they will also be well prepared for a multitude of career opportunities, including, but not limited to, education, government, law, public history, business, and media. Applying new and dynamic methods of history, our students learn vital skills that can be applied in the marketplace.

Students majoring in the Bachelor of Arts in History are also eligible to receive honors in history at graduation if the following conditions are met:

1. At least one-half of the course work required in the major is completed at this university;
2. Earned a grade point average of at least 3.5 in the major, including courses for the major taken elsewhere;
3. Earned an overall undergraduate grade point average of 3.0 ("B") or better;
4. Successful completion of HIST 5970, resulting in a thesis paper.

Applications for honors candidacy must be made by the beginning of the senior year. Approval of candidacy and of the honors project and project advisor rests with the department. The project advisor and one other faculty reader from the department will have the responsibility for evaluation of the completed thesis paper.

Individual courses that must be approved by and scheduled separately, such as independent studies (Hist 5951, Hist 5953), internships (Hist 5750), and community based projects (Hist 3990), can only be repeated for a total of six units each. A one unit course can be repeated up to six times, a three unit course can be repeated twice.

Requirements (51-60 units)

Total units required for Graduation: 120

Requirements for the B.A. in History**Core courses (21)**

HIST 1400	World History to c. 1500	3
or ANTH 1400	World History to c. 1500	
HIST 1440	World History from c.1500	3
HIST 2000	United States History to 1877	3
HIST 2010	United States History, 1877 to the Present	3
SSCI 3060	Expository Writing for the Social Sciences	3
HIST 5840	Proseminar in History	3
HIST 5850	Research Seminar in History	3

A minimum of three upper division units chosen from five of the following six areas: (15)

Ancient History		
HIST 3200	History of Ancient Greece	
HIST 3210	History of Rome	
HIST 3360	Ancient Egyptian Archaeology	
HIST 3380	Ancient Egyptian Art	
HIST 3390	Culture and Society in Ancient Egypt	
HIST 4260	Ancient and Early Imperial China	
HIST 4420	Archaic Greece	
HIST 4440	Roman Republic	
HIST 4460	Age of Augustus	
HIST 4470	Impact of Warfare in Antiquity	
HIST 4480	Trade, Travel, and Migration in the Ancient Mediterranean World	
HIST 4520	Ancient Egyptian History, Origins to c. 1700 B.C.E.	
HIST 4530	Ancient Egyptian History, c. 1700 B.C.E. to 1000 B.C.E.	

HIST 4540	Ancient Egypt, c. 1000 B.C.E. to 495 C.E.
HIST 4550	Egyptian Mining Expeditions, Their Buildings, and Their Slaves
HIST 4800	History of Christianity I

African History

HIST 3860	Africa to 1870
HIST 3870	Africa 1870 to Present
HIST 3880	The Rise, Decline and Legacy of Apartheid South Africa
HIST 3890	Images of Africa
HIST 4490	Gender and Development in Africa
HIST 4510	The History of Health and Medicine in Africa

Asian/Middle Eastern History

HIST 3830	Classical Islamic Civilization
HIST 3840	Modern Middle East
HIST 4260	Ancient and Early Imperial China
HIST 4280	Medieval China

HIST 5680	History of the U.S. - Mexico Borderlands

Concentration (15-24)

Students must complete one of the concentrations listed below 15-24

Total Units 51-60

Concentrations (15-27)**General Concentration (15 units)**

(Program Code: HISG)

Fifteen additional units of upper division History courses which must fulfill an area of focus either in thematic interests, temporal, or geographic focus. Students will develop their area of focus in consultation with a faculty advisor. (15) 15

Geographic Focus. History majors can choose areas such as Africa, Asia, Europe, Latin America, or the United States.

Thematic Focus. History majors can trace themes such as cultural history, community engagement, political history, colonialism, gender, ethnicity/race, or class.

Temporal Focus. Students can study a single period such as the Middle Ages, or the Early Modern World (c1400-1800), or Modern World (1800-Present).

Total Units 15

Pre-credential Concentration (27 units)

(Program Code: HSTP)

PSCI 2030	Government of the United States ^{Will count as Local Government requirement}	3
HIST 3050	Ancient and Medieval Europe to the Renaissance ^{Will count as European Specialization as well.}	3
HIST 3060	European History from the Renaissance to the Present ^{Will count as European Specialization as well.}	3
HIST 3700	History of California	3
Student must select 3 units from:		3
HIST 3500	The American Colonies, 1607-1783	
HIST 3510	The Evolution of American Democracy, 1783-1840	
HIST 3540	Civil War and Reconstruction	
HIST 3560	The United States, 1877-1917	
HIST 3570	The United States, 1917-1945	
HIST 3580	United States in World War II	
HIST 3590	United States History, Cold War Era	

HIST 5400	Constitutional History of the United States	
Three units chosen from:		3
HIST 3201	Race, Ethnicity and Immigration in the United States	
HIST 3400	African-American History, 1620-1865	
HIST 3410	African-American History, 1865-Present	
HIST 3420	American Indian History	
HIST 3430	Great Debates in African American History	
HIST 3450	Women in U.S. History, 1607-Present	
HIST 3460	Women in the Black Freedom Movement	
HIST 3620	LGBT History	
HIST 3710	California Indian History	
HIST 3910	Chicana/o History

GEOG 1010	Introduction to Human Geography	3
ECON 2201	Principles of Microeconomics	3
ECON 2202	Principles of Macroeconomics	3
In order to satisfy the Single Subject Social Sciences CSET Waiver students are required to obtain a 2.85 GPA as well as a grade of C or better in all required program courses. Students must also complete HIST 5700 (department approval required to sign into the course).		
Total Units		27

Bachelor of Arts in Public History

The BA in Public History offers undergraduate students an in depth introduction to various fields of public and oral history, including museum management, archival practices, historical archaeology, and oral history. The degree is intended to introduce students to the study and practice of history as presented and made useful to the public in a variety of venues and professional settings, and to prepare students for further professional and academic training and success. As history majors, students receive broad training in the academic discipline of history, and broad content knowledge by surveying courses from around the globe.

Students majoring in the Bachelor of Arts in Public History are also eligible to receive honors in history at graduation if the following conditions are met:

1. At least one-half of the course work required in the major is completed at this university;
2. Earned a grade point average of at least 3.5 in the major, including courses for the major taken elsewhere;
3. Earned an overall undergraduate grade point average of 3.0 ("B") or better;
4. Successful completion of HIST 5970, resulting in a thesis paper.

Applications for honors candidacy must be made by the beginning of the senior year. Approval of candidacy and of the honors project and project advisor rests with the department. The project advisor and one other faculty reader from the department will have the responsibility for evaluation of the completed thesis paper.

Individual courses that must be approved by and scheduled separately, such as independent studies (Hist 5951 Hist 5953), internships (Hist 5750), and community based projects (Hist 3990), can only be repeated for a total of six units each. A one unit course can be repeated up to six times, a three unit course can be repeated twice.

Requirements (51 units)

Total units required for graduation: 120

Requirements for the B.A. in Public History

(Program Code: PHST)

Core courses: (21)

HIST 1400	World History to c. 1500	3
or ANTH 1400	World History to c. 1500	
HIST 1440	World History from c.1500	3
HIST 2000	United States History to 1877	3
HIST 2010	United States History, 1877 to the Present	3
SSCI 3060	Expository Writing for the Social Sciences	3
HIST 5840	Proseminar in History	3
HIST 5850	Research Seminar in History	3

Professional Preparation Course (3)

HIST 3230	Introduction to Public History	3
-----------	--------------------------------	---

Professional Preparation Electives (9)

A minimum of nine units of professional preparation electives from the following

HIST 3018	Introduction to Cultural Resource Management	
HIST 3120	Historical Archaeology	
HIST 3160	Archival Practices	
HIST 3180	Introduction to Cultural Resource Management	
HIST 3240	Decolonizing Museums	
HIST 3260	Historic Preservation	
HIST 3290	Topics in Public History	
HIST 3300	Topics in Oral History	
HIST 3740	Collections Management	
HIST 3750	Museum Management	
HIST 3760	Exhibition Development and Design	
HIST 3770	Historical Documentaries	
HIST 3780	Museum Curation	

Internship Requirement (3)

HIST 5750	Internship in History	3
(or) One three-unit upper-division HIST course with advisory approval		

Specializations (15)

A minimum of three units chosen from five of the following six areas

Ancient History

HIST 3200	History of Ancient Greece	
HIST 3210	History of Rome	

HIST 3360	Ancient Egyptian Archaeology	
HIST 3380	Ancient Egyptian Art

Total Units**51**

Minor in History

Students majoring in all disciplines are welcome to minor in history. A minor in history provides a perfect complement to many disciplines. It engages students in questions about causality and asks students to see the contingent conditions that have shaped our world. It offers students an opportunity to develop their critical analysis, reading, and writing skills. Students may minor in history by completing 3 units in lower division world history and 15 units in upper division history courses.

Requirements for a minor in History (18 units)

Students must choose one 3 unit course from the following:

3

HIST 1400	World History to c. 1500
or ANTH 1400	World History to c. 1500
HIST 1440	World History from c.1500

Students must complete 15 units of upper division units chosen from five of the following six areas:

15**Ancient History**

HIST 3200	History of Ancient Greece
HIST 3210	History of Rome
HIST 3360	Ancient Egyptian Archaeology
HIST 3380	Ancient Egyptian Art
HIST 3390	Culture and Society in Ancient Egypt
HIST 4260	Ancient and Early Imperial China
HIST 4420	Archaic Greece
HIST 4440	Roman Republic
HIST 4460	Age of Augustus
HIST 4470	Impact of Warfare in Antiquity
HIST 4480	Trade, Travel, and Migration in the Ancient Mediterranean World

HIST 4520	Ancient Egyptian History, Origins to c. 1700 B.C.E.
HIST 4530	Ancient Egyptian History, c. 1700 B.C.E. to 1000 B.C.E
HIST 4540	Ancient Egypt, c. 1000 B.C.E. to 495 C.E.
HIST 4540	Ancient Egypt, c. 1000 B.C.E. to 495 C.E.
HIST 4550	Egyptian Mining Expeditions, Their Buildings, and Their Slaves
HIST 4800	History of Christianity I
African History	
HIST 3860	Africa to 1870
HIST 3870	Africa 1870 to Present
HIST 3880	The Rise, Decline and Legacy of Apartheid South Africa
HIST 3890	Images of Africa
HIST 4500	History of Southern Africa

Advanced Certificate in Egyptology

The Advanced Certificate in Egyptology program allows students to examine this history, culture, society, and identity of those living in Ancient Egypt. Students will have the opportunity to examine cultural development and international connections through a variety of sources, such as art, archaeology, and textual evidence. These courses explore the importance of the past on the present, by applying anthropological, historical, and art historical theory as well as a multi-disciplinary perspective.

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

This certificate programs contain 6000-level courses as requirements and/or electives. These 6000-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Students must take a minimum of 18 units from the following classes (18)

HIST 5750E	Internship in Egyptology
HIST 5953E	Independent Study in Egyptology
HIST 6550	Advanced Egyptian Mining Expeditions, Their Buildings, and Their Slaves
HIST 6901	Advanced Topics in Egyptology (Can be repeated for credit as topic changes)
HIST 6953E	Directed Graduate Studies in Egyptology
HIST 6955E	Advanced Community-Based Project in Egyptology

Please note: all courses, with exception of HIST 6550 and HIST 6901, require approval of program coordinator and/or department chair

Certificate in Egyptology

The Egyptology certificate program allows students to examine the history, culture, society, and identity of those living in Ancient Egypt.

Students will have the opportunity to examine cultural development and international connections through a variety of sources, such as art, archaeology, and textual evidence. Courses explore the importance of the past on the present, by applying anthropological, historical, and art historical theory as well as a multi-disciplinary perspective.

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Candidates must complete two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

A total of 18 units is required.

Must take a minimum of 9 units from the following: (9)

HIST 3360	Ancient Egyptian Archaeology
HIST 3390	Culture and Society in Ancient Egypt
HIST 4520	Ancient Egyptian History, Origins to c. 1700 B.C.E.
HIST 4530	Ancient Egyptian History, c. 1700 B.C.E. to 1000 B.C.E.
HIST 4540	Ancient Egypt, c. 1000 B.C.E. to 495 C.E.

Total Units **9**

Must take a minimum of 3 units from the following classes: (3)

HIST 4420	Archaic Greece
HIST 4460	Age of Augustus
HIST 4470	Impact of Warfare in Antiquity
HIST 4480	Trade, Travel, and Migration in the Ancient Mediterranean World

Total Units **3**

Students must take a minimum of 6 units from the following classes that are not repeated for the above sections (6)

HIST 3360	Ancient Egyptian Archaeology
HIST 3380	Ancient Egyptian Art
HIST 3390	Culture and Society in Ancient Egypt
HIST 3860	Africa to 1870
HIST 3970	Topics in Egyptology (class may be repeated for credit as the topics change)
HIST 3990E	Community-Based Project in Egyptology
HIST 4410	Ancient Egyptian Hieroglyphs (class may be repeated for credit if the topic or the level or the readings are different)
HIST 4420	Archaic Greece
HIST 4460	Age of Augustus
HIST 4470	Impact of Warfare in Antiquity

HIST 6953	Directed Graduate Studies
HIST 6960	Graduate Project

Total Units**15**

Department of Political Science

Political Science

Social and Behavioral Sciences Building, Room 112
(909) 537-5535 Department of Political Science website (<https://csbs.csusb.edu/political-science/>)

The major in political science is designed for students who desire a liberal arts program with an emphasis on politics, government and public policy; plan a career in government service or public administration; seek training for positions in foreign service agencies of the United States government, international organizations or corporations; intend to study law; wish to prepare for teaching in the public schools; or intend to work for advanced degrees in political science in preparation for college or university teaching or for government service.

The department offers courses in the following fields:

- American government and politics
- Comparative politics
- International relations
- Political theory
- Public law

Departmental Honors

Students majoring in political science who have a grade point average of at least 3.0 overall and 3.5 in the major are eligible to receive departmental honors at graduation.

Pi Sigma Alpha

Qualified students may join the CSUSB Chapter of Pi Sigma Alpha, the national political science honor society. Student must have completed at least 15 quarter hours or ten semester hours of work in political science including at least one course not open to students in the first two years of collegiate work. The student must have at least 90 credits overall. Seniors must have at least a 3.0 average or higher in all political science courses and at least a 3.0 average overall. Juniors must have at least a 3.25 grade point average overall and in all political science courses. Additional information can be obtained from the Department of Political Science.

National Security Studies

Social and Behavioral Sciences Building, Room 112
(909) 537-5534 National Security Studies website (<https://csbs.csusb.edu/political-science/graduate-programs/>)

The Master of Arts in National Security Studies and the Master of Science in National Cyber Security Studies are professionally oriented, interdisciplinary, graduate-level programs housed within the College

of Social and Behavioral Sciences. The M.A. program is designed to develop an understanding of the substance and principles of defense policy analysis, intelligence analysis, strategic planning and arms control in relation to the contemporary international environment. Flexibility within elective courses permits the student to emphasize research in national security issues of his or her special interests. The M.S. program is designed to develop an understanding of cyber security and intelligence analysis; the ability to understand and analyze the technical aspects of cyber threats from a geostrategic perspective, and analyze and communicate those threats to non-specialists.

The program is relevant to established career personnel in defense analysis and related specialties, the military services, the civil service, and the intelligence community. Additionally, the program is structured to provide motivated persons holding a Bachelor of Arts degree and/or Bachelor of Science degree from an accredited institution with the higher educational skills necessary for entry into the above mentioned career fields or to pursue doctoral studies.

Headquartered within the National Security Studies program is the California State University Intelligence Community Center of Academic Excellence (IC CAE) that develops students for potential careers in the intelligence community, national service, or as local first responders through education in foreign affairs, world languages, and security studies.

Pi Sigma Alpha

Qualified graduate students may join the CSUSB Chapter of Pi Sigma Alpha, the National Political Science Honor society. Graduate students must be enrolled in a political science graduate program and must have completed at least 9 semester units (12 quarter units) of graduate work in political science with a grade no lower than a "B" in any course in their graduate program. Additional information can be obtained from the Department of Political Science.

Post-Graduate Certificate in National Cybersecurity Studies

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

- 1. impart specified professional/vocational/career competencies; or
- 2. produce mastery of the content of a sub-field of an academic major (discipline); or
- 3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 6000-level courses as requirements and/or electives. These 6000-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

This certificate provides graduate level instruction in core aspects of national security and cyber security studies. It is designed for students interested in careers in these fields or as a foundation for further academic study. The certificate is comprised of 12 semester units.

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

- 1. impart specified professional/vocational/career competencies; or
- 2. produce mastery of the content of a sub-field of an academic major (discipline); or
- 3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 6000-level courses as requirements and/or electives. These 6000-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Each of the following four courses (12 units total) is required.		12
PSCI 4840	National Security Policy	
PSCI 5900	Seminar in International Relations (Intelligence Techniques and Analysis)	
PSCI 5920	Seminar in Government (Research Methods)	
PSCI 6020	International Security	
Total Units		12

Certificate in International Relations

This certificate program is designed to provide students with the knowledge essential for professional endeavors in the field of international relations, as well as generate a base for further academic study. The content includes knowledge pertaining to international actors and institutions, as well as their perspectives and affairs.

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

- 1. impart specified professional/vocational/career competencies; or
- 2. produce mastery of the content of a sub-field of an academic major (discipline); or
- 3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 6000-level courses as requirements and/or electives. These 6000-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Certificate Requirements (18 units)

Twelve units chosen from:		12
PSCI 3000	Western Political Systems	
PSCI 3010	African Politics	
PSCI 3040	East European Political Systems	
PSCI 3050	East Asian Politics	
PSCI 3060	Latin American Politics	
PSCI 3080	Government and Politics of the Middle East	
PSCI 3250	American Foreign Policy	
PSCI 4000	International Politics	
PSCI 4840	National Security Policy	
PSCI 5000	International Law	
PSCI 5100	International Organization	
PSCI 5400	Seminar in Comparative Politics	
PSCI 5900	Seminar in International Relations	
Six units chosen from:		6
ECON 3318	International Economics	
ECON 3780	Multinational Corporations	
FIN 4330	International Finance	
HIST 5030	Europe Since 1945	
HIST 5560	Foreign Relations of the United States	
MGMT 4050	Managing Across Borders	
SSCI 3000	Global Issues and Perspectives	
Total Units		18

Department of Psychology

Social and Behavioral Sciences Building, Room 425
(909) 537-5570 Department of Psychology website (<http://psychology.csusb.edu/>)

The general objectives of the Bachelor of Arts in Psychology are to present the scientific and professional aspects of psychology to the undergraduate majoring in this field and to provide service courses as electives for students throughout the university. Psychology majors may plan to apply the knowledge and skills provided by a broad psychology background to many diverse employment opportunities which do not require graduate training. The department also offers coursework leading to the Master of Arts or the Master of Science in Psychology. Students

intending to enroll in these programs or another graduate school will find that the undergraduate program provides an excellent base for entry into graduate training.

There are two formal concentrations within the Psychology B.A. These are Biological Psychology and Industrial-Organizational Psychology. In declaring a major, students have three options. They can select **General Psychology (no formal concentration)**, **Biological Psychology**, or **Industrial-Organizational Psychology**.

Through regular advising and the guidance of our faculty, students who opt for the **General Psychology** degree will be able to create an individualized plan including an informal concentration in any of a number of subareas within psychology such as clinical/counseling psychology, social psychology, developmental psychology, cognitive psychology, and experimental psychology.

Biological Psychology represents a course of study focusing on the neurological and physiological bases of human behavior. You will study such things as the brain processes implicated in various psychological disorders, the neurological basis of addiction, and the specific ways in which psychotropic drugs influence the brain and behavior.

Industrial/Organizational Psychology concerns the psychology of the workplace. I/O psychologists are concerned with personnel selection, gender equity in work settings, understanding and improving relations between employer and employee, program evaluation, employee mental health, and many other issues regarding the interface between psychology and business.

Departmental Honors

Students majoring in psychology are eligible to receive honors in psychology at graduation if the following conditions are met:

1. At least a 3.5 grade point average in the major;
2. An overall grade point average of 3.5 or better*;
3. Completion of one WI designated course (typically fulfilled through GE) with a "B" or better prior to enrollment in the Honors Program;
4. Completion of PSYC 3311 with a "B+" or better prior to enrollment in the Honors Program;
5. Completion of the Application for Honors Program in Psychology, which includes a statement of purpose and approval of a faculty sponsor;
6. Completion of the two-semester Honors Program with a grade of "B" (3.0) or better each term:

PSYC 5597	Honors Seminar	3
PSYC 5598	Honors Project	3

Students interested in this recognition must file a formal application for enrollment in the Psychology Honors Program in their junior year.

Note that the qualifications above are ideal rather than absolute; students who fall short on one of the requirements may be considered on a case-by-case basis.

Graduate Programs in the Psychology Department

Social and Behavioral Sciences Building, Room 425

(909) 537-5570 Department of Psychology website (<https://www.csusb.edu/psychology/>)

The **Master of Arts in Child Development** provides a program of study with courses selected from a variety of basic areas in human development and psychology that pertain to the study of children. Utilizing an interdisciplinary and applied focus, students will take courses in infant, child, and adolescent development; families and parenting; cognitive and language development; applications of developmental theory; and research methods.

The **Master of Arts in Psychological Science** provides a program of study with courses selected from a variety of basic areas in psychology. The program provides a broad background suitable for entry into doctoral programs in any area of psychology (e.g., social, cognitive, developmental, neuroscience, or clinical); or for employment that benefits from a Master of Arts degree in Psychology. A central component of the program is involvement in active research in some area of psychology under the guidance of the program faculty.

The **Master of Science in Clinical/Counseling Psychology** provides students with practical skills in counseling - through supervised training and experience - and a critical understanding of the relevant subject matter and the research evidence base. The program offers required course work designed to meet the educational requirements for licensure as a Marriage and Family Therapist (MFT) as outlined by the California Board of Behavioral Sciences. This is a full-time, day-time program designed to be completed in two years. The program culminates with either a thesis or comprehensive examination.

The **Master of Science in Industrial and Organizational Psychology** provides students with the skills to apply the principles and methods of psychology to organizations, public and private, and to settings where people are engaged in work. To be successful, the graduate must have developed knowledge and appreciation of psychological theory and research as they apply to organizations and people at work, and mastery of the measurement and research technologies which are commonly used in the discipline.

Psychology (p. 367)

Master of Arts in Psychological Science

The objective of the Master of Arts in Psychological Science is to provide a program of study with courses selected from a variety of basic areas in experimental psychology. The program provides a broad background suitable for entry into doctoral programs in any area of psychology (e.g., social, cognitive, developmental, neuroscience, or clinical); or for employment that benefits from a Master of Arts degree in Psychology. Active research involvement in some area of Psychological Science will be expected of all students in the program.

Admission to the Program

In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

1. A baccalaureate degree with a major in psychology; or with any other undergraduate major;
2. Satisfy the graduate admissions committee of the Department of Psychology that a satisfactory course of study has been pursued in preparation for graduate study in psychology;
3. A cumulative undergraduate grade point average of at least 3.0 ("B") overall and in the major;

4. A brief statement describing preparation for graduate study (e.g., research experience, academic accomplishments), identifying a specific Psychological Science faculty member (or two) whose research is of particular interest to the applicant, and discussing the applicant's professional aspirations and goals for graduate study. To be submitted to the department;
5. Three letters of recommendation, with at least two from former professors. Letters should come directly from the writers or be included in a placement file. (It is the applicant's responsibility to determine if letters have been received.);
6. Satisfaction of the prerequisites or their equivalent:

PSYC 100	Introduction to Psychology
PSYC 210	Psychological Statistics
PSYC 311	Introduction to Experimental Psychology

Students who meet the general requirements of the university for admission to graduate study, but who do not meet the Psychology Department's specific requirements for admission to classified status or who wish to take course work prior to spring quarter consideration of their application for classified status, may be admitted to the university in the unclassified postbaccalaureate status. Unclassified postbaccalaureate students may enroll, with consent of the Psychology Department, in selected graduate courses.

Advancement to Candidacy

At the end of the winter semester, all first year graduate students will be evaluated to determine whether or not they will be advanced to candidacy for the Master of Arts degree. Students will be reevaluated each semester until they are either advanced to candidacy or declassified.

To be formally advanced to candidacy, a student must, to the satisfaction of the chair of the department, have:

1. Achieved classified status;
2. Successfully completed 17 units of course work in the program and maintained a 3.0 ("B") grade point average in the course work;
3. Selected a graduate advisor to supervise the course of study;
4. Complied with the ethical standards of the American Psychological Association;
5. Filed an approved graduate program which must have the approval of the student's advisor, the department chair or the graduate program director and the Dean of Graduate Studies;
6. Demonstrated successful research participation with a faculty advisor. Success will be determined by a passing grade in PSYC 6952 (2 units). PSYC 6953 (3 units) will be reserved for the completed thesis proposal after advancement. This requirement can be fulfilled in one of three ways:
 - a. Student becomes familiar with the literature in a research area related to their thesis research. This could take the form of a partial literature review, an annotated bibliography and/or a presentation of the literature of interest to faculty/student groups.
 - b. Student becomes familiar with several related research literatures if their area of interest is currently undeveloped or if specialized knowledge of particular methodologies requires further investigation for the development of a thesis project.
 - c. Student acquires skills in certain specialized research methods which will pertain to their abilities to gather data for the thesis. Examples of such activities could include gathering pilot data

to acquire interview skills, knowledge of survey procedures, assessment skills, advanced statistical skills, understanding of content analysis, skills to work with a special population, or advanced physiological measurement skills.

Requirements for Graduation

1. A minimum of 34 semester units of approved graduate-level work, with a minimum of 25 units completed at this university. Any transfer units are subject to approval by the program director.
2. A grade point average of at least 3.0 ("B") in all courses taken to satisfy the Master of Arts degree, grades of "B-" (2.7) or better in each required course in the program, and grades of "C" (2.0) or better in each elective course;
3. Successful completion of the course work listed below, including a culminating experience consisting of the completion and defense of an original master's thesis;
4. The Graduate Writing Assessment Requirement is met through successful completion of PSYC 6640 with a grade of B- or higher.
5. Any additional general requirements not cited above and listed in Graduate Degree and Program Requirements (p. 71).

Classified graduate students in the Master of Arts program must complete their degree requirements within seven years of admission to that program. Students in classified status who fail to register for at least one course in the Psychology M.A. program each semester will automatically be declassified. PSYC 6990-6996 (Continuous Enrollment for Graduate Candidacy Standing) must be taken if another course is not taken during a given semester.

