GE Minor: Environmental Sustainability

## GE Minor: Environmental Sustainability

The Environmental Sustainability GE minor provides holistic perspectives on environmental issues by exploring relationships between society and nature through interdisciplinary connections of natural science, social science, humanities, and business. Choose courses from this GE minor to broaden your awareness of the environment and human interactions with ecosystems, learn different viewpoints about what the concept of "sustainability" means, and meet the challenges of promoting sustainability in the local community and at a global scale.

## Requirements for a GE Minor in Environmental Sustainability (18 units)

In order to complete this GE Minor, students must take 18 units (six courses), by choosing one course from six of the categories below:

- at least two must be upper-division courses
- at least one must be a Writing Intensive course

Students should take care to choose classes from a variety of departments and disciplinary perspectives.

## Category E -- Foundation Seminar

**BIOL 3010** 

**CHEM 3100** 

**GEOL 3020** 

**GEOL 3040** 

MATH 3140