Degree Requirements (34-35 units)

PSYC 6001	Proseminar in Psychological Science I	2
PSYC 6002	Proseminar in Psychological Science II	1
PSYC 6952-6955	Advanced Independent Study (2-5 units for a total of 5)	5
PSYC 6640	Advanced Methods in Psychological Research	3
PSYC 6641	Analysis of Variance	4
PSYC 6656	Advanced Biological Psychology	3
Three units of PSYC 5000- or 6000-level courses, excluding PSYC 5951-5953, PSYC 6951-6955, PSYC 6121-6125 and PSYC 6891-6893.		3
Culminating Experience (4)		4
Concentration (9-10)		
Students must satisfy the requirements of one of the concentrations listed below		9-10
Total Units		34-35

Culminating Experience (4 units)

PSYC 6974	Thesis	4
Complete and defend original Master's Thesis		
Total Units		4

Concentrations (9-10 units)

General Concentration (10 units)

(Program Code: PYSC)

PSYC 6642	Regression and Nonparametric Statistics	4
PSYC 6650	Advanced Cognitive Psychology	3
PSYC 6658	Advanced Social Psychology	3
Total Units		10

Behavioral and Cognitive Neuroscience Concentration (9 units)

(Program Code: PBCN)

Overview: The objective of the Behavioral and Cognitive Neuroscience concentration is to provide a focused course of study for students intending to advance to doctoral programs in biological psychology, behavioral neuroscience, cognitive neuroscience or related disciplines; or for employment that benefits from a Master of Arts degree in Psychology or training related to Neuroscience. Students will obtain a strong understanding of experimental design and statistics, and then choose core courses tailored to their future academic goals. Active research involvement in Behavioral and/or Cognitive Neuroscience is an expectation of the program.

Nine units chosen from:		9
PSYC 5538	Introduction to Psychopharmacology	
PSYC 5539	Current Methods in Neuroscience	
PSYC 5562	Neural Mechanisms of Learning and Memory	
PSYC 5567	Neural Substrates of Psychiatric Disorders	
PSYC 6642	Regression and Nonparametric Statistics	
PSYC 6652	Advanced Learning and Motivation	
Total Units		9

Master of Science in Clinical/Counseling Psychology

The principal objective of the master of science clinical/counseling psychology program is to provide students with practical skills in counseling - through supervised training and experience - and a critical understanding of the relevant subject matter and the research evidence base. The program offers required course work designed to meet the educational requirements for licensure as a Marriage and Family Therapist (MFT) as outlined by the California Board of Behavioral Sciences. The program is a full-time, day-time program designed to be completed in two years. The program culminates with either a thesis or comprehensive examination.

Admission to the Program

In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

1. A minimum cumulative undergraduate grade point average of 3.0;
2. A minimum cumulative undergraduate grade point average in the major of 3.0 ("B");
3. A baccalaureate degree in psychology; or
A baccalaureate degree in a major other than psychology, including a course of study judged, by the Psychology Department graduate

admissions committee, to be satisfactory preparation for graduate study in psychology.

4. Submission to the department graduate admissions committee of a brief statement (one or two typewritten pages) of the student's preparation for graduate study, goals in a graduate training program and professional aspirations following receipt of the master's degree;
5. Submission of three letters of recommendation from people who are in a position to make relevant comments on the student's likely success in a graduate psychology program. At least two of these letters should be from former professors who are familiar with the student's scholarly activities.

For students seeking admission in the M.S.Clinical/Counseling program, the following courses are required for classified status:

Completion of the following prerequisite courses or their equivalent:

PSYC 1100	Introduction to Psychology	3
PSYC 2210	Psychological Statistics	4
PSYC 3311	Research Methods in Psychology	4
PSYC 3385	Personality Psychology	3
or PSYC 3386	Introduction to Psychotherapy	
PSYC 3390	Abnormal Psychology	3

Students who meet the general requirements of the university for admission to graduate study, but who do not meet the Psychology Department's specific requirements for admission to classified status or who wish to take course work prior to winter quarter consideration of their application for classified status, may be admitted to the university in the unclassified postbaccalaureate status. Unclassified postbaccalaureate students may enroll, when space is available, in selected graduate courses, with the instructor's approval.

Advancement to Candidacy

In order to be advanced to candidacy, a student must have:

1. Achieved classified status;
2. Secured a graduate advisor to supervise the course of study;
3. Completed, with the approval of the student's advisor, at least 30 semester units of graduate course work at this university, and achieved a minimum grade point average of 3.0 ("B") in those courses;
4. Satisfied the Writing Requirement for Graduate Candidacy (WRGC);
5. Filed an approved Advancement to Candidacy form which must have the approval of the student's advisor, the department chair or chair of the graduate program committee and the Dean of Graduate Studies.

Requirements for Graduation

1. Completed at least 60-68 semester units of course work (depending on the culminating option selected (Thesis or Comprehensive examination) in # 2 below) in graduate program with a grade point average of at least 3.0 ("B") and grades of "C" (2.0) or better in all courses in the program with at least 30 semester units completed at this university;
2. One of the following:
 - a. Completed and defended an original thesis. Students selecting the thesis option take three units of PSYC 6953 in preparation for the thesis.
 - OR

- b. Successful completion of the comprehensive examination. Students selecting the comprehensive examination option take three units of PSYC 6123 in preparation for the examination;
3. Received the approval of the student's graduate advisor;
4. Any additional general requirements not cited above and listed in Graduate Degree and Program Requirements (p. 71). The comprehensive examination is designed to be integrative in nature and is offered during the spring semester only. Students who do not receive a passing grade may elect to:
 - a. Repeat the examination, one additional time only
 - OR
 - b. Complete PSYC 6974 Thesis. Complete details regarding the comprehensive examination option are available from the Psychology Department.
5. The Graduate Writing Assessment Requirement is met upon successful completion of either PSYC 6974 or PSYC 6980.

Classified graduate students in the Master of Science in Clinical/Counseling Psychology program must complete their degree requirements within seven years of admission to the program. Students with classified status who fail to register for at least one course in the Psychology M.S. program each quarter will automatically be declassified.

Degree Requirements (60-68 units)

(Program Code: CCPY)

PSYC 6618	Community and Public Mental Health	3

Master of Science in Industrial and Organizational Psychology

The principal objective of the Master of Science in Industrial and Organizational Psychology program is to provide students with the skills to apply the principles and methods of psychology to organizations, public and private, and to settings where people are engaged in work. To be successful, the graduate must have developed knowledge and appreciation of psychological theory and research as they apply to organizations and people at work, and mastery of the measurement and research technologies which are commonly used in the discipline.

Admission to the Program

In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

1. A minimum cumulative undergraduate grade point average of 2.5;
2. A minimum cumulative undergraduate grade point average in the major of 3.0 ("B");
3. A baccalaureate degree in psychology;
or
one of the following:
 - a. A baccalaureate degree in a major other than psychology and score at or above the 50th percentile on the Graduate Record Examination (advanced test in psychology);
 - b. A baccalaureate degree in a major other than psychology, including a course of study, judged, by the Psychology Department graduate admissions committee, to be satisfactory preparation for graduate study in psychology;
4. Submission to the department graduate admissions committee of a brief statement (one or two typewritten pages) of the student's preparation for graduate study, goals in a graduate training program, and professional aspirations following receipt of the master's degree;

5. Submission of three letters of recommendation from people who are in a position to make relevant comments on the student's likely success in a graduate psychology program. At least two of these letters should be from former professors who are familiar with the student's scholarly activities.

Completion of the following prerequisite courses or their equivalent:

Introduction to Psychology
Psychological Statistics
Introduction to Experimental Psychology

The following courses (or equivalent) are recommended:

Organizational Psychology or Organizational Behavior
Industrial Psychology
Tests and Measurements

Students who meet the general requirements of the university for admission to graduate study, but who do not meet the Psychology Department's specific requirements for admission to classified status or who wish to take course work before spring semester consideration of their application for classified status, may be admitted to the university in the unclassified postbaccalaureate status. Unclassified postbaccalaureate students may enroll, when space is available, in selected graduate courses, with the instructor's approval.

Advancement to Candidacy

To be advanced to candidacy, a student must have:

1. Achieved classified status;
2. Secured a graduate advisor to supervise the course of study;
3. Completed, with the approval of the student's advisor, at least 12 semester units of graduate course work at this university, and achieved a minimum grade point average of 3.0 ("B") in those courses;
4. Satisfied the Writing Requirement for Graduate Candidacy (WRGC).
5. Filed an approved Advancement to Candidacy form which must have the approval of the student's advisor, the department chair or chair of the graduate program committee and the Dean of Graduate Studies.

Requirements for Graduation

1. Completed a minimum of 45 semester units of approved graduate level work with at least 32 units completed in residence at this university with a grade point average of at least 3.0 ("B") and grades of "C" (2.0) or better in all courses in the program.
2. Completed and defended an original master's thesis (a three-course sequence, PSYC 6951 twice in a sequence, and PSYC 6974).
3. The Graduate Writing Assessment Requirement is met through successful completion of PSYC 6974.

Classified graduate students in the Master of Science Industrial and Organizational Psychology program must complete their degree requirements within seven years of admission to the program. Students with classified status who fail to register for at least one course in the Psychology M.S. program each semester will automatically be declassified.

Degree Requirements (45 units)

(Program code: IOPY)

PSYC 5581	Current Professional Issues in Industrial-Organizational Psychology	1
PSYC 6601	Job Analysis, Performance Management, & Compensation	3
PSYC 6602	Organizational Development, Training, and Work Groups	3
PSYC 6603	Talent Acquisition and Legal Issues	3
PSYC 6604	Motivation and Leadership	3
PSYC 6640	Advanced Methods in Psychological Research	3
PSYC 6641	Analysis of Variance	4
PSYC 6642	Regression and Nonparametric Statistics	4
PSYC 6644	Applied Psychological Measurement	3
PSYC 6675	Practicum in Applied Psychology	3
PSYC 6893	Externship in Applied Psychology	3
Three units chosen from:		3
PSYC 5582	Diversity, Work, and Family	
PSYC 5583	Occupational Health Psychology	
PSYC 5584	Work Across the Lifespan	
Three units chosen from:		3
PSYC 6643	Multivariate Methods	
PSYC 6650	Advanced Cognitive Psychology	
PSYC 6652	Advanced Learning and Motivation	
PSYC 6654	Advanced Life-Span Developmental Psychology	
PSYC 6656	Advanced Biological Psychology	
PSYC 6658	Advanced Social Psychology	
Culminating Experience (6)		6
Total Units		45

Culminating Experience (6 units)

The culminating experience for the program is a research thesis, completed under the supervision of a faculty member, and consists of the following courses:

PSYC 6951	Advanced Independent Study (taken twice for a total of 2 units)	2
PSYC 6974	Thesis	4
Total Units		6

Bachelor of Arts in Psychology

As prerequisites for acceptance into the B.A. in Psychology, students must complete the following as a "Pre-psychology major." Upon completion of the requirements, the student's major will be changed automatically from "Pre-psychology" to "Psychology" status. Following formal entrance to the Psychology major, students may proceed with PSYC 3311 and the following upper-division courses meeting requirements in the major: PSYC 3355, PSYC 3357, PSYC 3359, PSYC 3360, PSYC 3362, PSYC 3363, PSYC 3364, PSYC 3377, or PSYC 3386, along with the 4000-level culminating experience courses. Students enrolled in a Pre-psychology course will be allowed to enroll

in PSYC 3311 for the following semester with the understanding that all Pre-psychology requirements will be completed successfully by the start of that semester. Prior to completing the prerequisites that comprise the Pre-psychology major, students who have completed PSYC 1100 may enroll in select upper division Psychology courses, the exceptions being noted above.

There are two formal concentrations within the Psychology B.A.. These are Biological Psychology and Industrial-Organizational Psychology. In declaring a major, students have three options. They can select **General Psychology (no formal concentration)**, **Biological Psychology**, or **Industrial-Organizational Psychology**.

Through regular advising and the guidance of our faculty, students who opt for the **General Psychology** degree will be able to create an individualized plan including an informal concentration in any of a number of subareas within psychology such as clinical/counseling psychology, social psychology, developmental psychology, cognitive psychology, and experimental psychology.

Requirements to enter the B.A. in Psychology

General Education Basic Skills in English (A1) (3)		3
General Education Basic Skills in Mathematics (B4) (3)		3
Psychology Courses (15)		
PSYC 1100	Introduction to Psychology	3
PSYC 1101	Psychology as a Major	2
PSYC 2210	Psychological Statistics	4
PSYC 2220	Brain and Behavior	3
PSYC 2211	Introduction to Psychological Research	3
Total Units		21

Students may earn no grade lower than a "C" (2.0) in each of these courses. In addition, students must have a GPA of 2.5 in the Pre-psychology major and an overall University GPA of 2.25.

A student is permitted three attempts to successfully complete each of the required courses in the major. If a student does not successfully complete a required course after three attempts, the student must change majors.

Students are encouraged to complete PSYC 1101 early in the curriculum. Students should complete PSYC 3311 by the end of their junior year.

Requirements (49-50 units)

Total units required for graduation: 120

Requirements for the B.A. in Psychology

Required Courses for the Psychology B.A. (25-26)		
PSYC 1100	Introduction to Psychology	3
PSYC 1101	Psychology as a Major	2
PSYC 2210	Psychological Statistics	4
PSYC 2211	Introduction to Psychological Research	3
PSYC 2220	Brain and Behavior	3
PSYC 3311	Research Methods in Psychology	4
Three units chosen from:		3
PSYC 3382	Social Psychology	
PSYC 3390	Abnormal Psychology	

Advanced Culminating Experience (3-4 units) (includes Writing Designation)	3-4
Students select a course in consultation with a Psychology Department advisor	
Concentration (24)	
Students must complete the requirements of one of the concentrations listed below.	24
Total Units	49-50

Students enrolling in the Psychology Honors Program during their senior year will take PSYC 5597 and PSYC 5598 in addition to the above requirements.

Concentrations (24 units)

General Psychology Concentration (24 units)

(Program Code: PSYC)

PSYC 2201	Developmental Psychology	3
or PSYC 3326	Developmental Psychobiology	
Students may substitute PSYC 2240 for this requirement. Students may only apply one of PSYC 2201 or PSYC 2240 to the Psychology major.		
PSYC 3360	Cognitive Psychology	3
or PSYC 3364	Perception	
Three units chosen from:		3
PSYC 3359	Evolutionary Psychology	
PSYC 3362	Learning and Motivation	
PSYC 3363	Biological Psychology	
Six units chosen from:		6
PSYC 3355	Industrial Psychology	
PSYC 3357	History and Systems of Psychology	
PSYC 3377	Tests and Measurements	
PSYC 3386	Introduction to Psychotherapy	
Upper Division Psychology Electives		9
Students intending to apply to doctoral programs in psychology are encouraged to take the following courses: PSYC 3357, PSYC 3377, PSYC 4410, PSYC 5953.		
Total Units		24

For the General Psychology Concentration, the Advanced Culminating Experience requirement is typically met by choosing a course from either the Advanced Experimental Psychology Option (PSYC 4431, PSYC 4432, PSYC 4433, PSYC 4434, PSYC 4435, PSYC 4436, PSYC 4437, or PSYC 4438) or the Advanced Seminar in Psychology Option (PSYC 4421, PSYC 4422, PSYC 4423, PSYC 4424, PSYC 4425, PSYC 4426, PSYC 4427, or PSYC 4428).

Biological Psychology Concentration (24 units)

(Program Code: PBIO)

Biological psychology represents a course of study focusing on the neurological and physiological bases of human behavior. You will study such things as the brain processes implicated in various psychological disorders, the neurological basis of addiction, and the specific ways in which psychotropic drugs influence the brain and behavior.

PSYC 3363	Biological Psychology	3
PSYC 4442	Behavioral Neuroscience	3
Three units chosen from:		3
PSYC 3355	Industrial Psychology	
PSYC 3385	Personality Psychology	
PSYC 2201	Developmental Psychology	
or PSYC 2240	Introduction to Child Development	
Three units chosen from:		3
PSYC 3359	Evolutionary Psychology	
PSYC 3360	Cognitive Psychology	
PSYC 3364	Perception	
Foundations of Biopsychology		
Six units chosen from:		6
PSYC 3362	Learning and Motivation	
PSYC 3365	Cognitive Neuroscience	
PSYC 5538	Introduction to Psychopharmacology	
Upper-division Biopsychology Electives		
Six units chosen from:		6
PSYC 3318	Health Psychology	
PSYC 3326	Developmental Psychobiology	
PSYC 3333	Drugs and Behavior	
PSYC 3339	Methods in Human Neuroscience	
PSYC 3357	History and Systems of Psychology	
PSYC 3359	Evolutionary Psychology	
PSYC 3362	Learning and Motivation	
PSYC 3365	Cognitive Neuroscience	
PSYC 3367	Neuropsychiatric Disorders	
PSYC 4410	Advanced Psychological Statistics	
PSYC 4423	Advanced Seminar in Psychology: Biological	
PSYC 4426	Advanced Seminar in Psychology: Learning and Motivation	
PSYC 5538	Introduction to Psychopharmacology	
PSYC 5539	Current Methods in Neuroscience	
PSYC 5562	Neural Mechanisms of Learning and Memory	
PSYC 5567	Neural Substrates of Psychiatric Disorders	
Total Units		24

For the Biological Psychology concentration, the Advanced Culminating Experience requirement is typically satisfied by taking either PSYC 4433 (Experimental Psychology: Biological) or PSYC 4436 (Experimental Psychology: Learning and Motivation).

Students intending to apply to doctoral programs in biopsychology are encouraged to take appropriate course work in biology, chemistry, and physics.

Industrial and Organizational Psychology Concentration (24 units)

(Program Code: PYIO)

Industrial/Organizational Psychology concerns the psychology of the workplace. I/O psychologists are concerned with personnel selection,

gender equity in work settings, understanding and improving relations between employer and employee, program evaluation, employee mental health, and many other issues regarding the interface between psychology and business.

PSYC 3354	Organizational Psychology	3
PSYC 3355	Industrial Psychology	3
PSYC 3377	Tests and Measurements	3
Six units chosen from:		6
PSYC 3360	Cognitive Psychology	
PSYC 3362	Learning and Motivation	
PSYC 3363	Biological Psychology	
PSYC 3364	Perception	
Three units chosen from:		3
PSYC 2201	Developmental Psychology (may substitute PSYC 2240 for PSYC 2201 with department consent)	
PSYC 3357	History and Systems of Psychology	
PSYC 3385	Personality Psychology	
A minimum of six units chosen from:		6
PSYC 3340	Stereotyping, Prejudice and Discrimination	
PSYC 4410	Advanced Psychological Statistics	
PSYC 5582	Diversity, Work, and Family	
PSYC 5583	Occupational Health Psychology	
PSYC 5584	Work Across the Lifespan	
PSYC 5575	Internship	
PSYC 5953	Independent Study	
Total Units		24

For the Industrial-Organizational Psychology concentration, the Advanced Culminating Experience requirement is typically satisfied by taking either PSYC 4428 (Advanced Seminar in IO Psychology) or PSYC 4438 (Experimental Psychology: Industrial and Organizational).

Minor in Psychology

A minor in Psychology is an effective complement to a variety of majors including Criminal Justice, Communication Studies, Management, Marketing, Social Work, and Health Science.

Requirements for a minor in Psychology (21 units)

PSYC 1100	Introduction to Psychology	3
PSYC 2220	Brain and Behavior	3
PSYC 2211	Introduction to Psychological Research	3
PSYC 3382	Social Psychology	3
or PSYC 3390	Abnormal Psychology	
PSYC 2201	Developmental Psychology	3
or PSYC 3324	Developmental Psychobiology	
Students may substitute PSYC 2240 Introduction to Child Development for this requirement. Students may only apply one of 2201 or 2240 to the Psychology minor.		
Six units of upper-division Psychology Electives		6
Total Units		21

Department of Sociology

Sociology

Social and Behavioral Sciences Building, Room 327
(909) 537-5541 Department of Sociology website (<https://www.csusb.edu/sociology/>)

The Sociology major offers students a rigorous program of study to examine social phenomena, develop theoretical and methodological proficiencies, and apply a critical understanding of complex social issues and processes. The curriculum is designed to provide students with a solid sociological foundation to analyze social structures and contribute to transforming and diversifying our social world.

We offer a Bachelor of Arts in Sociology, a Sociology minor, and a Certificate in Gerontology. Our faculty also teach in interdisciplinary programs including Gender & Sexuality Studies, Ethnic Studies, Social Sciences, and the Master of Arts in Social Sciences & Globalization. Our curriculum is designed to prepare students to examine and analyze social phenomena from a sociological perspective. Through our student-centered and applied coursework, students develop critical analysis skills, theoretical and methodological proficiencies, research experience, and internship/service-learning opportunities that prepare them for graduate degrees and professional careers.

As an adjunct to the curriculum, there are two student organizations for sociology majors. The Sociology Club has a varied program of social, community service, and academically-oriented activities. In addition to general sociology majors, students in human services and students in social services actively participate in the club. A chapter of Alpha Kappa Delta, the sociology honor society, is open to junior sociology majors with a 3.5-grade point average and to seniors and graduate students with a 3.0-grade point average.

Bachelor of Arts in Sociology

The sociology major offers students a rigorous program of study to examine social phenomena, develop theoretical and methodological proficiencies, and apply a critical understanding of complex social issues and processes.

The curriculum is designed to provide students with a solid sociological foundation in understanding social institutions, social inequality and diversity, and social processes and change as well as opportunities to practice sociology through community engagement and internships.

The requirements for the bachelor's degree in Sociology prepare students to pursue graduate studies in sociology, social work, counseling, and other professional programs in addition to careers in social services, education, criminal justice, law, health care, and non-profit organizations.

Requirements (37 units)

Total units required for graduation: 120 units

Requirements for the B.A. in Sociology

(Program Code: SOC)

Foundation (13)

SOC 1000	Introduction to Sociology	3
SOC 3010	Qualitative Analysis & Field Research	3
SOC 3110	Sociological Theory	3
SOC 3070	Quantitative Analysis & Survey Research	4

Core Electives (12)

Complete 3 units from each of the four core areas:

Core A: Social Institutions		3
SOC 3400	Sociology of Families	
SOC 3410	The African American Family	
SOC 3900	Sociology of Education	
SOC 3420	The Latino Family	
SOC 3550	Medical Sociology	
SOC 3800	Sociology of Religion	
SOC 4220	Sociology of Work	
SOC 4320	Political Sociology	
Core B: Social Inequality and Diversity		3

SOC 3360	Black Women and Feminism
SOC 3430	Sociology of Violence
SOC 4100	Sociology of Race and Ethnicity
SOC 4400	Social Inequality
SOC 4410	Black Americans in Contemporary Society
SOC 4420	The Latino Experience in the U.S.
SOC 4440	Sociology of Sex and Gender
SOC 4530	Citizenship, Status, and Inequality

Core C: Social Processes and Change 3

SOC 3300	Aging and The Lifecourse
SOC 3350	Population and Society
SOC 3390	Socialization
SOC 3500	Criminology
SOC 3700	Sociology of Globalization
SOC 3540	Deviant Behavior
SOC 3560	Sociology of Mental Health
SOC 3600	Social Psychology
SOC 4200	Social Movements
SOC 4240	Social Networks
SOC 4300	Urban Sociology
SOC 4360	Group Dynamics
SOC 4510	Sociology of Migration
SOC 4520	Social Change and Innovation

Core D: Community Engagement and Applied Sociology 3

SOC 3020	Introduction to Community-Based Research
SOC 4180	Social Welfare in the U.S.
SOC 4340	Community Organization
SOC 4840	Social Casework
SOC 5500	Applied Sociological Research
SOC 5753	Internship and Practicum

Senior Capstone (3) 3

SOC 5250	Indian Nations and Native America

Certificate in Gerontology

Between 2015 and 2060, the number of older adults (aged 65-plus) in the United States is projected to rise from 50 million to 95 million; and will soon represent more than one out of every five Americans. This remarkable and unprecedented societal change will create numerous and unique opportunities for those interested in occupations related to the field of aging.

The *Certificate in Gerontology* at CSUSB is designed for undergraduate students from a variety of disciplines, and with a variety of career goals. Although traditionally completed by students in Sociology, Psychology, Health Science, and Kinesiology; this certificate is open to all majors. Successful completion of the certificate will not only impart competency in gerontology, but it will also expose the student to a range of perspectives in this emerging interdisciplinary field.

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 6000-level courses as requirements and/or electives. These 6000-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Certificate Requirements (18 units)

Core Requirements (9)

Nine units chosen from:		9
HSCI 4023	Health and Wellness of Older Adults	
SOC 3300	Aging and The Lifecourse	
PSYC 3329	Psychology of Adulthood and Aging	
KINE 3600	Physical Activity and Aging	

Electives (9)

Nine units chosen from:		9
HSCI 3060	Medical Care Organizations	
HSCI 3067	Human Diseases and Disorders	
HSCI 3204	Public Health Nutrition	
or HSCI 4680	Public Health Nutrition in Dietetics	
HSCI 3556	Housing, Institutions, and Land Use	
HSCI 3602	Lifecycle Nutrition and Assessment	
HSCI 4550	Health Aspects of Death and Dying	
HSCI 5753	Field Experience in Public Health (with Gerontology component)	
PSYC 3303	Parenting and Family Relations	
PSYC 3318	Health Psychology	
PSYC 3333	Drugs and Behavior	
PSYC 3345	Cross-Cultural Psychology	
PSYC 3372	Psychology of Death and Dying	

PSYC 5540	Work, Retirement, and Leisure
PSYC 5575	Internship (with Gerontology component)
SOC 3390	Socialization
SOC 3400	Sociology of Families
SOC 3430	Sociology of Violence
SOC 3550	Medical Sociology
SOC 4180	Social Welfare in the U.S.
SOC 5300	Global Aging
SOC 5751	Internship and Practicum (with Gerontology component)
KINE 3100	Introduction to Adapted Physical Activity
KINE 3400	Psychology and Sociology of Human Movement
KINE 3810	Sport and Exercise Nutrition
KINE 4400	Exercise Testing and Prescription
KINE 4700	Clinical Exercise Physiology

Total Units **18**

School of Criminology and Criminal Justice

Social and Behavioral Sciences Building, Room 209

(909) 537-5506 School of Criminology and Criminal Justice website
(<http://criminaljustice.csusb.edu/>)

A system of criminal justice must meet the needs of each citizen as well as the needs of complex social, economic, and governmental institutions. The Bachelor of Arts degree program in criminal justice was developed with these needs in mind. Our curriculum focuses on the history and functions of the criminal justice system, research design, policy implementation, theoretical and environmental causes of crime, and practical skills for those interested in a career in criminal justice and related fields.

In addition, the program is designed to provide students with an appropriate academic background for continuing their graduate studies in criminal justice, criminology, or other areas such as law.

The criminal justice major is an interdisciplinary program with enough flexibility to permit students to pursue their own interests. For example, students wishing to emphasize law enforcement may select appropriate courses within the major. Students directed toward probation, parole or corrections work are advised to select courses accordingly.

Crime Analysis is a rapidly growing field offering exciting employment opportunities. Increasingly, criminal justice agencies-- at the local and state level-- are hiring people with advanced analytic and technological capabilities. The drive to engage in more proactive, evidence-based policing founded upon sound analysis is a national trend that is unlikely to slow. Courses are organized into several tracks allowing students to research-based instruction, students are offered a range of concentration areas, including cyber security, geographic information systems, and homeland security.

Departmental Honors

Undergraduate students majoring in Criminal Justice are eligible to receive honors in criminal justice at graduation if the following conditions are met:

- At least one-half of the course work required by the major is completed at CSUSB;
- At least 3.5 grade point average in the major;
- An overall undergraduate grade point average of 3.0 ("B")

Students interested in receiving this recognition must initiate the process by completing an application with the School of Criminology and Criminal Justice Administrative Support Coordinator. Applications for honors candidacy must be submitted prior to the Census date for the term in which the student is graduating. Approval of candidacy rests with the school.

Master of Arts in Criminal Justice

The Master of Arts in Criminal Justice is designed to serve the growing number of individuals in the criminal justice system who desire postbaccalaureate education, as well as those in more traditional public and private employment who may wish to acquire further education in criminal justice.

The degree program offers two options for the culminating experience. 1) The thesis option is designed for students who intend to pursue graduate studies beyond the M.A. level and those students who have special

research interests in the criminal justice system. 2) The comprehensive examination option is for those with administrative and management goals.

The program can serve a variety of student interests. It has been designed with a limited prerequisite requirement to enable students with baccalaureate degrees in related fields such as psychology, administration, anthropology, sociology or social sciences to enroll along with students with undergraduate degrees in criminal justice.

Admission to the Program

The Graduate Committee cannot act on applications until they have been reviewed by the Office of Graduate Admissions, and have met university admissions requirements. Check the Criminal Justice Department website for application deadlines. Applications will be evaluated on a competitive basis and enrollment is limited.

In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

1. A baccalaureate degree from an accredited college or university;
2. Completion of an undergraduate major in criminal justice, criminology, sociology, or in an allied field such as psychology, administration, or another social science, or recommendation for admission to the program by the Graduate Admissions Committee. Competence in the following prerequisite areas: criminological theory, law enforcement, institutional and community corrections, research methods and statistics is expected;
3. A minimum undergraduate grade point average of at least 3.0 overall and 3.0 ("B") in the major;
4. Submission of any available GRE scores, in the event the applicant feels that such scores would enhance their chances of admission. Submission of such scores is not mandatory;
5. Submission to the criminal justice program of three letters of recommendation from individuals who are familiar with the student's academic work and potential to complete the program successfully. Letters must come directly from the writer or be included in a placement file, and will be evaluated by criminal justice faculty members.
6. A brief statement of purpose describing the applicant's preparation for graduate study & professional goals.

Advancement to Candidacy

To be advanced to candidacy, a student must have:

1. Achieved classified standing;
2. Completed all required course work except Thesis or Comprehensive Examination;
3. Completed all course work taken before advancement to candidacy with a minimum grade point average of 3.0 ("B"). Completed all course work with no more than one course with a grade as low as "C." If a second such grade is earned, the student will be dismissed from the program, but may petition the graduate admission committee for readmission. After reviewing the petition, the committee may allow readmission under such conditions as it deems appropriate. A third grade of "C" or lower will result in permanent dismissal from the program with no recourse to petition;
4. For the thesis culminating experience: made arrangements for three faculty members, in consultation with the Criminal Justice Graduate

Coordinator, to serve as the student's graduate advisory committee, with one member designated to chair the committee;

5. Completed a formal Program Plan of graduate studies with the Criminal Justice Graduate Coordinator. This should be done after the completion of 15 units of approved graduate level course work;
6. Petitioned the graduate committee, during the quarter in which all course work is to be completed, for formal advancement.

The graduate committee will then consider the student's scholastic performance and other circumstances and either grant advancement to candidacy, specify necessary preparatory studies, or recommend other courses of action.

Requirements for Graduation

1. A minimum of 34 units of acceptable graduate level work, with at least 24 semester units completed in residence at this university;
2. Completion of course work and an acceptable thesis and final oral defense,
or
Completion of course work and registration in and completion of the comprehensive examination with a grade of credit;
3. Any additional general requirements not cited above and listed in Graduate Degree and Program Requirements (p. 71);
4. The graduation writing requirement is met upon successful completion of the thesis or comprehensive examination.

Degree Requirements (34 units)

(Program Code: CJUM)

CJUS 6604	Advanced Techniques of Basic and Applied Research in Criminal Justice	3
CJUS 6605	Proseminar in Criminal Justice	3
CJUS 6606	Statistical Analysis in Criminal Justice	3
CJUS 6607	Applying Criminological Theory to Criminal Justice	3
CJUS 6631 or CJUS 6632	Seminar in Corrections Seminar in Policing	3
CJUS 6641	Planning and Evaluation in Criminal Justice	3
CJUS 6686	Graduate Review in Criminal Justice	1
Nine units of electives (with no more than 3 units at the 5000-level) to be chosen in consultation with an advisor from:		9
CJUS 5550	Intelligence & Crime Analysis 2	
CJUS 5554	Terrorism	
CJUS 5555	Homeland Security	
CJUS 5556	Transnational Organized Crime	
CJUS 5570	Crime in Public Spaces	
CJUS 5580	Juvenile Justice	
CJUS 5585	Life Course Criminality	
CJUS 6608	Crime, Criminals and Victims	
CJUS 6629	Race, Class, & Gender in the Criminal Justice System	
CJUS 6630	Legal Issues in Criminal Justice	
CJUS 6631	Seminar in Corrections	
CJUS 6632	Seminar in Policing	
CJUS 6640	Justice Policy and Administration	

CJUS 6653	Directed Area Studies in Criminal Justice	
Other courses may be allowed with consent of department.		
Culminating Experience (6)		6
Note: Students selecting the Comprehensive Exam Culminating Experience must take six additional elective units with no more than three additional units at the 5000-level		
Total Units		34

Bachelor of Arts in Criminal Justice

Also offered through the College of Extended Learning (<http://cel.csusb.edu/>)

Criminal Justice is an impacted major with GPA entry requirement. The School of Criminology and Criminal Justice will determine entry standards annually based on enrollments.

As prerequisite for acceptance into the B.A. in Criminal Justice, students must complete the following courses as a "Pre-criminal justice major." Upon successful completion of the requirements, student's major will be changed automatically from "Pre-criminal justice" to "Criminal Justice" status. Following formal entrance to the criminal justice major, students may proceed with upper-division CJUS courses.

Requirements to enter the B.A. in Criminal Justice

Completion of the following:

General Education Basic Skills in English (3)

One (1) of the following:		3
ENG 1060A	Stretch Composition II	
or ENG 1060B	Stretch Composition II for Multilingual Students	
ENG 1070A	First-Year Composition	
or ENG 1070B	First-Year Composition for Multilingual Students	
HON 1100	Writing Rhetorically	

General Education Basic Skills in Oral Communication (3)

One (1) of the following:		3
COMM 1006	Oral Communication	
HON 1300	Communicating Orally	

General Education Basic Skills in Mathematics (3)

One (1) of the following:		3
---------------------------	--	---

MATH 1101	Mathematics and Society	
MATH 1103	Stretch Mathematics and Society B	
MATH 1201	Introduction to Statistical Thinking	
MATH 1203	Stretch Introduction to Statistical Thinking B	
MATH 1301	Modeling with Functions	
MATH 1303	Stretch Modeling with Functions B	
MATH 1401	Accelerated Preparation for Calculus	
MATH 1403	Preparation for Calculus B	
MATH 1601	Modeling with Calculus	
MATH 2210	Calculus I	

General Education Basic Skills in Critical Thinking (3)

One (1) of the following:		3
COMM 1007	Critical Thinking Through Argumentation	
HON 1200	Thinking Critically	
MATH 1501	Critical Thinking Through Applications of Mathematical Logic	
PHIL 1005	Critical Thinking Through Argument Analysis	
PHIL 2100	Critical Thinking Through Symbolic Logic	
PSYC 1105	Critical Thinking in Everyday Life	
SOC 1800	Critical Thinking about Social Issues	

Total Units 12

In addition to the GE requirements above, students must complete the following three CJUS courses to fulfill the Pre-criminal justice major requirements. Students are encouraged to take the above classes prior to taking the Criminal Justice classes below.

CJUS 1101	Introduction to the Criminal Justice System	3
CJUS 1102	Criminal Law	3
CJUS 3320	Theories of Crime and Delinquency	3

The grades earned in CJUS 1101 and CJUS 1102 must not be lower than a "C" (2.0). The grade earned in CJUS 3320 must not be lower than a "C-" (1.7). The GPA in the pre major should not be lower than a 2.3 and overall GPA must not be lower than 2.5.

A student may enroll in a criminal justice class three times. If a student does not successfully complete the course after three enrollments, the student must change majors if the course is a required course. Students may appeal to the department academic standards committee.

Requirements (45 units)

Total units required for graduation: 120

Requirements for the B.A. in Criminal Justice

(Program Code: CJUS)

Lower-division requirements (6)

(prerequisites for upper-division courses)

CJUS 1101	Introduction to the Criminal Justice System	3
-----------	---	---

CJUS 1102	Criminal Law	3

CJUS 3330	Correctional Theory and Institutions	3
CJUS 3340	Police and Police Systems	3
CJUS 5598	Integrative Studies in Criminal Justice	3
SSCI 3060	Expository Writing for the Social Sciences	3

Electives (18)

Note: Students transferring from community colleges may substitute a maximum of 9 lower-division units selected from administration of justice courses toward the electives category.

Eighteen units chosen from: 18

CJUS 1106	Criminal Investigations	
CJUS 3354	Victimology	
CJUS 3370	Law and the Courts	
CJUS 3470	Crime Prevention	
CJUS 4430	Correctional Administration	
CJUS 4431	Community Corrections	
CJUS 4435	Correctional Counseling	
CJUS 4440	Police Administration	
CJUS 4441	Community Policing	
CJUS 4451	Women and Crime	
CJUS 4452	White Collar Crime	
CJUS 4453	Gangs	
CJUS 4460	Drugs and the Criminal Justice System	
CJUS 4462	Domestic Violence	
CJUS 4465	Hate Crime, Law, and Policy	
CJUS 4466	Justice and the Media	
CJUS 5504	Criminal Procedure	
CJUS 5506	Wildlife Crime	
CJUS 5508	Preventing Crime in Transportation Systems	
CJUS 5550	Intelligence & Crime Analysis 2	
CJUS 5554	Terrorism	
CJUS 5555	Homeland Security	
CJUS 5556	Transnational Organized Crime	
CJUS 5560	Crime Pattern Detection	
CJUS 5570	Crime in Public Spaces	
CJUS 5571	Social Network Analysis	
CJUS 5580	Juvenile Justice	
CJUS 5585	Life Course Criminality	
CJUS 5753	Internship in Criminal Justice	
CJUS 5901, 5902, 5903	Topics in Criminal Justice	
CJUS 5951, 5952, 5953	Independent Study	
CJUS 5597	Senior Honors Project	

Total Units 45

Note: With consent of the School course substitution committee, six upper-division units in related fields may be substituted for six units of the elective requirement.

Bachelor of Science in Intelligence and Crime Analysis

Upon successful completion of pre-major requirements, student's major will be changed automatically from "Pre-ICA" to "ICA" status. Following formal entrance to the major, students must select a concentration: A) Geographic Information Systems; B) Cyber Security; C) Homeland Security. Then, students may proceed with upper-division courses.

Requirements to enter the B.S. in Intelligence and Crime Analysis

Complete General Education Categories A1, A2, A3 and B4 prior to taking the Pre-ICA requirements.

Pre-ICA Requirements

As prerequisite for acceptance into the B.S. in Intelligence and Crime Analysis, students must complete the following as a "Pre-ICA major."

CJUS 1101	Introduction to the Criminal Justice System	3
CJUS 1102	Criminal Law	3
CJUS 3350	Intelligence & Crime Analysis 1	3
CJUS 3470	Crime Prevention	3
IST 1110	Introduction to Information Technology	1
Total Units		13

The grade earned in each of the above courses must be no lower than a "C" (2.0). The pre-major GPA must be no lower than a 2.3.

A student may enroll in a required course three times. If a student does not successfully complete the course after three enrollments, the student must change majors if the course is a required course. Students may appeal to the department academic standards committee.

The ICA B.S. is offered through the School of Criminology and Criminal Justice. Criminal Justice is an impacted School with GPA entry requirements. The School will determine entry standards annually based on enrollments.

Requirements (55 units)

Total units required for graduation: 120

Requirements for the B.S. in Intelligence and Crime Analysis

Completion of all Pre ICA Requirements		13
Upper Division Requirements (24)		
CJUS 3311	Research Methods in Criminal Justice	3
CJUS 3312	Statistics in Criminal Justice	3
CJUS 3320	Theories of Crime and Delinquency	3
CJUS 5550	Intelligence & Crime Analysis 2	3
CJUS 5560	Crime Pattern Detection	3
or CJUS 5571	Social Network Analysis	
CJUS 5570	Crime in Public Spaces	3

SSCI 3060	Expository Writing for the Social Sciences	3
Three (3) units chosen from:		3
CJUS 5753	Internship in Criminal Justice	
CJUS 5951	Independent Study	
CJUS 5952	Independent Study	
CJUS 5953	Independent Study	
Note: Students may take additional elective CJUS courses if needed to reach 120 units to graduate.		
Concentration (18)		
Students must complete one of the concentrations listed below:		18
Total Units		55

Concentrations (18 units)

Select one (1) concentration and complete all the required and elective courses.

Geographic Information Systems (18 units)

(Program Code: ICGI)

Note: Concentrations may have additional requirements if you desire to obtain professional certificates. Consult the relevant department.

GEOG 2250	Introduction to Geographic Information Systems and Cartography	4
GEOG 3710	Advanced Geographic Information Systems	4
GEOG 3730	Geo-Spatial Analysis	3
GEOG 4880	Remote Sensing of the Environment	4
Minimum of 3 units chosen from:		3
GEOG 4850	Web GIS	
GEOG 4860	GIS and Socio-Economic Applications	
GEOG 4870	Environmental GIS	
GEOG 5753	Internship in Geography	
GEOG 5951	Independent Study	
Total Units		18

Cyber Security (18 units)

(Program Code: ICCS)

IST 2210	Introduction to Networking and Security	3
IST 2310	Applications Development	3
IST 2610	Cybersecurity	3
IST 3110	Management of Information Technology	3
IST 4620	Penetration Testing and Ethical Hacking	3
IST 5250	Incident Handling and Cyber Investigation	3
Total Units		18

Note: Students may take additional elective IST courses in the concentration if needed to reach 120 units to graduate.

Note: Students transferring from community colleges may substitute a maximum of six (6) lower-division units selected from computer science courses for the Cyber Security concentration.

Homeland Security (18 units)

(Program Code: ICHS)

CJUS 3340	Police and Police Systems	3
CJUS 5508	Preventing Crime in Transportation Systems	3
CJUS 5554	Terrorism	3
CJUS 5555	Homeland Security	3
CJUS 5556	Transnational Organized Crime	3
One (1) courses chosen from:		3
PSCI 2040	International Relations	
PSCI 3010	African Politics	
PSCI 3040	East European Political Systems	
PSCI 3050	East Asian Politics	
PSCI 3060	Latin American Politics	
PSCI 3080	Government and Politics of the Middle East	
PSCI 4000	International Politics	
PSCI 4840	National Security Policy	
PSCI 5400	Seminar in Comparative Politics	
PSCI 5200	War and Politics	
ACCT 2110	Introductory Accounting I	
ACCT 2120	Introductory Accounting II	
HIST 3590	United States History, Cold War Era	
HIST 5560	Foreign Relations of the United States	
HIST 5650	Immigration and Ethnic American History	
IST 2610	Cybersecurity	
Total Units		18

Note: Students may take additional PSCI, ACCT, or HIST courses in the concentration if needed to 120 units to graduate.

Note: Students transferring from community colleges may substitute a maximum of six (6) lower-division units selected from administration of justice courses, political science or accounting courses towards the Homeland Security concentration.

Minor in Criminal Justice

Requirements for a minor in Criminal Justice (21 units)

CJUS 1101	Introduction to the Criminal Justice System	3
CJUS 1102	Criminal Law	3

Graduate Degree

Master

Advanced Standing (p. 382)

Social Work (p. 378)

Social Work and Public Administration Concurrent Degrees
 (p. 383)

Master of Social Work

Also offered through the College of Extended and Global Education (3-Year Option only) (<http://cel.csusb.edu/>)

The School of Social Work offers courses leading to the Master of Social Work (MSW) degree and is designed to educate advanced generalist social work leaders with a program that equally emphasizes micro and macro practice. The micro practice sequence of courses prepares students to promote change and well-being with individuals, families

and groups. The macro practice sequence of courses prepares students to promote change and well-being with organizations and communities with an integrated focus on policy practice. The program is based upon the requirements of the Council on Social Work Education, the national accrediting body for social work programs.

The MSW program is offered in three models: Model (1) offers four semesters of course work leading to the MSW degree within two academic years. This option is intended for students who can devote their time and attention to full-time, intensive study. Model (2) offers the same course work over three academic years. The MSW program includes 1080 hours (two or two and a half days) of supervised placement in an agency during the regular work week in the daytime over two academic years. Model (2) is too intensive for students who work 40 hours per week. It is necessary for these students to reduce their hours of employment. Model (3), an Advanced Standing option, is offered to students with a Bachelors degree in Social Work from a CSWE Accredited program. This program can be completed in three (full time) or five (part-time) terms, starting with courses during the summer, then two or four additional semesters of course work. The Advanced Standing option includes 600 hours (two and a half days per week) of supervised placement in an agency during the regular work week in the daytime over one academic year.

Accreditation

The program has held full accreditation by the Commission on Accreditation of the Council on Social Work Education since February 1992. Questions regarding accreditation should be directed to the director of the School of Social Work.

Admission Requirements

Admission into the MSW Program

2-Year or 3-Year Options

Admission to the MSW program is based on an examination of an admission application. In addition to the general requirements of the university, specific minimum requirements for admission consideration are:

1. A baccalaureate degree from an accredited college or university before the start of the MSW program;
2. A grade point average of 3.0 ("B") or better in all course work; or
3. A grade point average of 3.0 ("B") or better in the last 90 quarter units or last 60 semester units; **A GPA of 2.8 or higher (cumulative or last 60 semester units/last 90 quarter units) may be considered with significant social service experience and overall application. The applicant must articulate how their experience is related to social work experience.*
4. An academic background in the liberal arts; with social and behavioral sciences preferred;
5. Paid social work related employment, unpaid social work related experience, internship (social work internship preferred), or volunteer service (the equivalent of at least one year of full-time experience, i.e., 2,080 hours), is preferred, but applicants with less experience will be considered;
6. Evidence of personal qualifications, motivation, and experience that indicate likelihood of becoming a successful social worker; and three references from individuals who are familiar with the student's work, academic background, potential for social work practice, and level of maturity;
7. A course in each of the following:
 - a. Social Science Research Methods
 - b. Human Behavior
 - c. Human Physiology

Students with bachelor's degrees from Council on Social Work Education accredited programs *not* admitted into the Advanced Standing program are required to meet with their faculty advisor prior to beginning course work to determine whether any generalist year MSW courses are redundant with their undergraduate preparation. Such determination may be based on course syllabi, texts, informal evaluation, or formal examination. Each course waived for the qualified applicant must be substituted with an approved elective so that a total of 60 semester units is completed for the master's degree.

Advanced Standing (1-Year or 2-Year) Option

Admission to the Advanced Standing MSW program is based on an examination of an admission application. Student applying to this program must meet general requirements of the university, the requirements for admission into the general MSW program, and specific minimum requirements for admission consideration which includes:

1. A baccalaureate degree in social work from a Council on Social Work Education accredited program in an accredited college or university;
2. A grade point average of 3.0 out of a 4.0 grading scale or better in all course work; or
3. A grade point average of 3.0 out of a 4.0 grading scale for in the last 60 semester units or last 90 quarter units.
4. Students must have earned a minimum grade of B- in all Social Work courses at time of application.

Waiver of Generalist Coursework for Advanced Standing Students

Upon completion of the Advanced Standing Summer Bridge coursework (see below), the generalist coursework (30 units) except for SW 6012 (3 units) will be waived. Students then will be admitted into the MSW program and will complete the Advancement to Candidacy (see below) and complete SW 6012 and the Advanced Generalist year in the program (30 credits). Admission into the Advanced Standing program is conditional until all Summer Bridge coursework have been successfully completed.

The summer bridge coursework includes coursework in the areas of Human Behavior in the Social Environment, Micro Practice, Macro Practice, Research Methods, and Practicum Education. These courses include (see descriptions of courses in Degree Requirements section below) SW 6015, Social Work Research Bridge, SW 6035, Generalist Practice Bridge, and SW 6085, Generalist Practicum Bridge. Once these courses are successfully completed, the student enters the Advanced Generalist year of the MSW program in the Fall Semester, and Generalist coursework (except for SW 6012) is waived. The Generalist courses that are waived include:

- SW 6041: Human Behavior in the Social Environment: Lifespan Development (3 units)
- SW 6042 Human Behavior in the Social Environment: Critical Topics (3 units)
- SW 6021 Generalist Micro Practice I (3 units)
- SW 6022 Generalist Micro Practice II (3 units)
- SW 6061 Generalist Macro Practice I (3 units)
- SW 6062 Generalist Macro Practice II (3 units)
- SW 6011 Social Work Research I (3 units)

- SW 6181 Generalist Field Work I (4 units)
- SW 6182 Generalist Field Work II (3 units)
- Elective Course (3 units)

Students who have this coursework waived are not eligible to apply for the MSW/ MPA Concurrent Program.

Advancement to Candidacy

To be advanced to candidacy, a student must have:

1. Achieved classified status;
2. Satisfied the general university requirements for advancement to candidacy;
3. Completed the Graduate Entrance Writing requirement through passing the writing intensive SW 6042 course with at least a "B" grade, or successfully complete the Advanced Standing Bridge Coursework;
4. Completed with a grade point average of at least 3.0 ("B"), at least 30 semester units of course work, or successfully complete the Advanced Standing Bridge Coursework;
5. Selected a thesis committee and gained approval of the thesis topic by the thesis committee if a thesis is chosen;
6. Filed an Advancement to Candidacy form which must have the approval of the student's advisor, the field director and department director indicating demonstrated academic and professional competence in field and classroom.

Requirements for Graduation

2-Year or 3-Year Options

1. A minimum of 60-semester units of designated graduate courses as approved on the petition for advancement to candidacy,
2. A grade point average of at least 3.0 ("B");
3. Completion of a culminating research project or a thesis;
4. Up to one-half of the course work (30-semester units) may be transferred from an accredited MSW program. Only grades of "B" (3.0) or better will be accepted and students must first be accepted for admission. Courses not in keeping with program requirements may not be acceptable;
5. Completion of all MSW coursework within a seven year period;
6. Completion of either SW 6016 or SW 6113 and SW 6114, which will fulfill the Graduation Writing Assessment Requirement;
7. Any additional requirements not cited above and listed in Graduate Degree and Program Requirements (p. 71).

Advanced Standing (1-Year or 2-Year) Option

1. Completion of the Advanced Standing Summer Bridge Coursework (6 units) and an additional 29-semester units of designated graduate courses;
2. A grade point average of at least 3.0 ("B");
3. Completion of a culminating research project or a thesis;
4. Up to 10-semester units may be transferred from an accredited MSW program. Only grades of "B" (3.0) or better will be accepted and students must first be accepted for admission. Courses not in keeping with program requirements may not be acceptable;
5. Completion of all MSW coursework within a seven year period;
6. Completion of either SW 6016 or SW 6113 and SW 6114, which will fulfill the Graduation Writing Assessment Requirement;

7. Any additional requirements not cited above and listed in Graduate Degree and Program Requirements (p. 71).

Degree Requirements (35 or 60 units)

Required courses leading to the MSW degree cover five curricular areas: Human Behavior and the Social Environment, Micro Practice, Macro Practice, Research, and Practicum. Courses within each curricular area must be completed in sequence, as they are listed below, and all generalist courses in a category must be completed before taking advanced generalist courses in the same category.

2-Year and 3-Year State-Support Programs: In Person

College of Extended and Global Education (3-Year option): Online

(Program Code: SWM_)

Generalist Curriculum (37)

SW 6011	Social Work Research I	3
SW 6012	Social Work Research II	3
SW 6021	Generalist Micro Practice I	3
SW 6022	Generalist Micro Practice II	3
SW 6041	Human Behavior in the Social Environment: Lifespan Development	3
SW 6042	Human Behavior in the Social Environment: Critical Topics	3
SW 6061	Generalist Macro Practice I	3
SW 6062	Generalist Macro Practice II	3
SW 6181	Generalist Practicum I	4
SW 6182	Generalist Practicum II	3

Six units of electives from the list below, or approved by advisor if taken outside the school.

SW 5031	Social Work in the Global Perspective	
SW 5032	Social Work With Alcohol and Drug Abuse	
SW 5033	Social Work Intervention with Older Adults and Their Families	
SW 5034	Social Work with Alcohol and Drug Abuse II	
SW 5038	Public Child Welfare: Policy and Practice	
SW 5052	Social Welfare and American Indian/ Alaska Native People	
SW 5053	Social Work Practice with the LGBTQ2SIA+ Community	
SW 5054	Diversity, Equity, and Inclusion in Social Work Practice	
SW 5900	Special Topics	
SW 6113	Research Project I	
SW 6901	Advanced Topics in Social Work I	

Advanced Generalist Curriculum (23)

SW 6023	Advanced Generalist Micro Practice I	3
SW 6024	Advanced Generalist Micro Practice II	3
SW 6063	Advanced Generalist Macro Practice I	3
SW 6064	Advanced Generalist Macro Practice II	3

SW 6183	Advanced Generalist Practicum I	4
SW 6184	Advanced Generalist Practicum II	4
Three units from the following research courses		3
SW 6016	Social Work Research III	
SW 6114	Research Project II	
Total Units		60

Course Waivers

Students are permitted to satisfy course requirements in the generalist year curriculum by passing a challenge assessment in each required course. Courses that are successfully challenged must be substituted with an approved elective so that a total of 60-semester units are completed for the master's degree. Practicum courses are not subject to waiver.

Electives

In lieu of taking electives in the social work curriculum, students may take up to six-semester units of relevant 5000- or 6000-level coursework from other disciplines with the approval of their advisor.

Advanced Standing (1-Year or 2-Year)

(Program Code: SWAS)

Summer Bridge Courses (6)

SW 6015	Social Work Research Bridge	2
SW 6035	Generalist Practice Bridge	3
SW 6085	Generalist Practicum Bridge	1

Generalist Curriculum (3)

SW 6012	Social Work Research II	3
---------	-------------------------	---

Advanced Generalist Curriculum (26)

SW 6023	Advanced Generalist Micro Practice I	3
SW 6024	Advanced Generalist Micro Practice II	3
SW 6063	Advanced Generalist Macro Practice I	3
SW 6064	Advanced Generalist Macro Practice II	3
SW 6183	Advanced Generalist Practicum I	4
SW 6184	Advanced Generalist Practicum II	4
Three units of research courses taken from the following		3
SW 6016	Social Work Research III	
SW 6114	Research Project II	

Three units of electives taken from the following or 3 units of electives taken from another department with approval of academic advisor 3

SW 5031	Social Work in the Global Perspective	
SW 5032	Social Work With Alcohol and Drug Abuse	
SW 5033	Social Work Intervention with Older Adults and Their Families	
SW 5034	Social Work with Alcohol and Drug Abuse II	
SW 5038	Public Child Welfare: Policy and Practice	
SW 5052	Social Welfare and American Indian/Alaska Native People	
SW 5053	Social Work Practice with the LGBTQ2SIA+ Community	

SW 5054	Diversity, Equity, and Inclusion in Social Work Practice	
SW 6113	Research Project I	
SW 6901	Advanced Topics in Social Work I	

Total Units 35

Culminating Experience (6 units)

The research project represents the culminating graduate experience. The research project is developed in SW 6012 and is completed via one of two options in which students investigate a social work practice topic, use objective analysis and present their project to faculty orally and in writing:

Option 1: Students develop a comprehensive research proposal including a research question, literature review, and proposed methods and analysis sections in SW 6016. Students submit this proposal as their research project to the Office of Graduate Studies.

Option 2: Students develop and carry out the same comprehensive research project as in Option 1, but do so under individual supervision in SW 6113 and SW 6114. Students also obtain IRB approval, collect primary or obtain secondary data, analyze the data, and report the results of the project. In this option, the 3 units of SW 6113 can be counted towards the social work elective requirement.

A thesis (SW 6971) may be done as an alternative of the research project with additional expectations, but is optional.

Advanced Standing Master of Social Work

The School of Social Work offers courses leading to the Master of Social Work (MSW) degree and is designed to educate advanced generalist social work leaders with a program that equally emphasizes micro and macro practice. The micro practice sequence of courses prepares students to promote change and well-being with individuals, families, and groups. The macro practice sequence of courses prepares students to promote change and well-being with organizations and communities with an integrated focus on policy practice. The program is based upon the requirements of the Council on Social Work Education (CSWE), the national accrediting body for social work programs.

The MSW program is offered in three models: Model (1) offers four semesters of course work leading to the MSW degree within two academic years. This option is intended for students who can devote their time and attention to full-time, intensive study. Model (2) offers the same course work over three academic years. The MSW program includes 1080 hours (two or two and a half days) of supervised placement in an agency during the regular work week in the daytime over two academic years. Model (2) is too intensive for students who work 40 hours per week. It is necessary for these students to reduce their hours of employment. Model (3), an Advanced Standing option, is offered to students with a Bachelors degree in Social Work from a CSWE Accredited program within five years of starting this program. This program can be completed in three terms, starting with courses during the summer, then two additional semesters of course work. The Advanced Standing option includes 600 hours (two and a half days) of supervised placement in an agency during the regular work week in the daytime over one academic year.

Admission to the Advanced Standing MSW program is based on an examination of an admission application. In addition to the general requirements of the university, specific minimum requirements for admission consideration are:

1. A baccalaureate degree in social work from a Council on Social Work Education accredited program in an accredited college or university (completed within the last 5 years) ;
2. A grade point average of 3.5 out of a 4.0 grading scale or better in all course work; or
3. A grade point average of 3.5 out of a 4.0 grading scale for in the last 60 semester units or last 90 quarter units.
4. A year of full-time paid experience, and/ or applicable internship or volunteer service in the field of social work;
5. Evidence of personal qualifications, motivation, and experience that indicate the likelihood of becoming a successful social worker; an autobiographical statement and three letters of reference from individuals who are familiar with the student's academic background, internship experience, work, potential, and level of maturity;
6. A course in each of the following:
 - a. Social Science Research Methods
 - b. Human Behavior Theory
 - c. Human Biology

To be advanced to candidacy, a student must have:

1. Achieved classified status;
2. Satisfied the general university requirements for advancement to candidacy;
3. Completed the Graduate Entrance Writing requirement through passing the writing intensive SW 6035 course with at least a "B" grade;
4. Completed with a grade point average of at least 3.0 ("B"), at least 22 semester units of course work;
5. Filed an Advancement to Candidacy form which must have the approval of the student's advisor, the field director, and School director indicating demonstrated academic and professional competence in field and classroom.
1. A minimum of 36 semester units of designated graduate courses as approved on the petition for advancement to candidacy;
2. A grade point average of at least 3.0 ("B");
3. Completion of a culminating research project;
4. Up to 16 credits may be transferred from a CSWE Accredited MSW program. Only grades of "B" (3.0) or better will be accepted and student must first be accepted for admission. Courses not in keeping with program requirements may not be acceptable;
5. Completion of all MSW coursework within a four year period;
6. Completion of SW 6013 and SW 6014, which will fulfil the Graduation Writing Assessment Requirement;
7. Any additional requirements not cited above and listed in the Graduate Degree and Program Requirements.

Electives

In lieu of taking an elective in the social work curriculum, students may take up to three semester units of relevant 5000- or 6000- level coursework from other disciplines with the approval of their advisor.

Accreditation

The program has held full accreditation by the Commission on Accreditation of the Council on Social Work Education since February, 1992. Questions regarding accreditation should be directed to the director of the School of Social Work.

Required courses leading to the MSW degree cover five curricular areas: Human Behavior in the Social Environment, Micro Practice, Macro Practice, Research, and Field Work. Courses with each curricular area must be completed in sequence, as they are listed below, and all generalist courses in a category must be completed before taking advanced generalist courses in the same category.

Generalist Curriculum (9)		
SW 6012	Social Work Research II	3
SW 6015	Social Work Research Bridge	2
SW 6035	Generalist Practice Bridge	3
SW 6085	Generalist Field Work Bridge	1
Advanced Generalist Curriculum (27)		
SW 6013	Research Project I	1

SW 6014	Research Project II	2
SW 6023	Advanced Generalist Micro Practice I	3
SW 6024	Advanced Generalist Micro Practice II	3
SW 6063	Advanced Generalist Macro Practice I	3
SW 6064	Advanced Generalist Macro Practice II	3
SW 6083	Advanced Generalist Field Work I	3
SW 6084	Advanced Generalist Field Work II	3
SW 6777	Social Work Advanced Generalist Leadership and Capstone	3
SW 6902	Advanced Topics in Social Work II	3
Total Units		36

The research project represents the culminating graduate experience. The research project is developed in SW 6012 and is carried out in the field setting and completed under individual supervision in SW 6013 and SW 6014. It must be on a social work practice topic, must use objective analysis and will be presented to faculty and field personnel orally and in writing.

Master of Social Work and Master of Public Administration Concurrent Degrees

College of Social and Behavioral Sciences & Business and Public Administration

School of Social Work, Social & Behavioral Sciences Building, Room 423 (909) 537-5501
Department of Public Administration, Jack Brown Hall, Room 456 (909) 537-5758

The Department of Public Administration and the School of Social Work offer a graduate program leading to Master of Social Work/Master of Public Administration Concurrent Degrees. The degrees are intended for those with an interest in and promise for a career in social services that will lead to top administrative roles. Degree holders will have skills and knowledge to facilitate well-being and change at all system levels.

Prospective concurrent degrees students must be accepted under the admission procedures of each program. The MSW program requires a separate application available through the School of Social Work which will include the additional statement instructions and the Plan of Study form for the concurrent MSW/MPA degrees.

No degree will be conferred until the requirements of the both degrees are fulfilled.

Admission to the Program

To be considered for the concurrent MSW/MPA degrees, prospective students must select the concurrent MSW/MPA degrees in CSU Apply and be accepted to both the MSW and MPA programs. Prospective students must submit a copy an additional application statement with their MSW applications as directed in CSU Apply.

Advancement to Candidacy

Students must complete advancement to candidacy forms in both the MSW and MPA programs.

To be advanced to candidacy, a student must have:

1. Achieved classified status;
2. Satisfied the general university requirements for advancement to candidacy;
3. Selected a thesis committee and gained approval of the thesis topic by the thesis committee if a thesis is chosen;
4. Completed with a grade point average of 3.0 ("B") at least 30 semester units of course work in the MSW and 15 semester units in the MPA;
5. Demonstrated academic and professional competence in field and classroom;

Requirements for Graduation

1. A minimum of 73 semester units, 52 units must be completed at this university;
2. Fulfilment of all degree requirements;
3. A grade point average of at least 3.0 ("B") in both the MSW and the MPA courses; Completion of culminating research project or thesis (SW 6014 completed);
4. Complete PA 6550 Public Administration Capstone with a B or better;
5. Successful passing of the MPA Comprehensive Exam PA 6980;
6. the Graduate Writing Assessment Requirement is met upon successful completion of SW 6042.

Concurrent Degrees Requirements (73 units)

Bachelor of Arts in Social Work

The School of Social Work offers courses leading to the Bachelor of Arts in Social Work. This degree prepares baccalaureate students for generalist social work practice in agency settings with individuals, families, groups, organizations and communities. The program is accredited by the Council on Social Work Education, the national accrediting body for social work programs. The program is intensive, exciting, and applies to a wide variety of client populations.

Students must complete a supplemental application to the School of Social Work for admission into the Bachelor of Arts in Social Work. This program is impacted.

Admission Requirements

1. Completion of a supplemental application packet including personal statement of commitment to the social work profession, two references, and transcripts; (Contact the School of Social Work for more information.)
2. Completion of most lower division General Education and additional lower division requirements. Applications are scored, in part, based on how many recommended lower division requirements are completed prior to applying.
3. An overall grade point average (GPA) of 2.5 or higher.

Recommendations to enter the Bachelor of Arts in Social Work (all courses are required to graduate with a BASW)

Basic Skills in Written Communication (A2/1A) (3)		3
Basic Skills in Oral Communication (A1/1C) (3)		3

Departmental Honors

Students majoring in administration are eligible to receive departmental honors if the following conditions are met:

- At least four courses in the concentration are completed at this university;
- 3.5 minimum GPA in major;
- 3.25 minimum GPA in concentration/option

Beta Alpha Psi

Founded in 1919, Beta Alpha Psi is a national scholastic and professional accounting fraternity. The primary objective of the fraternity is to encourage and give recognition to scholastic and professional excellence in the field of accounting. This includes promoting the study and practice of accounting; providing opportunities for self-development and association among members and practicing accountants; and encouraging a sense of ethical, social and public responsibility. The letters Beta, Alpha and Psi denote Scholarship, Social Responsibility and Practicality, respectively.

Beta Gamma Sigma

The university has an active chapter of Beta Gamma Sigma, a national organization that encourages and honors academic achievement and personal excellence in the study and practice of business. Membership is by invitation extended to undergraduate and graduate business students of high scholarship and good moral character.

Business Administration (p. 395)

Master of Business Administration

The Master of Business Administration (MBA) program provides post-baccalaureate students with a high-quality masters-level education in the field of business administration. The program is designed to prepare promising students for positions of increasing responsibility and leadership through education in the broad scope of business. It is open to all qualified students regardless of undergraduate major. The degree program has two concentrations:

MBA - Traditional Concentrations (36 or 42 units): For qualified applicants seeking to develop in-depth, graduate-level knowledge in one or more specialized business areas.

MBA - Executive Concentration (30 units): For qualified applicants possessing early- or mid-career experience who seek to expand their professional knowledge and skills through graduate business education. Also offered through the College of Extended and Global Education (<https://cel.csusb.edu/>).

Admission to the Program

Suitability for admission to the program will be based on an examination of the entire application package. In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

1. **Bachelor's Degree:** A bachelor's degree from an accredited college or university, with required minimum GPA of 3.0 calculated using the entire degree or the last 60 semester (90 quarter) units, which may include post baccalaureate work. Students with GMAT/GRE scores and/or professional experience as defined below in item 7. Business Aptitude Requirement, may be permitted to join with a 2.5 GPA;
2. **Personal Statement:** Academic motivation and personal qualifications demonstrated through submission of a 200-250 word statement of reasons for wishing to pursue the MBA at California State University, San Bernardino and personal qualifications that will contribute to successful completion of the program;
3. **Resume:** Submission of a current resume;
4. **Letters of Recommendation:** One letter of recommendation and an interview with the MBA office are required;
5. **English Proficiency for International Students:** All international applicants who have not completed three years of full-time study at the secondary or post-secondary level where English was the language of instruction must also achieve an acceptable score, as determined by the MBA committee, ratified by the College Curriculum Committee, and in alignment with the Office of Graduate Studies requirements, on the Test of English as a Foreign Language (TOEFL), or the IELTS exam, or must complete CSUSB's ESL program. The current minimum acceptable TOEFL score is 550/PBT, 213/CBT, 79-80/IBT taken within the past two years; IELTS score of 6.5 taken within the past two years; or complete level 6 of CSUSB's Intensive English Program
6. **Work Experience Requirement for Executive Concentration:** Minimum two years substantive work experience as indicated by the Business Aptitude Requirement below;
7. **Business Aptitude Requirement:** Applicants for the MBA must meet one of the following Business Aptitude Requirements listed below:

A. Submission of an acceptable score on the Graduate Management Admission Test (GMAT) or Graduate Record Exam (GRE) as determined by the MBA committee, ratified by the College Curriculum Committee, and conforming with Office of Graduate Studies requirements. The current minimum acceptable GMAT score is 470 (with a minimum of 10% on both the GMAT Verbal and Quantitative percentile rankings). The current minimum acceptable GRE score of 298 (minimum 10% on GRE Verbal Ability and Quantitative Ability percentile rankings); or

B. Proof of completion of an accredited graduate degree (e.g. J.D., Ph.D., M.D) from an accredited college or university with a minimum GPA of 3.0 in the graduate program; or

C. Minimum two years of post-undergraduate professional (defined as exempt level) and/or managerial (defined as responsible for scheduling, hiring, firing, evaluating, developing and/or rewarding employees) experience; or

D. 3.0 cumulative GPA from an accredited undergraduate business program.

Advancement to Candidacy

To be advanced to candidacy, a student must have:

1. Achieved classified standing.
2. Successfully completed the Core/Foundation courses (ADMN 6010 with a "C" (2.0) or better and ADMN 6020 with a "B" (3.0) or better);
3. Successfully completed the MBA Boot Camps;
4. Successfully completed 12 units with a minimum of a 3.0 grade point average in the program;
5. Completed an approved graduate program plan in consultation with the MBA office;
6. Secure final approval of the MBA office.

Requirements for Graduation

1. A grade point average of 3.0 ("B") in all course work taken after admission to conditionally classified or classified status, and grades of "C" (2.0) or better in all courses in the program;
2. After successfully advancing to Candidacy and completing all core courses, students are eligible to register for the culminating experience courses (ADMN 6980 and ADMN 6981) or (ADMN 6980 and ADMN 6983):
 - a. Successful completion of MBA Portfolio (ADMN 6980) which includes preparation and submission of a portfolio of course work. The portfolio includes a reflective essay showing how the portfolio demonstrates accomplishment of essential goals for the program.
 - b. Successful completion of Comprehensive Assessment (ADMN 6981) or Culminating Business Analyst Project (ADMN 6983) meets the culminating experience requirement.
3. Successful completion (a grade of "B" (3.0) or better) of ADMN 6020 meets the graduate writing requirement.
4. No more than 6 semester units of lower than 6000-level course work;
5. A minimum of 30 semester units for the Executive Concentration or 36 semester units for the Traditional Concentration of acceptable graduate-level work, consistent with the program plan (with a minimum GPA of 3.0);
6. At least 70% of the units for the degree are required to complete at California State University at San Bernardino;

7. Any additional general requirements not cited above but listed in Graduate Degree Program Requirements.
8. A "no credit" (NC) designation will be entered on the student's transcript if he/she fails the MBA Culminating Experience courses (ADMN 6980 and ADMN 6981) or (ADMN 6980 and ADMN 6983). Students who do not receive a passing grade on the first attempt must petition the MBA office for permission to retake the MBA Culminating Experience courses.
9. Students wishing to change from one concentration to another must reapply to the desired option, meeting all admission requirements.

Degree Requirements (30-45 units)

Core/Foundation (6)

ADMN 6010	Data-Driven Decision Making	3
ADMN 6020	Advanced Managerial Communications	3

Core/Essentials (21)

Students must select 7 courses out of 8 courses. 21

ACCT 6060	Accounting for Managerial Decision-Making	
ENTR 6210	Entrepreneurship and New Ventures	
FIN 6020	Financial Theory and Corporate Finance	
IST 6090	Information Systems and Technology Management	
MGMT 6010	Organization Theory and Behavior	
MGMT 6850	Strategic Management	
MKTG 6050	Marketing Management	
SCM 6070	Managing the Supply Chain	

Culminating Experience (0-3) 0-3

Concentration (3-15) 3-15

Students must satisfy the requirements of one of the concentrations listed below.

Total Units 30-45

Culminating Experience (0 or 3 units)

Students must take ADMN 6980 and select ADMN 6981 or ADMN 6983.

ADMN 6980	MBA Portfolio	0
ADMN 6981	Comprehensive Assessment	0
ADMN 6983	Culminating Business Administration Project	3

Total Units 3

Concentrations (3-15 units)

Accounting and Internal Auditing Concentration

(Program Code: ACIA)

Six units from the following courses: 6

ACCT 6100	Financial Accounting from the User Perspective with Data Analytics in Accounting	
ACCT 6150	Controllershship and Professional Ethics	
ACCT 6250	Advanced Internal Auditing	

Three units chosen from any JHBC graduate level course (5000 level or above), including the one course not taken above. 3

Total Units 9

Business and Data Analytics

(Program Code:)

IST 6110	Foundations of Analytics and Big Data	3
IST 6030	Foundations of Business Systems	3
IST 6620	Business Analytics and Decision Making	3

Three units from the following courses: 3

IST 6670	Data Warehousing and Business Intelligence	
IST 6680	Business Applications Using Web Technologies	

* Students in this concentration must choose the ADMN 6983 option as part of their culminating experience

Total Units 12

Cyber Security Concentration

(Program Code: CSEC)

IST 6470	Database Management and Policies	3
IST 6480	Information Networking Systems and Security	3
IST 6700	Cybersecurity Policy and Risk Management	3
IST 6720	Cyber Defense and Vulnerability Analysis	3
IST 6730	Cybersecurity Theory and Practice	3

Total Units 15

Entrepreneurship Concentration

(Program Code: ENTP)

Six units from the following courses: 6

ENTR 5410	Commercializing Entrepreneurial Innovation	
ENTR 5450	Resources for the Entrepreneur	
ENTR 6230	Exploring Entrepreneurial Opportunities	

Three units chosen from any JHBC graduate level course (5000 level or above), including the one course not taken above. 3

Required Course (0 unit)

ENTR 6980	Reflective Essay	
-----------	------------------	--

Total Units 9

Finance Concentration

(Program Code: FINN)

Six units from the following courses: 6

FIN 6510	Financial Institutions and Markets	
FIN 6530	Investment Analysis and Portfolio Management	

FIN 6540	International Finance	
Three units chosen from any JHBC graduate level course (5000 level or above), including the one course not taken above.		3
Total Units		9

Global Supply Chain Management Concentration

(Program Code: GSCH)

Six units from the following courses:		6
SCM 5150	Project Management	
SCM 6110	Global Supply Chain Management and Logistics	
SCM 6600	Transportation and Supply Chain Management	
Three units chosen from any JHBC graduate level course (5000 level or above), including the one course not taken above.		3
Total Units		9

Hospitality Management Concentration

(Program Code: HOSM)

Six units from the following courses:		6
HOSM 5100	Innovation in Hospitality	
HOSM 6200	Hospitality Services Management	
HOSM 6300	Contemporary issues in Hospitality and Tourism	
Three units chosen from any JHBC graduate level course (5000 level or above), including the one course not taken above.		3
Total Units		9

Human Resource Management Concentration

(Program Code: HRMG)

HRM 6410	Human Resource Management	3
Six units from the following courses:		6
HRM 5570	Strategic Human Resource Management	
HRM 5580	California Human Resources	
HRM 5590	International Human Resources	
HRM 5930	Contemporary Topics in Human Resources Management	
HRM 5953	Independent Study	
ADMN 5753	Internship	
Three units chosen from any JHBC graduate level course (5000 level or above)		
Total Units		9

Management Concentration

(Program Code: MANM)

Six units from the following courses:		6
HRM 6410	Human Resource Management	

MGMT 5050	Managing Across Borders	
MGMT 6550	Leadership as Art and Science	
Three units chosen from any JHBC graduate level course (5000 level or above), including the one course not taken above.		3
Total Units		9

Marketing Concentration

(Program Code: MRKM)

Six units from the following courses:		6
MKTG 6100	Consumer and Organizational Buying Behavior	
MKTG 6400	Advanced Marketing Research	
MKTG 6900	Marketing Strategy	
One additional elective chosen from any JHBC graduate level course (5000 level or above), including the one course not taken above.		3
Total Units		9

Interdisciplinary Concentration

(Program Code: INDF)

Six units from any of the required courses listed in any of the other concentrations above.		6
Three units from any JHBC graduate level course (5000 or above).		3
Total Units		9

Executive Concentration

(Program Code: EXEC)

(Also offered through the College of Extended and Global Education (<https://cel.csusb.edu/>). Program Code: EXCG)

Three units from any JHBC graduate level course (5000 or above)		3
Total Units		3

Bachelor of Arts in Administration

The BA in Administration is designed to prepare students to be responsible management professionals within a dynamic region and a globally connected world. Students will earn specific knowledge and skills within the business and public administration discipline, and build capabilities in communication, problem solving with information technology, and ethical reasoning within a global context. The BA in Administration offers concentrations in Accounting, Business Analytics, Entrepreneurship, Finance, Financial Planning, General Business, Hospitality Management, Human Resource Management, Information Security, Information Systems and Technology, International Business, Management, Marketing, Public Administration, Real Estate, Sports and Entertainment Marketing, and Supply Chain Management.

Requirements (71-72 units)

Total units required for graduation: 120

Students are encouraged to check that they have met the prerequisite requirements for each course in the Jack H. Brown College of Business and Public Administration in which they are planning to enroll. Prerequisite requirements listed for each course are strictly enforced.

Enrollment in 3000-, 4000- and 5000-level courses in the Jack H. Brown College of Business and Public Administration is restricted to students who have completed at least 60 semester units (i.e., have achieved junior standing). Course prerequisites are strictly enforced.

Students who do not meet the stated requirements may be disenrolled from the course(s).

Requirements for the B.A. in Administration

Lower-division core requirements (23-24)

ACCT 2110	Introductory Accounting I	3
ACCT 2120	Introductory Accounting II	3
ADMN 1500	Introduction to Administration	1
ADMN 2100	Applied Business Statistics	3
ECON 2201	Principles of Microeconomics	3
ECON 2202	Principles of Macroeconomics * Satisfies GE category D3	3

IST 1110	Introduction to Information Technology	1
MGMT 2300	Legal Environment of Organizations	3

Three or four units chosen from the following courses: * 3-4
Satisfies GE category B4

MATH 1301	Modeling with Functions	
MATH 1303	Stretch Modeling with Functions B	
MATH 1401	Accelerated Preparation for Calculus	
MATH 1403	Preparation for Calculus B	
MATH 1601	Modeling with Calculus	
MATH 2210	Calculus I	

Upper-division core requirements (24)

FIN 3001	Finance I	3
IST 3110	Management of Information Technology	3
MGMT 3020	Organizational Behavior	3
MGMT 3500	Applied Communication	3
MGMT 3900	Principles of Strategy	2
MKTG 3050	Marketing Principles	3
PA 3150	Society, Business, & Global Governance * Satisfies GE category D4	3
SCM 3040	Principles of Supply Chain Management	3
ADMN 4900	Administration Capstone	1

Breadth Electives (6)

Six units chosen from the following: 6

ENTR 3000	Entrepreneurship and Innovation	
FIN 3002	Finance II	
MKTG 3160	Research Methods	
PA 3050	Organizations in Multicultural and Diverse Societies	

Concentration (18)

Students must satisfy the requirements of one of the concentrations listed below. 18

Total Units 71-72

Concentrations (18 units)

Accounting Concentration

(Program Code: ACCT)

A grade of a "C-" or better is required for all Accounting concentration courses.

ACCT 3150	Accounting Information Systems and Business Ethics	3
ACCT 3470	Management Accounting and Ethics in Business	3
ACCT 3720	Intermediate Accounting I	3
ACCT 3730	Intermediate Accounting II	3
ACCT 4260	Introduction to Taxation	3
ACCT 4400	Financial Statement Auditing	3

Total Units 18

Business Analytics Concentration

(Program Code: BSAN)

IST 2510	Big Data Analytics	3
IST 4510	Advanced Data Analytics	3
IST 4520	Data Mining	3
IST 3500	Problem Solving and Decision Making	3
IST 4120	Information Systems Planning and Policy	3

Three units chosen from the following: 3

IST 2210	Introduction to Networking and Security	
IST 2310	Applications Development	
IST 2410	Database Management for Business	
IST 2610	Cybersecurity	
IST 3420	Systems Analysis and Design	
IST 4310	Web Technologies	
IST 4320	Advanced Applications Development	
IST 4410	Advanced Database Management and Information Assurance	
IST 5030	Enterprise Resource Planning	
IST 5050	Advanced Enterprise Resource Planning	
IST 5150	Project Management	
IST 5753	Apprenticeship	
IST 5915	Seminar in Information Systems and Technology	
IST 5930	Seminar in Information Systems and Technology	
IST 5951	Independent Study	
IST 5952	Independent Study	
IST 5953	Independent Study	
ADMN 5753	Internship	

MKTG 4160	Marketing Research	
Total Units		18

Entrepreneurship Concentration

(Program Code: ENTR)

ENTR 3141	The Improvisational Mind	3
or TA 3141	The Improvisational Mind	
ENTR 4420	Small Business Management	3
ENTR 5430	Ideation and Creative Problem Solving	3
ENTR 5435	Startup Toolbox: Research Essentials for Entrepreneurs	3
ENTR 5440	Developing the New Venture	3
ENTR 5980	Reflective Essay	0
Three units chosen from the following:		3
ENTR 5155	Business Consulting	
ENTR 5260	Global Entrepreneurship	
ENTR 5410	Commercializing Entrepreneurial Innovation	
ENTR 5450	Resources for the Entrepreneur	
ENTR 5470	Managing a Growing Business	
ENTR 5490	Launching the Entrepreneurial Venture	
ENTR 5550	Entrepreneurship in Action: Corporate, Social and Family Business Approaches	
Any 4000 or 5000 level MGMT, HRM, or MKTG course as approved by the Entrepreneurship program advisor.		
All courses taken to satisfy the Entrepreneurship concentration requirements must be completed with a grade of "C" (2.0) or better, including the core course ENTR 3000.		
Total Units		18

Finance Concentration

(Program Code: FIN_)

FIN 4320	Financial Institutions and Capital Market	3
FIN 4330	International Finance	3
FIN 4590	Financial Case Studies	3
or FIN 5270	Financial Derivatives	
FIN 5300	Financial Theory and Practice	3
FIN 5350	Investment Analysis	3
Three units chosen from the following:		3
FIN 3555	Business and Asian Culture	
FIN 3600	Financial Planning Process and the Psychology of Financial Planning	
FIN 3800	Principles of Real Estate	
FIN 4200	Entrepreneurial Finance	
FIN 4450	Financial Data Analytics	
FIN 4590	Financial Case Studies (If not taken previously)	
FIN 4600	Retirement Planning	
FIN 5230	Security Trading and Analysis	
FIN 5270	Financial Derivatives (If not taken previously)	
FIN 5460	Student Managed Investment Fund	

FIN 5850	Real Estate Finance	
FIN 5753	Finance Internship	
Total Units		18

Financial Planning Concentration

(Program Code: FNPL)

FIN 3600	Financial Planning Process and the Psychology of Financial Planning	3
FIN 3650	Risk Management and Insurance	3
FIN 4350	Investment Analysis	3
FIN 4600	Retirement Planning	3
FIN 4690	Tax and Estate Planning	3
FIN 5600	Code of Ethics and Standards of Conduct in Financial Plan Development	3
Total Units		18

General Business Concentration

(Program Code: GENB)

The general business concentration is a design your own business concentration, offering you the flexibility to customize your education based on your individual career aspirations.

18 units chosen in consultation with a JHBC advisor from any JHBC 3000-5999 courses. (18)

Notes:

No core course in the BA in Administration can double count for the General Business concentration.

Up to 6 units can double count in both the General Business concentration and another concentration within the BA in Administration program.

Up to 6 units accepted from a non-JHBC major if you are changing majors to the BA in Administration program.

Students completing all requirements for a non-JHBC major can have all 18 units in the General Business concentration waived when adding the BA in Administration as a second major.

Total Units		18
--------------------	--	-----------

Hospitality Management Concentration

(Program Code: HOSM)

HOSM 1600	Restaurant Management	3
HOSM 2500	Introduction to Hospitality and Tourism	3
HOSM 4500	Hotel Operations Tactics and Strategies	3
HOSM 5300	Meetings and Event Planning	3
HRM 4550	Human Resources Management	3
3 units chosen from the following courses:		3

Nine units of the minor must be completed at CSUSB.		
Total Units		22

Department of Accounting and Finance

Jack Brown Hall, Room 459

(909) 537-5704 Department of Accounting and Finance (<https://accountingfinance.csusb.edu>) website

The university offers concentrations in Accounting, Finance and Financial planning within the Bachelor of Arts in Administration (p. 389) and the Master of Business Administration (p. 387). A Certificate in Accounting (p. 402) is also available. Accounting and Finance courses are offered in support of these programs. Further information is available from the Department of Accounting and Finance.

The M.S. in Accountancy prepares students for a wide range of employment opportunities in public accounting, industry and finance, government and nonprofit organizations. The program is designed to produce individuals who are qualified with knowledge and skills in Professional Accounting and Accounting Information Systems. Graduates of the program are prepared to successfully challenge a professional examination for entry into the selected area; committed professional and career development beyond their formal education into highest executive levels of the selected area; capable of becoming leaders who exhibit high standards of ethical conduct within the profession; and prepared for doctoral and research positions.

The Master of Science in Finance (MSF), a Self-support program offered through the College of Extended and Global Education (<https://cel.csusb.edu/>), provides post-baccalaureate students pursuing a career in investments with a high-quality master-level education in the field of investment education. The objective is to educate post-baccalaureate students to be experts in investment analysis and portfolio management. The Master of Science in Finance is open to all qualified students regardless of undergraduate major.

- Real Estate (p. 401)

Certificates

- Accounting (p. 402) (Offered through the College of and Global Education (<https://cel.csusb.edu/>))

Master of Science in Accountancy

The Master of Science in Accountancy (MSA) prepares students for a wide range of employment opportunities in public accounting, industry, finance, government and nonprofit organizations, and higher education. The program is designed to prepare graduates who 1) possess knowledge and skills in professional accounting, 2) can successfully pursue professional certifications (e.g., CPA, CMA, CIA), 3) are capable

of becoming leaders who exhibit high standards of professional ethical conduct, and 4) are interested in pursuing doctoral and research studies.

The Master of Science in Accountancy (MSA) online Option delivers the regular MSA program in an online mode and is offered through the College of Extended and Global Education (<https://cel.csusb.edu/>).

The Master of Science in Accountancy (MSA) 3:2 Option is a variant of the regular MSA program. It provides CSUSB accounting students with an accelerated route to a graduate degree, with simultaneous awarding of both bachelor's and master's degrees. The 3:2 Option allows students to earn graduate credit for several elective courses taken during the junior and senior years, effectively decreasing the summed unit requirement for both degrees. The 3:2 Option provides a seamless process whereby students can progress from undergraduate to graduate status.

Admission to the MSA 3:2 Option is by invitation from the Department of Accounting and Finance.

Student admitted to 3:2 MSA can transfer credits of up to three 5000 level courses, ACCT 5440, ACCT 5360, and ACCT 5390) to graduate program from undergraduate program.

Admission to the MSA program

In addition to the general requirements of the university, specific requirements for admission to classified graduate status are

- A bachelor's degree from an accredited college or university;
- Business Aptitude Requirement: Applicants for the MSA must meet one of the following Business Aptitude Requirements listed below:
 - Submission of an acceptable score on the Graduate Management Admission Test (GMAT) or Graduate Record Exam (GRE) as determined by the department. The current minimum acceptable GMAT score is 470 (with a minimum of 10% on both the GMAT Verbal and Quantitative percentile rankings). The current minimum acceptable GRE score of 298 (minimum 10% on GRE Verbal Ability and Quantitative Ability percentile rankings); or
 - Proof of completion of a degree from an AACSB accredited college or university or Online Accounting Certificate Program (at CSUSB) with a minimum GPA of 3.0; or
 - Upon meeting other GMAT or GRE waiver criteria as set by the department.
- Recent CSUSB accounting graduates who meet admission requirements for the 3:2 Program option may request a GMAT waiver. Contact the MSA Director or department chair for details;
- Academic motivation and personal qualification demonstrated through submission of a 200-250 word statement of reasons for wishing to pursue the M.S. degree in Accountancy at California State University, San Bernardino, and personal qualifications that will contribute to successful completion of the program;
- Competence in the following prerequisite courses or their equivalents.

ACCT 2110	Introductory Accounting I	3
ACCT 2120	Introductory Accounting II	3
ACCT 3470	Management Accounting and Ethics in Business	3
ACCT 3720	Intermediate Accounting I	3
ACCT 3730	Intermediate Accounting II	3
ACCT 4260	Introduction to Taxation	3

ACCT 4400	Financial Statement Auditing	3
MGMT 2300	Legal Environment of Organizations	3

NOTE: Competence in the above prerequisite courses may be demonstrated by:

- Formal completion of the course or its equivalents
- Credit by examination
- Waiver based on specialized work experience; must have documentation of work directly related to course to be waived; and must be approved by the MSA Coordinator or department chair. (Students requesting waiver of any prerequisite courses must petition the MSA Director or department chair. Inquiries about a challenge examination or substitution for the upper level writing requirement should be directed to the Dean of Graduate Studies.

Students who meet all entrance requirements except course prerequisites may be admitted to the program in a conditionally classified status until those prerequisite deficiencies are removed, at which time they will be advanced to classified graduate standing in the program. Only fully classified students, however, may enroll in 6000-level courses unless they have written consent from the MSA Director or department chair.

Admission to the MSA 3:2 program

In addition to the general requirements of the university, specific requirements for being invited into the MSA 3:2 Option are:

1. Invitee must be a CSUSB accounting student with at least a junior year academic standing;
2. Invitee must have completed the four course performance review sequence (ACCT 3150, ACCT 3470, ACCT 3720 and ACCT 3730) with an average grade point for the course sequence of 3.0 or higher;
3. Invitee's overall CSUSB grade point average (GPA) should be 2.75 or higher.

Students who accept invitation into the MSA 3:2 Option program shall be considered as achieving conditionally classified status and shall get a waiver from the GMAT exam requirement for admission to the MSA degree program. Conditionally classified status will become classified status upon the completion of requirements for the BA in Accounting degree.

Advancement to Candidacy

To be advanced to candidacy, a student must have

1. Achieved classified standing;
2. Completed at least 9 semester units of applicable graduate-level course work at the university, with a minimum grade point average of 3.0 ("B");
3. Completed an approved graduate program plan in consultation with the MSA Director or department chair after completion of four 5000-level accounting electives.

Requirements for Graduation

1. A minimum of 30-semester units of acceptable graduate-level work, consistent with the program plan (with a grade point average of 3.0), with at least 21-semester units completed at the university;
2. At least 24-semester units of 5000-6999-level coursework;
3. At least 15-semester units of credit taken after advancement to candidacy for the degree;
4. Successful completion of the required core courses and elective options as outlined in the curriculum section;
5. A grade point average of 3.0 ("B") or better in all course work taken after admission to conditionally classified or classified status, and grades of 2.0 ("C") or better in all courses in the program;
6. Students must earn "Credit" from ACCT 5980 (0 unit) at least twice for graduation.
7. After advancement to candidacy and completion of all course requirements except the culminating experience and one of MSA required courses, students must complete ACCT 6970.
8. The graduation writing requirement is met upon successful completion of ACCT 6500.
9. Any additional general requirements not cited above and listed in the Graduate Degree and Program Requirements (p. 71) section of this bulletin.

A "No credit" (NC) designation will be entered on the student's transcript if they fail the culminating experience requirement. Students who do not receive a passing grade on the culminating experience requirement on the first attempt must petition the MSA Director or department chair for permission to retake the culminating experience requirement. Only students who are in classified status, have been advanced to candidacy, have obtained approval of the MSA Director or department chair, and are not on probation may retake the culminating experience requirement.

Degree Requirements (30 units)

(Program Code: ACCY)

Required Courses (12)

ACCT 5360	Corporate and Partnership Taxation	3
ACCT 5980	CPA Preparation & Practice * Students must earn credit for this course at least twice.	0
ACCT 6100	Financial Accounting from the User Perspective with Data Analytics in Accounting	3
ACCT 6200	Seminar in Advanced Auditing, Accounting Information Systems and Accounting Data Analytics	3
ACCT 6500	Advanced Financial Reporting Seminar	3

Elective Courses (15)

Minimum of 15 elective units chosen from list below in consultation with the MSA Director or department chair.

ACCT 5200	Forensic Accounting I	
ACCT 5300	Advanced Tax Topics: Corporate Taxation	
ACCT 5390	Advanced Accounting	
ACCT 5410	EDP Auditing and Control	
ACCT 5440	Accounting Law, Ethics and Institutions	

ACCT 5680	Accounting for Government and Not-for-Profit Organizations	
ACCT 6150	Controllershship and Professional Ethics	
ACCT 5753	Accounting Internship	
ACCT 5930	Seminar in Accounting	
ACCT 5951	Independent Study	
ACCT 5952	Independent Study	
ACCT 5953	Independent Study	
Culminating Experience: (3)		3
Total Units		30

Graduate-level elective courses offered by other departments within the College of Business and Public Administration require approval of the MSA Director or department chair for course substitution.

Students may not take more than a total of 6 semester units in any combination of College of Business & Public Administration 5953, 5955, 5753, 5755, 5915, 5930, 6753, and 6755 courses. The program may not include more than 9 semester units in transfer credit from other universities. CSUSB will not consider for transfer, credit course work from any institution which will not accept that work in its own advanced degree program.

Culminating Experience (3 units)

Culminating Experience (3)

ACCT 6970	MSA Comprehensive Examination	3

Master of Science in Finance

Self-support, offered through the College of Extended and Global Education (<https://cel.csusb.edu/n>)

The Master of Science in Finance (MSF) program provides post-baccalaureate students pursuing a career in investments with a high-quality master-level education in the field of investment. The objective is to educate post-baccalaureate students to be experts in investment analysis and portfolio management. The Master of Science in Finance is open to all qualified students regardless of undergraduate major.

The Master of Science in Finance (MSF) 4:1 Option (blended) is a variant of the regular MSF program. It provides CSUSB undergraduate students in the BA in Administration program with a concentration in Finance with a route to a graduate degree. The 4:1 Option (blended) provides a seamless process whereby students can progress from undergraduate to graduate status by allowing for the transfer of credit for 3 courses (9 units) from the finance concentration to the MSF program. Admission to the MSF 4:1 Option (blended) is by invitation from the Department of Accounting and Finance.

Admission to the MSF Program

Suitability for admission to the program will be based on an examination of the entire application package. In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

Bachelor's Degree: A bachelor's degree from an accredited college or university, with required minimum GPA of 2.75 calculated using the entire degree or the last 60 semester units, which may include post-baccalaureate work;

Personal Statement: A 200-250 word statement highlighting the academic motivation and qualifications for pursuing the Master of Science in Finance at California State University, San Bernardino, and demonstrating the potential for successful completion of the program;

English Proficiency for International Students: All international applicants who have not completed three years of full-time study at a secondary or post-secondary institution where English was the language of instruction must also achieve an acceptable score (as determined by the Accounting and Finance Department and ratified by the College Curriculum Committee, in alignment with the Office of Graduate Studies requirements) on the Test of English as a Foreign Language (TOEFL) or the IELTS exam, or must complete CSUSB's ESL program. The current minimum acceptable TOEFL score is 550/PBT, 213/CBT, 79-80/IBT taken within the past two years; IELTS score of 6.5 taken within the past two years; or complete level 6 of CSUSB's Intensive English Program;

Resume: Submission of a current resume;

Letters of Recommendation: One letter of recommendation is required.

Business Aptitude Requirement: Graduate Management Aptitude Test (GMAT) or Graduate Record Exam (GRE): Applicants for Master of Science in Finance must meet the Business Aptitude Requirement:

1. Submission of an acceptable score on the Graduate Management Aptitude Test (GMAT) or Graduate Record Exam (GRE) as determined by the Accounting and Finance Department, ratified by the College Curriculum Committee, and conforming with the Office of Graduate Studies requirements. The current acceptable GMAT or GRE score must meet a minimum GMAT score of 470 (with a minimum 10% on GMAT Verbal Ability and 50% on Quantitative Ability percentile rankings) or a minimum GRE score of 298 (with a minimum 10% on GRE Verbal Ability and 50% on Quantitative Ability percentile rankings); or
2. $(\text{GPA} \times 200) + \text{GMAT score}$ greater than or equal to 1,050 points; or
3. $(\text{GPA} \times 24) + \text{GRE score}$ greater than or equal to 368 points; or
4. GMAT/GRE requirement may be waived if an applicant has 3.0 cumulative GPA from an AACSB accredited undergraduate program or meets other GMAT or GRE waiver criteria as set by the department.
5. Recent CSUSB graduates who meet admission requirements for the MSF 4:1 Program option may request a GMAT waiver. Contact the MSF Director or department chair for details;

Admission to the MSF 4:1 Option (blended) Program

In addition to the general requirements of the university, specific requirements for being invited into the MSF 4:1 Option (blended) are:

1. Invitee must be a CSUSB undergraduate student with at least a junior year academic standing;
2. Invitee must have completed at least three courses from a concentration within the Bachelor of Arts in Administration program, or from a JHBC minor program, with a GPA of 3.0 or higher across all three courses;
3. Invitee must earn a B (3.0) in the upper-level writing requirement;
4. Invitee's overall CSUSB grade point average (GPA) should be 2.75 or higher.

Students who accept invitation into the MSF 4:1 Option program shall be considered as achieving conditionally classified status and shall get a waiver from the GMAT exam requirement for admission to the MSF degree program. Conditionally classified status will become classified status upon the completion of requirements for the bachelor's degree.

Advancement to Candidacy

To be advanced to candidacy, a student must have:

1. Achieved classified standing;
2. Completed at least 15 semester units of applicable graduate-level course work at the university, with a minimum grade point average of 3.0;
3. Completed an approved graduate program plan in consultation with an MSF advisor after achieving classified status;
4. Secured the approval of candidacy from the MSF Graduate Director and the Dean of Graduate Studies.

Requirements for Graduation

1. A minimum of 36-semester units of acceptable graduate-level work, as shown in the "Degree Requirements" with a grade point average of 3.0 in all course work taken after admission to conditionally classified or classified status, and grades of "C" (2.0) or better in all courses in the program;
2. Successful completion of an integrative comprehensive examination (FIN 6980). Successful completion means students correctly answer at least 80% of the comprehensive exam questions. Students with a grade point average below 3.0 will not be permitted to take the examination. A "no credit" (NC) designation will be entered on the student's transcript if he/she fails the examination. Students who do not receive a passing grade may repeat the examination, one additional time only, with the written approval of the MSF Graduate Coordinator. Only students who are currently classified, have been advanced to candidacy, have completed their core classes, and are not on probation may take the examination.
3. Successful completion of FIN 6985 (MSF Portfolio) which includes preparation and submission of a portfolio of course work. The portfolio includes a reflective essay showing how the portfolio demonstrates the accomplishment of essential goals for the program. Students register for this 0-unit course after advancement to candidacy.
4. Successful completion of FIN 6980 meets the culminating experience requirement and successful completion (a grade of "B" (3.0), or better) in ADMN 6020 meets the graduate writing requirement;
5. No more than 3-semester units of lower than 6000-level course work;
6. At least 27-semester units completed at California State University, San Bernardino.

Certificate in Accounting

Offered through the College of Extended and Global Education (<https://cel.csusb.edu/>)

This program is for students who plan to pursue a certificate, MSA or CPA but do not have the time or resources to commute to CSUSB. This certificate includes a component to prepare students for the CPA exam.

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 6000-level courses as requirements and/or electives. These 6000-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Certificate Requirements (24 units)

Master of Science in Information Systems and Technology

The Master of Science in Information Systems Technology (MSIST) prepares students for leadership positions in the areas of (1) cyber security, and (2) business intelligence and information systems technology. The main objective is to graduate students who have the ability to identify and solve business problems, manage organizational risk, secure and manage computer network systems, ensure business continuity, design and implement data warehouses, and use business intelligence tools to collect, integrate, analyze, and mine big data for the purpose of supporting managerial decision making at all control levels - front-line, managerial, and strategic. Graduates of both concentrations are able to use their analytics knowledge to fully exploit the opportunities provided by big data, i.e. nurture data-based, evidence driven organizations. Specific positions for the cyber security concentration include: information security analyst, security manager, forensics manager, computer network analyst, database administrator, and computer network architect. Specific positions for the business intelligence and information systems technology concentration include management analyst, business intelligence analyst, computer system analyst, business continuity planner, research analyst, IT project manager, and business application manager. The cyber security and business intelligence and information technology concentrations can also lead to strategic positions such as Chief Information Officer, Chief Information Security Officer, Chief Analytics Officer, Chief Data Officer, or Chief Business Architect. The program is open to all qualified students with a post-baccalaureate degree (major or minor) from an accredited college or university in any field. Students must have a keen interest in pursuing careers in cyber security, business intelligence, data analytics, and information systems technology.

Admission to the Program

In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

1. A bachelor's degree (major or minor) from an accredited college or university;
2. Attained a minimum of a 3.0 GPA in the last 60 semester (90 quarter) units of course work (Applicants with a GPA between 2.5 and 2.99 will be considered for admission by the program as an exception);
3. If the Bachelor degree was not taught principally in English, then you must take the TOEFL or IELTS (score of 6) or complete Level 6 of CSUSB's ESL program and have official scores sent to the CSUSB Graduate Admissions Office;
4. Submission of official transcripts in sealed envelopes from all institutions attended to CSUSB Graduate Admissions Office. CSUSB students are not required to submit any CSUSB transcripts. If your

transcript is not in English, then you must also send a certified literal English translation of the transcripts along with the official original-language transcripts with proof of degree to: CSUSB Graduate Admissions Office, 5500 University Parkway, San Bernardino, CA 92407;

5. Submission of an acceptable Graduate Management Admission (GMAT) or Graduate Record Exam (GRE) score by deadline for the term in which the applicant wishes to enroll. If test result is not submitted on time, admission status will be unclassified post-baccalaureate unless the GMAT or GRE requirement has been waived. Send GMAT or GRE score to MSIST Program Coordinator, Information and Decision Sciences Department, 5500 University Parkway, San Bernardino, CA 92407. Check with the MSIST Program Coordinator for the current acceptable GMAT or GRE minimum score requirements;
6. An applicant may request waiver of the GMAT or GRE upon proof of completion of graduate work (e.g., J.D., Ph.D., M.D., etc.) from an accredited U.S. college or university, or upon meeting other GMAT or GRE waiver criteria as set by the MSIST Program Coordinator;
7. Submission of a 200 – 250 word statement that demonstrates academic motivation, reasons for wishing to pursue the MSIST at CSUSB, and personal qualifications that will contribute to the successful completion of the program. Although work experience is not required, at least two years of professional work experience will make an application more competitive. Any letters of recommendation or a résumé are optional. Send Statement of Purpose to: MSIST Program Coordinator, Information and Decision Sciences Department, 5500 University Parkway, San Bernardino, CA 92407;
8. Additional requirement for international students: International students must also submit a completed affidavit of financial support form. International students should follow all instructions of the application procedures and submit all necessary documentation as listed on the International Admissions website: <http://international.csusb.edu/admissions.aspx>;

Students who meet all entrance requirements may be admitted to the program in a conditionally classified status until the Foundation Course requirements are met. Once students meet the minimum passing level of "B" for each of the two foundation courses (IST 6110 & IST 6030) they will be advanced to classified graduate standing in the program. Conditionally classified students cannot enroll in the other 6000-level core courses (with the exception of IST 6090 if taken concurrently) unless they have written consent from the MSIST Program Coordinator.

Advancement to Candidacy

To be advanced to candidacy, a student must have:

1. Achieved fully classified standing;
2. Completed, at least 18 semester units of applicable graduate-level course work at the university, with a minimum grade point average of 3.0 ("B");
3. Completed an approved graduate program plan in consultation with an MSIST adviser;
4. Prior to advancement to candidacy, must have selected one of these concentrations (in consultation with a faculty adviser). Concentrations are available in (1) Cyber Security, and (2) Business Intelligence and Information Systems Technology.
5. Secured approval of the MSIST program coordinator of the Department of Information and Decision Sciences.

Requirements for Graduation

1. A minimum of 36 semester units of acceptable graduate-level work, consistent with the program plan (with a grade point average of 3.0), with at least 26 units completed at the university, and at least 26 semester units of 5000-6000-level course work;
2. Successful completion of the required foundation, core, and concentration courses as outlined in the program curriculum section;
3. After advancement to candidacy, students must compile an MSIST Portfolio and complete a culminating experience project course (3 units). Only students who are currently classified, have completed the required foundation and core courses, have been advanced to candidacy, have obtained approval of the MSIST program coordinator, have grades of "B" (3.0) or better, no "incomplete" grades, and are not on probation may do the project or compile an MSIST Portfolio;
 - a. **IST 6960 MSIST Culminating Project (3 Units):** In consultation with a faculty adviser, complete and defend a written project based on his or her concentration before a committee of graduate faculty. The graduation writing requirement is met upon successful completion of IST 6960;
 - b. **IST 6980 MSIST Portfolio (0 units) :** Successful completion of IST 6980 (MSIST Portfolio) includes compilation and submission of a portfolio of course work. The portfolio includes a reflective essay showing how the portfolio demonstrates accomplishment of the essential goals for the program. Students register for this 0-unit course after advancement to candidacy and completion of 27 units of coursework;
4. Any additional general requirements not cited above but listed on the university bulletin.
5. A "no credit" (NC) designation will be entered on the student's transcript if he/she fails the IST 6960 Culminating Project course. Students who do not receive a passing grade on the first attempt must petition the college's MIST Program Coordinator for permission to retake the culminating experience.

Degree Requirements (36 units)

The 36 units Master of Science in Information System Technology degree program begins with two foundation courses IST 6110 and IST 6030 (6 units) which are provided to develop the students' analytical, and fundamental programming skills critical to the success in the program.

Five core courses (15 units) are required for all MSIST students to develop a deeper understanding of IST and business issues. This is followed with specialized (12 units) career track courses for Cyber Security or Business Intelligence and Information Technology through electives. Prior to advancement to candidacy, a student must select one of the two career tracks. The specific courses a student will take will be chosen by the student in consultation with an assigned faculty career track mentor. Similarly, selection of the student's MSIST Culminating Experience Project topic (3 units) will be decided by the student in consultation with an assigned faculty career track mentor.

Foundation Courses (6)

IST 6110	Foundations of Analytics and Big Data	3
IST 6030	Foundations of Business Systems	3

Core Courses (15)

IST 6090	Information Systems and Technology Management	3
----------	---	---

IST 6450	Systems Analysis, Design and Implementation	3
IST 6470	Database Management and Policies	3
IST 6480	Information Networking Systems and Security	3
IST 6890	Enterprise Architecture Planning, Strategy, Security and Policy	3
Culminating Experience (3)		3
Concentration (12)		
Students must satisfy the requirements of one of the concentrations listed below.		12
Total Units		36

Culminating Experience (3 units)

IST 6960	MSIST Culminating Project	3
IST 6980	MSIST Portfolio	0

Certificate in Cyber Security

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 6000-level courses as requirements and/or electives. These 6000-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Certificate Requirements (25 units)

IST 1110	Introduction to Information Technology	1

Department of Management

Jack Brown Hall, Room 461

(909) 537-5731 Department of Management website (<http://management.csusb.edu>)

The university offers concentrations in Entrepreneurship, Hospitality Management, Human Resource Management, International Business, and Management within the Bachelor of Arts in Administration (p. 389) and Management within the Master of Business Administration (p. 387).

Human Resource Management and Management courses are offered in support of these programs. Each of the concentration areas is briefly profiled below:

Human Resource Management - People are a firm's most critical resource. Our Human Resource Management program exposes students to the key knowledge and current practices that prepare them for a career in helping organizations find the right talent, develop that talent, and manage them effectively to ensure that the firm's goals are achieved.

Management - Any successful career will involve a role in managing people and resources for an organization. Effective management is critical for an organization to meet its objectives and for an individual's career to continue to develop upward. Management is not innate – it is a skill that can be acquired and developed. Our program teaches students the knowledge and skills to productively with other people, build and coordinate capable teams, and assume the challenges and responsibilities of leadership in a global economy.

Graduate Degree

Master of Science

- Human Resource Management (p. 410)

Minors

- Human Resource Management (p. 411)
- Management (p. 411)

Master of Science in Human Resource Management

The Master of Science (MS) in Human Resource Management (HRM) program offers students a comprehensive graduate education that prepares them for careers in human resources. The 30-unit program will provide coursework and experiential learning activities and expose students to the foundational concepts of human resource management, including managing human capital, strategic human resources, compensation, employee relations, employment law, training & development, and workplace planning. The program will have a final, culminating experience, that will help prepare students to sit for the SHRM certification exam.

Admission to the Program

In addition to the general requirements of the university, specific requirements for admission to the MS in HRM degree program are:

1. Bachelor's Degree: A bachelor's degree from an accredited college or university, with required minimum GPA of 3.0.
2. Personal Statement: A statement that provides insight on the student's motivation to join the program, how the student plans on using the degree to further his/her professional goals, the personal qualifications that will contribute to successful completion of the program, and the responsibility of organizations to create value for society, beyond just profit.

3. English Proficiency for International Students: All international applicants who have not completed three years of full-time study at the secondary or post-secondary level where English was the language of instruction must also achieve an acceptable score.
4. Resume: Submission of a current resume.
5. Letter of Recommendation: One (1) letter of recommendation is required that attests to the applicant's intellectual and professional aptitude;
6. Interview: Each applicant will be required to participate in a brief interview with the MS HRM program coordinator and/or faculty.

Advancement to Candidacy

To be advanced to candidacy, a student must have:

1. Achieved classified standing.
2. Successfully completed 12 units with a minimum of a 3.0 grade point average in the program, including the following core classes: ADMN 6020, MGMT 6010, and HRM 6410.
3. Completed an approved MS HRM program plan in consultation with the designated faculty advisor.
4. Secured approval of the Graduate director in charge of the HRM program.

Requirements for Graduation

1. A grade point average of 3.0 ("B") in all course work taken after admission to conditionally classified or classified status, and grades of "C" (2.0) or better in all courses in the program.
2. A minimum of 30 semester units.
3. At least 70% of the units for the degree (21 units, 7 classes) are required to be completed at California State University, San Bernardino.
4. Successful completion (a grade of "B" (3.0) or better) of ADMN 6020 meets the graduate writing requirement.
5. Successful completion (a grade of "B" (3.0) or better) of HRM 6983 meets the culminating experience requirement.
6. Any additional general requirements not cited above but listed in Graduate Degree Program Requirements.

Degree Requirements (30 units)

ADMN 6020	Advanced Managerial Communications	3

NOTE: Students majoring in Administration with a concentration in Management may not minor in Management. Students must earn a grade of "C" (2.0) or better in all courses required to fulfill the minor in Management.

Department of Marketing

Jack Brown Hall, Room 458

(909) 537-5749 Department of Marketing website (<http://marketing.csusb.edu>)

The university offers a concentration in Marketing and Sports and Entertainment Marketing within the Bachelor of Arts in Administration (p. 385) and a concentration in Marketing within the Master of Business Administration (p. 386). Marketing courses are offered in support of these programs. Further information is available from the Department of Marketing.

The department offers the following programs in addition to Marketing and Sports and Entertainment marketing:

International Business and Hospitality Management.

In today's business world, growing numbers of U.S. companies both large and small are getting involved in international marketing. Because of this increased involvement in international business, marketing students are encouraged to participate in the California State University's International Program (p. 13).

Bachelor of Arts in Tourism & Hospitality Management

Pending Office of the Chancellor approval

The Bachelor of Arts in Tourism and Hospitality Management degree completion program is designed to equip students with the skills and abilities that prepare them for management positions in the world's largest and most exciting industry. The primary goal of the new B.A. in Tourism and Hospitality Management is to expand opportunities for community college students in the Coachella Valley and Inland Empire to achieve a bachelor's degree. Emphasizing experiential learning and practical applications, this degree blends operations, marketing, and customer service principles with analytics, digital marketing, and customer experience management techniques. The curriculum provides numerous opportunities for hands-on activities, and professional development during the gala scholarship dinner, trade show trips, finance technology professionals club, and study abroad in Italy. This degree completion program is designed to attract graduating culinary arts and hospitality management students from community colleges, or students from 4-year institutions with 60 or more units who wish to transfer to CSUSB to earn a degree in tourism and hospitality management.

Admission requirements:

Generally, applicants will qualify for consideration as upper division transfer admission if they meet all of the following requirements:

- Cumulative grade point average of at least 2.0 in all transferable units attempted
- In good standing at the last college or university attended
- Completed at least sixty (60) transferable semester (90 quarter) units of college-level coursework with a grade point average of 2.0 or higher and a grade of C or better in each course used to meet the CSU general education requirements in written communication, oral communication, critical thinking, quantitative reasoning, e.g. mathematics.

The Program will be restricted to upper-division transfer students from culinary arts or hospitality management areas. The CSUSB hospitality management courses will be delivered via an in-person format with a synchronous delivery option available, consisting of only upper-division courses. Students can transfer an equivalent of up to 70 semester units

into CSUSB consisting of 40 units GE and 30 units from the culinary arts or hospitality management coursework. All admitted students must complete an additional total of 50-semester units minimum at CSUSB to meet the graduation requirement of 120 units.

Requirements (27 units)

Total units required for graduation: 120

Requirements for a B.A. in Tourism and Hospitality

The BA in Tourism and Hospitality Management enables the transfer of up to 70 units of coursework and requires 50 units of upper-division coursework to complete the degree. Upper-division courses consist of 9 units in GEs, 14 units in free electives, and 27 units in tourism and hospitality management coursework.

Master of Public Administration

The Master of Public Administration (MPA) is designed to prepare students for careers in public and non-profit service. The degree provides the student with a generalist perspective of public administration, including professional skills such as ethical leadership and management; strategic planning and performance evaluation; budgeting and finance; evidenced-based decision-making; human resource management; the public policy process; and a broad understanding of the democratic governance system.

Admission to the Program

In addition to the general requirements of the university, specific requirements for admission to the MPA degree program are:

1. A bachelor's degree from an accredited college or university;
2. A grade point average of 3.0 or above for the last 60 semester units (or 90 quarter units) of course work including post-baccalaureate

courses. Students with a gpa of 2.50-2.99 may be admitted in consideration of their relevant professional experience and overall application.

- Public Service employment experience. Students without public service employment experience are advised to complete an internship before being advanced to candidacy.
- Academic motivation and professional goals and qualifications demonstrated through submission of a 500 word statement of purpose.

No more than 9 semester units of graduate credit earned in unclassified/conditionally classified standing may be counted toward meeting the requirements for the degree.

Advancement to Candidacy

To be advanced to candidacy, a student must have:

- Completed the Graduate Entrance Writing requirement through passing the writing intensive PA 6110 with at least a "B-" grade.
- Completed at least 15 semester units of applicable graduate-level course work at the university, with a minimum grade point average of "B" (3.0);
- Completed an approved graduate program plan in consultation with an MPA adviser.
- Have evidence of Public Service employment experience or completion of PA 6750 Internship
- Secured the approval of candidacy from the MPA Graduate Director and the Dean of Graduate Studies.

Requirements for Graduation

- 36 semester units consistent with the program plan, with at least 27 units completed at CSUSB;
- Successful completion of the required core, selected concentration and required elective courses as outlined in the curriculum section;
- A cumulative grade point average of "B" (3.0) in MPA course work, grades of "C" (2.0) or better in all courses applied to the degree, and grade of "B-" or better in PA 6110;
- Completion of the Public Administration Capstone PA 6550 with a "B" (3.0) or higher grade.
- Satisfactory completion of one semester of PA 6985 Professional Development Seminar.
- Completion of PA 6980 MPA Culminating Experience.

Degree Requirements (36 units)

Master of Social Work and Master of Public Administration Concurrent Degrees

College of Social and Behavioral Sciences & Business and Public Administration

School of Social Work, Social & Behavioral Sciences Building, Room 423 (909) 537-5501
Department of Public Administration, Jack Brown Hall, Room 456 (909) 537-5758

The Department of Public Administration and the School of Social Work offer a graduate program leading to Master of Social Work/Master of Public Administration Concurrent Degrees. The degrees are intended for those with an interest in and promise for a career in social services that will lead to top administrative roles. Degree holders will have skills and knowledge to facilitate well-being and change at all system levels.

Prospective concurrent degrees students must be accepted under the admission procedures of each program. The MSW program requires a separate application available through the School of Social Work which

will include the additional statement instructions and the Plan of Study form for the concurrent MSW/MPA degrees.

No degree will be conferred until the requirements of the both degrees are fulfilled.

Admission to the Program

To be considered for the concurrent MSW/MPA degrees, prospective students must select the concurrent MSW/MPA degrees in CSU Apply and be accepted to both the MSW and MPA programs. Prospective students must submit a copy an additional application statement with their MSW applications as directed in CSU Apply.

Advancement to Candidacy

Students must complete advancement to candidacy forms in both the MSW and MPA programs.

To be advanced to candidacy, a student must have:

1. Achieved classified status;
2. Satisfied the general university requirements for advancement to candidacy;
3. Selected a thesis committee and gained approval of the thesis topic by the thesis committee if a thesis is chosen;
4. Completed with a grade point average of 3.0 ("B") at least 30 semester units of course work in the MSW and 15 semester units in the MPA;
5. Demonstrated academic and professional competence in field and classroom;

Requirements for Graduation

1. A minimum of 73 semester units, 52 units must be completed at this university;
2. Fulfilment of all degree requirements;
3. A grade point average of at least 3.0 ("B") in both the MSW and the MPA courses; Completion of culminating research project or thesis (SW 6014 completed);
4. Complete PA 6550 Public Administration Capstone with a B or better;
5. Successful passing of the MPA Comprehensive Exam PA 6980;
6. the Graduate Writing Assessment Requirement is met upon successful completion of SW 6042.

School of Entrepreneurship

Jack Brown Hall, Room 284

(909) 537-3217 School of Entrepreneurship website (<http://entre.csusb.edu>)

The university offers concentrations in Entrepreneurship within the Bachelor of Arts in Administration (p. 389) and the Master of Business Administration (p. 387), a Minor in Entrepreneurship (p. 421), and joint programs in collaboration with the College of Arts and Letters and the College of Natural Sciences. ~~In addition, the department offers the Master of Science in Entrepreneurship and Innovation (MSEI) (p. 420) degree, the only degree of its kind offered in the CSU system.~~

The Entrepreneurship program prepares students to be innovators in any context – startup ventures and small businesses, corporate entrepreneurship, or social entrepreneurship. With a focus on experiential learning and ecosystem on campus to support startup activity, students will learn how to apply the entrepreneurial mindset and “Think Like An Owner!”™

The program has received numerous accolades, including:

- Recognition as a Top 35 program globally by AACSB International.
- Ranking of the graduate programs in Entrepreneurship by The Princeton Review and Entrepreneur Magazine in 2023 - #8 in the West and Top 50 Globally (#44).

Graduate Degree

Master of Science in Entrepreneurship and Innovation (MSEI)
(p. 420)

Minor

Entrepreneurship (p. 421)

Master of Science in Entrepreneurship and Innovation

The Master of Science in Entrepreneurship and Innovation (MSEI) program offers students with business, technical, or other non-business degrees a comprehensive graduate education that prepares them to launch an innovative and scalable entrepreneurial ventures or new business ventures in large organizations. The 30-unit program will provide coursework and experiential learning activities and expose students to the key concepts of entrepreneurship and innovation including creativity, and ideation, evaluation and screening of business concepts, commercialization and technology transfer processes, business model formulation, startup models and the entrepreneurial process, team formation, intellectual property, marshaling resources, planning techniques and launch strategies.

Admission to the Program

Suitability for admission to the program will be based on an examination of the entire application package. In addition to the general requirements

of the university, specific requirements for admission to classified graduate status are:

1. Bachelor's Degree: A bachelor's degree from an accredited college or university, with required minimum GPA of 2.75 calculated using the entire degree or the last 90 quarter (60 semester) units, which may include post baccalaureate work. Applicants in the process of finishing an undergraduate degree may apply, with acceptance contingent on successful completion of the undergraduate degree.
2. Personal Statement: A statement that provides insight on the student's motivation to join the program, how the student plans on using the degree to further his/her professional goals, and the personal qualifications that will contribute to successful completion of the program. This can be submitted in one of two possible formats: (a) a written statement of no more than 500 words; or (b) a short video, not more than 2 minutes in length.
3. English Proficiency for International Students: All international applicants who have not completed three years of full-time study at the secondary or post-secondary level where English was the language of instruction must also achieve an acceptable score, as determined by the MSEI committee, ratified by the College Curriculum Committee, and in alignment with the Office of Graduate Studies requirements on the Test of English as a Foreign Language (TOEFL), the IELTS exam or complete CSUSB's ESL program. The current minimum acceptable TOEFL score is 550/PBT, 213/CBT, 79-80/IBT taken within the past two years; IELTS score of 6.5 taken within the past two years; or complete level 6 of CSUSB's Intensive English Program;
4. Resume: Submission of a current resume;
5. Letters of Recommendation: One (1) letter of recommendation is required that attests to the applicant's intellectual and professional aptitude;
6. Interview: Each applicant will be required to participate in a brief interview with the MSEI program director and/or faculty.

Advancement to Candidacy

To be advanced to candidacy, a student must have:

1. Achieved classified standing.
2. Successfully completed the MSEI Guided Tour of Entrepreneurship Fundamentals.
3. Successfully completed 12 units with a minimum of a 3.0 grade point average in the program;
4. Completed an approved MSEI program plan in consultation with the designated faculty advisor of the MSEI program;
5. Secured approval of the Graduate director in charge of the MSEI program.

Requirements for Graduation

1. A minimum of 30 semester units of acceptable graduate-level work, consistent with the MSEI program plan (with a minimum overall GPA of 3.0);
2. Successful completion of the required and elective courses as shown in the "Degree Requirements";
3. At least 70% of the units for the degree completed at California State University at San Bernardino;
4. A grade point average of 3.0 ("B") in all course work taken after admission to conditionally classified or classified status, and grades of "C" (2.0) or better in all courses in the program;

5. Successful completion of ENTR 6960 meets the culminating experience requirement.
6. Students are expected to complete online MSEI Guided Tour of Entrepreneurship Fundamentals before the start of their first semester, unless later completion is approved by the MSEI program;
7. Successful completion of ENTR 6980 . The course includes a reflective essay that provides an overview of the student's experience, key learning takeaways and how the new knowledge will be used professionally. In addition, students will provide feedback on the overall program experience through a series of short answer questions, of which the data will be aggregated with other student responses to provide feedback for program and curriculum development. Students register for this 0-unit course in their final semester of enrollment in the MSEI program;
8. Any additional general requirements not cited above and listed in MSEI Graduate Degree Program Requirements.

A "no credit" (NC) designation will be entered on the student's transcript if he/she fails the MSEI Culminating Experience courses. Students who do not receive a passing grade on the first attempt must petition the college's director of graduate studies for permission to retake the culminating experience.

Doctor of Education in Educational Leadership, Community College Specialization

The doctoral program in Educational Leadership is a rigorous, research-based program which prepares PK-12 and Community College leaders who can apply their knowledge base with the critical skills of analysis, inquiry, research and evaluation to contribute to the study, development, and implementation of educational reforms.

Admission to the Program

The recruitment and admissions committee will oversee the specific admissions processes for the program, review candidate applications and

make admissions decisions. The graduate admissions standards of the university shall apply to all Ed.D. candidates.

The Ed.D. program requires the following of applicants for admission to the doctoral program:

1. A completed application;
2. An earned baccalaureate degree and master's degree from an accredited institution of higher education with a cumulative grade point average of 3.0 or higher in upper-division and graduate study combined;
3. Official transcripts from each college or university attended since high school graduation (no exceptions);
4. Submission of Graduate Record Examination (GRE) scores from three sections of the General Test taken within the last five years;
5. Three letters of recommendation from professionals in the field attesting to the leadership ability and scholarship potential of the candidate; included shall be one letter from an educationally related institution or university administrator and at least one letter from a university faculty member preferably with a doctoral degree that addresses the applicant's potential for academic success in a doctoral program. Letters must be sent directly to the Office of Doctoral Studies.
6. A written statement of purpose reflecting an understanding of the challenges facing the public schools or community colleges/institutions of higher education in California;
7. A scholarly writing sample such as a master's thesis;
8. Sufficient preparation and experience to benefit from the program;
9. Demonstrated educational leadership potential and skills including successful experience in school, postsecondary, community, and/or policy leadership;
10. Demonstrated academic excellence, problem-solving ability, technology proficiency, and interest in critically assessing and bringing about improvements to current educational policies and practices as that pertains to social justice and equity; and
11. A personal interview.

Advancement to Candidacy

1. After completion of the qualifying examination, the student will advance to candidacy and can begin taking EDDL 7804. No more than 12-semester units shall be allowed for a dissertation. If students do not complete their qualifying examination within three years of the program, they will be placed on academic probation.

Requirements for Graduation

1. All 60 units required must be at the doctoral level.
2. At least 48 units required for the degree shall be completed in residence.
3. The overall grade point average must be at least a 3.0, and grades in individual courses must be a "B-" or better. Courses in which no letter grade is assigned shall not be used in computing the grade point average. Students with a grade point average below 3.0 in two successive terms will be disqualified from the program.
4. The Graduate Writing Assessment Requirements is met through successful completion of the doctoral dissertation.
5. The Ed.D. program is designed to be completed in three calendar years, including two required summer sessions. However, students are allowed five years of completion for the requirements of the

doctoral degree. In accordance with Title 5, the appropriate campus authority may extend the time for completion.

6. After completion of the qualifying examination, the student will advance to candidacy and can begin taking EDDL 7804. No more than 12 semester units shall be allowed for a dissertation. If students do not complete their qualifying examination within three years of the program, they will be placed on academic probation.
7. Continuous enrollment is a requirement of the program. If extenuating circumstances require that the student leave the program for a period of time, the student must file a Leave of Absence for all semesters including all summer sessions. The doctoral leadership will develop an adjusted program plan with the student.
8. Ed.D. students must take their summer courses over the summer. Independent studies as substitutes for the summer courses are not allowed.
9. Ed.D. students may be permitted to repeat one course one time only. The original course grade on the student's permanent record will be discounted. Only the second grade earned shall apply to the student's cumulative post baccalaureate grade point average. The first attempt will show on the transcript with the repeat (discount) noted. If a student fails two courses, they will be automatically dismissed from the Ed.D. program.
10. Grade grievances must follow the university grade grievance policy. Non-academic grievances must follow the university non-academic grievance policy.
11. Issues related to student conduct and plagiarism will be addressed in accordance with university policy.

Program Milestones and Related Requirements

The Ed.D. Program includes rigorous classes, a qualifying examination, and written and oral defense of both a Dissertation Proposal and Dissertation, passage of which is required for student progression to program completion and degree conferral.

1. Dissertation Committee

The dissertation committee must be composed of a three member committee that includes: (a) a chair who must come from the Ed.D. program faculty. The other two members must have their doctoral degree or terminal degree and related expertise in the student's field of inquiry. The committee must be approved by the doctoral studies leadership. The committee is responsible for writing and reviewing the qualifying exam. In addition, the committee supports the student through the dissertation process and approves their work.

2. Written and Oral Qualifying Examinations

The qualifying examination is based on the student's approved literature review and is a rigorous assessment of student knowledge in response to questions generated by the student's dissertation committee. The qualifying examinations are administered when the student's dissertation committee has deemed the student is ready for the exam based on their literature review. Once students have passed their qualifying examination, a proposal for the dissertation is written and defended orally. Once the student's proposal (both written and oral) has been approved, they continue to work on their dissertation. The final step in the program is the written dissertation and oral defense.

3. Dissertation Proposal

The dissertation research will focus on a significant professional problem or issue and will have the potential to contribute, generally or in the context of a particular educational institution, to the improvement of public PreK-12 or community college/higher education. Work in support of the dissertation is embedded throughout the Ed.D. curriculum. However, formal dissertation research is subject to (a) passage of the dissertation proposal defense and (b) approval of human subjects by the Institutional Review Board in this order, which constitutes formal approval for the candidate to proceed with the dissertation research as proposed.

The dissertation proposal must demonstrate a strong scholarly and professional foundation of knowledge on the part of the candidate and must demonstrate the candidate's ability to apply this knowledge to rigorous study of PreK-12 or community college/higher education. The dissertation proposal will contain, at a minimum, a description of the problem, a review of the relevant literature, a statement of the research question, a description of the research methodology, and a time-line for completion of the study.

The committee communicates formally in writing to the student its (a) approval, (b) approval with modifications, or (c) lack of approval. In the case of approval with modifications or lack of approval, the committee will communicate to the student in writing the process and expectations for resubmission. If the student is required to resubmit the proposal, the committee will review the revised proposal and communicate the outcome to the student in writing. The student must receive written approval of the proposal by the committee and written notification by the Institutional Review Board that human subjects review requirements have been met, and they must submit that approval letter to the doctoral studies office in order to proceed with the formal conduct of the dissertation research.

4. Institutional Review Board

Evidence of Institutional Review Board approval must be submitted to the doctoral studies office prior to the recruitment of participants and collection of data. Any changes to the original IRB protocol must be submitted and approved as an addendum to the IRB and IRB approval of that addendum must be submitted to the doctoral studies office. Failure to follow these steps presents grounds for dismissal from the program.

5. Dissertation Defense

The dissertation is the written product of the research undertaken in accordance with the approved proposal. The dissertation will state the research problem and question(s), describe the primary theoretical perspectives of the research, identify the major assumptions, explain the significance of the undertaking and relate it to the relevant scholarly and professional literature, describe the research methods, the sources for and methods of gathering data, the approaches used for analyzing the data, the findings based on the analysis of the data, and the conclusions or recommendations. The dissertation will reflect original analysis and independent, critical thought.

The committee communicates formally in writing to the student its (a) approved with commendation, to be conferred, (b) approved, to be conferred, (c) approved with following conditions/ recommendations, and (d) disapproved. In the case of approval with conditions or disapproved, the committee will communicate to the student in writing the process and expectations for resubmission. If the student is required to resubmit the dissertation, the committee

will review the revised proposal and communicate the outcome to the student in writing.

Unanimous agreement of the dissertation committee is required for approval of the dissertation and recommendation that the Ed.D. degree be conferred. In the event that the dissertation committee requires substantive changes to the dissertation, the final vote of the committee will be postponed until the changes are completed.

Submission of the approved dissertation is the last step in the program leading to the awarding of the Ed.D. degree. The dissertation must be submitted by the Graduate Studies deadline. The dissertation format must conform to Graduate Studies approved dissertation manuscript requirements. The final copy of the dissertation must be approved by the dissertation committee and the Office of Graduate Studies.

10. Grade grievances must follow the university grade grievance policy. Non-academic grievances must follow the university non-academic grievance policy.
11. Issues related to student conduct and plagiarism will be addressed in accordance with university policy.

Program Milestones and Related Requirements

The Ed.D. Program includes rigorous classes, a qualifying examination, and written and oral defense of both a Dissertation Proposal and Dissertation, passage of which is required for student progression to program completion and degree conferral.

1. Dissertation Committee

The dissertation committee must be composed of a three member committee that includes: (a) a chair who must come from the Ed.D. program faculty. The other two members must have their doctoral degree or terminal degree and related expertise in the student's field of inquiry. The committee must be approved by the doctoral studies leadership. The committee is responsible for writing and reviewing

the qualifying exam. In addition, the committee supports the student through the dissertation process and approves their work.

2. Written and Oral Qualifying Examinations

The qualifying examination is based on the student's approved literature review and is a rigorous assessment of student knowledge in response to questions generated by the student's dissertation committee. The qualifying examinations are administered when the student's dissertation committee has deemed the student is ready for the exam based on their literature review. Once students have passed their qualifying examination, a proposal for the dissertation is written and defended orally. Once the student's proposal (both written and oral) has been approved, they continue to work on their dissertation. The final step in the program is the written dissertation and oral defense.

3. Dissertation Proposal

The dissertation research will focus on a significant professional problem or issue and will have the potential to contribute, generally or in the context of a particular educational institution, to the improvement of public PreK-12 or community college/higher education. Work in support of the dissertation is embedded throughout the Ed.D. curriculum. However, formal dissertation research is subject to (a) passage of the dissertation proposal defense and (b) approval of human subjects by the Institutional Review Board in this order, which constitutes formal approval for the candidate to proceed with the dissertation research as proposed.

The dissertation proposal must demonstrate a strong scholarly and professional foundation of knowledge on the part of the candidate and must demonstrate the candidate's ability to apply this knowledge to rigorous study of PreK-12 or community college/higher education. The dissertation proposal will contain, at a minimum, a description of the problem, a review of the relevant literature, a statement of the research question, a description of the research methodology, and a time-line for completion of the study.

The committee communicates formally in writing to the student its (a) approval, (b) approval with modifications, or (c) lack of approval. In the case of approval with modifications or lack of approval, the committee will communicate to the student in writing the process and expectations for resubmission. If the student is required to resubmit the proposal, the committee will review the revised proposal and communicate the outcome to the student in writing. The student must receive written approval of the proposal by the committee and written notification by the Institutional Review Board that human subjects review requirements have been met, and they must submit that approval letter to the doctoral studies office in order to proceed with the formal conduct of the dissertation research.

4. Institutional Review Board

Evidence of Institutional Review Board approval must be submitted to the doctoral studies office prior to the recruitment of participants and collection of data. Any changes to the original IRB protocol must be submitted and approved as an addendum to the IRB and IRB approval of that addendum must be submitted to the doctoral studies office. Failure to follow these steps presents grounds for dismissal from the program.

5. Dissertation Defense

The dissertation is the written product of the research undertaken in accordance with the approved proposal. The dissertation will state the research problem and question(s), describe the primary theoretical perspectives of the research, identify the major assumptions, explain the significance of the undertaking and relate it to the relevant scholarly and professional literature, describe the research methods, the sources for and methods of gathering data, the approaches used for analyzing the data, the findings based on the analysis of the data, and the conclusions or recommendations. The dissertation will reflect original analysis and independent, critical thought.

The committee communicates formally in writing to the student its (a) approved with commendation, to be conferred, (b) approved, to be conferred, (c) approved with following conditions/ recommendations, and (d) disapproved. In the case of approval with conditions or disapproved, the committee will communicate to the student in writing the process and expectations for resubmission. If the student is required to resubmit the dissertation, the committee will review the revised proposal and communicate the outcome to the student in writing.

Unanimous agreement of the dissertation committee is required for approval of the dissertation and recommendation that the Ed.D. degree be conferred. In the event that the dissertation committee requires substantive changes to the dissertation, the final vote of the committee will be postponed until the changes are completed.

Submission of the approved dissertation is the last step in the program leading to the awarding of the Ed.D. degree. The dissertation must be submitted by the Graduate Studies deadline. The dissertation format must conform to Graduate Studies approved dissertation manuscript requirements. The final copy of the dissertation must be approved by the dissertation committee and the Office of Graduate Studies.

Master of Arts in Career and Technical Education

The M.A. in career and technical education is designed to provide advanced and specialized education to personnel working in a variety of settings related to career, technical, and adult education such as secondary, post secondary and other private and state environments. The program provides opportunities for teachers to gain expertise with and knowledge in pedagogy and andragogy required to teach their subject matter. The program can be used to meet the requirements for leadership positions in these facilities.

Admission to the Program

Applicants must possess a baccalaureate degree from an accredited college or university. Prior to being admitted to the Master of Arts in Career and Technical Education Program in the College of Education, applicants must be admitted to the university as an unclassified graduate student. Application for admission to the university should be made at least three months prior to the date the applicant would like to begin taking courses.

Advancement to Candidacy

In order to be formally advanced to candidacy, applicants must have:

1. Been accepted to the College of Education as a classified graduate student.
2. Filed an approved graduate program form for completion of the degree.

The Career and Technical Education core consists of six courses: ECTS 6370, ECTS 6380, ECTS 6390, ECTS 5080, ECTS 5190, and ECTS 6350. Students should start with the College of Education writing requirement ECTS 5560.

Requirements for Graduation

1. A minimum of 33 semester units of acceptable work, with 27 completed in residence at this university;
2. A minimum of 15 units of credit taken after a student has been advanced to candidacy for the degree;

3. A grade point average of 3.0 ("B") in course work taken to satisfy the Master of Arts degree requirements and grades of "C" (2.0) or better in all courses in the program;
4. Registration and successful completion of comprehensive examination ECTS 6980;
5. the Graduate Writing Assessment Requirement is met through successful completion of ECTS 5560 or ECTS 6980.

Any additional general requirements not cited above and listed in Graduate Degree and Program Requirements. The program may not include less than one half the total number of courses taken at the 6000 level.

The program may not include more than 2 courses (3 semester units each) in approved extension and transfer courses from other colleges. California State University, San Bernardino will not consider for transfer credit course work from an institution which will not accept that work in its own advanced degree program.

Degree Requirements (33 units)

Culminating Experience (0)	0
Total Units	33

Culminating Experience (0 units)

ECTS 6980	Comprehensive Examination	0
Total Units		0

The comprehensive examination is of an integrative nature and is designed to demonstrate the candidate's knowledge of the field of reading and literacy education. It also fulfills the Graduation Writing Requirement, so the quality of writing is also evaluated. The student may enroll in the examination no earlier than the last semester in which course work is taken. The student must have advanced to candidacy and completed a graduation check with the Office of Records, Registration and Evaluations before permission to take the examination can be granted. Students who do not receive a passing score may petition the College of Education to retake the examination or any part of it. Students who do not receive a passing score the second time must petition the Dean of Graduate

Studies to retake it. The exam cannot be repeated more than twice. Approval to retake the examination may be, at any time, contingent upon completion of additional designated courses.

Master of Arts in Educational Administration

The Master of Arts in Educational Administration has two areas of concentration: TK - 12 and Community College/Higher Education.

The TK-12 specialization prepares candidates to effectively lead educational organizations TK-12. Candidates enroll in coursework that is aligned with the CTC CAPEs and complete 120 hours of administrative fieldwork. The preliminary administrative services credential program is integrated in with the MA.

The Community College/Higher Education specialization focuses on preparing professionals in the local area opportunities to advance in their careers and take on leadership roles in their institutions of higher learning.

In addition to core and elective courses, Master's students take a research course and complete the requirements with either a thesis or a comprehensive exam.

Admission to the Program

In addition to the general requirements of the university for admission as a postbaccalaureate student, specific requirements for admission to the Master of Arts in Educational Administration are:

1. An application for admission to the program must be submitted;
2. A cumulative grade point average of 3.0 ("B") in all courses;
3. Completion of or plan to satisfy the graduate entrance writing requirement.
4. Submission of a 2-page essay from the provided prompt.
5. TK-12 candidates also need:
 - a. Verification of minimum of four years of documented full-time teaching, counseling, library or nursing experience in a school setting under a valid credential; substitute teaching does not apply;
 - b. Valid California teaching, pupil personnel, library, health services credential or full-time designated subject credential (with B.A.);
 - c. Successful completion of the California Basic Educational Skills Test (CBEST).
6. Community College/Higher Education candidates also need:
 - a. Verification of at least three years of professional experience in a community college or other higher education institution.
 - b. Verification of completion of B.A. or B. S. degree.

Students who do not meet all these criteria may be admitted as conditionally classified graduate students. Students admitted in this category may be changed to classified standing with approval of the College of Education. Normally, a student is expected to be working concurrently on the administrative services preliminary credential in the TK-12 specialization.

Advancement to Candidacy

In order to be formally advanced to candidacy, a student must have:

1. Achieved classified graduate standing;
2. Completed coursework with a grade point average of 3.0 ("B") overall.
3. Submitted a program plan;
4. Filed an approved graduate program check for completion of the degree. This must be prepared in consultation with an advisor in the College of Education and approved by the Dean of the College of Education and the Dean of Graduate Studies.

Requirements for Graduation

1. A minimum of 34-semester units of acceptable work with 24 completed in residence at this university;
2. A grade point average of 3.0 ("B") in course work taken to satisfy the Master of Arts degree requirements and grades of "C" (2.0) or better in all courses in the program;
3. Successful completion of the Comprehensive Evaluation in Educational Administration (EADM 6692 and passing the EADM 6980 Comprehensive Exam or Master's Thesis in Educational Administration (EADM 6973).
4. The Graduate Writing Assessment Requirement is met through the culminating experience.
5. Any additional general requirements not cited above and listed in Graduate Degree and Program Requirements (p. 71).

Master of Arts in Instructional Design and Technology

The M.A. in Instructional Design & Technology is designed to meet the needs of technology professionals in schools and other education related settings as well as business settings. The primary mission of the M.A. in IDT program is to prepare professionals to improve learning and performance, with effective use of technology, employing a systematic and systemic instructional design process. This program values ethical, life-long, independent, and collaborative learning. It promotes social justice, respects diverse perspectives, and fosters leadership for change. This program uses hands-on and student-centered approaches.

Admission to the Program

In addition to the general requirements of the university, specific requirements for admission to "classified" graduate status are:

1. A cumulative grade point average of 3.0 ("B") in all upper-division courses; and

2. Three letters of recommendation, from individuals familiar with the applicant's work history or educational background, using a program approved template of the letters of recommendation.

Students who do not meet these criteria may be admitted as "conditionally classified" graduate students. Students admitted in this category may be changed to classified standing with approval from the College of Education. No more than 15 semester units may be used to demonstrate fitness to complete the program.

Advancement to Candidacy

In order to be advanced to candidacy, a student must have:

1. Achieved classified standing;
2. Met Writing Requirement for Graduate Candidacy;
3. Completed with a grade point average of 3.0 ("B"), at least 15 semester units of applicable course work in graduate standing, at least 12 of which have been taken at this campus and approved by an advisor in the College of Education;
4. Between the time of completing 12 units and 15 units of applicable course work, the student is required to apply for advancement to candidacy.
5. Satisfactorily completed ETEC 5000, ETEC 5430, ETEC 5440, and ETEC 6430;
6. Filed an official document titled Instructional Design and Technology "Graduate Approved Program Plan." This must be approved by the student's advisor and the graduate coordinator of the program.

Requirements for Graduation

1. A minimum of 30 semester units of acceptable graduate-level work, with a minimum of 21 completed in residence at this university;
2. A grade point average of 3.0 ("B") and grades of "C" (2.0) or better in course work taken to satisfy the Master of Arts degree requirements;
3. Successful completion of comprehensive examination or a master's degree project.
 - a. Comprehensive Examination
The written comprehensive examination is designed to test the student's knowledge in the field of Instructional Design and Technology. Before taking the comprehensive examination, students are required to attend their e-portfolio defense and successfully pass the defense.

For the exam preparation, students are required to take ETEC 6850. Students must take ETEC 6980 to take the comprehensive examination with permission from the program coordinator. Students may not take the examination more than three times.

- b. MA Project
The purpose of the project is for the student to communicate ideas gained in research, experimentation and creative endeavors. A project will be planned in consultation with the student's first and second readers. The project proposal must be approved by the student's both readers, at least one of whom must be from the College of Education. The project also must be approved by the first and second readers and submitted in the approved format. The project can be reported in the form of a paper and/or other media. Both media and non-media projects require a final written report.

4. Graduate students are required to complete the Graduate Writing Assessment Requirement before being classified or advanced to candidacy. There are three options a student can choose from to meet the writing requirement.

- a. The student completes ETEC 5200 or ETEC 5423 and attains a grade of B or better.
 - b. The student scores an acceptable standardized test score (WREE or GRE).
 - c. The student submits a paper(s) that will receive a passing score according to the approved rubric (http://coe.csusb.edu/sites/default/files/PaperEvaluationCriteria_WritingRequirement.pdf)
5. Any additional general requirements not cited above and listed in Graduate Degree and Program Requirements (p. 71) website.

The program may not include more than 9 semester units in approved extension and transfer courses from other colleges. California State University, San Bernardino will not consider for transfer credit course work from an institution which will not accept that work in its own advanced degree program.

Bachelor of Arts in Career and Technical Studies

Admission to the Program

The Bachelor of Arts in Career and Technical Studies (BCTS) is designed to provide candidates with significant occupational and teaching experience the opportunity to have that experience count as partial credit toward a baccalaureate degree. Applicants must possess a high school diploma or its equivalent and five years of work experience and/or education directly related to each subject the candidate teaches.

In order to qualify for a Career and Technical Evaluation of Competency (CTEC) applicant must have at least three years of full-time work experience, at least 1500 clock hours of teaching experience.

Applicants must be admitted to the university and should take ECTS 3350. Introduction to Career and Technical Studies within the first academic year.

Requirements (60 units)

Total units required for graduation: 120

Requirements for the B.A. in Career and Technical Studies

(Program Code: CTEC)

Career and Technical Studies courses		27-36
ECTS 3350	Introduction to Career and Technical Studies	3
ECTS 4350	Global Educational Perspectives	3

ECTS 5010	Principles and Methods for Teaching Designated Subjects	3
ECTS 5020	Instructional Support for Teaching Designated Subjects	3
ECTS 5040	Principles of Career and Technical Education	3
ECTS 5080	Organization and Structure of Career and Technical Programs	3
ECTS 5180	Field Work in Designated Subjects	3
ECTS 5190	Instructional Technology for Career and Technical Educators	3

ECTS 5230	Educational Research and Learning Theory	3
ECTS 5410	Topics in Career and technical Education	3

Career and Technical Evaluation of Competency (CTEC)

The equivalent of up to 30 semester units of experience must be verified through written examinations, portfolios, personal interviews, demonstrations, and/or other appropriate means of documentation.

Total Units 60

Bachelor of Science in Career and Technical Studies

Admission to the Program

As prerequisites for acceptance into the B.S. in Career and Technical Studies, students must complete the following as a "Pre-Career and Technical Studies major." Upon acceptance into the program, a student's major will be changed from "Pre-CTS" to "Career and Technical Studies" status.

Requirements to enter the B.S. in Career and Technical Studies:

1. An earned AA or AS degree in a technical field or consent of the department advisor;
2. Completed CSU GE-Breadth Certification from a California Community College, including the American Institutions requirements (U.S. History, U.S. Constitution, and California State and Local Government);
3. A minimum of 60 earned semester units;
4. A minimum GPA of 2.0;
5. A formal application submitted to the program adviser. Please see the Department of Educational Leadership and Technology for forms.

Requirements (60 units)

Total units required for graduation: 120

Requirements for the B.S. in Career and Technical Studies

(Program Code: CTEC)

Career and Technical Studies (27)

Students must complete 15 required units and 12 elective units from this area as specified in a program plan developed with a program adviser.

ECTS 5010	Principles and Methods for Teaching Designated Subjects	3
ECTS 5020	Instructional Support for Teaching Designated Subjects	3
ECTS 5040	Principles of Career and Technical Education	3
ECTS 5080	Organization and Structure of Career and Technical Programs	3
ECTS 5410	Topics in Career and technical Education	3

Twelve units chosen from: 12

ECTS 5090	Personnel Management in Career and Technical Programs	
ECTS 5100	Field Work in Coordination and Supervision of Career and Technical Programs	
ECTS 5180	Field Work in Designated Subjects	
ECTS 5190	Instructional Technology for Career and Technical Educators	
ECTS 5200	Curriculum Development for Career and Technical Programs	
ECTS 5210	Assessing Student Progress	
ECTS 5220	Directing and Managing Occupational Programs	
ECTS 5230	Educational Research and Learning Theory	

Instructional Technology (15)

Students must complete 15 required units as specified in a program plan developed with a program advisor. 15

ETEC 5000	Foundations in Instructional Design & Technology	
ETEC 5010	Foundations of e-Learning	
ETEC 5410	E-Learning Design and Development	
ETEC 5423	Seminar in Instructional Design & Technology

ENTR 5450	Resources for the Entrepreneur	

ENTR 5980	Reflective Essay
-----------	------------------

Three units chosen from:

ENTR 5155	Business Consulting
ENTR 5470	Managing a Growing Business
HRM 4550	Human Resources Management
MKTG 3050	Marketing Principles
MKTG 4300	Professional Selling and Sales Management

Total Units 60

Note: In order to qualify for the Designated Subjects Career and Technical Education Teaching Credential, students should have at least three years of verifiable work experience directly related to each industry sector named on the credential. One year must equal a minimum of 1000 clock hours for ROP or 1500 hours for adult education. Students pursuing the credential must also earn a "B" or better in all professional education courses attempted (those with the ECTS prefix).

Minor in Career and Technical Education

This minor is for those candidates seeking employment with a Regional Occupational Program (ROP), Public or Charter School or Correctional Institution. It also beneficial for persons interested in teaching in a community college, private secondary or post-secondary environment.

Candidates seeking the Designated Subjects Teaching credential will also need to complete: ECTS 5180, HSCI 5240, Adult/child/infant CPR, U.S. Constitution, and teaching experience requirements.

Requirements for a minor in Career and Technical Studies (18 units)

ECTS 5010	Principles and Methods for Teaching Designated Subjects	3
ECTS 5020	Instructional Support for Teaching Designated Subjects	3
ECTS 5040	Principles of Career and Technical Education	3

Administrative Preliminary Services Credential

The Administrative Services Preliminary Credential Program is a state approved program that qualifies graduates to service in any administrative position in California Public Schools, TK-12. Students work toward mastery of the California Administrator Performance Expectations (CAPES). Students are prepared to pass the new California Administrator Performance Assessment (CalAPA) which is required starting in Fall, 2019 for the credential.

Admission to the Program

In addition to meeting the general requirements of the university for admission as a postbaccalaureate student, admission to the Administrative Services Preliminary Credential Program requires the following:

1. An application for admission to the program must be submitted;
2. A 3.0 ("B") grade point overall average in all courses;
3. Completion of or plan to satisfy the graduate entrance writing requirement;
4. Verification of minimum of four years of full-time credentialed experience, school-related nursing, library service, and/or counseling experience.
5. A valid Clear California teaching, pupil personnel, health services, library credential, or full-time designated subject credential (with B.A.);
6. Successful completion of the California Basic Educational Skills Test (CBEST).
7. Submission of a 2-page essay from the provided prompt.

Students who do not meet these criteria may be admitted as conditionally classified graduate students. Students admitted in this category may be changed to classified standing with approval of the College of Education.

Recommendation for the Credential

To be eligible to be recommended for the credential, a candidate must:

1. Demonstrate mastery of the California Commission on Teacher Credentialing (CTC) California Administrator Performance Expectations (CAPES) as evidenced by student portfolio, coursework, and student exit assessments.
2. Successfully complete all program requirements;
3. Pass the new California Administrator Performance Assessment (CalAPA) which is required starting in Fall, 2019.
4. Obtain recommendation from program coordinator.

Credential Requirements (28 units)

Total Units		28

Note: Students must see program coordinator/advisor for recommended sequence of program.

Culminating Experience (0 units)

Complete the Student Exit Assessments in all areas of the CAPEs.

Complete Student Portfolio addressing the six areas of the CAPEs

Administrative Services Professional Credential

The clear administrative services professional credential is a two year program. The program consists of professional development designed to address the six CPSELs, development of a Individualized Induction Plan, assessment, and a minimum of 40 hours of coaching with a certified coach each year.

Admission to the Program

In addition to the general requirements of the university for admission as a postbaccalaureate student, admission to the Professional Clear Administrative Services Credential program requires the following:

1. Application for admission to the program;
2. A valid Preliminary Administrative Services Credential;
3. Verification of current employment in an administrative position;
4. A 3.0 ("B") grade point average in all graduate work;
5. Verification of a Master's Degree in a related field;
6. An Individual Program Plan (IP) on file or in progress.

Recommendation for the Professional Credential

In order to be recommended for a credential, the student must have:

1. Two (2) years of full-time administrative experience in the public schools, or private schools or equivalent;
2. Completed all program requirements while employed in a full-time school/district administrative position.

Credential Requirements (16 units)

EADM 6681	Vision and Student Achievement	2
EADM 6682	Collaborative Culture of Teaching and Learning	2
EADM 6683	Resource Management of the Learning Institution	2
EADM 6684	Political, Legal, Cultural Context in Education	2

Designated Subject Credential in Adult Education

This credential is for anyone teaching in an adult learning environment. [This credential is for those candidates seeking employment with a correctional institution, community college, private secondary or post-secondary environment.](#)

Credential Requirements (15 units)

Appropriate work experience and a high school diploma (or the equivalent) are required for admission to the Designated Subjects Career and Technical (CTE) Teaching Credential Program. Applicants should have at least three years of verifiable work experience directly related to each industry sector named on the credential. One year must equal a minimum of 1000 clock hours. The experience may be full-time or part-time, paid or unpaid. One year of work experience must be within the last five years or two years of work experience must be within the last ten years in the area listed on the credential. Contact the Jim and Judy Watson College of Education Student Services Office for additional information on credential processing requirements.

Required Courses for Cleared Credential:

ECTS 5010	Principles and Methods for Teaching Designated Subjects	3
or ECTS 6010	Principles and Methods for Teaching Designated Subjects	
ECTS 5020	Instructional Support for Teaching Designated Subjects	3
or ECTS 6020	Instructional Support for Teaching Designated Subjects	
ECTS 5040	Principles of Career and Technical Education	3
or ECTS 6040	Principles of Career and Technical Education	
ECTS 5180	Field Work in Designated Subjects	3
or ECTS 6180	Field Work in Designated Subjects	

ECTS 5190	Instructional Technology for Career and Technical Educators	3
or ECTS 6190	Instructional Technology for Career and Technical Educators	
Total Units		15

Additional Requirements

Students must also complete:

1. The United States Constitution requirement (or successful completion of an examination administered through the College of Extended Learning) Current options:

HIST 1460	History of the United States: Pre-Colonization to Present	3
HIST 2000	United States History to 1877	3
HIST 5400	Constitutional History of the United States	3
PSCI 2030	Government of the United States	3
PSCI 4100	American Constitutional Law	3
PSCI 4110	The Bill of Rights	3

2. Fulfill the health education requirement; current option HSCI 5240.
3. Valid CPR card (Adult, child, Infant).
4. Two (2) years of teaching experience.

The Preliminary Credential is used on the basis of documented work experience and the Clear Credential issued after the applicant has completed the indicated course work, met the health education requirement, and taught a minimum of two years under the Preliminary Credential.

Applicants having questions about Designated Subjects Credentials, the Bachelor of Arts in Career and Technical Studies, or the Bachelor of Science in Career and Technical Studies should contact the Program Coordinator of the specific program.

Designated Subjects Career and Technical Education Credential

This credential is for those candidates seeking employment with a Regional Occupational Program (ROP), Public or Charter School or Correctional Institution. It also beneficial for persons teaching in a community college, private secondary or post-secondary environment.

Credential Requirements (15 units)

Appropriate work experience and a high school diploma (or the equivalent) are required for admission to the Designated Subjects Career and Technical (CTE) Teaching Credential Program. Applicants should have at least three years of verifiable work experience directly related to each industry sector named on the credential. One year must equal a minimum of 1000 clock hours. The experience may be full-time or part-time, paid or unpaid. One year of work experience must be within the last five years or two years of work experience must be within the last ten years in the area listed on the credential. Preliminary Administrative Services Internship Credential

The Administrative Services Preliminary Intern Program is a state approved program that qualifies graduates to serve in any administrative position in California Public Schools, TK-12. Students in the intern program must be currently hired as educational administrators. Upon

completion of this program the students apply for the Administrative Services Preliminary Credential.

Admission to the Program

In addition to meeting the general requirements of the university for admission as a post-baccalaureate student, admission to the Administrative Services Preliminary (Internship) Credential program requires the following:

1. An application for admission to the program must be submitted;
2. A 3.0 ("B") grade point average overall in all courses;
3. Completion of or plan to satisfy the graduate entrance writing requirement;
4. Verification of completion of minimum of five years of full-time years of teaching, counseling, or other certified work;
5. A valid clear teaching, pupil personnel, library, or health services credential or full-time designated subject credential (with B.A.);
6. Successful completion of the California Basic Educational Skills Test (CBEST);
7. Submission of a 2-page essay from the provided prompt;
8. Student must be currently hired as a school administrator;
9. An internship contract signed between the student, the school district and the program;
10. Students must enroll in the intern course, EADM 6630, each semester they remain in the program and complete the program within two years;
11. Apply for the administrative services internship credential from the Commission for Teacher Credentialing.
12. Students who do not meet these criteria may be admitted as conditionally classified graduate students. Students admitted in this category may be changed to classified standing with approval of the College of Education.

Recommendation for the Credential

Recommendation to be recommended for the administrative services preliminary credential, a candidate must:

1. Successfully complete the regular program for the Preliminary Administrative Services Credential;
2. Be currently employed in an administrative position in a school district or county office of education.
3. Pass the new California Administrator Performance Assessment (CalAPA) which is required starting in Fall, 2019.
4. Obtain recommendation from program coordinator.

Education Specialist Degree in School Psychology

The Ed.S. in school Psychology is a 63 semester unit sequence program designed for students wishing to pursue a career in school psychology. In addition to the two years of coursework in assessment, consultation, evidence-based intervention, legal and ethical issues, multicultural counseling, research, measurement and cognitive assessment, students must complete 450 hours of applied practica. A 1200 hour internship in a school setting is completed during the third year. A comprehensive examination given by NASP consistent with Nationally Certified School Psychologists must also be passed during the third year.

The Ed.S in school psychology fulfills all coursework needed to comply with the common and generic standards for the Pupil Personnel Services Credential (PPS) as well as advanced coursework which meets the CA state standards for school psychology specialization.

Admission to the Program

Candidates are admitted for fall only. In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

1. A baccalaureate degree from an accredited college or university in psychology, child development, or related social science field;
2. Official transcripts;
3. Personal statement of why candidate wants to pursue graduate degree in school psychology;

- Two reference forms and letters of recommendation from persons having knowledge of the applicant's potential as a school psychologist;
- Evidence of current negative TB test;
- Submission of an application for a certificate of clearance or evidence of a credential or permit authorizing public school teaching in California;
- Minimum grade point average of 3.0;
- Prerequisite classes include one class in Child Development and one class in Statistics;
- The California Basic Educational Skills Test (CBEST) must be completed before the end of the student's first year of classes.

Advancement to Candidacy

- Achieve classified status.
- Submitted documentation of successful passing of the CBEST or other test of basic skills.
- Completion of 24 semester units of coursework in the program.
- Maintain an overall GPA of 3.0 ("B") or better and no grades below a B-.
- File an approved Program Plan. The Program Plan must be approved by the student, major advisor/program coordinator and filed with Student Services in the College of Education.

Requirements for Graduation

- All courses taken to satisfy the requirements for the Ed.S. must be completed with a minimum of 3.0 ("B") or better;
- 44 units of coursework must be completed at this university;
- Advance to candidacy;
- The Graduate Writing Assessment Requirements is met upon successful completion of EDSP 6607 with a grade of B or higher;
- Completion of 1200 hour supervised fieldwork/internship;
- Comprehensive examination that consists of a passing score on the Praxis exam put out by ETS for the National Association of School Psychologists;
- Completion of a graduation requirement check.

Ed.S. students take the Praxis exam put out by ETS for the National Association of School Psychologists, which indicates student knowledge level is equivalent to school psychology programs across the country. For this program, a passing score is one-half standard deviation below the national mean of 147. The Praxis exam can be taken any time after the student advances to candidacy. Students who do not receive a passing score may petition the School Psychology Program Coordinator to retake the examination. Students who do not receive a passing score the second time must petition Graduate Studies with the approval of the School Psychology Program Coordinator to retake the exam. Approval to retake the examination may be, at any time, contingent on completion of additional designated courses and the development of a written plan.

Master of Arts in Rehabilitation Counseling

The Master of Arts in Rehabilitation Counseling offered by the College of Education is a three-year course of study. It is designed to prepare students to work with individuals with disabilities (including transition aged youth and veterans) in public and private rehabilitation agencies, hospitals, industry and related fields. Graduates of the program will be prepared to take the Certified Rehabilitation Counselor examination.

Rehabilitation counseling is a growing field in the mental health and allied health professions. A rehabilitation counselor helps individuals with disabilities achieve optimal social, psychological and vocational potential. Whenever possible, the final goal of rehabilitation is job placement.

Admission to the Program

In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

- A baccalaureate degree with a major preferably in education, psychology, sociology, or a related social service field;
- A cumulative undergraduate grade point average of 2.5 ("B") overall;
- Completion of the graduate entrance writing requirement, as required;

4. Completion of an interview to assess competence in interpersonal skills and aptitudes for the rehabilitation counseling profession.

Advancement to Candidacy

In order to be formally advanced to candidacy, a student must have:

1. Achieved classified graduate standing;
2. Satisfactorily completed EREH 6615 and EREH 6616 with a grade of "B" (3.0) or better in each;
3. Secured approval of candidacy from the College of Education;
4. Filed an approved graduate program for completion of the degree. This must be prepared in consultation with an advisor in the College of Education and approved by the College and the Dean of Graduate Studies.

Requirements for Graduation

1. A minimum of 60 semester units of acceptable work, with 42 completed in residence at this university;
2. A minimum of 40 semester units taken after a student has been advanced to candidacy for the degree;
3. Participation in a continual evaluation process assessing personality, character, professional ethics, aptitudes, counseling skills, dispositions, oral and written language usage;
4. A grade point average of 3.0 ("B") in course work taken to satisfy the Master of Arts degree requirements, including a minimum of a "B" in EREH 6615 and EREH 6616 and grades of "C" (2.0) or better in all courses in the program;
5. The Graduate Writing Assessment Requirement is met upon successful completion of EREH 6624;
6. Successful completion of the Certified Rehabilitation Counselor (CRC) Examination, which is a national certification examination given by the Commission on Rehabilitation Counselor Certification.

Total Units		0

- * A grade of CR will be awarded upon successful completion of the Certified Rehabilitation Counselor (CRC) Examination, which is a national certification examination given by the Commission on Rehabilitation Counselor Certification. The exam is administered in March, July and October each year. Students need to apply and pay the examination fee. Students need to provide evidence of exam completion in the final semester of the academic program. Students must take the CRC Exam as part of EREH 6980 in order to complete the Master's degree program in Rehabilitation Counseling Master's Program. If a student does not pass the CRC on the first attempt, they need to retake the exam. If after the second attempt they do not pass the examination, the student needs to petition both the Dean of Graduate Studies and the Coordinator of the Rehabilitation Counseling Program, for permission to develop a plan of remediation in order to retake the CRC exam.

Master of Science in Counseling

The M.S. in Counseling is a professional program to prepare students for a successful career in the counseling profession. The program's emphasis on postmodern praxis and commitment to social justice sets the tone for preparing counselors who can respond to complex issues in a variety of settings. Students who complete the appropriate concentration within the degree can apply to the California Board of Behavioral Sciences to become Licensed Professional Clinical Counselors (LPCC). Coursework in the appropriate concentration prepares students to become counselors in grades K-12 by applying for the California Pupil Personnel Services School Counselor Credential (PPS). The degree offers three concentrations, School Counseling, Professional Counseling, or a dual concentration of School and Professional Counseling.

Admission to the Program

In addition to the general requirements of the university, specific requirements for admission to classified graduate status are:

- Must complete CSU Apply Application.
- Must apply directly to the concentration of interest; either School Counseling, Professional Counseling, or School and Professional Counseling Dual Concentration.
- Students must be admitted to CSUSB graduate studies and meet the general requirements of the university.
- GPA of 3.0 or higher from all previous undergraduate/graduate work.
- **Attending Information Sessions:** All prospective students are encouraged to attend one of our Counseling Program admission Information Sessions, where submission criteria and guidelines will be provided.
- **Review the CSUSB Master of Science in Counseling Program: Personal Statement Prompts and Evaluation Rubric** (<https://docs.google.com/document/d/1dxHjAblan6ez-zGXyZZzCAXRMae-q8Qo/edit?usp=sharing&ouid=10645963517119189758&rtpof=true&sd=true>): The personal statement prompts are designed to guide your reflection on key aspects of your background, experiences, and career goals. The evaluation rubric provides specific details on the additional

documents required for your application, including your resume, three letters of recommendation, TB test results, and CTC clearance. You will be required to upload the following documents:

- **Submission of Personal Statement of Interest:** As part of your application, you are required to submit a personal statement that provides insight into your experiences, values, and professional goals. Additionally, we provide an evaluation rubric that outlines the key criteria our admissions committee will use to assess your application. These criteria ensure a comprehensive review of your commitment to social justice, alignment with the program's mission, and potential contributions to the field of counseling. Please carefully review the prompts and rubric to ensure your personal statement is thorough, well-structured, and reflective of your passion for becoming a counselor.
- **Submission of Current Resume:** When submitting your resume, please ensure it highlights your relevant academic background, professional experience, community service, and leadership roles. Focus on counseling-related experiences and any work with diverse populations. Your resume should demonstrate your commitment to the field and align with the program's mission and core values.
- **Submission of Letters of Support:** *Three* Letters of support should come from individuals who can speak to your academic preparation, professional potential, and suitability for the counseling field. These letters should highlight your compassion, commitment to social justice, and values that align with the program. The letters should provide specific examples of your contributions and potential impact as a future counselor.
- The following items are required, and they must be submitted either at the time of admission or before the start of the fall semester to be conditionally admitted into the program:
 - **Evidence of current negative TB test:** Please indicate in your application that you are waiting on official confirmation if your clearance is pending);
 - **Evidence of valid Certificate of CTC Livescan Clearance (<https://www.ctc.ca.gov/credentials/fee-and-fingerprint/>):** Please indicate in your application that you are waiting on official confirmation if your clearance is pending) OR possession of a valid California teaching credential;
- Upon completion of the above requirements, the student's file will be reviewed by an admission committee composed of at least *three* members of the Counseling faculty.

Advancement to Candidacy

In order to be formally advanced to candidacy a student must have:

1. Completed 12 semester units of coursework with a grade point average of 3.0 ("B"), to include COUN 6220, COUN 6221; COUN 6222.
2. Filed an approved graduate program plan for completion of the degree. This must be prepared in consultation with a program advisor and approved by the program coordinator.

Requirements for Graduation

1. A minimum of 60 semester units of graduate-level work, with a minimum of 42 units completed in residency at this university. Students pursuing the dual concentration must complete a minimum of 49 units in residency;

2. A minimum of 20 semester units of credit taken after a student has been advanced to candidacy for the degree;
3. A grade point average of 3.0 ("B") in course work taken to satisfy the degree requirements, including a minimum of a "B" in COUN 6220, and COUN 6224, and no grade below a "B-" (2.7) in all other courses in the program;
4. The graduation writing requirement is met either through demonstrated competence by a passing grade on the writing assignment housed in COUN 6221 as specified in the course syllabus or the completion of an equivalent course.
5. Comprehensive examination, culminating experience, and/or through completion of a Master's degree project;
6. Completion of a graduation requirement check;
7. Any additional requirements not cited above and listed in the requirements for a Master's Degree are listed in the Graduate Degree and Program Requirements.

The comprehensive examination is designed to test the student's knowledge of counseling. The examination is a standardized national exam, the Counselor Preparation Comprehensive Examination (CPCE). The student will take the examination during their final term. The student must be advanced to candidacy at least one semester before taking the comprehensive examination. The student must complete a graduation check with the Office of the Registrar before permission to take the examination can be granted. Students who do not receive a passing score may petition the program coordinator to retake the examination. Students who do not receive a passing score the second time must petition the Dean of Graduate Studies to retake the exam. Approval to retake the examination may be, at any time, contingent upon completion of additional designated courses.

A Master's project, including other media, can be reported as a paper. The project must be approved by the student's advisor and one other professor in the College of Education and submitted in an approved format. Further information is available in the Graduate Thesis and Project handbook available through the Graduate Studies Office. Students who elect to complete a project are not required to take a comprehensive exam.

Master of Science in Special Education

The Master of Science in Special Education will provide students with advanced preparation in research methodologies and research-based practices that address contemporary topics and issues in the field of Special Education. Options for emphases in Early Childhood Special Education, Mild to Moderate Support Needs, and Extensive Support Needs are available. The Special Education program recommends that students pursuing the Master of Science degree in Special Education be concurrently enrolled in an Education Specialist credential program. Students pursuing the degree only must have permission from the Special Education Program Coordinator.

Admission to the Program

In preparation for admission to the basic program, applicants must review the Special Education Credential Program Admission Booklet which can be downloaded at CSU Special Education Program website and attend a mandatory Information Session. The schedule for Information Sessions may be obtained on the CSUSB Special Education webpage.

1. Original written verification of passing score for the California Basic Educational Skills Test (CBEST);
2. Two written recommendations by persons who can address scholastic performance;
3. Verification of a negative tuberculin examination within the last four years;
4. Academic Achievement, verified through official transcripts from ALL institutions of higher education attended. Applicants must possess a minimum undergraduate grade point average of at least 3.0 in all baccalaureate and post-baccalaureate course work or at least 3.0 in the last 60 semester or 90 quarter units attempted;
5. Submission of an application for a certificate of clearance or evidence of a credential or permit authorizing public school teaching in California;
6. Satisfactory completion of prerequisite courses, ESPE 5530 and ESPE 5531, with a grade of "B" or better.

Students who do not meet these criteria may be admitted as conditionally classified graduate students. Students admitted in this category may be changed to classified standing with approval of the College of Education. No more than 12 semester units may be used to demonstrate fitness to complete the program.

Advancement to Candidacy

In addition to the above program admission requirements, master's degree candidates must successfully complete the following requirements in order to be advanced to candidacy:

1. Achieve full (classified) admission to the M.S. in Special Education program;
2. Secure approval of candidacy from the College of Education;
3. File an approved graduate program for completion of the degree. This must be prepared in consultation with an assigned advisor in the

College of Education and approved by the coordinator of the Special Education program.

Note: Advancement to candidacy must be processed prior to completion of 12 semester units of master's degree course work. Candidates will not be permitted to take the comprehensive examination in the same semester they are advanced to candidacy.

Requirements for Graduation

In addition to requirements listed in Graduate Degree and Program Requirements, candidates must meet the following requirements for graduation:

1. A minimum of 33-semester units of acceptable work, with a minimum of 24-semester units completed at this university. Note: The program may not include more than 9-semester units in approved CSUSB extension or transfer courses from other colleges/universities. CSUSB will not consider the transfer of course work from an institution that will not accept that work towards its own advanced degree program.
2. A grade point average of 3.0 ("B") in course work taken to satisfy the Master of Science degree requirements with no grade lower than a "B-" in all courses in the program;
3. The Graduate Writing Assessment requirement is met through successful completion of ESPE 6602;
4. Successful completion of the project/thesis and/or comprehensive examination.

Degree Requirements (33 units)

Core course requirements (21)

ESPE 5532	Language Development in Diverse Learners	3
ESPE 6631	Assessment for Planning and Instruction	3
ESPE 6632	Supportive Learning Environments	3
ESPE 6633	Methods to Support Inclusive Learning	3
ESPE 6639	Collaboration and Consultation in Special Education	3
ESPE 6601	Critical Issues in Special Education	3
ESPE 6602	Research in Special Education	3

Emphasis course requirements (9)

Students must choose one of the following options:

Early Childhood Special Education

ESPE 6637	Seminar on Language and Literacy in Early Childhood Special Education	
ESPE 6672	Birth to Age Three Methods in Early Childhood Special Education	
ESPE 6673	Preschool through Kindergarten Methods in Early Childhood Special Education	

Mild to Moderate Support Needs

Culminating Experience (3)

3

Students must choose ONE of the following options to demonstrate the Graduate Exit Writing Requirement: Project or Comprehensive Exam

Total Units

33

Culminating Experience (3 units)

Successful completion of a project/thesis and/or the comprehensive examination is required.

Project Option (3 units)

A satisfactory project is one which must be reported in the form of a paper. The purpose of the project is for the candidate to communicate ideas gained in research, experimentation and creative endeavors; therefore, candidates should not feel bound to traditional forms. The project proposal and the project must be approved by the candidate's project advisor and one other professor in the College of Education and submitted in an approved format. Further information is available from the College of Education regarding an approved format for the project proposal and project. Candidates who elect to complete a project are not required to take a comprehensive examination.

ESPE 6960	Master of Science in Special Education Project	3
-----------	--	---

Total Units

3

Comprehensive Exam Option (3 units)

The comprehensive examination is of an integrative nature and is designed to test the candidate's knowledge of a specific field, rather than subject matter of courses taken. The examination is offered once each semester. The candidate may enroll in the examination no earlier than the last semester in which coursework ~~course work~~ is taken. The candidate must complete a graduation check with the Registrar's Office before permission to take the examination can be granted. Candidates who do not receive a passing score may petition the College of Education to retake the examination or any part of it. Candidates who do not receive a passing score the second time must petition the Dean of Graduate Studies to retake the examination. Approval to retake the examination may be, at any time, contingent upon completion of additional designated courses.

Minor in Counseling and Social Change

The minor will offer an interdisciplinary collaboration between the college of education's MS in counseling and complimentary programs across disciplines. The proposed minor will be 18 semester units, 12 housed in

the counseling program and 2 electives house elsewhere (1 GE and 1 additional class will fulfill this requirement).

Complimentary disciplines could include but are not limited to: BA in English, Sociology, History, Human Development (Child development track), Human Development (Lifespan track), Anthropology, Criminal justice, Health science, Admin (Public administration), Philosophy, Political Science, Admin (Human Resource Mgmt.), Admin (Hospitality Mgmt.), Communication, Art (Visual Studies), Liberal Studies (General Track), Spanish, & Kinesiology.

Requirements for a minor in Counseling and Social Change (18 units)

COUN 3101	Introduction to the Counseling & Helping Professions	3
COUN 3102	The Social Construction Of Relationships	3
COUN 3103	Introduction To Counseling Skills & Practices	3
COUN 3104	Counseling & Social Change	3
An additional 6 units chosen in consultation with an advisor.		6
Total Units		18

Certificate in Rehabilitation Counseling

The Rehabilitation Counseling Certificate is reserved for individuals who possess a Master's degree in a related field (i.e., social work, psychology, etc.) and are interested in obtaining knowledge and training in Rehabilitation Counseling.

Certificates may be earned by regularly matriculated or extended learning students and denote successful completion of a prescribed program of study designed to:

1. impart specified professional/vocational/career competencies; or
2. produce mastery of the content of a sub-field of an academic major (discipline); or
3. provide exposure to the range of materials in a traditional or emerging interdisciplinary field.

Certain certificate programs contain 6000-level courses as requirements and/or electives. These 6000-level courses may not be taken by undergraduate students. Candidates must receive two-thirds of their certificate-applicable credit from the university. The transferring of credit or the substitution of courses may occur only after application to the appropriate campus authority.

Certificate Requirements (29 units)

EREH 6615	Introduction to Rehabilitation Counseling (must be completed with a grade of "B" (3.0) or better to continue work in the certificate program)	5
EREH 6616	Medical Aspects of Disability Across the Life Span	5
EREH 6618	Addictions & Co-Existing Disabilities	5
EREH 6620	Multicultural Rehabilitation Counseling	4
EREH 6621	Psychiatric Rehabilitation Diagnosis & Psychopharmacology	5
EREH 6617	Counseling Theories and Psychosocial Aspects in Rehabilitation	5
Total Units		29

Internship Education Specialist Credential: Early Childhood Special Education with EL Authorization

Basic Teaching Credentials

The CSU prepares teachers for positions in California as well as other states. It is in the student's best interest to be knowledgeable about credential or licensure requirements of the state in which they intend to teach.

The Preliminary Education Specialist credential with an authorization in Early Childhood Special Education (ECSE) is intended to prepare teachers to serve students across a range of disabilities and extends the authorization to serve learners through kindergarten. The program at CSUSB is accredited by the California Commission on Teacher Credentialing (CTC). The Early Childhood Special Education Intern

Program is an alternative certification program in which interns are employed full-time as Special Education teachers for children with disabilities between the ages of birth and kindergarten while earning the Preliminary Education Specialist Credential for Early Childhood Special Education. All requirements must be completed in two years.

Supervised internship fieldwork and clinical practice is completed in the district of employment within San Bernardino and Riverside counties. The intern is supervised jointly by a district employed mentor teacher and university employed supervisor. Supervision by the university is an in-person learning experience. The program also meets state standards authorizing instruction to English learners to develop English language skills including reading.

The Education Specialist: Early Childhood Special Education credential authorizes the holder to conduct educational assessments related to students' access to the academic curriculum and progress towards meeting instructional academic goals; and provide instruction and special education support to students from birth through kindergarten who are eligible for early intervention special education and related services related to one or more of the following disabilities: autism, emotional disturbance, intellectual disability, orthopedic impairment, other health impairment, specific learning disability, traumatic brain injury, and multiple disabilities including developmental delay and a disabling medical condition in services across the continuum of program options available.

Admission to the Program

Applicants must apply to the program at Cal State Apply (<https://www.calstate.edu/apply>) (<https://www.calstate.edu/apply/>) to be considered for admission to the Preliminary Education Specialist Credential Program in Early Childhood Special Education. Applicants must meet BOTH the general requirements of the university for post baccalaureate admission and the program requirements in order to be admitted to the university and classified as a credential candidate. In preparation for admission to the basic credential program, applicants must review the Special Education Credential Program Admission Booklet which can be downloaded from the Special Education Program web pages on the CSUSB website at: CSU Special Education Programs website (http://www.csusb.edu/coe/programs/special_ed/) and attend a mandatory Information Session scheduled through Teacher Education in the College of Education Student Services at either the San Bernardino or Palm Desert campus. At this session, applicants will receive instructions for completing their application to CalState Apply. Applicants must submit to the Admissions staff in the College of Education Student Services according to the deadlines published for the semester of admission. Admission to the program is based on the following requirements included in the Cal State Apply application:

1. Completion of an application form;
2. Original verification of meeting the basic skills requirement by one of the following methods:
 - a. Pass the California Basic Educational Skills Test (CBEST);
 - b. Pass the California Subject Examinations for Teachers (CSET) Multiple Subjects Plus Writing Skills examination;
 - c. Pass the CSU Early Assessment Program or the CSU Placement Examination;
 - d. Achieve qualifying score on the SAT or ACT;
 - e. College Board Advanced Placement (AP) Examinations;
 - f. Pass basic skills examination from another state;

- g. Meet the basic skills requirement by coursework;
 - h. Meet the basic skills requirement by coursework and exam.
3. All applicants are required to enter two names and emails addresses of persons who can address scholastic performance and suitability for teaching (recommendations are required to be submitted by the program deadline date, letters of recommendation will not be accepted);
 4. A written personal narrative to be reviewed and approved by the Special Education Program Coordinator;
 5. Verification of a negative tuberculin examination within the last four years;
 6. Academic achievement, verified through official transcripts from ALL institutions of higher education attended. Applicants must possess a minimum undergraduate grade point average of at least 2.67 in all baccalaureate and postbaccalaureate course work or at least 2.75 in the last 60 semester or 90 quarter units attempted;
 7. Documentation of 45 hours of experience in early childhood and special education settings;
 8. Submission of an application for a certificate of clearance or evidence of a credential or permit authorizing public school teaching in California;
 9. Verification of attendance at a Special Education Information Session
 10. Satisfactory completion of prerequisite courses with a grade of "B" or better:

ESPE 5530	Introduction to Special Education	3
ESPE 5531	Methods and Procedures in Special Education	3
Total Units		6

Upon admission to the university and the Preliminary Education Specialist Credential Program, all candidates must attend the mandatory New Student Orientation. At this session, candidates will receive a program handbook and will be advised on completing an approved Coursework Plan.

Eligibility for the Internship Program (9 units)

In addition to meeting the general requirements for admission to the university and the Special Education Credential program, eligibility for the Internship program requires the following:

1. Submission of application for the Internship Education Specialist Credential: Early Childhood Special Education;
2. Satisfactory completion of program prerequisite/pre-service coursework requirements with a grade of "B-" or better unless otherwise specified:

ESPE 5530	Introduction to Special Education	3
ESPE 5531	Methods and Procedures in Special Education	3
ESPE 5532	Language Development in Diverse Learners	3

Note: These courses may be included in Internship Program Requirements if pre-service requirements are met through possession of valid California Multiple Subjects or Single Subject Teaching credential.

3. Preparation to teach English learners must be verified by one of the following:

- a. Pre-service EL coursework/instruction;
- b. Valid California Credential with EL Authorization;
- c. CLAD/BCLAD Certification;
- d. Interview by university/school district representatives at the discretion of the Intern Program Coordinator.

Recommendation for the Internship Education Specialist Credential: Early Childhood Special Education

In addition to classified program admission and successful verification of eligibility for the internship program, the candidate must successfully complete the following requirements in order to be recommended for the Internship Education Specialist Credential in Early Childhood Special Education:

1. Employment as a special day class teacher for children with disabilities between the ages of birth and kindergarten in a participating school district, verified by a copy of the contract indicating the beginning date of employment as an intern (Month/Day/Year) with the authorized signature as designated by the school district personnel office. The recommended credential issuance date will be the date the employing school district specifies on this contract as the beginning date of service;
2. Application for On-line Recommendation submitted to Credential Processing in the College of Education Student Services;
3. Completion of the U.S. Constitution requirement by one of the following:

HIST 1460	History of the United States: Pre-Colonization to Present	3
HIST 2000	United States History to 1877	3
HIST 5400	Constitutional History of the United States	3
PSCI 2030	Government of the United States	3
PSCI 4100	American Constitutional Law	3
PSCI 4110	The Bill of Rights	3

Successful completion of an examination administered through the College of Extended Learning;

Approved U.S. Constitution course substitution at another university.

Recommendation for the Preliminary Education Specialist Credential: Early Childhood Special Education

In addition to credential and degree course work, candidates must successfully complete the following exit requirements to be recommended for the Preliminary Education Specialist Credential: Early Childhood Special Education:

1. A grade point average of 3.0 ("B") in professional education course work, with no course grade lower than a "B-";
2. Completion of the upper-division writing requirement;
3. Application for On-line Recommendation submitted to Credential Processing in the College of Education Student Services.

Credential Requirements (47 units)

All requirements must be met within the term of the internship credential (two years). Completion of the following courses with a grade point average of 3.0 or better with no grade lower than a "B-":

ESPE 6631	Assessment for Planning and Instruction	3
ESPE 6633	Methods to Support Inclusive Learning	3
ESPE 6634	Practicum: Methods to Support Inclusive Learning	1
ESPE 6632	Supportive Learning Environments	3
ESPE 6637	Seminar on Language and Literacy in Early Childhood Special Education	3
ESPE 6638	Practicum: Seminar on Language and Literacy in Early Childhood Education	1
ESPE 6639	Collaboration and Consultation in Special Education	3
ESPE 6672	Birth to Age Three Methods in Early Childhood Special Education	3
ESPE 6673	Preschool through Kindergarten Methods in Early Childhood Special Education	3
ESPE 6624	Supervised Intern Teaching in Special Education: Early Childhood Special Education	24

Total Units **47**

Internship Education Specialist Credential: Mild/Moderate Disabilities with EL Authorization

Basic Teaching Credentials

The CSU prepares teachers for positions in California as well as other states. It is in the student's best interest to be knowledgeable about credential or licensure requirements of the state in which they intend to teach.

The Preliminary Education Specialist credential with an authorization in Mild to Moderate Support Needs (MMSN) is intended to prepare teachers to serve students across a range of disabilities. The program at CSUSB is accredited by the California Commission on Teacher Credentialing (CTC). The Mild to Moderate Special Education Intern Program is an alternative certification program in which interns are employed full-time as Special Education teachers while earning the Preliminary Education Specialist Credential for Mild to Moderate Support Needs. All requirements must be completed in two years.

Supervised internship fieldwork and clinical practice is completed in the district of employment within San Bernardino and Riverside counties. The intern is supervised jointly by a district employed mentor teacher and university employed supervisor. Supervision by the university is an in-person learning experience. The program also meets state standards authorizing instruction to English learners to develop English language skills including reading.

Mild to Moderate Support Needs includes providing specially designed instruction to access grade level California Content Standards in the Least Restrictive Environment. The education specialist provides instruction and supports in one or more of the following domains: academics, communication, gross/fine motor, social-emotional, behavioral, vocational, and learning environment access skills. The supports may also include

health, movement and sensory support. Mild to Moderate Support Needs practices may include lower student to educator ratio.

The Education Specialist Instruction Credential: Mild to Moderate Support Needs authorizes the holder to conduct Educational Assessments related to students' access to the academic curriculum and progress towards meeting instructional goals, provide instruction, and Special Education Support to students with mild to moderate support needs related to one or more of the following disabilities: autism, emotional disturbance, intellectual disability, multiple disabilities, orthopedic impairment, other health impairment, specific learning disability, and traumatic brain injury; in kindergarten, including transitional kindergarten, grades 1-12 through age 22, and classes organized primarily for adults in services across the continuum of program options available.

Admission to the Program

Applicants must apply to the program at Cal State Apply (<https://www.calstate.edu/apply> (<https://www.calstate.edu/apply/>)) to be considered for admission to the Preliminary Education Specialist Credential Program in Mild to Moderate Support Needs. Applicants must meet BOTH the general requirements of the university for post baccalaureate admission and the program requirements in order to be admitted to the university and classified as a credential candidate. In preparation for admission to the basic credential program, applicants must review the Special Education Credential Program Admission Booklet which can be downloaded from the Special Education Program web pages on the CSUSB website at: CSU Special Education Programs website (http://www.csusb.edu/coe/programs/special_ed/) and attend a mandatory Information Session scheduled through Teacher Education in the College of Education Student Services at either the San Bernardino or Palm Desert campus. At this session, applicants will receive instructions for completing their application to CalState Apply. Applicants must submit to the Admissions staff in the College of Education Student Services according to the deadlines published for the semester of admission. Admission to the program is based on the following requirements included in the Cal State Apply application:

1. Completion of an application form;
2. Original verification of meeting the basic skills requirement by one of the following methods:
 - a. Pass the California Basic Educational Skills Test (CBEST);
 - b. Pass the California Subject Examinations for Teachers (CSET) Multiple Subjects Plus Writing Skills examination;
 - c. Pass the CSU Early Assessment Program or the CSU Placement Examination;
 - d. Achieve qualifying score on the SAT or ACT;
 - e. College Board Advanced Placement (AP) Examinations;
 - f. Pass basic skills examination from another state;
 - g. Meet the basic skills requirement by coursework;
 - h. Meet the basic skills requirement by coursework and exam.
3. Original verification of subject matter knowledge by one of the following:
 - a. passage of CSET examination(s) as appropriate for the multiple subject credential, or for the single subject credential in the areas of art, English, foreign language, mathematics including foundational-level mathematics, music, social science, or science including foundational-level general science and specialized science; or
 - b. by completion of a subject matter program as appropriate for the multiple subject credential, or for the single subject credential in

the areas of art, English, foreign language, mathematics including foundational-level mathematics, music, social science, or science including foundational-level general science and specialized science;

- c. verification of holding a valid California clear, professional clear, preliminary, Level I, or life teaching credential requiring a baccalaureate or higher degree, verification of subject-matter competence, and a program of professional preparation, including student teaching.
4. All applicants are required to enter two names and emails addresses of persons who can address scholastic performance and suitability for teaching (recommendations are required to be submitted by the program deadline date, letters of recommendation will not be accepted);
